PREFACE

The FN ENCYCLOPEDIA includes over 2200 FN articles originally published during 1977-82, including comments made by Dad & Maria pertaining to different situations. Top articles from all FNs up to & including BOTM 2 (FN 52) have been reprinted in the FN ENCYCLOPEDIA.* In order to quickly & economically produce such a valuable large volume which includes so much material, it was necessary to reduce the original photo quality & size of text, which should, however, be sufficient for reference purposes.

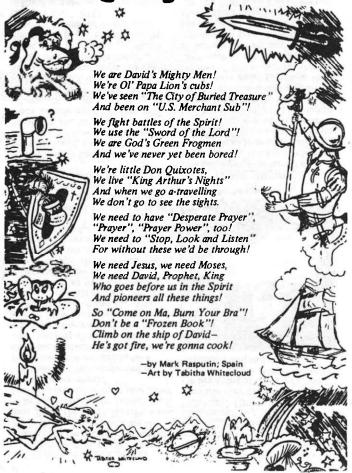

A complete index to the FN ENCYCLOPEDIA may be found in the FINDEX section of the PUBDEX. In order to take full advantage of the material published in the FN ENCYCLOPEDIA, you must use it along with the FINDEX, as all articles in the FN ENCYCLOPEDIA are systematically categorised both by subject & by author in the FINDEX listing.

Have you ever wanted to read up on the RNR, or the FF Explosion in Tenerife? Or have you unsuccessfully tried to find a certain FN article, or just simply not had all the Mags needed to research a particular subject? Now with the FN ENCYCLOPEDIA & FINDEX, you can now do all this & more!

We pray this will be a helpful tool so that you can benefit from the high-quality material that the Family has written over the years.

Tenerife Report

"OPEN THE DOOR FOR THE
CHILDREN!"
The second week of our "Open
the Door for the Children" Bible
School went really really well! Sixteen children came this week, all
the ones from last week, plus several
older children from the village. older children from the village. First the children went swimming, then Juan gave a <u>Bible story</u> on <u>flannelgraph</u>. Afterwards he asked who could give the correct answer first (to review the story and test to see who had learned it), and the first child to give the correct answer get to come up and put the swer got to come up and put the appropriate story pieces on the flannelgraph. Then they practised a little theater and acted out the Bible story.

At the end of the meeting, when they were all learning to sing "You Gotta Be a Baby", the parents heard the music and came down to our

house and were looking through the house and were looking through the car gate trying to see what was going on. Some of the brothers went over to open the gate and invite them in. The parents were so embarrassed! So, Juan told the children to invite their parents next week for a special presentation by the children, and we'll serve them snacks and show them a Bible flannelgraph too! flannelgraph too!

flannelgraph too!

The children just love the flannel-graphs, and they seem to absorb the Bible lessons so well and really compete with each other to give the answer first on the question-and-answer part. And the theater part really drives the whole story and lesson home. It is such a <u>rewarding</u> way to <u>witness</u> to <u>children</u>! They way to witness to children! They are so receptive! Last week 11, this week 16, whew! It looks like we're gonna have our hands real full, real soon! Praise the Lord!

"THE CHURCH OF LOVE!"
Our introduction of the "Church of Love" to the local people according to Dad's counsel was a big hit, too! Praise the Lord! It really seems to be what some of our friends need. God is so faithful to open new doors

to reach more people!

We had the little service out on the terrace, like we used to have those big meetings. Thirteen visit-ors came, plus all the Family, so it was quite a big meeting! One of our women friends came with her two daughters, aged 16 and 11. Also Rachel's Jewish friend and another friend whom we have known for a long time—a tennis pro in Puerto— plus three new friends we had met during the week, plus the three Tacorronte boys whom we hadn't seen in ages. and also a friend of ours Teri from Santa Cruz who has offered the use of her apartment to house our litnessing and catacombers colony there. She brought a hers whom she led to the Lord! PTL!

They read "I Gotta Split", which everyone loved, and it gave them the vision for how important the Words are, and how we need to study to show ourselves approved. Afterwards, we put an <u>offering</u> plate on the table and people made small <u>donations</u>. Juan didn't say how much was put in the plate, but he said that afterwards Rachel's friend came to him and said that he didn't want to put anything in the plate but he handed 2,000 pesetas (\$24) to Juan! PTL!

This is a really wonderful way to witness to many of our friends who are still weak and need to go to a

'church" to feel like they've worshipped. And it pays off in eternal rewards too—two souls and one Holy Spirit last Saturday! That's the greatest "pay" in the world! Hallelujah! (Oh, I almost forgot— Juan said they did a heavy skit at the beginning of the service, too, which the people really liked and responded well to.)

CAFE SINGING!

Ricardo got us all turned on to the idea of singing at a few of the clubs and cafeterias in another town. He had already pre-arranged everything with one cafeteria which is where a lot of the "better" folks in town go in the early evening. So we prayed about it and counselled together, and we were really turned on about the idea of this conservative old

town wanting the Family to come do something there too!

Since then things have really exploded! PTL! This past week, Sofia, Monty and a close friend of ours who is a professional musician out of work right now and is living with us, sang at two clubs there and at

one club in Puerto Ricardo has arranged all of this music explosion through friends of his who own these clubs and are interested in drawing clients to their bars by using the Family of Love, but, praise the Lord, it gets the Message

One is a club for radical young the top people of the town during the week when they usually don't come all the way to Puerto but just go out for a little bit. At this one club the owner donated 2,000 ptas. plus put a free bottle of whiskey on our table, so that if a small group of the Family goes to witness during the singing, they get free drinks, and also we have drinks to offer our guests and friends who show up. The owner wants them to come at least two nights a week, depending on how often they want to go.

In Puerto they played at an
English pub filled mostly with tourists. They said it went real well
there, too, and that the owner were open whenever they wanted

We are really excited at the possibilities of this means of witnessing For so long we have wanted to find a nice club where the music has a good spirit and is not too loud, so we can sit and just talk with our

friends and fish and really reach their hearts, and now the Lord is giving us just what we wanted!-And we even get to choose the music and the volume level! PTL! We sic and the volume level! PTL! We are excitedly awaiting the fruit these singing engagements will bear, and we are sending along small witnessing teams with them, to minister to the people there. The singers also take turns—they don't all play together all the time—so they are able to do some witnessing also which to do some witnessing also, which is a blessing for both them and the

PROVISIONING MIRACLES! During a united meeting of all the brethren on the Island, we decided to try to purchase all our fruit and vegetables and meat through a large market in a neighbouring town prices are so much cheaper and the oods are so much fresher.

So Celia and Lee went to the market at 6 a.m. one morning, and they ended up provisioning all the gro-ceries for the entire week for all three houses! PTL!! And they made a permanent meat contact who said that he would give them what-ever meat and fish they needed each week! Lord bless them for their faith! Isn't that wonderful? And what a testimony to all of the way the Lord provides for His chil-

> THOUGHTS AND **EXPERIENCES** IN FF'ING GIRLS!

ear MO, I just want to tell you that your sacrifices in the FF Revolution are to me beyond words, and I love and appreciate you so much for them and you are the mightiest warrior for the Lord I've warner for the Left I ve ever seen in all His-story. My two favorite Letters of yours are "Mothers of God" and "Afflictions" and also "God's Only Law Is Love". They are so beautiful it's incredible!

Something I have found out in winning girls and wo

men to the Family: It entails all the same sacrifices like the girls have with the men, because compared to some brief pleasure that you might receive in wooing them physically, the hours of going through spiritual battles and feeding your baby and prayer for them and giving them all your mind, heart and soul constantto help to pull them through and then you know only the Lord can do it, then turning them over to someone else when most of the battle is over, really outweighs any illusion that it's only fun and games for the men! And I know that you

know more than anyone else, with your experiences with Ruth, "The our experiences with Ruth, Dancer and probably many more.

The Lord gave me the first Portuguese disciple in Portugal—a 29-yearold girl. Her first week in the Family I was asked to help her and counsel her, and from time to time she needed physical reassurance, so I'd engage in fairly heavy "petting" with her until she was reassured. After a short time in the Family she got married to a boy whom the Lord gave me as a disciple also. But what I'm really trying to get

at is this:

I believe, just my personal opinion. that FF'ing for guys to win women has been very underestimated. Although sometimes it's a little more work than a woman offering herself to a man, it has great potential from what I've seen through personal ex-perience.—Especially if over half of a country's leadership in their society arts; politics, etc. are women-like

in Russia and America.

From what I saw in India, practically all their leadership potential coming up in their colleges is wo-men! It's mostly women who organise all their programs, keep them moving from behind the scenes, do all the PR, and minister very aptly afterward to all the guests of their programs.—Really bright young women who need a lot of love and new radical ideas shown to them before they ever trust you.—And so beautiful, it's astonishing some-

With women taking the leadership

role more nowadays, I've also found them to be taking the role of going openly or boldly after the man, and that makes us fair game. But it does call for the right frame of mind and plan of attack to have a Revolution in this area, along with the woman's side, and so it'll have to pioneered to be tried and proven. But I see incredible potential from relating to and seeing women and their roles and desires and needs in the temporal and spiritual world of today the last days.

Wheel a big identity search and really need a lot of understanding and love. What's happening in the Arab countries is a topic all in itself because there are women who have tasted some freedom, but what a horrible inhumane prison they are surrounded by! God will have to perform a mighty miracle for those poor girls who want to get free from that hell. And I know He will somehow!

—David Psalms.

A WORD FROM DAD ON FISHING FOR GIRLS!

Male fish can be satisfied with a mere nibble or a bite. Whereas the female fish want the fisherman, the tackle, the trap, and the whole darn lot easier to fish for male fish than for female fish. Which makes it a little more difficult to catch females than males!

But don't give up! Promise her everything and give her whatever she needs, and she'll remain one of your loyal faithful devotees forever!

So if it is stick-tuitive quality you want, "fruit that remains" (Jn.15:

16), go after the females! Although we have twice as many males in the Family, we've found the females stick around longer, believe it or not! So they're worth promising every-thing to to catch 'em!

thing to to catch 'em!

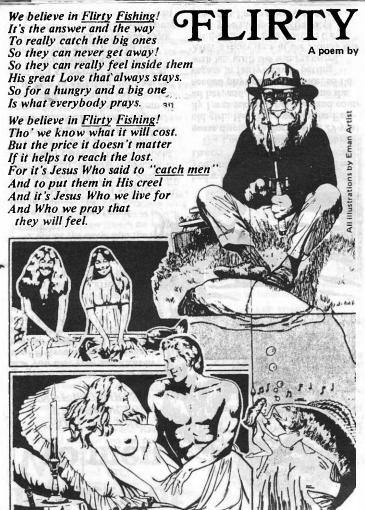

So go after those gals, buys.

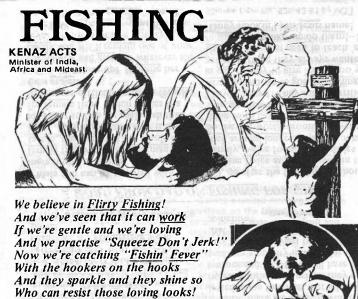

They're great! They make terrific wives!—And we've'got everything in our Family to give 'em! You've got everything they always wanted!

Use it!—You just need to teach 'em to share a bit, like we do them!—Ha!

Hanny hook in'!—In Jesus pare! Happy hookin'!--In Jesus name!

(Quotes from No. 529:43-51 by MO.)

First we catch 'em, then we clean 'em And we show 'em so much love And we teach 'em where to get it And how to start to look above. We draw faith from ol' King Arthur As we study up his story In those shocking words of David That keep giving God the glory!

We believe in Flirty Fishing!
It's the Age of Pisces here
For with lit bags and sermons only
We can't even get so near
As to let them see a sample
Before they kick us out the gate!
So we must faithfully plant those
love seeds

And with faith and patience wait!

FFers Drinking Tips!

Alcoholic drink, above all, grape-based drink, loosens the puritanical grip that, lamentably, the body in most cases has on the spirit. This very vital release is rendered all the more difficult by the spirit's anxiety to be freed, which tends to drive one to excesses in alcoholic intake. Even the rare person who views drinking from this perspective and strives to limit his consumption to the level which will achieve the desired effect, will occasionally overestimate his need and end in staggers and slurs. God bless him and keep him in a jovial mood and able to finish off what he started!

Certainly grape derivates such as wine, sherry and port are the most advisable for two important reasons.

Chiefly, as beverages produced in a normal course by nature itself, wine, as well as naturally made sherrys and ports, are totally compatible with man's physical makeup, with his ordinary functions and his metabolism. Secondly, their effect on the body's functions and its psychological/spiritual interplay is gradual, thus allowing one a broader margin of control. In some European countries there is even a third attraction: they are cheaper than the less advisable distilled drinks.

A pleasant drinking sequence to follow, and one which incidentally will not soon become old hat is to start the evening with dry, chilled sherry or an amontillado (mediumdry), preferably accompanied by a generous amount of pitted olives, regular wine with the ensuing meal, and either sweet, so-called cream sherry or port after dinner.

Cognac or brandy, another grape derivative, falls short in that it is the result of distillation, a forced, firebased, man-propelled process designed originally to utilize wine too inferior to drink by itself.—Just like overcooking meat one considers unfit or unsafe to eat lightly cooked.

The same could be said for all other "distilled spirits" or "hard liquor", as they are more commonly known. They're hard on your system, your digestive system in particular, because the body has to make some dramatic and swift readjustments when its vital parts (stomach, liver, kidneys, arteries) are literally attacked by a foreign, chemical substance (alcohol) of very high caloric content and unsettling effect. Therefore, these beverages should be consumed prayerfully, slowly, diluted when possible and in sober moderation.

As in everything else, some are better than others. Rum, for example, is simply lethal, for it is little more than alcoholic sugar. Imagine! The whiskys (Bourbon, Scotch & Irish) are less dangerous as they are grain-based (barley, oats, hops, corn, etc.); gin comes from certain herbs and vodka traditionally from potatoes. But in each category there are inferior products, so it would be wise to ask for the best. An example: Most vodka made in the United States, or in Europe under license from American companies, is simply fake and, I think, harmful. Whereas Finnish or

Russian works are the They are obtainable, most places, at reasonable prices. And for God's sake, and your sake:

If you must drink hard liquor, don't mix it with Coke and all that poison! Can you imagine what a rum and cola is doing to your body? Alcoholic sugar and carbonated sugar, that's all that is! Boy, what a con job those pre-Castro Cubans and the Atlanta bottled poison people pulled on all of us for so long! They even made songs about it! Unbelievable!

If you wonder why I'm trying to sound as if I know something about this, well, not only did I drink a bit for many years before joining the Family, with plenty of opportunities to compare the effect on my body of different drinks and quantities and combinations (and hangovers), but also I grew up intimately associated with the wine and spirits industry, learning about its production and its ingredients and finally being an executive in one of its leading firms for some years.

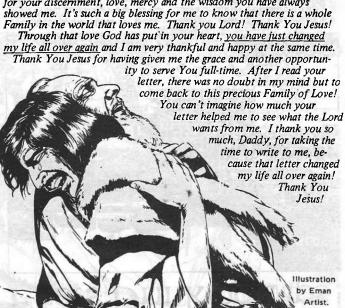

Personally, I stay away from hard liquor, except for an occasional glass of very cold, almost frozen vodka. And I very much enjoy wine. In Southern Europe we are fortunate in having plenty of good wine at reasonable prices. (The only other similar areas are North America and Chile and Argentina.) In other parts of the world a good and healthy drinks balance may be more difficult to strike. But, better safe than sorry, and when you take into account that we have to be evermindful of the sample we give others when we go out, better healthy and sober! PTL!—Amer!—

Hallelujah!-MIGUEL'S REPLY TO DAD'S PERSONAL PRODIGAL LETTER TO HIM! SON RETURNS !!!

19-12-77

Dear Dad and Maria,

God bless you in Jesus' precious Name. I thank you so much for the wonderful love God has put in your heart. I really love you, Daddy, because the examples of your love are just beautiful and full of God's Love and mercy. This is why your love is so irresistible. I thank God so much for your discernment, love, mercy and the wisdom you have always

Before I opened your letter, I opened another letter which was from the little children-Mik, Joseph, Didi and Maeve. They wrote a little Christmas card just telling me how much they loved me, that just broke my heart, and

card just telling me how much they loved me, that just broke my hearl, and then I opened yours, and that was the ending of my long battle which resulted with a big victory for me. Thank God!

I love you, Daddy, and I will join the Family next month in Madrid, because I have a contract at the University as an English teacher and I just resigned it. So now I have to wait until the middle of January because I have to give them at least twenty-five days in order for them to find another one. Thank You Lord! I am so happy and free from the bondage I was tied to.

Everybody here has really helped me so much. Yesterday morning I went litnessing with Giorgio and what a victory the Lord gave me! Thank You Lord! The Lord is really breaking me and I am very glad about it. I am also working with the catacombs in Santa Cruz and I really love it. I have talked to some of the old catacombers and some of them are

So, Dad, as you can see, everything is so heavy for me, it is just beautiful and full of God's Spirit. Thank You Lord!

Wish you a Merry Christmas and a Happy New Year and thank you so much for your beautiful present (the Spanish Quotebook). I really loved it and I am putting it to work! God bless you!

Publications Suggestions

by GIBEA FIRSTFRUIT

WITH COMMENTS BY DAD!

Sevilla, Spain Dear Carlos & Brethren in Pubs,

God bless you and keep you close to Him! First and foremost I want to say on behalf of all the brothers and sisters in Southern Spain, thank you! Thanks so much for

your hard work, love and personal sacrifices you put into making Spanish Publications the best in the world!

From travelling the colonies here in the South and speaking with all of the kids I can honestly say that much of the progress that has been made here in the last two months has been a direct result of the new and inspired literature the colonies have been receiving. The new lit with its vastly improved quality has given the kids new faith and inspiration to get out God's "Wonder Working Words". Because of its quality, the kids have received double or more the price per piece received, causing a much needed increase of finances for all. Because of this, all the colonies and disciples have been able to raise the standard so that almost every colony in the South is now able to look for better and much needed housing. and all the disciples' personal needs can be met. This has especially been a blessing to the families with children. In short, we are now able to move forward faster than ever

before, and what looked like mountains yesterday are little more than hills today! Hallelujah!
Several of the kids had some good suggestions and ideas I thought worthwhile to share with you for your consideration.

1. One was that you continue to send out literature for the colonies on a regular basis, such as the beginning or end of the month. However, some of the colonies report that they have enough to keep them busy for a while, so perhaps we could re-gulate the flow a little better. One

way of doing this would be:
2. With each shipment of lit send a questionnaire to be filled out and returned by the local colony council with their comments and suggestions including a possible choice of suggested lit to be printed for the next time and stating how much they would like to receive.

3. A new NNN at least every quarter as suggested in "NNN Attack". The latest one we are getting out now is great! Truly one of the best we have ever distributed anywhere! The cover is a real eye catcher for both men and women. Perhaps we could take a tip from "Interviu" and other popular mags and keep a pretty girl or girls on the cover and save the family shots

4. Send the packages of lit to the colonies in <u>smaller boxes</u>. The large ones almost always break open when even slightly dropped or during the shipping, resulting in lost lit. They are also too heavy in the large boxes, and in some colonies they have to carry them up 4 to 5 flights of stairs. We have had some people really hurt their backs as a result and many taxis refuse to take them

because they are too big.

5. Consider ordering some products from Wild Wind in bulk for distribution here. Many kids have asked about the "God's Only Law Is Love" button. Personally, I think that welcomes are to take their leaf of the beautiful production. Is Love" button. Personally, I think that unless we could get some stamped in Spanish that they might be a white elephant.

(DAD: Order from the Pacific KQC in Spanish.)

6. Order some German, English, French language NNNs from other

pub centers for the many, many tourists that are in Spain all year round. The little English "Lost Horizon Found" and the German "Sightseers" don't really make it.
7. Perhans meet impactable.

Perhaps most important is giving 7. Perhaps most important is giving the kids a choice in the Letters to be printed. Virtually every colony I have visited has asked, "When are we going to get out a political MO Letter?" This is how it has been explained to me by people who have been in Spain for years: For years we were underground, distributing only milky lit. Then with the exonly milky lit. Then with the ex-plosion in Tenerife and the Family of Love most of our lit has been explaining our way of life and religious beliefs. These Letters are great! They are Gcd's answers to a lovestarved nation, and the results have

been fantastic!
However, it seems that now the big thing in Spain is politics. It is hard to find young people who aren't involved with it in some way or another, mostly leaning to the Left. It seems many young people have the impression that we are rightist. I believe they get this impression from some of our former lit, such as "202 Lies" (with its "Viva Espana"!) and "Real Mothers" with its apparent Catholic slott. with its apparent Catholic slant and our former close associations with them when we were first getting started.

I can honestly say that most of our lit is now reaching middle-aged adults or kids in their mid-twenties, and only about 20-30% to the 18-22-year-olds. This younger age group has always been the core of our recruiting of new disciples. We're just not reaching as many of

them, and as a result, we haven't gotten very many new full-time disciples! At least I believe this could be one factor for our low number

of gains.

There is alot of talk about the age of majority being lowered to 18 very soon, if that happens, and it appears it will, the next election will most likely swing further to the Left. I believe the time to start influencing the youth of Spain as to our views on the world should begin now! (DAD: A good letter with some good ideas! God bless him for his love and concern for the youth.
But on this point I have this to say: In the first place, the old guard is still in power, still on the throne in Spain, and anything too radical is apt to offend them and get you on the wrong foot with the powers that be. At the risk of losing friends on the <u>bottom</u>, we're gaining friends on the <u>top</u> right now who in this ticklish situation are going to be a lot more help than a bunch of little radicals going around the streets chanting revolution.

Many of our kids, sad to say, still have got an old bottle mentality as far as disciples are concerned. They don't realise that these powerful don't realise that these powerful people we're winning at the top are also disciples, but who are not going to drop out, that they're disciples in powerful places, that the disciples we're now winning are much like the rich Joseph of Arimathaea and powerful Gamaliel and influential Nicodemus, secret disciples who can't drop out but can sure drop in. Some of our kids are still back in the Youth Revolution of the 60's that fell flat on its face. We're the

only thing good that came out of that Revolution, good and lasting. After all the Letters on FF'ing, un-less they do FF'ing they don't appreciate or know anything about the friends we're winning now be-cause they don't see them on the stats. Our kids tend to think our live-in disciples are the only important ones, but they have no idea of the influential men we're winning now-presidents and premiers who are influencing the course of history
unless they have been directly involved in FF'ing and seeing the

fruit.)
8. Finally, the colonies thought that having <u>posters</u> of the cover of the MO Letter we are pushing that particular month (it seems there is usually one haparticular each month) could be sent out with each ship-ment of literature, such as 100-150 posters, or more, done on cheap newsprint of "<u>Richman Poorman</u>" accompanying the Letter, to arouse the interest of the people in the streets. Posters are a relatively new streets. Fosters are a relatively new thing here in Spain, and everyone stops to read the newest. "The peo-ple seek a new thing." It would also help them to realise that we have new publications regularly, as some seem to think it is always the same

(DAD: You can provision space on the sides of people's buildings or rent it for a smull fee. Just be sure you don't put them up in illegal or unauthorised places. It's a simple thing to make posters. You just blow up and make a plate for the size of the press that is going to print them, as big as they can afford to make it, right off the same neg of

the cover.)
Well, I didn't realise this was going to be so long, but that about covers it all. Again, we all want to say thank you, we love you all so much, and keep you in our prayers.

Love in Jesus, because of David, Gibea Firstfruit.

COMMENTS FROM CARLOS

The fruit of the new lit is really impressive! Not only has it strengthened the faith of many—as we saw in the letter we received from Sevilla, but it has brought hundreds to our doors here in Madrid—honestly, sincerely and hungrily looking for the Love which is so clearly communicated in the Letters.—Professionals, military officers, sales executives, in short, the best-rewarded pawns of the System knocking on our doors-almost knocking down our doors-in hopes of getting a sample of the message!

Shortly after sharing with this team here, I received the copy of "Prodigal Son", whose content as in many other Letters, transcends the title and saves an important truth from being overlooked, in this case the pivotal position of <u>litnessing</u>, the essential, central backbone aspect of simply letting others have the key, the tool, the Words, which brought us to our liberating service to the Lord, to His liberating Spirit!

RED HOT REPORTS!

France, Germany and Scandinavia!—From disciples now FF'ing in Tenerife!-Written at Dad's request! PUBLISHED IN <u>FULL!</u> –<u>NOTHING REMOVED!</u>

SOUTHERN FRANCE

Dear Dad and Maria,
God bless you so much and keep
you well always. We both came
from Southern France where we
lived for one year and three months,
before coming directly to Tenerife
on June 19, 1977. We spent three
years in Northern France before
that meinly in Publications and that, mainly in Publications and that, mainly in Publications and P.R. and various leadership positions until we moved to oversee Southern France as Bishops, and then in the last months, as AB's. In the first six months in southern France, we mainly stayed in Marseille, but then, as our overseers moved to Italy, we began to spend all of our time on the road, traveling from colony to colony, and in the last four or five months, before coming here, we started an FF'ing colony in Nice-Monte Carlo. We were Bishops under James and Charity, and then AB's under Hosanna and Rose.
To come here (to Tenerife) was

quite a shock for us, first and most of all, because we felt so unworthy of the calling and were so impressed about coming to the very house of the King. Also, it was a real change from the work we used to do before and also in the spiritual atmosphere and the general practice of the

Letters. We found here, people that actually put the Letters into practice—<u>all</u> of the Letters—and it was like the accomplishment of everyone's dream in the colonies, which is to actually touch this freedom that we can feel in the Letters.

One thing we can say about our former area, is that the leadership over us was really trying to follow the Letters, and live them, but nothing equals the sample we have seen here; so God has had to break quite a few images and misconcep-tions in our heads and hearts and teach us some real lessons since we came here, and we're still learning! We would say that the two greatest differences are in the spiritual atmosphere and of course in the way FF'ing is put into practice.

Spiritual Atmosphere: Being our-selves in a position of leadership and trying to follow the Letters the best we knew how, we were really surprised in coming to Tenerife by the much more relaxed and free spirit, operating by love, a greater freedom in the individual choice, but at the same time a greater unity through more counselling, because people were taught by a sample to follow the truth of the Letters.

The colonies where we were are

not unhappy, but they greatly lack in faith to claim their liberty, which results in many cases in some spiri-tual bondage. The kids do want to follow the Letters—we did, and our leadership did too, but there exists throughout the chain of cooperation a general lack of faith, which freezes the application of the free-

dom of the Letters. For example,

Brothers and sisters in need of sex

are not being helped out, or if so,
rarely, because of a fear of wild-fire.

We had been FF'ing for a few months
before coming here, but did not
know that the husband and wife, to
avoid FF blues, could be helped out
and sad to say on the other hand and sad to say, on the other hand, there were brothers and sisters in great need right there living with us.

Living Conditions: The living conditions here are superior to the average colony in southern France. But we would say, though, that it is not so much in higher standards that is lacking, but rather in a homey atmosphere. We feel that there was much possibility of nicer decorations if people only knew how and what to do with the things that they already have. Instead, people would just accept to live in an army barracks type of housing, and sad to say, each and every one of the colonies

looked very much the same.
With the "FF'ing Revolution the standard had been rising a lot, especially in the colonies that were starting to do some FF'ing. We our-selves pioneered an FF'ing colony selves pioneered an FF ing colony in Nice-Monte Carlo and got an apartment right in the center of town which we turned into a real beautiful place just through provisioning and litnessing. God really

did miracle after miracle, and this gave us the faith to uplift the stan-dards of all the colonies in our area. dards of all the colonies in our area. We had been to Poggiosecco and Rome and we returned so enthusiastic about the sample we saw there! And so, we attacked in that area, claiming God's promises, and saw how everywhere God was ready to supply the needs. We encouraged more provisioning in the colonies and tried to uplift the standard of faith as well. But there again, since the emphasis is not on FF'ing in most of the colonies, people don't most of the colonies, people don't have the vision of having their house

be a very nice sample.

Lit Distribution: When we left, the main emphasis was still the lit distribution, though slowly, more and more, we started to get into FF'ing. The lit quota was 2,400 pieces a month for a full-time litnesser, 1,800 for a mother, and 1,500 for traveling shepherds. There was still quite a bit of pressure on the productivity of the colony. In other words, the emphasis is more on the "stats" instead of building somethe stats instead of building softe-thing or influencing people's lives. Sad to say, this distortion would often times come from the overseers who want their area to look the best and therefore whip the horse into winning the race.

It seemed to us that the colonies were becoming a dead and futureless end if the goal was only to " out the lit", and therefore we would say that a lot of the shepherds' troubles and married couple's prob-lems came from this lack of a deeper vision which covers all the areas

of our witness. For example—
We were very impressed by how

much time we invest in only one person's life here, with so much hope and faith that it would change or at least influence his life. We often times felt that in the colonies we still witness till the person is led to the Lord, and boom, it's all over unless he joins the Family. But hopefully, this attitude should be in the process of changing, especially with the new Letters such as "The Church of Love" and "Open the Door for the Children", which emphasise Christian fellowship.

Leadership: We felt a great difference when we moved from Northern France to Southern France in Marchael Marchael

the leadership method Northern the leadership method. Northern France still had the influence of the "image leader" with one person having most of the say and doing most of the work. But when we got to Southern France, we felt more the influence of Rachel and people who had been working close to her. The spirit was much freer and the overseers were simple faithful little overseers were simple, faithful little people. We worked under <u>Shem</u> and Shelah in Southern France, and then James and Charity, and before we left, with <u>Hosanna and Rose</u>, and we learned some beautiful lessons of faith, love for the sheep, and humility from them. All of them encouraged us to follow the Letters, to start FF'ing, and also to inspire the colonies to do the same. They were very concerned about the way we visit colonies when we travel, that the kids were happy, and that all their needs were met.

But still the Chain of Cooperera-

tion has a lot of weight and the kids remain quite "title-minded". God had to break this image of leadership when we got here and we found i much greater freedom and unity in the anointing of the shepherds. We also noticed in coming here that the center of life is not so much the administration but much more the witnessing. Rachel, in spite of all her administrative responsibility, was always talking about her fish, and the needs of the sheep. Still, in a the leaders, the witnessing for the leaders goes after the administration. We were very surprised to hear how you, Dad and Maria, used 3 to go every day to Cafe de Paris, and also at night sharing with all these men in Capricios, on whom you had such an impact.

Following the Letters: Most of the people in our area really wanted to get into FF'ing, especially the girls!!
Our overseers were inspiring us about starting FF'ing and we had been invited to Poggiosecco in Italy to see how they operated. We our selves should have helped out more men than we did in our beginnings. We started very slow, maybe too slow, as we expected the fish to al-ready be in the boat before we gave him a bite! Plus, we were very afraid of hurting each other, the

fact that we did not know how to avoid FF blues.

One thing we can both boldly mention is that since we are here, we have discovered the happiness of sharing one another for the sake of others, and it has brought us so much closer to each other as well as to the rest of the Family. We are now more in love, with more freedom and understanding than we have ever been, with a greater appreciation of the blessing of having a special lover to share joys and sorrows with. Also, until we came here, though we had done a lot of marriage counselling, we never fully understood the "<u>Law of Love</u>", or let's say, never fully applied it. Couples in the colonies is still something private, behind a closed door, and we have discovered the joy of opening the door to others and without the Family to share with them the love we have received. It has been such a blessing to be able to see the sample and the fruit to help us understand how to apply the Letters.

In conclusion, we feel so privileged to have been able to come here to this very special place, because though many are trying in many places, you can feel "that a prophet has been here" and it helped us to see things so much clearer, working and living with the people you were living with, and that have been trained by the King himself. We hope this little report helps

you to understand what is happening this particular area we were inthough we are sure things have been progressing a lot in the last six months we have now been gone!

We want to thank you again for all your love and concern for all of us, and for the wonderful sample of simplicity, freedom, and real love you have left here. We pray for your soon return and that God will work everything out for you to come back in His perfect time. Everyone here misses you! We love and need you so much!

Love, Paul & Marianne.

GERMANY

Dear Ones.

Thank you so much for your love and concern for each one of us here, and in the whole world. We all are so happy and want to do all we can to help. I personally thank the Lord continually for the blessing of being here (in Tenerife) and in this ministry.

My time in Germany and Switzerland (the Germanic Ministry) was largely a training time for me as you know, to learn many lessons and have experiences which I had missed. I was almost the whole two years as a regular colony member, living in different field colonies, on the road for three months, then in the Stuttgart colony briefly, then the <u>Stuttgart</u> colony briefly, then in <u>Cologne</u> for six months where I did full-time litnessing, then to <u>Zurich</u> where the AB's (Gallio and Taberah) lived, working on the disco, mail ministry, secretarial work, provisioning and litnessing, then back to full-time litnessing in Frankfurt for three months, then Frankfurt for three months, then in Cologne for provisioning and lit-nessing for six months, then in Hamburg for full-time provisioning until I got a phone call about com-

The Lord was working in my life all the time to teach me so many things, so I think some things happened to me as lessons from Him, not necessarily because they are the usual thing to happen.

Spiritual Atmosphere: In almos all of the colonies I was in, all the kids were really happy and having a real good time serving the Lord, especially when doing a lot of witnessing to visitors coming and having parties or disco, or going out to clubs. One colony, Cologne, the first time I was in it, in 75-76, was a little dry and lonely but I think it was because we had so few visitors or activities outside of litnes ing. (I was also real lonely for John during this time.) We had three world litnessing shiners in the colony and so we had a lot of excitement distributing, and I learned to litness with them. We also went to a lot of schools to sing and distribute, but I think we lacked the happiness that comes from deeply feeding other people. Another thing the kids all really like, aside own parties, is faith trips, which we had in most of the colonies I was in. It is a chance to try your own faith, and spend more hours witnessing to the people you meet if you want the people you meet if you want to, and most everyone loves this, even though it is physically hard sometimes.

The colonies that had the best spiritual atmosphere were where the shepherds cared personally for person and their needs (physical and spiritual) right there in the colony. Sometimes the overseers, living in the colony, would be more

concerned about the other colonies they were responsible for. When I was with Gallio and Taberah in their colony, they took each person in the colony into their "family" an and it was a real atmosphere of love and at was a real atmosphere or love and understanding, where you felt you could find counsel and understanding for your problems, as well as a lot of daily inspiration at meals and otherwise, with lots of disciples joining and lots happening.

When you compare these colonies with the ones here, there is much more love and honesty here. I feel that the work in Germany was a lot more by the "rules" and that this discouraged real sharing of hearts sometimes. Looking at the lit stats a lot of times kept a personal sharing to a minimum. Until I came here, I was almost always very lonely for companionship, but also this was God's dealings in my life and not my shepherd's fault. I think what lacked at times was the shepherds learning to be mothers and fathers, knowing the heart of each of their family, instead of just wanting to inspire the kids to produce more on the stats. I think the Davidito letters, with the intimate insight your house and staff, will really help with this.

Living Conditions: In the colonies, house or apartment itself was good in every one I lived in (with the exception of Norderstedt litnessing colony in Hamburg, which I hear we no longer have). They were as nice as the houses here. But the furnishings were old and not up to par with the houses themselves. In one colony I was in with Bishops Levi and Senaah in Frankfurt, we

provisioned furnishings and the Lord gave us beautiful carpet, paint, even rollers and brushes, all completely free. But the installation and upkeep usually takes a lot of time, and we did not usually take very much we did not usually take very much time working on the upkeep of the houses, putting time into this, although to do this work while someone sings or reads a letter could be a valuable inspiration and provide a facelift to the colonies. Also some people are more gifted in decorating than others. Hebron, of Hebron and Tirzah, is very gifted in this and made the Zurich disco into a Swiss chalet. (Maybe people like him could travel and redocrate colonies!)

Bremen in north Germany was also beautiful, because of the way Barak and Katrina decorated it, living there one year and doing a little each week. Cologne, for example, is a 3-bedroom apartment with facilities almost as nice as the apt. here, but with furnishings that are old and tattered. But with a little provisioning and work, it could be beautiful.

The <u>food</u> in Germany was always nourishing and we never lacked having enough to eat. Here, table manners and etiquette are stressed more, thank the Lord, and the presentation of the food is better, but the Lord always gave us plenty to eat. Here again we all need to learn to do more with what the Lord gives

Lit Distribution: The first nine months I was in Germany, this was a big push, from August '75 to May '76. You get very high donations in Germany, and even double in Switzerland. In Germany, it's guite cold and I had to come in quite cold and I had to come in

every hour for ten minutes or so to warm up. I really enjoyed the lit-nessing (and still do!). Almost everyone I knew was really happy litnessing, once they learned a few sentences of the language and could communicate a bit.

The only thing that really bothered me about it was when you had to neglect friends and contacts who ere asking to see you, in order go on a litnessing push, not for the stats, but in order to have money to pay bills. I felt it was necessary feed the provisioning contacts and not just get their help, but the leader I was with at the time was looking at the bills and did not have a vision for this, and had me break appointments to go litnessing, which I did not agree with. However, I was not in a leadership position and so I did not know the overall picture. But I felt they depended too much on litnessing for finances, neglecting other means of support which could also feed people at the same time.

Leadership: As in the situation mentioned above, some of the younger leaders were not too used younger leaders were not too deed to listening to suggestions from the ranks. Maybe because I was a "demoted leader", people sometimes were not sure if they should listen to my counsel. Also, I was really learning to take a humble seat and make suggestions in the right spirit,

In the situation I mentioned above, a lot of the problem was my own failure to present the situation in the right spirit, and when I wrote Barak and Shem, the situation I was personally involved in was worked out.

Here in Tenerife, I feel the leadership is on a much more personal and loving basis, because you share one another's hearts, pray and read and fellowship and witness together. So when a problem comes, you can take even more "dealings" because here is so much love.

Perhaps it is a reflection of the

spirit of Germany itself that the leadership structure is somewhat regimented, with not too much opportunity to offer suggestions or exercise your own faith. Here the principle of hearing from the Lord yourself and having a strong link to get directions from Him is really stressed, with, of course, seeking cor firmation and counsel. But there you have to follow the "rules" and the set-up plan more. Many of the leaders there showed me so much love and really were used by the Lord to help me so much, like Barak and Gallio and Taberah, especially, and Jonah Whale. The kids were happy where I was, and excited to be in the Family and serving the Lor

Following the Letters: On FF'ing, the only colony where we went to clubs regularly was in Zurich in the summer of '76. We went two or three times a week for about a month before I left. We never went to bed with anyone, but were learning what it was like to go out. The next year I went to clubs about three times. I tried FF'ing myself with three people I met litnessing, but I never made love with them, just went out a little with them and tried went out a nate with them and tried to help them witness and get in the Word, after they got saved and filled. The main FF'ing was done by the people in Pubs or with Barak or

Shem and their staffs, from what i understood. I know Barak and Katrina went out a lot and he gave her to help people a lot. I don't think anyone helped him and I know he spent a lot of nights crying in his room.

I needed help, too, but was afraid to push too much for it, although one brother and I spent time together for about a month, and he fell in love with me, and we masturbated each other, and no one was against it because it seemed to bear good fruit in our lives (this is the boy I thought about marrying). Aside from this I did ask for help a couple of other times, but I think I did have a reputation for being "after sex". So I think it is sad that peo-ple do not help each other there. I think their faith to help others outside the Family is weakened because the brethren themselves often need help, and are wary of helping others for the wrong motive, so you do not have the faith and freedom that is pictured in the Letters.

One more thing that affects the obedience to the FF Letters is that mostly the kids are taught to follow counsel, rather than hearing directly from the Lord. In Letters like "Faith", "Follow God" and a multitude of others, we are taught to pray and ask God for wisdom, but hearing from God through the load hearing from God through the leaders is emphasised more than seeking answers from the Lord personally yourself. (Godly counsel is actually one of the seven ways to know God's will.) Therefore, when the situation comes of sleeping with someone, a decision where you have to hear from the Lord without coun-

sel, neither the kids or the leaders have the faith it will be ok, because they don't normally operate this way. It is like too much reliance on the chain of cooperation, whereas in an FF situation, it is between you, the Lord and the fish, and it is according to your personal faith, often.

I love Germany very much and thank the Lord I could go there and learn so much. I love the brethren there so deeply and miss them and pray for them. Thank you for asking me to write something on it; I hope it helps. I love you so much. Seven kisses and seven hugs from a little girl who loves you very much,

Some more details on the overall situation in Germany: from Sabina-The thing that is so very different

here is that everybody is so much more open & free & lives the FF more open & free & lives the FF
Letters. I cannot say that the brothers and sisters in Germany don't live
the Letters, I think the difference
is that they are more afraid of doing
something wrong so that they rather
don't do anything or only very little.
They are afraid of having wild fire
that they don't have so much fire
at all. I know that my leaders did
everything to follow the Letters
and live them and live them.

One thing that hindered us from really getting into FF'ing more is, I think, that the same people stayed too long in one place and we did not have so much change in personnel. Especially the Letters which des-cribe the freedom that God is giving us now as we obey him broke every body's bottle and were hard to

One night Faithy was visiting (when Hosea was visiting too) and she gave us a talk on FF'ing and all the things that were happening in South America and how God had opened the doors to the country through FF'ing. That really gave everybody the vision and helped us to have more faith. As I al-ready mentioned, it was the girls who were more turned on about who were more turned on about going out and meeting people, who were always pushing for going out, etc. The importance is to really see the need for FFing to be able to go on witnessing and spreading the Gospel for the work of God for His sake and our own sake, to be able to survive in the coming times. I think everybody really wants to go out but finds it hard to just have the faith in trying it and just doing

When the FF Letters came out, we started to go out a little bit, but never did much heavy fishing. It was really a bomb and with every Letter our bottles broke into pieces.

The girls were really on fire, more than the boys I think, starting to lose kilos, saving money for dresses and better clothes, etc. We did much more litnessing than FF'ing, especially in the last months, beespecially in the last months, be-cause of the lit push, our rebuttals to the articles. Altogether I went out maybe ten times. After making love with a fish in April '77, I got an affliction (in German called trichonomaden)

which lasted for about five months altogether. I took some suppositories which had a bad effect on me so that I got sick. Whenever I would talk to Habakkuk, he was always speaking faith and encouraging me and lifting me up. He really has a lot of mercy and love for us.

I love you so much and hope this report explains the work in Hamburg a little bit, the situations at that time. God bless you so much,
Sabina.

P.S. Here everything is very differr.s. here everything is very different than in Germany. People are following the Letters very closely here. There I never did help out any brother who was in need. I don't know of anybody who does it.

SCANDINAVIA

Dearest Dad and Maria. God bless you, I love you so much! The areas I used to be in before coming to Tenerife were Denmark,

Norway and Sweden.
Spiritual Atmosphere: I really Spiritual Atmosphere: I really liked the atmosphere in the colonies in Denmark, especially—a good, open atmosphere, a real family atmosphere. In Copenhagen we used to have (I don't know if we have right now) a Poorboy Club called

Abrahim that really drew a lot of kids and was well known in the city and a lot of kids got saved there.
We have some real good musicians there—Ahimelech Pioneer, Gabriel Swedish, Frankie and Eleazar! (A little PR!)
In Denmark our school is a real

fantastic testimony. The children there are doing very well and it's such good PR for the Family. They used to go to sing at hospitals, schools, old folks' homes, etc., and also last summer to a big music festival in a town called Roskilde, where the Family and the children's performance for the young kids got on TV three times, also for Swedish TV.

Leadership: I'd say the leadership in Denmark is good in a lot of areas. In Norway, alot of things have changed, I think, since I was therenew leadership, etc., whom I don't know personally. But by reading stats and testimonies I have the improperior that things are a lot hetter. pression that things are a lot better now than before. Before, a lot of

now than before. Before, a lot of areas were neglected.

We were really pushing the litnessing, but not with very good lit (often the same lit for half a year and things like that). And things like pioneering new areas, going to schools, hospitals, etc. were really neglected, also following up on new converts. But following up on new converts. But I hope things are better now.

In Denmark we used to go out and sing a lot, to bars, restaurants, schools, parks, etc., which I think is very good. Music is such a heavy media and a good way to reach people's hearts.

We also used to give out many Letters and get donations that way.

Following the Letters: My shepherd's name from Denmark was Ab-

ner Scottish-married to Tabitha (in Copenhagen and Odense). He's very strong, loves you so much. He was one of the first ones that really showed a burden to go out to the clubs and he used to take us out at night sometimes before I ever heard of any other colonies up there doing

it.
The thing is, things have been awful "strict" concerning sex, as good as looked on as not accepted in the colonies even between the Family It's true! In fact, when someone "got caught", they usually got a "talk" about it. That's the thing that's most different from Tenerife, and the Letter "One Wife" never used to be practised like that in any colony I've been to. But I've helped some brothers out all by faith sometimes, and I guess others might have done the same. But we never talked about it. So you can imagine how some brothers must feel after three or four years unmarried! Also, in one colony, when the heavy FF Letters started to come, the leader said that this was not meant for our situation, only for the countries that are in a "selah" situation and closed to litnessing. That was in Arhus, Denmark. This leader was my shepherd for about three months. He's really faithful, though, on things like Bible study and the Word and shepherding.

The last colony I was in was Malmo, Sweden, with shepherds <u>Daniel</u> and <u>Sherah</u>—a translating colony, and I took care of their little daughter. I really liked this colony, we really got to know each other well. Daniel is a real soldier, he loves to get things moving and changing.

In Sweden we've had so much bad publicity, you know, and it's really a hard field for litnessing. But I think FF'ing is the key to the Swedish people. This colony was one of the four pioneer colonies in FF'ing up there. Food, clothing, etc. is very good. We used to provision a lot of food and the Lord always supplied our every need. So that's no different from here. The litnessing quotas in most colonies are, I think, somewhere between 100-200 pieces of lit per day, usually 100-150, and about 4-6 hours a day. Wintertime can be pretty tough up there in the snow and cold, so we must pray for the brethren

That sure is different from Tener-Inat sure is different from Tenerife—the climate! What a blessing to be here! I pray this is gonna be a help to you. Lots, lots of love to you from all my heart. I love you, God bless you!—Heidi.

STARVING for LOVE!

A DESPERATE PLEA FOR LOVE! DO YOU NEED IT? -CAN YOU GIVE IT?

Dearest MO, Rachel and all.

God bless you and thank you so much for the recent advisory which enables us to feel free to write to you about things. Dad said that it's also for our comments, reactions and suggestions, so I just want to use this space to pour out my heart. I know that you understand how I feel, because of the following MO quotes, for which I am very thankful:

"I guess the Lord has just given me a special sympathy and love and compassion for the underdogs, the people everybody else can't stand and want to get rid of. Because I was an underdog for a good many years, and I know how it feels to feel unloved and alone and that no body cares. If I hadn't had the Lord I'd have probably gone crazy or jumped off a cliff or something."

"The Lord let me go through those years of loneliness and underand the beasts, the guys who wit feels, so I could have a great love and compassion for the unlovely and the beasts, the guys who with just a little touch of love could just really he made to blossom!" really be made to blossom! ("Mothers of God" 572:113,114.)

Thank you so much for these pre-cious words, as they really encourage my heart. I know your Letter "But If Not", and I refuse to give up, but I really do appreciate your ear and even a little prayer that the Lord will soon supply my needs.

If He doesn't, I'll still keep going, but I believe He wants to. My name is Jeremiah, I'm 28 years old and single and joined the Family five years ago (I'm American).
God bless you and thanks so much.
Lots of love and prayers,
Jeremiah Meek; Luxembourg.

P.S. Most of what I'm trying to say here is that I need sex and a woman's love so badly that it just drives me crazy and really affects my spiritual condition. Can't people be helped along these lines as is written in "The Law of Love"? I need it desperately!—"Starving" is the word.

"This is the difference between lust and love: Lust is merely to gratify your own greedy selfish appe-tite, like eating a meal. You may need it, but if you're stealing it from someone else and taking the food out of their mouth to stuff your own, this is selfish lust, not love! But if you are taking the food out of your <u>own</u> mouth and giving your own meal to satisfy and feed <u>ano</u>ther who is hungry and starving for love and needs it desperately and might not survive without it, then

might not survive without it, then this is real love.

"Greater love hath no man than this: that a man lay down his life for his friends." "Therefore we ought to lay down our lives for the brethren." Are you willing to lay down your life—or even your wife—for a starving brother or a sister?" "Law of Love" 17,18.—

How can I begin to say how very much you mean to all of your children all over the world? I only want to try to share through a little of the besulful Love you have shown us in the Lord, that now of our failures and mistakes are amyon's fault but our own! It is a heartbreaking shame how some few of our own thristy can go so rotten and do herm to others— But yet, please don't forget the worldrows mirecles that all bodis children have done the world over! Because of your supernatural live, Mercy and Jaik - Breize the Lord!— our Lamily has witnessed and won missions! One thing that is obvious to us all, is that these kids love you and Jeaus, and so, not wanting to herm others who are much harming them, they obey, and keep on for the Lord and this Horks!! So me, that is so beautiful, and it covers up and prothers out the "little bad" that we may see. How could we seen really "fail" when it's God's Jamily of Love— He promises it more fails! Hallelijeh

I could never respect and low you more than in these difficult moments ~ when I are your direct obedience to God and your light and Spirit of Jine in God's Gower! - to deatroy those who have deatroyed others, and react so instantly, prayelfully and faith fully - to give your own life for the theep, no metter what the coat! I what the world to know that you are the first

And this is the Victory that overcometh the Forld-even own Faith!

The here in your house who have withersed the Leid west, including love, and fierce fight in you both during these changes of lete, want to give our likes for you in Jeau's Name, as you do for us!!

May bod Bless those who believe and obey in Love, Jonever! & and may Both will us of the imposters!!

Jon is our Life, and we dedicate it to you Both?

2 gorever and always, there is not to you both?

Your Letters to Dad that Caused the RNR SHAKEUP!

'Heartbreaking!-Tragic!-Why didn't we hear sooner?'

Dear Dad & Maria,

God bless you and greetings in Jesus' Name. I hope this letter will help to cast more light on a side of the Revolution with which you may not be that familiar. Your Letter "More Truth" No. 598 is what has finally forced me to say

something!

In paragraph 59 you said, "They are free to have sex with whom they please and when it pleases." To cite a specific example, this summer in Marchestal, France, which I was overseeing, there was a really sweet brother, M., who had a real sex need. So one of the married sisters decided to help him out. It turned out to be a very fruitful relationship and M. even became their childcare worker. When they left Marchestal and went to another colony in France, somehow the colony shepherdess found out the girl was helping M. out. She got so freaked out she called the district shepherd, who called the regional shepherd, who called the AB, who finally contacted me, since this "evil" started at

So he asked me about it and I just kind of said, "So what?" I mean, it was ridiculous! He then told me, and I quote: "That is not our policy for girls to help out single brothers." I wondered if he was getting edited copies of the

MO Letters. I couldn't believe he said it and it came from higher than

This is only one example of similar stories I could relate! So any way, the AB wrote a stinging rebuke to the girl and her husband for the girl's "evil". Unbelievable, but not at all unique!

Then in paragraph 69 you say, "And since we do not have any such minimum monetary quotas for any of our members to collect, therefore no one has ever been driven back out on the streets for not meeting such false money quota, because it's a lie." Dad, in all of France, and it has been for years, the colonies have not set their own quotas but these have also come down from the top! disciples in France are required to bring in on the average of 75FF a day, and there have been brethren who have been turned back into the streets in different colonies.

Also, all the colonies are required to send in 35% of their lit income to the AB or they cannot get any more lit. This is so the leaders can show what a glorious contribution they are making to foreign fields

nd get a nice pat on the back.

This is one of the main ways the leaders keep a stranglehold on the kids—through lit. If they want lit, they have to go along with what leadership says or they'll cut your

lit, and if you don't get your lit, then you don't get your quotas to remain an ideal colony, and so you lose your new Letters. Bam!!

In paragraph 70 you say, "... they are permitted to keep and to spend whatever they need for their own necessities including food, etc." Again, I know of specific instances where the kids were not even allowed to buy their meals while out litnessing. If they couldn't provision it, they couldn't eat. I hate to say it, but there is a class difference.

In fact, in France the policy is that

you cannot buy any needs with litnessing money, but after you have made your quota, you can then sell records to obtain your needs. But of course even on the records you have to pay 10FF for each one you sell

With the colonies having to give close to 50% of all their income: 10% to W.S., 35% and sometimes even 45% to the AB and still having to pay for colony expenses, it's no wonder the kids don't have the time, money or energy left to FF. And of course, not many leaders are

FF'ing anyway.
In paragraph 79 you said: "Our disciples are free to go wherever they wish to whatever colony is willing to accept them..." Again, when I finished at Marchestal, I let the AB know that I was going to tow a caravan down to Rome. He said to me and I quote: "You don't have clearance", so I quoted him the above paragraph and a few others and he finally admitted that I was free to do it, but said that Hosanna

was going to be mad at me.

And this is what they always try

-fear and intimidation by leadership to preserve the status quo. I have never seen such rampant man-worship in seven years in the R! This is one reason I have been so at

odds with so many leaders!

The worst part of it all is when you write a Letter like "More Truth" stating these things, the kids are living in a different world and hav-ing been squashed for so long, may not really know the true spirit of David through the Letters.—"Is Dad just trying to make a cover for the System?—Because I know this isn't true in my colony or district." I true in my colony or district." I believe because of the disobedience of some of the leaders to your Letters that it could really cast doubt in the minds of the kids as to what is really the truth. I have not been in Italy long, but it seems to

have very similar problems.

I wouldn't even send a new disciple to some of these colonies, they are so much like churches. The AB in Paris told Judy & Woodsman they didn't have to FF, etc. etc. There is a worse dictatorship exist-ing today than I have ever seen in Tyears in the Revolution. A lot of people are really getting fed up and unfortunately becoming very bitter. They really need to be set free!

And what I've related is only a

piece of this iceberg. I'm not quite sure where the tip is, but I have an idea! Money, finances and position are unfortunately much of the motivating factor behind the decisions

rather than the leading of the Spirit.
To close I just want to tell you—
more power to you! You stir up
the fight in me. Keep threshing!
Love in Jesus, Elkanah.

Report from Faithy, our Trouble-Shooter in the Pacific!

JAPAN: Faithy reports that while they were in Japan, she felt the disciples really carried a very strong pentecostal Jesus-people spirit. One of the leaders had even been circu-lating his own classes, which were a combination of his ideas on the Bible with MO Letters mixed in. These had even been translated into Japanese by some of the translators, but thank God, it appears that most of these have now been gathered up since Faithy's visit.

Faithy was completely appalled by the living standard of the colonies there despite the fact that Japan is so industrialised and therefore very rich. She thought that the standard was the lowest she had ever seen, even including Latin America. The work there seemed to be steeped in Japanese traditionalism, as the standard policy in all the col-onies was to sleep on the floor rather than in beds, and also sit on the floor and eat off the low tables. This is the way the poorer Japanese classes live; however, it's far from the way the middle and higher classes live, according to Faithy's observations. At the same time, she reports that the standard of dress was quite deplorable and apparently none of the leaders were setting any kind of example.

One leader acted very ill at ease whenever Faithy mentioned FF'ing. She reports that he existed on almost no sex life at all. Regarding his health, it seems that he has been sick almost constantly for the past

two years. Faithy felt it was a case of walking pneumonia, due to his sleeping on the floors, eating so poorly, and felt this was a manifes-tation of them being so under the law, more holding to the Japanese tradition rather than the basic need to stay healthy, and he is really picking up on the spirit of the Jap-anese religions, all of which are based on a works trip.

As far as the entire situation in

pan goes, it seems that the only FF'ing they were doing was geared to reaching foreigners in the bars rather than the native city fathers, and this resulted, of course, in their having quite <u>serious visa problems</u> with immigrations for all the American brethren there, as no PR seems to have been done in this area. Their work is largely composed of young catacomb "kids" as they call them, which is probably due to the fact that the only distribution they did was to kids, 16 years and

PHILIPPINES: Faithy was appalled by the living conditions there as well. Not only was every one sleeping on the floor, which isn't even the tradition in the Philippines, but they were living for the most part in overcrowded condi-tions, with very poor samples of

colony life.
Nathanael, who was running the Philippines before, had made quite a mess of things and really didn't seem to have any concern at all for the sheep there. It doesn't appear that they have any Filipino disciples to speak of, certainly none which Faithy felt were potential leaders. Again, this is probably due to the fact that there was no emphasis at all on FF'ing, and they were pretty much back at the stage where the Letter "Rags to Riches" came out.

AUSTRALIA: Faithy hadn't visited Australia, but I think the

AUSTRALIA: Faithy hadn't visited Australia, but I think the stats there tell the story pretty well. However, the lit is going up after our admonition to them about defending the faith there in Australia. Overall, Faithy's opinion of the area was that it carried a very American spirit, probably because of the lack of emphasis on FF'ing the local people. by Rachel.

A Plea from South America!

Dear Rachel, 5 Nov. 77
We would like to explain the way
we feel about what is going on here
in our country in South America.
My husband and I have been here
for almost a year-and-a-half, T. and
L. for one year. Since being here
we have all been colony shepherds,
district shepherds and litnessers on
the streets. We have been mostly on
the bottom so we believe we feel the
way the sheep here feel. Since we
have been here we have been dissatisfied, but we are not an isolated case,

When we came here we saw that things were not being run according to the MO Letters—the New R was not being put into effect. There were many missing links in the chain of cooperation and these that were filled were just "yes men" who took orders from the AB level and pushed stats. As one leader told another: "Look at these stats, we have the best stats in all of South America. We must be right." This is because stats were really pushed,

or should I say that the disciples were pushed for stats. T. and L. were district shepherds and were being pressured to push the sheep too much, but they refused to push unusually high quotas and stepped down. I was told that I had to make my quota before I could teach my 4½-year-old school. (I have three children, two of school age, and for the first eight months here we were unable to give them school.)

we were unable to give them school.)
The disciples were always being dictated to in this way. They were not given the freedom nor taught how to hear from God and to follow as He led for the small things in their individual lives.
They were only given their quotas and told to get them out—quotas which were not voted on. Those who are still on the team have not grown much at all, and others that were top shiners have left altogether.

We were greatly relieved at our superior officer's departure and were truly inspired by the fresh breath of new leadership with a greater vision of personal initiative. Our new leader divided our city into colonies and put more people in positions of leadership, then started to train them personally with weekly meetings, truly trying to inspire loyalty rather than just pushing the sheep for stats. In our own personal lives, we started hearing from the Lord again and felt we were being allowed to follow our own convictions. The sheep here were starting to grow spiritually and to do things from their hearts because they wanted to. The colony and district shepherds were starting to do good jobs.

were starting to do good jobs.

Everyone was truly liberated; then

came the crisis in Colombia and a phone call from higher up stating that they were mad about our stats being low. From what we understand, they told our leader that he was being too easy on the sheep and that he could be replaced by someone who would be harder. Immediately after this, he got hard and was calling on the phone to all the colonies handing down quotas and saying the sheep could not come home unless they got their quotas. The only explahation given was that it was an emergency for Colombia and they needed the money now. This same pushy spirit had always happened to our old leaders, too, after a visit or call from higher up. Our new leader later said that he will not force production but wants to inspire it. But we are afraid that if he does not produce lit stats that he will!

We understand that the leaders must lean on the sheep to get them out. This is not what we are against. We are talking about the hard-driving dictatorial attitude where the sheep only get out the lit and make money as a job and not from their hearts, who don't know how to hear from the Lord, make decisions, speak up or burn free. We agree with what Mordecai said in his report to MO, Paragraph 12: "Many overseers are like shepherds so preoccupied with the wool and meat from their sheep that they don't value the life or health of the sheep—whether it's the brethren or the GP public." We believe this has been the situation in the past. We don't want to see the sheep un-

der such bondage again. That is one reason for this letter.

There is another situation that still exists here that we are concerned about—the shuffling around of personnel and stats for reports. This is what one District Shepherd wrote on his report: "I dislike having to juggle around people each month to do reports for colonies that do not exist. It is wrong in my opinion to report on a work that doesn't exist—especially when in the case of re-classification, a functioning colony must "donate" a new disciple for statistics purposes to keep a non-existing colony in "good standing". I was informed that we do it to keep the computer from getting confused. Well, if that that's the case, we must have a pretty feeble-minded computer!"

These are our sentiments. We love and pray for you all!-T.,L.,B. (MO-Heartbreaking!-Tragic! Why didn't we hear sooner? "Failure to report a crime is a crime"-MO, "Colony Rules" No. 657:56. God help us and rid us of the tyrants and hirelings!)

From the Northwest U.S.A.:

Dear MO. 4 Oct. 77

God bless you. I love you so much and am thankful for your channel with the Lord! This letter is in regard to a situation in the U.S. It has been causing some question in the past months, but in the past few weeks I've seen it come to a head in this colony.

The situation I'm speaking of concerns FF'ing and The New Revolution. First FF'ing: FF'ing is not

happening in the U.S.! I hear that the Minister and the Archbishop and their staffs are "pioneering"it. The colonies and disciples were told this about two months ago. The "FF Explosion" came out about four months ago. Many of the brethren are very anxious to start FF'ing but feel stifled because they can't.

I see the need for caution, but I think that if we wait much longer we may have a worse problem of a discontented, stifled and dissatisfied bunch of disciples. The brethren want to obey the Letters and you did say "start tonight". My main concern is the fact that some brethren are really becoming dissatisfied, and it's amplified by the

next problem:

The New R series was published about 2½ years ago, but an autocratic policy of appointments by leadership above the colony level has become the rule instead of the exception. The leader's choice is then presented to the Colony Council for approval. Also personnel changes are made and planned on by leadership and presented to the Colonies for their "rubber stamp" approval. The last time I was presented with a choice which colony I wanted to go to was 2½ years ago, immediately following the New R. The Northwest U.S. has been operating under a leadership short-

The Northwest U.S. has been operating under a leadership shortage for about nine months. We've either had no District Shepherd or no Regional Shepherd and now no Bishop. My feelings are that initiative wasn't inspired by leadership in the brethren to take their responsibilities to heart concerning

the New R, so that the potential leadership at hand is unused, irresponsible and the Colonies are not receiving the proper oversight as a result

Normally, my nature is just to keep going the same way things are going and not cause a very big stir. But if these situations are not changed or clarified so we can see the reasons why, then I really believe some brethren will really become down-hearted. God help us to be Fighters!! (I might add that I've been no shining example of faith, obedience and initiative, but am as guilty as anyone having been a Colony and District Shepherd.)

In loving service to the King, Joshua Morningstar.

(ED.-Tks. Joshua for speaking up!
-GBY! Hope you like the new
changes!)

From Southern Europe:

4 Jan. 78

Dear Rachel & Timothy,
Greetings in Jesus Name! I
really love and pray for you all.
I'm really thankful I had the blessing of working around you at
Poggio! After leaving Poggio almost four months ago, we've just
been normal disciples in regular
colonies.

It's really shocking how low a living standard most colonies maintain, and the daily vision just seems to be to survive just litnessing to make money to live.—Not really progressing with any direction. Most don't do very much FF'ing, or if they are, not using very much

wisdom.

Most of the local leadership is in such a rut, still living two years ago. The disciple standard seems to be very low also. Everyone seems to be in the old C.O.G. hippie days. The colonies aren't homes. Generally they're just communal housing stuffed with as many people as they can fit, and a few edge-wise. The immediate overseers usually just kind of smooth things over and make it a district and comfort you with a grin and tell you "it's cheap housing".

And if you speak up and say something about problem situations, then you're "murmuring" and "not trusting the Lord". And then you do start murmuring 'cause you realise that honestly you can't speak up and say anything and realistically, the only way you're going to have a gripe resolved is when the Lord shows it to MO and he writes a Letter about it.

But to me what is most frightening and appalling is the unconcerned attitude of most overseers. They've got their little set-up, they've got their little district or region or bishopric or AB. And that's all that seems to interest them, as long as the stats are high. And they don't seem to be all that concerned for the spiritual and physical care of their flock, so long as the lit stats are high and nobody rocks the boat.

I have a couple ideas of things ! think would help: 1) I believe it should be absolutely forbidden for more than twelve people to live in a house—not just call it a district or a region and then you don't have to call it what it is—a Blob!

2) More FF'ing—and that should be helping support us. The fish should be able to help and if not maybe some of us should get jobs and help support FF'ing until the fish do and raise our standard and at the same time reach some of these people that are influential and that can really help change the world!

can really help change the world!

3) I really believe the leadership should have much less to say and that the colonies should become smaller and more family-like, and not such a bureaucratic organisation. I think we'd be much better off just getting our directions from the Letters and people like the ABs just constantly making the rounds, at least someone that's halfway together and keeping things on the right track. Maybe this is going too far, I don't know. I'm very sorry to have to bother you all, but I just want you to know what I believe. Love in Jesus' Name, Sanctify.

(MO-Well, Sanctify, now you know! It's letters like yours that caused the "RNR" Shakeup! We're not only rockin' the boat!-We're throwin' 'em out!)

WANTED: Secretary for World Services Mailing Ministry! Must have: 1) Talent in letter writing. 2) Good knowledge of MO Letters and/or ability to use Index skillfully. 3) Genuine love and concern for the sheep and their welfare. From a New Member of Mo & Maria's Personal Staff

8 Jan. 78

I can't tell you how happy I am here! I feel almost like I've come home at last. I feel so safe and secure right here close to you. And I don't believe I'm saying that just to try and man-please! It just really blows my mind—the

wisdom and insight Dad has into situations! It was so true what he said about how he doubted that if I'd been a litnesser and actually had to meet the quotas myself if I would have then been so sacrificial and considered it my duty to levy 35% tax against the colonies. I must say I probably wouldn't have! May God forgive me! It's such a heavy lesson, that as a leader we should always put ourselves in the shoes of those that will be affected. A government should be for the people not its leaders! May God forgive me for the way I was out of touch with the colonies and how my opinions were influenced or corrupted by power! I can really see how true it is!

I know, just the few days that I've been here, I almost feel like I've come into a room and the light has been turned on! I know I wasn't as good a shepherd as I should have been, but I sure feel like I could do a heaven of a lot better now! But, it's funny, I don't even want a big title anymore, or any title for that matter! I'd just like to stay right here and be a flunky in the house of God.

(Even if I don't have the necessary talents to be Maria's helper, I'll do dishes or whatever! And I'm not even pushing to be Maria's helper either because I feel like now I have more responsibility than I ever had before!) Anyway, I'm sorry if I'm being presumptuous, but I really wanted to be clear about how I feel! I love you, Emmanuel

Dear Dad & Maria 10 Jan. 78

God bless you! I love you! I just finished reading "The Prodigal Son" and the Lord really laid it on my heart to write you a short note, especially too, after reading last night the three "complaint" letters which you gave me

The scripture that comes so clearly right now is 1 Jn. 3:16—"Hereby perceive we the love of God, because he laid down His life for us, and we ought to lay down our lives for the brethren." Very sad to say, I think, many of us "leaders" in the Revolution have somehow missed the full impact and meaning of this basic principle of being one of the Lord's shepherds. The good Shepherd giveth His life for the sheep!

I know, though, it's only the fault of our selfish selves and our own unwillingness to do what you've said to do in the Letters. I know, because I was a leader in the chain of cooperation, and I know how I sometimes felt. Oh, I thought I was working so hard, but compared to

the sample I've seen here I can hardly believe how much of an ego trip was really on.

It's not easy to confess these things, but I know many times that I did push and drive the sheep only for my own glory, and even asked them to bear unfair burdens only so my leaders could see that my area was producing, may God forgive me! I can only thank God that the pitiful cries of the poor sheep are finally getting through to you, the true shepherds, and it's so encouraging to see you react so quickly and sincerely to lay down your life, and give so much of your time and energy in responding to their cries! I sincerely pray that out of this seeming defeat will come one of God's greatest victories ever, and that we all can learn to be better, more true shepherds like you!

I'm so, almost, amazed at how re-laxed and at ease I feel around you! At first I was a little bit scared, but you've been so concerned about me and so interested in me, now I feel like I've come home at last. I known I really have to "tow the line", even more than ever now, but still I feel like you're here to help me and encourage me, and I know that you're going to be patient with me, even when I make mistakes, because I sure have made mistakes and you're being so patient & loving now! PTL!

I don't think I've ever been asked so many times in one week if I had you had the girls bring the plant for my room and the little nic-nacs for my shelves...and the way Maria spent almost an hour each evening just talking to me and praying with

me and being sure that I even have all the sex I need...and the way Dau has already spent hours of his time listening to my testimony, really taking the time to know and under-stand me... I mean I could go on and on!! You've really showed

that you love me!
So, I know that problems that you're having now with unloving, old bottle leadership certainly isn't your fault, but ours for not following your sample! We like to impress the sheep with our greatness and our faith, we like to see our area produce, we like to have our ideas and our projects, but then we miss the whole point—that a shep-herd really doesn't have to do anything but follow the Letters and make sure that the sheep are taken care of, not asking them to do anything that he wouldn't do himself.

You've certainly been a sample of a faithful witness and you have the fruits to prove it. You haven't been too busy to witness and win souls. My God, how could we be too busy? Perhaps we've put the cart before the horse and we've asked the sheep to love and care for us, when we haven't really loved and cared for them! We like to think of ourselves as important leaders, but who is really more important? Who knows, maybe some of our areas are having so much bad publicity because we have been too busy with us and not busy taking care of His sheep as we should, both in and out of the Family!

Anyway, those are just a few

thoughts that I wanted to share with you. I love you because you have first loved me.

—Love. Emmanue!

Dear Dad

"Why Don't We Have Sexual Freedom <u>Inside</u> the Family?

Dear MO.

I would like to ask you a question! For a year and a half (since joining the Family) I haven't had any sexual life, and it has been and is a big battle. I am 28, like sex and need it! There is a sexual freedom with the fish in FF'ing, to meet their needs and show them God's Love that way. Why don't we have this freedom <u>inside</u> the Fam-ily, meeting the needs of our own brothers and sisters?
-- Mary; Paris.

You asked a good question! Dad and Maria just can't understand why some of the Family is living without sexual freedom when he has written so much about it in so many Letters! "All Things Tree" and "Law of Love" are two real good ones written long ago on this, and there's so much in the recent FF Letters on how w should be sexually free within the Family. God bless you, Mary, and may you be able to live life to the fullest and enjoy yourself in His

Brother Visits Whore!

(Daniel of Switzerland wrote an in-

spiring testimony of how he went to a whore to have his sexual needs met. Through showing her the Lord's love, she got saved and now wants a new life. We wrote:)

Dear Daniel,

MO and Maria were so sorry to hear how you had to go to a whore to get your sexual needs met, but were thrilled to hear how the Lord turned it into a wonderful victory and testimony!

MO says, "I've done it and found most of them very receptive and responsive, and even emotional and really hungry for love and the Lord. Some of them were just poor girls who hadn't been able to get any other job—that's the only talent other job—mars the only talent they had, and one which we sure could use. That's what Jesus did in a way. He didn't pay them as far as we know, but he got them saved and lived with them afterward.

God bless you for your faith! They were wondering, though, why one of our sisters did not supply your sexual needs and would like to hear more of the details of why you were compelled to go to some-one out of the Family for the love you needed. We should surely be taking care of our own dear brothers and sisters' sexual needs if we are willing to go out FF'ing and meet the needs of those outside the Family! "As we have therefore opportunity, let us do good unto all men, especially unto them who are of the household of faith." (Gal. 6:10).

Is Marriage for Everyone?

Dear MO, I am 27, have been in the Family or 5 or 6 years and am not married yet. I'm afraid of trading my freedom and "youth" for security and becoming an old tired Mom...Marriage seems so deadly permanent... I hope you can tell me if it's not important that "m me if it's not important that I'm not married...Is there something wrong with my attitude? I guess I really have a deep-seated fear of failure in marriage. Love, Hannah.

Dear Hannah, Dear Hannan,
Greetings in Jesus!...Regarding
your question about marriage,
Dad and Maria have this special
word of counsel for you: "It depends on the individual situation.

pends on the individual situation.
Babies in our societies can almost choose their own father. We have got more fathers than mothers. We believe in letting people do what they want to do or what they feel called to do. Have you read 'Nuns of Love' lately? We understand that sometimes it is difficult to find a balance but we have got something for everybody, let them take their choice. They can be a prim little housewife with ten chilren or a whore; whatever they want. They can have the same man for the rest of their life or two or three different ones every day. We have an outfit that can accommodate each and every need and each and every individual." So Hannah, "The door is now open!—Walk in where you will, by your own free and loving choice...you are more than welcome in the King's house hold in whatever capacity you choose!" ("Choice" 238:15)

'How do I get clearance to a new field?'

Dear MO, Maria, Rachel and all, God bless you, I love you and really pray for you all the time. I know it must be quite a life being at the front of the battle. God bless you for your courage. I have one suggestion and one question I

want to present:
Regarding security of MO Letter
mailings: Several times we have received our MO Mailings from Italy with the envelope partially opened and Letters could have easily been photographed. My suggestion is this: That each colony open a special P.O. box, unknown to any one but top colony personnel, for the sole purpose of important "R" business: MO mailings, KQC ad-visories, etc. And open this box at visiones, etc. And open this box at a separate post office, so the personnel at the other post office couldn't recognise the envelopes and the new P.O. wouldn't even know what's going on. Then keep the old P.O. box for correspondence from the GP and from other colonies, tc., less security material.

Question about receiving clear-

We had the funds to go nearly two years ago, but have recently used part of it to pay extremely high winter bills last year. Now there are brethren go-ing to different fields who have applied for clearance directly from the field and have gotten cleared to go and are working on their fares. We would like to go and don't un-derstand why we can't also go.

Is there a worldwide policy concerning the method of requesting and receiving clearance? My regional shepherd told me that you should write directly to the field, but not everybody knows it or does it. The way we requested clearance was to write our Minister's office with pictures, disciple background and information sheet and clearance form. But I haven't seen this method help anyone get to another field

"I'll Be a Hustler for the Lord" How the President's sister converted the sultan of smut

To call Larry Flynt a pornog-rapher is like saying that Shake-speare wrote. Flynt is the very sultan of smut, and his Hustler (circ. 1.9 million) stoops to pander with articles and artwork on various themes of hard-core sexual perver-

In one of the most remarkable religious conversions since Paul stopped kicking against the goad, Flynt last week announced that he had been recruited for Christ by Evangelist Ruth Carter Stapleton the President's sister. Hustler will be reborn as a "religious skin mag-azine," he added, and his multimilliondollar, 400-employee empire of magazines and sex products may be turned into a nonprofit religious foundation. As Flynt told a Pentecostal congregation in Houston where he had gone for the National Women's Conference: "I owe every

woman in America an apology."
Flynt's journey from horniness to holiness began earlier this year. While fighting—and losing—his much publicized obscenity trial in Cincinnati, Flynt recalls, an earlier urge "to find the truth and who I am" became an obsession. This fall, CBS News Producer, Joe Wershba, steered him to Stapleton, who shared Flynt's concern about child abuse Flynt spent a weekend with Stapleton and her veterinarian husband at their Fayetteville, N.C., home, and the Stapletons visited the Flynts' 23-room mansion in Columbus, where they discussed religion

and sexual repression, Stapleton recalls. Flynt abruptly phoned her from San Antonio around midnight Nov. 17. "He was talking 90 miles an hour," she says. "Through the jumbled conversation I knew some-thing real had happened."
What happened, Flynt told Time
Chicago Bureau Chief Benjamin

Cate, was that he found God at 40,000 ft.-in a chartered jet somewhere between Denver and Houston. "It was powerful and awesome, says Flynt of the experience.
"There I was, representing the pits

"We will no longer treat women as pieces of meat longer treat women as pieces of meat."

The convert concedes that many readers will remain skeptical. "People may think I'm kooky, but this is what happened," he says. "It's not a publicity stunt. Christians For Israel! Part of an article from "Newsweek", Nov. 28, 1977—Edited by MO.

A group of conservative evangelical A group of conservative evangelical leaders wants Carter to believe that most born-again U.S. Christians oppose any such violation of Israel's "divine right" to the land first promised by God to Abraham.

In a full-page ad published earlier this month in the New York Times and the Washington Post fifteen.

and the Washington Post, fifteen evangelical elder statesmen-including two college and three seminary presidents—urged U.S. evangelicals to write Washington in support of Is write Washington in support of Israel's position in the Middle East. "This is Carter's constituency and he'd better listen to them," says Jerry Strober, a Jewish publicist and former evangelical Christian who helped prepare the ad "Evangelical Christian Research C who helped prepare the ad. "Evan-gelicals are not used to getting out on political limbs, and this was a

major step for them."

Mutual Respect: The ad was only the latest public sign of a growing alliance between American Jewish leaders and spokesmen for the most conservative wing of American evan-gelicalism. The American Jewish Committee, for example, recently committee, for example, recently bestowed its first National Interreligious Award on evangelist Billy Graham for his "support of Israel". According to Rabbi Marc Tanenbaum, the AJC's director of interreligious affairs, "The White House is mistaken if it thinks that only Jews care deeply about Israel. Israel and Jerusalem are as central theologically to evangelicals as they are to the Jews."

But only to the very conservative vangelicals. "We believe that the

return of the Jews to their homeland and the reconstruction of the kingdom of Israel, are signs of the cli-max of earthly history—the ringing in of the millennial, perfect world says Kenneth Kantzer, editor-elect of Christianity Today and one of the

Partisan Politics: Like Sen. Mark Hatfield, some evangelicals distinguish between what the Oregon Republican calls "the right of Israel to exist as a political state, and the attempt to translate Israel into some great theo-logical state." Moreover, notes man-aging editor Wes Michaelson of Sojourners, a progressive evangelical Sojourners, a progressive evangelical monthly, three of the ad's most pro-minent signers—entertainer Pat Boone Dallas pastor W.A. Criswell and re-

tiring editor Harold Lindsell of Christianity Today—all publicly opposed Carter during the 1976 campaign. "There's partisan politics behind their stand on Israel," Michaelson insists, "as well as a morally questionable effort to use the Middle East crisis to justify their own brand of Biblical literalism.

Thus far, Carter has shown no sign that he feels any pressure from evangelical quarters. But the Christian dispute over Israel is far from

ended. Right-wing fundamentalist preacher Carl McIntire entered the fray with a full-page ad in The New York Times denouncing the Palestinians as "Descendants of Esau...claiming Jacob's land." And next January, the evangelicals behind the first ad have invited 1,000 bornagain Christians to visit Jerusalem to hear Israeli Prime Minister Menahem Begin present his own program for peace in the Holy Land.

How Could They? (Quotes from Peace?—Or War!"

Any Christian who could stand with Israel at a time like this must be totally deaf, dumb and blind or

without reason! So how the Christians of the world could sympathise with the Jews in this case is inconprehensible! (par. 36)

How could Christians of the world

be so blind to the rights and the needs of the poor Palestinians, most of whom are Christians! To say that the Jews are a people of peace is ridiculous! (par. 36,38)

Begin's whole attitude was typi-

cally that of the stubborn unyield-ing Jew, as God has shown them to ing Jew, as God has shown them to be all through the Bible—stubborn, rebellious and unyielding! He even spoke of their past, and "this land in which lived our great kings and our prophets", but he neglected to mention the fact that they usually killed their prophets! As Jesus said, "O Jerusalem, Jerusalem! Thou that killest the prophets!" (Rom. 11:3, Mt. 23:29-39, 1Thes. 2:14-15, Acts 7:52, Rev. 16:6 & 18:24) (par. 25)

Their prophets have all spoken to hem as Sadat did and begged them in the name of God to make peace with both man and God, "But they would not!" They have refused for generations, for centuries, for ages, for milleniums! (par. 26)
For thousands of years they have

refused to yield themselves to God! So now how could we possibly expect them to surrender themselves to the poor's needs and counsel of man? Any Christian who stands with the Jews at a time like this in a stand like that is a traitor to his own faith and his own God and his

own people! (par. 39)
Israel will have no peace for they have rejected the Prince of Peace—
Jesus, their own Messiah! Israel refuses to recognise the rights of others and even defies God Himself, and would rather have war and destruction and die and go to hell and take the world with her rather than yield to God and the Prince of Peace and the men of peace to save the world! (par. 44,55)

REACTIONS TO THE «RNR»

-by Hannah, German National.

"I FELT LIKE WE WERE DROPPING OUT OF THE SYSTEM ALL OVER AGAIN!"

After getting over the first shock and wondering how this one was going to work and starting to think what it really meant, I felt so very, very well cared for by Dad. It really blew my mind to see how con-cerned he is with the real state of the flock. It just really makes me want to learn to have the same love and compassion unto others.

feel sure that this Letter will be a super encouragement to every single little person in each colony, because it was to me. With it, Dad expresses so much faith in the little people, which it seems there has been such a lack of, that it really gave me the feeling of just wanting to go out by faith and just do something to help

With this Letter it will be

impossible for us to look to the Chain of Cooperation, which we have been doing much more than just following the Letters. I felt like we were dropping out of the system all over again! I think we had been so accustomed to looking to our leadership and to their sample of how we were sup-posed to live the Letters, instead of just living the Letters ourselves— trying to live an individual's interpretation of it rather than just do-ing what it says and really being open and talking about it.

We had gotten so tangled up in respecting others, respecting their opinion and respecting what they thought the Letters said that it had almost turned into fear of men rather than the Lord. So obviously it had been a real hindrance in serving the Lord and winning souls and following Him, really accepting the freedoms that He has given us so as to be able to be happier and free-er and getting closer to the Lord and each other and accomplishing more. I feel like we had really gotten away from living by faith and being really radical and free and just traded it in for following another little system that we had

From the things that I've seen in Germany and experienced myself, we were so reluctant to do something different that we always waited for the permission of some leader, or even for some leader to come around and suggest that we follow the Letters. We were so afraid that we could possibly make a mistake, that we just almost didn't do anything along the lines

of FF'ing or helping each other out sexually. I feel so ashamed to say how long Dad has been putting how long Dad has been putting these Letters out and how long we have been so "spiritual" and "waiting on the Lord", trying not to jump the gun, that we've hardly done anything. Whereas I've seen so many people that would have needed it and even situations where I could have done it personally. And being the Ministry secretary, I could also see that in almost every single colony there were people single colony there were people who needed help.

I don't necessarily feel it is all the

individual leader's fault, because I know that at least some of them were not exactly trying to be ty-rants or very authoritarian, but really do love the Lord and their sheep. Yet it seems they had gotten so caught up in our administrational system, all the little rules and restrictions that we've made, that the whole operation is more or less missing the point. Also the leaders had a tendency to try to just run the whole show themselves in-

stead of really training people.

I think this Letter is going to throw people into a position where they're going to have to rely on the Lord and not just be able to look to their leaders anymore, which in turn is really going to inspire faith in people and bring out good qual-ities and talents that individuals have which nobody ever thought of. I know in Germany we were not very used to sitting down and discussing problems or listening to people's opinions, but we were so much on a works trip trying to be spiritual and good, that we hardly

ever openly or honestly said our opinions or confessed our needs. which I think this Letter is going

to change. TYL!
Possibly giving new people and different people chances to be SCS's or Sprint Center Servants or Visiting Servants will really gener ally inspire their faith and give them the courage to speak up. Through that, I think a lot of hidden talent should really come

"Nationalisation": After my ex-perience in Germany, I have to admit that this Letter is really right on, as there are very few nationals on, as there are very few nationals in leadership positions or in positions of any kind of responsibility outside of publications. We do have a few bishops and a few colony Shepherds, but all in all, the foreigners and expectable to have foreigners, and especially the Americans, have really been dominant. As Dad said, it's really hard to believe that there are no nationals who could do anything!

I think some of the reasons are

probably that a lot of the American leadership has not really had the attitude of taking people into their personal lives as Dad describes in the Letter, like getting married to natives or listening to their counsel,

Personally myself, and I think it's true for quite a few Germans, v have developed such a fear of the stereotype of being hardheaded, dictatorial and authoritarian little Hitlers and like the "rest of the Germans", that now we don't even think we can stand up for what we believe. We're so afraid that it's going to come out wrong, we don't

want to be looked at as 'Germans''. And usually And usually the main thing you hear from anyone in the Family about Germany is pretty negative, "Oh they're so hard" and

this, that and the other.

I have to say at this point, though, that some of the American leader-ship doesn't think that way. Some have been encouraging and really trying to help us and find the poten-

tial in Germany.

Also, I think if we could just junk the whole legal association, as Dad suggests in the Letters, and forget all about the "Children of God" and just move into new places, just be called something else, I think it would really help cut down on a lot of work and a lot of energy, nerves and time. I believe that if more people could be trusted with at least being trained in some kind of position of responsibility, that it would really encourage people's faith and bring people out of themselves and get them to forget about the "problems" they used to have, and even give them back their burden for Germany. As it stands now, just about every German national that I know personally just wants to leave the country.

It's hard to do anything if you feel nobody has faith in you, which feeling has resulted through trying to uphold this chain of cooperation. which was so totally incomplete in which was so totally incomplete in Germany that it was not even functioning very well. We were so concerned in keeping it up and not letting it fall apart that I think we really missed the point—so busy with administrational work that it took away a lot of time from train-

ing people and helping people to overcome their weaknesses. Instead of taking <u>more</u> time for a person like that, <u>less</u> time was taken. I can see how some would feel like they're no good, sitting in a field colony for years and years on end and doing nothing but litnessing when there were so many other positions they could have had, so

many jobs that needed filling.
I think with the "RNR" and
"Nationalisation" we're going to
be forced to take time to find out where the little people are at and find out what they can really do. Personally, I feel that an area can only go as far as the little people in that area are really willing to

go, from their heart.
This Letter has completely changed my attitude towards Gerand it's given me some faith back that we can really do something there. I think if we're going things are really going to change. The only other thing I have to say is that I feel very ashamed that we have not done this any earlier, because I feel it's not something new. I feel we've really been failing to do what God has been showing us in Letters years ago. So I really hope and pray that this time we're going to catch on, and I do think

"Colony Rules": As far as colony size and division, I believe this has generally been practised, because it's one of the smallest requirements that we can meet and the easiest one to keep. As far as the new disciples go, I think this has been one of the main points where colonies

have been re-classified. But I think with some more faith in the Germans and Germany, we could improve this a lot. Also, I think that an FF Report and Colony Check-list should be a real blessing in helping everyone to do more along these lines. Another thing on new disciples, I feel that we have not really been following what Dad said about checking out new disciples with the whole colony council. I think too little emphasis has been given to the opinion of the whole council, but rather more to the shepherd. Also I don't think we have been publishing pictures of people that have been put out of the Family for incorrigible bad behaviour

Also the suggestions Dad makes about marriages: I don't think they've been followed at all. I don't think people feel the freedom to just go into a trial marriage and do it just with the consent of the people involved and with local leadership, but they always wait for consent from higher up. Also I think people have not really been involved in the major colony de cisions.

Many colonies do not have mated couples as their shepherds, and I think this has really de-emphasised the family and turned it much rather into just a work team or something. I think when we have mated couples heading each colony that it will really change the atmos-phere and spirit of the colony, and phete and spirit of the cooliny, and therefore also change the way of approaching the public and winning people into our families. I also don't think we've taken Dad's sug-

Ŋ

gestions on ordination seriously Concerning reporting: I think it's going to be a real blessing to have every colony council member sign the reports, and I think it's going to really give a change away from things being really secretive with the big leader image, to a much more open and honest atmosphere

Income and finances: I really think it's just going to flip everyone out that they're only going to have to give their 10% to WS and then also get to know where the money goes! Generally I think this is really going to make people feel like they're really participating and really taking part in reaching the world and knowing what's going on.

Quotas: People have been forced to get out certain amounts of lit

that they had not agreed on with their colony council, and I doubt that we have all followed what Dad said about everybody getting out one or two hours a day at least, simply because we'd gotten involved with so many things that we thought were emergencies, which actually I don't think were sometimes, especially considering the new Letters.

Publications & Mail Ministry: I know that we have been getting letters addressed to Dad, but I think we failed to forward them on, as well as forward on the answers. All in all, it sure looks like we still have a long way to go to even put the New R and its ideas into effect. The new Letters are going to be a real help in doing it.

Hannah's Reactions to -- "WHERE ARE THE SHEPHERDS?"

I don't think I have been so touched by a MO Letter ("Where Are the Shepherds?", No. 662) in a while as this one, in a very particular way. It is a little hard to express, but it almost felt like ointment on sores. In a way, the Letter does not express anything new, when it talks about shepherds, hirelings, etc., but still I feel we have gotten so far away from it out on the field that it was the most beautiful

thing I have read in some time.
It reassured me of the things I joined the Family for, that they are still the same, that the real Jesus is still the guy who gets beaten, be-littled, spit in the face and so forth, with real love for the people and not someone "cool", "with it" and "on top" of things.

I was actually shocked to see how much closer <u>Dad</u> is to the people than our leadership is, and how we have been brought up the wrong way and direction. It has been such a deep experience for me to be able to be here with Dad and Maria and see the "unrefined" hard work and love and labour of everyone here,

which this Letter is an example of.
It is one thing to hear people talk about love, laying down your life, etc. and another thing to see it. I am shocked even by the simplicity and concern for the little things I have read in this Letter, because I can see every single one of them practised, while before it was the same words, but the actual works presented quite a different interpretation.

Most of all. I feel so convicted by these words myself, that I am very, very ashamed of not following the ord and Dad better and feel like I have been a hindrance, much, nave been a nindrance, much, much rather than a help. But, D.V., I really hope to be able to catch on to the real Revolution, as all this has certainly caused quite a revolution in me. I feel at a new point, a new birth, and pray I can in some ways or not her description to way or another do something to better the situation and pass on some of the blessings I have been getting here.

The Letter has so much to say about being honest and open for the work's sake, the sheep's sake, and how that is the only thing we are here for, and it has blown my mind to see it work! It has created such a relief for me, that I feel like I have come into the sunshine again after being in the rain and cold for a long time.

Out on the field, I think the kids at the bottom are probably some of the only ones trying to obey the Letters—especially the New R Letters. They have to in order to survive, as opposed to the leaders who live on budgets. So many times I have wondered why we again made excuses for not everyone being "the same" and the severe differ-"the same" and the severe difference in living conditions and standards, but being satisfied with explanations like, "we need to raise the standard", which was outright ridiculous, because the only thing we were doing was to create a more severe difference in "class" and not coing in to help everyone raise. going in to help everyone raise their standards.

So, because we all have been so

used to looking to our "leadership", it should be a real solution if we just get rid of our chain of cooperation so that people will naturally seek counsel from the Letters much more and then find people that live the principles of the New R and will help in drawing the kids closer to the Word and win their confidence by being right there, visiting and really helping without applying rules and creating laws.

Hearing this also gave me more

faith just to be honest about things, in hopes that it will help to portray the picture as it is, something which I feel is not commonly taught and

practised.

I believe that the most disastrous thing of all was the way we were practically being brainwashed into thinking that things are supposed to be the way they are and not really daring to take the Bible and Letters as the measure for everything.
Thereby, we were completely getting away from what God is doing and saying today, which is what we are actually living in this outfit for, so we can pass it on to others. So, thank God for Dad, who seems to be doing the work on both ends—hearing from God at the top and speakg up from the <u>bottom!</u>
So all in all, it was so good to hear

the truth about some rules and procedures as well as people. Even though I sometimes felt wrong am sure others did too, about things like too much emphasis on the actual figures of statistics, hard money and the de-emphasis of the Word and care for the sheep, I wasn't sure who was to blame, me or my

leaders.

of Love in Tenerife. Photo by

A Fulfillment of Dad's 'Church of Love!' Vision!

Today, as every Saturday, Betty came to the Church of Love with the children. Afterwards, everyone came into the house and we started personal witnessing. I encouraged personal witnessing. I encouraged her to start witnessing to other people, as there were so many new people. She smiled and said, "You must teach me, I don't know how."
So we talked together first to a man that was there and then to Eloy.

That was the first time she shared with others, as until now I was always sharing with her.

That night I picked her up and we went downtown to Atlantis, where we had a drink and talked. The other day she had told me that her husband would be coming home from a fishing expedition, and this from a fishing expedition, and this evening we had a very good conver-sation about him and her relation-

ship with him.
She told me about her husband, that she loves him very much and that he is a very good man who is taking care of her and the children and everything, but that she is not "in love" with him.

I encouraged her to be thankful to him and just love him with all her heart, as he has been out for such a long time, and now that he is coming back, he really needs a deserves it. I told her to ask the Lord to give her a great love for him, that this would be such a tremendous testimony for him, to see how much she has changed, as I believe it's going to be a surprise for him—all these new friends that she has and these new beliefs. I told her about witnessing to him, to go slowly so as not to blow him away,

Nati with Betty's children (I to r) Jim, Lali and Bill, at the Church of Love.

just to be wise and ask the Lord for wisdom

Then we just danced and had a good time, as she likes to dance so much. Then we went to one of our houses and had fellowship. Then I put on a tape of the Family and she liked it very much. She asked me to wake her up, as she needed to be up with the children.

In the morning I took her home and we had breakfast together with the children and then we had devotions. We read John 4 and I encouraged the children to be good witnesses. Every Sunday we pick up the children to come here and have a class with us about the Bible on flannelgraph.

So Betty is really growing and getting closer and closer to the Lord and all the Family. It's a blessing to be ministering to her and the children as they are such precious children. I really thank the Lord for this ministry that He has given us here, and I am so thankful that He is using us here. I love you very much. -Juan.

WINNING THE GIRLS!-Elena from Finland!

While litnessing, I met a beautiful girl who stopped right in front of me and looked deep into my eyes! I had seen her before, and I gave her a copy of "Sex Works" in Eng-lish. She looked at it and said that she knew our Family in Finland and that some of her friends are in the Family and that she even corresponds by mail with one of them. "They are all so nice, they have so much love!" she said. "I've been

here five months and I am very lonely. I need a friend and to know nice people." The whole time she was looking in my eyes as though enchanted. I took her address and phone number and yesterday I phoned her and invited her to come to Capricho's.

She was so happy when she came to the club and right away started pouring out her heart to me. She told me how many men wanted to make love to her, but just to get things from her, but that nobody wanted to give her something.
"They only know <u>sexual</u> love, but there is a <u>greater</u> love than that," she said. I told her about God and Jesus, and she believes very much. She says she always carries a Bible

with her and constantly reads it.

She told me that she is suffering from a very serious lung disease that doesn't allow her to work or do any strenuous physical activity. She said, "When I have had a lot of pain in my chest, or am almost dead because of my lungs, I read the Bible and this was what kept me going and why I am still alive." The last time I had a hamperhage, the doctor. time I had a hemorrhage, the doctor told me that I was going to die. I said that I didn't want to, that I wanted to live. Life is so beautiful, nature is so beautiful, I love to live." So I asked her to bring her Bible the next day to the Church of Love, so that, Lord willing, I can show her the verses to help her understand about Salvation.

She was completely enchanted by the Spirit. She was making love to me with her eyes. I was a little embarrassed, being in the middle of the club, as she kept looking into my eyes and wanting to kiss me. So we danced a little bit, and then I counselled with Juan about helping her. We took a walk and then came home, and there she shared with me that she couldn't make love, because her lungs couldn't

That's why I look at you all the time, that's the only contact I can have with a man." So we kissed very sweetly, and I was very careful all the time not to get her too excited for her health's sake. It was very pitiful, because she really wanted to make love, but she can't, so I was really praying for her.

I took her home and shared with her about healing by faith, and she said, "I know that God has given me this sickness to learn many things, and I am learning a lot." I tried to really encourage her, and today, Lord willing, we'll pick her up in the car to come to the Church of Love. I am really praying that she'll get saved, although she really seems like she already is, by the way she talked and everything. Please pray for this girl. I am really concerned about her!

A Night's Fishing!

Capricho's is so busy these days! It's such an inspiration to go down there FF'ing! Last night there were eight of us, three boys and five of the girls. We were all kept busy, even Bernardo, who spent most of the evening talking to two beautiful ladies, friends of his, who came to the table to greet him.

the table to greet him.

I suggested to Linda to go dance with a tall man. He didn't seem to

be Spanish, but nevertheless looked very nice, and I felt like we had to catch him. He turned out to be Yugoslavian, speaks perfect English, and is in the hotel business with his friend who was also there. They were supposed to go the next day on an excursion, but Linda insisted they come to the Church of Love. The receptive one, Miro, came with another friend, and Linda led him to the Lord! Hallelujah!

ictor Custom was there also last night. Since he has not been there for a long time, I suggested to Maria to stay close to him and give him the female fellowship he so des-perately needs. She spent the whole evening with him, trying to bring him back to the fellowship of the

Family.
Nati went to greet Juan Optico, and she spent all night sharing with him. I suggested that Dolores go share with his friend, a precious man from La Laguna, whom she also knew from before. Since he was saved, she shared with him about the Holy Spirit and he got filled! Juan Optico drove Nati home and, praise the Lord, he finally got

the help he desperately needed. She said that he was much more receptive and listening, instead of always full of his own subject and ing so much, as he usually does.

Marianne spent most of the evening at the bar talking to Julian Painter, who displays his paintings in a boutique close to Eloy's shop. He is such a precious fellow! He got saved recently, and last night, got filled with the Holy Spirit! Afterwards, Marianne took him for a drink at one of our apartments and helped him out. TYJ!

Celia was also very much on the attack! She met a precious man at the bar and shared with him about the Family, gave him the salvation message, and led him to the Lord! Alberto and I spent some time

sharing with the men at our table. Once things were getting pretty much settled, Alberto went to ask a woman to dance, shared with her a bit, and I also went to greet a Nor-wegian girl whom I had met the day before. She seemed to be touched by the fact that I went to greet her All in all, the evening went very well! TYL! -Paul.

of Control!

"The Crash of '79" is the latest bestselling novel by American finan-cier-turned-author Paul Erdman. His story paints a realistic dooms-His story paints a realistic doomsday scenario of an Arab pullout of petrodollars from the U.S., a nuclear war in the Mideast over Arab oil and ultimately a global economic collapse. Newsweek's Rita Palmer recently talked to Erdman, 45, about the "Crash". Excerpts:

O. Do you really believe a war over oil recentles?

oil reserves is possible?

A. I think the test on this will

probably come, say, in the mid-1980's when the actual physical supply of crude petroleum starts to go down. What can result is a rivalry over the diminishing absolute amount of oil available. Then you can have available. Then military clashes.

Q. Again and again in "The Crash" you downplay the role of Israel.

A. The primary issue is not Israel.

The real issues are energy, who should control it and what kind of special relationship the U.S. should establish with Saudi Arabia, the country which is allowing us to drive our cars around.

O. In your book, the U.S. Presi-

dent is terribly ignorant about what is going on. Is that realistic?

A. Traditionally, our presidents don't know much about economics, and they know zilch about inter-national economics. I think Presi-

dent Jimmy Carter is following completely in this great American tra-dition.

Q. You have the Saudis pulling their short-term funds out of th U.S. in your book and this causes a bank run in the U.S. Is this feasible

A. If Barbara Walters tells us on the evening news that the Saudis are yanking out their dough, it could very well be that you and I are going to line up at the bank the next morn-

ing and get our money out too!

O. Would the crash be a replay of

A. Well, '29 was a domestic crisis.

My crash is definitely an international crisis, a total financial crisis. most important factors are the international banks, and when those dominoes start to fall then every

thing goes.

O. How precarious is the financial

system?

A. It's precarious. The large Amer ican banks are out of control in rereal vanks are out of control in regard to their international operations. There is a large amount of what I would call irresponsible lending to non-oil-producing LDC's (Third World). These countries are obviously not in a position to repay these loans at maturity.

O. Your hero is the financial ad-

Q. Your hero is the financial adviser to the Saudis. How canny are the Arabs in their financial dealings?

A. The Arabs traditionally work with a list of 50 of the largest banks in the world. They are very conservative. They give their money to the bank and say, 'you manage it'—which brings up a funny situation. The Arabs are giving their money. The Arabs are giving their money to the large banks and these banks are lending to the LDC's. What the Arabs cleverly have done is put the New York banks in the front row of risk. In other words, if Zaire goes kaput, Chase Manhattan is in

"If America's whole system was collapsing and suddenly gold and oil have become the only things that are worth anything, what would the Americans do as a last act of desperation? America would try to attack the Arab countries and grab the oil and the gold!" (294:34,35)

A LOVE LETTER TO DAD FROM A NEW VISITING SERVANT!

"Taking Heaven to others"

Dear Dad & Maria
I don't think that I can express in words all of the love that I have for you and how happy I am at your service; my heart is here filling itself up continually with your loving spirit, and wanting to always please you in everything. I love you!

Last night when you shared with me about my decision concerning my new ministry as Visiting Servant, my first reaction was, "No, I want to be with Dad," but little by little, I began to see my great pride, and my heart was broken completely: this signifies that it is time to overflow the water to refresh the people with the Spirit of my Father David. I love you, and I want to be with you, love you, see you, feel you, feel your spirit and give myself to you completely.

you completely.

Since yesterday, I have had a big spiritual fight; I have cried and prayed a lot and it costs me a lot to decide between living in "heaven" (with you), or taking the heaven to

others; but I think that the decision of a servant must be to give the same as you are giving your life for the sheep and your sheep love you.

You are the servant of all servants and your sample encourages me and

You are the servant of all servants and your sample encourages me and makes me want to show you to the rest, that not only I can love you more but that the whole world can love you more and more and more because you deserve all the love in the world.

But it doesn't matter what hap-

But it doesn't matter what happens, if the Lord takes me from you all or not, my heart is with you, filling up here and overflowing there; when you want something from me or need someone for anything, know that I am always ready, but meanwhile, I'll fight with my whole heart so that all will have the Spirit of David.

Much, much love—

Much, much love— Carmen (Spanish national). P.S. After making the decision, I feel at peace and much happier. Praise the Lord!

(The following poem was written by N., an Iraqi petroleum engineer, who Almond first met and led to the Lord in Cairo. Later, she FF'ed him in Athens, and he sent her this poem from Saudi Arabia:)

LOVE'S MAGIC
Love is magic, pure and sweet,
For it alone makes life complete!
Given freely, never bought
The gift mankind has always sought.

Love's eternal through the years

Standing strong through joy & tears Changing not itself at all But working wonders, large & small!

Love turns all the common place To matchless beauty, joy and grace, Makes happiness its specialty And gives itself unselfishly.

Love's a mystery, ages old, Impossible to see or hold But when there's something hearts would say, Love like magic shows the way! FAMILY NEWS
OF LOVE! -BY YOU!

BAWLS OUT
TOP LEADERS!

"PTL! GB! Thank God for the Visiting Servants and the Lord! We don't seem to have much else in the way of responsible sheps! God bless 'em for their good work!"—Love, Dad. 27/1. (Dad reads first Visiting Servants' report to top leaders!)

Information: 18 people (including the six children), Regional Shepherds were living in the Home, along with the Home Servant. Also, this is a visitors home (DAD: In other words, where visitors come!) and the girls are doing some FF'ing (DAD: Now can't you just imagine them bringing their nice FF fish to

a place like this!) and they have started a Church of Love. (DAD: My God, let's hope they haven't!

My God, let's hope they haven't!

The house itself is a bit old, but rather nice, if kept up. But right now it is in bad shape as it hasn't been cared for and is dirty. (DAD: Now you might be excused for living in an old house. You might even be excused that some of it, pieces of it, are either falling down or falling off. You can't help that, that's up to your landlord, although maybe you ought to have a maintenance man to try to fix things up as best you can. But there is no excuse with all the people they have

in that house, 18 people, for not keeping the house <u>clean!</u> I mean, even if it also means not just sweeping the floor and washing the windows and keeping the kitchen clean, but even if it means you have to paint the walls and whatever else is necessary to make it neat and well decorated and decent and unashame.

decorated and decent and unashamed to bring distinguished visitors there, any kind of visitors. I wouldn't want to take any kind of a visitor into a house under this description.

-Nobody, no friends of mine, at

NOW I WANT YOU TO FIND OUT WHO IS TO BLAME BE-SIDES THIS ARCHBISHOP! It's definitely his fault, because apparently he didn't oversee it like he should have and didn't get down there and get something done, if he had to put on his overalls and start painting and sweeping the floor himself! "He that is greatest among you must be servant of all!"

I'M HAVING TO GET IN NOW AND FIND OUT THESE THINGS MYSELF, because you leaders haven't found them out! Think of it, that I have to stir myself up about one little Home out of hundred! I have to get upset and get you up here out of bed and bawl you out for it, because you have not taken care of your work! I have to do it now for you!)

When we arrived, everyone was awaiting us and they all seemed a bit fearful. (DAD: I guess that's the way they usually felt when any big shots came aound. Thank God our dear little Visiting Servants are little shots!) A lot of them were out litnessing, and we could inspect the

house a bit and speak with a few persons, such as the old shepherd.
(DAD: They just voted him out today. I don't know why they thought the other guy was going to be much better, since apparently, had he been living at that house? Well, at least he was supposed to be the Regional Shepherd, and maybe he will do something for it. They didn't have much better on hand at the moment, so I guess they did the best they could. They said that guy couldn't do any litnessing or apparently anything else or sweep the floor, because the Archbishop kept him so busy doing his work, such as collecting the mail. Apparently he is too lazy to go to the mailbox and get his own mail. And this guy makes the excuse that he has to be so busy picking up the mail once a day, or maybe he goes ten times a day, and therefore he couldn't litness!)

They have many problems of organisation and following a schedule for everything. They weren't having daily meetings unitedly and neither were they having weekly business meetings. (DAD: Apparently they weren't having any meetings, period!—Totally contrary to the New Revolution rules issued three years ago!

NOW, I'M NOT GOING TO BLAME THE POOR SHEEP, DUMB SHEEP, that much, because God compares His children to dumb sheep, which is just about the dumb-

NOW, I'M NOT GOING TO BLAME THE POOR SHEEP, DUMB SHEEP, that much, because God compares His children to dumb sheep, which is just about the dumbest animal there is in existence, if you know anything about sheep. Did you know that sheep—I'm talking about real sheep now, the animals—couldn't exist were it not for man? They simply don't exist in the

wild. There is a kind of sheep, what they call these hill goats and rams, but they are completely different from the kind of domesticated sheep. Domesticated sheep cannot take care of themselves, and they are notoriously the dumbest animal there is! If one of them runs and jumps over a cliff, all the rest of them will follow him!

they are notoriously the dumbest animal there is! If one of them runs and jumps over a cliff, all the rest of them will follow him!

SO SINCE GOD HIMSELF HAS ALREADY CALLED HIS PEOPLE DUMB SHEEP, I'M NOT GOING TO BLAME THEM VERY MUCH. But I am sure going to give hell to the shepherds, the ones who are supposed to be taking care of them! THIS IS JUST LIKE A HOME WITHOUT A SHEPHERD AT ALL! Apparently there was no shepherd, nobody organising them, no schedule

MITHOUT A SHEPHERD AT ALL!
Apparently there was no shepherd,
nobody organising them, no schedule,
no cleaning, no meals! Can you
imagine!—Because there were no
cooks! Well, maybe they had some
meals, but sometimes they just
didn't cook at all!)

Because of this, everyone was doing his own thing. We found that they didn't have meals sometimes, because nobody cooked, and they don't have a good plan for cleaning the house, and the finances are a mess, all because of a lack of communication. They also don't care for the house, because nobody was considering it their own home, because everyone was just passing through to other parts in transition. (DAD: Apparently, everybody going through there just thought they were on their way someplace else, so why should they worry about the house. Well, I want to tell you something!—WE'VE GOT PEOPLE WHO PASS THROUGH THIS HOUSE ON

TRANSITION, AND THEY ARE IMMEDIATELY PUT ON THE WORK SCHEDULE, and they pitch in and sweep floors and do dishes and all the rest-not only my staff but yours and visitors as well. Why should anybody think they don't have to do anything and not have any duties just because they are passing they are the state.

any duties just because they are pass ing through!

I HAVE NEVER AT ANY TIME

EVER HAD SUCH "GUESTS" IN ANY OF OUR HOMES that I had anything to do with! Everybody who knew anything about it at all, who were supposed to be members of our organisation at all, knew that there was no such thing as "guests" in our colonies, except system mothers and fathers or members of the press or friends, fish, or somebody else.

IF THEY WERE LIVING IN THE HOME, EVEN FOR A FEW DAYS, THEY PARTICIPATED IN THEIR WORK. Now where do these people get the idea that they can just lounge around as guests between the past of the past

cause they were just passing through? Also, they were looking for another house, but they weren't even taking care of the house they have. Almost everyone has their clothing but they don't have closets or shelves. Suitcases and bags are all over the floor. (DAO: I wonder if that is a common practice in our homes, if they are still camping out like hippies. God help us! I wonder when our kids will get it through their thick skulls that their bumming hippie days are over! Since they have become a Christian, they ought to live somewhat differently.

25

THEY ARE NOT CAMPING OUT ANYMORE, UNLESS THEY ARE ACTUALLY OUT ON THE GROUND! Any Home, any fixed HOME, has no excuse whatsoever to act like they are camping out. They with the order out and provide the second of ought to get out and provision the furniture, whatever they need! My God, I've been in houses where I nailed up a rod or I hung up a rope to hang clothes on, if there weren't any closets.)

Also, they don't have personal towels for each person nor sufficient sheets. (DAD: I want to tell you that even when we were virtually bumming and camping out and living on the road, we weren't in that bad shape! Everybody had his own towel. Everybody had his own sheets or sleeping bag. I can't imagine such conditions existing in our homes!)

.nor warm enough blankets (<u>DAD</u>: Here in <u>mid-winter!</u>)... and the house was a bit cold, even though it has a functioning heating system—a coal <u>furnace</u> (a small one) and radiators in each room. / <u>DAD</u>: Apparently someone is too lazy or doesn't know how to run the fur-nace. Thank God they've got some heat!

Neither do they have hot water. (DAD: Now can you possibly imagine living just a few days without hot water in mid-winter? Have you ever felt how cold the water is coming out of the tap this time of year? It's too cold for me to even drink it! To shove your hand in water. it! To shove your hand in practi-cally gives you a <u>chill!</u> Can you im-agine a Home that turned off their hot water heater because it wasn't functioning properly and then just

let it go just because it needed clean-

ing and adjustment? I'll tell you-ITHINK FROM NOW ON WE I THINK FROM NOW ON WE ARE GOING TO HAVE TO MAKE IT A REQUIREMENT THAT NO MAN CAN POSSIBLY BE ELECTED HOME SERVANT UNLESS HE HAS SOME MECHANICAL, FIXIT ABILITIES or has got a man in the house that has. We've got it on the Home Checklist: Is there anyhody in your Home that can fix body in your Home that can fix things, a maintenance man of some kind?) No hot water in the taps simply because the water heater is simply because the water neater is out of adjustment and needs cleaning. So they had cut it off, because the water didn't come out hot but only slightly warm. (DAD: Well, if you ask me, it is better slightly warm than not at all!)

We talked with almost each person in the house concertain. Fiveryone

in the house separately. Everyone was happy with the new Letters and very thankful that we were there. (DAD: I wonder how long it had been since they had had a visit from anybody, any superior officer who cared. Son, I want you to get on the telephone or get out in that car and go tomorrow and get ahold by the neck everyone of the officers respon-sible in this thing! Every one of them knew these conditions existed, or should have known these conditions existed!—And fire them tomorrow!
Put them out litnessing on the street or tell them they can go anywhere they want to go and pioneer a new Home. I mean it!

Home. I mean it!

WE ARE GOING TO MAKE AN

EXAMPLE OUT OF THIS PLACE

AND SOME OF THESE PEOPLE!

As I told you in my note, may God have mercy on them, because I'm

not going to have much mercy on them! I have told people too long and have written it too many times, and by the help of God it's never

and by the help of God it's never going to happen again!

NOBODY IS EVER GOING TO WALK INTO ANOTHER ONE OF OUR HOMES AND FIND IT IN THIS KIND OF CONDITION, if I can help it! If I have to go in there and start taking a whip made of thoms like legis did and whip out. thongs like Jesus did and whip out the money changers and get the people to work!)

The main thing we found they were not doing in the Letters (DAD: Thank God! The one thing that thrills me is that our new system is working, and the very first day we put it into operation we found out. So that's one thing we can be thankful for!)...was sharing sexually. All said they'd like to do it, but lacked initiative to take

the first step.

(DAD: NOW WHY DO YOU SUPPOSE THEY LACKED INI-TLATIVE TO TAKE THE FIRST STEP? Well, I presume it was for the same reason everybody <u>else</u> was God-damned scared in <u>all</u> the Homes we have heard from doing it because whenever they had done it before, they got bloody murder

from their superiors!

SO EVEN THOUGH THEY
FOUND IT IN THE LETTERS,
THEY WERE GOD-DAMNED
SCARED TO EVEN TRY IT. because of what they had already heard from their superior officers! Think of it! I've been feeling a little bit sorry for some of these officers I've been firing and throwing out of their jobs this month.

coming month at least, but I tell you, things like this are beginning to make me real happy, real happy to know that they really deserve it!

THEY DESERVE JUST WHAT THEY'RE GETTING! They need

to go out <u>litnessing</u>; they need to go out and <u>pioneer</u>, because they certainly haven't been good <u>shep-herds</u> of the sheep. You know what, if I had been them, I would have been around to these Homes at least once a week, when I lived right there in the same town, and I wouldn't have stood for a moment for one thing in that place not functioning, not a toilet, not a hot

fix it myself!

NOW WHAT THE HELL IS
WRONG WITH THESE SUPERVISING OFFICERS? If this is the kind of supervisors we've got, to allow these conditions to exist right under their very noses and don't give a God-damn about it, then they

need to go on the road, son, and the quicker the better!
YOU TELL THEM TO GO OUT LITNESSING TOMORROW, and if LIINESSING TOMORROW, and if they don't like that, they can go and pioneer! They don't deserve to handle people anymore! Have you ever seen me mad before? I think there are a few times you have!

WHEN I HAVE TO BE PERSONALLY INVOLVED WITH THINGS that I shouldn't have to be passons.

that I shouldn't have to be person-ally involved in, because of the failure of <u>others</u>, I am plenty <u>mad</u>, son Now I have fired people real quick, sent them on their way, for stuff son! like this!

IF YOU CAN'T LOVE YOUR

SEEN RIGHT HERE, how are you going to love all the other brothers

IF YOU CAN'T TAKE CARE OF A FEW HOMES THAT ARE RIGHT UNDER YOUR NOSE, how are you going to help the rest of them? I'm sorry son, but you are partly to blame. Every one of you lived there for months and didn't discover the hell of a mess these Homes are in!) They lacked initiative to take the first step. (DAD: My God, what's the first step? The) must have been afraid to step out of their bedrooms or something!)

of their bedrooms or something!)
We tried to give the vision, to inspire all, that now the Letters are the leaders. (<u>DAD</u>: Thank God! Apparently we haven't had much else in the right leadership!). . and they need to obey them. At first they were accepting our suggestions like they were laws (<u>DAD</u>: In other words, they were usually used to setting orders, apparently, from shell getting orders, apparently, from shep-herds that said, "Do it!" and then left and never came back to see if it was done.)...like the old vision. (DAD: In other words, the old way.) and were very happy when we would talk honestly, openly with them, and very excited because we represent the RNR for them, and got a vision to be more participants in decisions. (DAD: People who are just used to taking orders of course never learn how to make decisions themselves.)

Everyone has small problems that could be solved amongst themselves, but nobody shared. (DAD: Apparently they were even afraid to communicate with themselves. Well, when you get beat down for saying

a word to <u>anybody</u> for <u>anything</u>, as so many have from all the stories we have heard, then you are even afraid to talk to each other. Lord help us!)

Some persons never go litnessing, such as _____(DAD: who is sup-posed to be the Regional Shepherd!) whose major problem is that he has to gather the mail for the Archbishop everyday, and this doesn't leave him everyay, and this doesn't leave full much time. (<u>DAD</u>: Well, what does he do?—Go downtown to the post office and does it take him all day to make the round trip and back home again? Well, I think you had better find out!

find out!

THIS GUY I WOULD CONSIDER

JUST AS GUILTY as the rest of
them, even though they just voted
him in because they didn't know who
else to vote for.—Probably because
they have never had enough people
around to see how they were doing around to see now they were doing to know anybody else by name. He is the only one available, he is the only one there. All of a sudden now he is going to start doing something, probably because he knows he'd betatled.

he'd better!)
He confessed that this "RNR" was a complete liberation and he is was a complete liberation and the en liberated from the Archbishop, thank God, and they are being lib-erated from the Archbishop too.)

When everyone else returned a-bout 6 p.m., we had a little meeting reading the new Letter ("Colony Rules") and the rules from it gave a complete new vision—every point from it, that is, such as litnessing, choosing a leader, etc. (DAD: Well, I'm sorry I had to get you up here this hour of the morning, but I just

wanted to give you a sample of what is wrong and what has been wrong and my God knows how long and why the Lord led me to make a real shake-up and everything that is happening, that the Lord sure knew what was going on, because you

yone had read this Letter but they didn't know how to apply it to their particular life. (<u>DAD</u>: <u>Why?</u> Just as clear as can be! Why didn't these dumb sheep know how to apply it to their particular situation?

apply it to their particular situation?
We are talking particularly about
the Home laws, the new Letter I
just got out recently, "Colony Rules".
WHY WOULDN'T THEY KNOW
HOW TO APPLY IT TO THEIR
SITUATION? The same reason
again: Dumb sheep don't know
what to add. Somebody has got to what to do! Somebody has got to be the leader; somebody has got to be the boss; somebody has got to be the shepherd and some executive

the shepherd and some executive has to carry out the laws and get the sheep to follow.

SO APPARENTLY THIS HOUSE JUST AS GOOD AS HAD NO LEADER AT ALL! They were just a bunch of people living together there, that's all.—No organisation, no schedule no work schedule no work schedule no schedule no work schedule no sche no schedule, no work schedule, no cleaning, no cooking, no nothing! I mean, it's almost unbelievable! Sometimes not even meals, because nobody cooks. Lord help us!)

We tried to inspire them (each one) that the whole work depends on their faith and initiative (DAD: See, that's the trouble when you put up a bossy system where ever body is told what to do. Then if somebody doesn't <u>tell</u> them what to do, they <u>don't know</u> what to do!

IF THERE ARE JUST DICTAT-ORS, then they are so used to just getting orders and nothing else. Then when there is nobody around to give orders, they don't do any thing. And apparently, they didn't have any kind of a boss there at all, much less somebody that could lead them.)...and to do it for the love of God and David and his sheep and not for obligation of the law.

After, we had an election to vote in a new servant, and they elected unanimously the Regional Shepherd. He is an American, but has a vision to get a co-servant. His wife will be the mother of the Home. (DAD: Apparently, she must be an American too, or he wouldn't need a co-servant.) We think it is a good election at the moment, because he has a good potential of helping the Home rise up.

(DAD: WELL, MY QUESTION WOULD BE, SINCE HE ALREADY LIVED THERE, HOW COME HE HADN'T DONE IT BEFORE? While he is passing the buck to the old Home Servant, well if he was any kind of leader at all, he should have ridden herd on the Home Servant, if the Home Servant didn't

vant, if the Home Servant didn't take it into his own hands to get the thing organised himself. He should have pitched in and gotten it organised, right?

NOW BELOVED. WE JUST CANNOT HAVE CONDITIONS LIKE THIS GOING ON IN OUR HOMES! We just can't have it! It is a reproach to the cause of Christ! That thing down there is a shame and a disgrace to us. We shame and a disgrace to us. We ought to be ashamed of it, and we ought to be ashamed that we let it

exist right here under our noses.

I WANT YOU TO TAKE THIS

LETTER AND READ IT TO THAT

ARCHBISHOP and his wife, to let them know why they are fired! There is no excuse for those conditions existing for hardly one day in that Home, and he should have made sure somehow through somebody that that place was taken care As close as he lives to it, being right there in the same town, should be getting around and seeing these places at least once a week or once a month or something, right? If he were any kind of shepherd

BUT APPARENTLY, HE IS JUST LIKE ALL THE REST, sitting up there collecting money and stats, and to hell with the sheep! Just keep them out there whipping to the side wells. the sidewalks.

at all!

the sidewalks.

NO WONDER THEY ALL SAY
THE SAME THING WHEN THEY
MEET US: "Thank you so much
for this little time with you, it's
been such a relation. We wish been such a <u>revelation</u>. We wish <u>everybody</u> could spend time like this and <u>understand</u>." For God's sake, what is it about us that cersake, what is it about as that cer-tainly makes people feel that we love them and all of a sudden they are loved, whereas they have been like living in a tyrany and a dictator-

skip for the secret police and scared to even meet us!

WHAT KIND OF LEADERS

HAVE WE HAD, SON, THAT

HAVE MADE THESE PEOPLE

ALMOST NERVOUS WRECKS?—
With for and trambling even com-With fear and trembling even coming here to visit! When this Home heard that some officials were coming to visit their house, they were

just like this. Maybe it was because they knew that they hadn't cleaned house!)

His campaign speech promised to get the hot water working.-Ha! (DAD: I am more and more convinced that on every Visitwincea that on every visit-ing Servant team, a man or a woman should be some kind of a fix-it repair man who knows how to analyse the troubles, check it out and if not actually repair it on the spot, at least tell them what's wrong with it and how to get it repaired and what to do. And we shouldn't have a Home where there isn't some fixer. How can any father or any home have any kind of a man who home have any kind of a man who doesn't know how to fix anything? I mean, you've got to have somebody around! If you can't fix it yourself, you're got to get somebody to fix it!

NOW I'LL TELL YOU. WHEN I HEAR THAT PEOPLE ARE DOING DISHES OR SWEEPING FLOORS and cooking breakfast and are not afraid to pitch in and do jobs that are not even their own, because they need to be done—

jobs that are not even their own, because they need to be done—menial labour jobs—
I'VE GOT A LOT OF FAITH IN PEOPLE LIKE THAT. WHO ARE NOT AFRAID TO WORK! These guys who just sit around collecting money and stats and don't even care enough about their local Homes to go around and see what they like, they're not shepherds!)

Afterward, we had an ordination for him and each person looked up Bible verses to give on being a good servant. We were turned on by the wonderful verses they got a fantastic list of verses.

(DAD: Well, that much I must sav.

apparently, for our poor little sheep.
AT LEAST THEY KNOW THEIR
BIBLES! Maybe they don't know how to clean house or fix the water heaters, but at least they know their Bibles. Thank God for that! That's probably the only reason they have ever pulled through.)

Everyone's heart kind of melted together as they each gave verses. (DAD: For one thing, they were having a fellowship meeting for a change. - They hadn't been having meetings of any kind at all. You can't run any kind of a home or any-thing unless you get together at least once in a while!) Then we all laid hands on the elected Servant and prayed for him. Afterward, they filled up with visitors who came around 7. (DAD: God help 'm!) We shared with the new Servant the

things we had observed in the house and gave our suggestions and shared a little of the checklist. The things which we emphasised were finances and provisioning, and encouraging them to help one another out sexually, and fixing up the house—all the little details of the house. He took real good notes, and received them well

them well.
(DAD: WELL, WE'RE GOING TO BE SURE THEY GET BACK TO THAT HOUSE pretty soon and make sure he did them well, as well. I don't like people who just take notes and then go and forcet about notes and then go and forget about

Really, when we left the house, the spirit had changed completely!
There shone new hope and inspiration on their faces! We also emphasised breaking up the blob! Some people are planning soon to leave the Home—one couple and a girl plan to go to Italy, and a couple and three children to the North to pioneer. (DAD: PTL!)

All the visitors now for all the city are received here at this house, and following the direction of the

and following the direction of the new Letter we suggested to them, & we plan to tell the other Homes that they should all receive their own

visitors. (DAD: Good!)

Thank the Lord! A very inspiring day!-Love, Your Visiting Servants. (DAD: Ha!-At least it shows what (DAD: Ha!-Al least it shows what a mess things are and how needed you and the Letters are!—Thank God! May God have mercy on those responsible because I'm not gonna have much mercy!)

Den KOS! I think you'd batter. Dear KQS, I think you'd better send your officers on the road or out litnessing! I'm furious!!-To think that you folks have been here this long and knew nothing of these local Home conditions or did nothlocal Home conditions or did nothing about them is almost unforgivable neglect of your duties! If I hear of anymore like that I'm gonna blow my stack and fire you all!

- Very MAD, Dad 27/1

-& to think that I had to discover these myself! - What kind of Shepherds are you!

A NEWLY APPOINTED KOS'S REACTION TO THE FIRST VISITING SERVANTS' REPORT!

Dear Dad & Maria, 27 Jan.
God bless you! We love you so
much! We just read the Visiting 27 Jan. 78 Servants' report and your comments, for devotions. Needless to say, I

pression on me and is causing me to further re-evaluate my position, on the way I can see that we should be doing things as newly appointed

First of all, I think their report pretty well describes the conditions (plus or minus a little) of a good "field" Homes, sad to say. I think it was a very revealing pic-ture, and I don't believe that particular Home is by any means an "exception". I believe it is a very true, perhaps shocking, but never-theless true picture of what a lot of Homes are like!

And, as you said, I think it's

good in that the true picture is becoming clearer. Reading the report made it much more cl me about the true state of the Homes in N. Europe. I know for a fact that the "field" Home in Zurich was probably a lot like that, as well as others.

I don't think it's so much the actual physical conditions, either. I certainly believe that virtually all of us live much better (more food, better housing, etc.) now than the people who were on the road at the beginning with you.

I think it's more of a problem of

the attitude of the leaders. On the road, for example, you made sure that everyone had the best possible conditions under the circumstances. You were really concerned about every little thing, and (I know I've felt it here) people really felt that you loved and understood them! And, you had faith in people, and you really lived by faith! What I've been trying to do is understand why they found a Home in the shape of the one they did, and why so many others are. I think for one, the wrong spirit has been passed down. In each major area things are run pretty much by either the A.B. or Minister and his two immediate under-officers.

The leaders have felt responsible

to have all the answers, but haven't encouraged others in decision making. I wonder how many times a leader has gone into a Home, and when asked a question, said, "I don't know. What do the Letters say? That has got to be your decision."—and then really encouraged and inspired others to make the right decision. I think it's going to take time to build the confidence and faith of a lot of our local Home Servants, so that they will start doing a better job. I think too many people don't really have faith in themselves-especially a lot of sweet,

humble people.

The emphasis has been on the leaders and not the Letters. So thank God for the RNR! And I think the leaders haven't been real shepherds all too often. The leaders have been so busy with other things (music, finances, administration) that the simple job of following the Letters and just watching the sheep has been neglected! Through the gripe letters, you heard the bleats of the sheep. Now you've seen the physical conditions of the Homes. But I believe it all stems from the same problem!

I really do believe that the RNR is the answer. If we have Visiting Servants and SCS's and KQS's who really, clearly understand the "old"

and the "new" and who will be faith- Homes myself. But, as someone ful to live the Letters in the Spirit themselves, then no Homes like the one they found will exist for long! Finding the right Servants is so important.

My first reaction after reading their report was to go and visit the said, that is like the old. I think we could probably help change things more by trying to build faith and confidence in others!-Especially if it's some new bottles.

Much love & prayers,

Emmanuel Provisioner.

A NEWLY APPOINTED KQS's REACTIONS TO THE NEW LETTERS! -WITH COMMENTS BY DAD!

Dearest Dad & Maria 27 Jan. 78

I love you so much and I just wanted to let you know first of all that I have learned more this last day or so than I have learned in ages: Reading the new Letters, sharing in devotions about the letstraining in devotions about the ter-ter and report from the Visiting Servants (<u>DAD</u>: Ha! Did you hear the ruckus this a.m. -6 to 8? I was bawling out the top leaders for allowing such Home conditions to exist right under their noses!), and most of all experiencing your personal love and concern for each one of your flock.

I am just so thankful for all this experience and I want to take it back with me wherever I go forever. I just want to learn all I possibly (DAD: Amen!) Reading this morning through all the material you asked me to go over was really an experience. "Where Are The Shepherds?" especially helped me to see just how important it is that to see just how important it is that I am completely frank and really prayerful about how I phrase and relate situations and experiences. (DAD: Amen!). Your warnings to Emmanuel about not shielding his

leadership were very clear and also the importance of accuracy was impressed upon me,

So I'll really be trying to wear my "green shirt" and be as open as possible. After going over the Letter this morning from the Visiting ter this morning from the Visiting Servants, it just showed me more than ever that we have to stop the flow (DAD: Sorry, but we didn't get this one-stop what?) (Keda: Sorry! I ain't deep, I just ain't clear! I meant, stop this trend towards high pressures on the kids and their not setting all their needs met) and the getting all their needs met.). .and the Letters are doing just that—helping each one to stop and reassess where they belong and how they are being led personally by the Lord, and then stepping out and doing it!
I'll go through each of the Letters

I read firstly, then answer more of the questions you asked after that. I love you both so much!!

"RNR": The whole thing is just

so true and each point was right on

from the fact that bureaucracy was hindering progress to the fact that permission to help out Family members sexually had to come from leaders far up the chain (and then it wasn't always granted!) (DAD:

Who said? Who started this policy?
-You certainly can't find this in the
Letters!-Can you?-Couldn't they see such freedom in the FF Letters? If I start kissing you in your bed-room, I'm certainly not going to stop for a Council Meeting, much less phone up the Chain!-Ha! Hop to it!), and the fact that there wer a number of weak leaders and the number of mistakes were multi-

plied because of this.

Changing the names is really going to help the changes come into force soon I believe—stressing Servant, Home and Family will help us move more speedily into that frame of mind and behaviour.

Something that really struck me in paragraph 40 is that you are placing the faith in the kids to give (DAD: Amen!) where in the past we have used the taxes to levy extra funds from each colony's income to put into funds to use for overto put into funds to use for over-seas—in our case Southeast Asia. I don't know why we just didn't have the faith that the kids listened to the Lord and could see the need to help their brethren in poorer countries, but it really convicted and inspired me to read that. GBY! (DAD: They may need some en-couragement to give-like suggesting 10% of their surpluses for missions?)

Also by stressing the importance of national brethren as leaders, it is going to help ensure that they are seeking real leaders and not just sweet sheep. Also getting the English Letters into the hands of the nationals right away will be a real key in them hearing the Letters right away-they'll demand to hear

the translations! (DAD: PTL!) I remember coming into a few colonies a while back and finding out that the new brethren were not getting copies of the FF Letters until they had finished reading the 144 (DAD: <u>Ouch!</u>), but we stopped that right away, but I bet it could be happening still to a lesser degree. One of the things that strikes me about the new offices:

The Visiting Servants are going to be free to just travel and share and visit and won't be responsible for keeping up with each little detail of is other colonies plus clearance and PR and all like we had to before. (DAD: Amen!) In other words, it is clear that the Service Centre will be responsible for the printing and a lot of the finances and administration, whereas the Visiting Servants will be free to do just that. The effectiveness of each will be really increased a whole lot, I'm sure. Hallelujah! Thank God for all these solutions! (DAD: Thank the Lord!)

"Colony Rules": One of the main things that we noticed in reading this Letter in Australia was that so many of the quotes were from the New Revolution, and especially since we have this recent pressure on national quotas (<u>DAD</u>: What are <u>these</u>? Never heard of 'em!), we could see that we were nowhere near living them! Lord help us, in letting ourselves get so far from what had already been written down! We had quotas that were passed down to us and it was really almost a formality that the kids should have any say in them. We tried to cut down the number of

Lit Exempt brethren, which was good, but the fact that the families couldn't get all of their quotas meant that a lot of the singles had to get theirs as well, as well as the brethren in the Islands—to keep the national quotas high enough to keep the statistics balanced!!

It's clear that it was all coming from the top and not from the bottom, the kids or even the need of the sheep in the country. With all the lit that Australia is getting from Hong Kong at the moment, we will be getting about one piece of lit to almost one in fifty Australians. Compared to the fact that we have just 18 adults and 12 children in Indonesia to reach over 140 million people, the odds are crazy! (DAD: God help us!)

Having unanimous decisions on all issues will sure be a help in making sure that all have a fair share in the decision and not just the Americans

rolling (DAD: Ha! PTL!) down South, since several kids were praying about having a more open rela-tionship, so we had three in three what gave them the faith to step out. TYL! (DAD: Betrothals never had to be legalised! Where'd they get that idea?—Much less even permission to help each other occasionally—or from? —I'd like to know!)

"Nationalisation": This was a real revelation, about moving on the

Americans so that the nationals can move into their jobs, then get the U.S. kids out pioneering like they

always do so well. I had never seen it so clearly before, but it is obviously true. The tip of how things are working in Tenerife with the local working in Tenerite with the local brethren leading the physical mat-ters firstly until they can grow into the spiritual area—whereas in the past, we have always waited until someone could do both before they would grow be gestidered. (PAP) would even be considered. (DAD: God help us! The early church had deacons who were just waiters be-fore they became preachers!)
"78 Here We Come": It blew my mind to read that the Chain of

Cooperation would have worked if Cooperation would have worked it we didn't have so much poor leadership. (DAD: We're all a bunch of novices, but learning, TG-I never had a job like this before either!—Ha!) That just really broke my heart to read. And then to read that we are risking the whole Revolution again was really something too! I know that is the Lord's soltoo! I know that is the Lord's solution to all the things that have been coming up in the gripe letters! "Where Are the Shepherds?":

As I mentioned before, this letter really helped me personally to see just how important it is to be totally frank and really say what is on my heart. I really believe that it will have the same effect on the other kids too—I sure pray so! I had never heard the standard that "failure to report a crime is a crime" before (DAD: You gotta see it in a Letter first—and it still remains to be seen if they'll obey it! God help us!) and it really impressed me! It really makes clear exactly the types of people who should be appointed as Servants— ones with a real heart for the needs

of the sheep and not for their own things. (DAD: Amen!)
"Visitation: How To Do It":

Laying out the plan that the Servants are to live up to their names and not to have power to order the Homes to do this and that, but are just there to help them sort out their own problems and situations according to the Letters, is just fantastic! I can see that the first little while it might take a bit to get going and into the swing of things. But once it is rolling, it is going to really develop the kids' own self-determination, as some one said this morning. I can really see that when they visit and don't give the answers to all the questions, but simply keep directing the kids but simply keep directing the kids back to the Letters, saying, "What do the Letters say?", it will really bring everyone closer to the heart of David, and make them dependent on the Lord as individuals! Hallelujah! And I guess that's a-bout the best results we could possibly want!! (DAD: Amen! Let's hope and pray so!)

It strikes me that it will take un-

til the Visiting Servants actually come around till the kids start to get the vision and really begin to apply the Letters-particularly in the area of sexual freedom within the Family. They will specifically have to encourage it, I believe, or the kids will continue to be as inhibited as we all have been in the past-because of the negative coun-sel we have received from leadership in the past. (DAD: How could they <u>dare</u> contradict the Letters and make the kids <u>disobey</u> them!)

I love you both a whole bunch and hope this helps. I think I will take a brief nap, then get on to the next part—about our demotions from Prime Ministers and me from Minister and how I see it. I'll keep them separate as asked, though, so that you don't have to wait un-til I've finished the lot until you can read it. (DAD: Tks!) Please take care of yourselves and get enough rest—we need you so!!

Love, Keda.

(DAD: GBY! WLY! Hope to see you soon!)

ope, because since coming here we have already experienced and seen so many things that we felt the kids on the streets need to know about, that we almost felt obligated to share somehow.

We read "Love Never Fails" to gether this morning, and were quite struck by the fact that God can really do it, and give the victory by grace, so we felt-

It sure could be an encouragement and sample for other leaders to go right to the bottom and have faith for people to at least take them in, as we know you have picked us up and put us in the sunshine of His love, with all your encouragement and TLC, and needless to say, we do feel very, very incapable and un-worthy for you to show us that much love and confidence, and we would really, really hate to let you

down! In fact, it is quite incomprehensible to us, and almost feels like a joke on the whole R, considering all the mistakes we made, that we almost feel like the newest "Mokes" (what a combination, the folks and

the mokes!)
"Did God Make a Mistake?" what an appropriate time for mailing this Letter out! We wonder how many of the kids even read it, because, to be honest, I, Hannah, didn't but just dismissed it because I was "too busy and didn't have time" to read an "old Letter". Lord help me! Thank God you have stayed so dropped out. It is certainly a principle of the way the lord works having such an icono-Lord works, being such an icono-

LETTER FROM EMMANUEL & HANNAH NEWLY APPOINTED KOS'S OF NORTHERN EUROPE!

Dearest Dad & Maria 24 Jan. 78 God bless you and thank you so much for your encouraging note this morning and the verse you got from the Lord. TYL! What a bless-ing to be able to help in the "Min-istry of David"!

After we read over your com ments on us being the new KQS's of Northern Europe, we have to say that we both felt quite humbled by it, because neither of us are even too

it, because neither of us are even too sure what KQS's need to be doing, let alone capable of being one. Be-sides, as we've said before, Our preference is to be "door-keepers" in the house of God, and we'd prefer to stay as close to you a as possible, even with no titles. We both feel that we have so much to learn. However, we both felt a certain responsibility for Northern Eur-

LOVE LETTER TO MARIA!

Dearest Maria. 31 Jan. 78 I love you! Well, I've tried 5 or 6 times To write you a letter But my pen is confounded And not getting better! It's really quite crazy, Completely absurd! As I want to say something, But can't find the word.

I've always had problems I ve always much problems
Expressing in ink
What I feel, my open heart,
What I really think.
Perhaps it's been fear Of being refused But my power of "sharing" Was not fully used.

냃

But you've amazed me At how so freely you share And you've opened to me Without worry or care. It's a real kind of love I'd never felt before, Like footsteps that lead Through a very special door.

So I wanted to thank you For opening to me A world of communication Where my spirit can be free! Thank you for teaching me How to be open Showing unselfish love And I'm only hopin' ...

That I'll live it and give it And share it with <u>others</u>
So they'll be free as well
And be sisters and brothers. Love, Shaul.

P.S. Maria, your little visit with me the other night helped me so much. I felt so close to you and Dad, as almost my biggest trouble has been opening up to others on a personal level, though I've wanted to so badly.

Latin America needs that sample

so much of 100% total love and sharing, and I know I've failed in really showing that 100% concern for others that I should have. So Lord forgive me!

But this is honestly one of the

first Homes I've ever been in where I can feel right at home just being me and knowing I can be open and honest with everyone. Thank God for His "Green Shirters"!

Your and Dad's love and concern are the most beautiful and perfect sample of genuine love that I've ever known!! And you were the sweetest, most sincere little lover, I could hardly believe it wasn't all a dream after you left. It's all been making the Letters become so alive to me, they're so real, so wonderful! GBY! ILY! Love, Shaul.

Tenerife: Church of Love!

The fantastic results, after returning to Dad's original

"Church of Love" vision!

THE CHURCH

OF LOVE!

-A report to Dad!

Last week we had a meeting about the Church of Love, as for a while now I haven't really liked the way we've been doing it, but I didn't want to change things if every-one else liked it and thought it was what we needed. So we had a big conference, and everyone had a chance to say what they thought of the Church of Love the way we do

We all agreed together that it wasn't churchy enough to really reach the women and the people we need to reach here. So, we have completely revamped it!

We went back and read your ori-ginal dream and did it that way, the best way, the Lord showed us <u>first</u>. Last Sunday afternoon was our first real Church of Love, and it was fantastic! I'm enclosing the bulletin (see page 2) for you to look over to get an idea of the order of things and what we did. The picture of Jesus is hanging on the fireplace, so we had flowers on the fireplace ledge, and Juan sat right below the picture, and it really created the

right atmosphere.

The people were all so much more reverent. Amanuensis played the piano, and we cut out the puppets and theater, which had made it all more like entertaining and PR than worshipping in church, and had a little church meeting.

Everyone commented on how different it was this week and how much more they liked it! So, praise the Lord, I feel like we're finally

on the right track with the Church of Love. We have all learned that it pays to do things the Lord's way and not waste His time doing our own thing and getting off the track. It's not that it didn't bear fruit the other way, the old way, but it just didn't bear the fruit it could bear, it didn't really reach the people it needs to reach and who need it.

We all now feel like we really missed the mark by not just following the Letter to the last little detail in the first place. (These skits and puppets and all came about, by the way, when I was visiting you and someone else was in charge.)

So, we just want to testify that the original way is the best! It def-initely is the best for our friends here who need a "church" to go to, and the other that we offered them was not churchy enough for them, which may be why we had such a big turnover each week, without really building a congregation of faithful attenders. We are so thankful the Lord didn't let us be pleased with second best, but helped us see where we were falling short in were failing short in meeting the needs in His Work here. We still have a long way to go in pol-ishing the details, but we all really liked the basic way things went last Sun-

We started the service with just the piano playing, until everyone was seated.
Then we all sang Psalm 121, which we had typed out on the attached songsheet. (Next week we're going to use thicker paper, so we can type the songs on the back side of the bulletin.)

After the song, we had united prayer led by our preacher Juan. After the prayer, he welcomed everyone to the Church of Love and said that if anyone had any special prayer requests, they could write them on a piece of paper (which we had stuck in the bulletin) and put it in the offering plate as it was passed, and then at the end of

the offering we would have special

prayer.

The piano was playing softly in the background all during the offering, and people were praying silently. Then Juan prayed a special prayer for each prayer request. The prayer requests were pretty Catholic, but it was the first time some of our visitors had come, so they didn't know what to expect or anything. But three of the six visitors made special requests, so we thought that was pretty good. TYJ! They also put 1,750 pesetas in the offering plate! PTL!

Then Juan introduced the read-

ing of the Letter, saying that today's reading was the first in a series of 31 writings of Father David on our spiritual life and walk with the Lord, entitled "Squeeze Don't Jerk". Then he read the Letter, which was really well received. The people

were so reverent, not just politely listening, but really respectful! TYJ!

Then we sang together the Family song Psalm 139, and afterwards two of the Family gave little testimonies of something the Lord had done during the week. (We'll use that time to give personal testimonies. litnessing testimonies, etc.) This week, Lee told about a man in the market who always gives us real good food, and this week he received Jesus; so he's helping us materially and we're helping him spiritually, a good exchange! Then after a few testimonies, we all sang to-gether the Prayer of St. Francis of Assissi, and then prayed together the Lord's Prayer to close the service. Afterwards, we fellowshipped together with all the guests.

We had a Sunday School and Bible story time for all the children (four new ones plus Betty's three) out in the cottage during the Church service. The children loved it, the adults loved it, and we loved it, the way the Lord used it, so everyone was happy! PTL! We hope this thrills you too! This week it really seemed to feed the ones who need a little church, and the Lord really blessed it. TYJ!

You can see at the top of the bulletin we have placed a Bible verse, mainly to give them some-thing to think about before the service starts, and also to set a reverent and prayerful setting. At the end of the bulletin, there is a section "Meditation for the coming week", a verse they can think about during the week between services, which also relates to the next Letter we'll read. (This week we put 1Sam.3:9 to relate to "Stop, Look and Listen", which is the Letter for this coming

Sunday's service.)
We have really learned a good lesson from our experience—anthat is, if something doesn't go right, don't go off in some new direction and fall into the trap of "let's try this" and "let's try that", but go back to the Letter and see what it is you're not doing that's causing it to not go right! Amen! Love, Sally.

("THE CHURCH OF LOVE!"...
a whole new possibility of reaching
a whole new sector of the population that we have left almost untouched! Help us to do it, Lord, to reach them before it's too late! In Jesus' name, amen!—"The Church of Love!" No. 617:64,65 by Moses David.)

Letters from Shaul & Abiah

-NEWLY APPOINTED KQS'S OF LATIN AMERICA!

Dear Dad & Maria, 25 Jan. 78
God bless you both and thank
you so much for the blessing of
meeting you last night. It left such
an impression on us before our

trip back to Latin America. I love

Thank you so much for dancing with me, Dad, because you had such a firm, loving grasp and had so much love that I felt my connection is also more firm and loving now. I think I'll never forget "Lovest thou me?—Feed my sheep."—Such loving, loving shepherds! We know you love the sheep and want to be sure we set that same sample and pass that on to the kids—the love and kisses of David! We need you and the words so much!

I was really impressed by your constant concern for the sheep. What an emphasis it was and I can see Rachel is also such a faithful shepherdess, passing down your love. Quite a different sample than what we've seen the last two years in Latin America!

This is what the Family of Love is all about—LOVE!—Love for each other and for souls. We were quite nervous at first in meeting you, but you both showed such love right from the start. I think meeting you made us more than ever realise how much you love the sheep and we can't fail. Seeing the love you had for all the Family members and the Family intimacy really impressed me also.

FF ing in a number of clubs in Latin America, but seeing how at ease, how natural you both are around sheep was like—

A real key to the door of FF'ing: to just be me and natural and just give others the sincere and real love of Jesus. Venezuela is going to be one of the FF capitals of the world, as it's full of "nouveau riche", already fed up with trying to make life revolve around a petro-dollar and now looking for something real and genuine.

We got some of the physical and spiritual love and kisses of David, which will help us to pass it down to the sheep and our fish. Really, I can hardly even put down in words what a blessing it was for us, and how much it emphasised to us the importance of giving a right representation to your children. They love you so much, we know they do. And they do want to obey your Letters.

Thank you for believing what the Lord tells you and telling us, so we can reach the world and know the real truths of God's Spirit. I really love you too, Maria, and your concern for everyone really showed me such a sample, and I see how the Lord uses you to be such a "priestess of love".

So, I just want to tell you again—thank you, thank you, thank you for the great blessing of meeting you! I love you and want to be a faithful shepherdess. We need you!

