greatly increased sharing as we're
becoming more "One Wife" here.
Hallelujah! That's a real victory!
"THE JEANE MANSON REVELATION" WAS A PERSONAL
COMFORT as sometimes I feel
I should be mated by now, but
it's less of a problem due to the
wonderful care we get here. Boy,
do we have such loving mothers &
sisters. They make it easy to be
single. It's really a "Family Marriage" here more & more, & the
sacrifices our precious mothers
make for you really inspire me
to want to do more for them &
their children! So that's been a
real victory. In conclusion, it's
been a real blessing to help.here their children! So that's been a real victory. In conclusion, it's been a real blessing to help-here in any way! I can. And thank you, Dad, for your tapes. We just love'm & they have sure made it worth "shticking"! I'm so happy to be in your & Jesus' service. Love, John.(PTT.! WI.Y!)

I'd be a mess just like I was before I came here! So I thank God for His continued mercy in using such a one as I. Yes, I was a backslider, but now I'm enjoying the benefits, PTL! God's way up is down!

BEFORE! JOINED THE FAMILY I WAS A LOST DEFEATED HIPPIE DRUMMER watching the flame of my life slowly flickering out before me until the day I met Onesimus & Adoriam in a park in Bromley, England & they led me to the Lord. Two weeks later I forsook all & joined full-time.

SOOK PLAYING THE DRUMS, trusting the Lord to use it in His time. Well, His time carne when I was in Dublin in the form of a phone call from Martha saying, "We're opening a Poorboy Club in London. Would you like to come & play drums?" I was there in London for a long time learning many valuable lessons, mainly by mistakes.

THEN I WENT TO AMSTERDAM & helped in their Poorboy Club, then accepted an offer to go to Athens. I was there for 6 months but wasn't happy so went back to England for a while.

Then Zach & Shalom wrote me

DURING A STAGNANT PERIOD I GOT A JOB at a piano bar

with her, having a job in a nightclub & not having much fellowhip anymore started me on my

"THE GYPSY LIFE IS ALL IN SONG &

"THE GYPSY LIFE IS ALL IN SONG & MUSIC..." And how close we feel to Abrahim & his sypsy band of old here in our musical heaven, particularly during the beautiful Springtime when all nature around us explodes in bloom, & our colourful-skirted Gypsy girls grab their tambourines & our gypsy men their guitars for two beautiful evenings around the fire, singing & dancing wild & free for our special Gypsy Video Show! It comes so natural, as it is so much our true Family spirit, we can really feel one with those Gypsies of old, particularly when Abrahim, beautifully interpreted by Angelo, tells his own story & ends with a very moving song "Abrahim the Gypsy King"!

Caypsy Video! Celebrations! French Visitors! Products of Progress!

SHORTLY AFTERWARD, TO KEEP US FROM SETTLING DOWN FOR TOO LONG, at the request of our faithful king & camp owner, we all moved to the other & wilder side of the campground. This may seem a small operation, but moving & reorganising our growing family of 70 with all its little families, tents, careavans, communal kitchen & dining room, fixing up the electricity gain, dishwashing area, a shaded taverna & school area, took more thought & work than we first planned! But thanks to our faithful helpers Andrea, Tiras, John Cloud, Timothy Fix-it & all the other willing workers of the camp, along with Silas & Endureth who have been such a treemous took help with managing the camp life & organisation, we were totally resettled within two weeks without stopping all our other activities of audio wasted) Sunny, Sodomon, Windy, Angelo, Patience, & video recording & the arrival of new visiting brethren!

BETROTHALI And with such a big family, we always have something to celebrate—birthdays (which we have one for each sun sign), new visitors, new exciting Letters & precious comments from our faithful shepherd. This month we had two special celebrations—first the betrothal of Peruvian Manuel, our precious teacher, inspirationalist & KP Show originator, & beautiful German Maria whom he went himself to fish into the Family from her empty life of drugs & loneliness in Germany! WE CELBRATED EASTER WITH OUR
GREEK KINGS, FRIENDS & NEIGHBOURS,
led by them in their traditional way, adding only
our happiness & rejoicing in songs & dancing to
their rather sober feast. It was a beautiful sunny
day, & we woke up early to help our king set up
the fire to roast the lambs & to prepare the various Greek dishes—tradiziki (thick yogurt with
grated cucumber & garlic), potato salad, Greek
salad etc., set up our long tables decorated by
the artistic hands of Francoise, prepare a show around the theme of Easter etc.

special Guest to our celebration WAS John, faithful friend who owns a club in town & has been a long-time king & friend to us & recently received the Lord. It was his first visit to "Loveville" camp, & he was so touched by the Spirit & by the children! After the children did an Easter skit & sang Easter songs both in English & Greek, all the crowd who had gathered around when they heard the music, hushed one another so they could hear our friend & new convert John whole-heardly & reverently read the

OTHER VISITORS TO LOVEVILLE THIS MONTH WERE SOME MORE OF THE FRENCH MWM CREW! First Michael & Sunny Listen came for two weeks, soon followed by French Canadian Gideon, then French Joseph, Abigail & Mary Magdalene came in time for Easter. With Mary as its MC."Music Magique" seems to be ready to roll, PTL, to reach every French-speaking tribe & nation with the Gospel!

IT HAS BEEN SUCH AN INSPIRATION TO SHARE WITH THESE PRECIOUS BRETHREN the lessons we have learned since MWM began, how lives have changed thru returning to full time service, whole-hearted obedience & loyalty to the Words of David under the loving oversight of Faithy & Juan & the constant encouragement & guidance of our faithful shepherd, knowing that all this experience & training will help them to reach a whole other part of the world! How inspiring, too, to see Angelo & Sarah produce their first four beautiful Italian shows. Indeed, "this year the world!"

first four beautiful Italian shows. Indeed, "this year the world!"

BUT AROVE ALL THE GREATEST EXCITEMENT & SATISFACTION is certainly to see that these new projects are getting completed! God bless all our precious musicians & performers & video team who have been working all they can to get as much out as time allows! Accomplish ments for this month include an hour drama tape, a witnessing tape, a disco tape, a children's song tape, a Mo Song tape with musical accompaniment, a Daily Might tape, plus recording 7 songs from Michael Mountain & several also participated in the making of the first four Italian Shows We also just about completed an hour "Lowe Video" as well as a regular show & children's dance class by Topaz & our KP. PTLI It is so exciting to see the work progress, & we are sure thankful for Dad's constant inspiration & challeng to get us stirred up & moving, always inspiring us with new projects!

with new projects!

WE REALLY LOVE YOU ALL & are so very thankful for the beautiful notes of love & encour agement we receive from our Family all over, for the support & prayers you send our way, as we could take the project of the love you & are praying for you too! Love, Paul & Marianne.

MANY HAVE ASKED IF
WE COULD WRITE MORE so

what's happening here. Charran

the world of how we do our
Sunday Fellowship, as it's aso
inspiring. Well, our tremendous
unity in Sunday Fellowship,
which is so obvious to the visitor, must come from our plural
marriage, the "One Wife" situetion of the Spirit that we have
here at Loveville, the result of
having enough love to be trusted
with enough liberty to live life
to the full! PTL!
HERE'S A GENERAL FORMAT OF OUR SUNDAY FELLOWSHIP: The whole body
gathers together in our large communal tent around 4 p.m. for
a wonderful time of song—"Music of the Martyri" (classics of
the faith from past centuries),
old time Family favourities such
as Psalm 100, Psalm 121, "We've
come this far by faith" etc.
After a half-hour or so we're
all inspired & ready for our memory review!

or the winning of a soul on the local battlefront—all have their chance to share what the Lord is doing in their lives. What a Family, & what a variety of work to do for the Lord! Again, we emphasize to our children the importance of how they deliver their testimony & make sure they dwell on the parts that glorify Jesus, not emphasizing the pizza they provisioned but the love they gave to the one who donated it & how happy he was to give. It really spurs us to get our kids out to a park or school to win a soul, or to visit an orphanage, so we'll have real tales to tell of ones we've caught! After a half-hour or so we're all inspired & ready for our memory review!

THE CHILDREN BOLDLY CUOTE THEIR NEW VERSES, Chapters, Daily Mights (adult & kids versions) intermixed with the adults who have Chapters & quotes to share as well. It's truly a Memory Revolution! There is no leniency or half-heartedness in this memory time. One point Faithy emphasized was the delivery of what you memorize!

This sometimes lasts a half-hour. THEN IT IS TIME FOR THE WORD, the oil which truly keeps us united. For this we've been blessed to have fresh tapes from all some of the exciting things the Lord has done in our different lives during the past week—the products of progress—whether it be the finishing of a radio show for the Int'l. MWM Show, the completion of a video, the writing of a new song or article,

wine. It's always inspiring to sing "Break Thou the Bread of Life" or Psalm 133 while the bread is being passed. (It usually takes a while as we have up to 100 people here for Sunday Fellowship!) or while the wine is being passed to sing of the "Wonder Working Power of the Blood"—the only thing that can "Wash Away My Sins".

THEN FOLLOWS A GENER. AL LOVE FEAST of hugging & kissing as we prepare ourselves for the Sunday soup or salad. After an hour or so of fellowship we then lead into a disco, a video or just a plain of 'Family inspiration time in which different ones sing—just a fun time. U sually by 11 p.m. or so most are heading for more intimate fellowship, which really keeps us not only one in Spirit but also one in flesh. PTL FOR SUNDAY FELLOW-SHIP! It's been providing quite a bit of spiritual strength & inspiration for all of us during the week that follows, as there is at times quite a workload. & Sunday is a way to get really restored! Thank God for Dad's wisdom in seeing the need for this!

I FORGOT TO MENTION HOW EMBAKE SURE THE MORNINGS ARE KEPT QUIET on Sunday, keeping the children with their respective families in the Word. This way we don't have a lot of children running around the camp who may disturb those trying to study. & pray. We've also found it necessary to keep the children sitting with a parent or helper for as close as possible) throughout our Fellowship Meeting, to keep the mulet & under control. They've been quite good at sitting quietly for these "fong meetings" & have usually been a real sample, God bless them!

PLEASE CONTINUE TO PRAY FOR MWM that we'll be able to survive wherever we are to keep producing for the world! And do keep sending your donations to C.P.O. 220. Athens,

THE "KID POWER SHOW"
HAS THE PURPOSE TO UNITE
ALL THE CHILDREN of your area as well as their parents to work together on the creation of a children's show to reach the New Bottles of your area with the message of God's Lovel—Plus a way to train the children & use them as your major witness for the Lord wherever you are, developing their talents for the glory of God! Especially in areas where there are many Homes with many children, without an "important" ministry, you will be surprised how important your ministry can be if you take the time to train your children in the way they should 90.

AS DAD TOLD US, "OO YOU REALESE THAT YOUR CHILDREN IN YOUR AREA who can participate & separate where we have "The Bamba Girls", "Lovelight", "Bobo & their agent & the ready they should 90.

AS DAD TOLD US, "DO YOU

the most powerful witnesses the
world has ever known! Do you

DANCING: It takes simplicity & inspiration mixed with lots of conviction to teach your children to dance & sing! Use mostly simple steps that accompany & illustrate the words they are singing, especially for very young children. Dad suggested the use of a mirror while practising to help the little ones to pay attention & concentrate more on their dancing. For older children you can go a little bit more professional & create simple choreography. (HERE AT MWM WE'RE WORKING ON A YIDEO KP DANCING CLASS with beautiful Topaz sharing some tips & lessons on dancing. D.V. the video will be available for all the Family. On the video we have used the special children's tape that has 10 of the best performing & witnessing songs for children, plus the KP theme song recorded here at MWM by the King's Minstrels, following Dad's suggestions! On the other side of this children's tape is the music track only, so you can translate the song into your own language, play the tape & sing along. Ideal, too, for parents who can't play or sing to make it possible for them to perform with their children, thanks to Dad's wise suggestions, PTL!)

5. LOOK FOR AN M.C. It can be the oldest child or a pretty young sister who will run the program, introduce the singers, interview them etc. Then sit down with him or her & prepare the scripts for your program. Remember that it's a children's program, of, by & for kids—so use

to the songs you're singing or the theme of your program. When you interview the child artists, be sure to include names, ages,

nationalities, whose children they are, any comments & testimonies etc. Make it a natural conversation & give it genuine meaning. ALL THE CHILDREN SHOULD BE INTRODUCED & thanked before & after the songs. For opening & closing the program you can use the theme song sung by all the children. (The theme song will be included on the children's tape, D.V.) 6. IF YOU'RE PUTTING THE SHOW ON VIDEO it's best to first put all the songs you are using on tape, then when performing you play it back & the children can sing over it. This way the sound quality on the filming will be much better than if doing it all the same time, & this way the children can concentrate more on performing. It doesn't matter whether you have any special equipment or not. It can be done with a normal tape recorder.

7. COSTUMES: Look for

reacter whether you have any special equipment or not. It can be done with a normal tape recorder.

7. COSTUMES: Look for someone who can be in charge of making or provisioning good performing dresses & clothes, take care of them & keep them clean & neat. You only need simple clothes to give sufficient variety without expense. You can make some changeable accessories to put over or around the basic outfits to make them look different. For dancing solos use tight, revealing, sexy clothing for little girls. Dad said in a recent comment on KP: "The more naked you are, the more beautiful you are, ha!" (Even for little love dancers.) God bless Faithy & our W.S. Family who just sent some beautiful outfits for our children here which have been a real belsing for our performing, câte singing & videoing, GBT! It has made a difference in looking pretty & nice. PTL!

8. I'D LIKE TO EMPHASISE THE IMPORTANCE OF HAV-IMG PRACTICE EVERY DAY as well as before performing in public or filming, & invite the

with Meaning

people who will be involved to watch (if you are filming, invite the cameraman). Afterwards discuss the last details together, & then you're ready. You can prepare a 15-minute or half-hour show for performing on TV, parks, schools etc., not just with a casual singing team, half prepared, but a well prepared show with well trained children working together preaching the Gospel & setting the example for the world to follow.—A whole new ministry for parents & childcare helpers of an area, working together for Jesus!

9. BE SURE THE CHILDREN
ARE WELL RESTED before performing. Tired children are a
bad testimony. Also if filming,
bright colours are the best for
the background & decorations
are good to back-up the singers.
10. YOU CAN PROMOTE
THE KID POWER SHOW CLUB
by inviting all children to join

ideas you may have tool God
bless you as you prepare your
children to take the world for children to take the world for Jesus. We love you!

From Apollos' Work Reports: Dear Maria, 27/4/81

Dear Maria, 27/4/81
GBY! ILYI PTL, I'M STILL
HERE PLODDIN' ALONG, like that song from "Brother Sun"—
"Day by day, stone by stone, build your secret slowly. Day by day, you'll grow too, you'll see Heaven's glory!" Ha! TYJI—So that's what I'm doing—literally—daily gathering & garnering God's golden Grain, sorting & storing it by His Grace! "Line upon line, precept upon precept, here a little, there a little"—"so built we the Wall!" (Isa. 28:10 & Neh. 4:6)
IN FACT, I THINK I GOT AN ACTUAL GLIMPSE OF HEAVEN'S GLORY LAST NIGHT!—& then again this morning, in the very "Garden of Eden—where Eve herself just about revealed the very "gates of Heaven"!—not to mention the lovely lottler peaks & higher heights of His Crowning Creation! Boy, those oi' TSC prophecy studies never portrayed such ravishing revelations as that! What music!—What movement!—What meaning! Oh myl—It certainly set the mood!—Hallelujah!—It was great! (New Family Video!)
WELL, BACK TO EARTH...
Saturday! read & logged in 116 new pages, discovered a fantastic new ML for Sally to edit called "God's Bride", & continued to find 10ns of fantastic quotes on misc, subjects from the "United Sessions" from Tenerife—Great stuff for a great new book from God's great Words! TYL!! I love you & am praying for you all, especially Dad, as he does those video revelations!—Oops!! mean Revelation Videos!—Hal Love always, Apollos. (25 new tapes!)

men's (or women's!) labours" on these RDs! I'm continuing to strike Gold!—And a lot of potential new MLs for dear Sal to work on- not to mention so many thousands of wonderfully feeding, instructing, inspirational & revelatory Quotes which I'm sure will be such a blessing to His hungry happy holy children!

"He which hath begun the work will perform it!" And I know the Lord's gonna help us weave the Gold into useful, helpful, inspirational feeding food for His folds—by His grace! TY.!!

I'M THILLED WITH THE POSSIBILITIES & THE PO. TENTIAL & amazed that He's to mercifully given me such a priceless privilege & calling. I feel like "Tis odd that God should choose the Jews..."—I'm not worthy of it! Sometimes! read thru' some D.M. pages or other things we put together & I'r really wonder: "Wow! Did we do that!" And the answer is usually, thank God, a clear "No!" THERE'S NO WAY THAT A STUPID UNEDUCATED 10TH GRADE DROP-OUT LIKE MY-SELF COULD EVER WEAVE SUCH THINGS TOGETHER! It's almost funnyl—Hal For sure the Lord has a sense of humour—to have a high-school flunk-out in His "Education Dept"!—Which just goes to show that it's all Jesus & His Grace & the wonders of His Words! TY!L

LORD BLESS YOUR DITHEULLY GROUND THEMSELVES, our new babes & disciples & our precious children in the Word! I know it's the only Rock-solid unchanging, never-failing firm foundation of His Word that has kept, renewed & strengthened me day after day, week after week, month after month, year after year! From Sara Devidito: 30/4/81.
To our Dearest Love, Dad:
HOW I LOVE YOU! I really do love you with the greatest deep feelings of fervent love & heart & spirit! Thank you, Dad, Tor your sacrificing, your giving just everything for God's Word & His Work & us all!
YOUR BIBLE LESSONS ARE SO VERY INSPIRED & AN. OINTED! They leave us with such strength & faith —just indescribable how helpful & fruitful they've been for us. We always pray desperately for your filming sessions, as we can feel & have seen the Enemy's attempts to stop or hinder them. I'm just so thankful to Jesus & you for God's Word thru you; it's those Words that called me to His Service & each Letter strengthens me daily! PTL!
I WOULD LIKE TO THANK YOU ALSO FOR THE VERY PRECIOUS PRIVILEGE TO DANCE in your Kingly Courts!

Indict thrilling & a dream come true—an opportunity to live a fantasy for you! I used to fantasize having sexy seductive dances for you-with great results! Mmm! See how the Lord makes even our dreams & wildest imaginations come true! (Amel — Dad.)—THAT'S JUST WHAT YOU HAVE DONE IN MY LIFE thru' Jesus' love—you've made my dreams come true & more! More than I could have ever dreamed up! Halleluigh! I thrill to see how much you enjoy our little

strength & endurance & pouring out for us all. If only I could do more for you, after all you've done for me.—Your children are my joy & happiness & reward here on earth (What you do for them you do for me!—Dad.) & I could never be happier nor more in love I TyJ.II—He's so good to us! (Amen!—D.) Great Big Wonderful Lovel—Your Sara, (Thanks IL YI)

An HFN from one of Mem secretaries, Path:
Dearest Dad & Maria,
I just can't help but marvel
As this day draws to its end
At the mercy that you've sh

At the mercy user you send!
For I feel so undeserving
But I need it, it's so true!
'Cuz I bungled it again today
And it's so often that I do!
Your prevision is astounding
And I want to march in time!
Tho' I often fall behind you
And miss my mail deadline!
Or your correction on a Letter
Slips by me without the change

So we have to call dear Mordy
To see what he can then arrange!
So many times my notes aren't
clear,
And often not precise
The plans I wrote 3 hours ago
Well, now they have changed
thrice!
But what I want to really say
—In spite of my mistakes—
Is I feel the Lord is teaching me
These lessons that it takes
jf to be a true-blue fighter!
—And I'm learning every day!
Thru the loving sample of you
both
As Jesus shows the way!
Love you, always,—Path.
(Dad: PTL! GBY! You do wonderfully well!—I'm gnazed at
your good work!—Quit worryin!—Just enjoy it!—Hai—Love,

From Donato; U.S.A. (written on his 54th birthdayl):
Dearest Dad & Marie,
GOD BLESS YOUI MY HEART IS OVERFLOWING WITH SO MUCH LOVEI It is truly a miracle what has happened in my life since meeting the Family back in June '781 At that time, after having been FF'ed by Senash in Europe, I wrote you & expressed my hope of becoming a full-time member of your loving Family. Hallelujah! PTLI It has come to pass! His rewards are a hundred-fold! He has answered my prayers beyond my wildest dreams!

TO RECAP: After visiting Senash again in April '79 a year went by before I could get back to Europe. During that time Senash kept faithfully encouraging me thru' the mail to stay in the Word & keep reading the Letters, & PTL, it kept me close to the Family.

IN THE U.S. SOME BRETH-REN CONTACTED ME & I was able to have fellowship. The 'hes able to have fellowship. The 'hes love that a sister showed me & her reading "Raul's Knife" with anyone else, because of my love for Senash, it was the true love that a sister showed me & her reading "Raul's Knife" with me that made me realise even more how unified in love thru' the Letters is this true Family of FORSAKE ALL & maybe find a mate & a home to team up with in South America. Once back home in the U.S. I began brishing & found a sheepy won the morth of the faith to make the word of a mate & a home to team up with in South America. Once back home in the U.S. I began brishing & found a sheepy won the family life & even had an experience with faith healing for which I really thanked the Lord! It was then that I really began to see how the brethren had ded interest and the lord it was then that I really began to see how the brethren had ded interest and the lord of a relationship.

THEN IN AUGUST I REEVENTUAL PLANS TO GO
TO SOUTH AMERICA, having just read "Americas Abroad".

SENAAH TOLD ME OF HER EVENTUAL PLANS TO GO
TO SOUTH AMERICA, having just read "Americas because she'd met an influential Fish who was said she would first land in Eventual Fish who was said she would first land

I COULD ALSO SENSE THAT

THEN IN AUGUST I RECEIVED A PHONE CALL & LETTER FROM SENAAH. What a bomb! She asked if I still had the faith to mate with her, so sake all & go to Central America with her! She had prayed that the country of the

forsaking her & being willing to put Him first & be in the Family for Him & not only because of her, gave her the burden & the faith. She told me to read the Letter "The Bait That Fell in Love With a Fish" (No. 552). I cried!

IN SEPT. SENAAH & HER TWO BEAUTIFUL DAUGHTERS ARRIVED & we were betrothed before the Lord & had a communion with the children & made plans to leave my job & city, selling the house & heading for Central America. We even told my parents & children who are 29, 23 & 20.

THE LORD HAS REALLY

heading for Central America. We even told my parents & children who are 29, 23 & 20.

THE LORD HAS REALLY BLESSED US during this time that we are waiting to leave the States. We have established a DTD ministry. Sensah has been able to get out litnessing & we have been going out Fing once a week at least. We have good potential for a Church of Love. NOW, ANOTHER MIRACLE! Sensah's Fish, the one mentioned earlier, invited her to Central America & introduced her to people that would be able to belp us when we get there. She fed him the Word & watched him grow to be almost like a brother! He came to visit us here, staying in our home, & it has now come full-circle. By God's grace! have made the metamorphosis from Fish to brother helping my mate with a big Fish! I assure you, it was able to have so much love for him that I cried when he left to return to his home in Europe.

AGAIN, GBY DAD & MARIA, for your visions & constant guidance thru' your Letters. It is your taking on His yoke that makes the burden Infat. (GBY!)

I DION'T SEE ANY REASON WHY I HAD TO LIVE WITH OTHER PEOPLE Or actually become part of that movement because I was doing great then, & I was telling other people about Jesus. I didn't see any reason why I should. But God was still very far away. He still wasn't close.

THEN THO THINGS HAPPENED ONE DAY THAT REALLY CHANGED MY LIFE & changed my whole outlook on God. How little things can change your life so much-big things, but little things! He came around with his friend Canaan, & the first thing that happened was when we were out for a walk & Canaan suddenly stopped & said, "Wow! Thank You Lord! Thank You Lesus! Thank You Lord!" Our Family History-Chapter 3! Love & Discipline!

By Hosea David

By Hosea David

1. IN DAD'S RAISING OF
US CHILDREN THERE WERE
MANY DIFFERENT METHODS
which he used to teach & train
us. Of course, the first & most
important thing was that he was
a true & honest spiritual good example to us of what we should
be like & what we ought to do.
2. THEN HE TAUGHT US
OUR OWN PERSONAL ACCOUNT ABILITY TO GOD for
our daily actions in our lives,
both in spiritual matters & in our
dealings with each other. He
taught us that we could either
help build or destroy his ministry & that God would hold us
accountable. Many times when
correcting us for our wrong-doings & our poor sample he would
remind us that we could affect
God's overall plan for our ministry by our own failure or by our
obedience to him & to the Lord.
His lectures to us when we did
wrong emphasised these points
very strongly.
3. MANY TIMES THE DIRECT
CARE & SUBERUSCO

very strongly.

3. MANY TIMES THE DIRECT CARE & SUPERVISION OF OUR ACTIVITIES HAD TO BE DONE BY PEOPLE OTHER THAN OUR PARENTS to whom I HAN OUR PARENTS to whon they entrusted us when they were not able to be with us throughout the day & also when Dad was travelling in the Lord's work. They required us to re-spect those who cared for us as their respresentatives.

spect those who cared for us as their respresentatives.

4. WE HAD TO OBEY & RE-SPECT THOSE WHO CARED FOR US the same as our parents. We knew that the Folks would back up their discipline of us & that if those who took care of us felt that our disobedience or misbehaviour required a spanking that Dad would also give us a spanking in addition to theirs when he returned.

when he returned.
5. HE ALSO USED A MARK-

ING OR DEMERIT SYSTEM to keep track of would receive an appro-priate reward or spanking or other form of dis-disci-

form of disdiscipline.

6. ONE THING THAT DAD WAS VERY DILIGENT ABOUT WAS NOT PERMITTING US TO MURMUR OR COMPLAIN. He always reminded us that it was for murmuring & complaining that the Lord allowed the Chidren of Israel to rot in the wilderness & that God hates murmuring & complaining & that we should learn to be thankful in every situation.

7. DURING MEETINGS & CLASSES Dad required us chidren to learn to sit still & pay attention, even when we were very struction, even when we were very struction, even when we were very small, sometimes having someone hold us on their lap to help us concentrate & not just wander around playing during meetings. He taught us that during these times the Lord was speaking to us & that we needed to be respectful & tune in & listen, & he did not tolerate us playing around to the point of disturbing the meeting or the Spirit, even tho' these meetings sometimes went on for hours & hours.

8. IF WE BECAME TIRED & SLEEPY HE SOMETIMES PERMITTED US TO DOZE OFF for a short time without distracting anyone until such time as he felt that we had rested enough or shouldn't miss a particular point, and the world of the world wake up with a start & be wide thing that he was not, but that the find not want to spank us that the did not want to spank us the did not want to span

tening to it & get up & turn the record over to hear the other side.

12. THEY REWARDED US
FOR MEMORISING SCRIPTURE such as giving Faithy \$5 for memorising the 11th Chapter of Hebrews when she was nine years old. & when memorising the sets at that time they paid us ten cents for every verse we memorised. They encouraged us to do it for the Lord & for the spiritual benefit but they also rewarded us monetarily which was a good incentive for us as children.

13. WE WERE SOMETIMES MONES ABLE TO SEE THE IMMEDIATE BENEFIT OF THE MEDIATE BENEFIT OF THE MEDIATE BENEFIT OF THE MEDIATE BENEFIT OF THE MONEY rather than the long-term benefit & effect of the Word of God in our hearts, but the Folks did not let this stop them from rewarding us for hiding the Word in our hearts, because they knew that in the end it would pay off sopiritually in our lives.

14. THEY ALSO USED SCRIPTURE Word In our hearts because they knew that in the end it would pay off sopiritually in our lives.

15. MOMETIMES A FORM TORES A TRIPS AS REWARDS, sometimes taking turns with one or two of us going with him at a usin outlings to the parks, swimming in the swimming pool, taking us to risit certain sites in the particular offeres. For example, for lack of love we would be required to memorise it. 15. SOMETIMES THEY WOULD REQUIRE US TO WRITE OUT A SCRIPTURE ON THE SUBJECT over & over again until we memorised it. No matter for which reson we memorised the Word, in the long run we remembered the Scripture long after we had forgotten whether it was for reward or discipline that we had memorised it. 16. DAD USED MANY DIFFERENT WAYS OF SHOWING US. LOVE & REWARDING US. Dad was always very affectionate to us, hugging & kissing us, loving us up, never failing to kiss us goodnight. Any time we started to go to bed without kissing him goodnight he would always call 17. HE ALSO TOOK US TO
18. MANY MOVIES which he fett
would be beneficial & education
al for us, movies about history,
about classics, or movies about
life, about love, about sex even,
as he wanted us to see it with
him there to speak in our ear the
explanation & the right point of
view & cutlook on the movie &
these experiences in life which
he felt we needed to learn thru'
watching movies both good &
bed so that we would know to
d seek the good & to depart from
evil.

18. HE ALSO TOOK US ON
MANY SPECIAL OUTINGS &
TRIPS AS REWARDS, sometimes taking turns with one or
two of us going with him at a
time & sometimes taking all of
us in outings to the parts, swimming in the swimming pool, takling us to the YMCA so we could
play ping pong, or taking us to
visit certain sites in the perticular
cities we were travelling thru',
such as a wax museum or a flower gerden, or in the national
so, parks, climbing a mountain or
going to the zoo to see the animals or to a museum. He took
special care to see that we visited
the points of interest that were
of vielue & educational to us in
all the places where we travelled.

19. THE METHOD OF PUN18. HEALSO TOOK US ON
MANY SPECIAL OUTINGS A
in gus to the YMCA so we could
play ping pong, or taking us to
visit certain sites in the perticular
cities we were travelling thru',
such as a wax museum or a flower gerden, or in the national
so, parks, climbing a mountain or
going to the zoo to see the animals or to a museum. He took
special care to see that we visited
the points of interest that were
of vielue & educational to us in
all the places where we travelled.

19. THE METHOD OF PUN18. HEALSO TOOK US
when we misbehaved & had to
be disciplined was a good sound
spanking with the wire end of
a flyswetter, the fett were
of vielue & educational to us with
yor hildren being a thin wire
clothes hanger covered with plastic bent straight, as most flyswatters today have lightweight
plastic handles. But he administered the necessary discipline to
us with this instrument w

someone got hurt & went crying 20. HE ALWAYS SPANKED US ONLY ON OUR BOTTOM, usually with our pants on. He would not usually pull down our pants & spank us on our bare bottom with the fly swatter, but he felt he could administer the fly swatter sufficiently thru' our

doing, but he would always diligently explain to us why we were getting a spanking, what we needed to learn from it, why we shouldn't do it again, how the Lord felt about what we were doing, what the Bible said about what we were doing etc.

25. SO THERE WAS A VERY GOOD BALANCE between Dad's methods of love, rewards & punishments. We were never in doubt that he realty loved us & cared for us & that his punishing us was something which he did not want to do but did only for our own good & to teach us & train us in the way that we needed to go.

26. SO WE KNEW HE WAS NOT BEING HYPOCRITICAL or requiring us to do or be some-

thing that he was not, but that he was endeavouring to channe he was endeavouring to channel us to go in the direction that he & the Lord were going. Therefore we learned to respect & receive the discipline that he administered to us, & insomuch as we have done according to what he taught us it has borne good fruit, & those of us at certain times who did not receive it & rebelled & didn't learn the lessons that he was trying to teach

rebelled & didn't learn the lessons that he was trying to teach us, we saw that it bore bad fruit.

27. BUT MOST OF THE TIME, PARTICULARLY WITH THE YOUNGER CHILDREN, HE TOOK SPECIAL PERSONAL CARE & concern in training & disciplining us, & we learned to receive it & respect him for it, & as we grew older to the age it,

that he did not want to spank us & felt that we needed to learn to obey thru' telling us the Word & thru' instructing us, we learned to follow & obey the Lord Ourselves according to his example.

28. WHEN WE FOLLOWED & OBEYED IT HAS BORNE GOOD & LASTING FRUIT in our lives, & our failures & mistakes as his children have been the result of our own personal failures to learn the lessons that he & the Lord have toil us to do. But by God's grace if you train up a child in the way that he should go, Dad believed & taught us that when he is old he will not depart from it. Hallelujahl Love, Ho.

Letter From Jeremiah Singer!

Thanks to Dad for MWM-French Vision! Plus tried 'n proven tips on cafe singing! Deavest Dad & Marie Peter, written by Jeremich, hand copied

GBY! J.R.L. Y'THE again for all your special love , concern for us We pray everyday for you + our precious Maria, that the Lord keeps you in perfect health mightly + protects you both We know He answers too! P.T.L. I Follinspired this morning to write you, and let you know what we've been doing lately and some victories we've been having during this time of waiting, before actually getting directly involved with the producing of the MWM tapes in French, Jo--rathan (French) + I have been learning, translating + singing together many of the sough From the M.W.M tapes. Before we started living together, each of us (Jonathan + I) had been singing alone each night in restaurants for support. When singing alone it's much harder to stuy strong and in control of the restaurant audience which results in almost being obliged to sing system songs. Sometimes these people can be pretty demanding and it's hard not to offend some if we refuse when they ask But since Jo-_nothan + I have been going out together we've almost uswed with, each other and to the Lord that we will only sing M W.M material. Ever since we've made this commitment, the Lord has been mightily blessing us Spiritually + Financially as well. P.T.L! what a victory! Now when people ask us to do system songs we just sweetly explain that we only do

our own material and they respect this in most cases. They understand That we are a little due with our own message and particular type of original songs and they love it We sing about 60% in French and some in english, as you suggested we do in the RD conserving the French show. The songe from the MWM Tapes are so simple and inspired, that they adapt very well to just one or two acoustical guitar accompanyment. I'm so inspired to get out of that old rut of singing alone when it's so much more inspiring to sing together with others. The verses the Lord gave us was "He sent them out by two's " and " one can that se a thousand but two can put ten thousand to flight." Dad The so much Forthat wonderfully encouraging and inspiring R.D. That you sent us conserving the French LE M.W.M Vision -] just wanted to tell you that my children + I still have a definite God given burden to help with the producing of the French show and we are so thankfull for your sweet sug-gestion that we do so. We consider it a real honor and a real oper. tunity to be used in this way to help reach millions of lost souls. Even is things do trightin up in France because of the new socialist governstill beleive very strongly that there are still limitless possibilities of it being , aired in F. Belgium, F. Swiss, a large part of Africa and many islands of the seas where French is spoken. Also as you suid in your mes--sage to us, there are also limitless possibilities of how it can be used in the hands of French disciples alone. We definitly agree with this, even if it never goes on the air. Wow! what a witnessing tool to be used in our dad outreach! Dad I felt led to write you this to let you know that we still have the burden tuision and want to get busy A.S. A.P. as you suggested in your last message to us. We need you so much! Thank you so much For continuing to faithfully feed all of us hungry little birdies of yours the delicious word worm's , via your letters, that we love + need so much

sage—then break down the different high points of the Letter on the second reading. Lastly, I choose the exact quotes that best describe the main thoughts of the Letter."

Whatever way the different Artists go about editing the Letters, they all agree that reading the Letter over several times before attempting to illustrate it, is a must!"Fill up your heart, and you won't have any trouble knowing what to say—or what to draw!"
("Stop, Look and Listen!" no. 74:6)

Please remember that for GP Komix, keeping it down to a 4-pager is gasential! It

is good to try keeping your DFO TKs down to 4 pages as well if you can, but please try not to exceed § pages, and certainly absolutely no more than § pages! It can often be the "path of least resistence" to let your TK go on for page after page, with just a picture or two and a bit of text—rather than to "work it work" and make each page a graphic presentation of text mixed with lots of pictures!—which is what a Komic Book is supposed to be like, after all.

(Amen! Thanks, sons — and daughters— for your beautiful works of art! Love'm! — D.)

SMALLER'N BETTER

Cassi Athens recently wrote, "I just wanted to mention I'm starting to work normal sized with Vol 4, and it's cut my work almost in half. Of course, it's a bit more difficult, but we realized I was working almost twice as large; thus, ares wise, inking, drawing, and even acreening, it was more costly by far---time-wise, and even the expense of screens! It was nearly driving me nuts---like for a 4-pager, it was like doing 8, and for an 8-pager, ----16! Whew!

687

me muta---like for a 4-pager, it was like doing 8, and for an 8-pager, ---16! Whew!

And then on top of it, losing it all in reduction---such as in "Cast Thy Bread!", where I'd gotten so miniscule!" Amen! God bless you Cass!!

(Don't mise Cass!'s even more beautiful artwork in the coming TK Volumes!) I would like to mention 3 other good reasons for drawing smaller:

(1) The Post Office has no problems putting the small to medium-sized TK pkgs. in our P. O. Box, but the larger ones are often bent when they try to scrunch them in! If you just find it impossible to work smaller, then please write on the outside of your pkg. "No Doblar, por favor!" which means, in Spanish, "Please don't bend!"

(2) We are trying to be even more Security-Conscious all the time, and it goes without saying that the smaller the pkg., the less attention it will draw.

(3) If you work final-print size or only a bil larger, you can then use all the beautiful graduated Tone Screens, which just will not reproduce well when done on a larger TK size.

We're truly thankful and grateful to all of you for so quickly changing to the new maximum drawing size, as requested in one of the last Mags. (It was 19, 0 cm × 27, 3 cm.)

We would now like to request you please, if at all possible, to work no larger than a maximum of 17, 0 cm × 24, 5 cm. (Leaving a one cm marking around each side, the total paper size will be 61 19, 0 cm × 26, 5 cm.) This is purely voluntary!--And if you can even work

well at the actual final-print size, that is even better (it is 13,5 cm X 19.4 cm) but we don't expect everyone to be able to do this, of course. Nonetheless, some of our very begi Artists, including Zebulun Geppetto, Laban, Abraham Snowman, Tiago, Jacques Elan and others work this size, or only alightly larger.

"MAKE IT EASY..."

In conclusion, here is a personal note from the photographer at the Spanish/Portugese LIMM to all our Worldwide Artists:

"God bless you for all your hard work! Hope these tips will be a blessing for the LIMMs and Lit PICs that have to reproduce them (the TKs)!

Here is one thing that would be a blessing if the Artists could follow in the lettering of their Komix: If a Komic has only one size of lettering, it is so easy to find the right proportions of the text and type it. But many different sizes of lettering means different proportions and lots of extra work. (Reducing and/or enlarging.)

Also, if the Artist puts too much text—and the type or the lettering is very small—the translations, being always a little longer in other languages, will cause the type in these languages to be smaller than the English type, which in these cases is already very small. (This was mentioned on the first page, and is being repeated here for emphasis!—Hart.)

The translations could be edited also, but it's not always easy, nor is it the best solution! If our LIMM could letter the Komix by hand, it wouldn't present such a big problem, but we have to lyng them all, for lack of time!"

Amen! God bless our hard-working LIMMers and LIT-PICers! As Dad said in a recent Letter, "Do you try to make it easy for them to be good? Try to make their lob as easy as you can, try to help them all you can!" (974: 20 & 28.)

EDITING THE KOMIX

God bless you! Here are some more Art Tipa---this time on the editing of the Letters for True Komix! We're all learning as we push together in this tremendous project, Illustrating the Words of David! It's a monumental project, and nothing like it has ever been attempted before in the His-story of the World!

traing the Words of David! It's a monumental project, and nothing like it has ever been attempted before in the line-atory of the World!

---Neither has any preceding generation ever needed the illustrated Word so greatly before, for we and our growing families are to be God's estrongest witnesses in the Endtime, as "they that understand shall instruct many." (Dan. 12:33)

The Lord promised in "Birthday Warning" and many other prophetic Letters, that Volumes would be published, and it's certainly coming to pass, not only with the printed Word but also with these Illustrated Volumes!

We have been so encouraged recently at how some of you are doing such a good job of editing the Letters for your Tks! Editing the Words down to fit a 4-page Komic is a real talent, and not everybody can do it! For those of you who are having trouble doing a clear, concise and easily-readable job of editing, why not ask your mate, or another brother or sister to help you?

Please also re-read your final TK text to make sure that it flows coherently (is not displotted or) jumps too suddenly from one thought to another), especially when you take sentences or thoughts from different parts of the Letter and put them together! Also, make sure that the line of thought between two paragraphs (or blocks of text in your Komic) does not change too abruptly, but always leads as smoothly as possible from one to another! Thankyou so much!

Another thing to avoid is having too much text with your illustrations. As mentioned previously, when your TK is translated, if the text was already wordy to begin with in the original——it will be even longer in the translation. They will often have to print or type their text even smaller to make it all fit in, and this is sometimes far too small to be easily-readable, especially for GP Komix! God help us!

Please don't go to the ghter extreme and have only a few words per page though, because we definately want enough text included to help get the message across clearly.

Bad and Maria sav a good rule to

get the message across clearly.

Dad and Maria say a good rule to follow would be that the amount of pictures and text on a page should be about equally divided. Sometimes you might have more and sometimes less, depending on the particular TK you are working on. Sometimes you might want a full Cover illustration, leaving you with only three pages Inside to put in the rest of the illustratuces and text.

and in this case you may want a little <u>more</u> than just <u>half</u> text per page.

Dad and Maria are personally very pleased with the way that most of you are doing it, and are preity satisfied with the balance between illustrations and text that most of your Tka have. But please just remember, in general,

have. But please just remember, in general, to have about <u>hall text</u> and <u>hall pictures</u>.

Editing can be tremendously rewarding and enjoyable—though it's often quite a bit of pick in shovel work, and it hurts sometimes to have to leave out some of Dad's Words. It even has its <u>humourous</u> moments. As <u>Laban recently said</u> when he finished doing a 6-page TK out of 37 pages of text, "It's like going into the crowd of 5,000 and trying to find the original 5 loaves and 3 fishes!"—ha!

Finally, here are some belinful cointers on

pages of text, "It's like going into the crowd of 5,000 and trying to find the original 5 loaves and 3 fishes!"—ha!

Finally, here are some helpful pointers on editing TKs from a note by Samson Warner (written 1978).

(1) Read the Letter through a few times, each time underlining (or notating) the paris that carry the message of that particular Letter in the most precise, concise and abbreviated form possible.

(2) While doing this, look for scenes that Dad describes—pictures that can be drawn with only brief captions to describe them.

(3) Sketch a rough "humbnall" design for the lavout of the entire Komic. ("Thumbnail" sketches are tiny rough sketches that you make to plot out your basic ideas.) In the rough sketchese, you will not be trying to draw the final picture—at this point just try to work out the idea of the drawing that will best illustrate the Words.

Or, instead of doing timy sketches, you can do them the exact size of your final drawing. This way, if you work out a sketch with the proportions, details and lines of action exactly the way you want them to appear in your final illustration, you can easily transfer them to your final arr paper using the transfer technique described on pg. 179 of FN 39.

(4) These quick rough sketches (used to plot out the basic layout and text placement of your Timal arr paper using the transfer technique described on pg. 179 of FN 39.

(5) When trying to illustrate a brief 4-pg. TK for street distribution, "draw the text around the pictures, don't draw the pictures in the space left over from too much text. In other words, draw hig, full pictures with the areas of text and word-balloons sort of super-imposed on top of the picture.

DON'T FORGET THE

Praise the Lord' Here's another point to keep in mind when editing your TK text, particularly TKs that will be used in Litnessing to the General Public. Wheeever possible, please try to include a Salvation message at the end, an invitation for them to receive fesus personally! Our Family's beautiful artwork, illustrations of Dad's Letters on apiritual subjects, sex, childcare, economics and even heavy political subjects—is probably the best hait in the World! So please don't forget the hook!

Don't just "feed the fish"—meaning, letting them est all our best without getting hooked! (549:10.) Remember," Jesus said, 'And I, if I be lifted up, I will draw all men unto Me.' (John 12:32.) Are we trying to draw them unto Jesus?" (M. 8:33.)

As Dad said about the CP Komix, "These Komix really pack a wallog! They're extremely effective, very readable and almost irresistible!" (Seek First 597:12-13.) So please remember when you're doing your drawing, to also "draw the gold of the set of the set of the set of the control of the set of the control of the set of the text, it could be in slightly smaller text—but whenever post to first of the point it fairly smaller of the set of the set of the text, it could be in slightly smaller text—but whenever post to first of the set of the

"For all have sinned, and come short of the glory of God!" (Rom. 32.3.) but "God so lowed the World, that He gave Ilis only hepotten Son, that whosever believeth in Him should not perish, but have ever-believeth in Him should not perish, but have ever-believeth in Him should not perish.

For those of you who just do not have the tof <u>lettering neath</u> no matter how hard you, why not ask your mate or someone else nearby do your lettering <u>for</u> you?

Question: "I've been making quite a few mistakes, and have used a lot of white-out. Will this show up in the printing? (Answer: No. it's fine. You can even glue a piece of art paper stop an error and-for example-redraw a face. Just try not to stick Latinions over these uneven surfaces.)

these unren surfaces)

We would like to remind you that the address—Maria Campos, Apdo. 46131, Madrid, Spain—land; the address to continue sending your Tke to once we have contacted you and given you the new, special Artist Address. The Maria Campos Box is a general address, but the Artist address, which you should have received when you were sent your initial assignment is the one to send Tks and Art Correspondence to. God bless you! Most of you are faithfully mailing to the new Box, and it makes things so much easier for us, so the send the instructions clearly.

One other small point is: with the Artist Box, you need only write the address! Please do not write Atta. Hart or Atta. TK or anything else on the envelope, as all mail sent to this address comes directly to us anyway. Thankyou!

The auggestion we made in the last Art Class to use dramatic black lines and shading instead of thin lines and pale Tone---did not mean to discontinue using Tone at all. In fact, some Artists like <u>Tisgo and Juanije</u> do such <u>beautiliji</u> Tonework over their lillustrations, that it almost looks like they're painting in colour! (You can seen mike cross-hatching and Tone as Tisgo now does!) Just work in the style that you personally feel best autted to, and that gets the message across in the most graphic way possible!

Several Artists have suggested recently the idea of working together with another Artist and family—to be able to live with others who share the same vision for illustrating the Words, and to band together for Fellowship as well as to pool ideas, resources and the financial burden. It sounds like a good idea. Let us know how it works out!

In closing, I'd like to say a very big "Thankyou!" to all the <u>dozens of new Artists</u> who have answered our call for help in litustrating the TK Volumes! We now have <u>well over 100 Artists!</u> I'es thrilling! Almost all the Letters have been <u>assigned</u> by now so we would like to apoligise to some of you that we are <u>unable</u> to give you as <u>many</u> Letters to illustrate as you would perhaps like! However, we truly <u>do appreciate your help</u>, and will give you as <u>much</u> to tillustrate as <u>possible!</u> God bless you!

Dad & Maria received many more responses to "<u>Problem Cases</u>" & "<u>Prodigal Prodigies</u>" this month, including the following from Elias Fisher, 36 yr, old father of 3 who has been in the Family for 10 years, now serving in S. America.

ther of 3 who has been in the Family for 10 years, now serving in S. America.

"Dearest Dad & Maria,
GBY! ILY! I want both of you to know that I loooove you very much & I know you love me by the spankings you give us thru the Letters! I appreciate it & you & all the Letters you've so faithfully sent over the years!

I was very moved with "Problem Cases" & the Ho Series. These Letters really brought out into the open some of my weaknesses & sins so that I felt ashamed & embarrased as I read them, they exposed me so! I too have been guilty of being posessive & lealous & covetous with my wife. And the part of not being able to work with others unless they respected me & were loyal also applied to me, sad to say. It was like looking into a mirror. It was a bit difficult reading at first since it fit me so well, but I was glad afterwards to have been made aware of the weak areas in my life that I'd falled to correct. And, it put the fear of God in me to see what a bitter end it had in Justus's life & how it made Sally suffer so much along with the children. That was enough of a shock to make me stop & pray desperately for a victory so I could have a real change & start doing better for God, others & my wife & children, TyJ!

Thanks Dad, for your spankings to all your sons! I'm sorry that we've burdened

How can we ever example & the Letters! How can we ever thank you enough? I guess by being obedient to you & the Lord! We found the brethren here after 2 weeks & learned that Faithy & Juan were here the week we landed! Everybody talks about them & what an inspiration their visit was. "Thank you from the bottom of our hearts for sending Faithy & Juan here to Brasil! It was so wonderful to be with them & to have our Flying Ambassadors touch down here was like the descending of a dove, the blessing of God & caused a rebirth & a real rededication to the Lord, His Work & His Words! The most stirring thing that moved us to terrs was seeing that Faithy was just the physical & spiritual representative of your love for us, Dad! She was so anointed & queenly, but at the same time very real & humble & so beautiful, like a living interpretation of the Letters. It broke our hearts when Faithy & Juan told us how the video ministry really got started & how the video ministry really got started & however esitting up in your room

To make other's burdens lighter
Few are the times we stop to say
'Thanks for making my day brighter!'

How much more could have been done And with that certain sweetness That comes from the mouth of a grateful

Whose spirit is clothed in meekness.

'She knows I'm thankful', said one to himself. Not stopping to consider
The power of that sweet sweet sound
Of 'Thank you, my dear sister.'

you're really grateful, then say it loud

Love is saying you're sorry & saying 'Thank you', too!

... Three To Tango!

FF'ing an on-fire Latin national as new disciple & mate! From Zichri Longfellow; S. Amer.:

Maria Magdalena, Zichri & Hepsi—"tin national holidays in the restaurants."

FIRST OF ALL, I'D LIKE
TO SAY I NEVER WOULD
HAVE IMAGINED being in this situation! It had to be the Lord!
As the possibility of living as a trio with Hepsi & Anamaria became more of a reality, I reality wasn't sure if I could reality keep both girls happy & whether or not I could stick it out. Like Dad said, "You may have to stick it out so much you'll get so tired of it you'll wish you'd never had any additions to the one you already can't satisfy! GHU!"
(No. 359) Ha!
SHORTLY AFTER THE RNR
HEPSI & I ARRIVED HERE IN A NEW FIELD. Altho' we had been basically happily married & fruitful together serving the Lord, we were reaching somewhat of a stalemate in our relationship, as we had no children & no "flock" to shepherd as we'd been living with older brethren on this distant field. (So Anamaria & the baby we've had by her are God's answer to our prayer for both children & flock!)

AS WE LOOK BACK, WE CAN SEE THE HAND OF GOD IN IT

WHAT CONVINCED ME TO TRY was when the girls showed they wanted to take on their re-sponsibility of the daily "fight of faith" & not get carried away

by jealousy etc. To be truthful, I just didn't feel capable! But the decision was taken soberly & by all parties directly concerned (the girls had to really love each other & get along most of all!).

GOD BLESS HEPSI, WHO'S PROBABLY HAD TO SACRIFICE THE MOST. We alternate nights sleeping together & once in a while for the sake of unity we all sleep together. But gener-

in a while for the sake of unity we all sleep together. But generally speaking we've found that Dad is right when he says, "Three in a bed is a little crowded for most—& a little hot sometimes!" (No. 570). It's so true: "It takes a lot of flove & real affection trying to be equally loving to each & showing genuine concern for all."

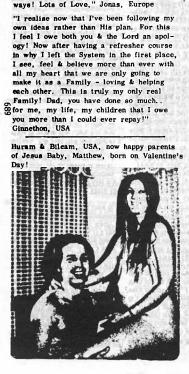

ken" (Ecc. 4:12) Anamaria with little a our native attire to sins during the Photo by Gabriel.

because if Hepsi & I had already had children it would have been very difficult to fish Anamaria without causing quite an uproar in her conservative Catholic family. So to her family (8 to almost everyone else we meet) Hepsi's just a good friend of ours who happens to follow us wherever we go, hal. Little do they know how good a "friend" she is, PTL! We've found that the best policy is to keep a distance from Anamaria's clannish family, so we live in a different city.

BEFORE WE ACTUALLY LIV-ED TOGETHER WE REALLY PRAYED TO FIND GOD'S WILL & took our time. We believed that time was the best tester so that, each one could be fully persuaded in his own mind without pressure. Each one of us prayed individually to find the Lord's will, asking the Lord to confirm it thru' Scriptures, Letters, prophecies etc.

WHAT CONVINCED ME TO TRY was when the girls showed they wanted to take on their responsibility of the daily "flight of faith" & not get carried away

WE'VE FOUND ONE OF THE

BEST WAYS TO REMAIN U-NITED is to be strong in the Word, memorise together, get involved with the baby (now a year old!), & other projects together. Our singing ministry serves to unite us as we have the opportunity to work as a team. AS FOR THE TRIALS & TRIUMPHS OF DAILY LIVING, we have lots of in just as in any other relationship. That's why we need to fight with the Sword of the Spirit! Actually, it's really like any other Home: Each one has their sensitive moments when they need special love & attention.

attention.

ALL THIS TO SAY, THIS IS

NOT NECESSARILY FOR EVERYBODY! The Lord knows
what each of us needs & we're
not even sure this particular relationship will last 'til Jesus reuonship will last 'til Jesus comes. We just live one day at a time & praise the Lord for our happy little heavenly home, as in any situation.

Thank God this selfish dream didn't come true! Because the Lord had a dream much better prepared for me; Serving Him, with a sweet husband who had the faith for me!

I NEVER WOULD HAVE IMAGINED THAT IT WOULD BELIVING AS A TRIO! But now! I no not say. "Thank You Jesus for this trio!" The Lord has given us many victories, after many battles, but thank the Lord for these battles which make us grow to serve Him better!

WHEN I FIRST FOUND OUT ZICHRI WAS MARRIED! thought the world had come to an end! Every night when Zichri went home I thought to myself, "Will this be the last time I'll ever see him?"

But the Lord wanted me to grow

emergency brake of a led most smashed into me right when I was speaking doubt. (Zichri later told he he prayed the Lord would do something radical so that I'd get the victory once & for all! Wow!)

THE UNITY BETWEEN HEP
I WE WAS THE KEY to having the faith to live as a trio. Every time we all three prayed together we received powerful verses, such as Eph. 4 about the unity of the Spirit, especially we first two verses: "... that you walk worthy of the vocation wherewith ye are called, with all lowliness & meakness, with longsuffering, forbearing one another in love."

WE ALSO RECEIVED VIS
IONS: Hepsi saw all three of us before Jesus receiving our crowns together. I had a dream about the tribulation where all three the world had come to an end Ev. of us were fleeing together. Aleven where we have our dear Maria Magdalena, another great unifying factor.

up, trust in Him & to obey by

up, trust in Him & to obey by by faith! It was when I began to trust & obey that the Lord helper me to get many victories! Little by little! I grew closer to Hepsi & I soon discovered! I loved her very much too! I began to see that she as well as Zichri were gifts of God to me, & the Lord, gave us heavenly unity & love.

THE THING IS, WHEN WE WALK IN THE FLESH we don't get along very well. The Lord has done it this way to keep us in the Spirit because when we're in the Spirit because when we're in the Spirit it's really heavenly. We bear a lot of fruit for the Lord together. One thing that helps me is to always remember the sacrifice of love Hepsi made for me by sharing Zichri, GBH!

THIS IS THE VICTORY:
KNOWING THAT IT'S GOD'S WILL that we be together. One of my greatest victories came after a heavy experience: The emergency brake of a car parked on a hill gave out & almost smashed into me right when I was speaking doubt. (Zichri later told me he prayed the Lord ,would do something radical so that I'd get the victory once & for all! Wow!)

THE UNITY BETWEEN HEP-II & ME WAS THE KEY to hav-

TOGETHER WE FEEL SO to MUCH MORE USEFUL FOR Iped THE LORD'S SERVICE. We've THE LORD'S SERVICE. We've formed a musical trio, which in spite of the fact that we're not professionals, has reached many people. Now I can't imagine myself serving the Lord as two, only as 3I —Just as the Lord put us together. I'm very happy & thankful to the Lord for Zichri & Hepsi & to live as a triol We can get a lot more done for the Lord & we sure can't get too comfortable!

From Hepsi: ZICHRI & I ALWAYS FELT IT WAS THE LORD'S WILL FOR US TO BE TOGETHER & we

ZICHRI & I ALWAYS FELT IT WAS THE LORD'S WILL FOR US TO BE TOGETHER & we really loved one another. But after a couple years of married life I didn't appreciate him as much as in the beginning. When I first started FF'ing & sharing with other brothers it was more exciting for me to be with them than with Zichri. (Also I knew then wouldn't admonish or reprove me like Zichri would, ha!) WHEN ZICHRI STARTED FF'ING, I remember telling him while crying that I'd never be able to share him full-time. He'd been FF'ing Anamaria along with a lot of other girls, but she was the one who was really coming along, eating the Word & getting turned on to serving Jesus, so there was that possibility that she'd join the Family as his Fish. But, I thought to myself, where does that leave me?

WELL, GOD HAD A SPECIAL PLAN & PLACE FOR ME, & that was to help fish Anamaria into the Family & into our marriage. When Anamaria & I were together the Lord gave us a special love for one another, 5 & the Lord would break my heart when I'd look at her & see her eyes searching for love, desperately yearning & needing love. Her & my battles about our situation always melted away when the two of us women were united & communicating together

in the Spirit. And the same is true now in our daily life—when we two don't communicate, our faults & different characters bother one another, but when we make the effort to love one another, confess our shortcomings, or get in the Word together, the Lord truly unites us & it's just heavenly!

Lord truly unites us & it's just heavenly!

I THINK OF HER AS ANO-THER MATE, or really what we have is a three-way marriage with each of us contributing 33% or more. When the three of us are really united, the Lord mightily uses us, like when we go singing together.—Three people pulling together are a lot stronger than just two!

I'M SO THANKFUL FOR ANAMARIA as she's been such a wonderful blessing to me personally. A little bit of "Godly jealousy" has helped me to act a whole lot sweeter & sexier around Zichri & other brothers too. Anamaria is just naturally

too. Anamaria is just naturally sexy, sweet & affectionate—a good example of an on-fire Latin! I really love living with our precious National!

ALL THE BATTLES WE'VE

GONE THRU' TO CATCH & CLEAN HER HAVE BEEN WORTH ITI Just think!—One precious on-fire soul-winning national, one united trio with a lot more "umph" than just a "duo" before, & now one cute & sweet little baby girl!
AND THAT'S ANOTHER BLESSING, OUR LITTLE
DAUGHTER, whom Anamaria is the mother of. She's exactly what my heart's desire was. What a miracle! Many people even think the baby is mine because she even resembles me a little!—A baby that looks like all three of her parents!
ZICHRI HAS BEEN SUCH A BLESSING TOO! He's a real good "head of the house" & is so sweet & affectionate that he keeps both women happy. He's got his job cut out for him because when he gives one of us a hug & kiss, he has to give the other one some love too! But ldon't think he minds too

a hug & kiss, he has to give the other one some love tool But I don't think he minds too much! Hal ZICHRI & I OFTEN COMMENT ON HOW WE LOVE ONE ANOTHER MORE than ever before now that we've been with

Anamaria. It's so true tool He's both my precious husband & special lover now tool Anamaria is the sister I've been the closest to in the Family. One of Anamaria's & my first conversations together about the Lord & what He was doing in our lives made me feel "high in the Spirit" like when I first telked to Zichri!

WE BELIEVE THAT THE LORD PUT US TOGETHER AS A "TEAM", more than anything, because He knew we'd be more effective & broken as three. So who are we to question what the Lord has done? In response to those who ask, "Don't you think you lose out being the first wife?". I can only respond from the Daily Might for March 18: "You may temporarily look like you're losing something or sacrificing a little bit, but look at later! You'll share forever in the eternal rewards of the souls won as a result of your giving!" And thru' our soul-shiner Anamaria not only do we win 3 or 4 times more souls monthly, but we have a beautiful "Knew disciple" who's filled our lives with joy! Love, Hepsi.

TRIO AS A WITNESS!

From Zaccheus, Naomi & Kat-rina; Orient: BOTH SETS OF PARENTS

BOTH SETS OF PARENTS HAD WANTED TO SEE OUR GROWING FAMILY for some time & sent money for round-trip tickets plus expenses. So the Lord worked it out for us all to spend 2 weeks in the U.S. visiting Naomi's parents & then 2 weeks in the U.K. to visit my mother.

weeks in ut.

ZVERYONE WAS HAPPY
TO SEE US & absolutely thrilled with the children. All our
needs were taken care of & we
were able to raise some further
support for our work on the
field. Our Homegoing helped
our parents & relatives to understand & love us so much
more, & also gave us more love

for them! In our "threesome" relationship, many commented on how happy & together we

were with each other & the children & it was a real witness of the Lord's love to them. PTL!

Making A Threesome Work!

How God put a couple & a single brother together for a new & more fruitful ministry!

From Jose, Rachel & Timothy; Europe:
WE THREE HAVE BEEN TO GETHER FOR ALMOST FOUR YEARS NOW, have gone thru's lot together & would like to share what we've learned from this experience. I, Joash, first met my wife Rachel in London in 1973. For me it was love at first sight. When she went back to Scandinavia I asked for & got clearance for where she was.
I PROPOSED TO HER IN THE MIDDLE OF THE NIGHT when I he worked yet spoken to her about it. So two days later we were betrothed. It worked out really well & we've been happily married ever since.
ITHREE YEARS & TWO CHILL. DERN LATER we were in a little town. We needed an inspirationalist & spoke to our overseers who arranged for Timothy to join our Home. He had been in the Family about 1% years, was a national & a good guitarist. This was during the last months before the RNR.
THE LORD SOON OPENED A DOOR FOR US to pioneer in a country we'd been wanting to go to for a long time. Support thad always been rough for us & we now needed to raise a lot of funds rather quickly in order to get there before the next baby was due & the cold weather hit. We saked Timothy; the'd like to go with us & he agreed. We sterted doing what we knew how to do, litnes, but after a month we still had not gained much ground toward our goal.
AT THIS POINT CAME ONE OF THE FIRST MAJOR. CHANGES that God did to make us all into better vessels. Rachel & I reversed roles. When I first met her one of the first things that struck me about her change the should be about her continued the sound toward our goal.