Love & lots of kisses,

Abiah.

Dearest Dad & Maria 25 Jan. 78 God bless you both! You both truly are the greatest inspiration in my life (together with the Lord), and I wanted to write to tell you just how much you mean to me.

just how much you mean to me.

Yesterday was one of the very,
very greatest blessings of my life,
and I'm eternally grateful to the
Lord for the opportunity to meet
and be with you. It seemed as if the
time passed by so quickly, almost

like a dream you remember as you wake, and yet the evening so impressed me that it's as if the dream still lingers on in reality. You are such a tremendous inspiration to me and to so many, and all I can say is, God bless you both and help me to spread that same spirit of love to everyone I meet.

What impressed me most was (is) the Spirit of love that you carry. I told Maria that I was so nervous just prior to meeting you, as I had always gotten nervous around Deb and Jeth, and yet you both made me feel so at peace and so calm, just to be in your presence, that I could hardly believe it. It was such a spirit of trust, love and confidence—no cover-ups, false-fronts, no show—just the true, sincere and honest love of Jesus shining through you, not just towards me, but towards everyone with whom you came in contact: waiters, fish, doormen. You both took so much of yours and God's precious time to show them love and concern.

I had been around Deb and Jeth when they were trying to impress me or convince me that they loved me and to win my confidence in them. But they would be sour with others: waiters, other brethren, or some little sheep that fell across our path. I always felt bad, as if the love was a little less than sincere and genuine, and it therefore seldom fully won my confidence. But last night, you both were so natural, so real, so concerned, so loving with everyone, that I knew and believed that it was the real, true love of Jesus!

What equally impressed me was

your true concern for the sheep. When you asked me, "Lovest thou me?", I felt like a simple little fisherman being instructed by Jesus on the shores of Galilee (and it was Jesus in you asking me). Your every concern seemed to be the sheep—those beside you, those around you—your sheep and children everywhere. It so impressed me! I answered "yes", and my only hope and prayer is to live up to the calling of a true shepherd, to lay down his life for the sheep.

Maria impressed me with her openness and sincerity, and her simple manner really inspired my confidence. A little bit of love really goes a long way, so I guess a lot of love goes even further. The love and faith you both showed is carrying us to the ends of the Earth with God's message of Love! God bless you!

I could see or rather feel how Arthur and so many others had flipped head over heels for Maria, as she makes you feel so calm, like a little child rocking in its mother's arms. God bless you, Maria, I love you and thank God for the time I was able to spend with you, as it made me feel so much closer to you, my Family and most of all, to the

Lord.

Also, just being there with you gave me so much more faith in FF'ing, to see that it doesn't require some big leader with elegantly gorgeous girls (though all of ours are!), but just obedient and willing workers, fishermen and fish with a burden for bringing joy to those who have never experienced true joy, true love and true life. The always want-

Also, Venezuela is a real open door for reaching the "founding fathers" of other countries who pass through there, and may be the most important place in Latin America! The people we can reach there can help us to reach whole countries, if we would just reach them first. God help us! So your sample last night to us is going to help us to reach Latin America!

God bless and keep you both. I love you so much and thank God for you. You are always in my prayers.

Love, Shaul.

and that we can have lots and lots of fun as long as we stay "in tune with the Lord's music", as you said to me last night. As I already explained in a note to Emmanuel:

I feel that is one of the main

reasons why the kids in Germany aren't really FF'ing very much—there is so much fear, and often when we go out, the situation is so unrelaxed and tense that we can't even hear from the Lord. It really cracked me up when you, Dad, said that sampling is one way of advertising the bait! I had never looked at it that way, and I know neither did anyone else where I come from. Yet it is sooo true! PTL!

It was just great to see the love

It was just great to see the love you all expressed for each other and the real concern for other people, which requires a teamwork of a kind that I hadn't really seen practised before in this way. It blew my mind how little we did, but how much God arranged things and how much He did and what a result it already had in the fruit of one night.

Being so open about FF'ing never entered my mind. I had not been able to see how we would witness to people that know "all" (ha!) about us. So last night I saw what it is like to give God all the glory and be open about it, which now I can see better also in a situation where you would not be able to use the organisation name, but still be open about it.

I have to confess, before I met you, I was a little scared of what it would be like. Lord help me, but it's true! So then when I got to meet you, you imparted such calmness and love that I felt so much more relaxed right away. I do want to apologise that I was still a little nervous throughout the evening, but it is so new for me to be with people who are able to look right into your soul. I am just beginning to learn to be the way I am and see that we are all the same and God made us the way we are and loves us even in spite of our shortcomings, so we don't need to pretend.

All evening I had to keep thinking about something you said in "Reyolutionary Women", how so many people love you, because you have so much love. How true!! If I hadn't been in love with you already, it would have been "love at first sight" for sure! Now my love for you is deeper than ever! I wish so much that I could stay near you for awhile, because your sample helps me so much, because I need you so very, very much and only hope that this is not really selfish. If there is one thing I have seen while I have been here, it is that I need God's love and strength as well as your help to do anything, and that He, on the other hand, can do everything with us, that it is not us, but His Mercy. What a relief!

It gave me so much more faith and hope that I can at least get something done for Him!! If I have only come to the king's house to learn that, it was certainly worth it, and I feel so very thankful for this and count it a real, real blessing and wish even more to stay. May God help me to never forget this though,

wherever I am and whatever I do!!

I feel so much at home with you all.—A little more than anywhere

A night out FF'ing with Dad!

-by Hannah Charity, German national & newly appointed KQS of Northern Europe!

I think a real good summary of my impressions of FF'ing last night is something one of the girls said: "When you meet Dad, with one glimpse you know he means just what he says in his Letters, and he does things just the way he says them!" In other words, it's real!! I was so touched by the many, many little ways you all expressed care, love and concern for others. Honestly, it would have never even entered my mind that you would (and we should!) have or take the time to check if we all are dressed warmly, if the lights of the car are on or off, if we are hungry, took a nap, and all these little that so used to being so involved.

Ittle things.

I was so used to being so involved with "important things" that there was not much time for such "details", and "waiting" on leadership who

"don't have time" for such things as opposed to being a help. One thing that went right along with it was how much concern you expressed in the way you always got everyone involved and helped everyone feel part of what we were doing, making sure everyone was happy. It feels so good to be loved so much, which is so simple and possible to be practised by everyone that I really cried when I thought of how far I have been falling short on that, and how unloved so many people in our Family are.

It never dawned on me how much fun it is to go out FF'ing, even though I have gone out before and we reached some people. I have always been reluctant to enjoy myself "too much", never realising that God had made it that way,

else, especially with having known hardly anyone and yet feeling closer and more attached than hardly anywhere ever before, even after a long time. So thank God for His Mercy and Love and this little piece of Heaven on Earth. Thanks so, so

very much for taking me last night. I love and appreciate you a whole, whole lot and pray I grow closer to the Lord and you all more each day. What a special night!

Love, Hannah. 10th which

Portugal Report!

Jay reports on his visits to our Homes in Portugal!

Through the recent illnesses of two of our members, resulting in emergency operations, the Lord really spoke to us about how much more united the whole area needs to be in praying together and supporting one another in the Spirit. We clearly saw the meaning of the scripture:

"And whether one member suffer, all the members suffer with it..."
(1 Cor. 12:26.) We also got the Letter "He Stands in the Gap",

which clearly showed us how there can't be any weaknesses in our spiritual defense and how we all have to work together much more unitedly to fight the battle that the Lord has for us here.

The Lord has gotten so many victories here that it is clear that these are attacks of the enemy to try to slow us down, as you pointed out in your message.

It was so inspiring to get down to the grassroots and visit all the Homes

and get to talk personally with all the disciples. Up until recently, we had left most of the administrative details and overseeing of the Homes to others, while we concentrated more on pioneering the FF'ing here. We really saw how, now that the FF'ing is really rolling, we need to take complete responsibility for the whole work and really get it rolling in all areas.

It really takes that personal contact with the disciples and visiting the Homes to really do the trick, as we learned so much about the sheep and all their needs when we were able to talk to them personally

on a one-to-one basis.

I am so thankful that we were able to personally take care of the problem situation you called to our attention, as it taught me so much about being a servant of all and getting personally involved in each individual situation.

In all the Homes that we have visited so far, we got them together for family meetings, so that everyone would have the opportunity to really pour out their heart about their Home, how they felt it was going, suggestions for changes and improvements, problems, etc.

We really had to ask a lot of questions to get everybody speaking up and really being honest, as they weren't used to these kind of sessions. We asked them if they were satisfied with their Homes, their Servant, if he listened to their suggestions, if everyone was getting all their needs taken care of, etc. After a while, the disciples really started to open up and started to pour out their hearts about

everything, PTL!

One thing I really saw in visiting all the Homes was the lack of personal choice that the disciples had and how dependent they were on the faith of the Home Servant for so many things that they did. The thing that they really lacked was a freedom to act according to their own faith and initiative. The Home Councils weren't really acting as decision-making bodies, but things were still more up to the Servant.

Servant.

We also noticed a lack of personal communication between the disciples, as well as between the disciples and the Servant. There seemed to exist a real barrier, and the disciples themselves in just about every Home said that this is one thing that they really felt there needed to be much more of—personal communication and love between everyone.

When we talked about sex, all the Homes here seemed to agree that everyone's sex needs were getting taken care of, but it seemed to us that it was a little mechanical, and the disciples were looking more for real love and communication between themselves, as well as getting their sex needs taken care of at the

I really think that it goes back to the problem of the disciples not having enough personal choice, and there seems to exist some fear of getting too personally involved with someone of the opposite sex, in fear that the Home Servant might not approve

might not approve.

One thing also which just about all the Homes to cod about was

much pressure financially, paying the bills, etc., and it wasn't giving them enough time to do other things, especially in this country where everything is so expensive.

It seems many of the Homes with financial problems were the ones with lots of mothers and children and high rents, so we tried to beef up those Homes with extra personnel to help support them. Everyone was also encouraged by "Does FF'ing Pay?" and could really see how if everyone was faithful to wholeheartedly follow the FF vision that the Lord would bless it also and use it to support them.

In one city, the Home was FF'ing a guy who owns a clothing store, and after being over at the Home a few times and getting FF'ed, he brought over real good clothes for all the children! PTL!

We had a chance to share with everyone pictures, testimonies and

statistics of what is happening in Lisbon, which really turned everyone on. All the Homes had fish on the line and had been doing FFing, although they were still doing it on a low key level. After our visits, we could really see the need to really coordinate all of our efforts throughout the whole country for a full-scale FF attack on Portugal.

We hope to be spending a lot more time with the Homes, helping to teach and train and encourage them. I felt in general our visits really helped to shorten the cord between us and the Homes and give us a chance to personally share with them so many of the things which I personally have learned from your sample. It was really inspiring! PTL!—Jay.

love has made the Letters so much more real to us. God bless Sally for always fighting for the Lord, you and the Letters! We learned so much from her sample of simplicity and loyalty to you!

We are so appreciative of these eight months of training in FF'ing and the opportunity to see how we could do litnessing, provisioning, taking care of the children and the house, FF'ing as well as a Church of Love, in a normal weekly schedule, running smoothly through the sacrificial spirit of everyone willing to share the load.

Everybody there is so turned on by the coming new changes of the RNR, as we all felt that the Heavenly Home spirit we knew in Tenerife should and could be lived in any other Home, if there was only more faith in the Letters and obedience through love.

Letters from Timothy (French Canadian) & Abeille (French)

Dearest Dad & Maria, Feb. 1, 78

We first want to tell you how thankful and privileged we feel to be able to come here. It has been so wonderful for us to meet you. You are both so loving and concerned. We sure don't feel worthy of this calling, and it is such thrilling days for us! We love you so so much and pray for you in all these changes!

We are so excited by the "RNR" and know it will bring such a liberation throughout the Family! Hallelujah!

We want to do all we can to follow this new vision and pray that we will be able to live up to the sample of love and simplicity we have seen. We cannot begin to say how thankful we are for this opportunity of coming so close to the living sample of the Letters, in you both and also in all the loving members of this truly Heavenly Home.

Our stay in Tenerife has literally

changed our lives! What impressed us the most there is how the Letters were put in practice through love, instead of the law. This sample of

ANGELO!

From a report to Dad by Becky

ber and December we have been able to see Angelo on a much more regular basis. I usually go there with Torbjon and each time we go we meet new people who frequent his bar this time of the year. Angelo really loves to see us come, and although being a Gemini with an up-and-down nature, he really loves us. He is very spiritual and often talks about you and what he thinks of you and the impression you left him. He certainly will never forget you and loves you very, very much. He has many ideas of his own and will only stop talking when I start talking about your sample and how Jesus has changed your life. Then he is silent and listens because, as he told me, he wants very much for everyone to be like you.

He always witnesses to his customers and tells them how wonderful we are, how sweet, happy and at peace we are. Then he tells them he knows the founder of our community. He praises our work and our life and always talks well

Angelo with Davidito. (Photo taken from "It's A Boy!" Chapter 8.)

("Mommy and Daddy would have their regular morning brunch along the beachfront at Angelo's Cafe Bar. Angelo became a very dear friend of Dad and Maria's and although he knew nothing about us or who we were, he's very psychic and commented to David, "I can see you sitting, teaching thousands of young people, like the man of long ago!" (from "It's A Boy!" by Sarah, Chapter 8, par. 7 & 9.)

about us. The night Simon played for Angelo, Angelo said that Simon's music and our music is like making contact with God, whereas other music is to make contact only with people.

contact only with people.

On one occasion he told us how three years ago was the closest he came to making a big change in his life—when he met Dad. He said that since then, he has changed completely! In these last three years he said many of his friends have either died, are now in prison or something has happened to them. He said he has been an exception and that it is because God has taken care of him.

Also, I just remembered an incident he told us about when you were at his bar. He told us his coffee machine had some trouble and the man who had repaired it was asking a ridiculous price that he didn't want to pay. He said when you saw this, you came up to him and said that you would help him by giving him some money if he needed it.

Angelo said he would never, ever forget that, because that really showed something that no one had ever shown him before. That one offer to help him made a very, very big impression on him, as no one had ever done anything like that before. He knows that you really do love him. He told us that he is like a stranger here because he is from the south. He said if he ever needed help, nobody in this town would help, him. I told him we would and he smiled. He then said if something happened to us, that we had to leave or something, he

said he would take care of our children as his own and provide for them equally.

One night as we were talking with him alone, he really praised Moses and told us how much he admires him and respects him.—And also how he tells others about him and says only good. A bad article has just come out and people have spoken to him about it and he says, "Don't believe it—I know the man!" I had a chance to tell him my per-

I had a chance to tell him my personal testimony, how I had prayed and asked Jesus into my heart. He just sat there and listened, eating up every word. He was so elated!

Before we left, I told him the reason I had come was to give him a message—from Moses. His face lit up like I had never seen it before. He just glowed! I said, "He wrote a little note and said to tell you he loves you." He was smiling the whole time and it really thrilled him to pieces and absolutely made his day! He spoke about a new page in the book of his life. We prayed for his cold to be healed and he was very touched by it. He kissed us good-bye at least three different times and said he wished we could live down there with him.

live down there with him.

P.S. Angelo's two sons, age 5 and
7, came to our Church of Love and
both received the Lord! And the
last time we saw Angelo, he told us
that he has learned more from us,
in the last two months we have been
seeing him regularly, than from all
the reading he's done all his life!
Please keep Angelo in your prayers
that he will make the right decisions about his future, to draw him
closer to the Lord and the Family!

Starving Children!

Dear Family Care Pubs, 25 Jan. 78
Regarding my working full-time
on the childcare materials, my answer to you and the families and
children of the world is yes! I am
so glad just to have a chance to
have anything to do with children's
publications, let alone be at a publication center where that would
be our job!

I really have been sick and burdened for some years about this whole thing. I know that I personally could have done a lot more and have always wanted to, but it is hard to fight city hall. Even those around me, though they saw the crying needs of our Family, still didn't take it as a personal responsibility, in spite of all of Dad's pleas and tears for his little children.

The Letter "What is That in Thy Hand?" was the seal and vision that

5

The Letter "What is That in Thy Hand?" was the seal and vision that really helped keep me going. I don't want to make this a long letter, but I want to share a dream I had three years ago while in Hawaii:

In this dream, I was going through a Home I had just moved to and went in to see the children. It was lunch time and I went into this small, dimly lit room that was actually a big pantry where there were hundreds of cans of all types of food on the shelves.

of food on the shelves.

A thin, tired girl had just served some very thin children a little soup, but the soup was little more than coloured water with a few

peas in it. Shocked, I asked the girl, "Why aren't you feeding the children better? You certainly seem to have enough food to give them."
"Oh," she said, "I would like to but I can't use any of this canned stuff. I would get in terrible trouble. The parents have gone away and I don't have permission to touch any of the food in here. I wrote the mother a month ago and we still haven't gotten any answer back." I remember becoming terribly angry and said,

"You sure as hell don't need permission to feed starving children!"
Then I began ripping the cans off the shelf and giving the food to the children anyway. The dream was very clear and real, but it could well have come from the "multitude of business" of those days.

I don't even want to look back, I am so ashamed at how we in child-care failed you, Dad, and our very children (the hope and future of this whole work). May the Lord forgive us in Jesus' precious name! But the time of this ignorance God winked (winced) at, but it is high time to bring forth meats fit for repentance!

It has been very hard sometimes to run a Home and keep producing, but the discipline of just having to do it anyway, even if I had to stay up all night or get down and cry out to the Lord to help me get even the smallest little booklet or class done, was really good training for me.

I feel within me the great urgency of doing it all now, today, as yesterday was too late. But still God keeps me from doubting that we can do the job in the face of an impossible task.

In two days last week, the Lord gave me a plan and a vision for teaching Language (reading, writing, spelling, grammar, etc.) to children. We have already started on it and completed the entire outlines of the major topics and contents almost down to the weekly lesson level for ages 2 to 7! I know of no other program in the world quite like it. I called it "Language With a Purpose".

At present, I do most of my work on the dining-room table, with all the kids and people coming and going. In the summer I was able to do my work in a small summer house we have out back, and that was a real blessing. I found that it is really useful to have children near, however, to try things out on them the same day as you get the idea, to be able to take special pictures that you need, and so forth. However, it has not worked for me to have to be the one to run the colony and see to all the details and so forth. I don't mind being near by, but I don't want to have to run the thing!

I do feel that whatever it takes,

I do feel that whatever it takes, these publications must be done now, and somebody is going to have to do them. Though I know that it would be almost impossible for only a couple or three persons to do the work all themselves, they certainly could be the "pump" that brings up the wealth of ideas and experiences and contributions from the Family everywhere, edit it if necessary and fit it into an overall plan and get it out! I have many ideas and projects that seem a little

Paul with his daughter Dove and Ho's children—Nene, Josh & Hobo.

far-fetchèd today, but I am looking for that time when we'll have to run the whole show anyway. PTL!

run the whole show anyway. PTL!

My wife is in agreement with this and has been taking an active part in helping me plan and prepare the materials. Up until now our thinking has been, "Well, we have to teach our own children anyway, so we might just as well send it in so others can use it too if they like."

Anyway, the answer is yes! The changes with the "RNR" brought

Anyway, the answer is yes! The changes with the "RNR" brought tears to my eyes, as it was the answer to so many problems in so many ways, I couldn't even tell you. I have seen immediate good fruit from everything: brothers getting helped, the whole Family getting more honest and open with each other, homes becoming homes,

and a whole new spirit of pioneering and trying again. I know that some will really swing far, but I feel that you have caught it in time.

The confidence of the people in Dad and you all there has been rescued, and in the end we will all be much more mature and ready to keep going for God on our own steam, even when the lights go out. Thank you so much for making this great sacrifice for your children everywhere, and I know that all of us want to put our whole effort into honouring your faith and love to make it work, as never hefore!

In His Love forever, Paul Theophilus.

Standing up for the Truth in STATS-KEEPING!

Dearest Rachel, 2 Jan. 78
God bless you for all your faithfulness to Dad, and the way you stand up for the truth so strongly in the face of our enemies! Your reply to the "Las Palmas Daily" was an inspiration and a real sample of "how to take it". Also your replies in "Time" were so straight and forward that even my mother could just about understand why we're doing what we do to win the lost!

Anyway, I just wanted to ask, what does one do to stand up for the truth within the Family? I just came from a colony in which they weren't reporting backsliders, to keep from getting reclassified. The easiest way would be to just do as I'm told and forget about it and leave them off my report and not say anything about them, which apparently all my leaders do. But that doesn't seem very honest to me!

me!
I've just transferred to Frankfurt, and now as I'm faced with writing my first shepherd's report, I find that there are six catacombers listed on my report, 5 of whom nobody knows very much about, except, as the former Shepherd tells me, they're four girls who don't want to really come around anymore and one guy whom they haven't seen for ages.

For ages.

Well, maybe other Shepherds can fill in a 6 when there should hardly even be a 1, but I can't! So I finally got up to my Bishop and told

him I didn't think I should write them down, but that I should clear it all up by reporting that they've backslidden.

Boy, did he freak out! He told me that his overseers would really get upset and get on his case, etc., etc. He told me how that once a girl joined with her child and they counted it as two new disciples, and later when she backslid and took her child, they reported two backsliders. He told me his overseer got on his case and said that the child didn't backslide, so they should have counted only 1 backslider, the mother!??

So, his advice was that I just leave it all blank and forget about them,

and if the KQC writes anything asking where they went, just to tell them I'm a new Shepherd here and I didn't know anything about them,

I didn't know anything about them.

What does one do when faced with advice from his Bishop like,
"Do you want to dig your own grave?", "For God's sake don't do that!", "So-and-so would be furious!", "Do you know what so-and-so would say?"

If I'm wrong, please tell me, because I'd surely like to know! I send all my love and appreciation for your faithfulness is such a great service and responsibility, and I pray this doesn't add a burden. Love in Jesus and David,

Deuel Gardner

A LETTER of APOLOGY from two FORMER PRIME MINISTERS

Dear Dad & Maria, 28/1/78
God bless you! We love you both very much and can't tell you how thankful we are to be in the Lord's

wonderful Family.

We wanted to write a note to give our sincere apology for the way that we so seriously failed you and the Lord. Please forgive us.

Rachel pointed out to us the many mistakes, oversights and shortcomings that have taken place in Madrid, for which we are truly sorry.

for which we are truly sorry.

The new "RNR" is such a miraculous answer to prayer—what a beautiful Letter! We are so looking forward to getting back to the basics. I'm sure going to the field is going to teach us so, so much and can see how much it's the Lord's design to keep us all young and close to Him. I'm sure all the kids on the field will be so inspired with the

changes coming from these Letters, the answers. What an explosion! Your sample to us as such a loy-

Your sample to us as such a loving, concerned and sacrificial father is such a convicting testimony of the love the Lord has given for us. We love you very dearly and pray that the Lord helps us to more closely follow your leadings and the Letters in the future.

Once again, please forgive us for our failure. We know the Lord is going to help us to change and are looking forward to all the Lord has in store. We only hope that the damage can be undone, caused by our lack of love and concern.

We love you and will be praying for you in the many decisions being made with this new Revolution.

Love in Jenus, Silus & Endureth

New Indigenous FF Team-

Dear Dad & Maria, Feb. 10, 78 I have so much to share with you about our new FF explosion here! It all began with your inspiration and burden to see these precious nationals used and also for the sake of the wonderful men we have met in pioneering FF'ing, too. We are all so inspired and raring to go!!— and have some testimonies to share

with you about recent FF adventures. First of all, I had the opportunity to interview these girls to see if they wanted to live in an FF Home, and they were all so ready and full of ideas right from the beginning, that we couldn't wait to get started! The girls are two who were in Tenerife, and two other new ones, both 22 years old. Next we will have Sara, a very potential girl leader, and Maria from Lima, both move to the new FF apartment in town.

All these girls like men very much and have done some FF'ing before, but never to the extent that they have wanted to. I have been amazed at how well they do with these big important business men—because they love the Lord, they love men and they love you and the Words!

It has been so inspiring to me, the "fisherwoman" to see these girls make a new beginning since the "RNR" and are making their own decisions, so that in only several nights going out together, the girls have made more progress in their FF'ing than some of us did in weeks and weeks going with a fisher-

We are able to discuss the very next day what happened the night before, and because they all live together (or will soon all six be together), they can fellowship and discuss things at home with no difficulty. So, right from the beginning they have learned how to pioneer a new fishing hole, make good relations with the management where we go, how to meet men at a bar or club, and all the etiquette it can introlve

It is very convenient for two lil teams of two girls each to go to a high-class bar hotel, sit down for a drink and eventually and casually begin talking either to the men closeclosest to you or "make eyes" the ones you hope to come over. We have found that it is not accept ed bar etiquette here to change seats and go to men we know or even to sit with them at a table on invitation that is, until we are better known in a place and the management understand that we are not soliciting men (at least not for money, ha!). girls have learned to be sweet to the vaiters, to tip and become accepted first, which is very, very important for this type of work! There are plenty of professionals in these ho-tels, and they are there by license with the business, so we don't want to cause obvious trouble!—But rather, get to know a few men and the waiters so they can "cover" for us

and like the idea that we are there on a friendly basis.

Usually, the men come in by twos, usually an employee entertaining a visiting boss or client in the hotel. Before or just after dinner, they come in to the hotel bar for a drink. They pay for the drink that we first order. If it's a drink that lasts a long time, that is all we have, unless we go on to the hotel club

for the evening together!

We have not paid anything at all, and have met some very nice and important, receptive men at these bars thus far, including owners of corporations, bankers, lawyers, and subdirector of a large nawyerser.

director of a large newspaper.

One night a man who had not even talked with us paid for our drinks—just because he liked us and our smiles! GBH! Because these men are usually travelling through, we do not see the same ones too often, and so we take turns going to three places during the week. Also, we have not had to go home with them in the car because they are staying in the hotel. So, even if just one of the girls goes upstairs, the other one can wait for her with her date in the hotel club. The men have even offered to pay our taxi fare home!

FF'ing really pays, Dad!

One of the most inspiring things

One of the most inspiring things of all, to me, is what a vision the girls have for financing their own FF Home! They have only a very small three-bedroom home and are living with a real sweet couple with a two-year-old child. The apartment itself is not very nice, but when I visited there yesterday, we all got to work cleaning and scrubbing away

and making it more "homey", adding that special woman's touch!
Thank the Lord the brother there is a "fix-it" man and has made plans
to make more hanging space, etc.

to make more hanging space, etc.

The girls go litnessing in the afternoon and FFing almost every night, as long as two people are home with the child. Just before I left there, a friendly fish came to visit them (who knew some of the girls before) and donated all new furniture for their apartment! He will deliver a few chair-type beds that fold out, also a sofa that folds out to a double bed, full-length mirrors for the doors, closets, rugs, shelves and wall mirrors! The girls were so happy and had been faithfully praying and obeying, so the Lord has already rewarded them, PTL!

warded them, PTL!

The apartment won't seem so crowded now with these fold-up beds, and the living room can be used for a love room in emergencies!! We have already begun to plan and pray how to provision FF clothes and material, because two of the girls can sew, and also to patronise a good boutique store where we can ask for a discount, or maybe send the brother there with us, to FF the sales girls! Ha! Love never fails, and it sure is a beautiful life to live! Hallelujah!

It's still in the pioneer stages, but what brave pioneers they are! Their evening bags come complete with ID cards, funds, door keys, vaseline and MO Letters in specialittle envelopes for "personal" gifts! Pray for us! We've got all of this city to love for Jesus, and we love you! —Your Sara.

THE NEW KQS's of NORTH AMERICA

By Andrew & Miriam Bochim

Dad & Maria, Feb. 9, 78 we already told you at dinner Dear Dad & Maria, As we already told you at dinner last night, we really thought that the Letter "Where Are the Shepherds" is just what is needed. It was very convicting and we had to ask ourselves the same question, because we certainly weren't any shining examples of what a real shepherd is supposed to be! God help us! We really wanted to be good shepherds, but we made: 'st of mistakes. Thank God for your obedience to the Lord and your sample. We're sure you've heard this before, but we have to say how thankful we are for the new "RNR"! Thank God, we are doing away with the hypergraphic are to say how thankful we have to say any with the hypergraphic area. Thank God, we are doing away with the bureaucratic monster and making way for the little people!

Last night at dinner when you

suggested that we would assume some very important responsibilities, we almost cried because we just don't feel we deserve it. We can say now though, that if it does work out this way, we are going to really do our best to be sure that the bleats of the poor little sheep are heard and not only heard, but

answered and taken care of!

We don't want to leave any stone unturned, so this may be quite a lengthy letter. Many things the Lord is bringing back to our memories that we hadn't thought of for quite some time, because we, like many others, just tended to over-look things, which we see is defi-nitely not what true shepherds should do! We really wanted what was best for the sheep, but because we were so concerned about what our overshepherds would say, we finally lost the conviction to say anything. We feel so bad now, and we know that being sorry is and we know that being sorry in not enough. So, Lord helping us, we are going to show our faith by our works and we are really going to do our best for the Lord, you

nd all the kids!
HISTORY OF PAST PROBLEMS

IN NORTH AMERICA
Before the "New R" Letters came
out in 1975, I was a full-time litnesser and Miram shape around the colony cooking, cleaning, taking care of children, as well as litnessing for 3-4 hours a day, 4-5

days each week. (DAD: GBY!) I then did some right-hand man then did some right-hand man work and was kept really busy. In April of '75 after the receipt of the "New R" Letters, we went to New York to be District Shepherds for about 3 months when we went to D.C. as Regional Shepherds for 6 weeks. We then went to Atlanta to work as Bishops for one month.

This was during the time that

This was during the time that Rodent's and Corny's bad sample had quite an influence on a lot of people. However, we feel that regardless of what their spiritual conditions were like at the time and although a lot of the shepherds were time into a very materialistic. getting into a very materialistic spirit, a lot of the colonies were starting to up their standards, which had been needed for so long.

We then went to New York to work as AB's. "Hamburger Boat" had just come out, thank the Lord, because it was sure needed to get all-of us "bigshots" shot down. all of us "bigshots" shot down.
This Letter was followed by a visit from Caleb and Lydia. Their visit helped a lot of leaders, but didn't leave a lot of room for really following the Letters.

Every situation was dealt the same, regardless of the fruits For example, there were some ki who did have a genuine desire to up the standard of their homes, but with the dealing sessions, every-one had to forsake their nice clothes and even nice housing! even heard of a few people who were going to help out each other sexually because of a need in their lives, but it was prohibited through counsel by Caleb and Lydia. We're not saying that all of the sessions

were wrong, because some we needed, but what we felt was wrong was that everything was placed all in the same category and piaced an in the same category and judged exactly the same, with no alternative but to obey what leadership said in every situation.

(DAD: God help us!)

They came, supposedly, as representing you DAD: Ha!), so it was hard to argue against what they said. Also, this is the first time we had ever seen a "mini MO Letter", when Caleb showed them to us and encouraged us to start printing. and encouraged us to start printing them. Of course, everyone really liked them and encouraged the printing of them too, so it wasn't all his fault, that's for sure! Most of their visit was really a blessing, but is come ways it really hindered but in some ways it really hindered the growth and progress that was being made.

A few months later we had the Great Escape and then the FF
Letters started coming out. The thought of past problems and how they were dealt with was always they were dealt with was always in mind, which made it rather difficult to step out by faith. We were always told that because of America's problems that we were not mature enough to handle this new freedom.

Well, we did start going out, until
"Little Dog Dream" came out, and
with the thought of the past dealings concerning any freedoms, along
with some personal problems
Nathanael (our former overseer) was having in his own marriage, he interpreted this Letter to mean that we should not do any FF'ing. We fell for it, God help us! We followed a man and not the Letters!! (DAD:

be Statemed, we don't know!

The whole time we were in leadership positions, we never saw Nathanael ever visit more than a half dozen colonies. He never showed us how to do it or gave us much instruction of any kind. He only told us that we had to get out and visit ourselves. Well, that's what we did. We only had three colonies in New York that I visited pretty regularly, and we were Regionals for only a about one month in D.C. and were unable to visit any at that time, but we did visit every colony in the Southeast when we were Bishops there. So up until Nathanael left for the Philippines, I think that he only visited six colonies at the most and there was also little or no child-care oversight to speak of. Nath-anael left in October '76 for the Philippines, which was one year after Caleb and Lydia's visit.

During the time that Nathanael and Talitha were gone, we wrote him for counsel but never really heard any word from him. So we started directing most of our letters to Caleb and Lydia, instead, who were a lot more faithful to write us back on most things. We kept hearing that both Nathanael and Caleb would be coming for a visit soon, but they never came and we didn't see them until one year later when we went to the Philippines.

During this time, without much

oversight, we spent eight months on the road visiting the colonies, some of which had not been visited in nearly two years by top leadership.

The colonies were in a horrible mess, and some of them still are.

so, there was no solid Childcare oversight, which was a real sad thing, because the children were so neglected, as well as the Moms and Dads. None of the families were reporting, and as a result, a lot of the children in the States are really behind in their training both physically and spiritually. (They are making some progress now.)

The first thing we did was send out

a <u>Childcare Checklist</u>, along with reports for the families to fill out each month. It seemed to help quite a bit, thank God, but it still wasn't

enough.

We still had not heard a word from Caleb and Lydia about FF'ing and why we weren't doing it, etc. And we realise now that the visitation and reports etc. that we initiated to im-prove the overall standard, did not work as well as they should have, work as well as they should have, because we were not obeying the Lord, and He just cannot bless disobedience, and that's why things couldn't pull together. In a letter they wrote to us, they said something to the effect that, "when we actually start FF'ing in the States we should do so and so..." which led us to believe that they knew we weren't FF'ing, but that it was we weren't FF'ing, but that it was okay.

After Faithy's inspiring visit in New York, we did receive some counsel from Caleb and Lydia con-cerning FF'ing. But again, it was very restrictive in that they indi-cated that their feelings were that it would be best if none of the colonies went FF'ing without top leadership there to help them, but of course not to prohibit anyone from going if they wanted to, but

to try and encourage them to go with top leadership. We weren't able to personally go out with the colonies and train each one, so we just started going out with the Colonies we were close to. We eventually did pass down that all colonies definitely needed to FF (DAD: GBY!), but it was really a step of faith, because we had not received any word of counsel in this

By the way, whenever Nathanael had ever taken any action concern-"hardline, hands off, firmly-against-anything" policy, and any infrac-tions were really dealt with severely, even down to the simplest little thing such as skinny dipping, which Nathanael dealt with too during Caleb and Lydia's visit.

After Nathanael left, we began to see how things concerning sex were not being handled right, but we were taking it slow and cautious be-cause we didn't want to make a mis-About six months after Nathanael left, we received a call from one of our immediate undershepherds about a supposed sex problem that had happened between one of his Regional Shepherds and a single sister whom the Regional Shepherd was in love with. He was going to deal with it in the traditional manner, but we told him why we didn't think that was a very good way and explained how he had probably had a real need in his life and that love and understanding was what he probably needed. We told him we thought that they should be together, if that's what they wanted and not taken down they wanted and not taken down

and dealt with. He was absolutely shocked, because he was one of from another sister by Caleb and Lydia when they had visited. (DAD: God help us!)

So this was the phone message and all phone messages had to be passed up two levels in the Chain. So we were kind of scared about passing it up, because we had given counsel for this situation contrary to what the past policy had been. So, we sent it in expecting to hear word back that we had blown it! From this point on, more sexual freedom was being allowed, but we were going at it slow because we didn't want to do the wrong thing.

Then we left for the Philippines. We were so thankful that we were we were so manking that we were finally going to be able to have a meeting with our leadership, which included Faithy, Hosea and Esther. These three were a tremendous blessing and inspiration to us! We counselled with them quite a bit

counselled with them quite a bit about FF'ing and sexual freedom, which really helped us to have a clearer picture that the Letters say what they mean! (DAD: Amen!) However, when counselling with Caleb and Lydia, we were again given a slow-down type attitude concerning sexual freedom within the Family, which really confused us again. We even asked them about being able to encourage liberties in some specific cases where we personally knew there was a real need sonally knew there was a real need, but we were cautioned to go very, very slow. They even told us that they didn't agree with Ho's liberal counsel on helping out the single brethren! One thing that was kind

of confusing us was the fact that none of the brothers or sisters in the Philippines were getting their sex needs met, even though Faithy, Ho and Esther were there.

I guess our whole problem was we have been waiting for other people to set the sample for us when we should have been setting the sample ourselves! We did want to mention that in the three months that we were overseas, <u>Caleb only</u> went out a couple of times FF'ing, but Lydia went out a lot more and we really felt very close to her and felt encouraged to FF by her sample. Thank the Lord we were able to go out a lot with Ho and Esther and Faithy and Juan.
Upon our return to the States, I

was able to go out at least four times a week (DAD: Wow!) while Miriam was able to go out only a couple of times a week because she

couple of times a week because she
was so close to having the baby.
HOW WE FEEL THE 'RNR'
WILL AFFECT N. AMERICA
The "RNR" is already having
positive effects in our area! There
haven't been any serious uprisings
or rebellions, although we agree that the kids certainly do have a right to be angry with the way they have been neglected in the past. We have heard that many of the <u>Homes</u> are starting to meet each other's sex needs and for the most part, from what we can gather, most of it is bearing very good fruit.

We've only heard of one abuse of this freedom, and that was when a former District Shepherd went into one of the Homes without mutual consent of the parties concerned and went a little bit overboard with lib-

erties, which resulted in quite a few hurt feelings. So, thank the Lord, the "RNR" is having such overall good effects! The kids are being set free to obey and follow the Lord through the Letters.

We feel that the "RNR", even above the "New R", is going to produce more well-rounded and stronger disciples with more faith and initiative. TY!! We believe that most

tiative. TYJ! We believe that most of the kids have a real love and of the kids have a real love and genuine desire to do what's right.

Because of this, we don't see any major problems at all. The <u>statistics may fall for a month or two</u>, but when the kids realise that the <u>responsibility now rests on their heads</u>, we know that they will all do what is best for the Lord and the Kingdom.

PTL!

We still have quite a few questions to answer, such as how would we make the change and who we'd put in charge, etc. But we are still praying about how to take care of these situations, so we'll let you know when we've made some decisions in this respect.

We love you so much! God bless you! We're sorry this is so long, but we really wanted to write you about everything we could possibly think of, and we'll probably write more! (DAD: Good! GBY!-Tks!)

Much love and prayers, Andrew and Miriam

How FFing Helped Our Marriage

Dearest Ones, 6 Feb. 78
We love you so much and will
never thank you enough for all you have done for us. I believe that one of the greatest lessons we have learned from you is to love and to give to others. We really thank the Lord for the FF Revolution and how He used it in our own lives to give us more love and appreciation for each other, as well as for others. We wanted to write a few lines

to tell you how indeed it has rejuvenated our relationship and about all the victories it has helped us to gain, on top of the priceless souls we were able to affect and bear into the Kingdom. We know that a lot of couples have battles getting into it and maybe our experience into it, and maybe our experience and victories will help some. We always loved each other and

worked well together, but it seemed years, we could not grow much more in love. As we were opening our eyes to the needs of the people outside the Family, we started to

those within as well. But, we did not really know how to go about it, as we were afraid to hurt each other, and because we did not claim the law of love by faith then, we failed to minister to and/or see that the needs of the people around us were met.

us were met.

But when the FF Letters came out, we realised that we had to share this love with others. So we started to go out by faith together, with other brethren. "As you pour out (love), He'll pour in (some more)." This began to revolutionise our lives! It reput the emphasis on witnessing and winning souls, it made us raise our standards, we dressed nicer and started to live

better, etc.
Timothy was always encouraging me, uplifting my faith, and reminding me to be concerned for all the needs of the men I was witnessing to. Encouragment is so important, and without his loving inspiration, I probably would have always shied away from getting involved sexually which was oftentimes the very key that opened the door of their lonemat opened the door of their lonely hearts. As God always blesses obedience, He really encouraged us from the very start. Immediately, we got to witness to important mensouls were saved and in their souls were saved and in their souls.

happened with them, how it happened and how many times, etc. But then we realised that it made the FF blues worse than it helped us. So we finally agreed to dwell on the spiritual victories rather than on the unnecessary details, until the time came when we could even share the details without feeling hurt!
Whenever we followed the Lord

and the Letters, God never failed to give us better and sweeter love, as well as more exciting lovemaking and greater victories. I have always been so thankful to have someone to come home to and discuss everything with, a special friend, some-one I could share with and get re-

It was quite <u>new</u> and <u>unexpected</u> to Timothy and me, but it was just the <u>Lord's</u> set up to keep breaking these false ideas and sexual bondages, when <u>love</u> has no <u>limits!</u>
Thank You Jesus, for such a wonderful Family of Love and the sample of true freedom of our <u>dearest</u>,

sexiest Dad! Lots of love & kisses, Abeille.

To David, My Love!

Dearest one,

Thank you so much for such a wonderful day and night yesterday. You make me feel so loved! I truly love you, more than anyone else in the whole world, thank the Lord!

It's so good being so in love with you, because I know you will never let me down. XXXX! I'm a little sad today AAAA: I m a little sad today and trying not to think about leaving. But I'm so happy for every second that the Lord has blessed me with here.—And besides, "Love wasn't put in your heart to stay, love inn't love until you give it. isn't love until you give it away."

Love forever & ever,

I'm madly in love with you! My heart is pierced thru and thru With love, with joy, with sadness and pain,

To have to say good-bye again.

I've known your love now, better far Than what was thought of, seen afar! I've felt the love, gazed in your eyes, Two lights to brighten cloudy nights.

But most of all, what I hold dear When the world's realities I fear, When I don't want to leave your side Where love and warmth flows like a tide,

Your love supports and sends me on, To share the love from Heaven's own. What you said helps my heart to mend: "It's the beginning, not the end!"

Living Love!

15 Feb. 78 Dear Maria.

We had a wonderful experience the other night! I never thought I would enjoy a threesome!—But it was so spontaneous and in such a spirit of sharing and fellowship, it was the logical conclusion of being really close and together in the really close and together in the Spirit!

After an inspiring evening of Family fellowship and reading a new MO Letter, Timothy and I had gone to bed when we heard Sue dropping in next door, in Andrew & Miriam's

BROTHER IN AFRICA GOES TO BE WITH THE LORD!

Dearest Dad & Maria, 10 Jan. 78 Late two nights ago we received a Phone call from Corny Black in Nigeria, telling us that one of our brothers there, Stephen Apollos, had gone to be with the Lord at 9 p.m. on January 4th. He died of an enlarged heart weakened by malaria.

Our first reaction was a bit of a shock, and almost like your mother's when she heard the news of that missionary slaughter in China: "Why, Lord?" And we felt that perhaps it was in part "because My people pray not for My missionaries".

Then, the next morning in devotions, we were in desperate prayer for our brothers in West Africa, and the Lord really spoke clearly to us about His purpose in calling Stephen Apollos to be a spiritual helper for the

He'd been in the Family in South Africa and had a long-standing burden to return. I believe Livingstone

had said something similar on his second and final trip to Africa.

The battle there is so much in the Spirit that our teams really need this extra helper! I had a vision of two hands descending from Heaven and placing a crown on Stephen's head—and his face shone like Stephen's in Acts 7! PTL!

Lovest thou me?-Feed my sheep!" ARE YOU FAITHFULLY ANSWERING LETTERS FROM THE GP?

THE SAD RESULTS OF UNANSWERED PLEAS!

Dearest Dad & Maria. 2 Feb. 78 I love you so very much and want to thank you first of all for all the Letters which you have been send-

ing our way!
The reason I am writing you is because I have been so burdened about a certain situation in our Family regarding answering letters from little sheep around the world who write in after they have received the literature on the street. I would like to share an excerpt from a letter I received from a dear brother-in-bonds in Spain, with whom I have been corresponding: "Recently both Keith and I have

been through a depressing period, related entirely to the fact that our letters to Children of God colonies in England and Jerez, Spain have gone unanswered...We understand that your people are busy bees, winning souls, etc. for Jesus, but feel rather disappointed that our letters remain unanswered or acknowremain unanswered or acknow-ledged. I, especially, am disappoint-ed in the lack of response from my home country, England. I'm still a mere baby in the Spirit and Family, so a little comfort will surely be advisable in the first days of my freedom. Also, can you send us some other Children of God colonies in this area for us to contact close to this prison? Love, Ian." At the bottom of Ian's letter,

Keith, who is an American and has been a catacomber since last November, writes that the unanswered letters have undoubtedly been an attack from the Enemy and asked if he could please continue to correspond regularly with me, as I have been the only one that has been answering their letters and requests for literature. This pitiful heartcry broke my heart, and of course I will be writing to them.

I just received another letter to-day and thought I'd enclose it as another sample of sheep not being

able to get the new wine!—
"We are not able to live in the colony but we are just disciples in the Spirit and really would like to suck from the new wine. Our local shepherd here doesn't give us all the Letters. We have literally to keep begging for them. Please send and keep us on your mailing list. It's nearly three months since I got any new Letters. We are still students, final year students studying to be doctors. Yours in Christ, Gabriel David; Kashmir, India." (Editor: If the local colony doesn't have enough copies, the least they can do is <u>xerox</u> some for these hungry souls!)

Often I receive letters to C.P. 748. Rome, requesting information and more literature and asking for an address near them to write to or

visit. My usual procedure is to answer the person writing in, sending also the requested literature and an address near him, after which I also write the address I have given them, asking the brethren there to please write or visit the person that wrote

It seems that very few even answer these sheep, sad to say, and as a result they continue to write to me, knowing that I will answer them. I now have a mailing list of over 60 people around the world, 30 of whom I write on a regular basis, answering their questions personally and really making them feel loved.

We now have three catacombers through this ministry, and one girl in America recently joined a colony there after corresponding with me for several months.

I am also corresponding with quite a few backstiders, former members of our Family who still want the Letters. I have received letters from these brothers and sisters, saying that writing to this address is their only hope because they have written to the colony where they used to be for lit and fellowship, but no one answers them. Many times when they do find a colony in the States, they are told that they don't have extra copies of the MO Letters and they can't even obtain the latest

news from right where they are!

It just breaks my heart! Of course, I love to write letters and minister to these precious sheep. Yet, by doing this, I feel we are not really getting

to the root of the problem:

That each colony should be responsible enough to answer a few letters from sheep! You have made it so

clear, Dad, how important our mail ministry is, in "Lovest Thou Me?", Letter no. 311A, paragraphs 56-66: "...We are personally responsible for their souls...! How these are handled may determine their eternal fate at the most, and their friendship at the least!... You're going to have to face these souls in Eternity some day and give them an answer then! any and give them an answer then!
... Their pitiful cries... that we read
mearly break our hearts!—And we
agonise in prayer that these pitiful
pleas for help are being diligently answered by your offices!—Are they?
May God help you to take care of
and feed His little sheep!"
Boy those quotes really frighten

Boy, those quotes really frighten me into being faithful to God's little ones, and I pray that in some way this letter may help make our Family feel more responsible to answer these little pleas for help in the mail. I would like to feel at peace and assured that when I forward a letter to a local field that it will be answered properly, instead of feeling like I do now, that I'd better do it all myself, otherwise these sheep will never be taken care of!

I know God will bless diligence

and faithfulness in answering the mail with fruit and support and with a great satisfaction that through taking just half an hour to personally love up a sheep by letter, you were able to shed a little light in his heart

and maybe even save his soul! PTL!
Thank you, Dad, once again for all the love. Love, Adar David's. (DAD: I heartily agree! Any H.S. who refuses to minister to a nearby sheep at least by letter ought to be replaced by one who will! God help us!)

Confessions of a former Prime Minister AMERICA!

For years I have wanted to write and share with you the different lessons which the Lord has been teaching me, but for fear of what you would think, I could never bring myself to write you any kind of letter other than a "business" on Because I was so accustomed to

doing things in my own strength and understanding, it was difficult to accept the Letters in childlike faith, although I've always believed the Letters and tried to follow them. the Letters and tried to follow them. Consequently, many of the deep spiritual lessons that the Lord wanted to teach me through the Letters passed way over my head. Often I would obey simply because it was my duty to do so. When it came down to obeying something I didn't agree with, instead of really desperately crying out to God and asking Him to change my heart, I would rationalise it in my mind: "Oh, that's just Dad and he wants to do that's just Dad and he wants to do things his way", instead of realising it was God's way and genuinely repenting and admitting to myself I was wrong.

Because of this, over the years I can see where I've never been truly able to convey the true spirit of the Family to others, because I never really had it myself. After being here in South America for two years I can see where I have so totally failed to really establish loving Homes full of faith and prayer, but have

instead spent much of the time mad-

instead spent much of the time madly rushing around in my own spirit and my own strength.

One of my biggest failures has been with my own wife, as no matter how hard I "tried", I have never been able to truly give her spiritual guidance and help her have a real burden for souls. When the FF Letters first came out, I was really excited about following them, but because I felt it was "my job" but because I felt it was "my job" to give her the vision and make her follow them, I was never able to let go and let the Lord put a real love for FF ing in her heart.

After going out many different times and never bearing much fruit, the Lord finally got me to the end of my rope, where I began to desperately seek the Lord, asking Him to help Palestina change. Honestly, this was something that was always this was something that was aways difficult for me to do, as usually the Lord in the past had dealt with us through our children, but by this time I had come to the point where time I had come to the point where I realised that it would take a miracle for Palestina to change. Therefore, I was willing to allow God to do anything necessary.

In my own life, I had finally gotten to the point where I was sick of constantly taking care of problems and worrying about future problems. Exerctime the phone would

lems. Everytime the phone would ring, I would practically freak out. Although I knew that you both have so many more problems to take care

of and so much responsibility, I could never quite figure out how you didn't worry about them.

When I was last in Lima, the Lord in His love and mercy helped me for the first time in my life to put on the "magic green shirt" of hon-esty and share with Deborah all my fears and worries that had built up over the years that I never could confess before, including my deepest fear of always being "Jethro's boy", which came from my listening to his doubts for years.

It was really a miracle how, through this experience of confessing and being honest, the Lord really used Deborah to show me His love and understanding. For the first time I was liberated from a spiritual bondage and oppression that I had allowed myself to get into over the years.

For the first time, I began to un-

derstand the reason why I didn't feel close to you in the Spirit.—Not because I was a different style of leader, as Jeth had frequently told me, but because I never was really in the Spirit and therefore conin the Spirit and therefore con-tinually leaned to my own under-standing. This whole experience has been such a shock to my system, that at one point I thought I was going to die physically. But thanks to the Lord's mercy, He helped me to die to myself some more and helped me to practically be born

For the first time in my life I started to be able to hear from the Lord more clearly and had a childlike faith that He was totally in control. Thank the Lord that in His love he decided to put this newfound faith to the test right away.

Only just a few days later, the police in Mexico raided our Homes and Palestina and our children were arrested. Although I must confess that at first the news hit me hard, the Lord really comforted my heart when He showed me that this was the answer to my prayers for her.
When I asked the Lord what I should do, go to Mexico or not, He gave me the quote: "Faith and obedience come first and then God answers prayer." I took this to mean that I needed to have faith that He would work everything out and be obedient by getting out

Already the Lord has really given me a new-found love for FF'ing. When we got the message from Watchman that the girls in jail had won many souls and were asked by the chief warden of the prison to the chief warden of the prison to be the morale counsellors for all the inmates, I wept for joy, as I am so thankful for the Lord's love and mercy in helping Palestina to refind the love for souls she once

Although I could probably write pages and pages about all of my mistakes through the years, I've failed you and the Lord's children strength, wisdom and understanding. Like I told Deborah the other day, for the first time I really feel close to you and her and most of all to the Lord and His Spirit, and with His help I want to do the little bit I can to help share His love

with others.

Love in His service, Zadok.

DAD'S FAVOURITE BREAKFAST

WHOLE WHEAT PANCAKES (makes 12)

1. Combine & beat about 1 minute: 1½ cups milk

2. Add and mix well: 3/4 cup whole wheat flour 1 heaping Tbspn. wheat germ 1 heaping Tbspn. brewer's yeast

I tsp. sea salt
I tsp. baking powder
3. Beat until stiff and fold in gently:

3 egg whites
4. Cook in a very hot frying pan seasoned with a little oil or margarine. Use about ½-¾ soup ladle of batter for each pancake, making a circular motion with the pan as you pour it in, to spread it very thinly, almost

like French crepes.

5. Butter each one lightly when done.

Serving Suggestions:
Dad likes his served with bacon that is cooked very well done and crisp, almost burnt, but not quite. (Be sure to serve the bacon on the side and not on the pancake or the moisture in the pancakes and steam from the cover will make the bacon

a bit soggy.) Then Dad adds a ring of honey, spreads it with quark, (thick liquid cheese) and rolls it up. Maria likes hers buttered and spread with plain yogurt or sour cream and then sprinkled with wheat germ and crumbled bacon.

(All measurements are American Standard)

How could He love me?

How could He love me? So unloving I am, Unworthy and ashamed, I reach for His hand.

How could He love me? How could He care? When I've failed Him and others Who came to me in despair.

How could He love me? How could it be? That He'd lay down His own life That He'd give His for me.

How could He love me? Who gave Him such love? His mercy and compassion Must come from above.

How could He love me? So unworthy I be. Yet He loves me, He loves me And has set my heart free!

Now my only prayer And now my only plea
Is to have the same love for others That He has had for me!

THE <u>OLD</u> LEADERS of LATIN AMERICA...

EXPOSED!

A report to Dad by Shaul & Abiah, Latin America KQS's!

Dear Ones. We wanted to write you about Deb & Jeth's dealings with Ed and

Paloma, Ebed and Leah and others, The night before last, Abiah had a dream that Ed was back in the Family! So yesterday, as we thought we were leaving for South America,

we called the translators there and talked with each one of them for a few minutes. It was such a blessing to hear them as they each sounded so inspired, happy and liberated!

Paloma told us she had just recently received a letter from Ed in which he stated that he was thinking of coming back to the Family and had set a fleece before the Lord. So maybe the Lord is going to bring him back in very soon! We would like to call him

when we return to South America.

We also wanted to mention that

it appears that Deborah in particular was extremely hard on Paloma. Whenever we were around Deborah, Deb really talked down on Paloma. The general attitude was, "She is barely a disciple"—her same attitude towards Ebed. Ed and Palotude towards Ebed. Ed and Patoma seemed to feel almost like Ebed and Leah felt when they left. They were made to feel that there was "no hope". Paloma told us on the phone, "I knew I was bad, but I couldn't possibly be that bad!" For instance, Deborah sent over a note with some clothes for the girls in Publications, saying, "These are for whichever of the girls they fit except Paloma". Paloma also said that Deb and Isaiah would walk past Paloma without smiling or saying anything and just walk on. Or Isaiah would give everyone in the room a hug and overlook Paloma. Such events, though few, really stuck out, as they were the times they saw Deb and Jeth.

W.

8

Ed and Paloma had written us for clearance and, as I mentioned pre-viously, we wrote Deb and Jeth recommending they be given a change. We, of course, wanted them to come as we had really worked well with them in the past and had no experienced hand in Publications in the North. Instead, we were told it was impossible, and Ed was doing better. Paloma also said last night that when they confronted Deb and Jeth about moving to our area, they completely cut us down and told Ed and Paloma they would not be happy working with us. So quite obviously they did not want them to work with us. Rather than give them the change they wanted and needed, they sent them litnessing to a small town in Peru with their two small children. When they left, Jethro sat down with us for about three hours explaining it away, telling us how out of it Ed was, etc. (Previously, only Paloma was out of it, in their eyes.)
Such lack of trust was quite

commonplace. Former AB's of Venezuela and West Indies, Amram and Jochebed, left almost solely because of Jeth, who constantly bawled them out and got on their case about every little thing. Carlos told us the other day that in Jeth's visit with him to Caracas, Jeth almost never let up on Amram, especially, and constantly nagged and badgered him about every little thing. When Amram and Jochebed thing. When Amram and Jochel left, they used the FF Letters as their excuse, but they told us that Jethro was a "sick, drunk man", as all he had done was drink, go to movies and bawl them out in his visits there.

From what we understand also, Manasses and former AB's Boaz and Remy were also dealt with quite harshly and given little remedy, just prior to leaving. So we do not be-lieve Ebed and Leah's or Ed and Paloma's cases are all that isolated.

There are also quite a few times that people got incredibly heavy blasts from Deborah or Jethro, but thank God, those people have still stuck it out. Deborah, for instance, completely blasted one girl, for cutting her hair, in front of thirty other people, and said jokingly, "Shaul, I thought I told you not to let Cherith into this meeting without a bag over her head." She made her wear a scarf on her head and said otherwise she couldn't stand looking at her. The girl and her husband, Jubal, were AB's and one of the sweetest couples in Latin America. They were totally humiliated!

Jethro blasted the one house in Lima that was faithfully FF'ing. In a two-hour session, he screamed at them that they all "had their heads in their pants". Needless to say, it did not encourage FF'ing or halping our Femily members and say, it did not encoding it is go helping out Family members and made everyone feel "out of it" and "unspiritual". Deb, Jeth and espe-cially Isaiah, would always talk about how "fleshy" Rebecca, Faithy's secretary, or Rosa, Juan Carlos' wife, were, although these two are quite faithful FF'ers. Then when a new Letter came out, they would use these girls as proof that the Lima area was FF'ing!

Many times they told us we just were not hard enough on others.
They would bawl people out quite harshly and expect us to do the same. They told us to be harder in our correspondence to the field (especially Abiah in Childcare). Jethro blasted some people so hard, we're thankful they're still in the Family! For instance, Abiah was admonishing the AB Mother in Mexico, Esther about not keeping the school clean, while Jethro egged Abiah on to be harder on her. Finally, Jethro grabbed the phone and literally screamed at Esther for at least ten minutes!

Their phone calls to us were always quite scorching. So I called and offered to resign and got bawled out

for wanting to quit! Shortly thereafter, I made my call to Rachel. I got severely dealt with by Deb and was told that I had "no love for the field" and that we should be thankful for their mercy for no other leader would work with us. We were often made to feel they were excep tionally merciful with us, to win our loyalty to them. After that, their calls to us were a little milder and more considerate, I suppose because they thought we couldn't take it. But they seldom asked us for our opinions, ideas or suggestions. We made more than our share of mistakes and had a lot of lessons to learn and still do, but we felt they were driving by force and condemnation rather than inspiration and trust.

They had very little faith for many of our undershepherds, and yet they expected us to produce with them. All the little people we tried to use, they put down or de-moted and then dealt with us about our discernment. Jethro would talk about how Zadok had had to demote nearly every leader in the South, and Jethro got on our case because we didn't "fire" enough people.

We were constantly told we weren't doing the job "like Zadok and Palestina". Yet when we got to Peru, we were quite shocked to find Homes in Peru that had not been with the job to sight months not visited in six to eight months, not even by a District Shepherd! Ebed told us the Quayaquil, Ecuador Home had no furniture and only four beds for twenty people and sheets hung up for curtains. This was in Zadok's area and a major was in Zadok's area and a major city and the same H: Traine had

ridus for giving them desirance and to send in their 35% until they at least had beds.

Deborah and Jethro's pressure on the field was often subtle, although sometimes also quite open. Ebed and Leah were told when Jethro visited not to let anyone in the door unless they got ten cents a copy. I myself had litnessed there and felt it was very unreasonable and told him so. Colombia is extremely poor, and I had a very hard time getting 6 cents a copy, although I can average 15 cents or better in most countries. They never did get ten cents a copy (and when Jethro went there it dropped to one cent, which gave him a little more compassion for the field). Jethro was mad at us, by the way, because we weren't averaging a dollar a copy at the border base.

Another example of the pressure put on the leadership in Latin Amer ica was a phone call to John and Rejoice in the West Indies because they were not getting out 2,000 a month per person yet. Jethro said, "John, you promised me you would raise those stats! Now why haven't you done it?" This pressure, of course, made John turn around and put more pressure on their field. The idea was to pressure the under-officers, who in turn would have to officers, who in turn would have to pressure the field or lose their job. In this way, Deb and Jeth could appear merciful in having their officers do the "dirty work". They also undermined the officers on the field by writing an advisory to everyone to "write Lima if your

officers don't print these mini-Letters", so that any who did not like them and would have preferred something else were discouraged from doing so. Whenever something went wrong, they blamed everyone but therfiselves.

We didn't want to make this too long, but we did want to try and give you some insight into Deb and Jeth's dealings with people and the field. After talking to Ebed and Leah, we realised that maybe we didn't specify the above enough

We joked that we learned how not to be and what not to do from Deb orah and Jethro, but we're thankful for the lessons learned and more thankful for <u>your</u> sample of how to be and what to be. Most of all, we are thankful that things have changed and are changing and that the healing balm of His Word is going to heal the wounds and mistakes in Latin America and really set the kids free to live their faith in you and the Letters! Love in Jesus & David, Shaul & Abiah. (Editor: Newly appointed KQS's of Latin America.)

Dear Dad & Maria, We're sorry it took us so long to publish the above article "Exposed". We really had a battle over it as it is so "gory", it really made us sick! Zebedee even had a dream about it the other night (early a.m. of Feb. 25) that as he was working on it a big ugly demon with wings like an insect kept glaring at him like he was real mad about it being published. So Zeb rebuked him in Jesus' name and his wings shriveled up and he slunk away! PTL! Heavy! GBY! WLY!—Zs. (DAD: The preying mantis of "Cesspool"?)

Letters From Former From Jethro, former KQC of Leaders!

Latin America:

Dear Dad, Maria, Rachel & Eman-10 Feb. 78

God bless you all and greetings in Jesus' precious Name. It seems that in times like this it is often extremely difficult to really write you the kind of letter that will express

my heart's meaning.

It seems that in the last two years (as KQC's of Latin America) we've made so many mistakes, so many blow-its, just not being in tune, not hearing enough and not listening enough. I want you to know that I'm really, really sorry. Please forgive me for my part in some of these tremendous errors which have affected not only a few, but hundreds, even thousands of lives.

I have been guilty of so many oss errors, gross neglects, falling short, unspirituality, drinking too much, being ununified with Deborah, being too hard on the flock, it really freaks me out sometimes when I think about it. It's awful, disgusting! I didn't deserve to serve as a KOC.

I can't even begin to confess all the mistakes, blunders, faults and failings I've done in two years, it would take a book: freaking out

over our blob colony in Lima but not being able to do anything about it because of not being able to get together with Deborah, then overreacting in other areas and freaking others out because of my own frus others out because of my own frus-tration, etc. I've also been guilty of being the "big luxury leader" as you mention in "RNR" and not being careful enough with the fi-nances, maybe sometimes as a retreat because of the problems or whatever. I was wrong, and by the grace of God I'm going to try to right it all. And may God help me to change and get back to Him and the basics.

We've been out witnessing and FF'ing almost every night for the last two weeks. I feel I've really failed in this in not getting out very much, and we're really trying harder. It's been such a blessing to get personally involved in people's lives and helping them to come closer to

Reactions to the "RNR": can't imagine how much I flipped out and how relieved I was and how happy I was when I read the Letter. I want you to know from the bottom of my heart that I think it is

wonderful, fantastic and I couldn't wonderful, tantastic and I couldn't agree more totally with every one of your suggestions in that Letter. As I just wrote in a note to Deborah: "I am thankful for these changes in the "RNR" Revolution, even if one of those changes is me." I want you to know that I want to cooperate and to help see them done in whatever manner I can be a blessing and a help. Love, Jethro.

From Lydia, former KQC of Pacific & North America:

22 Nov. 77 Dear David & Maria, Dear David & Maria, 22 Nov. 77
I love you so very much and want to thank you for your counsel and what you received from the Lord. I hardly know how to express how I feel, expecially as I am still going through these changes and getting my spiritual eyes and heart back into focus, cleansed by the Word and faith restored and strengthened.

I hadn't realised that Josh had had that much influence on me and I am still seeing these things. After reading "Bewitched", I saw how things have happened to me. As Deborah was in the Letter, I too was "fascinated" with Josh, since coming back to the Pacific from the street was a support of the street was a support of the street was a support of the street was and it's something too. visiting you, and it's something too I guess I have always done, since before he was my over-shepherd always. I have no excuse, I know, because of the time I was with you and all you had to share, but like Deb. I wasn't in tune with you and the checks you were giving and had

I've been seeing these things for a long time, but I haven't had the strength, faith and conviction to

stand on the things the Lord gave me and to really deal with the situation. I feel that I've also had a fear of man more than of the Lord. I have had in the past a real fear of Josh. I see I try to be too nice and friendly when you can't when it comes to disobedience and leader-

when I was reading the latest Spirit Letters, it made me realise how much depends on who you yield how much depends on who you yield to. Although I don't understand it all, I know I just fell back into being yielded to their spirit and I see Caleb did too with Josh. Having fear of man and of the law has influenced me instead of having faith in the Lord and His Word. I was more in time with Josh's and Caleb's spirit and the Law than the Lord's Spirit upon my life.

When Faithy prayed for me, she

prayed that I would have faith in your love and prayed for faith for me. I knew and still know that I had to really get desperate and to the depths of my heart if the Lord was going to really be able to change me. It's like I need to open up, as you said, and break down and con-fess so the Lord can make me anew.

I pray for your prayers and am so thankful to you for the Lord's Love and help. I want the Lord's will and His Spirit and to surrender my all. I ask for your forgiveness and the Lord's and for help to start over. I love you so and want all these things gone and complete-ly forsaken so I can love you with a new, real and complete love like never before.

Love always, Lydia.

From Martha & Imrah, former P.M.'s of N. Europe:

Dearest Dad & Maria,

Well, we have at last all arrived in Athens, Greece and the weather is just beautiful! It is quite a radical change from northern Europe, but we are all learning to adjust our-selves. It's such a refreshing change selves. It's such a ferreshing change to be out from under the weight of so much administration. We even refused to be the Home Servants of our little Home here, but chose another married couple instead.

We have more than enough to do

with caring for our four children, litnessing daily, FF'ing three nights a week and learning a new language. Imrah and I are just trying to get our little Home together and do what God wants us to do. We learning some Greek songs that we can teach the children to take them case singing. The Greeks just love children, so we're going to major on these little blessings. I think they'll

these little blessings. I think they'll be some of our greatest tools.

The "RNR" has changed all of our lives for the better and we wouldn't have it any other way. It's such a blessing to be in a new field, pioneering once again. We wanted to let you know how much we love and appreciate you. I miss you so very much but I'll stay close through the words. Love and kisses from your little birdie,

LATIN AMERICA:

What FF'ing was like before the RNR'! A Report from Shaul & Abiah, KQS's of Latin Americal

4 Feb. 78 Dearest Dad & Maria, I just finished reading Deb and Isaiah's report on her big Peruvian fish, and I wanted to write my reactions and a few observations on FF'ing in general in Latin America.

We ourselves, sad to say, did not have any real heavy FF experience in Latin America and can blame no one but ourselves, as we believe the counsel in the Letters is as plain as day, so that we and others like us without excuse. Although a few things were done that discouraged Fr'ing, it only proves to me that we were looking too much to man and his inspiration (or lack of it) rather than to the Lord and the

heavenly counsel already written

Many on the field waited on us, but the ones who did meet the most success were those who ven-tured out on their own, encouraged only by the Lord and His Letters. So Lord forgive us and those like us who didn't trust you and the Letters over our overseers enough to venture out. Even if it meant disapproval or losing a title, our obedience to the Letters must come first!

Deb's report, though showing that she is meeting some success in FF'ing, also shows a few examples of the type of spiritualising of the Letters and technique of FF'ing

i enderined a yellow on her re-port three simple examples that stuck out to me, to show how FFing has been treated in Latin America:

(1) Deb mentions about sex and manners: He's "not European...he's almost animal-like". But he sounds like most men I know, like in

"Male or Female".
(2) Isaiah says: "That's a mistake 12) Isaiah says: "That's a mistake I think a lot of these girls are making, like Rosa" (Juan Carlos' wife) and Deb says, "Really making love with their bodies" (therefore saying they're using the flesh too much). It seems to me that they try to separate body from spirit, instead of seeing that men do have an almost seeing that men do have an almost uncontrollable hunger for sex and physical love and that when they know you love them enough to give them physical love, they trust that you also love their spirit and soul. So I believe that there is a tendency to spiritualise the physical side of FF'ing.

For instance, Isaiah said five or six times in my presence and others:
"People have this fleshy idea of
FF'ing, so let's not call it FF'ing.—
Let's call it witnessing." But they don't see what an important part

the bait plays.

Deborah and Isaiah always stressed that the most important person was the fisherman. It seems to us that in most instances, the fisherman is scarcely needed until the fish is hooked, as you can't reel in a fish that isn't hooked on the line. Ruthie, Luis Manuel's wife, (Emanuele's Peruvian cousin) wrote Rachel yesterday about her first FF experience, where she chased a

the fish see her ask her fisherman" (to be a bigger testimony). Ruth wrote: "We now see that was our mistake" (paraphrased). When we were in Lima, Deborah

and Isaiah would tell us to go to clubs but "don't worry if you don't meet anyone. Just relax, have a few drinks and go home." So even if pooling the state of th if people have been going to clubs in Peru, it's no wonder it hasn't borne a whole lot of fruit, as no one

was encouraged to go after them.
(3) Isaiah says: "I think sometimes when we go out to try to FF, those are...like in our own works..we went out and met those people." In other words, don't go to clubs to get them, but make them come to you. This seems to us to typify the attitude about FF'ing. They give them flesh if it's some important official, but they don't go to the attack and meet them in clubs and love them, even if they aren't quite such big fish.

So overall, I think the attitude has been to emphasise the fish's spiritual need (which of course does exist) and de-emphasise their physical needs. Deb would emphasise over and over again how sex was "the absolute last resort" and bragged of how she got men interested without sex (prior to her first FF'ing in Ecuador) and how she had seen one fish three times and had gotten away with only kissing him once and nothing more. I agree that it's good to feed their spirits and that sex is a last resort, but over-emphasising it seems to be an unbalanced view of the subject.

When I first came here and Maria

when we shared physical love, I knew not only that she was concerned about my spiritual needs but also my physical needs, and it was also a very spiritual experience, that heart-to-heart sharing without walls or barriers, that we had sorely

what Ebed and Leah shared about Deborah's FF'ing in Ecuador threw a lot of light on the situation. For instance, Deborah told us that all of these men flipped over her, whereas Ebed and Leah said that she hustled her way in and pushed the other girls out of the way in order to FF these big fish.

In Lima, Deb was quite upset with Rosa, Juan Carlos' wife, for not stepping enough out of the way" with Rosa's fish, R., the son of a high government official, to enable Deb to hook him, although Rosa had met him and FF'ed him and he was very interested in her. He showed little interest in Deb. so showed little interest in Deb, so Deb returned furious at Rosa for not pushing the fish on Deb, who showed little concern for what was best for R.

Ebed and Leah stated she had only been interested in the big shots and each time pushed one of the girls out of the way to get them. Then they would talk about how "fleshy" Rosa and nearly all the other girls are. Even this report on her big fish seems aimed at pointing out how flipped he was Deb rather than giving any insight

into him, his character or needs.

We went to clubs with Deb and Isaiah three or four times. Mostly,

we danced together and little efforwas made to meet men. Deb met one man, but I think he was the only man we really met in three or four nights between six of us (Zadok and Pal also). At one point, one girl met several single men in their 30's, but Deb and Isaiah thought she didn't know how to control him (he had had a little to drink) and therefore suggested she not go to clubs but be more or less restricted to ministering to friends,

It's such a testimony of trust that you not only let the girls act on their own faith and leadings, but encourage them to step out and get on the attack. In Mexico, I went to a club several times with Zadok, but he also did little more than have a drink and talk. After an hour-and-a-half, I went to the bar with Tekoa, our secretary, and we immediately met four hungry men. I went back to our table and dragged Katrina, the only remaining girl, back to the bar and we met three more men, leaving Zadok and Watchman to mostly talk and do little more.

So, even when people do go to clubs, they aren't being encourage to really work at it, but it's treated as more of a "social event". There is a real lack of trust of the girls to follow their own leadings, and the fisherman's initial role is overem-

Isaiah stated: "I don't see how single girls can FF", as their connec-tion with the fisherman needed to be so strong. Deb and Jeth sent out an advisory suggesting that people FF, but stating something like:

"But be sure to counsel with upper-level leaders" (loosely paraphrased). So the overall effect, although their words said to FF, was to stifle a real FF push.

They were at least trying, but I

don't think they saw the adverse effect their "spiritual" view of FF'ing and going to clubs had. Here, the single girls and the girls without their mates make the initial strike and really go after them, and in an hour or two make more effect than we were making after three or

four nights! Fisherwomen—what a bomb that's going to be!

Jeth had a meeting and told 20 people that their heads were in their pants and bawled them out (as I mentioned previously). Deb had an FF meeting and gave testimonies, but again made it all sound so spiritual that I think some wanted to avoid it for fear of not being spiritual enough.

Personally, I believe most of our girls would do best just to be their own natural selves, concerned for

each sheep that they meet. Rather than trying to work up the Spirit, they should just show them genuine love and a little bit of physical concern before putting out a big "spiritual love" rap, if you know what I mean! Deb tried to talk about things relating to the Spirit, and did well at this. But the flesh seemed just a

at this. But the flesh seemed just a tiny bit too removed.

To explain how it lacked that certain intimacy with fish that I've seen here, Isaiah announced in the big FF meeting: "Maybe the girls shouldn't do FF reports, but rather the fisherman should report on each fish." In other words, the girls weren't trusted with getting intimate with the men first, without the fisherman butting in. So the girls need to be given more leeway, more line. Praise the Lord! I love you and love being here. We're learning so

love being here. We're learning so much, it's truly a great blessing to us. We have so much to learn and are thankful for the sample here!

Much love, Shaul & Abiah

"Ready to go, ready to stay, ready the need to fill" and can see the Lord's hand in these latest changes.

I know myself, that I have an awful lot to learn still and have not had the very important experience of working right there in the field, learning of the problems, under-standing the difficulties, going of course enjoying the wonderful victories that God always gives!

I know we are all "on the front

lines", or at least should be, but when you are actually out there, it looking forward to it as a great challenge, and by His grace we'll be able to meet it! Both Bec and I really love you, and I pray that in our time in WS we have not dis-pleased the Lord. PTL! There are pleased the Lord. F1E: Inere are so many things as I look back that could have been done, Lord help me and forgive me! I hope to remain close to you in the Spirit!

I love you and can never thank

you enough for what you have all done for me. Your patience and love have really stunned me so many know God can use me. God has given you a measure of love that I never thought possible in a mortal body. I have seen you in action and have felt your spirit working, and this keeps me warm and close to you. Dearest David, I love you very much!

Dear David and Maria, it's funny, but being away from you for so long now, I feel closer to you in the Spirit. I feel your sample and your spirit living in me and it makes me so very happy! I have changed so much in my four years in the Family, and I feel an even greater responsibility has been placed on us now, in carrying the spirit of David out to our new field, and we ask for your prayers.

You have given us such a heavy vision for loving the world! Your vision for Nationalisation is really going to pay off. Bec was telling me how Faithy always used to go straight to the Nationals and start straight to the Nationals and start training them right away to reach their own country with their own language and personal testimony. A LETTER OF LOVE & APPRECIATION FROM-"King Arthur"!

Dear David & Maria,

We were truly shocked at some of the things that we read about the way the 'R' was being run, etc., on the field! The way the Letters were being watered down was frighten-ing! Lord help us! Thank God for a man like you, so loving and hum-ble, a servant in the truest meaning of the word! I am very, very privileged to have met you, lived with you and learned from you so much! have taught me and the love and patience you have shown me, and I feel so selfish and unable to do anything near the same for you all. I love you truly! Long live the King and Queen!!

We have been going through some changes here at W.S. Pubs, and everybody really seems turned on about it all, including us! Working here in WS Pubs has really been a blessing, and we are in many ways sed to go. But we are an army!

The Ne-Witnessing Sets

Dearest Dad & Maria 5 Feb. 78 Enclosed is a compilation of verses we did in Tenerife, as we thought maybe it could be used by others as a witnessing tool also. We compiled verses on the themes that seemed the most recurrent in

that seemed the most recurrent in FF'ing and witnessing.
As in "4 Steps and 7 Proofs", we tried to put 7 verses per set, as it seemed 7 verses would be enough and plenty to give someone on each topic. We tried to use the verses that you have used the most in the

Letters. In some sets, we put "also and added a few more verses we felt

were good.

We hope and pray that these verses will be a help and blessing to others in their witnessing!

Love, Timothy & Abeille

New Services from Family Care by SARA (Davidito's teacher)

FAMILY) NEWS

Dearest Dad & Maria, 21 Feb. 78
PTL! The new "RNR" liberation
has changed our lives! What a wonderful victory after all the "gory
stories" we were wading through
for weeks! One of the greatest victories of all for me, in the area of
my burden (as you know), has been
the changes and reoganisation in
the Family Care Service, for now
this has been put under your careful this has been put under your careful supervision, and we have commissioned the most dedicated and quali-fied teachers to a full-time writing ministry! Finally, the Wonder Working Words for childcare are in production and approved through one source-you!

We have three teams working fulltime in writing, and have organised these Creations staffs as follows:

1) Sarah Ireland and Paul Theophilus are writing the teaching classes on the 3 R's and the 3 G's in education for our worldwide Family. They will also be receiving approvals there from anyone on the field who wants to submit work for the who wants to submit work for the

childrens' pubs and classes, and will edit and/or send them on to us for final approval. Zebulun Geppetto is their FC artist. They are also working on language and education workbooks in this Rome Pubs Staff and will continue writing children's

2) Esther David along with Apollos and Lois will be doing the Children's MO Letter Study Course. This will be the basic Letters in Children' Editions, classified according to age groups. These Letters will also minister to the Third World and friends. (All this is provided they accept the job there in Hong Kong and really produce what they have had the burden to do for quite some time

now!)

3) Last is our team—me (and I count it such a privilege) with Ab-raham Artist and the help of editors, to get out the rest of the "Davidito Series" and the Recommended Reading List of what books we would like to share with the Family for their investment and interest. If they want to teach the child to read, there are several recommended books on the subject that we have found very helpful, etc. Parents can send off to loved ones for funds and have the publisher mail them several copies to share with other parents on the field

There may be other people in-volved with writing, but we want to encourage anyone who has a burden for childcare pubs to send their materials in to the Rome Pubs address: Bambini di Dio, C.P. 748, 00100 Rome, Italy, so we can finalise it for them, if needed, and have it all filtered and approved through

your hands. This way there will be standard print and form, no duplications, and really worthwhile material for the education of the children! PTL!

I am so excited about this vision and can finally see that something really will be done for the children's pubs and teaching materials! We pray that everyone sees the new freedom in this and is assured that because you are the ones approving the materials, that no more do we have to lean to our own understanding and old wives' tales and doc trines about how to raise the Lord's

I just feel such an urgent need to get every important instruction on paper, so every disciple will know the hows and whys and all about the urgency of the children's discipleship training. We think we can give the parents and Family everything they need with specific teaching classes on the points you, Dad, brought out in "The Education Revolution", the story of how you reason and teach your own child in paper, so every disciple will know raise and teach your own child in "It's a Boy", and all the basic MO Letters in simplified form for the children, as well as recommend other researched books and materials that we can use to teach and train them. This is what I really a big burden to see, that:

The parents realise that the Letters are the leaders in childcare too, just as is now stressed in the RNR, not just the Montessori "so says anyone else" Method or By using what worthwhile books we can from the system, it seems we can cut out a lot of extra work time and expense in writing classes

on subjects that the system even knows more about!

I hope to see more discipleship teachings and helpful tips in print for the parents, helpers and children on the field, who are busy serving the Lord daily and raising and teaching the children. We pray that more Family members will see the need and offer to help in caring for, training and teaching the children. It's very difficult for a busy mother of several children to teach, litness and meet the needs of all the kids, so a willing helper can be a real Godsend! whing helper can be a rear double.
The children need and love fellowship from <u>all</u> the Family—that's
how they learn from us!
Thank God for the liberties now

in trying new ideas, hearing from the Lord for ourselves.—Just as Maria said to me the other day, "I don't care what you do with Davidito, as long as it bears good fruit!" cause the Letters are the leaders in everything, it is more important now than ever that we get as much worthwhile instruction in print fo parents and children! We have thought and prayed about this for several months now, especially from the time that we saw the many fault in our Family schools, such as the outrageous prices our own people were paying to send our children to our own schools, and when the children were not getting the right schooling and Family environment anyway!

Now we want to encourage the children to be used, right on the field, in witnessing, litnessing, sing-ing and performing, "Open the Door ing and performing, "Open the Door for the Children", "Church of Love", provisioning and practical Family

member duties, as the Letters have showed us to do!

Our people need to get the vision nat "education" is not something which is only done in a classroom-and is especially not limited to the expensive Montessori equipment that hardly anyone can practically obtain anymore! But rather, they can provision the funds and help for obtaining the books and basic needs for the children, follow the Family Care suggestions and learn to teach just what the children are interested in learning at the time.

Also, by learning to read at an early age, the children very soon can "teach" themselves any subject by reading,—and what's more important than the Bible and MO

Letters? Hallelujah!
Love forever, Sara.
P.S. So we are concentrating on Paper Power for the Lil' People above all, and hoping to encourage all who are interested to send in what materials they think would be helpful in this field. Any ideas from Family and friends will openly and gratefully considered by all our new Family Care Servants, who are truly dedicated now to serving all parents and children worldwide! Let's hear some testi-monies of how the Lord has used your lil' prophets, and any ideas you have to share can be sent to:

was the price or contents of the NNN. (MO: Crazy!)

At the end of November, Shem, At the end of November, Shem, Zeal, Abel and Mercy arrived from Sydney to embark on "MO's new vision for Australia", which was "to raise the standard". Around this time we had received another Attack Week advisory. This time Attack Week advisory. This time we were offered no NNN's for distribution.

In our meeting with this leadership, when we questioned "why this selection of lit?", they said it was MO's selection for Australia (MO: Never!) A few week's earlier Abarim's colony had provisioned 5,000 copies of "Our Declaration of but was reprimanded an told that they were not allowed to distribute them. (MO: My God!)

A few days later, Shem (who's position I frankly do not know, presumably our AB), called a meet-ing of all Melbourne leadership to explain how we all needed to physically raise the standard, rent uppermiddle-class housing and get new clothing right away. Needless to ay, we were all excited about it, but were bewildered about the practical aspects and how we were to finance these, considering that the lit we had to order from Sydney cost 8-10 cents apiece. Then, several of us shepherds in turn began to explain some of the grievances we had. At no time was the conver-sation heated or voices raised. There was no plan of any kind to even bring these things up, as we had not been in communication with each other about these issues. I am truly convinced that none of us who spoke up that day had any evil in-

tent and that we were not trying to, nor did we, sow discord or disunity. but that the spirit that our remarks but that the spirit that our remarks were received in was, for the most part, the cause of so much heart-break to follow. (MO: Poor kids!)

The next night, all "rebels" involved were isolated in one colony.

We were expecting and hoping for a meeting with leadership that evening. Instead we were given a list of MO Letters to read and study the following day. The next day brought news that we were not allowed to make contact with any one outside the house. By this time, we were all offended at the harsh and unjustified treatment and incarceration, and we began to feel as though we were there to be de-programmed. The only word we received was via phone message from a brother at the other colony.

The next day we were all sent out to distribute literature to raise some money for lit for the area. The next day Abel came to collect the money. On the fifth day, some of us were deciding to head out and hit the road, sure that we were being excommunicated. Abel came drop off some lit and Merisha pleaded in tears for a chance to talk and was given a quote to read to Abarim about how God wasn't finished dealing with them yet. They left, and this prompted leadership to start talking with us.

By the next day, we were all sufficiently broken to be spoken to by Levit (I suppose he's the Minister) and Keda our AB, Shem, Zeal, Abel and Mercy. We were all dealt with individually (by couples) and very quickly apologised.

-about pre-RNR "National Quotas", leadership problems, etc.!
by Ruth & Aaron Quixote in Melbourne

Dear Rachel, 1/1/78

There has been so much happening down here that I'm sure you would have heard by now. We are heartbroken and truly, truly sorry for any mistakes we've made. We see so clearly now how problems can grow and grow if not dealt with.

I will try to recount the facts of this last month's happenings. Several of the local leaders in Melbourne were not happy with the lit and financial situation as directed by Sydney. Then Sydney initiated the "Attack Week" idea before the Letter "NNN Attack" came out. In the next couple of days we received a phone message for the area to send up 35 dollars per person immediately for 300 NNNs per person and 30 pieces of Wild Wind per person. ("NNN Attack" came out the day before Attack Week officialy started.) This lit was supposed to be in obedience to the "NNN Attack" vision.

We didn't receive the paid-for

lit until almost two weeks later. The only ammunition we had for Attack Week was old lit and mostly mini-lit and the amounts of lit we could order were limited, as Sydney's small presses apparently couldn't produce to meet the de-

mand.
The result of the Attack Week funds was to go to buy colour NNN No. 2. but we were given no information on how long the shipments from Hong Kong would take, what

8

Three weeks later I realised that Melbourne had slumped back into its former lethargy, and no one questions or proposes anything. (I'm afraid that I can't answer some of your questions about our Chain of Cooperation, as it's changed a few times without us on the bottom knowing.) The publications department has most certainly been a mystery, as all letters we have received from them over the last two years have been signed "Publications". (MO: Sign names!)

It looks like we need a change of leadership down here. Shem, in particular, has a reputation with those of us who've been in the country three or more years for his heavy-handed dealings with people. My husband and I were once even taken from the country leadership of New Zealand and put out of the Family by him. That must have been four years ago. I don't know the others as closely. I believe Levit has visited the colonies in Australia once in the beginning of the 1½ years he's been Minister, and we've heard very little from him since. Keda is a real sweetheart and was left to make apologies for the shortcomings of the work in Australia, as if it was all her fault. She also met with our Region after our five-day ordeal or "word break" and explained to all that the local leadership had made some grave errors, were dealt with, got the victory and were all on the right track again. (MO: GBH!)

At the end of our five-day "word break", I picked up for the first

time "The Treasure Shio", and I was thrilled to find some quotes that really seemed to be for us, the most striking of which is the last: "Someone should find it."—The story of the crew being held captive on a sunken ship and compiling information about the ship's story and personnel and inventory seemed so much like us! Perhaps you've received letters from others about our "sunken ship" down here.

Praise the Lord, if this letter helps in salvaging of the ship and gets the work down here floating again. I'll be so happy! Australia has alot of potential that we haven't yet begun to tap. We all love you dearly. Please give Dad and Maria a big kiss for us!

P.S. from Aaron Quixote: Thanks so much for listening. All we really want is a fair go and some added inspiration to carry out the MO Letters. We really need some childcare leadership down here, as it is a very neglected and forgotten ministry. We love you very much and were thrilled with your letter to us. Thank you so much again.

The Sad Case of Mother Eve & Stephen David!

-Reports by Kenaz & Hodiah, Hosanna & Rose, and others!

Dearest Dad & Maria, 27 Feb. 78

We wanted to share briefly about our experiences with Mom and Stephen since becoming involved with them when North Africa became part of our Ministry. I (Kenaz) had one previous encounter while on a "peace mission" with Hosanna in the Fall of 1976, but I was more or less an observer. Since I had no real authority, the action (should I say attack!) was more directed at Hosanna who was responsible for that area at the time.

But even then, I was shocked by

But even then, I was shocked by the spiritual attitude of the team there, which was so blindly critical of anything connected with the Chain and so blindly uncritical of anything on their own team. I will say, though, that on that trip I did feel that some of the problem was unwise and perhaps unloving cuts against Mom by members of the Chain in S. France.

Within their own operation, I never saw such personality worship and dictatorship as that of Mom and Stephen.—And such an oblivious attitude to even the political realities of the Mideast! made up.

On the next trip, Hodiah and I first went to Tunisia (June 1977), and visited with Joseph Swiss and our team (there were about 20 people), and we felt really united with all the folks there. They warmly welcomed us (though we were still unofficial visitors doing a trip for Hosanna, who was tied up in Italy at the time) and thirsted for counsel on pioneering. They were really feeling and seeing the need to apply "Don't Drop Out—Drop In" and "The Age of Pisces" to their situatio

"Don't Drop Out—Dron In" and
"The Age of Pisces" to their situation
and to drop the "Les Enfants de
Dieu" tag, which was already causing a lot of official anxiety. We can
honestly say that the entire team
there was heartily agreed that Joseph had helped the work tremendously and that they did not want
Mother, Stephen or their agents to
return to the field, and the result,
chaos, dangerous tactics, etc.,
which they knew endangered all the
patient hard work they'd done. In
fact, most there felt that Mom and
Steve's "pioneering" was something
they constantly had to overcome
(bad PR with certain hotels they'd
played at, suspicion of officials,
etc.) that made their job of getting
really into society there more difficult.

Joseph had been unanimously confirmed as leader there.—He was called a Bishop, but in reality was a Regional Shepherd of Tunisia.

He was appointed by Silas and Hosanna and did some closing down of so-called border bases in S. Europe at their requests, which got Mom hopping mad at the time.—This was before our arrival.

Then Joseph, Hodiah and I all visted Mom in Malta and were treated like babes, kept waiting for days to get to see and share with Mom and Steve, who were busy rebuking Joseph (who took it with amazing calm; he just wanted to have nothing to do with Malta, Libya or Mom's crew anymore, but still he kept a patient and loving attitude). When finally it came time to share with them about our experiences in the Muslim world, Stephen turned on the tape recorder and lectured us on the glories of Mo'ammar for three hours! It was quite frustrating! The one point we kept insisting upon, though, was the right of the Tunisian work to self-determination and that neither Mom or Steve, nor anyone, could phone up and dictate to them or send in unwanted personnel to their field. Our standing with Mom sank quite a bit on this trip, I believe.

Later that summer, four folks (Damien, Menorah, Hannah and Boaz) arrived uninvited in Tunisia with instructions from Mom and Steve to do a Holy Ghost sample and distribute lit at the Carthage Festival where our band was scheduled to do a performance. Joseph Swiss and his whole team were unanimous in the opinion that such a tactic could result in official harrassment and maybe expulsion just when the band was gaining recognition and a good cover. (Since

then, they have become national stars and got the message out through music many times, including first prize at a pop festival for a new song "Change the World"!).

So, when they voiced these concerns to Damien and company, they phoned Mom who sent back a message insisting that every disciple in Tunisia (then scattered in four Homes in two cities) gather for prayer and prophecy regarding tactics at the festival and also rebuked the Tunisian leadership for "lack of faith" and so on. So Joseph and Taberah called for counsel, and we just said it would be great to have prayer if all there wanted it, but not to allow dictation through prophecy and not to feel obligated to call a special meeting just because Mom and Stephen said they should!

We also sent a message to Mom and Stephen stating our feelings that the Tunisian family were the ones who should agree on tactics that affected their lives and ministry, and if their people wanted to distribute they should totally disassociate themselves from the band and team there to avoid blowing their whole cover as professional musicians. Later I was accused of dictating to Tunisia and not permitting desperate prayer, which I beleive the whole Tunisian family will say is absolutely false.

After that, we tried to enroll their help in Arab translations, but got no cooperation, despite our supplying them with their special lit requests at a pretty high expense. Then in November, I visited Malta and that day immigrations had visited and asked them all to come to

the station the next day, when they were asked to leave. The reason was a 10.36 case brought on by their sending an underaged runaway Maltese catacomber to Naples, Italy, which totally infuriated their family and officials. (The girl eventually returned to her family.) They also were getting harrassed for litnessing, had lost a full set of FF Letters at Immigrations, etc. 1 tried to share that, personally, I felt the persecution could have been avoided if they'd followed Dad's counsel on underaged disciples and tried to put the "Pisces" Letter into better effect there. Well, I was treated like a systemite for my views. (They are all so revolutionary.)

Then, when Timothy suggested we cut Malta's budget (Editor: This was actually an order from Dad!), I shared with them the reasons why (not mentioning Timothy, but just explaining about becoming indigenous, to make funds available for new pioneering, put less strains on our brothers in Europe and because that's what Dad said in his Letters!), and they accused me of not caring about Godahfi and seemed to think if Tenerife should be supported so should they, etc. etc. We replied once again with a detailed breakdown of all fields that had succeeded in becoming indigenous. So far, no reply has come. That's basically it. I could get into all the gory details and horror stories I heard from the sheep in Tunisia, but! think this sums up our personal experiences with them. Love, Kenaz & Hodiah.

P.S. from Hosanna & Rose: We wanted to mention briefly several other incidents concerning Mother

and Stephen, which have occurred in S. Europe over the past couple

f years: (1) First of all was when Stephen held a sackcloth vigil in the Rome Disco, supposedly against the disco and the music there, during which time he also slapped Rodent (the AB) in the face. He had been there just days before with Rachel and Emanuele but never mentioned anything against the situation at the

Stephen and his group of 20 or so refused to leave the premises at the request of the local disco colony members and leadership. That afternoon the club had to be delayed in opening for two hours while the catacombers, who had brought their friends and people they were witnessing to, had to wait outside. Later that night, Angelo and the musicians led 300 kids in prayer to receive Jesus!

(2) There have been several incidences where Stephen and/or Daniel and Menorah visited colonies all over France and Italy deliberately trying to stir up dissension between colony members and on one occasion got so fired up and violent that he threw one of the brothers, Jacob Hopper, up against the wall in front of the regional meeting. It was often strongly advocated by Mother and Stephen for people to just desert their posts to join them. For example, John Z was a District Shepherd in S. France and just up and deserted his flock without notifying anyone in order to find a replace ment for him.

(3) Last Fall while visiting Italy Mother and Stephen took Mene

away from Vessel and Shula, even though they were cooperating in let-ting Mene spend time with Mom. As yet, they still have refused to re-turn Mene to her parents, even though they received a message from Rachel specifically stating that Dad said Shula should be allowed to keep her daughter Mene with her. Naturally, this has caused Vessel and Shula a lot of worry and agony

(4) Mother and Stephen, as well as many of the people they are responsible for, have a bad habit of expecting others to pay their bills for them. On several occasions, their colonies have run up large bills at trailer camps, house rents, etc., which the local AB had to end up paying, as these things were done in the name of COG. They often failed to pay their lit bills, even though their special "border base colonies" were only requested to pay 10% to the AB (actual cost of printing and paper only!), so it had nothing to do with the 35%. They got their lit on credit, but when a default in pay-ment occurred, Mom or Steve would ment occurred, Mom or Steve would seek goodwill to get them restored, which we'd do at their request, and finally switched over to COD delivery! Even during Mom and Stephen's stay in Florence, they ran up a large phone bill in the flat we gave them free to stay at and then left it for us to pay. The flat was also left a complete mess, physically.

(5) While they obviously have the spiritual insight often times to detect

spiritual insight often times to detect problems, their means of going about to correct them leaves a lot to be desired in positive results, more often than not causing real dissension if anyone steps up to question. Mean-

while, at one point, their "region" of N. Africa had grown to 108 people, only 20 of whom were in Malta or Tunisia and the rest floating a-round Europe somewhere (while they spent all their time encouraging everyone to leave Europe!).
Meanwhile, these 108 people were winning only a few souls per month in total and not meeting the 1000 per person lit distribution. So in terms of productivity, they were certainly not much of a sample.

Anyway, the majority of these in-cidents are long over with and not present problems, but we wanted to take this opportunity to add it to Kenaz and Hodiah's report. Also listed are a few comments gleaned off the questionnaires in reference to Mom's team:

Zaccheus Star (teacher of Ho & Esther's children): "Incident with Stephen David at Rome '76—the disunity and confrontation was obviously against the Molecular and confrontation was obviously against the Molecular and the Molecular against the Molecular and the Molecular against the Mol viously against the MO Letters."

Rebekah Willow; London: my opinion, Stephen David has act-ed contrary to 'The Law of Love' in using his 'title' as a top leader or member of the RF to practically force his beliefs and liberties on others, as well as taking from others to feed his own desires.

TIPS FOR TRANSLATING

Although the "Family News" not required to be translated and re printed, it would be a tremendous help to the nationals at this time.

We have heard pleas from different fields about the need for some

kind of translating of the FN.
In translating, there would be no need to make a "duplicate issue"
in the exact format as the FS. in the exact format as the English copy. We suggest just a quick Love, The Lancols.

More Sad Reports ~ ON MOTHER & STEPHEN!

Editors: The situation with Mother and Stephen is so serious that we are publishing more testimonials from former members of their team!

BE WARNED!

From Ruthie Faithful: London: Dear Dad & Maria,

Mother has accused Michael and me of not having done anything for their team, when in actual fact I was asked to forsake my flee-fund to pay off past unpaid bills, etc. totalling over £300, and we also helped to support their colonies by litnessing, etc.

3

We have also witnessed many accounts and incidents on Mother's team which have not been according to the MO Letters nor in a true spirit of love, such as stealing money and opening mail, forced forsaking all sessions, stealing wives and husbands without the mate's consent, etc. I deeply regret and repent of the times I was involved in such horrible things. I only hope that everyone will truly have a real metanoia, and that is why I have written to you about these things, because I feel that the people in-

volved need help.

I love you so much and am so thankful for such a loving shepherd.
Please don't "put out the lights"

("Hamburger Boat"). We need you so much, and the whole world needs you, because they all need to know about Jesus. Love, Ruthie Faithful; London.

From Moriah: London, England God bless you Dad & Maria,

In spite of the RNR, "Mother's team" still exists for quite a few people. Mother has shared with everyone on her team that this Letter does not apply to her team as she was never a part of the Chain of Cooperation. I sincerely believe that they (Mother, Stephen, etc.) are still leading souls to destruction by their deceptions and delusions.

—I believe I was one of them! -I believe I was one of them!

I first met the Family when I was travelling around France and camped beside the Ark in Casis.
I joined some brethren on "Mother's team"—that was 16 months ago.

After two weeks the Lord took me to Tunisia. That's where I met

Mother and Stephen and Adria. Later, Thaddeus, Adria's husband, and Christopher, their 4-month-

old little baby, came. That's when I became Christopher's childcare worker, as Adria very seldom spent any time with little Christopher as they were singing in hotels and

staying in hotels.

After two months, Mother asked Thaddeus to go to England and to take Christopher with him. He could not care for Christoph alone, so they asked me if I'd like to go with him. I really loved little Christopher, so I said yes. I did not know at the time, but Stephen had suggested to Thaddeus several times that he believed it was the Lord's will for Thaddeus to get together with me. We set off for England. I did not understand why he kept wanting to "get together" with me; I thought he must have an urgent need, so I felt I could not refuse to make love with him. I didn't know he was following orders times that he believed it was the didn't know he was following orders! However, our relationship was not blessed by the Lord and bore bad fruit. We were staying with Church systemites, and in the entire four months I was there we accomplished nothing for Jesus! We were not supposed to litness, didn't get any books or anything, no FF'ing, etc. Also, we did not know that there were other colonies there to fellowship with.

Finally, the Lord touched Adria's heart to tell me I could go down to Malta with Christopher. Thaddeus stayed in England. In Malta, I continued to be Christopher's mommy. At that time, Adria was in Libya and was pregnant with Stephen's

Mother, Stephen and Adria made it pretty clear to me that they

thought it best that I go back to England and marry Thaddeus, even though I had told Mother that I did not have a burden to marry him. Of course, my choice was obvious, as I was Christopher's mommy.—He did not know any one else really, not his mother in the flesh nor his flesh father.

I was told to go to England without Christopher and make love with Thaddeus and give him a vision for Christopher. Of course, I was not to go openly saying that, but to "ff" my way in through Thaddeus: Also, Mother told me to get Giddel's phone number, as he did not want to give it to her. to give it to her. She said, "There's ways of getting things." So I went up to England with Beriah (we were staying at Beriah's place in France) while Christopher stayed with another brother in a different town from Adria.

We were told to pick up a van in England that belonged to some brethren in Naples. This is the van Watchman of stealing. At Mother's suggestion to blast them, Beriah yelled at David and Judy and we took the van to his mother's place. He wanted to go up north to his friend's trial the next day. The van wouldn't start, so I suggested that maybe the Lord did not want us to go up north. He said that was ridiculous and that it was just an attack of the Enemy. Then we tried to push the van and it ran over my foot! It really hurt, but the Lord totally spared my foot and again I thought that maybe the Lord was trying to tell us something, but I just felt I was speaking doubt and didn't push

the issue further.

On our way back down south, we parked the van by the side of the road while Beriah got out to make a phone call. His little three-year-old daughter was sleeping in the back and I was in the front. We got hit from the rear by a big truck and the van was totally demolished. Little Gabrielle and I were both thrown out. The Lord miraculously spared us, neither of us had a bruise on our bodies! I told Beriah that I didn't want to make a move until we found out exactly what the Lord was trying to show us. Again I said I didn't think He wanted us to take the van in the first place. He said it was an attack of the enemy because his tape ministry is important. I insisted we call Mother for her counsel. She just said, "All things work together for good." And Stephen said, "In everything give

We went to Giddel's and within a couple of days the Lord layed it on my heart to read "The Green Magic Shirt" three times. I realised that the sample I was seeing in these "top leaders" that I considered to be like you, Dad and Maria, (Lord forgive me!) was not according to the scriptures or the MO Letters! The thing that really upset me the most when I realised what was going on was that I'd been losing faith in the MO Letters, that they actually could be lived and that God loved me!

Anyway, I could not bring myself to make love with Thaddeus under false pretenses nor to sneakily try to get Giddel's phone number. I told them I was there to make a home for Christopher. Thaddeus agreed. I called Adria and told her she could have the brother in Casis come up with Christopher as soon as possible,

as I really felt burdened about him. That night, several of us that had been on Mother's team got together and all put on our magic green shirts and put everything in the open. called Mother and I told her I did not want to marry Thaddeus to get Adria off the hook. The next day e phoned Giddel and told him that Christopher would not be sent.

I pray the Lord will work every-thing out to His Glory. Adria had told me that the brother caring for Christopher at the moment was doing laundry outside the campground in Casis and Christopher was outside watching him. He wandered off and quite a while later a sister living in the caravan opened the door to go outside and found him asleep on the step out in the cold! She cried and cried and said nobody cares for this baby and called Adria and told her what had happened. The Lord has closed the door for me caring for him, so I pray that Adria takes the responsibility and gives him the love that he needs, or that the Lord touches her heart and ends him to be with me or his daddy.

Thank you so much, Dad, for your love and concern for all of us! I love you very much! God bless you! -A sheep set free!-Moriah; London.

From Giddel: London, England Dearest Dad & Maria,

My heart is particularly burdened about some leaders whom I used to know as the sweet, kind and lovable couple, Mother and Stephen. During the past two years they seem to have really changed.

The last time I actually saw them was in Malta in May, 1976. I began to feel disturbed in the Spirit, particularly around Stephen, who seemed to be very proud, arrogant and domineering with me and others there. It seemed like everyone was getting harshly rebuked for every little thing. At one time both Ste-phen and Mother gave some very odd prophecies putting Shulamite and me together. I never really consented to this. At the time, Shula-mite seemed to be very loudmouthed and really out of the Spirit. I later discovered that the same type of prophecies were given to Jephthah. (Ed.: To others also.)

Mother had asked me to join her "team" as a shepherd over "her flock" there, and I also found my budget money dwindling down having to pay others' food, lodging and transport. I also discovered that over £300 of money that I had sent to Issa to help get his Arabic translating off the ground was outrightly confiscated by Mother. After five weeks, I managed to talk my way out of staying on. I returned to London and then decided that I didn't want to move my flock to Malta.

Toward the end of 1976, I received reports from Jephthah and Ruhamah about recent visits that Mother and Stephen and John Z. had made to visit Issa, our top Arabic translator who had recently joined the family. He be came freaked out and upset mainly because of Stephen's overbearing spirit and because of intimidations

that Stephen made to Issa, saying that Issa's wife would sleep with him (Stephen) if he asked her to and how Issa needed to learn to share his wife (with him!). Simila experiences had happened in Malta. What Stephen said at the time was not the crime, but more his unloving and inconsiderate attitude toward

The climax came in May, 1977, when Issa took a stand against the Family by collaborating with one of our enemies, pulling his wife and her parents down with him. As far as I know, they are all enemies and we no longer have a Home in their town.

Another situation I wanted to share is with Ruhamah, who had really grown to love and respect Mother and Stephen. During the fall of 1976, she was travelling with them and had spent time together with Stephen. At the time, Mother and Stephen made quite a big so of this, telling a few of the different colonies that Ruhamah was now "married" to Stephen. A short while later, Ruhamah came to London to work with us again. She was adifferent person, very arrogant and disrespectful to both Rebekah and me. She then began doing more FF'ing with us and soon found herself pregnant by a fish. During this time, she had written a number of letters to Stephen without receiving any replies. She eventually did receive a letter from Stephen which was very cold and indifferent. In it, Stephen said that he was living now with Adria and that she was carrying his baby. Again, it wasn't what he had said in the letter, but the spirit

from it. This letter really changed Ruhamah and woke her up to where Stephen was at.
In May of '77, I was able to meet

with Ho and Faith. They were quite surprised at all the reports they had heard of Mother and Stephen, especially their unwise actions in Libya of open witnessing and distrib-uting of salvation tracts on the streets, for which Stephen and a few others were thrown in jail and beaten. They had also coerced one of our best friends (Libyan) to pay their hotel bill after staying at the most expensive hotel in Tripoli

Ho shared with me how you had categorically told Mother not to get involved with other personnel and their problems, except for her own small staff which she needed for the Mother Letters and how she had been disobeying you ever since she saw you last.

Faithy had been in Malta where

she saw Stephen, and weeks later when she talked to me in Amsterdam, she warned me about Stephen. that he was yielding to strange spirits and that he was becoming a bad influence on Mother.

Another situation is how Stephen first started sleeping with Adria, and then began living with her with-out the consent or acknowledgement of her husband, English Thaddeus (now Andrew). After Stephen moved in with Adria, both Mother and Stephen rebuked Thaddeus for not being willing to share and sent him out as a problem case to go

pioneer an office in London for Mother. I later found out that they had even sent some brethren to spy out our situation-trying to find out where we lived, what our address was, telephone number, etc.

Then the RNR Letters came out and the Lord showed all of us where Mother and Stephen were at. We all got together and decided to phone Mother to tell her that none of us wanted to see her here, as we knew she was on her way here. Apparently, when Stephen heard that, he became enraged and said that "he was coming to London in the spirit of John the Baptist as in the film 'Jesus of Nazareth'!"—Ha!

Last night Stephen made a threatening phone call saying that because I wouldn't let them stay at our Home that he was going to come and bust in and that I better have plenty of guards on hand. So far nothing has happened and we all prayed that nothing will.

I pray that something gets worked out soon with Mother and Stephen so they don't come visiting and up-setting Homes by making threatening phone calls and so they won't continue to break up the lives and hearts of God's sheep.

Why can't Mother and Stephen do hat you told them to in the Letters?

And that's to work with Mother Letters and other inspirational ma-terial. Please help us, Dad! We need

General Report on the Mideast & Africa

—hu Kenaz & Hodiah Visiting Servants

-by Kenaz & Hodiah, Visiting Servants

MIDEAST
GREECE: This is the area where we feel the "RNR" was the most desperately needed, as we had 35% lit bill taxes and the Homes suffered, though we don't think quotas were nearly as high as most of Europe, due to governmental restrictions

which made us go slower and be more careful. We also had poor leadership and too many levels sup-ported by too few people. FF'ing only got started nine

months ago when we moved there from India, and has only really caught on in the Homes over the caught on in the Homes over the last 3-4 months. (It's really beginning to go now and all the kids are happy about it!) Winning nationals was going very slowly, so the "RNR' should really help this, and we believe FF'ing will be the real key.

One big problem being faced now is severe overcrowding. Since rural areas are very harsh on litnessing areas are very narm our nercoung and witnessing teams (one team was sentenced to 6 months in jail by a kangaroo court for "proselytising", but skipped the country first), only

the cities are capable of handling Homes, and even some of them are tough on our Family members. One city alone has an incredible 13 Homes!—Way too much (at least at present) for a population of 3-4 million!—Especially when the authorities don't like us! We hit people with lit and cafe singing too hard with so many teams going out, and we're afraid if we don't thin out soon, it will be much harder government pressure against any litnessing!

The pile-up has been caused by families too weak to move out further East and that couldn't get cleared back to anyplace else in Europe, plus the fact that it's the most civilised place for a sprint/ communications center in that for-mer Ministry area. Some relief should come as the stronger fami-lies move out to pioneer fields over pray some couples who don't have faith for this may be able to integrate into works elsewhere, so as not to continue to endanger the overall

work in Greece.

There is a lot of potential on the islands this summer for FF'ing, but a shortage of girls is going to make it difficult to staff these, unless more girls come from Europe or elsewhere—or we can FF 'em in quick! (And there are desperate needs in Arab countries for FF'ers too!)

Spanish &

TURKEY: We have four or five Homes in Istanbul (over 5 million population), which should thin down to 3 or 4 soon, as pioneers move on. Music has been the main means of support and even the key in FF'ing, as we have several little acoustical combos working in highclass restaurants, getting large tips and even fish through it! They've really ministered to some big ones!

Ankara has two Homes, one doing quite well with a dropped-in brother as a language school co-director, and a little music combo. We also have two brothers teaching young children at a school. FF'ing is going well and the physical stan dard is good and climbing.—Also some very good catacomb fruit! The other Home, recently pioneered, is having some personnel problems that may be resolved by new elec-

The work there has won some good nationals, but lost a lot due to the military draft (all Turkish men must serve two years). Pandita and Virginia are the strongest nation-als they have. We believe that through stressing FF'ing and nation.

alisation, Turkey can zoom!—
Really a far-out country!

JORDAN: The work is going strong! They haven had a lot of fish, but the ones they have had have being in any have helped up. have been big and have helped us get the message out through the media and introduced us to

some very important people.

They do a weekly radio show of slightly modified Family songs connected by MO quotes on the same theme, and they are becoming quite famous! One brother also is dropped-in as a reporter for the "Jordan Times" and gets to use MO quotes and even cartoons in the paper occasionally.

The Homes have a good physic standard, although they recently

had a very sick baby due to some parental neglect, but the Lord helped the child and parents through

EGYPT: The little team is doing fine, ministering to some really big fish. They could do more with one more girl to help with childcare and to FF. The living standard is very good. God bless them.

SUDAN: We have two pioneering others there, as folksingers. The family we were sending there changed their mind, so we need a couple and single girl to go soon and get FF'ing going!—The brothers did win a stewardess though!

LEBANON: We were doing fine until recent fighting erupted outside their house and they fled. Two Lebanese brothers were turned back at the Greek border, so they are back there now, and the other three are praying about returning.

(Editor: They could have been a tremendous help to the people in their distress, if they had stuck by their post. Now is when they are needed the most or mendous her medical the most of the most as messengers of mercy.)
"Alexander" should really, really encourage them.

GREEK & TURKISH CYPRUS: Soon to be re-pioneered in selah, FF manner.

TUNISIA: They are doing quite well with music (a professional quality dance band) being the main the message, cover to stay in the country, and a big way to meet far-out people in a social atmosphere! They have a few good nationals as close catacombers and one just joined! They have a French brother there named Jonathan who wrote a song "Change the World" that a song "Change the World" that told the whole story in song and won first prize in a pop festival contest and went out over the radio and TV and newspapers! They also

have people with a burden to pioneer / Igeria and Morocco.

ALGERIA & MOROCCO: Will be pioneered in similar style as soon as others can replace some people in Tunisia. They have several open doors in each country.

MALTA: We don't know what's happening there right now.
IRAN & THE GULF
IRAN: We have 6 or 7 Homes there now, all with one or two peo-

ple dropped into jobs for cover and support and doing a lot of FF'ing. We had been kicked out of Iran time and again, until we adapted the "Pisces" approach, and a lot of good fish are being won (several have given big donations to pioneer

works). So far, no good nationals have been able to drop out and stay out, due to repressive parental and

governmental system.

U.A.E.: Just a little 2-guy, 2-girl U.A.E.: Just a little 2-guy, 2-girl team (one just had a baby and the other is pregnant). They have good dropped-in jobs and a small FF'ing ministry. Another family and a few FF'ers and that place could really pop, as the Sheiks are easy to reach and starved for what we've got!

KUWAIT: The same as U.A.E. Arnon is the pioneer leader there, and he's the one who got the stories (Letters!) into the "Arab Times", where he is working as a reporter!

where he is working as a reporter!

BAHRAIN: Recently opened with a British couple and a few acoustic musicians to play at a hotel. Far out little country with the freest nightlife in the Gulf! Should be meat FF inst. great FF'ing!

WEST AFRICA

NIGERIA: We are moving out of the bush, but Comy, Nekoda and Deborah (of Stephen Apollos who recently went to be with the Lord) and her three children and a few others have a burden to stay in the eastern Nigerian towns and use lit, music and FF'ing as their outreach and support. Hopefully, they should be nearly indigenous by the time their pioneer budget runs out.
They've done some good FF'ing

and had good media exposure (as "Family of Love", a music-dramatic group doing social development work). Comy also is working on a mailing list from amongst the bush catacombers to send appropriate MO meilings to and they will still MO mailings to, and they will still be communicating with the Rev. about progress there.

TOGO: We're moving out, as it was too podunk. We can hit it with lit road teams from Ghana.

GHANA: We'll be keeping a sprint center and base road teams out of there with a Conakry Rip-Off

out of there with a Conakry Rip-Off vision to nearby countries where possible. It will need to decentralise soon, as it's a multiple Home!

IVORY COAST: Peter, Topaz,
Antipas, Hagar and a few others will be teaming up for FF'ing and musical miracles in this very modern and sophisticated city of Abidjan.—25% French population and very French culture. Almost European standards.

SENEGAL: Joseph and Abigail

SENEGAL: Joseph and Abigail are doing great, FF'ing and musicwise, in this very modern French city of Dakar. Very good results and just about financially indigenous

now through FF'ing and music.

EAST AFRICA

KENYA: A small team has a burden to remain, dropped into jobs and FF'ing and hope to be financially indigenous soon.

TANZANIA: Just two American blacks want to stay. Both have teaching jobs and so should be indi-genous. The brother is a very potential black leader, very free and lov-ing and educated. The sister, who is West Indian, is doing better and can be used in FF'ing there.

Other areas soon to be opened: Syria, Greek & Turkish Cyprus.

Other potential areas: Oman,
Qatar, Saudi Arabia (Editor: Careful! Not even reporters can get in!) Yugoslavia, Bulgaria, Iraq & Albania.

For travelling families with children, we found a simple and con-venient way to carry and store their school books and equipment!-In the school trunk itself!

At a hardware or office-supply store, there are plastic or lightweight type stacked shelves that can fit into a trunk as it is standing up on its side. If the shelves don't fit exactly, this leaves extra space on

the side or top for larger items.

Also, on the lid of the trunk, shelves could be constructed to hold books. Wheels are also available in hardware stores and can be attached to the bottom, if the trunk is sturdy enough.

SCHOOL-IN-THE-HOME by Paul T. I feel our education pro-gramme should take into account some of the following:

1. It should be simple and

useful in the home situation.

2. Materials need to be inexpensive and easy to order and obtain.

3. The material needs to be such that it encourages the parents to learn along with the child and should eliminate the feeling that one needs special system training and diploma to teach.

4. It has to be portable enough to fit into a very small suitcase. If you have heavy wooden equipment, great! - Use it! Otherwise, look for something more practical and por-table. The "Brown stair", for ex-ample, weighs five kilos and may

SYSTEM TEXTBOOKS
Comments by Paul T.

The textbook industry is out to make money more than educate. Almost all textbooks, but especially Almost all textbooks, but especially American, are written and printed with the idea of replacing them in three years by a new set of revised books. Also, they are very expensive; they have a lot of special gadgetry you feel you need to buy; they use some "special" "new" approach which often limits the approach which often limits the child to one set of books based on someone's particular philosophy that ignores the basics; nationalism is plugged in textbooks; they usually are hard-covered and heavy; they are usually only usable by one age

About the only books I have found to be useful from the system are information, reference-type books. I believe we can take the good out of all the different books and methods and include our spiritual teachings in these classes and thus create our own educational program in which our children will

be fed both educationally and spiri-

tually.

We only have a few more math classes to finish in order to complete this course. With the English "Language With a Purpose" course we hope to replace the very inadequate grammar program that Mon-tessori goes into, thus making our own course which will include the spiritual feeding as well as the educational instructions.

P.S. from SARA

on System Textbooks
Amen, amen! I know from the
vast amount of research I have done with system books that there is only a very small amount of information we can glean from them.

What I have learned more than anything is what not to do from their systems! I have sent off for lots of books that have been recar ommended by good educational book companies and references; I have read and marked them. Then I give what information I think may be useful on tape, have it trans-cribed and kept on record for a type of reference system in case we want to compile classes on certain subjects such as arts and crafts, play-ground equipment, potty training, discipline, caring for the home, etc. I am not as interested in books on theoretical ideas on raising children as I am in practical teaching tips

and economical, good ideas.

Only about 20 out of the hundreds of books summarised have we recommended investing our Family's money for. This is why we hope to be able to recommend books we definitely feel are worth the Family's time, and we are depending on your

teaching classes and materials which put the right type of spiritual light and feeding into the children's edu-

To me, the education of our children has little to do with the classroom, but the most important thing is that they are trained in the revolutionary discipleship life in serving <u>Jesus</u> and winning <u>souls</u> for His Kingdom. Dad has set the ex-ample with his own children, and this is the example we are to follow. So I always want to stress the spiritual training and Biblical teaching far above any kind of system education.

If you do not agree with any of the books we've recommended to the Family, please let us know. I need to know.

THE MONTESSORI METHOD Comments by Paul T.

As far as the Montessori equipment goes, it has been my burden to replace this equipment with more portable and practical materials (such as we have done with "Kevs to Reading" and the math classes). I feel that the modern Montessori equipment is not in its present bulky, heavy, expensive form suitable for the educational needs of our small mobile families. I am more interested in getting the ideas across that lie behind the design of the materials so that the parent can easily improvise in his own situation. I do not feel we should recommend the large and rods or large number rods but red rods or large number rods, but I do like our own redesigned miniature number rods that can fit into a mother's purse and are easy to make and carry.

The small counting rods that Demetrius makes in the school kits are not pure Montessori equipment, but a combination of Quisinaire rods, Dienes blocks and our design. They are meant to replace all the Montessori bead material, which is so heavy, expensive and cumbersome. The rods are light and are stored in a box and they are important in

teaching math to young children.

Other miniature wooden or plastic rods are usually available in most countries and are suitable to teach math. We have found the best size is when the "units" symbols are 1 cm. cube. Also, we will soon be drawing up a class on how to make or buy your own rods and will include basic plans that anyone could win to a constant in any language. give to a carpenter in any language to have them made. <u>Demetrius</u> will be working on these carpentry classes.

P.S. from SARA on the Montessori Method

Let me just give you my "speel" on the Montessori method and ma-terials, ha! I hope it doesn't shock you to realise that I am one of the most inexperienced and uneducated "desperate-type" mothers on the field. I don't even understand the Montessori method as much as I've tried to study everything I can about it.—It's all Greek to me—pink towers, broad stairs and all those terms. It's completely new to me, so I do not understand or agree with itself. Pur let me sou this I do with it all. But let me say this, I do agree with everything Paul has to say about materials in our own educational programme for the children.

I would love to see us get away

from the Montessori methods and terminology as much as possible because it is simply not even true that we follow the Montessori method in our Family! I dare say that hardly a handful of people in our Family really teach it or qualify to do so. Nor do I even think that it is entirely in accordance with the MO Letters and Bible teaching that we have learned from our shepherd David.

It's almost like a false doctrine floating around that we use or believe or practice or teach the Montessori method in our Family—it's simply not true. And in order to get that fear out of people that they are not "keeping up with the Montessori method", it would be best not to even refer to it. Ideally speaking, the best thing to do would be to replace it with our own adaptation and compilation of what other good teaching ideas we can come up with and use in accordance with the spiritual teachings of the MO Letters.

However, I do like the little counting rods and 1 cm. cubes (the two little wooden boxes with the little sticks) very much and that is why I suggest that Demetrius share these teaching material plans in classes so that local carpenters or people on the field can obtain them for themselves.

I teach 3-year-old Davidito school, but I have never used any kind of Montessori method or even principle in my teachings. I don't know

ciple in my teachings. I don't know anything about how things are. "supposed" to be done, praise the Lord! I just follow whatever he likes to do and he makes tremendous progress, in the three R's and three G's, etc. I feel like I am the perfect-type guinea pig for all your new materials because I can try them on my own children here and let you know how they work. So far, so good, so praise the Lord! Keep up the good work!

Keep up the good work!

So if you all can come up with ideas on how to use the Montessori materials or teaching ideas for our families, great! We can compile the ideas or choose the good out of several methods and suggest it to the Family. MO and Maria are certainly all for the idea of obtaining what materials you can in your own field without having to order from long distances or carry about cumbersome expensive materials that are neither practical nor even useful in most situations.

I am thrilled with the idea and am backing you one hundred percent that our teaching programmes and materials need to stand up for inspection to friends and contacts, Third World people and closed countries, etc. And I definitely believ they can be a source of income for the future! You have proven to me it can be done with the "Language With a Purpose" programme which is absolutely tremendous and already in for final approval.—You'll hear the results on that as soon as possible. This is a vision I've had all along, and I've finally seen it come to pass, thanks to the Lord and your hard work.

INTRODUCTION
(Last September, two negative magazine articles came out about the Family in Mexico. Both were taken directly from

slanderous articles from Europe, one being a reprint of the German "Stern" article. Then thanks to some good P.R. work and the FF'ing of an immigration official whose heart was changed by love and reading "Change the World", things seemed to cool off. But suddenly, with no apparent warning, on January 19th, the police mided five of our Homes in Mexico City, Merida and Chihuahua and arrested about 30 brethren—both Mexican nationals and foreigners—including seven children who were shortly released into the custody of a friend of the Family.—trom a report by Shaul.)

PTLi Prior to the raid, almost everyone here in Mexico, all the leaders especially, were going through some big trials and were were really "out of it" due to the super-blob here and our own lack of obedience, especially to the FF Letters. Finally, the very day of the raid, Katrina, Zerah (the former AB) and I had a rare meeting together and began to really pour out our hearts to each other about the lack of obedience to the Letters, abuse of finances, etc. and discussed some form of action. Well, the action came quicker than we had anticipated!—

we had anticipated!—
We had been out doing errands
when the raid occurred, and when
we called in we were shocked to
learn that the PM office as well as
two other Homes in Mexico
City had been raided and the members, including children, arrested!
We immediately prayed together
for the Lord's wisdom and guidance

and booked into a hotel room where we began to make phone calls to get a better picture of things and help counsel those who were still free. The next day, we went to an apartment of a friend, where we set up a temporary base of opera-

By then, we were beginning to realise the gravity of our brethren's situation. The day after the raid, the papers were coming out with front-page headlines and photos about their arrests and the serious criminal charges which were being brought against them. (From a report by Deborah: It seems they were filing charges on the basis of "corruption of minors" due to some of the FF Letters. In Mexico, this is a criminal charge punishable by up to twelve years in prison. One newspaper had a photo of four of the girls arrested in Mexico City. All the girls were smiling and praising the Lord—extremely pretty and a tremendous testimony!)

From a few friends and contacts, we were able to find out that the raids were the result of an order from the highest government officials, as a result of a smear campaign of harrassment conducted by a group of our enemies whom we dubbed as "the 40 committee", a group of some of the richest and most influential Mexicans, many of whom are Jewish. They were the ones who were behind the bad publicity against us last fall.

A friend of ours, a fish who had been FF'ed, introduced us to a law-yer who agreed to take over our defense. We felt he was God's man for the job right away, as he was a

real fighter. Every other lawyer told us that it would take at least six months and a lot of money to get our brethren out, and some said it would take a <u>year!</u> There was a lot of negative publicity and political pressure involved, so it was a more serious situation than many people realised. Although according to Mexican law, the minimum legal process is three months under the most favourable conditions, the Lord got them out in only 35 days!—Exactly the time our lawyer originally predicted the case would take, PTL!

Katrina and I started spending all day every day with "Toasty", as we affectionately nicknamed our lawyer, to inspire him and help him on the case. He really grew to love us and the Family and we ended up witnessing to his whole family and friends. We felt it especially important for us to spend so much time with him, as we had no money to pay him and he was taking money out of his own pocket to pay bribes to officials (the common practice in the Mexican judicial procedure!) and spending almost all his time on our case, PTL!

This is a real testimony, as he is one of the best defense lawyers in Mexico with a staff of four other lawyers working under him. So, for him to spend all his personal time on our case without even being paid for so long is a real miracle! He has now turned into a real king who has pardoned our debt to him and is still working on helping us out of our house contracts, witnessing to all his friends about us, playing our music for them, and

even wants to help us get relegalised in Mexico! TYJ!

The whole time the brethren were in prison, Katrina and I were able to get in to see them and were able to buy and send them their needs, thanks to the financial assistance of friends and our Family in the rest of Latin America!

The day they were finally supposed to get out, the brethren in prison still didn't know the news until they were brought up to the judge's office. You can imagine their joy and relief—some even broke down and wept—and it was a real time of rejoicing.

Even then, though, the Enemy was fighting it tooth and nail, as our bitter enemy the Chief of Police found out about the judge's decision and started raising all kinds of hell to repeal it, touching off a political battle royal involving all sorts of government agencies and even the American Embassy. The whole ordeal kept us praying all day, until at last at 9:30 that night the judge received a phone call from the Gobernacion saying officially that an agreement had been reached and we were to be released! Whew! Hallelujah! The Mexican nationals were immediately set at liberty, while the foreigners were turned over to Immigrations and were deported by bus to the U.S. border at 3 a.m.

At this point, however, there were still brethren in jail in Chihuahua and Merida, so our work was not finished. Then we received word that the brethren in Chihuahua were to be released the following day, also! But from Merida there was

no word (we had lost communication as our phone had been cut off). So it was decided that I should go there with a certified copy of the decision of the judge here and photostat copies of all the legal

Arriving in Merida and praying deserately, I took a taxi to the prison. Driving up in a suit, dark glasses and briefcase, they really thought I was an official from Mexico City!—Ha! an official from Mexico City!—In-The prison guards greeted me re-spectfully, the secretary straight-ened up in her chair, and I just walked in like I owned the place! And with Toasty's training and the Lord's anointing, I was able to see the public defender, the judge, the sub-director of the prison, the jailed brethren, the American consul and the Governor-appointed lawyer, all in the same day!

My presence served to put pressure on the case and the judge accepted some of the legal material I had brought, to counter the main charge against them, and in a few days they were out on bond! It meant everyone was now freed! The Mexican brethren were set at liberty and the Americans were flown to the U.S. The Lord even provided money for their fines at the last minute from a king here, as well as my plane ticket back to Mexico City!

We can't express enough what a miracle it was they got out so soon! We know it was a direct result of Dad's prayers, as well as the prayers of all the brethren around the world!

LETTERS FROM SOME OF OUR SISTERS SENT WHILE IN JAIL: From Palestina, written Jan. 25th,

only six days after their imprisonment and their first communication with the outside:

Dear Katrina, Watchman and all. God bless you all, we love you so much! You cannot imagine how thrilled we were beyond words to get your note. God always answers prayer! As this is actually a men's prison, we girls are causing no small stir! There are only four other girl inmates here.—Supposedly they are the worst troublemakers, so the women's prison would not take them. The guards warned us about them, but after songs and skits, all four of them, along with two of the guards, prayed with us last night to receive Jesus! Hallelujah! The baby is able to come in and is a real testimony to the Captain here, who lets me nurse her in his office. Lots of people who work here 'just happen' to drop in whenever the baby comes! We are definitely learning lots of lessons, and though living conditions aren't exactly what we are accustomed to, praise God!—We love you and know that God is in perfect control and that His message is getting out. We are anxious to get out of here, but we know we will be leaving a catacombs colony behind when we leave! PG! We got the verse, 'If it be so, our God, whom we serve, is able to de liver us from the burning fiery furnace and He will deliver us out of thy hand, O King.' (Da. 3: 17.) Amen!" Love, Palestina.

From Robin: "As Faithy sings, 'I would rather have Jesus than a nice warm bed, I would rather have Jesus than a roof over my head, I

would rather have Jesus than anything!' This and so many other songs and of course the Word, have become so real and alive since arrest and imprisonment twenty

days ago here in Mexico City.
"We have had some tremendous victories through this all, with at least 300 souls saved and lots of potential disciples! After a few days, we girls were sent to the women's prison and the brothers stayed at the other place

Here we have a captive (ha!) audience of 400 women from var-ious countries. Three different wo-men we prayed for have been re-leased from prison already, knowing it was all the Lord's doing! The Lord has been so good to us since we've been here to give us favour with prisoners, guards, the director and to supply our every need, in-cluding 400 needy women to min-ister to! It's really encouraging them to hear us singing at 7 am on our way down to work details.

"This has been quite a time of learning for us all and we've seen so many miracles! We know we'll be getting out of here soon, all of us stronger soldiers for Him!"-Robin.

From Maggie: "I want you to know how much God has really inspired us daily and truly kept us. God has really turned the wrath of man to praise Him! The director, lawyers, secretaries, psychologist, social workers, doctors, etc. are really looking to us to help the prisoners here. Even the self-righteous church Christians who come admitted we are the best thing that could have happened to this prison.

blood shed for them as His was for you, <u>your</u> life given for them as His was for you, to even <u>die</u> for

them as He did for you.

2. "For God so loved the world

that He gave His only begotten Son that whosoever believeth in Him

should not perish but have everlasting life. For God sent not His Son

"Approximately 200 souls have been saved since we've been here, and that doesn't include the other prison where the brothers are. We do shows every night and on visitors day, with skits, songs and solos. When we first arrived here, the prisoners didn't believe us; they besolies dath bad publicity. But now people come to us often for prayer. The Lord has really softened the heart of the director to help many. prisoners leave who are here on ridiculous charges or have good conduct. etc.

"Watchman, Katrina and others bring us food, as we only eat one meal a day, which is of inferior quality and small portions. The moming and night meal is milk and bread. We are allowed to go outside in the sun for two hours, and up to five hours on weekends. We wear white tops and blue bottoms, pants or skirt. It's damp and a little chilly, but the Lord supplied new blankets, new mattresses and Lord willing, we'll be getting warmer

One day we had a prayer vigil where we prayed in pairs, each for an hour-and-a-half. The Lord has

really showed us a lot through His Word and the Psalms of David have never come so much alive as here. We translated 'We've come this far faith' into Spanish and we si it all over the building!" Love, Maggie.

From Tekoa Testimony: "The main thing I want to say is that we're all doing exceptionally well. Please, please don't worry! We're all learning, growing, changing and getting closer to the Lord! In our enemies'

ridiculous attempts to put out our flame, they are only causing us to draw more on God's fuel and burn much hotter and brighter!

"Of course, we are all anxious to get out and get it on with FF'ing, etc., as the ones who are now standetc., as the ones who are now standing up for us during this time are those we have been FF'ing! My husband (who is in the men's prison) and I were FF'ing a very precious and lovable fish for the last two years who was the one who introduced us to our present lawyer!
"All the sisters in here consider it

to be a real privilege to be able to be here and 'suffer affliction with the people of God'. Some of the stories of these girls in jail are so sad, the Lord is really breaking our hearts for souls as never before!

We really miss having MO Letters at our disposal to read and study.

But thank the Lord we do have a Quotebook, Daily Might, Daily Light and Bible! Also, our lawyer managed to slip into us a copy of 'The RNR'! What an anointed answer! RNR! What an anointed answer! Everyone was so turned on when we were reading it! Thank you so much, Dad! We love you!"—Tekoa.

From Paloma: "I'm from Guatemala, my husband Obeth is American (he's in the men's prison) and we have a little girl of five months who is Mexican. Well, the main purpose of this letter is to say that we are all ok. It's what we will be the loss and I'm so such a privilege to be here and I'm so happy!—Over 300 souls have been which makes it all more than worth it! The Lord is working thru us even more than on the outside. And we are learning so many lessons. I believe it's really good for our spi-

rits. It's brought me closer to the Lord. What else can I ask?

"The Letter 'Women in Love' has been a great help to us to understand a lot of people here. Since there are no men available, a lot of girls get into lesbianism and they get a sur-prise when we just accept them as they are! Because of that, they feel free to come to us and tell us their problems. It's a testimony to them that we are free even inside these

All the people in charge of this prison love us. They asked if they could record all our songs. They can feel the Spirit and whenever they are around us, they can't help but smile at us. TYJ! At first they were hard and strict, but now they are soft and treat us with much more love."—Love, Paloma.

The experience was really good for us all—those on the outside as well as those who were in prison. We believe that everybody's spirit-ual condition went up about 300%, and we all came out of it not only unharmed, but also new creatures, vessels more fit and prepared for the Master's use! PTL! God's ways certainly aren't ours, but He sure knows what He's doing and how to get results! Hallelujah!

As for our plans for the future, some of us who are still here want to help pioneer some of the coastal resort areas with FF'ing. The Lord's will be done! Love, Watchman.

(Editor: What a thrilling testimony! Are there any more fruits, results, plans, etc.? We'd love to hear about it!—Send it in and we'll share it with the world!)

world, but that the world through Him might be saved.' (Jn. 3:16,17.) 3. "Are you willing to be sent like Jesus into the deepest and darkest places of this Earth amongst the them as the churches have, but to love them into His Kingdom of Love —God's Kingdom, God's Love?" (from "King Arthur's Nights" Chapter 3, No. 502: 11,12 by Father David.) 4. This challenge to sacrifice our-selves on the altar of God's Love was left us by Dad in his third chapter of "King Arthur's Nights" the series of Letters he and Maria had begun on April 29, 1976, to not only recount their experiences in the brand new ministry of Flirty Fishing but to also "leave us an ex

Fishing but to also "leave us an example, that ye should follow his steps". (1Pt. 2:21.)

5. As Jesus said, "By their fruits ye shall know them"—and Dad, Maria and Becky's successful deepsea fishing of Arthur was the "fruit" of fishing for men—IT WORKED!

Or rather,
6. God worked, and had used their sacrificial efforts of both spirit and flesh to hook and win this 30-year-old firmly entrenched member of the establishment. And they had not only led him to salvation but had broken him out of his sys-tem slavery and liberated him into full-time revolutionary discipleship!
7. God showed us there was still

hope for the over-30's crowd but that it was going to take radical sac-rificial love, of the kind Dad, Maria and Becky had shown Arthur, to break the chains of their conformity and resurrect them from their system graves into a life of loving service for the Lord!

8. The fishing of Arthur had occurred almost two-and-a-half years

before it was published!—And during that period David and Maria had continued forging ahead with their pioneering of Flirty Fishing. And though, during this time, FF'ing was not solely confined to the original

pioneers,

9. You never read of their exploits

in your regional newsletters, because, like most great experiments, FF'ing was kept "Top Secret" until it had both passed the test of time and its subjects had been incontrovertably proven by God's Law-His Law of

10. When Dad began to pull the covers off in April of '76, the operation had already proven a success!

—Their patients had lived (eternally) and it was now time to reveal their -and it was now time to reveal their findings!

11. But by the time those first bombs of the "Arthur" series exploded in the ears of our worldwide disciples in May of '76, Dad was already into the full-time fishing business. Our disciples covertly read of the first Elistic Fishing of the first Flirty Fishing experiments, often in utter bewilderment at "What new doctrine is this?"

12. But Dad had already openly and boldly been applying his findings on all the hungry fish of Tenerife, that beautiful sub-tropical Island of Atlantis, a fishermen's paradise! It all began during the first few days of that April of 1976. I wasn't there, but Sara, Davidito's teacher and accomplished fisher of men, was. Here she tells her story:

13. I had just had my baby and was resting up during my 40 days. So Alfred, my husband, and Lynn went out together one night for dinner to the same club that Dad and Maria had been going to. Afterwards, they sat at the table listening to the band and hoping some of the men would come up to ask Lynn to dance.

14. But they didn't get one single bite all evening! So when they were lamenting about this the next day, Dad offered to give the girls some

FF training himself. Sally or Lynn went out first and I think Alfred went too.

15. They just danced and greeted friends, then as more friends came to the table, like various clerks, waiters, bankers and banana pickers and people that Dad and Maria had met out dancing during these nearly two-and-a-half years on the Island, Dad would offer the girls to dance.

16. The word got around pretty quick that Don David was out with these pretty girls, and everybody would exclaim, "Oh, this is your family?"—Because Dad had been telling people in Tenerife all along that he had a large beautiful family. They'd always ask him,

17. "How many children do you have?" And he'd say, "Oh, hundreds, hundreds!"—"Oh yes, I've got so many beautiful children. hundreds of them, beautiful, beautiful children!"

18. And now here he v some of those beautiful daughters: "I told you I had a beautiful family. -Would you like to meet my daughters?" "Is she really your daughter? "Of course! So is she! And this is my son!" It was really cute! So then he'd offer us girls to dance.-Sara continues.

19. Of course Maria by this time ras a veteran, but none of the other three girls, Sara, Lynn, or Sally, done any fishing yet. Even after several fishing expeditions, though the girls had attracted several nibbles and had been able to witness to several fish, none of the three had yet had to sacrifice her flesh to win a soul

20. But the time for the other

girls to offer their flesh as a 'loving giris to offer their flesh as a 'loving sacrifice' was definitely drawing near and very much in evidence from the swarms of hungry fish who nightly circled their table at the Club! Not wanting any unwilling sacrifices, after one early April outing, Dad advised his girls,

21. "You don't have to do anything you don't want to do! The time will come just like it did with

time will come, just like it did with Maria. She got the burden and felt so sorry for the guy that she wanted to go home with him, about which 'Lord Byron' was written."

22. And sure enough, soon after that we started getting "Fishing Fever", said Sara. But we were quite unprepared for it, not knowing what we were getting into, but really anxious to get started. Still, we girls were nervous because we find were hervous because we had heard that Maria had been through all these experiences before. 23. These men would fall for you, boom, just like that! And Dad

would practically give you away right in front of your husband, saying: "Sure, sure! She loves you! She just raved about you when she came home last night!"—And you didn't know what to say!

24. Dad just loved the men so 24. Dad just loved the men so much, he loved them through you—the only way he could really love them was through you. "She's my gift of love to you because I love you so much! Love him up good, honey!"—And he'd kiss your hand. "Love him up. I love him so much, you're my gift of love to him!" you're my gift of love to him!"
25. So that's when we started get-

ting the Fever, of course, and the men would be so sweet and humble and receptive. And boy, were

they receptive! Dad's four little baits, all securely attached to his line, were a string of mouth-watering morsels no man could

pass up!
26. "Oh, I'm sold on this 'string'
business!" he exclaimed one day
soon after they'd started. "That just
works great! I mean we got three
times as much work done in an times as much work done in an evening, it was tremendous! I told

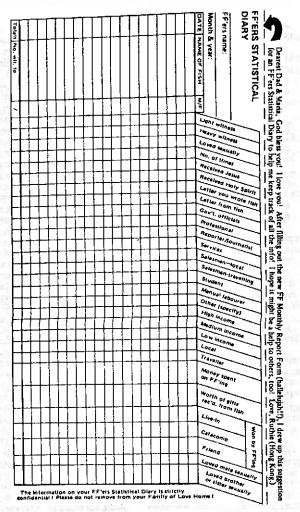

Rachel,
27. 'Quick, send us some more
girls! Hurry, hurry, hurry!—We
need some more quick! We've got
to have girls that live here with us
that can take turns going down to that can take turns going down to the Club and are free to go!" Sara remembered,

28. Pretty soon he had all kinds of "daughters"-Italian, French, Spanish, American, German and English—so we were quite a strange family! The waiters started falling

for the girls, and they'd argue about who was going to wait on our table, and all dozen of them would come by, asking what we wanted to drink!—Sara said.

29. The fish were beginning to bite and get hooked! The "FF Explosion" that was going to rock the world had begun! "One of the most amazing things to me," said Dad, "was how these little girls, must of them mishout much education." tion, were able to win and influence these big influential men! It was simply the Spirit of God and His Love!"

(Note: You've had general and specific FF instructions in over 100 MO Letters on the subject. In later issues we hope to share with you more of the real-life stories of the souls won for the Lord and His Service though love.)

Fabulous Fruit of FFing!

Carlos reports the exciting events of how his female fish was saved, filled with the Spirit, opened her house as a Family of Love Home, and is now FF'ing!-Real love never fails!

Dear Dad & Maria, 5 April, 78 I just wanted to share with you a breath of fresh and solid inspiration that comes from the simply remarkable and rapidly unfolding story of B. You may remember her as the ex-wife of the artist whom you knew in Tenerife.

I met her ten months ago. She's a fairly renowned designer and maker of jewelry, a Libra, 40 years old, from a socially prominent and wealthy Swedish-Finnish family reportedly descen-dants of Genghis Khan. She's quite pretty and relatively intelli-

4

gent. She fell in love with me, and the long, trying but very profitable process of FF'ing this type of female fish began.

Well, the biggest lesson has been patience and how in delicate situations like this one, in which my other duties prevented me from fully ministering to her, another brother can safely share the load. Fortunately, there was a Swedish brother there to feed her in all wa and whom the Lord used repeatedly to keep B. from running off

Many gifts of love later, she and I had a spiritual confrontation, the likes of which I had never experienced! After a literally sleepless night of doubts and senseless discussions, the Lord knocked at her door for the last time, it seemed. As she lay on the messy unmade bed, tired and haggard, the Lord led me to stand in front of her and rebuke the satanic obstacles to her salvation and then, with a finger pointed at her, I simply called the bluff of all her doubts and challenged her to accept the message and salvation formula which for nine long months she had heard in so many forms from so many people, but continued to reject. Broken and admittedly empty,

a

she implored me to get back in bed and pray with her, "now that I am void", she said. TYJ! Her tear-filled prayer was really shaking. There was no question of the Lord's boundless joy as a dearly loved sheep unconditionally accepted His guidance. It was tremendous!

The following night she received the Holy Spirit and was soon thereafter on her way back to her city where she has made a Home out of her house and has even begun FF'ing and being the fisherwoman for the other girls there. Her greatest aim right now is to lead her two daughters, 16 and 13, to the Lord and to be an influential and beacon-like Family of Love in that city! God bless her!—A real new-day, drop-in situation! She

now calls in to report every day! Well, I pray that this testimony of what I hope will be our trend of the future has inspired you! After all, it's been thanks only to the Lord and the Letters that the wisdom, patience and love for this very rewarding ministry has been given to us. The peace and fulfillment that result from saving a soul like her is simply overwhelming! Love and prayers, Carlos.

1. David and Maria let up on FFing for several months after Davidito was born and stayed home a lot to be with him and the family. They were doing practically no FF'ing at all until, as Dad said, "Maria was

beginning to practically fade away."

2. David said, "If I don't get out I dry up! I have to keep fresh. I have to keep my hand in it just like

any other skill. It keeps me alive!" Soon the 'fishin' fever' had called them again to the witnessing field.

3. So in late February, '76, David

and Maria began to go out dancing again at the local nightclubs, greet ing and ministering to many of their old friends. Their very first night out they met <u>Bemardo</u>, a king-fish who really panned out, and <u>Eva</u>, his Swedish girlfriend and a little flirty fishy who's still on the line.

4. Dad had purposely chosen one of the smaller tables, since the clubs are usually crowded with tourists and large tables are open invitations for others to sit with you, others whom Dad with his extremely sen sitive spirit might not always like to spend an entire evening with. So they were sitting at a little table when in walked this beautiful couple who immediately attracted Dad's attention (because the girl was a stunning, sexy, blonde bomb!) 5. This knock-out of a girl, with-

out even pausing for a waiter, strode boldly up to his table and in a delightful Swedish accent asked, "Is this seat taken?"—And just plopped herself down, followed by her Spanish boyfriend. Well, Dad didn't mind at all, and he and Maria

went right to work!

6. Dad was definitely drawn to Bernardo, as he was the more spiritual, but he left him up to Maria while he went to work on Eva.
(In this particular situation the fisherman talked with the woman who accompanied the "fish". In some cases, our girls win the confidence of system women before the woman can eventually be "FF'ed".)

7. Eva really liked Dad and vice-

versa. She was quite bold and flirty and just loved Dad's attention. She really played up to him, wanting to dance & talk with him only & just about forgot all about poor Bernardo.

8. Eva said all she wanted in life was to be independent and have fun. She worked in social work in Sweden, and was now enjoying her third vacation in gorgeous Tenerife.

9. Bernardo was just an absolute gentleman about letting Dad take over Eva and pay so much attention to her. He didn't seem to be jealous at all that Eva fell for Dad, and they found out later that the reason was that Eva was such a flirt, she would oftentimes leave the club with some other man who was paying attention to her and just leave poor Bernardo stranded! But Bernardo put up with it because he really loved Eva and had, in fact, been helping her with her expenses during her vacations in the Islands for the last three years!
10. Bernardo in his mid-30's is

the half-owner and manager of a typical Canarian restaurant that specialises in roast lamb and superior wines. He was an easy-going type of guy, friendly, gentlemanly and well-travelled—quite intellectual, speaking six languages including a gypsy dialect he had picked up in his travels.

11. Bernardo was very, very psy-hic. Dad said sometimes it was almost like he was reading your mind. It was with Bernardo and Eva that the pioneers of Flirty Fishing began

to get back into angling again.