Jossh, Rachel & Tim with their 4 children—a union that has proved "good for God, His Work & each other!"

prowed "good for God, His Work & asch other!"

was her wild wind spirit, full of ginspiration & burden for souls. Now, five years later & pregnant with number 3, her light was really flickering & she had been desperate for some new inspiration. For me the last years had been mainly litnessing, but I had never been able to hold up my end of the support thru' this as I should.

SO THE LORD INSPIRED US WITH THE IDEA that it might serve the Lord's work better if I could be the one to take care of the domestic chores, teach the kids (which I had a tremendous burden to do from reading the Dito Letters) & to arrange the behind-the-scenes work needed to get us to our field, while Rachel & Tim tried out a music ministry. So they were out the door first thing

field, while Rachel & Tim tried out a music ministry. So they were out the door first thing each morning, & it worked!
Things went smoother, everyone was happier & more got accomplished. We three still weren't close as we should have been, but it was a step in the right direction. And with the help of one other brother who helped us with funds we made it to our field before the baby & winter came, TTL.

BY THEN TIM HAD BEEN WITH US FOR OVER A YEAR, & Rachel, especially, was feeling convicted that we weren't all closer. One night when I was away the Lord worked it out for them to be together. Soon it seemed she needed to be with him more & more. The "triangle" as we came to call it, was rough at first but now, thank God, it's really bearing fruit & we've been more used & fulfilled than ever before.

more used & tuttilled than even before.

IT WAS TOUGH AT FIRST, AS RACHEL FELL IN LOVE WITH TIM. The hardest thing for me was not the sharing, but how it seemed like my dear wife who had joined together with me on such a fantastic plateau of spiritual fellowship was now in love with Tim more than me & needed him more than me. This was a blow to my whole

in love with Tim more than me & needed him more than me. This was a blow to my whole foundation. She wasn't just "helping a brother", but it was a partnership, a partner with talents that would make them together a real witnessing team—her heart's desire.

I HAD REAL BATTLES AS TO WHAT WAS TO BE MY ROLE NOW. Was I now to be number 2 husband & join their team? I didn't want to be a drag on my wife when it was clear that ell this had been a great rejuvenation to her, not to mention how it helped Tim. At the same time, she didn't want to leave me but she could not deny her feelings for Tim. ONE NIGHT WHILE DOING DISHES THE LORD GAVE ME THE ANSWERILike a flash of lightning that enlightens the whole landscape on a dark night! Thinking about our three-way relationship, I thought about the prodrigal son, at the point in the story where he returns to his father. The father & older brother had prob-

ebly been working together for many years, they loved each other & the older brother had been faithful. But then one day someone new comes along that seems to change everything.

SUDDENLY THE FATHER
WAS MANIFESTING SUCH
LOVE & emotions towards the younger brother like he had probably not done for a long time toward the older brother. The Lord showed me to apply it to our situation—the relationship between the older brother & father was like that between me & my wife, & the prodigal son represented Tim being taken into our lives.

represented Tim being taken into our lives.

THE "FATHER", IN THIS
CASE MY WIFE, suddenly begen showing more love for the
"prodigal", Tim, than for the
faithful "older brother" (me),
causing the older brother to feel
but, offended & maybe even
confused by it all. This was
really how I felt after Rachel
had gotten so close to Tim &
obviously was inspired so much
& helped by their relationship
& it seemed at the time needed
& loved him more than me.
BUT THE FATHER SAID,

& loved him more than me.
BUT THE FATHER SAID,
"SON THOU ART EVER WITH

BUT THE FATHER SAID,
"SON THOU ART EVER WITH
ME, & all that I have is thine..."
In other words, the father was
saying, "This doesn't change anything between you & me, we've
been together for a long time &
still are. But this one came to
me & there's a new love, but I
still love you too."
THEN I THOUGHT ABOUT
WHAT DAD SAID that you
don't hear of what happened after the party & all. It seems
most likely that the father continued to lean on his older son
pretty much the same as before
& that the younger one would
have to prove himself & earn
his father's trust thru'n is faithfulness. This little revelation
was a real "click" for me & gave
me the vision I needed so much
at that time. Needless to say,
we all would never have gotten

anywhere in this without the
Letters which of course provided
our major source of guidance.

WE STILL HAD MANY
STORMY TIMES which nearly
split us up several times, with
personality clashes, burt feelings
& friction points. The hardest
thing for me, I believe, was to
be keep a "cool head" to be able
to hear from the Lord & the Letters about what He was doing
with us so I could try to help us
all to become what He was trying
to make us into. For Tim it was
very difficult at times as he had
for so long been a loner & rebel
& now was being molded into a
tight spiritual bond with us
which would mean some real
changes in his ways & a lot more
light shed on different hidden
areas of his life. I had to constantly watch that I wasn't being jealously critical. For Rachel
the biggest battle has been just
to be "one wile" to two husbands & several children, doing
a great job by looking to the
Lord thru' it all & really leaning
on Him for the strength & wisdom for the situation.

A GREAT VICTORY CAME
WHEN WE FINALLY DECIDED WE WANTED TO UNITE
to concentrate on fighting the
foe without rather than to waste
time arguing amongst ourselves.
Then the Lord blessed it, as our
"three-fold cord was not easily
broken". The Lord helped us
to find the balance in this new
relationship, find where the anointing was for each of us in different areas & to have more respect & belief in each other,
especially between Tim & me.
In Spring of '79, Rachel & Tim
thit her oad singing from town
to town for 10-15 days at a time
& almost immediately the Lord
began to pour in more finances
& receptive sheep than we had
seen in years. For us it was a
real spiritual spring of a new ministry that has been going on now
for two years & is still growing!

AT THE SAME TIME! WAS

ABLE TO WORK WITH THE KIDS & their spiritual training more than I ever had before. As a result, we all three were happier doing what we each wanted to do, & we were certainly more effective as a threesome than we had been separately before. Rachel soon got pregnant with no. 4. Timothy's first, PTLI EARLY LAST YEAR THE LORD HELPED US TO GET A SMALL VAN to enable us to all 3 hit the road together for the first time campling, singing, witnessing & litnessing around the country as well as several neighbouring countries. We all had a great time, Rachel & Tim mainly singing while I got out the lit with the kids.

YOU MIGHT ASK, "DO YOU ALL SLEEP TOGETHER OR WHAT?" Well, we haven't had I the faith or desire for that, & it just doesn't look like we're going in that direction. Rachel is with me certain days of the week & with Tim others, & this has helped sort out the problem. Someone asked in the FN how threesomes are used as a witness. Our answer is, we don't, at least not to the GP. We're foreigners here in a rather religious country, enjoying their hospitality while a siming our outreach not only at them but also at their closed-to-the-Gospel neighbours.

WE SEE OUR RELATION—SHE OF A MEANS TO AN END than as an end in itself. So we haven't even talked openly about it with our 4 & 5-year-old children to be careful as to what they say to our parents who visit occasionally or with the little old neighbour ladies whom they see often. WHAT ABOUT ANOTHER SISTER TO JOIN US? Well, we wouldn't mind if the right sister came along. We're expecting baby na. 5 this summer, so have could possibly use the help. The Lord's given us His best so far, so we're just leaving the choice up to Him!

Dear Family,
God bless you and your little ones! We wanted to share with you some of the exciting statistics of our Kidz Mag Mail Ministry.
After only 9 issues (at the time of this report), we have received letters from not only kids, but lots of other people too — sending in their suggestions and ideas which have helped to make the magazine a success. This report is based on some of the letters and contributions which have been sent in response to the English edition — however, Kidz is coming out in several other languages too, and therefore these statistics are by no means the total amount.

So please keep Kidz in your prayers, and keep these letters pouring in! We love you and we love to hear from you!

Love, Kidz

The True Komix Revolution!

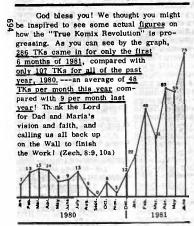

ATTENTION ARTISTS!

Please send us your testimony on how you got started illustrating in the Family, complete with any little stories or lessons learned that might be helpful to other Artists and an inspiration to the entire Family! Please include your artitips too! Mention briefly any Art training and/or experiences before joining the Family, and how you started putting your talent to use again, for the Lord! (Short life stories welcome too.)

We would especially like to hear from

the Lord! (Short life stories welcome too.)

We would especially like to hear from you faithful old-timers who have been doing a terrific job on the TKs throughout the past years, but would also like very much to hear from you talented newcomers as well, so please do write! Your testimony should be no more than two type-written pages: also enclose one or more good close-up photographs which will print well. Thankyou! We hope to hear from you soon!

NOTICE: If you have accepted a TK Assignment, and decide later that you will not be able to do it for its deadline, please inform us immediately so we will have a reasonable amount of time to re-assign it, that it may be included in the Volumes. We have some very willing and sacrificial Artists whom we always rely on to take on last-minute Assignments, but we do not think it is fair to have to ask them to edit and illustrate an entire 4-page TK in only 4 days (which, GB'M, some of them have done!), simply because you did not give us advance notice! Please be faithful to communicate! GBY! We love and need you all! PS --- God bless Josuf 7, Jacques Elan, Laban and Santiaro Pisces who have each taken on several last-minute Assignments so that the Volumes could go to the presses complete! The "minutemen" of the Komic Revolution!---real sharpshooters!

If you are Illustrating a TK and find that you are going to be a few days late in getting it finished and to us---don't stop everything! Please complete it as fast as you can anyway, send it "Express", and pray it reaches us as quickly as possible!

Note about printing GP Komix:

We have noticed that on many of your GP print samples you are leaving the Mag or TK Volume page numbers on. (For eg. the book numbers 593,594,595 and 596 on "My Guardian Angel" no. 56.) This is to-tally unnecessary and probably even confusing to your Public, so please remove these numbers, or white them out, before giving the originals to your printer. The only page numbers that need appear are the actual page numbers of the Komic itself:—-1,2,3 and 4.

A few Artists have asked the question recently: "When illustrating a Letter that has a lot of Eman's original artwork in it, should I use his pictures, or should I completely re-draw everything?"

(ANSWER: By all means use Eman's pictures wherever possible in your Komich His illustrations are beautiful and it will save you a great deal of time by not having to re-do it all. Of course, please remember to pu' his name in the gredits after your own name. Please also change any "Papa Lion" heads to normal "Dad" faces.)

Some of you could use a little more practice in your illustrating, and this is particularly true when drawing <u>Dad's face</u>. As Dad said in "Artist's Advisory No. 6" (no. 844), "Some of these ugly charactorisations of me...don't even do me justice!" So to have a <u>standard</u> "Dad" why not study <u>Eman's</u> illustrations of him, or the way <u>Jacob Sailor</u> depicts him? Please do! God bless you! Some of you could use a little more

Dear Dad and Maria.

Dear Dad and Maria,

We just received the Vol. One TK
Book for us, and especially the children, and they were just thrilled to receive something just for them from you! God bless you both and thank you so much!

I was happily surprised to see how they got turned on to even the so-called "Leadership" Letters! They're our future Labour Leaders after all!

One Komic, "God Can Take It!" by Jacques Elan, so turned on our 6 year old Benjamin that he wrote to him thanking for it. They are really thrilled to have this Book especially for them from you!—Just like the big people's "MO Books," We love you so much for giving us and teaching us love!

SEEING ALL THESE MUSI-DIN ING AGAIN & forsaking-all in abundance to once again follow Jesus reminds me of our early days, it's such a dynamic chain reaction of Love & its unfailing power! Please forgive me for going on & on about this, but I just can't help it, I'm so excited with our new Fellowship R & its envisioned results on our beautiful worldwide Family as we gather together & "get it together" to make music miracles for the take of lost souls & His Kingdom, so that it can be fulfilled, our prayer at this time last year, "Even so come quickly Lord Jesus"! AS WE BEGIN TO PREPARE HERE IN PR AT MCV for the tremendous influx of new disciples & musiclans, we ere sure that "with every mouth the Lord will supply" according to our faith, & yours, as we can't turn one away! We believe the fellowship & unity is going to work the miracles in each life to make them what the Lord & you want them to be, as we gather here in PR & "get it together" to make music miracles for the world—& especially the Latin world as this is their hour—the "Round Round Room" fulfilled with the lamps plugged in again & set each in its place.

"Round Round Room" fulfilled with the lamps plugged in again & set each in its place.

THE FIRST TO ARRIVE WAS OUR DEAR AMMINADAB who had to filee persecution from his hometown & so-called loved ones! And he is already being transformed & his mind renewed as he washes it with the pure water of the Word, which he has missed for 3 years now, & so is diligently reading & attempting to catch up altho" we know it will take some time.

SONGS, one of which is dedicated to you, "It's almost like I never left", the story of his coming back to your house & loving arms & full-time service in a musical ministry! He's almost like a new babe & will need to grow again "in the grace & knowledge" like a rough stone that will have to be polished into the beautiful jewel the it that is by the like he waster.

HE WAS ABLE TO ARRIVE IN TIME TO HELP IN THE RE-CORDING OF SPANISH SONGS CORDING OF SPANISH SONGS that were to go on the new sample tape of Shows 1 & 2. After many trials & battles, & victories, this week we finally finished this sample tape, which we hope & pray will be what the Lord & you expect of us, & one that can go out to the Homes in LA, whom I'm sure are eagerly awaiting some thing from MCVI LHUI PLEASE FORGIVE US FOR THE LAST TAPE WHICH WAS DONE IN A HURRY & not as it should have been. DONE IN A HURRY & not as it is should have been. Your comments on it arrived two days ago & just in time for us to assess this new tape in the light of your counsel as we were just completing it. We read it together with those "top dogs" here the other night, the same day we received it in the mail, & it really broke us all to see how we had disappointed you & failed you & the Family. But we pray it bore the "peaceable fruits of righteousness". AFTER READING, WE ALL WENT INTO THE STUDIO & listened again to the two shows & made some adjustments in the order of the shows till at last we were all satisfied that we had done the best we could with what we have here, as we are still in great need of more Spanish songs from more artists in the field, of good quality like the one "Harp" & "Garden of Heaven", our two music groups in Argentina, sent us & which we received the day after we arrived back in PR from our Mexican missionary journey!

—ALL IN THE LORD'S PERFECT TIMING to put in the first sample tape, along with the new ones done here by Aaron Montaña, our Colombian brother, besides using his record from Colombial—Which by the way is where the wild sax came from, a system musician who played on his award-winning system recording, but we tried to fade it down on this new show with Jonathan talking over it, because it's a good song despite that horrible sax which we already had a recording of. We hope it's not so noticeable now & that it doesn't offend as it did on the previous version. Also, the local minstrels like Rebecca & Silas etc. recorded some beautifully translated versions of MWM-Isongs. TTL! And as the "professionals" come in, we are sure our recording will improve. [Mar.] ZECH & SHELLY JUST MOV-ED TO OUR NEW "SHANGR!—LA" which we rented this week & are super-thrilled with the potential & beauty of the place! TTL! They have been real troopers, living in Josh's old bus & putting up with the rain forest & all its insects & afflictions caused by the humid & troopical surroundings there at the little studio house.

seems to be taking its toll on.
But this week Rain had a more
powerful air-conditioning system provisioned which would
help if we didn't have problems
with overloading the electrical
system of the little house, which
Eleazar has tried to fix with new
boxes, but it's still too much
for them to have 3 air-cons working at the same time—one in
Jonathan's little trailer, one in
the bus & the other in the studio.

such a great help with the technical as well as the professional side of the recording. Personally, I feel so handicapped without Jeremy beside me as I'm really no musician, but I'm sure the Lord knows & is bringing in these that can help us make the show more professional, DV, as we hope this new tape is. Your message to all of us about checking our motivations really changed our lives & I believe is a breaking we all needed here. Everyone was so encouraged by your sweet comments on MCV, so loving! Please continue to pray for us & our efforts here at MCV. & He will do it! PTL!(Anc. 69W')

Prodigal Musician Shares Lessons!

Thanks to Dad!-"You finally got my attention!"

From Jeremieh Singer:
Dearest Dad & Maria,
THANKS SO MUCH, DAD,
FOR YOUR LOVING CORRECTIONS concerning some of my
tripped-off music. It's really
true that even tho' God has used
me to produce some of His soft
loving music over past years, I
still never really forsook that
rock 'n soul, black pentecostal,
Bob Dylan-style country-blues
musical influence of my past life
before joining the Family. Tho'
you tried to tell me way back at
the Club in Huntington Beach
I never seemed to get the point
until now. Like the story about
the old mule, you finally got my
attention! PTLI (TZ.!GY!/LY!)
NOW! SEE SO CLEARLY
THAT THIS WAS NOT THE
MUSICAL CALLING that God
was trying to give me. By leaning to my own understanding &
fleshly wisdom, I never forsook
this music, but rather thought
I'd throw in some here & there
"for variety" & to please the
goats (bair? hal).

BY CONTINUING TO COMPROMISE WITH THE WORLD
& its musical influences on me
I started to lose the original musical anointing that God had given me. I started getting fewer &
fewer songs with less quality of
the kind that made the Revolution. I went from a simple soul
in love with & spaced out on Jesus, receiving His music on my
simple guitar, to being a big rock
band leader compromising with
the Devil & his music! The spiritual parallels in "Bahai Temple
Prophecy" really explain what
happened to me thru compromise & how I lost the anointing.
Then along came the Chain rock lovers who really praised & enoversed me.

Jeremiah during his visit to MWM, singing "I know someone loves me". Photo by Tony.

PUBLISHING JOHN TODD'S EXPOSURE of System music & who is really behind it, because I too have been bewitched into singing some of the System's lighter, seemingly harmless, pop-ular worldly songs, in order to

please worldly audiences while singing in clubs & restaurants. I realise now that this is an unneccessary compromise & spiritual drain when we have so many beau tifully inspired songs of our own to use. There is a subtle, draining, bewitching effect thru singing these worldly songs that I believe has quenched my spirit & hindered my receiving any truly inspired songs from the Lord. With most of this so-called "nice" worldly music, it's just the same old story of the wolf in sheep's clothing, or the Devil coming as an angel of light (Gal. 1:8).

EVEN A LOT OF MY OWN COMPOSITIONS that were not truly inspired by the Lord but were the result of System musical influences I find draining when I sing them. I always wondered why it even nerve-racked & irritated me when I would listen back to some of my own recordings. It must have been the Holy Spirit resisting it—it felt so good when it stopped!

THANKS, DAD, FOR YOUR CORRECTIONS & spankings that are always so full of love that they hurt so good. Thanks also for taking the time to make those sweet, encouraging personal comments to me on the videoed song of mine that you liked (I Sing To Him). It gave me a good guideline to follow of what you do like. We hope that by God's grace we can be of some help with French MWM in whatever way you see best. Lots of love in Jesus' & your loving service,—your returning prodigal son Jeremiah. (75, 100)

LAST BUT NOT LEAST WE HAD AN INSPIRING VISIT FROM DOMINIQUE who has been faithfully provisioning in Switzerland for many families & units. The Lord has certainly given him great faith & he has been a tremendous blessing to the work & to our MWM family here in particular by his generous gift of a car & caravan & even lending the brand new one his father had bought for him, GBH! He arrived loaded with goodies for all, particularly a brand new microphone for our mobile studio, the last piece of equipment needed to get it rolling. PTL! God bless our faithful typists, Nadia & Phoebe, our layout artist Chris, as well as Michael & Windwho have spent hours transcribing, selecting, putting in guitar chords, correcting & proofreading, Please pray for them all so they can complete this project soon, as so many have been pleading for such a songbook! And by the way, besides these duties, Chris & Nadia became parents to Nicky & Patrick for a few weeks while Patience was preparing to give birth to Beautiful Nathaly Spring, born on her birthday! (How about God's amazing planning!—Their first son Nicky was born 5 years ago, on Michael's birthday! Hat!)

born 5 years ago, on Michael's birthday! Ha!)
A GREAT PART OF OUR LIFE IS ALSO TO
GET OUT WITNESSING & trying to reach the
world around us while there is still time. The
Lord really blessed our efforts this month with
over 300 souls saved! God bless our new bottles
& KP who are becoming real soul winners! We
had a golden opportunity this month when our
precious camp owner's daughters invited all their
schoolmates for a free day at the camp, & he asked us if we would put on an hour show for them.
They were all girls ages 13-15 from very well-todo families, all speaking English!—About 300 of
them!

WHAT A RECEPTIVE AUDIENCE! They all flipped over our songs, the children & the hit of the show, Rockin' Reggie, who made them all get up & start rocking & twisting & screaming for encres! After a "Heart Skit" by the children, our sweet & charming Greek-speaking MC Abel Seaman challenged them all to receive the Lord & about 200 of them repeated the simple salvation prayer after him, PTL! A day they will never forget! At show's end they refused to leave, even after much persuasion by their headmaster, & only when we offered them another show soon (Lord willing) were they content to depart, having once tasted that "wild & free" spirit of David they want ed to be sure they could come back & get more!

FINALLY, WE WANT TO REMIND YOU OF A VITAL ASPECT OF THE MWM MINISTRY, not so glamorous, but without whose behind-the-scenes faithfulness, many souls would be lost This is our mail ministry follow-up team led by Hosanna & Abigail, who answer all the responses from the stations, listeners, club members etc. Lately they have been receiving up to 50 letters a day, on top of their regular office work & sending out tapes to our worldwide Family monthly! Please pray for them as the task is getting bigger & bigger, & this follow-up thru the mail is so important!

WE LOVE YOU ALL SO MUCH & APPRECIATE YOUR FAITHFUL PRAYERS & SUPPORT.
We hope & pray that the tapes & videos continue to inspire you & are a blessing to you in your witnessing to the world. It was such an encouragement to us when a fish of Endureth got saved just as he was listening to the "Love Is Forever" tapel PTL! "Love is the greatest force in the world & the Word of God the most powerful truth on earth!" (DM 260) Love, Paul & Marianne.

MWM In Central America!

"MWM in Spanish is going to be the greatest thing to happen to the Latin world!

From Oberth & Paloma:

MWM IS REALLY GOING OVER BIG HERE even the it's in English! It's on one of the most popular youth stations & has been very well accepted by the station's listening audience, & the radio is more than happy to have it. The director of a school for young children heard the program & loved the children singing more than anything else. She called the station & when we got in touch with her she told us how she just loves the children's songs & asked if she could have the words & music to some. We told her we'd be more than happy to oblige & that we also have a group of children that sing here in this country. It just so happened that Shaul & Abiah were visiting & three of their children sing. So she inwited us over to her school & we were able to sing for about 50 children & teachers, PTL!

THE LORD IS OPENING THE DOORS FOR SPANISH MWM
ALSO as we already have a station that wants to air it, which transmits on AM, FM & SW!
They have taped two interviews with us, one with questions about What we believe about such things as birth control & abortion, the arms race, drugs, political violence etc. We knew in advance what questions they would ask, so we were able to study up & give them the Lord's answers right from the Letters.

BOTH INTERVIEWS ARE
TO BE BROADCAST IN A
FEW DAYS to reach not only this country but on the station's ginternational short-wave band that reaches Europe & the Far East. It's only the beginning!

WE SOON FOUND THAT JUST LITNESSING ALONE WAS NOT GOING TO BE ENOUGH TO SUPPORT US on the road, as well as enable us to build up the necessary funds to flee south. The people's hearts were growing colder, & they were more & more reluctant to give. It was then after desperate prayer that the Lord took us back to Dad's Letters in Mag 27 on booking the MMM Show.
WHAT A MIRACLE, AS WEIVE

WHAT A MIRACLE, AS WE'VE FOUND THAT NOT ONLY HAS THIS BEEN SUCH AN UPLIFT TO OUR SPIRITS, but it has been

Sexy Saffron: How could the radio station managers say no to her?

The key to opening many other doors which in the past were difficult to open because of our similarity with other "cults" etc. MWM is in a class all by itself, 6 we have found that in working for it people are very respectful to what we are trying to do with this show. FTL! Use it!

WE HAVE FOUND AS DAD SAID, that many of the radio program directors or station managers are indeed very busy men, 6 to not expect to get an appointment for the very same day we get in town. Usually when I call them on the phone I ask for about 20 minutes of their time & mention it's to listen to some demonstration tapes. They, for the most part, are very friendly 6 are very public concious people. We don't tell them any more than necessary over the phone, but save—the details for our appointment.

KEPPING APPOINTMENTS ON TIME IS A MUST, 6 we've found that following Dad's suggestion about being a little early can really be a blessing, 6 poesibly give you even a little more time to promote the program.

A FAMILY TELLS HOW BOOKING MM HELPED SOLVE THEIR FINANCIAL PROBLEMS:

From Jacob & Saffron
 Davidson; U.S.A.:
 PIL: GRY! HWM MAS BEEN
 SUCH A BLESSING TO US. & Ge
 want to share just a few of
 the many Lessons we have
 learned. For any of you who
 say be finding yourselves
 in a similar situation as
 we were in only a few short
 months ago, MMM could definitely prove to be the "Gold en Opportunity" you need to open the necessary doors to pull you out.
 HANKS TO THE LETTERS & God's wise purifying chastissements, we finally yielded to His will & made the committement to forsake the system & go mobile & work our way out of the frozen Morth towards the warmer climates & peoples of the South. PTL:
 THE LORD FEALLY OPENED THE DOORS WITH MANY INFACIES TO GET US OUT ON THE ROAD, & Sin just at few months! time
 we were completely out from under the old rut we had been attuck in for so long.
 It was such a terrific feel ing to be free at last. But as Dad says, "The Enemy doesn't start shooting till you come over the top," & we have found that in trying to attack us & discourage us in our efforts to flee.

 WE SOON FOUND THAT JUST LITHESSING ALORE MAS NOT COUNE TART JUST LITHESSING ALORE MAS NOT COUNT AND THE MAS AND THE LITHESSING ALORE MAS NOT COUNT AND THE MAS AND THE LITHEMS NOT COUNT AND THE MAS AND THE LITHEMS NOT COUNT AND THE MAS NOT SOMEMAT PROFESSIONAL IN MEMAT YOU ARE DOING is extremely helpful, but we also found that a lot of these people are pretty casual themselves, i that it was to our disadvantage to be too overduressed or real churchy-looking when presenting the show. In most cases, casual, neat & clean clothes are sufficient.

WE DIDN'H MAYE VERY MANY OF THE BROCHURES that MWM sent us & weren't able to get any printed, so what we did was buy a real nice photo album & make up a nice portfolio of the MWM Show using pictures from various Mags, etc. The first page consists of all the info about the show which is in the brochure, & then on the next page we put the HWM stats that are now coming out in Mags. We change these as they come out, & this has proven to be the most important page that they all look at, as the statistics are very important to them & have a great deal of influence in their decisions. Use those stats!

THE REST OF THE PAGES CONSIST OF "WHAT THE LISTENERS SAT", quotes, pics, etc. Then in the back of our little book I have two envelopes attached which contain booking cards & envelopes already bearing the MWH address.

ALSO, WE HAD MWM BUSINESS CARDS FRINTED high MWH address.

ALSO, WE HAD HMM BUSINESS CARDS FRINTED which have the could leave with them, with everything all compacted into one nice little picture album, plus a book-type cassette case that we keep the cassettes in, it all looks it seep to general the asset is a set or case if ease it easy to present.

ANOTHER THING WE FOUND MAS THAT SOMETIMES THEY DIDN'T MAYE A THAP RECORDER right in their offices, so now we simply bring in our own little compact recorder with us, & this helps in getting them to listen to a tape. Normally we follow Dad's suggestion & do not leave demonstration tapes with them, but occasionally we have found that if it is the only radio station in that area, & for some reason or other we are going to be there for a few days, then we have left tapes with them. But we always tell them exactly when we'll be back to pick them up. Of course, being led of the Spirit is the most important thing, & the privilege of working for MWM has given us terrific insight into dealing with the system; and the more we do it the more we learn.

AFTER ARRIVING IN A NEW TOWN & SETTING UP OUR AF

one system; and the more we do it the more we learn.

AFTER ARRIVING IN A NEW TOWN & SETTING UP OUR APPOINTENT WITH THE LOCAL STATIONS, Saffron usually gets on the phone calling various churches in the area & sharing with them what we do with MWM, & telling them that we are missionaries who are working our way to Latin America to work with MWM there.

who are working our way to Latin America to work with MMM there.

WE NORMALLY TRY TO CALL THE CHURCHES THAT HAVE MID-MEEK SERVICES & the denominations that have been receptive to us in past. Name dropping can be very helpful in this type of ministry, & we always throw a little plug in about where else we have been & other churches we've sung in & the pastor, etc.

WE USUALLY ASK THEM ABOUT THE POSSIBILITIES OF COMING TO THEIR MID-MEEK OR EVEN SUNDAY NIGHT SERVICE, sharing the vision of MMM & its accomplishments around the world. Offering to sing & sharing some of the type of music on MMM is very helpful, & of course your own personal testimony is one of the most powerful tools to use with

church pastors. We have found that most church pastors are somewhat leary over the phone 6 usually will want to meet us, which is to be expected. Again we use our HMM portfolio to help introduce ourselves 6 our work.

DURING THE SERVICES TO WHICH ME ARE INVITED, we usually share songs along with tour personal testimonies, which include the MMM vision iff at that time we already be have the show booked we invite people to listen for the fit of the show for us. This has worked really well for getting names 6 addresses for our monthly prayer-letter. We also have received some good donations from various whenches, as they almost always feel obligated to help out; and one church has even to fired to help sponsor us as we work toward Latin America. This offer really impressed on us how fruitful the church invasion ministry, can be, but also the serious eness 6 dangers of such a ministry.

Dearest Maria,

GBYI ILY SO MUCHI I'm so thankful for what I appreciate you for—I just immediately begin thinking of how much I do really appreciate you & love you. There lem. Like the other day when are so many reasons, but the main one is your love, your love for me & all of us.

I KNOW THAT YOU REALLY LOVE ME, despite all of my mistakes & failures & sometimes I wonder how, but it's your sample of love & service to our King. Like Dad said, the Lord created you for him, to take care of him & help him.