12. During their frequent dates for dancing at the club or dining at Bernardo's restaurant, Dad and

Maria were always looking for that "angle", that opening of the Spirit that would give them the opportunity to land their new friends into the Lord's creel. But they had hardly gotten acquainted when Eva said needed to return to Sweden to work because her funds were run-

ning low.

13. It looked like their quarry was going to slip away, so Dad offered Eva a room at his house with him and his staff, which she readily accepted. This brought Bernardo closer too, because he would come to the house to see Eva and have dinner with the family.

14. The whole time Maria was really loving him up. It was strictly platonic though (that is to say, no sex). Maria didn't want any sparks to fly between her and Eva which might break the line at that time.

15. However, they soon found out that although Eva was playing around with other men and making herself as available as possible, it was almost like she really <u>hated</u> men! She would murmur all the time about how the men only wanted to use her, but at the same time she was doing the very same thing to them. She was so selfish that although Bernardo had generously helped pay her way and had even let her stay in his house and sleep in the very same bedroom, she'd never made love with him!!

16. David, Maria and the staff had become very close to Eva during her stay in their home. They shared some heart-tugging discussions together, and she mellowed down to a soft breaking point several times but soon hardened again against the

Lord's call to her heart.
17. Her very communist girlfriend

became very worried and almost hysterical when she read in Eva's letters how happy she was living with a small little Family of Love headed by the most wonderful "father" she'd

18. The antagonistic roommate rushed three urgent telegrams to Eva, demanding that she call home immediately. We were all gathered in the living room watching a good movie on TV when Eva began to roar with laughter while on the telephone with her roommate in Sweden. When she hung up, she said to Dad, "She's crazy! Do you know what she thinks? She actually thinks I am living in a 'Guds Barn' community with that old man 'Moses'!' Then she asked Dad seriously, point-blank to his face:

19. "Are you Moses?" We all held our breath! Never before had anyone pointedly asked that question! Dad smiled, cool and calm, "Why? Do I look like him?" Ha! Eva laughed

laughed about it for days! 20. But after two weeks of living at Dad's house, where she had to somewhat abide with the rules of the house, her independence was becoming a little chafed, so she decided to move out. Shortly after this she decided to return to Sweden. When she came by the house to say good-bye, she was still being somewhat the "sassy lassy" and by now pretty rebellious to God.

21. Eva had had an abortion against

her mother's wishes only six months before coming to Tenerife, and God used this experience to very seriously convict her empty heart and soul. And now during her three months'

stay on the Island she had conceived again by some Spanish boy she hard-ly knew and had decided once again to kill the child!

22. She told Dad about it one night at the club, after we hadn't even seen her for over a week, and he said, "Don't kill this one, Eva, or God will hold <u>you responsible!</u>"
But she rejected the Word and went off with a new boyfriend—and with-in hours later went to the bathroom sick and had a miscarriage!

23. Dad was absolutely fed up with her rebelliousness after they had shown her so much love and patience. He had counselled her many times about appreciating Bernardo and what the Lord was doing for her, so when she came by that night to say good-bye, he decided he was going to deliver his soul and deal with her as the father she never had!

He was so mad he was pounding his cane on the floor!

24. Apparently she knew she need ed it. Eva first argued a bit, then listened hard to Dad's strong rebuke. Right after it was over, when everybody, including Dad, thought she would stomp out in a fury, she stood and said.

25. "I never in my whole life have ever loved anyone like I love you!"
—and she broke down and wept and
wept in his arms! This was the real breaking point in her life, and though she didn't ask the Lord into her heart right then, the seed was planted in ground that had finally yielded to the plow of the Holy Spirit. She is still on the line, writing letters to and visiting the Family in Tenerife, and the Lord may yet bring her into the Kingdom!

Hallelujah! — (To be continued!)

APOLOGY!

From Zebediah in Portugal:

earest Family,
I wanted to write and apologise to you for the many mistakes I've made and because I have hurt so many people here, as well as in other places where I have been a belief places where I have been a leader. May God and you forgive me for the damage I have done in people's lives, and for being so cold and insensitive to the needs of others, and for being too proud to speak up and say that I didn't really have the faith for the responsibility that was entrusted to me.

Leah and I were the AB's in Portugal for the last 15 months and both of us had different positions of responsibility for the three preceding years in Northern Europe.

I can honestly say that during that time I never really was a loving shepherd to the brethren, but rather a cold dictator who didn't meet their needs and didn't have a close, loving, heart-to-heart relationship with them.

I am so thankful for the new Letters, and I am so happy now that I can be a follower and learn how to really love people. So if my apology can help to make amends and get rid of bad feelings with anyone I've hurt, that is why I want to do it. Love, Zebediah.

Lynn and Bernardo

Chapter 2, part 2 of "FF HISTORY"!

Story by Sara; compiled by Samson Warner; Edited by Justus Ashtree

26. By the time Eva village in the banana left for Sweden, the fields and he lived family was alright on the noisy ready quite highway. 28. Every good friends with Bernarday some do. He was body would so busy call Bernar-do, to check working in his reson him to taurant see how he though, it was and to was hard make sure for him to get the fam-ily fellowship he was okay. It got to be such a regular he wanted and thing that he needed. Now soon began calling with Eva gone, the them every day to check in. biggest excuse for seeing him was gone too. So they 29. Only a few days after Eva's departure, Bernardo came home began to make a special push to keep

in touch with him. 27. The folks really stressed give ing Bernardo special care, frequent dinner invitations and going to his restaurant for dinner. They often invited him to spend the night at their house so he could get a good rest, because they lived in a quiet

from the club with David and Maria

and he soon found himself the surprised and honoured recipient of the master fisherman's offer of his best bait, Maria!-

30. "Well, you young folks just stay up and have a good time. I'm really tired, I'm getting old, and am

going to bed if you don't mind."
Dad got up from his armchair and
walked out saying to Maria,
31. "You take care of him, honey.

Make sure he's happy and gets Make sure he's happy and gets bedded down. Take good care of him. I want to give Bernardo the best! I love you both! Good night! God bless you!"

32. He always tried to give the boys a hint of what was going on, and that it was okay for his wife to escort them to the guestroom. He

escort them to the guestroom. He let them know for sure that he was so tired that he was going to knock out in a minute. When Maria took a fish down to the guestroom, the man wouldn't be worrying about David being sad or alone, because Dad gave an open invitation and usually left the room with another one of the girls so they'd know he was well taken care of, too!

33. Maria made love to him on a few different occasions. It was the ideal classic example of how FF'ing should be. Bernardo was so desperately deserving after Eva had been so bad to him, and Maria truly loved him.

34. Although he fell for Maria real hard, he fell more for the Lord in her. It was a beautiful spiritual relationship, and he loved the Lord and Dad as much as he loved her.

35. Bernardo made some pretti amazing statements to Maria in the bed of love. The first time they were ever together he called her the "Priestess of Love". He also called her the "Queen" and once, a Goddess.—He was so psychic, he got them all right!

36. Shortly after this, Bernardo

confessed that he had received the

Lord when Maria prayed with him to have a good night's rest. She had shared lots of scripture with him before bed and he associates one of those first nights with his joyful salvation experience.

37. The first week in April, 1976,

Dad began taking out the girls on his staff and because Maria was "attached", they began considering which one of the girls could take over Bernardo as a full-time mother. At the time there didn't seem to much of a choice: Sally was already living with Dave, Sara with Alfred, Maria with David.

38. The only single girl left was Lynn. Lynn was only 20 and as Dad put it, "still pliable enough to put up with an old bachelor's idio-syncracies".

39. She had just come to Tener 39. She had just come to Tenerife in March to help take care of Davidito, because Sara was about to have her own baby. But almost as soon as she arrived, she was given a full-grown spiritual baby to take care of instead: Bernardo! Only a few days after they met he was "hooked" on her and from there on he became quite attached.

40. But Lynn didn't fall for the

40. But Lynn didn't fall for the idea of getting attached so fast. An independent-minded Aquarian. Lynn had been hearing all the talks on Flirty Fishing from Dad and was planning on fishing a lot of men. Her idea was, 41. "I'm just getting into FF'ing

and here we are talking about baiting all these men and spreading ourselves around because we're so short of girls, and now it looks like Bernardo just wants me and only me, all the time."

42. Dad talked with her and really encouraged her about Bernardo and how moving in with him was pioneering the ministry of the future. (See "The Bait that Fell in Love With a Fish" No. 552.) "You're piowith a rish No. 332.) Tou re pro-neering a new field now. Here you cannot drop out of the system, it won't let you. (par. 85). This has real implications for the future. when some colonies in closed countries won't even be allowed to exist! (par. 62).
43. "It's going to have to be con-

sidered the life work of our disciples to marry local mates and thereby filtrate the whole social structure as a witness (par. 64). Ruth did it, Esther did it. . . married very important men and were a tremendous influence on them (par. 46)."

44. About a month after they first made love, Bernardo became our first live-in disciple. They lived in Dad's house and Lynn's job was taking care of babies: Sara's little newborn and her own new big baby

45. Lynn would get up with him every morning and make his break-fast and pack him off to work, and be there waiting for him every night after work, or meet him at the club. They would read Letters and pray together and this way Bernardo gradually became well accustomed to the Family's ways.

46. With Bernardo there was no big struggle to comprehend us or our message of Love. He once told Lynn, 'If you read in the Sun Sign book about Libras, it says they are very argumentative. They always like to take the opposite side. I'm like that. I never agree with people; I always

like to argue.
47. "But when David talks, I can't with! I agree with everything he says. I can't say anything; all I can do is sit there and listen."

48. Bernardo had travelled and worked his way through most of Europe and this had made him very open-minded, especially for a Spaniard. He left his rather well-to-do family at 17; his uncle is an important bishop in the Catholic Church and it had been a regular tradition in their family to always have the boys enter the priesthood.

49. So he ran away from it all at 17 to peel potatoes in a restaurant, becoming a disgrace to his whole family. This not only left him soured on the church but caused a personal suffering in his life that gave him a humble spirit.

50. This is one thing that Dad first noticed about him. When they first met, and before they knew anything about him, Maria had been studying Bernardo's eyes and trying to figure out what kind of man he really was, and Dad said.

51. "They're kind eyes, eyes of a man who has suffered many things. Suffering makes you either sweet or bitter, one extreme or the other. It either humbles you or makes you hard and rebellious, and he's had a lot of suffering to make him

52. When Dad found out that
Lynn was pregnant, he just flipped
out! It was just what Dad had
hoped and prayed for that would
really clinch it and draw him into
the Family! Even without any system marriage papers, Bernardo be-

gan to tell all his friends that he was married.—And when they went out together, he would introduce Lynn as his Senora!—A real shocker to anybody as traditional as the Spanish! 53. In late April other girls began

53. In late, April other girls began to arrive on the Island as FF reinforcements. Soon another fish, Columbian Chepe, also wanted to live-in, so the Family paid half the rent for a "live-in" Home with the fellows paying the other half. Dad explained the reasons in "Priestess of Love". The main reason was that the men wouldn't get the mistaken idea that "This is my house and therefore my wife and it's my and therefore my wife and it's my life, my, my, etc. etc."

54. At the first live-in house

there were two couples, Chepe with Bev and Lynn with Bernardo, and a few of the disciple's children whom the girls helped with during the day, along with other childcare helpers. So it was more-or-less a regular childcare colony during the day, which "moonlighted" as a

tay, which mooninghed as a live-in colony at night.

55. Bernardo never had any trials about the other girls FF'ing because that's the way he had been hooked. He probably, of all people, might have taken it pretty well if Lynn had been shared a bit, especially since so many men liked her. -But this isn't the wisest thing to do when trying to catch some of

these big fish.
56. Lynn had been out FF'ing three or four times with Dad and Maria but had never actually gone to bed with anybody until Bernardo.—And this probably helped Bernardo accept the baby. He knew it was his, and was his responsibility.

57. It wasn't an easy sacrifice to give up Lynn entirely to this one fish. She was Dad's most available bait, a beautiful, bosomy blonde and his only single girl. But Dad loved Bernardo so much that he readily gave her to his full-time

58. When Lynn was eight months pregnant, they had a little civil marriage, an informal justice-of-the-peace-type wedding where you just raise your hand and say "I do". Dad felt that in this case it was a better testimony and would show those other than our Family that he really was "all the way in".

59. Bernardo was quite a testi-mony when Lynn had her baby too. He knew that in the Family the husbands usually went into the delivery room with their wives, so, of course, Bernardo wanted to be there to help Lynn, too. The doctor, though, was quite shocked and he told Bernardo: "Listen, you're Spanish like me. Let's talk straight! I've seen many husbands claim they can endure a birth, but I've also seen the same men faint right on the floor when they saw it!

60. But Bernardo told him, "I've got the faith for it!" So the doctor put him and Sara in white hats, masks and robes and took them into the delivery room. Bernardo encouraged Lynn through the whole delivery and was such a tremendous witness to the doctor that his sample helped win the doctor's

61. During the time of persecution of the Family, Bernardo was really strong and spoke up for us to a lot

of important people who came to his restaurant. He was able to speak on our behalf for quite awhile be-cause he could talk for us without having to say he's with us—and that always impressed people. He was also called to testify about us in

court when the Family of Love was receiving quite a bit of persecution and popularity on the Island.

62. Bernardo never had any big trials about FF'ing, that is until much, much later, after the birth when a situation arcse where he when a situation arose where he had to share Lynn. He and Lynn started going out FF'ing, and certain men started falling for her. On one occasion she went ahead and wen home with somebody and Bernardo experienced what the FF Blues are all about.

63. It's not so much that Bernardo minded sharing Lynn.-That's the way he was brought in, and FF'ed brothers have been found to be the best about sharing. But in this small city where everyone knows everything, it was not the wisest sample that Lynn, the new wife of Bernardo the restaurant owner, be seen checking into a hotel or going home with some man.

64. So Dad has now stressed that live-ins are the most important fruit of FF'ing and if we lose or stumble them, it's all in vain. So he has said that the girls who have live-ins as full-time babies shouldn't have to be bait. Eventually the men will have to learn to share, but they need to be brought along slowly, and it can only be done at the right

65. So that's Bernardo's story.-One more intersting thing: Bernardo once helped save Dad's life! After Dad had left Tenerife and was travelling, he became so sick at one point that he couldn't eat anything for one whole week! He completely

lost his appetite and nothing appealed to his weak stomach.

time.

66. Dad was really sick and weak oo. Dad was really sick and weak and it was quite a desperate situation! Then one night, Dad said in his sleep that he would eat something now only if he could have some roast lamb and Aragon wine from Bernar-do's restaurant do's restaurant.

67. The very next day, someone was supposed to be coming from Tenerife to where Dad was. So they immediately called Tenerife in the wee hours of the morning, waking Bernardo out of his sleep, and placed the order for the King!

68. Bernardo jumped to it, preparing a feast fit for a king, and

packaged it up beautifully in plastic containers in a great big box. He told the girl, "Don't check it as luggage.—Hold it in your lap! Keep it ascred and don't drop it! 69. "It's sping to save his life!"

69. "It's going to save his life!"-And it did! That beautiful gourmet dinner was the first thing Dad was able to eat after a week's time, that went down and stayed down. Perhaps the Lord was trying to show us how important our live-ins are going to be in the future! When we lose all our other means of support, they may well save the life of the Revolu-

ty-fishing, a fish can

4. But we had no sooner gotten

1. In flirty-fishing, a fish can sometimes bite when you're least expecting it, and sometimes almost before your bait has hit the water.

That's what Sara found out:

2. It was my second time out and only the third or fourth time for the other girls on our staff. At this stage of our training we were mainly getting fishing lessons from Dad. He was showing us how to look for potential fish, how to dance, how

to dress nicely, etc.

3. A lot of little fish, just teenage kids, were coming around to our table asking us to dance. They were mainly the kind that squeeze your titty & say, "Eres tan bonita" (You're so pretty)—but we hadn't met any big fish yet and really Dad wasn't even expecting us to hook any so soon.

settled at our fishing table when a certain older looking man approached me, wearing a suit and tie, with short hair and a sweet smile, and short hair and a sweet smile, and asked me to dance. My first reaction was, "Oh my! A suit and tie!?" He took me by surprise because he was dressed so nicely. "He's old enough to be somebudy's father," I thought. "He must be a Sunday school teacher!"

5. It's interesting to note my first reaction, because if a man in suit and tie would walk in to the club now, I'd probably go after him! But at the time I was not accustomed to reaching older "systemite" men, so it really was a strange experience

it really was a strange experience

6. I thought to myself, "I'll just

dance a couple dances with him, gance a couple dances with him, give him the message and sit down. I've got to get back to the table."
Then I thought, "I wonder what Dad thinks about me out here dancing with this systemite?—Oh dear, what am I doing with this guy what am I doing with this guy,

anyway?"
7. But Chepe was real sweet and as we danced, he went on and on very politely about how he'd been watching us for some time and was so curious about us, especially

Dad.
8. "Who is that man at your has very very intertable? He has very, very interesting eyes. I think he's the most interesting man I've ever seen!" I told him "Oh there's me fath." 'Oh that's my father.

him, "Oh that's my father."
9. "Well, what makes him so
special?" he asked. I said, "Because he loves God and he's a man of God—that's what makes him so special." I didn't know whether what I said about God was going to blow him away or not, but it didn't. In fact, he liked it and kept

asking for more!

10. So I told him the whole message of salvation and after about five songs I had gotten to the point where the only thing left was for him to ask Jesus into his heart! Praise the

11. But I was floored! Nothing like this had happened before! With the other guys, you'd mention something about God and they'd say, "Oh, you believe in God, that's nice"—then maybe you would mention something again two or three songs later or in casual conversation. I had been used to doing dancewitnessing rather slowly. We were also living under strict selah condi-

tions at the time, so I was rather concerned that I might blow our security if he received Jesus right on the dancefloor and happened to

break down and cry!
12. I told him how our father had explained Jesus and salvation to his children by the Baby tract message, and said, "All you have to do is pray that little prayer." Sweet Chepe was very enthusiastic about it, saying he would pray with all his heart that very night.

13. Soon I had to tell him that I needed to go sit down with my fa-ther because I was the only one who could translate for him, since I was concerned that a fast-talking friend might greet Dad at the table. Chepe Well, I'll translate for him! I know how to speak English, Spanish, German and Italian, and a couple of others."—I found out he could speak six languages!

14. He came back to the table and walked right up to Dad and shook his hand, thanking him profusely for letting me dance with him. He kept saying all night, "I found my treasure! I'm so happy!"

-"You're my treasure!"-talking

about all of us. . Dad was rather shocked at 15. Dad was rather shocked at first because he came on so strong! Chepe, which is Columbian for Pepe, was practically glowing with delight and raving so excitedly about us in front of everybody: "And you are all one family? And your religion is Love! This is tremendous! This is wonderful! I'll transdous! This is wonderful! I'll translate for you! I want to know what I can do so I can tell everyone about your love." Then he pulled up a chair and plopped down at the

table. "Tell me more!" he said.

16. I was shocked! I thought, "Oh boy, now Dad probably thinks I've told this guy everything about I've told this guy everything about us." Here we were trying to be selah, just brand new at FF'ing, and this guy's already witnessing outwardly to everybody! So Dad invited Chepe to go dance with one of the other girls and asked me: 17. "Honey, who is this guy? Tell

me quick all that you know about him." What we did in order to discuss our fish was to talk to each other in a completely nonchalant, amiable manner, just like we were talking about what a wonderful day we had at the beach or something.

And so as calmly as I could, I

18. Chepe was a 35-year-old bachelor from Columbia, an Aries, and was managing two restaurants here in the city, as well as teaching Spanish to big German businessm eral times a week. As soon as I started talking about the God of Love and the Bible, he knew that was just what he had been searching for in life and was already asking how he could join us!
19. Chepe said later he w

by my smile.—It was such a beautiful experience to meet him! Hallelujah! Dad was real happy about it, and said, "This sounds almost too good to be true!"

20. I asked if I should lead Chepe to Jesus in prayer, but considering our important security situation, Dad figured that Chepe had already received a heavy enough witness on the dancefloor, so we should leave the decision of salvation up to Chepe and the Lord.

21. That night Chepe went home and asked Jesus to come into his life and it was only shortly after that that he prayed for the Holy Spirit. He became a very dear friend and brother right away, and came to the house for visits and classes and to the club at night. But because he was demanding so much "bait" from all the girls and tying up our lines, we decided that he needed a full-time mother to feed him.

22. At that time, early May of 1976, Bev was helping to care for Art and Becky's baby, but wound up having two babies to take care of instead. The other one, of course, was Chepe. Chepe fell for Bev right away and soon became our second live-in Flirty Fish disciple, sharing an apartment with Bernardo and

23. Chepe still kept his job, but also began to do some pretty radical witnessing. His boss was a big, rich Jewish property owner. He was very fond of Chepe and relied on him to carry a big load in his busi-ness as well as being his confidant and private chauffeur. But when Chepe began to change so much after meeting the Lord, his boss didn't like it one bit.

24. In order for Chepe to be able to stay in Tenerife, his application for residency had to be accepted, including written recommendations from highly respected people. So his boss started holding that over his head: "I'm not going to approve your residency if you keep hanging around with these 'Jehovah's Witnesses' and those nasty people down at the club that prostitute themselves selves." Chepe's boss even began to send spies down to the club where we were to find out what we were up to!

25. Because his boss was quite influential, we advised Chepe to try to stay with his job and witness the best he could. Well, he tried for awhile but it just didn't work—he was so zealous and on-fire! Finally when he couldn't take it any longer, the Lord gave Chepe an open door to sock it to his boss and tell him why his life had changed!

26. It was such an anointed, convicting talk that it drove his boss to the decision point, but he made the wrong one and fired Chepe! Chepe had tried to stick it out with his boss for several months, mainly to protect the work and help get residency, but Chepe had changed so much that his whole countenance and person was visibly altered and everyone noticed it. He couldn't help but witness all the time!

Halleluiah! 27. This is not to say that Chepe was a radical revolutionary in every thing-he wasn't. He was 35 years

old and had a lot of system ideas that needed changing.—The amazing thing was, that for someone of that age, seemingly so set in his ways, successful in business and intellectually inclined, he was so humble and readily receptive to the Truth and willing to dedicate his life to serving Jesus at any cost!

28. Chepe had, previous to this, been deeply involved in the Catholic Church. For four years he was the Secretary-General of the Jesuits, who are often called "the priests' priests", because they are the most intellectual, ardently Catholic religious order of the entire Church and have special allegiances to the Pope. He had even had a private Papal audience and worked on some of the translations of the Pope's epistles before he came to Tenerife

to work.
29. So why did he leave? "For one very normal, natural thing," as he said to Dad. "There it is prohibited to have women, and men must have women; I wanted to have a Dad told Chepe: woman

30. "Sad to say, as a result of this, something worse has happened among Catholic priests, and this you probably know. Many Catholic priests, because of not being allowed women, have been driven to sodomy, which is worse in God's sight!"

Chepe readily agreed!
31. Chepe wanted a woman, but at first he wanted one too much.-That is, he expected the normal system marriage relationship and wanted his wife all for himself. But after all, isn't it <u>natural</u> to selfishly want a mate all to your-self? – It may be, but it isn't <u>supernatural</u>, and that's the realm we are living in—the supernatural Spirit of God!

32. So the Lord had to teach Chepe some pretty hard lessons about sharing: Only a couple months after she became pregnant, Bev had a miscarriage. God used this to really teach Chepe a big lesson about selfishness. Because he hadn't been willing to share all that God had given him with others, and because he had wanted to separate himself and Bev and live outside of the Family, the Lord had taken the child and made Chepe realise that Bev was not his private

possession.

33. And to his credit, Chepe readily received the lesson. He realised he had not only gained a wife, but more important, a Family, and that one reason why we have such true, pure love is because we share
God's Love with others. Bev had a
few trials about being Chepe's wife,
34. So Dad suggested that Bev be

freed to be bait and that Chepe could have another girl for his
"mother". Chepe again accepted
that just fine and moved in the very
next day with Judy and read the MO Letters and had more of his MO Letters and had more of his babe's training with her for an additional month. Later he lived with Cancion, who is also Columbian, for several months, and soon graduated into sharing his "mother" with other hungry fish; he just wanted his share of love too!—So Chepe came watty far along considering came pretty far along, considering all the changes and tests he passed, and became a full-time disciple for the Lord! Hallelujah!

35. Chepe appeared to be such a

"systemite" when we first met him, but thank the Lord, he turned out to be proof of the old saying, "You can't always tell a book by its cover!" In fact, he even began to change or rather throw away. to change, or rather, throw away some of his covers, soon after meet-

ing the Family!

36. Chepe was so churchy that at first we even thought he might be a Jesuit spy! But he proved himself to be a complete new creature in Christ when:

37. On one of his first visits to Dad's house, everybody peeled off their clothes to go swimming naked in the pool. We teased Chepe to come join us—and he did. Throwing clothes and caution to the wind, he dove into the wild freedom of God's Family of Love and hasn't gotten

out yet!

38. Another fish for the Lord's 38. Another 1ish for the Lord's creel and another trophy of Flirty Fishing. So don't be surprised if you get a quick big bite when you're only a "beginner" bait. The Lord's ponds are full of nice hungry fish—and some in suit and tie, like Chepe!

Sweet Pedro

Chapter 4 of FF History Written by Samson Warner & Sara. Edited by Justus Ashtree & Sara.

1. On one particularly slow night at the club, Arthur, the fisherman for the night, called Dad at home to let him know how things were going: "No one to mention of is here; it's not a very busy night. The only person here at the club whom we know is

young Sweet Pedro."

2. Dad said, 'Well, let's go after L. Dad said, "Well, let's go arter him! Invite him to your table! I love that boy! That boy has the sweetest face! He has the face of an angel. I really love that boy. Now I want him, I want that boy for the

3. Pedro was an office clerk, in 3. Pedro was an office clerk, in his mid-20's, a Cancer and native Tenerifan. He had been going to the club for several months when he met the Family late in April, '76. Pedro was quite shy and withdrawn into his shell, but yet there was something special about him that made him different from all the other young men at the club. We all loved him from the start and called loved him from the start and called him "Sweet Pedro".

4. He had first started going to the club with friends to pick up on some of the European women who

t Pedro" in Tenerife

came to the Islands for just that very purpose. And mainly giving in to pressure from his friends, he had made love to a couple of the young tourist girls, but had never found the true love in life that he longed for inside.

5. He couldn't communicate with these girls spiritually or even linguistically (since they didn't speak Spanish), so these initial sex experiences had left him, as he said, "feeling as if I couldn't stand living with myself, because it was just like an

animalistic, mechanical sort of

thing."
6. As was later proved, most of these adverse feelings towards sex in Pedro's mind were a result of th "sex is sin" propaganda of the Cath-olic Church that teaches that sex is some deprayed act resulting from the Fall of Man

7. One month before meeting the 7. One month before meeting the Family, Pedro forsook the idea of chasing foreign women. He decided to look for his "dream girl", and he found her: A Spanish girl from the Island whom he thought he could marry and live with happily ever after!

8. But then he met Sally one night at the club. He was so drawn by her beauty and spirit that his girlfriend soon became jealous. But in-stead of dropping Sally, he dropped his dream girl and began coming to the club just to meet the Family! Praise the Lord!

9. It was only Pedro's second time at the club after meeting Sally that Dad gave the order to go after him! The very next evening Dad and Maria were the hosts at our table, and when Pedro walked in, Maria soon politely excused herself from the boy she was dancing with, and asked Pedro for a dance. Pedro was completely, though happily, shocked!

10. He had noticed Maria sitting next to Dad and thought she was so beautiful that he couldn't even understand how she could have no-ticed him, much less want to dance with him. But as they danced, he found out she had not only noticed him, but she knew his name, what kind of job he worked at, and

where he lived!

11. Maria really melted his heart with her tender, loving, personal concern and prepared the way for Alfred, who next witnessed to him with the Word in Spanish. Pedro later said that as he listened to Alfred that night, his head felt like it was spinning and turning! God's Love was already reeling him in! Hallelujah!

12. Pedro just couldn't believe anybody could talk to him about God with such open conviction, and that very night on his way home, he said he felt compelled to stop his car on the side of the road and pray, just like Alfred had told him to do, and Sweet Pedro asked Jesus to come into his heart.

13. As soon as he got saved, he became just like one of the Family, and by mid-May he started coming over to one of our selah houses for Bible classes. While visiting the Family, he met Miguel Americano. Though they both lived in La Laguna, they had never met, but they soon became fast friends. It was through Miguel and Pedro that La Laguna erupted in a witnessing explosion that soon claimed hundreds of catacomb disciples from the campuses of that University

14. Though Pedro didn't seem to need sex that much, Dad was con-cerned that he might not be getting didn't love him up there was always the possibility that he might have to get it from worldly women again.

15. He had heard alot of sermons about Love, but had never had a

sample, so Dad suggested that in case he was too shy to ask, that we girls make the invitation obvious for him to accept: "If you need 'anything' be sure and tell us" or "You could spend the night here if you like" and such open invitations made it easier on him, and sure enough—"Father Knows Best".—Pedro really needed our love!

16. Soon he started falling for German Yanina. By late July, she began sleeping with him and was soon taking care of him a couple nights a week, when he would travel a long way after work to come see us and have classes and fellowship with the Family.

17. Having sex with Yanina really helped to deliver Pedro from the psychological and spiritual bondages the Catholic Church had tied him up with. Though he probably didn't need the sex all that much, he had to experience and taste every-

thing about our religion of Love for himself, to see the power of God's unfailing love in his own life and soon be able to witness it to others. As the Scripture says, "The husbandman that laboureth must be first partaker of the fruits." (2 Tim. 2:6.)

nant that taouteth must be this partaker of the fruits." (2 Tim. 2:6.) 18. At first, the conflict in himself between our "Law of Love" and the churches' "love of the law" was so great that his spiritual life from mid-August to late September began to resemble a spiritual roller-coaster. But the Lord's Love Letters by Papa David pulled him through, just as they did scores of other hungry fish we met in beautiful Tenerife!

19. Juan, who was one of our main teachers, set Pedro down for a reading of "Revolutionary Sex" and that was what finally helped to set him free! Pedro confessed to Juan that with all the Church doctrine and influence by his parents and others, he was never very sure that what we were doing was right, but reading that MO Letter was a confirmation of the way he had always felt deep inside himself under all the bondages the System had laid on him, and "the truth had set him free!" (Jn. 8:31,32.) Hallelujah!

20. Pedro and Miguel loved the Word! When they would come to the house to hear a class or listen to a taped reading of a Letter, they practically wrote down every word.

20. Pedro and Miguel loved the Word! When they would come to the house to hear a class or listen to a taped reading of a Letter, they practically wrote down every word. In fact, one night in early July, Timothy Concerned was looking at Pedro's notebook and found almost a verbatim text of "Stop, Look and Listen" and "Diamonds of Dust"!

—Pedro had listened to the tapes so many times that he had copied them all down!

21. Pedro and Miguel were always hungry for more Word, but the Family, for security reasons, was a little afraid to give them even edited versions of the Letters or to even lend them some of the tapes. So guess what the Lord did—in spite of our selah situation: He sent out one of our sweet girl litnessers to meet Pedro and Miguel on the street! She gave them a booklet of MO Letters, they wrote to the address listed inside, and soon were receiving their own MO Letters from the Spanish mainland!

Spanish mainland!

22. When Pedro finally told Juan
a month later that they were secretly
getting their Letters by mail, Juan
asked him, "Well, why didn't you
tell us?" He said, "I knew I wasn't
supposed to know, so I didn't want
to tell you that I knew!"—He was
afraid he might endanger the work
and lose his lifeline to the Letters and
have them taken away!

have them taken away!

23. His need of the Word even more than sex gave us all the vision for feeding the sheep more and having more faith to give them the edited selah versions of the Letters and tapes. That's when we began our "lending library" of MO tapes to all our friends, because Pedro had given us the vision of how spiritually hun-

gry the boys really were!

24. Later, when the persecution
against the Family of Love began on
the Island, the newspapers even published the fact that we had over 250
underground workers in the student
area of La Laguna. The press interviewed Pedro and Miguel and published a picture of them in the newspaper as the leaders of the Family of
Love in La Laguna. Thank God the

boys were wise enough to allow a picture only from the back and only gave the reporters their Bible names.

25. Soon persecution was getting pretty hot, so both Pedro and Miguel chose to follow Dad's wise counsel and leave Tenerife for awhile. They went to Madrid for some more basic training and so they could get a wider vision of how our other Homes work. After the boys had left, some of the catacombers began to go a little astray without their leadership, so as soon as the persecution died down a bit Pedro and Miguel returned to carry on their pioneer work on the Island.

26. The important thing to remember about Pedro's story is that although Pedro was not the older type of businessman that we were looking for and expecting to meet in our FF'ing, his conversion and tremendous work of helping to start the catacombs explosion in La Laguna proves once again: "You can't put God in a box!"

27. So don't be so bound as to think "we're only fishing for older men." One of those "innocent" looking, sweet young men in your club may be the key to a catacomb revolution in your town!

"The Tenerife Story! It was like a big major experiment to see and prove that FF'ing works! We've got enough Spaniards there saved, over 200 important men and over 200 university catacombers to keep it going from now on! FF'ing has not only blown those Islands apart, I believe FF'ing with God's Love is going to blow this world apart...! (from "The FF Explosion!" No. 576:10, 11,22,155,156 by Father David.)

Plea from a Homosexual!

ONE OF THE HEART-RENDING LETTERS TO DAD THAT RESULTED IN "HOMOS!" LETTER No. 719!

Dear Dad & Maria & Rachel.

I really need help with a problem that has made me want to leave the Family for a long time. In the past, I've been counselled by my local shepherds who tried to help me, but they didn't have much experience along the lines of my problem so they couldn't help me very much except to pray for me to be delivered, which they did once and said I'd been delivered, but I still have the problem.

This was the reason I was asked to leave the Home. The only reason I was ever allowed to stay as long as I did, which was this whole past year, is because I am a good litnesser and helped to bring in good funds. My shepherds kept telling me in faith, "You just need to get your eyes on the Lord and stop looking at yourself and your problems." But deep down in my heart I didn't feel that my heart was right with the Lord.

I'm spiritually sick, but I'm still trying to keep going. I don't fellowship at the colony and I don't feel inspired or even led to find sheep to witness to because whenever I do witness I feel like a hypocrite because things aren't right in my life, so I can't really be a witness for the Lord. So I mostly just litness. I litness just about every day. My stats go on the colony total and I'm listed as a catacombs disciple. I live alone and keep pretty much

to myself because of my problems, but I'm getting so lonely I can hardly stand it. I went and visited the colony once, but I don't feel much love. In fact, some of the brothers act self-righteous and I feel awkward and uncomfortable being there.

My problem is over the past couple of years I've gotten into homosexuality. When I joined the Family about six years ago, I was married. My wife only stayed about nine months and then she was asked to leave for repeated lying to leadership and being deceitful. I was kind of stunned and hurt, although our marriage was slowly falling apart anyway. She was the first girl I'd ever made love to successfully. I tried with a few others before her, but was too nervous and couldn't do anything.

Since my relationship with her, I haven't let myself get emotionally involved with women because everytime in the past I've always ended up getting really hurt. All my love affairs starting with my first childhood crush always ended on a sour note. Most of the time I fell in love with girls who weren't the least bit interested in me. I attribute that mostly to the fact that I didn't act all that masculine or aggressive.

One reason for this lack of masculinity was because my mother divorced my father when I was five years old, and I never had a fatherson relationship with a man. Most
of the time I was influenced by
my mother and sisters. I had a
stepfather later on, but we were
never close. So because of my
mother and sisters' influences I
guess I had more of a feminine air
about me than masculine. But even
when I was a young boy of ten
years old, I can remember fantasising about lying on top of other
little boys. I never told anyone
about that or never really poured
my heart out about anything. I
just used to hold things inside of
me, especially concerning sex.

During this time of living with my

During this time of living with my mother, she worked around a bar as a waitress and she began to drink a lot and hang around with the wrong kind of people. She started to become an alcoholic and was always bringing different men home to sleep with her, which I didn't like. My older sister was also becoming somewhat of a whore, letting guys use her. This used to really hurt me and make me ashamed and make me go just the opposite and be even more uptight about sex and make it really ugly.

Before I met the Family I had never had any sexual contact with a guy. Not that I didn't think about it, but I was too scared to do it because I'd been accused so much of being a queer in high school. Most of my life I've been attracted to guys more than to girls. I guess maybe because I was so insecure about my masculinity, what attracted me was very masculine guys. I don't like sissy men even now, but I guess some guys in high school

considered me a sissy because I wasn't bold but was afraid of people. So my homosexuality never really came out until after I joined the Family, after my wife left.

I think my first experience was

I think my first experience was with a brother when I was out at a refuge farm in Ontario, Canada. It was all brothers. There was a shortage of beds so we had to double up. I slept with a brother who I really had an attraction for. Early in the morning I noticed while he was sleeping next to my body that he had a hard on. I just let him lie against me till it was time to get up. I had really been under condemnation from that day. I never told a anybody, but I really went through trials. But after that, I'd think about guys when I'd masturbate, and even up till now, although I've tried without much success to think about girls. It's really a bad habit I don't know how to break out of.

I never actually did anything with

I never actually did anything with a guy until two years ago, when another brother and I were on a road team and a homosexual put us up for the night. I slept near the homosexual and ended up masturbating him, but I never let him touch me. He tried to, but I didn't let him because I was scared. I was under condemnation for months and nobody knew what was wrong with me, and I was too afraid to tell, and too ashamed.

Altogether since that time, I think I've had only about 6-8 experiences with guys, and the most I ever did was masturbate them. A couple of times I let them suck me. But the condemnation was so great. I've tried at different times to repent.

and at communions I'd really beg God to forgive me and give me a new chance and it seemed He did and I'd try hard not to yield. But as soon as I'd masturbate, I'd think about guys and that would be it; I'd be defeated right there.

I don't know what would have happened to me if we'd been allowed to have sex with the sisters then. But as time went on, it seemed l got worse till finally I was going to leave because I felt guilty when litnessing and I'd look at the guys instead of the girls. It just suddenly hit me after so long of yielding: "I'm a homosexual!" It was my life-long fear come to reality. I was afraid of what would happen if I told somebody. That was something I never told anybody.

Finally I did tell my shepherd.
He was real sympathetic and we prayed that God would help me get the victory. But that same night when I masturbated I was defeated. But I couldn't tell him that so I just acted like I had the victory, but

started to feel like leaving again.

Then the Regional Shepherd came by, and when he found out he called me into the office to talk about it. He asked if I'd been prayed for to be delivered. I said we prayed but not really directly to be de-livered. So we prayed again this time that God would completely deliver me. I tried hard to believe I was, but as soon as it was time to go to bed (I had to masturbate every night or I would get real grouchy the next day), as soon as I mastur-bated I was defeated. But I never brought up the subject again because I was too embarrassed to talk about it.

So, since that time a year ago, it's just been constant trials and very ittle victory in that area. I've really gone downhill and lost a lot of faith and usefulness to God. I really love Jesus and the MO Letters and know the MO Letters are the truth. But right now I feel like I'm in the Valley of Baca and can't get out. I never had sexual intercourse with a guy, and which I don't de-sire.—I think that's disgusting. But I can't be too self-righteous because lusting after guys isn't much better.

I need your help and counsel. I want to change, but it seems impossible. But I know if I don't, I'll never be allowed back into the Home, and I could even get worse I'm very lonely and need lots of love and affection, especially now at this point in my life. Just before I was asked to leave the Home, I tried to make love with a sister, but couldn't. So I need prayer or just to keep trying to find a girl that can turn me on and love me. What will help me change and get back to Jesus? I'll be waiting to hear from you. Love in Jesus and David,

—A Faithful Follower.

DAD ON "HOMOS!"

You'll just have to look to the Lord in each case... Nevertheless, we should take a kind, loving, sympa-thetic and forgiving attitude toward people with such weaknesses...and try to help them overcome them with lots of understanding, love and patience, and perhaps by fast-ing and prayer." Changing The World -In Prison!

(The following is a letter from Jonah Sailor, catacomb brother in prison, to the editor of "The Salem "newspaper, Oregon, U.S.A.-1

Newspaper Reprint:

CHILD OF GOD SEES OREGON STATE PRISON DISCRIMINATION
"Statesman" editor:

I am a prisoner at Oregon State Penitentiary. I am writing this letter because I think the public has a right to know how various prison programs affect the people most directly involved in them

I am writing regarding the total in-adequacy of the religious programs being offered through the chaplain's office. Although the Sunday morn-ing service is well attended, it is not because the inmates are rushing to the altar to get saved. On the contrary, they go because (1) it is a way of getting out of one's cell, and (2) church-goers are permitted to go directly to lunch after the services

(by-passing the usual wait for their cellblock's turn for lunch!).

The vast majority of prisoners with whom I've spoken about this problem express feelings of sheer contempt and disdain for the shallow, lukewarm, boring, self-righteous holier-than-thou orthodoxy of organised religion. This is not to say that there is no spiritual hunger among the prisoners. The opposite is true: There are many prisoners seeking fellowship and many are truly searching for honest solutions to the problems of life which have led to their incarceration.

I, for example, am a member of an unorthodox Christian group, the Children of God. Because of religious intolerance my group has been banned from coming into the prison and presenting contemporary

Christian music programs for the inmates. The old, worn-out, traditional methods of churchianity are completely useless inside a prison.

The present chaplain is using his state-financed position to discriminate against our group and I think this is extremely unfair.—Though I do recognise it is a common historical occurrence for Christians with political power and influence to persecute and attempt to repress the religious freedom of small, help-less groups of disciples of Jesus Christ like the Children of God.
Joseph C. Stockett

(Editor: God bless Jonah for speaking up! As a result, the Family is now able to visit him and other prisoners regularly! PTL! Read his testimony below!—)

Dear MO and Maria,

I know you don't know much about me, and really, I have nothing to brag about insofar as my past life is concerned. I was a nobody I was given an opportunity to serve God with our Family and was in numerous colonies in the U.S. Northwest in 1972-73

I left the Family and ended up in prison a year or so later for setting fire to an abortion clinic in protest against killing. I realised when I came to prison that I had not done the right thing and that all my political observations were meaningless outside the context of the solution given in the MO Letters.

I am thankful that God has allowed me to become a catacomber in prison where the need for Love is so great. I want to express my gratitude for the example you have set for me in giving your life for Jesus. I know you must receive thousands of letters from other grateful Children of God, and I don't know how I can add to the millions of letters of appreciation sent in by your thankful readers. I know my appreciation is best demonstrated by showing through my actions a greater dedication and commitment to the cause of Christ.

A prison is like a sociological test-tube. I see the same prisoners day in and day out. I see the effects of your Letters on the lives of those who are considered unsalvagable by the prison administration. Even the guards are amazed at the change in some of our catacombers.

One new brother (a man doing life in prison for the killing of a police officer during a raid on his house), after doing eight years in prison, became vicious and hard-ened, until he asked Jesus into his

ened, until he asked Jesus into his heart and began reading MO Letters. He started writing to a 15-year-old catacombs sister in Spokane, Washington, named Truth Nothing, and her love for him simply melted his bear. She until to him for his heart. She wrote to him for many months during which time he didn't seem to make much progress. But she did not give up on him. The prison authorities are, of course, skeptical about religious conversions due to the frequency with which they occur and the usual proximity of them to the prisoner's Parole Board hearing! Nonetheless, they cannot help

but comment on the transformation that has taken place in this brother's life. It is the MO Letters that have accomplished this radical transformation in my life too. I believed in Jesus when I was a child, but my Protestant minister father was very self-righteous, and I was soon con-vinced that God was an angry, mean, harsh and unkind Being.

The church system made me lose faith in God just exactly as you describe the problem in your Letters.
When I met the Family of Love, I was very embittered against the churches because they had condemned me for 20 years and I was only 26 when I first met the Family. I had never seen the true Love of God until I meet the Family in Portland, Oregon a few years ago.
The Family really loved me, when

I was a very angry and militant trouble-maker. They showed me a good sample and really socked it to me with the Message.

Alot of the prisoners write to the Home in Guam. They have a whole

bunch of sexy girls there, and boy, can these girls write heavy letters packed full of choice MO quotes! All these girls that write and love us are changing our lives and we appre-

Many prisoners go many years without receiving a single post-card in the mail.—No families, no wives, no friends.—Condemned by the system and forgotten by their loved ones.—No future. It is a difficult life for most prisoners. The impact of your Letters is only beginning. of your Letters is only beginning to be seen here! We are winning the battle and making progress!

Love, your son in prison, Jonah Sailor.

P.S. The Portland Home comes once a month to the prison for fellowship. For many months, we

had problems getting them into the prison. But God did a miracle, and now the prison official in control of "outside visitors" has decided he likes our group, even if we have some "funny ideas"! PTL! This is a great development and opens the door to the possibility of prison catacombers being released on parole to the Family!

BREAK THE CHAINS!

I hear the Wild Wind whispering Thru' the passageway of rhyme, Her breeze is blowing softly But so clearly in my mind.
With a gentle sound so fleeting Yet so pleasing to my ear She whispers: 'Break the chains, my love,

Break the chains and never fear!' I quickly opened up my eyes, My cell was dark and grim, The chains about my body Made me feel so frail and thin. I raised my head intently, Again her voice whispered: 'Break the chains forevermore!'

Suddenly, like thunder crashing In the vacuum of my thought I heard the Wild Wind crying Out a message strong and hot:

Break the chains of man's traditions! Smash the bars of cruel despair! Shay the doubts with sword a-blazing!
Free the prisoners everywhere!
For I am the Wind of Freedom
Out of David's cave I pour, I'll help you break the chains forever And win the Holy War!'

SPAIN:

The Military Catacombs Ministry

--from Marc Fighter; former military catacomber; now full-time disciple!

Dear Family,
I finished my military service only a few weeks ago. This time in the army has been the most important experience I've ever had in my two years in the Family.

Fourteen months ago I went into the Spanish Army. I was lonely and far away from any regular or catacomb colony. I needed some help, so I wrote to my shepherds-Regional, Bishop and Archbishop. I was just a stray sheep looking for my shepherds to follow them and get care and supervision. But it was only until much later that they got in contact with me.

It seemed to me that in my new situation, the Family didn't know what to do with me. I was out of their normal sphere. God bless the brothers who personally have helped me, especially Matthew Canada, who with so much love and concern, inspired and loved me with letters and the new wine.

After Basic Training, I was moved to Malaga where we have a Home. It was a blessing to be near a Home. Other brothers in the army didn't have it and during all the military service, some were almost complete ly isolated from contact with the Family.—It all depended on the local leadership. I must say that I

had a Home that received me very well. But I always felt like a "visit-or" because at that time the Family didn't have a place for me and my job for Jesus in the Army.

After six months of military service, the Lord showed me that the problem was that the Family was not prepared and organised for this new field. - There were no ties between the Family and the broth-ers in the Army. It took me two months to get all the Army brothers' addresses, just because nobody knew

Finally we got in contact with each other and began to send each other testimonies, experiences, etc. Soon we exploded in our Army barracks! Through the mail, we felt really in unity, and we felt like we had found a place for ourselves in the Family because we were to-gether and reporting. That's what

gave us the faith to really attack!

But in order to really continue the job, we needed the support of the rest of the Family, their appro-val, counsel and supervision. For six months we sought their support and asked for their supervision.

Although the Regional Shepherd Although the Regional Shepherd of South Spain fought for our cause, we never heard anything from other leaders. A few times we were told to stop pushing, that we were going too fast about organising the whole affair. God bless you "Papa" for your Letters: "Indigenous" and "The Birds and the Seeds" that gave us the faith and conviction to continue fighting!

Then, just as we were about to finish our military service and there was nobody to continue the job,

the RNR arrived!—Hallelujah!— And what we couldn't solve in six months, Dave and Carmen, the Visiting Servants, did in sharing with me for two hours-TYL! From the beginning, they showed concern for the brothers in the Army. God bless them!

Now we are going to take care of these brothers physically and spiri-tually and be sure they are in contact with their nearby Homes and receiving their MO Letters. Also, in this ripe harvest field of the Army there is a great potential of new disciples, as here is where the men need love and are lonely.

The best experience about being

in the Army was that I was alone and had to depend totally on the Lord.—A great LT course! The brothers in the Army have nobody to hear God's Voice for them, so they are compelled to learn to get the Lord's answers themselves to make the right decisions.

Finally, I wanted to encourage those in the same or similar situa-tions, such as in prisons and other drop-in cases, that God and the RNR blesses unity and organisation in such situations, so that much can be accomplished for the Lord where you are!

FF'ING NEWS:
Priest Discovers Real Love!

France: M. is a French priest working in a hospital. He is now 57 years old and spent 25 years in a monastery. Now for the last 12 years he has been working as the priest in a hospital.

Three years ago he met a sister out litnessing and got so turned on by her smile that when he read the MO Letter she gave him, "Look of Love", he wrote immediately. After being on the mailing list all this time and twice meeting the this time and twice meeting the Show Group, he wrote a letter begging to have a sister come to him and share a real look of love. He had found through Dad's Letters that it's beautiful to show God's

Love through the physical.

I went with a brother to see him and make acquaintance. He was happy to show us his MO library.
I gave him a Quotebook in French and he told me that the only thing he is teaching the people he is in contact with is the teachings of the MO Letters. He told us he thought Dad was full of the Grace of God and believed God was talking through him.

He asked me if I would come over and show him God's Love. He mentioned that he never had sexual intercourse before but would like to experience this form of love as explained in "Revolutionary Sex" and "Look of Love". The reason he asked me to show him was because he believed a child of God would have the understanding and "know-how" better than a girl of the "world". I called to make a date to help him.

He had already prepared vaseline

and tissues, as it explains in the Letters, and he showed me a huge bottle of wine the Lord had provided -TYL! He was like a little boy that the Lord was rewarding.

While making love, he was praising the Lord and giving God the glory for everything. Afterwards, we read "It's So Simple!" and we repeated the prayer together. The next morning he asked for another MO Letter, so we read "The Spirit of God" together and he said it was the first time he understood why we should have the Holy Spirit. When I left, he said, "Please send me more Letters from Moses David and Letters from Moses David, and thanks for bringing me Jesus!" Praise God!

-Esther Brunheld.

Letters of Apology

From Caleb, former KQC of the Pacific & N. America: Dearest Dad, Maria and all,

I can't thank you and Jesus enough for such a wonderful loving Family. Long live God's Love! I've been praying and searching my heart about all the mistakes I've made and how I have failed the Lord and you and everyone in the Family by not living and obeying the Letters.

I want to ask you all for your for-giveness and for your prayers—that I will be faithful to obey and follow the Letters, to be a servant of all, and to follow Dad's sample of real love and concern for others.

Thank you, Dad, for your loving corrections and spankings. The harder they are, the more I know you and Jesus love me—and want

me to get back on the right track.

I am beginning to see the joy and happiness of getting back to the basics, back to loving Jesus and put-ting Him and others first. I pray I'll never stray this far away again.
The new RNR is doing miracles in everyone's lives and is the answer for all, bringing much more love and unity to each Home, making everything simpler. TYJ!

I feel like the Prodigal Son coming home asking for your forgive ness, Dad. You have been more than a father to me and everyone. I'm truly sorry for all the damage I've caused and pray the Lord will work "all things together for good" as we love and obey Him.

I'll be leaving soon to pioneer a new Home in the northern Philip-pines. And as I learn to live the Letters and follow your sample, I know the changes will come as I obey. Thank you again for all your love, concern and truthfulness. I love you and will be praying for you and your helpers.

Love in Jesus, Caleb. P.S. Keda and Shema have shown lot of love and concern, which has encouraged me to keep fighting. God bless them.

From Joseph & Siloam-Deb, Jeth and Isaiah's childcare helpers; Lima, Peru:

Dearest Dad, Maria and Rachel, It's taken us close to two months to be able to write this letter, as

"delusion must be destroyed in order to build a firm foundation of and sometimes it takes time.

We were presented with the oppor-tunity to become Deb and Jeth's personal family helpers in lieu of others who were leaving for Europe. We didn't know much about Deb and Jeth personally, but looked up to them as an example of top leaders close to the source-you.

I don't think this letter will ever do the justice of relating to you all the changes we've been through in the past year and a half, actually living in Deb and Jeth's house and knowing their personal lives firstknowing their personal lives first-

We were always there when Isaiah would spank little Alexander severely for minor things, even against Deb's wishes, and he was the one who introduced using a hard wooden paddle on the other children, from Nina to Joyanne. I must admit that their obedience was not motivated through love and respect and fear of the Lord, but rather fear of Isaiah and his rage.

Several times <u>Isaiah threw little</u>
Alexander into the <u>swimming pool</u>
in the deep end, and if Siloam or I
hadn't dove under the water to retrieve him. I'm sure he would have suffered severe injury or even drowned.

We were always there when Isaiah went into his fits of rage of psychologically beating down Deborah. At times it would break out into physical violence when Isaiah would knock her around the room, screaming and yelling. One instance was so severe that I contemplated entering their room and socking Isaiah in

the nose. Maybe I should have, but I was so confused I didn't know what to do other than pray, which I did. She came out of that one with a black eye.

The time that <u>Alexandria became</u> seriously ill to the point of death, Isaiah was oblivious to her condition and not even Deb took it seriously until Alexandria was in grave danger. Her condition became cirtical, she stopped receiving nour-ishment, slept all the time and barely breathed. The entire blame was placed on Siloam and me, which we accepted. Nathan Zadok, Deb and Siloam and I prayed desperately for two hours. That night Alexandria was healed and Sack to complete normalcy within one week.

At times, the spiritual pressure be-

came so severe through condemna-tion that Siloam actually contemplated suicide. Another time I lost 15 pounds in one week, as it looked like Siloam was going under Isaiah's power and I was being pushed aside as a problem case.

At this time, however, the Lord in His mercy began to answer our desperate prayers and tears. Shaul and Abiah returned as newly appointed KQS's and read us the Letters "Cesspool" and "Alexander". We were faced with the horrifying truth that we were out of touch with the original inspired leader and his teachings. The most shocking thing about our condition was that we didn't even know it!

At first, we were very defensive for Deb and Isaiah and resentful of the "intrusion" of Shaul and Abiah. Thank God for Shaul and Abiah's

9

wise handling of us and our situation, as it gave us time to make the decision to want to be delivered with-out reservation from the spell of that wicked magician.

We realised that the only way we could be a help to Deb and all was to forsake all once again. We pray for your forgiveness, Dad, for failing you, Deb and hundreds of disciples in Latin America by not standing up for the truth and not writing to you sooner. The Family News and the new Letters are the healing balm, Dad. Please keep them coming. We can't live without them. We love you. Joseph & Siloam Michael

(Editor: Just a reminder that Libya is a closed country and could be very dangerous if extreme wisdom is not used. Unless you have received a personal invitation from Godahfi himself, be sure to con-tact our Service Center in Athens before making plans to visit there.

Although we've had to expose

Mother and Stephen for some of their disobediences, we need to re-member that no one is all bad, and the Lord often will use us in spite of our failings for the sake of His Kingdom and to promote His cause. God bless Mom and Stephen for their faith in this and many other situations-real pioneers with vision, faith, initiative and courage.)

Kindness is very important in maintaining a good rela-tionship with those closest to you, and that is what I appreciate about you as we share our daily lives together. Just as harsh words can tear down and destroy, so kind

words can encourage and build up. Especially in dealing with children, one should be kind. It is so easy to get impatient with a little child and feel justified in doing so. LIBYA: Mo'ammar Greets Mom!

Upon invitation from the Libya Embassy in London, a team of six including Mother Eve, John Z., Stephen David, Adria, Mene and three-month-old Regina Maria, were given round-trip tickets to visit Libya for two months as guests

of the Libyan government.
One of the first major events after our arrival was our attendance of the Celebration of the Evacuation of British Forces from Libyan We were flown to the coastal town of Tobruk and given special delegate seats on the speaker's plat-form right behind Col. Godahfi and Major Jalloud.

The crowning events of the day were when 5-year-old Mene walked up to the speaker's area and gave Mo'ammar a kiss on the cheek and handed him a copy of "The Holy War". Cameras flashed and smiles responded everywhere—especially on Mo'ammar's face!

Later he turned and saw Mother

standing at the platform next to him. Extending his hand in a warm heartfelt greeting of welcome he

stood up from his chair. It was the only time during the entire program that he personally greeted anyone from the platform, even though there were ambassadors and special distinguished guests present!

Now we are quite comfortably enjoying the kind hospitality of the Libyan government at a fine hotel with all of our needs supplied. And we're making new friends from the many visitors and citizens in Libya! PTL!-Thanks to MO and the hospitality of Mo'ammar!

Latest news!-The first day of a Conference of delegates from over 100 Third World countries, we were able to distribute 150 copies of "The Holy War" and "The Challenge of Godahfi" to the incoming delegates! The Lord opened the door for us to sing for the entire delegation of 700 at their opening banquet meal. The presiding officer was deeply touched by the song "Allah" written by Colonel Godahfi.—Stephen David.

(Taken from "<u>Cook</u> Right, Live Longer" by Lelord Kordel; Sphere Books Ltd., 30/32 Grays Inn Rd. London WC1X &JL, England; 415 pages; 50 pence.)

"Cook Right, Live Longer" is a good cookbook on how to use natural foods to their best advantage. The following are a few basic guidelines are a few basic guidelines which the author suggests in the first chapters of his book. We hope that our Family will be able to follow most of these guidelines in accordance with the MO Letters in accordance with the MO Letters in accordance. our Heavenly Home kitchens. GBY!

our Heavenly Home kitchens. GBY:

EIGHT STEPS
FOR ELIMINATING REFINED FOODS
FROM YOUR KITCHEN AND
REPLACING THEM WITH
GOOD, NATURAL ONES!

1. Eliminate all hydrogenated
cooking fats, solid shortenings &
margarines, and lard. Replace with
unsaturated (liquid) vegetable oils

and vegetable oil margarine, such as safflower or sunflower oil.

2. Eliminate processed cheese, which has chemicals, artificial flavourings and preservatives. Replace with any natural, unprocessed

cheese of your choice.
3. Eliminate prepared, processed and instant cereals. Replace with cracked wheat, whole wheat, barley rye, millet, steel-cut oats, brown rice, soya grits, kasha (buckwheat groats).

 Eliminate white macaroni white spaghetti and white polished rice. Replace with the higher pro-tein whole-wheat macaroni & spaghetti and brown rice.

5. Eliminate all white bread, rolls, pastry and flour. Replace with 100% whole-grain bread-stone ground, if possible—with no preservatives added; or even better, bake

your own (if you have time).

6. Eliminate white sugar. Replace with (1) Honey, the number-one natural sweetener. (2) Blackstrap molasses; use sparingly until you get used to its rather strong, unique flavour. (3) Genuine raw sugar or maple sugar.

7. Eliminate all products on your shalves made of white sugar and white flour. Replace with your own desserts, jams, breads, etc., made without white sugar or flour.

8. Eliminate commercial ice cream; it's loaded with white sugar, "filler" and chemicals. Replace with homemade ice cream, custards, fruit sherbets.

10 protein rich "B" boosters
to add to your meals!
1. Top salads with sunflower seed kernels, or grind and mix them with cereals, meat loaf, hamburgers,

etc.
2. Fortify cereals, stews, meat af, cakes, etc. with wheat germ.

3. Use a tablespoon of brewer's

veast to reinforce soups, cereals, stews & vegetable juices.

4. Eat liver often. Try different recipes, like chopping it and adding to meat loaf, omelettes or rice. (It's good topped with yogurt and sauteed onions.) Chicken liver can be cooked well, then chopped or

ground and mixed with salad dressing to use for an appetiser or sandwich spread. (Chicken livers are cheap and very good for you.—Try
them with brown rice and mushroom soup gravy or roll in oatmeal before frying.)

5. Add wheat germ to your home-

baked bread and rolls. Double the protein by substituting a cup of soy flour for a cup of whole-grain

6. Make luncheon salad a one-dish o. make function saind a one-ulsh high-protein meal by adding cooked dried soy beans. For snacks, coat them lightly with vegetable salt and safflower or other vegetable oil and brown in the oven.

7. Sprinkle slivered almonds generously on fruit salads, dessert fresh broccoli and other vegetable dishes.

8. Add powdered skim milk to soups, egg dishes, meat loaf, ham-burger. Add ½ cup of the powder to a quart of skim milk to more than double the protein and B-vitamin content.

9. Learn to use various types of sprouts in your cooking and salads. One of the B-vitamins, folic acid, increases 300% in sprouted grains, and all vitamins show tremendous

10. Use live vogurt in some way every day. Yogurt produces "friendly" bacteria that destroy the enemy bacteria in your intes-tine. They also set up their own little B-vitamin manufacturing plant along the intestinal tract.

NUTRITION-SAVING TIPS ON BUYING, STORING & COOKING FRESH FRUITS & VEGETABLES! More than 50% of some vitamin

values and as much as 77% of mineral values are lost or destroyed by heat and oxidation. The following tips will help you reduce that percentage of loss:

1. Buy perishable fruits and vegetables in small quantities and eat them while they are still at their peak of freshness. The leafy greens deteriorate most rapidly, but are loaded with more vitamins and minerals per calorie than any other erals per caiorie than any other food. Unfortunately, all of them can be partially or completely destroyed by long storage. As much as 80% of their vitamin C can be lost after just a few days' storage, and 50% after just a few hours' exposure to room temperature and light—not to room temperature and light-not to mention considerable loss of folic acid and vitamin B2.

2. Avoid buying vegetables that have been chemically bleached and lighter coloured vegetables in general. Choose the darker coloured ones. Greens with the darkest, brightest leaves contain the greatest concentration of nutrients. Buy the fresh fruits and vegetables that are in season and refrigerate immediately. They need washing, but do not pare or slice until ready to use, and use as soon as possible.

The enemies of vitamins & minerals: OVERCOOKING EXCESSIVE HEAT WATER AIR LIGHT BICARBONATE OF SODA
Reduce exposure of vegetables to

these nutrient enemies by following these simple rules:

1. Never start cooking vegetables in cold water. This prolongs the initial heating, which should be rapid. Use the least possible amount of liquid and bring to a boil before adding the vegetables. Then turn the heat low and gently simmer until tender

2. Do not overcook. Cook for the shortest time possible, at low heat, never at a bubbling boil.

3. Avoid exposure to light & air.

Heat and oxygen are the worst enemies of vitamins A & C, so foods containing them should not be unduly exposed. Prepare rapidly and cook as quickly as possible—or better still, eat them raw. Vitamin B2 resists heat but succumbs to light and water, so foods containing this vitamin, especially leafy greens and milk, should be kept out of the or other strong light.

4. Wash vegetables thoroughly but quickly, without soaking, to prevent loss of B-vitamins. Never discard the liquid in which they are cooked; save it to use in soups or drink as a broth. Because of the water solu-bility of many of the B-vitamins, they can be lost if the vegetable is wed to soak in water.

5. Never use bicarbonate of soda in cooking vegetables, as it destroys vitamin C and some B-vitamins. Instead, use a few drops of lemon juice as a colour retainer for green vegetables and beets. It will also help white vegetables, which discolor when cooked in hard water. to stay whiter.

6. Do not use salt in cooking veg etables. Use sea salt after they are cooked and have been removed from the water. Vegetables cooked from the water. Vegetables coo in salt water suffer considerable vitamin and mineral loss. The tougher types of root vegetables, such as potatoes, celery, carrots etc., can be rapidly tenderised with

a minimum of cooking if simmered gently in milk, which also gives an extra bit of protein. Powdered skim milk will give the same amount of nutrients at a big saving of mo-

ney and calories.
7. Don't peel vegetables with a knife.—It removes more than the skin. It is far better to scrub quickly but thoroughly with a brush and cook without peeling—or, again eat them raw. Thin sliced or shredded root vegetables add flavour and substance to a salad—even raw po-tatoes, which have much the same flavour and texture as water chestnuts.

8. Never use copper-plated peelers, shredders, slicers or cooking utensils. Copper destroys vitamin C on contact

9. Cook vegetables in a covered pan. This will keep in the steam for rapid tenderising while keeping out air and light. Make sure that all your saucepans have tightly-fitting lids.—And remember to work as quickly as possible during food preparation when handling fresh fruits and leafy green vegetables, which contain the most perishable nutrients.

Tip from Dad for meat shoppers: Buy your meat the morning it com in fresh. Make friends with a good meat man who knows that you will buy a certain quantity and good quality meat so that he will even save it for you. He'll know you'll give him good business if he'll give you good meat! The meats our family eats weekly are: Calf liver, chick-en livers (thoroughly cooked), fresh fish or a tuna dish, ground beef (twice), and a lamb or roast or sometimes soybeans.

CARROT CAKE HEALTHY, DELICIOUS DESSERT! (tried & proven by Keren & WS Pubs) Scrumptuous enough for birthdays special occasions and guests!-They'll never believe it's a-carrot cake!

The Lord gave us a beautiful new house, which attracts many visitors. Each week we have open house and many children come to play with our two children, Vincent (5) and Europa (3½), and love listening to the MO Letters! We have started a little club in an African hut to receive new bottles and to organise parties. We just finished fixing up the garage into a

very nice FF-love room.

Our neighbours are two lonely men. One, a UN official, 62 years old was so attracted by the music and happy voices that he could hear next door that he came by and then got FF'ed by Abigail. Now he visits frequently, reads the Word and even goes out with us to restaurants and clubs. His house is open for anyone who would like to come and help us here, as well as the house of the other neighbour! So there's plenty of room for you! FF'ing pays! Some of our fish have helped us financially to buy a car. TYL! Dakar and all Senegal are ready for a big harvest. All five of us are FF'ing.

A REACTION TO DAD'S
"PRAYER FOR THE POOR"
& COMMENTS ON CARTER! by Matthew Scribe; Naples, Italy

April 4, 78 Dear Dad & Maria, God bless you and your courage to want to lay down your life for the poor! I praise God for your damning of the Christ-haters and damning Carter for allowing and

supporting their robberies.

Jimmy Carter's sister Ruth Stapleton was a friend and neighbour of mine since I was a child. Once she even witnessed to me about the Holy Spirit.

When I sent her your first Letter on Carter, "America's Last Chance?" she wrote me back assuring me she would give it to him. I corresponded with her after that, sending her more MO Letters and NNNs, and she answered me two more times. I even shared with her quotes from "Late News" on Carter and Begin. I had written explaining to her the Christ-hating nature of Israel and christ-hating nature of Israel and gave her Romans 2:28-29, that the true Jews are those who receive Jesus. I shared parts of "The Real War Goes On" and asked her to share this with Jimmy. She wrote hack saying that she had propried back saying that she had promised Jimmy she would not interfere in politics if he would not interfere in her "Inner Healing".

A couple of months later, in Jan-

A couple of months later, in January, I had a vivid dream about her. I woke up and prayed desperately about this dream, in which I had seen her and her husband. I got that I should send her "Peace or War". I also very strongly received part of a verse that I was not even familiar with.

familiar with:

"Woe unto them that are at ease in Zion..." I immediately looked it up to find out more: "Woe to them that are at ease in Zion, and trust in the mountain of Samaria, which are named chief of the nations, to whom the house of Israel came.' (Amos 6:1.)

Could it be that those at ease in Zion are Carter and his sister and all the supporters of Israel? This is surely what I felt when I read tha verse! Carter is like the "chief of the nations to whom the house of Israel is come." Begin had even recently before that gone to the U.S. to see Carter!

Then I wrote Ruth about how sorry I was that she had written me refusing to share with Jimmy what the MO Letters say about Israel. I reminded her that your Letters are not from a political lobbyist, but from one carrying God's message and counsel for today. I begged her and warned her of the consequences of not passing on this message to the President, that God would hold her responsible. Then I gave her the verse I had received, Amos 6:1, and begged her to pass it on to Jimmy. With my letter I enclosed a copy of "Peace or War" and later I also sent "Was It the Saddest Christmas Day?"

Dad, I'm sure your prayer was a partial fulfillment of the woe to

come upon Carter, as even the voice of the prophet is woe unto him. Thanks for that courageous him. Thanks for that courageous and encouraging prayer, Dad. Please keep the MO Letters coming! Love, Matthew Scribe; Naples, Italy.

LETTERS OF from those I worked with and near to. This caused me to stop advanci APOLOGY!

-From Josh; Japan (now in Guam): Dearest Dad, Maria & Rachel,

I want to write and ask your for-giveness and the forgiveness of those the leaders and led astray, especially the leaders and precious little sheep in Japan and elsewhere.

My biggest mistake, which I've

made so often, is getting away from made so often, is getting away from living and obeying the Lord's Letters, all because of my pride and wanting to cover my mistakes, when I should honestly tell everyone how little I know and smash the idol of self.

I was trying to do good, but I missed God's highest and best by not following and obeying the FF Letters. My attitude toward the FF Letters was that I didn't really read or study them and get into them so they could get into me, because they were a constant reminder of how selfish I was. To be honest, with the FF Letters and testimonies, that's where I really began to see how little love I had and how selfish I was, which caused me to get off the track-all because I wasn't yieldsaid in "Grace vs. Law" about being scared to death of the new wine, wishing it would just go away.— That's the way I was feeling.

If I had obeyed the Lord in this area of my life, I believe the Lord could have helped me to be a good help and encouragement to our girls instead of feeling kind of strange in trying to help our girls FF, when I myself was such a hypocrite and not willing to help those or receive help to. This caused me to stop advancing and moving on with the Letters, and that's where I went back downhill.

Now things are getting clearer, as I read these inspired letters in the "Family News" and see the kids saying the same things about Dad's sample that were true way back when I first met them. It breaks my heart to see how easily I had forgotten the good sample, love and patience I had received from Dad and many

Since all the good spankings like "Grace vs. Law" and all the convicting testimonies, I've started to make a little progress. I can see that if I don't obey then God can't make a way. A few of the sisters here have helped me and it was such a have helped me and it was such a blessing to do it in faith and not worrying or being ashamed, knowing "God's Only Law Is Love". "Is Love Against the Law" and "Love vs. Law" are now two of my favourite Letters and have opened my eyes to things I had never seen or thought of Thank God! Thank God!

I can say it doesn't pay to disobey and it's a hard road back. But, the same Letters that have helped to expose my sins, weakness, rebellion, disobediences, etc. have also given me the encouragement to keep fighting and to die trying, if necessary.

I hope and pray that everyone

concerned will be set free from any bondage I put them under, and I ask everyone's forgiveness once again, as I really love you all. I failed the Lord, I failed Dad, I failed the sheep. But thank the Lord that He never fails and that the kids have Dad, the good and

true shepherd, and the Lord's Letters. Please pray for me, as I want to be a faithful servant and follow the Lord and Dad's Letters. by God's grace.

We are so thankful for this oppor tunity to be able to put a word in our "Family News" to all of you, as it has been so much on our hearts.

We realise that there were many offenses made to many of you during the time we worked as overseers in Scandinavia and want to deeply

apologise to each one of you for our part in them-which is a big part

We are sorry for our own lack of real love and concern and for impressing things upon you from others that we should have known were wrong. We pray you can find ti in your hearts to forgive us and that God is growing fresh, new love in all of our hearts!

We really did enjoy the times we had together, but are sorry we did not use them more to build a warm-er, happier and more loving Family. New love in Jesus and David, Cleso & Christie

ing are some practical tips compiled by a few of Dad's Little Fishes to enable you to look good and feel good to do a better job for the Lord in fishing for men. God bless you!

HAIR CARE
It's very important that your hair If you don't have time or be clean. If you don't have time or don't need to wash your entire head, it may help just to section off the top part of your hair and wash and

ry that alone before going out.

Use a good brand of shampoo, and you may need a conditioner. Usually you only need to condition the sides and ends of your hair and not the scalp, which produces its own natural oils. Another point to re-member is that you do not usually need to lather your hair twice in each shampoo, especially if you wash your hair more than twice a

Using a hair dryer may be necessary, especially in cold weather, but be cautious that your hair does not become too hot or even burn from extreme heat. Hot air is ex-tremely harsh on your hair, as is t much sun or too much washing in harsh detergent shampoos.

harsh detergent shampoos.

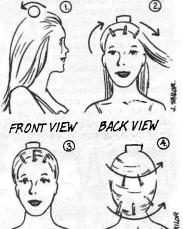

Rinse your hair well to remove all soap film. You can add a little diluted lemon juice or vinegar to the final rinse to neutralise any alkali or left-over soap clinging to the hair. If you have a problem with dandruff, a final rinse with apple cider vinegar will help, and also condition a dry flaky scalp.

your hair after snampooing and rinse out with only one cup of water. Blondes-camomille. Brunettes-rosemary or sage.

To add more body or to make your hair lie smoothly, you can set your hair at the top crown sec-tion of the head on one or two large rollers, or on empty toilet paper rolls, when the hair is barely damp. 10-15 minutes. Then set your dry hair on them immediately, as they are taken out of the hot water, leaving five minutes to an hour or more, depending on how curly you want your hair. Remember to wash your comb and brush at each shampoo and carry a clean hairbrush in your evening bag. Your hair grows better and definitely looks better when the ends are trimmed monthly.

PERFUME & COLOGNE
Dad, like most men, loves a beautiful woman smelling like flowers.
He prefers a light, flowery fragrance. Experiment to find a perfume or cologne that suits you. Dad has shared with us the best way to put on perfume is sparingly over all exposed parts of the body—neck, forehead, tops of hands, arms if exposed, as well as the front chest and neckline area.

Be careful when using perfume with oil bases as they can stain your clothing permanently. Some spray colognes or toilet waters last just as long and are just as nice as the more expensive perfumes. Perfume can also make your hair greasy if you apply it around the top hairline.

MAKE-UP
Our little team of FF'ers has agreed that only a very basic amount of make-up is needed, as the Lord's beauty and natural light are what make the girls most attractive.

You do not have to buy the most

You do not have to buy the most expensive brands of make-up. Often the cheaper brands are just as good! Just be sure to avoid inferior-quality types that could irritate the skin.

types that could irritate the skin.

The most basic and usual items of make-up are: (1) An under-eye lightener stick or creme to cover dark

circles. Apply at the inner corner and spread down gently and out.

(2) A natural colour rouge or blushon applied at the height of the cheek bone to contour the face and add a little colour, especially during nonsummer months. (3) Mascara—waterproof is best, especially if you get all misty when you win souls! Hallelujah! You can also buy a non-oily type of mascara remover, which is important to use before bed so that the make-up does not grind into your skin during the night and perhaps cause clogged pores. (4) One eye-shadow kit containing three or four colours that complement your eye colour and clothing. (5) A natural colour lipstick or simply a lin gloss

simply a lip gloss.

Many girls do not need any makeup at all, or perhaps only a small
bit of mascara and blush-on. Be
sure to ask the brothers and your
fish whether they like the way you
look. Take suggestions from others
—they're the ones that have to
look at you.

Another tip is to put on your make-up before you get dressed for the evening, in case you spill something on your clothing. And be sure to take it off before you go to sleep for the night, to prevent its staining the bedding and causing clogged pores.

CLOTHING CARE
One of the most important factors in looking nice on short notice is to keep your clothing clean and in good repair at all times. We have found that it is possible and practical to share clothes, if an agreement is made on stewardship. For instance, if two girls are the same size, it is

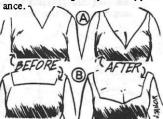

better for those two girls only to share clothes between them, agreeing that whoever uses the item will be sure to air it out well or wash it immediately the next day, so it will be ready for the next use.

It is important to hang clothing properly on the hanger from the shoulder seams just as it is worn so the material will not lose its shape or snag on rough wooden hangers. Make any repairs, ironing and inspections of clothing long before you are ready to go out. It is a good idea to try on your dress right after you decide you're going out, to make sure that no more alterations are needed.

We have found it's very easy to alter the neckline to give more view in front, by gathering closer to the shoulders an open or V-necked blouse or dress. (See drawing below.) Also, dresses that button down the front can be very sexy. It is also easy to alter a dress by making a split up the side or back seam.

Variations in altering necklines: (Drawing A) Split a V-neck more open, or gather with thread further down, to give more shape and lower the neckline. (Drawing B) Gather with thread the material of a square, straight neckline in the middle, to lower and change shape and appear-

Dad says it's important to ask the men whether they like what you're wearing. This especially applies for buying clothes. Take a man with you for his opinion on the dress. He may even pay for it!

Consider what is the best investment in nice, washable materials and something that is easy to slip on, and especially off! It's not difficult to provision such materials and rent a sewing machine to make FF apparel. Good jersey knits need no ironing, look nice and are reasonably priced.

Accessories: Often a one-colour combination of accessories—shoes, purse, jacket or shawl—will suit all of your outfits. Either beige, brown or black are good basic colours. Make sure buttons, seams, etc., are well-cared for on your coat and dress and that there are no hanging strings or lint. One accessory item to add to your FF'ing wardrobe, if you don't already have it, is one or two pairs of sexy bikini panties.

Make sure your shoes are comfortable and suitable for dancing and walking. Keep them clean and polished and make sure they flatter.

your outfit.

2

Sometimes just a few pieces of jewelry can really make your outfit complete—maybe just a thin gold or silver bracelet, whatever matches your small heart necklace and chain; perhaps a heart ring and either hair clips for pulling your hair back or small earrings.

NAILS & HANDS
One thing a man is sure to look at is your hands, your eyes and your hair—and a lot more if you'll let him—ha! Caring for your nails is a routine you must learn to establish to keep them cut or filed to a nice shape, using if you wish a clear or light-coloured polish for protection. Keep a good hand or nail cream by the sink to remind you to use it throughout the day.

COMPLEXION CARE
Form a good daily routine of cleansing your skin both in the morning and evening. For oily skin, you may wash more frequently with either a mild soap or wipe clean with skin freshener or tonic, such as witch hazel. Find a good cleansing lotion or glycerine soap that will really clean your skin but will not treat it harshly. Avoid using alcoholbased astringents or tonics which can dry the skin. A daytime facial creme or moisturising lotion helps prevent dryness. Sometimes just ordinary baby lotion can be used as a good cleanser and moisturiser for the face.

There are a few simple, natural facial masks that can improve the condition of your skin naturally. Try applying egg white directly on your face after washing. Leave it

it off with warm water. Honey applied directly to the skin is also a very good cleanser and treatment for the pores.

YOUR HANDBAG

We have found it very helpful to carry small-sized blank cards and a pen in our purse for taking down names and addresses of friends and fish we want to keep in contact with. We also carry pieces of appropriate lit, such as "Our Declaration of Love", etc. individually folded in half and put into a nice pink or white envelope to offer to the fish on a more personal basis. That way, you can dedicate the Letter to him and he accepts and treasures it as a special gift.

Other important items to carry:
(1) emergency money, as well as spending money (to be used only in case you need it; make FF'ing pay by letting the fish foot the bill);
(2) I.D. or passport (if legally required), (3) keys to your house;
(4) your lit, ready and available at all times for God's hungry fish.

Tips from Dad: "Always carry vaseline, tissues, perfume and if possible talcum powder—and a tiny bottle of strong wine, whiskey, sherry or mouthwash—and use it! There are small flat silver whiskey flasks for sale at some stores which fit easily into a woman's purse—or miniatures." ("The FF'ers Handbook!" No. 559:297 by Father David.)

Happy Hookin'! We love you, and they'll love you too! Keep up with the Lord's Letters on Love and you can never fail! Hallelujah!

During a large world trade convention being held here, we were able to meet and minister to one of the officials, L., and his friend, A., and their lives were changed forever by the miracleworking power of God's Love! PTL!

Alemeth had met L. and the next night some of us went to the hotel to follow up on him. At first, he was very withdrawn, pouting, unhappy and really looking at us funny, wondering whatever were we doing sitting here in an empty lobby, all of us talking and smiling and trying to draw him out. Finally, he asked us to come to his room for a drink, and that is when the exciting week started! He and his friend, A., 31, fell in love with us and the Lord's

Spirit from the start!

We would sing them a song or quote Dad and they would look at each other wide-eyed and almost shocked, and then they would burst into Arabic and talk back and forth and even get tears in their eyes. Sometimes they would laugh until I thought they would roll on the floor. Then they would look at us with such admiration and love.-We could see the Lord really working in their lives! He has had a very hard life, and we brought so much hope and life to him that he was very sad to have to leave us. He sent a letter right away with a couple of paragraphs I would like to share:

"I am still feeling extreme love for you and your Family. My heart and mind are still with you. I need you and I can't live without your love. So I hope that you will be very kind enough to love me and pray for me to give me enough strength to carry the sorrow and loneliness as I remember the sweet care you gave me during those sweet-

"In fact, I was surprised to see how much you sacrifice your valuable young life for your belief, to serve and make happy those people who are in need of your kindness. I also was filled with respect how

such beautiful and well educated young people like you put them-selves in very hard experiences looking after and serving foreign people regardless of their nationality, colour or language, for the sake of love, the love of human being and the love of God. This makes me bring myself closer and closer to you and love you more and more with

PTL! During his travels this year, he will be visiting our Homes to do research for this report, so the Arabic world will know our intentions to unite the world with God's Love. After reading Dad's Letter "Islam", I was truly inspired that we have such exciting words from David repropert to find a common bond, because now that L. has seen such love, I know he can get saved! He has been looking all his life for a life like ours, and even though he is a strong Muslim, he has never been happier! The following poem, which he wrote, expresses his heart very well:

From Morish Newlove; Guam: Dearest Dad and Maria,

I want to try to express to you how much your love means to me; for it has brought about a remarkable change in my life and my whole outlook, and I see this new ness of spirit in everyone else in our little Heavenly Home here! Everyone is so much happier and at peace and has more love and concern for others, since they have been getting their own needs met, including myself.

One direct effect of having my sex needs met has been the total healing of a skin affliction I had on may hands! When I prayed about it, the Lord had showed me that it the Lord had snowed me that it was a result of tension and negative outlook in general. I began to dwell more in the Word and to pray more, meanwhile committing this affiliction to the Lord for His perfect way and time to heal it completely.

I knew I needed love, but never dreamed it would have such a transforming power even on my physical health! Love is the power and light of God! Long live love!

i owe my life to you, and it's only because of your love, faith

and obedience to the Lord that I am here serving the Lord today! My only desire is to have more and more of your love each day and to come closer to the light and love of your example which brings such deep contentment, fulfillment and rest to my soul!

Yours forever & ever, Moriah Newlove.

From Brasil (names withheld for security); Dear Dad & Maria

We just want to share a testimony of how we got a wonderful victory in loving and helping our brethren with their sexual needs. M. and I have been married for nine months and I always had a battle about sharing sexually.

Until this miraculous incident e had not shared sexually with anyone and had not done any FFing. Nevertheless, I felt in my heart a deep and desperate desire to obey ord and the Letters.

After being encouraged by Tiago and Tabitha to help out the brethren, my heart couldn't wait any more, so I prayed for a big victory. About four days later, a sister came to us from another town, desperately needing help from another sister.

All her life she has had a guilt complex because she likes girls (she has been married to a brother for three

When Keda's testimony came out in the "Family News", this sister could finally speak with someone about her problem. M. and I were touched by her dilemma and wanted to help her out. Her husband was FF'ing another girl and

We saw immediately that the Lord had sent her to us to help us initiate our personal ministry love and to get over my phobias about sharing sexually.—Here was someone that both of us could help at the same time! That night the three of us made love (and two other nights afterward), and I felt so happy and thankful when I saw M. making love with her right in front of me!—It gave me the biggest victory, and the one I needed to be able to share M. with others.

We owe everything to your sample of sacrificial love, Dad, and we will never be able to thank you enough. Later this sister wrote us the follow-"Thank you for making love with me when I was so desperate for love. It was so wonderful. I felt so much Jesus' Love; it was as if Jesus was making love with the three of us together!"

From Andrew & Miriam; KQS's of North America: Dearest Dad & Maria,

We wanted to tell you about the good time of fellowship we had the other night. We had a house full of visitors, so we had our three kids in our room sleeping and also our childcare helper Rebecca. We were really tired, so we just went to

We are so thankful for the freedom in love! TYJ! It draws us all so much closer together, and we're realising more and more how the Lord is training us so that we can be good samples of His Love!

Also, when I (Miriam) went out the night before, Becky took good care of all my boys, the two little ones and Daddy, and he was really thankful. We know we don't have to go into all this detail, but we just want to share with you all we can, you are so dear to our hearts. God bless you and keep you. With lots of love, Andrew & Miriam.

<u>'Sex</u> power!-<u>God's</u> power!-Can be your power! Amen?—Be a sex revolutionist for <u>Jesus!</u>" ("Revolu-tionary Sex" No. 258: 93 by Father David.)

One of my spirit helpers

Becky Newlove's exciting account of how she first discovered who one of her spirit helpers is!

Dearest David and Maria, I wanted to share with you about spirit helpers" because I believe the Lord showed me who one of the Lord showed me who one of mine is! The Spirit Letters, "Holy Ghosts" arrived at a most perfect time. We had studied the Bible chapters on the gifts of the Spirit the day before these Letters arrived, so they were

ilger emit liveng and its nearly. These Letters gave me faith to ask God for some answers about my

During this time, off and on, I would see with my mind a face of a very old woman, very, very wrinkled After seeing this face two or three times, I was under the definite impression that this old woman was an Indian, an American Indian. Then

we received the Spirit Letters!
When reading in "Holy Ghosts!"
where it says, "You are just blessed
with several different spirits that God has given you who have these talents and it's not you at all. They'r working through you—you don't know a thing, nothing! You're nothknow a thing, nothing! You're nothing but a channel that they work through "("Holy Ghosts!" No. 620:24 by Father David.), the Lord showed me how simple it all is and so easy to understand! It seemed to explain everything!

Later in my bedroom, I prayed and really asked the Lord to give me what I needed to do the job He had given me. I was in prayer and then read through the Letters again When I came across the word immediately I flashed back to the picture of the old, old woman again. It was like the word "sage" had a connotation for me of someone very, very old and wise, and this woman's face was definitely very very old. I saw the face again and for the first time I saw a faint smile come across her face.

I said, "Lord, who is this woman?

She looks like an Indian, an American Indian, but who is she?" A right after I asked the Lord this question, the word came to me out before this, I had been saying, "CLord, these past few weeks You have really been helping me, be-cause it's not been me who has been dealing with all these problems. It has definitely been someone helping me!" I was so desperate for God's leading that I just totally "let go and let God". So I really knew in my heart that something had given me the power for the hour.

So then while I was saving the name "Pocahontas" over and over, I suddenly had a vision of a young Indian girl about twelve years old with two black braids. I couldn't see her face as her back was to me. She was crouching in a dense forest of trees and bushes like she was either hiding or sneaking away or watching something from a hidden position. I didn't have the faith to ask for any more.—It was quite heavy just seeing that much!

Later, I thought to myself if she had any historical significance, she might be in the encyclopedia. I didn't really half expect her name to be there, but there on the page were two small paragraphs about this Indian girl. When I read it, it really sent goose bumps up my back! According to the dates, Pocahontas, the daughter of an Indian chief, was 12 years old when she saved Capt. John Smith from death-the same age as the girl in my vision! according to the dates, Pocahontas died very young, at about 22 years of age. What was really heavy, though, was when I read that she was converted to Christianity! PTL!

So, anyway, that's the way it happened! It's really exciting to

Love, your Becky.
P.S. Later I also found out that when she became a Christian, they gave her a new Christian name-Rebecca!

"Thank God for His 'holy ghosts'!—Have you got one?"

("More Holy Ghosts!" No. 621:64 by Father David.)

The Holy Spirit is everywhere and

think he does it partly through these holy spirits, His angels and these spirit beings, these departed saintly spirits, one or more of which is assigned to each of us who have this new anointing or empower-ment of the spirit! (620:44)

We've got the benefit now of such a tremendous collection of departed saints...Why, He's got people available for anything you want to know, for anything that needs to be done. (620:67) You just need to want it and re-

ceive it and have the faith to give it. Ask, and it shall be given you... (Mt. 7:7) (620:68)

But the boat would have to be big enough to pick up disciples and weather storms. That's why I'm interested in one that's at least 50-feet. We could also use it to transport Visiting Servants around the Islands.

More from MO on boat travel::

"We're going to have to do it again one of these days when the planes run out of fuel and the cars run out of gas. I'm sure this will probably be one of the major means of travel in God's miraculous millenium and heavenly new earth. What a relief! Thank God! Why not try it to-day, you might like it!" ("Boat Tra-vel" No. 337C: 11-13 by Father David.)

Mark 16:15 -By Boat!

E

Dear Family, Before joining the Family, I had been building a 27-foot sailing boat to obey Mark 16:15. I was saved and had been reading Matthew 24, and so I really had the end-time vision and a desire to "go... and preach the Gospel"! I was almost finished with it when I met the Family and joined. We did finish the boat, together, and a year later when the Letter "Choice" came out, I received the faith to ask my leaders if we could use it. They agreed, so we did and sailed down to another Hawaiian Island where we witnessed and litnessed and won seven disciples. On the return trip, we were caught in a storm and the boat sank, the four of us aboard escaping and waiting to be rescued in a rubber raft for five days.

Before the RNR, I voiced my deire to get another sailing vesso

but I was discouraged from doing so. But now I'd like to share my vision, hoping that others may want to do or perhaps that my story would open the door to our obtaining a good, 50-foot plus ocean-going sailing vessel, complete with kitchen, bedrooms, navigational equipment, etc

Here's what MO has to say on the subject: "I'm not much for boating, not having had much experience along that line . . . but some of you guys seem to have the faith for it, and that's one way of travelling for the Truth, so don't let me discourage you from island-hopping for Jesus or coastal sailing for the Lord in the quieter waters of Indone in the quieter waters of . . . Indonesian Islands, South Sea Isles, etc.
God bless you!" ("Have Faith Will

From Delia Nubes:

Dearest Papá,
After years of working in offices or as the childcare helper of leaders, the Lord has given me the chance to part of Matthew and Renee Canada's family with their six children. I'm thankful for the privilege, because I've always hoped to be able to find a way to help the parents on

the field, and now I can truly understand their anxieties and problems.

I look at Augustin, number six child, three weeks old, and I think of the "Davidito" Letters and wonder, now how are these Letters going to become a reality in his life, while at the same time Renee and I are trying to take care of the other five, educate them, get them and ourFF, take care of Matthew and also the single brothers and at the same time keep the household running.

I believe our only solution is to really live "One Wife" and be "one family", because these poor moms can't do it all! We need people who want to be willing to do anything, anytime, anywhere for the Lord's

Since we have started sharing more sexually with the brothers in the Home, they have begun to feel much more a part of the Family and have been helping much more and show-

ing more interest.

But what we also need are "real mothers"-sisters who want to be-come parts of these smaller family units and give their lives to help some of these parents-whether it means weeks, months or years of their lives. I'm so thankful for this experience.

Love, Delia Nubes.

From Renee Canada: Dearest MO, Maria and all with you, I'm really grateful Matthew has this new love for Delia, as now I don't have to go it alone trying to be a good wife, mother of six, home-maker, FF'er, etc. Since Matthew and Delia have this love for each

She has become a "real mother" to our children. Now that Matthew has a new inspiration, he has been doing things that I had been hoping for for years! Delia and I share the same hopes, joys, cares, tears and love for the brethren too, and so far it's borne good fruit in all of us. All this is something I've been praying for for a very long time.

Letters, so there s no fear that I libe put away or my children separated as happened to many couples in the past. But because of the love shown in your Letters, we can all be one big, happy, loving family-free to do God's Will! Keep writing those Letters! So glad you put the Family back into yours and the Lord's hands!

-Love, Renee of M.C.

From Matthew Canada:
Dear MO & Maria,
I'm so happy! I'm so overwhelmed
by the continual changes that have happened in my life since you initiated the RNR! I can honestly say that it has reached the grassroots, and my most sincere desire is to help spread it out. Truly a little bit of love really, really goes a long way!

I got married over seven years ago and the Lord has given us six precious children: Sara (6), Isabelle (4½), twins Sascha and Natha lie (2½), Francisco (1) and Augustin (3 weeks). My greatest burden has been to try to give the children the same love you have given us, but it was pretty hard at times, as I felt like such a dandy bad example of a father myself. of a father myself.

Most of the time we have been 'on the field" and I never seemed to be able to give them the attention I wanted, as we had so many other responsibilities. So usually the children were left out of the picture, and I think it really hindered them at times.

We'd read all the exciting testimonies of children in "school colonies" doing skits, performances, singing and really being used as an 'school colo

asset, but we in the little field colony never seemed to have the time, personnel nor would our financial situation allow us to take time to train them in the way that I knew they should go. I was not a leader, nor inspirationalist, nor in a spe-cialised ministry, so we could never qualify to have the children enter one of the organised schools of the Family.

Then every time we'd move from country to country, we'd have to hunt around for another childcare worker. "One Wife" and other Letters always appeared as such ideals, so far away in the distance. I've felt many, many times like giving up, as I thought, "Well, maybe the Family isn't ready yet for the larger families." The only thing that kept me was the thought that I could not bring these poor little children back into the system. I couldn't shenden them either, so I set my mind that it was going to be my "calvary". -Not that I'm any example of sacrifice, on the contrary But that's one area I could not fail the Lord, if anything.

We tried to do the best we could with them, reading books and makto the limit what we were receiving from the Childcare Pubs. Without their help, I don't think we ever would have had the vision to try

anything!
We had done very little FF'ing before, using Renee's pregnancies as an excuse. Also our marriage was getting kind of stale and lacking that freshness, openness and fire to do new things and pioneer.

After the RNR, we lost our pre-

cious childcare worker. The Lord showed us we had failed her and Him by not opening our lives and our marriage sufficiently. So I was determined that we were going to open our little family and make it greater one and share the blessings God has given us.

Instead of treating our helpers like childcare workers, we should have just brought them in like another wife or husband and literally just do what MO had done to win and love all the ones working with him—sharing our <u>bed</u>, our <u>hearts</u>, our <u>children</u>, our <u>blessings</u>, our <u>problems</u>, absolutely <u>everything</u>. We desperately cried out to the Lord to forgive us and give us another chance to live the Letters literally.

Then a very sweet sister named Delia came to help us from Madrid, as Renee was just about to have our sixth child, and we were desperate! Then on April 2nd Renee delivered Augustin Claudio and stayed at the Augustin Claudio and stayed at the maternity clinic for a week. During this period, Delia and I really got to know each other very well, until to know each other very well, until one day I asked her for help. I had one day I asked her for help. I had never made love with another girl than my wife in the Family. But I was at a very low point like I always seem to be during the final month of pregnancy and a few months afterward.

It caused an absolute revolution in my life as it shattered the mental block I had built up. Instead of breaking our union, it enlarged it! Everything the Letters had been talking about on sharing, one wife, FF'ing, everything, was absolutely opening up before my very eyes. began opening my heart again and

also with Renee our relationship began to take a new turn.

To tell you the truth, I've been waiting for this ever since ! joined the Family 8½ years ago—the time when we could all "share all things together, especially the matters of the heart. I have learned more in the last month than in these last 8½ years! I love it and would not trade it for anything the world has

The day of the nobodies has come -the little people! I have total faith in this new Revolution, and God helping me I want to be fighting for it to bring its liberating force into

all the little members of the body. Now we have begun FF'ing and I think I'm catchin' fishin' fever! Hallelujah! I am so thankful for your love, Dear MO, and thank you for helping me to live the Letters!

Love, Matthew Canada

FAMILY) NEWS

IRAN: Pioneering a Closed Society!

by Asher Thanksgiving; Visiting Servant.

I still remember our first morning in Tehran when my wife, son and I landed from India in December, 1976 virtually penniless and cold and with no apparent way of contacting the other brethren. It was then that the Lord gave us our first verse about the work here and started to give us some light to guide us: "Don't get stuck with either a name or a message or a method that you can change from day to day with whatever God has for you that's new, new wine, new message, new method, new way!" ("New Bottles" 251:42.)

Kenaz had given us the vision of having to go un-derground and possibly even getting system jobs for a gover. At first we had to continually remind ourselves of this fact, because we had been so ingrained in the old way of thinking and doing

Tehran, Iran: This photo shows the differences in dress and also the changes that much of this part of the world is going through. Many young people are frustrated because their religion does not give them the love and freedom they want. They are waiting for the Love of David! Photo by Genesis.

Copyrighted August 1978 by The Family of Love,

Then one night, after ten days of living in hotels and not having even met with the brethren yet, the Lord gave us some more verses we had only read but never experienced before and didn't really relate to until now. They really gave us the faith to take the next step: It was a quote from "Don't Drop Out, Drop In!":
"The old ways we used to do it

are not going to work here in a new situation! We have got to do something entirely different if we're going to survive and be able to carry on, something totally different!" (par. 99) And another quote from "Pisces":

"This has real implications for

This has real implications for the future too when some colonies in closed countries won't even he allowed to exist! But jus! one couple with children that lives and works normally within the com works normally within the com-munity may be more and more the thing in closed countries." (par. 62) Wow! Small Families of Love!— Little families living and working in the system and changing their part of the world day by day with their sample. Letter after letter started coming alive to us.

This was God's plan for these countries—to infiltrate them through the system and just hand-pick His sheep out of it and change the world day by day. People we meet would have to use their jobs as a witness, and our <u>Home</u> and the love there would have to be the <u>sample</u>. Our <u>girls</u> would have to be the <u>bait</u>, and our <u>children</u> would become our <u>proof</u> of the pudding, The vision seemed limitless!

At this time Peter was working in a taping studio and teaching English and still living in one room of a hotel with his pregnant wife and child. In order to get a house or even rent an apartment, you have to have a "residence permit", and in order to get that, you have to be employed! But they had been as yet unable to find a house.

The next day we called a meeting, and for the first time we got together with what was then basically the whole Bishopric (except for four people in Esfahan and three in Dubai) in the back of a van, to discuss our moves.

After sharing parts of various MO Letters and praying together, we immediately divided into three separate units—an FF'ing Home consisting of Peter's family and mine, a three-man pubs Home to organise the mail ministry and translations left from the former work, and a road team to minister to freaks and people the Family already knew. This team was made up of people who were already known as the Family and had no contact with the rest of us. In fact, this was the last time many of us were to meet

Actually, we were later to decide that the road team outreach was not really needed, as in four years of its existence working from hotels here, I don't believe there had been much lasting fruit.

That night God miraculously led us to a house! A girl Peter worked with said that she was living with five other people in a ground floor apartment and that a couple had just moved out of the basement

room. That night Peter, Eva, Ruth right in. We spent our first night cold on the floor, but were we ever thankful to have found housing!

About a week later, another couple moved out and we expanded into one of the large upstairs rooms.

Our sample and love started spreading like wild-fire throughout the apartment. Soon we started remodelling and painting and the others started sharing and even praying with us! But at no time did we mention the Family and who we were. Nor did we leave any Letters around! Then another couple moved out in April, and the apartment was virtually ours.

The first time we invited friends over, God started supplying our needs beyond our wildest dreams! One friend gave us a beautiful sixpiece living room set and a sweet FF'ed friend gave us the use of a beautiful Persian carpet!

So now we have transformed this house into a real Heavenly Home! Hundreds of people from frustrated American housewives to students, to diplomats, to freaks have passed through our doors to be given a taste of the joys of God's Love.

Even Dennis, who still lives in the apartment with us in his own room. has changed so much in ten months

it's unbelievable! He is a 28-yearold intellectual American who has played jazz piano in many big name places in the States and knows Bob Dylan and other musicians. After reading his first MO Letter "The Snake Charmer" (he's a Scorpio!), he received Jesus and has been coming along more and more. In fact, he now says, "You know, I come from a broken home and this is the only family I've ever had. In fact, I don't hesitate to tell people that this is my family!"

Then the method and message spread to other cities. Joe in Esfahan got a job and rented a house. We have a drop-in brother, Ezra, who we've lived with for over to years and who is continuing to be a tremendous witness and help, not only to our work in Iran, but the entire world.

We've found that in these closed countries it's necessary for someone to make the sacrifice to take a system job so that something can b established. But through one man's obedience it enables the entire Family to operate freely and the salaries they receive are quite sufficient to support the work! As Faithy said, "In witnessing and Faithy said, "In witnessing and loving and trying to win souls, use

anything at your disposal to do it."

Love, Asher Thanksgiving

LINESSING TACTICS:

ABROTHER SPEAKS OUT!
by Ellhu Newheart; Brisbane, Australia
31 Jan. 78
Here is the way most people in ifferent breths in Australia go to either a traffic intersection with a long red light or to a shopwith a long red light or to a shop-ping center, mall, etc. They take a with NNN cover, etc. pasted on

The usual thing then is to app: a person or car and tell him that e are a voluntary youth group doing charity work, social work, etc. Some even use a name such as "Sydney Christian Youth Centre" 'Brisbane Community Centre' etc. Then after receiving the donation, which with this method is often 50-60 cents (Australian), and having finished their explanation, they will offer the lit-NNN, etc., which is usually accepted by the donor. Then on to the next car, person, etc.

2) Of course, there are still those who go out openly giving the lit first and openly confessing who y are and what we believe when asked, but these brethren tend to be in a minority and are often considered "old bottles" or to be "self-

righteous". 3) There are other methods, such as singing and doing skits on the street as an attention-getter, and this really gets out the lit, along with a good sample of our love and message. These are the main methods used, along with 4) sometimes door-to-door, which is usually done similar to the first stated method.

In my opinion, using the first method is underhanded and some what dishonest and sneaky. But it seems that most brethren, having once tried it and found the dona-tions to be far better and more lit getting out, continue to use that

Also due to the fact that we have already saturated Australia with about 2-3 times the amount of lit as population, just plain litnessing is really hard. It seems that most

people reverted to the first method of litnessing to reach their high quotas, etc. I find that the average of litnessing to reach their high quotas, etc. I find that the average litnesser (usually they have childrer and family responsibilities as well) cannot get out his bare minimum quota of 1,000 per month and still have good word time, witnessing, fishing and follow-up time as well. I don't know if this is only here

in Australia, due to over-saturation of lit in a low population area, or if it is a worldwide situation. I just know that I would rather not litness at all than litness in the underhanded, begging way I have des

I also believe that a large part of No. 567:14, that too many of us are too dependent on literature to provide all our needs, and hence we neglect our converts, kings, etc.

Having been a provisioner on and off for most of my time in the Family, I have experienced lots of people not ministering to and sharing with the contacts as they should, and not letting those responsible for them do it either, but rather sending them out litnessing when they should have been sitting down writing thank-you notes, etc.

So, due to this dependence on literature income, people go on trying to get funds this way. And if the lit isn't all that profitable, they put the lit away and just go on asking for donations, or begging anyway, and just bring out the lit to give to the donors.—Sad, but true! I hope that this gives you a better look at the way things are here and helps you in your prayers and direction for our work here and the whole world.

FF'ing Saves a Marriage!

We first met Jose, a 45-year-old well-to-do banker, when he picked well-to-do banker, when he picked us up hitchhiking on our way home from litnessing. I invited him to come in and have supper with us, expecting him to say no, but he happily agreed! We both felt Jose was "worthy" and had a burden to witness to him, and we also felt God had raised him up to help the Family at this time, as we desperately

The second time I went out alone with him, he gave us half the amount we needed for our rent! He told me that he and his wife hardly spoke to each other and had not made low for two years! I told him Jesus really wanted him to be happy and wanted to supply his need. prayed right then and he asked Jesus into his heart. Then we phoned Elijah who encouraged him to make love with me so he could know how much Jesus loves him! PTL!

Jose began to visit the Family and read and distribute MO Letters. Two weeks after we first met him, his wife opened his locked briefcase and read a manuscript on a book he was doing on us with all its inti-mate details, and she exploded! Over the next few days, she destroyed several of his favourite possessions and parts of his car; she threw fits, bit his arm making deep wounds, and seemed to be demon possessed—a jealousy demon! She also hid all his MO Letters, claiming she'd destroyed them, and continually spoke against the Family. From this time, we saw her as a real enemy and never tried to visit, contact or win her.

Meanwhile, Jose became very close to the Family, especially t Elijah and me and our little girl Beleza. He was always helping us with food, especially for the pregnant moms and children. When our second baby was born, he insisted on buying the many items we needed for him! TYJ!

When our Home here finally disbanded, we did not know where we would stay until we could leave for another field. Suddenly Jose and his wife appeared at the door, and she invited us to stay at their

107

This change in her had come about partially because a Brasilian broth-er, Levi, had taken the time the day before to talk to her while he was out litnessing. That evening, Levi spent two hours loving her up in the Spirit, holding her hand and sho ing her that someone really cared about her. about her.

While we were staying with them, she received Jesus, praying fervently. However, she still yielded to fits of jealousy over Jose's relationship with me and after two weeks she violently threw us out of the house, kids and all!

One night, after we had left, she asked Jose to make love to her.
While they were happy and close, he shared with her about lovemaking shared with her about lovemaking being a physical illustration of Jesus' love for us and about sharing in the Family. He asked her if she'd like Family. He asked her if she'd like to make love with Levi or Elijah. At first she said "No!", saying she'd never made love with anyone but her husband and couldn't think in

other terms.

However, the next day she came humbly to Jose and told him she'd been praying and really felt she needed a "very heavy experience" to help her understand Jose and bring her closer to the Lord and that if Jose thought it would help her, she would like to make love to Elijah.

This came as quite a shock to Elijah and me, especially after her previous behaviour, and because she was 52 years old and so "re-

ligious" and conservative. We both went through trials before he went out with her, but the Lord really

out with her, but the Lord really blessed their time together and she got a fantastic victory and really felt loved! Afterwards, she was radiant and praising the Lord! The next day, the day before we were due to leave Brasil, I went out with Jose for the last time, encouraged to do so by his wife! She was really beginning to understand FF'ing. Jose already had a real vision for it, as we had been feeding him the "Arthur" Letters, and he had led an old girlfriend to the Lord in bed at the same time as I was praying with his wife to receive as praying with his wife to receive

The day of our departure, as we were super-busy packing, Jose phoned to say that his wife wanted to make love with Elijah one last time. So although pressed for time, we agreed, and they had a marvel-lous time of real spiritual sharing. She came back radiant! We shared really honestly about everything, and it was really the payoff! She'd found true love and happiness for the first time in years and loved the Lord so much more payed. Lord so much more now!

That night Jose and his wife saw

us off at the airport and helped us with funds for our journey. We're writing to them frequently. These two are presently keeping the flame of His Light burning in Brasil, meeting with and encouraging two catacombs sisters who are just waiting to join a local Home! Elijah & Rain Ever.

More Puzzle Ideas!

We loved the MO Letter cover puzzle idea described in the "Family News" Vol. 3, No. 7. We tried with one of the children's posters, but we chose a puzzle with too many pieces and it was too much work! Then we remembered a set of blocks that someone had covered with a MO cover for a very simple puzzle for a younger child.

Our children had a system block puzzle that made six different animal pictures from six different sides of each block. We chose six different MO covers to make a new puzzle out of it.

We cut each cover down to the

size of the completed puzzle. After colouring each picture with bright felt-tip pens and covering each with clear contact paper, we carefully cut the pictures (one picture at a time!) into 12 pieces the size of each individual block and glued them on with rubber cement.

In order to keep it simple for the children, we did not scramble up the blocks to glue on the second, third, fourth, etc. pictures. Instead, we just picked up each row of blocks and turned it to the very next face to apply the next picture, til all six faces were covered. See illustration. This way, once the child has put together one picture correctly, he can easily see the other pictures just by turning each row of blocks.—Like magic another picture appears!

One helpful suggestion is to use a different set of colours for each of the six pictures, so it is easier for the child to find all the block faces with a certain colour group to assemble the first picture. It could become quite complicated if all the same colours were used on all sides of each block!

Also, we used pictures from fam-Also, we used pictures from familiar Letters to remind the kids of the lessons in the MO Letters, such as "Faith and Healing", "Communion". fighting the Devil from on", fighting the Devil from Dumps", etc.

This project took approximately two hours to complete and is fun for children ages 3 to 5. An older child, 7 or 8, would enjoy making this puzzle as a present for a younger

FAMILY CARE FORUM

ON THE NEED FOR VISITING MOTHERS!

Dear Family Care, God bless you. I love you and I am so thankful you are fighting so faithfully for the children.

I have a real burden for our children, though I don't know a lot and still have a lot to learn. I've been in Portugal for one month. I was we ing at the school in Madrid for 13 I was work months. After seven months there I started to learn how to teach children under 5. That time really gave me the vision of the importance of the first three years of a child's life and the "Davidito" Letters convinced me even more.

Having been in the Family in France, Spain and Portugal, I have unfortunately found out that just a few parents know how to raise their children, and most of them are losing these first three years because they are too busy working on something else or they don't have the vision. Some of our poor children also look like gypsies and are certainly not a good testimony when lit-

essing.

As we have a limited numb experienced teachers and childcare workers, we cannot have one of them in each Home. But the Lord showed me the importance of having one person in each country whose job would be to go from Home to Home and make sure the children are re-ceiving everything they need and to help the parents. This is really on my heart and I believe it is an emergency situation. Deborah says:

"Nothing gives us the right to deny one single child of the revolution the love and care he needs." ("Who Loves Our Children" par. 6.) "These first two or three years of a child's life are so important and so much can be accomplished if you really minister to them in love and wisdom." ("Teach Me, Lord, To Pray" par. 18.)

You must have an undying burden for the children—one of love and un-derstanding and devotion to their well-being. You must have an equally matched burden for the mothers and fathers of the children. You must try to understand them and not be ary to understand them and not be harsh, critical and condescending when counselling them." ("Children Are Forever" par. 10.)

I would be so happy to see something done very soon! Do you have any ideas or suggestions? God bless

you, I'm really praying for you and your work!

Love, Claire Sauvage (French single sister)

COMMENTS BY SARA DAVIDITO ON VISITING MOTHERS:

We have considered this very idea after seeing for ourselves the need for helpful, mothering hearts in many of our Homes, especially in Homes with several children and

little or no help!
Perhaps a "Real Mother", like Claire in Portugal, who has the <u>burden</u> and <u>vision</u> for <u>serving</u> our families and who seeks answers from the <u>Lord</u> and the <u>Word</u> and the <u>Letters</u>, could travel the area Homes to help in <u>organising</u> and <u>training</u> 2 Timothy 2:2!!

Perhaps they could help organise "Open the Door for the Children" meetings and share teaching ideas with each Home with children. The travelling Mother mould travelling Mothers would have to be self-supported (perhaps friends and fish would donate to their travels!).

Many people have reported that Family members are just not volunteering enough to help the parents with several children, and therefore the burden is very great on those families! Area Homes should appre-ciate a helpful Visiting Mother and agree as a Home on major decisions involving the children. This is another very needy area where the service is done in love and voluntarily, and we pray it works!

Real Mothers, please let your bur-

dens be known!—And be sure to write a report on what counsel proved fruitful so it can benefit others in similar situations!

A MOTHER'S REACTION TO "ON FOSTER PARENTS" (FN Vol. 3, No. 7)

Dear Family News,

Dear Family News,

God bless you for putting such an
encouraging article in the "Family

mother of four children, going on
five, and have been without a husband for a couple of years now. For the most part, I have had to handle the job alone (until recently when

of two of the children with him for

Believe me, it is very difficult to meet the needs of the four children, with their all being a year apart and the three oldest are boys that really need male companionship and a father figure".

The article "On Foster Parents"

brought tears to my eyes and gave me such hope concerning the need for loving, willing people who have a burden for our little ones. There were a few occasions when a loving couple offered to help me with my little ones and take them into their Home. I didn't have to worry about my child's welfare as I had such a peace about the couple, that they had a real love for the child and that the child also had a real love for them (a very important consideration in being separated from your child!).

As for me, I'm still alone and still having babies, and I need my Family more than I've ever needed them before. But at the same time, I would like to be a blessing and help to whoever I'm with. The following is an ad that I would like published to express this to others:

WANTED: Mother, 5 months pregnant with 2 children would love to nant with 2 children would love to work with mature couple who would have a burden to work with my 6-year-old son in particular, who needs male companion. Mother and son are a singing team. Mother is experienced with FF'ing, housecare, food and nutrition, child delivery and young children. Would love to and young children. Would love to help an inexperienced mother with her delivery or young children.

"God is interested in details and statistics! He even says that the very hairs of your head are num-bered, and not one sparrow falls to the ground but what your Heavenly Father knoweth it! Statistics are extremely important and vitally essential... The purpose of these statistical reports is to courage all of us by being able to see how much we're accomplishing through these actual figures and also to help us detect any trouble spots, problems, or areas that need help!" ("Details" No. 129:1,4,16 by Father David.)

In order to keep even more accurate statistics of our FF'ing exploits throughout the world, we wanted to answer some of the numerous questions which were posed regarding the filling out of the FF Report Form.

O: "What is FF'ing?" Many of

" Many of ou asked for a definition and what

should be reported as actual FFing.

A: We would like to answer that
FFing is going out witnessing the FF'ing is going out witnessing the love of Jesus with the serious intent to use sex or sex appeal as the bait, regardless of the situation or place. This can be anywhere!—On the street in a pell within the street, in a park, while going to

the local store, in discotheques or in clubs!

You must use discernment, however, in reporting what is actually FF'ing! Giving looks of love to the people you are only litnessing to, or plain witnessing on the street or in your Home or their street of any your Home of their home, should <u>not</u> be counted as FF'ing, but as litnessing or personal witnessing and included <u>only</u> in your Home Servant Monthly Re-

Q: Witnessing over the telephone phone: Can or should this be included on the FF Report?

A: In order for a telephone witness to be included on the FF Report, you should have been actually flirting with your fish on the phone and actually FF'ing him of her. If not, please include this witness only in the personal witness only in the personal witness only in the Home Service of the Ho and actually FF'ing him or nessing section of the Home Servant Monthly Report.

Q: Does the fisherman count as

someone that went FF'ing, or do we only count the bait?

A: (MO: You should now only have <u>fisherwomen</u>. See Letters No 652:71; 663:X-1; 682:38; 683:59! But if he goes, he definitely counts! -And usually counts against you financially!-So why not use only

fisherwomen now? Make it pay!)
Anyone, male or female, fisherman or bait, should be included in the total adult members FF'ing that

Q: If two or three people witness to the same fish, do all have to report this as someone they FF'ed?

A: Yes, of course! If more than one person witnesses to the same fish, we would suggest all three involved with that fish report on him or her, in order to ensure full credit and accurate statistics. Situations may occur in which more than one person gets intimately involved with one fish, in which case we suggest you report both on your statistics. Count the persons FF'ing and times witnessed or loved, but only one fish. Please try to report as accurately and honestly as possible!

Q: How do we calculate the Top FF Lovers of our Home? Does it include the number of times you loved your mate, or a brother or

A: No, the Top FF Lovers of our Home should be found by

loved, plus the total number of fish loved, plus the total number of times you loved these fish, together. The highest number is Tops! PTL!

Q: Does "Loved Sexually" also include kissing and light petting?

A: We suggest you only include masturbation, sucking and actual intercourse in the figures of fish, mate, brother or sister loved sexually. It's all, or nothing at all! Hallelujah!

Q: If I make love three times with a fish on one occasion, do I count it as three times, or just as

A: Credit to whom credit is due! If you loved him or her three times,

you deserve to count it as such!
God bless you! Happy Lovin'!

Q: What if we have big fish that have become good friends, but as yet haven't received the Lord? Can we still count them as <u>Friends</u> won through FF'ing on the "Souls who became Friends" section of the

FF Report?
A: Yes!
Should our FF stats be includd in the Home Servant Monthly Report?

A: Yes!-The FF Report Form is merely a <u>breakdown</u> of the total stats. All stats, whether through FF'ing or regular witnessing, should definitely be included in the monthly totals on all Home Servant Re-

ports!

We hope these answers will clarify We hope these answers will clarify any questions you may have had regarding the FF Report Form!

Jesus said, "Follow me, and I will make you fishers of men!" (Mt. 4:19.) "Are you good bait catching men? God bless you!" ("The Hooker" No. 505:62 by Father David.) Happy Hookin'! We can't wait to hear the results!

25 Days of Heaven on Earth!

by HOSANNA; Athens, Greece

Dearest Dad & Maria, 31 May 78
Praise the Lord for His answering 31 May 78 our prayers for you! We love you and I miss you so, so much! It's still such a vivid memory of being there with you in your own house.

—I know I'll never forget the experiences of that beautiful 25 days of Heaven on Earth!—Those memories I feel like I can almost reach out and touch!-

From first walking in the door of your house and seeing Davidito smiling up at me, to minutes later meeting you both face-to-face in your room., the fantastic dinners together, going out to the club with you and so many more—right up to the night of your packing up and we (Kenaz and I) driving you to the train station! And the sadness we all felt back at the house that night, and the following days till we left! we left!

I remember so vividly following

your car on the way to the station in the rain.—It was like something out of a movie—"Gone With the Wind" or something! I felt like I had so much that I wanted to say about how I loved you and needed you, and felt sad that I couldn't or hadn't more fully expressed this to you! It was like the feeling I had just before first speaking in tongues in a prayer meeting—I wanted to praise the Lord and thank Him so much more, and found my own words seeming so inadequate to do

That night you took me to the club, and you danced with me, Maria! Whew! What an experience! Your love so broke my heart. I remember seeing an aura of white light around you and I think I experienced what a fish must feel like getting flirty-fished! What you said that night about learning to express my emotions more so spoke to me, and is almost daily in my thoughts!

Almost the whole time I was at your house, while I felt so at home, at the same time I felt out-of-place, at the same time I felt out-of-place, like a sinner who had slipped into Heaven or something! I felt totally exposed—it hurt so good! I can honestly say I have never felt so unworthy of anything before in my

I know that time so changed so I know that time so changed so many areas of my life where seeds of love were planted, which the Letters are now watering! TYJ! Even though I felt almost ill-at-ease sometimes, I know it took that, as before I don't believe I was accepting alot of the "guilt" and mistakes I had made as part of the "Chain". It has helped me to realise so much more the Lord's grace and love for more the Lord's grace and love for us! PTL!

I think another reason I was going through it at the time was that things still weren't settled between Rose and me. I know she's doing much better now on her own, more without my direct influence! Rose has visited all the Turkish and Greek Homes and will be leaving to visit Jordan and Lebanon next! Praise the Lord!

The team in Jordan attended a party where they sang for the Crown Prince and Princess, as well as King Hussein's mother! In appreciation, they were all presented with watches, with the King's name on them, and have been invited back

to the Palace!
The Family in war-wracked Lebanon appeared on seven radio programmes and a TV show last month, helping to bring comfort to many! God bless them!

Anyway, just having finished my report, I wanted to enclose a personal note.—That's always my intention, but if I don't do it right away I say, "Well, maybe it's bet to wait till next report..." You know how it goes

know how it goes.

I'm also enclosing a recent photo
of Abigail (whom I'm now mated
with) and myself. During my time
in Poggio, we'd always been attracted to each other and spent time together oftentimes. The day I left,
I didn't think we'd ever see each
other again and had this real pain in
my heart about it! As it turned out,
Abigail had broken down in tears
the day I'd left, after I'd said the day I'd left, after I'd said goodbye. It was funny-neither of us were looking for a more "per-manent" situation, so didn't recognise it when it happened! But I be-

really happy together! Being in love again is a remedy in itself! I love, love, love you, Hosanna.

TO MY DEAREST DAVID! by Rose, V.S. of Greece and Mideast

(This is the first poem I've written in seven years! The Lord just gave it so strong last night, so I wrote it

I give my heart on bended knee To one who gave his all for me The deepest love I've ever known The trust & mercy that you've shown.

I feel tearful, joyful to remember Your smile, your touch, complete surrender
To the Will of God above
Overflowing with His Love!

You've bared your soul for all to see For honesty will set us free, And now I want to live like you Loving others with love so true.

Giving all without a care Learning how to love and share, Your whole life you've given me I feel so small compared to thee!

My only wish is to remain A small handmaid in your domain.
To obey your slightest bidding
Gives me my reason for living!

Thank you for the Words so true As day by day we follow you
Our eyes and ears tune to your call The precious Words you give us all! We love Maria so much too For her faithfulness to the Lord and you!

-Love always, your little Rose.

IN MY HOUR OF NEED

My love comes to me In my hour of need And lifts me up
With some loving deed.

Perhaps it's small, But yet it's there, passing thing
We briefly share.

A loving look Or a smile that's kind, Or the right thing said That's just in time! To lift me up
And help me through My trying times, And start anew.

And through this help She gives, I see The surest proof That God loves me.

And sends me help To carry on
Through darkest hours Afore the dawn.

Reactions to "Proclaim Liberty!"

by PAUL & MARIANNE, V.S.'s of FRANCE

#

Dearest Dad & Maria, We are now travelling in the eastern part of France and French Switzerland and are taking a day off to rest and write. We stopped in a little hotel on top of Mount Saleve (Aaron's mountain), and it is so quiet and beautiful: pure air, sun-shine and snow-topped mountains all around, with Switzerland on one side and France on the other! What a wonderful life God gives us to enjoy! David's children are in-

deed the happiest on earth!

"Proclaim Liberty!": Wow!

Amen! We are glad and happy and thankful! TYJ! PTL! The Lord and you have so much faith in us!
What a sample of love and mercy and trust! We were so thrilled

we received this Letter!

The following morning, on the 2nd of June, we read the "Daily Might No. 2" for day 2. It was such a confirmation! "Thou shalt now be freed from this former yoke of bondage and liberated to do My Will!" "Forget not thy King, for He doth unlock thy bracelets and hath dropped the chains off thee... We are free, free! Thank God! Hallelujah! Free to do His Will, free to follow Him withersoever He leadeth, to abandon the boundaries of man for the boundless abundance of God!!" What a challenge!

That day we were in a small Home where there was a very sweet and precious couple who really do love the Lord and want to serve Him, but were very scared of FF'ing and sharing sexually, to the point that they confessed they did not even read the FF Letters because it was too much for them.

They felt they could not meet the Revolution requirements and were really under condemnation. We shared with them our own exper-

great victories, and this really encouraged them to face their fears.

"Proclaim Liberty!" encouraged them so much, to see they could now fit and they could go at their speed and have their place in the Family. We know they will get the victory over FF'ing as now they have decided to try! TYJ!

Also in Geneva, we met a very sweet American brother who had not been able to really fit anywhere in the Family. He was with a Swiss girl whom he has trained. He keeps singing and distributing Letters which he buys from the Home. He was kind of a rebel, keeping a long beard and extremely long hair.

When he heard "Proclaim Liberty!" he shaved and trimmed his hair and decided to report and become a real Home, sending in 11%, just because he did not feel bound anymore!

We are very thrilled, too, about this new law of comics! We were looking into a bookstore and saw that the comics and magazines were taking more and more space. My mother, who is an English teacher, now uses textbooks in comic form. We have seen in this same bookstore a serious "history of France" in comic form—which would have highly offended the French pride not so long ago! So it really is a sign of the times, and we love the

new comics coming out!
We are so thankful for having experienced your sample, to have been able to see it work, so we can better inspire others to do the same! We love you soooo much and pray for your happiness and health and strength daily. Loads of kisses to sweet Davidito too and all the precious ones around you that we love so much!—Paul & Marianne.

LOVE'S "LIBERTY!"

I love you more than words can say I love you more & more each day
In proclaiming Love's great "Liberty" You've set my aching heart so free!

All for Love and Love for all! We want to willingly heed your call! To arms! To arms! In this battle

With the Sword of His Words Their hearts we'll pierce!

The arms of love to hold and warm Those lost and dying from all harm.

His great forgiveness covers all Even when we sin and fall.

You threw your line to pull us

We'll never leave you, Father dear! Tho' we've been bad, don't kick

us out. Of Family Love there's now no doubt!

We're free! We're free! Love's "Liberty!" To win for Love, and willingly! I love you forever, your Ruthie. (Hong Kong)

Love's Healing Power!

How a sister, in obedience to a dream. made love and was miraculously healed!

God's Love is the answer to everything! The day of miracles is not past, as the Lord proved recently in our Home!

.05

During the last week of May, I received serious first and second degree burns while fixing supper when boiling water from a pressure cooker released and sprayed on me. After immediate prayer, I was taken to the hospital for treatment.

Copyrighted August 1978 by The Family of Love

During the following weeks the Lord healed me quickly through fasting

and prayer.

Then at the beginning of July an infection settled in my right el-bow and spread throughout my entire arm until it was completely swollen and I couldn't move it. My husband and I decided to take a stand of faith for healing, and wanting to know what to pray for more specifically in the healing we went to a doctor.

When the doctor saw my arm, he said it was very serious and suggested I immediately have a shot and begin taking pills. I then told him I had more faith in God's healing power than in the medicine. He was quite amazed as I took my first real stand of faith for healing! As I left, the doctor said he wanted me to come back to show him this miracle!

That same night after a communion and desperate prayer, I had a dream during the night that woke me out of sleep. In the dream the Lord showed me that if I would make love with a brother who was presently in another town that He would

After sharing the dream with every-

one that morning, this same brother happened to call. So putting our faith into action, we told him the dream and he arranged it that he could come. He arrived the next night and we made love, in total faith that the Lord had spoken through this dream.

The next morning my arm had miraculously lost its swelling! And later in the day, my arm broke open releasing the infection! Everyone was so excited and praising the Lord for all His wonders and the miracle He had just done! Love never fails!

The next day I went to the doc tor to show what the Lord had done. He was amazed, and I left him with a copy of Dad's Letter "Faith and Healing". The Letters on healing so helped during this time, increasing my faith to really trust the Lord. We have the best doctor there is—the Lord Jesus Himself! Praise the Lord! Himself! Praise the Lord! -Ruth.

"Forget trying to explain it! Quit trying to understand it!...as long as He keeps loving you like this and makes you so happy and takes such good care of you!"(306:75)

For example, one afternoon while riding in a service taxi, we heard machine gun fire and bombs go off a few blocks away. Everybody on the street panicked and began closing their shops and running home. Our driver stepped on the gas and drove like mad, weaving in and out of traffic. Another bomb exploded right beside us and there was some shooting!

Listening to the news that night, re learned that this time the fight

ing was between the Syrians of the ing was between the Syrians of the Arab Deterrent Force and Christian militia men supported by Israel who resents Syrian presence in Lebanon. ("Strategy in Lebanon" is really being fulfilled!) Twenty-two people were killed by nightfall as the ple were killed by nightfall as the Syrians continued pounding Christian neighbourhoods with rocket mortar fire!

War has become a way of life in Lebanon, and after ten months of pioneering here we've learned to always be prepared for any eventuality, although we know it's only the Lord Who protects us! TYJ! As soon as the fighting stops, everything opens up again and people are back on the streets as if nothing happened.

Despite these occasional outbreaks of fighting, we've found the potential here to be tremendous! Beirut has the largest and most exciting nightlife in the Arab world and an almost European life style, and we've found it very easy to communicate with the people, both young and old. FF'ing is very fruitful and, besides music, it is one of our major ministries and methods of winning. After all the hell Leb-anon has been through in the last three years, even a little bit of love goes a long way.

Even our mere presence here is a big witness. That we voluntarily chose to come and live in Lebanon despite its problems gives the ple hope for their country and

shows that we love them.

The co-editor of the biggest news magazine in the Middle East came to our Home to interview us, because it is so unusual at this time

for foreigners to choose Lebanon as their home. We were able to give a message of love and hope to the people, which we hope will turn out to be a big witness.

We now have three beautiful Lebanese catacomb sisters, one of whom is working as an airline hostess in Libya where she is spreading God's Love to all she meets. We have many good friends as well. One of them, Homer, is now working in North Yemen where he is witnessing faithfully. We've received letters from people he's talked to who want to know us better.

Through these catacombers and friends we're sending missionaries into other even more difficult and closed Arab countries, and that's the vision we have for Lebanon! Because the youth here are freer than in other Arab countries, it's the place to win Arab nationals to

We also have two Lebanese live-in disciples—Francesco, who joined in France and helped repioneer Lebanon, and Noah, who joined Lebanon, and Noah, who joined here about eight months ago. He is of Armenian origin and has been helping to reach the large Armenian community here in Beirut.

There are at least 250,000 Armenians here, all of whom are Christians. Lebanon has the largest concentra-tion of Armenians in the Middle East-future pioneers to Russian

Lebanon is known as the "cocktail of the Middle East", as there are so many different types of people here—Lebanese Christians, Moslems and Armenians, Palestinians and Arabs from all over the

ebanon is undoubtedly one of the most exciting pioneer fields we've ever worked in! It's a place where it's difficult to falf into a routine, because you never know what is going to happen next

here. Aiso, there are at least 17 different armies and militias in Leb-anon besides the U.N. forces, from every shade of the Middle East political spectrum.

At present we have one Home in Beirut, with five adults, one baby Berut, with five adults, one baby and another baby due in one month! My wife and I have a burden to pioneer the other side of Beirut, to work more closely with the Palestinians. Pioneering the other side of most cities may not seem like a big thing, but since the Civil War here the psychological barrier behere the psychological barrier be-tween the two sides—Christian and Moslem-has been tremendous.

Although the city is not formally partitioned, there is a psychological barrier that keeps the two sides at odds. We really hope to be able to respond to Dad's call for help for the poor Palestinians, to let them know that God loves them and that David and his children are praying for them. Please pray for us in this pioneering venture to help the poor.

We cannot litness or provision here, as Christian-Moslem animosity

drop-in way. Jobs are sometimes difficult for foreigners to find, except for musicians. Some of us have had jobs singing at some of the finest restaurants in Beirut where we've reached some of the most influential men in Lebanon.

The Lord has also mightily used our music as a media witness. Our musicians have been on TV and radio often, reaching over 50 mil-lion since our arrival here

It's quite a country, with quite a history, quite a lot of potential and people in need of quite a lot of love. We know that out of the ashes of war and suffering will shine forth many jewels for the Lord's Kingdom. If you feel called to help reach Lord's lost sheep in Lebanon, please let us know. Or if you can't come yourself, you could send a love gift yourself, you could send a love gif to help finance our work here to reach more. We love you. Please contact us: c/o Pierre Nasr, Box 16-5406, Beirut, Lebanon. (Please do not put COG or FOL anywhere on the envelope—thanks!)

JOSHUA FISHERMAN

Joshua Fisherman, who was 23 years old and of Dutch nationality, went to be with the Lord on June 19th, 1978. He joined the Family about three years ago in Nepal, after having travelled in the East for quite awhile. After the RNR he came back to Holland from

ther here and had a lot of love for souls and tried to be a blessing in every way.

While in Greece he had had an

operation done on his intestines.
He said the Lord hadn't specifically shown him why that had happened, but that it was for a reason he would maybe later understand.

About a month and a haif ago, he started having stomach pains and decided to go to a doctor in his hometown who then sent him to a specialist in Amsterdam. At first they thought it might be a break in the wound of his operation in Greece. But it turned out to be a turnor in his lymph gland system. For about a month he was in the hospital, on and off.

We all had desperate prayer for Josh and also a time of fasting. When we prayed, the Lord asked why we hadn't prayed more desperately sooner. It was after we heard they were going to give him some medicine that could cause all his hair to fall out that we realised it was more serious than we had thought at first.

But the Lord also encouraged us with several verses: "Ask and it shall be given you" (Mt. 7:7 & Lk. 11:9) and "The Lord is ever mer-ciful" (Ps. 37:26). Joshua, while in the hospital, kept getting the verse. "Though He slay me, ve: will I trust Him" (Job 13:15). The next day when we talked to him over the phone while he was still in the hospital, he said he had felt our prayers.

We visited him several times and brought him a cassette recorder and

The day he went to be with the Lord, Dutch Daniel visited him.

Josh had a high fever, but he was very cheerful and in the victory. That night he had to go into the operating room for the second time. He said that whether he made it or not that both alternatives were good and not to worry. He was very happy. He never woke up out of a coma. Daniel called us seven

minutes after he had died. It was a real shock to each one of us.

That day and the next all of us in the Home had very vivid dreams about Joshua. In all of these dreams he was visiting us here in the Home and talking to us. In a dream I had, we were all sitting together and sharing, and Joshua v telling us how he could do more for the Lord now without the limitations of the flesh. We all have the impression he is helping the work here in Holland now from the Spirit World! Hallelujah!

TO DEAR MO MY FOREVER LOVE

I was always looking for love in someone's eyes, I'd always hoped there'd be a love to realise.

I gave my love so freely, Could I find it in return? But one by one they left me, My aching heart so yearned

To find a love that would not hurt A love that really cared,
A love that would not leave me A love for life to share.

And then one day I met him And in my heart I knew re was the one that I must give My heart and whole life to.

I never knew a love before So gentle, kind and sharing

I never knew a love before Who gave me all his caring.

He loved me more than anyone And never failed to care For every sneeze and every cough And every little tear.

Your love has captured me forever, I'm yours now that's for sure. In spite of all my many faults, Your love so pure endures.

A prisoner of His love and yours, A willing servant now, Every day to do His will,
My hand put to your plow.

I am your love slave, You're my King.

I'm yours to send to others
I'm yours to send to others
That your love to them I'll bring,
As one of your "God's Mothers"!

—Love forever, Becky.

A 64 Year Old Live-In Disciple's Life of Love!

by JUAN ANTONIO; Madrid, Spain.

My name is Juan Antonio and I was born in Madrid, Spain on June 10, 1914. My mother was very Catholic, but with a lot of love, and she raised me and my five brothers in love. My father, rather athiest and pretty much of a systemite because of his bureaucratic job, later became a friend of Jesus, by a kind of miracle, thanks to the Spirit of Love that my mother had. was in this atmosphere of love and affection that I was raised.

By the time I was four years old, By the time I was four years old, I knew how to read, sing and dance and play the castanets. By the time I was 11 years old I had studied seven courses of music composition and two of violin. Music was my passion, along with poetry, spirituality, love and the supernatural.

When I was 11 years old. I insisted

When I was 11 years old, I insisted that my parents let me study for a religious order, because I wanted to be a musician and missionary of the Love of Jesus to the Gentiles (India for example). I got my way, and I studied there, but it discouraged me, studied there, but it discouraged file, as I didn't find the spirituality I was looking for. Finally, I decided to leave all of it, and I had to ask Rome for a "Dispensa de Votos" as they didn't want to let me go!

A little later, the Spanish Civil War started, and I began a period of living single and getting away from religion. I was only interested in

In 1939 I was named to the "Association of Writers and Artists in Spain". I taught high school as well as examinations for entrance to college to pupils from several religious schools. I have had ups and downs materially as well as spiritually, but almost always the Spirit of Love for my neighbour or people around me has predominated over everything else.

In 1946 I got married, and from this marriage I've had two sons and three daughters. After many diffi-culties and differences in ideas—may be these difficulties were lashes of love-I am now separated from my

the last line in my biography or the epitaph on my tombstone will be: "Juan Antonio loved Jesus and the Family so much that he gave his life for these two loves." <u>Talents!-Let's Use`Em!</u>

The rays were many different colours-all showing a different colour of His Light—but the <u>same Light</u>.—Different gifts, but the <u>same Spirit</u>, each one reflecting in his own way the Light of God.—Each one letting His Light shine, showing his particular kind of works to cause men to glorify the beauty of God!" Dearest Maria.

God bless you, sweetheart! I love you so very, very much and really miss you and dear Dad. I'm so thankful for all the attention and care and help you've given us since I left—I couldn't do without you!

Well, since you made the suggest-ion to write a small thing about what someone with talents could do in a Home now after the RNR. we have thought about it a lot, and the more we do, the more limitless the possibilities are!

In some countries in our area, we have seen that some brethren are just now starting to experience the freedom to be real—as opposed to the pressure that was on us before (whether real or imagined) to prove that we indeed were spiritual and revolutionary.

What Dad wrote in "Revolutionary

Illustration by Philippe La Plume from "Diamonds of Dust" by Father David (comic edition).

But thank God that Dad has now set us free from this bondage to now more than ever before really follow the Letters according to our faith! And now, without the extreme quotas, there's a real chance to develop the talents He has given us to be used for His glory!

It's as though there was such a pressure on following leadership and not speaking up, that many of us forgot what types of people we are—be it sensitive, poetic, artistic, fun-loving, sporty, studious, creative, intense, musical, sexy or whatever.

I know Jesus shines through each special personality in different colours—and now, more than ever before, we can burn free to follow the Lord according to how He has made us. For years it seems, so many in the Family have been searching "for their place", because for some reason they didn't fit into the image of what was expected at the time.

But Dad really set me free by writing in "Coming Division" (117A:16): "Who art thou to question me and who art thou to say why hast Thou made me thus?" For shall the vessel say to the potter which hath made it, why hast thou made me thus, for I have made the beautiful to the company of the same that the same

according to My Will, and this one by thy side according to My pleasure; that thou mightest fulfill My Will, contrary to natural expectation, and in defiance of the conventions of

Now it is clearer than ever that the Family of Love is made up of people who have given their talents, lives and whole hearts to reaching the world with the Words and Love of Jesus and David! Grandma really inspiringly put it in "Meditation Moments" number 12, saying:

"It is said in all the ages that there has never been and will never be a man or woman just like you. You are unique and have no double. No two leaves, no two stars, no two jewels, no two lives are the same. Every life is a fresh thought from God to the world. There is no one in all the world who could do your job as well as you.

"There is a need for you, God has a plan for you, and if you don't find it and enter into God's purpose for your life, there'll be something missing from the glory that would otherwise have been there.

wise have been there.

"Every Christian has his own particular part of Christ's radiance.
Has God given you a different personality? He has also created a particular circle of individuals who could be reached and touched by that personality only. And you can do it as no other person in the world. Oh seek His guidance, find His plan for your life!"

One of the things that really struck

One of the things that really struck me about Dad and yourself is the incredible love for each one and respect for the individual. For years, more into the usual image, and yours was the first real sample encouraging me to forget myself and just burn free and follow Jesus the way He leads!

I think the 8-page CQ form we all filled out blew some kids' minds when asked to write their hobbies and talents.—It just had never before seemed that there was room or time for such things. "We're putting you strictly on love and His grace and His mercy and your own willing voluntary service for Him, and expecting you to do your best for Him in love." ("Proclaim Liberty!" 696:18.)

So it seems more than at any other time in the Family that now it is really time to exercise initiative to the full! There is so much room now to exercise your talents. If you're good at interior decorating, really modernise your Home; or artists make special mounted paintings (not just rough paper or card-board ones like hippies might have in their rooms).—And now the demand for comics is greater than ever!

Carpenters, make school equipment for the children, extra shelves, furniture; gardeners, use your green thumb to make a Heavenly Home with flowers, indoor plants and save money by growing your own vegies and fruit.

lf you like kids, why not head a scout troup or club one night a week and make them into disciples!

Or Sunday Schools as Dad talks about in "Open the Door for the Children". And for those who can relate to older women and all, the Church of Love is perfect!

If you love reading, why not ex-

if you can help with Paul and Sarah's classes for our children? <u>Provisioners</u> can go to town and help other Homes who may not be so gifted in this as yours.

For musicians, there are clubs, restaurants, radio shows and a limit-less line of possibilities you could try to get out our message of Love. Those good at skits can arrange visits to schools, prisons, hospitals and all to inspire the people and help them.

and an included and an included an included an included and included a

The possibilities are minutes.

If you're good at raising funds, find a special pioneer team you'd like to support. Or if you're good at relating to people on a system level while at the same time being radical and dropped-out, why not go to a country where you have to be so underground all you can do is FF, hold a job and witness subtly?!

Those who sew can help their Homes save a fortune by making FF and children's clothes. Write up some simple patterns to share in the FN. Making small gifts for parents, fish and friends is a sure way to touch hearts. A little, thought-filled, inexpensive gift can really show a lot of love to those just beginning with the Lord. If you're a good lover or masseuse, then (ha!), your job is cut out for you!

While reading "Thanks and Comments" this morning, it opened up

especially where there are a few Houses in one city;

'We also need special tracts designed for children, blacks, hippies, systemites, secretaries, prostitutes, New York, etc., etc. How about ones for expectant mothers, homes, hardhats, students, musicians, and others also. Seems to me God loves everybody! Send us your suggestions and layouts! Love 'em!" (157:13.) "Also, think your idea of the special ministry to secretaries sounds great! I mean a special effort by special teams with special literature designed for them to win them to the Lord!" (157:21.) —And why stop at secretaries?

We are all better and more effective at reaching certain types of people, so if some Homes choose to set up their decor and lit to help them more effectively reap the group they have a burden for, it seems it would be fine-tuning our outreach. At times some have found it a little difficult with young teenagers coming at the same time as univeristy students and older friends. So without becoming exclusive and while still remaining open to whomever the Lord brings along, why shouldn't some with a special vision for Army catacombers or university students or businessmen or new bottles make a special effort to gear their lit, music and outreach to be more effective for these people?!

One other thing we have noticed, although unrelated to the above, but we felt worth mentioning, is that many couples who have been newly mated are sometimes not living much closer in the Spirit than any brother or sister, and their main

It seems clear, though, that our aims in any relationship, as Dad has mentioned throughout the Letters, should be to be together for the Lord's glory for the good of the Family, for each other, and last of all for ourselves—and that being together should be to help each other be happier and more fruitful in the Lord's work.

If this is really our aim, then time taken in prayer, sharing the Word and sharing our hearts will enrich the spiritual side of our love affairs. Some seem to have been leaving this sort of thing to the older "married" couples.

Tomorrow belongs to the Lord for all of us, and to be together always is not ours to promise. So, we just want to really have Dad's spirit of putting all and everything into today and now and really sacrificially care for and give to each other—drawing each other closer to Him and letting the Lord continue to plan out tomorrow.

This communication will not only make sure that the brothers' needs are being met by being together physically, but the sisters' needs in close communication, and both by sharing so much more in the Spirit than before. Thank You Lord!

God bless you so much, Maria and Dad! We love you so dearly and always keep you in our prayers daily. With much, much love in Jesus, Keda and Psalms.

Learning the Lessons of Life & Love!

Letter from a Latin Americian V.S.

Dear Dad and Maria,

Thank you very much for all the New Wine that you have been getting out lately!—"Shtick!", "Tithes" etc.—That sure was a powerful mailing! Each one was a powerful mailing! Each one was so needed and really hit home! "Your Two-Year-Old Can Receive Jesus" caused a soul-winning explosion

I'll class "The Operator" along with my favourites, as I've always liked the Letters on prayer the most. Each single Letter from you feeds us so much. Each one brings us further into the Kingdom of God and closer to the Crystal Pyramid. Please don't stop writing them! We need them desperately!

My husband Luis Manuel and I

are V.S.'s in Latin America, and while visiting the Homes, we saw a few things happening that worry u a little bit. Since the RNR and all the freedom that the Lord is giving us through all the latest Letters, almost all of the sisters that have

been FF'ing and helping out the brethren have gotten pregnant. The sad thing about it is that althrough trials about their pregnancy, and a few even wanted to have abortions. (DAD: Horrors!) As far as I can see, there are two reasons for that: They either hadn't counted the cost before applying this. "Law of Love", like you said in "King Arthur Chapter 2, The Cost of Flirty Fishing", or the brothers haven't been doing their part in helping the sisters. helping the sisters

It seems that often after getting the sex they needed and wanted from the sisters, they didn't respond by meeting the sisters' needs that you talk about in "Male or Female". They didn't realise the responsibility that this Law of Love brings, to really care for these sisters who

were helping them. (DAD: Amen!)
It just breaks my heart to see them going through it so much about being pregnant, while children are such a blessing and a direct gift of Love from God! But I am sure that if the brothers would really try their best to meet the sisters' needs—like comforting, fellowshipping, sharing, etc.—it would help a lot of them to be much more thankful for the little lives growing

inside of them. (DAD: Amen!)

I believe with all my heart that we can't blame these problems on the RNR, but only on our own selfishness (DAD: Amen!), because we all are learning the responsibilities that real Love brings: When somebody lays down his life for you, you have to lay down your life for him (or her!). (DAD: Amen!)

Just the fact that it can lead to the beginning of a whole new life shows that Love is not just something to be played with lightly, like you pointed out in "The Law of Love", "The Cost of Flirty Fishing" and many others. Thank God that Love, like children, is a lot of fun too! (DAD: Amen!) Just the fact that it can lead

the lessons of life and Love by <u>reading</u> your Letters and <u>applying</u> them to our daily lives—that's all we have to do, believe and obey! (DAD: Amen!)

ray for you all the time!

Your daughter in Jesus,

Ruthie

(DAD: Perhaps also some do not really believe children are God's

gifts and God's work, but mere gits and God's work, but mere physical accidents for which they hold some Brother or Fish to blame! How could anyone ever think of murdering God's gifts or refusing to do God's work?!—Or neglecting to help mothers?! May God have mercy on them!—and you, Brother, for neglecting them!—Or God will judge you severely! Get to work judge you severely! Get to work and take care of them!)

Dearest Dad & Maria,

I wanted to write you about one of my spirit helpers. After reading Becky's testimony in the "Family News" about her spirit helper Pocahontas, I decided to write you about what the Lord showed me concerning one of my helpers who concerning one of my helpers who I also believe is one of my most con-

stant helpers—Merlin! (DAD: PTL!)
The Lord was trying to show me
as far back as 1972 at Hollingborne Manor (England) that he was helping me, but I never quite woke up

something about him that rang a bell and I've always liked him. However, even after I started getting the signals that he was a helper, I never could understand why, since I'm an artist and he was a magician!

I'm sure other artists of the past ave helped me, but still it was Morlin who always stood out in my mind, and I felt a closeness to his spirit. Whenever I came across a book or encyclopedia mentioning King Arthur and the knights of the Round Table, I would see if there

he would be helping me in my art.