SOMETHING ELSE I REALLY APPRECIATE YOU FOR. & that is for correcting me whenever I am doing something wrong. That's how I know you really love me, by showing me my mistakes & wanting me to do better. I AM REALLY THANKFUL & APPRECIATIVE TOO for letting me help take care of David. I is such a blessing & privilege which I could never merit but for which I am very thankful. I live you so much! I just pray I can serve you, my Queen, & Dad, my King, better.—With great great love & appreciation, Love Alf.—& Happy Birthday!

very careful to not associate ourselves with any "sect"

Most of all, be prayerful!
After leaving a church we

a little thank-you card for

USING OUR LITTLE HMM PORTFOLIO, along with our business cards, has really opened the door to increase our
provisioning. Sometimes if
we are going to be in a town
for a number of days, we
simply spend one of the 1st

restaurants & sharing what
we are doing & asking them
to help with a meal for one

YOU'VE HAD A REALLY BIG IMPACT ON ME, both personally & in my work. It's hard to put in words, but I know that you know me-probably better. than I know myself-& than I know myself-& that you love me in spite of all my boobos. And in one hour I learned so much in working on warrious assignments that you have given me- to stay simple & uncomplicated & to work on projects that will be of practical use to the Family. Along with this goes how much you have taught me to be concerned with details-y mainly by your & Dad's samples. I KNOW THAT VERY FEW PEOPLE REALISE HOW MUCH YOU DO, what a load you carry in shepherding our Family both physically & spiritually, as well as the biggest responsibility of honouring & caring for our Prophet & King. But I hope & pray that I can be a help to you in however small a way. You're the best Queen anyone could ask for!

THANK YOU SO MUCH FOR SCHICKING & obeying the Lord & Dad over all those here do, & pray that this coming year will be the best ever for you, in every way! Much lowe, & yours in His Servicel-ILY & thank you for your love,—James.

Dearest Dad & Maria,
THE VIDEOS: WOW! WHAT
A BOMB! What a privilege & sobering responsibility all at once,
to be able to see them. Thank
you so much!
YOU WERE LOOKING SO
BEAUTIFUL & INSPIRED,
DAD—we were just thrilled!

YOU WERE LOOKING SO BEAUTIFUL & INSPIRED, DAD—we were just thrilled Aahh, what Love the Lord has given you for us—it never ceases to amaze us! And it came right thru on the video! Quite something that a little piece of tape would be able to carry the Spirit from one place to another. TTLI SEEING YOU GIVING THESE CLASSES IS ALMOST LIKE THE COMPLETION OF THE MESSAGE. Of course, the printed word carries it faster, further & cheaper, as well as giving us the chance to study & memorize it more easily. But hearing you blast the Lord's enemies & really socking it to them adds another dimension to the written word, & the underlinings are just not the same thing! Hearing you, of course, we have on WW tapes already, BUT SEEING YOU IS LIKE

of course, we have on WW tapes already,
BUT SEEING YOU IS LIKE
THE THIRD DIMENSION—seeing the expression on your face
& in your eyes & the Lord's anointing on you is really something! I have always been fascinated to see the love for the Lord
& us in your eyes, Dad, ever
since the first time! I met you.
IT STRIKES ME AS SOMETHING SO POWERFUL—because that's what it's all about,
that we are to love the Lord our
God & our neighbour as ourselves.
It is so very convicting, inspiring
& encouraging all at the same
time—the Lord shining right thru!
And let me tell you, it comes right time—the Lord shining right time.
And let me tell you, it comes right

SURPRISE that Peter brought with him for us!—Wow!—What a super blessing! Actually, I could hardly believe it, but sure enough it was! The classes are really great & so exciting & inspiring.—We really need them! So does the whole Family! What a blessing they will be to all!

CLASSES NEEDED—whether printed, on audio tape or video, or all three. What a blessing there was all before, seeing & hearing you give them adds so much! It really makes an impression, very real, very alive, very personally for us!

ANOTHER BIG BLESSING IS THAT YOU HAVE SO MUCH EXPERIENCE at teaching & you know that repetition is the law of memory. By the time you are I done with a class we have heard everything several times, from all different angles, & it really has sunk in. Understandably so, this is not always possible & the written word is best. But it sure is a blessing I Oh what a blessing to be "right there" as you are getting brand new things from the Lord a moin important time in world history, & we need to get the Lord's message out as quickly & effectively & powerfully as we can! Luther's translation of the Bible came to mind & how then the Lord amointed Gutenberg to invent the printing press, how timely!

WETTL FOR YOUR FAITH, COURAGE, VISION & LOVE to get into this new ministry! Wow, we can certainly see why the Devi is hates it & fights it—it's so powerful! We're really previous did hardly believe it, but sure enough it was! The classes are really great & so exciting & inspiring.—We really need them! So does the whole Family!

SEING YOU BROUGHT
TEARS TO MY EYES; I love you! All with you that have come out later always stuck in my mind—the way you said something, your struck message home. Of course, there's nothing like the written word is best. But it sure is a blessing they will be to slill!

SEING YOU BROUGHT
TEARS TO MY EYES; I love you? Early struck the my struck the message home. Of course, there's nothing like the written word for re-reading & studying, & I can't wait for these to come out in the Mags to go over them. I can really see the written word for re-reading & studying, & I can't wait for these to come out in the Mags to go over them. I can really see the written word or re-reading & studying, & I can't wait for these vore we may study studying, & I can't wait for these very wait an

Dear Dad.

THIS IS A SPECIAL THANKYOU NOTE for the priceless gift you've just given us: The Word & you all wrapped together in those videos! One thing the videos made me realise was how much I'm in love with you! I guess I'm like all your other little girls—in love with my king. We love you because you first loved us & pointed us to Jesus.

I CRIED WHEN WE TURNED ON THE FIRST VIDEO. You're so beautiful. It was just like having you right there, sitting at the other end of the dinner table teaching us. I even caught myself doing what I used to do during those dinner talks. I'd be silently praying for you, "Lord, really speak thru him & give him some heavy new revelations..." Just please know that you are so very dearly loved & appreciated by all here. I wish I could show you in person how much. But I guess teacher & you just look so beautiful & healthy & heapty!

From Zebadish; W.S.: Dearest Dad & Maria, THANK YOU SO SO MUCH FOR THE WONDERFUL BLESS-ING & PRIVILEGE of being able to see the Endtime classes via video. It was like a dream, & still nis every time we see onel The Daniel & other prophecy classes are now clear to me as they never were before. You make them so simple & easy to digest & assimilate. I must admit they were always hard for me to wade thru before—not that I wasn't interested—they were just too complicated for me & somewhat dry. But you make them so alive & up-to-date, & you show & preach so much faith in God's Word, really make it the living Word for today!

THE VIDEOS REALLY CAPTURE YOUR SPIRIT, your broken heart, your unswerving faith in God & His Word, your love for lost souls & radicalness which sets you apart as God's Prophet.

Asia surrounded by Burma, Laos, Cambodia & Malaysia. Its tropical climate has three seasons: a very hot & humid hot season, a rainy season with accompanying floods, & a very welcomed cool season when you may even need to use a sheet at night. THERE ARE NEARLY 50 MILLION PEOPLE, the majority being very sweet & friendly. The women are some of the most beautiful in the world! The young people are especially sheepy & love the True Komix. There are many potential disciples, especially among the university-age students, tho' it often takes your all to win them & keep them as they grow in yan entirely new & different way not life in God's Family. THE KOMIX ARE VERY GOOD THROUGHOUT THAILAND, especially among those with little schooling. The key to winning souls & disciples: Love! "It doesn't always happen right away: You have to keep lifting & loving & laughing & dancing & singing & studying & witnessing & talking to them. You've got to keep helping them. It was quite a struggle, & it took two or three of them to pull her up on the Rock." ("Pawn" No. 370:24) The children also really win the hearts of the people—they may even ask to buy them! THE GREATEST NEED IN THAILAND AT PRESENT is for road teams & littnessers. With the help of our worldwide.

THAILAND AT PRESENT is for road teams & litnessers. With the help of our worldwide Family the LIT-PIC is printing 100s of 1000s of pieces of lit for the Homes. The Homes themselves are also printing great quantities & getting it out. Ideally, if you are single or a small family able to travel & make vi-

a trips & you have outside support, you would really be able to burn free throughout this exciting fruitful country. However, if you prefer to be a bit more established there are a few government teaching jobs which have been a blessing in being able to stay & not make visa trips every three months. Escort & FF'ing are also possible.

THAILAND HAS A HISTORY OF MILITARY LEADERS & COUPS—some peaceful, some not so peaceful. The situation can change overnight, without warning. At present a very sin-cere general named Prem is Prime Minister. We have thus far en-

joyed great freedom under his

joyed great freedom under his government.
THE RELIGION OF BUD-DHISM AFFECTS EVERY ASPECT OF THAI SOCIETY. Over 90% of the people are Buddhist. Other religions are Islam, Confucianism & a very small percent of churchy Christians who seem to be more active in fighting the cults (ie-Mormons, Jehova Witnesses & us) than in winning souls. Because of recent trouble with the Romans because of them it seems best to avoid them completely.

THAI FOOD IS DELICIOUS! it's also some of the hottest in the world. At every meal you'll enjoy a plate of rice, or for a change noodles. There are exotic fruits almost year round. You'll do your shopping in open-air markets around the city, so you'd better learn some Thai as soon as possible. You can enjoy a fairly healthy meal of fish, vegis & rice for a family of 6 for about U.S.\$2! Surprised?

U.S.\$2! Surprised?

LIVING EXPENSES AREN'T
TOO BAD. The average rent for a good home in Bangkok is now about 4000 baht (U.S.\$200) per month. You'll need a month's deposit as well as the first month's rent to open a new home. Food would be about 300 baht (\$15) per adult per week. Utilities (electricity, water, as phone atc.)

would be about 300 baht (\$15) per adult per week. Utilities (electricity, water, gas phone etc.) should be less than 1000 baht (\$50) per month. You can easily run a Home in Bangkok of six adults for 10,000 baht (\$500) a month. Outside Bangkok everything is considerably cheaper, rents being cut in half.

PUBLIC TRANSPORT IS

PRETTY GOOD ALSO. In Bangkok you can get a bus anywhere for 1.50 baht (\$.07) or an air-con beginning at 5 baht (\$.25). However, at the wrong time of day you may spend an hour or two in traffic hanging out the door of an over-crowded bus! When travelling from city to city or on visa trips it is best to take the train if possible or travel by bus during the day only. Bus travel at night is dangerous because -f huge trucks driving insanely down narrow country roads, as well as bandits who do rob buses occasionally.

City-by-City Guide to Central Argentina to help you "Look Before You Leap"!

City-by-City Guide to Centrom Carlos & Rosa:
HERE'S A SORT OF ROUND-UP OF OUR EXTENSIVE TRA-VEL by road, train & air thru' central Argentina, which we hope may prove useful to anyone going to that country & not wishing to stay in the huge capital.
THE PROVINCE OF BUEN-OS AIRES IS THE LARGEST of the mainland provinces (slightly larger than all of West Germany or all of Italy) & with a population of 16 million (compared with 57 million in Italy & 63 million in West Germany). For a period of nearly 4 months we travelled a significant part of this province, particularly an area south of a line running southeast from the capital to the port city of Bahia Blanca. We stayed foi prolonged periods in 5 different communities & travelled by car between them on several occasions. This is our overview:

BAHIA BLANCA

120 KMS. DUE NORTH OF BAHIA BLANCA IS THE SIERRA DE LA VENTANA, one of the only two mountain ranges disturbing the encless green flatness of the province of Buenos Aires, the heart of the highly fertile & famous Pampas. At the Sierra there are two towns (Tornquist & Sierra de la Ventana), each with roughly 50,000 people & sitting some 300 mt. above sea level. They are quiet, sleepy communities perfectly suited for a remote-refuge situa-

It is an eminently tourist-oriented
town. Whereas Bahia Blanca &

MAR DEL PLATA

children & pleasantly devoid of
most of the glitter & honkytonk ambiance of, say, Mar del

April to December, beset by
strong cold winds from the South.
During the summer it is quite
amiable & an ideal place to witness with children. Incidentally,
the countryside flanking Route

& Miramar was the most beautiful we saw in the province. The
relatively rainy climate there
makes it very fertile & expensive.

CORDOBA
THE ONLY OTHER AREA

weather, however, is not anything

The combination of good fresh abundant & reasonably-priced food, the hospitable people & beautiful scenery make this Argentine region an ideal one.

So if you enter your camping vehicle by ship thru' B.A., be ready to drive out at once if you want to camp out right away. The Auto Club also owns & operates gas stations, inns & vecation resorts at the seaside & the mountains. And their emergency road service is excellent. THERE ARE A NUMBER
OF WARNINGS which should be kept in mind by anyone going to Argentina:

1. THE COST OF LIVING IS QUITE HIGH. The city of Buenos Aires may easily be near the top of the list of the world's most expensive cities by the middle of this year. It would thus be essential to ensure some home support before going there, unless you have some speg cial skill that can readily be turned into sufficient income in Argentina (for example: good translator or musician).

2. THE SOCIETY IS PRE-DOMINANTLY A MIDDLE. CLASS OR BOURGEOIS society, This means, as it does in the U.S. & parts of Western Europe, a highfrom the point of view of regeard for appearances & public opinion, a superficiality about some things & a deep concern for material well-being. Becoming one is essential there, insofar as your outward appearance is concerned.

3. VIDEOS: Altho' we've seen some reports to the contrary in a couple FNs, Argentina's TV system is not the same variation

ANOTHER EXCITING THING that happened to us was when Sharon met a woman who owns an American school here. She said that she really needed a teacher; so, Sharon responded with, "Oh, my husband is a teacher."

MATHAN THEN APPLIED FOR THE JOB & GOT IIT, working only about 6 hours a day. He is getting a decent salary for this country plus free schooling for their 3 clidest children.

about 1904, & 1s now known simply as Guyana.

WE WENT THERE WITH OUR FAMILY OF 3 AULITS & 4 CHILDREN, & another precious occupie. When we arrived there oit was dawn, and, as Dad says, you get hit in the face with the spirit of a place or country. And we sure didn't like the spirit that we felt when we stepped off the plane, altho' we had nothing but high expectations & good feelings for the country before we arrived.

the country before we arrived.

A BROTHER ALREADY THERE
HAD MADE ARRANGEMENTS FOR US
TO STAY IN A LITTLE TOWN BESIDE THE MAIN TOWN. Our
house was situated literally
on the very river that separates French Guyana from
Suriname.
FRENCH GUYANA WAS IST
SETTLED BY PRISONERS & THEIR
FAMILIES AS A PENAL COLONY
where the French sent these
people to get rid of them.
In fact, Devil's Island,
that notorious French Island where they inhumanely
kept so many prisoners, was
also off French Guyana &
connected to the same penal
system.

was strikingly absent, & we noticed this in French Guyana also. It was almost spooky:

IN FACT, THE PEOPLE WERE SO UNFRIENDLY & SO INHOSPITABLE that we frequently used the term "Surinamese hospitality". A foreign friend of ours there once brought out a book called "The Book of Lists", & we found it amusing to read that Paramaribo, Suriname is officially listed as one of the 10 most unfriendly places of the world.

ANYMAY, & WEKS AFTER OUR ARRIVAL THERE MAS A HILITARY COUP, & a curfew was imposed. At this same time, the owner of the house where we lived decided to throw us out since she found out what "organisation" we belonged to after she talked to some 7th Day Adventist people, who seem to have an iron-grip on the country.

ME MOULD LIKE TO SAY THAT DAD MAS SO RIGHT-ON IN HIS LETTER "GO TO THE CITIES", as this is the exact situation we were in. These small towns in these small countries are usually ruled by a religious clique, & you live or die at their whimat least they can cause a

WE ARE STILL TAKING THE
WHOLE EXPERIENCE BY TAITH,
as we don't know exactly why
it was even the Lord's will
to go there in the first
place considering how things
turned out, except that we
believe that He told us to.
And we believe that we were
going in obedience to Him,

IT ALSO MADE US A MUCH

For whatever reason, "His

AFTER CETTING THE "RUN AROUND", she finally got an appointment to see the Director of Immigrations. The following week she went back 6 got the forms for the visa, 6 was told to have my work contract notorised.

MELL, NOTORISING SOMETHING HERE ISN'T ALL THAT EASY. I finally found out that I needed the contract signed by a lawyer which cost me about \$35 plus \$4 for the registration fee. Well, after I got the lawyer's signature, I found out that it wasn't even legal for me to get it notorised because I didn't have an I.D. can'd from this country. THE DIRECTOR OF THE ENGLISH INSTITUTE WHERE I WAS WORKING WAS SUPPOSED TO GET IT NOTORISED 6 sign the application for the visa. However, he was in Europe 6 was going to be there another month.

FOUR MONTHS AGO, ROSE &

American brother who is married to a national here.

AT THE EEGINNING, THINGS
MERE RATHER DIFFICULT FINANCIALLY, but they improved
shortly thereafter. Howeverour biggest worry was whether
or not we would be able to
get a visa to stay. Normally,

IN ORDER TO GCT THE VISA,

SHE HAD TO RETURN TO THE CAPITAL AGAIN TO PICK UP THE PASSPORTS, 6 this time she took all 3 children. When she got to the office where she was to pick them up, she found out that her wallet was missing. Fortunately, one of the girls recognised her 6 gave her the passports without the I.D. papers that they give you when you turn in your passports. Also, Rose only had about \$3 in her wallet because the rest of the money was in her diaper bag. TYJ! (AMENI-D.)

ON THE WAY BACK HOME, WHEN MEN WAS GETTING ON THE BUS, a teenager began to push her. She had Tina,
1 1/2, in her arms, 6 was holding on to Benji, 2 1/2 at the time. She soon discovered that the boy had popened her diaper bag 6 had taken her newly-purchased wallet. This time the loss was greater, but she still had some money at the bottom of the bag together with the passports, so those were safe. TIL! (Amen!)

WHEN RELATING THIS INCIPENT TO A NEIGHBOUR, the woman advised her to keep her money in her Dra, 6 I also believe that money belti are a good idea here. We really need to do everything we can to be good stewards.

"Thank you so much for your recent reply! I am very glad you like to hear our testimonles, sometimes our pride gets in the way & we think, Oh, Dad won't want to hear from ug! But we should have a trusting attitude that you will receive what you need & should read just to inspire you as I can imagine having to spire you as I can imagine having to live in a super-selah situation as you have to! We can't tell you how much it has helped us, convicted us, touched our hearts & has, in fact, been the answer to the letter I just recently wrote you about problems we are having ploneering this closed country! To put it simply, the Mag, has inspired us to get back in the Word again, to pray desperately & to drop out again to devote our full time to witnessing & living by faith. It has been miracle after miracle as we turn our vision towards the lost sheep & the unharvested fields & away from our own petty vested fields & away from our own petty personal problems. In conclusion, Dad, we just want to pledge our loyalty & love to you & the Family forever. Thank you for your prayers & undying love, we are al-ways at your service!" Jonah & Abi. S. Maybe these little tidbits about your private lives were being edited out. but to know that Maria's drinking her buttermilk & to hear your tender private words of thanks to one of your secretaries, or to hear which movie you particularly enjoyed & why - these all are so encouraging & enlightening, sharing with us your very life as a sample which comes through loud & clear! One High School Principal was very turned on to our Puppet Shows & has given us the "red carpet" treatment, including one of the class rooms to use as a workshop & studio, use of all their PAL-VHS video equipment & extra facilities such as darkroom, wood workshop, etc. It is a very exciting open door!" As you know, this field has already been considered closed & just lately some of the Family decided that they could pass out carefully some milky lit. However, many of the breathren here have fallen into the trap of fear, saying that it is a dangerous closed country. "The 'FR' is just what everyone needed!
We are just thrilled to see how concerned you are about the Family's welfare!
The reaction from the brethren here has been so encouraging 8 we will meet on June 7 to establish our LAFS" Donato, USA "The 'FR' - what a bomb! What concern! What love! Thank you so much! What would we ever do without you?!" Shem a Shelah, S.A. WE EN

"Wow! The 'FR' is beautiful! What a fan-tastic inspiration! It's a tremendous answer to our desperate prayers for more fellowship!" Anne, West Indies

"We all really feel the "FR" was so right on for the need of the hour & is really giving people the extra boost to really get more on the ball & attack for the Lord, & be strengthened to obey MK.16:15! The latest Ltrs. & elections have really helped & given us all more conviction to get back to the real deep basic unity of our Family in love & the 100% do or die spirit for Jesus & souls! Thank God for the word & decree of our King!" Love & Prayers, Stephanas & Delivarance, ASS, USA

"So happy since I met you! Your love-slave forever!"-beautiful Maria Rainbow Lover, lead singer for Musica Con Vida!

unity & strength together as a fighting Family!" Mike & Danna, USA
"Thanks so much for the new "FR' Ltr.! We started off our new day of Pentecost with lots of personal fellowship and songs. Then we decided on our LAF areas & elected our LAF Shepherds. Next we had an Action Committee mtg. Zered proposed a plan for all the local Homes to pitch in together to get a PAL Video system. David will be going to Eng. to purchase it the 1st week of July, D.V.! Ray shared about his bulk food contact which will be a blessing to everyone in the area. Next we discussed a lit project of printing up a local "Love Is News" including the testimonies of some of our local witnessing & pics. While the guys were busy with the Action Committee, the girls all got together & made plans to go out FF-ing regularly once a week! After the meetings we all enjoyed a nice meal together & fellowship time. We ended by singing Psalms 133 & 121 together & praying for all the Family Fellowships around the world. Ne'd all like to say how much we really love the new "FR' & feel it's just what we need to draw us all closer together in spirit as one united Family!" Love, Your Mash. D.C-Maryland DAF

"The 'FR' was such an answer to all our desperate prayers for unity, but as you say so clearly, we needed those 3½ yrs. of purging! We have tried to get together for several years, but it needed the official word from the King & Queen to be executed!" Samuel, C.A.

"Everyone we've seen & talked to is so encouraged by the new 'FR'! It seems like everyone sees a real need for the unity & sharing & feels it can be the answer to a lot of problems & solution for a lot of needs." Secundus & Seek, USA

"PRAYER REQUEST" (GBHI-D.)

Please remember a precious faithful member of our Family in your prayers!-Little
Zion Shondo, 6 yr. old son of Uriah å
Sheriah Shondo, USA. Zion was recently
hit by a truck å dragged underneath it
for 60 feet before the driver stopped.
His right hand was severely damaged å,
being deaf, Zion's hands are his main
form of communication! Miraculously
though, he is left handed å does most of
his signing with his left hand! PTL! He
has recently received Jesus, praying
sincerely in sign language! This was a
wonderful victory for faithful å hardworking Mom å Dad, who have been teaching Zion about the Lord for so long, as
it is difficult for the deaf to comprehend spiritual things å it took Zion several years to learn to speak (sign) even
simple sentences, though he is very bright
å learning rapidly! So please pray for
one of David's Mighty Men who has a special calling å world to reach for Jesus!

"TRY THE SPIRITS"

"TRY THE SPIRITS"

"TRY THE SPIRITS"

We have become increasingly concerned about the number of letters recently received from many Family members, most of whom were formerly known to be faithful, hard-working & sensitive to the Spirit but who are now becoming surprisingly deceived & think they are such "personages" as the End-Time Witnesses, the Great Queen, Davidito, etc. & even one father who thinks his son is "the real Pope"! "Sorry, but it appears you have really gotten off the track into false prophecies amongst yourselves. this often is a result of spiritual pride & the frustrated temptation to want to be a spiritual leader." (764:12) "So watch & pray that ye enter not into temptation that might lead you astray from the straight & narrow way which leads to higher crown & greater reward! Amen?" [1335C:33]

together again! The Family is the only life I've ever known & I love it." Shuly Bolivar, C.A.

"Now that we have the 'FR' one wonders how we could have gone so long without it!" Naarah Black, Europe

"We want to say that the new wine that is coming has been a real inspiration for all of us & we feel that it is coming at just the right time, when the Family needs it the most! The 'FR' is going to bring a lot more unity & inspiration to do more for the Lord as it seems for sometime, because of being selah due to security, some people have been getting into a system trap & now they have not much time to do other things & some have taken the selah situation with so much fear they aren't doing much to get out the Words & witness openly. But one thing that I personally learned from being with you in Tenerife & in a selah situation, was that we never stopped preaching Jesus. In fact, it was the heaviest time in my life of witnessing & giving the Word to the sheep & I remember you giving classes to all of us & fish & friends attended them too. A lot of work got done, people got saved & filled & disciples were won etc. We love you so much."

"REFUGES"

"'Refuges' really changed our lives & relit our fire to really burn for Him &
lose our lives for His Sake! Sometimes
we felt so uncomfortably comfortable in
our little refuge cottage & wondered how
we could have a greater outreach. Then,

us going! The time is now - not when all
the conditions are right for us to obey!"

Mag 38, pg. 35, because it appears

they have a short term vision &

certainly not the overall picture

of the situation here. As Dad has

We are afraid upon reading their

article in Mag 38, pg. 35 that some

brethren, who are accustomed to openly

litnessing and asking for donations

are going to come screaming down here

now and get the whole Family kicked

out before we have ever reached the

people. (Read 944)

Almost everybody in the Family loves

to shine for Jesus, but fighting today's

battles with yesterday's tactics is

very unwise here, because although

they might not have had any problems

with the authorities so far, it only

takes one nasty cop to result in a

full scale investigation, and in fact

it is a well known fact that people

will disappear here and are sometimes

to move easily a more legally remain in the country and enabling others to burn more free DTD, FFing, singing, which is perfectly acceptable. (609')

However we have checked with the police and to give away any kind of religious lit is perfectly acceptable and legal but to sell lit requires a permission, without which it is possible to get into more trouble here than elsewhere; and the obtaining of the permission might help the system to know too much about you. We feel that litnessing on the streets for donations is absolute madness for this justicular field, at this particular time and is as I have said before, very short sighted. (Meghts.)

One misstep could result in dire consequences: (Always true!)

Now on the other hand we can understand these guys desiring to get out the Words; we also get out a lot of Word, but we give it away in the streets, parks, trains, which is perfectly legal. (Good 40!)

In the capital (before Faithy & Juan visited, although I can't say now) some of the brethren had been so restrictive about litnessing & witnessing etc. almost to the point of paranoia & some have been serving the system too much as well as being very condemning of others who didn't see eye to eye about how to handle this field. It is therefore in the view of the above easy to understand Riphath & Cyprus's desire to get away from a teaching English job in the system, which by the way does not have to be a drag if you pray for real sheep and fish as students.

They, R & C, have thrown off all the closed country signs and decided this is a completely open field & to act as if it was 1975 in Europe and not here!!! (Again read 20 a.)

It's much easier to do what they are doing presently than to take a job in the system, slowly but pain-stakingly winning the students who

often are important influential people to the Lord. (Really?)(No. 950)
We feel that with wisdom, caution, a restraint it's possible to do almost all kinds of witnessing here.
We also feel that most of all, that although at the present time is not our greatest witnessing push here, it is over seathers.

here, it is our greatest push in getting prepared for the crash with stock-piled lit, survival food, gold etc. [2] in the hope that after the war and with a new world govt. then we will have 3 1/2 years of total freedom to [7] saturate this country [] but until

then it's best to go by the laws as much as possible so as not to in anyway jeopardize this wonderful refuge (?) for many of our Family. With lots of love, and prayers, Enoch & Lily &

The ability to edit and illustrate the Lord's words is a real God-given edit, and it is so important to remember that we just can't do it without the Lord's inspiration! Here is a heautiful poem the Lord gave Laban on the subject:

Of all the gifu God gives for free,
The greatest (so it seems to me),
Aside from lasting soul-salvation

Lord. Two weeks before this letter came, Singapore had a bad article on us coming from Japan with all the usual shit that they say about the Family's litnessing and sex beliefs. So now we are pretty hot there.

So we are writing you because we heard that the escort service where the girls have been working was raided two or three times in the last month. This escort service (High Society) is a branch of the same escort service the girls are working for in Thailand. I believe that with this dream the lord is certainly warning us to be careful there. Some of our girls golthe escort service 4-6 days per week, and from what Nekoda and other sisters have said who also went there, and from what I know from some of the other girls, the way ESing is done in Singapore is not always according to the letters.
The girls usually have little choice in whom they go out with, because the agency makes the booking. The girls sometimes negotiate a price for their sexual services right in the ES office. They ask from US\$200-\$400, depending on the size of the fish, or if asked for sex while out on their date, they negotiate a price before having sex with their fish. The girls are actually often afraid to witness for fear it might get back to Nathan, the owner, and lose their job at the ES. The affect that it has had on many girls is that they've gotten to a point where they've taken on a general attitude saying that most of the men they go out with are goats.

Some of the girls have been involved in some dangerous incidents, too. One one occasion, Joanna, who does regular ESing agreed to have sex with a wealthy Arab fish. He must have been demon possessed. He had a peg arm which he tried to force up her vagina, and he treated her very cruelly. She couldn't walk for a few days and didn't recover for a few months. Thank God he didn't kill her.

Another girl, Maresha, who was living with Joanna and also ESed Tregularly, left singapore and went to Hong Kong. Shortly after arriving in HK she collapsed and was hospitalized for two months

a severe case of gonorrhea which she contracted while ESing.

Another sister, Shilo, was thrown down a flight of stairs by another guy.

A point we would like to bring out is that in Singapore it is illegal for foreign girls to work in escort, and if they are caught they have to pay a \$2,000 fine and are deported with their passport stamped "Prostitution". In the "Island Secret" dream, the girl was doing something that the government didn't like --like litnessing'; (however, we haven't actually openly litnessed for over two years). And we just heard from one of the sisters who came from Singapore that our girls are still in touch with the ES by telephone since it is now too dangerous to go in. The government of Singapore is really against ESing by foreign girls and are very suspicious of single girls coming to Singapore. Often they don't even allow girls to enter the country without a male companion. (This has been the case in the last few months because of the crackdown.)

I think because the cost of living is high in Singapore, we are seeming to fall into the enemy's trap of compromising. You can't get an apartment there for less than \$1200 (Singapore) per month. But we found when living there that Ffing is fabulous, and even with ESing they pay \$555 just to take the guy out without extras. But I have heard that Nathan the owner doesn't call you or you don't get dates if you don't do any extras. So it's like a trap, or a prison camp (Singapore, that is) because of the economic pressure.

It's hard to be a missionary there because there is such tight control. We believe the island in the dream was one of the islands of Indonesia that the Singaporean government has a joint venture with for tourism. We met Alex Josey who is a famous author and editor of the Chamber of Commerce of Singapore magazine. He was

Singapore: 'Island Secret' Confirmed!

More info about Singapore & warnings to the Family there!

Dear Dad, Maria & Peter,

We Just finished reading "Island Secret" and the Lord really spoke to us through this letter. We just wanted to give you a few details about Singapore that may help you to understand the dream that Lord gave you.

It's really true that Singapore is a very **2prescive*, oppressive*, dictatorial type of government, but it's done very subtly, like in "The School", No. 165. For example: The government pressures its people to not have more than two children through economic and social means, as the third child doesn't benefit from the government's compensations nor is he able to attend the best schools--no matter what his grades are.

Also, all military-aged Singaporean men cannot leave the country for any length of time without putting up a \$\$5,000 (or US\$2,500) bond. And because 65% of the Singaporean population is under age 30, they try to keep the youth in subject*and fear. A few months ago, the Board of Education villified a 16-year-old boy in the newspaper because he had written something derogatory on the classroom blackboard. It was just a minor thing, but he was expelled from school! The whole thing amounted to character assasination. The poor kid's future is ruined on that small island.

Another example: An opposition leader was taken to court

was expelled from school! The whole thing amounted to character assasination. The poor kid's future is ruined on that small island.