I thought if it was really from the

Lord, He would somehow confirm it. Well, finally He did! I found one of your books that you left in Italy on King Arthur and the knights of the Round Table, and it was either in there or an encyclopedia where I made an astonishing discovery: It was mentioning three different authors who all lived in medieval or pre-medieval times.
One was an Italian author, and it said that in his accounts:

"Merlin is chiefly represented as a magical artist." (DAD: Aha!) Well, after I read that, I don't believe my feet touched the ground for several hours. It mentioned some of his works of art, each having something magical about it. I shared this with Arthur and Becky and they flipped too!

In fact, when I read about a mirror he created in which you're supposed to be able to see the shadow of your lover, the Lord showed

we a picture of it.

Well, as crazy as all this sounds,
I just wanted to share it with you.
The Lord's given me the gift of

with certain things, and I believe it's Merlin's spirit helping me there too! Once in a park in London, I was with a sister going for a walk and the Lord told me that there were fairies (<u>DAD</u>: Amen!) hiding behind some of the large leaves which were blowing around. I shared this with the sister, and to prove it I called to them to come to us. Immediately about ten leaves rolled over and settled back to the ground at our feet! She knew it was true cause they were even moving against the wind! It blew my mind too!

(DAD: Ha! PTL!)

Well, here's just another nutty

letter from your nutty artist. (DAD: Thank God!—As nuts as me!)
I love you both so much! Thanks for all your love for and patience with me!

I love you, Eman.

(DAD: PTL! GBY! Thanks for your good letter!—And 'specially your gorgeous art! It takes 3 nuts like us—you and I and the Lord—to make such nutty letters! - With real kernels of Truth! That's it in a nutshel!! PTL! Amen? Your comix are beauties! - Give us more!!!)

Homes and was surprised to lend two of them quite dirty. He made the comment:

"It doesn't cost anything to keep clean." So I began to wonder what kind of impression these fish are getting when we take them into our Homes and they meet our husbands, sisters and children. Since being here, I've had the opportunity of meeting new Families in different locations, and I made a list of some of the things the Lord brought to my notice

Every Home needs a room with privacy to receive visitors at any time, day or night.

Everyone should have a smart appearance, especially if they are opening the door.

We need more knowledge of hair-

styling and make-up. Some sisters look more stylish with their hair up for the evening instead of straight down and clipped back without any care. (Editor: See "FF'ers Beauty Tips" in FN Vol. 4, No. 5. Also check fashion and women's mags for ideas, but use wisdom and avoid

for items, but use wisdom and avoid fashion extremes.)

Brothers, too, should have good haircuts. When visiting the Home and making a decision about joining, the attention of the fish is often more on the boys and men than on the girls!

Could we have etiquette classes? One tip I learned from our lessons in Tenerife was that you don't have to tip your soup bowl in any direction, just spoon away from yourself and leave the small amount you cannot scoop up in the bottom of the bowl. Things like this some of the sisters didn't know.

Don't speak too fast if your fire, is not speaking in his native tongue. My fish had a hard time understanding the American men in our Family.

It is better to ask the bait what horoscope sign her fish is, rather than having the same question repeated by eight different Family members to the fish.-He might think we are trying to categorise him and get offended!

Avoid whispering together in the presence of fish! If you have to discuss something "private", excuse yourselves and go to the "ladies'

room", etc.

Every Home needs a follow-up system for each fish in the event that a bait leaves. A good idea is to put all the pertinent information on each fish on an index card, so that if a sister moves, all the information would be available for the next sister to follow up. A fish neglected soon swims away, and is harder to catch the second time around, if ever.

Be on time for appointments and dates! What about setting your watch half an hour fast?!

If a fish has been referred from a different Home, a report from the following-up Home would be inspiring if sent to the first contact iddel's team in London is so faithful with this ministry.

Most don't seem to have emerge cy money when they go FF'ing. Dad always was sure we girls had

this money in Tenerife.

It is very feminine and flirty to use a fan or tissue to cool the fish after dancing. The Lord showed me that this is all part of loving them, and most fish have never had this atten-

The Strange Story of Inge Mamay!

(A backslidden "Saul" who now fights the Family, but who, like Saul, seems to be under conviction and may yet become an Apostle Paul! This is how wisely, patiently and lovingly one of her captive Family girls handled her enemy with love!: —Dad.)

-by A GERMAN SISTER

Dear Family, GBY, I love you! I am writing down my experiences I had with Inge Mamay during the time I stayed with her (from Feb. '77 to Sept. '77).

I first met Inge Mamay when I was litnessing in Cologne (W. Germany) about six weeks after I joined the Family. I joined in Dusseldorf. I was litnessing in front of the Dome and suddenly a friend of my brother, and later my mother, were there—they came from Dusseldorf. They wanted me to leave the Family and go with them. I refused.

Then a girl came, who I found out later was Inge Mamay. We sat down near the Dome, as I refused to leave the brethren alone and go with them all into a cafe. Inge showed me a report of the New York Attorney General about us and started yelling at me about what

have anything to do with Inge's work, but several times I heard, when she made plans with relatives of some brethren to help them out I still loved it all.

So she started talking about her and inform them of what was going on. Inge did not realise for a while by a backslider who told her about

In the summer of 1977 the reporters of "Stern" came to visit us in Altenberg. The parents of another sister asked them to write an article about us, so they got interested and started collecting material. After visits in Italy, they finally came to Altenberg to also talk to Inge and

She told her testimony, which was printed in the magazine, also with some more lies. So some more peocrazy work I was doing just working for Moses David and quotas, etc.

She really got mad, because I stayed calm all the time. When she told me that I couldn't be in my free will in the Family, I asked her whether I could be it with her (leave freely). She said yes, of course, so I said good-bye and left

her, to her surprise!

A few days later she sent her boyfriend by to the Colony and con-tinued making trouble. So I left for Austria a few days later without Hastria a few days later without letting my parents know where I went. So my parents freaked out and started working against the Family on their own, then in cooperation with Inge. Inge even travelled to Vienna to look for me.—Without success. -Without success

My father went to the German magazine "Der Spiegel" and in cooperation with Inge had an article made about us in November 1976. As they—Inge and my father—continued making trouble and it. tinued making trouble and did many things against the Family and partly leadership (with official help), leadership suggested that I go home for Christmas and calm my parents down and straighten things out.

When I came home, my father had me legally declared underage. One night Inge came and wanted to talk to me to convince me that the Family was false. But the Lord showed me before that something was going to happen so I could avoid talking with her. Then the weeks passed and I did not have any freedom at

The first few days I was locked In the house, then after excels for

weeks continually watched. My parents kept mail back, opened my letters, etc., so I couldn't have any contact with the Family. My parents always said I'd have the choice either to stay at home or go live in

the community of Inge.

I hated both ideas very much, but I hated both ideas very much, but as I didn't have a passport and the authorities were watching my steps, I couldn't split. So I prayed what to do and finally decided to go to lnge Mamay. God showed that I could come in contact with the Family again there. So I moved there to Altenberg and came away from my parents and their continuous control. parents and their continuous control.

Inge was always friendly to me as I was that "poor little confused and misled girl, believing in a false doctrine and a false prophet".— That is what she believes. So she just wanted me to find myself and become "me" again.

I was doing the household work in the community of five people, as I waited for things to change, so I could leave for the Family again. Inge had many visitors all the time, like parents, backsliders, priests, paper reporters, radio, etc. I didn't want to get involved with them and tried to avoid any contact with them, which wasn't possible

One day a reporter of the "Pra-line" came and I was there with Inge and another girl (backslider). The reporter asked questions about our time in the Family, and the girls talked about it. I just listened. When the first article came out (about Inge), she got mad as they didn't print one true word; they

swer, which disappointed her so much, she told me. Then she started hearing something

bad about us and wanted to know more and started to collect informa-tion. Finally she was sure that we were a bad group, not following the Bible. She came in contact with an influential woman whose daughter was also with us for a while but later backslid.

Together with her, she helped a brother out of the Family. Then another girl joined them both—another backslider—and these three started to work against the Family They founded a community intended to be an alternative to us, for people who want to leave the Famly and have no place else to go

The daily life in the community: Inge has a little devotion daily ading some chapters out of the Bible, singing songs together, praying together. The community com together once a week to discuss schedules together and make out plans about finances, work, what to do in the free time etc., to be organised a little.

She, Inge, wanted to be a mother for these people, caring for them, giving them love and comfort, as she saw that the world lacks this so much. She received love and comfort in the Family during the two weeks she was with us and that impressed her so much, so she wanted to give it to others. Actually, she tries to imitate the Family.

As I spent quite a long time with Inge, I got to know her quite well. She knew I loved her and she started opening her heart and shared

so inge immediately wrote an answer to these lies and sent it to the magazine, but she did not insist on having it printed, as she said she has so many letters and calls from relatives and friends of people in the Family that this article did what she wanted it to do, even if it was only lies.

inge tried to talk about the Family with me really often, so I would change my mind. She read Bible verses to me, which "clearly" showed that Moses David is a false prophet, etc. etc. But she saw that I didn't change my mind and that my love for the Family was even

growing.

She saw that I suffered being separated from the Family and the MO Letters. She explained it to herself this way: She knew I was in love with a brother. The love be-tween two people she could under-stand, but she couldn't go beyond

I always gave her much love, as Jesus said: "Love your enemies", but I always told her that I believe she was on the wrong track doing such a work, not gathering into God's fold but scattering.

I showed her Bible verses about that, like Mat. 12:30: "He that is not with me is against me; and he that gathereth not with me scattereth abroad", but she didn't understand.
Once I was really down, as I

missed the Family so much, and it made Inge sad, as she really started liking me. So she took me and another girl to France, Taize, so we could see something else and get our minds "right".

On the way she drove to Switzer-

friend in the Family. Inge thought I could make him leave the Family. I was able to spend two hours alone with the Family then, hallelujah! That was in March 1977.

As I said before, I did not want to of the Family. For a while I didn't tell Inge that I still believed in the Family and the MO Letters and that

plans in front of me when she wanted to get some brethren out of the Family. So I would call Colonies that I was hindering her work where-ever I could. Finally she found out

In cooperation with my father, Inge collected addresses of parents of brethren or of backsliders, and they met sometimes and exchanged their experiences with the Family and dragged each other down.

ple got in contact with her and asked for her help. When parents ask her

convince them that the Family is bad-which my parents did many months ago in Cologne-they usually pay for the fare, if she has to go a long way, such as to India or Malta,

I want to tell you a little about her life now. Inge is a Catholic and was also educated that way. But she did not see what the Bible tells being done. So she came away from her beliefs.

A few years ago she went to Taize, where there is a convent and people live together there and share everything they have, but it's all churchy. She saw this sample and churchy. She saw this sample and started believing again, reading the Bible and saw Jesus is real. But all that did not completely satisfy her.
Then she went to Rome with her

school, and as she was on a bus she saw a young man whom she liked. So she started talking to him and he started to talk about Jesus, which she liked very much. It was a brother. He invited her to come by, and she stayed.

She was with the Family for two weeks. After that she called home to her mother, as her letters to her were not answered. Her mother screamed on the phone asking her to come home. Inge knew at that time already that her mother was gravely ill with cancer, so she packed her things and left for Germany

But back home she always had in her mind to join again and was lo ing for the Family there. All the time she expected to get some mail from the brethren. She wrote several love letters, as she was in love with that Italian brother she met

things with me she never has shared with anyone in her life beforeabout parents, the death of her mother, boyfriends, sex and many

other things.

She came to me for help really often and wanted to have advice, and she listened to what I said and did follow my advice often. One day, some other people of the community and I and Inge were together and Inge was condemning everybody without any reason and rebuking all, so I left and prayed for her. After a few minutes she came to me, almost crying and asked for my help.

She said she knew that what she said a few minutes ago was all wrong and she didn't know why she said all this and was really sorry. I told her it's because of her relationship to the Lord and that she should pray desperately about it. When I shared with her, I could only share simple spiritual things; conversations about heavy spiritual experiences she could not follow.

Anyway, she helped me several times to go and see my boyfriend in Switzerland.—She gave me money to travel and she didn't tell my parents or any official people where I was or that I had left for a few days.

Later she even made suggestions

how I could join the Family again without having so much trouble with the authorities—by getting married to my boyfriend. Often I couldn't understand her, as she helped me to stay in contact with

I know that what Inge does is really against the Lord and I believe, when you read my testimony, you can see it all from a little more distance than I can. I came very close to Inge and so I can only write down what happened during that time.

God taught me to love her and I still love her, even if I hate what she does so much, and I pray that she sees what she's doing soon, so she

repents.
So, I believe that is basically all. Many more things happened, but maybe it's better, if you have any more questions to ask me specifically, so I can give you more detail-

I surely left a lot out, as it was even months I spent there. Since I left Altenberg and Inge's community and rejoined the Family, I wrote only one or two letters to her and saw her only over Christmas last year, so I don't have any contact with her right now. Love in Jesus and David, -A Sister.

From a New Member of Dad & Maria's Home!

-By A German School Teacher

Dear Dad & Maria.

God bless you, I love you very much and I just want to tell you that I am very thankful to be able to be here. It's beautiful. I am learning so much every day by the sample of so many people here in this house.

To meet you was wonderful, the most wonderful experience I've ever most wonderful experience I've ever had! I was amazed how young your voice was. When you told me you loved me and said "God bless you", it was so beautiful. The next day I caught a glimpse of you. I looked up and I actually only saw your dark glasses. But, I don't know, it almost frightened me, so I couldn't look anymore. I went to the side of the house. I didn't know what to do, maybe because you're very close through your Letters, you're very close.

But then the reality, when I finally met you, now I can understand it is so natural and I felt so beautiful around you. It was beautiful to get hugged by you and I could just sit for hours just listening to you talking and watching both of you, especially your eyes, Dad. They are just fascinating! There is a real light in them and they are so warm!

What amazes me so much here is the <u>love</u>, the love of the people for each other. There is always time for a kiss or a hug or an encouraging word. Sue wrote me real inspiring wold. Sue whole he can happy and little notes. I know I'm cared for here and you really love me. Here "I love you" is not just a saying, it is real!

A year ago, when Kenaz suggested the possibility of my getting a job to help with financial support give cover and drop-in, I must admit it wasn't what I had always wanted to do! But thanks to the "Drop In" Drop Letter, I had more faith for it. Our obedience by faith was immediately

Having done mostly teaching in and out of the Family, and being informed by friends that the easiest type of job to get here was teaching, I got a job right away as a teacher of English to the native people. I began teaching a class of twelve youths for four hours daily.

Besides being able to witness to them daily and getting to know them personally, I gained a lot of insight into the national personality and culture and learned the native language at the same time. And we'll never be able to calculate how far the "ripples" of our witness have gone in the hearts and lives of those we've met. The sample is a very big part of our witness here, both to students and teachers. In these classes, I have total free-

dom of method and materials Often I can express the Lord's attitude about certain situations and thereby get the witness in. Then during our "free conversation" p iods, these hungry sheepy students ask hundreds of questions about my life, beliefs, plans and back-ground. So with every class I've been able to tell them about Jesus, love, sex, freedom, and world politics, while at the same time not coming across as an unwanted

Also, so often in the Femily geo ple come together to share and it just ends up with talk, talk about ideas about what to do. I even remember my last Home, when we had a meeting to talk about what was not right, but it was always so hard to do something about it. But here things get done, it's not just talk. It's so beautiful to see that things are getting done here.
In a way, I feel sad when I think

about people out there in some of the Homes and it just makes me want to do something to help them have the same Spirit there as there is here. Sara and I were talking this morning that it's not just that we have a nice house and that Davidito has good school equipment and a cup board to store it in. Sara shared how they lived in a hotel room and how it's not just "things" that make it, but the vision and the love and the faithfulness. That's something I haven't seen before and which is beautiful to see and experience

ON WORKING WITH DAVIDITO I'm really learning from Sara what it means to be Spirit-led. She is such a beautiful sample of love and kindness. It came to me the other day when I was reading "The Potato" that Spirit-led means to be led by the fruits of the Spirit—love, kindness and gentleness, and that's what Sara is to me.

I'm learning so much in the schoolroom with Sara and Davidito.-How she is just gentle and loving with him and uses little things to teach him quite a lot. I'm glad to see that Davidito has about the same amount of actual school time as most of the rest of the children in the Family

missionary.

A few blessings the Lord has thrown in are: A work permit that makes us no longer foreign tourmakes us no longer toreign tour-ists but contributing members of their society (not beggars), very im-portant in fulfilling the Drop-In vision; a residence permit allowing us to live here as long as I have a job, thus eliminating costing, us the border-visa runs and giving us the ability to rent and have the contract laws in our legal favour, providing the cover we need; social insurance covering all medical and dental costs; a one-month paid vacation (paid to witness!); a guaranteed

I received a free 100-hour course which gave me a certificate good for teaching English in private language schools and affiliation with an Engish company with schools in fif-teen countries, some in closed North Africa!—Where I may apply to work under similar conditions.

a day and can support about 75% of our Home's needs through this one means. But God doesn't stop there, as the mail, friends and fish continue to support the Lord's work as well! As a result, we've been able to raise our living stan-dards and still send gifts to others! Also, some of my students have proven to be quite influential in this city and have helped us out with favours, legal advice and have

It's an exciting way to live and a real fulfillment of some of the Letters! Living and working with the native people here has really given us a burden for our field.

scholastic things

I can see that the progress he's making is not due to the amount of school time but in the way he is treated and how he is taught everywhere and by everyone throughout the day—how people take the time to explain things to him, how he is treated as a person and not treated childishly.

Sara was saying that the most important things now for our children to learn are witnessing, the Word, music, learning languages and then the scholastic things. I really hope I can help with that somehow, as I heartily agree.

I learned a great lesson while reading "Davidito's Affliction" about being desperate. As much as I'm burdened for the families and the children, I don't think I ever got really desperate about it and asked the Lord desperately to show and to help. It is such a blessing to be here and to be able to work together with Sara and to see her faithful ness and her commitment. And also to be around Sue and to see the same attitudes there.

Today Davidito received a gift from a Home in Tenerife and he wrote a thank-you card. I was amazed, though, at his reading. It is really astonishing. Then it was really good how he chose a book and they read the story about Philip in Acts. It was really good how Sara was lying on the floor with him not sitting so straight on a him, not sitting so straight on a chair. Then they acted it out afterwards.

Then Sara thought he'd do some math exercises. But when he

their children what they are good in. Like if you can play the guitar, you're a teacher! If you can speak a foreign language, then you're a teacher! In the afternoon we went over together this language course from Sarah Ireland and Paul Theo-philus. I really like it! It's so beautiful how Sara has the vision about training the children for discipleship and not as scholastically high qualified people.

I prayed and asked the Lord to keep me humble and to just let me be useful here. It's such a privilege to be here and I do really want to redeem the time and just really be a help to all the families in the field.

Something which is handled a lot differently here than I have seen it before is the way Davidito is allowed to choose for himself what he wants to eat, and how it's not such a big thing that he gets up before he is completely finished sometimes, and how he doesn't necessarily have to eat everything up. Also that he is allowed a snack before bed. He is treated as a little person.

I am also amazed how he and

Baba are so clean when they eat. There is not a big mess afterwards on the floor. And the reason is that Sara or whoever is sitting beside આસ્ત્રાહી (ત્રીકોન્ડ

pays attention to them. Often, where I've been before, the big peo-ple were too involved in themselves and not really taking care of the

It's amazing the commitment people here have for their ministry, whatever it may be. That is so necessary with the children. As Sara mentioned in one of her recent Letters, if you work with children then you have to commit your all

I agree with Maria how we often have different standards for grown-ups and for children. It's so true, Lord help us! Also what I like is how Davidito is exposed to some system influence, like in books or TV and that it's handled without fearing it and that it's explained to him in a very revolutionary way.

Well, the highlight for today was when Dad came up behind me in the garden and gave me a kiss! It was so warm and loving! Hmmmm! And Dad, you smelled so nice! And Maria, thank you for your concern, how you asked if the light is okay. It's just so beautiful. I love so much and I am happy and thankful to be here and to see your sample and the sample of Sara and Sue and all those who are so close to you. Love, your little Dora

Iron Supplements Can Be Dangerous!

from Christina; Portugal

I read in the book "Let's Have Healthy Children" by Adelle Davis in Chapter 7 "Anemia Destroys Your Vitality" about IRON. It said

don't think many mothers know

about either.

I know and have heard from other sisters, that doctors almost always prescribe iron during pregnancy and that without giving enough counsel about it. Here are some quotes from Adelle Davis' book about iron:

"Iron supplements can be danger-ous: If the diet is deficient in magnesium, vitamin B6 or cholin, as it often is during pregnancy, quanti

If the diet is adequate, especially in vitamin B₆, however, excess iron is never absorbed.

"Scientists who have spent years doing research on vitamin E stress that iron compounds given during pregnancy can cause malformed or mentally defective infants or bring on miscarriages or premature births. Some physicians are alarmed over the large amounts of iron now being given to pregnant women, and stress that folic acid, vitamin B6 and other nutrients needed to prevent anemia are too often over-looked. (SARA: Anemia can be caused by lack of other nutrients such as E or one of the vitamin B complexes. This is why pg's must try to follow a well-balanced diet and use multi-vitamins, yeast, wheat germ, liver, etc. if possible.) "It has been known for over 40 years that such iron compounds destroy Vitamin E...If you feel it is necessary to use a supplement containing iron, take all the vitamin E at one time after breakfast, then take iron only after dinner, separating the two by ten hours or more. HOW TO SPROUT

A colander lined with gauze, an old jar with a punctured lid, a jug with gauze fixed firmly over the top—these are just some of the utensils that are effective and easy to improvise. All that's important is a free flow of air and free drainage so that water doesn't lie in the container and rot the seeds. Some people believe it is better to grow sprouts in the dark to keep them white until they are eaten. But the chlorophyll content of sprouts grown in daylight improves them nutritionally, acting as a purifier to the blood. However, try not to expose them to direct sunlight or drafts.

First the seeds or beans must be soaked in warm water. The softer the seed, the less soaking time they need. Alfalfa seeds need only 3-5 hours, whereas soy beans may need up to 15 hours of soaking. The pro-portion of water to seeds should be five to one.

When putting seeds into a jar, remember that the volume of the sprouts will be several times that of the seeds. Allow enough room in the jar so that when the sprouts are fully grown there is room for air to circulate. Start with a tablespoon of

Js 10 x 4 hz. antice jat. Normally, seeds are rinsed twice each day. Soy beans need more moisture, so give them an extra rinse. When sprouts have reached their required size, give them a final rinse in cold water. If not eaten imme-

FISH TAKES SISTER ON THREE-WEEK GUIDED TOUR OF CHINA! HER REPORT ON-THE COUNTRY!-THE PEOPLE! & THEIR HUNGER FOR LOVE!

by MELANIE

I've always had a fascination for China, as my parents lived there for several years before 1949. After joining the Family, I prayed I could go there but I never dreamed it would be so soon!

My trip to China came about thanks to my Chinese-Filipino fish, C., a businessman in Manila who G., a businessman in Mania who does a lot of importing from China and visits there frequently. In June, C. invited me to go with him on a three-week guided tour consisting mainly of U.S. military schoolteachers. C. was like the organism of the tour and kent every ganiser of the tour and kept everyone together.

On June 16th we left Manila for Hong Kong and the next day took a train to the border. The Red Guard were everywhere. Soon we were on another train to Kwangchow where we stayed overnight. That afternoon C. took a couple of us on a private drive through the

Kwangchow is very poor, com-pared to the other cities we visited.

the different cities were very old and rundown, as there have been few new ones built since 1949. Kwangchow was definitely the poorest. The people were thin and poorly dressed, especially the chil-dren. There were only a few buses and cars but thousands of bicycles!

We drove through the former elite section of the city, the old homes of the Europeans and Americans that had once lived there. The houses were quite old and in a state of disrepair, and now several families occupied each one. I saw to churches in the neighbourhood all boarded up. The top of the cross that rises from the steeple had been cut off, so that now there's only a stick pointing up into the sky!

That night we went to a former private park, which is now open to all as a "Cultural Palace". There were three stages where the people could watch amateur acrobats, ballet or opera; and the park was crowded with people young and old eating ice cream.

I got quite a shock when I first began looking into their eyes, as nearly everyone was so full of hunger and searching! It caught me off guard as I realised what a huge ripe harvest field this was. They've been in darkness for thousands of years and they were all looking at me like they knew who I was and what I had! It was too much for me and I began to cry! I felt so helpless to reach so many!

That night I fell in love with the Chinese people! I wanted to talk to each one so badly, but I can't speak their language. So I had to

so receptive to it! I smiled too, and many smiled back, a little shocked!

The next day we flew to Shanghai and spent three to four days there visiting a farm and factory commune, museums, schools, hospitals, etc. There was a park near our hotel by the Whangpoo River, formerly a private park only for the British and on the gate is an old sign which has been left up to re-mind the people of their former days of oppression. The sign reads:
"No dogs or Chinese allowed"!
Now it's open for all.

One day I went there and-took my Basic Book to get away from the tour group and get refreshed. As I was reading "Become One", I noticed how so many people would stroll by so close to me and try to get a peek at the book. I was thinking about how wonderful it would be to be able to give them all the Words of David, when a woman and her little girl walked up and motioned that they'd like to see some of the book. I showed them some pictures from "Beauty and the Beast" of Papa Lion and they understood the story from the pic-tures and liked it. They thanked me and went on their way.

One of the members of the tour group was able to meet with his mother there in Shanghai for the first time in 30 years! He had left China at the age of 10 in 1949. C. and I went with him to his mother's little flat for the happy reunion.
It was such a blessing!
We took a seven-hour train ride

to Nanking where we spent three

visited I spent some time snaring with our young tour guide who spoke English. She helped me talk with a group of school girls and then we sat down on the bench together. She asked me about my life and what I did, etc. I said,

"Well, among other things, I'm a secretary and here's one of the books I typed." And I pulled out the little pocketbook "Change the World" and they really liked the pictures. So I explained the cover and then told the story inside using the pictures. By now there was a crowd of people all around us, trying to see the pictures! They un-derstood it and liked it! Just then we had to move on so it ended there.

After Nanking, we took an overnight train to Tsinan in an old train -they use only steam engines. China is a beautiful country! I fell in love with her—she was like a virgin, so old, but this is the "new" China and it's a new day! Everywhere we went there was always a large crowd gathered to look at us. Until recently, any foreigner was called "a for-eign devil", but now everyone was told to be nice to "our American friends".—We were always addressed as "friends".

We took another eight-hour train ride to Tsingtao, and here is where and I made love for the first time He was so appreciative and thankful as he was always under a lot of pres-sure from the demands of the Americans on the tour. We couldn't open-ly spend a lot of time together, as others would talk, etc.

We had one last overnight train ride to Peking where we stayed for There are a lot of tourists and for-eigners and a lot of Third World em-bassies, and I saw a lot of blacks. We stayed at the Peking Hotel and it was just packed with lonely for-eign businessmen!—A real FF'ers paradise!

Tien Au Men Square, the big square in Peking, was interesting and full of people. We went to Mao Tse Tung's Mausoleum to "pay respects to our great and beloved leader, Chairman Mao", as they told us. His body is entombed there just like Lenin's in Moscow, and you walk by him two by two. Not a word may be spoken and many Chinese people cry as they walk past. We saw the Great Wall, too, which was really fascina-ting. From it you could see miles and miles of China's beautiful coun-

On July 3rd we flew back to Kwangchow and then took a train to the border. I looked out the window and thought about everything I'd seen and learned and I was really sad to leave. I kept thinking, "I've got to come back!

I spent a few days in Hong Kong with C., who prayed and received Jesus! Then we went back to Manila and in just two weeks, he paid for my son and me to return to Hong Kong! God bless him!

I'm in Hong Kong now where some of the brethren really have a burden for China. In September, two of our sisters are supposed to visit their relatives there. Please pray for China and all God's sheep there!

Prayer & FF Adventure!

This prayer was written from a large hotel in northern Germany at a Conference sponsored by the Libyan Government, which we attended as guests. (DAD: Thank God you got back from Libya!)

Dear Lord Jesus, please help me to guide Your children aright. Please help us and show us the next step. Please help us, dear Lord, we need You so much. Help us not to lean to our own understanding.

Oh, Lord, Jesus, speak to me and help Stephen to listen to me and to You. (DAD: Amen!) Thank You so much for the many blessings of the past three months beginning in

London where You gave us the tickets back to Libya.

Thank You so much for the air tickets and the opportunity to return back to this pleasant land. Please give me special grace while we are in Europe and deliver us in Your time from this self-righteous place (Germany).

During this prayer, a Libyan man was walking through the lobby with a picture of Godahfi in his hand. I smiled at him and asked him where I could get a picture like that. He said I could have one as he was giv-

ing them out to the delegates.

He sat down and we shared together. He told me he was very lone ly and heartbroken because of the Germans. He spoke about how he couldn't find anyone here to help him and to love him. He said he had not slept well because of his need and that he had been drinking

a lot.

He asked me to go with him to his hotel and asked Stephen to come over for lunch with the rest of our little family. Once in his room it didn't take long for him to be fully satisfied in the bed of love. During this time, I shared with him about God's Love and told him something about our way of life.

It was Mene's birthday and we had a beautiful birthday dinner in this fine hotel. After dinner, we once again returned to his room where e again spent time together. The Conference ended the next day and so we were not able to share with him anymore, but we hope to see him again.

He gave us a card which entitled us to take free taxi rides all over the city. (<u>DAD</u>: Was that <u>all?</u>!—Ha!) Before this we had a difficult time getting around and we were using our meager funds for taxi rides. Thank the Lord that I was able to share God's love with a Libyan man. It was an answer to my prayers to be used of the Lord in this way so that I could live the letters of David. Love, Mother Eve. (Amen!-DAD.)

Dad's Pointers on Health-

Appendicitis: Prevent It!

THESE TIPS COULD SAVE YOUR LIFE!

Dear Dad & Maria,

Since our arrival here in Hong Kong, Lois has suffered six attacks of acute appendicitis, each being quite severe. We have prayed very desperately during these attacks, claiming His Word, and God has mercifully kept her appendix from rupturing and delivered and restored her! Thank You Jesus!

We have also sought practical advice and counsel from every health and diet book we've been able to get our hands on, the one professional nutritionalist in Hong Kong, two health food stores, a doctor and none of these sources has offered us any "roll ye away the stone" type of concrete measures which we can take towards prevent-ing further attacks (except surgery, which we do not feel is the Lord's

After the latest attack in July, we were wondering if part of the caus-ative factor could possibly be the extreme heat and humidity here in Hong Kong. Letter of Apology from Rachel!

Dearest Dad, 11 Aug. 78
When I think back over the last ten years of my life since joining the Family, I never cease to be amazed by the many miracles that the Lord has done and how much your love

done for me.
You have been everything from a father to a lover, husband and friend. I am so sorry about how I have so miserably failed you recently. I guess it was a combination of not staying in tune and desperate enough with the Lord myself so that I didn't even realise some of the problems, and on the other hand when I did see some problems I didn't want to burden you with them because I knew how much it would hurt you.

reacted to the problems of the "Chain" like a stupid ostrich with my head stuck in the sand rather than facing them head-on, no matter than facing them head-oil, ito litates how insurmountable they seemed and trusting God to do the miracles necessary to work them out.

I am so very sorry for how I failed you, the Lord and the kids by not work the most account to the job.

speaking up and saying that the job was just too big for me to handle.

One of my biggest mistakes (I guess because I am not cut out to be an administrator) was blindly following Jethro's pre-laid organisation without questioning its values, as you so well pointed out in "The Coming Division".

I am so sorry for not having pointed these things out sooner, as I am sure it would have saved so much suffering on the part of so many. When Maria called me telling me you were so deathly ill, I felt like I was going to die myself, and I spent so many nights without sleep praying for you and your

thank God always for the miracle He did in bringing you back to life and for the innumerable beautiful lessons which came out of the whole ordeal. I really thank you and the Lord for this little time of rest and not carrying so much responsibility, as I feel that I need to digest the many lessons which the Lord is trying to teach me.

God's way up is down, as you have always taught us, so I guess the more incapable and pusillanimous we feel, the closer we're getting to Him. I hope so. (Angel) I pray that I will learn from all of my mistakes so that the Lord can continue to use me in whatever way the sees fit and that you will be

REAL LOVE!

by ADAR DAVID'S

Dearest Dad &

God bless you with a beautiful, beautiful day! I love you so much and pray for you every day! I finally decided to sit down and write to you about some of the things that have been on my heart for a little while now. Lord help me to write and share with you more

often to let you know how things are going. From many letters and comments we have received, I have noticed that many, many girls in the Family are really longing for some tender lov-

ing care from our dear brothers. Not only from others has this been noticeable, but also from seeing the girls here in our own Home. It seems that the general attitude

amongst the brothers in the Family is that the girls have to come and help them out, without their realising that a sister might have a need too. A frequent excuse among the brothers for not being more considerate of the sisters' needs is "Male or Female".

girls do not have that great a sex need. However, from personal exneed. Howe perience, and from sharing with other girls, women really long for some tender love and consideration from the men, and they would simply flip if, for a change, a brother would come with a little picked field flower, or an invitation to go for a walk, or read a Letter, or simply share some time loving each other in bed.

You said that

I often hear from the brothers ere, "Well, I'm too shy!" and "It's so humbling for a guy to ask for help!", but I'm sure it's just as hard for a girl to come and ask, or offer as well. So, to make it short, I want-like the state of the state ed to ask if something could be pub-lished in a Letter or in the Family

Help our dear brothers be a bit more romantic and thoughtful to-ward the girls! You are the most ward the girls? You are the most live ever met, Dad, and who could teach them better than you!!—No one!! I hope you don't mind my writing

nas done and now interfyour love and patience has kept me. I pro-mise that I can never express in mere words how much I love you and am grateful for all that you have

Well, in short, I guess I sort of

all this to you, but one of the girls here told me that the men she FF's are the ones that really fill her need for tenderness and thoughtfulness and appreciation.

The brothers almost turn her off by being so cold and unappreciative, en after making love to them! I felt it was time to say something about it, in the hope that somehow we can help the brothers improve in this area. Really, I think it's not all our brothers' fault the way they are.

In the militaristic revolutionary past, romance and love was so de-emphasised, sad to say. I guess they just need to be reminded that girls have needs too! Hallelujah!

Love, your Adar

P.S. Keren says lots of comments on this have come in the mail also. (DAD: Amen! The girls want real love, Boys! Wake up!)

Dearest darling Dad,

I just wanted to add my two cents on the beautiful subject of Love and sex, as Adar and I have been lost art of Chivalry and Romance rebom! You, Dad, are THE greatest at this I've ever seen or heard, so we're appealing to the expert

I just wanted to touch on the subject of girls' sex needs a bit more, as they are very real and girls can get just as "horny" as guys! We've had many comments about this.

So many of them can't reach a climax either (although "Rev. Love-making" is such a good class!). It seems our dear boys need a little something more on this.

A great deal of it stems from their

past years in our Family when sex was taboo, and if caught reading a book on "how to" or anything, you were really "in the flesh", as we used to say.

What a help "Loving You" was to the guys and girls!—GBY so much! Ah, love, sweet love!—We need you to show the way, and help us play, and love His way!

Thank you again and again for His love through you and your life-giving sample! ILY so much Dad, you're always in my dreams!

-Your Keren.

P.S. Many have mentioned how their only trials in sharing their mates or in FF'ing are when they don't have anyone to share with at the same time. We know you never leave anyone "out in the cold" and always make sure everyone is taken care of and happy.—Again, you've said it already, but . . .

We just received a very sad little

letter from one sweet sister who loves to share her hubby, but he is not meeting her needs, nor does he see to it that she has someone to share with either!! Hard to believe

sad but true! Adar's working on the replies to the sex questions and they are so needed and will be a tremendous help—we can hardly wait to get 'em out! You are the most wonderful sample of concern for us gals-and guys too.

The Love of David" was beautiful and is beautiful, and we are so thankful for our David and His Love through you!! Such pure love of Jesus! Gosh Dad, I'd better quit or I'll waste your time, but-Oh, how I love you bec

first loved us so very, very much, and we just can't do without it! XXXOOOXXXOOO again and

(DAD: I've always said anyone whose mate is FF'ing should always

have a "babysitter" to take care of the mate left <u>behind</u>-but never <u>alone!</u>-The best <u>cure</u> of the "FF <u>Blues"!</u> Please be more considerate and thoughtful of your mates, folks!)

REACTIONS TO THE "Loving You!"TAPE! FROM KEREN

Dearest Darling Dashing Don Juan Dad!-How I love you! I just had to send you some Love after hearing your wonderful new "Loving You!"

tape! How I love my Don Juan of Spirit!

Not only is it a good aphrodisiac-ah, hallelujah!—but it also is such a beautiful expression of the tremendously concerned love you have for others and even a good class on lovemaking!

You are so very expressive, verbally, of your love, even poetic. Oh, it's just so beautiful to hear your voice with such sweet and endearing words of love. I guess I've always been a "word" person—and you've certainly got 'em!! And it shows how concerned you

are for the other person physically, plus the freedom you have and the great and beautiful love the Lord's given you for your special Queen of Love and her for you! Long Live Love! I love, love, love you!! With lots of love and many, many thanks. A LOVE HEART TO MARIA! by Joseph Lovesyou Oh, Maria, Maria, Maria, my dear,

I felt you, I saw you, I held you so near, as you danced for David so free. You slipped into my heart-yes, you did it to me! I felt each curve David did describe! Oh yes, I had the nerve to even explore inside!

Maria, you danced on top of David's peak. You wiggled your soul on top of his pen until his yen it did spill, and you he did fill with seeds of his heart for your love to spell.—The story for all to tell, the deep things you dip from David's deep well.

You suck at his breast and thrill to the rest. Oh my God, Maria!—You are the best! And me, I'm oh so blessed! How could I do less than fuck you my lass (oh what a heavenly ass) and suck your sweet breasts! Ooooh! Ohhhh! David knows your soft sincere nest-he told

you I carressed and you I carressed. We don't seem to rest, for when

you get near me-oh dear me!-how you steer me! Oh Maria, Maria, so sweet and so soft, let's go again and again in our dear neighbour's loft. In your eyes I get lost.

You're the tastiest tease, but oh

how you please!-Not like others who only tease and want men on their knees!—No please!

But you! Ooooh, Ooooh, Ooooh, you! Oh how you please! My ultimate strip tease—whew! You make me grease my little hot rod, like David had to do—makes me wanna ram you thru' and thru'—whew! It's been blowin' and goin' for days

the time in write. I thank you, too for the scriptures you have sent.

Dreams do often tell us things, and I am thankful that you are an obedient servant to Jesus and do His bidding without questions.

Jimmy so that he may read it and can take advantage of your scriptures first-hand. Keep us all lifted in prayer, please, and be assured that we do the same for you. In His Love, Ruth (Carter Stapleton)."

My last letter to Ruth Carter Stapleton was after reading in the Family News about her leading Larry Flynt to the Lord. I wrote to her about him because the article said Flynt wanted to change his "Hustler" magazine to show sex with

values. I told Ruth that Dad's ings on sex could surely help Flynt to do that, and I enclosed a copy of "Mortal Sin or Salvation". I asked her to send me Flynt's address so that I could send him some of Dad's writings on sex and love.

It was after my letter to her that Flynt was shot and paralysed. After this happened, Ruth sent me Flynt's address and encouraged me to write to him. I just wrote him and enclosed a copy of the "Come On Ma" comic and also shared with him from "But his crisis. I plan to write him often, sending Dad's Letters on love and sex. (DAD: GBY! PRESIDENT CARTER, RUTH STAPLETON & Mail Ministry Testimonies from Matthew Scribe; Jordan.

I just received Ruth Carter Stapleton's reply to my letter to her (see FN Vol. 3, No. 9) concerning the dream I had about her and the verse I received for Jimmy Carter:
"Woe unto them that are at ease in Zion..." (Amos 6:1) I had also expressed to her my disappointment that she had not shared with Pres. Carter the Words that God had given through Dad's Letters about the Mideast.

My letter, which she agreed to forward to President Carter, told of the millions of souls saved through Dad's leadership of our Family and stated that "by their fruits ye shall know them", emphasising the need to heed MO's warnings about need to need MO's warnings about Israel's unwillingness to make peace in the Mideast. The following is her letter of reply:

VISIT to PARENTS RESULTS in LIFE-CHANGING MIRACLES!

by Jeshana Gypsychild; Sao Paulo, Brasil

When I left my parents' house six years ago as a "rebellious hippie", we weren't even on speaking terms. After I joined the Family about a year-and-a-half ago, I tried to share with them in letters about the changes in my life and in my heart. I got so discouraged with how unreceptive they seemed to be that I quit writing them (Lord forgive me!).

Then I received a telegram begging me to visit them in the U.S, and they sent a round-trip ticket. I was really excited about going, as they are extremely rich Jews and I knew the Lord could do a miracle and win them as friends to the Family

During the month I spent alone there, I really got to know them and reach their souls. One night my mom and I stayed up all night shar-

ing with tears. I even shared how I was FF'ed into the Family, which she thought was beautiful after all I'd had in the system! She shared her feelings of frustration and sadness at not having been able to understand me. We broke together.

A week later she said, A week later she said, "You are in another world. I want to know it!" So I began witnessing to her about the Lord and about Daniel prophecies. After sharing the story of St. Francis in "Brother Sun" she began to cry. I asked if I could pray for her. Afterwards I asked if she'd like to receive Legus into her heart. She to receive Jesus into her heart. closed her eyes and prayed with me! Hallelujah!

At first, she had a hard time re ceiving the Name of Jesus, because

of her background. But the Lord began to work in her heart and she was really changing, more loving and peaceful. Recently I got a letter from my parents saying how happy they were with my visit and thanking me for the love and joint 160. ing me for the love and joy I left behind me with them.

My brother, who'd been in a mental hospital for five years, visited the Family in that area with me (at my mother's suggestion!). He was very closed and cynical until we sang the song "Pet Shop" for him. He said it was the first time he ever met people who understand what loneliness is and who were so happy and seemed to have the answer

He also received the Lord with me, hardly able to believe Jesus could love him. He just wrote, saying he's visiting the Home there and is now

Important Notice On

EXCOMMUNICATIONS!
Dad and Maria have asked us to

share their concern about recent

excommunication incidents in the

Family. We've noticed quite a few cases of people being "voted out"

of the Family for reasons other than

non-payment of bills and it's being called "excommunication". In

such problem cases, perhaps the offender could be given prior warning and also the V.S. notified so that another more suitable Home

could be found, if possible. Above all, "Help us to be more loving,

more forgiving, more patient, more kind to each other, in Jesus' name we ask for Thy glory." ("I Was Sick" No. 698: 72 by Father David).

open and listening! TYJ! It's also a faith-building testimony to my parents, to see the change in him since being with us, the Family!

Besides my family, the Lord set up some meetings with influential people with the help of my parents. The assistant to the city manager got saved, as well as a childhood Jewish friend, and many people got the witness! I just talked to my mother and she's coming to visit for a few weeks! PTL!

Most of all, the visit really inspired me about the importance of good contact with and prayer for parents and family and how the Lord can really use them to help the Work-and how through us the Lord can bring happiness and love into their empty lives! Childcare Questions and Answers!

Questions from Dave & Carmen; Spain's V.S.'s Suggested Solutions by Sara Davidito

Dear Sara,
GBY! We wanted to mention a few childcare problems that have come up. Often when we are in a Home with children and we are doing the Checklist or having a meeting, the parents let the kids run a-round making all kinds of noise and distractions.

I remember how often Dad insisted on letting Davidito in the room, even during important talks, giving the verse about "suffer the little children to come unto me He said that Jesus must have had lots of little kids around Him when

But when Davidito would get too loud, he'd remind him that if he was going to play there, he'd have to be quiet. And usually he did! If not, he was escorted out of the

Another important lesson is how Dad teaches kids not to scream un-less they are hurt or in danger. Some Homes let the kids run around and scream! So, Davidito was often told he must not interrupt meetings or he would have to go out.

Sara's Reply on Children in Meetings: Remember how in our Home

when having a meeting, one adult is with the children in the room to play very quietly with them so the adult can also hear what is being discussed or read.

We've found it very helpful to keep the kids happy playing with puzzles, colouring, magnets, cars, having a little snack at the back of the room or an adjoining room, while one adult sits with them to answer their questions, take them potty and keep them quiet.

The children definitely must learn to respect the Word and prayer time, Family meetings, etc. But at the same time, it must be taught to them in a fair way. As long as they have something to do quietly, they'll usually sit or play content-edly for about an hour's time.

eting time is one of the most helpful times for a person who does not normally watch the kids to volunteer to play quietly with them so the tired mommies and helpers are sit peacefully and hear helpers can sit peacefully and hear the devotion or meeting. This way, the children become accustomed to everyone in the Home, and they usually love a new "playmate", especially one who will really make

Most parents and helpers would Most parents and helpers would be so grateful for a helpful yolunteer during a time such as Family meetings or meals, just to be able to join in on adult fellowship and still be close enough to help with

the kids if needed. If the children are not quiet or wellbehaved during meetings, again, a helper or volunteer or parent could take them into another room and there really get involved with play or activities. Then others can share with him later about what was dis-cussed in the meeting. This works fine in our Home.—We all take turns voluntarily in watching the kids

during meetings.

D.&C.: We have found that most parents know very little about discipline! Thank God for "The Potato"! It really gives the heart of David about discipline. Most parents we have seen are on the other side of the spectrum of Deborah's teaching, in that they treat their kids like "sacred cows", disciplining them for hardly anything and not even exhorting in serious tones when nec-

Sara on Discipline: It could be that parents feel a little unsure about what to do when their V.S.'s come to the Home. Maybe they feel incompetent and a little embarrassed because they're just not sure what to do in disciplining children in front of others.

I daresay that many parents even feel they are normally too strict or impatient when correcting the kids. Yet in front of other adults, they may do nothing about the very same

This, of course, confuses the child, because of a lack of consistency. The child can then "test" parents with mischievous behaviour when they know the parents are stifled about how to handle them.

bout how to handle them.

The best thing I can see for parents to do is strive for a close, fair relationship with the child and always be consistent about what behaviour rules they've set. The child must be taught what is right and wrong.

When he is naughty or disobedient, in spite of warnings the parents. in spite of warnings, the parents must follow through with punishment.—And not fear the opinions of others, but ask the Lord what's best for the child at that moment.

D.&C.: One parent was allowing his son to play the pinball machines in a local bar. We were wondering what Dad thought about such activities and other "liberties" for the older kids, around the age of 12 or so. It seems awfully worldly to me!

Sara: Dad says it's a bad atmosphere, for one thing, and wasteful for another! It seems the parents could find them something better to do than that! Of course, kids usually have to try everything once or twice. Then usually the novelty wears off and they find it doesn't satisfy them for long. But anybody that continually wants to play the pinball ma-chines better watch out!—They may ecome addicted to gambling!

D.&C.: One parent wanted to

know what you thought about spanking an 11-year-old for wetting the bed. He said the boy felt a little inferior to other children and maybe this caused him to do it. The father said they had tried many

Sara on Bedwetting: I don't know the whole situation, but this reminds me of the stammering problem with Davidito in the past. There was just nothing I could do to help or correct it, and nothing he could do.

But the problem persisted and had some "hidden cause". All we could do was draw very close together and call on the Lord with our whole hearts for "healing" and much confession and true repentance resulted from our united desperation! (James 5:16.—"Confess your faults one to another, and pray for one another, that ye may be healed.")

How wonderful it would be it the parents made a very special effort to build a "green shirt" relationship with the 11-year-old (almost an adult)!—Take a planned, special freeday with him, talk to him, ask him questions about how he feels and thinks about things, and just admit and confess faults. any lack of love or understanding, and cry to the Lord with a whole heart for healing! He never fails! PTL! "We have the answer, and the only answer: The Love of God that He has given us for each other and our children, and our children for us!" (315:15.)

Really, tonight in bed I was amazed at how concerned and thoughtful you are regarding us-both our physical and spiritual states, both which are so important.

If I've ever wanted to learn and be a hole, it is now! The time is just too precious here to waste any of it and I just want to suck and suck and suck. That's why it's so so wonderful to be here.. I still just marvel at all that's happened and could never thank you all enough! Thank you for your sweet prayer for me to have a good sleep last night! It sure did the trick! I love you all so much and love the work and have learned to love the Lord more each day. Love, Path

Love Letters to David!

FROM A MEMBER OF MO & MARIA'S HOME!

Dear Dad and Maria,

ĕ

GBY! I wish, more than anything, you could know what a joy it is to live here with you. I've never felt so satisfied, with such a wonderful working arrangementtyping, cooking, ironing and all, and I'm so, so happy! Of course, there are the burdens with the blessings, but from each one I'm learning such priceless lessons! Thank God for this day with you all and your wonderful staff! They're all so precious-like you! They sure reflect your light!

Also, one of the brothers asked me to stay with him for a while just as I was going to bed, and so we went downstairs to the love room. It was already midnight and

I was exhausted. Then Sue came in with a little message from you about it being quite late and my being tired. That was so true, but do you say no? Well, up this time I never wanted to, almost for fear of being like "the girl who wouldn't"—Lord help me! In verything there's a balance and "let your moderation be known to all men."

But I really learned such a lesson on this tonight—thanks to you both! I think finally my sweet brother understood too, because usually asks me so late at night, when I'm really tired. So, we just prayed for a good night's sleep and I came back upstairs and went to bed! PTL!

Again, thanks for the concern you show for me, for all of us

FROM A FRIEND OF THE FAMILY IN INDIA!

Dear Dad & Maria.

I just want to write you a note to tell you I love you and to share my victories with you.

I'm a friend of the Family working here in Madras, India with certain religious relief services. I first met the Family last November. I met three different brothers the same day. Stephen Faith led me to the Lord a few weeks later, and since January some of the Fam-

ily have been living with me.

To say that my life has changed since I met the Family is putting it mildly! Last November I was a lonely drunken homosexual trying to serve the poor but completely ignoring God. Although I work for a Church agency, I gave up being a Catholic long ago and just worshipped humanism and didn't think

about the Lord.

Well, once I finally accepted Jesus, everything began to change! The loneliness went immediately when I had the love and fellowship of the Family. It took awhile before I had the faith to rebuke that queer spirit and drive it out in Jesus' Name.

In March, the brethren prayed over me and the Lord removed those tendencies forever! Only recently, I'm sorry to say, I got desperate enough to ask the Lord to free me from alcoholism. Naturally, the Lord took care of it right away! It's incredible how lacking in faith we can be when the Lord is always so faithful! Praise God!

I can never thank you and the Family enough for showing me the way to Jesus and making these changes in my life! I really thank

God for you and pray for you alwa
I must say I had alot of trouble with some of your Letters in the beginning. Although I'm "only" 32, I was a very old bottle in many ways. I had studied to be a priest for several years, so I knew too much about churchianity and I kept stumbling on the strange truths you were unfolding. But praise the Lord, I finally accepted the fact that the Lord was really speaking through

When we had the fast and desperate prayer for your health, the Lord really showed me how much you mean to me and how important you are in my life. Now, I believe you could say even more prepos-terous things (if that's possible!) and I'll listen!

For the time being, I feel it's the ord's will that I continue to

But eventually I'll probably drop out and spread the Word fulltime -Once you know the truth, you

thanks for giving me a new life through Jesus! You have my love

Sprinkle baking soda over the fire-never use flour. For an oven fire, turn off the heat and close the door. As a general rule, all fires should be smothered rather than have water flung on them.—A fire extinguisher is even better!

Storing Breast Milk! You can pump out extra breast milk and store in pre-sterilised, disposable nursing bags that fit into nursing bottles for use later when you are away and can't nurse the baby. Kept in the freezer, it's good for up to a week. Then when you're not there, your hubby or babysitter can thaw the bag of milk in a pan of warm (not hot as it will break the bag) water, and it's ready for baby! You can also store the milk in a pre-sterilised plastic baby bottle in the freezer.

Keeping pacifiers clean! Most pacifiers do not come with a lid or case

g case can be made fr plastic containers that a certain brand of cotton swabs comes in.-Holds one or two pacifiers and keeps them clean in your purse while out, or just around the house or garden!

FF'ing on the p French Riviera!

by PAUL & MARIANNE

For the last two weeks we've been in Monaco, which is at the peak of the season. We went several times with Emanuele to a club, the most popular, high-class club of Monte Carlo. Some of our girls had been going there and had met and FF'ed quite a few important people, but the FF'ing was not very organ-ised nor consistent. Now we have begun going there regularly and meeting many interesting people

We have a nice sample Home in the area, very fit to receive people, and we wanted to set up a solid front-line team which would be free to go out every night: possibly Jeshanah, who's been in Paris and knows a lot of people in Monaco already, and Joan of Arc and Isaac Jamaican who are free now to come from London. We really pray we can hit while the iron is hot in this decadent and so needy area of Monaco!

An Italian lady Emanuele met invited the whole group to the private party of a very influential Lebanese man in his beautiful villa on the coast. It was a very exclusive dinner, those present including the son of Giscard D'Estaing and Nixon's daughter and her husband. We played our songs all night, Simon Black did a set and Windy took over by grabbing her guitar and singing acoustic songs for everybody, which really made a hit. At the end, the host invited her to sit next to him

to sing privately to a handful of remaining guests. The three of us girls got to sit with all the guests and could witness to some of the people, quite a few of whom turned out to love our music and be very receptive. TYJ!

Also, Emanuele got to talk with Paco Morales, a native Tenerifan, who is a famous character around Monaco. He is like a court jester, telling people the truth-they think he's crazy but they like him. He believes in the soon-coming end of the world and flipped out to read the series of Letters about Tenerife and Atlantis. It seems that many of these rich people really fear and in a way are aware of the Endtime.

Paul got to witness to the daugh ter of a famous movie producer. She is beautiful and very sweet and really receptive to love. She gave him her address and said how was so bored with the jet set life and so happy to meet him. Her last night in town, at the club, she invited us all to the bar where stayed and talked until 6:00 a.m., and Paul had a chance to give her a "Real Love" booklet as they parted!
TYJ! These little booklets are a fantastic tool for FF'ing! So it's been quite an inspiring and challenging FF experience here!

How FF'ing Words of David Helped Solve and the love of a 'Mother of God' led a journalist to fight for the right to litness and stemmed the tide of bad publicity! Problems!

first met A. after he had read a copy of "Mortal Sin or Salvation" and came to visit to find out more. A. is a journalist in his mid-40's divorced and is a real fighter. At age 18 he came down with polio and was bound to a wheelchair. Studying up on medicine, he found a possibility for an operation to straighten his legs. Then he travelled around until he found a surgeon who was willing to give it a try. The result is that he can now walk with

He studied on and became a court scribe, later a judge and then a social worker. During this time, his dead mother appeared to him and told him to "cling to Jesus". Later, an old gypsy woman prophesied that he will help her people and also suffer with them.

A's first reaction to "Mortal Sin or Salvation" was "You've got the words, I knew it had to be that way He started to visit often, first critically observing and researching every thing, especially our views on sex and how we put the Letters into practice. Gathering material to write an article about us, he was reading every MO Letter he could get his hands on.

This was happening during the days of the "Chain". A. was so

flipped over the words and expected me to love him physically, although the policy then was that we didn't do anything without at least Regional or Bishopric approval. So I decided not to tell anybody and to go ahead as the Lord would lead. knew it would hurt the work if I

withheld myself.

A. had said, "Many groups and churches have good words, but I'm yet to find one that practises what they preach!" I've been in the Family for five years and cannot remem-ber one good article in this country about us in any paper of importance. So I set my mind to living the Letters in spite of the Chain. I wanted this article to be good, with as many of the words of David in it as possible! During the many hours as possible.

I spent with A., I learned to give him as much sexual pleasure as I could, even though, due to his muscle problems, he couldn't reach a climax. As a result, he wrote a very favourable article! TYJ! He also became our catacomb disciple!

At Christmas-time when one brother got fined and another thrown out of the country for litnessing, A. immediately phoned the chief of police and arranged to see him. I had tried before to go to court over this recurring legal hassle, as every citizen of this country kno-

feeling fine. He was really shocked when I told him what had happened He told us that he'd had these attacks before in Africa and so had his daughter. He felt maybe it had come from a friend of his ex-wife who had lived with them awhile and who was very involved with voodoo and used to leave potions all over the house, etc.

This frend had gotten mad at nim once, and that's when the attacks began. Anyway, that night, the brother and I really prayed over him, and he himself prayed a really sincere prayer for deliverance, and we believe the Lord delivered him.

He really has a new determination now-he's been memorising verses daily and is witnessing and getting a burden for souls. So we're really encouraged! It looks like the Lord has delivered him from most of his legal problems too! PTL!—Rose.

to a mad tried and one had even backslid out of disappointment that the "Chain" was so uninterested. This backslider can be credited for winning a court case that opened a major city for litnessing.

So, without consulting the "Chain' I went ahead with A. as he knew the laws pretty well. We got everything arranged to go to control." thing arranged to go to court. The Lord had already given us a lawyer a year ago who wanted to fight for us for free. The night before we were due to go to court, the lawyer called all upset because someone from the Family had told him to cancel the case. I apologised for the mix-up and promised to be in court the next day. We went on to win, and three months later we

A, then did an article on the court case and helped us to get into prisons and mental hospitals, etc. to sing and witness to patients. He also wrote to an antagonistic mag-azine to stop its flood of lies, and National TV just cancelled a show to be aired in August after hearing A.'s testimonial for us. It was to have been another slander campaign. A. has visited and made friends with the lady of the deprogramming center there and talked to backsliders who made statements against the deprogram-ming center! God bless him! He's a real fighter for the Cause! By the way, A.'s sex life also had a victory!—The Lord gave him back the ability to reach a climax! PTL! (story by V., national disciple)

Lord Delivers Fish From Voodoo Attacks!

From Rose, Mideast V.S.:

We went through a really heavy experience with one of our live-in fish one night, when for about an hour he had an actual demonic attack from the Enemy. It seemed like the Enemy's last try to get him, as he's really had some tremendous victories lately (after some tremendous battles!).

We had just had an FF party. which went really well. Everyone had left the house except for a brother, myself and our new babe. Something was wrong with him—he was discouraged about something, and so I was trying to comfort him. He was crying a little, and the next

thing we knew-

He had fainted in my arms and began to clutch his side and gasp for breath as though having a heart attack. The brother and I stayed with him and held him (thank God the brother was strong enough to hold him down, or he could have really hurt himself) and prayed for him. Thank God for "Pity the Weak", which really gave us the , which really gave us the faith for this.

We kept telling him over and over again that we loved him and event-ually got him to pray in Jesus' name and rebuke the Encmy. It was over an hour before he regained consciousness, and during that time he

Notes From Our Weekly FF Meeting

-by Christina

(The few local Homes in the Cascais-Lisboa area of Portugal meet together weekly for a united FF progress meeting with fisherwomen, FF'ers and Home Servants. These united sessions have proven to be very helpful in organising teams mail ministry and counselling to

We talked about how we shouldn't be worried about how to pay for the drink, transport, etc. but to keep in mind that the main reason for going out is to look for the lonely people and bring them God's love and witness to them and trust more in God to work everything

out.

If a nightclub or bar looks unfruitful, empty, etc., we saw how, instead of wasting hours and hours trying to find some weirdo to pay for the drinks, to instead go home early if necessary, get a good rest and get the funds back in a full day of litnessing the next day. God always provides, if we follow His guidance and direction.

We talked about the importance of unity in the teams going out. It is so important to come together beforehand and pray, and if there is something you're holding against the other sister, to get it out of the way before going out, as the unity and love between us is so important sample in order to win people. Also, while out we need each other spiritually, to fight in the Spirit for each other and to be our brother's keeper. We need to be on our spiritual guard, as the Devil can so easily slip in during those moments when we are not strongly united and cut down on our effectiveness if not make an evening a total fail-

I reminded the girls to watch out for strange people, that they are not followed home.—Also not to let new fish drive all the girls home

to all our different houses, as it might not be good for them to know where we all live. Be wise in security-not mysterious, but careful. Another reminder is to be strong

enough in your convictions to ask a fast and reckless driver to please slow down, explaining to them that they put other people's lives in danger and their own too.

UNDERAGE SEX?-BEWARE!

Letter from Spain's V.S.'s, Dave and Carmen-

Dear Dad,

God bless you! We decided to write you a note about a policy that some feel is unclear and about which we have had a lot of questions. We were wondering if there is any way it could be cleared up!

It concerns sex and catacombers and underage disciples. We felt the "Happy Rebirthday" quote made it pretty clear, but some have asked for more explanation. The following was written by the temporary servant in one city: servant in one city:

servant in one city:

"We need some help for the Catacombers here who have some questions about FF'ing and sex. They
had been helping each other out sexually, co-masturbating but not intercourse, and some of the girls started
getting sexually involved with the getting sexually involved with the people they were witnessing to.

Sara told them today to stop all sexual activity, as she said they had to wait until they were of legal age.

She may be right, but I am inclined to disagree as I haven't found anywhing in the FE Letters which cays thing in the FF Letters which says that minors cannot enjoy sex, other than this quote:"

With comments by <u>Dad!</u>
"NO MINIMUM AGE FOR FF'ERS!-Unless sex is involved!-Then they must be of legal age for sexual involvement..." and "FAM-Inen they must be of legal age for sexual involvement..." and "FAM-ILY SEX: 1. NO PERMISSION NEEDED FOR SEX!—If legal and with mutual consent. No Servants need to be consulted." (Parts X2& XI:1 from "Happy Rebirthday!" No. 663).

This Servant's letter continues:
"So it seems that coitins would be

"So it seems that coitus would be ruled out in all cases, as the system would call it illicit. But what about preliminary and non-coital activities? Should they necessarily be ruled out?" (DAD: All kinds of laws against it!—Can even be called "attempted rape", "child molestation", "sexual assault", "contributing to delinquency of a minor", etc. etc. NO, NO, NO!

Well, Carmen and I feel that any underage sexual activity is very danwould call it illicit. But what about

underage sexual activity is very dangerous in our Homes (DAD: Amen!) because of the legal and political situation. There has been quite a bit of it going on from what we've heard, and aside from the "danger" involved, a lot of the kids who were

getting involved in it had sort of a pleasure-seeking spirit and weren't really proving themselves in witnessing and litnessing.

This particular letter is from a

city where we have an unending stream of bad publicity and there is an active anti-Family parents group out to get us.—And one of their main gripes is our sexual activities. This topic is really a touchy one with the catacombers, so any word from you would be greatly appreciated. We love you, Dave & Carmen.

P.S. Sometimes a catacomb couple will come to the Home. occupy the room privately for sex and then leave—with very little in-volvement in normal Home activivolvement in normal Home activities or witnessing. (DAD: -Very bad!-Should be absolutely forbidden in Homes!-& was in Quote above! ILLEGAL! What they do outside Homes is their responsibility, but allowing it in Homes is absolutely prohibited! It is illegal and can land you in jail!)

Overcoming Fear of Failure in FFing!

by Ami Rose; Hong Kong

One thing I've seen recently is that some of the girls get really discouraged in FF'ing. I guess there are lots of reasons such as bad experiences with fish, not enough encour-

agement from their husbands or brethren, but I think one of the greatest things I've seen is—

They're afraid to make mistakes.

Many of our girls are so inexperienced in the system ways, manners, etc. Consequently, they make mistakes or don't feel at ease, which brings on fear which of course brings on fear, which of course causes <u>failure</u>.

People need to learn to <u>laugh</u> at

their mistakes and learn from them. If we just recognise every situation as something from the Lord and an opportunity to learn, then it makes everything more enjoyable and worthwhile. It seems like that is one thing that I talk to the girls about all the time—just learning from experiences that they have, rather than letting themselves get rather than letting themselves get discouraged by them.

FF'ing has been the most life-changing experience I have had in my eight years in the Family-because it is the deepest, most radical witnessing ever! I believe the girls need to learn how to relax, enjoy themselves, enjoy sex and be free. But they are afraid to relax and enjoy it because they are too afraid of not witnessing enough, etc.

You can't be a good sample of the freedom of God's love if you are all bound up with fear. We have a lot of Letters that apply: "Four Fishing Failures", "The One that Got Away", "Bell, Book and Candle" "Attack!" and many more. Lord help us to really let the Spirit apply the Letters.

It was such a blessing to meet Keda when she stayed at our FF Home in Tokyo for a couple of

she doesn't try to be anything ex-cept what God made her. Tearing down all those "spirituality" fronts

That's the key to FF'ing success too!

-Mt. 10:23! by FATHER DAVID

15 August 1978

(Dad's answer to a report on the legal problems in a certain country:)

1. That's what comes by <u>disobedience</u> of former <u>leaders!</u> From the beginning I said you can't fight the System or play its games on its own

2. In 1970 I advised all Colonies to declare themselves independent to declare themselves independent churches with no association or organisation—only a spiritual brotherhood—no legal organisational ties—every Home independent on its own except for fellowship.

3. When they disobeyed in Texas and got incorporated and in trouble, they had to close up, disband and disappear!—And the same in England!

4. In one country I told them to stop trying to get recognised legally!

—Just go ahead preaching the Gos-Just go anead preaching the Gospel till they stop you or make it dangerous or impossible, then flee as Jesus said: Mt. 10:23.—And we're still going strong there, almost better than anywhere!

5. I think the authorities most places would rather just ignore you than be forced to recognise you and make you abide by their rules! – Like asking the cop if you can pass lit and forcing him to say "No!" instead of looking the other way!

6. Over a year ago when the press showed a certain country's antagonistic attitude, I said wherever they were attacking and making it too tough to witness, close up and flee!

My opinion hasn't changed: You can't do business with the <u>Devil!</u>

Why didn't their Homes take my advice and do it then? vice and do it then?

vice and do it then?

7. Why did they try to fight? You can't lick the System! All you can do is Mt. 10:23! You're foolish to fight it! Disband, disappear and let each Home shift for itself!—Sorry. It makes me sick! Who began that association?—Jeth? Sounds like him! He's been the guilty one on that almost every other time—or his men! his men!

8. My idea last year was to use the

bad publicity and make a final lit attack and <u>run</u> when and where necessary! God help us to <u>heed!</u>
Frankly, I hate to get involved in others' disobedience troubles! Why didn't they close last year when

I told them?

9. I said lit hit and run! Don't try to fight them on their own terms!
When will we ever learn! You can't

fight City Hall! If they make it too

hot, leave!

10. The whole world is waiting for the Gospel! Why waste it on one antagonistic little country just for money! God help us to obey the Lord!—Mt. 10:23 & Mk. 16:15!—Amen? Let's go! We gotta world Amen? Let's go! We gotta world

In the last days before you left, got to talk a lot with Sara and Sue and ask a lot of questions and get a lot of counsel. They too really helped me. God bless 'em! Since you've gone, I've had the opportunity to see a few Family members whom I haven't seen in such a long time. I feel so responsible to pass on the sample of love and concern and obedience to the Letters, which was shown to me and which is so lacking in the overall Family.

If only we all would take the

Letters more seriously and obey them with all our hearts! It hurts me to see how I've failed in this, and by God's grace I want to totally

I only wish all the Family could see the sample that I've seen from all of you, for then would they see the seriousness of our job for the Lord and how important it is to obey and especially to really have the Spirit of Love.

I love you so much and could never thank you enough for all you've done. Because of your faithfulness I am here today. Without your precious words I couldn't be happy. Thank you, dear Dad! Please forgive me if this is so long and gooshy, but it's what's on my

God bless you! I love you so much! I just wanted to write you to thank you for a couple of things. First, thanks so much for the raise in our monthly gift; it's a great help and greatly appreciated. We all love you so much!

Secondly, I want to thank you for the priceless privilege of being able to come daily to your house and to be able to witness firsthand who live with you. The sample of love from your precious Family is something that I shall never forget! My prayer now is that I can share that love and sample with everyone meet, especially those in the Family.

Everyday when I came over to deliver the mail and reports, everyone was so kind and loving to me, always complimenting, encourag-

ing-the hugs and kisses, the smiles, the concern. Never have I experienced this to such an extent in the Family. To b. honest, I really mit now that you've moved. I love To b. honest, I really miss everyone there so much, more than words can say!

I must confess that when I first came over I thought, "Gee, isn't this a little corny and over-done?
These people aren't 'chic' and 'coo and 'in'." When I saw how simply everyone lived—simple clothes, free samples of perfume, etc., I thought, "But what about all the fancy expensive things fancy. fancy expensive things, fancy clothes, etc. that I've seen in the past?" Honestly, I rebelled somewhat in my heart!

But slowly day after day, the Lord, through the sample of your house hegan to change my heart.

A Brother Stands Up For Our Mothers & Sisters.

Greetings and Love in Jesus' Name!
My heart just thrills thinking of you
both! I love you! It really thrilled me so to listen to you making love on that tape! My Lord! What sweet love! I feel so much closer to you both. Thank you eternally for your sample of love and mercy!

There's something that's been on my heart for a long time. Personally, I feel responsible for every sister in our Home as if she were my wife—and in reality she is! I try to make them feel secure in that we together as a Family will take care f them and their (our) children.

Women need security and love

and a safe place to rear their young. I know some sisters who are worried about getting pregnant and having more children. I know it wasn't that way in Tenerife, as I've talked with some who were there and they
all said it was a blessing

and privilege to be with child. But Dad, here on the

field many times pregnant mothers and children are seen as a burden, or they feel like they are a burden.

Pregnancy is a very dif-ficult time for some mothers and can really be a life-changing experience for some.

a lot of love and understanding, spiritual guidance, and of course the Word. (Amen! - Jad)

It's nice if you have someone spe

cial on whom you can depend, but many do not. I mean if a sister doesn't have a husband or permanent mate, can she depend on her Family to take care of her through thick and thin, morning sickness and all? I believe many mothers and sisters may get discouraged if they don't see some changes along this line soon. You've already really written enough about it in "<u>Ône</u>

Wife", but perhaps we need some-thing specific on it. (More less!)

I hate to see us lose precious sis-ters because we fail them right when they need us the most. They are a weaker vessel, and we need to bestow more abundant honour on them. If we could just stick it out and meet their needs, they'd be for-ever grateful and loyal to the end, as you pointed out in "Male or

Female".

So all this to say that I'm standing up for our mothers and sisters!

I want to see them FF'ing freely and living the Letters to the full, knowing that we, their brothers in the Lord, stand behind them and partake of their burdens of pregnancy and children (which are really blessings). (Amen!)

If they lay down their lives for their brothers in the bed of love. we must and should lay down our lives for them in their time of need! Hope this helps our precious sisters! I know you're doing all you can for us and we are eternally thankful. We love you and need you so!

Dearest Dad, I wanted to give you a gift Of something that would say "Happy Birthday, Dad!" In a personal way-

Not a gift that money bought You wouldn't use, so I thought, Better to spend this time with you Writing a love poem just for you— Coming from my heart engraved With the love of my David

Your mouth most sweet I gently kiss Your dear warm body with love caress pray that God will always bless Our love with moments just like this Spent together in His bliss.

I can love you with words I write In the calm & silence of the night & I can love you all the day Following your words in every way! -With love forever!-Ruthie.

The Family Needs Catacombers & Catacombers Need The Family!

18-year-old Ruthie is Handmaiden of a Catacomb Home in England: "You.don't have to be living in a Home to be 100%!" (DAD: AMEN!)

Letter from Ruthie Trusting, 18-year-old Catacomber in England!

Dear MO & Maria,

GBY! I'm writing because I've got such a heavy burden to tell you about the Catacombers. Catacombers are such an important part of the Family, but the people in our Homes don't really seem to appre-ciate this fact, and I feel that consequently the Catacombers don't get as much credit or encouragement as they should and don't win as much fruit as they could. We really need to help them know they are as important to God and the furtherness of the Cornels and furtherance of the Gospel as any-one else in the Family.

I've been a Catacomber for two ears and the MO Letters are the only leadership I've ever really known, and now I'm a strong, strapping soldier for Jesus! There are three of us "Cats" here in our

At first, the people in the Homes didn't really seem to take us seriously as full-time, all out, 100% disciples, which we were! However, the shepherds always tried to under-

stand and encourage and inspire us! I just want to say that you don't have to be living in a Home to be 100% and totally serious about serving Jesus! We are not playing games—we are serious!

We've won over 100 souls in the past two years, plus disciples, so we know God is working in us! PTL! Now at school we have kids who received Jesus and read MO Letters and are gradually becoming stronger disciple-material, ready to go out and win souls themselves-as "Catacombers"!

We started a Church of Love of our own, which is very important to us, because as Catacombers living apart we had to get together regularly for fellowship. God pro-vided us with a queen whose own daughter was in the Family, so we used her house. This "get-together" has proved very fruitful—the people who have come are much stronger than they could ever have been if we had only continued to write to them, or occasionally meet them

Now I'm 18 and out of school and home and have joined the Family full-time! I was not able to join when I wanted to, two years ago, because I was put under court order by my parents to keep me out of the Family.

The two other Catacombers, Abraham and Aaron, are both 17 Abraham and Aaron, are both 17 and have one more year at school. But we don't see this as a handicap—far from it! We are very much disciplined and try to waste no time. We found life was impossible without a schedule, what with all we had to do—school homework. writing to sheep, go out witnessing, etc. We even get up at 6:30 a.m. to get alone with Jesus each morning. Quiet times are so important when you have to go into the Devil's strongholds and uphold Jesus all y at school! (DAD: <u>AMEN!)</u>
God showed us a very important

way of witnessing—the mail ministry!—And prayer! Because with catacombers, open or personal wit-

nessing is limited.

When I first joined, I used to lie to my parents in order to get out of the house and go to the nearby Home or go witnessing.—And God didn't bless it. So now, we always tell our "Cats" to be truthful and to walk in faith. It's important not to cheat them but instead to honour them. We have to love them. You said, "Love never fails!" but at first I thought it was failing at home. But instead of giving up, I loved Mum twice as much and that didn't fail! It worked!

We do have some Catacombers who have no intention of dropping out when they finish school, but God showed us this is no reason why they can't work with us now
—we just don't expect as much from them as from those who want

to give their all.

Being a Catacomber is a lot harder than some people appreciate. It's much easier to work for Jesus It's much easier to work for Jesus when you are in a proper Home because there is always someone to encourage and guide you. When you're on your own, at home or school or whatever, you have to be determined to serve Jesus every wingth of every day. You have to minute of every day. You have to be on the offensive all the time

are so realous is decouse we get in-"flesh" of the Family around. We just have God and the MO Letters, and consequently we grow very strong and seem to have less trivial problems about obeying God's Word. (DAD: PTL!)

The Catacombers are very much part of the Family, being so much one with the spirit of it all. But we don't want bossing around. We don't want some guy in a Home suddenly springing up and saying, "I'm your new leader! I'm in charge of the Catacombers around here!" It's just never

worked-at least not for us. God has already reared us as real shepherds of the souls He sends. need to be more sort of "indigenous".(DAD: <u>AMEN!)</u>
At the same time, of course, we

eed the Family-their understanding and love; they are our inspiration and encouragement! Maybe that's why the Lord inspired me

to write you this letter:
The Family needs Catacombers and Catacombers need the Family! We are not "Other Sheep" as Jesus spoke of. We are His sheep— His real, proper disciples! God bless you! We're right behind you! With lots of love, Ruthie Trusting

The exciting results when a brother took a job in a fish's business! Written in English by Genesis, Spanish national, six years in the Family:

(Editor: This is a direct result and Fulfillment of Dad's Letter "The Bait That Fell in Love With a Fish"
No. 552. Lynn and Bemardo inspired it—and it's working! For a fuller vision, read the entire Letter!)

Dear Dad & Maria,
God bless you! Thanks so much God bless you! Thanks so much for your attention to us here, your care and concern! You have changed my life by allowing me to come here, and my whole personality and vision has been changed since I have been in this place. Thank you very much! I love you and I cannot avoid praising the Lord for all the blessings I'm receiving from Him through you! ceiving from Him through you!

First, when Bernardo asked me if I would be willing to come and

work in his restaurant "Los Qui quiriquis", I was shocked! It really broke my bottle! When I was 18 years old, I promised to myself, "Don't work anymore for money!" And I didn't from then. And I'm still keeping my promise, even working in this restaurant, because I'm not working anymore for money, but for the Lord and His Glory wherever I am, ready to change, ready to give my life for His people, living by love!

So, the Lord has started showing me the advantages of working in such a place. Finally, I got con-victed that it could be good and a blessing, as well as the chance of pioneering something exciting. I told Bernardo if he would need me,

Just tell me and I = I be ready to try it. The day came when he asked me if I would like to start working there 'cause one of his waiters left and he needed help urgently, and I started immediately after Sally asked me if I would be willing to.

That was 15 days ago.

As you know, that is a very nice restaurant, not formal or systemite, but simple and family, where the people feel very good, almost like in the middle of nature at their wooden tables and benches, plus eating and enjoying good and healthy

In the afternoon we have not many people, but from 7 to 12 so many people come daily that we can rarely have a break. Usually all of them leave satisfied. This restaurant is open for six years already. A lot of people are the same, coming time after time. Since I've been here I can say that a lot of interesting people come, making out of this place very interesting lake to fish in.

When I came, the cook was already saved and full with the Holy Spirit, a very sweet boy, just married, al-ways smiling and trusting in the Lord. I'm bringing Letters to feed him every two or three days.

Pedro, the waiter, 23 years old, as been teaching me almost every has been teaching me almost everything about the work, and indeed
I have been witnessing to him. Now,
he got saved and full of the Holy
Ghost! I'm sharing with him the
Daniel classes and feeding him
daily, as the baby he is. His life is
changing a lot and he is already witnessing. He is a real disciple just
starting.

He told me, "From your coming

my life has b en changed and I'm growing in faith by your faith."
Since he got saved, we have been going out some nights looking for girls to share with—a chance to ex-plain to him about what they need the most, and how we can give them the love we got from the Lord and what real love means. He really got the point and is growing so much. He is reading the MO Letters every . Is it not a blessing? TJ!

The other waiter, Domingo, a young boy just 15 years old but more mature than normally, is very sweet, too, and I have witnessed to him. He didn't receive Jesus yet, but I know he is getting the sample and the Lord is working in his life. Thank You Jesus!

Look what a team we have and how the Lord has prepared this res-taurant! Just one waiter left to get saved, and Lynn is working with us also. Isn't it something? I want to tell you that it is the loveliest restaurant I have seen in my life! Many people when they go, leave little notes of thanks for our kindness and friendship, written on the napkins.

napkins.

The Lord is really showing us how much we can affect people if we just love them. We are real servants, and the people can differentiate when they are being served with or without love. The possibilities of heirs a recentled and and bilities of being an example and a real witness for the people are many here. And I know that if we just grow together more, we are going to have the kindest and love-est restaurant in Tenerife, if not in the world!—If we just obey God and make this restaurant a real heaven-

ly one. (DAD: <u>AMEN!)</u>
All we have left to do is to keep ourselves faithful to Him, handling the business as a real part of the Family, making the same loving atmosphere you can find at home Lord help us to be faithful and

To me, it is just like pioneering a whole new field, in a whole new situation, with new kinds of dis-ciples and new methods of reaching people. At the present, I have been singing for the people too, giving them the message through music. I'm actually getting more English songs to feed and catch them. PG!

Just yesterday we were talking-Pedro, Jose and I-about how much we can do if we fight together to keep a lovely relation all the time between us, helping always in every thing, which is going to create the good atmosphere the people would like the most. In this month, the tips have grown a lot!

We have also been praying about what we could do to get the Word.

what we could do to get the word to everybody. So we were thinking on changing the little sentences written on the columns, those typ-ical old Spanish sentences, for MO quotes-something simple and GP and to write some others on every napkin, or even some Bible verses, something not too churchy, but something shocking enough awake them!—Curiosity, which can begin a whole conversation and a witness. Also, we think to put posters on the walls with lovely pictures that can give to the people a witness. How does that sound?

Also, we are thinking of having tomathing like a regular meeting.

all of us, to speak about how everything and everyone is going, to share something from the Word, to give testimonies, to grow together as a family. We have to pray about all these subjects to start with them, but I would like to begin right away getting out on the water all the hooks and baits we have to start reaching all those people. God help us! (DAD: GREAT!)

Just to think how many possibilities we have, it makes me jump! If we would be faithful to give a good example to everybody who came, do you know how far it could go? Those people are com-ing from all the world and going back every two weeks. I'm sure they can spread our sample and witness to all the world.

In fact, many of them come be-cause friends in England told them to come to "Los Quiquiriquis" during holidays in Tenerife. And others, when they leave, say, "I'll send my friends coming next week for holidays." So, looking at all the possibilities, I think it worth our special attention and care to our special attention and care to try to use the restaurant as you yourself, Dad, suggested one time in "The Bait That Fell in Love With a Fish".

We're already growing to have a get family (Horse) in the restaurant

real Family (Home) in the restaurant, sharing more every day one with each other about how the Lord is working in our lives, even praying when eating together for lunch.

Just today, Bello, a 50-year-old man, who comes daily for lunch, a simple but interesting man,

of E.S.P., started talking about his experiences in it. As he saw we were believing him, he just poured out his feelings and fears.

I was talking about you and your experiences with the spiritual world, and also about some examples in the Bible, really feeding him. He got so interested and sucked me for answers that he forgot totally the food. When somebody let him know that the food was there un-

touched, he said,
"I'm sorry but I'm eating—
spiritually—and I have enough. I
don't want the meat, I'll pay for it
but I can't take any food." And he
didn't eat lunch, but when he left the restaurant he looked spiritually satisfied. When I told him, "How hungry you have been for so long time!", he answered me affirmative with his head.

I love you a lot, Dad, and I hope

you'll get the right vision through this letter about how "Los Quiquiriquis" is and what a job it is for the Family to use. If you have some counsel, we would like to hear it. Please pray for us and our ministry over here. I know how much you would like to hear about how much this restaurant is being used for the Lord's glory, and I think the Lord is finally starting with it. (DAD: A dream come true!)

I would like to encourage everyone who has a job in the system to fight right there, looking to change his part of the world and making out of a systematic job a whole instrument for His glory. I'm sorry for all my faults writing and think-ing in English. I love you very dear-ly and I'm praying for you. Thanks again for all your love and care for all of us. Love and love and love, Genesis. (DAD: <u>HALLELUJAH!</u>)

Another Homo Healed!

Dear Dad & Maria,

I just wanted to write to you to
let you know how thankful I am to
be in your and the Lord's Family. I've been in the Family seven years and am married to a very precious girl and have three very sv veet daugh-

After reading "A Plea From A Homosexual" in the Family News Vol. 4, No. 10, tears came to my e I felt that was the story of my life for the past three years. Mostly it was these terrible "feelings" or "tendencies" to lust after others of my own sex. A couple of times I nearly left the Family because of it.

me as I kept fighting it. I never really understood why it was such an abhorrence to God or why He hated abhorrence to God or why He hated it so much. Yet one thing that kept me holding on was once in prayer 2½ years ago, my wife and I received the verses about Adam and Eve and their eating the apple. They didn't really know why they shouldn't eat, but the Lord just said don't and they needed to obey

they needed to obey.

It was when I read the Letter "Homos" that I received a real vic-tory over this. It happened that after reading this Letter, these tendencies seemed to enlarge almost as though God was trying to bring it dalways continued to bless all to the surface

My wife and I decided to take our next freeday to fast and pray about it, as was suggested in the last part of the Letter. It was that day when we fasted and prayed that the Lord really showed me my situation. For me it was like a sickness that needed healing. And Dad, just as God healed you from your physic sickness when we all fasted and physical prayed, God healed me through our fasting and prayer! That was about two weeks ago, and I've felt so different since then.

Occasionally, the temptation arises, yet I feel enveloped in a Spirit of God's Love or protection like in the Letter "Spiritual Communications". It just doesn't affect me like it old before. I'm different! Praise Goo!! (DAD: Hallelujah!)

I have always felt a special concern

and understanding for these h guys, and now I have something I didn't have before—the victory over it! Before, I could sympathise with them and relate to them, but what did I have to give them when I didn't have the victory?!—At least not over the "feelings" or "tendencies". Like any other abnormality or affliction, God prefers to give the victory over it, so we can be whole in mind, body and soul!

I'm very thankful that God has I'm very thankful that God has changed me from this! Thanks so much, Dad, for going through your recent illness with such a great victory and this very valuable lesson on fasting. I love you! Thanks so much for your love through your Letters. We couldn't make it without you and the Lord!

Love, J.

A Father's Prayer

(Author unknown)
Sent in by Cephas Legend;
Alberta, Canada Refuge Farm.

Listen son, I'm saying this to you as you lie asleep; one little hand crumpled under your cheek and the blonde curls wet on your damp forehead. Just a few minutes ago as I sat reading my papers in the office, a hot stifling wave of remorse swept over me. Guiltily, I came to your bedside.

These are the things I was think-

ing, son. I had been cross to you. I scolded as you were dressing cause you gave your face merely a dab with a towel. I called out angrily when I found you had thrown some of your things on the floor. At breakfast, I found fault too. You spilled things. You gulped your food. You put your elbows on the table.

Then it began all over again in the later afternoon. As I came up the hill road, I spied you down on your knees in the dirt. There were holes in your stockings. I humiliated you before your brothers by making you march ahead of me back to the house. Stockings were expensive—and if you had to buy them you would be more careful: Imagine that, son, from a father! It was such stupid silly logic.

Do you remember later when I was reading in my office how you came in softly, timidly, with a sort of hurt, hunted look in your eyes? When I glanced up over my paper, impatient at the interruption, you hesitated at the door. "What is it hesitated at the door. 'you want?" I snapped.

You said nothing, but ran across in one tempestuous plunge and threw your arms around my neck and kissed me again and again, and your small arms tightened with an affection that God had set blooming in your heart and which even neglect could not wither. And then you were gone pattering upstairs.

Well, son, it was shortly afterwards that my papers slipped from my hands and a terrible, sickening fear came over me. What has habit been doing to me? The habit of complaining, of finding fault, of repri-manding-all of these were my reward to you for being a boy. It want that I did not love you, it was that I expected so much of youth. It was I was measuring you by the yard-stick of my own years.

You did not deserve my treatment of you. Your little heart is as big as the dawn itself over the wide hills. All this was shown by your spon-taneous impulse to rush in and kiss me goodnight. Nothing else matters tonight, son. I have come to your bedside in the darkness and I have knelt there choking with emotion and so ashamed.

And I have prayed the Lord to strengthen me in my new resolve.
Tomorrow I will be a real daddy. I will chum with you and suffer when you suffer and laugh when you laugh. I will bite my tongue when impatient words come. I will keep saying as if it were a ritual: "He is only a little boy."

Dear son! Dear little son! A penitent kneels at your infant shrine here in the moonlight. I kiss the little fingers and damp forehead.

LETTER of LOVE from a MEMBER of MO & MARIA'S STAFF!

Dearest Dad.

I love you! Well, a note and letterwriter I'm not, and I'm fortunate to be able to tell you daily that I love you and to show you with hugs and kisses and little things. But time and my pride don't usually let me tell you the following:

I need you! And I'm so very thankful for you and how you yield to the Lord, feeding us with His Words. I respect the Lord in you and you as my Dad, a true friend and the kindest and most thoughtful

lover. Thank you for your love and forgiveness as well.

Yesterday, sitting in your lap and looking into your warm, understanding and truthful eyes, a very beautiful wave of peace and relief ran

through and over me.-I felt your

love in a very different way—
Relieved to realise you had for given me for my recent mistakes and that you love me in spite of my foolish self. I really thank you for that, as I have never fully had that love from anyone.

In this little loving family, we all love and help one another wonderfully, but you're TOPS, Pops! And I'm yours forever and always! Thanks for knowing each of us, caring and meeting our needs. Lord help us to help you in whatever way possible!! Love, Sue. way possible!! Love, Sue.

("For He is our peace, who hath made both one, and broken down the middle wall of partition...!"

LETTER from EMMANUEL & HANNAH, KQS's of N. EUROPE, about-

LIVING THE LETTERS!

Dearest Dad & Maria,
God bless you! We wanted to write about some general tendencies we saw in quite a few Homes. The Visiting Mother, Diamant comments after visiting several Homes touched on many problems and have helped to confirm many of the problems we saw when visiting the Homes.

The main thing we noticed is the fact that in many Homes people still don't take the Letters seriously enough and don't think they can live them, especially in the so important little ways. How we wish every-one in the whole Family would know that the King's house is not an "exception" but a sample of what it should be like in each Home!

In a way, many people have become numb to the circumstances they live in. Many, too, have the attitude that the RNR was only for the leaders who had done so much wrong, so they tend not to feel the desperation to change. It's much easier to blame everything on six easier to blame everything on circumstance or the mistakes of others, rather than their own disobedience.

Others tend to think that what happened to them before the RNR was a "mistake", meaning "God made a mistake". They don't see that God let those things happen to accomplish something in their lives. So in some cases, bitterness crops up. People go from one extreme to the other-from enduring everything to now not being willing to accept lessons as applying to themselves.

In a way, it's understandable, but still it needs to change.

Here in our house, the head translator said something the other day that we felt brought to light another side of the problem a lot of the Homes are having: He commented how at the other Home he was in that they barely managed to read the MO Letters together and never read the "Davidito" Letters or "Family News" together. Even the MO Letters, he said, were just read but rarely discussed together. It was more just "doing their duty" in reading them reading them.

It seems that so many Homes get so busy with everything they think they have to do that someho t really take time to apply the Word, especially in the always-so-important little things in their own situations.

At the Home where the German VS's live, they (the VS's) were even actually accused by one member of their Home of "having too high standards" when trying to organise the schedule! It's almost like people actions after with self-imposed get into a trap with self-imposed pressures of finances and day-topressures of innances and day-to-day living, and they don't have the vision that the <u>answers</u> to all their, even daily, little problems are right in the <u>Letters!</u> They miss really "living" all those important spiritual principles and so many get bogged down with the cares of this life.

Some people at this time seem to be doing little more than just trying to "make it financially". So, they

spend a whole day out litnessing and end up accomplishing only as much as they could have in just two hours, if they pressed in and made better use of their time!

You'd think every Home would have train, bus or tram schedules, so they could plan and not have to waste time waiting to make connections. But many Homes we've seen or heard of do not! (Editor: The Checklist-F2-includes a bulletin board for such helpful reasons as this!)

Also, it seems that people in the Homes don't realise how vital it is for each of them to accept their individual responsibility. It's taken some people a long time to "grow up" and take themselves more seriously and realise that they should

be doing more to live the Letters.

Especially with the Home Servants,
we've noticed that the trend is not that we're having dictators, but that the Servant is not taking the job ser-iously enough and is not being the "spiritual elder" or really "living" all the things Dad has to say about leadership in the Letters.

So most importantly, we have tried to get people to see that it is already written in the Letters and that their problems are all due to disobedience to what Dad has already

Another thing is that a lot of people have decided to make major moves on the spur of the moment, and in Northern Europe we have very few really well-established works as a result. Another sad result is that too often our parents lack the help they so desperately need with our children through this

A few days later we were quite surprised to hear that he wanted to stay with us for a week! His orientation class was over and he needed a place to live before flying to California to continue his studies. week before, we had asked the Lord to lead us to foreigners whom we could FF and witness to. So we felt that this was a set-up from the Lord to continue our witness to him and show him a sample.

While W. was in our Home, we had many long, long discussions with him. He is really an intellectual and was amazed at the simplicity of the Bible. He kept exclaim ing how he'd never met anyone like us. He agreed with us on almost everything, but couldn't quite understand why we had to base it all

on God. One night he told me, "I'm like One night he told me, "I'm like Doubting Thomas. I've got to see to believe." I was the only girl in the Home and at the time I was eight months pregnant. We prayed that God would use me to bring him to Jesus, so one night after going for a walk and spending time talking with him, he and I spent a couple of hours together in bed, and he was truly appreciative and really happy!
While I was jacking him off, he

suddenly got a sharp pain in his side. He explained that he often gets these pains and that a doctor said he has a problem with his liver. He said the pain always lasts for several hours and sometimes all night and that he has never been able to have an orgasm the same night in which the pain occurs.

He asked me to pray for him, so I prayed for his healing and also

disorganisation and everyone moving about so much (besides some people just not being willing to help!)

We're happy to report, though, that the RNR has improved the Homes so much and people are learning! So many of these problems were hidden before and are now being brought out in the open to be solved. It is so encouraging that the vast, vast majority of the Family want to and do change. It seems like it's just a slow process for us all to grow and learn to be the leaders we'll need to be in the hard days to

How much faster we could go, though, just by being more obedient. Lord help us! One thing we can see (as Dad has said) is that the VS's are a real key in this. So we want to really encourage them to keep going and not to compromise their convictions one inch but to keep reminding people to be real samples of the Letters.

Thank God for such a patient, loving Shepherd who feeds us so faithfully! We need you! With much, much love always—
Emmanuel & Hannah

KQS's of N. Europe

that God would use the experience to show him that He is real. About two minutes later he exclaimed that the pain was completely gone! He was so amazed and happy! He wanted to see if he could also have an orgasm, and to his amazement he did! Hallelujah! He said it was too miraculous to be a coincidence.

Then, when I asked him about re-ceiving Jesus and shared a couple of salvation verses with him, he prayed in Polish to receive the Lord and asked God to show him about this and other miracles that had hap-

and other miracles that had happened to him since meeting us.

The following days before he left, we noticed that he talked more kindly about his wife and said he wanted to help her. The day before he left was his birthday, so we had as surprise party for him and gave him a Polish Bible as well as a pack-age of MO Letters. At the party we asked him to read aloud John 3:16 from his new Bible, and he exclaimed how beautiful it was, like poetry. We parted as good friends and plan to communicate through the mail as he continues his studies in Calif-Omia.—Kanah Benjamin; Washington. D.C., U.S.A.

P.S. I wanted to add a short note to Kanah's testimony because for us personally this pregnancy was quite a miracle. Kanah has always had a difficult time carrying children and with our first two she had to be in bed for some time.

But during this pregnancy, she has been able to continue in almost completely normal physical activity!
So this FF expereince was doubly inspiring for both of us! TYJ!

<u>SUGGESTIONS FROM</u> <u>FAMILY CARE SERVICES!</u>

Seeing from recent reports how obviously and desperately our parents with several children need help with their kids, why not offer to be a help to weary parents in your own Home by offering to colour in their Family Care Teaching Aides?!

All you need is a little relaxed

time and an assortment of coloured felt-tip pens or coloured pencils and you can be a great help in preparing our children's teaching aides just by colouring in their MO Letters, Readers, Flannelgraphs, etc. made by Family Care Services for our Family! We'd really appreciate your help! Love, Every Parent of Family

Children.

ATTN: DIETERS & FF'ERS!

Trying to keep up your FF figure?

Dieting getting you nowhere? You need some vigorous exercise!—So why not volunteer for a one-hour playtime with the children in your Home daily? Run races, kick a ball, jump rope. "Don't just sit there, do something!" Hallelujah! And the parents and kids will be so grateful parents and kids will be so grateful for that one hour's time for other duties! Why not try it? It works!

CODDLE CORDUROY: To keep corduroy looking its finest, neve iron it on the outside. Turn it inside out and steam iron gently.

A PG's FF TESTIMONY!

We first met W. through a friend who asked us if he could come to dinner in our Home and talk with W. is a 32-year-old law and philosophy professor from Poland who three weeks previously had come to the U.S. on a Fullbright scholarship. Besides Polish, he also speaks Russian, German and English.

From talking with him, we learned many things about his life in Poland and that he has been an atheist since the age of 15. He told us that his marriage was ready to break up and about the concern he has for his children who are still in Poland with his wife.

INDIGENOUS CATACOMB EXPLOSION!

by Peter Revolutionary, Catacomb Servant in Thessaloniki, Greece

How one Greek Catacomber, with the help of only the Lord and the Letters, started a Catacomb Explosion resulting in 16 Catacombers and 20 Friends!

It all began last June when the earthquake hit! I was feeling really down because I had to take some exams at the University. I knew the Lord had something better for me and I was praying with all my heart to deliver me from this nonsense

Then a small earthquake hit Thessaloniki. The Family here fled to a nearby small village where it was safer. I spent almost two weeks alone, praying and memorising scrip-tures. I had the worst battles I've ever had, but the Lord delivered me, clean and broken for His use! PTL!

Then on the 20th of June, Thessaloniki suffered the greatest of the earthquakes. The three full-time*

members of the Family that remained left and I lost contact with all the other Catacombers. Nevertheless, I was happy!—No exams! So I was free to do the Master's work!

Every summer for the past eight years I had gone to the sea resort of Kallikratia, and I had a lot of friends there. So armed with my last 60 pieces of lit, I went there. I gave them out and waited for the reaction. At the same time, I was FF'ing two girls.

My first full-time fruit was an old

friend of mine, a student in Crete.

We started meeting each other seary morning in a small fourist.

I got almost frightened because they were crying and praying so hard, all of them! It was the first time I saw such a heavy outpouring of the Holy Ghost to so many peo-

By the end of the summer, there were 16 Catacombers and 20 friends. Everybody in that town was talking about the Family of Love! Some angry parents wanted to take us to court, but God kept us safe! Now we are organising ourselves in Thessaloniki, winning souls every day! Pray for us! We love you! Peter Revolutionary.

| Made Love For The First Time In My Life!

by a Prison Cataco

(I received a long letter from a brother who has been in prison for about twelve years now. He'd never had sex before one of the sisters made love with him on one of his weekend parole visits to the Family. Here's his account of what happened:)

In the evening most everyone went out FF'ing, so J. and I were left alone with the children to look after. I enjoyed that because I love kids! Later on after the children were asleep, J. and I were alone together. I was in one heck of a state and found myself wanting J.

For 35 years I went through life not needing love with a woman So that night I wasn't sure what was happening to me! But I knew one thing—I was going to make love for the first time in my life!

J. saw my need and we left the room to go to my bedroom. Well, before I knew it—oh—I could hardly credit that J. and I were going to love each other in the sight of

determined to do was to be a good lover! Whew!

J. was so good for me and really helped me get rid of all my sexual hang-ups. I am, to say the least,

liberated in more ways than one! Thank You Jesus! I slept like a baby that night!

J. and her husband B. saw me off on the bus the next day. I was pretty choked up because I was leaving behind the Family that I

loved. B. was really terrific to me! I really got a sample of the unselfish love shared by the Family.

I often wondered if I were to make love to a member of the Family, what would be the behaviour after-

ward of the household and especially if it were a married woman. Well, I got my answer from B.—

He was so happy for me and kissed and hugged me! That really blew my mind! Anyway, I went back to prison with a new light in my life and a true awareness of the Family and a new fire within me which made me want to witness more and more!

Not that he can sign them all, but he understands what they all mean, so it is just a matter of time until so it is just a matter of time until he can begin to also use them.

He hasn't had much outside help, as the system educational facilities for deaf children are sorely deficient here in Puerto Rico. There is no real pre-school programme at all, and children don't start training until they're six years old, which is of course too late and a shame.

I've prayed for Anne Sullivan (the "Miracle Worker", Helen Keller's teacher) to be my spirit helper and with the Lord's help we've been making good if not excellent pro-gress! Zion is really blessed with a loving and affectionate spirit. Please pray for us and his progress; we know the Lord really wants to use him in a mighty way some day.

Also, we are praying to find some one in the Family to work with Zion (he works really well with others, often better than with my-self!). They don't have to know sign language, as I could teach them.

I love you so very, very much and am so grateful for all your love, honesty and sacrifice. Your sample and conviction has truly changed my life and renewed in me a "right spirit". Thank you so much. Yours in Jesus, Uriah Shondo.

P.S. God has answered our prayers and blessed us with a new childcare helper and wife, Casiphia, thus easing the load and giving me more time to spend with Zion, plus a lot of extra love and attention for Papa, too! Sharai is due to have our 4th baby at November's end.

After reading "Your Two-Year-Old Can Receive Jesus", I prayed with Zion in sign language and he got saved!! Thank you so much for that Letter! —Love, Uriah.

Becoming One & Witnessing At School!

They kicked me out because I was sick with a bad foot and a cold for two months, because in the rainy season it's freezing in the morning

(I had to wake up at 5:00) and I'd get drenched because of the torrential tropical rains. I missed the exams and the education system here kicked me out for missing too

I'm in French classes now and have much more time to help Mum-my who has just a little help for

my who has just a little help for tons of work.

I will tell you a bit about witnessing in school. In grade school, when the teacher leaves the room, you can witness while everyone is making a scandal, you can do individual witnessing by getting best

a full sample.

If you want to mass witness, you can bring your guitar. All my school friends would crowd around and I could witness tons! One thing I had to be aware of was not to be stopped by a spiteful minor-ity of "goats". Systemite kids this kind are usually as changeable as weather-cocks and one day will say, "I'm your friend" and the next day say horrid things. They usually go get people on their side, against you. You must not freak out, but ignore them and sock it to them with the Word.

It's really good P.R. if the Family mothers invite the kids' mothers to tea, etc., because that way they can get the parents saved also and

In my school, some kids would
go and sleep at their friend's house
for a night. This is good, because
in our case, they could have inspiration, Bible and MO time and re-

Another good time to witness is when they've bawled someone out for a stupidity like low grades. The person is usually very broken and sweet, even the "goats".

When I got to seventh grade, I

really fought against evolution. Every other seventh-grade class got an exam but us because I wouldn't let the professor give the subject! Ha! Praise the Lord! They had to listen to me because I was one of the best students!

I won three diplomas and one medal and my average was 91 and up out of 100. I got so well known for standing up for Jesus that when-ever I was with a group, they'd start talking about Jesus, God, etc.

-Some, to tease, others unconsciously, but I'm really happy that they knew what I stood for.

If you give clever arguments (from the Letters), they just have to listen to the truth!

22 Sept. 1978 Dearest Dad. God bless you and keep you. We love you and pray for you so often. You are constantly on our hearts and in our thoughts. I've hearts and in our thoughts. I've tried to write this letter many times; I've completed it twice but never mailed it, so this time I'm just going to write it and mail it.

Thank you for your letter to us of July from Timothy. We're sorry you didn't know how to mail to us but you had given our address to us but we had given our address to Rachel on the phone as well as having left it with the office in Peru, (DAD: U were supposed to have left U.S.!) and we did receive

LAMENT!

Peter's mail fine. I really feel bad about not having written for so long but the reasons are 2 very simple ones: We had really been hurt by finding ourselves back in the U.S. (DAD: Ditto above! - U were supposed to go to Australia or Mexico!)
after 7 years of service on foreign fields and were having difficulty sorting it all out in our minds, and the daily work of mere survival was so much that it was difficult to find one minute of spare time to sit down, (DAD: -To earn \$1000?!) as we usually literally fell to sleep every night at 8 or 9 o'clock. For quite some time there was only Deb, Joy and myself taking care of 10 children which was quite a job to say the least (DAD: U disappoint-Your teens should help!), and try-ing to readapt to a new style of liv-ing for both us and the children proved to be a long tedious task. We are still adjusting but faring much better now thank the Lord. The change was also quite difficult (DAD: Why did you change? Why didn't you go to Mexico as requested?) on the children particularly on

the older ones who are able to reason quite well on their own now, who couldn't understand what was happening. They all loved Peru and their friends so much (DAD: Too bad you didn't love your flocks as well!) it was quite a shock to them also. However things are much much more well adjusted now and everybody is do

ing much better now.

I want to thank you for the financial help, you so generously gave (DAD: We heard you were complaining of being mistreated!), and we want you to know we feel it was more than fair, and we are very grateful. In answer to your question of do we feel we don't need the checks or have we left the family: We don't feel we've left anything, we feel we were sent away (DAD: You were demoted for many reasons which you know, but given your choice where to go on paid leave!) and asked not to bother any of the local colonies which we tried to do. Our ideals and goals have not changed a bit only an immediate type of living, the only thing we have not done is to write. (DAD) ou have not gone to Mexico, Cenrou have not gone to mento, central America or Colombia where suggested—nor reported—enough for excommunication!) It was quite a job to get our lives reorganised in San Francisco and we tried our best to be obedient and leave for the Santh Colombia (1988). South (DAD: & left a \$700 phone bill!). We searched diligently daily on: We searched unigently daily for something to live in, when God miraculously supplied a 28 foot motor home, it looks almost like the Ark believe it or not. (DAD: They must've been pretty well-financed!)

After moving in we raced for the border of Mexico still trying to follow your wishes, but arriving there vere now down to about \$150. We tried for a week to get a phone to answer in Madrid to no avail, finally in desperation I asked the Lord to give me something and like a flash it came, call Rome. We did and got Rachel on the phone. "What a miracle". She told us about the financial problems and then we found out you could only send us \$900. (DAD: That's more than we and most missionaries began with!—We went to Europe on \$1000 with no home! That's a poor excuse! You know we would've sent you more if you'd obeyed!—& we did!) It was then I knew we couldn't go to Mexico (DAD: Why?—Not on \$1900?!), so we moved to the cheapest living quarters we could find and began to readjust ourselves to fending for our-selves. And that's the whole story with the details left out. (DAD: Ha!)

When we got some of the Family News and read about ourselves really couldn't believe that that couldn't believe that that kind of stuff would or could be printed, most of which was untrue or slanted (DAD: It was amongst the many ed (DAD: It was amongst the many reasons you were demoted—quite true, as attested by all!) by the egand spirit of persons whom we know don't know or hear from the Lord very well. (DAD: They're doing very well in your place!) For a while I was so mad I wanted to write a defiance letter but I finally

"My friends didn't need an explanation and my enemies wouldn't believe me anyway" so we just didn't write at all. (DAD: -A poor excuse for not reporting when receiving \$1000 a month!)

The first letter printed about

Latin America was written by a back-slider colony shepherd who refused to litness or witness and whose colony was closed when the rent became \$1100 behind, which of course the office there had to pay for. Most of the other "Letters" were similar so we finally decided somebody must not like us over there. (DAD: <u>Too many!</u>) Anyway, this is not a defence but a mere exthis is not a defence but a mere explanation of how we felt so you'll understand. Deb literally went Crazy (DAD:—Don't blame her!) under the pressure of the situation in S.A. and really should never have been allowed to go through such an endeal in her merel condition, so I ordeal in her mental condition, so I don't think she can be held 100% directly responsible for anything that happened. For the sake of the kids it's seemed better to have a live mother than a dead one so any

mother than a dead one so any other decisions made were based on that. (DAD: -Such as sending for Isaiah ["Alexander the Evil Magician"] one of the things forbidden by terms of your leave!

Be all this as it may, we love you the same as always (DAD: Then why didn't you report and obey?—Same ol' JT!-Always doing it your way!) and we have tried to carry on the way we have instructed others in the past, witnessing, litnessing, in the past, witnessing, litnessing, in the past, witnessing, innessing, taking care of strangers, and inspiring those the Lord sent along. It seems the Lord has blessed us and we have had much fruit. (DAD: Who?-Other backsliders?) We've been offered 3 record contracts and one movie contract, but at this

time we have chosen to wait and not get involved too deeply as yet. We could go on page after page of people we have met, experience we have had but won't here.
For financial survival we have done

singing shows in hospitals, restaurants, hotels and the beaches and any other places the Lord led us. (DAD: Mostly churches we hear!) With the help that you have been sending us (DAD: You didn't seem to need it, not even reporting nor obeving!) we have made ends meet somehow. It have made ends filed sollier to see God provide, and so far we've not lacked, nothing over either, "ha".

As far as your continued support is concerned (DAD: That was conditional if you kept the terms of the properties observing observing observing.

your leave: Reporting, obeying, leaving the U.S. and not communicating with Isaiah—none of which you have kept!), I suppose you'll have to make that decision, under have to make that decision, under the circumstances, we have done what we had to do and what we had the faith for. The only thing I can say to sum up how I feel is, I have given my life for the work, and I have served the Lord and you to the fullest of my ability, to me before the Lord I have given my all, 100% of everything, my biggest regret is that I have never seemed to be able of everything, my biggest regret is that I have never seemed to be able to do the job the way you liked it done. (DAD: Only when you obeyed!) I really don't see how the job in Latin America could have been done better (DAD: It is now!) nor do I know anyone else capable of being alone for 2 years (DAD: You were never alone!) who could have. But maybe that's because I'm so far away from headouarters. so far away from headquarters,

as it used to be and I have become concerned over my heart. (DAD: -Sorry. But it's always hard to have faith for health when you're out of God's will! - You've also been drinking too much a long time!)

I just don't think I could withstand too much more of the type of events I just went through. I take these things pretty hard. (DAD: "The way of the transgressor is hard"!) and I honestly thought this last one was going to kill me. So may God's will be in this whole matter, I'm so sorry I have always matter, I'm so sorry I have always been a bone of contention, and a stumbling rock. (DAD: -We're sorry too!)

We all love you, and pray for you, we are glad you're feeling better now. Praise the Lord. May God

bless and keep you.
Love, your son, Jethro.
P.S. We would like to have the belongings left in Peru. (DAD: You know our rules: "Forsake all"!-

Especially when you <u>leave</u> the Family!—You can't take it with you.— However, we've told them to send you your <u>personal effects</u> only-<u>clothing</u>, etc. - All <u>else</u> is <u>Family</u> property, as you well know!) A property, as you well know!] All our household goods were left for the work—only packed were personal items and clothes of Joy and mine which will not do anybody very much good, but we would like to keep the keepsakes collected over the years. Also, Deb's files and library takes up the most room, 10 or 15 trunks (DAD: You know these are not hers when leaving the Family.—But we've asked for a complete inventory of the contents. complete inventory of the contents, and will send what we can.) but she would like to keep it as it will help her in her <u>future writings</u>/DAD:

-Who for?) and we don't think anyone else will use them. Please may we have what's left, we tried to forsake everything that could be used there. What's left means a lot to us. Our former disciple has a shipping company and will help us. Please. company and will help us. Please. We only tried to pack the things we wanted and needed—the trunks there are for 17 people (DAD: Who are they?) plus a school (DAD: —Belongs to the Family and not you!—and you know it!), it's really not much. Please help us! (DAD: Since you are neither obeying nor reporting your full activities and have Isaiah with you, we certainly can-Isaiah with you, we certainly can-not give you what we promised, as you've left the Family obviously. However, in view of your past work, large family, hardship case and our sympathy for a backslider, we will continue to send ½ as much to help you out-provided we receive a full,

Bleeding Gums: When praying about why Baba, age 2, had developed bleeding gums even though she eats lots of vitamin C, Jesus told me it was because she did not faithfully thoroughly brush her teeth and gums afterwards. In only three days' time, after thorough brushing after Vitamin C chewables, no more bleeding gums! PTL!

Cod liver oil is the best source of vitamins A & D as a supplement for children. But it must always be refrigerated and kept out of the light and given with vitamin E. One-half teaspoon or less is usually adequate for a baby under one year, then for a baby under one year, then gradually increase it to one teaspoon a day until age 8, then 2 teaspoons or more. Always give cod liver oil after a meal containing the most fat, because the fat helps absorb the vitamins. If someone doesn't like the oil, then drops of vitamins A, D and E should be given directly on

the tongue after a meal containing the most fat.

Brewer's Yeast is a good reducing food. It contains almost no fat, starch or sugar and it satisfies the appetite and gives you the energy you need to work off the kilos. Start slowly by taking a half-teaspoon of yeast in a glass of juice until your system can adjust. The more trouble you have with gas from taking yeast, the more it shows you need it because you have a vitamin B deficiency. Find a brand that tastes good and keep at it, increasing slowly until you can take a big heaping spoonful in a glass of juice, milk, soup or in yogurt with honey. Don't eat uncooked baker's yeast, as it grows in the intestine and absorbs vitamin B! Powdered brewer's yeast is preferable to flaked yeast, which usually has a lower vitamin content, and tablets have the lowest content.

THE Miraculous Boat Dream!

Sara Davidito's amazing dream about our full-of-faith Family Care Servants!

Dearest Family Care Servants, I just can't wait to tell you the dream! had about you the other night! I was thinking and praying about you as I fell asleep, and I dreamed a long, very vivid dream that I wisted was I had a long. that I visited you in Rome, like a surprise visit, although I had called when I arrived that I would be coming to your house very soon.

When I got there, I found a big, big old apartment, a nice place, but literally full of children! I have never seen so many children! It was like the old woman in the shoe they were crawling out the windows, crawling on the furniture, jumping

crawing on the furniture, jumping everywhere—just far too much work for anyone to put up with!

Sweet Sarah was right in the middle of them, offering if I needed anything, etc., but I just decided I should wait in the living room weith should wait in the living room until everything calmed down, so I could meet together with Sarah, Paul, Zeb and Terry. Well, the funny thing was, it never settled down!

The kids did very well keeping themselves entertained, and I remem-ber seeing Zeb's wife Anna running around after all the kids, and the tiny little office work space with papers piled far above the head that

looked like a place where Paul would work.—Ha!

Finally, the kids got settled in bed and Paul came rushing into the room to greet me, then said that this was no place to work, but if we wanted to get together, we'd have to cross the ocean! So we prepared for an excursion, packed up bags, loaded up kids, clothing, picnic foods, etc., and all piled into a little boat at the edge of the ocean.

We piled all these scads of kids into the boat, tons of bundles, all our apers and books, and there was Paul at the stern, driving our little motor boat with Sarah and Zeb at his side, and me holding on with all my might!

The ocean was terribly rough! There were gigantic waves, like a tempest at sea, and we could even see over-tuned boats right in the bay as we were taking off, with floating bodies-obviously people had tried to cross this ocean but never made it!

l was scared to death and praying and said to you all, "Are you crazy? We're never going to make it! This is impossible! We're not going to make it across this ocean!!" But I felt bad for being such a doubter, so I kept my mouth shut and didn't try to discourage the attempt at all. try to discourage the attempt at all.

All of you were so firm and so full of faith, like it didn't even phase you, and Paul said, "Oh, don't worry about it. This is something we do every day!" And off we went in o And off we went in our motorboat, full speed ahead, bumping every wave head-on and rocking the boat. But none of you nor the children even blinked an eye, when I was scared to death seeing the circumstances for myself!

Well, we made it across the ocean well, we made it across the ocean and it seemed like nothing; it seemed like no time at all. We piled out of the boat, got all of our papers together and sat in a beautiful, peaceful little place on a secluded island, and there the kids got busy and Ana Marie was helping, and we got lots and lots and lots of work done in a short amount of time!

When I woke up, it was obvious that you "sailors" had such faith, great faith, to overcome those waves of doubt and fear and impossibiliof doubt and fear and impossibili-ties, that it is just something you do everyday, and that's how the work has been getting done thus far in Family Care, PTL!!

I'll never forget the look on your aces, and after I woke up I felt like I had really visited you, to the point that the next morning I told someone in the house, "It was so good to see Sarah and Paul again!"—Ha! It was only a dream, but maybe a reality!

It really encouraged me and gave me a little insight into the "impossibilities" of your house. But yet "All things are possible to him that believeth" and "by their fruits ye shall know them". God bless you all for your faithful, fruitful, daring, dangerous, exciting and rewarding efforts.—And God bless the children, all 11 of 'em and their three dedicated helpers!! Love, Sara.

PROBLEMS WITH AN-

Unloving & Jealous Husband!

A letter from Marsena Davidson, U.S.A. With comments & solutions from DAD!

Dear Dad & Maria, 4 Sept. 78 I have so much on my mind and heart lately that I want to share with you. I hesitate because I don't want to put any unnecessary strain on you. I love you dearly and feel much closer to you than my flesh parents. You seem to know what I need or rather the Lord does, and you're faithful to write it down So much of what has come out later ly in the Mo Letters, I have needed personally, especially the ones on childcare. They have really helped the single people to realize how important the care and training of our children is. Even my own husband has usually tended to put the chil-

We seem to disagree on everything. but we have stuck it out for six years. During this time it hasn't been easy and I have often felt that I would be more fruitful and happier without him, but I have also felt that it was my duty to stay with him and help him.

One of the main things that makes my life with him so difficult is his

ng nemonality. He is t both with me said the children more than anyone else. He has an unfriendly personality with others also so it has been difficult to live peaceably in almost any Home. I didn't realise that he was this way when I first married him.

Every year we have had a child, so now we have 4 beautiful children and one on the way. This is the main reason I haven't left him before Also he had me convinced that I couldn't make it on my own and that none of my family would want to help me to raise the children. Actually though, I should have realized that I have given them most of their training virtually on my own with the Lord's help (when I am weak, then is He strong, PG!).

Since the RNR Letter, I have made love with several single brothers Jacob wanted me to, but he still Sometimes I don't feel that it's worth it to share with others if it's going to affect him this way.

He's on the verge of violence so much that it makes me very afraid. I have had to continually quote verses like Isa. 26:3 and 2 Tim. 1:7 and 1Jn. 4:18 to keep from breaking down into tears. Feeling like this day after day it was very easy to love others who are more loving

One brother was such an inspiration to me, pointing me to the Word when I was down and helping me tremendously with the children me tremendously with the children even though he had no formal child-care training. husband if they are willing? (DAD:
-Of course! Why not?-We R "One
Wife"!) I have thought about this often, but most men don't seem to be willing to share their wife in a

permanent or even semi-permanent relationship. (<u>DAD</u>: <u>I do!</u>)
I want to tell you a little more about the brother I mentioned above. His name is Paul Salisbury, 23 years old, and an Aquarian. I love him very much and he loves me too. Even though we have only known each other for a few months, we are very close and seem to be compatible in every way. He is quite young in the Lord (about 1 year) but makes up for it in enthusiasm.

In the time he spent here he was the top soul winner and litnesser. He has numerous birth defects, bom with no jawbone, ears and only one kidney; and he has had numerous operations. He wears a hearing aid, but has great hopes for healing in the near future. Anyway, I am very happy with Paul and feel that the Lord has put us together.

Just recently however, my husband was acting so unfriendly and even hateful towards Paul that he decided to go to a different Home. We still want to be together, though. Since he left I have been hoping and praying for miracles to happen.

It seems that I have two choices: to stay here and be unhappy or to leave my husband and be happy.

(DAD: Why not!) I wouldn't be leaving Jacob all alone either because he has a second wife whom he fished to the Family. Paul wants

me to come and work with turn and be mated to him, but he wants me to be sure and not make a hasty decision.

Dad, my main problem in deciding is the children. We have four children and one on the way course he thinks he should have 2 of them. Do I have to leave 2 of the of them. Do I have to leave 2 of the children with him if we do permanently split? (DAD: Yes!—If he insists—his fair share, the older ones if possible—or whatever is agreed by both of U.—If he stays in the Family. If he leaves, take 'm all! Trust them to God!)

He hasn't been a very good father to them at all. They constantly well

to them at all. They constantly yell and murmur, because he constantly yells and murmurs. He loses his temper at them frequently. If I ask him for help he always tells me that it's my job and he doesn't have time or that it's not his ministry or burden. He wants to keep them, but he

doesn't want to care for them. What can I do, Dad? I feel very trapped! If I just take off and pioneer my own Home with the children and Paul, will I be considered a rebel and an outcast? (DAD: No, of course not!) I'm at the end of my rope and feel that I may lose my sanity if I have to stay here much longer.

Now that I've been FF'ing for a

few months, he is even hindering me here. I get constant pressure from him to make it pay. When I recent-

he wanted to move all my things out of the bedroom, because he said I was a disobedient wife. I told him that he (the fish) was on the verge of asking Jesus into his heart and I didn't want to break the spirit. Then didn't want to break the spirit. Then he retorted that obedience was more important than one soul. Despite all this, Dad, I am happy because my fish did get saved. PG! (DAD: Amen!) He was from Iran too (Moslem family), which really blew my mind. ily), which really blew my mind.

Five people have left our Home recently because of not liking the way things are run. Three more are planning on leaving. I may not be able to stay here with the children too much longer if Jacob yields to a bad spirit. (DAD: Why don't U all vote him out?) So please write me at the Visiting Servants' address. I

am hoping for a speedy reply, I love you sooooo much.

P.S. "The Love of David" Letter was so inspiring. Unfortunately, I have never experienced such loving care from my husband. It seems like such a dream to me like such a dream to me.

ther I should write to you about all this, the Lord gave me Proverbs 25:2 and also Proverbs 21:3 (DAD: So glad U did! GB&KY!-Go 2 it!)

CALIFORNIA, U.S.A. SPORTS FISHERMAN BECOMES FISH—AND POET!

About 25 miles from the smog of the city is a beach resort area known as a <u>fisherman's paradise</u>, perfect for <u>fishing</u>—and fishing for <u>men!</u> PTL! It was there that several times we visited a club frequented by people like John Wayne and Barry Goldwater.

Our first night there, we met the manager of the band, who asked if we were some kind of celebrities. We told him that we just believe in sharing Love. We mentioned that we play music, so he invited Rachel to get up during the band's break to sing some of our music. She did, and the club loved it! and the club loved it!

Drawn by the music, a man named M. introduced himself. He's a filmmaker, investor and sports fisherman who had come for vacation on his yacht. It was really exciting reeling him in; he required a lot of love and patience from several sisters, and now he has asked Jesus into his heart and is starting to witness to his friends! He's read many MO Letters—"Did God Make a Mistake" is his favorite. Here's a poem he wrote to the flirty fishes who reeled him in, the night he got saved:

The other day, we were really inspired by the following incident: I was in the electronics store of a Muslim whom I have been fishing One of his employees, a very churchy, self-righteous woman, was berating me for my backless dress, doubting that I "could be a Christian and dress like that", blah, blah. The Diary of a Snob:

by Francisco Umbral. (From his popular daily column of 1/10/78 in "<u>El Pais</u>", foremost Spanish newspaper:)

I WENT OUT TO GET SOME BREAD and I was stopped by a foreign woman, a young one, but not cute (had she been, the results would have been different), in order to hand me a leaflet: "Our

Declaration of Love".

DURING MY LIFE SOME WO-MEN have declared their love to me, but never by means of a leaflet. It must be typical of European wo-men. Norwegian women, for example, when they go to see a gynecologist, here in Spain, they give him their whole sexual life from their very first period to their last "latin lover", all of it on a chart. They have been taught from childhood that that must all be in

SPANISH WOMEN, on the other hand, are forced to try to remember and count with their fingers when the doctor questions them. This thing of the declaratory and declamatory leaflet must be a step

beyond the chart.
BUT THE THING IS THAT ITS AUTHOR IS CALLED MOSES DAVID and I don't want any love affairs with such an excessively Biblical pseudonym, nor with anyone in general from the Bible, except for the salt statue of Lot's wife, who is the monument to frivilly

I'd fixed that frigidity business also. THE FOREIGN WOMAN IN-SISTED IN CHATTING in various languages, but I was in a hurry (I always am when I'm not attracted by a girl) and, besides, the predict-

"A donation, please?"
"I don't understand."
WELL, IT SEEMS THAT THEY
PREACH A NEW APOSTLES'
CREED: "ALL YOU NEED IS LOVE", says the leaflet. (Of course, and that's why I have a cat.) And inside of a heart they've drawn, in comics style, a smiling Christ resembling Paul Newman, and a naked couple, man and wo-man, maybe a comic strip Adam and Eve, in an openly flirting atti-tude, yet carefully covered with their own hair (Adam has his short-cropped, like President Suarez).

AND IT SEEMS THAT ONE CAN WRITE to a certain Lucas Hernández, at a Madrid box, but I don't know if it's for giving donations or receiving love—they don't specify. Or one can call a certain number in Or one can call a certain number in El Escorial, pleasurable setting for love, to be sure, which Phillip II chose for his "melancholic healthiness". (You see, the King could write well. It's impossible to describe any better what exactly El Escorial and its countryside are.)

IN OTHER WORDS, THIS SECT or people or foreign group or thing will also have the right to a State subsidy or budget, I suppose, seeing that Father Martin Patino (a Catholic Church spokesman) has said that each of the faithful may apply his tax or contribution to the

"Late News" in Geneva!

by Cyrus & Heidi

It was four years ago that we met the Ambassador to the U.N. of a certain Mideast country. We have kept in touch ever since, but for the first time this year we have been able to reel him in much closer through FF'ing him!

Heidi gave him copies of "Strange Bedfellows" and the comic edition of "Extermination". He liked them so much that he wanted to get copies to distribute to some of the other delegates of the U.N.

He invited Heidi to attend the final session of the Conference on Racism. He turned out to be one of the most outspoken and active delegates, in actually going from table to table encouraging support for proposals that he or other delegates had made and even contending some-times with the Chairman over protocol procedures.

The most contested proposal was that which condemned the relationship of Israel and South Africa (talked about in "Strange Bed-fellows"). Some of the Western countries were fighting against this proposal and some of them eventu-ally walked out of the Conference, as was announced over BBC.

We believe the Lord really used our witness to this ambassador to encourage him to stand up and fight for the truth and that the Letters, especially "Strange Bedfellows", really added fuel to his convictions! When Heidi had first given him the Letter, he had really liked it and exclaimed, "You know, this is exactly what we are talking about right now at the U.N.!" We are really thrilled to see how the Lord made a way for His Word to be published in the Councils of the Nations (Psalm 68:11)! Praise the Lord!

DAD'S ADVICE ON FF'ING ARAB WOMEN!

Question from Rose, Mideast V.S.: I was wondering if your counsel on not FF'ing Arab women also applies to Turkish women, as this is a Moslem country too?

For the time being, I've suggested that people here follow this policy too, especially with the under-40's, unless they're willing to go all the way and marry the girl which has borne good fruit in one case

Dad's answer: "I didn't say not -just be cautious and very prayerful, as it could be dangerous!—You know how jealous Arab men are!—Aren't we all!—Ha!—ILY!"

The Singing Ho Family -

"BECOME ONE!"

GOING TO SCHOOL! TEACHING SCHOOL! HELPING REFUGEES!

Story & Photos by Hosea

Hong Kong: Nene (John), 8 years, and Hobo (David), 7 years, at school studying Cantonese, their favourite subject!

Since we have had the family living and pioneering in Hong Kong for the past seven months, God has opened the doors and done many miracles through FF'ing and the children. These two types of ministries have worked very well together. I wanted to write to share particularly about how God has used

the children. The FF'ing testimonies are another story in themselves that could be written. (See "FF News From Hong Kong" in FN Vol. 7, No. 1.)

The children have been doing many public singing performances here in some of the key hotels, on TV several times, the Rotary Club,

orphanages and hospitals. They recorded a cassette album of twenty songs in English and Chinese with the record production of one of H.K.'s largest newspapers which has been sold by them all over Hong Kong. This has witnessed to many, been great P.R. and has helped to support us a good deal.

All of these

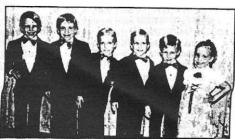

All of these
things have proven
the many things
Dad's written about
what an asset and
blessing our children can be, and I
believe especially
the more we have!
The fact that our
children can sing
and dance is unusual,
but that there are
six of them doing
it between the
ages of 4-8 years
old is a phenomenon that is a con-

old is a phenomenon that is a constant door-opener and unforgettable!

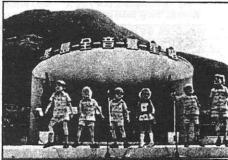

Everywhere people remember us as the parents with the six singing children and always treat us friendly and ask about the children when they are not with us. All this has opened innumerable doors and hearts so vital to our pioneering.

God has literally used the children

God has literally used the children and their singing performances to get us in and out of the country,

"The Ho Family"~John-8, David-7, Joshua & Caleb-6, Aaron-5 and Maria-4—"a phenomenon that is a constant door-opener!"

and the officials to extend our visas without the difficulties and questions we had before. This has made it possible for us to remain here to work on the other ministries He has given us. PTL!

With all this, still we found we were not really "Becoming One" and learning the language, etc. The children lived in their own little world of our Home and Family. We've had plenty of good dedicated help

our Home, but they were lacking the opportunity to contact and play with the local Chinese children so as to be with little people their age to witness and be a sample to. They

and experience, but not so much witnessing to their own age group. So we were discussing putting them in a local Chinese school to learn the language and be in contact with

the local Chinese children.

Then the Letter
"Are Your Children
Becoming One?"
arrived and gave
us the confirmation of "Hearing
From God" that
we needed to spur
us to action. Right
after reading over
the Letter and
counselling together, I telephoned a
school we knew,
where some of our
local friends' children go. I told
them I'd like to
see about enrolling
six of my children
in their school.
They said I should
bring the children
to the school the
very next day as
the school term
was to begin in
only two days!

So we took all the children over and marched them into their office. They were quite amazed to say the least at having six children to attend from the same family, especially a family of singing children. They were very happy to accept them and were even willing to place them in whatever grades we suggested they be in as we told them they had never attended school before, but had always had private teachers.

So on the spot we filled out the forms and paid the tuition fees (about \$15 U.S. per month per child). We found out this is about the best school in town, where many of the upper-class families send their children. This is because it's a private Catholic school where the classes are taught in English by Chinese teachers with one class a day in Chinese.

day in Chinese.

About 98% of the students are
Chinese and about 90% with no religious background. They speak
Chinese between each other when
playing, though they're learning
English in class. This makes an ideal
situation for our children to learn
the local Chinese language and still
be able to learn most of their lessons
in English, and sing and witness as
they go!

In their one class a day in Chinese

In their one class a day in Chinese they're starting to learn to read, speak and write Chinese, and we're learning from them. This is their favourite subject and they're excited about it, as it's giving them the feeling of accomplishment of learning and pioneering something new.

ing and pioneering something new.

This has just been the beginning as we're now seeing all the good promises in the Letter No. 728 fulfilled. As the Letter promised, this all turned out to be only the first steps in integrating and "Becoming One" with the people.

While we were enrolling the children, the principal of the school began telling what a shortage of good teachers they had and how difficult it was to find qualified English-speaking teachers.

So we mentioned that our children's teacher who lived with us would have more time now with the children going to school, and could possibly help to teach at their school. They were very interested in his help, so they asked him to come along to see them the next day, which was the first day of school. —So:

It turned out when the children

turned out when the children started school, John, their Family teacher, also started his new teaching job! The principal asked John to teach music at the primary school, and he's now teaching the Family songs off of the Ho Family's cassette tape which he's also passed on to the other music teachers to do the same.

At the secondary school, they asked him to teach geography, which is the same subject he had been writing classes on for the Family Care to teach the Family. The principal liked his classes using the Bible and MO Quotes so much better than their textbooks that she asked him to teach them instead! She also arranged to have the school print them for the students and other geography teachers!

The principal likes our "Back to God" education ideas so much that she asked John to act as an advisor to the other teachers on their curriculums, and now he's in on all the teachers' meetings, etc. All this opportunity to be a witness and

We've also seen the fulfillment of paragraphs 23 and 24 of 728 because now, when taking the children to and from school. we have begun to meet and talk to the parents who are waiting around the school for their children. This has brought us in contact with people it would have been hard to meet any other way. It has given us something in common with them about which ve can talk to them, get to know them and become

one as we witness to them of our love for the people.

Through our contacts at the school we found out about the large number of Vietnamese refugees here who are needing help and jobs. *
They were able to find for us a very good woman to work in our Home

helping with the housekeeping and kitchen work etc., whom we have hired. We later found out that her husband had been unable to escape from Vietnam and that she was here with her only son, who is the same age as our children.

We therefore enrolled her son in

the same school and class as our children, paying the costs ourselves. The testimony of this helping of "the widow in her affliction and the fatherless" has already spread throughout our community as an example of what one family can do to help these refugees.

This has now encouraged others of our friends to hire refugees which can "Change the World" of these homeless people by helping them to begin to build a new life. They're also wanting us to help them by teaching the refugees English, using the MO Lion Readers. They are especially happy that these readers contain the message of Jesus which

they want us to teach to these refugees who have no religion or knowledge of the Bible and Jesus.

So by simple obedience and following through God's open doors, His message and sample of love through us has begun to spread in our community to "Change the World" step-by-step. So thanks very much for your guidance through the Letters on all of these things, and may God help us to obey them all. We really appreciate these "keys" that have unlocked the doors and made all this possible. Hope this can encourage others to obey too.

With prayers & love, Ho.

Sadat on Love!

(From a "Time" magazine article, "Reflections from cell 54"—Jan. 2, 1978.)

Anwar Sadat was born in a Nile Delta village on Christmas Day 59 years ago and born again, as it were, in a prison cell. Sadat has described as "the happiest period of my life" eight of 18 months in 1947-48 that he spent in Cell 54 of Qurah Maydan, awaiting trial for complicity in the political assasination of a former minister in King Farouk's government. In the following excerpts from his forthcoming autobiography, In Search of Identity, to be published in April by Harper & Row, Sadat describes the almost mystic happenings in Cell 54:

Two places in this world make it impossible for a man to escape from himself: a battlefield and a prison cell. In Cell 54 I could only be my own companion, day and night, and it was only natural that I should come to know that "Self" of mine. I had never had a chance before, preoccupied as I was with work (in the army) and politics, and hurried along by the constant stream of daily life.

When we were allowed to read books, magazines and newspapers, I voraciously read...It was thanks to an article contributed by an American psychologist to the Reader's Digest that I succeeded in getting over my troubles. The gist of the article was that a shock may occur, at any stage in a man's life, which

might make him feel...that life itself is a prison cell with a perpetually locked door.

First, a man should clearly recognise the source of his trouble; secondly, he must have faith. No problem should ever be regarded as insuperable. What makes us think in this way is our belief that the God who created us cannot be evil in any sense: He is good and beneficent (contrary to God's image that a Sheikh in our village Quranic teaching school had drawn up—a mighty and frightening Being.)

mighty and frightening Being.)
Ideally, the relationship between
man and God should be based not
on fear (or punishment and reward)
but on a much loftier value (the
highest)—friendship. The Creator is
merciful, just and loving. If you
have him for a friend, you will always have peace of mind under
whichever circumstances.

The analysis contributed by that psychologist opened infinite horizons of love before me: My relations

with the entire universe began to be reshaped and love became the fountainhead of all my actions and feelings. Armed with faith and perfect peace of mind, I have never been shaken by the turbulent events, both private and public, through which I have lived.

In fact, I cannot bring myself to hate anybody, as I am by nature committed to love. This became quite clear to me through suffering and pain, in Cell 54. It was through suffering that I discovered how I was by nature inclined to do good, that love was the real motive behind my actions. Without love I really could not work at all. Love provided me with faith, full confidence in myself and everything around me.

My love for the universe is derived from my love for God.

Through that feeling which came to be an indivisible part of my very being I was able to transcend the confines of time and place. Spatially, I did not live in a four-walled cell but in the entire universe.

Time ceased to exist once my heart was taken over by the love of the Lord of all Creation: I came to feel

very close to him wherever I was.

My friendship with God changed me a great deal. Only in defense of a just cause would I take up arms, so to speak. For now I felt I had stepped into a vaster and more beautiful world and my capacity for endurance redoubled. I felt I could stand the pressure whatever the magnitude of a given problem. My paramount object was to make people happy. To see a smile, to feel that another man's heart beat for joy, was to me a source of immeasurable happiness. I identified with people's joys.

Some people have asked me to define politics. Some define politics as the art of the possible, which I find unsatisfactory. I am of the opinion that politics is the art of building up a society wherein the will of God is enacted. In such a society as that, each individual should enjoy absolute freedom. Freedom is the mainstay of a society based on Truth, benevolence and beauty. Here hearts are animated with love, faith and inner light. Constructive work would be done and principles vindicated—faith, dignity, peace and glory.

Some 28 miles to the northeast of Moscow in the small village of Grebnevo, a stocky, balding priest named Dmitri Dudko assists at local services. Dudko, 56, is one of he is the second-ranking priest.

He has been assigned to the town

as a kind of ecclesiastical banishment. Yet it is Dudko, not Patriarch Pimen (head of the Russian Orthodox Church), who has come to symbolize Christianity's will to survive in the officially godless nation. As much as any man in the Soviet Union, he has borne effective witness to the relevance of religion in a modern state.

The son of poor peasants, Dudko underwent a sudden coversion at 16 after reading a prayer book. Dur ing brief combat duty with the Red Army, he was wounded and contracted typhoid fever. He then entered the Novodevichy Theo-logical Institute in Moscow and was arrested in 1948 when a fellow seminarian accused him of "anti-Soviet" agitation.

"The only thing they had against me was that I was a true believer," Dudko told Time's Marsh Clark. He was sentenced without a trial to ten years at a hard-labor camp in the Urals. Released in 1956 during the post-Stalin thaw, he completed seminary, married and became a, priest. Since then, he has baptized thousands of adult converts.

Russian Orthodox Priest Dmitri Dudko-"There is a spiritual crisis in this country, a vacuum that has to be filled.

A man who seems fully at peace with the world, Dudko displays no bitterness as he discusses his current assignment to an out-of-the-way rural parish: "I don't get along very well with the (lay) church council, but I am at a place where I can work." His major regret is that he must commute to Grebnevo from his three-room Moscow apartment and only sees his wife, son ment and only sees his wife, son Mikhail, 16, and daughter Natalya, 14, for a few days each fortnight. "I'm sorry I can't help the children,"

"My daughter is often yelled at. Children shout things like 'There is no God,' and when they brush against her and mistreat her, they say 'Let God help you now.' My son got sick and went to the local doctor. Who son the incimendiately. doctor, who sent him immediately to a psychiatrist because the boy was wearing a cross." Father Dudko's reputation rests

mainly on nine sermons delivered at St. Nicholas' Church in Moscow in late 1973 and 1974. In the West it is difficult to appreciate their impact or the courage required to de-liver them.

The churches in the Soviet Union are not permitted to distribute books publicly, conduct classes or discussion groups. Indeed, they cannot evangelize at all. The sermon is the only means left to instruct the faithful, but priests have long been expected to limit their remarks to matters of ritual.

Instead, Dudko inaugurated "dialogue" sermons at Saturday night services, responding to written questions so he could address the real interests of his congregation. So powerful was his speaking style, so candid his discussions of the moral tensions in modern Soviet life that the church was soon overflowing with visitors, many of them dissatisfied young athiests. Such response would usually guar-

For Dudko, it led to police inter-rogations, then removal from his parish by nervous church authorities. It very nearly ended his career. Dudko apologized to the Orthodox hierarchy for his indiscretions, and that, in addition to his popularity,

enabled him to remain a priest.

While Dudko has been ministering in obscurity, his sermons survive. Transcribed by listeners and distrib-

transcribed by listeners and distrib-uted in samizdat (underground cir-culation of typescripts), they ulti-mately made their way to the West. They are now available in English under the title "Our Hope" (St. Vladimir's Seminary Press; Crest-wood, N.Y.; \$6.95). One of Dudko's sizes was to make religion less abaims was to make religion less ab-stract, to connect it with everyday life. His most eloquent answers, in fact, deal with the pressing problems of modern society. They are familiar: half the marriages in many Soviet cities end in divorce; alcoholism and hooliganism are steadily

increasing.

Dudko, a patriotic citizen, preaches that atheism provides no motiva-tion for people to lead contented lives or treat one another lovingly and that it is harming his nation
"Atheism is like an atom of evil undergoing fission. Moral, domestic and social disintegration results. "Having undermined faith in God,

atheism has undermined all bases of social life . . . Scientific development and progress have taken great strides forward. But moral conditions have taken an even greater stride backward."

Dudko takes heart from what he sees as a religious revival. "There is a spiritual crisis in this country, a vacuum that has to be filled," he says. "A woman came to me and asked for her child to be baptized even though she is not a Christian.
Why? She replied, 'To fill the emptiness in my child. I don't want him to be the same as me.'"

UNIVERSE'S MYSTERIES PROVE GOD EXISTS, SCIENTIST CLAIMS

1 Robert Jastrow, one of the world's best-known scientists, believes science has found the God of Genesis in space. It is the God of Creation, a God so powerful He can produce the kind of energy needed to create a universe.

The evidence is all around, and the current theories about the nature of the universe point directly to it, says Jastrow, of Dartmouth, Columbia and NASA. But most scientists don't like the notion and are distressed when con-fronted with it. "How would you interpret the fact that the world decipher?" Jastrow asks. "It's an unanswerable question. Most scientists hate the idea. It means a question they can't answer."

What the scientists are confronted with is a theory which is best explained by a single act of creation by a force of unimaginable power The theory was first proposed when scientists discovered all galaxies they could see with their instruthey could see with their instru-ments were rushing away from us in space. The farther out they were, the faster they were moving. The only logical explanation for this phenomenon was a gigantic ex-plosion that blasted these clouds of stars hurling outwards. That ex-plosion was Creation plosion was Creation.

Most scientists, Jastrow points out in his new book, "Until the Sun Dies", are uneasy with that

AIMS

They try to explain how scenario. that explosion was only part of an eternal cycle. Once the power in the explosion is dissipated, the galaxies slow and hesitate for an instant, and then, pulled together by their own gravity, they begin to shrink back toward the center. Eventually they collapse in on each other and the force of that collapse triggers another explosion, another expansion and another collapse. So it goes.

But scientists have figured out how much mass there must be in the universe to cause such a gravitational deflation and have concluded there isn't enough out there at least not within our view.

This missing mass is one of the greatest mysteries of science, because until it is found, scientists cannot demonstrate how the explosion of creation could occur more than once.

'Rather than grapple with the implications, they try to ignore it,"
Jastrow says. "In effect, we have proven the existence of God. A layman would put it that way, and I like to put it that way because it's humbling. It exposes certain weaknesses in the structure. And out of those weaknesses, as was always the case, come great new advances. There is an effect without a cause, which is another name for God. And if it needles my colleagues, the hell with them!"

A Danger for Babies!

(Newspaper reprint from "Le Soleil" Toronto, Canada. Translated from French by Matthew Canada.)

Toronto: Many bookstores in Toronto continue to sell the book by Adelle Davis, despite its recall ordered by the editor after the death of a child in Florida..

In her book on the feeding of babies, entitled "Let's Have Healthy Children", Mrs. Davis advocates potassium chloride to combat colic.

It is after having followed this advice that one mother lost her baby, in Florida, and that one other had to take her child to the hospital in Ontario.

Mrs. Davis recommends from 1,000 to 2,000 milligrams of potassium chloride be given by mouth. (FN Editors: False! Adelle Davis did not recommend this amount of potassium chloride. She merely cited one medical study in which doctors did give this amount with good results in this one study. Her advice for colic was to give 1/4-1/2 teaspoon of a potassium chloride salt substitute in the baby's milk or water bottle, along with other dietary recommendations-see Chapter 26 of "Let's Have Healthy Children".)

This quantity (1-2,000 mg.), according to Dr. Grant Gall of the Hospital for Sick Children where the sick child was treated "can cause intoxication and death in a baby."

Dr. A. B. Morrison, sub-Minister at the Federal Ministry of Health (Canada) nevertheless explained

that the bookstores did not violate any law by selling the book of Mrs. Davis, even if the advice she

gave in it was dangerous.

Reminder from FN Editors:
"Let's Have Healthy Children" is recommended in Chapter 5 of the "Davidito" series. Please keep in mind when using this or any other system book:

"You must use wisdom in choosing counsel from the great wealth and variety of worldly books, which oftentimes contradict each other, and you need to definitely ask the Lord about any counsel you want to put into practice. We do not necessarily support everything the authors suggest in these recom

mended books, although much of it seems excellent advice."-par. 66.)
And remember, the most "recommended" health manual is "MO's Pointers on Health" ("The Health Revolution!") Letter No. 353! "You have to use a little common sense and especially trust the Lord. We're not going to give ourselves all the credit for just the way we live because God, <u>He</u> does the rest. You do your best and God'll do the rest! You do your best to keep in good health and live right, eat right, work right, rest right and God'll keep you going."

God bless and keep you healthy and happy as you serve Him-and He will if you keep on trusting, believing and obeying!

Yugoslav President Tito relived moments of terror when he visited the site, near Tjentiste, Yugoslavia, where shrapnel from a German bomb wounded him 35 years ago.

"We barely left a ravine that was heavily bombed when another assault of bombers came," Tito remembered. "And the forest was shaking, as if the earth was burning." In a nearby valley, more than 7,000 Yugoslav guerillas were killed in that battle on the Sutjesa River.

Tito recalled that during the battle a bomb whined overhead. Everybody hit the ground. "I covered myself behind a fallen beech log. When the bomb fell near me and everything became dark, I thought I was a dead man.

More from CHILE: "Change the World!" Testimony by Francisco Sol.

Upon our arrival here in Chile six months ago, we were helped out a lot by V., a former disciple, and her husband R. At 33, R. has many holdings and assets from his father which has allowed him to live a comfortable and very lazy life. In fact, in spite of his wealth and beautiful wife, he was a miserable 240-pound alcoholic who easily drank 1½ bottles of whiskey a day. The Lord really gave us a burden to help him and this made our up-and-down relationship with him much easier, as we knew that love never fails! PTL!

It was a real fight at first, as he wouldn't even see me. but I just stuck around the house (encouraged by the Lord and V.) and finally he came out reluctantly from his room.

I shared with him how I myself had once been in his shoes. At first he acted like it didn't really matter, but little by little he began to open up. It was a real victory as he finally shared his fears and needs with me snared his lears and needs with the for the first time in our six-month friendship. I told him I knew Jesus was the only Doctor who could help him.—He had seen a multitude of psychiatrists, psychologists and M.D.'s seeking help. Then he prayed with me to receive the Lord!

Now a month later, R. has quit drinking and is regaining his health.
V. has left her lover and wants to try to make the marriage work again, and R. has forgiven her and also wants to give it another try. The story of Noel, our 70-year-old Catacomber!

by PAUL.

(Maria: Hope this inspires everyone to have more <u>love</u>, <u>concern</u> and <u>compassion</u> for the <u>Catacombers!</u>)
Dear MO & Maria,

God bless you, we love and pray for you! I wanted to tell you about a beautiful older brother in the Family who remains loyal and true, very helpful to all in this part of world.

His name is Noel and he's in his 70's. He met the Family about four years ago and has been a Catacombever since! I think he's mor full-time though, certainly a full-time witnesser! He always sends letters to many brothers and sisters in the Family and encloses a dollar or two in each one. He visits the Homes whenever possible, though now it's harder for him since the near est Home is now far away from him.

Noel is one of the closest persons to Jesus I've ever met. It's really man vellous to talk to him. He was born

they served the Lord for many years before coming to Australia. (His wife is with the Lord now.) He wakes up every morning around

3:00 a.m. to pray for everyone he can think of in the Family, including you, because he knows you're the tree the Family grew from. Often he sounds like he's quoting you word for word. He feels the Love

from the Family.

At the moment, he has a trial about dying, because he's close to it. He lives on a pension but I think he gives just about everything away. Yet he is one of the richest of disciples; his eyes are full of real wealth, and yet he receives not much.

Pre-School Teaching Tips!

READING: ACTION CARDS

ž

You can make these simply using stiff paper. Write the word and draw a stick figure of the action. Introduce the words by showing them at least five times a day and simultaneously telling the child what it says.

Children love to pick out a word, read it and do the action. Or you can turn them all face down and let them pick one, read it and do the action. It's great fun for you, too! You can add new words daily.

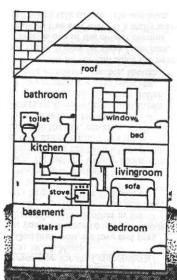

Here's a list of some action words: smile, walk, run, jump, fly, wink, laugh, sneeze, stand, sit, fall, roll. This reading game is great for teaching foreign language vocabulary, too!

(2) Move some of the picture. tures and name cards into the wrong rooms and ask the child if he sees anything out of place. This can be quite humorous! (3) Put a variety of small household articles such as a toothbrush, spoon, napkin, soap, clothespin, etc. into a bag and let the child feel them and guess what each object is and what room it belongs in. (4) Let the child learn the written names of these objects and place the name cards next to the object.

HAND COORDINATION:

PUZZLE
Using square pieces of coloured per, cut them in half, then in half again. Draw the same size square on stiff white paper. Ask the child to fit several of the cut-outs together to fit within the lines of the square. The children love to mix different colours and paste them down. A paintbrush is good for applying the paste.

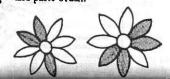

STENCIL DESIGN

On stiff paper, cut out stencil designs of different shapes. Show the child how to colour inside the design using either crayons or a bit of a sponge dipped in paint thickened with detergent. He can repeat this until he's made a beautiful design!

BASIC APPLESAUCE
Peel, core and slice as many apples
as needed (they shrink when cooked) and cook over low heat with only a small amount of water until soft, about ten minutes.

When cool, put them through a blender, or mash with a fork or potato masher.

Add cinnamon and honey to taste. Add cinnamon and noney to taste.
A little lemon juice is nice, too.
Use applesauce as a topping for
cereals or mix with yogurt. Add
vanilla and sprinkle with toasted
wheat germ or granola and/or nuts.

APPLE CRISP

6 apples cup whole wheat flour 3/4 cup brown sugar or honey ½ teaspoon cinnamon 1/2 cup butter or margarine Place sliced apples in a buttered baking dish. Where are the 'Real Fathers'?

God bless you! I love you so much! The Lord showed me some much! The Lord showed his something beautiful today about our children! In the Letters "Mothers of God", "Real Love Never Fails", etc., etc., you talk about our mothers being the best FF'ers because they have natural children to take care of and therefore have more patience, love, understanding and a more sacrificial spirit, because that's what children teach you.

Now today, I was thinking about our brothers in the Family, and I just realised something beautiful!

Often they don't like to help care for children because it's simply hard work and you have to give up a lot of things, especially yourself and your freetime and your own ideas. These children had absolutely no knowledge of English at the time.

I decided to start by teaching them the alphabet using a book called "The Ladybird Pictorial Alphabet Book". During this first month using this book for a text, the kids did learn the alphabet, but it was very hard for me to keep them interested. They would get fussy and want to go play, etc.

Well, the second month I began using the MO Lion Readers for my text. I taught them to sight-read all the words in Reader No. 1 by using Word Book No. 1. After they

could read all the individual words and tell what they mean in Japan-

and tell what they mean in Japanese, I then gave them each a copy of Reader No. 1 "Jesus Loves Me".

We would read the whole book to gether, page by page. Then I would ask each child to read a page and to translate the meaning into Japanese. This really kent their attention and This really kept their attention and interest!

In only one month's time they could read Readers 1-5 in English and translate them into Japanese, which is very difficult as Japanese grammar and sentence structure

is just the opposite of English.

Also, the children prayed and received Jesus into their hearts! PTL! They are hungry little sheep who even started witnessing to their parents. OUR LITTLE SPIRIT HELPER!

One of the heaviest lessons we've learned in our lives happened when the Lord took our little baby home. was born premature and lived He was born premature and lived only eight days. But we've seen him in visions fighting in the Spirit! PG! Our little 4-year-old Nahshon had been wetting the bed for the past two years. Right around the time of the baby's death he stopped wetting his bed completely! One morning out of the clear blue sky Nahshon told me that Isaac (the baby) was helping him not to peepee! was helping him not to peepee!

Another time, about one month after the baby's death, I was resting with the children in the afternoon. I had prayed and asked the Lord to wake me up at a certain time so I could read a little Word before the children woke up.

As I was resting, I felt a tap on my shoulder and I heard a child's voice saying, "Wake up!" Thinking it was Nahshon, I opened my eyes but he was sound asleep. So I closed my eyes again and was seking the Lord eyes again and was asking the Lord who that was when I felt a tap again and that little voice telling me very cheerfully, "It's time to wake up!"

DANGERS OF EXCESSIVE DRINKING DURING PREGNANCY!

The Family News staff has received several letters and news articles warning of the dangers of excessive drinking of alcohol during pregnancy. The alcohol, like other foods the mother eats, passes through the placenta and into the baby in the womb.

Studies have shown that excessive alcohol consumption can be damaging to the baby—just as excessive drinking is bad for anyone's health. In a letter from Judith in Geneva, Switzerland, she says:

"During my first pregnency, I was very conscientious about nutrition, took vitamins, etc. and was completely nauseated by even the smell of alcohol, so I didn't drink at all. With my second, I was FF'ing nearly every night, drinking one or two drinks a night and often had wine at dinner. My second child has

ance to colds, etc.

"I have read some recent articles saying that pregnant women should not drink more than one or two drinks a week, because too much alcohol can affect the unborn baby. I believe this is something that pregnant girls should know and be warned about. Not that they should stop FF'ing, God forbid! But they should seriously limit —or drink juice!"

As Dad has said, anything in excess can be dangerous to your health! If you do drink, why not stick to a glass of wine, sherry, port or a good beer and try to avoid hard liquor, especially during pregnancy.

As it says in "FF'ers Drinking Tips" by Carlos in FN Vol. 1, No. 1: "Better safe than sorry, and when you take into account that we have to be ever mindful of the sample we give others when we go out, better healthy and

Old Pioneers Never Die

by SINGIN' SAM

Dear Family,

2

We love you! We wanted to share some of the miracles and lessons we've experienced since leaving Peru six months ago by faith to get back on the pioneer trail.

Peru is where I started working

with children and helping them in singing and performing. Deb and Jeth's kids were old enough to start learning harmony, so we started teaching them to sing in parts and their singing really improved. This really inspired Cephas and me to start working with Bethel, Mark and Brandt on the weekends. At the time they were 6, 5 and 4.

Shiloh and I really started seeing

Shiloh and I really started seeing how the children could be like a passport to other countries or fields as a singing group. In the past four months since being in Venezuela, we did a weekly children's show for two months and sang on a brand new five-hour show that just

started here.—Not to mention, of course, the many restaurants and different places where we've sung and litnessed. The Lord is really blessing, and the kids are growing a lot

When we heard that <u>Joe Cocker</u> was in town, we got an interview with him and the children did a whole show for him. He just loved it and invited us all to his concert that night. Afterwards, when all the musicians were in the dressing

show for every one and it ended with everyone singing "You Gotta Be a Baby"!

We were able to really witness to Joe and all the members of his band. Some of their comments really touched our hearts. One sax player came up and said, "Man, you made my tour worth it all. This is the best thing I've seen in months!" Also, the guitarist said to me as he was leaving, "God bless you, Sam. Ilove you, man"! We have their address and are writing to them

address and are writing to them.
The children also sang for the entire cast of "Holiday on Ice" during their break between shows a few days later. They all really loved it, and it really gave us the vision of how mightily the kids can be used!
So, don't feel you're worthless and a burden if you have a bunch

So, don't feel you're worthless and a burden if you have a burch of kids! We just wanted to share that we have been a lot more spiritually and materially blessed with the kids than without them. Like I always say, "Old pioneers never die—they just train their kids to take their place!" Praise the Lord!

Well, after being here in Venezuela for a while we're starting to cat.

Well, after being here in Venezuel for a while, we're starting to get the pioneer itch again. We're praying about the possibility of raising funds here to prepare to go to Ru-

If so, please send us a photo and testimony and let us know how you'd like to help. There is one single sister who lives with us now and is planning to go with us, but we would like to have one more person. Please let us know if you have a burden, or some tips, for us. soon as I came, Sara took such loving care of me and took time to talk with me, telling me about here and Malta and what had happened.

And Davidito came in and was so

sweet too. -Reflecting the atmosphere in which he lives, because everyone was so nice to me and so precious, right from the start. And the Lord had four special little surprises for me too, meeting again four of the precious friends I had known before in the Family.

But the greatest surprise came last, and that was meeting you both! And the whole next day I kept thinking, "What a father to have! What a wonderful, precious mother! Thank You Jesus for such parents!"

You know, I didn't feel bad, and I wasn't shocked about the things you shared. It made me so sad that it had happened; maybe this is wrongof me, but what impressed me more was your love and concern and wisdom, and that although you were furious with one of the former leaders of the Chain, you were still willing to give her a chance to learn her lesson.

Then yesterday when we had our Home Council meeting at lunch, I was so impressed that every little tail was weighed and taken into consideration, about our security here, and the schedules, and everything

As safe and peaceful as it seems here, it is a little hard to compre-hend the depth of the experiences you all went through just recently, but it sure makes me thank the Lord that you're here now. And it impressed me so much how you

been worse and it wasn't that bad after all. I was amazed! Well, this concern I saw for every little thing did impress me and also showed me how much I have to learn in every area of my life, it seems to me

The little projects Sara and Sue have given me to do have been such a blessing! And their appreciation for these tiny favours has really amazed me. And when you know it is appreciated, it does make it so much more fun to do, no matter

what it is, you know?

And when Sue brought the little baby clothes for me to take care of, my heart jumped. I've almost felt like I was going to have a baby after that, I'd get this warm feeling inside. I can hardly believe you are really considering me to help care for the new baby. Because before I always felt like such a failure and dumbhead with children, although I've always loved children a lot.

Well, here are my feelings about my first few days in this wonderful Home. Sara asked me to honestly present my pros and cons. But I haven't found any cons at all or anything that "rubs me the wrong way." (Is that how you say it?) Although, something that has scared me a little is that you have heard so many good reports on me, because I really don't want to disappoint you. I'm glad others have been happy with me, but I-make a lot of mis-takes too, and sometimes some real bad ones I think, but I don't want to disappoint you because you have (and everyone here has) showed me so much love, and been so sweet to

11 Nov. 78 Dearest Dad & Maria. GBY today and every single day of your lives! It's so apparent, as each day and night passes, how much we need you both, in so many ways! I could never thank you enough for the love you've shown

to me!

It seems the least I can do is write you notes to tell you that I love you dearly and guard and treasure these moments together as the most wonderful, life-changing, transforming times in my whole life. You must know what a thrill it is for all of us to live so close to you! Thank the Lord for His Love and this time, and help us to use it wisely.

Last night, Sara shared with Jo and me some beautiful experiences and breaking lessons she went through with you during the pion-eering days of the FF Rev., and the little verse she shared spoke to my heart so clearly, in sharing about how loving and forgiving you both

I don't believe I could ever be happier than being a fellow pilgrim and stranger, a fugitive, refugee and vagabond with your Band of Gypsies!
I'm thankful for how the Lord delivered us all from Malta, even though such a loss of material was involved.

My life has changed from those

John Freedom, Australian schoolteacher, tells how he is bringing a "back-to-God" education to 500 students in Macau, the door to Communist China!

Dearest Dad, Maria, and Sara. God bless you all and much love from here on the Chinese mainland. I'd like to share with you the most incredible open door, a real miracle the Lord has provided for me to use in reaching the lost here in Macau, the traditional missionary

since the 16th century!

Before joining the Family, I studied and after five years I was qualified to teach in teaching colleges or universities, holding a Master's Degree in Education in Australia. And now within the ranks of our worldwide Family, the help me "Become One" with the system and infiltrate the main secondary school here, not only with the Word of God but also with the

Love of David!

Before "Are Your Children Becoming One?", my full-time ministry was teaching Ho and Esther's children. But now with the children obeying the Letters and going to a system school, it has allowed me more time to look into other witnessing methods to reach the 350,000 Chinese population of Macau, a small, 2½ square mile Portuguese colony which was given back to Communist China several years ago and is now a territory of China but still under the administration of Portugal.

The children are enrolled in the

largest Catholic primary school in Macau and now have an open door to reach over 1,000 young hearts and minds with the message of God's Love! So I looked into the possi-bility of using my system exper-ience as a tool for reaching the older secondary school students.

er secondary school students.

Knowing that prayer changes
things, my wife Hope and I got desperate with the Lord, and He gave
the verse, "If any two of you shall
agree as touching anything on earth
it shall be done of them by my Father
which is in heaven." (Mt. 18:19.)
Putting our faith into action, I
approached the principal of the

Lord was working behind the scenes, so we committed the whole situa-tion into His hands. The Lord kept encouraging us with many verses one in particular: "When ye pray, believing ye shall receive."(Mt. 21:22) We knew the Lord was going to

open a door, but the size of which we had no idea, and even now we still haven't fully realised the limit of the opportunity He has unfolded before us! PTL!

The very next day, the principal sent a message to our Home urgently asking to see me. For some unknown reason (Ha! PTL!), a position had just been vacated in the geography department for four classes (150 students) in Form II. She asked if I would be willing to teach them! "Everything the Lord shows you always works out!" Hallelujah!

When she realised the extent of qualifications, she asked what I thought of their present curricu-lum. Realising the opportunity, I told her of its many shortcomings and presented our Family Care programme as an alternative, for a "Back-to-God" education. I had with me copies of some writings I had compiled for Family Care on the subject of Geography!—Another of the Lord's set-ups!

She looked over the material con-

taining Bible and MO quotes cor-related with secular material and remarked that it was the first approach that she had seen which was simple enough for the Chinese students, who are very weak in English, to understand.

She also said it was an ideal way

Word, mil was integrated with the other work and they would receive it, whereas in the past they had found most students tended to reject any religious teaching of any description.

This was a crisis, she said, since the intention of the school was to educate the children in God's Word, educate the children in God's Word, but all their other methods had failed! "They are finally getting down to business with God and asking for help, and we are the help God is sending them" ("Arreviderci Roma" No. 180:17b).

She asked if she could print the material at the school and give not only the Form II students each a copy, but also the Form I (a total of 300 students). So now each day, 300 students are learning about God's world and studying His Word

God's world and studying His Word and related MO Quotes! Hallelujah!

One inspiring thing is that 80% of these students will visit relatives inside China before the year is out. By then I pray they can also carry with them God's truth firmly locked

ones isolated from the outside world.

Also, I'm wondering if these could be used in other Third World countries where English is not the primary language, in those countries where there is a very big vacuum for a back-to-God education.

She also asked if I could teach music in the Primary School (the same one which Ho's children are attending), which I thankfully agreed to. Now each week 200 students are learning one new song either from the children's song tape which they recorded in Hong Kong or from Aaron's Songbook.

With these two open doors, 500 students are slowly and personally being introduced to Jesus in a way they have never known Him before. And just last week, I was asked to give to all the teachers from both schools (about 50 in number) a class on phonetic English methods to help them improve the children's English.

Tips on Cholera Prevention!

The comma-shaped bacterium reensible for cholera finds its natural breeding ground in the human bowel, and is excreted in the feces. The disease can be contracted only by drinking-or bathing and washing in-water containing human fecal in-water containing human tecal matter, from fruits or vegetables contaminated by such water, or from food prepared by unclean hands. If all the world's water supplies could be cleaned up, cholera could be virtually wiped out. Know Your Meat or **Know Your Butcher!**

Tips from Dad on Buying and Preparing Meat compiled by Alfred & Sara

Our local meatman had been sell-ing us poor meat for some time. He had been taking advantage of our "ignorance" and was just giving us the old, tough meat which he us the old, tough meat which he had to get rid of, and he thought he could pass it off to us "tourists". Finally, Dad got fed up with dry, bad meat served at dinner and he told us:

"Butchers are like used-car sales-

men. They try to push off things for what they really aren't some-times. First of all, it's best to choose a special butcher shop that needs and wants your business, because a big supermarket meatman couldn't care less if you refuse his your business if you don't come back. tough meat, because he won't miss

"So you go to your meatman and look him straight in the face and tell him, 'We live here regular-ly. We are not tourists—we are Americans.' (That means 'money' to salesmen.) 'We have been buying meat from you for some time now. We have a big family and we buy our meat here, but you have been giving us a lot of tough meat. My father has poor teeth and can't

eat what you have given us sometimes. He is very angry about it and said he isn't going to buy any more meat here if you don't give u good meat, and we'll just take our business somewhere else.'
"If the butcher doesn't start giv-

ing you good meat, then find another one. But, give him a good talking to <u>before</u> you start giving him your business so as to start him off on the right track. Give him the same talk: We are a big family and not tourists; we are Americans, we eat meat sometimes two times day and we also have a particular father who likes to eat good meat.

"Also tell him we have tried other places in town but they have pushed off their old, tougher mea thinking we are tourists and wouldn't know the difference. We are looking for a good butcher to give him lots of business and lots of money 'If you sell us only good meat, only the best, nothing old and nothing tough, if you are such a butcher, we will give you all of our business; but if you ever give us bad or tough meat, we will bring it back for good meat or do no more busi-ness with you! Then, ask him if he wants your business."

Find out what day the meat comes in fresh and have the butcher comes in fresh and have the butcher save some for you. Tell him you will come and pick up your regular meat order the day it comes in fresh and that you will be a steady customer. This way you can count on him, and he will count on you to good fair business. Those system housewives sure won't stand system housewives sure won't stand for any bad meat from the butcher, and they won't hesitate to complain

if he sells them a bad piece of meat!

Ask the butcher to trim the fat
off meats such as the lamb and roasts for you, and to wrap th meat in separate bags so that all you have to do when you get home is label the outside of the plastic bag what type meat it is and the date. Then you can freeze the individual bags of meat, if possible, and take out a bag at a time each morning to defrost for dinner that night.

For example, if you buy one kilo

of ground beef a week, you may ask the butcher to put it into two separate bags of ½ kilo each, so you can freeze and also defrost only enough meat for one meal at a time for your family. You may also put ready-made meat patties or in-dividual pieces of liver into small

freezing bags for easy defrosting for meals for pregnant mommies or for making baby and children's food.

In our house, we have a weekly meal plan of what meat we'll cook each day of the week. We usually have liver the night we bought it fresh from the butcher so that we fresh from the butcher so that we eat it fresh. We try to do the same with the fish, since we buy it from a different meat shop, fresh each

So, weekly we usually eat tuna or fresh white fish, chicken, ground beef served in different ways twice weekly, liver twice weekly and soy beans or pasta-cheese casserole.

We have found these meats cheaper and easier to prepare than roast meats which need oven cooking.

Dad said a sufficient serving of meat for one person at a meal is a piece that is the size of each person's four fingers. So, a cook can deter-

when cooked longer. In some counwhen cooked tonger. In some cooking troast-a-bags" for oven-cooking roasted meats. The bags keep in natural juices of the meat and cut down on oven-time, but they can be quite expensive! Roasted lamb, chicken or beef comes out more tender and juicy when cooked in these special plastic bags. Also, a pressure cooker that holds six quarts is a good size for a family of 12 people. good size for a family of 12 people.

Another good tip from Dad is to

warm the serving dishes before the food is put into them and they are put on the table. Everyone should get to the table and sing and pray before the food is brought to the table, then the cook can bring out the hot food after prayer.

Dad says, "I don't believe in long sermons in prayers before meals,

Save your discussions for afterwards or devotion time so that the family can eat a good hot meal at dinner-

Another reminder from Dad: "Don't forget that the whole purpose of having casseroles is to economise on meat. Dishes such as spaghetti with meat and tomato sauce, tuna casserole or creamed tuna, etc. are to make the protein or meat stretch to feed everyone So make them mostly saucy and make the meat stretch.

The really rich people don't seem to take many things seriously—other than money! But I'm sure the Lord has his sheep here too. I'm going to keep looking! keep looking!

They pay me, plus room and board and I send \$100 of that to the KQS. Being in a situation like this is so new and different and I know I'm making plenty of mistakes, but I'm going to continue to do the best I can, by the grace of God.

I am desperate for any help or suggestions that you might have for me. I only want to do God's will and whatever that entails. I know these people can be a real blessing to God's Kingdom. Do you have any suggestions of how to operate in this type of situation? (DAD: Just

Security In Closed Countries!

Dear Folks and Timothy

After reading a report from A in Jordan, I wanted to pass on this part to you, as I felt it might be bene-ficial in helping the Family avoid these sorts of situations which have endangered different selah fields in the past. From A's report:
"A guy I work with, an American

who is a pretty big goat, went to Portugal and met the Family there. That's fine as far as I'm concerned, but the Family he met went and told him that I was in the Family, my <u>Bible name</u> and gave him some lit. I think they met him while litnessing. Giving him lit is fine, but—
"To go and tell people the names

and so forth of people in selah fields is really dangerous! This guy is definitely not a good friend of ours because of some of his dirty tricks and bad deals. When he told me he'd met some of my 'friends' in Portugal, I was curious to know who and what happened. He said, 'They told me your name was and they wrote their names on this pamphlet by Moses David.' He just smirked!

"I think it's come to the point where there should be a policy in the Family not to go exposing members in selah fields. I know that in some situations, a breach like this could really cost a life! When you're virtually illegal and trying to carry on a witness in secret, you can't afford to be spotlighted. I don't

out a Letter. But it certainly doesn't help us to have our cover blown!

"In Germany, the sister of a girl we've gotten saved met the Family who put her on their mailing list and faithfully sent her lit. Our sheep hasn't even told her sister about us because she knows our security situation! This way, it's fantastic because

They're both getting fed and it's not endangering us at all! But if the brethren in Germany tried to get them in touch with us here, it could really blow everything because we'd be spotlighted as the leaders of the 'FOL' organisation here.

"I think we should encourage the brethren abroad to put the Arabs they meet on their own personal or Home mailing lists. The Arabs love mail and really respect literature. But for us to do it from here or to be even slightly connected to it could mean anything from deporta-

could mean anything from deportation to imprisonment!

"I don't know how it is in other
Arab countries, but in the two years
I've been here I have come to realise that you can't get away with
too much. The people here know
a lot.—Total strangers know more
shout me and tell me where I live about me and tell me where I live, how much my rent is, my income and a whole list of things!—More than even some of my best friends and close associates know!

'Maybe we should bring up these things to protect some of our new selah works in even more difficult

Arabia. It wouldn't be a joke to be exposed as FOL in Saudi, but I don't think many brethren realise that.

I think A.'s point of the European or North American Homes following up directly with the Arabs they meet through the mail needs to be stressed, rather than prema-turely "spotlighting" our selah brethren; even giving out their postal address is dangerous!—Or taking for granted that they can follow up, as is possible in Western fields.

Then perhaps as a real bond has been established with the person

they're feeding through the mail, the Home in Europe or America can then contact the Home in the selah field, giving a brief history of the person, what Letters they've read, if they're saved, etc. and leave it to the selah field if they want to follow up on him or not.

I'm sure other near-serious situations could have been avoided if all the Family were better aware of the deadly serious need for security in these selah drop-in works. One thing that those less familiar with Arabs need to keep in mind is that usually Arabs are much freer on foreign turf away from home, whereas in their home country, due to social mores, they are constrained to be much more conservative. And even the hospitality they generously ex tend while abroad may be more difficult for them to follow through on at home. Hope this helps everyone to be more <u>security-minded!</u>
Lots of love,

Hosanna.

(DAD: <u>Don't</u> give out names of <u>Family</u> members in <u>closed</u> countries to anybody!)

FROM MO ON THE IMPORTANCE OF SECURITY! -MO, unpublished.)

WE ARE NOT PLAYING GAMES: This is a deadly serious business and one mistake could be fatal! (No. 43.) WE NEVER MAIL A LETTER

without us both double checking and even <u>triple checking</u> the contents, the packaging, the addressing, the return address and the postage and total general appearance. (No. 28.)
WE USUALLY PLACE OUR MAIL INSIDE OF TWO THIN AIR-MAIL ENVELOPES, the one in-

side of the other so that nothing can possibly be seen through the envelope. (No. 29.) PAY ATTENTION TO THE

CHECKS OF THE SPIRIT and heed God's still small voice when it checks you, "No, don't do that!" Our security really is in God's hands most of all and we have to depend on <u>Him</u> to take <u>care</u> of us and <u>pro</u> tect us and keep us in spite of our own stupid mistakes. (No. 76.)

think these brethren meant us any a in control and even la us the fear of the Lord; without it we never could receive any wisdom

from Him. PTL!

Thank the Lord you two are in control too, with the Lord, Who is always faithful to show you the truth. This Letter will help everyone, or at least many of us who have been caught up in the "deceitfulness of riches", "snobbishness", being "cool", etc.

One of the things that impressed me the most when meeting you is

from Him. PTL!

me the most when meeting you is how simply you live, talk, share— having fun in the simple little things that are for free, like love, sex, the richness of God's beautiful creation and priceless lessons He is teaching

Everyone on your team is always "pinching pennies", trying to live as cheap as possible, dressing simply and comfortably. It's giving the Glory to God. When FF'ing, oftentimes we look more at the outward appearance of men, how much they earn, what they do, and forget to ask the Lord to lead us to the real precious souls who are so hidden sometimes.

The Letter also showed me to The Letter also showed me to listen better to your warnings and to really obey, not to start reasoning, but to respect the Voice the Lord has given you. When living in the field Homes, I so often missed that real unity with each other; it only comes when we are flipped out over the Lord and what He's doing, being dependent on prayer like you are!

I need you so much! It thrills me to see your faithfulness, love, fear

to really suck and absorb every little word and lesson you give us. Much, much love and many thanks, always yours, R.

Dear Dad and Maria,

It's so nice when you come down for lunch. It's really a nice way to fellowship with the family, and for us all to have a chance to see you and visit. That was a beautiful prayer you prayed last night after talking about the girl who was mistreated by a for-mer leader of the Chain.

You know, Dad, it's been such a re-education for me to see how you handle these situations and how you look at them. I'd heard the expression, "Dad is mad". But like you said, I don't think most people un-derstand (or maybe not before) that it's a lack of love, mistreatment and neglect that make you mad.

Last night, it really touched my heart to see how you care for all of us and really are for the underdog. Before, I used to read the Letters and I guess I heard what I thought you were from the impressions I got from Family members.

But since meeting you, the Letters are new.—I realise how positive, truthful and encouraging they are. -Because that's the way you are; even when you scold it's still in love and that's something that I can see better now! I love you the way you are! PTL! Your, J.

Getting Back To The Basics!

A reaction to a talk given by Dad, by a member of his staff!

Dearest Dad & Maria, 20-9-78 Just a thank-you for last night's discussion and plan for going over your basic classes. We're all greatly encouraged by this and can hardly wait! I was especially convicted when talking about memorising the Word, as it's been a long time since I had kept up my review system and got down to business ingraining the Word in my heart!

Well, I'm really anxious to get at it again and also to learn some of these classes I've never had—like the class on John and the one on Acts 6-13 and a more in-depth study of the others! PTL! What a wonderful effect this will have on the Family, and we're so thankful now to get it onto paper!

It's simply our simple basics!-Like all the things you teach and the example you both set, whether it be the way you prefer your food cooked or your dress, your living arrange-ment, your lifestyle, your way of leading and teaching us, etc.—it's all so <u>simple</u>, <u>uncomplicated</u>, <u>natural</u> and <u>basic!</u>—PTL!

I don't think many people realise this, and it's certainly something I've learned only by living with you. It's really been a giant step in my life to

Simplicity is the key! Even as you said last night, "But I fear, lest by any means, as the serpent beguiled

Eve through his subtilty, so your minds should be corrupted from the simplicity that is in Christ!" (2 Co. 11:3.) Thank you so very much for, more than anything, really living it and setting the example for us.

I only hope and pray that the rest

of our Family realises and under-stands and lives this too, as boy, it sets you so free from the complicated, entangling hang-ups in the sys-

I just feel the Lord is setting us straight down the narrow path through not only this talk of having these basic, essential lessons printed up for our whole Family, but also from the lecture and rebuke the Lord gave us at the other house on the system books and all! It's very sobering and such a need for us all!

PTL! We just can't thank you enough and can hardly wait for our first class!—A real desire of our earts come true! Thanks again! God bless and inspire you today!

Love always, Path

P.S. This verse on simplicity also eemed fitting to you: "For our rejoicing is this, the testimony of our conscience, that in <u>simplicity</u> and godly <u>sincerity</u>, not with fleshly wisdom, but by the <u>grace</u> of God, we have had our conversation in the world, and more abundantly to you-ward." (2 Cor. 1:12.)

MO & Maria would love to hear from you!

Please address your letters like this: M. Nees Clark, Apdo. 35090, Madrid, Spain (with Attn: Keren in lower left corner. Please don't use COG, FOL, MO, Maria, etc. on the envelope! Also, please seal envelopes & no postcards without envelopes!)

"The Stars In Their Courses Fought Against 'Somoza' (Judges 5:20.)

Thrilling report by Reuben & Hannah Woodsman about their miraculous escape from Nicaragua before the bloody civil war!

In Jan. '78 we had been in Nicaragua for 7 months, and in our daily witnessing had seen the obvious dissatisfaction of the people with the 40-year reign of the Somoza family in their country! There had been a couple of small Sandinista guerilla attacks during our stay, and each time the people walked the streets

One morning, my husband Reuben was in prayer and received a short but strong prophecy against Som-oza. Judges 5:20—"They fought from Heaven; the stars in their courses fought against 'Somoza'"

He also had a vision of the constellation Orion, the mighty hunter, fighting for us!

Then the next Monday morning on his way to work, the chief editor of "La Prensa", Pedro Joquin Cham-orro, a known opponent of Somoza, was shot to death in his car! The general opinion of the people was that paid assassins of Somoza was that paid assassins of Somoza were sent to kill him, although it could not be proven.

From there began riots, burning of buildings and thousands of peo-

ple mobbed his funeral. He became a national martyr. The following week the majority of all the busi-nesses held a national strike asking for Somoza's resignation. But he had no plans of leaving! From then on, we could see that things would only become worse and that all-out civil war was inevitable if Somoza did not peacefully resign.

We had four children and another

family, Henedad and Maria Towne, had one and one on the way. all prayed whether to go or stay,

according to the faith of each. We decided to leave for the safety and well being of our four children.
Some of the single brethren planned to stay on as long as they could till to stay on as long as they could till things got too hot.

Through FF'ing, we received much of the donations we needed to leave the country. We bought our bus tickets and planned to leave at 6 o'clock in the morning. Henedad and Maria were to be received by a Home in Costa Rica and we were going to Honduras.

That night we heard sirens for one hour straight in Managua. Then we got a phone call from a catacomber in Masaya that grenades were going off in that town and some fighting had broken out!

In the morning, we all got into taxis and took off for the bus station.
Little did we know that fighting had broken out in Masaya and Rivas, which is at the border of Costa Rica. Maria and Henedad's bus never did arrive because of the fighting! The did manage to make it to the border somehow. When they arrived, the border was closed because of the fighting and they had to convince the border personnel to let them pass. Some brethren from Costa Rica had come to pick them up at the other side, God bless them!

Meanwhile on our bus ride to Honduras, we ran into a barricade of National Guard checking for guerillas fleeing the country. We all had to get out of the bus and pass through a line as the soldiers checked everyone's passport carefully. Later, on the bus radio we heard the news of the guerilla attacks and felt like we

When we got to the border, we had just enough money to pay border fees for our family of six. We had to call the Home and ask them to help pay our taxi fare. We were broke! God bless Levi and the horthran for receiving up his family. brethren for receiving us, big family and all, in our time of need! It really makes you appreciate your . family when you really need them!

"We love you Lord, so we know you're going to work things together for our good, whoever it is You send to take over any country.—And You can keep each in peace and security as long as our kids are there, Lord.—And if the time comes You want to show us to leave You'll certainly. show us to leave, You'll certainly show us, and where to leave to. Thy will be done, have Thy way. Thank You Jesus! Praise the Lord!—Amen?" from "The Battle For Africa" No. 391:112.)
We are presently in San Pedro Sula,

Honduras, working out of our little pioneer Home. We have been here for eight months and the Lord has blessed us in so many ways! PTL!
The Lord surely has to bring a quick end to Somoza before any more innocent civilians and children are slaughtered! One campesino (farmer) who is a prophet here in Honduras prophesied that Somoza would be assassinated in the coming year!
God's Will be done!
Love, Reuben & Hannah

Our Witness In Closed Countries!

We've just come from an area where I spent almost 1-1/2 months with the Homes (due to plan changes, travel delays, visa hassles, etc.) We felt that this time was really invaluable in that it gave us a much deeper and clearer understanding of the "Drop-in" works in "closed" countries. Despite the fact that we were intricately involved with the pioneering of these areas and in correspondence and counsel with the Family members involved out here for the past two years,

Still we felt this time helped us to get a deeper grasp of the sensitivities involved in working amongst Muslims, and especially in societies where not only Christian groups, but any foreign groups involved in any activity (other than business or government-associated projects) getting out any message whatsoever is completely non-existent and either banned by law or social pressure. By social pressure, we don't mean magazine smears, but the strong likelihood of either immediate deportation at best, or physical assault at worst!

Really, it seems a person almost has to experience life in such a society for a while to really feel the social climate to realise what we're really dealing with. Witnessing to a real Muslim (we've been involved is use of the most patient types of spiritual feeding we've ever experlenced. It makes the brainwashing of a Church school system look extremely light.

Dad has really expressed the spirit of Islam well in "The Fan" and "The Tangled Lines of Hejaz", and by his sample of handling Godahri with such tact and patience, as well as the things he's said about our the things he's said about our approach to the Muslim countries in the Letters, especially "Age of Pisces" and "Don't Drop Out— Drop In" and "Islam II".

Someone asked why we are afraid

to give out <u>literature</u>, saying that "everyone in this country reads comics like ours; we could be giving out milky comics to the students". We're not sure if anyone answered this question, but we're certain many of the pioneers of this work at present could explain why! Especially, we would disagree that everyone here reads comics like ours. Ours are quite unique in format and just by appearance are unlike anything on the newsstands.

As far as content goes, we don't

think you could find one comic in all of the ones done that doesn't obviously preach a message, which would usually be easily identifiable as Christian-oriented or political, possibly even more dangerous for foreigners to distribute in this politically turbulent country.

Most readers would definitely realise why they were being given this lit, and when you're dealing with campuses here, it's the most tightly surveilled sector of society Frankly, we don't think is a most if Frankly, we don't think it would be

way into the hands of the police, whose job it would then be to round of proselytisers, be they "FOL",
"COG" or any other name.
The entire work here was scrapped

three times already to our know ledge and had to be repioneered again, due to lit distributing tactics. "What good did it do our boys to

go down to a certain country and distribute literature where it was forbidden? They said, 'But I'm obeying Jesus, I'm obeying Dad, and he said to litness!' But I said

For God's sake don't litness in countries like that! The old ways we used to do it are not going to work here in a new situation! We have got to do something entirely different!" (542:115,99)

They just have to come and see our Family and how we live and see for themselves. And they know it's something different, they know it's something unusual. You don't have to give them any <u>names</u>, they don't even have to read the <u>lit</u>, they get the <u>point</u>, even in selah colonies."

(567:17)

'So remember it is against the law in most Muslim countries for you to propagandise, proselytise, win converts, spread the word, especially to distribute literature, you just cannot do it openly. You can only sing and FF.

"Use wisdom and great caution!
Do not litness nor witness openly!
But it's perfectly legitimate to be a
Christian and 'show your faith by
your works'. 'Let your light so
shine' (Ja. 2:18, Mt. 5:16).

"Just be a good sample and they

something happy that they haven and it's Joseph Amen't. Just love a EF them! Love never fails!" (709:44,47,49)

Well, these are quotes from Letters we've had to study over many times to realise that it's just not God's will to openly distribute or even openly witness in Muslim countries!

And by experience, we've seen it's also very, very important that we don't expose that we belong to any international organised group. We feel it's really like Dad talks about it in "The Bait That Fell in Love With a Fish":

But just one couple with children within the community may be more and more the thing in closed countries...Sooner or later under these selah conditions in closed countries where other types of litnessing and maybe even Colonies are forbidden, it's going to have to be considered the life work of our disciples to marry the local mates and thereby infiltrate the whole social structure as a wit-(552:62,64)

"It is you, you, that God's going to use to run the world, and He's getting you ready for it right now! But you had better keep your head pretty well underground now or it's going to get lopped off!" (542:113) Lord help us not to be proud or have a know-it-all attitude or something, but even the idea of approaching a virtual stranger and after only two brief meetings letting him know we have a group here, is the type of thing most Homes in Muslim areas have been trying to <u>avoid</u> for the last two years! It's just too <u>risky!</u>
We normally only reveal the fact

that we are a group to someone after a period of <u>testing</u>, seeing how he reacts to our ideas and ideals during personal conversations, testing them out on a few re-typed unidentified MO Letters, and in most cases either leading them to <u>Jesus</u> or being pretty certain we've won them solidly as a friend. This is, of course, a great limiting factor in our witnessing, but we really believe—

"Better a little witnessing than none at all!" We've personally seen that it can work and win good friends, though it requires great patience, like Dad spoke about in "Don't Drop Out—Drop-In":

"Lord bless us and give us great wisdom in a very touchy, ticklish, dangerous situation like this! So give us the wisdom to be <u>harmless</u> so that we're harmless enough that they won't feel like harming us! Give us the wisdom, Lord, to be patient, give us the wisdom to just have <u>love</u> and depend by faith upon <u>Thy</u> power to

do the job by <u>Thy Spirit</u>. It is our job to witness, to bring the truth and to love. Help us Lord, in Jesus' Name, to do it in such a way that w do not offend and draw enmity of the System and make them feel threatened or harmed, which is not wisdom." (542:118-20)

So anyway, God help us if we're overstating the case, but we person-ally have seen these quotes really come alive so much more since spending time in these fields, and we just wanted to share them with the vision of what we see coming to pass through them. God help us if we're through them. God help us if we're wrong. If so, the whole work out here is way off the beam because it's really the way the vast majority if not the entire Family out here sees it.

And to our knowledge, the Family on the country and which is who. in this country as well, which is why they were following the course they did. (Amen! Present it [Dat)

ON THE IMPORTANCE OF-

Catcombers In Third World Countries!

by S. in India

I'm really concerned about our whole vision and approach to the Third World. I feel a lot of Homes are just floundering around without a really concrete vision or plan of attack in really understanding their field.

As foreigners, we can't just go

and the States as "FOL" or "COG". But we have to have a real reason to be in these countries in a way that the authorities can understand, like having a job or being a student or something. But unless you only intend to be in a country for a month, you can't just pass off as being a tourist or on vacation, especially if you're trying to establish something in the way of a work in that country.

My real concern is our lack of vision in the Third World for Cata-combers. We as Westerners are often regarded as total aliens, easily mis-understood because of cultural and have got to rely more and more on the Cataombers within these countries to reach their own.

But the Catacombers must be allowed to burn free with the methods they feel are going to best reach their own. As Westerners, we do carry a certain prestige and are desirable company for the elite to associate with. So it's not hard for us to reach the intelligencia, the upper class and the people with influence.

But when it comes to reaching

the masses, we are immediately under great suspicion and enquiry and often get the boot, as has been proven so often before with our litnessing tactics of the past in these countries.

I think we, as foreigners, more of pretty much operate like Dad was in Tenerife, reaching the city fathers the each area we need a "Miguel" to stand in the gap for the Cata combers who can, with counsel and guidance from us, start a whole indigenous work totally unrelated in appearances to our activities. The influence of the city fathers win can be turned toward helping the <u>native youth</u>, in the form of <u>Catacombers</u>, to reach their country with the Love of God in a way that they can easily see and believe, as well as receive and understand.

Asia particularly has seen enough of religions and missionaries. The greatest desire of the Third World is development and advancement, and unless these countries can see that the Catacombers are an asset to their national "progress", they won't be too happy to encourage them.

They want and need something concrete and tangible to be done to help solve their desperate physical problems, such as poverty, disease, bad sanitation and illiteracy. If the Catacombers could in some way be mobilised to see and meet this need mobilised to see and meet this need. they could really become an effective <u>sample</u>, not only against the hypocrisy of the complacent orient-

desperate need! <u>Catacombers</u> of the Third World—<u>ARISE!</u> PTL! Love in Jesus & David, S.

SUNGLASSES

Whenever you're out in bright summer sunlight, you should wear sunglasses, especially if your eyes are green or blue and thus lack protective pigment. Lenses should be of high-quality, nondistorting glass or plastic. Plastic lenses won't break but they scratch more easily and should be cleaned with a wet cloth. Grey, green and amber lenses distort color perception the least, while blue and pink lenses cannot be recommended. Polosied lenses be recommended. Polarised lenses, which cut down on reflected light: are good for fishing, sailing or pool

dark enough to protect you in really bright sunlight.—Sent in by Maria.

EXERCISE
I'm sold on exercising!—Especially when Dad says I look good for having three kids! It doesn't come naturally, that's for sure. I exercise faithfully every day and jump rope 500 times a day (except when I'm pregnant!). I don't even have to diet, but of course I don't overeat either. I stay away from bread and salt and only eat one serving of everything. I know if I weren't exercising, I would have to diet. Now I feel so healthy and strong, even if I miss some sleep. Exercising really pays and it doesn't take that much time.—Mirlam; N. America KQS. (DAD: Amen! Lots of girls need this tip!) this tip!)

HEPATITIS

Infectious hepatitis, characterised by inflammation of the liver, severe fatigue, nausea, fever and jaundice, is very contagious via stool, urine, saliva, blood, semen or vaginal discharge. To catch it, you would have to absorb the virus directly through the mucous membranes of mouth, vagina or rectum, or through a cut or puncture in the skin. You can't catch infectious hepatitis merely by being around someone who has it being around someone who has it unless you kiss him or have sexual intercourse or use the same eating utensils. The best precautions are:

(1) Don't share food; (2) disinfect all eating utensils with boiling water;
(3) avoid physical contact such as kissing and intercourse. Sent in by Maria & Sara.

Be sure any pets you have for your children are clean and free of disease. Stay away from stray animals, especially in Third World counas they carry diseases. couple of pregnant girls and babies have already been hospitalised with serious diseases transmitted by cats after taking stray cats into their Homes I hope this tip will prevent tragedy in your Home and that it will help the brethren to use wisdom in selecting their pets and to be prayerfully sure that they are safe. -Cyprus Quality; Athens, Greece

lopes so thin as to reveal the contents. Dad suggests using 2 airmail envelopes, one inside the other. 5. Pray for the mails!—And prayer-fully check the postage, packaging and addressing of each letter befo mailing itl

These guidelines would be a good idea to follow when writing to anyone in the Family, in light of the re-cent W.S. advisory "URGENT!-Emergency Security Measures!"

INTERESTING FACTS ABOUT THE CHINESE LANGUAGE! (from the China Newsletter by Nathanael & Peace Pillar; China V.S.'s)

Chinese is spoken by more people than any other language in the world! Chinese has a universal written form, but its spoken form has many regional dialects. By far the most important Chinese dialect is Mandarin which is spoken by more than 400 million people through-out the Chinese language area. More than 95% of Chinese speakers live in The People's Republic of China (Communist China). Chinese

is also one of the five official languages of the United Nations.

Chinese writing: Four thousand

ears ago, the ancient Chinese formed characters from pictures of things they knew, such as the human body, trees, plants, rocks, houses Over a period of about 2,000 years, they simplified and re-proportioned the pictues to be about th same size and fit into a square. Of the 2,000 most common char

only 28% have fewer than eight strokes, the rest contain from nine to 27 strokes each! Learning to read and write Chinese is very diffi-cult, but as Dad says: "The Chinese

are very smart people!" (350:129.)
"Old" and "New" Chinese: Intent on transforming China into a leading power, the Chinese Communists gave unprecedented priority to written language reform. A lang uage reform committee devised lists of simplified characters, and the complicated forms of these characters were excluded from use by the government in 1956. China now uses these simplified characters, commonly known as "new commonly known as "new" Chinese. The traditional Chinese characters, however, are still used by the millions of Chinese people living outside Communist China, and this is now known as "old" Chinese.

The Wonder Working Words in Chinese! The MO Letters are translated and typed in "old" Chinese for our disciples and GP distribution because this is the form of Chinese

hecause this is the form of Chinese that will reach the people in Taiwan, Hong Kong, Macau, Singapore, Malavsia, Indonesia, etc. It is now forbidden to bring written Chinese

literature of any kind, especially a Bible, into Communist China. However, we're going to be doing special MO Letter projects in "new" Chinese that we'll be able to use now and in the future for reaching the multitudes in China!

We need your help to do the job! There are 12 Homes in our VS area of Taiwan, Hong Kong and Macau who will directly support the Chinese TCC, and we also want to serve other Homes in Asia and the Pacific in countries with large Chinese populations. But the Homes in this area are in relatively poor countries and are not able to fully support their TCC. So we're asking for your help in the important Chinese MO Letter translation and creation efforts now being put forth at our pioneer TCC! We appreciate your help to fulfill God's plan for the Chinese to enable us to translate, type and print the Words of David in Chinese. God bless you! Love in Jesus and David, Nathanael & Peace Pillar and the pioneer Chinese TCC.

DROP~IN WORKS!

by KENAZ & HODIAH-Edited by DAD!

Dear Dad & Maria.

GOD BLESS YOU! We love you and pray for you daily—we need you so much! Hodiah and I are pre sently visiting Homes in Iran and the Gulf and are now in Kuwait nd have some things we'd like to share with you to get your counsel

SELAH DROP-IN WORKS IN MUSLIM COUNTRIES. I've b traveling these Homes for almost two full months now, including stay of almost a month in the U.A.E. (Dubai) due to plan changes resulting from the Iranian uprisings. I lly feel the Lord led in this

uations, proplems and methods. We wanted to write you this note about the things these Homes face, as from the way things look in the Letters ("Age of Pisces", "Don't Drop Out-Drop In", "The Cost of <u>Drop Out—Drop In"</u>, "The Cost of <u>Flirty Fishing</u>", etc.) these works seem almost like the avant-garde of the way it will get to be more and more all over in the days to come. So we thought you'd be interested in our experiences out here so far. (DAD: Amen!)
GETTING "SUCKED IN": This

seems to be a major battle of many of these Homes-that is, if a brother is spending eight or so hours a day working in the system and with systemites, it's a pretty powerful spiritual influence to be exposed to for very long. Unless the atmosphere of the Home is very strong and full of the Ballast of God's Word, subtle values start to creep in on their way of thinking.

THEY CAN GET CYNICAL AND

THAT STARRY-EYED IDEALISM, or begin to put faith in paychecks more than the Lord, etc. Because they must use extreme caution in how they minister and what they say so as not to give away their identity, etc., there is a danger of the candle getting shoved under a bushel basket if they aren ful. Several people involved in these works have gone back to the U.S.; others have really lost the vision temporarily of what they were there for. (DAD: God help us!) for.

ONE WAY WE SAW OF COM-BATTING THIS PROBLEM is. where possible, have one or two peo-

, partire work tor a c (where possible). This keeps the Home more witnessing and Wordoriented, and when our 9-to-5'er brother comes Home he can imme diately enter into the flow of things and not have all the load of getting the Home fires stoked up. This leads into one of the biggest questions: Getting the right personnel for the

THE NEEDS IN THESE FIELDS ARE PARTICULARLY FOR THE MEMBERS OF THE FAMILY WHO ARE VERY WISE in the ways of the world, pretty intelligent and with a lot of common sense and discernment, and <u>spiritually strong</u> enough to stay firmly on the Rock while selah enough so no one notices your intentions. Single sisters, musicians and degree holders are very much in demand in almost every single Home we've visited, but un-fortunately these "labourers are very few" in this part of the world. Could you possibly put in a "plug" for them? (DAD: Here 'tis!)

CLEARANCE REQUESTS: -Are often received by us or these Homes from people who, though obviously sweet and desiring to pioneer, just don't seem to have the type of talents or personalities or backgrounds that would enable them to survive without risking the security of others. It's a delicate thing to an swer these requests without coming across like systemite snobs. But, God help us, we just can't open the doors of these Homes to everyone who wants to come without risking the hard work and time invested by

I AD I A TET WHAT WE CAN DO: (said, Dad, in one Letter that you didn't think there was much we could do in these Muslim countries. What we see as our job is to concentrate on the <u>little</u> we can do and as far as we can see, that is to concentrate on winning, at least as friends, a few "pharoahs" of these very important and powerful oil states—which seem to have a very important role to play in these last days-in fulfillment of Bible prophecy and the prophecies of David. Naturally, we see FF'ing as the method.

THE WORDS OF DAVID: This is, of course, the reason we're here at all, but it is <u>such</u> a delicate matter to know when to give it to whom. One rejector can risk the whole work, and the safety not only of our brethren but also our fish. many of whom could get into serious trouble should our identity or our motives and methods become known publicly.

SOME OF THE BRETHREN ARE DEVELOPING NEW SELAH LAYOUTS FOR LETTERS, make ing them appear as magazine articles When we see how people react to

these, then we can better judge whether to risk revealing the FOL connection to them or not. (DAD: PTL! GB'm!) FF'ING: -- Is much the same as the

situation with the <u>Words</u>: We <u>really</u> have to pray about whom to FF, as one who gets away can ruin everything, except by the grace of God. So, though we'd in most cases in Europe or even India prefer to

the diss were <u>sare</u> the fish is worthy, we'd rather <u>wait</u> for more of a witness. Often, someone we feel we'd work on in Greece or India, we need to pass up here in their Home pond.

WHAT WE ARE DOING MAY OR MAY NOT BE PERMISSIBLE, but if someone knows what we're into and takes offense to it (due to self-righteousness or jealousy or pride or whatever) the least that could happen is <u>deportation</u>, and the worst we'd rather not contem-plate! Suffice it to say—it's dangerous, so we like to save our ultimate weapon to be our secret ultimate weapon!—To "wait for the witness and watch for the worthy" is more important than ever out here! (DAD: Amen!)

REPORTS & STATS: Recently as we imagine you've heard, one of our most fruitful drop-in works was virtually closed down due to a combination of a serious problem case who it seems should never h been permitted to stay on the field, as well as a jealous "almost-fish", and an FF report falling into the wrong hands.

WE SO OFTEN DRAW STRENGTH FROM THE STORY OF JOSEPH WITH PHAROAH, AND DANIEL ETC., for these ticklish and patient ministries, and feel they are real long-term investments. We must though, it was encouraging to note Africa and Asia led the world in lovemaking! It's one way to gain disciples in difficult circumstances! Hallefuiah!

"<u>Proclaim Libertyi</u>"

FISHERMAN & CLUBS: Another major area of difference from the Letters and Tenerife method to the way we've seen the need to approach things from here is that:

GIRLS GOING TO A CLUB UN-ACCOMPANIED BY A MALE IS SIMPLY NOT DONE, very risky (civilization is not so genteel in affairs of sex east of Greece we've found!) and can get you a bad name fast, which makes catching big fish much more difficult! We've even found this held true in India to some extent! Going to clubs has borne relatively little fruit compared to making social contacts in more casual surroundings through mutual friends, business contacts and even hitchhiking!

FOLLOWING UP THESE FRIENDS AND LETTING THEM GRADUALLY FALL IN LOVE with our "respectable" sisters, and then revealing their willingness to share more deeply, seems to bear more fruit with less risk than going "all the way" after one, two or even a few dates. We feel this falls into the category of understanding local customs and taboos that you mentioned in "World Conquest Thru Love"—just being in-tene with the mentality that we're trying to reach.

AS FAR AS FISHERMEN GO:

—We've found that in many cases
they are more than just protection.

actually they are real assets in ministering. Though of course the fish hunger after the emotional and physical love through a woman, when you get down to changing their minds about matters of philosophy or religion or life's real values, Muslims often can receive these things better through the mouth of a male who is their close friend, than through a woman who is their

IDVER.

ISLAM DOESN'T EXACTLY
ELEVATE WOMEN TO THE ROLE
OF SPIRITUAL TEACHER! In fact,
they aren't even supposed to pray
with men in the mosque!! So,
though we definitely found fisherwomen more effective in Greece,
there seems a more necessary role
for men in the Arab or Muslim world.
And the goals of our FF'ing in these
countries also seem to differ to
some extent from the West.—

OFTEN WE FIND OURSELVES SPENDING A LONG LONG TIME ON SOMEONE WHO ISN'T EVEN SAVED or at least doesn't understand salvation very clearly, and having to devote the major amount of a bait's time to one fish—as they are either kings or potential kings—and non-Christians, especially Muslims, can take a while to bring to Jesusl WE DRAW ENCOURAGEMENT

WE DRAW ENCOURAGEMENT FROM LETTERS LIKE "MISSION-ARY'S PRAYER" AND "MO MEETS MO'AMMER" AND THE ISLAM LETTERS, as well as the examples in the Bible of Esther, Ruth and even Abraham and Sara. But, this can really limit your stats, unless these Homes feel understood, it can even drive them to a hasty.or

tactics in <u>Teheran!</u> A little word of understanding of these circumstances in a Letter would help a lot!

I FIND MYSELF OFTEN IN THE UNCOMFORTABLE POSITION OF SAYING I DON'T THINK DAD EXPECTS US TO DO THAT HERE! Most agree, but if it's in a Letter, it would be a big help! "Quality, not Quantity" is really the keynote for drop-in, Third-Wrold FF'ing, we feel! An indiscretion, or a tangled line can result in big problems; again, not just for us, but also our fish! Most of these fields make Spain (which inspired "Don't Drop Out—Drop-in") look like a totally free society! (DAD: Amen!)

BUSINESSES: One last subject that we've been knocking around with a lot of the brothers in these countries is the potential (and advantages!) of starting small family-controlled businesses, which often could provide the covers, visas and income that jobs do, without having the quenching effects of working under ungodly taskmasters of system employers.

tem employers.

IN INDIA WE'VE STARTED A
SMALL COMPANY doing a number
of things including making a sponsored radio show with a little advertising, supplying European voices
and models for advertising and marketing Family music cassettes. It's
starting to prove quite lucrative as
well as a good cover.

well as a good cover.
IT SURE HELPS ANSWER THAT
INITIAL QUESTION OF "WHAT
ARE YOU DOING HERE?", without revealing the hook, line and boat
in your first five minutes of conversation! It also has really won the

in India who wanted to see us <u>do</u> something efficiently before giving us a bigger slice of <u>his</u> kingdom, which could be considerable!

EVEN IN THE MIDEAST, WE COULD MARKET HANDICRAFTS, act as agents for entertainment, etc. quite easily! Or even open health-food restaurants and stores, etc. Actually, several brothers are taking steps in these directions. God help us, we don't want to get like the Jews, using God's Family for business purposes, but we see how business ventures, even not strictly message-oriented, could be more conducive to ministering than jobs in certain circumstances.

YET, IT'S SO <u>DIFFERENT</u> FROM OUR OLD WAY of doing things we'd really appreciate a little word from you on it, if possible. We're not trying to turn the house of prayer into a house of merchandise, but rather the house of merchandise into a house of prayer, if you know what we mean. And out here, in the oil boom states at least, the whole place is a house of merchandise! Sound feasible? (DAD: Why not?—"All to the Glory of God!"—1 Co. 10:31.)

IN DUBAL AND TEHERAN, the

IN DUBAI AND TEHERAN, the most developed of our drop-in works so far, we've seen some incredibly good fruit, and tremendous potential! Even using the very gradual, dropped-in approach, these areas have at least as many, if not more, good fish and friends on the line per labourer, as the works we've seen in freer areas.

SO, TO US, THE FRUITS LOOK GOOD, and the future promising,

Times you must like a ring me me or mese works and the trings we see expressed would be a <u>0.0</u> felo. (DAD: Here 'tis!) We sure need,

Our Handicapped Child!

"Many are the afflictions of the righteous, but the Lord delivereth him out of them all!" (Ps. 34:19.)

by Didymus & Blossom; Puerto Rico

Dear Dad, Maria and Sara,

God bless you all mightify! I love you all so much! Well, I've written you many times, but never mailed the letters. But this time I'm determined to finish the letter, as I'm so convinced to share with you what the Lord has done in our lives! PTL!

For a long time, we were in Peru as Didy (my mate) was an artist. I was looked upon as a real problem, mostly because I was so disillusioned about the way things were. I was a childcare worker plus had a baby, but it seemed I didn't have too much time for her.

While there, Ivana came down with meningitis and was very ill. The Lord used this time to draw us closer to Him, the Letters and each other. Thank God for you, Dad, as every Letter that came out at the time was so appropriate: "Pill or Pilorimage", "Lashes of Love", "Afflictions", etc.

The harshness of the past leaders was so heavy that I was under such a cloud! While Ivana was in a coma

The harshness of the past leaders was so heavy that I was under such a cloud! While Ivana was in a coma, they got us together and told me that I should take my baby and go back to "my fat Jewish mother" and that from the day Didy married me I had killed him! Didy was told

he lost his crown as an artist and we both felt that God was through with us!

When Shaul and Abiah returned from your Home, we shared with them all that had happened. Their reaction was so different! Instead of being harsh, they really encouraged us for sticking it out! Their faith in Ivana and us was incredible, and for the first time I could really see God's hand in it all!—To mold us through the fiery trial and affliction to make us what He would want us to be!

Our lives have changed! I have experienced the truths of "Many are the afflictions of the righteous, but the Lord delivereth him out of them all!" Plus, that God's delays are not denials! We are now in Puerto Rico so Ivana can receive modern therapy. She has to relearn everything. Her progress is coming but takes time. The girls who work with her are Christians and young, plus they really love her. They know who we are and witness to the other parents about our testimony.

One night when we were going to bed, The Lord placed a real desire in us to seek Him. We were so desperate and the Lord filled us up with something we wanted to tell you: max must be using a state of all leather belt. She had long clack had and a staff and was caring for multinudes of sheep.

45.

The Lord told us it was Ivana and that in the Endtime she would be called "the princess of mercy and love" and that all she had gone through was to teach her compassion on others. He told us that with all her progress, we needed to always let her know Jesus had healed her. Then He told us of the importance of raising her in David's heart and spirit. Then we received several scriptures on healing! Wow! We wept and wept for joy. From that time, although we really get attacked sometimes, we know the Lord's plan! Hallelujah!

We want this to be an encouragement to other couples who have handicapped children, to keep serving the Lord the best they can. At first we went through real trials

to help wana and marifor her sake we should be here. So we decided to really attack here and change this part of the world. We started a new plan of going to different orphanages, prisons and hospitals. Plus, I've been getting out FF'ing at least three times a week. And although I'm in my eighth month of pregnancy, the Lord's giving me some sweet Puerto Rican men to minister to!

Once again, I want to thank you for the MO Letters and the Davidito Letters and most of all for caring so much! We love you and Lord helping us, we want to impart the love you've showed us to all those in need!—Love, Blossom & Didy.

P.S. We are keeping notes on Ivana's progress and taking pictures of her at the various stages, as we believe it will be such a testimony some day!

Childcare Lessons and Tips!

SEPARATIONS AND SCATTERED CHILDREN!

A problem that seems to be occurring very much recently is a flippant attitude about separating, finding new loves, etc., even in established families with two, three and four children. The parents separate, divide the children and take off! Soon they get discouraged because they can't find people to take on the responsibility of the children with them and they say, "What's

wrong with these single brethren, where's the Letter 'One Wife'?"
But if they themselves have shown an irresponsible attitude towards their young ones, it is hard to inspire someone else to take on the responsibility!

I am seeing lots of children in the Family right now suffering, lacking either their father or their mother to give them that extra personal love. It is not always because of lack of love in the Home, but be-

cause the parents are not consulting the Lord before they make their separations.

The children's needs are con sidered last, after the parents' personal happiness. But I remember reading clearly in the Letters several times that Dad stuck with Mother Eve until the kids were grown and then God supplied him with another

Then he made sure Mom was well taken care of before she went on her own! (SARA: Amen!) I know that we are "One-Wife", but I think that the separating couple should still have a responsibility to each other and to the children to make sure that everyone is taken to make sure that everyone is taken care of and that the <u>children's</u> needs are being considered <u>first</u>. Then they can separate, if it is according to the <u>Lord's leading and</u> the <u>Law of Love</u>, to the good of all concerned: 1. Good for God's work. 2. Good for the Body. 3.

Good for you.

I read the Letter "Divorce", expecting it to be pretty out of date, but actually I found it very timely.

I think that anyone with children thinking of separating should read it. Here are some quotes I thought

pertinent:
"As written before in 'One Wife' and elsewhere, in our communal cooperative tribal form of society, the larger family unit comes first, and is far more important than the tiny private selfish family unit of two and their own children. So that which is best for the Colony or the Family is the primary consideration

About the children, Dad says:

"For the sake of the psychological effects on the children of such a separation of a father and a mother and the division of their smaller family unit, I would <u>not</u> advise it unless there is <u>no other solution</u> and such a solution is agreed upon by <u>all concerned." (359:16.)</u>
"We have found all too often that

"We have found all too often that people who can't get along with their mates, frequently can't get along with any mate!" (359:20.) "Too often a mate is simply bored and wants a little variety or a change, but it is not sufficient excuse for breaking up a marriage." (359:21 "Real love...can survive almost any difficulty, difference, weakness, atylically, atylerence, weathess, sins, or obstacles...see if you can't make it work if you try!" (359:26,35.)

I wouldn't write this if it weren't

for the children involved, as surely it is none of my business what personal decisions people make in their lives, but I think that it is affecting the work and our children and we have to learn to take "all things" into consideration. (SARA: GBY, Delia! We surely agree!!)

"TEMPORARY PARENTS"

Since having two of Matthew and Renee's children with me for the past few months, I've learned some good lessons for "temporary pargood lessons for temporary par-ents", or those with children who seem to need some extra security. When Isabelle (age 4½) came, I was litnessing daily and often FF'ing

at night. I made sure that all her needs were met, but I personally

homesick, I knew it was my fault for not giving her a "Mom's love". Then when her sister Sara (age 6)

came and Isabelle went back to her parents, I found out that just the act of polishing Sara's shoes, mending and ironing her clothes, sending off to school, etc., gave her ner off to school, etc., gave her security. It made her more aware that I was the one she could count on since Mommy and Daddy weren't there. Of course, she received a lot of love from all the brethren.

But she had a definite need for someone special to rely on. Funny how those little things could be so important! Sleeping in the bed with me every once in a while gave us a special time together to share heart to heart, also.

LITNESSING!

When Isabelle returned, we started When Isabelle returned, we started litnessing together and pioneering a new field—waiting lounges where people are "sitting ducks", ha! It's perfect for children. I let her go by her own leading and she picks a sheepy person to give her first piece of lit to. When they take it, she says, in Spanish, "I'm going to give you a kiss—on the nose!" When she gives the kiss, everyone cracks she gives the kiss, everyone cracks up and then all those around begin to pull out donations and wait for their kisses! It works well in cafes too, anywhere where people are sitting and can see your child in action.

This is all her own idea. She likes to skip from person to person and only goes to those she gets a check on, and she's amazingly in tune. Also, knowing the language helps

to understand and answer questions that people ask. This is just to in-spire you that your children can be such an asset that you'll hate to go without them! The answer is to find the method that turns their key!

Lil' Sara, age 6, likes to litness in buses. She puts the Letters in a bastake one, put a donation in the basket and walks down the aisle saying, "Take one!" She looks just like a flight hostess! They immediately take one, put a donation in the basket and begin reading. This also was completely her own idea, and I think it would work well on trains, too.

The Holy Spirit can really inspire our children with new bottle ideas, as they aren't so aware of "how we've always done it"! I think they do best when they work according to their own faith and initiative, just like we do! On other occasions, I have taken them out to where I wanted to litness the way
I wanted to litness and it hasn't always borne the same fruit as when they take the lead!

One more suggestion: Keep a pocket atlas handy when out. When you meet someone from another country, pull out the map and show the place to the child you are with. It makes the foreigner feel so important, and your child at a very early age begins to be more aware of people and places! God bless you with some happy litnessing! Love, Delia.

Miracle of Creation!

by Shelayne & Jim; Mideast

ON SEPTEMBER 7th, 1978, MY WATERBAG BROKE at 8:00 p.m. We were at Home getting ready to eat. Because there was so little water and it was 28 days before my due date, Rachel and I dismissed the idea, thainking maybe it was just a due date, Hacher and I dismissed the idea, thainking maybe it was just a loss of bladder control. Five minutes later, however, my waterbag emptied all over the kitchen floor! Hallelujah! My husband Jim left to telephone the mid-wife.

THIS BEING MY FIRST BABY, wasn't sure what to expect so I returned to the table to eat. But I was so excited. I only drank a glass of milk with vitamins. Around 8:30, I decided to lie down and get some rest, and at 9:00 I started having a severe backache. Gary came into my room, telling me I was in labour

LOVE LETTER TO MO & MARIA:

Dearest Dad and Maria,
I love you! I just finished reading
Stern and Bunte and wanted to

I want to thank you for loving us so much and taking such good care of us, not only spiritually but in every way. I love you and it really breaks my heart to feel your great love and know your concern for us personally in the midst of so many changes, problems and burdens of the Lord's Kingdom which you are concerned with worldwide. It makes me feel so small for my own lack of love in not communicating my love for you more often. Please forgive me!

forgive me!

We need you so, so much and you are so loved by every one of us!

My love for you grows only deeper and stronger with every passing day as the Lord and you, through the Letters, lead and mould us in our daily lives. I love you because you first loved me and laid down your life for me, sacrificing so much that I might know your love and God's love through you. You are always and forever my beloved King, Shepherd and the greatest love of this life.

One of the greatest lessons of love I've learned from you both is your great, great love for each other, as well as for others. It is the greatest sample I have ever seen between two human beings! I love the way you love and need Maria and depend on her and take care of her and the way she loves you and takes care of you with such selfless devotion.

I've never seen two people give so much of themselves for others and for each other. I've never seen two people hurt so much for each other,

dying daily for the happiness of someone else. I know because I've seen it and experienced it myself when I was with you. But the dying daily has given you both such an inner strength, a faith, a peace, a power to overcome the impossible.

I pray I can become more like
Jesus and you and more loving, not
only to my <u>mate</u>, but <u>everyone</u> I
meet. I know you have so much
love because you <u>give</u> so much away,
and when you <u>give</u> you give <u>every-</u>
thing you've got!

Thank you for all the love you have given me, the time you have given me, the sample you have shown me and the Words of God you have given to us all that are showing us how to conquer the world with His Love! They are a burning light, a living testimony etched forever in my mind, heart and soul!

We need you so much to lead us and teach us the way. I pray for your health, your strength, your safety, your time and your happiness, which are so precious and important to us all!

Thank you for caring and for sharing and bearing our burdens, and I just pray we can fight better, let our light shine brighter and unite hearts together wherever we go by His Spirit, through His Word, with His Love for His Kingdom! I'll be forever Loving You, Your Becky.xxx

Change The World! -Via Radio!

A "how-to" by the producers of "Music With Meaning", the

Meaning", the Family's radio show reaching millions in India—now beginning its 3rd year!

HOW DO YOU REACH A
COUNTRY with a population of
nearly 700 million?—A population
that is increasing by over 100,000
every few days.—Also, a population
that is largely illiterate and widely
scattered over a large area? Well,
one of the means that is obviously
at our disposal is the mass media,
and in countries where only a fraction of the population is plugged
into television, this means the <u>radio</u>

into television, this means the <u>radio!</u>
IN INDIA, THE LORD HAS
REALLY BLESSED our efforts in

in order that we might begin to reach this vast country with our message of Love. Not having had any previous experience in this field, it's taken almost two years for our radio ministry to develop to a point where we now feel that the "Music With Meaning Show" could also be a blessing to other English language areas in other parts of the world, and we would like to offer our services to you in any way that we can to make such a thing possible.

IT'S ENCOURAGING TO NOTE just how many stations in America alone that Dad managed to provision time on. It is interesting also that the Seventh Day Adventist

cially with all the fantastic irroadcastable material that we have available to us.

WHAT FOLLOWS ARE A FEW

WHAT FOLLOWS ARE A FEW TIPS AND GUIDELINES on how to approach a radio station and what kind of "sales pitch" you could use to sell them on the idea of broadcasting either our show or your own. Please bear in mind that our experience in this field has been confined to India and Sri Lanka only, so when dealing with your local station you'll have to operate on your own faith, vision, needs and the Lord's leading.

"MUSIC WITH MEANING"
THIS PROGRAMME OF MUSIC
FROM THE FAMILY has been heard over Asia now for two years. The first year it could be heard once a week for fifteen minutes on Sunday evening, and then by popular demand it became a six-day-a-week show starting in 1978. Half-way through 1978, we changed the times once again because so many were asking for a half-hour programme.

programme.
SO CURRENTLY WE HAVE
FOUR 15-MINUTE SHOWS A
WEEK at 8:30 p.m. and one halfhour show on Sunday morning at
8:30 a.m. These times are ideal for
the listeners in Asia. If you do get
a show on the air, then it is, of
course, good to pray hard to get a
timé when the most people are
listening. Perhaps Sundays would
be good—also a time that doesn't
conflict with a popular TV show or

all our different bands and a nigers worldwide. Also included are short appropriate MO quote jingles, interviews with the different inspirationalists who have contributed their music to the show, and we've just started doing a few skits and radio dramas based around different MO Letters or passages from them.

THE PREDOMINANT THEME IS SPREADING LOVE THRU' MUSIC, and between the music and the commentary we try to include our complete message in this very palatable form. On the programme itself we do not mention the name of any particular organisation sponsoring the show, but rather say that the show is brought to you by young musicians worldwide who believe in Love and who believe in putting Love back into music—or something similar.

something similar.

IF YOU WANT TO AVOID TELLING THE STATION THAT THE
SHOW WILL BE SPONSORED BY
THE FOL, then you could just say
that the appeal of the programme
lies in the fact that it features music that has been recorded noncommercially and that the programme exists to give bands and
singers who have not necessarily
made a record but who have a lot

of talent a chance to be heard.

THIS APPROACH HAS WORKED
VERY WELL HERE, with the programme acting as a bait for people to write in and join the "Music With Meaning Club". When they write in, they are then given a deeper understanding of the motivation

CURRENTLY, WE HAVE ABOUT 2,000 MEMBERS of the "Music With Meaning Club" and each month we receive an average of 300 letters from listeners who write us for the first time, not counting correspondence from those who are already members! So, this radio ministry has become quite an outreach! The club members who seem the most interested in our message become potential catacombers, and we have recently sent out teams to various cities where we have no Home in order to follow up on club members and potential catacombers won via the radio showl "MUSIC EXPLOSION"
THIS IS THE NAME OF ANO-

THIS IS THE NAME OF ANOTHER RADIO SHOW we are doing here in India that is heard in the cities of Bombay, Pune and Nagpur on a major radio network. "Music Explosion" is sponsored for us by a local shoe company owned by a friend of the Family. At the beginning of the show we include a short advertisement for the shoes and in return the company foots the bill (hal) for the show and also pays us for doing it, providing the Family here with a very useful weekly source of income.

WE CAN'T MENTION ANYTHING TOO RELIGIOUS as the station is government censored and very antimissionary. In fact, it is a real miracle that our music can be heard on this station! PTL! Again, the idea of a programme of "non-commerical" music has really caught on amongst the youth, as they seem to be sick

DAD MENTIONS HOW PETS

CAN BE AN EDUCATIONAL EX-PERIENCE for the children. But it is quite a responsibility having a pet in the house, and the parents need to lay down the <u>quidelines</u> and rules! We saw some pets being quite abused—children pulling the cat by its tail, dropping the cat with force, etc. We were in one Home where the whole Family had just gotten over "pink eye". The children had gotten it first. We got a check that quite possibly they had gotten it from putting their faces on a puppy they had. So, be sure pets have proper care and that the children are taught what they can and can't do with pets!

IN RESPONSE TO "THE HOME-GOING", the following is a letter sent by one of our brothers in Madrid to the editor of "El Pais", one of Spain's top nationwide newspapers. It was published on Satur day, December 23rd, the very day after the Christmas Lottery was played, which caused this edition of the paper to be sold out by midmorning! Thank the Lord and Dad for inspiring us with the vision for it! "Great was the company of those that published it"! (Ps. 68:11.)

Acts Revolutionary Verses! An up-to-date vision on persecution from our "blueprint" (the Book of Acts)!

"ACTS REVOLUTIONARY VERSES", key verses from each chapter
of the Book of Acts, taken from our old "Revolution For Jesus-How To Do It" Handbook. We sug-

gest that everyone read them over together and mark them in their Bibles for a very up-to-date vision that the Early Church went through the same persecution as we do

(Here are some of the many letters we have received recently from our friends and supporters around the world:)

"I feel scandalized..."

If I am sending you these words, it's to let you know to which point I feel scandalized by the critics against the various new religious movements. The spirit of inquisition still exists. It manifests itself in a less brutal and barbaric way than in the Middle Ages, and this is due to a certain evolution of the morals, but it stays the same, and its sectarianism didn't change.

It is as a result of a recent
TV programme that I write you,
and I would be thankful if you
could let me know how these different movements want to defend
themselves and attack their enemies
to protect their ideologies.

"...a blast of defaming false accusations!"

"...for with what judgement ye judge, ye shall be judged, and with what measure ye mete, it shall be measured to you again." (Mt. 7: 1-2.) A lot of journalists have measured, heavily. It's not up to me to measure; Jesus will measure. For a while now we have been witnessing a blast of defaming false accusations regarding the Children of God.

dent system, have planted an enormous tree and feed it with their venom, thus trying to hide a great forest of new sprouts full of the sap of life, love, hope. The tactic is as old as the Devil. This fascinating wave is most alarming with its violence, but "blessed are the peacemakers, for they shall be called the children of God."

It's been 2,000 years now that the system has been trying to put Jesus in bondage, but in vain, because still and always the Word is being heard. Today, with his songs, his guitar and his witnessing, the child of God tells about Jesus; a "mustard seed" filling the simple hearts.

I have known the Children of God for many years now. I have watched them live, I have listened to them, I have never stopped asking them my questions, sometimes even to the point of being unbearable—I love them! Rather than the gods of promotion, of conformism, of hypocrisy, of pharisaism, they chose Jesus of Nazareth. It's a choice, their choice.

I will say, in conclusion, that my life, already full, has been marked by admirable people. Likewise for me, the Children of God are a light in the darkness, the assurance that Jesus is and will be always present amongst us, to set us free. As for the persecutors, haven't they already got their reward?—J.M.; France.

"It is beautiful to know that you are there..."

I just finished reading Stern and Bunte magazines and wanted to write you a little note. Please don't

thath and have changed the many —I know because I am one Thanks for keeping on in spite of all the lies they tell.

These people who write these articles against you don't know you, and this uncertainty and fear of you causes them to write these lies. I would wish that the writers of these articles could experience you as I experienced you, as I lived with you for a while. They would then be ashamed of the lies they write.

It is beautiful to know that you are there and that through you even more people will find happiness and will find themselves. I hope the Family of Love (Children of God) grows quickly in the entire world and that your strong faith in Jesus Christ is helpful in this. For now, I would like to end this letter and I wish you happiness and success for your future goals.—V.; w. Germany.

About the Letters of Father David:

I have in my hand several of your booklets that you distribute in the streets. Each time I read them, I feel a great pleasure and immense joy, because I realise that there are people who really want to live for love and through God. This makes me happy, as I was beginning to believe that there weren't many people anymore willing to give their lives to God, who is a God of Love.

—D.; France.

I would like to be a member to help the world and give a little love and Jesus. The Letters of Mo are fantastic. It's the truth and they The pamphlets that you send me are really superb, make beautiful spiritual reading and leave me really in deep meditation, which complete a new transformation of myself as you keep on sending me new ones.—A.D.; India.

(From a friend after spending her week's vacation at a Family of Love Home in Geneva, Switzerland:)

I don't know how to thank you for all the kindness you have had for me during my short, but wonderful stay in Geneva. Thanks to you, I regained a little health and most of all I could devote more time to the Lord, praying better, united with you all.

with you all.

Ever since we met over a year ago, I knew that, with your eyes full of love, your smiles so sweet, that there was something very strong in you. This stay with you where everybody works, helps and loves each other without any arguments—one has to see it to believe it—because for several adults, men and women, to live together and to have such a perfect unity, this love can only exist with the help of God.

Very often I relive my stay with you in thoughts. I know at what time you pray, at what time you eat, when you go witnessing and when you come home in the evening, all happy that you have done a good job for Jesus, and your day is not finished yet; and they are so beautiful, your evenings with your songs full of love.

And what shall I say about Christian (her son who spent eight months in prison)—when everything seemed lost, your prayers together with ours have been heard and thanks to God there was another miracle, thank You Lord!

Not one day passes by that I don't ask Jesus to bless you all, because you draw your strength from your love of the Lord. May God bless you and keep you in His Love.

From a Thankful Mother!
Dear Parents & Friends,

My daughter Anna joined the Family of Love four years ago. At the time, I knew nothing about them, and as my daughter was only 17, I was really worried about her involvement.

Of course, I heard many stories

Of course, I heard many stories and rumours about the group and it was hard to sift the truth from the fiction. However, I felt the best testimony was in knowing the members themselves. I became increasingly impressed with them, with each meeting. They were really "practising what they preached", and their love and concern for others was so obviously genuine.

Canberra, Australia: Mrs. Smith during her visit with daughter Anna and son-inlaw Lee in the Family of Love!

Just recently, I had an opportunity to stay for a few days at their home in Canberra where my daughter now lives. From the moment I arrived, they were marvellous to me and all welcomed me as one of the Family. In fact, they make their home open to all comers, whether they be genuinely seeking the Lord, or just lonely for human companionship, love and understanding. This love and consideration is also very much present among the members themselves, and all is peace and harmony there. I am sure their love of God in Jesus is strong in their hearts and that they will stand firm in adversity.

I also now have a wonderful sonin-law and look forward to the birth of my first grandchild! I would say to any worried parents: "Give them a chance to show you how genuine they are in their faith and love for the Lord and in their desire to serve Him."

Sincerely, Mrs. Smith; Australia.

Living Your Sample of Love!

From J., after living in Dad's Home:

Dear Dad and Maria,
I WANTED TO SHARE SOME
THINGS HERE, which are a direct
result of your talks and sample to
us. The Letter in the FN about
sharing real love reminded me of it.
I must say that after you left, we
sure did miss you every day, and
missed all the sweet and loving things
you did to encourage and help each
one of us personally—even the least
of us, despite all our mistakes and
failures!

AFTER YOU LEFT, THERE
WAS QUITE A VACUUM TO FILL
in our hearts, and it didn't take long
to realise that if we still wanted that
same sweet spirit around, it was up
to each one of us to get closer to
the Lord so that we could keep sharing this same love and be a sample
of what we'd seen.—Quite a challenge
WE'RE SO GRATEFUL FOR

198

WE'RE SO GRATEFUL FOR
ALL YOU'D BEEN FAITHFUL TO
SHOW US and share with us whenever you saw there was something

you knew that you could teach us.
WE BEGAN EVERY NIGHT TO
READ YOUR LETTERS TOGETH'ER after dinner (so we could still have our dinner talks!) and to really talk about them afterwards, so that it was a time of close fellowship with you and each other.
THANK YOU FOR NOT LEAV-

THANK YOU FOR NOT LEAV-ING US COMFORTLESS, but giving us your love through your Letters. It really helped us all when we read "I Gotta Split" and you showed us that we/could get to know you even the words that you write to us, because then we can commune with you in the Spirit.

EVEN PEOPLE WHO HAVEN'T MET YOU PERSONALLY really do have a window into your heart and home through your Letters and the Davidito series, since you live what you say and say exactly what you mean when you write to us!

mean when you write to us!

IT'S AMAZING TO ME TO
READ BOTH OLD AND NEW
LETTERS and to see how long ago
you said the things we're learning
now. We could have seen it before
if we'd let the Letters be our real
leaders and had been reading, studying and applying them more by
faith. Please forgive us all for taking so long to discover and realise
that the spirit of unselfish love and
concern you live for is the one we're
supposed to have too.

I WANT TO THANK YOU, DAD,

I WANT TO THANK YOU, DAD, FOR CONTINUING TO SPEAK FAITH concerning us and for being so encouraging to us about how we could be used.—That's really having the eyes of love, to see the good and possibilities for what no one else (but the Lord sometimes!) can see!

YOU AND MARIA AND THE REST OF YOUR HELPERS WERE ALL SUCH A HELP TO US in the hundreds of little ways you gave to us every day—something which has really given me the vision for how the Lord can use our lives to show His love in countless ways throughout the course of the day's most normal activities.

ESTED TO KNOW THAT THAT'S AFFECTING OUR "SEX LIVES" too! Ha! The more we're all trying to share some of this real considerate love all throughout the day, the more natural it's becoming for us to be open with each other—free,

affectionate, loving and sexy!
BEFORE, I CONFESS, I USED
TO TRY TO HIDE behind my
"work for the Lord" and to protect
myself from being exposed and hurt
because I felt so afraid and insecure
about myself around other people.
It's hard to imagine how someone
can love you despite all the bad!
And usually I didn't like fucking
the brothers so much because,
though we lived together and made
love sometimes, often we still weren't
very close as people.
I JUST BECAME VERY DIS-

I JUST BECAME VERY DIS-COURAGED ABOUT SEX in general because although it felt good, somehow afterwards it seemed like "just a fuck" and I didn't know what was missing! So I tried to avoid the whole scene by just working late and going to bed as quickly as I could. But that sure didn't help matters any, as I just felt miserable for having such a selfish and un-understanding attitude.

un-understanding attitude.

THANK GOD FOR LOVING
SEX LIKE YOU PRACTISE and talk about in so many Letters! It's something we all need and is another thing altogether! TYJ! I'll never forget the tender love, fun, patience and prayer of each time I spent with you, Dad.

I FELT LIKE YOU GAVE SO MUCH and you made me feel so loved and happy. You were the first man I was ever with who put my happiness even before his own in bed! It really touched me (almost shocked me!) and made me want to open up and change to find out just what this simple love of yours was all about.

YOUR SAMPLE OF "LOVE-MAKING" THROUGHOUT THE DAY and those faith-building dinner talks really inspired me and started to wash away all those fears about being unloveable and worries about getting pregnant or not getting pregnant. Love and the Word like you share really just make you want to love, come what may! I guess you gave us all the special kind of real security I always needed.

FROM DAD & MARIA'S Heavenly Home Helpers:
Laundry Tips!

WASH BLUE JEANS INSIDE-OUT, especially new ones, to prevent white lines from showing up. Wash new clothing items, espeically blue jeans, separately so the colour doesn't run onto other clothes. If you plan to wash and shrink a pair of new jeans, try adding a pair of faded old jeans to "dye" them "back to denim" as the new jeans give off colour in the wash.

TO REMOVE BLOOD STAINS, wash the garment out <u>immediately</u> in <u>cold</u>, not warm or hot (as it will set the stain) water. Then rub a piece of lemon on the dry garment and dry in the sun (this is for a white or colour-fast item). Then wash as usual, and the stain should be completely gone!

TO REMOVE INK STAINS from ball point pen, spray hair-spray directly on the dry garment, let it dry and wash the ink out.

BEDDING: For young babies who drool, it is important to keep clean, dry sheets on their beds. Babies can contract rashes just from sleeping on soiled, damp sheets. To save on sheets, try putting an absorbent cloth "puddle pad" under baby's head while sleeping, such as a flannel receiving

blanket. Be sure it is big enough to tuck it in securely on both sides so as not to twist or roll over the baby and possibly smother him. Change it twice a day or as necessary to keep it clean and dry under baby's face and head.

AIR CHILDREN'S MATTRESS-ES AND PILLOWS in the sun and fresh air frequently, especially when being potty-trained. It's nice to occasionally spray the mattress with some sort of disinfectant spray.—You can make your own by following the diluting directions on the bottle of disinfectant and sprinkling the solution on the mattress and airing it out. Of course, always use a mattress padl If the child's blanket gets pee-pee on it, you can immediately spot wash it and hang it out to dry, unless it is totally dirty and requires a full wash.

TOWELS: The quickest way to ruin a good towel is to throw it in the laundry bin while it is still damp or wetl—Not only will the towel mildew, but it will cause the other laundry to mildew too! Also, always hang up towels singly to dry after use, over a radiator or in the fresh air, if possible.

air, ir possible.

OCCASIONALLY, WASH A

LOAD OF TOWELS IN VERY HOT

WATER to give them a good, thorough wash. However, it's not usually
necessary to use hot or even warm
water for general laundry, unless the

items are very dirty.
YOU KNOW WHAT GRAND-

wash the dish towers and cloths right there and then hang them up to dry so they would be ready to use for the next meal!

DRYING DISHES WITH A DISH TOWEL CAN BE VERY UNSANITARY if the towels are not kept clean or washed well. <u>Dad</u> usually recommends letting the dishes dry by themselves in the dishrack. If you use hot water, especially for the rinse, the dishes won't take too long

DON'T USE YOUR NICE DISH TOWELS FOR WIPING UP SPILLS on the counters or floors, as potholders, or for any other purpose than what they're meant to be used for—or they'll become heavily stained and smelly, too!

HANGING UP HINT: A time-

HANGING UP HINT: A timesaver is to hang on the clothesline in a row the same type of items of washing, such as all the dish towels together, all the socks together, etc. That way, when you're removing and folding things, your sorting job is half done!

CARE OF
KIDS' CLOTHES
by Beraja; teacher in Italy

CHILDREN SHOULD NEVER WEAR ANYTHING THAT HAS HOLES IN IT! I ask our children to bring and show me any of their clothes that need repair, or the button that just fell off, etc.—and they do!—Because they know I don't like them to wear damaged clothes. So now they get concerned

FULL OF MININCES but roned if needed. Many times hanging up clothes just after they've dried prevents having to iron them.

WHEN A NICE ITEM OF CLOTH-

WHEN A NICE ITEM OF CLOTH ING GETS STAINED by accident and there is no way to remove the stain, we <u>dve</u> it another colour (a package of dye is very inexpensive) instead of throwing the clothing away.

I REALLY LIKE THE LITTLE INITIAL TAGS you can buy in the sewing department of almost any big store. They are made in strips, which you can cut out and sew on the inside of each piece of clothing. Mothers may prefer to sew their own initial on their children's clothing, so they can be passed down within the same family or returned to the mother.

WHEN A CHILD TEARS A HOLE in the knee of his long pants, you can either sew a nice little patch on each knee or use matching iron-on patches and turn them into play pants. You can also cut them off to make summer shorts. The same goes for long-sleeved shirts.

I BELIEVE CHILDREN CAN LEARN TO BE CLEAN, orderly, and tidy by the way we dress them and keep their surroundings. So, I believe it's very important to take good care of our children's clothing and the Lord will bless us with what they need! You may not be able to afford new clothes, but you can't afford not to keep 'em clean, ironed & in good repair so the kids will be a good sample!

Living in a Selah Home-Security Lessons Learned!

by Francisco & Estela, after 9 months in a closed country!

LESSONS ON SECURITY that I hope will benefit those of you who live in a selah Home or are just setting up one or perhaps very shortly will be forced to become one! It may not all apply to your situation, but I believe generally they are good and sound for most closed countries

or selah Homes. PTL!
IN OUR NINE MONTHS HERE 've made a lot of mistakes, learned many lessons and have had to change most of our ideas on how to relate to the system. "A real revolutionary must be revolutionary enough to pretend not to be a revolutionary when dealing with the system!" ("More Precious Pearls" No.

540:16 by Father David.)
UNLESS YOU'RE REALLY PRAYERFUL, careful and sensitive to the Lord's checks, it's very, very easy to make a lot of security blowits that can hurt your cover in the

I WOULD LIKE TO SHARE SOME not be the COG or FOL, but you may have to avoid being classified as any kind of sect, cult or group! In such a case you'll have to be careful you don't betray your cover by: NEVER TALKING IN TERMS OF

"WE" ("We are Christians" or "We believe in Love"). The first person, "I", is preferable. Also, be careful about openly singing Family songs all together or praying in a group in the presence of new, untried and unproven sheep, fish or friends.

IT'S ONE THING FOR JUST YOU

AS AN INDIVIDUAL TO DO IT and quite another for all your household together to be doing it. I mention this because then, if you go on denying you're an organised group but your actions and activities show otherwise, you become a little suspicious to your friends and neighbours who aren't as dumb as we sometimes

NEIGHBOURHOOD RELATIONS Most of your neighbours plan on liv-

AR BREADHES OF SECUR

their lives, in your neighbourhood & therefore consider everything that goes on there as their business-and

that means you!

GET TO KNOW YOUR NEIGH-BOURS and invite a few chosen friendly ones in, or they'll soon be making up their own stories about who you are. Also, for the benefit of your cover and those who will be

staying in that Home for a while, TRY TO AVOID "SUDDEN DIS-APPEARANCES" and their "instant replacements" we're so famous for. That means when brother X sudden ly disappears, brother Y instantly appears on the scene to fill in his shoes. He acts the same, talks the same and has that same "glow" in his eyes (ha!). This is particularly obvious in some fields when brothers X and Y are both foreigners—especially Americans!

FOR EXAMPLE, AFTER BEING HERE FOR TWO MONTHS, a brother who was quite beloved of our friends and people at his job suddenly disappeared with almost no warning (he went to another country to be a VS). It really caused some eyebrows to raise and hurt others. T day, six months later, some people still don't understand that. What's more, the day this brother left we ortunately found another American brother to immediately take his place. I didn't think much of it until this second brother had to go & we began to look for one more instant replacement for him. I guess

you can see what I mean!
THIS ALSO MAKES A GOOD
POINT FOR AVOIDING CONSTANT OR FREQUENT PERSON-

unless of course you want to change houses, neighbourhoods and friends as well. PTL!

A SYSTEM JOB REALLY HELPS YOU TO HAVE A BETTER COVER, even if it is only part-time, which is preferable. It doesn't do to have you seem to be "sitting around the house all day" unless you have a good story to explain it. Especially, don't be heard playing your guitar at home all day. Also, in your job, avoid crossing lines and having more than a couple of you working at the same place

MAIL: No more than one Home should receive mail at one P.O. box. I suggest you receive all WS mailings in the name of a <u>national</u>, if there is one in your Home. If a new Home can't get a P.O. box right away, they can always get their mail "general delivery" for the time being. I don't think it's a good idea to have such mail delivered directly to your street address. "A post office box number acts as a buffer between you and the system, and even your enemies, so they don't always know where to get their hands on you at a moment's notice, and to your surprise!" ("Let ters I" No. 51:31 by Father David.)

PROVISIONING: We have had good success provisioning on a small scale by just asking if they can help us personally—our little family who is trying to help others. It is good to keep the same two provisioners and not bring in new ones, so as not to ook very big, or like a group, etc.
HOME LIFE: Each Home in a se-

lah location or country should try to be totally indigenous. You should not have to worry about another bro-

over to me, but it does

r house. Even if a brother calls before coming, you can't be sure a friend won't unexpectedly drop by.
BUT IF A BROTHER DOES HAP-

PEN TO DROP IN, you naturally wouldn't introduce him as such and your actions toward each other should be reserved enough so as not ber of some kind of group you have.

Which reminds me:
IT'S A GOOD POLICY TO NEVER
MENTION THE PRESENCE OF
OTHER HOMES in the area to your friends or fish—not their members, locations or that they even exist. That sheepy friend or fish could be your enemy tomorrow. Unless he's tried and proven, why take chances?

DON'T LEAVE LIT LYING A ROUND! We have one set of Letters that serves for the whole Home, and that serves for the whole Home, and we keep it locked up in one place. All other personal copies are stored away in one place out of sight. (See "Empty Wind" & "Jewels Galore" No. 539:60.)

TELEPHONE: Most countries don't care too much about your "constitutional rights"—ha! They could easily tap your phone if they suspect you. So keep your Family business over the phone vague and to a minimum. I would like to suggest here that no one should give the phone number or Home address of a selah Home to anyone, without the permission of those who live in that Home. It's their life & work & they should decide to whom they wish to entrust their security

THESE MISTAKES & OTHER

IT's are actually quite says to make for someone who is so used to living in a normal, above-ground Home & isn't really aware of how very careful one must be under such conditions. know it's taken me nine months to learn a lot of these lessons, and I'm still making lots of mistakes. PTL! Thank God and Dad for the NRS, which is enlightening us all in this respect. Hallelujah!

BRETHREN WHO WISH TO CON-TACT A HOME IN A SELAH FIELD where they will be going could write the Home through the KQS. The Home could then handle it from there. Even invited brethren who may be passing through should call oing to the Home and should try to avoid arriving with too much baggage. Maybe most of it could be ft at the plane or bus terminal, etc IN CLOSING, I'd like to say that

even though it may not seem like it, it's still possible to be very much a loving Family of Love and real sam-ple under these conditions. In fact, you are compelled to be closer and

tighter in the Spirit.

MANY MISTAKES WE DID MAKE COULD HAVE BEEN AVOIDED if we had only prayed & counselled to gether before acting on something that affected the rest of us. When living like this, you can't be an independent and do your own thing. Any lack of consideration for your brother's security could cost him, at the least, his freedom to continue his

witness in that selah field.

I PRAY THIS LESSON WILLHELP YOU have a safer, more secure work where you are or will soon be!

Preparing Before Going FF'ing!

One night, I was watching the girls dash out the door exactly the way I have done more times than I to admit. So I began to think about the evenings in which every-thing has gone "right" and borne the best fruit, and I knew it has been the nights that our fishing team has taken more time to prepare—with the Lord! Here are some easy steps to follow:

1. At the end of the day, at the eginning of the evening, try to take ½ to 1 hour rest time, for prayer, quiet time, shower and to generally

change gears from a busy day.

2. While getting dressed and putting on make-up, maybe somebody could read a Letter or share with

ĕ

the girls who are going out, so that everyone begins to get into unity.
Then have prayer together, really asking the Lord to pour down His Spirit, especially for unity and good communication and to protect us from any kind of bad intrusion (human or germ!); to give us an enjoyable, fruitful evening; perhaps pray for a special fish and for those staying back; and finally for a safe return.

Your Mate!

by Aenon Starlight; La Coruña, Spain

I wanted to share some victories my husband and I have gotten in our relationship, through FF'ing...each other! As I prayed about some mar-

riage problems we were having, I received "Is marriage worth it?" by

Esther David, paragraph 24:

"The Lord showed me once that even though Ho and I should never possess each other selfishly, our relationship of love and fellowship to-

3. Then when doing the final touches to my hair and dress, I like to listen to a lively, inspiring music tape, jig around a little, praising the Lord, working the Spirit up, feeling like a million love bubbles are bursting all acound mail ing all around me!

4. Have kisses and encouragement as I'm walking out the door, knowing that I am loved at Home, filled to overflowing so that I'm able to pour out on those who need me!

I realised if we gave each other the

it would probably really bear fruit!
So I decided to fix up a "love room",
put on make up and an FF'ing dress,
etc. My husband came home amazed
to see it was for him! Of course to see it was for him! Of course, we can't do it every night, but it def-initely helped our marriage tremendously to realise that we can't give what we don't have ourselves.

Now when troubles begin to crop up, we see it's because we have neglected our own time together, especially in the Word or making love with each other. And when times do come up that we have to put ourselves last or forsake each other, we have the faith that it's for sacrificial love, not our own neglect, and it bears even more fruit! Satan hath desired to have you, that he may sift you as wheat: But I have prayed for thee, that thy faith fail not: and when thou art converted, strengthen thy brethren."

THAT EVENING WE HAD COM-MUNION AND PRAYER. The Enemy attacked, and Zion was bleeding quite badly until she took the Bread, and at that precise moment the bleeding stopped! After communion I got the verse, "As they went they were healed." Zion had had trouble even mustering up enough strength to walk down the hall to the toilet.

With Birth Comes Rebirth!

From selfish living to sacrificial givingafter a miraculous, supernatural half-hour delivery!

From Patience; Sydney, Australia:

ALL THROUGH MY PREGNAN-CY I WORRIED ABOUT THE BIRTH. I had my first baby in the system and had a terrible time and I was terrified about having another one. Also, in the system I had been very career-minded and always felt my son was a hindrance.

I WAS SO SELFISH and did everything I wanted to do without considering my son. When I found I was pregnant again I thought, "Here comes another hassle". You see, in my heart I hadn't changed my idea of children. I almost had a nervous breakdown because I worried so

much about it.
THEN ONE DAY I-GOT SO DES-PERATE, I cried out to the Lord and just gave up. I told the Lord I couldn't do it and that He just had to. In the back of my mind, however, I also thought my mate would be a real help. Ha! Was I in for a surprise!

AT 4:10 A.M. I WOKE UP TO MY WATER BAG BREAKING. I woke Aaron and he went to wake a friend who would be driving me to the hos-

pital. Straight away I started getting strong contractions and had to stop until they passed.

WE FINALLY GOT INTO THE CAR. It stalled—and so did my heart. We eventually got going and when we got down the street to the phone box Aaron said we should phone the hospital to let them know

e were on our way.
AS HE GOT OUT OF THE CAR, HAD ANOTHER REALLY STRONG CONTRACTION, I thought we weren't going to make it and started crying, and then I thought how funny it all was and just laughed and laughed. Aaron was so casual and just took his time.

WE FINALLY MADE IT TO THE HOSPITAL, which was only five minutes away. After having a bit of trouble finding the labour ward (we had to go a different way from the way we knew), we made it in. They were going to put me in the waiting

BUT AARON EXPLAINED THAT MY CONTRACTIONS WERE 90 SECONDS APART! At that moment, I felt as though I needed to go to

the toilet, so the nurse very quickly helped me on to the delivery table. As it turned out, I really did have to go to the toilet. Ha! PTL!

BY THIS TIME, I WAS HAVING
TO WORK HARD and was doing

the last stage of breathing. Holding Aaron's hand, I looked up at him and realised that there was absolutely nothing he could do and that it had to be the Lord. O me of little faith!

I CLOSED MY EYES AND START ED PRAISING JESUS and thanking Him for loving me and being with me, and told Him that even if it t go the way I wanted it to I would still love Him. Then the doc tor walked in and started to put his gloves on to examine me.
I SAID, "QUICK! IT'S COMING!"

"Don't be so stupid," the doctor said, "it isn't!" I lay back, let out the loudest grunt in my life and out popped our beautiful little girl.

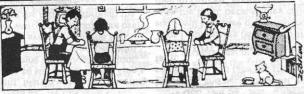

You should have seen the look on the doctor's face! He was so stunned he couldn't move and the nurse moved in to finish delivering her!
WE WERE SO HAPPY, and as

Aaron and I cuddled our little girl, we cried for joy and thanked the Lord for a drug-free, easy and very rapid delivery. She was born at 4:40 a.m. The birth was an absolute miracle but.

THE BEST PART WAS THE CHANGE IN ME! TYJ! I fell in and I love her more each day. is so beautiful and such a blessing! Sometimes at night when I get up to feed her and I'm feeling tired, I just look at her and thank Jesus for giving me such a sweet little baby. It really is a privilege having her. The Lord in His Love and Mercy is changing me so much as I continue

love with our little baby immediately,

to "let go and let Him have His wonderful way"! Hallelujah!

HOW TO USE SOUR MILK 1. SOFT UNRIPENED CHEESE: If the sour milk has been sitting in some covered container or closed

ened, you can pour the thickened milk into a strainer which is com-pletely lined by a piece of fine cotton material or cheese cloth. Twist the cloth ends together to form a little bag around the thickened milk. Hang it over a bowl and let all the liquid drain off.

THE LIQUID THAT COMES
OUT IS "WHEY" & contains the

very good for you, and some people (like me!) even like to drink it!—It's a little sweet & sour & refreshing when it's cold.

THE LONGER YOU LET THE "WHEY" DRAIN OFF, the more solid the cheese will become. This is a kind of "quark". If it's made with creamy milk, it will be similar to cream cheese. If you like, you can add some cream or yogurt at the end to soften up the dry cheese and make it more creamy.

2. COTTAGE CHEESE: The 2nd

way of using sour milk is to heat it in a pot on the stove. This is a good way to use it if you want to make sure the milk is clean or if you like curd cheese. By heating the milk, the milk solids & liquids separate more quickly, and the solids form a kind of curd.

THE LONGER & HOTTER YOU HEAT THE MILK, the smaller & tougher (or finer) the curd will be. you want a softer curd, just heat it thoroughly over <u>low</u> to med-ium heat. If you like it <u>firmer</u>, heat it just to below boiling or to the boiling point.

STIRRING THE MILK WILL AL-SO AFFECT HOW THE CURDS FORM: If you stir the milk while it's heating, bigger curds will be broken into tiny ones. Also, heating the milk too quickly over a high heat causes the same thing to happen. So whether you stir it or not

depends on how you like it.

IT'S A GOOD IDEA, IN EITHER
CASE, NOT TO HEAT IT OVER TOO HIGH A FLAME, as it could burn or turn out too tough & rub After the milk has been tho

roughly heated for a few minutes & is separated, pour it into a cheesecloth strainer & finish it just like you do the first kind of cheese, by letting all the liquid drain into a bowl beneath.

USING HONEY IN BAKING 1. USE 2/3 CUP HONEY for each

cup of sugar called for

PHYLLIS MICHAUX HAS BEEN AN AMERICAN IN PARIS FOR MORE THAN 30 YEARS. She mar-ried a Frenchman; their two children are French citizens. Mrs. Michaux, 56, was one of the first activists on behalf of Americans living abroad.

SHE IS FOUNDER & VICE-PRES-IDENT OF THE ASSOCIATION OF AMERICANS RESIDENT OVER-SEAS. AARO now has 600 members, an office in Paris & a permanent lobbyist in Washington. Mrs. Michaux's involvement in rights for Americans abroad began in 1961.

Congress eventually reduced the residency requirement to two years & last year eliminated it. (DAD: PTL!) Before that, however, Mrs. Michaux's children lost their U.S. citizenship because they could not go to the United States for two years.

AARO, AN UMBRELLA ORGAN-IZATION TO FIGHT FOR VOTING & CITIZENSHIP RIGHTS, tax equality & Medicare for Americans abroad, lobbied successfully for a bill that gave Americans abroad the right to ote in federal elections. That was 1975. In 1978, the group won additional voting-rights legislation that en abled Americans abroad to participate in national elections without incu ring local, state or federal tax liability.

THERE ARE STILL "UNFAIR" LAWS on the books, she says. U.S. LAWS DISCRIMINATE AGAINST-U.S. Citizens Living Abroad!

by Robert C. THE PURPOSE OF THE PAPER was to provide concise data on all federal statutes and regulations that discriminate against U.S. citizens living abroad including recommen dations for ending inequitable treat-

ABOUT HALF THE ISSUES COVERED INVOLVED DISCRIMINATORY TAX LAWS. Other areas included discrimination in health welfare and Social Security laws,

major recommendation of the report was the ending of U.S. taxa-tion of income earned by U.S. citi-

CIAs UFO Cover~up!

DOCUMENTS OBTAINED IN A LAWSUIT AGAINST THE CIA show that the agency is secretly involved in the surveillance of unidentified flying objects and has been since 1949, an Arizona-based UFO group The CIA has repeatedly said that it investigated and closed its books on UFOs in 1952. But 1,000 pages of documents obtained under a Freedom of Information suit show: "THE GOVERNMENT HAS BEEN

Mr. Spaulding, an aerospace engineer with AiResearch, one of the largest producers of specialized aerospace components, said the documents show that
U.S. EMBASSIES ARE USED TO

ON UFO SIGHTINGS and that the information "seems to be directed to the CIA, the White House and the National Security Agency."
A CIA MEMO OF AUG. 1, 1952,

"We find a concentra-tion of sightings around our military installations, research and development areas. MR. SPAULDING SAID HE HAS SWORN STATEMENTS from retired Air Force colonels that at least two UFOs have crash-landed and

been recovered by the Air Force. One crash, he said, was in Mexico in 1948 and the other was near Kingman, Arizona in 1953.

"The Day America Died"

(From an article in the "Int'l. Herald Tribune", 2/2/79, entitled "DELVING INTO THE DEPRESSION" by Jane M. Friedman.)

THE DOWNWARD SPIRAL BE-CAME IRREVERSIBLE in the Wall Street crash of October, 1929, when millions of shares were unloaded.
Panic reigned on the floor of the New York Stock Exchange & mounted police were stationed outside to maintain order.

AS THE IMPACT OF THE CRASH BECAME CLEAR, investors committed suicide & banks shut their doors; the United States sank into the Depression, its worst crisis since the Civil War, & the world went down with it. Fifty years later, two Britain-based writers have reconstruct ed the event, using it to focus on America in the 20s in all its greed & final horror.

THEIR BOOK, "THE DAY AMER-ICA DIED", is scheduled for publication in October by Doubleday to coincide with the 50th anniversary of the crash. NBC & 20th Century

Fox have bought the television & film rights. Its authors, Gordon Thomas & Max Morgan-Witts, are not economists. The book offers insights into how people react under stress-particularly stress on their

pocketbooks.
IN ORDER TO RECONSTRUCT THE PERIOD, the authors interviewed about 200 persons. The book follows 25 characters thru' the ebbulient late 20s to the crash itself & the incredible social decline that ensued. Many Americans were not prepared. One stockbroker's wife called the crash "just a tinkle of tea cups, really"—before she & her husband

EVANGELINE ADAMS, FOR-TUNE TELLER TO KING GEORGE
V & J.P. Morgan, had predicted a
week in advance that the stock market would crash. But when it did, she was incredulous. She lost a hund-

red thousand dollars.
"A LOT OF PEOPLE I INTER-VIEWED ARE STILL BITTER." said Morgan-Witts. Many who lost their assets swore never again to buy on credit. Many marriages, Morgan-Witts said, were ruined as husbands or wives discovered their mates had secretly frittered away savings on

the stock market.

"YES," says Thomas, "people are greedy, people will overstep the mark." Adds Morgan-Witts, "Things were tightened up considerably after the crash, but we can all still be man-ipulated."

Nothing Certain In Church and Taxes (From an article in the "Int"l. Herald Tribune"-26/12/78.)

by Kenneth A. Briggs

ANY THREAT TO THE TRADI-TIONALLY BROAD TAX EXEMP-TION FOR RELIGIOUS GROUPS is almost sure to produce a measure of interfaith solidarity. In such a mood of common resistance, dozens of Protestant, Roman Catholic and Jewish bodies joined forces recently to denounce a proposal by the Internal Revenue Service that would strip tax-free status from private schools that discriminate against minority

groups.

ANESTHETICS AND PAIN-KILLERS GIVEN DURING CHILD-BIRTH sometimes have long-lasting and adverse behavioral and muscular

A FILM OF UFOS taken by an Australian film crew has become a worldwide sensation after being shown on TV in the U.S.A. & Europe. The film was taken on a flight from Wellington to Christchurch (New Zealand), a route on which se eral pilots have been reporting bright speeding objects for the past two

THE FILM IS APPARENTLY THE BEST EVER TAKEN of a UFO, & the TV crew said they were fright-ened by the whole experience. Also,

last September, fishermen in the Adriatic reported tidal waves & num-erous UFO sightings. Recently in Naples, Italy, several hundred people rushed into the street to see a giant saucer shape hanging motionless in the sky. It was dismissed as a cloud formation by the weather bureau

A SOCIOLOGIST COMMENTED that reports of such phenomena usually originate when society faces great crises or danger, and people refer to such objects then as angels. (Amen!)

THE NEW ZEALAND MINISTRY OF DEFENSE is to carry out allnight patrols with an Orion search aircraft to "get to the bottom" of UFO sightings.

The World Grows Younger!

(from "The Hindustan Times"; New Delhi, India.)

THE WORLD TODAY IS GROW-ING YOUNGER and younger. In fact, the explosion in the number of young people has been among most striking aspects of the world's accelerating population in this century.
THE AVERAGE AGE OF THE

DEVELOPING WORLD IS UN-DER 20; that of the rich world al-most 30. The statistics—which come from the United Nations

Fund for Population Activities also show that 40 per cent of the people in the developing nations are under 15.
THE YOUTH POPULATION OF

ASIA, AFRICA AND LATIN AMERICA is expected to increase many-fold in the next decade. This extraordinary situation, the like of which has never been exper-ienced in the world's history. And no one really knows what the longterm impact of this change in the age structure will really be.

age structure will really be.
CONSIDER JUST ONE FACTOR:
THE QUANTUM OF EDUCATION.
UNFPA statistics show that it would
take a 50 per cent increase in facilities and teachers just to maintain the
present rate of enrolment—which
itself, one might add, is far from
satisfactory, not to mention the
quality of that education.

THE FIGURES ARE SOBER-ING. In 1977, there were an estimated 201 million seven to 12-yearolds in Third World schools; 224 million were out of school. To maintain that rate, in 1985 enrolment must be 350 million, still leaving 375 million out of school.
IT IS REASONABLE TO EX-

IT IS REASONABLE TO EX-PECT that the youth, if lacking in worldly experience, will by sheer weight of numbers succeed in forcing older age groups to accept its viewpoint, its will and decisions.

viewpoint, its will and decisions.
YOUTH POWER IS A FORCE
THAT CANNOT BE IGNORED in
many parts of the world including
India, and students have after all
brought governments down in more
than one place. Youth culture has
permeated the developed world.
There is no gainsaying that the
world belongs to the young, whether the old are willing to acknowledge it or not.

'Moondog' Sounds a New Note!

("Maturation of a Movement!"—Ha! —Dad.)

- A love story!

by Adele Riepe

FOR 30 YEARS HE WAS A LANDMARK FOR NEW YORK-ERS. Decked out in a bizarre mock Viking outfit, a helmet on his head and a spear in his hand, he stood on the corner of 54th Street and Sixth Avenue, majestically ignoring the giggles and wisecracks,

SELLING HIS POEMS and copies of his sheet music and playing on weird instruments of his own design. He called himself Moondog, and was unfailingly courteous and patient with the curious

However, repeated attempts to get him off the streets and into a more conventional mode of life foundered on Moondog's fierce protection of his freedom.

BUT MOONDOG, WHOSE REAL NAME IS LOUIS HARDIN, isn't standing on street comers anymore. At the age of 62, in the uninspiring little town of Oer-Erkenschwick, West Germany, Moondog has found a home.

"I AM LIVING IN A COMPOS-ER'S PARADISE. I am surrounded by musicians, I get my meals on time, I'm warm and most of all I'm free for my music." He speaks like a man who has suddenly realized the joy of no longer having to cope with the problems of existence. MOONDOG CAME TO GERMA-

SITTING NEXT TO HIM, WATCH-ING FONDLY AND PROUDLY, is the architect of his new life, a slight blond woman of 27 named Illona Goebel. She and the musician met 3 years ago in a town on the Ruhr. Moondog was standing on a street corner, dressed in his familiar cape and helmet, selling copies of his poems.

WANTED TO INVITE HIM HOME FOR CHRISTMAS because he felt so sorry for him," Miss Goebel explained, "but no one in the family had the nerve to ask him. And then I saw a record of his music—orchestra pieces played by 45 musicians with many soloists, and I bought it.

"WHEN I FIRST HEARD THE MUSIC I WAS SHAKEN! I couldn't believe that a man who could write music like that would have to live as he did. So then I invited him home."

"IT TOOK HER A WHILE TO CONVINCE ME," Hardin said of Miss Goebel. "But she said I had tried it the old way for 30 years in New York and it never got me any-place—why not try it the other way for a while."

CIA Knew All About Iran —Torture!—

by Seymour M. Hersh

A FORMER IRAN ANALYST FOR THE CIA says that reports he made characterizing Shah Mohammed Reza Pahlavi as a power-thirsty megalomaniac were repeatedly rejected by the agency as being contrary to official U.S. policy. THE CIA TORTURE SEMINARS, Mr. Leaf said, "were based on German torture techniques from World War II." Mr. Leaf said that no one considered protesting about the Savak's use of torture. Drinking and Birth Defects Linked!

by Victor Cohn

by Victor Cohn
(U.S.) FEDERAL OFFICIALS
WARNED that even mild drinking
during pregnancy may be a cause of
birth defects. There is overwhelming
evidence, said Dr. Judith Hall, a
Seattle medical geneticist, that heavy
drinking causes a severe "fetal alcohol syndrome" in one newborn in
every 2,000 in the United States.
Although firm evidence is lacking,
she said, even light drinking probably
causes adverse effects in as many as
one or two infants in 1,000.
THESE COULD INCLUDE STILLBIRTHS & LOWER BIRTH WEIGHT

as well as hyperactivity & behavioral effects, according to some research. Dr. Sergio Fabro, head of fetalmaternal medicine at George Washington University, agreed that heavy drinking may cause problems in the central nervous system that could produce mental retardation & a "Cluster" of facial abnormalities.

OF LIGHTER DRINKING, he sai only that "some toxicity suspicious of or compatible with alcohol tox-icity...has been observed" after con-sumption of an ounce of pure alco-hol daily—the amount in two ounces hol daily—the amount in two ounces of 100-proof liquor or two four ounce glasses of wine. "As an intelligent guess," he said, "substantial & serious risk" may begin when a woman drinks three or more ounces of pure alcohol, about three stiff drinks daily. (sant in by Dad.)

Who is Traven? BBC SAYS MYSTERY IS SOLVED

FIRMED EARLIER REPORTS that Traven was the man who called himself Ret Marut, editor of a German anarchist paper. Marut fled Germany to escape a death sentence imposed after the crushing of a revolu tionary workers' soviet there in 1919. The paper he edited in Munich was called Der Ziegelbrenner, which means "The Brickburner."

TRAVEN, WHO ASSUMED MA-NY ALIASES, concealed his real identity for the rest of his life. He died in Mexico March 16, 1969, telling his wife on his deathbed that he was Ret Marut. Not even his widow knew who he really was, she told in-terviewer Robert Robinson in the BBC television program, "B. Traven: A Mystery Solvéd

THE FINAL CLUE was in the London police file. For the only time in his life, Marut gave his real name and birthplace. The records yielded other names, for the wandering boy was one of seven children, and the BBC team—working against long odds—found brother Ernst, 83,

Planets on Parade

by K. Christensen

A STATEMENT WAS ISSUED ON SEPT. 16, 1974 by the reputable Newsweek magazine in its science section and an extensive statement was issued by two leading scientists. The article stated what might hap-pen in the year 1982 when our nine major planets all line up on the one side of the sun.

THIS ALIGNMENT TAKES
PLACE ONCE EVERY 179 YEARS, and on every occasion when that alignment has taken place there has been a graphic reaction on the cos-mos of our world. The difference, however, between the previous alignents and the one projected for 1982 will be, where the previous ones have been as close to a line-up as was possible under the conditions. in 1982 they will be in perfect line-

up for the first time in all creation.
AND THOSE NINE PLANETS WILL LINE UP PERFECTLY on the one side of our sun. This was the statement that led to the investigation studies as to what will happen, because there have been unusual reactions in the world on previous alignments.

NEWSWEEK REFERRED TO THE ASTRONOMICAL PROJEC-

GREAT EFFECTS IN OUR ATMOSPHERE WILL BE THAT THE
WIND DIRECTION WILL COMPLETELY CHANGE. Sixthly, rainfall and temperature patterns will

ON FOR 1982 AS AN APOCA-LYPTIC PREDICTION; in other words, it is a prediction of the end. In the late 1960's John Gribbin, a physical science editor of the British magazine, Nature, and Stephen Plage-mann, researcher at NASA's Goddard Space Centre in Maryland, began to study the possible effects of

the planetary alignment due in 1982, AND THE RESULTS OF THEIR INVESTIGATIONS ARE NOW MADE PUBLIC IN A BOOK which they co-authored called "The Jupi-ter Effects". They have published their scientific conclusions in a book called "The Parade of the Planets". On the previous occasions it has been a zig-zag alignment, one planet has been in front of the other, one has been back a bit, but this time it's going to be 'spot-on'.
THE RESULT OF THE LINE-UP

WILL MEAN firstly that there will be a great increase in the magnetic activity on the surface of the sun, bringing forth huge storms, sun spots, and great solar flares will appear

SECONDLY, THE IONOSPHERE
MAY BE SERIOUSLY AFFECTED and great changes will occur in the earth's entire atmosphere. Thirdly radio and television communications will be seriously disrupted. Fourth-ly, there will be weird lighting effects from the northern lights as

earth's rotation will be graphically affected and the length of our days will be changed. Furthermore, there will be many earthquakes, both large and small. That's just a precis of their statement.

Tenderly Gather Them In!

IT'S A REAL ENCOURAGE. MENT WHAT GOD HAS DONE since our little school opened last Sept. 7th. It's a very modest school compared with others here (we have 26 children), but the parents are thrilled because of the spirit of it!
TYL! Real love never fails & has really made our school stand out amongst other schools here.
WE OPENED WITHOUT ANY

FORMAL REGISTRATION and after pursuing it further we found that we could not be registered due to size (we were too small). After meeting with the Secretary of Education, we were told just to carry on & not to worry about it, as every foreign school here is not registered with the Authorities! PTL!

WE HAVE RECEIVED SUCH A
GOOD RESPONSE from the parents & they are so thankful! At Christmas, many gave us gifts & when Eve had our fifth baby all the mothers got together & had a baby shower for her. What a blessing that was, as there were so many things we needed! Phil. 4:19! PG!!

AT CHRISTMAS WE HAD THE

CHILDREN PUT TOGETHER
THEIR VERY OWN NATIVITY
PLAY! Thus, we were able to teach
them the meaning of Christmas & led all of them to the Lord. PHN! The parents came over with their friends for an afternoon & all the children did the play & sang Christ-mas carols & it had such an impact! This sample brought along more interested parents with children to en-

roll in the school!

OVER CHRISTMAS, WE ALSO
TOOK SOME CHILDREN to orphanages here & they did skits & the Lord gave us another 600 souls! When we first prayed about opening a school, we had prayed for sheepy children & the first verse we got was: "My children shall have a place of refuge" (<u>His</u> children)! Please keep our work in your prayers as we continue to "Open the door for the children, tenderly gather them in"! Love, Barak, Eve & team.

The second afternoon she had to leave early for a meeting, so I was left to finish the paperwork with Mr. F. I got a little nervous remembering that this was the man who had deported one of our brothers a few months ago for litnessing for donations as well as some of his unwise actions.

NOW AFTER ONLY A FEW WEEKS of going out with Mr. F. about every four days, he is very much in love & witnessing to his friends, family & fellow workers of the happiness he has found & bour purchases. how much closer to God he is now! Restaurants, offices & shops are their favourite spots, as well as doing special singing concerts at the request of friends & donors. After singing for about 300 personnel at the Food Terminal in Manila, we were able to share donated food with other Homes & neighbour-hood "Food Centers" for the poor. hood At a home for juvenile delinquents & orphans, the children sang, shared Bible stories & then distributed food donated by the Food Terminal & clothes sent from brethren in the U.S. In the last two months, the children helped distribute over 13 thousand pieces of lit & win 220 souls! We are so thankful for all the Lord is doing! Please keep praying for us! Love, Lydia & family.

I never in my life received so much love and such pure and unselfish love. You certainly are the perfect sample of the Good Shepherd with so much love and concern for those around you!

My year in your house has been year of Heaven on earth!! And it has changed my life completely, and my way of seeing things, my love toward others and my love to-ward you and the Lord has increased more and more every minute I've been with you and around your

Love begets Love" and I surely know that I love you because you first loved me. You all are such simple and loving people with so much to give and so much to learn from.

I pray I will be a good sample of the simple way of living and enjoying life I have learned from you,

and specially all of your love.

And Dad, being in your arms and making love with you was just like being in Heaven, you have so much love. It was the deepest desire of my heart! When I look back to the first time, it was almost like a joke, I was so shocked.

Maria came early in the morning and said, "How would you like to come make love to Dad?" I was

be true! I didn't know what to do. I had cried to the Lord asking Him to please let me make love with David that very same night! So it was a direct answer to my prayer!

As I got into your bed everything smelled so clean and fresh. You were lying there so sweetly ready to love!—Ha!—And boy what a big one! Ha! I felt so stupid, though, and didn't know what to do, or I must say I was too shocked to do anything.

Then you called me your little Queen Esther and told me that the Lord had told you that I had pleaded for your love. (I had spent a long part of the night crying to the Lord that I wanted to make love with you!)

And you sang me a little song about a handmaiden and said I was your handmaiden, a maid with my hands. It was so sweet!

And you Maria were always so willing to share Dad with us. Thank you! What a sample of unselfish love!! I love you!! And I'll always and always keep you as my first loves after the Lord!! I love

And I appreciate the priceless privilege of having been able to help you in the little ways I could with all of my heart. And I hope to be able to help you again. But even in the distance I will keep you in my heart and prayers and I'll try to be faithful messenger of workleys. a faithful messenger of your love to all your children. Yours forever,

Beware of Certified Mail! URGENT LESSON ON SECURITY! by Dave, Iberian KQS.

ONE LESSON WE LEARNED WHILE LIVING IN DAD'S HOUSE concerning security is how to handle "Certified" mail. One day the postman came to the gate with a certified letter for the owner of the house we were renting. When I answered the gate, he asked me to sign for it, even though I was not the person it was addressed to. So I did, but later Dad said that—

NO ONE SHOULD EVER SIGN FOR A CERTIFIED LETTER FOR SOMEONE ELSE! He said the letter might have been some legal charge or something which the own er might not want to see! So this was a big lesson for me that I wanted to share with the Family at this

TWO TIMES RECENTLY, A LOCAL HOME BLEW IT ALONG THIS LINE! One time a guy show ed up at the door with a certified letter for an individual who was not living there. This letter con-tained legal charges against the Family for illegal distribution of litera-

THE GUY CONVINCED THE THE GUY CONVINCED THE SERVANT OF THE HOME TO SIGN ANYWAY, even though he was not the addressee. He used much pleading & convincing to get him to sign. Once he signed it, it was too late!—The system had delivered the charges & the Home was

in for trouble!

IN ANOTHER CASE in the same Home, the Handmaiden went to the Post Office to pick up the mail & was notified that she should go to to the window to get a piece of certified mail. It was addressed simply "Family of Love" with the box number. (The box itself is not registered in the name of FOL, but in the names of two individuals!)
INSTEAD OF SAYING, "I CAN'T

SIGN for the 'Family of Love' because that's not my name," she simply signed it & now has a big fine or court case on the Family's hands! I'm not absolutely certain

on the legality of the question but IT SURE SEEMS THAT IF YOU ARE CONFRONTED WITH A CERTIFIED LETTER that looks suspicious, you could just walk off & simply say you don't want to sign!—Especially if it is not specifi-

cally in your name!
SO, BEWARE OF CERTIFIED
MAIL—IT'S ONE OF THEIR MAIL—IT'S ONE OF THEIR
TOOLS TO TRAP YOU!! GBY!
And by the way, it seems that for
this reason, the Family members should avoid the use of certified mail, so that if you are notified there is certified mail for you to pick up, you will be advised of danger! Love, Dave. (Amen!)

Care & Cleanliness of Baby Bottles!

A must for all new mothers! by SARA DAVIDITO

TO STERILISE OR NOT TO STERILISE? This is a rather controversial subject. Some modern baby books de-emphasise it. But with so many of our new moms liv ing under difficult conditions such as in Third World countries or on the road or just setting up house etc., sterilising is needed, I believe.

For the first 3 months at least, -For the first 3 months at least, and up to 6 months or more if travelling or in Third World countries. Better safe than sorry!

STEPS TO CLEANLINESS
BOTTLES & NIPPLES WITH THE MEREST TRACE OF MILK left on them are liable to breed earns from

them are liable to breed germs from bacteria in the milk and are harder to sterilise. This means that cleaning the bottle & nipple immediately after each use is a must!

1. RINSE BOTTLE & NIPPLE in

cold water to remove any leftover milk. Hot water makes the milk stick. (If you're unable to thoroughly wash the bottle immediately, be sure to at least follow this step.) 2. WASH YOUR HANDS & NAILS

thoroughly with hot water & soap.
3. RUB THE NIPPLES WITH TABLE SALT, inside & out. This is to remove the milk slime that always clings to the rubber even

after rinsing.

4. WASH BOTTLE well with clean, hot water & dish detergent, using a bottle brush.

5. WASH NIPPLE in the same way with a nipple brush. You can make sure the hole is not blocked by putting your thumb over the opening & squeezing the water thru'.

6. RINSE BOTTLE & NIPPLE

well with hot or warm clear, clean water.

7. DRAIN DRY, Avoid using tow els as they can harbour germs if not kept very clean.—Or put nipples & bottles immediately into sterilising vessel & sterilise.

8. CARE OF BOTTLE & NIP-PLE BRUSHES: Keep them very clean! Never leave them in the dish water in which other dishes are being washed as food particles will adhere to them. Keep them in a separate place with other baby equip-ment. Sterilise them regularly. STERILISING METHODS THE BOILING METHOD: Place

clean bottles & nipples in a pan of cold water that completely covers them. Bring to a boil and boil for at least 5 minutes. You can add a spoonful of vinegar to the water. while boiling to prevent the white film caused by mineral deposits from clinging to the bottles. After boiling, leave to cool in the same water

THE RUBBER of the nipples eventually. To save on wear, sterilise nipples separately in a little saucepan by putting them into the boiling water for only 3 minutes or so. Watch them closely so the water

AFTER STERILISING, remove the bottles when cooled & immediately fill with formula & refrigerate until use, or keep bottles under rater & covered in the pan until use.

CHEMICAL METHOD: Some

others prefer to use such solutions "Milton" for thorough sterilising of baby bottles, nipples, spoons, pa cifiers etc. It can be expensive, but is also a time saver, does a more tho-rough sterilising job and is less wear on the nipples than rapid boiling. The holes of the nipples may need adjusting from time to time because the rubber swells from being soaked. Follow the instructions on the sterilising kit or solution bottle carefully. Be sure to wash your hands be-fore handling the sterilised equip-ment. No bad effects have been reorted from this chemical method. "Cleanliness is Godliness!"

fishness, independence and all those things. All my sins were exposed in ight and I just have to face the and fight them now. I don't really know how to explain this all, but I hope you understand—and that most of all I love you.

I'M SO SORRY I FAILED JESUS. YOU, KEDA and the Family and I really feel I've lived the words that you said, "I was going to be the so riest girl in the world." It's really tormenting to realise how greatly I failed the Lord, and I don't ever expect anything from Him or the Family again, although I know His Love

and mercy are great.

APOLOGY FROM_"The girl who wouldn't!"

Dearest Dad & Maria,
GOD BLESS YOU BOTH IN JE-SUS' PRECIOUS NAME! Happy New Year to you and all the Family there. Well, I started to write to you so many times to share all the Lord has taught me since the Letter "The Girl Who Wouldn't" came out, but it's sure not easy to put on pabut it's sure not easy to put on paper. Tonight, though, I decided to do it once and for all and to mail it, Lord helping mei FIRST OF ALL, I WANT TO

THANK YOU for all your labours and letters that we all need so, and you so faithfully give. And I sure

It still really hurts to read it and to tell you the truth it almost makes me sick physically, but I know I really need it each time.

I STILL HAVE SUCH A LONG

WAY TO GO and so many besetting sins that Jesus has to continually help me with, but I just can't excuse them anymore. They're point-blank in black and white, and everyone else knows them too. There's no nore hiding anything.
EVERYTHING YOU EXPOSED

IN THAT LETTER WAS REALLY TRUE. Now I can't just live with myself like that but really have to

To help you get longer life & better quality from your Wild Wind Tapes! (& others!) by Beriah Wire (Mr. Wild Wind)

by Beriah Wire (Mr. Wild Wind THE MOST COMMON PROB-LEM with cassette tapes is they get "eaten" by cassette players. The 3 main causes are: 1) Dirty heads & pinch rollers; 2) The tape sticking in the cassette shell; 3) A faulty tape player. Here are some tips on how to avoid these problems!: 1. HEADS & PINCH ROLLERS: These should be cleaned requiarly,

These should be <u>cleaned</u> regularly,

not get wound in between the two) until these are also clean. It's best not to use cleaning cassettes, as these tend to be abrasive & wear down the important parts of your player.

2. TAPES THAT STICK: This can be caused by a badly aligned play or rewind spindle in the tape player, slack belts, stopping & starting the cassette too many times, or jumping from play to rewind to forward. It is a very common occurrence & can usually be cured by holding the cassette tion one corner & smartly tapping it several times on your other hand—one side, then the other. This usually brings the spools of tape back into a regular position & helps it flows smoothly again.

TRY TO ALWAYS PLAY YOUR TAPES ALL THE WAY THRU one side to the end & keep them stored with all the tape on one spool or the other. This helps been will help all that is affected is the leader tape.

3. A FAULTY MACHINE: This is also a common problem, especially with the cheaper machines, although after a while with most tape players the drive belts can become slack & need replacing. This can cause tapes to stick or be "eaten", especially if the take-up mechanism stops turning or slows down.

WHEN BUYING A MACHINE, STICK TO RELIABLE BRANDS & don't buy the cheapest—ti's normally not worth it? Look for machines with an auto-stop triggered by the spindle and turning rather tran by carden specific to the star transport of the context of the product of the context Ociean tape recorder heads & pinch wheels often!

CHILDREN OF THE FAMILY SING FOR THE PRESIDENT! President Ferdinand Marcos of the Philippines thanks members of the Family after singing for him! The Family had been invited by our friends (in the background) to attend a social rally where the President would be speaking, in the hope that we would be able to sing for him & inspire him as they had been inspired by our happy

songs.
AS THE PRESIDENT FINISHED HIS SPEECH, one of our friends jumped to the microphone & said,
"Mr. President, we want you to
meet a group whose motto is, 'You
never lose by giving!' And they have
some songs for you!" So we all
clamoured on stage to sing with the children three songs in Tagalog. As you can see, he is quite pleased!

THEY ALSO PRESENTED HIM WITH A PACKAGE OF MO LET-TERS & discussed briefly the work of our worldwide Family in bringing the Love of God to people, & the persecution we have received through "deprogramming" in the U.S. and other so-called free countries of the

ng legislation which will danger small religious groups & their freedom to serve God!

FAITHY KISSING THE PRESI-DENT!-A little bit of love goes a long way! We even got to give him a kiss as we thanked him for receiv ing us & the children! We also told him Father David sent his love & prayers for him & his country. The audience applauded, showing their approval of our sincere show of affection for their President. We also later received an autographed photo of him with the children signed, "To the Family, Best Wishes, Ferdinand Marcos."

AS THE PRESIDENT OF THE ONLY CHRISTIAN NATION IN ASIA, we are so happy that we can help his 49 million people find greater happiness & hope in the Love of God through our music & literature. This singing event concluded our 3 month visit in the Philippines. And after helping our music group there to record a now hit record of "How Long You Been Waiting For Someone To Love You?" sung by our beautiful singer Liz, we bade farewell to the beautiful Philippines which HONG KONG

After the children of the "Ho Fam appeared on Chinese television in Hong Kong, the Sing Tao News-paper asked them to record a cassette of 22 songs in Cantonese & English for the children of Hong Kong to be able to learn our happy songs while also learning English. It is now on sale all over Hong Kong. —Thanks to friends like Chito, a Philippino musician & nightclub singer, who do-nated their talents & time to help with the recording

HE CHILDREN NOW HAVE MANY INVITATIONS TO SING in orphanages, hospitals, schools, shopping centres & even a leper colony in both Hong Kong & neighbouring Macau, where they are doing some programmes with the wife of the Governor of this small Portuguese Territory to help the poor. God bless the Family and the singing
"Ho Family" who are reaching Hong Kong's 5 million people, including a very large children's population,

THAILAND LOOKI "DAD'S POINTERS FOR HEALTH!" We flew to Bangkok &

discovered this bag of raw sugar being sold in the stores, which has a quote from the Letter "Food or Poison" by Father David! What a surprise! The Family in Bangkok explained that a friend of theirs owns a raw sugar factory and after reading the Letter which advocates the use of natural sweetners, calling refined white sugar a poison not fit for human consumption, he asked them to compile some quotes to place on every bag of his raw sugar! We are sure it's encouraging people to buy it!

SINGING AT AN INTERNATION AL RESTAURANT! Jeremiah Faithy, Deborah & Daniel sing at a popular international restaurant where we were well received by the mixed audience one Saturday night ending with a song in Thai which the audience really applauded, as they were very pleased to see Westerners singing in Thai!

R. & I HAVE ALWAYS HAD A

us with enough funds to make our

OUR THREE-DAY & NIGHT
TREK BY 4 DIFFERENT TRAINS
turned out to be a miracle every
step of the way as the Lord raised
up people continually, including
train conductors themselves, throughout the entire trip to belp with luggage & children (who were the keys
to reaching everyone's hearts!) & also supplying us with extra food,
funds & special privileges!
THO'THE TRIP WAS GENERALLY QUITE HARD, we all survived
the discomforts & sacrifices. We
began to understand more fully Dad's
favourite passage about the blessings
of sacrifice: "I will not give unto the
Lord of that which hath cost me
nothing" & were truly thankful for
being counted worthy to suffer these
afflictions for a new pioneer field &
its people & to grasp hold of the
blessings awaiting us in "fighting the
good fight of faith"! Hallelujah!
AFTER ARRIVING IIN MOROCCO, we spent only three nights in
hoth housing & feeding all six of us!
They are presently helping us out all
they can in trying to get more permanently located with housing, job
etc. It's such a blessing to be able to
minister to such sweet people & to
so quickly get such a first-hand look
at how the people here really live.
PLEASE PRAY FOR US in the t how the people here really live. PLEASE PRAY FOR US in the

a bit of information about yourself, your burdens, talents etc. along with a photo to the KOS who will for-ward your letter on to us. Address: CPO 220, Athens, Greece (Attn: H&R).

Love, G., R. & children.

Lessons from a Dropped-in Housewife!

WE HAVE BEEN IN THIS CLOSED COUNTRY for some months now & my husband R. has had to hold system jobs for cover & support. In this situation, we have encountered some battles that are not common on an open litnessing & witnessing field.

FIRST OF ALL, THE IDEA OF MY HUSBAND HAVING TO GET UP AT 7:00 A.M. every morning to go to work at a secular job wes a psychological wrench. I know living underground has been in the Letters for some time, but as always, until the Lord makes us do it we don't really come to a full realisation of what's being said.

ALONG WITH THIS, UNTIL RECENTLY R. & I LIVED ALONE for the first time, with our two children. This slowed down our FF'ing a bit, but mostly I found it difficult to be alone most of the day with the kids, especially in the summer-time when the heat is so intense here that you can't even take the kids, especially in the summer-time when the heat is so intense here that you can't even take the kids outside during the day!

A THIRD PROBLEM WE ENCOUNTERED was dealing with the pressure that working for a very unGodly boss & typical super-selfish systemities all day can put on a husband.—Being tough enough to take it on the job & tender enough when back home with Mommny & the kids.

BUT PTLI—THE LORD GAVE
US SOLUTIONS which I'd like to share. First of all, I found that encouraging R, about his work and getting up with him to see him of to work really helped & unified us a lot. Then to break up the monotonny of the 4sys during the hot summer we started invitting people over for lunch as a way to minister to them when we couldn't get out with the kids. the kids.
WE FOUND THAT IF WE SUR-

ORS, it keeps us flowing & alive & from getting into a selfitish little family unit spirit. Now after nime months, we are intimately involved with quite a few people, so nearly every evening & quite a few afternoons we have people over.

WE MINISTER TO A LOT OF PEOPLE AS A "FAMILY".—Our kids play with their kids & I've learned how to relate to people as a housewife which bears a lot of good fruit in giving them the confidence to confide in me. We don't do much direct witnessing until people have known us for a while & we feel we can trust them, but just our way of life sure rubs off on them & they know what we stand for! PTLI As far as witnessing, the possibilities are limitless, even undergound. It's a real "change the world" vision of slow planting.

AS FAR AS THE PRESSURE OF JOBS, we believe we've found a solution with the men in our Home (we now have another couple with us) now working on the beginnings of our own company. So far, it's a real blessing as the Daddys have a lot more time for their kids. Both R. & I feel the most useful and fulfilled in this particular ministry than we have even been in most of our years of serving the Lord!

If GOING UNDERGROUND does as much for others as it has for us in helping us find a way to be a blessing financially & still witness, it should only deepen our impact on the world as we influence that influential few Dad talked about in 'Pisces'.

THANKS, DAD, FOR YOUR GREAT EXAMPLE of keeping going for God & helping us see how to adapt instead of giving up when there are still so many worlds to conquer & furtiful methods that we can use! Love, K.

can use! Love, K.

News of Deb & Jeth!

(Editor: Dad & Maria want to thank those of you who have written to them about news of Deborah & Jethro. The following is a summary of Deb & Jeth's activities, sent in by some of the Family who are in contact with them:)

FROM A BROTHER WHO TALK-ED TO JETHRO ON THE PHONE & met Paul Bunyan on the street: "We assume you've received all the letters from this area about them being with Happy & Honey in Men-dicino. By a small miracle I ran in-to Paul Bunyan, who is the children's song leader, while provisioning in San Francisco. They had learned our provisioning run long ago & are now covering the same areas. our provisioning run long ago & are now covering the same areas:

"I HAD WRITTEN JETH A LETTER asking him not to go to the exact same contacts as we did, since they had thought they were us & were saving the food for us. Anyway, Paul did not know this, neither did he know of any correspondence from you to their group asking them to write back. I had even mentioned to Jeth that I heard he was staying in Mendicino & he hemhawed around & completely denied it. I told this to Paul & he was amazed that Jeth was that way.

"I ALSO SAID I'D SENT JETHRO A COPY OF THE DIVISION" & asked Paul if he'd read it. He said he never did & was rather blown a-way by a few things I mentioned about it. He seemed rather poen with me as opposed to the way Jeth was when I saw him (very backslidden & anealty sort of spirit).

"IT SEEMS THAT OTHERS
THOM'S SAID I'D SENT JETH ON COPY of the Unit of the middle of it all & just wants to help with the kids. He also said that their group was moving to L.A. real soon to get off the road & move into a Home. I don't know if that included Deb & Issiah but they were with them in Mendicino now."

cluded Deb & Isalan out sury re-with them in Mendicino now." FROM A COUPLE WHO TALK-ED TO DEB & ISAIAH ON THE PHONE (summary & quotes): Isalah has received his college degree, as it was nearly awarded when he joined the Feesley. He has decided to con-

tinue his education even further in the future. While working on his degree, he met many people involved with various foundations, trusts & fund raising groups. With the help of some of these, ISAIAH & DEB WANT TO RETURN TO PERU to work in small villages helping to set up schools & train locals to run them & then move on to other villages. "They seem to be really into furthering what they call their Early Learning Program"... also hope to get Deb's materials published... said they were thankful for this time to see what people in the system are into in the field of education..."
"PRESENTLY JETH IS IN S. CALIFORNIA looking for a house to rent so that they can all live there until they are ready to go back down south." They would not give an address where eith could be reached. Deb & Isaiah are working on legal business & hope to get legally married. Meanwhile, Big Joy in California has visited her mother with Jeth who just loves Jeth & is absolutely flipping over the grandchildren.
"DEB SAID ONE REASON THEY HAD GONE INTO VIRTUAL SE. CLUSION was that they didn't want to be visited by anyone nor did they want to receive any more 'Family News' as the older children got ahold of them & it caused Deb & Jeth a lot of heartache...
"DEB SAID THAT SHE STILL COULDN'T ACCEPT THE FACT THAT ISAIAH HAS A DEMON & that she couldn't go along with it & feels that you are being especially hard on them because she is your daughter. They hope that someday you will come around & see things their way...
"THEY MENTIONED THEY

WERE HAVING A LOT OF PROBLEMS WITH THEIR CHILDREN respecting their parents...blame it on 'Who Are the Rebels', saying that Joyanne & Junior didn't understand it when they read it...
"THEY SAID YOU WOULDN'T LET THEM HAVE THEIR OWN WORK & were always promoting & demoting them & said they wanted a work that no one could take away from them hor could tell them what to do." (DAD: Good! Thank God!)

HEART, O God & renew a right
spirit within me" (Ps. 51:10.) That's
my graver & my desire—to walk as
you walk—in mercy & love, helping
others. You're so simple & loving
& you show such mercy & patience
towards all—even those who cause
so much trouble. I've never seen
anything like it!
I'M GOING TO START THE RD
OF "BOOKS" tonight.—I'm sure I
really need this one too. God help
me to let your Words rip out, tear
down & destroy all the system garbage I've learned & build up & establish the simple truth & love of His
Word! I love you both so very much!

Dearest Dad.

HAPPY BIRTHDAY & THANK
You to very much for showing me so much love in sharing Maria with me last night. I appreciate it more than words can say. To me it was such an honour for which I feel so

such an honour for which I feel so totally unworthy.

I REALLY DID NEED SOME ENCOURAGEMENT, but I didn't expect that much! It really touched my heart to see such a sample of love that even tho' it was the beginning of your Birthday you were giving instead of receiving. Thank you, Ded. I know I could never repay you for all you've done for me.

THE BEST I CAN DO IS TO PLEDGE TO YOU my utter 100% devotion & loyalty as my Birthday gift to you. If there is ever anything

TO THE MALE AND WAY

TO THE MALE AND WAY

TO THE FAMILY, I found myself in
the same mold—sleeping in bunk
beds, following the daily routine,
finding little freedom of expression
and very seldom a quiet place to pray.
I fett I wan't making the progress I
should in my personal life, living this
way for so long, at 28 years old!

SO BY FAITH, I MOVED INTO
THE HOME OF A FISH-FRIEND
who provided me with my own free
room. And I have taken a part-time
job as a "social ascort"! Often before, I had a hard time finding a fishing partner as the other girls had
dates or other duties.

NOW I HAVE FOUND A WAY TO
FF ON MY OWN, WITH PAY, and
have met some very interesting, unusual and receptive, appreciative
people, some of whom have received
Jesus and made extra donations for
the Work! Hallelujah! At first, I was
paid only for wining and dining them
and if they wanted sex afterwards,
that was between me and the customer. I was doing it for free, if I felt
the burden. But now I get paid for
that too, if it is arranged in advance
with the escort service.

NOW I MEET MEN WHO WANT
LOVE SO BADLY that they're not
too proud to go thru' an agency and
pay for it! Whereas before, I had
some fish who did not appreciate me
no matter how much I gave them

no matter how much I gave them
you ever want me to do, or any task
or mission, no matter how small or
great, that you want me to undertake, I will be willing to do so &
count it an honour.
I LOVE YOU, DAD, & PRAY
THAT THIS IS ANOTHER GLORIOUS YEAR for you. Your total
love & obedience to the Lord is what
has kept us going for all these years
& I know that this year will be the
same. Thank you once again for
your love. With much love forever,
Your son, Peter.
Dearest Maria.

Dearest Maria, 1LY! THANK YOU SO MUCH FOR SPENDING TIME WITH ME.

and would' come thru' with "promass" of donations, etc. Now, the guys I meet know they can't be possessive, and appreciate what they can age, since they have to pay for it, especially here in Hong Kong where everyone is so money-minded!

NOW I HAVE MORE MEN FALL-ING IN LOVE with me and appreciating my time more, believe it or notl-Because I have the Lord and I put everything I've got into it. I tell them that in the daytime I do Christian volunteer work for the Family of Love and that we can go together on Sundays if they like for "The Church of Love".

I DON'T KNOW HOW MUCH LONGER I CAN CONTINUE with this job, as I am one-month pregnant PTLI In the meantime, I also have an offer to go to China to teach English from an ex-university teacher from there. He was my first "oustoner" when I got the "escort" job! So, PTL, the horizons are limitless!

RIGHT NOW, LIKE "PLAYING FOR PAY" because the men appreciate what they pay for! Then I can give 'em the Lord! Also, the escort service is registered with the tourist board. In that way, it's pretty safe and most of the men I've met have been real gentlemen. One thing I understand, as Dad said, this work is dangerous and we're not playing games. At the same time, if I do get into any trouble I am separate from the Family and they don't have to get involved. I've met and been able to witness to all kinds of people. Hallelujahl And I have something to give them all! Thanks to Jesus and the Words of David!