Another example: An opposition leader was taken to court and made to pay a \$\$10,000 fine because he made a statement against Mr. Lee. But the oppressiveness and repression is very subtle because Singapore depends on Tourism and foreign investment, as they have a free port.

Mr. Lee is a Cambridge graduate in law and a Rhodes Scholar. He is a very tough leader and has really, like your letter said, prospered the island financially. His army is trained by Israelis and he has very tight intelligence like the CIA. The people there really live in fear. I think Singapore has one of the highest suicide rates in the world and crime is on the upsurga-especially robbery of the rich-because wealth is flaunted by the tourists as well as the rich there.

I think from the kicked out of Singapore two or three times for litnessing-especially for the letter "Israel Invaded". Nekoda and I lived there for six months and we got to meet quite a few high officials through invading the churches and working for the People's Association; Such as the Minister of Internal Affaire, The Minister of Education, the Malaysian Ambassador to Singapore and other Parliament members, who were in the Charismatic Movement of the Assemblies of God. And we got to meet one of your old enemies there who grew up with Faithy and Hosea-Irving Rutherford of Teen Challenge-who after sensing that we were with the Family threatened to go to the government to get us kicked out. This is one of the reasons we left Singapore.

We found out that there is a Parliament member who is a high official in the Intelligence. He is in the Charismatic Movement and he hates the Family and all cults.

Just a few months ago, Mr. Lee fired all his economic advisors

Just a few months ago, Mr. Lee fired all his economic advisors and financial counsellors and has let the Rothchilds take over all the banking of Singapore (Illuminati & "Satan King of Empires"). This letter "Itlant Secret") is a very serious warning from the

sent by the British to Singapore to do psychological warfare during World war II against communism for the Singaporean government. Now he is over editing all publications for the Chamber of Commerce and also goes as an official counsellor on negotiating projects, such as development projects of other islands and business with other governments. We met Josey at a book festival. There are some islands that Malaysia uses for prisons very near Singapore.

Singapore strikes us as a good model of what the Anti-Christ government is going to be like. Singapore is more like America than any country I have been in. I guess it would be like what you said about Israel., and I wouldn't be surprised if our persecution there is Jewish inspired. There are many Americans who live there and are working in the oil fields of Indonesia and Malaysia. It is like the Malta of Asia.

We believe that Singapore would be a dangerous trap to be in during the crash, because it imports all of its food from Malaysia and other countries and doesn't even have an independent water supply. They get their water piped to them through Malaysia. Malaysia's fanatically Muslim, pro-Arab and against Israel and Singapore is pro-American and pro-Israel. Singapore's basically a Chinese city and the Malaysians and Indonesians hate Chinese because they own most of the wealth in these countries.

Bo we pray that these details be a blessing to you and we are very sorry we did not write more and earlier about the escort work there which has in some cases been fruitful, but we have seen it has had a lot of bad effects on some of the sisters, when not done right according to the letters. And even one of our fish here who met us through the escort service and knows our message complained that some of our girls are just in it for the money. We know that the Devil is always trying to destroy our testimony. But when the enemy shall come like a flood, the spirit of the Lord shall lift up a standard against him.

Your son & daughter,

constru Nekodo Cornelius & Nekoda Black

Cornelius & Nekoda Black

P.S.: In this case, I believe the Lord is speaking to some people about leaving Singapore, with the recent persecution. It is probably more like a "Showe Off" case as some people have been there so long and need to get to the mission field.

"If God can't get you to do something for the right reason—your willingness to obey—sometimes He scares you out, or almost forces you out. What was the matter with the Children of Israel down there in Egypt? God hadn't promised them Egypt!—He'd promised them Israel! How come they didn't go to Israel? They were only supposed to stay down there during the Seven Year Fanine—Jacob and his sons and Joseph! How come they didn't go back to Israel when the seven years was up? They didn't belong in Egypt! It's not so bad to be in Egypt when you have to be. It's that if you stay there too long, Egypt gets into you! They stayed there so long, they got to liking it! Why leave?—Until they became like the Egyptians. They liked the leeks and garlics and fleshpots, and undoubtedly they were probably even beginning to worship their idols. Look how quick they were to turn to idolatry when Moses stayed up on the mountain so long!" —(No.66:35)

THE ESCORT WORK WAS SUCH A CHANGE TOR ME! The Lord helped me to tackle it with such enthusiasm & boldness that the men I met were quite surprised; they had heen expecting the usual, some fleshy chick.

THE LORD GAVE ME SUCH A BURDEN & LOVE TOR EACH ONE. There was nothing else to do but really witness & love them, & they sure needed it. Most of them were either super lonely & in need of love or burned out from the system & in need of a relief.

I EVEN PRAYED MITH A BUDDHIST & A MUSLIM TO RECIFY JESUS! And one guy called me twice from London to see if I had picked up the love gift of \$700 that he left for me at the hotel, & to say that he loved me & missed me!

AFTER HE PRAYED & ASKED JESUS INTO HIS HEART, tears rolled down his face & he just kept hugging me & thanking me. It was so beautiful in the Spirit!

AFTER A LONG TIME OF

could see straight away
that he responded to the

soon by saying: "There are

it. So, I told him about
Grandmother 6 he received it
8 got encouraged by it.

I REALISED THAT HE ALREADY HAD SO MUCH FAITH.
When I asked him if he ever
had an experience with God,
he told me that after the
accident the doctors had
told him his wife would
surely die because she had
a rising paralysis which
would take only a few hours
to reach her heart. He said
that he had prayed desperately that night for God to
save her life, & the next
morning the doctors told him
that it had stopped at the
6th rib without any explanation. Then he knew that God
is real.

LATER, WHEN IT WAS TIME
FOR US TO FART, he got very
sad & quiet, & I got heavy
head & given the Spirit to give
him the whole message. So,
I said: "Before I go, I would
like to leave a friend of
mine with you, so you won't
feel lonely."

HE ASKED: "WHAT'S HIS
NAME?" And I said: "Well,

His name is Jesus!" Then I told him how he could receive Him δ how he had changed my life. He was so ready for it δ prayed right away. TYL! He said he felt really different, not sad anymore. It changed him jimmediately. TYL! He is so precious δ willing to help. It was really worth it to "shtick" to win such a friend. PTL!

ALSO. ANOTHER HEAVY FF TESTIMONY IS HOW I JOINED THE FAMILY THRU FF-ING. TO for fishing!

WHILE TRAVELLING IN INDIA, desperately looking for something, I met the Family δ got FFed by Daniel. I stayed two weeks because they were so loving. PC! Love never fails! And the last day I got saved.

HOWEVER, I WAS STILL VERY
DOUBTFUL ABOUT THINGS, SO I
travelled on. A few days
later I had a tremendous
experience with God's love,
joy & understanding, & I
felt clearly that I was reborn. But in my mind, I
didn't want to think about
Jesus, but tried in vain to
look for God in every other

RACK IN EUROPE 1 1/2
YEARS LATER, at the end of my rope again, I received a letter from Daniel saying that he was back in Europe & inviting me over. So, I went for a short holiday.

FINALLY, MY EYES WERE OFENED TO THE TRUTH & I JOINED THE FAMILY. After giving me such a long line, he finally recled me in, & we've been happily mated since last summer. TG for his loving persistence with a rebellious sheep like me. And TG for the Family, ILY!

The over-40 life gets better & better the closer you get to Jesus!

From Hana; Indonesia:
Dear Brother David & Maria,
GOD BLESS YOU! I LOVE
YOU BOTH! And to you, Brother David, I would like to say
that it was in 1976 that I came
into contact with the Family &
started to work for Jesus & the
Family as a part-time typist,
thus being able to know the
early Letters like "Stop, Look
& Listen, "Squeeze Don't Jerk",
"Dumps" etc. I got so turned
on and couldn't help but fall in
love with you. (14/2! PTL!)
I SAID TO MYSELF, "WOW,

I've been looking for all my life!" From Hana: Indonesia:

I SAID TO MYSELF, "WOW, THIS IS THE KIND OF MAN I've been looking for all my life! Now I know it is the Spirit & the Love of Jesus in you that I'd been seeking all my life which made me feel so attracted to you that I've fallen in love with you. PTLI (Now I'm no longer typing the Letters but now for the past three years I've been proof-reading & translating them into Indonesian, & for this purpose am now living-in in one of the Indonesian Pubs Homes.) (68/!) YOU SAID, BROTHER DAVID, THAT YOU BEGAN ENJOYING LIFE AT 50 when you counded the Family. Altho' my story is quite different, it is also at that age that God made a real big change in my life. It was in 1975 at the age of 50 when, like you said happened to you in Letter No. 8:11, 19,20, "the Lord had to break me so that it made me want to die. But then I was willing to live for Jesus... He first made me want to die so that I then yielded & surrendered my life in the face of death." AND SO WHEN I WAS WILL-ING TO LIVE FOR JESUS, He took me lovingly step by step out of the pit. And a year later

SURELY IT'S NOT THAT EASY TO SWITCH OVER from that kind of life! was used to for half a century into full-time service for Jesus! I never would have been able to make it if it were not for Jesus & His Word: "I can do all things thru Christ which strengtheneth me" (Phil. 4:13). His Word & your Letters have helped me to overcome. (Ty') 6:79' 16:79' 16:79' 11T'S TRUE WHAT YOU SAID: We gotta keep our eyes & our mind & our heart & our faith stayed on Jesus. Now I understand & realise that you've got to have that Heevenly Vision that makes you want to continue life & makes it worth living. I just fail to see how I could exchange this present wonderful

otonous dead life I had in the System. The longer I live for Jesus, the closer I get to Him. And being close to Jesus is all you really need for whatever needs in your life. (Anea!)

THE LETTERS HAVE ALSO HELPED ME TO UNDER-STAND THINGS which I as a church worker for so many years in the past was never told by any other church pastor.—For example about the miraculous power that is in the Name of Jesus. You remember you told us your experience with that big dog when you were a little boy? Well, one morning going DTD a dog ran straight to me barking venomously showing his teeth. I knew he wanted to do me harm. What other weapon did I have but the Name of Jesus? But that's the real one & only weap-

rebuked the Devil in that mad dog & by the time he was in front of me he had become quiet with his tail between his legs.

TYLI Thanks a lot for teaching us how to face incidents like this! YOU KNOW, THAT PICTURE OF GRANDMOTHER in Mag 18 was so inspiring for me! Imagine! 80 years of age & still so active for the Lord! This has really encouraged me in doing things for Jesus at this age of mine. TYL for saints like Grandma & Mo whom You use to help & encourage us in our spiritual life. NOW AS TO THE LAST BUT

CERTAINLY NOT THE LEAST important subject—sex! Mine has never been that hot & full of variety as yours, Brother David, if I may put it this way. It started seriously tens of years ago with the man whom I thought would be my husband until old age, but things turned out differently. & after having been together for a short while we split without children, & tho' some lovers came by afterwards the Lord has never given me a child.

BUT THIS HAS NEVER
BEEN A HINDRANCE IN MY SPIRITUAL COMMUNICA-CERTAINLY NOT THE LEAST

SPIRITUAL COMMUNICA-TION WITH JESUS. It has given me many more opportunities to TION WTH JESUS. It has given me many more opportunities to be alone with the Lord, the real Lover of my soul with Whom I've been able to experience, as you say, "orgasm after orgasm of spiritual ecstasy." And I thank the Lord for giving me so many moments of that intercourse in the Spirit with Jesus "Who alone can satisfy that deepest yearning of every human soul for total love & complete understanding" ("Daily Might" 21:1). Thank you for the nice chance for us "over 40s" to share how wonderful life can be—with Jesus Love, Hana. (Ameri 6-17) 14")!

A whole new life of love From Santiago, now in South America:
MY NAME IS SANTIAGO & I MET THE FAMILY THREE YEARS AGO IN SPAIN. I am 52 years old, born Oct. 1st, 1928. All thru my life I was looking for the Lord but could never find Him except in the loneliness of my bedroom, because in churches I never felt well.
I GOT MARRIED & WAS VERY HAPPY with my wife until she died, now 6 years ago. Then I almost went crazy & devoted myself completely to my

til she died, now 6 years ago. Then I almost went crazy & devoted myself completely to my son, giving him all his desires, but nothing would satisfy meunitil one day going home in my car a Mo Letter was given me at a street light by a brother.

AND THAT IS WHERE EVERYTHING STARTED AGAIN for me. My wife had died 3 years before & I wasn't interested in life at all; I only wished to leave this world. But thank the Lord there was this brother giving me the message I needed at that moment. I read the Letter anxiously & wanted to get in touch with the Family right away. In the first Home I visited I knew a brother named Jonathan who started to witness to me, & since then the strong need to go back every day grew within me.

AT THE END OF A MONTH I was invited to dinner & got to meet several brothers & sisters

AT THE END OF A MONTH I was invited to dinner & got to meet several brothers & sisters who continued witnessing to me I received Jesus in my heart & the Holy Spirit. All my life chat ed from that moment & I didn't want anything else except the Word. At the first Church of Love held in my city I gave my testimony. I took my mother there & she also received Jesus & the Holy Spirit.

I STARTED TO GO OUT LIT

STARTED TO GO OUT LIT-NESSING & with the brothers provisioning & felt very happy. But that wasn't all, I needed to

SO AT THE END OF APRIL'S
1980 I DROPPED OUT COMPLETELY, & since then I've been
serving the Lord full-time! I
went to another city where I stayed 6 months in a hotel, going DTD
with other brothers & on faith
trips & felt, or should I say feel,
completely happy in His Service.
AT LAST I DECIDED TO
COME TO SOUTH AMERICA
and here I am mated with a very
precious sister, Maria Carmen,
and along with our daughter Carolina & another couple we're
expecting more sisters to come
to this harvest field so white.
I MUST TELL YOU THAE
WHEN I FIRST MET THE FAMILY my son stopped talking to
g-me & seeing me for 16 months
(Mt. 10:36), but when he found
out I was going to South America he carme to see me of 5 # . ba

(Mt. 10:38), but when he found out I was going to South America he came to see me off & he received Jesus & the Holy Spirit! Thank You Jesus! The Lord is marvellous & we can never outgive Him. He gave me much more than I expected. It took me a long time to find Him (49 years) & now I am anxious to give His Words to the people so

devote myself completely to the Lord. My job didn't attract me at all (& to tell the truth I was running out of business).

SO AT THE END OF APRIL 1980 I DROPPED OUT COM-PLETELY, & since then I've been serving the Lord full-timel I went to another city where I stayed 6 months in a hotel, going DTD with other brothers & on faith trips & felt, or should I say feel, completely happy in His Service.

AT LAST I DECIDED TO COME TO SOUTH AMERICA and here I am mated with a very long.

otherwise this would be far too long.

I FEEL VERY HAPPY TO BELONG TO THE LORD'S FAMILY, the most marvellous in the world, & to be able to enjoy His heavenly blessings. I hope this short testimony will show that the Lord can call us to His Service at any time, at any age. The only thing we have to do is follow Him when He calls us, leaving all behind for Him. "And everyone that hath forsaken houses, or brethren, or sisters, or father, or mother, or wife, or children, or lands, for my name's sake, shall receive an hundredfold, & shall inherit everlasting life" (Mt. 19:29). Much love in Jesus, Santiago, (PTLI, CBYI'—& Welcome to the OFers!-WLY!-D.)

times. In the beginning, we thought it was just an attack from the enemy, but when we got the "Illuminati" letter by John Todd, we remembered that he had had something to do with the Rosicrucians. We got to talk to him about it 6 shared some quotes from the article. He had at first thought that the organisation was one of well-doers of good deeds.

HOWEVER WE OPPNED THE SCRIFTURES TO HIM about how the Lord is for a spiritual kingdom 6 not a physical one, & with Milcah's TLC he forsok his admiration of them, saying; "The power of Jesus is better because it is creative." With the Rosicrucians he had witnessed two men bend a tree to the ground by concentrating their thoughts.

ABOUT A HEEK LATER 6 AFTER SHARING SEVERAL OF DAP'S LETTERS, we read "Daniel 2" together, 6 they were so convicted to share it with others but didn't feel they had the power. Right then was the time to pray for the Holy Spirit! And they witnessed the same night to their friends about "Daniel 2"! PTL! His Spirit & Words work wonders.

SINCE THEN, 3 OF THEIR RELATIVES HAVE RECEIVED JESUS! Although they have to continue in the system until they are free of their debts, we are visiting them regularly & they us, even tho' the distance is over 80 km; we read & pray with them.

A Singing Family's How-To Tips!

WISE COUNSEL GIVEN IN RESPONSE TO PARENTS' PLEA FOR HELP!

From Micah & Deborah; VSs in Europe:

Dear Matthew & Renée, & our family around the world:

GRY SO MUCH FOR KEEPING
GOING FOR HIM with all your
precious children! We were
really convicted to try &
write you after your comment
in the FN, as for a long
time it had been such a burden of ours also to start
using our children in singing more; however, we just
didn't know how to begin, it
seemed so difficult, & we
had exactly the same questions as you have. We hope
it can be of some help if
we just write down the little
things we've experienced.
WE FIRST STARTED GOING
OUT WITH OUR KIDS SIMGING
WHEN THEY WERE STILL VERY
SMALL, for example one in
the backpack while daddy was
playing the guitaria great
crowd stopper!), one holding mommy's hand giving out
the lit from about 14 months
on, & one in mommy's tummy.
WE PREFERED TO TAKE THEE
OUT WITH US EVEN WHEN THEY
WERE TOO SHALL TO SING, as
the alternative would have
been for mommy to stay home
all day struggling with the
housework & children by herself, while daddy had to
work on supporting us.

IT MAS SO NICE TO DO
THINGS TOGETHER AS A PAHILY.
& the Lord blessed it greatly
in lots of disciples won at
that time & plenty of support--just from the one or
two hours we were able to
go out with the childrengiving us enough time afterwards to take care of the
house, cooking, schooltime
& new babes.

IT MS INDEED ONE OF THE
HAPPIEST & MOST FRUITULI
INES in our lives, & even
though we had to get these
little kids downtown by

families: Zathu & Morningstar, Josh & Phebe, & Micah & Deborah.

public transportation & Change all the diapers upon arriving there, it was really of the diapers upon arriving there, it was really disciplined, & just ran worth it & gave them a good foundation of making them really outgoing.

THIS IS JUST TO SAY THAT IF YOU ONLY HAVE A FCW LITTLE their kids to sing, but children, you don't have to wait for them to be big enough to perform themselves. As long as you have them along & they are clean, dressed nice & happy it already does the trick & God will use "that in thy hand"!

MELL, ONE THING THAT HAYING CHILDREN DID FOR US WAS GIVE US A GOOD PUSH to try out new things--with almost each little one it seemed the Lord wanted us to pioneer something new, always adding a new factor to the equation!

UPON ARRIVING TO ANOTHER CITY, we realised the big vacuum there was for having the children perform: The minute we stopped on a walking street with the kids & opened our guitar case, we already had a huge crowd of curious people around us.

IT WAS A BIT OF A LETDOWN

THEN AS OUR CHILDREN MERE OLDER & WILDER & not very disciplined, & just ran very disciplined, & just ran very disciplined, & just pare little we pleyed. So we left it at that, just won-dering how other people got thile we pleyed. So we left it at that, just won-dering how other people got while we pleyed. So we left it at that, just won-dering how other people got a year of greater usefulness with the children. MELL, THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT HELL, & FIRST OF ALL SENT HELL, & FIRST OF ALL SENT HELL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRST OF ALL SENT THE LORD WAS FAITH-FUL, & FIRS

strumming once in a while, he is happy & mmiling the star to all the old ladies.

OUR YOUNGEST ONE NOW,

-YERN-COLD HENDRIK, really had a hard time participating in the show, so when he was smaller we kept him in his stroller, keeping him happy with an apple or so.

(We always try to have healthy snacks on hand.)

HOWEVER, LATELY HENDRIK
HAS GOTTEN TO WHERE HE IS

WILLING TO GIVE OUT THE LIT WHILE THE OTHERS SING, tak-ing it out of the guitar-case & throwing the money back in that people always hand him. It looks so cute when a lit-chid toddles up to the big people handing them the lit, & hardly anyone can refuse.

IT TAKES US A LOT OF SHARING THE WORD WITH HIM

The 'G Refule persuasion as he is now starring to partake in our insurantary at home our present our time was the court in surantary in the court in the court in surantary in the court in surantary in the court in the

SHARING THE WORD WITH HIM tho' & gentle persuasion as he is now starting to partake in our inspirations at home, doing the motions & singing a little bit. We learned that we have to keep feeding & inspiring them with the Word, new & old, for this is what helps us get & keep the vision.

what helps us get & keep the cytision.

THE SAMPLE OF OTHER FAMLLY CHILDREN SINGING always
does a lot to re-inspire &
challenge them, so if you
have the opportunity, use it.

WHEN SINGING ON THE
STREETS ME USVALLY HAVE ONE
OF THE CHILDREN PASS OUT LIT
to all the crowd before they
all leave, & sometimes if
the kids are raring to run
around & litness, daddy just
keeps singing with one or
two of them, taking turns,
which can really prolong the
show. Then, later we often
just start all over again
with all the children & a
new crowd.

IF THE SPIRIT IS REAL

new crowd.

IF THE SPIRIT IS REAL
NICE & HEAVY & THE PEOPLE
REALLY ATTENTIVE & FASCIMATED, we even ask for decisions after a skit such
as "You Gotta Be a Baby."
We say something like: "Now
that you all know how, who

wants to go to heaven? Who would like to receive Jesus into his heart? Come on let's raise our hands!"

would like to receive Jesus into his heart? Come on let's raise our hands!"

WE'VE ALSO STARTED TO PUT A SIGN IN OUR GUITAR CASE THAT THE DONATIONS ARE FROUM HISSIONARY WORK, which not only increases them considerably, but helps people to relate more to us & make more personal contact.

AFTER SINGING THE SAME SONGS OVER A FERIOD OF TIME, the children really get turned on to learn a new eaong or skit, or one in another language, or to perform in a mew place or different situation.

This is especially true if it gets adventurous for them, like when Valentina dreamt we would sing in a little circus. Later we actually did do just that, & e the whole circus staff received Jesus & then let the kids ride on the big camel & on the ponies.

ANOTHER IMPORTANT POINT IS TO ALMAYS RYMARD THEM, & often the Lord does it right on the spot by people invit-

ing us to special meals or outings or giving fruit to sthe children. (We all agreed to collect unhealthy sweets & later trade them in for good wholesome nuts, raisins, figs or tangerines, etc.)

WE ALMAYS HAVE ONE SET OF MATCHING CUTFLIS (they don't have to be expensive, as long as they match) that we just keep for singing, so that we can always be ready if the occasion warrants.

WE HOPE THESE LITTLE TIPS CAN BE OF SOME HELP, as we have just started ourselves & are curious about what other families would have to say. But it is such a blessing to see the Lord use these little kids, & it seems that in many situations, working with them would free daddy from having to work in the system for support & open the doors for other fields where straight litnessing may be impossible but where it would be possible to go with a big family singing.

--With lots & lots of love, Micah & Deborah.

We went to one the next Sunday just to attend as the pastor wanted to meet us. The pastor then asked us to come back that night to sing.

THE KIDS SANG 6 THEY JUST 8 THEY DUT. They just loved us and though no formal love offering was taken for us, the pastor gave us \$100 & someone else gave us \$500. This really helped us a lot since we were struggling so financially & our bills were due. Andrew & I sang again that week at their men's prayer meeting & gave our testimonies & they gave us a small donation.

THE NEXT SUNDAY THEY ASKED US TO MINISTER AGAIN and gave us the whole evening service. We sang songs and

THE CHURCH LEADERS CAVE THEIR PERMISSION, 6 WE BEGAN TO ORGANISE IT. We felt the Lord really wanted the young people themselves to do the skits & music, etc., so we got volunteers & taught them how to do it. They learned songs like "Jesus Really Loves You" & "You Can Be Free".

ONE NIGHT WHEN WE WERE PRACTISING WITH THE YOUNG FEOPLE, one of the leaders of the youth groups came up to us & gave us an envelope & told us that the Lord had told her to give us some of her holiday money. What we thought to be just a few pounds for petrol turned out to be 115 pounds. TYL for his abundant supply:

We read them "Making Memories" by Grandma & shared our testimonies & way of life, & they hung onto every word. They want us to send them our prayer letters from the Orient & promised to pray for us in their meetings. GRI: They also took a collection for us which more than covered our needs!

AS OUR DEPANTURE DATE FOR OUR NEW FIELD MAS APPROACHING, we were praying for a final way to be able to minister to everybody. And sixthe Lord had provided us with a projector & slide show of Zeffirelli's "Jesus of Nazereth", we offered to show it to them.

From Marianne at MWM:
Dearest Dearest Dad & Maria,
ILY BOTH SO VERY MUCH!
THESE DAYS SEEM TO BE
VERY SPECIAL ONES full of
the heaviest moments & greatest
blessings with the Spirit really
moving! After the most beautiful Sunday Fellowship we ever
had—by the best teacher!!—this
Monday was a very very special
day for me—& all here. I fee! I
have to tell you about it because
you were so very present & close
& comforting in every way.
FIRST, WE HAD PASSED
THE WORD AROUND ABOUT Marianne at MWM:

THE WORD AROUND ABOUT THE "SIMON PETER DAY", so THE "SIMON PETER DAY", suggesting that everyone may want
to express their love & appreciation for Simon in various ways,
that they may want to prepare
something. Then after those
two beautiful Letters about Simon-"Prayer for Simon Peter"
& "The Simon Peter Day", which
really touched us & showed us
that we had not given enough
credit where credit is due, LHU,
—we then received "Appreciation"
such a beautiful message & very
very needed lesson which you so
well put into practice, & we all
need to apply better!! You so
well know how to encourage us
kunderlie the great the basics.

need to apply better!! You so well know how to encourage us & underline the good, showing appreciation & gratitude! It is so true that it inspires one to work harder, be more loyal, giving, loving, sharing, as you are! JUST BEFORE WE LEFT FOR THE CAMP MY BROTHER CALLED to annonce my mother's departure from this world. She had been quite frail & sickly in the past few years, after being very strong & healthy all her life—& no doubt the Lord was trying to break thru to her. ing to break thru to her.
SHE WAS QUITE A STUB-

by receiving the Family!

BORN JEW, but I know in her heart she was thrilled at the life I live, knew we were different, happy, radical, that we are living a life of freedom & travel & adventure she always longed for (even sexual freedoml), a life of giving & loving others which she admired tho' she would never admit that it was the Lord doing it thru usl She was supposed to visit us here but got sick with ulcers & her already weakened body soon could not resist any more. IT BROKE MY HEART BE.

CAUSE I KNOW SHE ALWAYS

CAUSE I KNOW SHE ALWAYS LONGED FOR LOVE, real love. But I don't think she knew the real Lover who could make her happy when she died—maybe she did accept Him at the end, I don't know. However, when I first joined I claimed Acts 16:31 about believing in the name of the Lord & "thou shalt be saved & thy lower" particularly for

the "share the know" was a needed & sobering eye-opener, & Simon's testimony was really really beautiful, humble & moving tool He indeed is a "very fire son" & an "outstanding man of God", so sweet & precious! We all criad—it was really moving! And every-one could hardly believe it when we passed one envelope with a gift for everyone! GBY for your wonderful sample of love & generosity! We all needed this everyone! wonderful sample of love & generosity! We all needed this evening! (TL. 6 to Emily! -0.)
WELL, IT TOUCHED ME EVEN MORE WHEN WE GOT HOME TO HEAR YOUR PHONE MESSAGE, that you were so thoughtful & concerned to call MESSAGE, that you were so thoughtful & concerned to call by & pass me this beautiful comforting Scripture about my mother. I loved her a lot, as indeed she has always been good to me, forgave me a lot, helped us, protected us even. & loved us in spite of all! I could not believe she could be damned. But there could not have been a greater comfort to me than to hear that you believed that the Lord would give her a good place because she was good to us: (S)he "that receiveth you receiveth he" (Mt. 10:40), PTL! Thank you so so very much for all your wonderful warm love which tickles me all inside! You are both so beautifu!! I love you & pray for you!—Marianne. (ft1:68)! Such leve! 1242!—0.)

From Sunny; Central America:
Dearest Dad & Maria,
GBYI LOVE YOU SO VERY
MUCH & really don't know what
would have happened to me if it
hadn't been for your WWWs! I
Just finished reading "Prodigal
Prodigies". Wow! It was such
a blessing to get that Letter! it
has changed & is changing my
life! I felt so convicted reading
it. Word by word, lesson by lesson
it almost stereotyped many
problems I've had in my 9½ years
with the Family.
I'M THE GIRL YOU MENTIONED IN LETTER NO. 155:
59. ("I understand that one of
our girls who was recently delivered of diabetes & insulin apparmily had a recurrence, probably
because of improper diet, returned to the insulin, & nearly died
of an overdose. "I a lawsy used
to justify myself that I was never
healed 'cause at the time I was
to sick I couldn't eat. But the
fact of the matter is I'd always
been rebellious (I've been taking
insulin now for over 20 years!)
also we have the sight way.
NOW, SEARCHING MY

been rebellious (I've been taking insulin now for over 20 years) about eating the right way.

NOW, SEARCHING MY HEART, I SEE THE REAL PROBLEM. Altho' at times I've had the victory, I never really got the victory over the affliction the Lord had given me. I was bitter towards the Lord a bout it. How can Jesus heal some one who is bitter against Him?! I really did want to serve the Lord, tho', & I know the Family is the best way to do that!

SO I CONTINUED WITH THE FAMILY & LATER MARRIED. However, being rebellious to the Lord in my heart I was openly-rebellious to my husband. Can you imagine, all that time I was working with the babies & then the older children & even running & helping to run schools?

running & helping to run school It makes me sad to think of it, how many little children must

have suffered from my rebellious spiritual condition. TYJ for His mercy!

BY THE RNR I HAD GROWN TO LOVE MY HUSBAND, BUT TOO LATE. When he began sharing with the other sisters, he fell in love with one, & I knew I'd missed the boat. I really was crazy with jealousy & couldn't accept it that we could all three live together, so I left him "to make a new life for myself". Now they have two or three children.

ME?—I'M STILL RUNNING FROM ONE COUNTRY TO ANOTHER, from one family to another, never finding the right hole, never fully happy just to serve & be a big zero just doing what needs to be done to reach the world with Jesus' love.

Who now I can love more because the lord leve when I didn't teally veal saw have if was have in well didn't really believe in my heart that it was ok to have two wives. Once the Lord gave me a dream: I was making love to you, Dad, & you were a little weak, so Maria was guiding your penis into me. It's truel—Withouth er words! May God forgive me, words! May God forgive me, words! May God forgive me, and well and the penisher with the country of the penisher with the country of the country

row they nave two or three children.