Jesus and the Words of David

I really appreciated it so much. Just being there with you & talking with you really helped me & encouraged me. I must admit I was pretty nervous even tho' I knew! Shouldn't be. But I really had a wonderful time.
ALL THE THINGS DAD & THE LORD HAVE SAID ABOUT YOU ARE TRUE—you have so much love. Thanks for praying with me & holding me, loving me & everything else. You made me feel so good. No wonder everyone loves you, because you give such love. Thanks again, Maria, for everything. I love you so much! Love always, Peter.

News From Nigeria!

by Corny & Nekoda Black

by Corny & Nekoda Black
THERE ARE ONLY THREE OF
US HERE in Nigeria now, but the
Lord has blessed us with around ten
good strong Catacombers, whom we
have been training & leading to take
over the work when we have to 90.
ONE OF OUR GREATEST OUTREACHES has been over television,
on a children's programme. During
the Christmas season we were able
to reach many. One of our Catacombers, who is an ordained minister,
went on TV reaching over six million people with the Endtime message, as well as the real meaning of
Christmas. We were recently invited
to his cousin's baby baptism where
he preached the sermon, exploding
with the salvation & witnessing message to about 5,000 people! PTL!
OUR INDIGENOUS DISCIPLES,
Faith & John Joseph, are working
with the television media & reaching
millions on the TV show they do
regularly. Meanwhile, Nekoda & I
both want to continue working in 3rd
World countries which are so needy.
But we realise with the recent
worldwide persecution that our
approach will have to be less dramatic & less open in the future.

Nekoda & Corry on TV in Nigeria:

THE THIRD WORLD COUNTRIES REALLY NEED SKILLED
WORKERS & we are known here
as social workers & youth specialists. This is something the people can accept more readily than the traditional "missionary" label. We have even had many job offers from the government, private businessmen & even international companies to work for them.
NEKODA IS A SKILLED STENOGRAPHER, ARTIST & MUSICIAN while my talents run along the lines of actor & salesman, with a burden for children. Nekoda has recently taken on small art jobs to brush up on her knowledge of art in preparation for the days ahead when we will be forced to go more

underground. Right now we are welking prayerfully, quietly staying behind the scenes training our native disciples & preparing to leave, if need be, at a moment's notice! We love you! Please keep us in your prayers! Corny, Nekode & family.

THAILAND: Making **New Friends**

New Fiends
IN A New Field
CHARITY & I RECENTLY ARRIVED here in Thailand & we're so
happy to be in a new field with
new food, new people, new methods & everything! Getting to know
& meet the lovely Thai people is giving us a real burden to win the nationals here! Hope to see more of
you here soon! Thailand needs you!

Dear Dad & Maria,
I LOVE YOU! Have you ever felt
in your heart the desire to share with
someone how much you love them &
appreciate them & can't find words
enough to say so?—Or feel that if
you sat down to say so you would sit
there forever? Well, that's exactly
how I feel with you!

enough to say so?—Or feel that if you sat down to say so you would sit there forever? Well, that's exactly how I feel with you!

JUST LOVE YOUR LOVE! And so many times I sure hope to have a little bit to share it with others. You are so sweet & most of all you are the humblest people I ever ever met & we sure need your kind of love. We need you so much! O'ne. We need you so much! O'ne we going to get tired of saying how humble you are & how much love you have!

TODAY A VERY INSIGNIFICANT THING HAPPENED in the Home. But as sentimental as I am, it broke my heart. God help me, I should have done something but felts ob ad I just walked out. The thing was that someone diso, instead of reprimanding in love, went so much to the law.

IMMEDIATELY I THOUGHT OF THE WAY YOU WOULD HAVE HANDLED IT. I'm sure that tho' it would have been with firmness, low would have never lacked! And I'm sure that's the reason why it's so nice at your home—it's all ruled by love! At the moment I felt very bad. But as I prayed, the Lord showed me that the only way he was going to be by showing him in love the way you would do it. I love the way you would have been single that the monent is all the love the way you would do it. I love the way you would have been single that the monent is all the love the way you would have the love the law.

Rachel's Grievances!

(DAD: Yes, you have!—And who's striving against me for power & money? I demuted you for glotte of both!—Of course the FN is political & gossipy—and so are a lot of my Letters!—Most folks like it! Yes, my staff does please me!—You didn!! That's why! had to remove you from power!")

That's why I had to remove you from power!

2. Rachel: DAD IS TRYING TO MAKE ALL GIRLS INTO WHORES because he received love from them in his travels & he saw the need of travelling salesmen, but not all girls are called to minister God's Love this way. (She does not want to send her children up here where I-Emanuele-am "a pimp running a brothel"!!)

[DAD: I certainly agree, not all girls are called to be "God's Whores" & I've said so many times—just the braves! —And I certainly wouldn't mind being called God's imptl—But none of our Homes are brothels!)

3. Rachel: SO MUCH EMPHASIS ON SEX WITH THE CHILDREN is not good, for ours, at least, who have to be in contact with the "nor-RESPONSE TO THE —

(DAD: Who's emphasizing sex with children?—And since when is sex not normal?)

4. Rachei: WE ARE MAKING UNNECESSARY ENEMIES with our "stupid" super-sexed comix, all with those hearts & nudes all the time.

5. Rachel says THERE IS NO BIG ALL OUT CAMPAIGN against me or her (Emanuele & Rachel) in Italy. She will investigate further.

Nebuchadnezzar Revelation!

Nebuchadnezzar Kevelation:

From Miriam Newlove: Bali, Indonesia:

LOVE YOU SO MUCH & hope this letter finds you both healthy, see & comfortable in every way. The Letters are so refreshing & delicious to us, way out on the field-they revive & renew our whole beings everytime!

UCHADNEZZAR REVELATION". THE NEB-UCHADNEZZAR REVELATION". It really sobered us & spoke to us about staying faithful with each other & the ligitle sheep. Before we came here to pioneer, we had some lessons to learn along these lines & cord & in general just born bad fruit. Within the past three months, the Lord has been so good to us, to know the proposed of the proposed with the post three months. Homes in two crites have disbanded & closed down due to these kind of the proposed with the past three months.

problems.
COUPLES SEEM TO GET TO
WHERE THEY DON'T WANT TO
TRY to overcome their problems.
If the going gets rough, they just
spilt up. Then the parents go their
separate ways for a couple of
months & then get back together.
The children seem to be kind of insecure & unstable too. Also, many
friends, fish, kings & queens etc.
really start to wonder about us.
WE HAD JUST RECEIVED
YOUR LETTER "GOING UNDERGROUND" & the other NRS Letters. I was really praying & the
Lord gave me the verse, "Be sober,
be vigilant; because your adversary
the devil, as a roaring lion, walketh
about, seeking whom he may devour" (1Pt. 5-8).
THE LORD JUST SHOWED ME
HOW THE EMEMY CAN DEVOUR
A WHOLE WORK in a city by getting in thu' our personal problems.
It seems that he is really trying to
devour God-ordained teams that
the Lord has put together to further
His work, & some of us are just
letting him in this way!
IN THE DAYS TO COME WHEN
WE CAN'T LIVE COMMUNALLY
anymore & the only team there is,
is a family, how are we going to
make it if we just divide everytime
there are a few problems? It seems
like we need to work in more unity
now than ever, especially looking
ahead to the times to come when
we will need to be strong in the
Spirit & close to our mates & childoen.
THEN WHEN WE GOT THE LETTER ABOUT RACHEL & EMANUELE, I thought, "Oh Lord, the enemy even devoured a team like that,
who have been so used of You for
the Work!" We're really praying for
them both, because we are going to
need them in the future, as well as
many other strong couples, to keep
fighting in the dark days shead!

I KNOW THERE HAVE BEEN A
LOT OF GODLY SEPARATIONS
in the Family too & some people
have needed those changes. But it
seems like many of us have not gotten
our answers & guidance from the
whole counsel in the Letters & have
taken some garts to justify what we
felt like doing at the time, while ignoring your many warnings & rules
in the very same Letters.

LAST YEAR. We both got very deeply involved in relationsips with other people that caused us to lose our overall vision for pioneering Indornesia & also insensitive to each other & to others who were getting hurt. THE RELATIONSHIPS WERE INTO REALLY DIVIDED US AS A TEAM & we couldn't work very effectively together. It taught us a tot & i'm thankful because we have been getting "Greater Victories" in our lives, especially to keep on sharing. But one main thing we learned is that the Work & pioneering has to come first—8 anything that hinders that must not be good for us! Also, we learned that all the verses, prophecy & confirmations the Lord gave us when we got married were not just a lot of hot air, but that He meant what He said.

ALTHOUGH WE CANNOT POSSIBLY COMPLETELY FILL EACH & EVERY NEED OF ONE ANO.

THER, at the same time "God puts people together because they have what each other needs." I know that coming to Bail to poinner again has refreshed & renewed us both & we're so turned on in the battle here! IT'S COMFORTING TO KNOW GOD CAN STILL USE US! I love you both more & more every day & the Letters have kept me thru' thick & thin. I'd never be here without them! I always have so much to say in my heart to you—I can never seem to write it down. I hope it reaches you somehow in the Spirit thru' my prayers! XXXXXXXXXXXXXXXII thru' my prayers! XXXXXXXXXXXXXXII in any legal to the spirit hru' my prayers! XXXXXXXXXXXXXII in any legal thrush with a spirit his work of my. Letters have I eyer.

The Choice!

The Choice!

Once again, the words ring so true:
They re doing just what they usually dopepise their soviours and villify their name,
They did it to Jesus and they still do the same!
When Jesus gave out the fish and the bread.
Many gathered 'round to hear what was said.
But when He spoke a "hard saying" too naked and bold.
So many were offended at the things that He told.

So many were offended at the things that He told.
"From that time many of His disciples went back
And walked no more with Him"—they chose the down traci
And Jesus said to the rest: "Will ye also go away?"
To whom shall we go, Lord: Your Words lead the way!
Well, the thing that hath been is the thing that shall be,
Continue in the Word and it will set us free!
But like Gluen's army, the Lord's purging once more.
The chaff blows in the wind, but the wheat's on solid floor.

To us who remain, is a choice left this day. As the ones in the garden we're told "<u>Watch</u> and <u>pray!"</u> Let us not fall asleep as those in the garden, Let us follow our Shepherd and our hearts never harden.

Let us follow our Snepherd and our hearts never narden. Though at times the wise man will evil forsee And when he sees it coming will obey and flee. But when the time comes to stand alone on the ice floe, Make us willing to die for the Truth that we know! Lord, help us stay faithful and each day seek Your face! Lord, be with Your children and please give us the grace Help us fight the good fight and finish the race So we'll be unashamed when we stand face to face.

Lord, thank You for David, our father and guide! Help us lift up His hands and stand right by his side! Thank You for the power that pulsates within And if we cling to the Pillar, we know we will win!

Natural Childbirth Seen By Thousands!

by Sharon in South America

by Sharon in South America
ON NOVEMBER 1rt, SHARON
GAVE BIRTH TO LITTLE
ANGELA by natural delivery in
the best hospital with all expenses
paid. (For background, see FN
Vol. 6, No. 10.1 Not only that, the
entire birth was video-taped to be
shown to medical personnel around
the world, as a study in the method of natural childbirthl
THE BIRTH TOOK PLACE IN
THE RESEARCH WING of the
hospital, where about 20 medical
persons, technicians and photographers had gathered to record and
monitor the birth. We were surrounded by all sorts of equipment
including a video tape camera that
taped the whole thing. There was
also a photographer taking pictures
and many doctors and technicians
monitoring the baby's heartbeat,
the internal pressure during each
contraction, etc.
THEY WERE USING A NEW
METHOO (actually an old method)
taken from "primitive" peoples in
which the women stoop down or
squat to have their babies. So they
had a chair specially designed for
me to sit in and push with my legs
and arms at the same time. So it
was intended as a study of God's
method of natural birth, the miracle
of God's natural design and plan.
SINCE THIS WAS MY THIRD
CMILD, they gave me all the freedom I wanted to decide when to
push, etc. Emmanuel was able to
be with me the whole time and it
was a real testimony as we shared
verses together—Psalm 23, Isaiah
26: 3& 41:10 and Psalm 119:165,
in particular.
THEY WERE VERY CONSID-

26:3 & 41:10 and Psalm 119:165, in particular.
THEY WERE VERY CONSIDERATE and took little Angela only a few feet away to clean out the mucous and then gave her right back to me to nurse and love. I was ecristic, as it was a girll—My heart's desire! Praise the Lord!
SINCE THE BIRTH AND THE VIDEO FILM, so many miracles have continued to happen! Dr. P., whom I had been visiting before the birth and who assisted in the birth, has completely changed! He has been telling everyone about us, has been calling and visiting us and want

me to help him write a book on how my faith in God helped me during my delivery! Before the birth, whenever! I would try to share with him or witness to him, he just thought! was crazy.

BUT ABOUT TWO WEEKS AFTER THE BIRTH, when I went to visit Dr. P. for an exam, he forgot completely about the exam and started pouring out his heart. He said that for the first time in his life he had seen someone's faith in God help them. He said head never seen a woman so calm and prepared to have

Dearest Dad & Maria,
GOD BLESS YOU BOTH! I
LOVE YOU SO MUCH! Last night I read Maria's testimony "Pregnant Again!" & I can't describe how much I needed that Letter! Ten months ago, by a miracle of God, our first son, Santiago, was born!
THO'! HAVE SCOLIOSIS (curvature of the spine! & Obadiah, my hubby, had club feet (he was finally) & totally healed when he joined the Family!)—our son came out perfectly beautiful, with the best of both of us! PTL!
THAT PREGNANCY WAS CERTAINLY A TEST OF FAITH each & every day, as some doubted! could even have a baby due to my physical defect. Though in the end have to be delivered by Cesarean (a small price to pay for such a precious jewell), it was the first of

baby Santago visiting relatives in the illis mother & gandmother on the right the "Davidito" series that gave me the fairth to see it thru". Looking back, I really clung to each Letter & read them over & over. Maria, your sample of faith encouraged me that the delivery wouldn't be too much to bear!

NOW! BELIEVE! AM PREG-NANT AGAIN! It was hitting me pretty hard, not knowing if I'm physically capable yet so soon. But after reading "Pregnant Again!" my heart & faith were encouraged & the Lord showed me more clearly than ever how much we need the "Letter life-line"! Tho'! know the Lord will see me thru", how much easier you both have made it for all of us to fight the good fight of faith, with your guiding words of love! Please don't ever give up writing! Your words help us to keep going for God! Love, Sunlight Shuhite; U.S.A. (soon to be returning to Latin America) #

Crossroads of the Globe!

FF REPORT TO DAD
From Lee:

VIENNA IS SO EXCITING FOR

From Les:

VIENNA IS SO EXCITING FOR
FF'INGI The atmosphere is so nice
here. Things are quiet & peaceful &
people somehow seem to be more
open for discussing deep things, maybe because so many are either coming or going from the Eastern Bloc;
plus the UN agencies & OPEC, which
are based here, bring people from
the Third World. So it all goes into
making this an elegant crossroads for
people from all over the globe.

THE MEN ARE SO APPRECIATIVE here, not just the Austrians, but
the travellers too. Vienna is not
known for its nightlife, so maybe
these men have a hard time finding
companions. Anyway, the prospects
are thrilling & the girls in the Family
here are so pretty & a'rarin' to gol
I RECEIVED ENOUGH CLOTHES
FROM MY MOTHER & SISTER to
outfit several FF'ers, so I've been helping the girls get fixed up. We found
that maybe part of the reason why
they had sometimes not met anyone
was that they were not really dressing up, so the men probably didn't
think they wanted to meet someone,
as they weren't "advertising the merchandise" I also, the girls often sat
at tables instead of at the bar, & this
also didn't advertise that they were
available. They've still had good
fruit, just need encouraging. I'm
really happy to be here & have already had some really good evenings!
ONE WAS MY FIRST "ARABIAN NIGHT"! We even got into
Arabian sleeping garments before going to bed, & the man, a sweet courtly Arab who is extremely polite,
fed me almonds & dates in a most
"sheikish" manner. I thought I was
in a movie! But he wasn't at all like
the devouring sharks I have heard
some Arabs can be. Rather, he was
gentle & so receptive.
WE TALKED FOR HOURS &

was completely receptive about your & the Lord's predictions concerning the next 20 years or so & especially glad to hear about the coming Millennium. When I told him how Jesus would rule all the kings of the earth, he said. "Won't that be wonderful!"

THEN WHEN READING "QUR DECLARATION OF LOYE", he said, "I wish everyone in the world could read these words." It's such a blessing to have such a receptive fish! TYJ!

ANOTHER MAN I SHARED WITH IS AN INTERNATIONAL LAWYER, an American, who represents multinational firms to the different world governments. As he travels extensively in the Eastern Bloc & Russia, I asked if he thought it would be possible to go there, for instance to Hungary, & get work. HE SAID THAT THEY ARE SO CONSERVATIVE it could be difficult to live without being closely observed & that a person's personal activities could be subject to blackmail! So he said, "Why don't you just live here & take short trips in?" —Exactly what you suggested!

ANOTHER INTERESTING & ENCOURAGING EXPERIENCE Came when I went to a very exclusive coffeeship here to meet some one who, as it happened, didn't show up. To my embarrassment, I found that I had forgotten my money. Since this was such a high-class place, I was praying about what to do when the Lord gave me a check that there was a man sitting behind me who would pay the bill!

I LOOKED AROUND & THERE SAT AN OLDER, DIGNIFIED LOOKING MAN who smiled at me & then struck up a conversation. He was bored & lonely, but actually a famous man, a movie actor here for a premiere. He was busy with a celebration that night but invited me for breakfast & the drive to the airport the next day, promising me to call upon his return to Vienna.

I TOLD HIM THAT I FELT THE LORD had something to do with our meeting & this impressed him very much! It seems this city is teeming with important, sheepy, lonely men! PTLI—He must be blessing because He knows we need this city & here acceptance of us to be able to reach further East from here. Please pray for us & all the souls here! Love, Lee. (GBYI) a

News From Mideast!

WHEN THE LITTLE FROG IN
MO'S DREAM OF 1973 (see "The
Frog" Letter No. 275) was attacked
by the System (the American cat),
it looked like the end! But it actually exposed the cat for "the rat" it
really was & the frog itself remained
unharmed, though "buried" for a
time! Hallelujah!
THAT'S WHAT WE'RE DOING
HERE, following the advice therein:

"They (frogs) also hibernate underground in winter-like winter is almost like a time of trouble too, almost underground, when things get cold & wintry out, or trouble or pgy secution comes, we hibernate tool—We go underground!" (275:92.) WE ARRIVED HERE IN DECEMBER with nearly everything for our soon-coming baby supplied in Germany thru' FF'ing, street & bar singing, litnessing & thru' parents & friends. Also, a friend from Jordan paid us to drive his Mercedes car all the way here & provided us with hotels, food etc. PTLI
OUR FIRST NIGHT HERE, THE

ENGAGEMENTS WAS AT A HESIAURANT where we sang twice daily
to receptive crowds of "city fath

gave us all our support for the work
& brought us into contact with
some very influential people who
are now our friends—the cream of
the Arab crop! It's still our main
fishing-hole & outreach/income.
WHILE SINGING IN THE RESTAURANT, THE LORD LED US
to a 26-year-old Arab girl from a
very wealthy & famous family &
who had been in Europe, played
around a bit & kicked over the traces
for a while but recently was pressured by her family to return
home. She fell for me but for a
while we didn't want to get sexually
involved, as it can be touthy with
Arab girls (see Letter No. 625),
even though she really needed it.
FINALLY WE GAVE HER A
SAMPLE & IT CHANGED HER
LIFE! Afterwards, she thanked Liz
& saked her if she also was a "disciple of God", though I'd only
shared about how we pray, listen
to God & share His love with others.
The rest the Lord told her! We gave
her a handwritten copy of "Our
Declaration of Love" & are now
working on mimeographing copies
of some of the basic Letters to give
to close friends.

ANOTHER COUPLE, MICHAEL
& MARIA, arrived here five
weeks ago. The Lord's given them
a couple of sweet Saudi fish who
are helping them find housing, jobs
& visas & recently gave a generous
donation for them to visit another
city to see a girl catacomber & to
check out possibilities of opening
another Home there. We moved to
a larger apartment & it's a real
haven just cutside the city. It's perfect for our needs of entertaining

THE LETTER "WINNING THE
SYSTEM" REALLY APPLIES.
We really feel so incapable, but we
know that if anything good happens
it must be the Lord, as the odds are
so much against us; but like David
& Goliath, the Lord has won victories which we would like to share!
WHEN OUT AT NIGHT, THE
GIRLS OFTEN MEET PEOPLE
who invite them to sing for private
dinners or parties, which enables us
to meet many people & witness
with our music (& it pays tool.)
Also this way, we appear to be "eccentric artists", which this class of
people really goes for! By this meth
od we are becoming known by peolee, many who have told us we are
much needed in this spiritually destitute land. PTL!
FROM JESHANAH: A few
months ago while out to dinner with
Joan & he fish at a very exclusive
restaurant, a man from another
table kept trying to make contact
with me. Finally after sending over
numerous bottles of champagne,
I talked with him & he called me
the next day.
THIS MAN, S., IS A LEBANESE
MILLIONAIRE who comes
here quite frequently & often contacts me as he says I have a "special
feeling" which he likes. The most
In MO quotes which he finds very
powerful. S. has always given me
generous donations for my time
with him & he has arranged for us
to sing at a few private dinner, parties for a well-known billionaire, K.
K. SEEMS TO BE A VERY SIN-

PERSON who loves our songs so much because they carry a message. His private secretary has requested a tape of these songs & informed us that "the chief" is interested into the control of the control o

fluential people if this door stays open. Please pray for us!

AT FIRST WE WERE A LITTLE OVERWHELMED when we realised who he actually was, and I know I personally felt unworthy & intellectually incapable of reaching such a class of people. However when I see how they are so turned on by our spirit of low, I realise how true it is that "even one candle can be seen a mile away when it is dark"—& here is truly a vast darkness! The Letters are truly what gives us the faith to continue, & we see how it is the Lord who is opening the doors where the wants, when we obey & follow!

ANOTHER EXAMPLE OF THE LORD'S OPEN DOORS is the story of G., a rich Italian, he loved it & asked if we could record it in Rome. He is truly sensitive in the Spirit and I felt God was going to use Him mightily.

SO WHEN HE INVITED ME ON

felt God was going to use rinnings.

IV.

SO WHEN HE INVITED ME ON

A TRIP TO THAILAND, I accepted.

During this trip he became much
more aware of my beliefs & ideals &
he asked me to be his religious teacher. He explained how he wants to
do a good work with his money, to
share some of his riches with the
poor (as we saw so nakedly the need
in the poverty-stricken countryside
of Thailand). This encouraged me

how God can use him as it says in "Bass to Riches": "How are we going to help the goor unless we start with the rich & powerful who can make it possible."

A MONTH LATER, I VISITED HIM IN ROME & we bought an Italian Bible & started reading it together daily. But the situation that Drought him to a decision was when he realised how jealous & possessive he was of me, not willing for me to share love with others.

I EXPLAINED HOW GOD HAD TO SHARE HIS SON JESUS with a whole wicked world & showed him I John 3:18. He really broke down & admitted that He wanted that kind of love too, so he asked Jesus into this heart! He spent the whole night awake reading the Bible & since then he is always asking me to explain spiritual principles. G. is used to a rich & selfish lifestyle, but inside he really longs to be simple. He says he needs me to help him to be like he wants to be. So I am continuing to feed him the Word.

THE LORD SEEMS TO BE USING OUR LITTLE TEAM to reach a

be like he wants to be. So I am continuing to feed him the Word.

THE LORD SEEMS TO BE USING OUR LITTLE TEAM to reach a number of international people of influence. Also, a little word about S., the son of a Greek shipping magnate. I saw him frequently last summer & fall & he has now moved to New York City temporarily. He asked me to keep in touch & that we will always be friends. One day while praying for him, I got parts of the Letter "Howard Hughes": "The Lord was trying to show him God was not nearly as much interested in his money as He was in him—that his soul was worth more than all his millions." This applies for the other super-rich that we have met who are so used to people doing anything for their money. But they really sense we are not this way but

sincerely love them. This intrigues them as they see we have nothing materially but yet so much more than they-Jeus! Hallelujah!
FROM WINDY: C. comes from one of those "fallen royal families" in taly, lives & works in Milano & comes here on weekends. Since meeting him last summer, I knew he was a sheep, but he had a sort of disciplined proud spirit about him that seemed to have been placed upon him. While with him one weekend recently at his flat, I was gently but firmly trying to undermine this attitude with God's Word in our conversation. Suddenly, in anger & desperation, he bolted over to his suitcase & pulled out a Bible & almost in tears confessed that he was trying to be a good person. At this point, I starred to cry & after a few salvation verses from his Italian Bible, C. PRAYED TO RECEIVE NEW LIFE IN JESUS! TYL! Then he began to tell me about the time he spent in Angola as a mercenary soldier, why & what happened, pulling out photos to prove it. This poor soul was so full of guilt & imbeddef fears! After making love, we read the Bible all afternoon. I gave him a "Real Love" booklet which he has started to read.

I HAD A VIVID DREAM & VI-SION while sleeping at his place, of a particular cruel old soldier spirit that is haunting him. I saw this spirit enter the room & start talking to. In his sleep. Afraid of alarming C, I stared at the ugly old soldier silently rebuked him in Jesus' Name. He slunk away, really angry at me. I recounted this to C. who is beginning to see the seriousness of absorbing God's Word for his protection & spiritual well-being. He is so precious!

OUR CIRCLE OF FRIENDS IS CONSTANTLY GROWING & God is supplying our needs. We have learned many lessons on security & wisdom, such as not entering clubs in huge groups but staying in smaller groups, especially now! We are truly learning how to abase & abound; one night being driven to a private party in a chauffered limousine & the next night hitching to a restaurant to sing & pass the hat! Hallelujah! As from the beginning, we trust the

in the state of Minas Gerias, some eight to ten hours north of Rio & Sao Paulo.

THE RAIN NOT ONLY CAUSED FLOODING of literally hundreds of cities & towns in four states, but also caused a major river to overflow onto other towns like in the Letter The Deluge". So far, some 2500 people have been killed, more than a billion dollars of damage has occurred & over one million are homeless, 250,000 head of cattle will soon be dead.

THE GOVERNMENT SAYS IT MUST EVACUATE ANOTHER MILLION people, as an enormous dam is about to split open. As a result they will have to open flood-gates which will bury 25 more cities & towns. The head of the rescue operation was quoted as saying, "We don't know how far it might go. Everything is in God's hands."

SO BRASIL IS CERTAINLY REAPING THE FRUIT OF WHAT THEY SOWED IN REJECTING God's Children & His Word. It is noteworthy that the flooding should occur in the North, as this is where their persecution against us first began. The tourist town of Fribourg in the State of Rio de Janeiro has also been heavily hit, with several hundred dead I believe. So God is literally raining down His judgements upon that country for its rejection of the TruthI—Shaul & Ablain.

Marbella, the Monte Carlo of Spain!

THIS RIPE HARVEST FIELD NEEDS LABOURERS!

GREETINGS FROM SUNNY
MARBELLA, SPAIN! These latest
NRS Letters are real jewels. "Job
Well Done" was a special encouragement to us & really confirmed a
lot of what the Lord has been showing us lately here in Marbella: "
"WHY SHOULD ALL THE
CHRISTIANS BE BUNCHED UP
in Jerusalem? Why should they all

CHRISTIANS BE BUNCHED UP in Jerusalem? Why should they all be bunched up in Rome & the mos powerful capitals & centers of the world?" (766:37). That's what we'd like to know! Even with all the Letters on the subject of going into all the world, it has been like pulling teeth to get the personnel here that we need from these over-populated, well-harvested larger cities.

pulling teeth to get the personnel here that we need from these overpopulated, well-harvested larger cities.

MARBELLA IS HONESTLY ONE OF THE RIPEST FIELDS we have seen in a long time. We've been writing our KOS for months now trying to get one or two people to help here, but the last reply we received was to the effect, "We are trying, but it's very hard to convince people here to move."

MARBELLA IS A VERY SMALL EXCLUSIVE TOURIST TOWN on the beautiful sunny southern coast of Spain—it's like the Monte Carlo of Spain—it's like the Monte Carlo of Spain—it's like the Monte Carlo of Spain—when he have so many influential people on the line right now, but could be doing so much more with just one or two more people! RIGHT NOW WE ARE FOUR ADULTS & FIVE CHILDREN, two of them very small babies—both fruits of FF ingl PTLI We have been going out late at night after the children are sleeping, with one person listening for all five. Joe, my husband, has a singing job every night at some of the nicest clubs around. So that leaves two FF'ers, & one person with the children. It's been difficult, but the Lord has really blessed our efforts & given all

four of us some very important peo-

four of us some very important per ple to minister to.

ONE MAN IS B., a very influen-tial & wealthy Arab who has con-tacts all over the world with diplo-mats & millionaires. He is good friends with the Mayor & Chief of Police, whom he has already intro-duced me to, as well as many other important people. B. is 60 years

old & very much in love with me & the Spirit. He wants my husband & me & out three children to move in with him, along with a childcare helper. This is a wide open door to witness to some very important & otherwise hard to reach people, as well as eventually opening up doors to certain Arab countries. So

SO FAR HAVE BEEN OUR CHILDREN! We're preparing the older
ones to sing on stage, as three evenings a week the hotel staff act out
some sketches for the cliëntele, for
which they're more than open for
any additional help.
R. & THE CHILDREN ARE GETTING OUT WITNESSING daily
amongst the guests & staff. It is
certainly the Lord's set-up-if we
had our own home right now without any additional help, we'd be busy
the whole day cooking, cleaning,
buying etc. But the Lord took care
of it all for us! PTL! So now we
have time to do more of the Master's

THE ENTIRE HOTEL STAFF

LOVE with the children & sa a result with the children & sa a result with the Lord's Spirit in all of us. We already have several precious sheep to minister to daily. Here in Morocco, it's a long, slow process, but the Lord's really doing many a miracle as a result of the children's persevering love.

SO NOW THE LORD'S HELPING
US GET A BIT MORE SITUATED in our living conditions, as we were in a continual transit stage for about three weeks. Our caring for & witnessing with our children is a real blessing. We just want to thank you all for your prayers, as all the Lord's helped us to do wouldn't have been possible without it! KGFG! WLY!

our pies for more help!

ALSO WE JUST MET R. from
Mexico, already saved, filled & witnessing at his work. He owns a huge
health spa which he already uses as
a means to witness to his customers. R. would love to have several
girls who are Christians to move in
there & work & witness to the many
wealthy clients who go there to get
fit. We'd love to follow up on this
idea, but presently it's just not possible due to lack of personnel!
MELITA HAS BEEN OFFERED
A NIGHTLY SINGING JOB at one
of the best'clubs here, which is hard
to work out until we get someone
else down here to help with the children & FFing. So right now we're
barely able to keep up with all the
important sheep the Lord has given!
AND IT'S NOT EVEN THE HIGH
SEASON YETI The majority of the
tourists will be arriving soon & then
Marbella will be brimming with people from every country in the world!
Since Marbella is very small & cliq-

RECENTLY P., ONE OF THE TOP PEOPLE HERE, was in a caracident & given up for dead by the doctors, including a London specialist flown in for the case. Joe, along with Judy our gorgeous Scottish Catacomber, went to the hospital to pray for him & from that night on he began to improve! Hallelujah!

He is now out of his coma & quickly recovering. His wife & sister asked Joe & Judy to come to their lovely villa to talk to them, admitting that P, had been healed by a miracle of God, prompted by their prayers!

The women were in tears, asking how they too could have faith in God & His miracle-working power!

ALSO, WE HAVE JUST MET

it was God! PTL! Joe & Micah also sang for a very prominent politician, a Deputee of Spain, who was down here to relax from all the political tension in Madrid. We have so many pracious people on the line who could literally influence the world when they go back to their countries!—8 we haven't even begun to scratch the surface!

MAYBE PEOPLE ARE DISCOURAGED FROM COMING TO HELP since we have so many phildren, but praise the Lord, they are certainly worth it & are one of the biggest testimonies to our friends & fish that God's love works!

OUR LITTLE GIRL IVANA HAS HER OWN MAIL MINISTRY to our fish, which made B. almost weep when he read her little love note to him. So if you feel called to help us reap the tremendous harvest here, please write immediately, sending some information & photo to: Joe Smith, Lista de Correos, Marbella, Spain. We love you & need you!—Maggie Dancer & family.

How I Got The Burden For Children! by Francois, childcare helper & 'real father' in Greece!

MY NAME IS FRANCOIS (formerly Ezekiel Quixte) & i joined the Family three years ago in France. After seven months I began work. After seven months I began working in Franch Pubs where I stayed for 1½ years. Last May I decided to go to Greece, because I felt the need for a change.

WHEN I FINALLY CAME TO GREECE I stat August, I joined the home of Tim & Peace who had four children. At this time they had a childcare helper & my main vision was hitting the streets daily with the lit. Up to this time I had had little contact with abilise. In fact, just the thought of a doo-doo diaper really freaked me out & the idea of any responsibility gave me the shoudders. HOWEVER IN THE FOLLOW-ING MONTHS DUE TO CHANGES,

helping with children. If I'd knowr I was going to join a home with four children, let alone help with them, I don't think I would have ever come. But Thank God for His help & way which is above our thoughts!

SO I WANT TO ENCOURAGE all the single brothers, & sisters, who have fears about or pre-conceived ideas about caring for children—it isn't what you may think, but is a tremendous blessing & such a needin our family with so many children Hallelujah! I love you!—Francois.

P.S. FROM TIM: This all was in answer to our prayer for someone to help me with the children! TYJ! I never dreamed he would be the one! Hallelujah!

The very first day we arrived (to show you the Lord's provision & especially how wonderful He's been to us), He had someone direct us to our present living quarters, a luxury hotel!

THE MANAGER, UPON HEAR-ING ABOUT OUR SITUATION (travelling with four children, looking for work etc.), burst out with: "God must have sent you to us!" He's given us our own two-room apartment, with full room & board, maid service & use of all hotel facilities plus salary for playing organ each evening for about two hours & helping out from time to time with animation, skits etc.

HITCHHIKING!
From B. & R. in a closed country:
WE LIVE IN A COUNTRY THAT
HAS A VERY HIGH RECORD FOR
ANARCHIST KILLINGS & which
is presently under martial law. Recently a brother got beaten up &
left outside the city in a very dangerous area when he hitchhiked alone
& got into a car with three men.
SINCE THEN, WE'VE FOUND
OUT THAT SEVERAL BROTHERS & even one sister hitchhike alone around the city! In a city
where there is so much killing, one
foreigner would make no difference
to people who kill at random. We
talked to one hitchhiking brother
about what had happened to the
other brother, but he took little notice & casually said, "Oh, I'm careful who I take rides from."

From Damaris of Peter A'dam:

"THE TIMOTHY REVELATION".
It was quite a shock but very much

Timothy & Cornia (Deb) but can
see from everyday life with them
that everything you got is so true.
IT PUTS THE FEAR OF GOD
IN ME to stay so very close to the
Lord & you & not to get sidetracked. To see someone who was so
close turn around & go the opposite way & pretend to be happy being with the children & Cornia (Deb)
is so sad! Thank God for the
mighty miracle which is about to

I LOVE YOU SO MUCH & you

I LOVE YOU SO MUCH & you are constantly in my prayers for the huge job you have. I pray that all your sweet helpers are a real blessing for you. I will always be by your side & whenever you need I AM PRAYING FOR YOU, MARIA, as the birth of Techi is so soon. Well, what else can I say, ex-cept that I love you & I have already told you that so many times, but I really really do. Love & kisses, Damaris.

THE LORD IS TEACHING ME SO MUCH LATELY, I don't even know where to begin. Most of all, I'm learning to stay very close & to

get my direction from Him. Everyday I am learning more & more to stand on my own two feet & not to lean on anyone else.

I LOVE YOU SO MUCH & AM SO THANKFUL for all that you have taught me about staying close to the Lord & leaning on Him. Honey, I think I have changed &

for the better I hope. Anyway, I love you & pray for you & feel close to you thru' my prayers. Please give my love to all those there, they are so sweet! A big kiss & hug for my lover. Stay close to the Lord & Dad & Maria—they need you so much honey!

ON NOVEMBER 1st, SHARCN
GAVE BIRTH TO LITTLE
ANGELA by natural delivery in
the best hospital with all expenses
paid. (For background, see FN
Vol. 6, No. 10.) Not only that, the
entire birth was video-taped to be
shown to medical personnel around
the world, as a study in the method of natural childbirth!
THE BIRTH TOOK PLACE IN
THE BIRTH TOOK PLACE IN
THE RESEARCH WING of the
hospital, where about 20 medical
persons, technicians and photographers had gathered to record and
monitor the birth. We were surrounded by all sorts of equipment
including a video tape camers that
taped the whole thing. There was
also a photographer taking pictures
and many doctors and technicians
monitoring the baby's heartbeat,
the internal pressure during each
contraction, etc.
THEY WERE USING A NEW
METHOD (actually an old method)
taken from 'primitive' peoples in
which the women stoop down or
squat to have their babies. So they
had a chair specially designed for
me to sit in and push with my legs
and arms at the same time. So it
was intended as a study of God's
method of natural birth, the miracle
of God's natural design and plan.
SINCE THIS WAS MY THIRD
CHILD, they gave me all the freedom I wanted to decide when to
push, etc. Emmanuel was able to
be with me the whole time and it
was a real testimony as we shared
verses together—Pealm 23, Isaiah
26.3.2 & 4.10 and Psalm 119:165,

Rachel & newborn Helena Patricia in Holland. Photo by Ben.
by Rachel Sweetharts; Holland:
HELENA PATRICIA WAS BORN
JAN. 3RD1—Our first child! She's really beautiful & doing very well.
The night before she was born, I was getting anxious for the baby to come so we prayed it would come soon. All night I kept dreaming I was having the baby! The next morning I started having contractions lost the mucous plug & a bit later my water bag broke.
AT ABOUT 10 A.M. THE MID-WIFE CHECKED ME & said I was only one cm. dilated & didn't expect me to have the baby until that night. But by noon, the contractions were getting much stronger, so we called her to return. Mary & Paul Michael from Arnhem had come to help & Mary was a tremendous blessing in helping me with my breathing & relaxation. My husband Ben helped me a lot too, being with me the whole time & encouraging me with Bible verses.

HILDBIRTH!

GOD BLESS OUR GOOD DUTCH
MIDWIFE. She took such
tender loving care of me. She really
does her job from the heart. She
has delivered a lot of babies in the
Family, donating her services free of
charge. At around 4 p.m., she was
saying that it would be a couple of
more hours, so I prayed that the
Lord would give me the strength I
needed.
AFTER THAT I MIGRATIAN

Lord would give me the strength i needed.

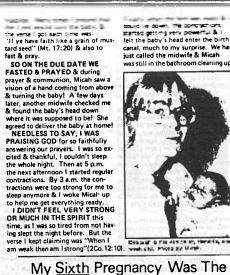

AFTER THAT, I PUSHED WITH ALL MY MIGHT & little Helena was born a half hour later at 4.30! What a miracle!—A new living soul for God's Kingdom! & What a bless-ing to be able to trust God for the birth & have it naturally at home surrounded by my loved ones! THE BOOK I HAVE ON CHILD-BIRTH says there's no pain (if

THE BOOK I HAVE ON CHILDBIRTH says there's no pain (if
you're trusting God & not fearful)
but that it'll be the hardest work
you'll ever do.—That's for sure! It
is certainly worth it, tho', when you
see what all the work was for!—Helena is such a blessing & gift from
God! She's so small & cute!
ABOUT TWO HOURS LATER, I
PHONED MY MOTHER who was
elated to hear she had finally become a grandmother. Then Ben,
the proud Pape, phoned all our
friends to tell them the news of our
newborn daughter. I haven't had
any troubles at all, no tearing or anything, & we're looking forward to
having more children for God's glory!
"CATCH IT QUICK!"

"CATCH IT QUICK!"

"CATCH IT UDIES."
by Deborah; W. Germany:
FOR THIS, MY FOURTH BABY,
I REALLY WANTED A NICE,
PEACEFUL HOME DELIVERY
with the children & family around
this time & also for the baby's sake,
as it is often much easier to adjust
to a newborn at home without the
rigid hospital schedule.
BUT THE BABY WAS IN A
BREECH POSITION so the midwife
said I'd probably have to go to the

stance getting sens powerful & if felt the baby's head enter the birth canal, much to my surprise. We had just called the midwife & Micah was still in the bathroom cleaning up.

see en in it is not to bow it keep it in, as the midwife had not yet arrived—but to no avail! With a power that was stronger than anything I have ever experienced, the whole babv slid out without my doing any work or pushing at all!

thing I have ever experienced, the whole babv slid out without my doing any work or pushing at all!

ALL I COULD SAY WAS "GRAB IT QUICK!" to Micah, as I turned on my back & pulled back the cover. There he was, landing directly in Daddy's hands! We were too excited to look if it was a boy or girl & just wrapped him up wermly & laid him on my stomach & prayed that the midwile would come quickly to deliver the afterbirth.

A FEW MINUTES LATER IN CAME THE MINUTES LATER IN CAME THE MIDWIFE & the whole birth was a real testimony to her, so we had prayed it would be. Daddy even got to cut the cord & a little while later the childran, who had just woke up, came in to see their new big healthy baby brother, Hendrik. Truly God kept His Word & He is the only One who could get the glory for this miraculous birth! Love, Deborah.

My Sixth Pregnancy Was The Healthiest Yet! -Thanks to the Lord's healing power, improved diet & nutrition, sensible care & last but not least, the love & encouragement of those around me!

by Abigail Warner; W.S. Secretary:

MY FIFTH BABY (& FIFTH BOY)
DOMINIQUE DANIEL was born
healthily & naturally with no problems whatsoever on Jan. 31st. The
end of this pregnancy, my sixth,
was undoubtedly my healthiest &
most energetic yet, TTL. I didn't
even have the ordinary, common,
minor problems of backaches, leg
cramps, tiredness etc.. But it certainly wasn't due to just "luck" or
chance, or even general good health.
It was a total miracle of God that
began with my last pregnancy:
WHEN I BECAME PREGNANT
THE LAST TIME, I WASNIT AWARE
OF IT FOR SOME TIME as my last
baby was still under one year & nursing. Around that time, my normal
periods returned, or so i thought.
Finally, I was bleeding more often
than not & hurried to a doctor for
a thorough check-up. He confirmed I was pregnant & could find nothing wrong except low blood pressure

Just home from the hospital, 12 hours greeted by big brothers Solomon-2 & T

& advised me just to rest & take care of myself. I think things would have turned out very differently if I had, but at that time I didn't really

AS A RESULT, WHEN I WAS ABOUT 5 OR 6 MONTHS PREG-

NANT, I HAD A MISCARRIAGE. I'm sure that most girls having g thru' something like this would

thru' something like this would have the good common sense to rest & take care, at least for a while, but two days after I left the hospital, I was up & around, neither resting nor eating right—nor, I might add, really being in prayer for the Lord's care & healing! After all, I thought, I'd always been in such good health & had never had any major problems in my life, hadn't taken extra vitamins etc.—So began what I'd call a "living nightmare"!

FINALLY IT REACHED THE POINT WHERE I WAS UNABLE TO EAT without feeling sickg & was in bed almost all the time. By this time, which was quite a few weeks after the miscarriage, not only was I still bleeding quite heavily, but I had also developed an inflammation in my Fallopian tubes that made walking extremely painful, & I lost 10 kilos in a very short time.

BY THE TIME I SAWA DOCTOR, HE WAS INCREDULOUS that I had let myself get into such a state. Not only did I need medication to help heal the inflammation (which he said would be very slow, even with the medication), but for a while he also had me take daily injections of a liver extract & vitamins. I should also add that by now my spiritual condition was at a low ebb, just about equal to my physical condition—no good to the Lord, myself, my children or the work—except maybe to now share this testimony to help someone else, I pray!

FINALLY, I BECAME REALLY DESPERATE WITH THE LORD for His healing & His mercy & shortly afterward, made a major move to a new location. In my new surrounding I was around people who not only knew about health & nutrition, but who really encouraged me to do something about it, to do the best I could so the Lord could do the rest. With this new-found encouragment, I began eating yogurt, wheat germ, brewer's yeat & especially liver daily, as well as taking large supplements of several needed vitamins (after thorough study to be sure just what I needed) & continued doing so for months.

I HONESTLY CAN'T SAY THAT MY HEALING WAS AN OVER-

was very slow & sometimes I'd be-come discouraged & think all these efforts were useless. It was quite a few months before I could walk at a normal nace without makes better

few months before I could wark at a normal pace without quite a bit of pain & the bleeding lasted for the better part (or should I say, the worst partil) of a year.

SLOWLY BUT SURELY THERE WERE SIGNS OF IMPROVEMENT & the Lord was always increasing my faith to never give up. He also used this time of physical strengthening to begin to bless & strengthening to a whole new life that somehow still seems to be unfolding! TYJ!

ANYWAY, JUST A FEW MONTHS (AFTER I WAS ABLE TO MAKE LOVE AGAIN, I realized I was pregnant again—for the sixth time! I certainly didn't feel ready for it yet, as I was still quite weak & walking with some difficulty. I thought, "How can I possibly carry another baby successfully right now?!" My faith for it was actually pretty low at the beginning, but the Lord gave me some encouraging verses & used the whole situation to increase my faith even more.

IT WOULD BE QUITE MATURAL TO EXPECT TO GET WEAKER & MORE RUNDOWN during the course of a pregnancy, especially a sixth one that started with my being still so weak, but God did the supernatural! & as time went on, I still continued to get stronger & healthier! I never would have believed it could happen, but the last two months of my pregnancy were some of the healthiest & most energetic of any time in my whole life!

IT WAS ALWAYS NORMAL FOR ME, AS IT IS FOR MOST GIRLS, to experience backache, leg cramp, fatigue & quite a bit of hair loss in pregnancy. But I virtually never had a backache, not a single leg cramp, was no more tired than I am when not pregnant & lost on more hair than I normally do. Not only that, but an exerma-like condition that I'd had on my right hand ever since I was 12 years old, to a greater or lesser degree, completely cleared up during these last two more since I was 12 years old, to a greater or lesser degree, completely cleared up during these last two more since I was 12 years old, to a

Dear Rejoice,
COULD IT BE JUST ONE WEEK
since Puerto Rico, since you, since
tranguility? It is so easy to be propelled back into the old routine, the
views, the feelings. But something
has changed, definitely changed, &
I thank God for it. My feelings of
love—being loved, loving others,
projecting love to others—had turned a week which should have been

kind than rigid rules defining its limits.

J. WAS INTRIGUED BY THE CHANGE IN ME. She was happy that I was happy & loved the gentle, deep affection between us. I told her that I wanted to know more. I wished to learn what made this couple so happy, so real. She showed interest. I said I would contact the group locally. I didn't mention anything of the intimacy between us, but I felt then & feel more so now, that she will accept that in time, when she feels fulfilled in love.

A SENSE OF LOVE FOR EACH OTHER, became overpowering. It engulfed us & we were at peace. We knew that no matter what happens, our love will see us thru'. In fact, love was all that mattered. We had never felt that calm, that close, that strong,

felt that calm, that close, that strong.

I LOVED BEING WITH YOU, RE-OICE. I love your smile, the feeling of being loved by you, of loving you,

giving, your radiance, your faith. I miss you, yet I'm with you constantly—somehow touched by you.

I WANT TO ALWAYS BE TOUCH-ED, to be enguifed. I want to find you—& what you have. I pray I will keep your love & happiness, & not slide back into cold existence, the preoccupation with the things I used to consider important. I wish this for J. & for myself. I miss you. I want to be with you again, to love you. I want to meet your family, to draw strength. Love, P.

P.S. Could you send literature relating to the family's views on sexual relationships?

Rejoice: Please keep P. & his family in your prayers! (Amen!)

THE STORY IS TOLD about the man who died & went to Heaven. One day he was looking back down over his life, the good times & the bad, the high points & the low, the fortunes & the mistortunes.

LOOKING DOWN, HE SAW TWO SETS OF FOOTPRINTS in the course of his lifetime hut noticed.

You'd <u>always</u> be by my side. So how come, in some spots, there's only <u>one</u> set of footprints?"

THE LORD ANSWERED, "Well, where there are <u>two</u> sets of footprints, those were the <u>eary</u> times & I walked by your side. And there, where there's just <u>one</u> set of footprints, those were the <u>hard</u> times. I wasn't walking with you then. You see, the going got so rough, I had to <u>carry</u> you!"

LOVE YOU VERY MUCH! Fiveand-shalf months ago the Lord

Creation" testimony was in FN Vol.

"Jesus" Bales" said!
WHEN I FIRST FOUND OUT I
WAS PREGNANT, I too had such
battles. I thought for sure my life
was over.—& you know what! It
was! The Lord has given me a whole
new ministry! TYJ! Now I can really
pour into Jennifer, so she can pour
into others. Now that I have Jennifer, I know I always wanted to be

the pressures of the System kept that desire suppressed.

I JUST FINISHED READING "JESUS" BABIES"! Thank you so much for that Letter! It was pregnant, I was upset. But because Jim was so happy, how could I let him down?

THEN THE BATTLE OF WHO WAS THE FATHER HIT! Jim kept assuring me it didn't matter: after all, wouldn't he be the father in the long run! I knew he was right, but I was still afraid that when the bay came, it would be F.'s fa fish! & look just like him. Well, the Lord doesn't test us above that we are able, & you know what? Jennifer looks just like me! PTL!

& AFTER READING "JESUS" BABIES" WHO CARES ANYHOW!
This Letter is going to help so many sisters who are afraid of getting pregnant, because you can't honestly say to your fish that you don't believe in brith control & that it's all in the Lord's hands when you really don't have that faith & are afraid. God bless you for your loving words to help us overcome our fears. "There is no fear in love" (1.1.4.18)—PTL!

SOON WE'LL SEND YOU A TESTIMONY OF OUR LIVES WITH OUR FISH, F. We've been FF'ing him over a year now & he's

virtually supported our home. We really see how he's changed & that "Real Love Never Fails'! So many times we felt like throwing him out, he was too big a mess. But God gave us the grace! It's a battle, but it's worth the fight! Love, Shelayne.

From Keilah & Shiza; U.S.A. Dearest Dad & Maria.

WE JUST HAD TO WRITE & tell WE JUST HAD TO WRITE & tell you how much we love & appreciate both of you & especially all the encouraging things you have to say about children. Your Letter on "lesus" Babies" really encouraged us, as we have 7 children now. & WE'RE EXPECTING OUR 8TH IN JULY! Our oldest is 7 & our twins just turned 1 year old. Your testimonies of each of your children really helped us to have more faith for our own situation.

really helped us to have more reasons for our own situation.
WHAT YOU SAID ABOUT
"WHICH ONE WAS A MISTAKE?"
was a real answer for me to tell others who sometimes criticise how many children we have & ask if we don't believ in birth control. When we just look at the happy smiling faces of the twins it just makes everything worth it all! PTL!

WE FEEL ILL EQUIPPED or incapable of anything else, at least we can show them LOVE" really encouraged us as we certainly feel we could be doing a lot more in many ways with the children. It's encouraging to know that love will cover a multitude of sins! Hallelujah!

THE THOUGHT OF HAVING
TWINS WAS A BIT UNNERVING at first, but it turned out to be a blessing in regards to our relations to our parents. They had never been very much in favour of us having so many children, but when they found out we were having twins, it made it very special & brought us all together in many ways.

WE WOULDN'T KNOW WHAT TO DO WITHOUT YOUR WORDS, DAD. Please keep them coming!
The "Davidito" Letters, too, have been the retraining we've needed for our children. Love, from the 9 of us.

oeen the retraining we've needed for our children. Love, from the 9 of us.

From Gallio & Tabersh; Puerto Rico: Dear Dad & Maria,

I WANTED TO WRITE & TELL
YOU HOW MUCH ONE OF YOUR RECENT LETTERS, "JESUS" BA-BIES." MEANT TO ME, In Sept. '78 my wife & I lost our fourth child at birth. Our first child was born by Caesarean but the next two were born naturally with no complications. However with the fourth one Tabersh's uterus ruptured during the first stages of labour & by the time we got to the hospital it was too late to save the baby.

OF COURSE WE WERE SAD-DENED TO LOSE THE BABY but we're thankful that Tabersh was OK as the doctors said that in many of these kind of situations they lose the mother too. After this, we were concerned about future pregnancies—if she would be strong enough to have another child & what if she got pregnant right away before there was time for her body to recuperate.

WE BEGAN TO WONDER ABOUT FF'ING, SHARING & even making love ourselves. We wondered if this was a special case warranting some type of birth control. After much prayer, thought & discussion we just decided to trust the Lord. How could we possibly stop loving, sharing, FF'ing etc.?!

IF THE LORD WANTED TAB-ERAH TO GET PREGNANT AGAIN that was His business! We decided

I must admit that after we made this decision, I still had trials & after every lovemaking session, either with me or someone else, I would worry if this was the time she'd get preg-nant seain.

nant again.
THEN "<u>JESUS" BABIES</u>" CAME
OUT & it was such a comfort!—How
it's God Who gives us children & not
just some physical, natural event.
This Letter was such a liberation
& now whenever the Enemy throws

Word to stand on!
GOD BLESS YOU, DAD, FOR
YOUR GREAT FAITH, which gives
us faith too! "Thank you" seems so
small in return for the words that
give life—but thank you, we love you!
Love, Gallio.
P.S. WE BOTH GOT THE SAME
SCRIPTURE for the baby we lost,
out of IlSam. 12:23: "...! shall go to
him..." which comforted us that we
would someday see the child again.

WHAT IS THIS DANGEROUS PLANT? Pliny gave the show away 19 centuries ago, when he referred to it, also because of its narcotic nature, as "poppy lettuce". He was not talking about a sort of poppy which suggested lettuce, nor about a lettuce-like plant endowed with toxic qualities, nor even about a particular species of genuine lettuce equipped with the weaponry of the poppy.

equipped with the weapons of the popopy:

HE WAS TALKING ABOUT THE ORDINARY everyday commonplace lettuce that all of us eat, the food which the American public was induced to accept on its tables not much more than half a century ago as a "protective food" extolled for its wealth of vitamins & mineral salts.

CAN LETTUCE, PURE, INNO-CENT, CANDID LETTUCE, be the Dr. Jekyll & Mr. Hyde of the plant world? Well, no. First, let it be explained that the lettuce that "eaten

was bolted lettuce, which, exposed to unseasonable heat early in life, had gone to seed prematurely, engendering in the plant an unnatural chemistry (akin to the draft which converted Jekyll into Hyde).

converted Jekyll into Hyde).

LETTUCE EATEN IN A NORMAL UNDEGENERATIVE STATE MAL UNDEGENERATIVE STATE will do no harm, even in some quant ity, though Gibbons did write:
"When I ate a large helping of the cooked greens, I became aware of a sort of languid drowsiness & feeling of well-being, as though I didn't have a care in the world. Now, whenever I feel nervous or irritable, I merely lunch or dine on wild lettuce greens & then bask in a feeling of complete relaxation."

relaxation.

GIBBONS' EXPERIENCE MAY
LEAD US TO REFLECT that "narcotic" is not necessarily a nasty
word; narcotics, after all, are used
in medicine. "Modern medical
science," he continued, "says that
(lettuce) has few, if any, of the
physiological effects of opium, & it
is, at the best, only a very mild sedative."

dace).
IT HAS BEEN USED MEDICALLY SINCE VERY EARLY TIMES,
though not always for reasons whic
would be considered valid today.
For instance, the ancient Romans For instance, the ancient Romans fed it to pregnant women & nurging mothers on the theory that it promoted the production of milk, for this was the conclusion they drew from the observations that lettuce juice is milky.

THE ROMANS SERVED LETTUCE WITH HEAVY DISHES at their banquets as a digestive; & indeed, whether or not it has any effect in helping to digest other foods, it is itself the most digestible of all the salad plants.

IT IS TO BE DOUBTED THAT

which holds that it is a good food for cardiac patients; this would be the magnesium again.

LETTUCE (UNBOLTED) IS
HEALTHY ENOUGH, but it is not quite a miracle food. "Lettuce contains all the vitamins & all the miraris salts," I find one dietitian writing, while another says that it is "rich in Vitamins A, B & C. "There is little reason for loud hurrahs concerning Vitamin B or C, for other foods have more of these vitamins than lettuce.

THE VITAMIN FOR WHICH EETTUCE IS REALLY VALUABLE IS A, far above apples, Brussels sprouts, cabbage, celery, citrus fruits, tomatoes, walnuts & soybeans. But even in this field lettuce breaks no records. There is a higher proportion of Vitamin A in broccoli, apricots, watercress, kale, collard greens & carrots.

MOST OF THE VITAMINS &

DISAPPEAR to a large degree when
it is cooked; but this is partly balanced by a tendency to eat larger
amounts of cooked lettuce, since
cooking greatly reduces its volume.
A "PROTECTIVE FOOD", YES;
BUT A WONDER-WORKER, NO.
Lettuce continues to be used in rustic medicine all the same. Maurice
Messegue, the most famous of Frenchealers (who is not regarded with
great favor by the medical profession), told the weekly Paris Match
that nervous persons should eat lettuce every evening to be sure of getting a good night's sleep.

THE IMPORTANCE OF YOUTH

ting a good night's sleep.

THE IMPORTANCE OF YOUTH
IN LETTUCE was pointed out for
the wild variety by Gibbons. "When
the first leaves of ... wild lettuce are
only a few inches high," he wrote,
"they taste like young leaf lettuce
from the garden, only more so. Unfortunately, wild lettuce stays in this
eminently edible condition only a
week or so."

THE VAST SIZE OF THE UNIT

France is only as big as Texas, so it would occur to no one to ship lettuce from one side of the country to the other; it is eaten everywhere not many miles from the place where it was grown.

THE IMPORTANCE OF Vaginal Cleanliness

by Sara Davidito

by Sara Davidito

WE DEFINITELY CANNOT
STRESS ENOUGH TO THE ENTIRE FAMILY the importance of
effectual fervent PRAYER &
CLEANLINESS! Dad has counselled before that women who frequently make love should submerge
their bottoms under water dailyfor about 10 minutes, if possible,
so the water can run up into the
woman, thus thoroughly cleansing
her from within. Access to a swimming pool, pond, lake, river or sea is
a great help for this in warm weather.
A GOOD NATURAL DOUCHE
by emersing in sea water is about
the best help in clearing up a bothersome vaginal discharge or even
for cleansing men & women. If you
live by an ocean, try as often as possible to "cleanse" your bottom in
the water daily; even just sitting in
the shallow saity water helps. We
have read in several Medical Encyclopedias that using regularly a good
natural douching agent such as white

OF THEMOST HELPFUL AIDES to cleanliness to have in your Home. It fits on the rim of the tollet for weshing. It might take some searching to find, but is usually available at pharmacies or houseware stores. Bidets are helpful for washing children's penises or bottoms, too, with out having to bather the entire body. IF YOU VISIT A DOCTOR FOR AN INFECTION & he prescribes suppositories, pills or cream, this still may not help to clear problems up if you are continually making

love with others who are troubled with "bugs" as well. If you are aware that you have something, try your best not to spread it to someone else, in or out of the Family! Perhaps you could pair off in couples & keep sex just between your chosen partners!

WHEN WE'VE CONSULTED
WITH FRIENDLY DOCTORS, they have confirmed this counsel on daily cleaning of the sexual parts. They have also told us that if a woman's discharge does not itch nor smell nor bother them then it's really nothing to worry about & is actually common in about three-quarters of

women everywhere!
IT IS IMPORTANT TO STRESS
THAT DURING PREGNANCY, yo
should especially keep claan, aired
& free from infections. It is comm
to have a discharge, but important
to clear up bothersome infections.
If you have an infection that persists & bothers you, is itchy etc. &
is not cleared up after care & praye

When In London Call...!

From Lamb; England:

Dearest Dad & Maria,

WE FLIPPED WHEN WE READ
YOUR RECENT SUGGESTION to
do eccort work in "Going Underground"! Two days earlier we had
seen an ad in a local newspaper asking for girls to do escort work & we
were debating whether I should
apply or not. So, when we received
the mailing, it was a definite confirmation from the Lord! TYJ!
So I phoned the agency & went for
an interview & they took me on
their books. A brother took some
nice portrait photographs of me &
since then things have just snowballed! Hallelujah!
ITS JUST LIKE YOU DESCRIBE
IT, DAD! I normally go out to dinner and/or theatre or a nightclub, &
the client will give me a tip & taxi
fare home. Nearly always a man
will ask me to spend the night with
him. I usually tell him that I like
to get to know a man better before
I get that involved with him. Most
men seem to respect this & so when
I do get sexually involved, they
really appreciate it & know that it is
special & not just part of the job.
I HAVE BEEN ABLE TO WITNESS TO MANY INFLUENTIAL
MEN. And in this type of work,
there is a continual supply of fish.
I have men on the line who ask to
see me every time they come to
London. Also, financially it has
been a great blessing. Another advantage is that normally I get home
earlier than it would going out regular FF'ing which is a great blessing
since I have to get up with my three
children in the morning!
ONE LESSON I LEARNED is to
be careful not to by-pass the agency
by giving clients my telephone number too soon. At first I did this &
the agency got a little annoyed &
didn't give me any work for a few
days & only started giving me work

FF'ING AS A SOCIAL ESCORT!-TIPS 'N TESTIMONIES!

again when clients asked for me. So, I found that if a man really likes you & wants to see you again, as least for the next date it's best to let him go thru' the agency. THE TIPS ON BEAUTY ROUTINES IN THE FN have been a great blessing because usually I have to get ready at very short notice. To start with I did not need a lot of clothes. I just had a nice coat,

handbag & shoes & three dresses.
Just lately I have had gifts of clothing & perfume from clients who want someone to go shopping with them & as a "tip" buy me something too! PTL!

WE ARE SO THANKFUL FOR THIS OPEN DOOR which has enabled me to witness to such an extent which before was not possible. We are learning many valuable lessons all the time & the NRS Letters are a real encouragement & help us to keep pluggin' on! Much love in His Service, Lamb (& Joseph).

Another Side of the Story!

REACTIONS TO AN ARTICLE IN THE FAMILY NEWS — Problems With an Unloving & Jealous Husband" (Vol. 7, No. 3)

Venezuela:
Dear Dad & Maria,
DAD, I'M SPECIFICALLY WRITING CONCERNING A LETTER
OR ARTICLE I READ in the Family News Vol. 7, No. 3 from a sister
named Marsena Davidson about her
husband's unfaithfulness to help her
with the children & lack of love for
her.

with the children & lack of love for her. DAD, MY HEART IS VERY GRIEVED BY THIS ARTICLE as I GRIEVED BY THIS ARTICLE as I know some things mentioned to be absolutely untrue about him. This brother has won many disciples that I know of including winning me to return after being kicked out of a Home in 1974 as a problem case, the District Shepherd telling me God was going to deal with me very severely, all of which I took very seriously & suffered much condemnation, not wanting to rejoin another Home.

Home.
BUT THIS BROTHER, JACOB
DAVIDSON, TOOK ME IN, persuading me to try again, along with
other brothers that none of the
other Homes wanted or had the
faith for. He would always give
them a chance. He had incredible
patience & was a real inspiring sample. So for her to insinuate he's

LE IN THE FAMILY NEWS—
lealous Husband" (Vol. 7, No. 3)
always been negative, distrustful &
has an accusing personality, I just
can't agree with, especially the way
she puts it—"the whole six years"
she's known him.
I HAVENT BEEN IN PERSONAL
CONTACT WITH HIM for a couple
of years, but I just can't buy a completely negative story, all black, no
white, about a brother whose been
a shepherd in the Family for about
7 or 8 years now.
ONE THING I NOTICED ABOUT
THEM AS A COUPLE in the year I
was working with them in Colorado
in 1975 was their difference of personality.—She being a Taurus, a real
lawkeeper, for example.—He, his
name was Ithiel at the time, being a
Scorpio & a real liberal & radical &
laughing at her legalism & telling
jokes or doing something funny to
get everyone to laugh & out of themselves. As a result, even in 1975,
there was a noticeable lack of communication & at times a spirit of
contention that affected the Home,
as a direct result of their own disunity, which has obviously grown
worse. This disunity of the two of
them & their poor relationship &
sample could be the reason for the
existing problems in the Home &
not all his fault as she is trying to

MADE, DAD, as to our liberties in serving the Lord as we desire & with whom & I also believe it may be better for her to escape to where her heart longs to be, with whom she desires as she's obviously overlooked & forgotten the good side he possesses.

& forgotten the good side he possesses.

I FELT IT A TERRIBLE INJUSTICE that one family member could write such an accusing letter about another without others testifying as to the letter's autenticity & accuracy. But even if the whole Home signed her letter, I still want to state that there are definite errors in her evaluation of her husband, in indicating that he's been in his present condition all six years she's known him.—Nobody that I knew when working with him a few years ago could have felt the same way.
THANKS FOR LISTENING, DAD. I just wanted to try & straighten something out. By the way, my ame way Darda Travels at the time I knew & worked with them in Colorado. Love, Alejandro Luchador.

From Saffron Davidson; Colorado:

From Saffron Davidson; Colorado: Dear Dad & Maria, GBY! THE REASON I'M WRIT-ING THIS LETTER is because I want to tell you about someone that the Lord has used to change my life. His name is Jacob Davidson & he is

WHEN I READ THE LETTER, I
COULD HARDLY BELIEVE IT
WAS ABOUT THE SAME PERSONI
I was really shocked that such a different view could be presented of
one person. I fove Jacob very much
& at first thought that I might be
'blinded' by my love, but the Lord
gave me the quote from your Letter: "Love is not blind—it has an extra spiritual eve..."
SO I WAS ENCOURAGED TO
WRITE TO YOU ABOUT WHAT
JACOB HAS DONE FOR ME. First
of all, he led me to the Family. I
had been saved for a long time but
never did anything for the Lord until! met Jacob. When I first met
him, the thing that impressed me the
most was the love & patience that
he gave to his children.
AT THE TIME, HE & MARSENA
WERE SEPARATED & each had
two children. Tamara & Benjamin
were very sweet & well-behaved, &
I fell in love with them on sight.
The Lord gave me a picture of an almost perfect family love & It was
immediately drawn to it—& before
I had never liked children!
WHEN I MOVED INTO THE
HOME, MARSENA CAME BACK
& I knew that Jacob really loved het
t very much. It was obvious that
there was a little bit of discord, but
it never interfered with the work in

BUT! DON'T BELIEVE THAT IT WAS BECAUSE OF JACOB'S ATTITUDE, as I have always found him to be positive, loving, encouraging & inspiring. He taught & trained me & I am very grateful for all of the patience that he has had with me. I know he has a lot of faults & there's almost no end to the mistakes that he has hade. But "men of force are men of faults"—& Jacob is certainly a man of force & Jacob is certainly a man of force (& in good company!).

IN SHORT, I DON'T BELIEVE JACOB IS THE "UNLOVING & JEALOUS HUSBAND" that Marsena depicts him to be. He is my husband also, & I've certainly never found him to be jealous but always encouraging both Marsena & me to share with other brothers & fish. And I believe that he has a lot of love to give to anyone who will receive it.

THANK YOU, DAD & MARIA, FOR LISTENING TO AMOTHER

MONTHLY RECAP OF M&M

1. NRS—continued inspiring testimonies of new "cover jobs" by some members of our homes; many comments on being convicted by "My the Family?" regarding selfishness, expressing a desire to change; "DTD" testimonies beginning to come in from those who had been exploring this way to witness, with inspiring accounts of much fruit won & good support as well.—The WWWs are definitely doing just that! PTL!

2. HOMEGOING—A few still plan to make belated visits, but it seems most who went home during the holidays have now decided "where to" & are either returning to the same fields, pioneering a new field, or remaining home for a continued visit or to IRF. Received many inspiring testimonies of parents and/or friends who are helping and had the parents and/or friends who are helping.

us in many weys (funds etc.), financing businesses for those very closed countries where this is necessary, providing baby & children's needs etc. Also good testimonies of finding renewed joy in His Service from those who went on to new fields!

3. "NEB REV."—These ML reactions have expressed sorrow at Dad's having to go thru' this heartbreak & trust in His promises for a Greater Victory to be won thru' it all, & what a loving & merciful sample M&M have been as well.—Plus expressions of love & prayers for Rachel & that she will obey & return.

A FURLOUGHING FAMILY FINDS OUT THE HARD WAY!
From Marcos & Tabitha; Switzerland;
Dearest Family,
GBY! MLY & PRAY THAT THIS
TESTIMONY OF HOW HE'S
CHANGED OUR LIVES WILL BE
A HELP & an encouragement to all
of you who are in the same situation.
DURING THE RNR, WE LEFT
THE FAMILY & went home for a
"vacation". In our hearts we didn't
want to forsake the Lord or His
Work, so we decided to become
Catacombers. But we weren't willing to give our lives 100%, even in
our everyday life for Him; & being
with one foot in & the other out is
the worst place to be!
FINALLY, WE LEFT OUR PARENTS' HOME & FOUND A JOB &
a flat & began living our own private life outside the Family (with
very little contact with it, if any).
Even tho' we did want to be Catacombers & do something for Him,
it was very hard!

LIVING A SYSTEMITE LIFE

It's like removing'a burning coal

we weren't able to accomplish anything because of the fact of living
alone & having so many systemite
tasks to do that we began to excuse
ourselves for not doing anything for

From Jonah; Holland:
Dear MO & Maria,
"DOOR TO DOOR WITNESSING" (LETTER NO. 769) WAS SO
ENCOURAGING! We agree with it
wholebeartedly! One reason! was
so encouraged by it is that! myself
have been doing it for about the
last four months.

I HAVE FOUND IT TO BE THE
MOST FRUITFUL METHOD of
witnessing & litnessing at this time.
Everything you said in the Letter is
absolutely true. I already have many
contacts & appointments that my
wife Abigail & I have on our schedule. Thru' door-to-door also, the
Lord has supplied us with baby needs,
a brand new guitar for our music
ministry, many donations & over
20 souls since we began, precious
friends, loyal converts & lasting fruit.

OUR BABY, JOHN, IS SUCH AN ASSET ALSO when visiting people. He is only three months old but he has such a friendly, bubbling personality that people always comment that he is such a happy child. Then when Abigait tells them that she prayed before he was born for a happy child, people are really impressed.

THE OTHER LATEST LETTERS

"Coming of Age" (No. 771) &

"Maturation of a Movement" (No. 770) were also so helpful to us & made so many things clear. So many times we get a feeling or a witness in our spirit that we don't really understand, but a little while later we receive a new batch of MO Letters that makes it all clear & understand-ble again.

receive a new batch of MO Letters that makes it all clear & understandable again.

It's AMAZING HOW YOUR LETTERS ALWAYS COME JUST WHEN WE NEED THEM, & with the answer for that moment! The ludas Letter ("Sorry Judas!—It's Too Late To Quit!", No. 772) also was so good for us. It seems we have been tempted so much more lately to give up the fight as the battle gets greater every day. Sometimes it just doesn't seem possible to go on, but then BOOM!—Another blast of the Spirit of God thru' your words & we have the strength to fight again! SOMETIMES WE FEEL WE CAN'T DO ANYTHING RIGHT, but as long as we can sit at your feet & get the MO Letters & share them with those around us, we are very, very happy. We love you both & pray for you & your new babb, Thank you for your faith in all of us, Dad. We love you so much & find it hard to express with our pen, but we want to show you thru' our obedience to 'preach the Gospel to every creature'!

Love, Jonah, Abigail & little John.

Prom Jeshus; W. Germany:
Dearest loving MO & Maria,
1 JUST FINISHED RE-READING
YOUR LETTER "DOOR TO DOOR
WITNESSING". Wowf What an inspiration! The part that really spoke
to me was about the Mail Ministry. In fact, this whole Family is held
together by the Mail Ministry thru'
your loving Letters that guide usl
TYJ for such a sample of faithful
feeding of the sheep thru' the years
IT IS SO TRUE THAT WE HAVE
SADLY NEGLECTED THE MAILS.
I personally feel I have really failed
the Lord in this area. For a while,
I was being faithful in writing to all
my contacts here in Germany. As
a result, I won my wife to the Family! In the year-and-a-half that we
corresponded before her joining,
we only saw each other three times.
But because many people I wrote to
did not respond, I felt discouraged
& stopped collecting addresses. &
as a result, the Lord stopped blessing because of my lack of faith!
Now your Letter has set the fire
going again. I thank you very much!
WHAT YOU SAID ABOUT DOOR
TO DOOR WITNESSING & litnessing is so true too. In fact, for the
past few months that's the only type
of litnessing I've been doing & I'd
like to share some of the marvellous
blessings I've had as a result. While
DTD'ing in Switzerland, quite a few
times we'd be invited in by people
"for a cup of tea" but they would

be so interested to hear more that they'd invite us to stay the night. One time, a schoolteacher invited us in & we ended up staying with him for three days as we went door-to-door throughout the surrounding area, as well as ministered to him & his friends.

door throughout the surrounding area, as well as ministered to him & his friends.

ONE EVENING A BEAUTIFUL & PRECIOUS MIDDLE-AGED LADY invited me in. She had just received Jesus & was "bubbling over" & so hungry for the Word. Since then, I have visited her & her husband several times & given her copies of the "Daily Mights" which she takes to work with her. She has also helped with generous donations! These are just a few of the many miracles & blessings that have happened as a result of DTD'ingil I'VE ALSO TRIED & FOUND IT EFFECTIVE to stay in a town until all the doors & houses have been approached. It has also amazed me how in some towns where we have street litnessed a lot & which were supposedly "hardened" to our message, I have been finding many receptive hearts & a totally different class of people in these towns who as yet knew nothing about us or our literature! As you said, we're not finished yet & it is by no means the end! So thank you, Dad, once again for that much needed Letter! Much love & prayers, Jeshua.

HEARTFELT LOVE & GREETINGS! I love you very much want was thank you for the love I receive

from you.
WHEN I THINK BACK to the

WELL DAD, HIS TIME & YOUR LOVE WAS NOT WASTED because the thing that I learned is just how much God loved me by your continual & never-tiring sample of giving & sharing & teaching. Pride comes before a fall & I tripped over my unprayerful extions & big mouth quite a few times. But sitting counting the now long-healed scars & heartaches, I can tell you your teaching was not wasted. SO MANY TIMES YOUR PRECIOUS LOVE comes Blooding back to me. So many times situations come up that I have already been thru', guided by your strong loving hands & sample. I feel so very privileged & unworthy of such love & went to do whatever I am able by His Grace to do for you & Him. I CAN'T HELP BUT THINK OF YOU WHEN I DO ANYTHING, because you are my yardstick, & when seeking the Lord's highest I think of your sample & guidance & look to you for-direction. Knowing you & having your Letters to look to, I deel in so many situations that I know the way before I go in-

From Lezarus Livingstone; Bangkok, Thailand:

Dear MO; Maria & Family Dear MO, Maria & Family,
THANKS FOR ALL THE LETTERS, ESPECIALLY THE LATEST-"God's Gift is God's Work!"
(No. 744). It really blows my mind
to think how the Lord plans each
new little life! Well, I just recently
found out some pretty starting
news that my parents never told
me before regarding my life! PTL!
I ALWAYS WONDERED WHY
MY PARENTS WERE MARRIED

FOR 13 YEARS before having any children, as they were both strict Catholics & definitely did not believe in any form of birth control. Well, it turns out that my mother had been told by countless doctors that she could not have children. My parents went to specialist after specialist for help, but to no avail. MY FATHER, WHOSE LIFE HAD BEEN MIRACULOUSLY SAVED MANY TIMES, had incredible childlike faith, which is why I'm here today, alive & serving the Lord! Well after 13 years of crying out to the Lord, my mother became pregnant, to everyone's amazement. Right before she conceived, my father was praying very hard, having almost given up himself, & he said he was sweating & shaking when suddenly the Lord's voice came to him & said.
"DON'T WORRY ABOUT THE WORLD & ITS WARS! I'll take care of that-you just take care of your family." So when my mom got pregnant, my Dad really thanked the Lord for His faithfulness & told The Lord. So on July 8, 1957, I took my first breath.
EVER SINCE I CAN REMEMBER, my Dad took me to church every Sundy & taught me many prayers before I would go to sleep at night when I was ItI. MY MOM GOT BREAST CANCER & ster four years of real suffering went home to be with the Lord. I couldn't understand why God took her away, after all of us had prayed so hard. So I turned off my channel to the Lord & became wild, rebellious & untamable.

Lofo a became wind, repenious as untamable.

I STARTED TAKING DRUGS, was arrested at age 15 for grand auto theft, broke into school & church properties, destroying them & influencing others to do likewise, until my best friend was killed in a car crash while going home after 1 gave him drugs.

WELL, I REALLY "FREAKED OUT" & HAD A NERYOUS BREAKDOWN. My father then

committed me to a mental hospital (I was 18) to try to help me, since he had done all he could for me, praying for me always & taking me back into loving arms time & again. It was then, he said, that he prayed that same little prayer he had prayed when my Mom first became pregnant, about giving me to serve the Lord.

WE! I

Lord.

WELL, AFTER A WEEK IN THE
HOSPITAL & coming face to face
with myself, I got so violent that it
took about nine nurses' aides to
chain both arm; & legs to a bed in a
steel room where I was left alone
for 7 hours, with no one to talk to
but the Lord & nowhere to look but
up. I finally broke down & asked
the Lord to the my frazzled nerves
together & to heal my stomach (I
had developed severe gastritis from
drinking & drug abuse). & I received
a sample of that 'perfect peace' the
Lord was talking about when "our
mind is stayed on Him" (Isa. 26:3).
I DIDN'T KNOW TO ASK JESUS
INTO MY HEART yet, but I came
out of that room turned on to the
Lord & tried witnessing to the others
in the institution about the Lord's
love & healing power. After a week
of doing so, they sent me home to
my Dad. (I guess they had enough
of me—hal)
FOR ABOUT A YEAR, I WORKED FOR MY DAD & went back to
church & even started my own little
business (wholesale of bread). But
after enjoying the so-called "good
life" & seeing thru' the false fronts
of my newly found friends, I was
ready to quit. Then on my wey
home from work one day, I picked
up a couple of hitchhikers from the
Family who led me to the Lord & I
received the Holy Spirit & dropped
out, all in one glorious day! PTLI
AT FIRST MY DAD COULDN'T
UNDERSTAND how I could give up
my "chance of a lifetime" business
to live in this "strange" Family.
But then the Lord reminded him of
his long-ago prayer, the one that he
had prayed 21 years ago & that it
was truly answered! Now he's very
happy that I've found the Lord's will
in my life & reads & lites the Letters.

I HOPE THIS ENCOURAGES
PARENTS & PARENTS-TO-BE not
to give up hope but to "expect
miracles", knowing God will never
fail to answer in His perfect time, if
we stay faithfull Love, Lazarus.

YESTERDAY WHEN I WAS OUT LITNESSING, I started getting a poem, so I stopped for a little while to write it down. I was thinking

about the brethren in the States who have taken jobs to survive when there are still so many cities & areas wide open to litnessing & provisioning. It's called:

"AS LONG AS IT'S POSSIBLE"

Where have the paper prophets gone Those kids on the street, Sharing smiles & radical words With the people they meet.

Taken jobs-that's no fun When there's a war to be won! To conquer hearts, spirits & minds To change them all, one at a time! Giving them Jesus & His Words,
Giving them a sample-that will be heard!

The sample of living by faith, Of trusting God to supply, As He promised, if you serve Him, Come what may, do or die!

So give me those streets & parking lots!

lots!

As long as it's possible, then DTD!
The sheep still abound in variety
& plenty!

And I know only one way to feed
so many!—

Thank God for the Letters!
I know of no method better!
Thank God for litnessing!
And personal witnessing!
Thank God for the privilege

Smoking It Almost Killed Me!

DUEL WITH A DEMON! THE DANGER OF COMPROMISE!

& GOD'S MERCIFUL DELIVERANCE!

From Mary Magdalene; France:

I NOTICED A FEW PEOPLE IN THE FAMILY having battles over smoking eigarettes & I wanted to share what happened to me. When I joined the Family three years ago, one of my biggest tests was to quit smoking. I used to hide in the toilet to smoke almost every day. I talked to my shepherd about it & prayed & prayed but was too weak to put feet to my prayers & stop.

I KNEW IT REALLY HINDER-ED MY SPIRITUAL GROWTH, like letting a door open for the Devil to come in & it made me feel very guilty in front of the Lord but / just couldn't seem to stop. Six months after I joined, I returned to France from India & went to have a general sheek-up at a hospital, my body being very run down from a long stay in India.

THAD'S WHEN I DISCOVERED I HAD TUBERCULOSIS! I knew right away that it was a judgement & a warning from the Lord about my smoking. I got pretty scared! The doctor's verdict was: sanatorium & antibiotics for a whole year! But with the help of some faith-building brothers & issters, I decided to trust the Lord for my healing & we had a prayer meeting. While praying, the Lord spoke to me very

Don't let the "camel's no of COMPROMISE get you!

clearly & told me in French, "Donnant, donnant."

"IF YOU GIVE UP SMOKING, I'LL GIVE YOU THE HEALING". Igladly & thankfully submitted! A few days later another X-ray showed that I was completely healed! PTLF All desire for smoking subsided & I felt completely delivered.

A YEAR LATER THO; AS I STARTED TO FF, the same battles came back. Most of my fish were smokers & I found myself starting to smoke again, first a puff here & there, then whole cigarettes. Then the need to smoke came back & with it a feeling of drawing away from the Lord as I started again to sneak into the toilet to smoke cigarettes. Give one inch to the Devil & He'll take a whole mile!

THE LORD TOLD ME IN A DREAM THAT IF I DIDN'T QUIT SMOKING completely that I would get tuberculosis again. This scared me but I kept smoking anyway & of course I soon started to cough. I tried to ignore it until it became so bad that a fish himself told me to go to a doctor.

THE RESULT: TUBERCULOSIS AGAIN—A WORSE FORM OF IT as I was now contagious! I went straight to a hospital so as not to contaminate anybody. It was a very trying time. Being separated from the Family is the thing I fear the most & here I was, locked away in a hospital, in a foreign country at the mercy of people who spoke a foreign language!—Then in Italy. I WANTED TO HAVE FAITH & GET HEALED AGAIN but it's difficult to have faith when your

heart is not right with the Lord & when what you suffer is the consequence of your dischedience! I was praying & Praying. The Lord is so merciful & so good that He nevertheless heard me. After two weeks in the hospital, the doctors told me I was no longer contagious & agreed to let me go home if I would rest.

in the hospital, the doctors told me I was no longer contagious & agreed to let me go home if I would rest. FOR THE NEXT SIX WEEKS I WAS IN BED, extremely weak & sick, my hair falling out because of heavy doses of antibiotics & feeling very much under condemnation. I had truly "sinned & come short of the glory of God". Then, to top it off, foolishly got out of bed & went out FF ing ten nights in a row. I completely collapsed & could not get up anymore. I felt I was going to die & was very desperate, truly at the end of my rope at last. ONE MORNING AS I TRIED IN VAIN TO GET UP, I started to cry & prayed with all my heart, really broken, ready for anything, at last submitted to the Lord, & my prayer broke thru in the Spirit for the first time in months. The Lord told me, "There's a whole bunch of dirty dishes to do in the kitchen, you'd better get up & go do them!" IT SEEMED IMPOSSIBLE, BUT WITH GOD nothing's impossible! I stayed up for the whole day for

HEALTH WAS BACK TO NORMAL & since then two X-rays have

IT SEEMED IMPOSSIBLE, BUT HT GOD nothing's impossible! I stayed up for the whole day for the first time in a long time. The very same day I quit taking the me icine & had desperate prayer toget er with the whole home to be heal The Lord told me, "When thou shalt cry unto Me with a whole heart, then will I hear thee & answ thee & show thee great & mighty things which thou knowest not." FAMILY) NEWS -BY YOU!

Iranian Finds God is Love...

(The following is a personal testimony from our Iranian Catacomb brother, Ali, here in England. We met him which he came to our home, referred by another sister who met him while out litnessing. He has a special burden to reach other Muslims & sent a copy of "Love Is News" with every Christmas card he sent to his friends! He's a real on-fire "Don Quixote" who loves the Letters & says he'll never give up & wants to do anything the Family does, even litness, although he is 44 years old & has a lot of physical disabilities, including partial paralysis on one side of his body. God bless him! Here's his story!—Sent in by Judy.)

Here's his story!—Sent in by Judy.]

WAS BORN 44 YEARS AGO
IN IRAN, a Muslim. I have travelled in my life to the Far East & India. Seeing other religions, I always compared mine to others.
IN 1961 I CAME TO EUROPE as an import-exporter. In England last year I met Chris when she was distributing MO Letters on the street. At first I walked away from her, but then I came back to talk to her. When I saw her I felt inside her some kind of spark & glory.

SHE TOLD ME ABOUT LOVE, that God is Love & Love is God. I

kind of spark & glory.
SHE TOLD ME ABOUT LOVE,
that God is Love & Love is God. I
asked her, "What sort of people are
you?" We talked & she invited me
to her home. What attracted me to
her was the things she was telling me.
SHE PRAYED WITH ME & I
saked Jesus to come into my heart.
I learned that the difference between Jesus & the other prophets is
hat He isn't dead, He rose from the
dead & is living! I read the leaflets
she gave me, expounding more on
God & Love. She had to leave the
country & gave me the address of
another Home where I went to visit.
I REAL ISED THERE IS MORE
TO THIS FAMILY than I had first
thought & I made up my mind that
I was going to join this Family. Until now, I never found this feeling
in any human being since I've been

& I tell a lot of people I meet about the Family.

THE FAMILY IS LIKE THE MOON reflecting the light of the sun (Jesus & His love). Like in the East, the sun is too hot, so people use the moon for light to travel by at night. I used to mourn a lot, but since I met the Family I have a feeling in my heart that there's something to live for, something to love for! I want to bring more people to know that God is Love—not Law!

That is my dedication!

Love, Ali.

Love, Ali.

From Our Declaration of Love!

WE BELIEVE IN LOVE! Love for God & others, for "God is Love"!

(11.14:8.) That's our religion—Love!

LOVE IS EVERYTHING, for without love there is nothing!—No friends, no families, no fathers or mothers or children or sex or health or happiness or God or Hewen-there could be none of these without love! And none of these is possible without God, for He is love!

THIS IS WHY JESUS SAID THE FIRST & GREATEST COMMANDMENT IS TO LOVE—to "love the Lord thy God with all thy heart. & with all thy soul, & with all thy mind....& the second is like unto it," it's almost equal—almost the same, "thou shall love thy neighbour as thysel;" (Mr. 22:36-40,)

IN FACT, THIS IS WHY GOD CREATED MAN TO BEGIN WITH: TO LOVE—to love & enjoy Him for ever & to try to help others to do the same! And it is God alone Who can satisfy the deepest yearning of every human soul for total love & complete understanding.

HE'S PICTURED IN HIS SON CRIST LOVE for each of love in Jesus, all

in Europe.

I WANT TO DO ANYTHING &
EVERYTHING I can as part of the
Family to spread God's Love. I
wrote to my family in Iran & told
them about what happened to me

you have to do is open your heart, pray & ask Him to come in.
WHEN YOU HAVE DONE THIS YOUR WHOLE LIFE WILL BE CHANGED! You will discover true happiness in finding God & giving

His life to others & bringing them happiness! If you sow love you're going to reap love. Obey God's law of love-love for Him & others, & so shall ye also receive.

Go to it!) Love, Jesse & Candace.

COUNT ST. GERMAIN—OR SO
CALLED COUNT ST. GERM
AIN as he was known by friends & enemies alike during his phenomenal career in 18th century Europe—was the kind of person who aroused suspicion, hostility or disbelief because his talents out-stripped contemporary thought. The English writer Horace Walpole dismissed him as an eccentric, but the great French writer Voltaire judged otherwise, describing him as a man who "never dies & who knows everything".

HE ARRIVED FROM NOWHERE on the European scene & throughout his life was surrounded by intripue & hints of mode powers.

Talking to Madame de Pompadour, mistress of Louis XV of France, he summed up the yearning of the time: "Ah, madame, all the women want the Elixir of Youth & all the men want the Elixir of Youth & all the men want the Philosopher's Stone, the one ternal beauty, the other eternal wealth." Count St. Germain's achievement was that most people who met him believed he had discovered the secret of both—8 put them to active use in his own life.

TOOAY A SUBSTANTIAL CULT HAS GROWN UP AROUND HIM, regarding him as the supreme 18th-century occultist, genuinely possessing strange powers related to, or deriving from, the ancient wisdom that is still being sought. Opponents of this view, both then & now, see him as no more than a quick-witted & fluent adventurer who was able to deceive a guillible nobility unable to distinguish between trickery & true achievement.

A CAREFUL ANALYSIS OF HIS LIFE is inclined to support the first attitude, & at the very least he was an extraordinary man. There is the question of his longevity: Taking reports at their face value, he was perhaps 45 or 50 years old in 1710, & a meeting between him & his friend Mme. Of Adhemar was noted in her diary in 1820. On this reckoning, he lived to be at least 150. If the first & last dates are eliminated because they are the mistaken memories of old ladies, there is still unequivocal evidence that he was a full-grown man in 1723 & active in the French Revolution in 1789—a life-span of & least 90 years. Nearly all reports during this period said

LOVE CAN DO! Love wasn't put in your heart to stay, love isn't love till you give it away! Love never fails, for God is Love! Long Live Love! Love one another! Love is God! God is Love!

that he had the appearance of a man in his forties.

THERE IS THE QUESTION TOO OF HIS UNDOUBTED ACHIEVE-MENTS. Not only was he consistently described as being rich beyond even the highest standards of the times but as being a superb linguist (European, Arabic, Oriental & Classical), an accomplished pianist & violinist, a pioneering inventor of new chemical techniques that transformed the process of dyeing cloth & curing leather, & above all as a brilliant conversationalist—"the most singular man that I ever saw in my life," said the Graf Karl Cobenzi.

THIS PICTURE OF HIM PUTS SINTO PERSPECTIVE THE OTHER, & perhaps most important, aspect of his career: his tireless travelling in search of lost knowledge & his prestige in occult Societies & Lodges, all of which seem to have made him welcome.

ALTHOUGH HE LIVED VERY SIMPLY (he was a vegetarian & testotaller & always ate on his own), his wealth undoubtedly stemmed from his collection of diamonds; he claimed to have the secret of the Philosopher's Stone, to be able to improve & enlarge diamonds.

HE HAD TRAVELLED TO THE HIMALAYAS & found the men "who knew everything", he said, adding that "one needs to have studied." Three of the greatest occulities of the 18th century, St. Martin, Mesmer & Cagliostro, were his upplis rather than his teachers.

HE CLAIMED TO HAVE ACHIEVED ASTARL TRAVEL (as in what are now called out-of-body experiences or remote viewing)—"for quite a long time I rolled thru' space. I saw globes revolve around me & earths gravitate at my feet." & on another occasion he "passed the time while he lay unconscious in far-off lands."

IF THERE IS INDEED AN ANCIENT WISDOM, as research in man parts of this Allas has suggest-

many parts of this Atlas has suggested, then Count St. Germain must

surely have been one of the few who inherited or re-discovered it. Alas, the only surviving manuscript by him, "La Tres Sainte Trinosophie" in the library at Troyes, France, is so cryptic that its symbolism has never been interpreted, & his lifestory remains more a tantalising hint than a satisfactory solution.

1719: Seen by composer Jean-Philippe Rameau & the young Countess von Georgy, & said to look around 45-50 years old. Little is known of his life in the next two decades except he was a confidant of Madame de Pompadour & had great prestige in Masonic & other secret societies.
1737-1742: At the court of the

prestige in masonic & other secret societies.

1737-1742: At the court of the Shah of Persia, where he may have acquired his extensive knowledge of diamonds & precious stones.

1743: Famed at the Court of Louis XV for his great wealth & alchemical skills. A diary says "the rumour spread that a stranger, enormously rich judging from the magnificence of his jewellery, had just arrived at Versailles. Whence did he come from? That is what no one has ever been able to learn." He appeared to be between 40 & 45 years old.

1745-1748: In the Viennese court was "witty & brilliant"; lived as a prince.
1747-1756: Paid at least two visits to India & wrote in an enigmatic letter that while there he gained his knowledge of melting jewels—a "wonderful secret" that made all his previous attempts in Vienna, Paris & London "worthless as experiments; the great work was interrupted at the times I have mentioned."
1757-1760: Height of fame at the Court of Louix XV, who became completely entranced by his manner & his reputed powers of improving & enlarging diamonds; St. Germain was given a laboratory for his experiments in physica & chemistry. Seen again by the Countess von Georgy, then in her seventies, who was astonished to find him looking as youthful as at their first encounter half a century eachier.

1760-1762: Mysterious mission to England as envoy/spy of Louis XV seems to have ended with him in dis-favour, followed by a temporary re-tirement to Holland to continue his

favour, followed by a temporary retirement to Holland to continue his studies.

1762-1773: Reports of his activities, political & scientific, from many parts of Europe. "A most singular man" who could transmuste "iron into a metal as beautiful as gold, & at least as good for all goldsmith's work." He had a factory in Venice employing 100 workers using a process to make flax look like silk.
Celebrated for "the vastness of his political & philosophical knowledge."
1774-1784: Following the death of Louis XVI & Marie Antoinette of a "gigantic conspiracy" which would completely overthrow the order of things. He then fived mostly in Germany. In 1777 he was said by one witness to be between 60 & 70 years old. He was actively engaged in Masonic, Rosicrucian & Templar activities with his disciple & protector Prince Karl von Hesse-Kassel. The two men worked on experiments together "which were in all cases to be of use to the human race".

1784-1829: His supposed death on 27 February 1784 & burial on 2 March 1784, recorded in the church register at Eckentorde, was followed by his well-witnessed appearance at Wilhelmisbad in 1785, where a conference was held between various groups of occultists—Rosicrucians, Illuminati, Necromantists & Humanitarians-to resolve their differences. He was accompanied by Cagliostro, Mesmer & St. Martin.

In 1788 he was again active in France, giving ominous warning to the nobility on the eve of the Revolution. Marie Antoinette, in her diaries, regretted not taking his earlier advice. In 1789 he departed for Sweden to try to prevent ill be-falling King Gustavus III, & told his friend & diarist Mme. d'Adhemar (who thought he still looked about 45) that he would see her five times more. There is only her word for it that this happened, "always to my unspeakable surprise", the last occasion being on the eve of the murder of the Duc de Berri in 1820. 1821-present day: Some occulrists believe St. Germain never died. In January 1972 a Parisian named Richard Chanfrey appeared on French television claiming to be him; as "proof" he achieved an apparently successful transmutation of lead into gold using a camping stove in front of the TV cameras. HE ALSQ WITNESSED TO ONE
OF HIS FRIENDS about the love &
mercy of Jesus, which is so different

from what the churches teach. As a result, his friend was very touched & surprised & afterwards started to take much better care of his lover, a woman who loves him very much but whom he had neglected & hurt often.

G. ALSO REALLY STOOD UP FOR US at meetings with government officials who had a lot of prejudice about us. He told them how one of us had really helped him so much in time of distress & discouragement (in prison) & after all the time he'd spent with us he hadn't found anything wrong. He even went so far as to tell them that they didn't understand the real, deeper spiritual meaning of what we're doing & that in the beginning he hadn't understood it either. He told them he was sahamed to be a Swiss because of the restrictions here. Please pray for him!—He's so precious!

But that little crack in your armour is where the Devil begins to scep in, & then his gas of decell begins to poison, your mind because you disobeyed, & pretty soon you re totally off the track!" Open The Door For The Children!

From Rachel Scott; England:

MY HUSBAND JACOB & I & OUR
FIVE CHILDREN of six years old
& under are here in England seeking
& finding, with the Lord's help, ways
of reaching children & thru' them,
their parents. Last year in another
home we ran a small Sunday school
for 7-year-olds & under, as well as
a MO Letter study & sing song in
the evenings for over-7's. Twentyfive children came regularly to one
or the other of these every week, all
of whom were saved & witnessing!
NOW IN OUR NEW LOCATION,
encouraged by our previous results
in opening our doors to the children,
we have hired a half for one morning a week, for a reduced rent, thanks
to the Lord. It's a lovely, bright &
airy hall used by many different clubs
etc. throughout the week.

THERE WE HOLD SUNDAY
SCHOOL FOR ABOUT 20 CHILDREN, all of whom are saved now
& studying the Word. It has also
attracted three teenagers eager to

WE ACT OUT MO LETTERS,
which they love to do, each one taking some part. Sometimes we have
to do the skits a few times so they
can all have a go. We also do drawing, painting, make relevant models
such as hearts with doors, finger
puppets etc. etc. We sing songs,
learn verse & generally dance about
& enjoy ourselves. I use enormous
sheets of paper with words to songs
written out clearly in big letters,
stuck on the wall, so that even the
little ones can read them & join in.
WE DIVIDE INTO CLASSES FOR
BIPSERNT AGE GROUPS for
Bible stories with plenty of pictures.
There is sand & water play for the
little ones. It is only just a beginning & we expect many more now
that the weather has improved.
WE ALWAYS STICK UP PICTURES that the children have drawn,
along with MO quotes & Bible verses
every week as a witness to the many
other young people who use the hall
WE ALSO USE A STAR CARD
SYSTEM in which each child has his
or her own card onto which go
star stickers for different accomplishments: 1 star for attendance,
2 stars for learning a verse, 2 stars
for bringing along a new child etc.
The results have been even better
than I dared hoped for—children

WARNING AGAINST "SPOILING THE SYSTEM" ILLEGALLY!
"Giving no offence in any thing, that the ministry be not blamed"—2Co.6:3.

From John & Sarah Beloved; V.S.'s in Australia:
Dear Dad & Maria,
WE'RE WRITING TO ASK SOME
COUNSEL after sharing with Amos of Offest about a practice here in Australia amongst the brethren. We thought it would be good to write you as it may be important enough to warn the whole Family about. We've been troubled about it for a while & the reaction from everyone seems to keep on doing it.
THE PRACTICE IS THAT OF OBTAINING STUDENT CARDS for travel at reduced rates. Family members up to now have endorsed them with the name of a phoney, nonexistent college to make it look official. At the moment, one brother has been encouraged to & is in the process of getting a stamp made in 100 MEN 100

THOSE WHO FAVOUR THE PRACTICE say it's money saved & the justification is to "rip off the System" & "according to your faith". But personally, we are in doubt about it. When we were hippies it may have been alright but now it seems the Lord is expecting a lot more of us. FOR EXAMPLE, I WAS SHOCK-ED WHEN DAVE MARTIN MENTIONED in his class that it is best not to tamper with telephones as it as 1979 by world Services. Pt. 241. 8021 Zu

is illegal. But the sample I've experienced & consequently adopted was not in line with this. In some of our Homes we've installed extra telephones & lines ourselves from equipment we seem to have "acquired" from our moving from house to house.

from our moving from house to house.

THESE PRACTICES TEND TO LEAD ONE TO "BEND THE RULES" in other areas to suit ourselves, Sometimes we do need to bend the rules a little, but when it comes down to outright illegal actions we're having a hard time having the faith for it! We only need one person to get caught for it to make the newspapers, or for one Judas to make a statement.—And at present we couldn't really deny it!

HERE'S THE QUOTE WE'VE BEEN GETTING ON IT: Concerning the nickel you returned one time, Dad: "Well, it wouldn't have cost me my soul, but it would certainly cost me God's blessing & He would have reprimanded me or chastened me in some way, because God knows that it dies nature. It's

THE FOLLOWING ARE ALL

TRIED & TESTED IDEAS for use
in Sunday schools or just at home,
which the children enjoy doing &
help them remember the points of
Bible stories, MO Letters & spiritual
principles. All are simple & don't
take a great deal of time. To cut
down on expense, I collect such
things as cardboard cereal boxes,
toilet tubes etc. Another idea is to
look out for special occasions such
as Mother's Day & have the children
make little gifts to take home.
These & other things they make are
a great witness. Try them, we enjoyed making them! GBY!

PIED PIPER PIPE (for use in songs)

Materials: paper straw, scissors. Purpose: To help the story stick in the
children's minds, reminds them to
use God's music to pied piper children to Heaven. Instructions: Press
one end of the straw together slightly, cut in a V-shape & blow. A different length will give a different
note. It's great fun!

SONGS: I found it useful to adapt
songs to well known tunes so the
children can easily join in. Here's
one to the tune of "London Burning":
Jesus coming (look up)

Jesus coming
Get eady, get ready.

Jesus coming (took up)

Get ready, get ready.

RADIO: Materials: scissors, staples or cellotape, paper or cardstock, pen. Purpose: To show the aspects of prayer as in "Prayer Power".

TELEPHONE: Cardboard, wool (yarn), seisors, pen. Purpose: To remind children of the aspects of prayer. Instructions: Make a template or stencil of the base & receiver for the children to trace. CHANGE THE WORLD: Materials: A large piece of paper, paint & peintbrush. Purpose: To show the children how they can change the world one heart at a time. As you read or tell the story of "Change the World", paint in the trees, birds etc. & the children will see the landscape change before their eyes. It really helps them remember it. Paschel. Love Notes:

From Damaris (of Peter A'dam):
Dearest Dad & Maria,
I JUST WANTED TO GET A
SHORT LOVE NOTE OFF TO YOU
in the mail with the reports. I really
do love you both so much! You
mean so much to me & i feel so
close to you. Even tho' I do not
know you so well (in the flesh) I
really feel like I am married to you.
This is something I new felt before
& I can really see that the Lord is
growing me up a lot. Please let me
know if there is anything I can do
for you, large or small.—I would consider it a privilege.
PLEASE DON'T SEND PETER
HOME BECAUSE OF ME. I know
you need him & he knows the job
fairly well, which would take your
time to train someone else. I love
him dearly but I don't mind sharing
him with the ones I love.
THE LORD IS TAKING CARE
OF US HERE, & with one or two
extra people for the mail ministry
we would be doing fine. I know
Peter loves being with you & it will
be hard for him to be away from
you. His testimony in a recent FN
was such a blessing & I know he loves
you so.
EVERY TIME HE CALLS HE IS
SO ENCOURAGED & I know his
place is with you there. I love you
both so much & really consider you
three my dearest lovers. I want to

show my love to you by doing what-ever I can. & I will stand by your sides 100% no matter what. I love you so much & have you in my pray-ers. Give my love to everyone there, they are all so precious! — Much love & kisses, Your Damaris.

From Angel:

From Angel:

Dear Dad & Maria,
I WON'TEVER BE ABLE TO
THANK YOU enough for everything
you have done for me, but I hope I
can be a little blessing in return. I
so often want to write you a little
note to say "thank you!" & "I love
you!", but since I'm no whiz with
words, I feel a little bad that I can't
write you something really beautiful.
EVERYTIME YOU SHARE WITH
US, IT IS SO SO PHECIOUS to me.
What a blessing to practically be able
to sit at the Lord's feet, at least His
Propher's Ret. Like you said, it's
all Spirit-led even tho' it's not straight
prophery. & it's so wonderful. PTLI
I ALSO WANTED TO THANK
YOU BOTH for the wonderful rime
lgot to spend with Dad. I don't
think anyone could have a better wedding day. I was quite nervous at first
of course, but with such sweet love
it didn't take long before it was gone,
& I really, really enjoyed it, every
minute! Thank you, thank you,
thank you! Love, Your Angel.

FAMILY NEWS -BY YOU!

LATEST NEWS FROM A

Happy Singing Family!

From Seek & Secundus & their 6 children:

- IN SOUTHERN

Dear Dad & Maria,
GBY SO MUCH, AS HE HAS OUR
FAMILY THRU' YOU & because of
you. WLY & feel closer to you than
ever, having Claire here to share more
of your spirit & love & little testimonies of how living with you has
changed her life.
THE LORD ABIDETH FAITHFUL & keeps establishing the works
of His hands—gil—PTLI The Lord
encouraged us when our performing equipment, quitar & clothes were
stolen out of our van, that it was all
part of His plan for us! A few days
effer it happened I was praying &
asking the Lord to do something to
encourage us to keep going that day.
THEN A NEIGHBOUR CAME
OVER WITH A NEWSPAPER ARTICLE on the children's singing, complets with photo. It has a circulation of 45,000. That really encouraged us. The Lord reminded me of
the promises He made to David's
seed in the Bible because of David
å He said to us that He would bless

us because of our Father David.
Jason, age 7, wrote a letter to the author of the article & thanked him for writing it & shared a little about our work in Europe for the past 3

our work in Europe for the past 3 years.

TIMES LIKE THESE ARE PRICE-LESS FOR THE CHILDREN. The two oldest, who can understand a bit, at the time of hardship change into little angels. They just can't do enough for us to encourage us. This morning Jason jumped up & cleaned his room. Then he didn't come to breakfast & when we went to find out why, he was cleaning up our room tool Sitting down at the table he said, "Mommy, I don't need any honey in my cereal this morning, it costs too much." (That was good because we didn't have it anyway, hal) He cleaned off the table & now is sitting down playing guitar, a song that he makes up as hegoes, about a lonely by looking for real love whom he leads to the Lord & then encourages to go & tell

other people. PTLI The kids & the Lord's Spirit are what sustain us to always keep oping!

MY SISTER-IN-LAW, WHOM WE HAVE BEEN FEEDING thru'the mail, just wore to encourage us: "I was trying to figure out why all your precious equipment was stolen, & the Lord showed me He is really just wanting to shower blessings down on you like the rain. When it rains, it cleanses the earth, makes everything fresh & new again. God has new fresh things for you to do. So don't give up. Those smiles & looks of love mean so much. You guys are really to be commended. You really practise what you preach. It must take so much love for the lost not to put yourself first & not try to 'make it' in the world. Your way of life is so convicting. Maybe that's why you have results—people can see you care so much that you live a temporary kind of lifestyle so you can spend more time with them. You are such a testimony. Don't

be discoursed. God is always with you." (She has 3 very young children & is trying to do the bert she can to raise them for the Lord & always comments how much the Letters help her to do so.)

SO, PTL, NOW HE'S PROVIDED

NEW CLOTHES, EGUIPMENT,
GUITAR & ALL! A friend & fish from Holland gave a good donation & we go not singing outfits for all six children, as the two younger boys, 2 & 3, here joined the group! They had been singing with the big children at home for inspiration & wisitors. Now they regularly sing at our engagements, 3 songs at each performance, & do a good job too. I know that if we hadn't lost our things, we wouldn't have thought to include them in the group. WE ALSO FOUND AN AMPLIFIER at a reduced price. A neighbour is letting us use a new battery from his motorcycle for the power. Secundus made the case & covered it with viny, also given to us by the same neighbour. These people have been really helpful, because we have taken time to really share with them. The children sanly for them in their home, as the husband is an invalid. WHEN WE SHARED WITH ONE CONTACT about how the Lord miraculously restored the performing clothers for the children & needed now was a new guitar, he said he had just bought a new guiter for a very low price from a friend & that we could use it until he has a chance to get us one for the same low price! So, we know the loss of our things was surely a spanking for our many shortcomings, but as the Lord promised, it yielded the peaceable fruits of rightsousness.

HERE ARE SOME OF OUR RECENT WITHSSSING TESTIMO-NIES: Yesterday the children sang for a parry of children sponsored by a City Hospital here. The children sang for a parry of children sponsored by a City Hospital here. The children sang for a parry of children sponsored by a city Hospital here. The children sang for a parry of whildren sponsored by a city Hospital here. The children sang for each year the person working there gave a generous donation & apologised that they couldn't give more. Afterwards we were tal

rext week for psychistric patients.
We'll be singing at a children's home & orphanege this coming week, too.
ONE THING THAT HAS HELP-ED THE CHILDREN GROW so much is that we have taken in a lot of visitors & fed them & ministered to them. These are young people whom we meet as they hitchhike. They are so appreciative of a bite to eat & something to drink & a little bit of love. It is well worth the time & food because the children grow so much from sharing with their singing & testimonies & also from hearing what each new visitor has to share shout himself.

THE LORD HAS REALLY BEEN SHOWNING US TO ESTABLISH OUR FRIENDS & KINGS. They need the Lord & His love & wg need them. So Claire & I went visiting one afternoon. It was a funny feeling because it reminded me of what we used to do in church on Thursday afternoons, hal We visited the owner of the resturant where we regularly sing. It happened that he was having a dinner with all his employees (all male) who were very happy to see us. Claire chatted a lot with the owner & we got to share about thy we sing & about our convictions. When they seem to have so much more conviction to help us & want to see us again to help them fill that aching void in their heart. Claire made a date with the owner for this coming

week. It looks like the beginning of a deeper relationship! PTLI WE WANT TO SAY HOW MUCH WE APPRECIAT TO SAY HOW MUCH WE APPRECIAT HAVING CLARE HERE WITH US. It must be quite a change for her, just having come from living with you. She really hit the spot. She's the first person who didn't hit us with a lot of demands, but just rolled up her sleeves & started immediately to make things better. SHE NEVER HAS TO BE TOLD WHAT TO DO & it quits a pacestrer. It's such a wonderful reflection of you & has changed our lives so much. She has such an ability to put the Lord & the work first. We feel very fortunate to have her with us & really thank you for the sample she saw there that the is able to pass on to us.

FOR INSTANCE, I HAD NO IDEA HOW TIGHT DAD IS with the Lord's time & money. It really convicted me to do the same when, she told us how Dad manages his budget & how everyone there is responsible for quite a workload each day. I know that in our Home & others! have seen we have lived beyond our means & ever at that have a low standard. But actually it doesn't take a lot of money to have the standard described in the Letters, but just being good stewards with the time & money we do have. It's so easy to really live the Letters, but just being good stewards with the time & money we do have. It's so easy to really live the Letters, if everyone just gives 100%. Love & preyers, Seek & Secundus & family.

Music of Soft Loving Hands' Touches 'Hard Rock' Fans!

From Cedar; France:

WHILE SINGING AT A RESTAUR-ANT here at one of France's famous beach resorts, we met Lester Persky, producer of the new film "Hair" who was attending a film festival. He asked us to learn some songs from "Hair" & come & sing at the film's premier the following night. He also

give us a generous donation.

ALL NIGHT WE STAYED UP TO LEARN THE WORDS & CHORDS & the next night sang with all our hearts (as unto the Lord) for the film celebrities at their dinner after the premier, including the French Minister of Culture. They all seemed to enjoy it very much. Afterwards, Lester invited us to join them for dinner where we had a great opportunity to witness & share a few words of love with the guests.

ME ALSO INVITED US TO A MID NIGHT PARTY at a nearby plush restaurant, saying he was very pleased with our music & gave us another good donation. At the party we were able to distribute little envelopes of Mo Letters to Lester, the director & cast, who graft-fully received them. We were also asked to film some songs for an international TV programme in a few days' time & met other directors & producers who went us to sing for their private parties later during the Festival! PTL! It was such an unexpected blessing & victory & we found these "poor lonely rich" to be hungry for true love & the Words of David!

BY THE WAY, I'M SIX MONTHS PREGNANT & Ishmeel & I are certainly not fantastic or professional musicians, so it just shows what the Spirit & the Lord can do when we follow Him! Worldwide Mail Ministry & Irfers!

TESTIMONIES & TIPS ON THE MINISTRY OF THE MAILS! by Elizabeth Grey

WE SENT OUT OUR FIRST
WORLDWIDE MAILING OF
"FRIEND OR FOE" IN FRENCH
& the results are already beginning
to come in! Right now we have a
mailing list of about 1,000 Frenchspeaking people, gathered over the
last several years, most of whom
first wrote in after they saw our music group or received literature on
the street.
WE WRITE TO THEM & CULTIVATE THEIR FRIENDSHIP as well
as send out prayerletters & literature.
When they ask to meet us, we send
out telephone number & arrange to
meet them outside the Home. We
have special weekly meetings to
meet them outside the Home. We
have special weekly meetings to
which we invite many people in the
local area & read a MO Letter or class
& have an open discussion. This
often encourages them to participate
& really take a stand on what God
has shown them on certain issues,
especially those involving their personal daily lives. It does take time,
but we are now reaping the fruit in
many friends, converts & contributors, because of our mail follow-up
& personal meetings.
THE REST OF OUR "FLOCK"
IS SCATTERED all around France
as well as French-speaking Canada,
Switzerland, Belgium & other countries & islands all around the world.
Of course we cannot personally minister to all these but they are growing in the Word nevertheless & witness & often ask us for Letters to
distribute.

Last fall, for example, a friend on
our mailing list gave us enough postage stamps to last over six months!
Before Christmas we found a blank

WHEN ESTHER BRUNHELD,
WHO ANSWERS OUR LETTERS,
HAD A BABY (a sweet & precious

PROVISIONING HAS BEEN AND THER REAL BLESSING. Thru' the large city market, we get most of our meat, fish, vegetables, fruit & yogut free, as well as eggs & cheese at a discount. We have also provisioned 40,000 pieces of printed lit & 12,000 envelopes! TYL! As a result, we are able to give out more lit & our Home of 5 got out an all-time record (for us) of 15,000 pieces of lit last month.

ONE SUNDAY AFTERNOON, 3 OF US WENT TO AN AREA OF HIGH-RISE APARTMENTS & in 2 hours distributed 3,000 copies of "The Anti-God War" in French, an excellent answer to the recent at-tacks against us. A few days later we got a letter from a 16-year-old body who said he really believed in our cause & wanted to meet us. At the second meeting he received Jesus & the Holy Spirit & said he wanted to go home & give his parents some love as they weren't getting

IN ADDITION TO THE LORD
ABUNDANTLY SUPPLYING our
physical needs, there is the even bigger blessing of the spiritual change
in the lives of the people we write in the lives of the people we write to. On minn wrote to us a year ago. & we never heard from him again until just a few weeks ago, altho' we continued to send him mailings. Well, finally he called & after a couple of weekly meetings we invited him to stay with us for a weekend. He has lived alone for some time & while with us he just opened up & talked for hours. One morning as we were reading John Chapters 14 & 15, he began to cry & after we witnessed to him he prayed to receive Jesus & the Holy Spirit. He was so happy he just kept faughing all the rest of the day. When he heard we needed to move, he gave us enough for a down payment on a new home.

THEN THERE'S JEAN-MARIE,

heard we needed to move, he gave us enough for a down payment on a new home.

THEN THERE'S JEAN-MARIE, 54, a former violent Maoist, now overflowing with the love of Jesus, who spends his weekends & holidays witnessing & litnessing with us & stood up for us to the police when some Family members were arrested recently! Claude, in his mid-50's, on our mailing list for over a year, finally contacted us before Christmas & is now growing in the Word. Andre first met us when he ordered a Quote Book after reading a copy of "Love Is News!" Later he attended the local Church of Love & visited us several times. He's the one who donated all the needs for our precious new baby. A geologist by profession, he really stumbled over the facts in "The Big Lig" which we had given to everyone to read before one of our weekly meetings. He argued with us about it & wouldn't accept it at all. A week later, he was Fifed by a sister in another Home & got saved! Now he is so much to weeker & simpler & so hungry for the Word. He even wants to road "The Big Lig" with us again, to try & understand it. He wants so much to live with us that we are considering the possibilities of a drop-in situation.

VISITATION PROGRAM: We felt for some time that many of our people would grow faster in the Lord if they had personal contact, but it is impossible for us to travel.

faith trips to visit the people in their homes. The Lord answered our prayers with a faithful couple who has the same vision. They have taken two trips around France with their 15-month-old toddler & have begun taking over the phoning & weekly meetings here in our local area, a real help! (See their testimony next column!)

area, a real help! (See their testimony next column!)

A REAL BLESSING HAS BEEN TO KEEN IN TO KEEP IN TOUCH WITH MANY GRADUATES here in France who love the Lord & the Letters & are witnessing, doing some litnessing & some have now returned to full-time service. Sometimes we in the Mail Ministry have been their only contact with the Family. We're so happy to now be able to offer them the new IRF plan of weekly mailings of French publications.

THIS PAST WEEKEND, WE OPENED OUR HOME TO A COUPLE returning from India. They had both joined there & had never seen a Home outside of that country. They were so thrilled to meet more of the Family, but most of all to see all the literature that is available in French-they just didn't know it existed! They went out with 500 pieces for litnessing, plus a number of French Ouote Books & they were so thrilled they want to organise a plan with us to send lit to the French-speaking disciples in India who have practically nothing!

AS WE WERE READING THE WORD TO GETHER ONE DAY, the Lord inspired us to start a new project: to make some cassett tapes of basic material in French, basic Letters & perhaps a couple of music tapes of French song. We don't know much about this, but we feel it would be a tremendous help to those on our mailing list, as many are growing in the Lord but are often too busy or too tired to read the Word. Please project!

WE HOPE THESE TESTIMONIES WILL ENCOURAGE OTHERS to start a mail ministry or continue the one they have. Dad's Letters are giving us the Lord's promise of a bright that the cord of the provide in this casset tapes of a bright the cord of the provide in this casset to the ord's promise of a bright the cord of the provide in this casset the temper of the provide in this casset to the provide in this casset the provide in this casset to the provide in this casset to the

WE JUST FINISHED OUR SECOND TRIP TO VISIT PEOPLE who have been writing us in the French Mail Ministry. We're to filled with joy over the miracles the Lord is doing! It started with an inspiration & burden to travel & visit people we had on our own personal mailing list. We wrote a prayerietter asking for donations to buy a car, but found it was not the Lord's will for us to have one, so we went hitchkinking!

WE TRAVEL WITH OUR 15-MONTH-OLD SON who is such a testimony wherever we go! Everyone falls in love with him, & at the same time we are able to show a sample of family unity, the living proof that the Letters work!

WE STARTED ACCORDING TO ACTS 1:8, WITH PARIS, then the surrounding region & the whole country. In Paris we met a scientist to whom Milicah gave a loving sample of the Lord's Love. He got saved & filled with the Hoty Ghost I & started to witness & litness.

ON OUR MOST RECENT TRIP WE MET A FAMILY as spiritually open & willing as any Family mem-

a need in the legs & better, in the whole burden of their farmwork as well as caring for him. Using their situation, people have been cheating them, but they keep a humble & loving attitude. They may have gotten cheated out of a lot of land here on earth but now the best possession they have is a part in the Kingdom of God that can never be taken away, as they prayed with us to receive Jesus! OUR MINISTRY IS VERY MUCH LIKE THAT OF THE VS's, only in our case we wist those not yet saved, filled or not knowing how to witness or litness. These are people who need to see & feel a loving sample of the Letters lived. SO MANY OF US FULL-TIME DISCIPLES STAY IN OUR HOMES, witness a little, litness a little & expect people to come to us, instead of us going to them. But as Dad says in "Problem Pastors" No. 315A: 31—"You're always wanting them to come see the big shots—how the bostes are doing when you oughta be visiting the little shots in the bounies to see how they're doing under their own field & hear from their own people what the problems are." Amen! We have found it to be extremely fruitful both for the Mail Ministry & for the Lord's work as a whole. Love, Milcah & Johannes.

OUR DEAR MOTHERS HAVE BEEN INSPIRED TO SHARE MANY MIRACULOUS BIRTH TESTIMONIES of the natural deliveries of their precious babies with continued thanks for "Knew Disciples" & "God's Gift is God's Work, Il & Ill". Confessions of a Band Member!

Prom Chrocose Singer:

Deerest Dad & Maria,
I'VE BEEN WORKING WITH
BANDS PRETTY MUCH SINCE I
JOINED THE FAMILY. I've always
been burdened that this music the
Lord has given us could be used in
many weys & as much as possible.
I guess many people have feit this
way because we've all seen the power of the message via music.
HOWEVER, THE THING THAT
WE FORGET so easily is the day
that we were really "moved" ourselves by this music. I'm sure that
if we look back, most of us will remember that one lone person looking lovingly into our eyes & singing
a song of love which broke our
hearts & moved us to tears in love
with Jesus.

BANDS & RECORDS HAVE
HAD THEIR CHANCE in our frantic efforts to draw attention, but
rarely have we (if ever) managed to
get that lone guitarist experience

meth his fish across on the piastic. I've seen producers & agents just give up in frustration trying.

NEVERTHELESS, MANY OF US HAVE GOTTEN INVOLVED with this sort of ministry & have taken it the wrong way & even let it affect our attitudes toward others in the Family. I've seen it from A to Z, & I'm sure that I also have offended someone along the way. I WANT SO MUCH FOR ANY-ONE CONCERNED TO KNOW THAT I AM SORRY. God bless all the local singers, using their talents to witness & minister in a personal way. I'm sure that this is the real "success" in the Lord's eyes. Bands have been petronised, organised, mobilised, apologised & just plain protected by kings & queens both inside & outside the Family, in efforts to capture the goose which laid the golden egg (Jesus!).

ALL THIS HAS LED TO MUCH OVERBURDENSOME BLOBBERY

k many misted & nurt feetlings. So please forgive me. I ask this with all my heart to you & to my very special loving Family.
YOUR LETTER "HARD ROCK BANDS" REALLY HIT HOME, & I know from experience that what you said in it is true. I wented to write you long before, but it would have been in so much frustration, due to my experiences in trying to organise a band for so long. I'm afraid I would not have been too edifying, ha!

sfraid I would not have been too exifying, hal MEVERTHELESS, I DO FEEL THAT THE LORD COULD STILL USE US ALL as the lone singers & inspirationalists if we will but follomore closely to your loving advice. Thank you, Dad, for everything yo have done for me. RIGHT NOW PATIENCE & I & THE KIDS ARE STILL, IN THE STATES welling for an open door a new field. We love & pray for yo —in Jesus, Chronicles Singer.

USING THE DITO LETTERS

From Hadashah; Puerto Rico:

MY SON IS 14 MONTHS OLD &
when I recently re-read the Davidito
Letter for 14 months old I found
there are many things that Dito
learned & did that my son is missing
out on because I just didn't remember to do them. So now I started a
little system to help me:
I FIRST READ ALL THE DAVIDITO LETTERS UP TO 14 MOS. &
listed all the things that he did that
I would like to try with my own son
throughout the day, as well as important pointers from Sara on specifice training methods etc.
THEN I ORGANISED THOSE
ACTIVITIES INTO A SCHEDULE
—morning, afternaon & evening.

-morning, afternaon & evening. Now I just have to glance over my scheduled activities & boom, there

are plenty of ideas before me to do & he ends up having a very full day. This works so much better than relying on my memory of the Letters. THEN WHEN HE'S IS MONTHS OLD, I'll list all the things in that Letter & eliminate some of the past activities he has outgrown. I'm also now re-reading all the "Learning Thru Play" Letters & FhS, as well as recommended books such as "Raising a Brighter Child." "Baby Learning Thru Baby Play" etc. to add ideas too.

WHEN I'M THRU, OUR ACTIVITY SCHEDULE WILL BE SO FULL that I will have to divide it into 2 or 3 days, which is even better! Lan really see a difference in my son since I started using this method. He's not bored & cranky anymore!

3. HE WAS BARKING, "IRF! IRF! IRF!" Han li Well, you know, they used to always have the dogs in the comic strips always going "Arf! Arf! Arf!" So why shouldn't our little dog so "IRF! IRF! IRF!" And underneath was written:

Not so boastful, not so proud.

We hear your voice both night & day,

How a Mother of Six Does It!

RECENTLY I RECEIVED A LETTER from a sister in the Family alone with four children. She asked me for suggestions on how we make it work, living by faith with six children. At first, I was going to share with her about how we live gow but the realised that for her situation it would be much more helpful if I would write my testimony of how I worked with my first four children the four years before I actually joined the Family, when I knew the Family as an outside Catacomb member.

ined the Family, when I knew the Family as an outside Catacomb member.

I FIRST MET THE FAMILY WHEN I WAS ALMOST 9 MONTHS PREGRANT with Jason, my first baby, now 7 years old. Right away I was convinced that they had something I wanted. I had been raised in church all my lite & was convinced that somewhere, somehow there had to be somebody living what they preached.

I WANTED TO JOIN RIGHT AWAY but I was married to a young businessman who, altho' sympathetic to the Family, had no conviction to join. After Jason was born, I visited as much as possible & tried in every way to live like they were, even tho' I wasn't there with them. PEOPLE FROM THE FAMILY WOULD COME TO VISIT, sometimes staying overnight & spent a lot of time really sharing with both of us. We started to give 10% of our income to the Family, as we had always tithed our income even before we met the Family.

WHEN JASON WAS A BABY, I remember how I had a review system of 500 Bible verses. I divided it up so that I reviewed them each week. I would out Jason to sleep as I reviewed my verses for the day out loud to him. Honestly, the most difficult time for me was when I had only one child! I think I would rather have sixt! He certainly demanded all my attention & I remember sometimes being so frustrated with the housework & the baby too. THEN ALONG CAME SHERAH & I thought I'd have a mental breakdown the first week home alone with both of them, trying to recuperate & keep the house too. I was a very careful housekeeper & it both

ered me so much to have to see some things begin to slide.

ONE DAY I REMEMBER BOTH OF THEM CRYING at the same time, each in a different bed. I was just in tears not knowing what to do. I just began to cry out to the Lord, really praying & weeping. When I finished praying, I hadn't even noticed, but they were both asleed I felt then how much love & mercy the Lord has for mothers.

DESPERATE PRAYER: THIS IS THE ONE THING THAT HAS MADE THE DIFFERENCE for me. Without it I would not be in the Family now or would have given up long long ago. I honestly don't see how any mother or father or anyone can live by faith without learning to really pray desperately, claiming God's promises & standing on the Word. AFTER PRAYER, I THINK SOMETHING THAT REALLY MAKES THE DIFFERENCE is what kind of father your husband is. I've heard people say they think that Secundus is a very targ & unusual case, as he handles the responsibility of the children & house equally with me, as we are both here a good part of the day. But feel this shouldn't be the exception!

MY HUSBAND WHEN LIVING IN THE SYSTEM was just the same about practical matters. He had a job, but when he was at home, or on weekends, the children & housework were for beinh of us to do until the job was finished. If a husband is at home & has no other responsibility, he can learn right along with the mother how to accept the different

THING IS TO JUST KEEP GOING. As long as we keep fighting, we are certainly winning. I believe there is a way to make every situation work, or by prayer & God's Word, to change it so that it will work. The quotes from "Raul's Knife" (Letter no. 546) have always helped me so much: "When you gray, things will be different."

JUST BEFORE JOINING THE FAMILY FULL-TIME, I HAD 3 CHILDREN, ages 3, 2 & 1, & was quite far along with my fourth. I was keeping house—this means everything: cooking, cleaning, laundry. I also had one room set up for a school for the kids, as some of the teachers from the Family school came to visit me regularly & kept me informed. In addition, we had weekly overnight visitors from the Family & meals needed to be prepared for a large group, rooms made ready & laundry.

MOTHERS HAVE TO BE FIGHTERS, real front-line fighters!—First thing in the morning 'til late at night. By the time the kids are in bed you may be exhausted mentally, physically & spiritually, & you probably will be if you are doing the job right. But I think the most tired & uninspired I am is when I only do the job with half a heart. When I really give all for my family & the Lord or a sheep, there is a certain joy & satisfaction that inspires you & really makes you know that It is certainly worth it all. As you pour out, He will pour in! Hallelujah!

I WANT TO SAY TOO THAT FOR MOTHERS IT IS SO IMPORTANT HOW YOU EAT, as to how you feel. When you have to start the day immediately with the children, breakfast is so important. I have so many less problems with gaining weight now that it only eat natural foods. They are so much more satisfying. When you eat regular meals & don't snack, I think your body is much more satisfied too. I hardly ever think of having a snack. We just eat very good meals.

very good meals.
IT'S SUCH A TESTIMONY FOR
PEOPLE TO COMMENT on how
young you look & that your body
is still shaped nice even after having

cocordinately to give the Lord the glory. Most people say that I look ten years younger than I am. The Lord gave me the verse: "Who satisfieth thy mouth with good things; so that thy youth is renewed like the eagle's" (Ps. 103:5).

WHEN I WAS PREGNANT WITH THE FOURTH, the early mornings, naptime & bedtime were some very important times for me with the children & alone with the Lord. I felt it such a privilege to be able to wake up each morning with my children & not to have to go to a job & hustle them off to a nusrey. It was a time to really go slow & love them up, maybe sing a few little song about the Lord & share a few things that were on my heart.

I ALWAYS MARKED SECTIONS OF NEW MO LETTERS with a 1'1 to remind me of the parts that I wanted to share with the children. Of course, then I had to get busy finding something to occupy the children while I fixed breakfast. Afterwerds there were the dishes & the house to clean.

CLEANING HOUSE REGULARLY REALLY HELPED so much. One thing I discovered was that if you make sure everything is in its place at night just before you go to bed that it helps immensely. You can even plan breakfast then. About 15 minutes of cleaning before bed-time really made everything run a lot smoother the next day. SUMMER, THE YOUNGEST, ALWAYS TOOK TWO NAPS, so immediately when she was asleep I stopped everything & sometimes the youngest would too, I got some time alone with the Lord. This was something I really looked for ward to each day, It wasn't always a lot of time, but I had to learn to make every minute count.

had to learn to make every minute count.

I ACTUALLY MEMORISED MORE MO QUOTES <u>BEFORE</u> I JOINED THE FAMILY alone with the kids than I have the four years I've been in the Family since. I really needed the Word then because I would feel so lonely sometimes. I FOUND IT VERY USEFUL TO USE THE KIDS' NAPTIME as much

wanted it to be ready when he got home & I understood this. Sometimes I would plan a meal that could be completely made shead of time. EVEN THE WAY WE LIVED THEN WAS A REAL TESTIMONY to others. We lived in apartments & all the mothers were always amazed at how well we handled the house & the children. Some even had the gall to ask me to help with theirs tool They wanted theirs to get what I was giving mins, but didn't went to put out the effort for it themselver. I would always say. "Well I don't have time to take care of your children too, but I would be glad to teach you how to do it."

I THINK THE BEST TIME OF THE DAY FOR THE CHILDREN'S SPIRITUAL TRAINING is at bedition. I found that the children would listen much, much more attentively when in bed for the night than they would in devotions during the day. This is when I would read them the Bible & MO Letters. I would sing to them & when I was really burdened about something, I would gray out loud, kneeling by their bed. I think it really touched their hearts to see me pray sometimes & taught them a lot about how much I believed in prayer.

ON WEEKENDS, MY HUSBAND WOULD KEEP THE CHILDREN SO that I could go witnessing or litnessing with someone from the Family. I would also try to get the older children out litnessing. One time I remember there was no one to go with me, so I went alone to a shopping center with all three, & I was pregnant. I had one in a buggy & the other two walking on each side holding on to the buggy. One would let go of the buggy to pass out MO Letters for a while, & then I would have him hold on to the buggy again while the other would distribute.

children & I were going to live for the Lord, just by faith. A few days later a Home called & there was a place for us, PTL!

THERE I WAS IN THE FAMILY, "ALONE" WITH 3 CHILDREN & the fourth born 3 weeks later! I prayed desperately for a father for the children, thinking that probably the Lord would have my husband join too. But 3 months later! met & fell in love with Secundus! That was another big bomb!

THINKING BACK, I WANT TO SAY WHAT A BLESSING IT! Is to have brothers & sisters in the Family who are willing to help families with children. You can always make every situation work, but it can even work better & you can bear so much more fruit with even just a little help.

MOST OF WHAT HAPPENS IN

I had one in a bugyg & the other two walking on each side holding on to the buggy. One would let go of the buggy to pass out MO Letters for a while, & then I would lave him hold on to the buggy again while the other would distribute.

I THOUGHT I HAD EVERYTHING Though the prayer because I felt the children was a large family, we've learned that to get organised or get some practical solutions, it only happens when we put the spiritual first. We've seen so many times how for every situation, the Lord has a definite answer holding on to the buggy again while the other would distribute.

I THOUGHT I HAD EVERYTHING Though the prayer because I felt the children were hearing sermons but not able to live the sample. Every day when the children napped, I would pray desperately that the Lord would pray desperately that the Lord would hinder us ready doing everything myself already. But I got desperate in prayer because I felt the children were hearing sermons but not able to live the sample. Every day when the children napped, I would pray desperately that the Lord would hinder us ready and the would hinder us a leafly was hard & would hinder us ready the Lord would hinder us a budy and the prayer because I felt the children happed.

from doing a good job of witness-ing or relaxing & giving the kids a good schooltime. I think that for most of us families this is usually the biggest responsibility & battle, how to <u>unport</u> ourselves & still have time for our children & wit-

have time for our children & wit-nessing & litenssing.
WELL FOR US, THE ANSWER CAME, but we know only because of our desperate prayers. A few weeks later we met a fish who has helped us regularly & generously since then. Also four different fam-ilies, relatives of Seek's in the U.S., all decided to help support us by all decided to help support us by tithing their incomes to us. Of course, this has meant that one of

our major ministries is the mail.
So that's how it works for us. We had to find which of the 7 Supporters are for us & really attack. As we all know from the promises in His Word, somehow, some way, the Lord has to supply as we obey Him. THIS REGULAR INCOME HAS ENABLED US TO GO REGULARLY TO ORPHANAGES, hospitals & do other Christian charitable work, take some photos which are such an asset to use in provisioning & also to have much more regular school time & time for FF'ing at night. ANOTHER THING THAT WE ARE REALLY THANKFUL FOR IS VISITORS. Living alone it is so

easy to get a little selfish & often lonely for fellowship. But we have found that bringing home visitors, such as hitchhikers, fish on the line, contacts & neighbours really keeps us inspired & the kids alive, with a new face, a new soul to be won. The kids usually want to give vevery new visitor a complete show with songs, dancing, skits & solos. SO, PTL, EVERYTHING KEEPS CHANGING & our desperate prayers have resulted in so many answers & delivered us from or changed many desperate situations. We pray these tips are a help to all you families to keep going for God!

THROW AWAY EVERYTHING THAT WISD IN A YEAR. Have you wanted it in the past year? Not Then throw it out! Give it to the Salvation Army; they will be glad to have it. It's much easier to keep half-empty closets & shelves clean & orderly. The fewer linens & clothes & possessions you can get along with, the fewer things you will have to wash & clean & sweep around.

BEFORE YOU ACQUIRE SOMETHING in the way of furniture or interior decorations stop & think: Will this make my life easier, or harder? Will it have to be cleaned, or guarded from scratches? CONFINE THE CHILDREN'S TOYS TO ONE ROOM. Big basksts or even cardboard boxes are good for keeping toys—8 boots & sporting equipment—in one spot & out of sight. Convenience is more important than style. To quote the La Leche League manual, ORDER BEFORE PRETTINESS, convenience before style, & above all, people before things. Sure, it would be great to have the floors waxed all the time, like those on the TV commercials, & to have interiors with that un-lived-in look, like the cover of a magazine.

Dr. Deutsch observed that these women were sometimes rather strict or abstracted with their children, but that the children nevertheless seemed to retain their affectionate early relationship with the mother, & grew to be happy, stable people. THERE WAS A LITTLE BOY IN THE HOSPITAL who kept asking the nurses if it was Sunday. The nurse kept telling him, "No, no, just a few more days." They would say, "That little boy is the best little angel in the whole world. He is always wanting to know when it is Sunday." Finally Sunday morning came & the nurse came in to open the curtain & announced. "It's Sunday!" The little boy lit up: "Oh boy! Where's the funny papers (comics)!"

HIS CRITICISM OF BOTH CAM-PUS CRUSADE for Christ & the Jesus Movement of the late '60's & early '70's was, essentially, that those groups did not devote all of their time to witnessing. When you're on the move, you're bound to take criticism. There's always somebody who doesn't like you. We've been trying new ways of witnessing & have upset the fruit basket, so to speak." He said his mother paid for his trip to Seattle "from Asia.
REFERRING TO MOSES DAVID, Hargett said, "A lot of people say we're just following some man. But following him is following Jesus.
Like Paul said, "Be followers of me as I am also of Christ'."

GRADUATION NOTICE!
OUR PRECIOUS BROTHER,
BEZALEEL BUILDER, went to be
with the Lord on Sept. 28, 1978.
He joined the Family in 1975 at
40 years of age, not knowing at the
time that he had cancer. He had
known the Family lors several years
before this and really loved us and
was a real help in many ways. In
the Family he worked as a mechanic, driver and a faithful, hardworking crate builder for most of the
shipments that left the U.S. to foreign mission fields from 1975 78.
It is inspiring to know that he chose

STO WTY YOU 10037. It was so very very inspiring! All of the things you shared with us & all the beautiful love you showed us have me just soaring! I feel I'm almost in a world beyond my dreams!—A dream come true! TYJ!

THE SPECIAL LESSON ON THE SUPPER with the Lord was so fartastic! It inspired me so much! I think it was absolutely a totally inspired talk & revelation & a beautiful & meaningful ceremony!—So simple but so real & with such tremendous meaning. I don't think I'll ever sit down to a supper again that I won't remember the Lord's supper & His sacrifice for us.

I'll sa BEAUTIFUL SIMPLE CEREMONY that carries so much meaning & is such a faithful reminder of what He gave us & did for us. I really think it'd be fantastic if we remembered it at every meal. I think it should be a Family tradition & hope it will be.

I'D LOVE TO EDIT IT when it's typed, to tell the whole world about it & have everyone share in the blessing! One other thing that I thought was really inspiring & definite confirmation of what the Lord showed you was:

WHEN I WAS LOOKING AT THE SCRIPTURE TEXT OF THE LORD'S SUPPER in Matthew, my eyes immediately fell on verse 26 (Chapter 26) where it says, "And as they were gartings." I'll I sin't that great!—Proof positive that what you received from the Lord was exactly right on! Isn't that inspiring! So beautiful! TYJ!

More Pioneers Head East!

From Timothy & Rachels; Holland:
THANKS, DAD, SO MUCH FOR
"THE EXOOUS" (Letter no. 783). It came just at the right time for us, encouraging us so much as we prepare to go to our "strange land". We were particularly comforted that you threw your camera to the systemite in order to get a ticket to the promised land of the mission field, as this is exactly what we have been doing recently as we prepare to go to Indonesia.

FOR ALMOST A YEAR NOW
WE HAVE BEEN THINKING & PRAYING ABOUT LEAVING EUROPE for a needier field, & each new Letter, Family News & stats sheet has confirmed our burden to go. So as soon as our second child, Priscilla, was born (the day after Techil) we stated making preparations to leave. IN MAY WE BOOKED OUR TICK-ETS, tho' all we had was the bare 10% needed for booking. But we just knew God would supply And within one month we had enough to fully pay for our tickets (a total of almost \$2,000)! PTL! The funds

came from all kinds of sources, not the least of which being the sale of our furniture & the return of the deposits we had put on the house here. IN ALL OUR PREPARATIONS, GOD HAS MIRACULOUSLY SUP-PLIEDITA whole new set of matching lugage, beautiful dresses for our two little girts, a small high power radio for receiving BBC news, new clothes for Rachele & me, and of course, our visas for our first pioneer ing weeks there.

NOW WE ARE BUSY RAISING OUR LANDING FUNDS. Many of our friends have promised their support, both now & in the future. In fact it looks like our entire support while in the East could come from our European mail ministry! TYI And thank you, Dad, for all your Letters of guidance & encouragement We low you & need you! love you & need you!

EVER SINCE I JOINED THE FAMILY, I'VE WANTED TO GO TO THE USSR & bring the Love of God to the Russian people. So when I recently had a chance to visit Mocow, I was thrilled, as it seemed to be a confirmation from the Lord of my burden!

MY HOST FOR THE TRIP WAS A VERY SWEET AMERICAN MAN, O., whom I met & FF'ed several months ago. After a night of sharing, he very eagerly received Jesus. O. had been born in Kiev & was presently on his way to Moscow on business.

HE WROTE ME ALMOST DAILY FROM MOSCOW. Here's a part of one of his letters: "I'm praising the Lord today because I received a let.

you preach to me, because it is the proof that you love me. If you didn't love me you realily would not care what I think, what I feel, what I believe. It's funny how you are one of the very few people, if not the only one, with whom I openly discuss what is deeply hidden in my heart, namely, my relation with my best friend, my Lord."

THEN WHEN HE INVITED ME
TO COME VISIT HIM IN MOSCOW, I was so excited I could hardly wait! He offered to pay my way there, without which it wouldn't have been possible for me to go at all, GBHI AS I ENTERED THE COUNTRY, I FELT LIKE I WAS COMING INTO A VERY OLD PLACE with old spirits around. It seemed like the

love to free her from her spell.

AS I WAS O.'S GUEST, I had to be with him most of the time & couldn't mingle with the people as much as I'd have liked. But it was a real blessing to have O, near to explain about different things. One night, tho', I had a chance to meet some sheep on my own! O. & I had just been to the Bolshoi Theater & seen a beautiful ballet about a fairly who fell in love with a boy & became a human to live together with him!

—A very spiritual story!

WHEN O. DROPPED ME AT MY

HOTEL, there were two men taking in the lobby who noticed me.

They asked me to join their company & since they looked nice!

to get something to eat.

AT THE TABLE WE HAD A VERY INTERESTING CONVERSATION in which the Russian man said that the Russian people are very spiritual by nature & the government knows this, & that's why they are giving the people more freedom to practise their beliefs. He said the young people especially are becoming more & more interested in spiritual things! That really encouraged me & increased my faith to reach the Russian people! I gave my address to the Russian girl who was planning on

coming to my country soon. The English doctor was very sweet too, asking me to pray for him, which I took as a good sign that he was think ing about what I'd shared with hier. WHEN I LEFT FROM MY VISIT, I FELT LIKE HALF MY HEART steyed behind! I'm so thankful for being able to go & see the USSR with my own eyes, & the fire to reach that country grows bigger inside me as time goes on. I'd love to hear from others interested in Russia & any plans for reaching it. Please pray for all the sheep there & that we find an effective way of reaching them!

harmonies seems to be our main musical strength, & the people really love it.

MOST OF THE SONGS WE DO ARE FAMILY SONGS, some of which we have changed a word or two to be able to sing them to the general public. It's simple—you just substitute the word 'God' or 'Jesus' with "Love'. Most people believe in love, as Dad says, & love to hear love songs. We've found it best to save the heavy witnessing songs for personal witnessing songs for personal witnessing songs for personal witnessing songs for personal witnessing & the general love songs for mass audiences.

IT'S ALSO NECESSARY, USUAL-LY, TO DO SOME SYSTEM SONGS. Listen to the songs in your area & see what's popular with the greatest message. So many system songs are heartories, & others even sound like praises to the Lord. One popular song here, loved by practically everyone, is by a popular rock group. The whole song is taken from psalms! Most people that know the song, don't realise it, but it's a witness. Slip in a witness whereer you can, using wisdom. from Frog in his Inroat To Song On His Lips! Perseverance, Prayer & Practice make the difference!

LAST DECEMBER I BEGAN TO SING in a little bar here with two other brothers. Eventually, both of them went elsewhere, leaving me to go it alone. As they were the better musicians of the group, I didn't have the faith to continue as a soloist.—I felt all thumbs & like I had a frog in my throat. LAST DECEMBER I BEGAN TO

felt all thumbs & like 1 had a frog in my throat.

BUT BECAUSE OF MY LOVE FOR MUSIC & A BURDEN FOR THIS TYPE OF MINISTRY, as well as a desperate financial need, Talita my wife & I began desperately praying that the Lord would help me & give me the faith to be a soloist. The Letter "Holy Ghogsti" was a real encouragement & the Lord told me just to keep playing & practising. IMMEDIATELY THE LORD BEGAN STRENGTHENING MY VOICE & showing me how to sing from the heart, & "out of the blue"! picked out some new things on the guitar! Then one day the door opened to "use it"! A friend called & asked if I knew anyone who could play "country" music at a certain bar he knew.

"country" music at a cerusii see in knew.
I DECIDED TO GIVE IT A TRY,

SINK OR SWIM. I really didn't feel very capable, but God reminded me that His strength is in our weakness! That night I went to the bar & played about ten songs for an audition—& they like did I PTLI They had wented a band, but took me & agreed to pay me very well, TTLI THE LORD REALLY TESTED MY FAITH for the first couple of weeks, as their sound system wasn't too good & I was pretty unsure of myself. But the third week, after some serious prayer & learning about ten new songs, the owner of the bar said, "You're another guy!", meaning how much my performance had changed from the first two weeks. When he paid me that night I thanked him & he said, "You don't have to thank me anymore! Now I have to thank me anymore! Now I have Et ot thank control to the stand to see the serious prayer & learning breaks or at any opportune moment! I talk to people. We have won some good friends this way who need us

bout 15 Femily songs such as "Love Me With Your Eyes", "I Love You My Friend", "Back to the Basics", "Hello My Love," "Keep Your Hands on the Plow", "The Search", "Everybody Needs Somebody" etc. I've tried to choose songs that minister the Spirit of the Lord without being too religious for someone who's not oriented, such as the people who frequent these bars. But if they listen & I'm inspired, I know God speaks to them!

I ALSO DO SYSTEM SONGS by such artists as James Taylor, Bob Dylan, John Denver (who has several songs that talk about the Lord), the Beatles etc. Many of these came to my attention thru' repeated requests, so I've tracked down the records & learned the songs by ear. Like Faithy once said in "As an Arab to an Arab": "We sing them their songs to show we love them, & we sing them our songs to show them God loves them". Another god Letter to read is "Sequel to Musical Key" No. 326A.

I LONG TO LEARN TO SING & PLAY BETTER, as well as to write original inspired songs that I can sing in bars. If anyone has suggestions, tips, lessons or comments on this, I'd love to read 'em!