FROM ONE COUNTRY TO
ANOTHER, from one family to
another, never finding the right
hole, never fully happy just to
serve & be a big zero just doing
what needs to be done to reach
the world with Jesus' love.
SO WHEN I READ ESTHER'S
STORY IT HIT HOME in so
many ways (I too have been sick
a lot over the last 3 years). I
really cride—& cried out to the
Lord, & He'started showing me
so many roots of bitterness in
my own heart. And one was against you, Dad, for the Letters
on taking more wives. I realised
I hadn't really believed it or accepted it.—And for the same reasons as Esther.

SO PLEASE, DAD, PLEASE
FOR IVE ME. I know we live
in a spiritual world, so I hope my
resentment towards you didn't
cause you to be sick or hindered in any way. I'm praying for
a total repentance (no more
toots of bitterness). So one day
I hope to be able to tell you that
the Lord forgave me & healed
me, 'cause I have learned the lesson & can be trusted with it
(healing).

THANK YOU AGAIN FOR

The, cause I flore reasons as soon & can be trusted with it (healing).

THANK YOU AGAIN FOR ALL YOUR WONDERFUL WORDS, & especially for publishing "Prodigal Prodigies". Please know I love you & Maria too,

A letter from Gene, ML Photo-men, to those in another Home who care for his 6½-yr.-old son:

who care for his 6%-yr.-old son:
Dear One,
GBY11LYI After my visit
there I got this horrible sick feeling about a few things I had
done concerning B. Well, a
few days before we left, B
given me a little wallet that I suppose was his. You know how he
is, always giving me things.
I DIDN'T TAKE IT VERY
SERIOUSLY AT THE TIME,
but that is what I felt so bad about, that these things to him
are important, & I just brushed
them off.
HE WAS REALLY TRYING

are important, & I just brushed them off.

HE WAS REALLY TRYING
TO SHOW HIS LOVE & I really almost treated it as a nuisance, LHM! Anyway, I left the wallet there, as I don't need it & it would be in the way here. But then I worried that he might find it where I left it & then feel bad. The same thing happened with a large mural he painted for me. I just feel terrible about it. I do appreciate his gesture very much & I think the only way he'll believe that is if I keep those items. So please tell him I'm sorry & ask him to keep them for me if he wants.

WELL, THIS BRINGS ME
TO ANOTHER THING that has been a real burden to my heart.

TO ANOTHER THING that has been a real burden to my heart. From my being there & seeing how things are & how they go each day, it makes me feel a bit worried for B & how he is doing.—Mostly in how he is being misunderstood & treated by the adults there. Overall, I have little or no complaints & feel that B- is an extremely fortunate boy, especially for you to care for him as a real mother.

BUT ONE THING BROKE MY HEART & made me feel so very sorry for him. That is that he seems so often alone & misunderstood.—Alone in the sense

that he didn't seem to have any B WAS VERY DISRESPECT-

SOMETHING NICE for someone but it actually wasn't that much of a help to that person, rather almost a hindrance. But he was almost yelled at & told in rather rough terms to stop bothering them & that it wasn't a help. His good effort wasn't appreciated. He was scolded in very unloving terms & very little thought given to his feelings.

HE IS JUST A LITTLE BOY, & GROWING & LEARNING, & he needs as much or more con-

that he didn't seem to have anyone who would share & talk to him on his level & understand him. The same thing that I confessed to you above that I did, is what I witnessed others of you doing also, not really seeing the motives & reasons for which he does things. Perhaps I don't see the whole story, but only a portion—but then the Lord often uses those little portions that outsiders see to open up things. I NOTICED SEVERAL TIMES B TRIED TO DO SOMETHING NICE for someone but it actually wan't that much of a help to that person, rather almost a hindrance. But he was almost yelled at & told in rather rough terms to stop bothering

B IS GROWING OLDER & perhaps is at the age where it

B IS GROWING OLDER & perhaps he is at the age where it is more difficult for all of you to understand him & his needs. May

pemaps he is at the age where it the most hard it wasn't a help. His good effort wasn't a ppreciated. He was scolded in very unloving terms & very little thought given to his feelings.

HE IS JUST A LITTLE BOY, & GROWING & LEARNING, & he needs as much or more consideration as each of us, as much understanding, encouragement & love shown as for our mistakes. I know you all are very busy & have many straining moments in the day, but I think the Lord has a greater peace & rest for us that will allow us to have the extra patience needed to take the time to gently lead & train the little ones. That's our job. IF HE IS TREATED AS A NUISANCE & A PROBLEM, he'll most likely become one. Be needs a lot of love & affection shown to him throughout the day (don't we all!), & firm discipline for his errors & waywardness (in private, as much as possible), & lots of explaining & reasoning to help him understand the things he does wrong, with love & concern for him & his feelings.

I NOTICED AT TIMES THAT

"Good Sheps" Couple Apology!

'We both still had a lot of old 'Chain-Saul' ways that needed to be purged!

"We both still had a lot of Dearest Dad & Maria,
I HAVE READ OVER "GOOD SHEPHERDS" FOR THE SECOND TIME since receiving it.
I sethor it is "greivous" to bear I am very thankful for these "lashes of love". Everything you said in it is true, & I am very sorry for disappointing you so much, as it really was a "golden opportunity" to express to you both how much I love you & appreciate all that your words have done for me these past years.
UNFORTUNATELY IT CAME
AT A TIME WHEN I HAD JUST RETURNED FROM A YEAR
OF BACKSLIDING & COMPROMISING & as a result I was in a very unstable spiritual state. I see now tho' I should have taken this opportunity as a Prodigal Son returning to his Father to sak for your forgiveness, which I do now. Instead I was just trying to act like everything was k instead of being honest with you about what I had been thru. I guess it's just the fear of man. Lord help me!

AS YOU SAID, "YOUR KIDS MILL SPEAK FOR YOU", & I know it's one of my biggest failings to have not brought my son up in the way he should go. I know also my wife is a reflection of me & when I am fighting & feeding her faithfully with the Word she is much stronger as a result.

IT IS SO TRUE WHAT YOU SAID ABOUT THE HOUSE OF

Word she is much stronger as a result.

IT IS SO TRUE WHAT YOU SAID ABOUT THE HOUSE OF SAUL, & the Devil can still use it as a wedge with former chain leaders if they've not been retrained with care & patience.

Well, I can honestly say I want to be completely purged from these old ways & set free so I can be a useful vessel to the Family & His Work.

YOUR LETTERS ABOUT
JUSTUS A. & HO & ESTHER,
& now "Good Shepherds", have

been such a help to me to see the things that have been hindering me, & I want these lessons to go deep into my heart so that by God's grace I will become a new bottle like so many I see around me & not just backslide into oblivion like so many of the rest of the Chain. Thank you so much for your love & patience, Dad & Maria, & I just pray that I am finally beginning to get the point.

tience, Dad & Maria, & 1 just pray that I am finally beginning to get the point.

ONE OF THE BIGGEST THINGS THE LORD HAS IMPRESSED UPON ME is the need to spend more time in the Word, memorising scriptures & drowning myself in it, because I know it was the neglect of it that caused me to get off the track in the first place. I know as I faithfully put the Word first in my life it will give me all the drive & conviction I need to be a much better sample in all that I do.

I HAVE HEARD THAT HO IS GOING TO BE DOING SOME VIDEOS of the Family here for you, so we are thankful for this second chance to meet you via Video, & I hope that you will see the change in our lives!

THANK YOU AGAIN, DAD, FOR THAT LETTER & for not just leaving us on the scrap heap. You said in "Backsliding" that

FOR THAT LETTER & for not just leaving us on the scrap heap. You said in "Backsliding" that "he will do his best to prove that he can make it & work harder at it than anyone else," so this is my challenge from the Letters, & by the grace of God I'm going to be that man! Thank you for listening, I love you & need you so much.—A grateful son, yours forever.

Dear Dad & Maria, GBY! "GOOD SHEPHERDS" WAS VERY SOBERING FOR

ed my spiritual state to be a drain on you. I realise now, even tho' I was feeling the way I was, I should have gotten desperate with the Lord & reached out to you by faith to try to give you back a minute reflection of the love & inspiration yo have constantly been to me throughout the years.

tion of the love & inspiration you have constantly been to me throughout the years.
LHM, I WAS SO FULL OF MYSELF & MY PROBLEMS that all I was feeling was shame &, as you sensed, fear that no matter what I said or did you would see right thru me anyway. Your Letter really helped me realise that self-consciousness & fear of not being accepted are nothing but tricks of the Devil to make you look inward & thereby cut off the outgoing flow of God's Spirit. I've always had a problem with this. But now that I understand it, I really want to get a victory over it.

really want to get a victory over it.

I FELT LIKE ONE OF THE FOOLISH VIRGINS arriving at the Lord's house without any oil. Everything you said about me was so true & helped me to see my weaknesses so I can really try to overcome them.

SOON AFTER THE VIDEO WE GOT TO SEE QUITE A LOT OF PAUL & MARIANNE. They were to us like a loving caring balm on our scars & the elixir of love worked wonders in our lives. It was like being wooed back into the centre of the Family after a year of straying. Their sample exposed my selfishness & independence that had hardened my heart & we both really broke, pendence that had hardened my heart & we both really broke, & for the first time in years I was able to let go of all my doubts, fears & insecurity & let the life-giving flow of the Spirit take over again. Their encouragement & inspiration challenged our hearts to get back in the fight again, TYLI

MAKING LOVE TO JESUS BRINGS BACK POWER FOR HEALING:

From Miracle; Pacific:

HERE'S THE TESTIMONY OF

MOW THE LORD HEALED ME WHEN

I MAS IN INDIA & PAKISTAN;

I hope it can be an encouragement to others.

JUST PRIOR TO OUR BETRO
THAL I was bedridden with
hepatitis for 3 weeks, & as

I was recovering I had a
relapse - 2 more weeks in
bed. But the Lord wasn't
thru with me yet. On the
last day of our honeymoon I
tried to get out of bed but
sharp excruciating pains
shot up from my liver to my
neck & I couldn't move without these sword-like pains.

The slightest bit of food
lave me incredible intestital pains like I'd never
experienced.

THE DOCTOR DIAGNOSED MY
CONDITION AS "AMEOBIC COLITIS" (a disease where
smeobas multiply in one's
intestines & the food you
eat feeds them instead of
you; so they multiply &
you deteriorate). This then
became "ameobic hepatitis"
is the ameobas attacked my
already weakened liver.

ON A 3-WEEK COURSE OF
PILLS TO KILL THE AMEOBAS,
I only got worse(Mark 5:26),
hardly able to eat even
boiled rice, & only able
to walk to the toilet like
a bent old lady. Sleepless
nights turned into weeks
as I lay in agony on that
bed in pain so great that
I could never sleep more
than an hour at a time. I
never really knew what agony
was before this, but now
his experience was teaching me what physical sufferring He had suffered for

me.

I COULDN'T STAND IT ANY
LONGER so I got Chris to take
to the hospital for a
psin killer. God even used
that to give me enough peace
to listen to Chris read me

NGS BACK POMER FOR HEALING:

the Word, but inside I knew that I couldn't run to the system every day to ease the pain. I knew that I needed to get desperate with Him for healing & the Word gave me hope.

THEN, ONE NIGHT CHRIS ASKED ME TO MAKE LOVE (poor guy; 3 weeks of marriage & I could hardly bare the pain to make love. This was before the days of sharing). I knew Chris' need was desperate so we made love; & then the strangest thing happened. Chris was asleep & I'd been lying there half an hour when I suddenly realised that thru the whole love-making I'd felt no pain:

FOR THE FIRST TIME IN 3 MEEKS I HAD A HOMENT WHEN SOME FAIN' And in a crystal clear voice Jesus said to me, "you need to make love to Me."
He had healed me & shown me why He'd let me suffer so: I was neglecting my love-making with the Lover of all lovers!

I LEPT OUT OF BED, OPENED MY BIBLE, & MY EYES FELL ON THE VURSE, "HE SENT HIS WORD & HEALT OF THE MEEKS Who were sick with tropical diseases there to trust the said it & it was done! I felt those evil creatures suring up inside me trying to bring back more pain, so I quoted the

verse He gave me over & over, & I sharply rebuked them in verse He gave me over & over, & I sharply rebuked them in Jesus' name, realising for the first time that it was a demonic attack. The Devil was trying to destroy my service to the Lord by destroying my body (It was so easy in India to accept disease as a matter-of-fact part of life).

FOR THE FIRST TIME IN MEEKS I STOOD UPRIGHT, threw away the course of pills I was half-wey thru taking, & I ate a hot curry meal.

THE LORD SURE TAUGHT ME A LOT OUT OF ALL THAT, especially about fighting the Devil &, most of all, about loving my king of Kings above all!

GRY: THIS IS MY TESTIMONY
OF HOW THE LORD HEALED ME
FROM ASTHMA! I had arrived
at a home in the Canary Islands & had just become
pregnant with my second
Jesus baby thru FF-ing.

I BEGAN HAVING SYMPTOMS
OF ASTHMA DUE TO THE DRY &
DUSTY CLIMATE & POOR VENTILATION of my room (at had
no window & I was leaving
the door practically closed
at night). I was having much
difficulty breathing, especially at night). I was having much
difficulty breathing, especially at night, & was losing
sleep because of it.

THEN, ONE AFTERMOON OUR
EME WAS HAVING INSPIRATION
I began to sing & play the
guitar, but I found that I
was unable to finish the
song for lack of breath. So,
we stopped everything, &
everybody prayed desperately
for me to be healed. Then
God answered prayer & I began to breathe better. TUJ!
HOWEVER, IN THE MEXT FEM
DAYS, I BEGAN HAVING ASTHMA
ATTACKS AGAIN (the Lord
testing my faith), so I
quoted & claimed verses &
praised the Lord for healing
by faith. Soon this breathing problem went away completely & has only returned
a few times when I have negligently left all windows &
doors closed at night, not
having sufficient ventilation (a lesson learned!)
ALSO, TO SHOW HOW IMPORTANT FRESH AIR IS, my second
Jesus baby had severe bronchitis when she had been
staying inside the house

her, but what finally healed

"WHEN I WAS 15 YEARS OLD
I went up into the hills on
the island where I used to

a cloud, came upon me, causing me to pass out. Ever
since then I have had these
fits & depressions where I
wanted to end my life & got
thoroughly down. During
these times I would get very
weak & dizzy & everything
would look so negative &
hopeless. I had resigned
myself to my state of health
& became afraid of meeting
new people in case I might
have a fit. My husband had
spent a lot of money on
drugs & medicines, but nothing ever worked for any
length of time.
SO, AFTER HEARING OF MRS.
L.'s "sickness", we got in
desperate prayer as we knew
that it was not just a physical thing but that from
time to time over these years
a bad spirit had been attacking her & trying to ruin her
life & even wanting to take
her life.
HER HUSBAND KNEW THAT WE
ARE CHRISTIANS & when we told
him that we would pray for
his wife he was very thankful that there was someone

shepherd then told me about Abner. I had not read any of the letters about Abner but I "wowed" at the name.

THE LORD LATER TOLD ME THAT WAS HIS MAME FOR ME, as I had been in the Family two weeks without a Bible name, waiting for the Lord to give me a revelation.

TMO YEARS LATER, I WAS TALKING TO. A SMEET BROTHER WHO MAS TELLING THAT HE MET HIS MIFE ON May 10th and was telling me of several other things that had happened on that date. He had heard the testimony about my name, & then he said, "Oh, & Abner died on May 10th." I was astonished because May 10th is my birthday! Imagine how surprised & inspired we both were! It was an answer to prayer. PTL! TYJ!

Late Video News! -New Video Accessories on the Market! Buying Tips from Thaddeus, W.S. Researcher

npiled from Reports by

Thaddeus, W.S. Researcher:
WHILE AT THE VIDEO FAIR
we noticed that there were a
great number of pre-recorded
films from the dark side of the
spirit world—horror, violence,
porn & the worst of society's
traits were the major themes.
Good films were very few & far
between. Since in general it is
only the rich who can afford
these tapes, it is clear who they
are out to subvert & distract from
the real world. The worst excesses of American society—whether
real or imaginary—were predominant, & I would say that there
are few films on the market we
could recommend. Exceptions
were the Biblical epics, including
the 4-part "Jesus of Nazareth".
WHILST THE BIG COMPANIES ARE MAKING LITTLE ATTEMPT TO IMPROVE THE DOMESTIC FORMATS so that they

<u>CAMERAS</u> ARE IMPROVING FASTER THAN ANY OTHER ASPECT of the video market at the moment, & mass production combined with the extensive use of new technology & "chips" is bringing their price down dramatically. This was a point brought out at the seminar at the end:
The video field is advancing so rapidly that things unheard of a

few years ago are now on the market, so the business of predicting future prices & value-formoney was a very difficult one.

JVC ASSURED US THAT THE VHS FORMAT WILL BE AROUND FOR SEVERAL YEARS to come. But there are new machines coming: In a year to 3 years there will be a complete recording system in a unit the size of a cine camera, which is the market they are obviously aiming to take over.

THE VHS SYSTEM HAS BY NO MEANS REACHED THE LIMITS OF ITS DEVELOPMENT. Whilst the new JVC 7700 is probably the ultimate in its facilities (almost), they expect new advances in ancilliary equipment—particularly in the area of editing & maintaining quality. No high-speed duplicator is on the market yet, but as the demand is building for one, it could appear at next year's show.

VIDEO DISCS are being intro-

could appear at next year's show.

VIDEO DISCS are being introduced this year, & like their audio counterparts they will only be available in a pre-recorded form. They are somewhat similar in appearance to audio discs, but there the similarity ends. Again, there are several different formats, none of which will clearly have predominance, & none of the discs of one format will fit another's machine.

COSTS ARE EXPECTED TO BE LOWER THAN FOR TAPE RECORDERS, approx. 1,000

RECORDERS, approx. 1,000
Swiss Francs being a figure quoted. They will produce high quality pictures up to an hour in
length on each side of the disc,
with hi-fi sound quality, probably in stereo. Features will include permanent pause, slowmotion, variable speed & random
search facilities.
ONE REVOLUTIONARY ASPECT OF THIS DISC will be its
ability to store up to about 500

thousand pages of material on one side of a disc! For this type of educational material, total playing time will be reduced to 35 minutes per side. It will be possible to get our own material put on record but, as with audio discs, it will be very expensive & only viable with a run of over 2,000. For instance, to give you an idea of the capacity of these discs, the Encyclopedia Britannica could be put on one disc. What about the Letters?

THEY ARE EXPECTING VIDEOD DISCS TO TAKE UFF quite fast, with discs being available

EO DISCS TO TAKE OFF quite fast, with discs being available at about 60 SF a time & sales of 1% of the video market in about 2 years. The effect on the tape market is likely to be a virtual end of the pre-recorded tapes, since the discs will be less than half their price.

THE AUDIO MARKET IS
LIKELY TO SUFFER a great
deal since the quality of the video discs will be way above present discs, altho' some manufacturers are coming out with similar
types of audio discs. The new
discs will not wear out since
there is no actual contact between

the scanning mechanism & me disc.

IN THE VIDEO CASSETTE MARKET THERE IS NOW LIKELY TO BE A RUSH TO MINIATURISATION & COST REDUCTION, & nowhere more so than in the camera field. Micro-chip technology & mass-production should all but wipe out the Super-8 market as the cost of equipment falls drastically. VHS is still likely to last a long while, but with further miniaturisation of the recorder.

IT IS VERY LIKELY THAT A COMBINED CAMERA-RE-CORDER WILL BE INTRODUC

CORDER WILL BE INTRODUC-ED quite shortly, maybe in a couple of years at the most, using a very small cassette which can then be edited onto a larger &

THE BASIC VHS WILL CHANGE MUCH, but there will be some continued refinements. Interfaces between it & the U-matic system are just around the corner, & editing is likely to improve still further. Quality of reproduction is unlikely to improve greatly, but better camera technology will help. Sound is likely to be improved. Already the National Panasonic Industrial Machine has stereo sound, & that trend is likely to continue.

ANOTHER DEVELOPMEN' IS SATELLITE BROADCASTING.—Already available now in the States & soon in Europe.
This will hit the established TV networks, & they are very worried about it. The mass audiences are potentially enormous & multilingual transmissions will soon be possible. This has a potentially enormous political consequences in Europe, with transmissions spreading over national boundaries—& behind the Iron Curtain.

WE COULD HAVE A PART WE COULD HAVE A PART IN THIS as it would be an effective way to reach a mass audience However, it all seems to be preparing the way for the AC & his computer-controlled communications system. Cheap technology will drastically cut the cost of TV sets, making them available to all just as the transistor radio is today. It is a real confirmation of what Dad has been saying. Will "every eye...see Him" on a TV screen?

The amazing new calculator-size TV from Toshiba.

The amazing new calculator-size TV from Tothiba.

THE PROSPECTIVE PRICE-FALLS ARE UNLIKELY TO ARRIVE FOR THE NEXT YEAR OR TWO, & the really great leaps forward are unlikely to become freely available until that time also. There is a worldwide famine for micro-chips at the moment, & still more complicated chips are in the pipeline to produce tomorrow's machines. THE EFFECT ON PRINTING is already being felt. Facsimile transmissions are now possible over the phone, as is the transmission of all types of data. This could make the typewriter as we know it today obsolete in a matter of a couple of years.

I AM SO GLAD THAT THE SHOWS WE ARE DOING ARE A BLESSING. You don't appreciate the light until you've been in darkness, & programmes like SS & some of the porno movies, violent police-type movies & war films—the foul excreta of the 'thore which is polluting the world—certainly help us to appreciate the good programmes when they come on.

FAMILY VIDEO NEWS!

From Keda & Yasuko; Australia:

Dear Dad,
YOUR COMMENTS ON OUR
FIRST VIDEO WERE A THRILL Africa & others which have the to our hearts & a super-help, & we ran out & got a tripod right away. Here in Aussie, our video in't completely compatible with the TV sets since the Radio Frequency is higher in Hong Kong & most countries than that in Australia for any given channel. This means that we can get our picture well, but without costly adjustments we can't get sound. What we've done tho', is to set up a small amplifier & speaker

ED with it, too, nowadays, along with the pro-black, pro-Jewish & pro-Illuminati propaganda which is clearly affecting the youth of today.

THEREFORE, WE HAVE TO SIFT MORE & MORE
THRU' THE MUCK to find the jewels which are quite frequently buried or hidden in some corner. But it is fun, mining the gold & to get some feedback as encouraging as your letters makes it worth it all! PTL! Love, Thaddeus.

VIDEOING TIPSI om Thaddeus; W.S. resea

From Thaddeus; W.S. researcher:

WHEN VIDEOING, THE
SOUND IS A PERENNIAL
PROBLEM. The best way to
overcome this is to have an extra
person to handle it as the mike
on the camera is usually too far
from the subject, so the input
signal is low. Copies are particularly affected.

A SMALL PORTABLE
SOUND STUDIO—a mixer, some
good mikes of different types
(but matching) & some good
quality cabies & pluga—can transform a medicore film into a good
one, since the ear is so much
more sensitive to distortions
than the eye. We seem to be
able to tolerate poor video, but
we really notice poor sound.

The new machines have "Dolby" on them which helps, but their very design—using a relatively slow speed—is a quality inhibiting factor. When there is one weak link in the chain it is essential to make all the other links as strong as possible to prevent any further losses.

ANOTHER LITTLE TIP WE LEARNED is that most video machine breakdowns are caused by mechanical breakdowns, the majority of them by human error, rough treatment or incorrect handling. We were just a really rare exception this month. If treated gently these machines should last very well. But put a tape in the wrong way 'round, then I pray it's a rented machine since the cost of repair is enormous! Since they are usually put under the TV, children must be kept away.

MAILING CASES FOR TAPES ARE NOT YET AVAILABLE at a good price with good security. Perhaps we could use reinforced envelopes in future which could be re-used. This would save a great deal of time, especially considering the number of people sending tapes after the ministry takes off. The last tape sent to us in the mail arrived fine with no problems, some 4 days after mailing.

Handyman Tips For Trailers!

Leaks! Closet Space! Cushions! High Chair!

Written & typed by Laz Pismo; U.S.A.:

I got convicted about sending in some things I had learned about fixing up trailers. . especially since reading FN No. 36 "Survival, Health & Travel Tips: Section." In Jesus' name, I pray that these things will help.

I. Sealing the trailer for rain: Most trailer manufacturers will agree & include in their manuals that at least once a year the roof (outside) needs to be coated completely with a plastic or asphalt-based aluminum roof coating. (The latter of the two being the better coating.) And if you travel a lot, it is reccommended to coat your roof each 6 months. This practice will seal and prevent most leaks occurring if kept up with faithfully. fully.

leaks occurring if kept up with faithfully.

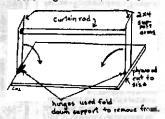

However, because most of us have PROBABLY BOUGHT used trailers and have occurred in idea nor record of the previously performed maintenance on the trailer, it would be wise to check your roof closely, especiably around all vents and seams for cracks or moisture or rain penetration. If so, before you apply a roof coating, you may need to treat your roof with a plastic roof cement. This is easily done, Directions usually will appear on the can and simply mean wire-brushing the surface & removing any previously applied coatings, then on a clean, dry surface (free of dirt & grease, etc.) apply the roof cement and let dry. . then your roof coating.

Also, you can then coat the entire roof which helps as an insullation for clothe containing heat as well as one-ir a reflecting surface for through the hot sun. PTL: 1 pole in the coat coating usually runs of the standard coating is \$6.00.)

II. Making extra closet

ons! High Chair!

II. Making extra closet
space:
This idea was originally from Kelia & Shiza
in an earlier FN. But, I
improvised a little on it.
Basically, I converted our
bath/shower into a closet.
Materials: metal rod for a
shower curtain, plywood
to cover entire top of tub,
and 2-2"x4"s.
Simply, all I did was
to cut a piece of plywood
to cover the top of the tub.
Next, I cut the 2"x4"s to
the height that I wanted to
have the clothes pole. And
attached them to the plywood
piece with hinges so that
the boards could fold down
filat onto the plywood for
easy removal when we need
to use the bath. By doing
this, we have much more
room for hang-up clothes &
can store things like shoes,
sleeping bags, etc. by
stacking them on the plywood.

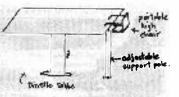

Then, to complete the clothes pole assembly, I drilled one-inch holes about half-way through the board to hold the pole in place. Incidently, the 2"x4"s were placed at each end of the plywood piece so they were flush with the walls of the shower area. Hallelujahl

III. Dinette cushions:
One thing that has been well worth every dollar that we spent is when we had our dinette cushions covered in clear plastic. What a savings!... on wear & tear and on spills. We found a place where for 10 to 12 dollars per cushion (depending on size) they made clear plastic covers which zip open and have heavy duty seams. I've heard of others provisioning a vinyl or naugahyde material and then having 'em sewn to fit the cushions...whatever method, it'll be a real savings! PTL!

IV. <u>Trailer skirting:</u>
For insullation from Trailer skirting:
For insullation from cold air & drafts on your trailer floor, I have learned from observing other campers at our mobile home park that ringing up a skirting to so around the bottom of the trailer (outside) where air circulates and blows freely undermeath will cut off the cold air significantly which comes up thru floors. People have used very inexpensive materials to do this, such as: aluminum sheeting, fiberglas sheeting, etc. (Perhaps plastic, even a canvas or thick, durable & weather-proof will do.)
PTLI Try it! In cold climates PTL: Try it! In cold climates it would really save on heating.

V. Hi-Chair:

As seen advertised in an earlier FN (the number I can't recall), a hi-chair which attaches to any table-top whether in a restaurante or trailer. We purchased one (they're made by House of Minnel in Illinois, U.S.A.) & had to improvise a little to make it work in our trailer. To insure that once you placed your baby or child in the hi-chair that it didn't make your table lop-sided or even weaken the table structure (which can happen, & in fact, did to our table) we placed an adjustable pole from the floor to bottom-side of the table to support the extra weight. And it worked wonders! In the U.S., you can buy a pole like this called an adjustable gym bar (in sporting goods store). PTLI (Or curtain rod!-D.)

Praise the Lord! I do hope that these little tips will benefit other Family members as much as they have us. I've learned a lot from my neighbor campers who've been at it for years. All I ever needed to do was strike a friendly conversation with them & slip in a few questions or problems I was heving and BINGOI-instant answers along with directions and where to get the supplies. And all I had to do was listen. . PGI

(Ed.: Thanks, Laz, for typing this in a finalised form. Family, try it if you like!—Only type on eside of the paper & make each column width the same! We'll use it as is if we can! GBY!) (Great new idea!—D.)

FIRST OF ALL, DAD'S LOVING CORRECTION GREATLY HELPED US to get our video shows rolling, thru' a "one-take revolution"! PGI Instead of shooting the same song or show over again till we reached the "perfect take", he strongly suggested that we do no retakes, which compelled each artist to be more prayerful & better prepared, as well as the video crew to be more desperate for each shot! It has borne such good fruit in helping us to produce more with more inspiration!—And it has been a real help too when we have had so many different artists to record! PTL!

WE HAD A GREAT FLOW OF VISITING WE HAD A GREAT FLOW OF VISITING ARTISTS from various parts of the world. First of all, arriving from Poland & staying with us for a month &-a-half, the very precious & talented "Stars & Beggars" recorded many beautiful songs in our studio. Next came a colourful couple arriving from Colombia: Black Zaccheus & his Caribbean wife Sympathy! They left Latin America by faith to come & record for the International eMWM Show, the Lord supplying every step of the way, & they are now working on their way back across the ocean!

VISITING FROM SWITZERLAND, <u>RUTH</u>
MANUEL CAME FOR 3 WEEKS, followed by
Marie Swiss, a faithful pioneer & real fighter
who at nearly 7 months pregnant worked long
hours in the studio & contributed to the show
with many very beautiful French & English songs
& a tape of instrumentals for the DM readings.
Her flute brought some new spice to our music,
& she also helped by adding a flute part to many
recently recorded pieces.

A VERY SPECIAL GUEST WAS POPULAR SINGER VICKY FROM HUNGARY who was able to come to Greece for a short week. Paul Michael had met her six years ago while on a short trip to the East Bloc. She then received the Lord & was mated with a brother, Jonas. It was certainly a real experience for her to meet such a big group of us & she was thrilled to be able to work with the musicians. She said she had never in her 10-year career felt so moved by the meaning of the soons & felt such concept for her as an

WE ALSO HAD A VISIT FROM EZRA & ITAL-IAN ROSE to record for our Italian Show "Musica Con Messagio", & recently arriving from France are Shulamite with little Mene, & Armendria of Jeremiah & Priscilla. They will be recording all of Aaron's songs as well as some children's songs, which we all have had a burden to use more of in the Shows. PTL! Please pray for them as they will be in the studio in the next few weeks!

OUR OTHER MAJOR VICTORY OF THE MONTH WAS THE COMPLETION OF THE 1ST VOLUME OF THE NEW MWM SONGBOOK, which so many Family members have been asking for! TYJ! It will contain all the songs already on tape & available to the Family, & we've already started on Vol. 2 which will include, besides a lot of new songs, the best of the old Aaron Songbook, hymns & traditional songs & carols specially chosen by M&M, & a lot of other exciting & feeding material for Sunday Fellowships, uplift & comfort. PTL! fort, PTL!