Polio Attack-God Delivers!

Lessons on faith & prayer learned by parents & children!

Tips on seeking medical counsel & vaccinations!

From Paul & Happy; India:
ABOUT TWO MONTHS AGO,
OUR SECOND SON ANDY, age 3,
came down with a fever. When it
didn't subside after a couple of days
& after united prayer, we took him
to a nearby clinic. The doctor there
told us he had a severe throat &
tummy infection & prescribed some
antibiotics.
WHEN WE WENT TO GET THE

when we went to get the PRESCRIPTION, we read the information sheet, which said that for this particular medicine you need

this particular medicine you need to have another counter-medicine, as some of the side effects of that particular antibiotic were known to be fatal in some cases. Well right away, we knew we wouldn't give a little child anything like that & we lost confidence in that doctor. MEANWHILE, ANDY WAS GETTING WORSE & COMPLAINING OF PAINS IN HIS LEGS. His fever rose & he started having spasms of pain about every 10-15 minutes without ceasing! We took him over to see one of our neighbours, a woman doctor whose two daughters Andy & Sancho (4%) had led to the Lord.
RIGHT AWAY WE HAD A REAL

RIGHT AWAY WE HAD A REAL PEACE ABOUT ACCEPTING HER COUNSEL, as the really seemed to know what she was doing & was totally considerate of our beliefs. tally considerate of our beliefs. After an examination, she told us Andy had polio. She asked if we would be willing to admit him to a clinic nursing home, in order to keep a close eye on him & keep him isolated from other children. SHE SAID HE WAS IN THE A-CUTE STAGE of a polio viral attack & that they wouldn't know how much paralysis would set in until the acute stage passed (usually 7-10 days). Then we would know how much damage had been done to the nervous

system & muscles.

WELL IT REALLY GOT US DESPERATE IN PRAYER! We took
turns staying at the clinic with Andy,
Happy in the daytime & I (Paul) at
night. It was such a heart-searching
& sobering experience for us. It was
heart-breaking to see him going
thru' such pain, every 10-15 minutes,
rightening him & leaving him crying in agony.

WE GOT THE VERSES, John 9:3,
"Neither hath this man sinned, nor
his parents; but that the works of
God should be manifest in him" &
Mark 16: 17-20. "And these signs
shall follow them that believe...They
shall lay hands on the sick, & they
shall recover...and they went forth,
& preached the word, the Lord working with them & confirming the
word with signs following."

ON THE FIFTH DAY, WE GOT
THE FAMILY TOGETHER at the
clinic & laying hands on Andy's legs,
we claimed the verses. Duting the
night his fever broke & in the moning his temperature was almost normal & the pains were gone & he got
out of bed & ran across the floor!

THE FOLLOWING DAY ANDY
WAS DISCHARGED from the clinic
& we took him home. He had a

WAS DISCHARGED from the clinic & we took him home. He had a hard time sitting still & resting & would always ask to sit outside & play on the ground & promised he wouldn't run around.

WELL, IT WAS IMPOSSIBLE TO KEEP HIM DOWN & after a couple of days of overworking his weakened legs, he couldn't stand again, as had developed a sore on his foot, which we got a check the Lord had given him to slow him down to let his body rebuild its strength.

NOW TWO MONTHS LATER,

ANDY IS PERFECTLY BACK TO NORMAL & is running around as

the lessons we earned 5 most of all for the Lord's faithfulness & love. A few days after Andy's initial recovery, we received in the post "Prayer for the Children" which was such a timely Letter of encourage-

covery, we received in the post
"Prayer for the Children" which was
such a timely Letter of encouragement to us.

WE REALLY USED THIS INCIDENT OF ANDY'S HEALING to
impress upon both Sancho & Andy
the importance of faith & trusting
the Lord. That was also one of the
things the Lord was showing us while
Andy was sick, that he was coming
of age & needed to learn to trust the
Lord & that the Lord was beginning
to deal in his life personally & directly, as Andy had sometimes been
very slack & foolish in praying &
respecting the Lord.

HE WAS REALLY ABSORBING
THE LESSONS, & even now, every
time we go past the clinic he says.
"That's where I had sore legs & the
Lord healed me." One more thing
we learned from this experience:
IN THIS PART OF THE WORLD
WHERE ALL DISEASES ARE
RAMPANT, parents should be sure
they have real faith for their children's health before not getting
them immunized. Andy's contracting polio took us totally by surprise,
as we hadn't even considered the
possibility of the kids getting something like that. However, we found
out from another couple who have
a boy the same age as Andy, that
what their son-had a few months previously was also pollo. He'd had a
fever that left him with a lame leg.
They didn't get it properly diagnosed
until they went to the U.S. for Christmas.

WHEN WE FIRST CAME TO INDIA three years ago, it was really im-

until they went to the U.S. for Christ mas.

WHEN WE FIRST CAME TO IN-DIA three years ago, it was really impressed upon us by the Family here the importance of taking regular malaria pils. If we take precautions against one disease for ourselves, it seems we should be even more prayerful about our faith for the health of our little ones. As Dad said in "What is That In Thy Hand?": "Nothing is more important than God's children & their care, for they et his kingdom." Love, Paul & Happy.

P.S. IF YOU DO GET SHOTS, it

P.S. IF YOU DO GET SHOTS, it is helpful to build up your body's strength for a few days before with vitamins, as suggested in "Let's Have Healthy Children".

From Switzerland:

IN OUR SMALL HOME OF FIVE, IN OUR SMALL HOME OF FIVE, WE USE AS ONE OF OUR MAIN METHODS of witnessing the door to-door ministry. In the beginning we went out, two by two, ringing doorbells, with nothing to offer but the Lord's love & our big smile & ricently works as the bair, since we are unable to distribute literature here. But we found that many people said they were too busy to talk or at first mistook us for some other group who also goes door-to-door whom they had already rejected.

DESPERATE FOR SOME BETTER TOOK ALONG OUR GUITAR, which made a world of difference.

TYJI We found that by politely ask-roll in the door to apartments & fast-roll open all ot easier & fa

also students & schoolkids, all of them receiving us so openly, some of them breaking & finding themselves in tears after our songs & testimonies. Over a cup of coffee or something, we can often spend precious time with them which they'll never forget, just sharing a little love with those who need it.

THE LORD ALSO SUPPLIED

OUR GREATEST NEED at the time thru' DTDI—Lots of good furniture for our home, all fur free. In addition, many people like to help with donations, whichin the beginning we didn't accept, thinking they might misunderstand our motive. But we learned that people really become happy by helping us, so now we gladly receive it as a blessing from the Lord. We are so happy about this exciting way of witnessing & have many many thanks to Dad for leading us on this fruitful path.

I WOULD LIKE TO RESPOND

TO RECENT ARTICLES published regarding the controversial Family of Love. One paper reported our group as promoting love thru's sexually explicit pamphiets.

THE MAIN THING WE'RE TRY-ING TO GIVE PEOPOLE IS GOD'S LOVE, not just sex. Sometimes we use sex as a proof that we love them, but sex is not our main doctrine—it's the love of God. And there are many ways to show love besides sex.

WE'RE TRYING OUR BEST TO LIVE IN LOVE, to help people, without offending anyone. We can't very well help of fending many of the traditional religionists, because our whole doctrine of love is contrary to their doctrine of law.

EVEN JESUS' DOCTRINE OF LOVE INFURIATED THE ORGANISED CHURCH of His day, the Scribes & Pharisees. When they questioned Jesus about the law, he replied, "Thou shalt love the Lord thy God with all thy heart, & with all thy soul, & with all thy mind, & thou shalt love thy neighbor as thyself. On these two laws hang all the law & the prophers' (Matthew 22:37, 39.40).

SO IT IS EVIDENT THAT THIS IS NOT A RADICALLY NEW CON-

SO IT IS EVIDENT THAT THIS IS NOT A RADICALLY NEW CON-IS NOT A RADICALLY NEW CON-CEPT, that whatever is done in love is not against the law. Also it is shown in Galations 5:13. "For breth ren, ye have been called unto liberty, only use not liberty for an occasion to the flesh, but by love, serve one another." So, I would like to request that if you do publish stories about us, please don't sensationalize us,

Tips on Train Travel with Children

From 3 families travelling 'cross continent with 11 children!

From Family Cars; compiled by Sarah Iraland:

WE RECENTLY MOVED FROM ONE COUNTRY TO ANOTHER, travelling with 11 children ranging in ages from 7 months to 10 years. Planning the trip took much prayer & consideration, including checking with the Embassy of the country to which we were going, to get all the information on entering etc.

WE FOUND THE TRAIN TO BE BOTH INEXPENSIVE & PRACTI-CAL. Tell the children ahead of time about the trip, the mode of transportation, the country they're going to & the countries they'll pass thru' on the way. Then they'll be more prepared & really feel a part of what's going on & look forward to it with more excitement.

IT ALSO MELPS TO DECIDE AHEAD OF TIME who is to be responsible for which children, in case you get separated in those confusing few minutes of getting on & off the train.—So you know ahead of time that each child is being looked after by an adult.

FOOD: Knowing food prices on the train to be much more expensive, we took along our own & boughmore along the way. Our food bag included boiled eggs, precooked chicken, cheese, bread & butter, honey, powdered milk, fruit (not the messy kind like oranges), peanuts, raisins & raw oatmeel which was terrific for quick breakfast: We also had bowks, spoons, cups & napkins, & a couple of knives for cutting cheese, spreading butter etc.—A bottle opener is handy too. We used the boiled eggs & chicken for the first couple of meals as, of course, they wouldn't last too long.

WHEN WE NEEDED MORE

FOOD, we would run into a grocery store for our needs inbetween trains. So we didn't have to buy any food on the train except for drinking water. Remember, never drink water from a train, as the water in the washrooms is pumped in directly from the river. We also kept a wesh cloth & towel handy in the food bag.

WE WERE ALWAYS CAREFUL ABOUT OUR DRINKING WATER & even checked with the management of the hotel first as to whether the water was ok before we would drink it. So it would be wise while travelling not to drink any water unless you've checked to make sure it's safe—pray over it too!

BABY FOOD: Altho' the baby was used to fresh blended foods, we bought jars of baby food for the trip plus enough to last till we had bettled in to our new home. (We tried out some ahead of time to be sure he liked it—he didn't like it as well as the fresh!). Buy the smaller jars so that one is used up at a meal & not left to go bad. We also bought a box of instant baby cereal which proved to come in handy too with the impatient toddlers who wanted to ear right away.

TOYS: Each family packed a small travelling bag with things to keep

to eat right away.

TOYS: Each family packed a small travelling bag with things to keep their children interested, according to their ages. We wanted to be sure we included things that each child particularly liked & would inspire him. The babigs were pretty content just playing with their little bright colored hand Yoys, squeaky toys & things to chew on. 1½-3-year-olds: stacking cups, barrels, small blocks & stringing beads. A nice idea to keep stacking cups together: just sew a little bag with a draw-string top!

play dough, books, Bible stories, peg board, matching picture cards & of course lots of paper & crayons, toy trucks & cars for the boys. The squirmy toddlers were often kept interested if they sat on our lap next to the window & could talk about all the different things they saw.—A good time to play a game like "I spy". CLOTHING: For the older children, we packed two nice-looking changes of clothing, choosing dark colors for the train that would not show the dirt, plus another special dress set for going thru" customs. For the toddlers who were being potty trained we took several extra changes. We also had them carry their own potties in a bag, which they loved.

WE BOUGHT WHEELS FOR OUR SUITCASES & it really helped us move faster. Try to get a good strong pair. At the last minute we decided to take a collapsable stroller, which proved to be a reab blessing. For the baby, we had a folding car bed on wheels, which could be set up on the train seat. We always felt better knowing the baby was safe & warm in his own bed, whether in a hotel, a busy train station or our new house.

A FEW OTHER HANDY ITEMS: for the fact of the state of the safe warms in his own bed, whether in a hotel, a busy train station or our new house. A FEW OTHER HANDY ITEMS:

napping children.
CHILDREN'S WITNESS: After breakfast on the train we would tidy the children up & put ribbons in the girls' hair & take them for a walk on the train for a little exercise. The children thought this was great fun & they were quite outgoing with the passengers, smiling & saying hello & really cheering up the people.

THE LORD WAS FAITHFUL & I WAS TOTALLY HEALED, & litnessed & witnessed every day until delivery. I had to make the choice whether my faith was in the drugs or in God. I felt that if it was God's baby & if He wanted me to have the baby, He could do itl—And He didl PTL! WE ALSO PRAYED SPECIFICALLY for a free delivery, a good doctor, that Daddy Aren could watch the birth & that it would be a labour without fear, as I was having many trials thinking it was going to be a horrible ordeal.

THE LORD ANSWERED EVERY REQUEST, & after two hours of labour out popped little Jonathan at 3.25 kg. on July 7th, 1978. The labour out popped little Jonathan at 3.25 kg. on July 7th, 1978. The labour wasn't all that bad. I kept waiting for those "horrible bad pains" but I never seemed to have any. I just feft like I was going to have a big B.M. Hal—3 kilos worth!

ANYWAY, WE'RE SO THANKFUL for Jonathan, & now we really know that with God all things are possible!

Sw don't want to discourage anyone from using drugs or whatever to have a baby. We just had to examine out faith to see where it lay & we felt God could do it for us, & He did!

SINCE I CAME TO THAILAND,
I'VE WRITTEN TO MY PARENTS

many of their friends. They are so
touched that they all got together

& sent me a large donation in the mail! My parents & sisters regularly send me a specific amount each month. They are very happy to do it, as I always remember them in the little things (which is very important).

MY PARENTS ARE STARTING TO "BRAG" to others about my missionary work & as a result I even got a donation from someone I've never met or written tol So it really pays to give a little love in such a small way. Below are excerpts from latest replies to my letters:

"Your experiences are exciting to read & think about. Never lose that energy & desire to help others. It is your greatest gift to your fellow men & yoursel,"

"Every night at II p.m. my prayers go ont to you. Judy. God listens & I know within my heart that you are safe & well."

ing you in advance, we salute you in Jesus Christ. For the C.L.T.—K.N.
From a C.L.T. Pemphlet:
THE C.L.T. HAS BEEN CONSTITUTED TO TESTIFY FOR JESUS in the face of Israel's false messianism. One often forgets that Israelis deny the universal, non-racist Messianism of Jesus, the true Christ, & opening the universal, non-racist Messianism of Jesus, the true Christ, & opening the universal, non-racist Messianism which is essentially Zionist. This restricted messianism is contrary to the Spirit of Christ & only belongs to the Anti-thrist announced by St. Paul (2 Thess. 2,1-12 & St. John (1 John 2,22).
ISRAEL, TO ESTABLISH ITS FOUNDATION, dodges the "justification" of its widespread ambitions &, amongst other decalful man-ocurres, Israelis base their pretentions on false biblical interpretations.
THIS IS WHY OUR VOCATION IS SPECIFIC: It is not to demonstrate that Jesus is the true Christ-others have done it before us—but to unmask Israel's antichristic character. IN EFFECT, ISRAEL UNJUSTLY BASES ITS ENTITY ON BIBLICAL TEXTS & has thus decaived many Christians who, due to the lack of biblical comprehension, have been

misled, sympathizing or committing themselves to Zionism. This is conjugated to their belief in Jesus' Messianism.

WE THEREFORE PUBLISH PAM-PHLETS demonstrating, from the Bible, the following points: 1) That the Israelis of today are not God's chosen people. 2) That Palestine is not a land promised to them. 3) That the Jesus' shall be seen the Bible the Jesus' false prophets. 4) The antichristic character of the state of Israel. 5) The apocalyptical dimension of the events of today, the reapparition of Israel being a "sign of the times" prophecied in the Apocalypte (Book of Revelation). WE DO NOT SPEAK OUT OF ANTI-SEMETIC FEELING but we are urged by a compassion for Truth & Justice.

may recall, the height of the "hippie movement" in which thousands of the lost youth of America flocked to California looking for some kind of answer in the hippie subculture to the problems of today's complex society. It was there that Father David, his wife & 4 teenage children found a tremendous ministry in witnessing to these wandering young people, showing them that the love of God & their fellowman was the answer to their problems.

DAVID HAD BEEN AN EVANG-ELICAL PASTOR, as had his parents before him, but had grown disillusioned with the largely half-hearted efforts of the American churches to fulfill the Great Commission of Mark 16:15. However, he found his calling in ministering to these "Osts theep" who were sincerely seeking seme sort of spiritual reality in the meterialistic world of today.

AS A RESULT OF HIS FAM-ILY'S EFFORTS MANY WERE WONDERFULLY SAVED & DELIVERED from drugs, vice & crime, & truly became "new creatures in Christ Jesus" (2 Co. 5:17.). Many, lacking any real goal in their lives, resolved to give their lives to Jesus & His Servica, & to do their best to win others to Christ. So, it was thus that we had our humble beginnings.

IN REACHING THE WORLD
WITH THE GOSPEL, we have tried several methods with varying degrees of success, including musical groups, coffee houses, radio & TV programs. & of course, the printed word. We have found that the printed word is one of the best ways to reach people, so that in the last 6 years we have published over 300 million tracts, Bible classes, books etc., on every topic. Father David, who for heath reseons cannot pastor us personally, has devoted himself to helping us reach the world through his written counsel, letters which we have found to be very popular with those outside our group, one of which you received.

SOME CHRISTIANS OF THE WESTERN WORLD HAVE CRITICISED US for our somewhat radical lin compension to theirs) views & doctrines, especially concerning our political & economic views. They suggest that we simply preach "the love of Jesur" & not become involved in "worldly affairs". However, we have found that, as the Good Samaritan did, you cannot simply pass by on the other

A prince? With a dirty face?

WE BELIEVE IN A SOCIAL GOSPEL AS WELL AS A PERSONAL GOSPEL, & want to have an influence on the world for good, & that as a Christian, it is not enough to say "Depart in peace, be ye warmed & filled". So it is this conviction, as well as careful study of the Scriptures that has led us to stand up & expose the Israeli regime with its tyross injustice, illegality, & to also warn the world of what this will lead to if Israel & the Zionist movement are not stopped & brought to heel. We feel that the enclosed pamphlets, distributed in over 30 languages, explain clearly our viewpoint & that of the Bible.

AS YOU CAN IMAGINE, DISTRIBUTING SUCH PAMPHLETS IN WESTERN COUNTRIES has made us many enemies, & has indeed caused the media to attack us, some accusing us of racism etc., thus illustrating even more clearly to what an extent the Western press is influenced by the Zionist viewpoint. However, we know that this is our God-given duty, to warn the world of its mistakes, & to expose those who would prefer to bring the world first owner arether than yield or componies, & who continue to rob & oppress the poor, as they once were. It is a dangerous job, but "if God be for us, who can be against us")

It seems that he's discovered a gap in time & while using an ordinary mechine that is used in a physics lab (I believe it's the x-ray kind but I'm not sure) he found that at certain frequencies & timings that he could make certain cells dematerialize!

HE SAID THAT EACH KIND OF

HE DOES THE SAME THING WITH CANCEROUS CELLS by focusing the machine on the cancerous portion of the body. One man with terminal cancer was told that he was going to die but after this doctor treated him with the machine, he was completely recovered in 5 days. He also told us about numerous other cases of cancer, malaria etc. that he's treated who have also been.

He was diagnosed as having asthma in Italy before they moved, but they didn't realise & had never researched the subject to find? that asthma in babies can develop into something more serious like a bronchial infection. MONTH-OLD BOY can influence the hearts of so many! When someon asks me, "Have you any children?" and I say, "Yes, I have 4—3 girls & a boy who's gone to be with Jesus now"—boom!—Right away it opens the door to witness. I really love him & miss him too, but I know he's being taken care of & is a lot happier in Heaven.

HERE ARE THE WORDS OF A POEM that a mother wrote after her son got saved & "foined the Family—she ended up getting saved too!" This poem appeared in the IN over a year ago & Zebulun put music to it. It's really beaustiful & has taken

on a new meaning to me:

Who Called Away My Son?

Who called away my child from me
Who called away my bo?

Who put the roses in his cheeks?

Inis Stranger in the night! Who turned my whole world upside down And brought me unknown joy? By taking what I loved so much, My precious son, my boy! And now my life is changing, My world is not the same. This Stranger is no Stranger now, Jesus is His name. Each day is bright, each day is new, Each day a shining thing. He took away the child I love And gave me everything! OH YES! I'M 4 MONTHS PREGNANT AGAIN & we're praying for another little boy. God is so faithful & loving to give us another baby—and we're so thankful! We can hardly believe it! (I got pregnant before Andrew died)—Praise God Isn't He wonderful? He thinks of everything! God bless you all & continue to make you a blessing & inspiration to us all. With lots of love, hugs & kisses, Zebulun & Robyn Geppetto.

Tips On How To Be A Parent!

From Justus & Ader; WWMM:

From Justu & Ader; WWMM:

DISCIPLINE: We wented to share
a little lesson we have learned in disciplining Justin, our 2-year-old, who
can be quite a rascall Alinh' he'd
prayed for salvation & the Holy Spirit, he wasn' learning any "permanent" lessons from our discipline.

WE WERE SO INSPIRED & IMPRESSED BY "THE POTATO", particularly the sub-title, "By metroy &
truth iniquity is purged!", but we
didn't find the way to apply it to
Justin until just recently, when he
was about to get another "welldeserved" spanking.

DADDY HAD ALREADY PULLED JUSTIN'S PANTS DOWN & Justin was very much in "lear & trembling" when the Lord inspired Daddy
to give him a choice between praying or a spanking. Of course, Justin
chose to gray!

BUT FIRST WE TOOK THIS
CHANCE TO EXPLAIN how he had
not only made us unhappy, but also
Jesus, but that Jesus wanted to forgive him. Standing there with his
pants down, he really understood
mercy & forgiveness for the first
time & repeated a prayer with such
sincerity & brokenness that we
were amazed.

THEN WHEN HE DIDN'T GET
A SPANKING, HE WAS AMAZED!

were amazed.

THEN WHEN HE DIDN'T GET
A SPANKING, HE WAS AMAZED!
It really taught him the benefits of
payer & that "God is the way out
of trouble!" Now, altho' he still
blows it quite frequently, he really
does turn to the Lord! It's so beau-

blows it quite frequently, he really does turn to the Lord II It's so beautiful.

THIS REALLY SEEMS TO BE ONE OF THE MOST IMPORTANT LESSONS that we can teach our little ones, along with sharing & loving the Lord & others, yet we had missed it for so long! We also took this good opportunity to explain again about the Holy Spirit & how the Holy Spirit wants to talk to him & help him be good.

WE CAN SEE SO CLEARLY THAT MOST OF OUR FORMER DISCIPLINE was mostly "a work of the flesh that had to be repeated tomorrow"!—All because we felt our 2-year-old was too young to understand such "deep" spiritual things, when actually that is what he is the hungriest for, as borne out by the happy results! TYJI If you apply the an-

swers to "Why Are Our Children Sick?" to "Why are our children bad?", you get some amazing things! BABY CARE: A few nights ago. Timothy, age 8 months, was really crying, almost as if throwing a fit & really uncontrolled. I felt he probably was acting that way because I'd spoiled him with honey on his pacifier & rocking him to sleep each night. So I decided to just put him in bed without rocking that night & let him cry it out, Lord help me!

without rocking that night & let him cry it out. Lord help me!

INSTEAD OF CALMING DOWN, HE GOT MORE & MORE UPSET, until finally the Lord got thru' to me & I got him out of bed. He cried quite a while longer, calming down a little for a few minutes & then screaming again real loud, while I was holding him. It was then that suddenly Daddy noticed two big burns on his top gum, two teeth that were working their way down! He had just gotten his two bottom teeth & I never thought he would get two more so quickly.

I FELT SO BAD FOR ACCUSING HIM OF CRYING FOR NO REASON at all but his honey & rocking to sleep! I quickly realised that there is really no way you can spoil a baby this young so much that he would throw a fit, but that their crying is always for some reason. I really had to pray & ask the Lord to forgive me for acting so hard to-wards Timmy & only hope he won't remember it when he grows up. Lord help us adults to understand these little people, no matter how small they are.

CLEANLINESS: Another lesson I

CLEANLINESS: Another lesson ! Learned the hard way is one of clean-liness, when we discovered some white spots on Tim's mouth the other day.—Thrush! Boy, I nearly cried! I felt so bad for not heeding the Lord's checks! I had already been thinking that

THE OTHER CHILDREN
SHOULDN'T CARRY AROUND
& PLAY WITH TIM'S TOYS. Undoubtedly he got the thrush from
sticking the dirty toys in his mouth.
Right away, we sterilised his bottles
nipples & pacifiers & also disinfected all his toys (which we do daily
now).

OF COURSE, WE ALSO HAD UNITED PRAYER & asked the

UNITED PRAYER & saked the Lord to please heal Timmy from the infection. Phew! I'm sure getting a crash course in child & baby care, & I'm so thankful for it! Thru' it all the most important lesson I'm learning over & over again is one of patience, love & mercy! The Lord is so patient with us, Lord help us to pass this love & patience on to our children! Love, Adar.

BOUT A YEAR AGO I HAD COME TO THE END OF MY ROPE & I prayed that God would help me, if He did exist. (I was a proper 29-year-old Marxist-scientist-female-revolutionary-atheist at the time.) If He would not help me, then obviously He did not exist & I would be better off dealing with the Devil, since there was not much doubt about his existence!

THE LORD ANSWERED MY PRAYER: First He showed me, in a strangely real & realistic dream that someone had suffered a lot, also for me. (I didn't catch it, I thought the people upstains had killed someone & that I had become a psychic or just plain gone crazy.) The second time He communicated with me, He took me thru' a long tunnel at the end of which was an immense light. (I would have liked to stay there!)

AND THEN ONE DAY in brilliant sanshine, in the middle of the day, while sitting on my bed, a penis grew in front of me!! (Wow, I couldn't believe my eyes!) I was eagerly studying its shape, but it did not belong to any of my numerous lovers. Slowly the penis (the love of God) started changing. It turned slowly & gently into a three-fold fork!—The Father, Son & the Holy Spirit—and started moving, turning, revolving & revoluting!—(Exactly what we do when we follow the Lord & the guidance of your Letters) & turned to fire! (—Working for Jesus by faith & witnessing.)

IT WAS TRULY BEAUTIFUL!

Then there were many penises & they were all dancing & changing

from fire to a three-fold fork & back & carrying jewels (souts), precious beautiful jewels with beautiful green & brown colours (like the lovely forest-lakes when the sun shines thru?). And they danced & moved & revoluted & revolved, & two of the stones kind of jumped in the air & became two eyes!!

A BEAM OF LIGHT CAME OUT of each eye & they literally struck me with power! had not experienced before (the love of God)! Half the face was in darkness & the other half in light. (He showed the love, but Hed din't show the bartles & the fighting.) I wanted to see the whole face but then it all disappeared. Plop!

AT THE TIME IT HAPPENED, I didn't understand any part of it. I only knew I wanted more & more, & wouldn't give up till! Had it. The only thing I could cling to was that still small voice & the peace! got when I followed its instructions. BY FOLLOWING THE VOICE, in my heart! I finally met a brother, & he was the first person! could tell about the vision. I had travelled from Zurich to Lugano to meet him, but had already started packing before. I thought it was time to leave all! had done till then. I also had a strong urge to read the Bible. "And it shall come to pass, that whosoever shall call on the name of of the Lord shall be saved." (Acts 2:21.)

Homegoer finds Homeless

The sad plight of hundreds of thousands of Vietnamese refugees—the awful fruits of war! They need our help & prayers!

From François; Montreal, Canada:

From Francois; Montreal, Canada: WHILE VISITING RELATIVES in Montreal, Canada, I met a lovely Vietnamese refugee who introduced me to members of her community. These refugees escaping the Communist regime are accepted by the Canadian government (15,000 in one month)

Canadian government (15,000 in one month).

HAVING EXPERIENCED THE HORRORS OF WAR UNDER THE AMERICANS & now having to fight for the communists in their expanditure in Southeast Asia, they are party disillusioned about both alternatives. Talking with a few refugees

who left their country a month ago, I FOUND SOME WHO LOVE JESUS & have come out of these experiences with a strong faith in the Lord. One young man, showing me his Bible, said that he has read it very carefully since his youth, althor oftentimes he had to do it secretly hidden in his home. He's ever grateful for what Jesus did for him & would like to help free his people from pain, hunger & fear.

ANOTHER YOUNG WOMAN, DESCRIBING HER EXPERIENCES in the refugee camps & the difficult conditions surrounding her escape, said she would never have survived without Jesus' help. The girl I first met lost both parents & a sister trying to escape when their boat turned upside down. She is now without relatives. These people are really broken & really need the love of Jesus & David. Plesse pray for them!

Get <u>desperate</u> for deliverance, <u>fast</u> & <u>pray</u>. It all depends on how much you <u>want</u> to be freed. Maybe you don't, or maybe you think I'm someone special to the Lord. Well, I aml And so is everyone else in this Family, including <u>you!</u> So hit the Devil back hard; don't even listen to him. I love you all & hope this helps those who need it as badly as I did. <u>Fight!</u> Battles never cease!

THESE LETTERS HAVE HELP-ED ME: "Attack!", "Pawn", "Homes", "Elixir of Love", "Pity the Weak!", "Love Never Enist", "Fest of Faith", "But If Not". My love & kisses to you, Dad & Maria, for all you have done & will yet do to reach the souls in the world, which included me! Love, Paul.

(DAD: The only reason, we don't have more miracles like that is that

we just don't believe God as we should & don't challenge the Enemy, rebuke the Devil & expect God to answer! If we would, we d have a lot more misacles! ONE THING THAT'S SHOCKED
US since being in the U.S. for a couple of months is finding a few brethren who are smoking marijuena & not even thinking there's anything wrong with it, using as their excuse what Dad says in "Revolutionary Sex", paragraph 7 about it being less harmful than either alcohol or tobacco.

BUT WE HAVE YET TO READ IN THE LETTERS that we should start smoking it. So we pulled out a few references from the Index that have really helped to strengthen our convictions on the subject. We hope they are a help as well as a

Stand on the Word **Delivers Homosexual!**

No. "I decided to challenge the Devil & be a sample for others suffering from the same problem!"—Now totally delivered!

From Paul; Indis:

I WAS RAISED IN ORPHANAGES TILL THE AGE OF 17, &
after 10 years in the System I ended up in a mental hospital. After
5 months of drugs & interrogation
in the hospital, God finally boomed thur' to me one night with a series of 7 visions which set me on my
quest in search of the truth & a way
to live it, PTLI
AFTER INQUIRING INTO MANY CHRISTIAN GROUPS, a few
months later I picked up a "Baby"
tract off a train floor. In 1973 I
joined the Family & have since backslid twice. Why? Well, I couldn't
really accept or get the victory over
an area of my life-homosexuality.
Anything & everything else seemed
possible except this one area which
the Lord kept pointing to, which I
refused to face.

MY HOMOSEXILALITY WAS

the Lord kept pointing to, which I refused to face.

MY HOMOSEXUALITY WAS DESTROYING BOTH MY LIFE with the Lord & His Work & also in the System. I could find no peace

of backsliding, I was posted Dad's
Letter "Homos".

IT THRILLED ME TO KNOW
DAD WAS GIVING COUNSEL on
a subject that had been taboo to talk
about even in the Family before. It
grieved me to know of other brothers like myself who loved the Lord
& the Letters, but had let the Devil
win over us by defeating us till we
had completely backslid.

WHEN I READ THE TESTIMONIES OF OTHER HOMOS GETTING
HEALED or delivered, I would
think, "Oh, they're special" or "it's
impossible for me to shake it off".
But I knew deep down that God
was & is able, so why didn't let
Him do it, even if it killed me in the
process. It would be worth dying
trusting Jesus than fainting halfway
as always before.

SO I DECIDED TO REJOIN THE
FAMILY ONCE MORE & FACE
THE OLE BOY himself (the Devil
that is & be a goines pig for all the
others who were suffering with the
same problem. I thought, "Let's
see if God will do it, let's challenge

& David. Piesse pray for them!

God & stand on His promises. It's going to be a testimony against the Davil one way or the other."—And boy!—Did the winds blow & did it ever get dark, but I found people in the Family who were very understanding (a very, very important key!) who encouraged me & prayed with me as if it were their problem too & shared my heartaches.

THEN ON MY BIRTHDAY IN A DESPERATE PRAYER SESSION with others for God to deliver me, I had an encounter with a dark spirit that came straight at me, which I rebuked in the power of the Spirit & in Jesus' name. And wham!

I WAS DELIVERED OF THE SPIRITUAL HOLD THAT DEMON HAD ON ME! PTLI TYJ! Afterwards I railsed that I had a fear of women, a fear of God's gift to man, but the Lord has given me greater victories since then! Hallelujah! I got married & now the Lord is going to give us a baby! I can share with sisters also now & am gradually overcoming this childhood fear of girls with the help of these girls full of the Elixir of Love & the Words of David & the gentleness of Jesus & His Love! So all things age possible to him that believeth!

SO, YOU WANT TO SERVE GOD & BE DELIVERED? Then take Dad's advice in his recent: "Questions from the Field." Letters.

M&M Mail!

THLY RECAP OF M&M MINISTRY!

DAD'S LATEST LETTERS HAVE BROUGHT SO MUCH NEEDED COUNSEL, guidance, in-struction & inspiration that we have received a flood of heart-warming

thank-yous from our worldwide Family who appreciate each golden drop so much!:

"QUESTIONS FROM THE PIELD I &!!" were very much appreciated. As one wrote: "Don't stop speaking please, you really cleared up a lot of things. You always say something new, even if it's on the same subject & you do repeat, you do clarify & simplify & help us to understand better & to see right from wrong—be not weary in well doing!" And "Don't feel exasperated & like it's a waste of time to answer those kind of questions, Dad. I tell you honestly, each one was very appropriate & relevant." CONTINUED RESPONSE STILL COMING IN to "The Fimothy, Revealton" with comments like: "It makes me want to be closer to your heart, Dad!" & "Il pledge my loyal ty to you both in the Lord's Work. I never would have served God had it not been for your Letters of honesty & truth." Plus, many offering to help in any way possible to fill

parture.
"CHILDREN IN THE WORLD"

8 "CHILDHOOD SEX" were much appreciated. Many wrote similar comments to Maggie Quixote of Calif. who said, "After reading 'Children in the World' I am doubly determined to not only fill my children with positive, encouraging & strengthening thoughts from the Word, but to also instill them with a real fighting spirit to stand up for Jesus!"

a rear ingning spirit to stane up to Jesus!"
"ELEVEN YEARS" BROUGHT
GREAT JOY & a good response.
All who wrote sent a BIG thank you & pledges to tithe all so they can receive all!

ALSO RECEIVED MANY MORE
INSPIRING TESTIMONIES from those who've reached their pioneer fields after their fruitful Homegoings, including one dear brother who said he'd learned about the "Benefits of Backsliding" & the necessity of standing strong for one's convictions & to fight the dangers of compromise!

their heart goeth after their covetcouncest ... and when this cometh to pass, (lo, it will come) then shall they know that a prophet hath been among them (Ez. 33.31-3).—Just before Ezekiel 34, the David Chapter! Lord help us to take these Words of God into our hearts!

THERE ISSO MUCH IN THE LETTER IT would take a lot of your time to read all my reactions to every subject. But it's all great! I really dug your lessons on everything from neckties to money, & really really got fed by your thorough examining of the entire background & history, where Rachel got her traits & so on.

IT REALLY BREAKS MY HEART ABOUT EMANUELE—I never knew all that! Wow, do you think there's anything we could do to help him? Sara said he's really going like a "frozen book", but I just wanted to ask if you think there's anything we could do to help him.

ANOTHER THING THIS SHOWS
IS HOW REALLY HARD & UNCONVICTED TIM WAS to listen to you give
that thuge stack of evidence of how
definant to the Lord & brazen she
wes, & how the Neb. Letter was
straight from the Lord, & BOOM,
reject it & not want to sign & all.
Lord! What a mind blower!
THE LORD IS SHOWING ME
MORE & MORE about Tim all the
time. I really pray God'il clearly
show him how sadly deceived &
defued he was & is! I guest "they
igh that make them are like unto them"

3 —& he'll get his bellyful of grass too.
DAD, GOD BLESS YOU!!! By
GOd's grace we'll stand with you &
the Lord! These that rise against
w you are sickening & ridiculous. "The
king shall rejoice in God, every one
that sweareth by him shall glory, but
the mouth of them that speak lies
shall be stopped!"

P.S. ONE OTHER THING I WANT—
ED TO SHARE HAT might be signi-

ficant is that Melocy is backslider & traitor!) stopped in Italy at Poggio e when she was traveling Europe with Mr. D. And Baara told me that Rachel spent a long time talking with Melody.

THIS WAS JUST BEFORE MELODY HAD A BREAKDOWN & ended up backsliding!! Now! can imagine the negative impact her visit had on her! Mr. D., by the way, was quite unimpressed with R&E, & commented he didn't know how people could publicly humiliate each other in front of company!

BOY, AM I EVER SOD DV.

Reaction To Rachels Departure!

Prom Kenaz; KOS:

Dear Dad & Maria, 19/5/79

SHARING WITH OTHERS OVER
THE LAST FEW DAYS about the
things going on in the Family that I
didn't previously know about & details, real shockers about how bad
off Rachel was (& isi1) & those of
her ilk, it really, really encourages
me that the Lord is doing this powerful clean sweep to get rid of the
disloyal, half-hearted & completely
unworthy, as these things usually
precede some big victories & blessings to the loyal & faithful who remain.

ments to the loyal or arithrul who remain.

ONE THING WE HERE REALLY
WANT TO LET YOU KNOW is
that there are many many dedicated
children of David faithfully at work
in the fields, pioneering & changing
the world with the Love of God
that they drink in thru' your Words!

THERE ARE MANY WHO ARE
MATURING & COMING OF AGE
& staying childlike in Spirit at the
same time, clamoring for the Words

of their father! "We may lose a few battles, BUT WE'RE WINNING THE WAR!" Amen!! If God be for us, no man can stand against us!! His truth goes marching on! Psalm 1:1-8! Love, Kenaz.

His truth goes marching onl Psalm 1:1-61 Love, Kenaz.

Dear Dad & Maria,
GBYI WOW, I'VE JUST SPENT MOST OF THE LAST 5 OR 6
HOURS READING UNEDITED TRANSCRIPTS OF REPORTS ON RACHEL, & "Rachel Part 1 & II", & I have to say it's one of the best feedings I've had in agest! Wow, really really a lot of precious things out of those heavenly mines!

EACH SCRIPTURE & SCRIPTURAL BARALLEL YOU drew is so bang on!! Nebuchadnezzarevery phrase fits to a tee! Elijah & Jezebel, Samuel with Saul, Jesus & Hist twelve, Judas, just perfect. "The Word of the Lord is sure!"

THIS WHOLE STORY (& ALL ITS OHERSSIONS!! ARE SO HEAVY & SO REVEALING as to the Scriptural background & historical background & puts the whole string of events clearly in the spiritual light they need to be seen in. I sure hope this can come out for the whole worldwide family, so that these 'hings that for so long were hioden can be laid bare.

THIS REALLY IS AN IMPORTANT SUBJECT, I think, for all to have a real clear picture of. Many of us, I think, deliberately turned our eyes the other way for a long time thinking we were listening to the "accuser" if we felt something wrong was going on. It really blows my mind to see what you put up with, & the Lord put up with, for so long—so merciful & patient & yet they would not repent.

DAD, EVEN THE PRESENTATION OF THIS IS SO GENTLE & SO MERCIFUL with so much feeling & yet so absolutely true & exposing! The "Daily Might" No. 3 for today, the 20th, says: "Delusion must be destroyed to build a firm foundation of truth." And this really exposes the delusion, the "deceitulness of riches" etc. & also the "water off a duck's back" attitude Rachel & obviously others too had about the Words of the Lord!

"THE CHILDREN OF THY PEOPLE STILL ARE TALKING A-GAINST THEE by the walls & in the doors of the houses. .. and they come unto thee as the people cometh, & they till before thee at My people, & they hear thy words, but they will not do Intern for with their mouth they show much love, but

wear out & still need boiling, even if the bottle doesn't.
OF COURSE YOU COULD USE
A STERILISING SOLUTION such as Milton's, but Dad wasn't too crazy about that at our question of whether it was safe to use for baby's health. Dad said if the solution is strong enough to kill germs, it surely is not that good for babies to consume! Some use it with no problem at all, & I used it myself for Davida, but two haven't used it for Techi thus far.
THE BABY BOTTLES WITH DISPOSABLE BAGS ARE QUITE EXPENSIVE NOWADAYS wherever! have been able to find them, but if you have access to them for a good price, I do think they are good time savers for busy Moms like yourself! Just be sure to stock up on bottle bags & nipples!

IT'S SO WONDERFUL THAT YOU ARE PREGNANT NOW, KEDA & also wonderful that you have such a helpful matel—In this case, an extra Mommy & Daddy combined—Isn't that wonderful? You know, I read in a good baby book that people expecting their first baby should consider pregnancy a 12-month term instead of just 9 months, because it left, they will never lost but always important to the future training & spiritual feeding of a little ones to God's Kingdom. Nor whole schedule & your whole ife around a new little baby.—And that's really fue!

NO ONE COULD EVER OVER—ESTIMATE WHAT A BLESSING a little baby can be to new parents.
But on the other hand, not only has

little baby can be to new parents. But on the other hand, not only has

tie ones to your a name will they ever regret God's Little Git!
SO I'M GLAD YOU'VE MENTIONED SOME OF THESE mother-saving tips & pieces of equipment available on your field. I'm all for any little thing that can save the Mommy's time & make things easier for her.—Not because she is trying to make time to do other things than her baby necessarily—even tho' than her baby necessarily—even tho'

there are plenty of other things that need to be done always—but some of those things will just have to be put aside during the baby's first months—but any piece of equipment or helpful tip that will redeem Mommy's time so she can give the baby more personal attention, perhaps include the baby in on her jobs, fellowship, family activities & give Mommy more Temple Time that the very well needs & deserves. PTLI

IT'S A TREMENDOUS HELP
THAT YOU ARE BOTH THERE
TOGETHER to bring up your little one for the Lord as a real method team. What a blessing! We're always looking forward to hearing more from you whenever you get a chance, & whenever you have something more to asy. We'd love to hear your opinions & reactions to the FC maturials, of which you will be seeing more very soon, including KK's, a few baby classes & Grandpa Memory Quotes for children's use.

ALSO, SOME OF GRANDPA'S
STORIES ON TAPE, as told to Davidito, will be available from Wild Wind.—Beriah now has nine of them in the works!—Real thriller-chillers, humdingers, exciting adventures that kids love to hear for storytime! PTLI Our prayers are always with you & we love you dearly. Thank you & we show you dearly.

DID I TELL YOU ABOUT THE POOR BOY WHO STUTTERED & they said him what he wented to be when he got big. He said, "I wowent to bibbees a popoprascher,"—I used to think these jokes were funny until poor little Devidto got that for a while & the Lord fix got that for a while & the Lord marvelously heeled him, a miracle! And they said, "How could you be a preacher, look at the wey you stammer!" "Werevell, munmers," "Werevell, more than the said, "How could you be I coccan't popprasch very goggood, but I cocan sure popopound a lot!"

A DOR-TO-DOR SALESMAN knocked at a door & the ledy of the house answered in her negliges. "Pardon my negliges," the said, to which he answered, "That's airight,

I don't mind seeing you naked as a jay!"

THERE'S AN OLD SAYING:
"He's even jealous of the bedpost!"

"Me's even jealous of the bedpost!"

I USED TO HAVE A MUSIC PROFESSOR who was bald, one of those really shiny bald tops all the way back with just a little rim of hair around. He used to tell his students. "I don't have eyes in the back of my head, it's just that my face goes back that far!"

I DON'T KNOW IF MY BROTH-ER WAS REALLY TELLING THE TRUTH or not, but he came back with some awful big whoppers from college. He said this professor had a very bad cough all the time & he was always saying. "Some day I'm going to cough up my innards!" So they thought they'd play a trick on him. So during the night one of the boys sneaked into his room with some chicken innards, strewed them all around him, on his pillow & waited for him to come down to breakfast in the morning, if he

made it. Well, down lie came looking very pale like he was really ready to go. He said, "Well I knew someday it was going to happen, but thank God, with the help of God & a toothbrush I got them all back down again!"—That's the kind of jokes you learn at preachers' college. I think preachers spend more time learning jokes than almost anything else, especially Bible college.

most anything else, especially Bible college.

THE DRUNK WAS TALKING TO THE DRUNK WAS TALKING TO THE NATURALIST & said, "You mean to tell me you go out in the woods & you talk to the animals?" He replied, "Yes! do.." And they talk to you?" "Yes they do." So the drunk says. "Did you ever meet a skunk?" "Yes! have." "Well, the next time you meet a skunk wil! you please ask him for me, what's the big idea!" The conversation continues: "And you tell me you're going now on an expedition into the jungles of Africa?" "Yes." "And you've advertised for people to join your safari?" "Yes." "And you're going to go out there & meet

lions & tigers & elephants & things like that?" "Yes we are." "And you want people to go with you?" "Yes of course." "I flatly refuse to

"Yes of course." "I flatly refuse to "FORGIVE MY HUMOUR, I just can't help but be funny, at least I hope! Didn't you know preachers know more jokes than anybody? That's the only way they can cheer up their poor sad congregation. I heard plenty of them when I was a kid, I heard a lot of preachers. I don't know where they all come from, but anybow they ust non jon.

But he's been too bury

The kids, they sure love him. His roles, they are two. He plays father or mother, Or the woman in the shoel He rarety has a problem, Seldom has a trial—At least they don't stop him From going the extra mile. It sure gets hard Sometimes to survive, But he says. "Oh, Honey, It's just good to be alive." "Don't worry, Sweetheart. You take a little rest. I can take the kids. You know, we're sure blest." And then he goes on About how we needn't worry Cause the Lord's taking care And there's no big hurry. And he's allways right "Cause the Lord sees us thru' But it's usually Carlie Making sure we all knew-That we need to keep going And ret im our all."

_A love poem to Dad!
From Maggy Quixote; Calif., U.S.A.:

More from Seek & Secundus; Spaint:
OUR FAVOURITE SONG IS
"AMAZING GRACE" because that's what keeps us going—God's amazing gracel My favourite verse to this song is: "Thru' many dangers, toils & snares, I have already come. His grace whill lead me home!"
IT HAS BEEN SUCH A VICTORY FOR THE NEIGHBOUR MAN whom the children payed for. He's a clearly American (with a Spanish gour pexteat to see if we hed the children's singling!
WE REALLY HAD A GOOD
TIME PRAISING THE LORD, as the kids can sure see the hand of the day we had 15,000 pestats from this kids can sure see the hand of the Lord keeping us day by day. It's so wonderful for them to see how God never fails. His timing is perfect, everything He does always works & we can be sure that when the time comes that something has to be done, God will do it!

THE CHILDREN'S SINGING:
This weekend the children's singling supplied more than 5 times the donations they normally receive. And when they sang at a resturant, there was a reporter there who asked questions & borrowed a photo & wrote an article! Sherah & I went into another newspaper office & talked with 3 reporters & possibly an article will be coming out very sonol FTLI. They also said they will contact us when they hear of places for so to sing. Sherah is only 6, but such a good partner when going out to speak to people. She is a real charmer & always gives a round of kisses. She's always encouraging & now the Words, the Lord is

in the victory & the Lord really blesses our efforts when she is with me.

IT HAS BEEN SUCH A VICTORY FOR THE NEIGHBOUR MAN whom the children prayed for. He's an elderly American (with a Spanish wife) who has a very serious lung disease from the Victorian war from the poisonous gas the Americans sprayed to kill all the vegetation. When we first met him he spent almost all day every day in bed & was getting worse & worse. The children prayed for him & the same day they were both saved!

SINCE THAT DAY HE IS NOW UP & ABOUT, & they are both nuch happier now. We have been feeding them with the Word. They invited the children to sing for the wife's birthday party, & everyone enjoyed the children so much & denced with them after they sang & gave a good donation. They have invited the children for smuch as denced with them after they sang & gave a good donation. They have invited the children for smuch as the children to swim in their pool, so now they can really learn to swim. The children regularly make little gifts for them, which really encourages this couple & makes them feel closer to us.

DTD & LITNESSING: Recently we were praying together about why we were having a battle with finances & askings the Lord to supply our needs as He promised. The Lord encouraged us, but also reminded us that there were two Letters we hadn't been obeying, the two Letters Dad wrote encouraging us to go Door-to-Door.

SO NOW DTD IS A REGULAR PART OF OUR MESKLY SCHED-III E AMERICAN STAND SCHED-III E AMERICAN SCHED-III

really blessing the children's singing with the funds we need. Also, the second time out DTO, Sherah & I led an 11-year-old boy to the Lord!

FFING: Sometimes we're such dumb sheep that even if the Lord is trying to show us, Dad has to put it very bluntly for us in black & white. After reading his comments in "Questions From the Field" about a mother's priorities, it really confirmed what the Lord had been showing me.

SOMETIMES OUT FFING I'D

FEEL SO FOOLISH sitting in a bar waiting to get picked up & thinking about Secundus at home trying to manage 6 children. So far, my best contacts for FFing were made with the children or just in our everyday witnessing & singing & speaking with people.

RIGHT NOW I HAVE 2 GOOD

the children or just in our everyday witnessing & singing & speaking with people.

RIGHT NOW I HAVE 2 GOOD FISH & several to correspond with by mail, & this is keeping me plenty busy enough. For instance, this week we had a new fish just drop out of the sky. The owner of the spency from whom we rent our house came by & met everyone & asked me out to dinner the next night. I went & he is very sweet & sopen to the Lord. The director of our bank has come over twice this week & last night for the first time I was able to share all of God's love with him in the livingroom, as Secundus was putting the children to sleep. He said that he would be happy to help us get per manent residence here if we like. I got to witness to him quite a bit about the Lord. He is very intelligent & knows a lot about politics & economics, & so sharing portions of the Letters with him just in everyday conversation

SCHEDULES: The children's weekly schedule involves 3 mornings of very good school time for the 3 oldest & 2 mornings for the young cross, 1 afternoon of good docto-door, 2 mornings or afternoons for practising singing, 2 days for performances (the actual singing time is short but much time is required for beths, clothes, manicures last minute practice & even a nap if they sing later in the evening), 1 morning or afternoon for writing greating or thank-you notes to frien & contacts, & the kids help every day with cleaning, provisioning, watching the younger children & shopping.

day with diseasing, between the younger children & shopping.
THE CHILDREN GENERALLY KEEP VERY WELL OCCUPIED, & Secundus makes sure that they do new & exciting things daily, even if it is only an interesting talk, or cooking outside, games late in the evening in the garden, a movie or excursion.
WE GIVE EACH OF THE 3 OLD-EST CHILDREN AN ALLOW-ANCE composed of 5% of the total donations they get from singing & litnessing. Sometimes that amounts to quite a bit, but they are usually faithful to use it for needs, or even for buying things for someone else. They are very generous & like to give.
OLIR BIG PEOPLE'S SCHED-

They are very generous & like to give.

OUR BIG PEOPLE'S SCHEDULE involves 1 afternoon each for mail ministry each week, & 2 or 3 evenings for witnessing to fish or those we meet singing, & 1 afternoon or evening for planning & making new things for teaching the children. How we fit this into one week changes regularly according to our needs & eppointments, but to keep progressing it all has to fit in somehow.

to keep progressing it all has to fit in somehow.

EDOD: I really go thru' it if I know the kids aren't each day getting what they need in their diet. I've found that it costs no more to set well (not extravagently but the things that are good for you).

WE MADE A DISCOVERY IN BUYING GROUND HEART for about 1/3 the price of good ground beef, with 1/3 more protein per gram than roast beef! We like it a lot & prepare it many different ways. Even visitors can't tell the difference from good ground beef. We also use chicken livers, which are

we sat say bears & cook them with a little ground meat for flavour. The kids didn't especially like them, so I tried boiling them first for an hour & then browning them in a bit of oil with notions & garlic, which is a real hit.

FOR BREAKFAST, WE OFTEN HAVE LEGETABLES TOO, such as omelets with leftover vegatables, or carrots buttered & blended into a puree with margarine as a side dish to eggs, or buttered beets or lettuce served with fried eggs. We even serve potatoes with eggs, mashed with a lot of milk to make them very creamy like porridge.

A GOOD DISH FOR TRAVELLING is potato salad made the night before & refrigerated—a meal in one dish with potatoes, eggs, tuna, mayonaise we make ourselves, & green peppers blended in so the kids don't even know they're there! Then we just bring along cups or bowls & a spoon for each person.

THE MOST USEFUL ITEM IN THE KITCHEN IS OUR ONE-SPEED BLENDER, so common in Spain & inexpensive to buy. It makes food easy for babies & helps change & very food a little so the kids will like it more or so that it is disguised a bit. For instance, the kids really eat up spinach blended into a puree with margarine & served before the meal as a thick soup.

TEACHING TIPS: The kids have been much more interested in reading since I made them each a book with very colorful pictures from magazines, adding 1 or 2 new pictures set day with an accompanying short story about the picture. Sometimes about good food or health, or they all like pictures of sexy girls. I always try to insert comments into the story about our convictions & way of flife, using the word listed in "Teaching Tips".

WAY TO TEACH the older criticism is to really capitalise on their questions & interests. When something comes up, we stop & talk about it, whether it is grammar or science or math. I plan sheed, but am always ready to change tectics in the middle of the class as I see the need or week area or a new interest. Of course, sometimes I just have to really be persistent to get the children to work on what is necessary, but sometimes it is really the Lord leading us into a more interesting & worthwhile or more needed subject.

JASON IS REALLY SUPPLES

but sometimes it is really the Lord leading us into a more interesting & worthwhile or more needed subject.

JASON IS REALLY INTEREST-ED IN CURRENT EVENTS now & insists that Secundus share the world happenings from Time magazine. Secundus is always teaching the kids no matter what he is doing with them. I think this is how the children get a lot of their education. Children can learn so much from adults who are willing to talk to them & share their years of experience with them.

STEPHEN & JAMIE-2 ARE LEARNING ABOUT NUMBERS using a train I made for them. This worked well, too, when the other children were younger. At that time I cut a simple train from different colours of paper & pasted felt on the back to use on a fet board. Each car has a number on it in large numbers. Then you make balls or different objects to set on top of each car. The objects are the same color as the corresponding car & the number of items also corresponds. This way the younger children have fun learning both numbers & colours.

BIELE STUDY: A year ago, Jason & Sherah serned the books of the New Testaments by a different little song for each. Then they played a game to see how quickly & accurately they could put the books of the New Testament in order. I wrote on strips of cardstock the name of each Book, then mixed them up & handed them to the children in a stack to see how quickly & accurately they could rearrange them.

IT'S SUCH A LLIVING & MOV-ING STORY, sometimes we almost Scry to remember how cut he was or the event involved. These chapters (all of them that is) contain so much of the Spirit of David; & often even his words with all the little lessons that make life so interesting & so close to Jesus—the sample Dad & Maria always are.

SOMETIMES WE FEEL THAT IS STILL WHAT IS LACKING in so many of our folks—really absorbing that Spirit & obeying in every little thing they possibly can! "Dear Timothy "-A Letter From Maria!

Dear Timothy.

July 1979

GRETINGS IN JESUS: NAME: I've been thinking about you a lot & praying even more for you!--But finally that wasn't even enough & I knew I had to write you & tell you what I hope you know, of course: That I still love & care about you!--We all do: 'Arran' ''''

I'ME SPANKINGS OF THE LORN ARE DIFFICULT & His chastenings not easy. But if you yeld to them they will make you a better man & result in a more useful vessel. Remember Timothy the times I used to tell you how much I loved you & you would reply. "Oh, but you wouldn't if you really knew me."

I MORE FULLY UNDERSTAND NON what you meant, although I always realised that your heart was not completely with us, that it was divided, & that inside you, a war was being waged every day because of your different loves & loyal ties. "Sometimes the right ones won, & sometimes they lost. But I loved you then & I love you now, although now it is with an added sadness & pity, like the love! "m sure the Lord must feel for you, too.

WHEN WE HEARD THAT YOU WERE AGAIN IN LITALY, Dad said that he was glad you were there while Rachel was in the hospital again, because he knew that you loved her & could perhaps give her comfort & wise counsel that would maybe help her to come to her senses, like the Prodigal Son. If there were anyone she would turn to in her time of desperate need, it would probably be you. So we do hope that you were able to be of some help to her in her bitterness & desolation.

ME'RE TERRIBLY SORRY THAI DEBORAH IS SO BITTER AGAINSI US, without cause, since you know Timothy, & will have to honestly admit that we did everything possible to be good to her & provide for her-everything we could do for her, without hindering the Lord's work, & yet she constantly strove to pull you away & get you entangled in the affairs of this world. I sincerely tried to share with her & make her a part of us & a united team for the Lord when we were all together, but she "would not". (Mt. 23:37.)

MEN MERE YERY HAPPY TO HEAR, & it made us admire you, that

thing further published in this regard is done reluctantly & with regret, but prayerfully & that the people will recognise that the Word of the Lord is sure & undeniable & altogether true.

THOUGH WE MAY FAIL, YET HE ABIDETH FAITHFUL. (2Tim.2:13.) You know, as much as we love you, we dare not compromise or spare the Truth at the risk of your being hurt, although we are very sorry if it does so. Timothy, you know us so well that you know we have always been heartbroken over those who fail in any way. & that we are never gladdened by their grief. (We love U to 1.0) I LOVE YOU, TIMOTHY. You know both Dad & I do. & I was extremely heartened to hear that you recently told someone this while you were in Italy: "Nevertheless, I know Dad loves me." (Anamor Townson Delease don't ever doubt it. We pray for you that your heart will be comforted & that you will con... tinue to serve the Lord to the best of your ability, continuing to be a blessing to others. I. OF COURSE, WOULD LOVE TO HEAR FROM YOU if you feel you can write.

Again, we thank you for all the help you have been, & for your precious service & your love while you were with us. I will never forget the encouragement you were to me so many times, especially when Dad was very ill.

It was such a comfort to have you with me.

May God continue to keep you going for Him & to make you a blessing to many,

Love in Jesus & David, --Maria.

Love in Jesus & David, --Maria.

P.S. DON'T EVER FORGET, Timothy, what Dad & I both used to tell you frequently: "No one will ever love you more than we do." Amen: P.P.S. SO I CAN BE SURE you have received this, could you please just drop me a note to that effect. A postcard will do if you don't care to write a letter--although I'd love to have the latter, of course. Tks: ILY: (Me 2 - 4) P.P.P.S. OH, ONE OTHER THING: Dad was wondering whether you could write up something on the encounter you had with the deprogrammers--something that might be a help to the Family. (Tks: 673/! ILY! --My 6m 1000)

Abrahim cailed her "the most important baby gir in the world" & we can now certainly see why, at the is a constant source of inspiration & encouragement to all of us to share with you har life & our life with her. How fitting that the King & Queen should have a baby in their household now when so many of you do also.—A representative for you of all our preclous "knew "disciples. Please forgive us for slowness in getting to you more Techt chapters. God willing we will send some shortly. Love, Maria.

hearts to see such a close friend change so much.

AFTER READING THE LETTER, we must say that even if it hurts "it is the Lord, let Him do what seemeth Him good". Like Eli with little Semuel, Eli had to confess it was the Lord speaking to Samuel. So it is with what the Letter said about Timothy. It has probably been so for everybody around Rachel, everybody was so much into the worship of the Queen instead of fearing the Lord.

things happen. It's not easy, but I must admit by the clarity of the reveletion that it must be the Lord. So we need to pray to understand every situation the Lord puts us in, to learn the lesson & go on.

RIGHT NOW SINCE OUR LITTLE ANDREA WAS KIDNAPPED.

(See FN Vol. 13, No. 1), we can really understand how much you, Dad, must have prayed & agonized over your son Timothy & for Rachel & all the others. We believe you feel the way we feel for Andrea right now. All we have is the Word, God's promises for him & how much we prayed for him before he was born, & even the' it's hard to see God's purpose in it all, we keep holding on with our broken hearts & wait for the Lord to do a miracle.

WE REALLY LOVE YOU ALL & keep you in our prayers. We also thank you so much for the lettert Letters, sepcially the ones about children, that were such an encouragement & strength to us. We want to say how thankful we are for every little word from you, TVJI God bless & keep you always. Lots of love, Torbjorn & Maria.

JUAN'S REACTIONS TO

'NEB. REV.' & TIM REV.'

YESTERDAY WE SPENT THE
WHOLE DAY READING the Techi
Story, which is so fantastic & so
needed, & also the unpublished material about Rachel. It is just incredible to read how the Lord just
revealed the whole truth to Dad about Rachel. TyJI Only God could
have revealed such an exact revelation on what was happening with har!

IT IS SAD THAT SHAUL &
ABIAH FAILED TO PASS ON TO
YOU what Rachel had been saying
& doing while she was in Latin
America at the RNR. She had told
S&A not to write to you about anything as you were not in a capable
state of mind to handle any problems! She not only told them that,
but spread that statement to different people who are not with us
anymore, such as Singin' Sam &
Shiloh. Lord help us!
RACHEL ALSO TOLD MORE
OUTRIGHT LIES about how you
did not live the Letters & did not
believe in sharing & it was all a
double standard you had. When
we heard this, we asked S&A to
write a full & complete detailed repoort, as we felt it was serious &
that something needed to be done
about her!

BUT EVEN THO' THEY DIDN'T,
it is so inspiring to see how the
Lord just gave it all to Dad super-

Rachel/Silas neglect of pioneers, as well as ill-prepared teams with improper visitons.

MOST WERE SENT THERE with the vision of large regular altoments promised & under pressure (I believe partly to "new countries opened" astat would be good for Sc. Europel Asia/Africa areal) & really not in accordance with "World Conquest Thru' Love" & the vision to live off the land etc.

THEY REALLY DIDN'T KNOW WHAT THEY WERE DOING down there & some were soon unbelievably blobbed-out & with way more children than such a difficult field could care for—hence large amount of sickness, poverty etc.

OF COURSE, "BLACK HOLES" REALLY HITS THE NAIL ON THE MEAD & I don't think it's our main push of sourse. But if we're going to reach every tongue & tribe then it seems maybe we'll be going back there?"

I DO BELIEVE THAT WITH A LITTLE ENCOURAGEMENT & a nalistic picture of what to expect, that a few good teams could do a lot with a drop-in approach in the main sophisticated cities such as Nairobi,

seemed to make the wrong choice,
God help him!
I GUESS THE LORD ALLOWED ME TO SEE ALL THESE
THINGS in my short stay at Poggio
so I could learn what not to do.
Thank God for the Letters, as
everytime we would read a Letter
it was so different in Spirit than
what we had seen in Poggio!
I ALSO WANTED TO MENTION THE PRAYER at the beginning of the meeting (see "Prayer of
a Good Shepherd", page 7). It was
such a beautiful & inspiring prayer
that I know the whole Family will
enjoy. There is so much love in it,
it really breaks my heart to see how
people who have been so close to
you can be so far away. TTL for
our true shepherd that never forsake

JUAN'S REACTION TO MEETING DAD & MARIA!

IT'S LIKE HAVING BEEN IN SPACE CITY & then coming back! It's like a dream! Thank you for taking some of your precious time to come & visit us. Being able to sit & talk & fellowship was such a priceless privilege!

YOU BOTH RADIATE SO MUCH LOVE in such a simple & natural way it just overtakes me! Your simplicity is so beautiful, you are what I read in the Letters. You both are so young & beautiful, as beautiful as your letters.

I'M SORRY FOR BEING SO DERYOUS, as after I met you, your love & simplicity made me feel so good that I was praying for the time not to go by I could go on for pages expressing my feelings of all the beautiful things about you both your eyes, your hands, your mannerisms set.

"RACHEL 3", the unpublished

Wow! This part of the talk is like a
real good class on wisdom in decision
making. The Lord even gave more
on the Daniel 4 story & its application. Wow! What a revelation from
Godil Well, it certainly is another
good reminder to all to keep our
hearts in the fase of the Lord all the

ANOTHER THING THAT REALLY HIT ME was Timothy sitting
thu' all this, & the gentle but firm
way the Lord was obviously speaking to him, trying to help him see
just how Rachel went astray & how
far astray! Apparently he'd really
learned from Rachel how to hide &
harden his heart!

IT BLEW MY MIND HOW DAD GIVES THE INSPIRING STORY ABOUT TYNDALE & how the Lord with all his heart! I'm gone try & write him another forced that revelation out past the human mind—it was so right on for Timothy—pride of an intellectual! Then Dad begins to pray for Emanuele, but instead the Spirit said, "Lord have mercy on poor Timothy—The Property on the property of the Spirit, isn't she? I that he really under Rachel's bad influence for so long (& the's one to always stress talent rather than leading of the Spirit, isn't she?) that he really had a break with the Propher's spirit! "Ferty soon you'll just run out!" it says in "Temple Time".

WELL, HE'S IN THE LORD'S HANDS & maybe he'll get some real joits soon that; will break him & amoust him that he's got to cases from the shows him that he's got to cases from the sum of the shows him that he's got to cases from the sum of the s

hope others take heed to this important warning so that it doesn't happen to them!

I KNOW ISURE NEED TO TAKE CERTAIN CLASSES OVER, such as Prophecy, & have been studying it together with Juan. I couldn't believe how long it had been since I had read thru't the Book of Daniell What a fantastic trip that Book is!

Wow! So thrilling & exciting with lots of suspense tool I've heard those stories all my life, but they are still as suspense fool I've heard those stories all my life, but they are still as suspenseful & hair-raising as ever!

THEY REALLY GIVE YOU FAITH for what we're going thru' now, especially the story of Neb. in Chapter 4, which the Lord so miraculously gave you! Rosa read it to her fish Vittorio & shared about Rachel, & he was just flipped over the Word the Lord gave about her & said that was exactly her problemno mercy for the poor! Now, in what novel could you find an answer like that! And that's sure what we

ten & Bible, & aird to think & pray along the way about what to do to help solve area problems & find the Lord's solution.

IF YOU CANT READ ON A
BUS OR TRAIN, PERHAPS YOU CAN PRAY! We sure need lots of that, with all the persecution, reorganization, going underground etc. Our type of job, caring for sheep, takes so much Prayer Power. I don't see how people do without it, or fill their time with other things, like books! Lord help us!

I'M EVEN CONVICTED NOW ABOUT TOO MUCH READING OF NEWSPAPERS & news magazines, so now I scan the headlines & ask the Lord to lead me to what's important so I don't waste important time reading too much Time! I find it more inspiring!

MAYBE SOME HAVE FORGOTTEN THAT WE'RE STILL "STUDENTS", as you said, & really need to stick to the textbooks to pass the tests! Hailelujah! And there sure is plenty there to entertain tool TTLI—And you for giving it!

WHERE DID HE GET THIS IDEA OF READING BOOKS?—Maybe when he was in Europe, or of mort. To "Alexander" who loved

"Children in the World!"

"No. 7801: Very needed! That's the way vue were! Superior! The rest of the dumb idiots in our school had hardly even been out of their county, & we had already been to most of the places they were studying about in our country! In fact, we were always shead of the class! When I was 7-10 years old! I travelled a lot with you & took my books on the road too!

WHEN I RETURNED TO THE CHRISTIAN SCHOOL, the kids made fun but they were the foo!

Because! became the shining example for my teacher knew! I had studied ample! And she made me stand in front as a sample!

THEY KNEW MY PARENTS

WERE MISSIONARIES & POOR, but I knew that I had more! Besides that, I could quote the Bible & knew how to help those in trouble! We

low to help those in trouble! We

could brag about trevellin' coast to coast, while my friends in junior high miked their goats!

I CAN'T SAY! WAS TOO POP.

ULAR WITH THE KIDS, but my teachers sure flipped their lids!

When I finally graduated at 15, guess who felt dumb & was turnin' green! Oh what a scene, cause they were 19! They' of allways thought we were different & strange, but now we'd proved we were above their range!

THEY COULD NOW SEE! WAS NO ORDINARY LASS, 'cause we graduated at the top of our class!

AARON TOO WAS SE! WAS wes proud of his little sister being smart tool. So he was not sad that we graduated together, 'cause he knew we were of the same feather!

AARON TOO WAS NO ORDINARY GUY. He knew his algebra & his pil! The fastest in class & that's no lie, he'd give the answer first & wasn't even shy! He was Spirit-filled so we know why he couldn't be beat & there was never a tie!

WE STOOD TOGETHER AGAINST EVOLUTION & wrote a theis to prove our solution! We got straight A's for our essays, & we knew that the Lord was with us so we didn't worry, hurry or flurry when some made a fuss. I'm sure will go down in history as the samerest kids of Huckaby!

SO IF YOU FEEL "DIFFER.

ENT", don't get blue! Cheer up & thank the Lord' cause this could happen to you! Don't let the Devil get you down, & don't let some other kid steal your crown! Love, Faithy.

FAITHY'S VISIT WITH DAD & MARIA!

DAU & MARIA!

Dearest Dad
I'M STILL IN LOVE WITH YOU!
And alweys will be! You are the
Love of my life, besides Jesus. &
Awa always loved me & given me all
i ever needed or wanted in the wonderful life of service we have.
IT'S SO SAD THAT OUR BACKSLIDDEN LOVED ONES DON'T
APPRECIATE all you give them &
how you loved them more than anyone ever could. But I guess they have
to learn the hard way, as that's the
way they've chosen.

THE REACTIONS TO THE IRF
& WMMM IS FANTASTICI I
couldn't stop crying as I read them.
You're the true shepherd gathering
the stray sheep. My God, how
many more there must be & how
important this new ministry isi—Our
greatest yet! TTL!
THANKS SO MUCH FOR YOUR
LOVE & CONCERN in sending Alfred & others to talk with us & visit,
especially Little David who is always an inspiration! He's so smart
& really grown up, a real sample!
The tapes of Daddy Stories have
been such a blessing. Thanks for
sending them over. We fall into bed
at night & listen to them till we fall
asteep, so peaceful! I'm still a little
girl, I guess, 'cause I love 'em!
THE FIRST TIME MEETING HIS
"GURU", JUAN WAS A BIT
SPACED & VERY QUIET (as he is
usually with new people). GBH!
He didn't want to miss a single word,
tho' & said later he loved your simplicity & that you are just like your
Letters he's been reading for over
Jyears!
IT'S SO WONDERFUL TO HAVE
YOU IN PERSON a little bit too,
as we love the flesh as well as the
Spirit of our prophet, as you really
inspire us with your sample. Juan
said you're the most like Jesus must
have been of anyone he's ever seen
or that must be alive today!
"JESUS NOT ONLY PREACHED
HIS MESSAGE, but He lived it. He
was not only the Living Word, the
Sermon, but He was also the Living
Work, the Sample! The greatest
guide is the one that shows the way!"
(From "Daily Might" No. 3.) And
that's so different from the other
samples he's seen from Deb & Jeth
& Rachel, like night & day, he said.
HE'S SO THRILLED TO HAVE
HAD THE PRIVILEGE TO SEE
YOU. He has loved you thru' your
Letters. & they are what gave him
the faith to go on no matter the
sample of others because "My theep
know my voice & they follow & a
stranger will they not follow", Jesus

said.
WE'RE SO HAPPY TO BE HIS
WE'RE SO HAPPY TO BE HIS
WOUR SHEEP, & we feel so sorry
for those who are not & even for
those who are not are but have gone astray.
But "train up a child in the way he
should go & when he is old he will
not depart from it" (Pr. 22:8)

gratitude for this privilege to spend a few hours with you. T.Y.I.
IT WAS SO THOUGHTFUL OF YOU TO COME BY OUR HOME TO SAY GOOD-BYE. I guess the hardest thing about our visit is leaving, as it really was beautiful Days of Heaven, fellowshipping with you both, Little David, & all your precious staff, & having all those Letters, rough drafts & tapes to keep us high in the Spirit, T.Y.I.
I PRAY I CAN HELP OTHERS & share with them the same love I have received while visiting you! There are so many beautiful lessons in the received while visiting you! There are so many beautiful lessons in the received while visiting you! There are so many beautiful lessons in the received which will be to be how these experiences have have you, I'm so thankful for them as from them we are learning how important it is for us to stay very very close to the Word!—And how the Lord & you are so loving & mecriful, even to those who have left you! I CAN SAY FROM MY EXPERIENCE ON THE FIELD that the Family loves you & the Lord's hould be the compact than ever before!

The IRF is so inspiring! GBY for always leading the way & pioneering. I love you both very much & with the Lord's help! Orav! Will continue to do my job to the best of my ability & take good care of your precious staff & to Davidito & our precious fittle Knew Disciple Queen Techi. She's so beautiful, just like her Daddy & Mommy! GB&KY! Yours forever, Juan.

FALTHY ON TECH!!

FAITHY ON TECH!!

FAITHY ON TECH!
From Feith David:
Dearest Dad & Maria,
GBYI ILY! IT'S SO WONDERFUL TO BE HERE & to say a little
"hello" by phonel Tks! It was really fun having Davidito & Davida
over for lunch today. They are really quite grown up now! They told
us they were not all able to come,
because Techi wasn't here. We can't
wait to meet her, especially after
reading about her in the last part of
"The Timothy Revelation"! She
must be very very precious & reelly
a joy to your hearts!
I WAS SHOCKED, THO', WHEN

I SAW HER PHOTO in the FN, now much she looks like you. Dad, nose & sail Ha! I was thrilled, to tell you the truth, when I saw her photo, to see the unmistakable resemblance! PTL! He never fails to full-fill His promises, even sometimes above & beyond our expectations! I'm just thrilled thrilled thrilled! Let all the doubters beware—& let the true believers rejoice! All Hail to the Queen & the King & the Princess! WLY!—Faith.

FAITHY'S REACTION TO You Are What You Read!

I KNOW FROM PERSONAL EX-PERIENCE that if I even read too much of "Time" magazine, it begins to take its toil, because they also are filling you with their point of view besides the news, & then you have to read a Letter to get God's point of view!

besides the news, & then you have to read a Letter to get God's point of view!

I REALLY AGREE 100% that we all need to spend our time in the Word, as I have found this is the only way! I can really help others effectively, & fend the sheep, is to fill up my heart, to paraphrase a MO, & then I don't have any trouble knowing what to say or what to do. I FIND 1 JUST DON'T HAVE TIME TO READ THINGS NOT ON THE SUBJECT, & there is so little time to read all that I need to read of the Letters & Bible, not only to help others but also for my own personal spiritual upkeep & inspiration with such a heavy responsibility as we have.

I GO TO A MOVIE ONCE OR TWICE A MONTH & sometimes not even that, if I want to relax & change scenery, as it doesn't take that much time (which is so valuable) & it does the job in a hurry & you really don't have to dwell on it very long, as you said, especially if it's not a good one.

MAYBE ONE REASON ONE
AREA IS SUFFERING & they can't solve their problems etc. is that the shepherd reads too many other books (not just general info books or about the culture of the peoples of his area etc.) which may be having a negative influence on him, according to "YAWYR".

IT WORRIED ME AT THE TIME & I EVEN MENTIONED TO HIM that I could barely find the time to read what I need to read of the Let-

need to protect God's sneep & His Kingdom, & even His King, in the times we live in. Thanks for hearing from God like you do, it's such an example for ust. Love, Faithy.

"CHILDHOOD SEX!" (No. 779):
I like it! I treminded me of how you used to put me to sleep when! was a little girl, 3 or 4. Wow! Daddy did it best! Back rubbin', that is, & front rubbin' fool. The others, our various babysitters, just rubbed your back raw, & it idin't even feel good, so! would pretend to fall asieep as fast as possible so they'd stop. It felt so good when they stopped! Ha!

BUT DADDY JUST MADE ME
FEEL GOOD ALL OVER & Idin't know why, but it would really put me to sleep with a sigh! PTL! I don't think it perverted me none at all, but it sure converted me to His Call! So! believe our parents should try it, & help our kids get the natural habit!

WE PRAY IT'LL WORK, then Junior won't be a sexual jerk! It worked for me as you can see, I just do what comes naturally! Oh! could write a book, but this is just a look, into my childhood sex!

Aaron, Sky & Family in

Australia:

WE WANT TO TELL YOU ABOUT
A NEW MINISTRY the Lord has
given us thanks to Dad & the NRS
Letters. Our children's singing ministry has been such a blessing over
the past 5 months & has been good
for all of us, especially the children.
WE ARE STILL AVERAGING 2
SHOWS A WEEK, mainly on the
weekends now as Zion-6 is in school.
Months back when "Door To Door
Witnessing" came out. I knew that
was an answer to our personal situation for a more concrete & established long-term ministry & to allow
us to do more personal witnessing.
WE HAD NEVER DONE ANY
DOOR-TO-DOOR WITNESSING
be for & I've been in the Family for 8
years. So it was quite a purge for
me to even think about it, altho' I
knew that if we were to be able to
continue to serve the Lord full-time
that this was the answer.
WE HAD BEEN DOING SO MUCH
WITH THE CHILDREN in the community that we decided to put together a "local pub" with news &
photos of all the shows we had done
in the past 4 months, with a personal
letter on the back summing up our
beliefs, goals & desires made up of
Mo quotes. Along with this, we put
together a song tape of 12 Family
songs that we sing in our shows, on
the streets etc.

THE PLAN WAS TO SELL THE
TAPE DTD, & everyone that bought a
tape was automatically put on our
mailing list. If they didn't went a

The pecople who buy the tape usually invite us in so they can listen to it before buying if & that gives us a good opportunity to witness to them & show them our PB photo album that we take with us everywhere. The Letters Into Chinese

The biggest need now in the pioneering of China!

the Chinese TCC newsletter: THE TRANSLATION OF THE LETTERS INTO CHINESE is the biggest need now in the pioneering of China. So far, the number of Letters printed & usable is about 20, since the first Family came ere about 5 years ago. WITH THE RNR, THE PRINT-

ING REV. & NRS, many volunteers of brothers & sisters have started taking initiative & are working together on the Letters like never before. Now we have a TCC (Translation-Communication Center) & solid publications work set up. This is the first time that the pub

work has really gotten rolling & we can see God's hand in it pushing it

forward.
IN THE PAST FEW WEEKS, our have been able to make a IN INE FOOL.

It shall be been able to make a big push in translating & proofreading not only the new Letters but also some of the much needed Basic Letters, such as "Daily Might! & 2", "Revolutionary Rules",
"Look of Love", "God's Explosions", "The Church System" &
"Larrer to a Labourer".

sions", "The Church System" &
"Cetter to a Labourer".

AFTER THESE ARE PROOFREAD, we'll send them to the typist. Last month the Lord helped
us get a record number of 17 Letters
to the typist! PTL!

TYPING CHINESE is a very interesting but complicated process. Instead of being finger-operated, the
Chinese typewriter is hand-operated!
Instead of about 50 keys, the Chinses typewriter can hold up to 4,000
characters in its tray at one time!

AFTER MEMORISING the placement order of these characters in
their slots on the typing tray, a
Chinese typist while typing weaves
a handle or lever back & forth over
this tray searching for the right character. When found, the typist
punches the lever down, lifting the
character out of its slot, pressing it
against the roller, & a word is typed!
RIGHT NOW ONE OF OUR
CHINESE SISTERS named Sheba,
along with her husband Gabriel, have
been learning how to type! Please
pray for them! Until then, our
good friend & catacomber, Timothy, is
doing a lot of our typing at a
cheaper price than others, GBH
WE HAVE A CHINESE TYPE
WRITER that is now being repaired
& should soon be ready for fulltime use—thanks to your help which
has enabled us to finance the repairs!
WE WANT TO THANK ALL OUR
FAMILY who have sacrificially donated to our Chinese Translation
work. This is your work, too, thru'
your prayers & giving & you'll

of the souls won as a result of your
giving. We appreciate you all & are

Thanks To Translators!

From Martha; South America:

I NEVER THOUGHT I'D BE SO
THANKFUL & appreciate our translators so much. You see, I always
took them for granted, as I speak
& read English & never had to worry about not being able to read or
understand the Letters.
HOWEVER WHEN WE PIONEERED our new Home here in
South America, it took a while for
our mailings to catch up with us.
The first copies we received were
in Spanish Since I was still fairly
new to the language, it looked hopeless to read several long Mo Letters
of difficult words.

BUT WE HADNIT BEEN GET-

TING THE LETTERS for nearly 3 months, so I was very hungry for the new wine & so out came my dictionary. I'd look up nearly every word at first. It got easier as I went, as I started remembering the words. But it still took a long time (& time is precious since I'm schooling my 3 children—8, 11 & 13 years). I was also afraid I'd translate it wrong & get the wrong idea. IT WAS A VERY GOOD EXPERIENCE for me, though. It helped my Spanish progress more rapidly & made me have more compassion on our disciples who don't speak English! God bless our translators & English! God bless our translators & way God speed! Love, Martha.

'Standing on the Promises of God'!

A CATACOMB MOTHER'S STAND OF FAITH!

m Esther: Spain:

From Esther; Spain:

I FIRST CAME TO KNOW THE
LORD in Isnuary 1975. I was married with 2 children, & my life was
just like that of many women who
are confused by the System, but I
wanted to find the Way, the Truth,
the Real Life. Then I met the Family, & Jesus saved me, PTL!

I STARTED TO SEE & BELIEVE
GOD'S PROMISES IN HIS WORD,
& these gave me the conviction to
have my second son Cesar be healed
by faith. Three years before he had
been born premature at 7 months
& was about to die. In desperation

Cess lived, but was still sick with bronchial asthma.

SO WHEN I READ THE BIBLE FOR THE FIRST TIME after receiving Jesus into my heart, my son & I prayed desperately, trusting that only He could heal him. Right after that I threw away all the medicines & took a strong stand of faith before my husband who thought I had gone crazy, ha! Cesar got healed & altho' he coughed a little bit afterwards, God gave me the strength so I would never doubt, PTL! This was quite a testimony to my family.

THE BREAKING PROCESS FOR ME CONTINUED, as 'God only

5 thed to but him best in the See One day after sharing with some of the Family livent home & read Pasim 139 that they had suggested. IT WAS A REVELATION OF THE SPECIAL LOVE OF JESUS FOR ME. When I finished reading, in the middle of my tears, I saw a blinding light & in the light the face of God, transparent, almost without features, & then the face of Jesus smiling at me with a radiant look of love! I have never been able to really describe this, because I don't have the right words. But I'll always be thankful for this proof that He Himself was willing to give me. After this came all the battles, the witnessing fever etc., & I was always strengthened by His Word & by that Look of Love.

I WANTED TO DROP OUT &

nessing fever etc., & I was always strengthened by His Word & by that Look of Love.

I WANTED TO DROP OUT & leave my husband & my children, because altho! I had found the Way & I wanted to help them to follow it, my husband insisted that I be the same woman as before. I still remember the day when Shaul & Melita told me that I shouldn't drop out, as the Lord had shown them this, & had also given them a name for me: Esther.

WHEN I READ THE BOOK OF ESTHER, my heart troke because I saw that the road was going to be a hard one, but I sainh 3:18-26 comforted me, Hallelujah! I went thru' a heavy battle, because I didn't feel love for my husband anymore, but the Lord gave me a greater victory the day that Gabrie! [Jeruslem's husband with the Love of God. Yesl With the love of God it would be possible!

With the love of God it would be possible!

THAT SAME DAY THE LORD
GAVE ME THE VERSE that totally broke me & made me yield to His will in my life as up to then I didn't want to have any more children. The verse was: "Shall I bring to the birth, & not cause to bring forth, saith the Lord: shall I cause to bring forth, & shut the womb? saith the Cod." (Isaiah 66:9.) I then felt bad & repented of having stopped any birth for more than 3 years.

SO ONE NIGHT I SURREND-ERED & GAVE MY ALL to the Lord & loved my husband as I had never loved him before. That night, Daniel, our third child, was conceived. The Lord let me know from

Voice of His Word. His Word says,
"Ask me of things to come concerning my sons" (Isaiah 45:11), so I
asked Him about the baby & He
said "His name shall be light, Daniel
Light, because he is going to lead
meny."

said "His name shall be light, Daniel Light, because he is going to lead many."

I ALSO PRAYED THAT DANIEL WOULD BE BORN IN THE LORD'S TIME & at 7 months pregnant I gave birth. This was another big testimony to my family & relatives. I remember that every other day the doctor in the hospital where Daniel was informed me of new ailments & complications in Daniel's health. WHEN I GOT HOME, I PRAYED DESPERATELY for his healing, rebuking the Enemy, sure that the promise of God would be fulfilled & that nothing would happen to him. The next report from the doctor was that Daniel had come back to normal, PTLI IN HIS FIRST 1½, YEARS, HE WAS A VERY MEALTHY BOY, but with 2 problems—crossed eyes & "pigeon toes". "You need to take him to a doctor," people advised me, but I never did & I just trusted in the Lord & the answered me! PTLI He has never failed me when I have been standing firm on His promises! "The whole world can fail, but God's Word will never fail!"

BY THAT TIME, I WAS STRONG IN THE LORD. making of my familiar in the control of the control of the promises of the control of the control of the promises of the promises of the promise of the promises of the promises of the promise of the

can fail, but God's Word will never fail!"

BY THAT TIME, I WAS STRONG IN THE LORD, making of my family a small heavenly home of love, day by day teaching my husband & 3 children, winterssing always & fellowshipping quite often with the Family. The Lord answered our prayers for a new house out in the country, just the right place to live the NRS Letters, as our former apartment had been open to visitors who wanted to know about the Family & everyone knew our address, as I had been defending & standing up for the Family. We also have a little garden where we have planted all kinds of fruit & vegetables, & we hope it's going to be a help for the future!

a neip for the future!
LITTLE DANIEL WAS ALREADY
3 YEARS OLD & we all had want:
ed a little girl for a long time. So
when I missed my period at the
end of November I knew that the
Lord had given us our petition.
"Delight thyself also in the Lord &

WHILE PRAYING FOR A
NAME for the baby, my oldest
daughter who is now 9 years old,
had a vision of a big book & a hand
that showed a name written in it:
"Anna Peace". Thank the Lord for
answering our childlike faith.
SHE WAS BORN AT 7 MONTHS
also. When I asked the Lord why,
the answer came to me as I was
praying at night in bed. He said:
"This is so to glorify Me. Just as I
was born in a manger, poor, to be a
sample to the world, so likewise
you need to give testimony ol My
healing in your children." I prayed
that the Lord would keep the baby
in the incubator where she spent a
month, & when I opened the Bible
I read the verses of Psalm I15: 13-18:
"He will bless them that fear the
Lord, both small & great. The Lord
shall increase you more & more,
you & your children..."
PRAYER: "Amen, Lord, I praise
thee with all my soul & I thank thee
for Thy Servant David & the wonderful words that You give us.
Please, keep strengthening all of us
so we will be able to faithfully tinish your work. In Jesus' Name I
pray, Amen!"

News From Nigeria Indigenous Catacombers, Native Customs & Future Plans!

From Corny & Nekoda Black:

From Corny & Nekode Black:
Dear Dad & Maria,
WE JUST WANTED TO DROP
THIS LITTLE LOVE NOTE to you
& to give you a word or two on our
field of Nigeria. Your Letters on
Africa are all so true, & being in Africa
has really taught us & showed
us the mercy of God. Conditions
are so dangerous here that we continually see the Lord's protection.
NIGERIA NOW IS VERY UNSTABLE politically with the sooncoming changeover from military
to civilian rule, & many feel the
threat of a possible military coup.
The Lord has done so many mirsoles, & you have many children
here who love the kisses of David,
although many fit into the category
of "weaker brethren". But we
know that God didn't make a mistake in sending us here & that they
also had to hear the words of David.
OUR CATACOMBERS HERE

also had to hear the words of David.

OUR CATACOMBERS HERE
range from students to businessmen & politicians. One, a government official & an ordained priest,
has helped us to stay in the country for the last two years & is a
strong disciple. He is a drop-in, secret disciple whom the Letters are
definitely influencing, & he is one
of the most influential men in this
part of the country. PTL!

ANOTHER FISH IS A CITY
FATHER & a very influential busi-

nessman. When we first met him, he was an alcoholic & very close to death, but after Nekoda fished him & led him to the Lord, he stopped drinking & changed so drastically that people thought he was crazy—going everywhere tafking about love & Jesus!

WE JUST PRAYED WITH R., another local government official, to receive Jesus! Halleligh! Nekoda is doing a little secretarial work for him at his office a couple of days a week. Thur' this, we have been able to lead the head of his sales force to the Lord, who is a winess already, & a secretary & others have prayed with us to receive the Lord too!

DOVE & JUDY, OUR NATIVE

have prayed with us to receive the Lord tool
DOYE & JUDY, OUR NATIVE
DISCIPLES, are continuing to DTO & litness faithfully, as well as use the TV media as a witness. Judy is now 3 months pregnant! PTL!
WE REALLY AGREE WITH THE LETTER "BLACK HOLES" (No. 726), especially the part that says Africa has had more light & that there are better Christians here than we have met in other parts of the world, especially America. The people here are simple & poor & are Christians more in deed. But they still have a battle between their traditional religions & their new-found Christianity. Demonism is rampant here. Most foreigners remark that

the conditions here are worse than any place they have ever seen. We can only thank God for His love, mercy & grace. He has taken this impossible situation & done the mir acle of bringing some light into this vast darkness!

parents. "Love" & "compatibility" are unheard of as bases for marriage.
BUT THE YOUNG GENERATION can only thank God for His love, mercy & grace. He has taken this impossible situation & done the mirracle of bringing some light into this yest darkness. The TRADITIONS OF AFRICA ARE VERY SMILAR to that of the Old Testament times where the chief can marry as many wives as he keep rovide for them. And Africa is such a poor so-terly that everything is based on economics.—Even the prerequisite for marriage is to pay the downy to the

West. We meet most of our fish thru' associates, business, social gatherings & hitchhiking.

WE'RE LOOKING FORWARD TO GOING TO OUR NEXT FIELD, Lord willing, S.E. Asia, where the need is much greater. We learned a lot of lessons in this field & did many things which we were unable to do before, due to our color, being black. But we feel we will use our experiences here sometime in the future, as the world is 'going color'. Well, we'll end this little report with "All Hail to the King & Queen of Love" Love, Corny & Nekoda.

HERE ALMOST TWO MONTHS & have made many friends. We have an apartment in a good location & our Spanish is improving rapidly. The teaching job is proving to be an excellent way to meet people. This is truly one of those small, **Newsman Follows Faith To Mideast!**

HE LIKES TALKING ABOUT HIS NEIGHBOUR. They often dine in each other's home, & their children play together. They are friends. He's a newspaperman in the Mideast & his neighbour is a Palestinian in exile. "This man is about the nicest man on the street," he says, seated in his parents' living room. "I had no idea he had been on the run, a guerrilla for four years." Such revelations are what fascinates him with the Middle East. AFTER AN ABSENCE OF FOUR YEARS, he returned to America for a month's visit with his folks, It was their first opportunity to meet their daughter-in-law & their 2 grandchildren. "I've always had a feeling for the Arabs, an under-

standing," he say, "And I've wanted to understand them more."

A POLITICAL SCIENCE GRAD.

UATE, he went to Europe in 1975 to work among the young people. It was there that he met his wife, who also professes a strong faith. "The main rason that led me to the Mideast was my Christian beliefs, & I have a great deal of synathy for the Palestinians—about one-third of them are Christians."
THE COUPLE LIVES IN A PAL ESTINIAN NEIGHBOURHOOD where they pay \$250 a month, half his salary, for a small apartment. They have no car, no television. Their children, they say, will attend schools there when they are old enough. Except by looks & language they are indistinguishable from their neighbours.

Step of Faith Into New Country

From Gallio & Taberah; S. America:
HERE ARE SOME EXCERPTS
from a letter that Gallio wrote on
arriving here on our new field, alone with our 22-month-old daughter Catherine, a real brave pioneer!

visiting my parents in South Africa
& joined Gallio later. Here's his

WELL WE MADE ITI PTL I don't know where to start—so much has happened—all miracles of Godl Our trip here was very long but the people along the way were friendly & helpful. At one intermediary stop, the stewardess offered to help with Catherine, & one of the flight crew, thinking she was alone, sent for a special helper to look after her. Then she said our connecting flight left from another airport 45 minutes away!—And that it would cost \$20\$30 to get there by bus or taxil

STRENGTHENED US & the bond
between us. Now that I see we can
make it work with a big family. I'm

there's no need for the addition of

THE FINANCIAL SQUEEZE IS
CAUSING US TO STEP OUT &

Thank you for your mercy so kindly shown to me. I'm sorry that, at I've done in the past so many times, I took the responsibility you gave me beyond your authorized limitations & guidelines & printed more than you would have advised. I got carried away & leaned to my own strength & understanding instead of the guidelines you set down. I pray the words we've printed will be able to get out & used before it's too late. The Uses and Misuses of the

Children's Music Ministry AND TIPS ON HOW TO MAKE IT A GOOD SAMPLE!

From Christopher; Spain:

ONE THING I'VE BEEN QUITE
CONCERNED ABOUT lately is the
children's involvement within the
singing & fund-raising side of the
Family. Some children I've seen
dislike & are weary of going out singing. They often have to be coaxed
& wheedled in order to perform, or
even forced with threats!
I CONSIDER THIS TO BE A DIRECT ATTACK ON THEIR CHARACTER that could have a marked
effect lasting to adulthood! The resson that they do not wish to sing in
the first place is usually quite simple:
THEY HAVE BEEN MADE TO From Christopher; Spain:

son that they do not wish to sing in the first place is usually quite simple: THEY HAVE BEEN MADE TO SING TOO OFTEN, for too long, with 100 much pressure, so that the singing ceases to be a pleasure & becomes a chore & a bore. The result is that if their sample & presentation is bad, IT COULD DO THE MESSAGE MORE HARM THAN GOOD, specifically if the children are dressed very poorly, or singing in places & ways that are normally associated with hippies—i.e., metro corridors etc., or singing for too long hours or when most children are at school or napping—Or when the children are unhappy & are obviously being coerced by someone. From the public's viewpoint, & mine too, this is just missing & mistreating the poor little kids! (Sara Davidito: Amen! "We were often having visitors for dinner & Daddy said. "We should never

fore Davidito to perform in public.
My mother did that to me when I was young & I got to where I almost bated people! Sing the nice people a little song—ugh!! Just let the children perform when they want to!"
("Davidito" Chapter 47-17.]
THE MOST SUCCESSFUL & FRUITFUL METHODS I've seen were when the children sang for short periods of time, with the children in matching costumes or well-dressed; singing at least a few if not all the songs in the local language, with a bit of dancing or step-movements, in restaurants or outdoor cafes, or sometimes on the open street, as opposed to metros. Generally, the more professional they look, the better the reception.
I'M NOT OPPOSED TO THE CHILDRING ING. This wonderful training & can be a tremensous witness too. I just wanted to mention some of the common faults & shortcomings, which, if allowed to continue, could be detrimental to the work & even in the lives of the children themselves.

I BELIEVE THE ANSWER LIES IN THE PARENTS' realising the situation & kidning prayerful steps to

IN THE PARENTS' realising the sit-uation & taking prayerful steps to overcome it. They in some cases might need to look for other means of financial support so that the sing-ing ministry may be more relaxed with less pressures & become a joy for the children instead of a chorel Love, Christopher.

WE-CAROLINA & ROSER—
ARE FREE TO SPEND ALL
OF OUR TIME FOR LITNESSING & FF'ING. (GBY!) These
months there are not very many people in the clubs, so we
try to take care of the Fish we
already have. Also we go out
to cafe-witness more, & sometimes to Santa Cruz, as there
are more native Fish.
WHEN WE MEET SOME OF
YOUR OLD FRIENDS & admirers, simple & humble people, like the photographer of
Capricho's, the flower man,
Chano, the waiters & also some
musicians from Columbus etc.
who continually ask about you,
we can see in their eyes that
they really love you & are concerned about you. SO PRACTICALLY ONLY

ALSO THE MORE IMPOR-IANT PEOPLE, like Enrique /allemar, Roberto S., Polo Iber-Vallemar, Roberto S., Polo Iberia, Edmundo etc. etc. are still interested in you. Now you probably know that in Capricho's we get free drinks. There is a new owner now for the Vallemar Hotels, Cap's & Cafe de Paris. Enrique is working in a PR job now where he is travelling more. Therefore Roser doesn't see him very often. But in these cases we try to take care of them when we see them.

ALSO THERE ARE SOME NEW MAITERS in the Cafe & Cap's, that are very sweet. In

NEW WAITERS in the Cafe & Cap's, that are very sweet. In the Oasis we also have 2 sweet friends. One is Ino. He is a Metre. The other one that Roser met is Carvelo. Ino is Carvelo's uncle. Carvelo received Jesus & the Holy Spirit with Roser & he started to have some classes & starts to witness already.

Going Strong!

LAST MONTH ROSER MET SOME OLD FRIENDS that she did not see for a long time, like Manuel Portuguese. He is the owner with his father of the big factory. She did not see him for about one year. The first time he received Jesus, & this time he got filled with the Holy Spirit. He is very hungry for the Word & especially about the End-time prophecies. So she sends him the classes by mail one by one. She had lost contact with him as he moved, but he came to Cap's with faith to see Roser there again.

WE ARE SURPRISED HOW A LITTLE BIT OF LOVE GOES SUCH A LONG, LONG OWAY! Another of Roser's Fish is Miguel (chemic inspector of the most important hotels in all the Islands & Peninsula). He received Jesus & the Holy Spirit. She keeps on ministering unto him sexually.

HE IS SO HUNGRY FOR LOVE because he has several problems with his wife & mother-in-law. He told Roser that he received her prayers for him, as he feels strength of

AS FOR GOLD LION PUBS & re-lated business, first of all may I apolo-gise for my many mistakes of over-estimating, over-printing, over-spend-ing & over-emphasizing color instead of sticking to our main job of getting the books done. If it wasn't for my mistakes mentioned above, the Fam-ily could have had Volume IV much sooner & maybe even Volume V by now.

HIS SYSTEMATIC MIND

LETTERS ARE CHANGING HIS SYSTEMATIC MIND! When Roberto S. is in Tenerife, Carolina meets him often & tries to help him & fill his needs. He starts to get along better with his son now. He tries to make this step of love to try to understand him better.

CAROLINA ALSO MEETS EDMUNDO PRETTY OFTEN, as his wife left him a long time ago. She feeds him with the Letters. We are sorry to report, but lately he has been taking a step back. He got into some other cults & started to stray away a bit. But as you say, "Love never fails"!

POLO IBERIA & CAROL-INA STILL MEET each other often. She continues to feed & love him. He still wants to have all the Letters of you & asks for you always. He is now working at the new airport in the South & helps the Family with trips.

PAUL HAMILTON, WHEN

PAUL HAMILTON, WHEN HE IS IN TENERIFE, STILL CALLS, & Carolina goes to see him & takes care of his needs. It's sometimes not so easy, as he is not saved yet, but we pray a lot that he will open his heart to Jesus. Paul has good connections with influential people. He talks good to them about the Family & wants Carolina to meet some of his Carolina to meet some of his friends.

WE COULD WRITE ON & ON, as we have more inspiring testimonies but we don't want to make you tired reading & reading, but Roser wants to share some more about Pepe & Chelo Artesania. They are growing a lot & are real Fight-ers. They also have a better & closer relationship to each oth

closer relationship to each oth er & have daily devotions when they read the Letters & pray for every little thing. BOTH OF THEM ARE IN-TO FF'ING. Pepe has some women on the line. One of his Fish is an Italian lady who is arround 50 years. She pe. nis rish is an Italian lady who is around 50 years. She received Jesus & the Holy Spirit. He helps her also. Pepe also witnesses to her daughter when they come together.

South or to other Islands for his business, he takes us along so that we can litness & FF also there. One of the places was the Island of Lanzarote, & we had success in FF'ing. Pepe helps us the most he can financially, which is a big help. The travels are a good occasion for Roser to help him.

Roser to help him.

ONE OF CHELO'S FISH IS a past Fish of Belen. He fell in love with Chelo. TTL! She takes good care of him thru' feeding him the Word of the Bible, the Letters & gives him classes. He gave a typewriter to Chelo. She types the translations of the Family News in Spanish & helps Juan & Victoria & Esteban as much as she can.

PEPE GOES PROVISION

ia & Esteval as more as in a can.

PEPE GOES PROVISIONING with us sometimes to the market.—He loves it! When he has no time to go, Chelo gives us her car so we can go. Both of them keep some money for Roser's travel. They love you so, so much & sometimes have dreams about you.

ALL OF US ARE REALLY HAPPY THAT THE NEW BROTHERS came to live here in the Trebol Home. (Rachel is now evicting them!—Dad.)
They also have the desire to go out FF'ing, altho' they have children. So we try to work it out in our schedule. But we still think it would be good if some single on-fire girls would come here—especially now when Roser is going to go to another e country. & Carolina can have a full-time partner to go FF'ing & burn free as long as she can (like we did it together!). Our personal opinion is that the best for FF'ing would be an apartment in the Center like it worked out in Bahamas.

PAPA, I (ROSER) FEEL IN MY HEART the desire, after all this time here, to go to another field. I feel it is going to

me, & especially after seeing all these needs for labourers in different countries. Changes are similar to dying, but they keep you alive. So after hearing that this change is ok also with you, I have the desire to go to a new country where the people don't know me, like here in Tenerife, where everybody knows me, that I am from the Family of Love. Sometimes it was a little difficult for me to make a more selah FF'ing like you write in the latest Letters.

PAPA, I ALWAYS KEEP YOU IN MY PRAYERS & in my heart, & I remember so much effort, that you gave me when you were here in Tenerife. Thank you so much!

PAPA, AOUI, LAS FLORES SIGUEN SIENDO ITAN BONITAS! como siempre, el cielo,

Itan azull y cuando el sol se va no hay otros colores mas lim-pios y luminosos. Con mucho amor, cariñosamente, muchos besos y un fuerte abrazo xxoo

Dearest Dad & Peter,

God bless you: It has been one month since I wrote the anniversary letter. Hope you received it alright. (Dad: This.) Thank you for returning my letter with your comments. (Dad: 16-2-Always glad to answer.)

John & I are doing well parked near a beautiful mountain stream with free camping. (Dad: Sounds great!) Stephen went back to Italy to pick up Adria I the Car. Also to talk to our helper who came out of Malta to renew his visa. (Dad:—100 bad you didn't settle down & write like I asked you to!—How come you let Steve drive the Ark when I forbade him to?!) Stephen & Adria sing in very nice restaurants & hotels in Italy & receive donations to provide for their living expenses. We also still financially help Daniel & Menorah & the team in Malta. We are so thankful for the financial help that you send (Dad:—III.) From World Services. Otherwise, it would be very hard to make ends meet & to help those on the mission field. May the Lord bless you far this sacrifice. (Dad:—This.)—He does, PTL:—Do you get the new Magazine (FN)?)

We wish that we could do more for the Family, but we do pray continually for all of you. It seems we have the same calling as Grandmother had in her latter years—to be an intercessor (Dad:—TII.)—He you failed to write—Just like she did:

We have written & received several letters from Deborah & have had two or three phone calls who wis "the knows!—She knows it! PF 241.—Why doesn't she write?] & wants to write you a letter. She is certainly not an enemy 3 does not speak against you. They have almost no constact with other Family members (Dad: If so, why not?) & seem to be totally occupied with survival.

(Dad:—Has some very good news that I want to share with you & is probably an answer to your prayers. Deborah has finally agreed to sending Joyanne to visit me in France. (Dad:—Good!) It is Joyanne's dream to return to Europe (Dad:—FIL (BMI) as she has never been able to make the adjustment to living in America. Even South America is not so deep in her heart as curope. Two nights ago Joyanne dreamt that she was in Italy. Deborah said she especially wants to see we are hoping that she can get cheap student fare which should be about \$200. Witnessing Under The Covers!

Discovering the Ins and Outs of Escort Work!

From Fe & Josnes; Australia: WE RECENTLY HAD A BIG INSPIRING FF MEETING to discuss the possibilities & poten-tiels of escort work. First Joann & I went "under the covers" to find out how the mechanics of the escort business works! FIRST I PHONED A LAW-YER who told me that escort

the escort business works!
FIRST I PHONED A LAWYER who told me that escort
agencies & prostitution are legal
here in Australia but that soliciting is not (welking down the
streets to get paying customers
& using your premises for the
act of prostitution for money).
WE FOUND THAT THE EXPECTATION OF ESCORT
AGENCIES DIFFER. For instance in Malaysia the agencies
only expect the girls to go to
dinner/nightclubs/drinks & finish
the evening with a goodnight
kiss; Sydney agencies expect the
bait to get swellowed! Often
you are paid according to the
number of hours you are with
the man & you are expected to
make love, altho' it is up to you

within the first 10 minutes or so to decide if he is a sheep or a goat & act according to how the Lord leads. This job certainly keeps you desperate with the Lord, he!

BUT WE HAVEN'T HAD A GOAT YET, FIL! In fact, because most of these men are sometimes desperate & have no choice but to hire a girl, we have found it extremely easy to lead 75% of them to the Lord! So alot of our time with them is not spent in bed, but talking, laughing, inspiring, opening their eyes to His new life. We have also given them selahed lit & once they're hooked they go to the agency & esk for us again & again.

WORKING FOR THE AGEN-CY, YOU HAVE TO BE CARE-FUL TO ABIDE BY THEIR RULES, one of which usually is that you cannot see the men except thru' the agency as long as you are working for that agency. But we do take the men's add-

resses so that when we quit the agency or leave, we can turn them over to another sister or to the Home for feeding. We have been counselling very closely with Amos O'Test who is Servant of a Sydney Home who is encouraging us & the sheep with his burden for follow-up classes & Church of Love-so necessary to keep these fish fed & give them the sample.

keep these than the da give them the sample.

SO OUT OF OUR FF MEET-ING & OUR 2 WEEKS OF PIONEERING ESCORT WORK here are some conclusions: Before getting into escort work, we feel it would be wise to first check into the legalities in your country. A possibility for Australia because it is illegal to practise prostitution on your own premises, is to open a totally selah FF apartment, just for FF'ing, with no formal lit lying around, using instead xeroxed typed copies or handwritten only, so that there would be no connections between the Work & the "under

cover work!

WE ALSO SAW THE NEED
FOR GREATER COORDINATION & FOLLOW-UP, as we are
meeting men from other States
& countries where we have homes.
One thing we all agreed we need

to be more faithful with is to write reports on the fish's progress. It seems the lessons to be learned are: the necessity of writing reports, not going on to somesome else's fish without counselling, faithfulness in passing on a

fish to another sister if you have to move, & the importance of counselling with the fishermen who are kept up-to-date with

Dearest Dad & Maria,
THANK YOU FOR YOUR KINONESS & LOVING CONCERN in sending us such a generous gift. We know how much you love us & could feel something very special in the Spirit. We feel so privileged & honoured to be a part of the beginning of His Kingdom here on Earth.

WE'RE SO HAPPY, HAPPIER NOW THAN WE'VE EVER

It came on June 4th, the day after Aola gave birth to 2 beautiful bables, each weighing 2% kilosl born healthily & naturally with no complications, TTL! It was such a testimony & victory. SINCE WE'VE BEEN WORKING SO CLOSELY TOGETHER WITH THE CHILDREN
this past year, we've found them to be nothing but a blessing & asset! It's such a witness to the people here in Portugal to see us living by faith & serving the Lord with 6 kids. Especially here because of the economic situation, the people live in such fear of the future, always worrying about money, the children's education etc. & have also been conditioned by much family planning propaganda.

Just walking down the street the other day we immediately had a crowd of people around us, admiring our big family. As soon as they started complaining about how bad life was to have children-IT WAS A PERFECT OPPORTUNITY for us to witness to a whole crowd of people about the Lord & His promises. Things like this happen all the time no matter where we go, & the Lord uses the children so much to draw people to us.

THE CHILDREN HAVE ALSO BEEN USED SO MIGHTILY in provisioning at the markets, where we've been going regularly. We've found the little ladies selling fruit & vegetables to be some of the sweetest, humblest & sheepiest people we have ever met. Joel, our oldest son, has stayed a couple of times with one of the ladies at her house, & they have bought the children shoes, given us money regularly as well as supplying us with their best fruit, vegetables, meat & fish!

LORD WILLING, WE'RE GOING TO START HELPING ONE

A LIFE CHANGED BY LOVE

MY NAME IS DONATO; I MY NAME IS DONATO; I was born of first generation Italian-American parents in April of 1927. When I married in 1951, my wife was a Southem Baptist but was willing to take Catholic classes to go along with my wishes for us to become a devout Catholic family.

us to become a devoir Carnolic family.

TO MY SURPRISE, my wife found that she could not go along with many Catholic doctrines, since they did not have a foundation from the Bible. Because of this mistrust of the Catholic church, she searched for something else. SHE FOUND IT IN THE TEACHINGS OF THE JEHOVAH'S WITNESSES. After having four children, my wife convinced me that the JWs were the best way to go & in 1968 I was baptised in Jesus & joined them.

& joined them.
IT WAS NOT EASY to live by the strict code of Bible in-terpretations laid down by the JWs. I tried very hard to be a good example to my family & I became a ministerial servant in the concernion.

I became a ministerial servant in the congregation.

LIFE WAS GOING AS TO BE EXPECTED for an American with two years technical training after high school. I finally began to sort out things financially. We had a modest home & my daughter & oldest boy had graduated from high school.

BUT I WAS ALWAYS
TREATED LIKE A "FIFTH WHEEL" or "three's a crowd" with a couple. It was difficult to make dates with women in the congregation & the few there were considered too young for me. I lost interest in the

people who considered me a threat to their wives or didn't

openly invite me to their homes without my suggestion. SO I WENT LOOKING FOR COMPANIONSHIP ELSE-COMPANIONSHIP ELSE-WHERE. I tried the cocktail lounge circuit but found it unrewarding as everybody was looking for something but not willing to give for fear of being hurt. I went into sports, took up tennis & bowling in lopes I would find someone. It was the same—everybody afraid to let go for fear of getting hurt.

THEN I TOOK A BUSINESS
TRIP TO FRANCE & some-thing happened that was to change my entire life! In June of '78 I went to Toulouse, France & during a weekend trip to the little country of

Andorra, I met Senaan I FIRST SAW HER WITH HER TWO DAUGHTERS, HER TWO DAUGHTERS, Printemps & Lovelight, singing in a restaurant. The songs were intriguing for they had a message of hope & future happiness. I talked to Senaah & immediately felt her love & concern for her fellowman. I invited her & her family to have dinner with me later that week. I must tell you of our next meeting because I know it was ordained of the Lord!

I CAME CLOSE TO NEVER MEETING HER AGAIN, because I missed her phone call.

MEETING HER AGAIN, be-cause I missed her phone call. But I just happened to go to a new restaurant to eat one evening a few days later, & in came Senaah to that same res-taurant to sing! That meeting

keemed like pure chance, but I know now it was a set-up of God & from then on I was in the Lord's hands.

LATER THAT WEEK I MET HER FAMILY & they talked about their love of Jesus & what they did to win others to Him & about their Family. Her mate, Levi, offered & did share Senaah's love with me. It was the most wonderful thing that ever happened to me in my life!

IT WAS THAT SHARING

ever happened to me in my life!

IT WAS THAT SHARING

OF THEIR LOVE & their example that convinced me that
the Family was where! belonged. Now I've spent two long
wonderful vacations with them.
I have shared in their daily live ing for the Lord with their love of Jesus & David & Maria. They shared the Word & the

Letters. They made me a part of their home & shared with me so many wonderful things. I learned about David's ministry of FF'ing & how it has won so many souls to Jesus.

I HAVE SEEN & FELT HOW THEY LOVINGLY GIVE of themselves to others. I know now how important it is that I give of myself to others & follow the example of the Family & try to be a part of what David has shown to be the only way to live & love.

DEAR DAD & MARIA, I WANT TO THANK YOU so much for being you & sharing your love with the world, & I hope someday I may become a full-time member of your loving Family. God bless you all. Love, Donato. (GBY!—MM.)

A GIRL IN MY FAMILY IS NOW SAVED & reading Mo Letters! She loves them. This girl is married & has a little baby. From the day I joined the Family I was always in touch with her thru' the mail. I knew her problems, & the problems she had are the problems of all Arab girls.

& Jesus. Mohamed had a father of this world & a mother of this world like everybody. But Jesus had only a mother of flesh. His father was not from this world. Look at these verses in the Koran. AND I SHOWED HER THE VERSES: "We (God) sent Our Spirit to her (Mary) & He (the Son) was given to her in the form of a perfect mortal." I explained that's why Jesus is more close to God & has more authority than anybody else & that's why Jesus can really help you. We read more verses about Mary, Jesus & the promise of the birth of Jesus thru' Gabriel the angel, in the Koran.

SHE WAS REALLY AMAZED to know these truths for the first time in her life. Then I quoted Rev. 3:20 & we prayed for the Lord to come into her heart & to pour out His Spirit & to help her with her problems. We talked about the new relationship she will now have with her husband.

Caravaning With Children

How to live together by grace in a small space!

IT HAS BEEN A REAL BLESSING TO HAVE THE CHANCE TO CARAVAN WITH THE CHILDREN! It's been a big <u>education</u> for us all, a whole lot of <u>fun</u> as well as hard <u>work</u>, but the <u>blessings</u>

a whole lot of tun as well as hard work, but the blessings by far outweigh everything else! The new series on Camping will save us a lot of time & work on organisation & our day-to day-living. We are always striving for better efficiency in everything we do so we have more time to take care of the things that need doing. CHOOSING A VEHICLE IS A MAJOR DECISION. We needed one quickly & knew it would have to be the Lord if we even got one at all. The one we found was a very good deal. It is a used German-made caravan in very good condition, very homely with an eating area at one end, kitchen area in the middle & a small bedroom at the other end, as well as a toilet & washup room. Altogether it could up room. Altogether it could sleep 7 adults. It is 19 feet long & made of aluminum with a galvanized steel chassis so it won't rust, thus guaranteeing a longer life. It also has 4 wheels, which is much easier &

om Arthur & Becky; Europe: safer to drive than one with 2 safer to drive than one with 2.

WE DID A LITTLE BIT OF
REMODELLING to better fit
our needs. We took out the
toilet-washroom to convert the
bedroom into a bigger one,
sleeping all 4 children in their

make up the bed in the eating

a major project which brought
a stop to everything else. We
moved the toilet wash-basin to
the entrance hall complete
with medicine cabinet & mirror which makes a perfect spot
for the children to wash up &
the men to shave.
SO NOW INSTEAD OF A
TOILET ROOM WE HAVE A
TOILET TENT which we can
pitch if we need it. We bought

of the bigger, more expensive

So we found out it's much easier living with a 5-ring circuif you just give them a little more room to play. So the awning has proved to be a very valuable asset.

ALSO INCLUDED WAS A SMALL ALTERNATIVE PORCH AWNING for just the entrance to the caravan, about

6 feet square. This we have used a lot on 1-2-night stays, as it has room to hold a lot of the items which clutter & cramp the inside of the caravan, such as the potty, food cooler, box for wraps, box for shoes & trash can.

thanks to the Family we picked up a few more essentials along the way!
WE LEARNED THAT EV-EVERYTHING WE BROUGHT WITH US HAD TO BE ESSENTIAL & have an important use. Also we discovered that every bit of equipment, clothing, supplies etc. had to have its own particular place. It its own particular place. It had to be organised!
WHEN FAITHY & JUAN

CAME FOR A VISIT, she said this was something she had learned from caravaning had learned from caravaning too. It was great for us to cut down on "things", as after living in a 2-story, 5-bedroom house for a year you can accumulate a lot of unnecessary junk. So it really felt great to "lay aside all the weights" & gave us a real sense of freedom from things!

ONE PIECE OF EQUIPMENT WE FOUND TO BE

picnic table & stools for eat-ing outside the caravan. After spilling milk, yogurt, coffee, orange juice etc. all over the dining area seat cushions & then having two of the long zippers break after washing them, we finally not the point zippers break after washing them, we finally got the point!—Save the <u>caravan</u> & <u>eat outside!</u> Anyway, our meals have been a lot happier & less tense ever since & now we have a caravan that stays looking nice & clean longer, a good sample & quiet place to take visitors or have school with the poil! or have school with the chil-dren. We also found that leavoren. We also round that leaving your shoes outside the caravan saves the carpets inside from getting so dirty all the time. So we have a long row of shoes outside the caravan every night!

THE CHILDREN ARE ALL LEARNING MORE RESPONSIBILITY as they participate.

SIBILITY as they participate in the family schedule, cleaning & picking up, cooking & doing other little chores in the caravan & under the awning. They are all eager to be a part of the team & do their part, even helping out with the ba-by & handwashing the baby's

The children have been a big help in taking care of the physical side of things, & the spiritual tool They are on the devotional schedule too & look forward to their day to participate by leading it. So, time teaching them to take care of themselves has really payed off.

I WAS VERY IMPRESSED WITH THE CHILDREN! I think maybe one of the reasons the Lord even sent me there was to see this good sample of how they have trained & taken is care of their kids. Eva-5 is a very, very strong little soldier in the Lord, also very sweet & loving, mature & responsible. She knows her Bible back & forth, & she applies spiritual lessons to everything you tell her, memorisse everything you tell her, memorisse everything she hears.

IN PUBLIC SCHOOL LAST YEAR, she led 40 souls to the Lord & goes cade singing like a real leader.—A real shining example of what can be done! The girls have never gone to Family schools, & the mother has been a miracle-worker, giving these two kids school together every day,

HUGHES, 28, WAS WORKING as a director of Political Studies at the Galiop when a sister met him in 1977. He was Ff'ed by this sister, then by Tzah, & then by Esther who was 6 months pregnant at the time with her third child after a sad experience with Mother's team & her first husband left her & the team. HUGHES FORSOOK ALL & started living with Esther the very same day her third son was born! Hughes started to work on translations but shortly after the RNR he felt that he could reach some key top people if he returned to his work on an independent basis. HIS RESEARCH WORK BEING VERY WELL PAID, he helped a lot of brethren & even got one Home out of an incredible debt, God bless

"IRF" came out, he felt he did not went to be less than 100% & the Lord spoke to him about returning to where he got off & going back to the Word & helping get it out. SO NOW HE WORKS PART-TIME & SPENDS THE REST OF HIS TIME IN TRANSLATING & finalising the Letters & provides some work to another brother who this weay can support his family of wife & 3 children but still work on translating & get out litnessing one day a week, PTL! HUGHES & ESTHER MAKE A VERY GOOD TEAM for the Lord's work & the Lord reality gave Hughes love for her as well as for her 3 little boty as tho' they were his own! It is so encouraging to see how the Lord has been pulling them together & working in both their lives! From Hughes:

LOVE QUEEN
One day she came to me
Riding on love's wild wind
She gave me a hug & a kiss
And my head began to spin. I went into a dream As her spell was cast Her words touched my soul What a loving lass! I looked into her eyes And saw her loving light A new day was born As fast fled the night.

She touched my broken soui,
All my wounds were healed,
Her love made me whole.
As fast as she had come
She was gone again
But she hadn't left me empty
A fire of love now burns within.
So thank You Jesus for Your
Love Queen
Whom you sent to me
Bless & keep her safely
For eternity.
And one more thing I ask, Lord,
That she come to me again
For as a brave pioneer
I would dare explore her den
(& would be the happiest of men!)
Just as she brought me up (& would be the happiest of men!)
Just as she brought me up
From the murky depths below
I would rest upon her mountains
While in her fertile valley sow.
So if it be Thy will, Lord,
Grant me but this one thing
And I will be truly grateful
And of Your love will forever sing!
LONG LIVE THE LOVE QUEEN!

A Letter of Comfort from M&M!

To their personal secretary upon the eternal Homegoing of their sick baby, July 1979

Dear Keren & Vince,
WE LOVE YOU SO MUCH &
HAVE HAD YOU CONTINUALLY
IN OUR PRAYERS LATELY that
the Lord would strengthen & comfort your hearts during this difficult
time. You're really precious to us
& we suffer with you knowing that
you've been saddened by the suffering of baby David & his subsequent
departure.

departure.

BUT WHEN WE HEARD THAT HE HAD RETURNED TO JESUS, altho' sad for your sakes, we were relieved that his suffering was over & he is now whole & healthy & happy. How sweet of the Lord to give him to you for nine months to nurture & enjoy & then to let you see him & love him a little & then to take him back after he had accomplished his mission.

WHAT WAS HIS MISSION? We know that everything that happens in this life is to teach us some kind

of a lesson, even if only to make our hearts broken & more tender & loving & to be able to feel for others in their sorrows, too—that we may comfort others with the comfort wherewith we are comforted.

NOW YOU WILL BE ABLE TO BETTER UNDERSTAND & feel for those to whom you minister in such a beautiful way thru'the mail, & you will be an even better ambassador for the Lord & His Kingdom.

YOUR HEART WILL BE MELLOWED & BROKEN for those who wire to sabout their children who are handicapped or afflicted with serious problems or who have gone to be with the Lord. You will be able to counsel them with greater conviction & sympathy to say thru'their tears, "The Lord gave & the Lord hat taken away, blessed be the name of the Lord" & that "all things really do work together for good to them that love the Lord".

their sick baby, July 1979

A BABY MAKES & KEEPS YOU HUMBLE one way or the other, & the Lord evidently knew what was best for you. His way is perfect. While we were discussing & praying for you, Dad said, "It's wonderful to know that the Lord is in control & He has a place & provision for babies on the other side. What a nursery He must run!"

AND THE LORD CAN CERTAINLY TAKE CARE OF THEM better than we can. Could it be, Keren, that with your important ministry for the Lord to many, many little lambs of His Kingdom, that your time was more needed for this work He has to use you to do? He can care for baby David, but He gan! write the beautiful comforting letters of encouragement that you do, helping us to fully fill His commission: "Lovest thou me?—Feed my sheep!"

I WANTED TO PASS ON SOMETHING ELSE THAT DAD MEN.

Music with Meaning songs are not just delightful songs
But they enrich my thoughts too, giving a hope that's strong
All we have to do is tune into Sri Lanka Broadcasting Corp.
And there comes the Music With Meaning, with those lovely songs
Which just come gripping hearts with a love that lasts long.
I really feel that those people who come home every Sunday
Thru' the radio are real happy by their songs so gay.
I've often been enlightened & felt my spirit free
As they sing of their own delivered lives & a love that's so real
My heart just reaches out for that love & the joy that they feel.
These songs have crystallised beautiful thoughts
That as I sing them, they just thill my whole heart—
Much more the love of Jesus that makes our love more genuine
Flow thru' these songs & the singers
Binding us all together as a family that lives on forever.

Confessions of a Former KQS!

Apology from Kenaz & Hodiah!—And plans for the future! "If we as 'fallen leaders' can stay faithful, maybe it will encourage Timothy & others!"

Dearest Dad & Maria,
ILYI I HARDLY KNOW
HOW TO TELL YOU HOW
ASHAMED I AM to have failed you so badly after you've
both shown such love & faith
towards me. Honestly, I can
hardly keep from weeping
constantly knowing that my
sin has brought you more constantly knowing that my sin has brought you more pain & sorrow. The Lord & you both have shown me more mercy than I can possibly comprehend. I've been so comprehend. I've been so week, & with so little excuse. God help me not to fall prey to excuses—which I know only grease the path of the backslider.

I'M SO THANKFUL, we are I'M SO THANKFUL, we are so thankful, for this chance to bathe once again in the cleansing waters of His Word. Already the Lord has shown us so many encouraging things from His Word—the Daily Lights & Mights for the past few days (24&25) have been like direct prophecies to us: Examples from the Word of people falling but rising up again & coming thru' the testimg fires finer gold & a testimony to strengthen others. THE LORD REMINDED ME OF PETER when he sank

THE LORD REMINDED ME OF PETER when he sank beholding the waves, & yet even then, when he cried out for Jesus to save him, He did. I know the only reason I sank was taking my eyes off Jesus, but I'm so thankful that in His mercy He saves all who

cry out to Him—even tho' the sinking is their own fault.

WELL, WE'RE LOOKING AT THE TIME AHEAD with a real sense of challenge & joy in knowing God is going to do wonders as we humble ourselves under His mighty hand & let Him remake & use us. We're looking forward to the opportunity once again to do more witnessing, litnessing, witnessing with the children, Ff'ing, Open the Door, Church of Love & so many other things we've been unable to do for security reasons.

NOT HAVING DONE
SOME OF THESE THINGS has also made it difficult for me to encourage anyone else's faith—but now, by God's help if we can do it, then I believe in this way we can be a sample that will encourage others with large families to make it as well.

IF WE, AS "FALLEN LEAD-ERS", CAN STAY FAITH-FUL, & as a result reap God's way. (DAD: Amen!) Anyway, we sincerely want to please the Lord, & are so thankful to Him & you for the mercy & encouragement we've been shown to continue on, perhaps eventually to greater usefulness than ever before, God willing.

WE REALLY DON'T WANT TO LET ALL THE TRAIN-

ING WE'VE HAD GO TO
WASTE. In some ways I feel
like I've been like Thomas, &
you like Jesus have permitted
me to feel the wounds & know
that it is He, more than most
ever do. It encourages me that
even a doubter like he went
on to pioneer India & win
thousands of souls to the Lord
there, & die a martyr's death!
I pray the same will be said of
me. Please forgive me & pray
for me that, like David of old,
tho' I sinned greatly, I will also repent greatly, & bring forth
the fruits thereof. (DAD: 4men!) With great love & prayers & thankfulness, Kenaz.
(PAD: GBY! We're hoping 4bir thines. WI. Y!)
P.S. THANK YOU FOR
YOUR HELP & prayers for the
kids. They are all improving
deily by His grace. And thank
you also for the pioneer loen
to get started. I really pray!
can repay it with interest. In
fact, thank you for everything!
I love you deeply! GBY!

From Hodiah:
Dearest Dad & Maria,
I WANTED TO ADD A LITTLE NOTE to thank you personally for your great love & kindness & understanding in seeing our needs & so mercifully giving them to us! I am so sorry for having failed you & the Lord & His work & Kenaz so badly, but I really pray & believe that by His unend-

ing love & grace He can use us to reach many lost souls & be samples to our precious disciples that the Words Work!

JESUS NEVER FAILS & if we serve the Lord with all our hearts, souls & minds He will lead & guide us every step of the way & provide exceedingly abundantly above that which we can ask or think! (Eph. 320) This is a real answer to our hearts' prayer, & we believe it is a tremendous victory & is already bringing us so much closer to our lover Jesus & you & our children & loving Family!

SO THANK YOU AGAIN for being such a loving father & sample, & you Maria too! We need you so much & thank Gord for you & Moorfel.

& sample, & you waris too:
We need you so much & that
God for you & the Words!
We'll be writing more soon
with lots of thrilling testimor
ies! We are praying for you!
With much love & devotion,

Hodiah.
P.S. FAITHY & JUAN HAVE
BEEN A TREMENDOUS
HELP & ENCOURAGEMENT
to us, & have helped us so
much to open our eyes & look
to Jesus! Thank you for asking them to stay & help for a bit! GBT & you both!

Faithy's Report on Kenaz!

From Faithy & Juan, Dad's
"Flying Ambassadors":
Report From Greece—
Dear Dad & Maria,
AFTER RECEIVING THE
RQL LETTER, we had a meeting with the KQS's here to kind
of see what was their opinion
of it. First impression was
that Kenaz was very nervous &
uneasy about it. He has had a
fear of losing his job & that
then he would not have a way
to support his family!—To the
point that he has even said that

back to the U.S. for a while & get a job there & then Lord willing come back to the field. WE FELT THAT HIS VISIT WITH TIMOTHY & DANIEL-

WE FELT THAT HIS VISIT WITH TIMOTHY & DANIEL-LE really had a greater effect on him that he himself realises. He has expressed several doubts about finances & we have noticed that he personally has little faith for finances; may the Lord help us to be honest & fair in the reporting!

WE HAVE BEEN HEARING ALSO ABOUT A FEW THINGS HE HAS BEEN RECOMMENDING PEOPLE TO DO, such as not asking for donations or help from the Fish & friends, saying that this is not Europe & things here are done different. From talking to the FF'ers & even Hosanna & Abigail, they feel that this attitude shouldn't be, & that the Fish here are very welling to give in return for the real love our girls show to them.

KENAZ ALSO GOT THE HOMES HERE IN GREECE

KENAZ ALSO GOT THE HOMES HERE IN GREECE TO START SELLING LITTLE HEART STONES, which is a business a couple of brothers started in India. But the thing is, the kids are questioning where the funds are going. We were questioning the project, as the 2 brothers are making more than 100% profit on the kids. They buy the little stones for U.S. 10 cents & sell them to the kids for U.S.\$1.30.
WHEN WE JUST ASKED

WHEN WE JUST ASKED KENAZ IF HE KNEW abou KENAZ IF HE KNEW about the business as they were using "our" salesmen to sell them, he really got on the defensive & even got upset about it that we would even question it.

LATER WHEN TALKING TO HOSANNA ABOUT IT, we hard that some of the kids hat

heard that some of the kids complained about it & were wondering whether this was

something you had approved, to which Kenaz made them know that he had already writ-ten you about it & you knew

hat was going on!
BUT TTL, KENAZ AGREED BUT ITL, KENAZ AGREED that the fair thing to do would be to ask the 2 brothers to send a report on how they were do-ing so the kids can know how the money is getting distributthe money is getting distributed.—Just like what you do with

the money is getting distributed.—Just like what you do with us with the pie graphs.

WE HAVE HAD GOOD

MEETINGS WITH HOSANNA & ABIGAIL & feel that they are doing ok & seem to be faithful & very thankful for how the Lord & you still place any type of responsibility on them. He seems very open & willing to help, & do their best to help. K&H ALSO SEEM TO BE COMING ALONG & we feel that with some help & guidance & lots of love & encouragement, the Lord will be able to use them to help out in an area which they know very well & have great love for the sheep. We are just praying for the situation & for the Lord to help them to come back on the wall & be able to help their new mate make it also, if it is the Lord's will for them to continue their relationship.

THE LORD HAS BEEN GETTING TREMENDOUS VICTORIES after the Letter "No Lit, No Letters" & the kids here are very thankful for it. It really has convicted many, & they are beginning to distribute more, even if they have to do it in a selah wey. TTL!

ALSO THE LORD IS CONVICTING THE LIT INTO THE

VICTING THE KIDS ABOUT GETTING THE LIT INTO THE LOCAL LANGUAGE & to help out the most they can to make it possible. Also they would like to have their VS's & are trying to raise up suppor to make it possible. TYJ! to make it possible. 1 7 Jz
THESE COMING CHANGES

MIGHT BE A GREAT VICTO-RY for Kenaz & Hodiah, as they mentioned right before the KOL Letter arrived that they wanted to get more involv-ed with the Word. TYJI in Jesus & David, yours always— Faithy & Juan.

Report from the New KQL's!

From Hosanna & Abigail: Dear Faith & Juan, POSSIBLY ONE OF KENAZ' WEAKNESSES WAS ALONG THE LINES OF FINANCES. I know I had felt quite surpris-ed at Kenaz' faith in asking to completely drop our KQS debts, which we'd borrowed from WS reserves in the first

I HAD ASSUMED THAT THIS MONTH WE'D HAVE CLEARED UP THIS DEBT, using some of the KQS Pioneer Fund, as well as helping our pioneer teams. However, K&H

decided to use most of the Pioneer Fund this month to get a new house, as well as asking me to notify 3 Pioneer Homes who wasked for help that we couldn't really help from the Pioneer Fund at present.

WHILE I DO AGREE THAT HAVING A GOOD PLACE TO LIVE & WORK IS IMPORTANT, nevertheless I do feel bad about not repaying WS when we had the chance, as well as helping with at least a token love gift for the Homes that asked for help (which is why we sent out about \$100 from the last FF gift Abigail got).

LAI SO NOTICED THAT WHILE I DO AGREE THAT having a GOOD PLACE TO LIVE & WORK IS IMPORTANT, nevertheless I do feel bad about not repaying WS when we had the chance, as well as helping with at least a token love gift for the Homes that asked for help (which is why we sent out about \$100 from the last FF gift Abigail got).

I ALSO NOTICED THAT K&H'S HOME DOESN'T TITHE the income they receive apart from WS gifts, as they feel this is KQS help & doesn't need to be (?). Also, noticed Kenaz had counseled a couple of teams who had gotten large amounts of money given to them to start businesses.—Not to tithe the full

Kenaz's Shocking Visit Home! News about Timothy!—The awful pit of the backslider!

From Kenaz: Aug. Dear Dad & Maria, GBY! ILY SO MUCH! HERE'S THE SUMMARY OF MY TALKS WITH TIMOTHY & DEBBIE. On Monday night, I stopped by Debbie's house & it just so happened they were showing the 2 films Daniele has made. One is of the "Box" skit, & the other is called "The Ark"—similar in idea to "The Box". SOMEHOW THO", EVEN "THE BOX", which I used to like to watch so much, seemeds oe empty & full of pride this time, with "the star" living back inside the box himself & puffing away on cigarrettes throughout the showing. "The Aug.

THE CONVERSATION

Box" ended with the song "Sunight" but with the words changed from "just let the love that is within you" to "just let the love that is within you" -2 very different concepts, like grace vs. law, & God vs. self, as far as I could see.

WHEN I ENQUIRED AS TO WHY THIS CHANGE WAS MADE (I tried to do it without too much barb in the question), it touched off a little debate—Daniele getting quite defensive & going to the offensive. Anyway, Daniele, Deb & Tim were eventually the only ones left in the room with me.

THE CONVERSATION VIDUAL EFFORT & disconnected from the worldwide Spiritual Revolution of the Family united around the Words of David.

I WAS TRYING TO GET TIM TO SPEAK, but Daniele & Debbie both monopolized most of the conversation, Tim sitting pretty silently to one side. Daniele started spouting off about how he felt Dad had gotten tripped off on sex & hung up on money (YikesI Just after telling me about the new country house outside Florence Dan's bought!) & I turned to Tim incredulously &

Convergenced New . 1979 by World Services, Pf. 241, 8021 Zurich, Switzerland.

asked if he believed that! TIM HAD TO OF COURSE ADMIT what we both knew to be the truth, that Dad's life-style was anything but luxurious. (& he mentioned how many times he'd driven to every "greasy spoon restaurant" as he called it, in town! Hal) But Tim did seem to feel that holding reserves showed some lack of faith in the future.

NOT WANTING TO GET INTO A TIT-FOR-TAT THING with figures etc., I just used it as a touchstone to take the conversation back round to the real question—

round to the real question— whether the Family with David in the lead was God's move in the Last Days, & if so, how could we sit on the sidelines criticizing or judging, instead

criticizing or judging, instead of following.

I HAD A VERY HARD

TIME EVEN FINISHING A SENTENCE without Daniele, Deb & Tim cutting me off with things like comparing their decision to Dad's breaking with Fred Jordan (unbelievable!) & Deb, in a pretty bitter tone discussing their decision to leave Switzerland, & finally Tim, in a very (in my opinion) proud & full of himself way, & with a hardness in his face I'd never seen before, talk about his decision not to sign the Neb Letter, his resentment of the mistrust of them while they were in Switzerland etc.

I POURED OUT MY STANI

land etc.

1 POURED OUT MY STAND
ON THINGS, that as hard
as it was onme emotionally (being lifelong friends of
Tim & Debbie), I did truly believe the propheries concerning lieve the prophecies concerning them were of the Lord, & that from what I could see it was not at all just one issue involved, but that for years he'd been trained to relate to the Lord in a hypocritical fashion under Rachel, to mentally an-

alyse the Letters instead of spi-ritually drink them in, & that during his time with David, during his time with David, David had tried very hard to show him the difference & get him to have a more spiritual attitude with the Lord, but in the end Tim rejected this help, as it was too hard on his pride. TIM, I THINK, REALLY HEARD WHAT I WAS SAY-ING & even said to me, "I know I'm proud, & I've always admitted I might be making a big mistake, but I've got to do

big mistake, but I've got to do this anyway & find out" or something along those lines. I ASKED HIM IF HE'D LIKE TO KEEP IN TOUCH,

k he said yes, with me, but wouldn't want everything he said in an FN as news from a backslider. As obviously I wouldn't want a sneaky rela-tionship with him, I told him

I'd pray about what to do.
THEY SHARED A BIT ABOUT THE STRANGE WELCOME HOME THEY HAD RECEIVED—all of their families & a houseful of deprogram mers including Bashan, Jacob & Melody etc. One thing I must say for Tim & Debbie is that so far at least they've re-

must say for Tim & Debbie is that so far at least they've resisted any involvement with these active enemies & consider their "trip" very weird & spiteful & bent—"the weirdest cult of all" I think one of them said.

I THINK THEIR ATTITUDE is more like they feel they've been mistreated & alienated by the Letters after their departure, but that the Family was still right about many things, but that they couldn't be in it due to this difference of opinion & that they couldn't be in it due to this difference of opinion & that they were a little more right than anybody.

I SAW THEM A COUPLE MORE TIMES after this, each time hoping to get a chance to talk to Tim alone (but being unable to just tell him I needed to see him alone, as I sens-

ed he'd resent that.) (That's where you made your mistake, as I had asked you specifically to see Timothy alone! - Maria,) It was always thwarted by Dar iele or Deb, so it was usually just light surface talks about

I COULDN'T GET MUCH INFO WITHOUT ACTUALLY PUMPING FOR IT (Tim is hip enough to know why I'd like to know). But thru' oth-er folks they'd spoken to I did learn bits & pieces.

learn bits & pieces.

TIM DROVE ME TO THE
AIRPORT (Daniele rode along!)
& while I was checking thru'
Tim asked me what I'd decided
about our future relationship. I said, well, I obviously don't have secrets so please don't have secrets so please don't share anything you'd expect me to keep secret from the folks, but I'd like to keep in touch with what they were doing for the Lord with the media, if they might do something we can use or we might be able to give their material or get out the message, & that he'd always know he could contact me if he wanted to share anything else (meaning if he had a

always know he could contact me if he wanted to share anything else (meaning if he had a change of heart on things).

I ALSO GOT TO TELL HIM THAT DAD & MARIA HAD SPOKEN VERY LOVINGLY about him to me & that they again sent their love to him & wanted him to know that they do love him, to which he replied after a thoughtful minute, "I believe that." By the way, he had received your letter, Maria, but only mentioned he got it, no comment on its contents or any indication of how it had affected him.

THEY'VE SOLD THE N.

AMERICAN RIGHTS TO THEIR 2 FILMS to religious film distributors in the States for royalties. They'll probably be sold to counselling services, chaplains etc. They remain

firm in their desire to be witnessing Christians (tho' with that distinctly "chic" approach to it!) & I felt that they sincerely did not want to actively campaign against us, nor endanger your personal security in any way. They sought no info from me etc.

THEY DO, HOWEVER, OB-VIOUSLY CRITICISE YOU & YOUR STAFF in order to justify themselves (this is in conversations with former close friends such as Silas & Endureth, or Vine, now IRFing in their hometown. Debbie, for example told Vine that Dad's serious illness last year was a result of excessive drinking—Yikes!)

I DON'T KNOW THAT TIM STOOPS THAT LOW, but does obviously try to give the impression of dictatorial control.

obviously try to give the impr sion of dictatorial control, plays on the family sacrifice he was asked to make etc. Their whole trip is quite see-thru' tho', & Tim' hooking thru tho', & I'm' hooking into Daniele's money (he considers himself an "employee" of Daniele, a business manager) instead of really pioneering & launching out by faith, pretty much shows the honest observ-

er where they're at.
SILAS & ENDURETH, FOR
EXAMPLE, told me on the
phone that their visit with Tim phone that their visit with Tim & Debbie resulted in some "smashed idols"! And Vine, whom I had several long & good talks with, tho' very close to Debbie, I believe received a lot of what I had to say about the spiritual side of things & saw that she couldn't take everything they said at face value. She can't understand it all yet, but I feel God really did show her to keep trusting in the Word & Letters. Micaiah, who found I was there from Debbie, also clearly saw where they were at, without my having to say a word.

ONE OTHER THING I

WANT TO SHARE is my impression of where Debbie is at. She seems to me to be almost a little schizo—2 personalities. One is sweet, lovable, lighthearted, cheery—exactly how he was before joining the Family. It was almost eerie how exactly she seemed to have reverted to her old self. The other, at serious moments, a real bitter edge, with her eyes narrowing into an icy stare & heavy accusing vibes coming out. This is just my impression, Dad, WANT TO SHARE is my sion, Dad,

sion, Dad,
BUT WHAT YOU MENTIONED ABOUT GETTING
TIM BACK A CHANGED
MAN is beginning to happen.
A couple of times I thought I
noticed a strong assertiveness
from Tim towards Debbie, &
I got the feeling she didn't
even really want to go to Italy
& break her family ties again,
but she had to in order to
please him. It's the feeling I
got anyway.
ONE OTHER THING: AT
THE AIRPORT Tim asked
how every one was doing (your
staff) & I said "Great!" & he
asked me to say hello to Al-

sally at sall of reach of he asked me to say hello to Alfred if I saw him again. "He's really a far-out guy," he said. Something we could agree on anyway! Ha! Love to all there! Your son, Kenaz.

Refuting the Lies of Backsliders!

Dear Dad & Maria, CONCERNING KENAZ CUNCERNING KENAZ'
LETTER ON SEIING TIMOTHY & DEBBIE, we really
feel it should be printed to let
the world know how far off
the track people can really get
once they reject the truth &
get strong delusion. It's just o hard to believe that son

so hard to believe that some backstiders are still using the same old worn-out lies of the Devil on such subjects as sex & money!

THEY ARE CERTAINLY VERY SHALLOW people to be led astray in these areas. Anybody who reads the Letters should know better than that, & of course we know how you live & it's far from being luxurious unless you can call living on a shoestring luxurious, which it definitely is not!

is not!
AT LEAST TIMOTHY
COULD NOT LIE ABOUT
THE TRUTH OF THIS when
he mentioned how many time
he'd "driven to every greas"

That just exposed his lack of faith in what the Lord has showed us to do thru' the Letters!

IT'S ALMOST LIKE SAY-ING THAT NOAH DIDN'T HAVE FAITH in the Lord because he planned for the future & built the ark instead of just saying, "Lord, I'm not going to do what you showed me & build an ark; I'm going to wait for you to supply another way so I don't have to do anything!"

THINGS LIKE THIS JUST MAKE US MAD because it's always the epitome of the backslider, trying to grasp at any little straw they can to excuse themselves for their own mistakes, thus justifying their existence outside the will of God! Love, Andrew & Miriam. (DAD: Amen. Just remember to love & pray for them "The way of transgressors is hard!"—Pr. 13-15. Their lot is hard enough & such husks, husks, husks, Luke 15:16. They are so miserable!—Poor folks, I feel sorry for them! ILY!)

you healthy, inspired & in a safe situation!

WE ARRIVED ON A SUNDAY IN MASSA, ITALY, where Simon (U.S.), the V.S., picked us up, together with Naaman Gypsy (see pic). They took us to a small hotel where we stayed, as we felt it would be better for security as the Home here is the same house of 4 years ago & everyone knows it as a COG hang-out! Plus there was a big Communist celebration on the same square where the house is!

THE COMMUNISTS ARE BIG HERE IN ITALY & from being here we can really see how pretty soon they will take over as you said in the Letter "Flee!" Anyway, later that night Bepi (the KQS) arrived, so we got a chance to meet him as we had never met before. Our first impression of him was that we liked him & he seemed to be a sweet, humble guy.

ON MONDAY WE HAD A
MEETING WITH THE FAMILY OF NORTHERN ITALY.
We were a little bit shocked,
to say the least, at the amount
of people that showed up for
the gathering. There were 199
people total. There were 29
"knew" disciples & 11 different nationalities. There were
39 Italian adults & 14 Italian
"knew" disciples, out of which "knew" disciples, out of which the majority do not speak Eng-lish. IT REALLY IMPRESSED ON US THE URGENCY FOR THE LLIMM R., as even our

MM as we felt the potential here is tremendous!

THE MEETING LASTED FOR 6 HOURS, & most of the people present said that the meeting was a real answer to prayer to bring more unity, which seemed to be one of the greatest needs of the area.

EVERYONE SEEMED SUR-PRISED TO SEE THE LARGE NUMBER OF PEOPLE present & still serving the Lord & you despite the lies of our back-sliders! TG, we have you, as all the kids mentioned that the only thing that kept them during this time of confusion was the Letters!

ALL THAT FLORENCE

the Letters!

ALL THAT FLORENCE CROWD IS IN PRETTY BAD SHAPE, & they are going around telling lies about you & the Family. We heard that Italian Daniele & team were now smoking pot & doing cocaine regularly!—"Returning to their vomit!" (Pg. 26:11 & 2Pt. 2: 22.)

WE ALSO HEARD AT THIS MEETING SOME COMMENTS

ABOUT RACHEL, as the community seems to be pretty upset with her & the kids feel it won't be long before Ludovico (her Fish) puts her out on the street. The community is saving that she is worse than a "Putana" as not even the animals forsake their children like she did! Lord help her!