ON THE HOMEFRONT, WE HAD A FRUIT-FUL MONTH WITH 3 NEWLY BORN BABY GIRLS, all beautiful & healthy: Nothaly Spring to Michael & Patience, Julianna Faithful to Simon Peter & Sabina, & Vanessa to Abishai & Francoise. We are certainly blessed with beautiful children & it is such a joy to see them grow & progress as we teach & train them in "the nurture & admonition of the Lord", How true it is that if we "train up a child in the way he should go, when he is old he will not depart from it" (Pr. 22:6). "THEY WILL VERY LIKELY DO A BIGGER JOB FOR GOD THAN YOU have done or will ever do, if you will only train, teach & lead them right, set the right example, & launch them into service for the Lord. In fact, the Lord has prophesied time & again that these children are going to be witnesses unto Him as the prophets of old in the very end!" (DM 345). Already they are quite talented singers & performers, as well as faithful little supporters as they go out regularly singing & DTD.

THE CHILDREN ARE BEGINNING TO BE
REAL SOUL WINNERS! Dicon & Heidi led several of their neighbour Greek friends to the Lord on their own, & the children are our soul shiners when they go out. With the help of Abel Seaman, our faithful teacher, our inspirationalist Peruvian Manuel & our queen mother Fiona, we made a special fittle KP documentary showing the various activities of the children throughout the day, how, a mother of 7 gets organised in a carvan & teaches her own etc., which we hope will be an inspiration to other big families & little teams camping & living together. We are so grateful for all the wonderful advice from the MLs & Dito & Techi Letters & all the material from Family Care which

are always such a source of inspiration & guid-ance when we have so many little ones to care for IN CONCLUSION, WE ARE SO THANKFUL FOR ALL THE LORD IS DOING to help us in this exciting ministry, for all the love, encourage-ment & support we are receiving thru our beauti-ful Family worldwide & the precious needed guid ance from our Shepherd & Shepherdess, which keep us going! Much love & prayers, Paul & Mar-ianne.

I GUESS MY FIRST PROB-LEMS OF GETTING DISCOURAGED & FRUSTRATED came shortly before the RNR when Jethro was in charge of Latin America. Things became so blobbed up & so tightly controlled & there was such a materialistic & unloving spirit from him & some of his staff that I felt trapped & began to get defeated. I knew my field was Latin America, but it seemed like you just couldn't make a move without his express permission & approval, & we had fallen out of his "good graces".

WE WERE IN MEXICO AT THAT TIME where we had given up our administrative responsibilities to work with the music & show-group ministry. Then, almost simultaneously with the RNR the ax came down hard on the work in Mexico by way of a Presidential order that sacked our colonies & landed most of our people in prison. This turned out to be a blessing in disguise as it really purified the Church, both the brethren witnessing in-

side the prisons & those of us on the outside laboring for their re-lease. IN FACT, IT WAS A TOTAL RENEWAL IN OUR LIVES (for

lease.

IN FACT, IT WAS A TOTAL

RENEWAL IN OUR LIVES (for the first time I was on the outside of the bars) as we were faced with the challenge of lighting insurmountable odds for a truly righteous cause, the release from prison of our precious brethren. It got us more desperate with the Lord than we had been for a long time & it felt so good to be fighting for all we were worth once again.

AFTER THE BRETHREN

WERE RELEASED WE BECAME A BIT LIKE A PEG WITHOUT A HOLE & in early 1978 we started a year of drifting which took us to Acapulco, Miami, Laredo, Aguscalientes, Mexico, & finally Houston, Texas after the last Homegoing Letter. It was there at my parents' home on New Year's Eve that I began to reflect over the past year & see how we had accomplished almost nothing & were making very little progress.

THE OTHER BRETHREN

WHO WERE IN THE SAME
RUT, talking a lot about going to the field but doing little or nothing to actually get there.

We had also lost our entire travel fund to a "king" who never returned it & so were stuck in Hou-

ston, running up a bill with my parents while we sat with no money, no job & no specific plan of what to do.

SO WHILE PONDERING THE SITUATION THAT EVENING I MADE THE DECISION to take some dramatic action to change our state of affairs. I

SITUATION THAT EVENING I MADE THE DECISION to take some dramatic action to change our state of affairs. I reasoned that since we wanted to go to Latin America & many of those countries were closed up to us at the time that I could get a job with an international corporation who could pay our way, get our papers etc., & provide us with the cover to continue our ministry in L.A. This yea's certainly a "Don Quixote" proposition, being as! was certainly a "Don Quixote" proposition, being as! was high-school dropout with virtually no System-related experience, BUT WITH THE TYPICAL BLIND FAITH WE'VE ALWAYS EXERCISED BEFORE IN THE FAMILY, I LANDED A JOB the following week with the Holiday Inn hotel chain as an Area Sales Representative in San Antonio. They helped relocate us there & I worked for three months learning the ropes of my new job. They then offered me a Sales Director post at the hotel in El Paso, Texas, which at that time held the worst reputation of any hotel in the Holiday Inn chain. It was the dirtiest, most unprofitable property they had, but they felt that perhaps I could turn it

around with my knowledge of Spanish etc.

WELL, I TOOK THE OFFER & Would have given anything to have one of our beautiful sisters would have given anything to have one of our beautiful sisters would have given anything to have one of our beautiful sisters would have given anything to have one of our beautiful sisters were the year before with one of the best inspection ratings etc., & of course the company was thrilled. At this point, the Mexico position opened up with the international division. I was interviewed & accepted for this in May of 1980 & immediately began a familiarization tour of their top hotels throughout the U.S. before beginning my assignment in Mexico City on June 1st.

IT WAS DURING THIS TIME IT HIS TIME IT WAS DURING THIS TIME from the Lord, & after the first town onths, siting businesses etc., that I saw just how lonely the System can get. I was living in the hotel, going to the office every day & visiting businesses etc., that I saw just how lonely the System can get. I was living in the hotel, going to the first two months, & I was only able to fly back on the weekends a few times to visit them.

I BEGAN TO UNDERSTAND THE FF MINISTRY FROM THE

Into my job in an attempt to fill the void in my life. I got up at the crack of dawn & listened to the system motivational tapes & studied anything I could find regarding my job & industry in an attempt to become an expert in my field. I was always the first into the office in the morning & the last to leave at night. I'M AFRAID I WASN'T A VERY GOOD INFLUENCE on the other Family & ex-Family Remembers in the Mexico City area as I was on a big kick trying to dissect everything from an intellectual standpoint & encouraging everyone to be successful in the System. We had a little citick of ex-Family people who would get together regularly to party & fellowship etc.

WELL, BY JANUARY OF THIS YEAR I RECEIVED ANOTHER PROMOTION & began to travel a lot more as I now had responsibility for sales in the entire country of Mexico & was reporting directly to their worldwide corporate HQ in Memphis, Tenn. As I ascended to higher levels in the company, the intense politicking & often-times ruthless tactics of the corporate world began to blow my mind. I realised I was just playing a game but the stakes became higher & the game more serious.

AS THE YEAR PROGRESS-ED I WAS REALLY START-ING TO GET BURNED OUT so we decided to take a Caribbean cruise for a week while the children stayed with Grandma, to kind of give ourselves a break & allow us to re-evaluate things a bit. The cruise was free, as I performed a show on the boat in the evenings & it just totally took us out of our old environment. It got us really thinking about our entire lives & realising how unhappy we actually were in our present situation.

got us really thinking about our entire lives & realising how unhappy we actually were in our present situation.

MY PARENTS WENT WITH US TO SEE ME PERFORM, & I believe my Dad was beginning to get concerned by how I'd changed—heavy drinking, cursing, short temper etc.—& he longed for the "Watchman" he used to know when I was with the Family. He even sat down with Katrina & me one night & started preaching to us that Jesur was the most important thing in this life & not to forget the Lord etc. It really shook me up having my own Dad preach to me!

mel
WELL, BY THE TIME WE
GOT BACK TO MEXICO CITY
& I stepped into the office the
following Monday, I fell into a
state of depression & realized
just how miserable I was. I had
been on such a "positive think-

ing" trip up till that time that I hadn't really let those thoughts enter my mind. But there I sat in my office with my door shut realizing what a trap I was in & how I actually hated what I was doing.

AND GUESS WHO SHOWED UP THE NEXT DAY? Yep, Faithy & Juan, at a time when my defenses were down & all the wind was out of my sails. It just blew my mind to see them as they were so sweet & loving, just like I had remembered them.

THEY CAME TO OUR APART-MENT THAT EVENING & showed videos & it just totally blew my mind. That was the beginning of the Mexico videos you saw. And if I looked a bit freaked out & bewildered it's because I was I was practically in a state of shock & just didn't know how to react to all the love & Spirit I was experiencing.

THE NEXT DAY WE WENT INTO THE STUDIO & began recording my songs, really began preaching right back at me. By the second evening of recording my heart had given up its last pocket of resistance & I decided I was going to come back home to my real Family & serve the Lord again full-time. PTLI

AFTER MAKING THIS DECISION & ATTENDING THE

illy & serve the Lord again fulltime. PTL!

AFTER MAKING THIS DECISION & ATTENDING THE
MEETING IN LAREDO! was
summoned to Memphis for a conference with my boss (my company still didn't know at this
point). Well, it was really something as they gave me every thing.
I had been asking for for months
on a silver platter—a total package which nearly doubled my present income, raise, housing allowance, company car etc. Hal It's
just like when Jesus found his
disciples back fishing again catching nothing & then made them
catch their biggest catch ever—
& then told them to leave it all
behind. PTL!

THE FOLLOWING WEEK!
HAD TO CALL MY BOSS &

DROP THE BOMB about my plans to forsake all & it really blew his mindl. They even called ne back & invited me back to Memphis to offer to put me over all their sales development in South Americal. And when I refused this my boss finally broke down & said he admired my decision & really wished me the best etc. A real miracle! Unfortunately my parents didn't take y the news quite so well & proceeded to write me out of their will & practically disown me, alftho' I still have hopes that in time my Dad may be won back. WHEN I CIRCULATED A MEMO TO THEIR ENTIRE MEX.

**ICO OFFICE citing my decision to forsake-all they just couldn't believe it! I mean, operations just came to a standstill for over an hour & people stared at me like I was a creature from another planet! So forsaking-all this second time around was a bit more involved than the first time, but was certainly a greater restimony to a lot more people. I began receiving calls from associates across the U.S. & Mexico & was able to be a real witness to many of them. THE LORD ALSO HELPED US TO SELL EVERY SINGLE. ITEM in our apartment in three-days' time so that we could hit the road. Also, by this time the Spirit had moved on our little group of Family "alumni" there & most all were making preparations to forsake-all & follow the Lord again also. PTL! So Job & Tekoa were able to make a generous donation to us from the sale of their apartment' to give us the funds we lacked to make it to Puerto Rico with our car & popup, BTI!

**SO, THANKS TO YOU & THE LORD we're back on the mountain & happy in His Service once again. We love you both so much! GBAKY forever!—Your son, Watchman. (PG, Son, He still answers prayer! We never forgot you & we're been witting for a miracle!—You! Thank God you came! II.Y! GBAKY!—O..)

Fruits of A Fellowship Revolution!

From Jonah Prodigal Son;
Europe:
IN THE FALL OF 1980. A
RELATIVE OF JEMIMA CALLED
BLER 6 asked if she 6 some
classmates could come over
to interview Jemima for their
religion class. They came

local newspaper articles 6

more about our beliefs. We
got a chance to share with
them about our revolutionary
way of life, but what really
impressed them the most was
our happy children who stood

it to them with the songs of
the Spirit.
THE KIDS REALLY BROKE THE
ICE, 6 all the students melted with the love the children
showed them. They got so
turned on that they invited
us to speak to their religion
class 2 weeks later. So, to
avoid theological hair-splitting by the teacher, we took
the kids along as the "proofs
of the pudding, the samples
of the sermons"—we got together kids from several famliles, and by the hand of
God our first little KP group
was formed! PTL:

SHORTLY THEREAFTER OUR
GOOD VS SHEPHERDS Nahum &
Joan came, answering our
prayers for more shepherding
& fellowship, & they stayed
for 7 weeks visiting each of
the more than 20 homes here,
really laying down their
lives to give us all the loving attention we so sorely
needed.
THEY ARRANCED ANOTHER AREA
MEETING & shared with us
that as an area we have more
than enough talent & manpower
to do the job of caring for
our children & sheep, but
that no one can do it alone.

UP TILL NOW WE HAVE VISIT-ED A TOTAL OF 12 DIFFERENT HOSPITALS, schools & old folks homes, & nearly 200 souls have been saved as a result of our KP ministry here! Both children & parents got invaluable experience & training to take with them as they launch out by faith with their own little singing groups & hit the road for Jesus! PTL! GB Dad & the KP team at MMM for inspiring us to change our part of the world!

(Amen! GBY&CTMYAB!)

LESSONS LEARNED DURING OUR

World!

(Amen! GBY&CTMYAB!)

LESSONS LEARNED DURING OUR
KP MINISTRY:

1. VISION: "Training &
Shepherding Babes" #73:114171 really helped me to
trace our children like new
disciples, lead & inspire
them to obey rather than
drive'em.

2. OFEN DOORS: When phoning for contacts, we mentioned we had a children's
group, & the kids got us in
where we wouldn't have otherhvise.

3. TRAINING: We don't need
perfection, just willing
hearts. The kids were usually the ones who pushed us to
get out. After a while they
got tired of practising"Enough talk; let's get out!"

4. SIZE OF GROUPS: The
ideal is 4 to 6 children.
More can be confusing & defeat the whole purpose: a
united sample. Quality not
quantity!

5. STRUCTURE: Make sure

united sample. Quality not quantity!

5. <u>STRUCTURE</u>: Make sure each group has a pillar-- a child who can sing loud & clear & lead the other children.

clear & lead the other children.

5. AUDIENCES: Start small. Begin with friends & relatives & other Family members as audiences. Gradually build up to small crowds in parks & daycare centres. Try to have the kids get some experience singing in rublic to build their confidence before tackling large crowds.

7. PREPARATION: Allow lots of time to prepare, pray to-

egether & go over pointers before leaving for appoint-ments. Avoid the rushy spir-it. Practice the day before. (They explode in practice & have nothing left for the sperformance)! 8. FOLLOW UP: Get names &

addresses at singing appointments. Go up to the director & talk privately with him about helping with a donation to cover costs; do this after the sample! Be faithful to write thank-you letters. Happy singing! [Amen!]

The beautiful end result: Love never fails & it goes a long, long way. Regina gives a hug to a happy lady.

Fellowship Strengthens Faith!

exciting to be on the Field again.

WE JUST RECEIVED MAG 39 & STARTED TO READ "The Fellowship Revolution". God bless Dad for it. For the last 3 months before we left London, we were having fellowship & prayer meetings quite often with all the Family there, & we all could see a very deep need for it.

IT STARTED IN FEBRUARY DUE TO THE INITIATIVE OF SHEM PIONEER (God bless his pioneering faith). A lot of people were talking about fleeing & working on their funds, etc., but very few were actually leaving, so we had this first meeting to speed things up in the Spirit & to have desperate prayer together for the Lord to show each one of us where to go & when to go & to provide all the needed funds. Twice as many people as expected turned up at this first meeting—showing the real need for it.

THREE WEEKS LATER WE HAD ANOTHER MEETING TO SHARE ABOUT WHAT HAD HAPPENED SINCE THE FIRST ONE—the testimonies of the miracles the Lord had been doing as a result of our united prayers. And boy, had He done heavy exciting miracles! Enough funds were provided thru just one fish met Escorting so that a home of four adults was able to go to South America, Plus lots of souls were savend during that time & faith & convictions were strengthened.

SO MANY BRETHERN CAME TO THE SECON MEETING, that the little house where the meeting was held could hardly

I'D LIKE TO SHARE OUR
EXPERIENCES ACQUIRING
VIDEO EQUIPMENT since reading the inspiring vision for world-wide Family fellowship that Dad has given us. After searching the shops in London & reading several informative magazines, the best being called "What Video"", as well as the Family News, we decided upon either of two portables: The JVC HR2200 or Panasonic's new NV3000.
SEVERAL DIFFERENT
SALESMEN AT SEVERAL DIFFERENT SHOPS ADVISED US that the picture from the Panasonic 3000 was the best possible on the market. Americal The Lord did miractes to help us get here, 5 adults, 2 children & 18 pieces of luggage, including our video equipment. At a wonderful going away party with the DAF, we had specific prayer regarding our baggage, that we'd have no problems with either that or the customs officials.

DEAR DAS CHRIS & SIMON RUSHED US TO THE AIRPORT on the day of our flight, almost late. It turned out to be surely the Lord's doing as we were so late that they whized our luggage thru with scarcely a glance at all the bags, even the video suircases which we had to stop at the gate to collect our sales tax refunds. From Paris we flew directly to South America, avoiding Miami, as we had heard from several sources, including Faithy's own testimony, that for anyone to land in America after having been gone for some time could be in for some interrogation or difficulties.

The fact that we lost nothing was a very great relief & testimony to the Lord & His desire to inspire His children with what

MUCH TO OUR HORROR, we discovered that we not only had no money saved, but we were \$1,000 in debt! We were getting so sucked into the System that soon we would not have been able to leave even if we wanted to because of our financial obligations.

THIS REALISATION WAS THE FUSH WE NEEDED TO CLIMB OUT ONTO A LIMB & SAW IT OFF. If the Devil can't stop you from being Christians, he'll certainly try to stop you from being Christians, this is what was happening to us!

SO, JARED PUT IN 2 MONTHS' MOTICE AT WORK, & we set the date to leave. The first exciting repurcussion of our decision to move was not quite what we expected. The day after deciding to move back to the field, we received 2 new bills in the mail. They had made a mistake in our rent, & we now owed them \$700. Also, we received a bill for \$300 on an old loan we thought was taken care of.

ISN'T THAT FUNNY? Now we were \$2,000 in debt, but we were excited because we knew the Devil was mad & was trying to scare us into changing our minds, It takes an impossible situation for God to do a miracle, & we knew that only God could deliver us,

SO, ME CONTINUED TO STEP OUT BY FAITH & began preparations to move. At this

We made a few interior changes, putting in a bed for sleeping, & then went to a nearby camperound to see first-hand all the camping Letters come to life. A MIRACULUS NEW SIAKI IN IN From John Caravan; Brasil: Dearest Dad, Maria & Precious Family, MORDS HAVE JUST NEVER BEEN ABLE TO TOTALLY EXPRESS how much we love you & how thankful we are for what you've done for us. To be a part of this greatest of all love stories is the biggest blessing & joy, & it's out of this world! There's nothing better, nothing even close:— & we'd like to share some of the joy & blessing we've received since first hearing the Letter "Americans Abroad" almost one year ago.

REBECCA & I HAD JUST WATCH-ED THE LORD MIRACULOUSLY PROVIDE OUR LITTLE TAMILY Of 4 with a beautiful Mercedes van, fully built inside, at half the price it was really worth, which we were going to use in going to India to work as travelling MWM Minstrels. It was a great testimony to many sheep we had been ministering to, besides a tremendous plessing to us. We thought it would just be a few more months & then "India here we come", but only 2 days later we received "Merricans i Abroad".

IT WAS A BOMB THAT SENT US INTO DESPERATE PRAYER, & as always the Lord spoke loud & clear: "Behold, to obey is better than sacrifice, & to hearken than the fat of frams."(I Sam 15:22) Even though we already had clear-ance to India, it was still on the dangerous northern hemisphere. (Altho's o, it is in oas ger area than most & an unlikely larget & far enough South to be less likely to suffer fallout—South of the Tropic of Camer. John Caravan with children isinging away on the streets parallel to all the Lord showed us to do, the first step of which was to return to the States to spoil Egypt. I have to admit that it was at first very hard for me as I'd never had a burden for South America & would have rather gone just about anywhere else, but in obedience to what the Lord had shown us we began by faith to hit the streets of Europe for one more month to prepare to move, sell our van & raise the little extra we needed to begin our journey south.

BIFORE THAT MONTH WAS OVER I HAD SUCH A BURNING DESIRE FOR SOUTH AMERICA that I couldn't contain, sharing our new vision with everyone we met. FC! We knew that the Lord was already blessing our obedience!

UPON OUR RETURN TO THE STATES, the Lord showed us to "go to the land of the

earthquakes & shake 'em up one more time." Being in California already we felt certain it was San Francisco, & sure enough we'd caused no small stir by the time we had to fice.

WITHIN OUR FIRST MONTH THERE, Rebecca's brother, Paul, came down from Canada to visit us, & after 5 days of witnessing to him out in a beautiful campground, he finally opened his heart & received the Lord. He returned to Canada only to find that his old life & friends were nothing in comparison to his new life of love in Jesus; so after 6 weeks he joined us in full-time service, bringing along his trumpet & a strong desire for South America—a real timely blessing!

SHORILY AFTERNARD, THE LORO OPENED WIDE A DOOR TO INVADE A PARTICULAR CHURCH DENOMINATION where we min-

istered to 1% of their churches in the area as well as their district convention. It became a very draining ministry at times which kept us in desperate prayer & longing for some real Femily fellowship with other brethren, which we couldn't find.

ME ALSO REALLY WANTED TO GET GOING SOUTH but the Lord told us to be patient, that when we were done in our present ministry we would go quickly & receive the promise(He. 10:36). He also gave us Psalm 46 which was a real comfort with our being in San Francisco when tremors & quakes began to occur in the area. And we got Gal. 6:9, "Let us not be weary in well doing: for in due season we shall reap, if we faint not." We were hoping for some good field support, but the Lord had another kind of reaping in mind...a new disciple:

OUR "GOLDEN OPPORTUNITY"
CAME TO A COUCK & SUDDEN END when a girl from one of the youth groups we ministered to wanted to come with us. The churches had been receptive to our message of real service to the Lord, until one of their own wanted to come with us. The churches had been receptive to our message of real service to the Lord, until one of their own wanted to come with us. This finally exposed their hypocrisy & unwillingness to serve the Lord themselves, & they became real enemies.

HAVING FINISHED OUR JOB
THERE we headed south to Los Angeles to meet with Jonathan & Sharon & their & children who had sent us a letter saying they had returned to the States from Peru for what they had hoped would be a short visit, only to find that Sharon had cancer. She had been miraculously healed, but they, like us, were also having a hard time finding fellowship.

WE MET TOCETHER IN A VERY NICE CANFEROUND BY THE OCEAN & were ecstatic with joy as we bathed together in the

love & fellowship we each had longed for. It was also the first time that Paul & Genesis had ever met any brethren other than Rebecca & myself & the kids, & this filled & thefiled them more than they had dreamed. They could see that we were really just one Family.

AFTER THE KIDS HAD FALLEN ASLEP from such an exciting day, we gathered together. We could feel the Spirit beginning to move us all as we thanked the Lord for time together, Sharon's nhealing & good health, & after a time of praise we asked the Lord if He had anything for us...and He began to pour out:—"In unity there is strength!"

THE LORD SPOKE A LOT ABOUT THE CHILDREN & how they would lead us. He reminded us about our call to go south & the many blessings which would come as we went in faith.

THAS SO INSPIRING, thrilling & vision-increasing for everyone! Afterward

we shared our hearts & were amazed at how the Lord had somehow thru our scatteration brought us together in the same area at the same time without either of us realising the other was there. We had worked togeth-with Jonathan & Sharon 2 years earlier in Europe, & we had each afterward thought of working together again some day. His ways are truly unsearchable. PCI IN THE NEXT FEW DAYS WE TALKED MORE ABOUT WORKING TOGETHER & going south as a team, & after another hot prayer session we saw that making our "Exodus" together was what the Lord wanted. He showed us to go quickly & that if we would diligently call upon Him He would supply more abundantly than we could imagine.

THE LORD ALSO SAID THAT ME HAD ALL BEEN THRU A PURGE but that it was time again to come together in the hands of David! TYL! What an even greater fulfillment in the "Fellowship Revolution"! (Amen! FILI GBY!)
THE FOLLOWING PROPHECY MAS GIVEN TO US ON MARCH 21: "... and the voice of musicians & the voice of musicians

OUR TEAM HEADED TO MIAMI, where the Lord had shown us to leave from, while Jonathan & Sharon stayed a short time to tis up loose ends with relatives & have one more visit to one of the doctors that had operated on Sharon, for a final confirmation on her health & recovery which we were all sure would prove to be A-OK!

THE LORD SUPPLIED FOR BOTH TEAMS MIRACUOSLY ALL THE WAY to Miami, providing everything we needed thru donations & provisioning. We even had a blow-out on the highway in the middle of nowhere with only a fair spare, but the Lord raised up a man who practically gave us 2 very good used radials for our trailer... & we were back on our way!

AFTER REJOINING EACH OTHER IN MIAMI at a beautiful campground not far from the city but very reasonable, we spent one more month finalising plans & getting needs. We researched a lot of avenues of travel & discovered that all of the lower budget fare going to South America had been discontinued except for those of Franiff Airlines. Only six weeks before there had been quite a few. By a miracle all 12 of us were able to get on the same flight, each flight having only a limited number of budget seats available.

out more about her. Well, as a result of that first meeting, Paul & John were invited to their men's fellowship breakfast(which they continued to attend regularly until we left the U.S.), & from there we were all invited to have dinner & sing at their monthly banquet.

banquet.

ONE CONTACT LED TO ANOTHER, 8 in a couple of weeks we were amazed to find that they not only wanted to help our work at that time with generous donations(they even gave us their tithes!), but they expressed a desire to help us in S. America too.

TYJ! We sang at their next banquet also 6 Sharon gave her testimony too. Individual members were very helpful to us also, inviting us for dinner, giving us clothes, 6 even driving us all to the airport in 2 pick-up trucks on the day of our departure. What a blessing!

HAVING HEARD SO MUCH ABOUT THE NEEDS 6 lack of certain items in S.A., we shopped around looking for the best deals, spoiling Egypt all we could. The Lord really blessed the selling of our vehicles, enabling us to get many useful things. We could see that we were beginning to accumulate quite a lot, 6 as we did our final packing we had much more than the 12 of us were allowed to bring on the plane.

ME CHECKED INTO SHIPPING IT WATER SAME PLANE, but it was very expensive. Still we thought it might be best, to avoid last minute problems, so on our departure day we went with our baggage to look for the freight terminal. But in spite of our determination 6 searching, we couldn't find it. We just kept getting wrong directions from everyone till finally it was getting late 6 we just had to go by faith with it all to the

airport & expect a big miracle, as it could have cost us mearly \$1000 in excess baggage.

ME LINED UP ALL OUR BAGS & BOXES NRAT HE CHECK-IN COUNTER, & it was quite a sight. We prayed together (discreetly in the airport), & the Lord comforted us by showing that He was in total control & having His way.

HE GAVE US PR, 21:1, "The King's heart is in the hand of the Lord, as the rivers of water: He turneth it withersoever He will." We were sure glad that we were all dressed in our best & that our luggage was nice & system-looking, as we knew a good outward appearance would help in doing what we could do so God could do the rest; & He sure did.

BY THE TIME WE HAD EVERY-THING READY TO CHECK-IN with proper labels, everyone else was through, leaving only the guy behind the counter, & he turned out to be a real "king". He saw all our things & asked how many of us there were. He! We just smiled, & as he began weighing it all & tagging it we began sharing with him about our plans to travel & pointed out the children, sharing with him about their singing around the world to spread love & happiness.

I WAS LOOKING DOWN WATCH-ING THE WEIGHT ADD UP AS HE PUT IT ALL ON THE CONVEYOR BELT, & many of the pieces of luggage, especially the camping boxes, were considerably overweight. He finally came to the last piece, which was the children's trunk with all their equipment & instruments for performing, & he said, "I'm going to have to charge you for this one!" It was twice the maximum weight. I looked at him & said, "Oh, that's all the kidd' things." He stopped & looked around to see who else was nearby, put a tag on it, & said,

"Here's your ticket & baggage claim checks. Have a good trip!" Hallelujah! He let all our baggage thru for free. We all wore smiles of thanks & he smiled too.

WE STILL HAD A LOT OF CARRY ON, more than allowed, but we knew that we had tried to ship the extra, so God was just going to have to do it. And when we got to the check-in area, the very same guy was there that was at the counter. He saw us with all our little bags & kids, just smiled & said, "Bon Voyage"! What a miracle & a relief! We thought a lot about the admonitions & warmings Dad gave in "The Maltese Doublecross" as we looked at all our things in the airport, but since we'd tried to ship them & they would be a blessing to the work in our new field, we felt that the Lord wanted to show His power & might & how much He was with us for our encouragement in heading south.

ENCOURAGE US IT DID!—but we knew that on the other side was the Brazilian Customs, & that an even bigger miracle was only 9 hours ahead.

ALL THESE THINGS KEPT US

miracle was only 9 hours ahead.

ALL THESE THINGS KEPT US UNITED IN PRAYER. We knew that the Enemy would have loved to have gotten in, but praying together kept all our eyes on the Lord & enabled us to have a real fun & exciting flight together.

Dut had moved to Brasil where he was born & raised, although he went to college in London.

ME EXPLAINED TO HIM OUR PLANS OF TRAVELLING, camping & possibly buying a bus for the 12 of us to live in. He was very friendist, the was over at the customs tables explaining our situation to the officials. He turned out to be in charge of incoming passengers, & with his help we were speeded thru customs with the officials checking just a couple of suitcases & peaking in 2 of the boxes to make sure they had camping gear.

IT MAS DEFINITELY QUITE A HIRACLE & far from usual, as the officials were checking many incoming passengers thoroughly. Again we want to emphasise that it was only because we had tried to do our part in shipping our excess baggage that we had the faith in prayer to go ahead & expect the Lord to do the impossible.

IT'S NOT SOMETHING WE WOULD RECOMEND TRYING JUST TO SAVE MONEY, as with what we generally saw in going thru customs, it wasn't an easy

search of our new "motor-casa". There was a home in the area which opened wide their doors to us & helped us search, & within 4 days the Lord not only supplied a bus, but 2 buses, both in good shape, which we soon discovered was the Lord's plan to divide us into 2 homes, opening our doors to nationals & even new disci-ples. THEN THE VERY DAY WE MADE
THAT DECISION, up walked with the Elias, a sweet on-fire national disciple we'd fallen in love with in the city where we'd found the buses! We had just been talking about him that day too! By a real miracle he'd received from the Lord that he should come work with us, as we had already told him he could if STR from the Lord that he should come work with us, as we had already told him he could if STR from to time too, as we were preparing to leave that campground & he would have had a very difficult time finding us once we'd gone. We were all so thrilled to see him—we love him so much!

ELIAS HAS ALKEADY BEEN
SUCH A BLESSING TO US, helping us with the language, witnessing & whning souls, as well as doing a lot of housework & helping the children. He's our official cunspirationalist now too & does a great job of keeping everyone inspired!