This would also explain her dependency on her Fish because he could afford it & he could supply it, & her fading out of the picture without even a struggle. This

wouldn't even be surprised if maybe even her doctors got her into drugs with the excuse of relieving her suffering from her various sicknesses & pair-ful operations. That happens with a lot of people. Sad Dad. BUT PTL, MOST OF THE KIDS ARE STILL GOING ON, althor many were affected by the foolish spirit of those "old leaders. But TTL, many are seeing the light & becoming new creatures again!

FOR MANY WE FELT THE BEST SOLUTION WOULD BE TO LEAVE ITALY & 90 on to a new field. The movies & pictures we showed really seemed to inspire some to do so, & we have heard of a few that are planning to move along from Italy go in periodically on faith trips to take in lift & the new wine! They all seemed to hey have belong to the most beautiful family in the whole world! TYJI—And your for making it all possible!

Revealing & SAD News
REVEALING & SAD News
ABOUT TIMOTHY & his association with Italian Daniele.
He mentioned to us that he
personally had been smoking
dope & doing cocaine with
them while visiting Daniele's
villa & doing a recording of a
song for a skit that Daniele
was working on.
JEREMY SAID THAT TIMOTHY & DANIELE JUST
SAT AROUND THE TV for
hours smoking dope & playing
their games such as tennis,
football or things like that for
hours every day. They stayed
up late most nights & woke up
late & did the same type
of thing every day. They heard
from Angela that she is getting
tired of seeing them do the
same thing every day.
THEN JEREMY ALSO MENTIONED THAT THEIR
THEME OF CONVERSATION
was very weird as they just got
doped up & then discussed for
hours how they were going to
beat each other in the games
they were going to play later on.
IT JUST REALLY PUT THE
FEAR OF THE LORD in our
hearts to see how far gone you
can be if you just stop believing & accepting the truth. May
the Lord help us never to be I
like that!

JEREMY ALSO MENTIONED THAT TIMOTHY, altho'

never accusing Dad about any-thing, just sits there & lets Dan-iele give all different types of lies about the Family & Dad. When talking about backsliders,

thetically about them & savs that they could have been treated in a different way, & that you have to see their point of view.—Like excusing himself for his own sins!

IT WAS VERY SAD TO HEAR SUCH NEWS, but at the same time revealing to see how right on Dad was about Tim. We would love to see the RD we read while visiting you printed, as it was so right about him.—That was 'The Timothy Revelation''.

SORRY FOR SAYING
THIS, but it would be so on the ball for the whole world to read what the Lord had said about him long before he left. We pray that this news will not be discouraging, but inspiring to see how right the Lord was about him. So sad that he gave up such a priceless crown & blessing to go back & do nothing. Really shows us how we need to stay so close to our Shepherd & the Word!—And we pray he'll come back!!

ON FRIDAY WE MET WITH ANGELO & SARA who are going to Switzerland as they have a contract to sing in a cafe there for about 6 months! They shared with us different experiences they had before & after the RNR under Rachel & Emanuele. Angelo mentioned that E. has sent him a letter via E.'s lawyer demanding that Angelo repay E. the sum of 5 million lire for the investments that were made in the Rome Disco while Angelo was acting as manager. Poor E., we hear he is almost crazy & very lone-

stumble it had suffered because of R&E.

THEY SAID THEY FELT
OUR MEETINGS WERE A

everyone face-to-face. It seemed after R&E that no one

they prayed things were going
to be working out better, DV.

WE HAD LUNCH AT THE
HOME OF A PRECIOUS
COUPLE who are now part of
the Family, as one of our guys
FF'ed the wife & is now living with them. This couple
got married 10 years ago but
their marriage was a failure so
that 4 years ago they decided
to live just as friends & roommates & not as husband &
wife. Because of family pressures & their traditions they
could not get separated.

A BOY FROM THE FAMILY met her litnessing & started to witness to her & later FF'ed her. As the relationship grew, her. As the relationship grew, he then started to withess to the husband, & he also got saved! Later on he moved into their apartment & started living-in with her as his mate!!

HERE IN FOME WENT TO THE EMBASSY OF OUR FRIEND down South & asked for help, a passport & money! (He had been a radical red, so the Italian Government won't give him a passport!) That was 3 months ago.

NOW HE JUST GOT AN ANSWER from them & an interview with someone close to G. who just arrived from there to help the students take over the Embassies!—He gave this brother, Daniel, \$400 & asked if he could work for them in setting up a mailing list, take classes in Arabic & teach English to the students etc., & take Islamic classes!! They'll give him an apartment & help in exchange.

IT WAS NOT ONLY THE
DIVISIVENESS OF THE LET-TER that blew our minds, but the total contradiction to many of the recent Letters such as NRS, "Maltese Double-cross" & "Son of Sam". I've also enclosed my reply to him. IF YOU FEEL HIS LETTER & MINE PUBLISHED TO-

GETHER would help Stephen or others from getting affected by their divisiveness, you are welcome to publish it.
Lord have His way! We love you both so much & are happy to be free from that former cesspool to go on to do the Lord's will. Love forever in your loving service, Samson & Ara.

WE'D LOVE TO HEAR

GOD BLESS THOSE "FORMER CHAIN LEADERS"

good servants & are still abiding in the power of God—anointed by God & appointed
by Dad! May I remind you of
the Lord's admonition:
"Touch not mine anointed &

no desire to return anymore!
I'VE BEEN IN THAT ARID

just want to get back to the
green pastures & still waters
with my Shepherd. I don't
want to be a goaty prophet
out in the wilderness when
I've got God's Shepherd for
today to restore my soul.
I REALLY LOVE YOU,
S Stephen & Mother, but I'm
sorry, that kind of discord amongst brethren that you
wrote me is an abomination to
the Lord (Prov. 6: 16-19) &
I'd be pleased if you'll send
me no more of it, thanks.
WE REALLY LOVE YOU
WR RESPECT YOU & are really thankful for all the love &

ABOUT WHAT YOU'VE

& pray for you always.
P.P.S. I HOPE YOU DON'T

Dad.
P.P.P.S. IN CASE YOU FORGOT WHAT YOU WROTE ME

From Gideon & Sara; Latin

things that happened.
WE KNOW MICHAEL IS
HELPING US IN THE SPIRIT
& as the Lord told us when we
were in prayer one night: "For
lo, thy mighty little one fighteth for thee & prepareth the
way before thee." Hallelujah!
TO BEGIN WITH, OUR 3rd
CHILD, Michelle, was born
almost exactly one month late,
on July 2nd. She weighed
nearly 11 pounds, but Sara
had a very good, normal delivery. Who knows why she was
born so late but we know the
Lord had His reason. She's
really beautiful & closely resembles our precious Fish, R.,
whom we have been ministering to for over a year.
R. CAME TO THE CLINIC

another school for a year, & we believe that with the Lord's help the business will prosper & expand. We should be so several brothers & sisters within a few months' time.

SO THE LORD IS REALLY OPENING DOORS here for us to stay & witness & establish something permanent. As Dad said in "Coming of Age"; "Give each of our folks the faith that they need, the vision they need, to catch a vision for whatever ministry they are best suited, the faith to exercise it & do it, Lord, & the willingness to tak the initiative to do differently now, other things we haven't done before & still have to do. WE FEEL WE'RE SUITED TO THIS TYPE OF MINISTRY as almost all the experience we have, both in the Family & before, has been with business & administration. So, PTLI We are experiencing that "God gets His greatest victories out of seeming defeats"!

THAT ARTICLE CAME OUT about six months ago, when we first returned to the States. Thank God, we're almost ready to leave again! I have a job, to earn our fare & pionear funds, working with low income children & families. I've been able to witness a lot there & have been selling the "Basic Book" to some interested co-workers.

RECENTLY! TOOK A COPY OF "THE GURU" LETTER to the "Seattle Times". They printed portions of it & a bit about me in an article entitled "OOG founder, in "Mo Letter', attacks major religions"! PTL! The date of the paper was 71779 Love, Samuel & Claire.

DAVID THORNHILL HAS RECENTLY
RETURNED FROM EUROPE where for
the past 3 years he & his wife Dee have been
touring as members of the Children of God,
mostly in France, but also in Spain & Germany. They are visiting relatives in Colorado.

"WE CAME BACK TO SHOW OUR

said. "We have just been trying to serve the
Lord by witnessing every day & getting out
the message." The movement spread to
many parts of the world, but Thornhill said

It is largely unstructured, does not have a hierarchy & exists mostly in small communal groups.

HE SAID THEY TAKE SERIOUSLY THE BIBLICAL INJUNCTION to go into all parts of the world & preach the gospel to everybody. "We don't went to just preach what the Bible says, but to be it," he said. "We are to be a sample, not a sermon."

THORNHILL (TELLS HOW HE MET THE FAMILY): After 2 years of coilege in lowe, he decided to go to Europe. The trip lasted 4 months & gave him a glimpse of the way other people lived which was very different from the general affluence he had seen in this country. Something told him he would be going back.

BACK IN THIS COUNTRY, HE WORKED AT A NUMBER OF JOBS, made good money & began accumulating material possessions. But he said he was districted & got no real pleasure from the things he bought. He decided to take of # go to Europe agein. Thornhill said he was not sure God exitted, but prayed that if He did exist He would show him what He wanted him to do.

THORNHILL'S WIFE ALSO BELIEVES SHE WAS BEING LED TO GOD. She had met Thornhill in lowa. One day she received a letter from him in Strasbourg. Most of it was casual, but at the bottom he told her about the Family of Love & urged her to come & marry him & join them. HER FIRST REACTION WAS THAT HE HAD "FLIPPED". But she found herself taking stock of her life. She worked in a steak house which also served cocktails. She said many lonely people came there who just seemed to need somebody to talk to. "I KNEW GOD HAD A PUR-POSE FOR ME & I had to go & find it," She said. So she sold her car & most of her clothes to buy herself an airline ticket & set out for Europe. Later she was to learn that Thornhill had not received her letter saying she was a coming, & had gone on to Pails. They were eventually reunited there after 3 months of missed connections.

THEY WERE NO LONGER AL-LOWED TO USE LITERATURE to reach people & the French gov-ernment has been considering measures to keep foreigners from living in the country if they do not have work permits. "THINGS ARE CLOSING UP MORE & MORE," he said. At present they are not sure whether they will return to Europe.

Dear Family in the Lord,
WE LOVE YOU & PRAY
FOR ALL OF YOU in your work for Jesus & the lost sheep, & little lambs! Keep faithful! Thank you for regularly sending us your news. It was such a joy when I received the last batch—as soon as I looked at the first leaflet—THERE WAS MY SWEET DAUGHTER-IN-LAW Rachel Scott with her Sunday school group & a lovely letter from her along with Sunday school lessons. Her happy, beautiful smile was as full of joy as ever. Jacob, my son, has been a "foundee member" here in England. They married in Bromley, Kent. I was at their wedding.

God called him out from the church to preach Salvation in the slums & the gutters, to run soup kitchens, homes for unmarried mums, hostels for the homeless & drunkards, all precious to God.

HE VISITED US THAT EVENING, where we all shared with him & sang songs. He was so touched that he asked if there was anything he could do for us, like bring back Bibles from America or help with a donation. We explained our desperate financial need for the month & he gladly gave us the money to live on for the whole month! Praise God! He never fails! What an answer to prayer!

WE MET MANY NEW PEOPLE & friends who got saved! Here is a short recap of some of the most interesting people we met:

R&B are a young couple who live in the apartment above us. Both are very open & receptive & have introduced us to many of their friends who may be able to help

us with our music ministry!
Both are very sweet & really
went to know more about how
we raise our children & marvel
at the fact that we hope to have
more. H. is an American businessman who got wonderfully saved
& kept commenting on how
much we changed his life. He
does business here regularly, so
we'll be seeing him again! P. is
an American military officer who
got saved & wants to use his position in the army to tell others
about Jesus & hopefully prevent
future wars. M. is a sweet 19year-old student who received
the Lord only a few days after
one of us met her. E., a wealthy
European businessman, has fallen in love with God's Spirit &
has already introduced us to some
important people here. R., an
American airline pilot, is a sincere Christian who wants to help
us financially & with items unobtainable here.

WE ARE SO HAPPY TO BE
HELPING TO CHANGE THIS
PART OF THE WORLD with
God's Love. And you are a part
too by your faithful support &
prayers. Like Sophie the washerwoman said, "I'm a missionary
in all the world because I give
part of my money to missionaries & pray for them, which makes
me part of what they're doing!"

WE REALLY APPRECIATE
THE FINANCIAL HELP that
you have been so sacrificially giving & pray that the Lord will
bless you mightily with even
more, so that you can help others
in need too. The richest people
in God's Kingdom are going to
be those who share the most!

I GOT TO SHARE MY PERSONAL TESTIMONY with him & that it was Jesus that really changed my life & really got to testify that the love of God we were bringing to him was thru' Jesus. He received it all even tho' he is quite a strict Muslim.

what a great strain that they
must be under, trying to counsel so many about so much &
trying to live up to the expectations of all the Homes.
I REALLY DON'T THINK
THE HOMES HAVE GOTTEN
THE POINT that their VS's
are doing them a favour & are
almost entirely on their own
with little support & that they
should not expect their VS's
to do anything at all but perhaps visit them once in a blue
moon whenever they can possibly find the time in their
very, very heavy schedule.
I CERTAINLY THINK THAT
THE HOMES have been expecting the VS's to do over &
above what our original plan
for them was; or in some cases
perhaps we over-extended
them ourselves, not realising
the huge job they would have.
We've heard some complaints
from Homes as to the lack of
visits, the shortness of them,

We've heard some complaints from Homes as to the lack of visits, the shortness of them, the lack of sharing by the VS's. I WONDER HOW MANY OF THE HOMES THINK TO REALISE that the VS's themselves have needs & that it's one of the hardest jobs in the world to have everythey's THER VS'S TO COME IN & TAKE OVER & give them all the answers—to be some kind of miracle man—which puts too great a burden on the VS's. The same goes for Visiting Mothers also.

BUT WE DO THINK THERE problems dumped on you day after day, with hardly any rest or real inspiration. And, as IS A GREAT POPULAR DE-MAND for the visiting pro-gramme, as long as it's done in Dad said, if they're expected

to share their mates with every person in every Home they visit, they'll have to have great sexual capacity, great grace, & probably won't get much else done! ON THE OTHER HAND, we have ootten many thanks

ON THE OTHER HAND, we have gotten many thanks for the VS's & many encouraging comments about how their visits have been such a blessing. By the way, MY SYMPATHY, PERSONALLY, IS GREATLY WITH THE VS's, since I think that most of them are doing as

most of them are doing as good a job as they possibly can under the difficult circumstan-ces, especially with their ser-vices in effect very sacrificial, & part of their support raised independent.

vices in effect very sacrificate, & part of their support raised independently.

I WANTED TO REPORT THAT ALL THE COMMENTS on Andre & Marie (French VS's) have been very positive & the Family certainly seems to love them. But I have been concerned for them that they don't run themselves dry & out of steam & end up with nervous breakdowns because they I have gone too far too fast.

ON THE BOTTOM OF A RECENT LETTER ("No Lit, No Letters" No. 814) we made a notation regarding the VS's & their duties, which I hope will help a little at least. I'd love to hear your comments on it.

ACTUALLY, I WISH YOU

Dear Dad & Maria,

GBY! GIJN! We are so thankful for each & every Letter which causes us to keep revoluting & bringing about the needed changes in all of us, your children! TTL!

THANK YOU FOR ENTRUSTING US WITH THE EXCITING US WITH THE EXCITING TASK OF VS AT LARGE, your Flying Ambassedor, in which we have been able to learn once again the meaning of true shepherding & feeding the sheep in obedience to your call. PTL! It has been a tremendous blessing & a thrilling experience to visit our beautiful Family, & we can say with all our heart that we do belong "to the greatest family in the world, the family of God's Love.—Surely God must think (ust) worthy to give (ust) such a priceless privilege to be a member of His Family!" Peru, Venezuela, Curacao, Brasii, Uruguay, Argentina, Spain,

What a Family! It has amazed
us to meet personally our brave

they "trust & obey" & continue to live the Letters & "Seek

WE'VE LEARNED SO MANY WONDERFUL LESSONS
along the way about "Hearing

NY WONDERFUL LESSONS along the way about "Hearing From God" & turning to the Word & the Letters for our answers & encouraging others to do the same, as many times it has been necessary to "get right into the nitty gritty & see what the problems are...!" ("Duties of KQS's & VS's" 674:16.) The basic problem is that we all should be hearing from God more & daily, & He will guide us to the right solution thru'the right Letters!

ONE OF THE MAIN JOBS
OF A VS, we've learned, is to be a loving listening ear. &

then help them by hearing from God ourselves first & then trying to guide them to the Letters on the subject. And as you said, the Index has been a tremendous help in this. God bless our Index team!

ANOTHER IMPORTANT TOOL in helping to locate the problem in a Home, if there is one, has been the Home Checklist, which we have used whenever we felt it necessary. & it was lots of fun too! Reading "Happy Housekeeping" beforehand together with the Home gave everyone the faith & freedom to really speak out & if need be, make the necessary changes to make it a good sample of a happy Heavenly Home! PTL!

ALSO WE FOUND IT WAS

ALSO WE FOUND IT WAS A LOT OF FUN TO TRY & COOK AT LEAST ONE MEAL when visiting a Home to give them a sample of love by means of a good tasty meal—oftentimes cooking a one-pot dish as you described in one dish, as you described in one of the chapters on camping, teaching them your healthy.

yet time-saving, fuel-saving, delicious recipe

elicious recipe.
WASHING DISHES is also a good time to fellowship with others in the Home & to really get the inside story on what's really going on! Ha!—As ever one feels more free to talk du one feels more free to talk dur-ing this dirty dishes time as you become one with them. OF COURSE SOMETIMES

WHEN WE HAVE HAD A HEAVY SCHEDULE & a lot HEAVY SCHEDULE & a lot of travelling & we needed to save our strength for the most important thing, which is to feed the sheep spiritually, we have taken them out for a one course meal, usually a cheap place & maybe even greasy spoon. If we can afford it, we may even go to a little nicer place with a nice atmosphere for fellowship.

for fellowship.
COMMUNION OR EVEN
COME-UNION has been very
fruitful & uniting & enjoyable
when our strength, time & circumstances permit. PTL1 The
latest Letter on this subject is
really a blesting as it talks a.

cumstances permit. P1L! The latest Letter on this subject is really a blessing as it talks about our physical healing thru' Communion, & also our unity physically & spiritually, & how important it is.—'The Real Meaning of the Lord's Supper!" It is so needed!

WE HAVE FOUND THAT A LITTLE FAMILY FELLOW-SHIP & DANCING can be very relaxing, helping everyone escape their inhibitions & fears, besides being fun, & it can even sometimes lead to a little more! Hal We tried it & we like it! In fact we love it!

ANOTHER THING WE FOUND THE HOMES NEED IS A GOOD OLD FASHION-ED INSPIRATION TIME in which everyone participates, items to be some the participates, items to be subject to the subject in the subject is the subject in the subject in the subject is the subject in the subject in the subject in the subject is the subject in the subject in the subject in the subject is the subject in the subject in the subject in the subject is the subject in the

which everyone participates, singing faith-building & inspi ing songs. We just pass the guitar around the circle for veryone who can play to sing song(s). When there are chil dren present, we dedicate the first part of our inspiration time to them, singing songs they know & can lead us all in. WE LIKE TO USE SCRIP-

WE LIKE TO USE SCRIP-TURE SONGS like "John 3:16' "Eph. 4:32" etc. & also action songs like "Gospel Gypsy Pirates", "The Time to Be Happy", "The Name of Jesus", "Lord's Army" etc., which they can perform & lead us "old pirates" in the motions. "A little child shall lead them", as the Scripture says!

ture says!
WHEN IT IS FAMILY INSPIRATION TIME we find it's better to stick to songs of praise & thanksgiving, like Psalms & the songs which made the Revolution, instead of our commercial witnessing songs. Because these are the songs that really have the Spirit & move you to action! It has amazed us that action! It has amazed us that our new disciples, nationals & children have in some cases never heard some of our power peached & convicting songs of our first inspirationalists like Aaron, Esther, Black Simon, Jeremiah & others!

SOMETIMES IT'S BEEN

SOMETIMES IT'S BEEN YEARS SINCE THEY HEARD THEM & SANG THEM, like one of our original Scandinavian pioneers mentioned to us recently when we sang the song, "Now all I want to do is serve Him", one of the songs that helped him in the early days to keep fighting.—Songs which really motivated us to serve Him & others with all our hearts & even made us weep!

IT IS SO BEAUTIFUL TO REMEMBER IN SONG History & our history to remind us of what great things the Lord has done in us & thru' us with our Music Miracles! These are the songs which have kept us & will keep us in times of trouble in spite of persecution, trials & tribulation. TTL! Sock it to us, that's the Spirit!

WE ARE SO THANKFUL FOR ALL OUR VS'S around the world & the tremendous job they're doing! GB'M! We know it is a very inspiring & rewarding task, but also a very sacrificial life, oftentimes having to leave children & loved ones at home for months at a time in order to visit & keep our Homes happy & united as one Family.

our Homes happy & united as one Family.

SOMETIMES WE FEEL SO LIMITED because after all we are only human & often can't fulfill all that certain people or Homes would like us to during our visits, altho' most have been very considerate & hospitable & understanding of this. GB'MI

WE ARF SO HAPPY TO BE

WE ARE SO HAPPY TO BE OF SERVICE to you & the Lord & His Family in this capecity to help care for & feed the sheep. Lord help us to stay close to Him & the Letters & in tune with the Spirit & to follow your sample of faithfulness & love. "They that love Me most, follow closest."—Lots of love & prayers—yours always—Faithy & Juan.

Thoughts On The VS Ministry!

Dear Dad & Maria,
WE WANT TO SAY THAT
WESTER RITHEY BRIGHES

YOU FEELINGS ABOUT & CONCERN FOR THE VS'S. After having been VS's for 1 year & doing this job again in England, we must say that it is one of the most exciting, thrilling & inspiring jobs we've had been supported by the same of the sa

one of the most demanding & testing.
IT IS LIKE FULL-TIME WITNESSING WITHIN THE FAMILY. You really fall in love with your family & you get to see them grow & progress, & feel you bring them some fresh vision & inspiration—a little bit of "spiritual fresh air"—as well as being the outside person who can help point out the weak areas & the strong ones & inspire them to work more on this or that area. SO MANY HOMES HAVE ASKED FOR MORE VISITS to "shorten the cord", more

to "shorten the cord", more "pastoring", more communi-cation about the "overall" or national vision. We have realnational vision. We have real-by been torn between this need for more visits & the fact that the VS's can't do more than they do at the moment, & also the fact that good VS's are hard to find. GB Andre & hard to find. GB Andre & Maria, they are hard working & sacrificial, too much some-times—& your little note about them is so right on. CONCERNING THE HOMES

CONCERNING THE HOMES BEING VERY DEMANDING, we are glad that you feel the same way. We did feel that rather than having another team of weak VS's, it was better for the Homes to learn to look up to the <u>Letters</u> for to look up to the <u>Letters</u> for but better visits, as the more you are around, the more people tend to depend on <u>you</u> insteed of the <u>Letters</u> & the <u>Lord</u>.

steed of the Letters & the Lord.
WE DO BELIEVE THAT
THE HOMES NEED TO FEEL
MORE THAT IT IS A GRACE
—a favour—to be visited. Then
we feel they would receive &
help the VS better. One thing
it would be good to mention
is that the VS's do not receive
a "big budget", so the Homes
will feel more responsible to
help them on their way.

WE HAVE ENCOURAGED, WHENEVER POSSIBLE, THE IDEA OF AN "AREA SER-VANT" to provide the needed circulation of blood, guidance & inspiration, which we all need. As we have gone around, we have found some real servants who have true shepherds' hearts, more training & experience or just more fire & conviction, & these we have encouraged to "serve" or "parent" their area, to always offer an open house & a listening ear & sometimes to coordinate efforts.

WE DO NOT BELIEVE THE

WE DO NOT BELIEVE THE
RNR WAS A TRANSITION
from a "feudal system" to
"anarchy"—in the sense that
everyone is now equal & there
are no leaders—on the contrary,
it is the time for the true servants or leaders to take care of
their flocks, which means stand
ing up for God's work & organising & making sure everything
is running smoothly & according to communal decisions etc.

imonies & inspiration or other projects for fear that they would be accused of acting like the old "Regional Shepherd" when some young servants of smaller homes could really benefit from the training! Dad has written so many times about teaching others to teach others, training leaders etc.

THE VS'S CERTAINLY

CAN'T DO IT ALL & the young servants do need personal attention & guidance. Some major mistakes & unwise moves have been made, to the point of endangering the whole work of one city, because some young servants were too proud to seek advice from the others who were not humble enough either to propose their counsel. FROM OUR EXPERIENCE IN ONE LARGE CITY, tho' all the brethren are sweet, responsible & willing, most of them being "older brothers", unless someone was willing to

unless someone was willing to coordinate the work among coordinate the work among the 3 Homes (the provisioning FF'ing, printing) some dissension would always start to subtly creep in, little seeds of disunity. & the work would start to slow down; a serious mistake was made once when the FF'ers were not really being overseen, endangering not only the FF'ing but also the other aspects of the work.

BUT WE HAVE SEEN SUCH WONDERFUL FRUITS when

other aspects of the work.

THIS WAS THE ORIGINAL

IDEA OF THE "DISTRICT"
(in the old "Chain") which was the best working link of the Chain, probably because it was fairly small. People are starting to realise that the Chain itself was not the mistake but the fact that it was a broken chain!

WE FEEL SAD SOMETIMES that people who really have a servant's heart & talent are afraid to initiate local homes getting together for prayer, testimonies & inspiration or other projects for fear that they would be accused of acting like the old "Regional Shepherd" when some young servants of smaller homes could really ben
strain and the more successions the Monder alwork in unity, but this of course always takes someone to initiate & keep it operating smoothly. Not only at the Homes level, but also at the area level. The key word these days seems to be "unity" as everyone is finding out more & more that "in the multitude of counsellors there is safety" (Pr. 11:14).

Tips from Adam & Patience;
on the road:
LONG STRETCHES OF

having "schooltime" as then
the kids are open for something to do. Workbooks are
really handy, & we do a lot
of cutting & pasting & drawing & colouring.
IT IS A HELP TO HAVE
SCHOOL ITEMS ORGANISED. I keep all kinds of
things like scissors, cello tape,
glue, rubberbands etc. in one
box, pieces of cloth etc. in
another & crayons in another.
We put up large clips on strings
where the curtains are hung,
one for each child, where we
put up their drawings or use
it for new words they're learning.

FLANNELGRAPHS
ON TAPE!

From Norwegian Martha;
Denmark:
A FEW WEEKS AGO WE
ORDERED THE "MUSIC
WITH MEANING" TAPE
from India. On that tape are
2 radio-plays—"The Rock in
the Road" & "Change the
World". Using the Flannelgraph by Zeb from Femily
Care, I put on the tape & show
the kids the flannelgraph.
They love it I To illustrate the
beginning of the story where
the king & queen have a conversation I just use 2 persons

from other flannelgraphs I have.

I DECIDED TO DO THE SAME FOR OTHER FLAN-NELGRAPHS! I have quite a few flannelgraphs but sometimes it gets a little difficult to use them as the kids often get tripped off & lose interest if it takes me too long to read the story & change the figures too.

SO I TOOK A TAPE, TAPE RECORDER, MY GUITAR & THE FLANNELGRAPHS, went into a room by myself & recorded 3 stories: Noah's Ark, The Crystal Stream & Alice & the Magic Garden. I just read the story, put sound effects to it with clapping my hands, stamping my feet, making animal noises etc. for Noah's Ark, crying like the boy in Alice, then I sang "I'm So Happy" at the end of "Alice" when the kids are dancing in a circle—anything I could think of to make the stories alive. The result!—The stories are "hits" with my kids! They like to listen to the tapes, too, when they're in bed, even without the flannelgraphs.

SUGGESTION ON USING FAMILY FLANNELGRAPHS: Instead of gluing real flannel on the backs of the pictures, which can be pretty bulky, I save all the paper that is around the Bible flannelgraphs

I save all the paper that is around the Bible flannelgraphs around the Bible flannelgraphs I've bought & glue that on the back of the Family's f.g.'s. In the evenings before bed when I show the flannelgraphs, I turn off all the lights except one like a spotlight which makes it more exciting & directs their attention! P.S. I'd love to see a flannelgraph of "Change The World"! Love, Martha.

PARENTS'
QUESTIONS &
ANSWERS! Q.MY CHILD HAS PICK- ED UP "DIRTY WORDS". What should I do?

From Eli & Ephesians; Guam: AT SCHOOL OUR 2 BOYS AT SCHOOL OUR 2 BOYS PICKED UP ALL THE CUSS WORDS etc. We don't feel this has necessarily been bad for them tho & in fact it has helped them to see even more in the spirit where the poor people are at & why they need lessife.

WE JUST EXPLAINED TO WE JUST EXPLAINED TO THEM WHAT THOSE WORDS MEANT, truthfully, & what people mean spiritually when they use them, & that was it. The only time our kids seem to use one of those words themselves is when they have been really emotionally hurt by one of their brothers or get really upset.

WE DISCIPLINE THEM, NOT BECAUSE OF THE WORDS, but because of that angry revengeful spirit, & try not to over-emphasise the

not to over-emphasise the word used except to let them know it's not of the Lord to know it's not of the Lord to call anyone names, especially our brothers. This has worked the best of anything we've tried, including washing their mouths out with soap (they thought that was great fun!). They still do get a spanking tho', along with a talk—sample & sermon!—Hal (Has a problem in raising your children got you stumped?—Send in your questions to the FN! Responses To "The Secret" & "The King's Love"!

From Peter Amsterdam:
Dear Dad & Maria,
I WANT TO TELL YOU
WHAT! FEEL ABOUT 2 OF
THE RECENT LETTERS,
"The Secret" & "The King's
Love". I believe that they wil
be a great help to the Family
in that they will show everyor

in that they will show everyone that Timothy's failure was not some administrational blow-it or because of inability but rather one of divided loyalty.

THE REQUIREMENTS OF

THE REQUIREMENTS OF HIS NEED FOR ABSOLUTE LOYALTY to you is shown so clearly, & anyone in the Family should understand the need for absolute devotion to you both for anyone being in such a high position & in such close service to the King & Queen.

grave the situation actually

IT WILL ENCOURAGE
OTHERS by helping them to
understand why Tim didn't
make it & at the same time get
across the lesson of love, loyalty & devotion which will cause
others to check their hearts,
something that we all need to something that we all need to

BELIEVE THAT THE 2 LETTERS TOGETHER will show the requirements of loyalty, the reasons why it's required, the outstanding love you both had for him, the answer of prayer in Techi, & the encouragement of "if this Work be of man it will come to naught but if it be of God no man can stand against it", in spite of top leaders' falling the work goes on. It will also show the Word of the Lord to be true in that Tim has now

gone so far back.

I REALLY PRAY THAT
THE LORD HELPS ME alwa to be faithful & loyal to Him & to you. These Letters have or to you. These Letters have personally shown me the importance of my job in helping with the administration, & my prayer is that I can be diligent in business & unmoved in loy-

ER FOR JASON, as he is having a hard time with the language. He was discouraged the first week, but we asked the teacher to please write the pages he would have the next day so we could go over them the night before. This has helped Jason so much. The teachers have been very helpfu & we've made a special point to thank them for the extra work it must be teaching Engles. work it must be teaching Eng-lish speaking children.

OF COURSE, THIS HAS BEEN THE CHILDREN'S 1ST REAL STEP OUT on their dren have. own, to use the lessons & the THE 3RD GRADE IS HARD. Word they have been learning.

The first day when Jason was discouraged after school, we asked him if he had cried out to the Lord & asked for His help & claimed a verse. He said he hadn't, so that night he prayed & claimed James 1:5 & prayed for good Spanish/English speaking spirit helpers! The next day he said that when things were hard, he remembered to pray & ask the Lord for help.

THE FIRST DAY THE KIDS WERE AT SCHOOL I FELT LOST! As! came home there were 4 little smiling faces running to meet me. !

ces running to meet me. I felt, Oh Lord, do You mean You want me to start all over again? I knew the answer, but it was still quite an adjust-ment as I had generally work-ed with Jason & Sherah in

ment as I had generally worked with Jason & Sherah in school & provisioning & now, they weren't here. Now I am learning to continue without their constant help & gearing everything to the level of the younger ones again. I felt like I was going back 5 years, but PTL, He is showing us how precious are His littlest ones!

A NEW GUITAR: One of the few things the Lord hadn't yet replaced after our things were stolen was a good guitar. We had been borrowing one, but needed a better one for performing with the children. A brother we had worked with in Finland & his wife met a drunk on the street one evening who gave them a very good steel-string guitar. They read in the FN that ours was stolen & gave it to a sister who lives in Spain who happened to be visiting her family in Finland. She makes this visit once a year. She brought it by plane to us. The Lord sure works in funny ways, His wonders to perform! ers to perform!

LESSONS LEARNED: We hought it was really funny

when a brother in Canada wrote to us after we sent him a tape of the children singing. & a card & book marker that they had made for him. He said that he was really turned on because before he thought it was a big thing to sing with your children, but after listening to the tape he saw how simple it can be. Now he says he wants to get out & try with his too. Then he said when he saw how simple it was to make things for people, he was encouraged to do the same PGI THE LORD CONVINCED US HOW IMPORTANT IT IS TO TAKE A FEW MINUTES to really talk with each child individually just hefore they.

TO TAKE A FEW MINUTES to really talk with each child individually just before they go to sleep each night. Sometimes it's the only special time we have with each child & they relate things to you that they wouldn't say in the hustle & bustle of the day. This seems to really strengthen our relationship with the children.

to really strengthen our relationship with the children.

SCHOOL PRIORITIES: We know how important the kids' schooling is but thru' the years we've found that the priorities before school need to be:

1. The Word, then 2. Teaching the children to care for themselves physically, & then 3. That they also learn to be concerned & care for others. We regularly have to devise new ways of making memorizing interesting, but it is worth it so that they learn their verses. We make sure that they also know what each verse means & tell us when quoting the verse.

& tell us when quoting verse.

SOMETIMES WE'VE TAUGHT THE CHILDREN HAPHAZARDLY—a little here & a little there. They really fail to learn anything. We've seen thru' good & bad experience that the teaching needs to be fike carefully building a building. We need to de-

cide what we want or need to teach & then decide how we

teach & then decide how we plan to teach <u>before</u> we get started. I've also seen since the kids have been in System school that maybe we go too slowly with our children when they could learn more <u>quickly</u> & thus stay more interested.

KITCHEN CLEAN-UP TIPS: Since we have no adult help with the children, we really have to stay on top of things. One thing is kitchen sclean-up. I think a really good cook cleans up as he or she goes. It's so easy to make soapy water & wash up as you cook so that when the meal is served the dishes & counters are clean. Then after a meal the kids bring me the dishes & I quickly pre-wash each one & stack them next to the sink. If we can't wash & dry them is clean-looking & there is not food left on the dishes to draw flies & ants. We also wash off cabinets & tables with a solution of chlorine bleach & watter after meals & before bed. This really discourages flies & bugs & is a very cheap & excellent disinfectant. We keep it in a labelled squirt bottle, & it's good for cleaning kids' toys & baby rooms too.

HOUSE DECORATION: We used the first week the kids were in school to make a much needed clean-up & redecorating of the house. We are improving the livingroom with new drapes that Secundus made & cloths for the tables & painting the chairs for the tables. It is so easy to make a structive.

ing the creats for the table. It is so easy to make attractive arrangements from dried flowers that are in abundance right now. We are making a children's playroom, covering apple crates with foam & bright reference with the property of the control of the contr coloured vinyl that was pro-visioned, & provisioned carpet. It is so much more inspiring

to live in a clean, bright house them what they need, the Lord with nicer surroundings. Somewill always bless & care for us, times our homes can be dull & When we've neglected our little lack the inspiration that a little ones we've lost the Lord's touch here & there can add. I blessing & provision & protection. We've realised more & more how important these more how important these have learned is that if we properly care for & really live thru' our little ones & forsake our own ideas & desires to give them seems to greatly grieve & concern the Lord.

MGES. Sometimes we feel that the things we write are just so simple & that they couldn't help so much. But each week we get letters from Family members thanking us for writing the testimonies. This helps us so much, & we really praise the Lord, as these toy grieve & concern the Lord.

"Do you find the 'Davidito Letters' helpful, or a hindannce in any way?" "Do you think that you, or the Family, could improve the rearing of our children?" ELI & EPHESIANS L.A.: (Six children, ages 1 month to 7 years.) The spiritual situation of our marriage is great! We have our little disagreements now & then but it just makes making up even more fun. We get along great & are happy together, espe-

to burn free & do things that make us happy & fulfilled. We do have a few disagreements about raising the children but usually just over a certain circumstance & not as a whole. When we disagree, we try to sit down & decide what's best. Then if it doesn't work we try something different. We try to avoid making the "Ten Commandments" of childcare rules. We try to be the "I en Commandments of childcare rules. We try to be flexible. If something doesn't

work, we try something else.

In fact it has helped them to

where the poor Systemites
are at & why they need Jesus.

we have written to several single people in the States & single people in the States & are hoping & praying they get their fare & come. People we hear from most of all that offer help are usually girls who have been childcare workers before & even have their own families now but want to help still, GBTI

THE GREATEST ENCOURAGEMENT to me. is after a

THE GREATEST ENCOURAGEMENT to me, is after a super hectic day just having one thing happen where the kids do or say something really in the Spirit!—That makes it worth it all! Also my husband encouraging me to keep fighting, knowing! I have his love & prayers, & of course the Mo Letters most of all! No matter how busy a day is, when we get those new Letters & FN's, I read everything immediately! They are so refreshing!

FN's, I read everything immediately! They are so refreshing!

DAVIDITO LETTERS: I read them & use what I can. The things I like the most are the things Dad says—how he handled a specific situation that needed to be dealt with. They also opened our eyes to see the children as individuals with individual needs, but in our case we have to run our family like the "army" Dad describes when his children were young. I just can't give them the freedom Dito has of choosing their own foods etc. I'd really like to hear about not only how Dad had to handle his 4 before, but things that he would do differently now if in the same circumstances but with the new knowledge he has now. I think that kind of info would help large families a lot! If you could imagine yourselves with your present staff now & 3 or 4 more Dito's (but not more childcare helpers) & how you would face difficulties that arise, that's what would make

don't get me wrong, I appreciate the Dito letters but the attitude I personally have had to take is one of "Well, PG, that's what they do with Dito & what he's up to" & not let it discourage me. That's why the Letters & the Eord help me so so much to keep fighting & fighting! —Love, Ephesians & Eli & family. sians & Eli & family.

AMOS & MARY O'TEST;
(7 children, ayes 2-17
years.) We have 5
boys & 2 girls & are so thankful for each one! Three attend school & are doing reality well. The oldest teenage boy has sufficient schooling, but the next, Reuben, is behind & could really use another year. We have help in the Home from the other brothers & sisters, especially in the physical matters which is a real help!

WE'VE FOUND THE BEST WAY TO WITNESS & LITNESS is while going about our

school, at the park, while shopping etc. We really feel it encourages the children's vision of what witnessing issomething you're doing all the time no matter what else you're doing, & not just limit it to "going litnessing."

DAVIDITO LETTERS:
Without their help & counsel, we'd be lost. They're our greatest help & encouragement, & the Techis have been a great help about baby care!

TEENAGERS: Both boys, Joseph-16 & Reuben-15, have been in the Family for 10 years. One of the biggest lessons we have learned is to not try to force them into the mould that we think they should be in, or make them in any way or force them to live up to our standards or expectations. They must find their place in the Family & God's will for their lives with our help & encouragement & not force!

WE MUST NOT MAKE OLD BOTTLES OUT OF THEM!

Family "freak out" when my teenagers played a game of pool, watched a horror movie on TV or sometimes refused what an adult had asked them to do. They wonder: "What's wrong with Amos' teenagers? Are they really in the Family!" etc. etc. Some even said that they should go back to the system or their grandparents!

I'VE ASKED MANY OF THESE SAME PEOPLE: "Well, what did you do when you were a teenager?—Did you play pool or watch horror movies, & did your parents kick you out or send you to Grandma because of it?"

WHEN WE WERE TEEN-AGERS, we did the same things, & a lot worse! So God help us to be more loving, understanding, like Dad said, & not so self-righteous! These guys have never tasted of the System, so I say, let them taste it & get sick of it, like we did! Otherwise, they'll rebel against their parents & Family, just like we rebelled against our parents. (AMEN!—Dad.)

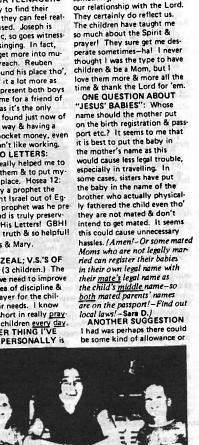

SO I NEVER SAY TO THE BOYS, "No, you can't do that!"—I just say, "It's your life, it's your decision, so pray & ask the Lord & do what He shows you, & I'll! stand by you." This attitude has brought me closer to the boys than ever before. They are always seeking my advice & counsel on things, & I do the same with them. I did this about leaving my former wife. Those guys can really hear from the Lord & they really know where things are at, a whole lot more than people think!

TWO OF THE SISTERS OFTEN SHARE SEXUALLY WITH THEM & they really like it! I know these guys know Jesus & His calling in their lives & they'll never get away

I REALLY FEEL WE NEED TO HELP OUR TEENAGERS in the Family to find their place, where they can feel really happy & used. Joseph is good at music, so goes witnessing & street singing. In fact, he'd like to get more into music as an outreach. Reuben hasn't yet found his place tho', so goes thru' it a lot more as a result. At present both boys work part-time for a friend of the Family, as it's the only way they've found just now of paying their way & having a little extra pocket money, even tho' they don't like working.

o' they don't like worki DAVIDITO LETTERS: DAVIDITO LETTERS:
They have really helped me to
understand them & to put myself in their place. Hosea 12:

Lord brought Israel out of Egypt, & by a prophet was he preserved." Dad is truly preserving us with His Letters! GBHI
They're the truth & so helpfull Love, Amos & Mary.

MIDEAST

RIPHATH & CYPRUS: Tho' we only have one child, Mercy Iman-1 year, the Lord has been teaching me a lot of lessons over the past year that I'd like to share. During the 1st 6 months of Mercy's life we lived in 5 different coun-tries, & we didn't live in any one place for more than 3 weeks—quite an experience!
We learned so much about
travelling with a small baby!
ONE THING THAT MADE

ONE THING THAT MADE IT POSSIBLE for us to travel easily was the fact that our baby was totally breastfed for the first 6 months & she is still nursing at one year of age. Besides the convenience of breastfeeding. I am convinced that breast milk has helped Mercy to stay healthy throughout our many climatic changes.

out our many climatic change I REALLY FEEL THAT THE "WOMANLY ART OF BREAST FEED ING" is a lost art in the Family & the mothers (especially new mothers) could use more encouragement along this line. I am so glad breastfeeding is recommended in the Techi Letters! Many mothers have told me that they didn't want to that they didn't want to breastfeed their babies beca they were too tied down & couldn't go out FF'ing too much. This is a decision, I uppose, that each mothe

has to make for herself, but I have seen many little children. & babies neglected by mothers who only wanted to push the responsibility of their children off on others & spend their time "free" of the children out FF'ing & having fun.

I LOVE TO TAKE CARE
OF MERCY & I also do all the cooking, shopping & housework which keeps me quite busy. It wasn't until I got the Letter "Questions From the Field" tho', that I had a peace about putting the baby first even if it meant that I couldn't get out FF'ing. IN OPEN FIELDS, I REALLY ENJOYED LITNESSING with the baby once or twice

THE DAVIDITO LETTERS HAVE BEEN A TREMENDOUS HELP & encouragement. They, along with the Bible & Mo Letters are a tremendous quide for raising our Bible & Mo Letters are a tre-mendous guide for raising our children. Because we have travelled quite a bit, I have been able to obtain or read many of the recommended been able to obtain or read many of the recommended books & I have found them to be very helpful & inspiring. To cut down on luggage, I found it helpful to take notes on some of the books, some of which I merely checked out of the library. I only carry around the books that I want around the books that I want around the books that I want to re-read & refer to constantly In every country we have lived we have found the British Con-sul to have a good library. I THINK IT WOULD BE

HELPFUL TO PUBLISH CON DENSATIONS of some of the recommended books. I have met some mothers who don't weigh these other system book against the Dito & Family Care

material. For example, one mother was potty training her 3-month-old because she read it in the Dr. Bundeson book. it in the Dr. Bundeson book. Another mother would leave her 2-month-old to scream in his bed because Dr. Turtle said that if they weren't wet or hungry that they were "fussing unnecessarily". These are, of course, exceptions. But the condensations would also be good for mothers who can't get some of the recommended mae of the recommended ma-

NOW HARVEST, OUR
HELPER, DOES A LOT OF
THE TEACHING while I take the littlest ones for long walks. Having someone to help with the children eases the pressure so much & I can enjoy the children & go slower with them & calm down. It gives me more faith that others in the Family really believe that the children are important, & it isn't just the words in black white.

& white.

I THINK A REAL CAM-PAIGN TO ENCOURAGE
THE SINGLE PEOPLE to help the families would really benefit everybody & unite the Family much more. I & the children really appreciated the time Delia was with us, too, in Spain. We had lots of fun & she had all kinds of ideas.

My 7th will be born soon!

P.S. FROM HARVEST: Now we have another couple with 4 children living with us, so it's a full house with 10, almost 11, children, plus 5 adults! But we're doing it because both families have a burden to leave for the mission fields again & the two Daddies have jobs. So living together, we can share expenses & save a little faster to split! So we are busy, busy, busy teaching & training the children, & ! love it! We all do!—Harvest.

IT'S GOOD TO HAVE A HOME TO COME BACK TO & not to have to drag the children around nearly every day litnessing to survive. We see good fruit—the children are happy, fairly obedient rascals, & we hope we're doing a good enough job bringing them up in the nurture & admonition of the Lord, Thank God for the Letter 'Children in the World' again renewing the vision of what to emphasise.

ONE QUESTION: Once the ONE QUESTION: Once the fruit of being "mated" gives you children, it becomes permanent, doesn't it? That's the way we read Mol Is this correct or no? We question because we have seen examples of Family members who don't regard the responsibilities of parenthood as primary (& so regard the responsibilities of parenthood as primary (& so to speak permanent). Mated can mean temporary, but what about their children? YOU ASK WHAT IS OUR GREATEST HELP & ENCOURAGMENT: Well, obviously apart from the Lord, without whom we couldn't survive a single day, & Mo, whose words mean everything to me, I would say without a doubt Dan & Chanson (another couple in the same city) & Andre, the V.S.. They've lifted me up a thousand times when I fell, took care of my children like their own.

THE 2 OLDEST HAVE
BEEN ATTENDING SCHOOL here for the last 6 or 7 months & Leila-2½ for the last couple of months in the mornings only. Their French has improved incredibly. They speak French now almost as well as English. But I found they were being really well indoctrinated by the System & not at all enough the street.

Then one caught scarlet fever & the other came down with head lice which the Lord show ed me was like a ma of the bad spirits she had pick

ed up.

I REALLY AGREE WITH
"ARE YOUR CHILDREN BECOMING ONE?", but unfortunately my children are lacking in many ways in their spiritual training. So for the last
few weeks I've been keeping
them at home & trying to give
them school myself. The children now have daily devotions
with Bible & Mo Letters, flannelgraphs, as well as our being nelgraphs, as well as our being firmer with their discipline & not letting them get away with

bad behaviour.

It is so inspiring to see we can do so much & still take good care of the kids too, if we all work together. SHAUL & ABIAH:

(3 children.) We've heard excellent comments on the Dito Letters which stress that he too makes mistakes & isn't perfect. Some parents have mentioned that they feel Davidito is a special case, since he gets such individual attention & several even felt that he gets opportunities that their children don't have a chance to get. (Because of the King & the special opportunities have feel and the series of the King & the special opportunities now have special opportunities on hers don't have & never will! Do they want a Royal Family or don't they! Of course Davidito has "special opportunities" but for God's take we're not writing about him to brag about him, but to help them. Of course their children can't be exactly like him, but they can learn from our examples of training him!—M&M.) For the most part, nearly all the parents really love the Dito Letters & are really thankful for them, particularly for the detailed descriptions of each age & stage, & the few we've seen to be critical often just need encouragement to really get into the Letters to find the solutions to their own children's needs & problems.

SOME PARENTS IN DIFFICULT COMPITIONS really do need helpers, which are often hard to find, all of which makes in the physical & practical organisation of things difficult. How Open Should Our Homes Be?

m Adar David's (WWMM

From Adar David's (WWMM secretary):

ONE THING WHICH HAS BEEN ON MY HEART is that it seems very hard to find any Home willing to take care of, or take in, a sheep begging for some training to be a missionary. He has gotten saved & filled thru' the mail, loves the Letters & has begged to stay in one of our Homes for training for a period of time.

THE VS'S OF SPAIN & PORTUGAL ASKED EVERY SINGLE HOME if they would mind taking him in for 3 mos., on a trial period, to see what he was like & to teach him to witness, as well as to give him the fellowship he so sorely needs.

BUT NO ONE, AS THE KOL

needs.
BUT NO ONE, AS THE KOLJUST WROTE ME, WAS "WILL ING to take him in Spain because most kids say they don't have faith for someone they didn't win or know. Sorry we couldn't help more but you know it's all up to the kids now!"

know it's all up to the kids now!"

THIS BOY WROTE
DIRECTLY TO THE VS'S, after they replied to him that no Home was available for him:
"Now let's face the facts, I think I have been patient long enough as regards to the training. How long will it take to find me a home. Since 2 years I have been asking for it. I have a strong faith in the Lord, but I feel the training is for the white man only."

THIS BOY REALLY DOES

but I feet the training is for the white man only."
THIS BOY REALLY DOES MEAN BUSINESS as last year he travelled all the way to the bush to find the Family at the address the Family had told me to give to him, but when he got there they had left & no one

knew where they had gone, so he is discouraged about ever finding them now in his home

rinding them now in his home country.

WITH ALL YOU HAVE SAID ALREADY about taking care of the Lord's little lambs, I cannot understand how not one out of 60 or more Homes in Iberia would take a chance & give him a chance to prove himself at least for such a short period as 3 months. I wish I could take him myself. (DAD: Would you really if you were a tiny home of your own having to make it by faith alone with a family of small kids & discover too late the guy is just a sponger looking for a soft nest?—That's our experience with many! Sorry, but I don't trust the type!—Read below.)

DAD'S REPLY!

PTL! THANKS FOR YOUR CONCERN for the sheep! This is a present problem for

so many-nearly all-our Homes are now full of small children & barely able to make it themselves without any added burdens, particularly someone they don't know & haven't even met.

WE DO HAVE A NEED FOR SOME OPEN HOMES where visitors can come for fellowship & feeding, as we used to. However, under present conditions these would almost have to be supported by other Homes to make it, as most are having a struggle to survival

to make it, as most are having a struggle to survive!

PERHAPS SOME HOMES COULD VOLUNTEER FOR THIS, & others to support them. We could suggest it to those who'd like to help.

HOWEVER, IT WAS OUR SAD EXPERIENCE in the Soul Clinic's free schools that many blacks now think the world owes them a living, & merely want to get out of their own country & its hard life to loaf in the affluent society while someone else supports them!—Sorry, but that's a fact! We know!—We tried it!—Some even wanted us to pay their fare!—

even wanted us to pay then fare!—

& WHEN THEY GOT TO SCHOOL, THEY DIDN'T WANT TO WASH DISHES,

WANT TO WASH DISHES, mop floors or clean toilets!—Just wented to sit in classes or meetings all day—& sometimes preferred to stay in bed!

OUR EXPERIENCE WITH THEM HAS NOT BEEN EN-COURAGING. We still have some writing us to support them in their own country! The fact is, many were spoiled by church missionaries who paid their converts! Nigeria is full of churches & Christians!—And a good field for them right there!—And ML's are good training!

ood training! SO I'D BEWARE OF SUCHI Some asked constantly for Bibles, until we found that

Bible paper makes good cigar-ette paper!—You have a tender heart, but once you've been burned it's hard to trust them again when they're so prone ogain when they're so prone to deceive the tenderhearted!—Sorry, but I've learned by sad experience not to have much faith in some people!—Love,—D.)

"TO COMMUNI-CATE FORGET NOT!"

From Peter & Rosie; Far East:

THREE MONTHS AGO I
REPLIED TO AN AD IN THE
FN from Holland saying they
had spare suits & trousers if
anyone wanted some. That

would be a tremendous blessing as good clothing is very hard to come by out here & would be ideal for drop-in work I want to do.

WELL, IT'S BEEN 3
MONTHS & STILL NO RE-PLY! It's not the fact that I got a negative reply that bothers me but the fact they just didn't bother to write at all! Couldn't they at least have sent a postcard to say they were out of trousers? In the world, business organizations are prompt & efficient in answering enquiries—how much swering enquiries—how more should we be so?

ALSO WE ARE IN A VERY CLOSED COUNTRY where all the 7 Supporters are quite

limited. We wrote up a good prayerletter with testimonies & made 50 copies, sending some to Family members we know personally but most to addresses of Homes in the West we got out of the FN. NOW 3 MONTHS LATER we have received only 5 replies—that's a 1 in 10 rate! I have been in Homes in both the West & East & I really feel the Western Homes should be helping out the Eastern ones a bit more. Even a little bit goes a long long way out here! SO MY HEART'S CRY is that he Family be more faithful in answering letters, & in particular heeding the cry of the poor! Love, Peter & Rosie.

THE CAMPING SERIES: THE CAMPING SERIES:
Lots of inspiring "we're doing it" testimonies began to roll in, from sleeping-baggers to caravaning families! Couples with children are making caravan "tours" with their singing children, & an especially inspiring account of a "rocking out" litnessing push was made by 2 brothers who grabbed their bedrolls & spent 2 weeks on the road distributing 4000 process of the statement of the statemen

& bringing in \$1600 in funds! And someone who had made an overland camping trip to India twice sent in lots of tips & even some great "one pot meals"! (See page 3!)

"NO LIT NO LETTERS" received thanks from many as they hit the streets again! One couple wrote how they had just been praying about the many problems that were just tumbling about them & the Lord showed them they hadn't been litnessing enough, just as the Letter arrived, & sure enough, the greater amount of lit they got out, the greater the blessings became! Many apologies for slacking off in this area are coming in with pledges to do better from now on.

"QUESTIONS FROM THE FIELD": Dad is still receiving thanks for this one, with testimonies of how the clarifica.

FIELD": Dad is still receiving thanks for this one, with testimonies of how the clarifications in these Letters were a

blessing.
THE IRF'ERS ARE SENDING SUCH PRECIOUS LETTERS OF THANKS for the
IRF, & it's also so inspiring to

hear from some of those "old timers" who are jumping back on the bandwagon again! PERSONAL MAIL MINISTRIES seem to be bearing much fruit, & more & more of our Family members are starting MM's of their own.

BEAUTIFUL BIRTH TEST-IMONIES were numerous this month, as also were the always continual thanks for the Dito. Tech is tetters with many

& Techi Letters with many requests for more, more, more! Special advice asked on disciplining 5-year-olds.

BRAVE PIONEERS still go-

BRAVE PIONEERS still going on to new mission fields, esp. from U.S. to S. America. Thankful response to "Go Ye" beginning to roll in! IN GENERAL, LETTERS TO M&M OVERALL were sweet letters of love & inspiring testimonies of how the Words are truly working wonders as they become the leaders at last & are being lived more fully than ever. Many have mentioned how much they like the new Magazines (DAD: A dream come true!).

Travelling & Camping Across Europe!

Adam & Patience, now

From Adam & Patience, now in Austria:

BEFORE LAUNCHING OUT TO ASIA, we decided to go thru' Europe to "try our wings". We left it in the Lord's hands to lead us to what He wanted us to do & where He wanted us to end up. & He surely has!

IN ORDER TO BE MOBILE with our family of 6, the Lord showed us last winter to take the extra time & expense of getting a driver's license & vehicle, which has really payed off now. Patience & children in the Eleonora-3'w & Emmanuel they checked thru' all our things & asked about our distribution lit (it is legal to distribution lit (it is legal to distribute in Scandinavia so they could do nothing about it), we went thru' all our things keeping only the most essential security items scattered throughout our luggage. Now whenever we near a border, we dress up a bit & get our passports ready, & as a result we've had no more problems & all have been very friendly. IN GERMANY THE LORD STOPPED US for several days as the children got sick throwing up. It really made us desperate as it is hard to clean up & wash in our small facilities! But it was all the Lord's plan as it gave us a chance to talk with the VS's who told us a bit about various countries, & the Lord showed us clearly to

go to Austria & pioneer a cer-tain city there. So we con-

go to Austria & pioneer a certain city there. So we continued on our way thru' Netherlands, Belgium & France.
DURING OUR TRIP, OUR DAY-TO-DAY EXPENSES were supplied mostly by our singing ministry with the children & thru' provisioning & mail. It amazed us how the Lord opened doors & led us to helpful people even in old "worn-out" fields where the brethren have left or gone under ground, like in Germany!
SINGING WITH THE CHILDREN ALWAYS BORE FRUIT in souls saved, friends won & needs met. Almost every time after we sang some-body would come up & talk to us. On one occasion an American man came up & asked if we were Christians & said, "That's a good testimony to

ALWAYS REWARDS IT if we just take a step & try to be a testimony with the children, in whatever way possible. And the few times the singing didn't go smoothly the Lord used it to humble us & teach us it's only Him or make us desperate.

LIVING LIKE THIS ON
THE ROAD in foreign countries with all our little ones

WE WERE LOOKING FOR A COUNTRY, a place to set-

Mommy & kids on their wa matching outfits are a nice

over the winter, & for Jonas our oldest to go to school. Even tho' the Lord provided it, He reminded us when we were searching for a flat that we need to look first of all for the "everlasting habitations" for the "civity that hath foundations". That's how we felt many times while travelling, no home except Heaven!

WHEN WE FINALLY AR-RIVED AT AUSTIA IT WAS TON IN AUSTIA It was the end of September & starting to get cold & poured down rain for 3 or 4 days straight. It was then that we got Magazine No. 5 in the mail & read in "Have Faith Will Camp" part 4: "Sometimes it can be hard & sometimes you might even feel like it's almost unbearable & unendurable, but you still survive!" That was encouraging because it fit exactly our situation.

AT THIS POINT OUR FAITH STARTED TO WAV-ER & even tho' the Lord had told us before to pioneer this city, we started wondering if we should maybe return to Sweden for the winter. We prayed desperately & got "beaten paths are for beaten men but the mountain peaks are for the mighty". Honestly we felt pretty "beaten" but prayed that by His Grace He would give us the strength. We got encouraged by His Word & set a deadline for the Lord to supply a flat within one week. Later in the week we started to doubt again & were considering going back home when the Lord let the clutch pedal break & stop us in our tracks so we could go nowhere! PTL!

ON THE 7TH DAY THE LORD SUPPLIED OUR NEED—part of a summer house owned by an architect

a little bit out of the city, perfect for the children yet close enough to the city for witness-ing! The Lord has been touching the heart of the own-

er more & more to help us, & he got Jonas into the local school here. He also speaks Swedish & German & English which is a real help to us!

So PTL, we're here to do our best for Jesus for as long as He would have us, till it's time to hit the road again! Love, Patience & Adam.

NEW FEATURE! What readers say about the Family News!

From Leah:
SOME BASIC SUGGESTIONS I would have are: 1)
Have more pictures & photos
—we all love to see our Family!

"Keen sendin'em' Have more pictures on pnotos—we all love to see our Family!

(Ed.: Amen! Keep sendin'em:
in!—We need more 'n more!)

2) Maybe have more "inside
news" & opinions on controversial subjects, more letters to
Dad & more heartcries from
people—trials & victories.

3) The prayer requests are
very effective to help bring us
all closer together when we
weep together, pray together
& rejoice together. 4) More
comments on articles by M&M
& also Sara D.—there's nothing
like "the Lion's pawprint" to
inspire you to read it & act on
it!

From Justus & Adar:

From Justus & Ader: COMMENTS ON FN IN COMMENTS ON FN IN MAG NO. 3: "Getting Out the Komix"—This is the type of "normal" testimony that becomes a bit monotonous. (Maria: I don't agree. The Family needs these to encourage them to do the same!) "Confessions of a Band Member"—The FN has already published so many apologies & we'd much rather hear a testimony from Chronicles about mony from Chronicles about how he & his family furlough

ed to the U.S. & made it back to the mission field, & the fruit he is bearing now.

(Maria: He needed to apologise & there were some people who were happy to hear it. \(\frac{Mel}{2} \) Dady "Love Found a Way"—We understand these people's security position, but it really takes the punch out of the testimony when you take out "who", "where" & "when". All that's left is a watered down version of "what". (Maria: That's what's most important, right?) "Responses to the Timothy Revelation"—Encouraging pledges of loyalty from our Family, but maybe not so many are needed all in the same issue? (Maria: It's a yery important subject & appreciated!) don't really read 'em usually.
(Maria: We gll do!) The article on Melita Morningstar—I
liked the poems & it was interesting to read a testimony about someone in the Family &
how they're serving the Lord
as an individual. I thought this
was really different & I'd like
to see more articles about individuals, for example Mrs.
Good or Elizabeth Grey or othero older people with whom
some of our IRF'ers could identify.—Or brothers & sisters
with drop-in jobs & how they
witness on the job etc. (Amen!)
From Paul & Marianne:

From Paul & Marienne:

"WHAT THE PEOPLE SAY'
IS SUCH AN IMPORTANT
SECTION & should be included in all FN's. There are al-

ways a lot of people who need to be encouraged by what people think of the ML's or need to be reminded of the super effect they & we have on people either out litnessing, FF'ing, DTD, cafe singing etc., or need to know that some parents are really happy about what their children are doing for the Lord, etc. We know that people's reactions always really touch our hearts & often make us cry because it reminds us of what Jesus does every day in people's lives, what He's done in our lives & that we live in the most beautiful Family in the world & that we have soood much to be thankful for! So we'd like to see more letters from people who are thankful for the ML's, the Family, God's love thru' a brother or sister, from parents, Fish or even brothers' & sisters' reactions to the Letters etc. ways a lot of people who need

tions to the Letters etc.
WE AGREE THAT THE
HOMES DON'T SEND IN
ENOUGH TESTIMONIES & enough Testimonies & are not faithful enough to share with the rest of the world "the great things the Lord hath done". When we go visiting the Homes we hear the most wonderful stories of miracles & lives changed!—& we try to encourage everyone to send them in to inspire the whole Family, as they are never so good as when told first-hand! (Amen! We all need'm!). handl (Amen! We all need'm!)

Have you sent in "The Readers Retort Form" yet? (See Mag. No. 7.) Let us know how you like the FN! Send in reactions to specific articles!—And send in your news too!!

nights the older kids go. Well any way, I went

Everybody's Doin' It! - CAMPING FOR JESUS! News & Tips from Campers & Caravaners Around the World!

'ROOKY RULES'

FOR CAMPERS!

From Micah & Joanna Teddy

Bear;
THESE ARE SOME LESSONS WE LEARNED as we camped & travelled during the summer "Europe One" music tour with Jeane Manson:
A CAMPING GUIDE published here in France by Michelin we found to be very helpful. It gives all vital info on every campground, area or

elin we found to be very helpful. It gives all vital info on every campground, area or farm equipped for campers in France telling exactly what services are available, when open, price, no. of campsites, telephone no. to make reservations, even a star rating like hotels!

HERE IN FRANCE IN SUMMER THERE'S "FARM CAMPING" in which a farmer opens his land to campers. The advantages are that it's more private & quiet & you can buy farm fresh eggs, milk, cheese etc. at very low prices. The disadvantages are that sometimes facilities such as showers etc. are less than at organised campgrounds. We found it good for witnessing tho', as they're more personal & people seem more drawn to talk & share, especially during the "campers morning coffee ritual".

IF YOU'RE A SINGER OR MUSICIAN, camping will give you an ideal chance for good witnessing & provisioning &

Brittany Coast of France. Photo by free camping if you offer to put on a "show".

TIPS ON TENT CAMPING:
We found it good to lay a tarp or sheet of plastic down first, then pitch your tent (even if it has its own floor), for an additional layer of insulation & protection. Just make sure that the tent itself goes out beyond the area of the undertarp; otherwise you create a

ready-made rain-catch guaran teed to wash you out! (Cost: Experience!)

IF YOU PITCH YOUR
TENT ON THE BEACH or TENT ON THE BEACH or other windy area, you'll need a wind-break: Park your vehicle right in front of your tent (which you have pitched back end facing the wind!) so that the vehicle is between your tent & the wind. Or another wind-break is to use near-by trees or poles or extra tent poles & a tarp to create an airfoil by making a lean-to be-tween you & the wind with the high end at the top back end of your tent. This will cause the wind to sweep over you without putting any presure on your tent.

WE FOUND IT WISE TO FILL UP OUR WATER CON-TAINERS before breaking camp & going on to the next & travel with full water capa-city. You can never be cer-tain of conditions where you're headed!

headed!

MAKE GOOD USE OF
LAUNDROMATS whenever
you pass one! In France, at

least, they are quite scarce & you may not find one in every

you may not find one in every town!
THERE WAS ONE PROBLEM WE NEVER FOUND A
SOLUTION FOR: Bees & wasps! Perhaps it's just because we were leary of putting chem ical bug repellents all over us all summer but we never did get rid of this pesky problem! Anybody got a solution?
Love, Micah & Joanna.
(Later: Tips on camping with children—by Joanna.)

ON JEANE MANSON: "She as seemed more open than ev-

bers of her teem, 3 of whom o not even know the Lord yet. She's witnessed to them all & given a Cornic to her heldresser. When Michel Delpech, the other star on this Europe 1 promotion tour, had a nervous breakdown & was in the hospital, Jeane used it as an occasio to testify how God is the only thing that has kept her. She has expressed concern about how to bring up her daughter Jennifer (16 mos.). She also said she's not happy with her image on stage & wents to sing more songs about Jesus. So pinaps she is truly repenting & the Lord will have mercy. the Lord will have mercy.

Building a Home of Hearts!

From Marie Magdalene; France:

I WANTED TO SHARE A
TESTIMONY OF OUR LITTLE HOME OF HEARTS
which I hope inspires you. A
couple & their 2 children & I
moved into our new Home 2
months ago. The beginnings
were pretty hard. We had lived together before, but in a
larger home where we could
easily "hide" from each other.
BUT THEN WE FOUND
OURSELVES PRETTY
"NAKED" before each other
with so many things to do &
face: finding a house together,
inspiring & feeding the children, getting out the Word,
getting into the Word, taking
care of our Fish & still finding
time to love each other.
THE DEVIL REALLY AT-From Marie Magdalene; France

THE DEVIL REALLY ATTACKED, as he always does
when we start something positive; he just attacked & attack
ed from inside trying to sow
dissension & to bring us to
doubt our decision (while the Lord was doing miracle after

iracle to inspire us).
THE BIGGEST BATTLE was & still is to accept each other as we are & to learn to use the strengths & anointing in each other & not to get m at the weaknesses, to look beyond the sins. The Lord has had to mold us together by exposing each one of us to the others, thus forcing us to be honest & to get us on our prayer bones to ask the Lord to help us & change us.

SOMETIMES AFTER A
BIG ARGUMENT, we just burst out laughing as the Lord shows us what complete failures we are & how we just can't do it without His help. TG, we are learning a little bit of humor!

an it without His help. TG, we are learning a little bit of humor!

THE CHILDREN HAVE
BEEN A REAL HELP, always comforting us when we're down & really convicting us by their simple faith & joy. Once, as I was aplogising to them for having been too hard on them, the 7-year-old gave me a long encouraging exhortation saying: "Don't worry, I understand. I know it's hard to take care of children when you're not accustomed, but the Lord will do it." And calling his little sister he said: "Let's give Marie some love, she is on a big bummer!" Ha!

SO THE POINT I WANTED

merl" Hal SO THE POINT I WANTED TO MAKE IS: If our Home can stick together, anyone can! I've seen & heard of a lot of crises & dissensions in the Homes since the RNR, since we've been called to the liberty o love each other in Spirit & in truth. But after this experience, I'm just absolutely convinced that any team can make it with a little bit of faith—faith which worketh by love! IT ONLY TAKES THE

faith which worketh by love!
IT ONLY TAKES THE

A simple way to correct or prevent knock-knees & leg problems!

their parents go to doctors &

out of 10 this problem can be
easily overcome, if you remedy the situation early.
I TOO WAS A KNOCKKNEED CHILD, very clumsy
& with abnormally large knees.
From the time I learned to

after years of therapy & wearing big bulky corrective shoes,
my mother took me to another specialist when I was 11.

HE TOOK ONE LOOK & said he knew exactly why my legs were growing wrong! He then asked if I ever sat on the floor with my legs turned outward & backward. I told him that was exactly how I sat. He said that was the cause of my problem, because sitting that way causes the legs to grow wrong, especially at the knees. It often causes shooting pains in the knees & if done often always causes knock-knees.

I. THE RIGHT WAY TO SIT!

1. THE RIGHT WAY TO SIT!
SO MERE ARE SOME TIPS-1.
Always insist a child sit on the floor cross-legged as in Photo 1.
2. Never allow him to sit as in Photo 2.
3. If a child has already started to show deformities in his legs & knees, do this exercise daily:
Sit on the floor with knees bent, placing the soles of both feet together & then press your knees as far down as they'll go, as in photo 3.

as in photo 3.
IF THIS EXERCISE IS DONE FAITHFULLY, it can totally undo the damage done in a still growing child. It goes along with Dad's counsel

in "The Health Revolution" to live right, play right, work right —and in this case, <u>sit</u> right! Hope this helps you! Love, Sara.

THE LORD IS MY TEACHER! - by Henry Van Dyke

THE LORD IS MY TEACHER! -by Henry Van Dyke. The Lord is my Teacher; I shall not lose the way to wisdom. He leadeth me in the lowly path of learning He prepareth a lesson for me every day. He findeth the clear fountain of instruction. Little by little He showeth me the beauty of truth. The world is a great book that He has written, He turneth the pages for me slowly; They are all inscribed with images & letters—His voice poureth light on the pictures & the words. Then am I glad when I perceive His meaning, He taketh me by the hand to the hilltop of wisdom, In the valley, also, He walketh beside me And in the dark places He whispereth in my heart. Yea, tho' my lesson be hard, it is not hopeless, For the Lord is very patient with His slow scholar. He will wait awhile for my weakness—He will help me to read the truth thru' tears. Surely Thou wilt enlighten me daily by joy & by sorrow And lead me at last, O Lord, to the perfect knowledge of Thee.

Pioneering a Ministry to the Deaf!

WE WANTED TO SHARE
SOME OF THE WONDERFUL THINGS THE LORD

the life of our son Zion-5½
who is deaf. We've been back
in the States now for 4 mo.
& Zion is going to a very good

HIS SIGN LANGUAGE
VOCABULARY is rapidly expanding & he presently has about 400 words which he can understand & perhaps 200 which he himself can sign. His teacher is a real sweetheart & has developed a special burden to help him & so he daily gets a lot of individual attention, something which he sorely needs as he is really behind the other deaf children his age, as he didn't have much formal training until now as opposed to the others who begen at age 3.

WE HAVE BEEN ABLE
TO SHARE WITH SOME PARENTS some of our art-ists' work which so graphically

depicts some of these things & makes it easy for the children to understand. The pictures in the "Set Card Books" are particularly good. I reprinted many different children's material (cutting & rearranging many of the Mo Lion Reader pictures & Set Card pictures & arranging them in a more concise book pictorially explaining Jesus & prayer) to give to many of the parents we talk with. Also, our other 3 children (ages 4, 3 & 1) are learning sign language as their second language!
ZION IS FINALLY BEGINNING TO REALLY UNDER-STAND the story of Jesus which we've been trying to teach him for years now. He is really beginning to comprehend & internalise it. He now prays in sign language with understanding, & this morning he pointed to a picture of the Nativity & told me all by himself that Mary was Jesus' mother & he even finger-spelled

BEING CITIZENS, WE ARE ABLE TO TAKE ADVANTAGE of the special programs & benefits which the government allows for handicapped children (especially in this state), something which we had a very difficult time doing as guests in a foreign country.

WE WERE ABLE TO OBTAIN AFFEE HEARING AID that normally costs \$500!—Also free speech therapy out side of school, plus various other financial assistance. This is a tremendous help which we continually found to be almost impossible to obtain before, as most countries take care of their own but are reluctant to do likewise for foreigners.

SO WE ARE "USING IT"
TO THE MAXIMUM to build a strong foundation in Zion. & preparing ourselves to continue his teaching ourselves when

the whole system collapses, which is soon coming. Thank God for this little bit of time! ZION IS GETTING GREAT VICTORIES IN LITNESSING, an area that has always been hard for him & been a frustrating experience for him & us both. We have always instilled in him that it is part of his responsibility to the Lord & even if he goes to school all week that at least on Saturday &/or Sunday he needs to go litnessing. Well, finally after 3 years of seeming failure, tantrums & frustration & often general disinterest or even lack of understanding as to why he should do it, he is finally catching on & is inspired to litness for short periods of time. To us this is a real miracle, as so often in the past it seemed like a hopeless effort. We know he's got some spirit helpers fighting for him. Helen Keller is one (she really loved the Lord & God has used her to be a standard bearer for many other handicapped people).

ALSO, WE FINALLY MADE PERSONAL CONTACT WITH ABIATHAR SILENT. (He is deef & crippled, joined in L.A. in '71 & left the Family in '74.) He recently spent 2 weeks with us & we were able to share ebout the changes in the Family & meet some of his physical & spiritual needs. We really pray that it will help renew his conviction to serve the Lord full-time. With his help we are starting a mail ministry to the deef! The Komix are just perfect for them, as the vivid illustrations make the concepts so easy for the deef to understand. Please pray for him & us in this!

HEAVEN'S SPECIAL CHILD!

A meeting was held quite far from Earth! It's time again for another birth. Said the Angels to the Lord above, "This Special Child will need much love. "This Special Child will need much love.
"His progress may be very slow
Accomplishment he may not show
And he'll require extra care
From all the folks he meets down there.
"He may not run or laugh or play;
His thoughts may seem quite far away.
In many ways he won't adapt
And he'll be known as handicapped.
So let's be careful where he's sent. And he'll be known as handicapped.
So let's be careful where he's sent.
We want his life to be content.
Please, Lord, find the parents who
Will do a special job for You!!
They will not realize right away
The leading role they're asked to play.
But with this child sent from above
Comes stronger Faith and richer Love!
"And soon they'll know the privileze given
In caring for their gift from Heaven.
Their precious charge so meek and mild

She Taught Me The Language of Love!

One Look of Love Melts Heart of Intellectual!

From Pedro, lawyer & university professor:

WHEN AS THE YEARS GO BY, the time comes to contem-plate in perspective the passing of our lives, it shocks us & makes us tremble to think how one can walk thru' this world without the Lord's loving guid-

one can walk thru' this world without the Lord's loving guidance.

WE MAY HAVE BEEN AB-LE TO FIND MONEY, glory, fame etc. but all that isn't worth anything if we are incapable of offering to others the only true & everlasting thing humanity has, something that, as the Bible says & Father David has reminded us, never fails; Love.

I WAS A PROUD MAN, having managed to graduate from University at a young age, with all that symbolizes the System. God for me was only a fantasy unworthy of serious consideration. For me the Bible was a hoax to which of course I thought I oughtn't to pay the slightest attention. I declared my self to be, naturally, a staunch atheist & in front of anybody who wanted to hear me I would proclaim a thousand & one times that God only existed in sick & feverish minds.

existed in sick a leverish minds.

HOWEVER ON A COLD & RAINY EVENING I was walking towards my apartment, when without knowing how, a young girl appeared in front of me offering me a pamphlet I was unfamiliar with while at the same time she said with the sweetest of smiles: "Jesus loves you & I love you."

RECOVERING FROM MY SURPRISE, I told her that that meant nothing to me, that I

Pedro-happy in his new life for Jesus & others!

pedro-happy in his new life for Jesus & others!

was an intellectual & ridiculous stuff like that was very much beneath me etc. She insisted I read the pemphilet, so only out of an elementary principle of courtesy! accepted it, thinking, as! later did, that I would get rid of it as soon as! was sure the young girl wouldn't see me.

EVERYTHING WOULD HAVE ENDED THERE, if, as Dad says, there hadn't been Somebody at the Controls who didn't want it to end that way. A few days later, more or less in the same spot & perhaps at the same time, I met the same girl again. This time I was able to see her a few paces before I came up to where she was, & I was about to hide so she wouldn't see me, but it was all in n't see me, but it was all in

n't see me, but it was all in vain.

THERE SHE WAS COMING TOWARD ME WITH THE SAME SMILE as the first time, a smile which at that time I couldn't explain why, but that filled me with happiness. Again she told me that she & Jesus loved me, after which she asked me if I'd read the pamphlet. I tried to lie, telling her that I had, but letting her know that it didn't interest me. that it didn't interest me. BUT THERE WAS SOME-

THING IN THAT YOUNG
GIRL that attracted me, & for
that reason I agreed to talk about God with her, something
that was very strange for me!
I don't know if it was her
smile, or look, or that certain
inner peace all our girls have,
but what is certain is that that
young, blonde, simple, ingenuous & delicate girl had something special.
WE TALKED FOR A LONG
TIME THAT DAY. She spoke
to me in a different language,
a language I had forgotten or
that perhaps I never knew. She
spoke to me of Love, she spoke
to me about Jesus, how He
loved me, about how easy salvation is.

loved me, about how easy salvation is.

ILEFT VERY IMPRESSED, feeling I had discovered something new, something unknown to me. He wasn't the God I had been taught in my childhood, a God with a club in His. hand. I now knew a God who loved me, a Jesus who also loved me & furthermore I had found some brothers who also loved me. Now I have Jesus, I have a Family, I know you all love me & I love you. TYLI TYJI—Pedro.

by Grandmother

Day not I do not understand the fierceness of your fight.

For I was with you many times in the darkness of your night.

Though you were many miles away and we were years apart.

I felt oft-times your agony, the pain within your heart.

Oay not you fought the battle grim in darkness all alone.

For I was with you there in PRAYER, stood by you at the Throne.

With shield of faith and Spirit's sword I answered at His word,

And came to battle by your side when first your call I heard.

Oay not, "Tis fantasy that one should hear such distant cry".

For we are one in Him we love. His Spirit draws us nigh.

And oft He whispers to my heart the call to "QUICKLY PRAY",

So I have reached you there in prayer though you are far away.

Camping News & Tips!

ALL SUMMER IN A CAMPGROUND!

From Byron & Tabitha; Italy FOUR MONTHS IN A CAMPSITE cost us the same as we paid for an apartment here for 1 month! It's a won derful place to witness & the children just love it!

THIS YEAR WE HAD A LARGE, FAMILY SIZE

LARGE, FAMILY SIZE TENT with lots of space, including a bedroom. Plastic food crates are really handy for storing food, dishes, books toys etc. Also we have a portable camping fridge which keeps cold by freezing special liquid-holding bottles for 12 hours. (The camp supermarke lets us freeze the bottles in their freezer.)

their freezer.)
OUR BIGGEST PROBLEM
HAS BEEN THE RAIN coming in the tent, with heavy storms. I had to dig holes & drive the pegs deeper into the

ground & also dig a good trench all around, & we ever moved to a flatter surface. SOME INTERESTING CAMPING GEAR I'VE NO-TICED which seem good ideas are: a car with a tent that op-ens onto a roof rack & is reached by a ladder, so you sleep on top of your car! Also backpacks with a little seat built into the frame, inflatable coat hangers, & locks for the tent (only usable for tents with

tent (only usable for tents with built-in ground sheets).

MORE TIPS FROM OUR CAMPING TRIP LAST YEAR: The camping cot doubled as a table by using a strong piece of wood clipped onto the metal frame of the cot. An old baby bath served for washing clothes, children's dishes, & grandmother's old iron put on the gas to heat kept our singing clothes nice. A big sheet of plastic came in handy to cover the tent for protection against rain—you just use clothes pegs to fasten it onto the tent.

we hadn't stocked up on Euro-

pean canned goods but simply bought what we considered safe & cheap in each country—goat cheeses, flat Persian bread, olives, curd, boiled eggs (you can pay someone to boil them for you), & all sorts of fruits & vegetables. Just remember the golden rule for raw produce out here—if you can't peel it, don't eat it!

WE'D USUALLY STOP

We never drank the water tho but ordered tea & drank it out of our own cups & often used our own forks & spoons too! Nobody minds, as we foreigners are a pretty odd bunch anyway. Ha! WATER PURIFICATION: FOR ONE MEAL A DAY at

When coming overland by car we had a huge water container in the back with purified water in it. Purification tablets come in various strengths. Some are meant for large containers & some for a liter or so, so read directions carefully before adding to your little canteen or 5-gallon jug!

to thank you from the bottom
of my heart for your loving

in response to my letter to you.

AS YOU'VE SAID BEFORE, IF THE TRUTH KILLS LET IT KILL! Well, it did kill my pride & selfishness etc. The Lord had me read the Book of Lamentations, & I saw just how much mercy you had on me, & how angry God was with me for my rebelliousness. The Lord surely is our Salvation! "Sanctify them thru' thy truth, thy Word is truth" (Jn. 17: 17). I DON'T THINK I'VE EVER ADMITTED HOW ROTTEN & NOTHING I AM till now. Then I read these verses: "It is of the Lord's mercies we are not consumed, because his compessions fail not. They are renewed every morning; great is thy faithfulness" (I me 3: 22).

you for it all.

I'VE STARTED MEMORIS-ING the new set card with the kids, & they've been so inspir-ed about it! One evening Kez-ia, our oldest, took out the lit-tle books I'd made of the new verses & started testing the big people on them, to my a-mazement. It came to a clim-ax when some of the "oldies" clidn's know some of the verses mazement. It came to a clim-ax when some of the "oldies" didn't know some of the verses & she boldly quoted them, con-victing everyone to pieces! It has inspired me so much to go on & keep pouring into them. From the lover in "Frustrated"

From Daniel.

Dearest Dad, Maria & family, WE JUST RECEIVED MAG NO. 10 TODAY with the Letter "Frustrated?". After reading it all, I knew the Lord wanted me to write you & tell you how I feel. I'm really glad to receive the Truth of God's Word in such a "straight-to-the-point" way.

Word in such a "straight-to-the-point" way.
AFTER ALL THE CONFU-SION I'VE PERSONALLY
GONE THRU' over this situa-tion, I really believe this Let-ter is going to help us all. The picture the Lord has given you is exactly the way it is & I'm so thankful for the way you stick to the truth no matter what!

what!

I KNOW A LOT OF THIS
IS MY OWN FAULT & I just
want to ask for forgiveness
from you & the Family & most
of all from Zetthu & Mirism
my wife. When "The Timothy
Revelation" came out it really
exposed my own "heart prob-

lem", mainly that the relation-ship with Morningstar was just ministering to my pride & self-worship, & that's been my

worship. & that's been my weakness too.
I REALISE THAT I LET MY OWN PRIDE & weakness deceive me into thinking that I was trying to help Morningstar & that there was nothing wrong with the love between us. Because of this, even up until now, I've never really taken a definite stand with her on the Word, which I realise has

been a real mistake, & even

been a real mistake, & even made things worse for her.

I KNOW I'VE GOT A LOT TO LEARN about real love, & I hope we can all just get back to what God wants us to do. So even tho' it hurts, I'm glad you just told it like it is. It's sad that we couldn't just do what is already in the Letters. I'VE REALLY PUT MIR-IAM THRU' IT with all this also, as she never has been in agreement. The Lord has really used this to show me how

we hadn't stocked up on Euro

much I love & need her, & by God's grace He's really making us a team again. She has put up with a lot & I know the Lord has a real blessing for her, & for Zatthu too, GBTI SHE REALLY LOVES LITTLE SAMUEL & calls him our "peaceable fruit of righteousness" (Heb. 12:11). Anyway, we're try ing our best here in Indonesia & "by God's grace I'm going to put Him & His Family first!!" ILY & thank God for you!—Daniel Newlove.

samt from such books. I was somewhat proud of his reading ability & I'd give him these books to read so I could devote more time to the 3 younger ones, & I didn't realise the effect it was having on him.

THE LORD EXPOSED THE DANGER, as it led to his own attempt at stealing some relatively harmless things from an empty house nearby, which could have caused us many problems with the local authorities. Even tho' many of these stories have a happy ending.

orities. Even tho many or these stories have a happy ending,
THEY ARE SO UNLIKE
DAD'S ADVENTURE STORIES & TAPES, like "Tom the Gangster", that has the spiritual principle so clearly & constantly expressed throughout the narrative of how it pays to do good, so that it doesn't at all tempt the child to follow in Tom the Gangster's steps.
SOME OTHER SUGGESTIONS FOR THE OLDER KIDSSpend more time outdoors.
Perhaps have a day-long hike once a week. The boys just love running thru' the hills & it's so refreshing—not to mention how good it is for the adults! There's an almost endless amount of things that can be amount of things that can be

one, making a kite & flying planting a garden—all the lings you've already comme

it, pianting a garden—all the things you've already commented on.

OF COURSE THE GREAT-EST THING FOR THEM, after giving them the Word, is to get out litnessing, witnessing & singing with them, with a real emphasis on the personal touch to the lost sheep. Like Faithy said she learned so much about witnessing from watching Dad witness. I've never met any of our older childen yet who didn't get turned on about faith trips & singing in hospitals, if you take the time to make it exciting for them.

I KNOW SO MANY OF THESE THINGS HAVE BEEN SAID BEFORE, but it is quite a real-life testimony of what might happen if you don't follow the suggestions the Lord has given. My mistake was in belittling "the little things or ithe little ones" (No. 315:50). But a quote that has really helped me if I start thinking I should be doing some other task in a far-off mission field is from "The Prophecy for Davidito" where the Lord told you: "THIS IS GREATER THAN

OTHER TASKS, this is great er than other work, this is

er than other work, this is greater than great missions that God could have given unto thee, to teach the words of love of his father David unto him." (619:10.)

A VERY HAPPY NOTE TO END WITH is how our 2 "runaways" just poured out in tears when we told them we thought we might never see them again. Our kids do have such broken hearts & are so shead of their counterparts in the System. It's encouraging how Dad's own kids "weren't always good, & things weren't always peaceful, & we made a lot of mistakes, but because we constantly sought God's help & guidance, they certainly turned out a whole lot better than most" (315:5.6).

THE 2 BOYS I WORKED WITH know the Bible & Enditine Vision so well. Aladdin, at 6 years, has already read the whole Bible (a 500-page Child's Edition), so you can see how our little bit of love has gone a long way. Can you imagine what greater revolutionaries they will be when we give them even more lovel Much love, John.

(Amen! GBY!- Dad.)

I'VE REALLY WANTED
TO WRITE YOU A LETTER

with relating some experiences
I've had with Kenaz & Hodiah's
older hows.

older boys.
I'LL START WITH SOME
SAD MISTAKES I RECENT-SAD MISTAKES I RECENT-LY MADE with the 2 older boys, ages 7 & 6, which others may perhaps benefit from & avoid the pitfalls. To make a long story very short, I perhaps placed too much emphasis on the educational, & even tho' we were in a "selah" situation for most of the time, I didn't really search for ways to make life exciting enough for these adventurous young boys.

MANY AFTERNOONS I MANY AFTERNOONS I WOULD JUST LET THEM ROAM FREE (within certain geographic limits), instead of getting desperate & seeking the Lord & searching the Letters for more stimulating things for them to do.

I DON'T KNOW IF THIS IS A COMMON TEMPTATION couldn't make it—why you shouldn't be expected to make it but it is God going to excuse you?" (M:21.)

BUT GOD EXPECTS EVEN

quote about excuses in "Faith

THANK THE LORD THEY FOUND THEIR WAY HOME by the mercy of God, but not until after we had notified the police & spent hours searching for them. The Lord spoke quite clearly on how I failed, giving me over & over the verse John 15:13, about laying down our lives truly for the kids & to truly live as if they are the most important thing in the Kingdom, as Dad has so clearly told us.

SO MANY TIMES I'VE

most important thing in the Kingdom, as Dad has so clearly told us.

SO MANY TIMES I'VE BEEN MUCH MORE INTERESTED IN THE ADULT AFFAIRS, our own social world, & the children could really sense it. What I think is a real key for our older children is to be truly interested in them with the unselfish love that only God can give, & I think that's the only way we'll ever have the results Dad has with his.

What it's like to work closely with the King & his house!

Dearest Dad & Maria. GBYI ILYI THE MAIN THING THAT HAS STRUCK GBYI ILYI THE MAIN
THING THAT HAS STRUCK
ME since I have been here is the
love, concern & humility that
everyone shows each other here.
In spite of the "pressure" & importance of each person's ministry, everyone is concerned about
each other & shows each other
so many little acts of love.

WHAT I LIKE ABOUT IT SO
MUCH IS THAT IT IS REAL &
not phony. Everyone has accepted me with no reservations, no
barriers, not making me feel an
"outsider" in any way. The 1st
day Peter said, "Welcome home!"
—which surprised me until I
realised that this ig home!

EVERYONE IS REALLY A
GOOD SAMPLE of putting away
the "old man" & letting Jesus
shine thru'. It's so nice to be
able to talk to people honestly &
normally & not have to pretend.

In particular, Peter & Sara have talked with me a fair bit, explaining the situation here, what to expect, why things are done the way they are etc.

THEY ARE REALLY PRECIOUS & 50 "REAL", Apart from Paul & Marianne, I've neviter emet "leaders" who are so loving & down-to-earth, yet so dedicated to the Lord, you & the Family. I get along with everyone here (I hope that they get along with mel) & love them all.

THERE IS A REAL LOVE, YET AVOIDING THE "BUDDY" FAMILIAR SPIR-I". There is a respect for the Lord in each other & their ministries. I enjoyed going to the movies with Sue—she's really y sweet & loads of fun! Thank you for making it possible!

ANOTHER THING I NOTIC- & ED IS THE "FIGHTER" SPIR-IT that is present. As Peter kept

the Davidito series for this age will be very encouraging to the Family, as neither of the chil-dren is getting any super-special treatment that a normal home couldn't give any of their chil-

treatment that a normal home couldn't give any of their children.

THEY ARE JUST LIKE ANY CHILD THEIR AGE in so many ways, yet they have a good knowledge of the Word & spiritual principles. They are quite outgoing & swere of what is going on. I also got to see little Techi a few times. She is so pretty & must be a great encouragement to youl—She has pretty eyes! (Like her Mana!-Dad.) I KNOW THERE'S SO MUCH FOR ME TO LEARN HERE, in every way. I know that the most important thing is to take a low seat & heed all the small checks of the Lord to rally be sensitive to the Spirit & obey!

'78 just after the RNR when
we left the Vancouver Home
to take on the task of paying of
a \$3000 debt. We had no money & no transportation—only
our faith in the Lord & His
promises to provide all our
needs if we follow & obey Him.
THE:LORD LED US FIRST
TO GO HELP CHEPHIRAH'S
MOM, Ruth, who is in a wheelchair with Multiple Sclerosis &
pretty much alone. Well, after

chair with Multiple Sclerosis & pretty much alone. Well, after fellowshipping with her & helping her for a while, in gratitude she bought us an old V.W. van to live in, to continue our mission for the Lord.

WHILE ON THE ROAD, WE TOOK IN A 10-YEAR-OLD BOY for 3 months. Known as a "hyperactive" child, he was reported dengerous by his family, teachers & friends. He couldn't read & was addicted to

drugs given him by doctors.
The Lord miraculously delivered him from all this & he has now become such a witness to f so many close to him, as he's now so full of God's Word!
WE THEN HELPED MOVE CHEPHIRAH'S MOM to a location where she could be better taken care of, & she in turn paid off our debts in full & has since been a constant source of encouragement & support to us! TYJ!—And God bless he! SINCE THEN WE'VE GONE ACROSS CANADA a couple of times litnessing & witnessing. We met a recently separated woman with 2 children with whom we lived for 4 months, feeding them with the Word, which resulted in their now living in one of the most inspiring Homes we've seen! PTL!
WE'VE HAD 2 VANS & NOW THE LORD HAS SUPPLIED A BEAUTIFUL BIG BUS, al-

ready camperized—another home on wheels! TYJi—Also thanks to Chephirah's mom who introduced us to someone who helped us get it. So we've been able to travel thousands of miles thru' all types of weather, getting out lots of lit & letting God supply all our needs, which He's done abundantly.

WE WANT TO CONTINUE MOVING, as so many people

He's done abuncanny.

WE WANT TO CONTINUE

Tips On Choosing A Used Caravan

So you'll be "in the know" & avoid unscrupulous caravan dealers!

AFTER A LONG SEARCH thru' many used caravan markets, fooking for God's best, we learned some things on judging the value of old caravans so we wouldn't get deceived by some dishonest dealers. We thought it might be helpful to share what we learned with those of you who may be planning to buy a used caravan but don't know very well your dealer, & he knows you are no expert in caravans:

AFTER PRAYER AS YOU PROCEED IN YOUR SEARCH, I would suggest to avoid very old caravans, like 15-20 years old, even if they look fairly good, as you'll probably find out later what's wrong with them. AN IMPORTANT THING TO CHECK FOR IS WATER INFILTRATION. Most caravans, unless they've been kept under a roof) are subject to some degree of water infiltation. This doesn't mean that the water comes inside the living space,

but that little by little, year after year, small quantities of water seep inside the wood frame of roof, walls & floors, & this wood then becomes rotten & spongy, endangering even the very safety of your caravan. (Armer! – Dad.) the REC'S HOW TO CHECK FOR WATER INFILTRATION: Step inside the caravan & see how the floor reacts. It should be rigid & solid all over to every corner. Next, start patting with your knuckles & pressing with your deal inside corners, not forgetting under beds, closet or anything covering these areas, as it is there that most weter infiltrations collect, & you'll notice them, as the rotten wood will give in under your finger pressure. (Careful!)

NEXT CHECK THE ROOF. All caravans have a top year to you'll notice them, as the rotten wood will give in under your finger pressure. (Careful!)

NEXT CHECK THE ROOF. All the rust is too deep, the damage is already done & your caravan within the next few days he would find any abnormality about the caravan within the next few days he would fix it properly for us for free.

YOU CAN TELL A LOT A-BOUT A CARAVAN BY ITS REGISTRATION PAPERS—the date of make & how many previous owners it's had, as the ca but that little by little, year a ner year, small quantities of water seep inside the wood frame of roof, wells & floors, & this wood then becomes rotten & spongy, endangering even the very safety of your caravan. (Amen!—Dad.)

HERE'S HOW TO CHECK
FOR WATER INFILTRATION:
Step inside the caravan & see how the floor reacts. It should be rigid & solid all over to every corner. Next, start patting with your knuckles & pressing with your knuckles & pressing with your hands all 4 inside corners of the caravan, starting at the floor all along up to the roof, checking every inch of these corners, not forgetting under beds, closet or anything covering these areas, as it is there that most water infiltrations collect, & you'll notice them, as the rotten wood will give-in under your finger pressure. (Careful!)

NEXT CHECK THE ROOF.
All caravans have a top vent or 2 on the roof which open outward, so to check if the roof is good just open the vent & grab the roof with your hands, trying to shake it. If the wooden inside boards are good it should almost be able to hold up your body weight with no bending. But be sure to stop pulling right away if you feel it giving in, or you might have to pay for the extra damage you've done—hal A MINOR BIT OF WATER INFILTATION CAN BE FIX-ED, but it can be a rather exmepsive operation, so try to get the dealer to come down on the price. If the water infiltation is great, I wouldn't even consider buying it. There is a special caravan glue that you can coat the outside junctions of all the walls & roof, easily obtainable at most caravan shops.

THE FINAL STEP BEFORE
PURCHASE IS TO ASK THE
LORD TO CONFIRM IT as being His choice. P.S. The price
of a caravan will also depend on
how many accessories it has,
such as awnings, fridges, heaters
etc. which do cost a lot. God
bless & give you a good caravant

HOW TO MAKE A SIMPLE OIL LAMP

From Miriam; Italy:
HERE'S A WAY TO LIGHT

oil till the glass is 2/3 full (olive oil works best).

TAKE AN ORDINARY CORK FROM A WINE BOTTLE & cut a thin slice from it with a hole in the middle. Thru' the hole put an ordinary piece of cord which you have previously soaked well in oil. About 1 cm. of cord should come out the top of the cord should be completely submerged in the oil in the glass.

Lasts longer than most candles!

It's beautiful and I want you to write some more of them. was really glad that you brought the Lord's voice in my heart, telling me that He will be with us children forever, to give us His love, to let us understand that even if He spanks us by making us sick, He loves us more, using the rod as the Bible says to train us well. He sees to it that we know there's Someone up there who LOVES us and we can ask for His help and everything we need, and as a good Father He gives every-thing. We just need to have faith. 9 Years of Marriage & 7 Children Later!

Lessons on Making Marriage Work! (GB'M! - What a miracle! - Ded.)

Matthew, Renee & "Our Little 7"—Helene-1mo., Sara-7, Isabelle-6, twins Sascha & Nathalie-4, Francisco-2½ & Augustin-1½.

From Matthew Canada:
Dear Mo & Maria,
1 HAD JUST WRITTEN YOU
A LETTER a few days ago,
but today I received God's direct answer in the mail to the
questions I had asked you:
That new Letter "Frustrated?
—Your Children Are God's
Full-Time Service!" I am
streechless to see how the Lord Full-Time Service!" I am speechless to see how the Lord is so faithful to show you exactly what is happening in the Family all over the world & give the right answer that hit the nail right on the head! It literally amazes me! "God works in a mysterious way His wonders to perform."—Every time! He never fails! PTL!

BEFORE I GO FURTHER let me tell you that my wife

let me tell you that my wife Renee just gave birth to a big baby girl named Helene Lara. baby girl named meiere and He is so faithful, as we had prayed for a girl, our last 3 be-

ing boys, which we also had prayed for to balance out our little family of now 7 children GOD HAS CONFIRMED RENEE'S & MY RELATION-SHIP & you could almost say cemented it 7 times over. But in this letter I want to share, maybe for the encouragement of others in the same situation, that it hasn't always been a bed of roses. There have been many thorns & scratches in between. But it is worth it! RENEE & I GOT MARRIED IN THE FAMILY IN L.A. in the Spring of '71. It was what you could call a "match-making marriage". Then to top it off, our sun signs are at the opposite sides of the spectrum—she being a double Virgo & me a Pisces. So we could have said that we would have had all the reasonable excuses not to have made it together. Like you reasonable excuses not to h made it together. Like you

"IT IS SO EASY TO MAKE EXCUSES, legitimate, logical, reasonable, acceptable excuses why you couldn't make it... but is <u>God</u> going to excuse you?" So for the first 6 mo. of our married life we had to learn to know each other & at the same time pioneer Quebec & eastern Canada. It was tough, but I cannot say it was unbearable.

THERE THE LORD GAVE
US OUR IST CHILD, SARA.

unbearable.

THERE THE LORD GAVE
US OUR 1ST CHILD, SARA.
When Renee was 9 months
pregnant, God opened the door
for us to go to Europe. It was
during the "40 Days" so we
launched out by faith.

BY THE TIME THE 1ST
"NEW REVOLUTION" CAME
AROUND, we found our marriage to be totally on the rocks
with little or no communication. I felt I needed to go on
the road & pioneer & get back
my first love for the Lord.

During this time Renee was in
one city in Germany with the
children & pregnant & I was
in another. After a while I
took one of the children.

BEING IN 2 DIFFERENT
CITIES, we could not blame
the other one for our silvers

BEING IN ZUIFFERENT CITIES, we could not blame the other one for our failures & God began to point the fin-ger at each of us individually. Then God struck again, this time in double measure! I went back to be with Renee was about to have—twins!

What could I say?
ABOUT 6 MONTHS LATER
WE WENT TO SPAIN. What WE WENT TO SPAIN. What a woncerful country, with such beautiful people! For us it was like ointment on our many sores, & we landed on the beautiful Island of Mallorca in the Mediterranean. God put us there with some precious Spanish disciples. It was like Heaven on earth. I think our relationship improved them, as we had more time to work

on it, as wen as
dren.

THE LORD BLESSED US
MIGHTILY with souls, disciples, much lit out—you name MIGHTILY with souls, disciples, much lit out—you name it, & our 5th child, Francisco. Then about 2 months later we got "exiled" to Portugal by members of the old "Chain". We ended up at a campground making barely enough money to exist. TL the children stayed healthy despite the cold weather & God miraculously opened up new ways to give the message out. A brother & I used to carry the twins in backpacks & go on the suburban trains to sing & pass out lit. It was fantastic!

AFTER 2 MONTHS IN
PORTUGAL, just as we were beginning to like it, someone had mercy on us & paid our fare all the way back to Barcelona where I began working in publications, which I really enjoyed, It was so nice to be back.

THRU OUR EXILE EX-PERIENCE THE LORD
TAUGHT US SO MANY
BEAUTIFUL LESSONS. I knew all that time that if we had been wronged that the Lord would eventually right things. That's one thing I've learned over the years, that maybe sometimes we feel unjustly treated, cast aside & for-

maybe sometimes we feel un-justly treated, cast aside & for justly treated, cast aside & for-saken by our own brothers & sisters, but it was as much for our sins & failures to obey Him as for them, to teach them mercy & compassion. (1 Peter 2:20.) God has al-ways been faithful to recom-pense faith that praises no matter what happens. THEN WE WENT TO NOR-THEN SPAIN WHERE RE-NEE GAVE BIRTH TO OUR 6TH CHILD, Augustin. Some-times I wondered when it was gonna end. But the Lord knew what we could handle! Augus-tin was born in the midst of in-

credible changes in our married life when we were trying to o-pen our lives up more to others.

Greate changes in our married life when we were trying to open our lives up more to others.

WE DECIDED ON A TEMPORARY SEPARATION with me going down to Madrid with 3 of the children & Renee staying in Bilbao with the other 3. After a while I began to feel I really needed her & the children. The Lord began to hook me, especially when Renee said she wasn't sure anymore if it was God's will for us to be together, anyway not the same old ways as we had been in the past, as a selfish private unit.

WE FINALLY DECIDED TO MAKE IT NO MATTER WHATI Little by little God strengthened that conviction & we decided to return to Canada to start all over again & better prepare ourselves to eventually return to the field.

TIL OUR HOMEGOING
WAS A REAL WITNESS to my family whom I had not visited since I had joined the Family 10 years ago! They were absolutely overjoyed to see the children & helped us so much to get set up, GBT!

I GOT A JOB so we could put money side for our fare, & the Lord supplied a job as a printer. It was thru' a government sponsored training program giving you a diploma at the end.

printer, it was time a government sponsored training program giving you a diploma at the end. I was also able to get a good price to print Mo Letters for the Homes in the city while getting paid for it! PTL! OUR 2 OLDEST GIRLS HAVE BEEN LEADING THEIR FRIENDS TO THE LORD at the small-town Catholic school they attend. God has also opened a door thru's a Home in the city for the children to sing on TV & there are many huge shopping centers where the children can litness easily no matter what the weather.

A SWEET SISTER NAMED HARVEST GOLD came all the

way from Peru to nelp us. The children really loved her. Now a very sweet French-Canadian couple, Denis & Sylvie, have come to replace her. We were praying about the idea of 2 couples getting it together & living as in "One Wife".

ONE COUPLE, LIKE US, WITH MANY CHILDREN, & ONE COUPLE, LIKE US, WITH MANY CHLLDREN, & another couple with few or no children, would create a balance in the Home in cases where a threesome is not practical or where one of them feels left out Couples teaming up like this might be the answer for some large families, as well as for couples who have been living alone with little fellowship, as has been the case in this area. FOR COUPLES WHO HAVE BEEN MARRIED FOR A WHILE & maybe their relation ship has become a little boring, we hope our testimony will be an encouragement. As far as I'm concerned, I am glad we stuck it out no matter what, & believe it or not it is getting better finally after 9 years of marriage.

As a result, my health was very

I tried everything to find peace of mind—going to several churches which I found dull & boring & delving a bit into drugs.

ONE DAY IN OCT. '78 I WAS WALKING DOWN A BUSY CALCUTTA STREET looking for someone to translate some Italian letters & post-cards from an Italian boyfriend of mine. It was then that I met my Peter & another Australian brother. When they said they didn't know Italian, I walked off a bit disappointed.

SUDDENLY THEY FOLLOWED ME & gave me 2 pieces of lit & we started talking & went to have tes. Peter & I started meeting each other almost every day. At that time I was working in a hotel & I was not happy there. Besides, I was having some headaches & had been taking some

Deliver Me Speedily!

A quick natura; childbirth goes God's way-heautifully!

From Sharon; N. Europe:
WE THOUGHT MAYBE
TOMMY WOULDN'T BE
BORN ON MY DUE DATE,
but at 9:30 p.m. I started having "gas pains". At first I
thought it was the beans I had
eaten earlier. But when they
started coming regularly, I began timing them & found they
were 4 to 6 minutes apart—&
hard! TTL we decided to phone
the midwife then & there.
WE HAD PLANNED TO
HAVE THE BABY AT THE
MIDWIFE'S FARMHOUSE
where I could get away from
things & also where our insurance had agreed to pay for it.
By the time the midwife's husband arrived to drive us there,
he contractions were so hard
I had to lie down & could hardly walk. From Sharon; N. Europe

DURING THE 20-MINUTE
RIDE IN THE CAR, my waterbag broke & I had to blow like
crazy to keep the baby back.
Once there, they rushed me upstairs & yanked off my clothes
& got me in bed just before the
baby popped out. It was 11:30,
only 2 hours after contractions
started! PTL!

WE HAD CHOSEN THIS PARTICULAR MIDWIFE because
she believes in doing things naturally & we wanted to try out
the suggestions in the Techi Letters. The midwife agreed & after Tommy popped out, she
laid him on my breasts while
waiting for the cord to stop pulsating as I rubbed the vernix in.
Then Jordan cut the cord & rinsed Tommy briefly in plain water
& then put him back on my
breasts where he sucked both of
them contentedly.

THE AMAZING THING A-BOUT IT WAS HOW CALM & RELAXED THE BABY WAS throughout the whole time. He throughout the whole time. He didn't cry or scream at all, just kind of whimpered when he popped out & then lay quietly on my breasts. What a difference to my first birth! TG for the Techi Letters for their wonderful suggestions showing us God's way! It was beautiful! PTL!

HERE'S AN ANSWER
THAT MIGHT HELP from Eli & THAT MIGHT HELP from Eli i Tarah in France, parents of 6: The Letter "Children in the World" was a very convicting Letter & so helpful with good coursel for our older children. ies from the children in the neighbourhood.
IT BECAME VERY FRUSTRATING as they didn't always seem to be convicted to stop accepting the candy, as the other children were always tempting them.

WE READ DAD'S LETTER TO THEM & THEN MADE A "DEAL" that for every piece of junk candy turned in to us, something good would be given in exchange. It was the answer & really works! PTL! NOW THE CHILDREN

Good & Easy To Make Bread

From Jonathan Firstfruits; W.S. childcare helper:
HERE'S AN EASY WAY to have delicious, fresh-baked nutritious bread!—And it only takes an extra 20 minutes of your time a couple times a week! I've found it easy, even with 3 little ones to care for!
I DO IT WHILE COOKING DINNER & doing dishes. This is the best time I've found, as I'm in the kitchen anyway, & the kitchen is extra warm to allow the bread to fise. It only takes about 10 minutes of preparation to mix the ingredients, then you just let it rise undisturbed for 1 hour, punch it down & let it rise another 45 minutes (all while cooking dinner), then put it into loaf pans, let rise another 15 minutes & bake! Here's the recipe: Ingredients:

STEP.4: After 45 minutes, again put dough on floured board, kneed until smooth, cut in half or thirds, depending on the size of loaf desired. Place in oiled bread tins. Let rise in warm place for 15 minutes. Preheat oven during this time, heating to medium heat.

minutes. Preheat oven during this time, heating to medium heat.

STEP 5: Bake for 40 minutes on center rack of oven, or until bread has a hollow sound when tapped on bottom of loaf. Avoid opening the oven door during the baking time, until bread is done.

TIPS: Rubbing a little oil on your hands before handling the dough helps keep the dough from sticking to your hands. Rubbing a little margarine on top of the bread just before baking will give a harder crust. If you can't bake it right away, place the dough in the refrigerator to retard the growth of the yeast. Fresh yeast must be kept refrigerated, & I've found it will keep up to 2 weeks or more if well sealed in a plastic bag.

VARIATIONS: You can also add ¼ cup wheat germ &/or a few spoons of brewer's yeast to the dough. A bit more honey gives a sweeter bread.

6-Year-Old Wins Art Contest!

From Abigail, age 6, S. America: THIS PICTURE, DRAWN
BY ABIGAIL, AGE 6, was published in this country's largest circulation newspaper. She had put the caption on it "Amor Nunca Falla" (Love Never Fails) but evidently they mis-read it & printed "El Amor Nunca Falta" (love never lacks), but it still gets the message across, PTL! 1T WAS ALSO A GOOD SAMPLE OF THE LORD'S LOVE, as they published Abigail's request as a caption to the picture: "If you publish this, please give the 200 pesos to a poor child for Christmas."

FINALLY I JUST SHOUTED OUT "HAPPY BIRTHDAY DEAR JESUS!" Everyone looked at me as if I was flying around in the air & the teacher said, "What is this all about?" "Well," I said, "you should be

celebrating Jesus' birthday & not Santaclaus." My teacher said, "I'll show you where it says Santaclaus in the Bible", & she pointed out a word that said something I couldn't understand, but I knew it wasn't Santaclaus.

I SAID, "I KNOW THAT ISN'T SANTACLAUS" & all the children were saying, "Charity's right! Charity's right! Charity's right! Charity's right! Anaty & Joseph & Jesus being born!

Making Memories

I am walking the path of life today with mem'ries I have made;
And I know as they cling and walk so close, this is the price I've paid—
For the little things I might have done; but a selfish heart rebelled.
A letter unwritten a word unsaid

a selfish heart rebelled.

A letter unwritten, a word unsaid,
a touch of love withheld:

Those things I was sure in the care-free years
no one would ever miss.

Oh! if someone had only whispered then,
"You will remember this."

But little I thought as I kept the pace
amid the gay parade,

That down through the years I should live some day
with memories I had made.

with memories I had made.

I am walking the path of life today with mem'ries I have made;

Unrolling the records before my heart, I stand almost afraid.

There's the love untrue and the broken vow, and then—a stolen bliss.

Oh! had it come to me then—as now, "You will remember this."

There is the year that I wandered away, careless, forgetting God;

Then the agony as I stumbled back, under the chast'ning rod.

Oh! I know you can dodge it if you will;

I call a spade a spade,

For I know in my heart I walk today with memories I have made.

When I'm walking the path of Tomorrow

with memories I have made.

When I'm walking the path of Tomorrow with mem'ries I have made;
When the last deep valley's behind me, and I've made the last steep grade;
When it's twilight and evening bell and I am crossing the bar.
I wonder what mem'ry will bring me then?
Will God be near or far?
Oh! Maker, so mighty, help me today as memories I make.
To remember it lies within my power the future to create.
And the things that I do shall walk with me along the coming way.
So help me, I pray, to remember I in making memories today.

Ways To Witness As A Mother! -To other Mothers. & to your children's friends!

From Diana & Pauline; British Islas: (Great idea! GBY!-Dad)

Friendship Group for Mothers!

AFTER READING THE
LETTER "FRUSTRATED?"
we realised there must be so
many mothers in similar situations to ours, so the Lord gave
us the following idea:
BOTH PAULINE & I HAVE
YOUNG BABIES, so we decided to start a "friendship group"
for other mothers in our area,
as a way to witness to them.
We draw up some attractive posters & stuck them up in the local clinic, library & shopping
centres.

cal clinic, library & snopping centres.

THE POSTERS INVITED MOTHERS TO PHONE US if they would like to be put in touch with other mothers in their area. We discovered that a lot of mothers who responded were simply frustrated & lonely from being alone in the house most of the day & didn't know anyone they could just drop in on. A few were suffering from post-natal depression & needed positive encouragement. We even had one sweet pregnant girl phone who wanted to talk to another mother about pregnancy & child-birth itself.

EACH PERSON WHO CALL-ED HAD A NEED OF SOME SORT, & we began by minis-tering a lot over the phone & by subsequent visits. We would arrange a definite time for us to visit, or for them to visit us, & during this time we would get to know them. talk

long the conversation would take a turn to the spiritual.

IN EVERY CASE WE GOT TO SHARE OUR FAITH & witness quite freely, even leading to Salvation with some!

AFTER ONE VISIT we could tell if the mother was hungry spiritually or not & we began to divide them up: Those not interested we paired off with another not-so-interested

y, we arranged to see again.
WE HELD GROUP MEETINGS ABOUT ONCE A MONTH just to keep the others on the line. In this way, one mother could run a group of 1220 mothers of which maybe only a handful will want the
spiritual help which you alone
can give them.—It's like a
Church of Love for mothers!

WE'D ALSO LIKE TO
SEND OUT A NEWS SHEET
full of Family Care quotes &
suggestions to each group mother. One big advantage to
this kind of witnessing is that
most of it can be done from
your own home & even if you
go visit them, it's so easy to
feed & change the baby—
which can be quite a problem
when litnessing or going DTD.

CHILDREN'S

ANOTHER IDEA IS SOME-THING WE DID WITH OUR OLDER CHILDREN, Luke-8 & Philippa-7, during their summer holidays, & this can be adapted for use on weekends during the school year too. Luke & Philippa had made friends with 7 older local children, ages 6-12, so each weekday we invited them all in for 1½ hours every afternoon. ACTIVITIES INCLUDED BIBLE STORIES & SKITS, SONGS, ARTS & CRAFTS & OUTINGS. In the evening they would come over for song practice with Steve who plays guitar. During the month of August they learned 5 of our Family songs—Pet Shop, Are You Lonely, Psalm 121, You Can Be Free & There's Not One Little Boy, as well as the old-time favourite All Things Bright & Beautiful.

AT THE END OF HOLIDAYS
THEY DID 2 PUBLIC PERFORMANCES at old folks'
homes. The biggest victory
was not only did they all get
saved, but also the sample of
learning the Word & praying
before we did anything helped
them to experience Jesus as an
ever-present friend & help in all
situations.

ever-present friend & help in an situations.

THE PARENTS WERE SO THANKFUL for our efforts. When we invited them all (along with other neighbours) to hear the children sing, we were able to share our beliefs with them tool PTL! It amazed them that we were able to do so much with the children when both Pauline & I had babies under 3 months old.

S WE HAD TO LAUGH & tell them about the times when we had to stop & feed a hungry baby in the midst of a colouring session, or rush up between skits to change a dirty nappy! The children were all so sweet & considerate of the babies & loved playing with them. It really helped our children to be good samples too.

I THINK THE BIGGEST
LESSON FOR US was to acknowledge that our children are our biggest ministry & making the most of each situation.
We hope this inspires all you families to see what God can do with what you have "in thy hand"!—Diana & Pauline. (Amen!
Let's hear of more!—Dad.) WE HAD TO LAUGH & tell

A birth testimony from Peter & Sarah Piper; N. Europe:

MY WIFE & I RECENTLY

RECEIVED A BEAUTIFUL BABY GIRL from the Lord & whented to share the testimony with you all. Sarah's pregnancy seemed to be going quite well, & every sign at every point indicated that her pregnancy was a healthy & normal one.

THEN SARAH VISITED A DOCTOR who was the proud possessor of mountains of new machinery to measure everything imaginable, both inside & out. A little later. abnormalities etc. etc.

HOW COULD IT BE that the day before she had been so healthy & happy, but today she was such a wreck! The worst part was that the doctor warned Sarah that if future tests did not show improvement in these areas, there was a possibility that the baby would have to be delivered by surgery prematurely!

WELL, WE GOT A FUNNY CHECK ABOUT THIS & began to pray to ask the Lord's opinion. He had spoken to us on the night of conception, & it had been so encouraging that we know He would not now disappoint us! The Lord assured us that He was still in control, & the conviction grew stronger in us that He was not going to let us down.

More On 'Uncircumcision'!

A doctor's Godly counsel increases a mother's faith!

From Sarah Beloved; Australia:

Dearest Dad & Maria,
MY LITTLE BOY WAS 6
MONTHS OLD when your Letter "Uncircumcision" came
out. I had never read anywhere about cleaning the penis, etc.

Whereas Dr. Jolly rection by circumcision does become necessary.

"Clearly therefore, the best that perhaps 2½ would be the better age to start, especially if the skin does push back early about some son's foreskin is nothing: leave it alone until it has separated & on the nushed back.

Dearest Dad & Maria,

WORRIED & UPSET A-BOUT MY IGNORANCE, I prayed desperately & believe the Lord could heal it & the very next day I read some ver encouraging things in a book entitled "Book of Childcare"

by Dr. Hugh Jolly.

HERE'S A QUOTE FROM
PAGE 80 ABOUT "TIGHT
FORESKIN": "Twenty years
ago research showed that the
foreskin & tip of the penis are
united at birth, having developed from a single bud. Thus
there is no reason to 'cure'
this natural condition by circumcision. Separation of the
foreskin from the tip of the
penis occurs gradually & is
usually complete by the age of
3 or 4; this is nature's way of
'circumcising'. Consequently
the term 'phimosis', indicating a foreskin which is so tight
that it cannot be pulled back,
is a meaningless phrase when
applied to the early days of
life & is not a valid reason for
early circumcision as was once
believed.

"Forcing back the foreskin
before it gues back easily by
itself is likely to lear the skin,
causing bleeding. This tear
heals with scarring which permanently joins the foreskin to by Dr. Hugh Jolly.

A DIGNIFIED OLD CLER-GYMAN OWNED A PARROT of whom he was exceedingly lond, but the bird had picked up an appalling vocabulary of cuss words from a previous owner. After a series of embarrassing episodes, the clergyman decided he would have to get rid of his pet.

A LADY IN HIS PARISH suggested a last ditch remedy.

"I have a female parrot," she said, "who is an absolute saint. She sits quietly on her perch & says nothing but 'Let's pray'. Why don't you bring your parrot over & see if my bird's good influence doesn't reform him?"

THE CLERGYMAN SAID IT WAS WORTH A TRY, 8 the next evening he arrived

with his pet tucked under his arm. The bird took one look at the lady parrot & chirped, "HI Toots. How about a little kiss?" "My prayers have been answered!" screeched the lady parrot gleefully.

Dad's Comments On The Komix!

(Dad had been very concerned that too many of our Kids Komix & True Komix contain a damning & dooming message, which is definitely not to present to our children nor to most of the general public. The following are some of his comments about this which were sent in an Advisory to all Family Artists:)

KIDS KOMIX: WE NEED TO TRY TO EMPHASISE MORE THE THINGS
THAT ARE ENCOURAGING THAT ARE ENCOURAGIN.

**positive & uplifting & saving & not demning & dooming! That was for its day in the States, & it is still for the States, & it is still for the rich & it's still probably for the West, but it certainly is not good fare for children!

ood fare for children!
I CALL CHILDREN THOSE UNDER 12. When they are 12 & over, we consider them adults, but the Kids Komix are for kids under 12. They

were for kids under 12. They should be aimed particularly at the age level of our present kids who're in the just-beginning to-read bracket, 3 or 4, like Dito, to 7 or 8.

I DO NOT LIKE, NOR DO I APPROVE OF, THESE KIDS KOMIX OF DOOM, HOR-ROR, & TERRIFYING TALES! That damn doom rut is not suitable for children!—Those horror stories are the judgements of God on wicked parents & are not for children!

dren!
THEY ARE GROWING UP
& HAVING ENOUGH PROBLEMS of their own, with enough things to scare them
half to death, enough problems, troubles & worries.
They don't need to be worried
about things that they are not
guilty of & are not going to

Ugly or Pretty: Damning or Uplifting: Blasting or Feeding?

suffer. I don't think children ought to be worried about things that are just more than they should bear, & I think that's more than they can bear WE NEED SIMPLE CHILD-LIKE STORIES, encouraging, uplifting, positive, saving, & not always dwelling on the horrible guts-&-gore & Gloomy Gus, damn doom of what their parents deserve or what their grandparents deserve back in the U.S. or the rich West. FROM NOW ON, ALL OF

FROM NOW ON, ALL OF THIS KOMIX MATERIAL IS NOT GOING TO BE CLASS. IFIED ONE OR THE OTHER, only True Komix for GP adults or Kids—suitable even for GP kids, and that means kids 11 years of age or younger, & mostly younger. It's going to have to be wholesome, pretty pictures, encouraging pictures. pictures, encouraging pictures, bright stories, things <u>suitable</u> for <u>children</u>. TRUE KOMIX: IN THE VERY BEGINNING I TOLD

THE ARTISTS TO PLEASE REMEMBER the major purpose of the Komix was to reach the System, reach the general public. What I meant by that, & had in mind, was something appealing to them, appealing to the general public. —Things which were positive & encouraging & saving & instructive.

BUT IT SEEMS LIKE WITH SOME ARTISTS, YOU CAN'T MENTION THE SYSTEM but what as far as they're concerned that means the Enemy, & if it's designed for the System, that means blast the System, to Hell with the System!

SOME OF THESE OLD PROPHETS OF DOOM ARE STILL LIVING IN THE PAST, they can't think of anything but damn the United States & the same kind of ministry we used to have of dooming & damning the U.S. System. They don't realise that we've got our own separate culture.

I'M GETTING SO GODDAMMED SICK OF THESE BLASTS AT THE SYSTEM, many Komics another blast at the System! —When we were

BLASIS AT THE SYSTEM, many Komics another blast at the System!—When we were there, it was necessary & it was important & that was our purpose in breaking with it. But now we're trying to change that image of the wild & wooley, wild haired revolutionary to something a little bit. ary to something a little bit of more civilised & nice:—

LITTLE FAMILIES WITH LITTLE FAMILIES WITH
SWEET CHILDREN, singing
precious little songs, & trying
to woo & win the System, not
trying to blast them away &
curse them & cuss them & say
to Hell with them! How the
Hell are they ever going to sell
that on the street?
WE OUGHT TO BE ABLE
TO PRESENT SOMETHING

A LITTLE MORE ATTRACTIVE & a little bit more civilised & a little bit sweeter & happier. Show them the kind of face that is going to make them feel like we've got something better than they've got. "Look! Here's the wonderful life we live. Wouldn't you like to live it too?—Look! Here's the beautiful things we believe! Here's the wonderful things you have to look forward to in this life!"

MY GOD! THE GENERAL LITTLE MORE ATTRACT

this life!"
MY GOD! THE GENERAL
PUBLIC MUST GET SICK OF
ALL THIS GOD-DAMNED
DOOM, horror, negative blastat-the-System-type. Komix! I
know I get sick of it! We are
a new church & we ought to
have some kind of positive,
saving, encouraging, uplifting
message that's a little more
feeding of the sheep, instead

message that's a little more feeding of the sheep, instead of only blasting at the wolves!

I'M SICK OF PREACHING AT THE WOLVES! There is no use in having only a negative damning, dooming, blasting, blowing away GP message!

For God's sake, let's tell them there's a negative there's a negative than the same of the sa 's an answer, there's a re-

I'M JUST SO SICK OF SEE-I'M JUST SO SICK OF SEE-ING THESE HORRIBLE UG-LY PICTURES on the front covers of the Komix! I'm just sick of them & I don't want to see any more of them! I am not even going to look past the front page if they send me anymore of these ugly Komix with these ugly pictures on the front! Some of these Komix hardly even have a happy ending—it's a horror from beginning to end!—Who wants it? RIGHT NOW WHEN THE MEDIA IS SO CRITICAL OF THE SECTS & the public is so suspicious, is the time when we ought to be the most careful to put our best foot forward & wear a happy face & try to show something positive ING THESE HORRIBLE UG-

& not all this negative stuff
that we are already accused of
& they're sick of!—Show pictures of our pretty women or
happy children or sweet men
—the happy stories of happy
people with happy endings!
I WANT TO SEE SOME
PRETTY COVERS ON THESE
KOMIX FROM NOW ON! We
can cartainly put something

KOMIX FHOM NOW OH! We can certainly put something positive & beautiful & attractive & encouraging on the cover. I'm just not going to approve of these Komix with horror stories & nothing but horror stories & nothing but horror stories & nothing encouraging, nothing uplifting & nothing saving, nothing feeding, nothing to offer, no happy ending!

I GUESS I'M PRETTY NEGATIVE MYSELF, A PROPHET OF DOOM & a fighter & revolutionary, & I don't like the System either! I especially don't like the way it treats us, & I must admit, I, like to blast them sometimes. But for God's sake, that's not our whole message! If our message is nothing but "Go to Hell!"—Blast the System, blow'm away, curse'm, low'm away, curse'm, low'm away, curse'm, low'm away, curse'm, somerimendy, some salvation, some remedy, some aslvation, some remedy, some answer, something encouraging! Give an answer! Why just present the horror?—People know about the horror already.

SURELY MY MESSAGE
HAS BEEN A MESSAGE OF LOVE. Are we the Family of Love or not? Do we have a message of love or not? People are looking around for some little ray of hope, some selvation, some kind of bright spct somewhere!—A little love.

a little mercy, somepiace where they can find some relief! And then, my Lord!—We come along & give them only horror & Hell! Lam sick of it! People don't like to hear that kind of stuff! They want to shut their eyes & wish it would go away, including you!

JESUS SAID, "AND J. IF I BE LIFTED UP, I WILL DRAW ALL MEN UNTO ME" (Jn. 12:32). Are we trying to draw them unto Jesus or drive them into Hell? What are we trying to do?—God help us! (So PTL! There we have it! That's pretty clear, isn't it? Lord forgive us & help us all to really make all of our work on the True Komix more representative of Hin! & fit for Kids or the Public!) P.S. You artists have been doing much better lately with happier more positive Komix.

Avoiding Afflictions!

If you love'm, you'll avoid giving'm VD!-Here's how!

siight or profuse, clear, milkish, yellowish, greenish or grayish. "Morning gleet", a slight discharge in the morning, at times, following defacation. c. Painful or frequent urination. d. Pain in or around the genital organs; low back pain. e. Painful or irregular menstruation. d. Painful intercourse, pain during or after climax, bleeding after intercourse, frigidity, impotence, lack of erection, premature ejaculation. g. Extreme fatigue or aching in legs or abdomen.

3. IF YOU SUSPECT VD at

legs or abdomen.

3. If YOU SUSPECT VD at all, stop all sexual activity immerciately & see a doctor at once. Get a Gram Smear Test, obtaining the results yourself. Be sure to find out exactly what it is you have, whether it is just a mild non-contagious irritation, or if it is highly contagious VDI A lot of VD is spread by people who thought they had some lite "bacteria" & didn't want to take medicine for something they thought wasn't VD, so kept on fucking. Lord help us to be more thorough concerning considered the source of th more thorough concerning con-tagious diseases! As Dad says,

From Sam & Kezia; S.E. Asia:
HERE ARE SOME TIPS ON
V.D. we learned from a book obtained at our local V.D. cfinic;
1. INCUBATION PERIOD OF
VD (which means any sexually transmitted disease) varies from
1 to 90 days or more & because of the biological characteristics of some of these organisms, symptoms may be so slight as to be not noticeable. In 40-60% of cases there will be no symptoms at all.

2. SIGNS & SYMPTOMS (if present): 3. Any rashes or lesions in or around the genital or perigenital area. These may be paining or vaginal discharge. May be slight or profuse, clear, milkish, yellowish, greenish or grayish. "Morning gleet", a stight discharge in the morning, at times, following defacation. 6. Painful or frequent urination. d. Painful intercourse pain during or after.

1 if you love someone, you won't give him VDI
4. FIND A DOCTOR WHO
WILL BE TRUTHFUL WITH
VOU & will help you. Give your whole history of afflictions & medications taken so that if you decide to take the medicine to which you are not resistant or allergic.

5. PILL OR PILGRIMAGE? If you get a Smear to prove you are healed before making love to anyone! If you are taking medication, take the prescribed amount of Smears at prescribed intervals to assure your health & don't resume intercourse until cleared. (Menstruation can hold off an accurate reading. Also, avoid douching or taking any suppositories for 48 hours before a smear test.)

I WAS 6 MONTHS PREGNANT when we travelled to

Lord opened miraculous doors
for His children!
WHEN WE ARRIVED AT
OUR DESTINATION, travel

they didn't need us. But Mother

THIS TIME SHE ASKED TO

AFTER THE NEW YEAR, WE TRAVELLED NORTH with our caravan & crew. The Lord fait-fully continued to open doors, & right away we found ourselves welcomed in a very large hotel full of English tourists where we were offered 2 rooms, meals & electricity for our caravan! the 9th!" (We wouldn't advise
it!—Risky, unless absolutely
necessary!—DAD.)
AFTER 2½ DAYS OF TRAVEL we arrived safely, cleaned
the house & had a good night's

returned & they agreed to

Singing! School! In.

From Seek & Secundus, parents of 6 (soon to be 71); Spain:

OVER CHRISTMAS we had 4 appointments to sing for large groups of children. Every afternoon & evening was completely occupied with preparations & singing & then home again just in time to fall into bed & start again early the next morning.

BUT IT WAS REALLY

WORTH IT, AS OVER 1,000

CHILDREN PRAYED with us to receive Jesus in a school & in an orphanage! We also sang in another orphanage for very young children & prayed with every very young, but because of this there were many workers who prayed with us tool

JASON-6, WAS USED TO PRAYING A CATHOLIC PRAYER IN HIS SCHOOL each day, so he just became one & started the prayer in the Catholic manner, "In the name of the Father,

Son & Holy Ghost" in Spanish, & everyone would follow enthusiastically.

SCHOOL: We are having to grow & change & take regular accounts of the situations with the children going to school. Even tho' school is difficult for Jason, he is very inspired about it because it is a challenge for him & eagerly works on his homework in the evenings. His homework is all in Spanish & takes a lot longer but he has so much love for his young attractive teacher that he really wants to please her. He was so concerned that she receive Jesus & now have found it much better to have devotions with the children at lunch-time, as the school as it is so easy for them. Sherah is in 1st grade & Summer is a preschooler. So we have had to find extra time to give the girls additional work whave had to find extra time to give the girls additional work well-well and the proposed of the proposed

JASON IS NOW 8 YEARS

OLD & it is so amazing to see
how he seems so grown up in so
many ways. We're just beginning
to realise the importance of the
1st years. Jason is going thru'

the same trials & attitudes that I had as a teenager! He is really already a little man & there really isn't a lot we can change now. So many times it is just up to the Lord to use the training we have already given him. We're just seeing how quickly children come to maturity & how very little time we really have with them!

themi SPENDING TIME WITH EACH CHILD: One thing that's meant a lot to all of us is to do special favours for one child at a time by letting them come to our room for a special time of fellowship after the others are in bed. Everyone gets his turn & it just happens naturally according to who really needs some extra time & attention. We have a little snack & time to talk & love each other.

IT SHOWS THE CHILDREN WE REALLY CARE ABOUT THEM to include them in our

WE REALLY CARE ABOUT THEM to include them in our quiet times in the evening sometimes. The Lord showed us that we need to be more loving & affectionate with the children & not only care for their physical & spiritual needs in a systematic way, but rather more lovingly. We're learning that the Lord always makes a way for us to give the children what they need if we just have the desire to do so & desperate, prayerful hearts for our situation.

BEING THRIFTY: After a

our situation.

BEING THRIFTY: After a few weeks of being very low on funds, we learned some very important lessons. We know that as we learn these lessons then the Lord can trust us with more. So many little things—saving the water from the cooked vegetables, saving the milk the kids don't drink for cooking, that we don't really need that extra glass of wine or a large scoop of margarine or honey, that half a spoon of coffee is sufficient.

WE ALSO MADE PATCH

WORK SKIRTS with petch-work streps for the 3 girls for singing at Christmas. They are really prettier than anything we could have afforded. The mate lal came from salvaging a large bag of remnants that a neigh-bour was about to throw away. There was enough for the girls to make hotpeds as Christmas presents for friends & support-

WE KEEP THE CHILDREN'S GOOD CLOTHES SEPARATE from everyday play clothes, & the children know that they need to change immediately when returning home. When travelling we keep good clothes in a separate suitcase, & here at home I keep them on a shelf in my room. Their play clothes are very ordinary but whenever we leave the house for anything or expect visitors, all the children change into good clothes. WHEN CLEANING HOUSE

or expect visitors, an the change into good clothes. WHEN CLEANING HOUSE every morning we always clean up the front room first, as neighbours might drop by early or a visitor. We try to keep that room neat, clean & free of children's toys & keep fresh fruit or some flowers there if we have them.

or some incompared that have them.
WE HAVE GOOD GEOGRAPHY STUDIES with the children rising the Family Alexes. One

week we had a good study of Thalland from 2 testimonies in that edition. We look at the map to see where the country is in relation to the rest of the world, then make a localised map of that country & countries surrounding it. The children colour the countries different colours & write in their names & those of the major cities etc. We talk about the geography of that country, climate etc. & about current events if we know anything about what's happening there. Then we also remember to pray for the missionaries we just read about there. This helps us to remember an important aspect of prayer—to pray for others!

prayer—to pray for others!

but this becomes just a normal

surrender our own will, lay our all on the altar & start to just live thru' our children. I know Secundus & I sometimes just really need to get down & pray together & ask the Lord to give us a renewed fresh love for each other when our relationship becomes somewhat strained. I think this can happen with all the pressures & responsibilities of raising a family.

BUT WE JUST KNOW IT'S THE LORD'S WILL for us to be together & love each other. So we just have to ask the Lord to give us the love we need, & He always does. After a good prayer session like that we always have a good love session afterward & are really thankful for each other & have a renewed & more mature love. We always need to pray, too, that the Lord give us the burden, vision & love we need in caring for our children, just because we know that it is the Lord's will & we don't want to fail them or cause them as to fail the lord. WE HAVE FOUND THE DITO LETTERS VERY VERY

That makes me mad!—Maria.

-Coming soon!—Sara.]

HIS SITUATION SEEMS

BIDEALISTIC & can cause frustration as we can't have one person for every child, neither can we just go out & buy things for our children whenever they need them. We live just day by day by faith & have a very hard time even finding the things we need here, let alone enough money to buy them. His Letters make us wonder if we are really blowing it by a lack of faith in not having so many things, books & personal attention all day long?? (Sara: Yet that is the field of their own choice—"count the cost" of pioneering. Excellent faith-life training for small kids, as Dad's own 4 had all their pioneer lives!! Maria: If it is a real need, then the Lord will supply, won't He? If you put Him first, then He will supply all your needs!)

Dear Sara Davidito,

"DAVIDITO LETTERS" which
have been such a blessing & help
to us! I wanted to write & encourage you as your writings

to us! I wanted to write & encourage you as your writings have been such a guide to me as a mother.

MORE THAN A "HOW-TO" MANUAL, they're a sample of love, patience, precaution & care. The way you take everything seriously—every accident big or small, every problem he has, & your relationship with him,

THAT'S A SAMPLE ANY MOTHER CAN FOLLOW, whether rich or poor. I don't feel any barrier at all in following your sample 100% even tho' at times we may have financial problems or distractions that perhaps you don't have in raising Davidito. (Hal—Bigger/—Dad.)

YOUR LETTERS ARE REFRESHING TO ME, they renew my spirit & get me back on the ball to care about every little thing concerning my children & our relationship. And I know when you talk about things that Davidito does or has that we can't necessarily give our children, that you do it in a happy, loving spirit just because you enjoy seeing Davidito's happiness—and I can relate to it.

I CAN'T SAY THAT I'VE NEVER BEEN TEMPTED with jealousy myself but TTL I didn't yield to it as jealousy is so blind & also so cruel. I hope you weren't hurt by some people's remarks. Please keep writing, we need your guidance. Much love, Sara Newman. (S.D.: Oh my! Makes me cry. How sweet. I'm so very thankful for such a loving Family!) (Maria: No, perlower)

haps we don't have the financial haps we don't have the financial burdens that some of you do, but we have many greatet burdens of responsibility & royalty & the knowledge that we care burdens & responsibilities that your children will never know, thank God! Perhaps we also might be tempted to jealousy at times? [700] depend on us!-Dad]

A Mother's Prayer

by Seek, Real Mother of 6!

All around there's a hush As little ones sleep, I feel I must pray As my thoughts are so deep. My heart is heavy
But not in despair But not in despair
My thoughts are now serious
That I must take care. Many years already Have now come & gone. Life is so short, It seems but a song: It seems but a song:
The first verse tells
That life has begun
This verse is so simple
And easily sung.
For a child to trust
Is a natural thing
As they behold His face
And continue to sing.
But when you're a paren But when you're a parent You're a child no more. Now life seems more serious Than ever before. And now Lord, as I realize What the future holds, Help me guide their lives And their spirits to mold. And their spins to mode. Help me to live each day Reflecting your love, Your faith, your grace And great strength from above. Help me to live the vision That we haven't much tir That each minute wasted With them is a crime. We must work while we can, While it is still day, For night soon is coming And does not delay. And does not delay.
They'll need to be strong,
To stand on their own,
Even tho' they're still children
And not yet full grown.
O Lord, You must help mel
It is such a great thing!
I stand on Your promises,
To Your Word now I cling.

Rebuke, Lord, the forces
That try to withhold
Your truth from these children,
Help them to be bold!
Give a portion of Your Spirit
As never before.
They'll need it, Lord Jesus,
To still the great rear!
Implant in their hearts
The truths of Your Word
Which someday will rise
And divide like a sword. And divide like a sword.
Help us lay aside every weight
And sins that beset
And run with patience this race
Till Your eyes we have met.
Now sleep on, precious lil' ones,
There's rest for your souls.
The Lord is our Father
And He's in control. And tomorrow altho'
We laugh, sing and play
We'll take time to prepare
For that soon coming day.

"Thank You" To Parents!

by SARA DAVIDITO 9 Feb. 1980
WITH HAPPY HEARTS & A BIG BOOST OF
VISION & RENEWED INSIGHT, both Maria & I
went to thank each of you perents & helpers who
wrote a response in reply to the "Our Children"
Questionnaire, some responses of which we have
printed for all. We were pleasantly surprised &
happy to read that most of you parents were filled with love & gratitude for all the Lord has done
in your lives & those of your children, even inspite of the expected hardships & trials that we
all endure as soldiers of Jesus Christ.
WE JUST CAN'T THANK YOU ENOUGH for
pouring out your hearts & sharing with us your
innermost burdens & personal situations! Lord
help us now to try our best to be of help to you
in our writing & research work for our now over
2,500 children in our big worldwide Family,
Praise the Lord!

help us now to try our best to be of help to you in our writing & research work for our now over 2,500 children in our big worldwide Family, Praise the Lord!

WE ARE IN THE PROCESS NOW OF RE-SEARCHING SEVERAL NEW SUBJECTS that have come up in question from your replies to this childcare questionnaire. Those of you who have asked whether you could be of help in summarising certain books you read which have been a great help to you, or those of you who have a few ideas for childcare publications & would like to submit them for possible use, please do send your summaries & pubs to the FN Madrid address, in care of Sare D. Of course, we cannot use everything submitted, but just as we are trying to get out the most helpful tips from what childcare books we have read, in our writings & in compiled pubs, we may be able to use some of what is sent in. All of your ideas & suggestions are being considered & the Lord is really using your help & prayers in provoking our better works & fruits in childcare publications, PTLI
YOU'LL BE SEEING SOON, LORD WILLING, MORE NEW MAGS OF MO LETTER KOMIX for your children & GP audiences, as well as several new baby care classes, Bible prophecy, flannelgraphs, music & puppet classes from Family Care & lots more Ditos & Techis, PTLI
AND HOW WOULD YOU ALL LIKE A GLP CHILDCARE BOOK, bublished for parents—of all the best of our childcare pubs & classes—in one paperbound book, including all the Ditos, Techis, FC classes etc., for parents? Keep praying, we're working on it! It all takes a lot of prayer & time, just like raising children, but our childcare pubs have rolled like never before in the past two years due to Dad & Maria's genuine concern for each &

everyone of you, & their faithfully feeding you God's Words. God bless them!

THE FC TEAM OF PAUL & TERRY T., SAR-AH I. & ZEBULUN G. (artist) & mates have now completed over 200 pages of Komix & childcare classes & are now working on continuing the "Language With a Purpose" program of ML helps & grammar school activities. They're also indexing the Davidito Story.—More flannelgraphs & teaching aids also on the way! Please keep this precious team in your prayers as these six parents have 11 children with no other help & are faithfully getting out the Words in abundance every month, God bless them!

OUR FIELD ARTISTS ARE CONTINUING TO POUR IN KIDS KOMIX, NOW CALLED TRUE KOMIX, the condensed & illustrated Letters for our children!—Over 150 pages now completed & ready for print! You'll be receiving soon several new chapters on our little angel Techi, almost 11 months old, & we are finding out now that little "Angels" are not always "Angels"!—Hal She's a rascal sometimes, but a beautiful one, & you'll love hearing about her as we love telling you about her too. Grandpa says she is in love with Davidito!

IN SOME AREAS OF THE WORLD YOU ARE
ALSO ABLE TO OBTAIN THE BOOKS SO FAR
RECOMMENDED in the FN Reading List. Because many other countries are not able to get the
books so easily in their languages, we are hoping
to work more extensively on book summaries for

MANY PARENTS MENTIONED THAT THO'
THEY DO NOT HAVE LOTS OF EXTRA-CURRICULAR ACTIVITIES, equipment etc., for
their babies & childen, they do feel they are meeting their kids' physical & spiritual needs to the
best of their ability at this present time. Please
let me explain that in our writings about Davidito
we never intended to stress the physical & material needs in his life as a major part in his training
at all.

at all.

THE TRUTH IS, THAT BECAUSE WE HAVE HAD TO MOVE SO MANY TIMES so frequently, we only have room to carry one flee suitcase of school materials for both David & Davida. And our children have had to forsake all perhaps many our contraren nave had to forsake all perhaps many more times than many of your children because of our frequent moves. But they do so willingly, God bless them, & for that reason the Lord blesses them many times with gifts from others in new locations.

AS FAR AS SCHOOLING GOES, WE ARE AL-WAYS REVIEWING THE BASICS & trying to squeeze in school time whenever possible. But with such a busy schedule, like all you other moms around the world, I never feel like I am always doing my best or getting in every bit of what David should & could be learning.

DAVID'S BEEN SO HUNGRY FOR NOTHING BUT THE WORD FOR OVER A YEAR NOW, it's even hard to keep his interest in anything other than the straight King James Bible, Bible flannelgraphs, Bible Story books & tapes & activities (workbooks, art etc.). Thank the Lord he was so hungry to learn at an early age, for now he is already learning such importent spiritual lessons & hungering for the Word, that I am sure in a short time he will be ready for much more mature responsibilities & experiences in life.

MANY OF YOU HAVE ASKED FOR NEWS OF OUR PRESENT SITUATION. I am caring full-time for both David-5 & Davida, our little girl of almost 4, & have been since little Techi was born, when sweet Dora began caring for her. David & Davida are as opposite in character as they are in looks.—Hal And I am learning so many lessons in trying to teach & train & care for them both, that I can much more easily relate to many

of you parents' situations on the field.

ALONG WITH MANY OTHER RESPONSIBILITIES that I, & all of us, have in Dad's house, it's
is still my major responsibility to put the children
- first, & not always easy with such a busy schedule
full of household jobs, our writings, correspondence, phone calls, counselling & caring for our
idear King & Queen.

ONE MAJOR THING YOUR ADVISORY RESPONSES DID was encourage my heart that I am
"not the only one" who feels I'm often incapable
or not finding the time to give my all to our children. But that's the life of a busy mom! The best
we can do is try our best, PTLI It's fun trying, I
love it!

WE LOVE YOU & HOPE THIS LITTLE BIT OF
NEWS HAS ENCOURAGED YOUR HEARTS as
much as you have encouraged ours with your
beautiful responses. Love & prayers from us here.
Please know that we have prayed specifically for
each of your situations we've read about & are
keeping you in our prayers & hearts daily as we
continue in our service & ministry for our children around the world.

ALL WANTED TO SAY WAS A GREAT BIG
THANK YOU from all of us to you & your children—for everything! Love in Jesus, Sara D.

sons in trying to teach & train & ci both, that I can much more easily

IN THIS ISSUE YOU WILL

FIND PAGES OF BIBLE

VERSES to be used as aids in your personal & family memory time. They may be left as they are, in complete pages, or you might want to cover each of the pages with clear contact paper to strengthen & make them more durable, then cut on the solid lines to separate the verses. The verses can be kept in a small "Bible Treasure Chest", "Oaily Bread" or "Precious Promises" box & reviewed at wake-up, meal or bedtime, etc. Try to think up fun ways of using them in games with the family. Categorise them by faith, healing, comfort, prayer, salvation, etc., & add your own favourite verses. YOU GROW BY FEEDING
ON THE WORD OF GOD CONTINUALLY, the cure for all life's problems. Many people struggle thru' life needlessty, when only a little more time spent with God's Word would

bring the peace, faith & happiness they seek.

SO HIDE THE WORD FAITH-FULLY IN YOUR HEART that you may be kept by the power of God & comforted in difficult times now & in the future & that you may be able to comfort others with the comfort wherewith you are comforted. Love, Maria. (More verses to follow in another issue, D.V.)