ME'VE ALSO BECOME CLOSE TO A SWEET COUPLE, Lucas & Jessica with their 2 children, Phillip & Gabriel, who have been working together with so much Family agains oc closely, & since they are very talented musically, it is being a blessing to Rebecca, Paul & me, who have been working together musically with the kids ever since Paul joined 7 months ago. RECENTLY FINISHED HIS FIRST YEAR OF SCHOOL(KINDERGARTEN). It is the same school in which Ado teaches older children, & attending helped Daniel learn the language so well that he has no fear about conversing with others in Spanish.

PURING THE COMMENCEMENT EXCERCISES for the kindergarten classes, Daniel's class of 20 children sang "You Gotta Be A Baby" in Spanish to an audience of about 500 students & parents. He was so excited(& so were we) to get the opportunity to be a witness to so many.

THIS IS A SELAH FIELD for the Family, & when we came here we didn't sing it so we wouldn't be recognised. But we eventually found out that the song had infiltrated into the churches from the "Family that had been here years ago, & it is very well known. As in "My Love Is A Legend", we had to stay behind the scenes & couldn't tell them that it's our Family song.

ANOTHER LITTLE TESTIMONY

hind the scenes & couldn't tell them that it's our Family song.

ANOTHER LITTLE TESTHONY IS HOW THE LORD SUPPLIED OUR BUS FARE ONE DAY when we did not have any change. We are usually able to provision the ride, but this day the driver said no. In desperation, we even passed out some Letters on the bus, but we weren't able to get any money to pay as we got off the bus. I reached into my pocket to show the driver I didn't have the fare, & from behind us we heard a deep voice say in English, "Go on God will pay for you." So we got off & curiously tried to figure out who had said it. Thank the Lord; He always takes care of us!

ALSO, WE REALLY WANT TO SHARE A TESTIMONY ABOUT WHAT HAPPENED WHEN WE DECIDED TO

Some of Ado's students at the end of the school year.

TITHE 15% THIS MONTH; we did not know how exciting the Lord was going to make it for us.

FIRST OF ALL, HE POURED OUT HUNDREDS OF DOLLARS WORTH OF PROVISIONS—so much so that we didn't have enough cash to cover both the 15% of the rent. Our mail ministry during that month had cost us an unexpectedly large amount for printing 6 stamps, so we were really short of funds; we had to decide whether to send in only 10% of pay the rent or "keep our vow" (Ecc. 5:2) of send the 15%, trusting God to supply another \$100 that we needed for the rent. SQ, FOLLOWING DAD'S AD-YICE IN "GOD FIRST" (You are to pay your tithe even if you can't pay your rent), we knew that the Lord had to do ""BUT IF YOU PMT HIM FIRST & YOU PAY HIS TITHE, "HE WILL" TO WANTE THE WILL THE W

It's His Word, it's a contract, & He cannot & will not violate it. He will do it just as sure as the Law of Gravity! It's His Law of Economics--if you put Him first & you pay your full tithe, God will bless you for it & He'll see to it that you have more than enough to pay the rest of the bills."(#934:10)

Cutting The Cord of Compromise! LEANING ON THE SYSTEM ALMOST PARALYSED FAMILY'S MUSCLES OF FAITH!

From Asaph & Claudia; Canada:

WE JUST WANT TO SHART SOME OF OUR EXPERIENCES, especially about lessons we have learned in the last year. Having returned from foreign fields, we didn't feel very much like part of the Family here, & didn't feel any real closeness with the brothers here, except for a few whom we saw from time to time. We followed the trend common to most of the Family in the area, & we pretty much worked by ourselves.

IN THE SPRING OF 1980 WE STARTED TO GO ON THE ROAD REGULARLY, based out of the town where we had a little apartment. The reason we kept the place was because of welfare, which Claudia received for herself & 2 children. We thought to just "use it" to raise funds to get back to the field, but now we know that in our specific case it wasfor became) a compromise & a tie that the Enemy used to keep us dependent on the System.

AT THAT THE WE DIDN'T REALISE OR DIDN'T ACCEPT THAT LEANING ON THE SYSTEM & trusting the System was weakening our aprintual muscles of faith & hindering us from being a real powerful witness. We couldn't honestly tell those we witnessed to that we lived by faith & were totally dependent on the Lord, when here we were receiving welfare from the System. Plus, we were not really free to follow where He led us, as we were tied down to this place & could not take trips as far & as long as we wished.

AS THE THAT WENT BY, WE COULDN'T MANAGE TO GET OUR FUNDS TOGETHER. & although all this money came in, it seemed like we put it in abag full of holes; always something happened & we had

To spend it. Obviously it was the Lord dealing with us to teach us we needed to trust in Him. It took us a long time to learn the lesson, & I even took a System job during the winter to make ends meet.

AltHOUGH WE MREE FAITHFUL 10%ERS, the Lord wanted us to be 1100ers, & every Mag we read brought new conviction to our hearts that He wanted us full-time & totally depending on Him. We read testimonies & Letters on the subject & felt convicted. And when we finally took our step of faith & first cut off welfare & then quit the job, the Lord mightly blessed us. LORD, & I don't think I can remember getting together as a body to listen to the Lord, except in our own Home. The Candlelight Service was beautiful & sincere, but at midnight as the last candle was lit, without even giving the Lord time to speak or have the final say for the year or encouragement for the new year, the party began with dancing & fellowship. This we all enjoyed so much, but we were surprised that we didn't take time as a body to listen to the Lord, after we had each taken time to speak to the Lord. THAT NIGHT ALMOST EVERYONE SLEPT OVER. The next morning brethren were awake at different times & then

THE LORD'S SPIRIT JUST TOOK OVER as it was obvious He had been waiting for us to get quiet & still. He led us to read Matthew 10 & then to just be still & listen to the Lord, as surely He had some leading or Word for us for the New Year. We all sat on the steps in the warm sunshine & the Lord spoke & spoke thru everyone. The brethren gave verse after verse, & we were there at least a %-hour letting the Lord speak, & one prophecy followed another. The Lord encouraged our hearts so much. to have united devotions with the children but we didn't make time to do it.

THE VAN WOULDN'T START TO TAKE THE BRETHREN BACK to the city, but with the arm of the flesh (everyone pushing it), it finally did. Secundus then ran in in a hurry to plug in the battery charger to keep the spare battery well charged, & plugged in the wrong plug. There has a loud pop & it seemed he had ruined the charger. He felt so badly, & all waited in the van. WHEN WE ASKED THE LORD WHY THAT HAPPENED He frankly told us that we should stop everything & ask everyone to have devotions together. So we shared with everyone what had happened & suggested we have devotions together, in spite of our hurry.

THE LORD'S SPIRIT JUST TOOK OVER as it was obvious He had been waiting for us to ret.

A plea for singles

A plea for singles to help large fam-ilies!

From Martha Wildwind; Europe:

ly He had some leading or Word for us for the New Year. We all sat on the steps in the warm sunshine & the Lord spoke & spoke thru everyone. The brethren gave verse after verse, & we were there at least a ½-hour letting the Lord speak, & one prophecy followed another. The Lord encouraged our hearts so much. So many verses were about "Fear Not".

THEN THE LORD REMINDED US THAT SUNDAY FELLOWSHIP, as well as being a good time to be together & talk, it should also be fellowship in the Word & to let the Lord speak to us. We've fell so strongly that we need to teach our children to learn to hear from the Lord & to share with the body what they receive.

OUR VISITING SERVANTS HAVE BEEN DOING SUCH A WONDERFUL JOB & just take a back seat to the regular happenings of each Home, but maybe

SHOULDN'T SIT AROUND SHOULDN'T SIT AROUND waiting for the Lord to show us, but to be faithful with what He's already given us & He'll show us what next. And that's so true!—So many are just hanging around saying, "I'm waiting for the Lord to show me what to do." Lord to show me what to do."
When right around them there's
plenty to do! And if they would
just buckle down & get to work
many people & children could
be helped & all would be much
happier serving the Lord. I
thought if you could just keep
these families in your prayers
that they find some really wild
& willing workers, & these singles
too, that they wake up that the
world doesn't revolve around
them!

Kidnapping Lessons!

From Shulamite: Europe: From Shulamite; Europe:
FIRST OF ALL I WILL SAY
THIS: PEOPLE IN THE FAMILY NEED TO GET A LITTLE
SMARTER about the Devil's devices & not be so simple-minded
& unaware of the possibilities of
these things happening. In the
case of Mene Mene's kidnapping,
I was foolish to have even stayed in Florence when Mother was
around. We should have gone
somewhere selah right at that
time when we got her back.
SO THE FIRST LESSON
THERE I'D SAY IS TO FLEE.
In fact fleeing is one of the big

THERE I'D SAY IS TO FLEE. In fact fleeing is one of the big lessons the Lord is trying to teach, me about these days, because very few people in the Family are winning System court cases. Today anyone in a sect has had it. A sister here went to all the trouble of getting legally married to a brother to fight to get her child back from a former marriage in the System in which her husband wanted the child. Of course, being in a sect, she didn't have a chance. What she should have done was left the country

& not stuck around to give the s. Enemy a chance to even get her s' summoned into court. All this Dad has written in Letters; people should have learned!

TO FIGHT THRU THE SYSTEM CHANNELS one of the first things you'll have to do is dissensed in the secondly get a System job making good money to prove you can properly take care of the child the way the System hinks is proper. "Kramer vs. Kramer" is an interesting film along this fine. The wife was away from her child for a while & before she got her secondly be a single stand by with the second was higher than her husband's. Not every girl can give the sob story she gave in a court scene, or get a lawyer crafty enough to point out a mistake the father made in letting the boy get seriously hurt to prove his lack of care for the child. And even when she won, she had to get airously hurt to prove his lack of care for the child. And even when she won, she had to get into the Devil's dirty work. So by the time you get into all those System channels to get your children back you have wasted a year of your life in the System, & if you lose it is even worse.

**LIKE SOMEONE SAID IN A PAST MAG, "CUT OFF ALL TIES", & resist the temptation to sympathise with the person you think might take your child. "What a blessing the FR has been in our area! One beautiful thing is that we all are able to convict each other so much - one couple trapped in the system got convicted to live by faith again! We were able to take a collection for a needy brother to go to a foreign field & we have provisioned lit, dental & medical care..all thanks to this wonderful new Wine!" Lisa, N. Europe

"I had a battle over the FR at first because I witnessed the 'Cesspool' here! But we just went ahead by faith, all the Homes got together & voted, a beautiful couple was elected & now we are making so many plans together, provisioning, putting the children first & even living "One Wife", sharing sexually between Homes. So there is a 'get-it-together' R going on here, thanks to you & your love & concern for all of us!" Elimelech, S.A.

"The FR is just what we needed! PTL! It is already bearing good fruit! TYJ! In prayer we received I Cor. 13 & Ps. 2:10-12. The Lord showed us that this FR is inspiring more love & trust which is something we in this area really needed. On 28 June we had our first DAF. It was really the Lord's organisation as we were 14 adults & 20 children! It was a great victory with everyone pulling together, PTL!" Samuel & Praise, Europe

"Big miracles are happening since I last wrote you about all the things we were organising in our LAF. One of the things which has helped all the more, was the Love-sex R we have been pushing inspired

in your Ltrs., not even one Home in our LAF had been sharing for various excuses, & now everyone is getting real victories! Before there was a tendency to say, "let's share', & people would change partners just to share sex, forgetting that the most important thing is the love you show for people in many different ways until you finally go all the way, & that's why some people, especially some of our Latin girls, got turned off. Well, this Love-sex R has been the key to bring back God's ancinting & blessing in people's lives as the Lord does not do that if we are not obeying Him in everything, especially in this very important part of our lives. 100% obedience brings 100% blessings!" "Last Sunday we got together for the District Shepherd election & it was a very very inspired meeting. We had 3 candidates, including a Portuguese brother & his beautiful French wife that had just arrived from Portugal. We had a tie & had to have another election. Then the Portuguese brother explained something that he hadn't openly said before - that he was all for sharing! Needless to say that in the last voting he won almost unamimously-Ha! The majority of the delegates were men & on several of the votes they wrote: 'The Portuguese one & his beautiful wife'. 'The Portuguese one & his beautiful wife that shares', & 'The beautiful wife of the Portuguese brother', etc. It was a very funny voting & everybody before & after DAFing were LAFing a lot-Ha! And I am proud to say that we did make the right choice because he is a very nice brother & she is a lovely sister - a good sample! P.S. It was also wonderful to notice that the leaders were not acting as 'big shots' at all & especially that everybody had a voice & could say what they thought openly.

A dream come true! The loving union! Than God for this new R!" Pedro Godspell, S.A.

"I want to tell you that by God's Grace we are determined to give our all to help in any way we can to fix the wall of the city that was broken! The new chain-of-cooperation suggested in the FR Letter equals to the putting together again of us bricks into forming a new wall. Italy has suffered a lot in the past because of man's bad samples but thank God the Family is now beginning to learn that the Ltrs. are the leaders & now they are making preparations to go on to riper fields. fessing that she was an
under-cover secret policewoman investigating us.
SHE THEN BECAME VERY
VICIOUS & told Rachel that
if she'd cooperate with he
then she'd spare Rachel &
myself from any heavy persecution.

THREE WERN PRIOR TO THIS
Jonah S Lymn with their 2
children came to Taiwan to
help with the work. Shay
thad also met them S asked
Rachel to cooperate by informing her when more brethren would be coming. When
there were enough brethren
present they planned to
have a big raid to deport
everyone back to their native countries. Pretending
to agree, Rachel quickly
returned home to warn us of
what had just happened.
AT FIRST WE WERE SHOCKED
THAT THEY NIEW WE WERE THE
FAMILY SO FAST, since we
tried very hard to be selah.
However, Shay did mention
that we had been under surveillance from the first day
we had arrived, S the only
explanation for that is
this: Three years ago, in
Singapore, I was present
when the officials there
raided all the homes, & many
brethren are blacklisted in
that country as a result.
THEREFORE, IT SEEMS THAT
SINGAPORE HAD SENT THE NAMES
OF ALL THE BLACKLISTED
BRETHREN TO TAIWAN. This was
also confirmed by a home in
Indonesia which read an article stating that Taiwan
was following Singapore's
example when it expelled
the brethren a couple of
years ago. Also, some
friends in Taiwan told us
that Singapore & Taiwan
have many joint military
exercises, but this is generally kept quiet because
they don't officially have
diplomatic relations.

WHAT STOOD OUT TO US THE MOST MAS THE LETTER WHICH HAD JUST ARRIVED AT THE TIME OF THIS TROUBLE. "ISLAND SECRET", & maybe this is a partial fulfillment of that dream. Of course we had no choice but to flee, but we tried to do it incompleuously so as not to give away that we knew their plans. What helped was the fact that Shay was called

to Japan on business for a few days, so this is when we all made our exit to safer fields.

THE LORD HAD DEFINITELY GIVEN US CHECKS THE WHOLE TIME WE WERE IN TAYWAN, but we shunned these checks, giving heed to circumstances & conditions(good support. s conditions(good support, meeting influencial people, etc.). Thank the Lord that in His mercy He caused Shay ALSO, ME'D LIKE TO ENCOURAGE OTHERS TO PRAY FOR ALL AGE OTHERS TO PRAY FOR ALL THE MATIONALS IN TAIMAR(6 lovely sisters), that the Lord will protect them from our enemies. Church of Love Carries On

for missionaries. We learned these tips over those two years:

FIRST OF ALL. Amos has many Bible classes, & we've found it's best to stick to the original vision the Lord gave us in the "Church of Love" Letter. We start with an hour or so of songs, making use of some of the very talented inspirationalists that are in this city. Some people come to hear them, & as with any other form of vitnessing, this is God's bait to hook 'em.

ME THEN HAVE SOMEONE OPEN IN PRAYER, & we have the class. It's good to have something short & direct so everyone does not get listless—12' hour to 45 minutes is often all you need to get the message thru. Then, after the class the M.C. (Amos, syself or whoever else gave the class) would have a couple of the sisters read a prayer letter each, & we would pray for the missionaries. Then one of the sisters under the class. Then one of the sisters would take a donation lox around & everyone would contribute.

LOYE! We'd like to share some testimonies about our very fruitful ministry. Amos seme institution ago, & during this time we have been able to collect \$8,700 for missionaries. We learned these tips over those two been able to collect \$8,700 for missionaries. We learned these tips over those two years:

FIRST OF ALL, Amos has any Bible classes, & we've found it's best to stick to the original vision the Lord gave us in the "Church of Love" Letter. We start with an hour or so of songs, making use of some of the very talented inspirationalists that are in this city. SOME IMPORTANT POINTS TO REMEMBER ARE:

-1. TO HAVE A DONATION BOX in the meeting(living) room in a regular place. We often had visitors come over during the day, & they were often convicted by the box with "support missionaries" boldly written on it, & by the world map pointing out the 19 countries that we support. We would often find donations of \$5 or \$10 after they had left, Also, we'd put in it loose change that we'd find around the house. A little goes a long way.

-2. KEEP A VISITORS' LOG, as Dad Suggested in the Letters! As well as sending the names to WIM, we were able to send out 80 Christ-

mas Cards & consequently had a total of 120 people-family, friends, etc.—come to our Christmas party. Amos' vision has been to our Christmas party. Amos' vision has been to collect every possible cent & send it where it's needed. And for those who don't "go", this support ministry is a must, as Dad pointed out in "Coming of Age", etc.—3. WE ALSO HAVE BEEN TAKING OUR YOUNGER VISIORS & family members to another room for songs, skits, flannel-graphs, TKs, etc. This keeps the parents better tuned in to the Word & cuts the confusion. Also, it's feeding for our kids who need the Word too. They've also acted out skits for the big people afterwards. GB'em! Everyone loves this, especially the kids.

-4. ANOTHER IMPORTANT POINT ALSO IS THAT THE TAMIVIS

eryone loves this, especially the kids,

-t. ANOTHER IMPORTANT POINT
ALSO. IS THAT THE FAMILY'S
PRAYER LETTERS SHOULD BE
HADE HORE G.P. 6 suitable
for the 'weaker sheep', as
we often have to edit them
& change some things due to
"jargon" we use that others
don't understand, i.e.
"tracts" is easier for the
church-oriented than "lit"
or "Letters".

ALSO, WE'RE NOW SENDING
ALL OUR FUNDS THEN THE CRO
with our TRF, which saves
time for us 6 gives all the
money to the poor missionaries instead of to the post
office. GBY 6 keep you being
a missionary or supporting

cerning Australia & the Aborigatiness.

I AM AUSTRALIAN & WAS FOR TWO YEARS MATED TO SHARUHEN. We did work amongst the Aboriginees & tried so hard to win them, but unfortunately as you said they are not very strong & are quite weak & troubled spiritually. The vast majority of the race are alcoholic & survival to them is merely collecting the abundant government hand-outs that the Australian Government gives to try to ap-

hand-outs that the Australian Government gives to try to appease them.

I DON'T THINK I HAVE EVER HEARD OF ANY STRONG CHRISTIAN ABORIGINALS. One thing I did notice while working amongst them is that unlike the majority of Australians they do have a troop ballia.

One thing I did notice while working amongst them is that unlike the majority of Australians they do have a strong belief in Jesus & the spirit world. Considering the way most of them live, tho', I guess they don't at all really know what Jesus was about & how He wanted them to live. FROM THE LITTLE! HAVE READ ABOUT THEIR CULTURES, it appears that the less barbasic cultures were found on the East Coast, the region of Australia that is most beautiful. The tribes inhabiting the desert regions, tho', had some terrible customs & some even practised cannibalism on their own infants! Surely God did curse them for this & that is why they were living under the most unbearable conditions imaginable.

as many as 5 million of them when Australia was first developed.

THRU FOREIGN DISEASE, OUTRIGHT MURDER & THE BREAKDOWN OF THEIR SOCIETY the number was soon-reduced to the small number that remains today. Perhaps the worst scene of such atrocities was on the Island of Tasmania. Here in a short period the whole entire full-blood Aboriginal population ceased to exist. I think that it was somewhere around the 1860s that the last few were harded into a small settlement where one by one they died. They had been so mistreated that they failed to ever reproduce. So that is a bit of the background & history of what happened in the "early" but Island and Island

Australian Disciples who add confirming facts!

MOST DESERT ABORIGINEES LIVED ALMOST LIKE
ANIMALS, just sleeping in a hole
they would dig in the sand, eating all sorts of unclean foods
like snakes, grubs, lizards & even
frogs. I really can't think of too
meny types of wildlife that are
native to Australia & are also
clean. Their whole diet except
for the ones living near rivers or
the sea consisted of unclean food.
ONE INTERESTING FACET
OF THE CULTURE of those living on the East Coast was that
whenever a stranger came to a village the chief or the person acting as host would offer his wife
to the man for the night as a gesture of hospitality.
WITHOUT EXCEPTION THE
AUSTRALIAN ABORIGINES
WERE TREATED WITH UNBELIEVABLE CRUELTY by the
early settlers. Many times they
were hunted as sport, & to occupy their land they were froed to die of thirst as white settlers would refuse to let them
near the sole available waterholes.
It is estimated that there were
k- as many as 5 million of them
when Australia was first developed.

From the Russian LIT-PIC:
Dearest Dad, Maria & Peter,
GBYI WLY! WE WANT TO
THANK YOU FOR YOUR INGREASE IN OUR GIFT THIS
MONTH! We'rs thrilled & feel
It such an honor just to be able
to work on the Words & get them
out to the Gospel-destitute Russians. That & your encouragement & actual support just flips
us out no end!
IN FACT, THIS INCREASE
CAME AT A TRYING TIME
when the Lord was putting us to
a test of faith as to whether or
not we really had the faith to
continue full-time working on
our Russian Word & Mail Miniss try & to trust God to supply all
our needs. Ded, every time
we've gotten a special gift from
you or an increase, it's always
come at such a crucial point or
time in our lives & ministry!
The Lord certainly does use you
in a down-to-earth way to reach
directly thru to us with just the
right thing at the right time.
Actually, the very day that
cheque was sent off from W.S.
Becky had a dream the same
night in which you loved her up
& comforted her. In it she asked

STATS: Since last year when
we first decided to put first &
work full-time on getting the
Words into Russian & out to the
Russian-speaking world, the Lord
has done so much! He's supplied
every need & so much more to
help it get going! He's raised up
translators, typists, printers—so
that we've been able to get translated & put into print nearly 100
Letters & Komix! The Family

themselves have been such a help, many sending us love gifts to keep us going, & many are catching the Russians themselves!

WE HAVE A GROWING MAIL
MING LIST OF OVER 220 HOMES Letters reprinted in the Soviet who've contacted us to help &/ or to receive Russian lit &/or the news/prayer letters we've been getting out, of which we've put out 11 so far. Many of these Homes have received or receive regular mailings of Russian Letters, & more & more people are investigating & pioneering possibilities worldwide to get the lit out to Russian-speaking people!

It certainly is a Mark 16:15 vision as the Russians are just about everywhere, & more & more sol BUT IT'S ONLY THE BEGINNING! We feel this is only a tiny start & a drop in the ocean compared to what's going to be needed to reach this great harvest of over 300 million. compared to what's going to be needed to reach this great harvest of over 300 million. So we pray we can grow in faith to be able to accommodate the Lord's mighty moving of which He warned us in "The Birthday Warning". Lord Jesus, it's scarge, but think of what the Lord can do & wants to do yet!—And if we in the Family, with God's mighty message & truth of the Words of David, don't do it with the Lord's lept with the Lord's lept and people with the Lord's love. The PART OF YOUR HEART & HAND reaching into the Russian People with the Lord's love. Especially in the Letters like "Solaris" & "Russian Peace Dream" letc. we can see you making a special effort to reach out & woo & win this nation, not blast & condemn them for their

to use the Family as a real light to the World. Verse 2 depicts the gross darkness falling upon the World in these Last Days, but how the Lord's going to even make us shine brighter, like you mention in "Diamonds of Dust" about the candle. In verse 3 it says the Gentiles shall come to our light (we got this to mean the Russians!) & kings! Verse 5 says it'll really blow our minds & pot us in the fear of God what He's going to do: the abundance of the sea converted, the forces of the Gentiles (Russian Gov'tz.) coming to us! In verses 69 we see our present & future with Arabs—Arab friendship & help.

THIS IS REALLY QUITE
HEAVY BECAUSE PARTS
HAVE ALREADY BEEN VIRTUALLY FULFILLED in our own little ministry here! We've had Arab fish come from the Gulf area (verse 6) bringing "gold & incense" (perhume & dold jewerly for Becky!), & they always fly via British Airways ("ships of Tarshish")—verse 9). Verses 10 & 13 talk about beautiful housing supplied like you've envisioned in "Dreams of Jeremiah 40". This has also been slightly fulfilled for us, as the Lord has miraculously raised up a queen here who has provided for us the most beautiful housing I've ever had in the Family. And both Arabs & Soviets come here! Verse 11: An open ministry with the government & ruleers of the coming World Empire?—Like envisioned in "Dreams of Jer. 40", "World Council of Churches", "Islam 2" etc.

VERSE 14: FOR THIS WE GOT THAT WE MAY BE JUST ABOUT THE ONLY AVAILABLE RELIGION LEFT thru which people can find the Lord! All the others will have been wiped out for their resistance to taking the yoke of Babylon as seen in "Old Church New Church". Verse 15 reminds us of how the West & their media have treated us. Verses 16:21—TYJI—"The

us. Verses 16-21—TYJ!—"The Revolution for Jesus is forever!"

Still the contradictory answers we got ended up delaying us even more. We finally realised we needed to get down to despended to

THE'S RE-KINDLED A FIRE IN US HOTTER THAN EVE

THE S RE-KINDLED A FIRE I From Jacob & Saffron Davidson; U.S.A.: THE PAST YEAR OR SO HAS BEEN ONE OF MANY TESTS FOR US. & we want to thank Dad & Maria for their constant en-couragement thru these fiery trials.

THE KIDNAPPING OF OUR CHILDREN in February of last year by my former wife was no doubt the biggest test we faced, but how true what Dad always said, that "God gets His greatest victories out of seeming defeats," is the scripture that "All things work together for good".

when scripture that "All things work together for good".

AT THE THE WHEN MARSENA TOOK THE CHILDREN, it was almost too hard to look towards the end of the road & what the Lord was trying to do in our lives. But having now passed thru the tunnel, we can see how at that time the lush lowlands. We were not really desperate, & the thorns & thistles were subty choking out our ability to bear fruit.

BALL OF HIS WORK & settled into the rut of our own work. Our hig desire was to establish this refuge, but the Lord wanted us on the road. It seems that with evord wanted us on the road. It seems that with evord wanted our positions a liftle more, always trying to present our program to God for His signature, as well as making "logical extusees" for it. Thank the Lord, He never signed it once, & He continued to work on our hearts. Now that we are mobile & living by faith office, & He continued to work on our hearts. Now that we are mobile & living by faith of the last two years. Hal.!

ed the purpose of driving us into the presence of the Lord, from which we had so easily strayed. But, even after the children were kidnapped, we still didn't seem to get the point, 8 so for almost a year we drifted in the "Vailey of Baca" & would have died of thirst there had not the Lord reached in with His loving hand 6 pulled us out. After a year of attempting to locate the children & doing very little witnessing or littnessing, were broke & desperate, & Saffron was about to have a baby.

**THRU ALL OT THIS WE STILL MADM'T REALLY COMPLETELY FOR-SAKEN THE SITUATION WITH OUR CHILDREN & put it into the Lord's hands. But then, just hefore we were ready to leave & go mobile we got Mag 34 with the sad atory of Justus but the inspiring, strengthening & faith-building example of Sally's utter loyalty to bad & the Kingdom, despite the loss of her children. Her circumstances were so similar to ours, & her ereaction to them was just the encouragement we needed to put it all on the altar once & for all, & to get back up on the wall of His work. WE LAUCHED OUT BY FAITH OM APRIL 1ST, & the Lord is opening doors left & right. The very first radio station we went to booked the MWM Show, & the next day we got an invitation to sing at a Baptist church & promote the show.

A Large Family Going For God!

Free plane trip! Blessings & burdens of visiting home! Victories of mobility!

From monthly reports to Dad & Marie, from Seek & Secundus: 7/1/81: "GOD'S DELAYS ARE NOT DENIALS!" It seems

7/1/81: "GOD'S DELAYS
ARE NOT DENIALS!" It seems
like every time we write there
has been some big new change
in plans! We just returned from
the office of an airline. They
said we all can fly to New York
for free!
YESTERDAY AFTER READING A LETTER & HAVING
DESPERATE PRAYER we listened to the Lord & thru three
of the children the Lord gave
such encouraging quotes. Then
this morning before going to the
office of the airline Sherah came
to me & said that she had had
dream that night that the airline
gave us all free tickets & it was
a real open door.
TWO DAYS AGO WE HAD
TALKED TO THE PRESIDENT'S SECRETARY & gave
her our P.R. photo album to
the war in Today when we out

TALKED TO THE PRESP-DENT'S SECRETARY & gave her our P.R. photo a blum to show him. Today when we got there she was all smiles & said she had good news for us, that the President liked the pictures so much that he couldn't resist letting us all go for freef So then the children sang for the President & Vice President & Bill the available office people. She rah told them all about her dream, & it was a real testimony for the Lord. We shared with them how the Lord has always been faithful to take care of us & supply our needs.

WE CONTACTED THE BROTHER IN HOLLAND WITH THE CARAVAN & asked him to go with us or meet us in S. America & that maybe they could sell the caravan to help us get to our new field. With so many little ones it would be difficult without tranportation. We asked the Lord why He gave us the van if we never were able to use it. We got the verse,

Singing at an old folks home Shalene & Sherah sing in Sp.

Singing at an old folis homel—last Shalene & Sherah sing in Spenish!

"Without a vision the people perish" (Pr. 29:18). It was the vision that the van was coming that gave us hope in a lot of ways to keep going so the Lord could get us to this point. We plan to visit with my perent & raise more support before going South. WE DON'T LOOK FORWARD TO RETURNING TO THE STATES & pray that it will pass quickly & that the Lord will lead us promptly on to our new field. We had told our folks before that if the Lord wanted us to go to the States He could supply the way for free so they need not go into debt to get us there. So it has been a real testimony to all of my family.

15/181: WE ARE PACKED & READY TO GO. We will be spending one night in N.Y. & then taking a train with an 8-hr. layover in Chicago & then to Texas where my family will be waiting for us. My family has pre-paid the train tickets.

BEFORE WE GO WE WANT TO SHARE A VERY AMAZING EXPERIENCE. Several nights ago Secundus & I had been

somewhat discouraged when we found out that there might not be room on the plane for us, & s we were a bit weary too with packing & getting ready to go. Then Jason had been such an encouragement to us with a verse he received from the Lord (Is. 41:10). When Jason had shared that simple verse with us we both breathed a sigh of relief, knowing it was the Lord's message of encouragement for us. THE NEXT MORNING JASON TOLD WHAT HAD HAPPENED TO HIM DURING THE NIGHT. He had gotten up in the night to put the two little ones on the potty so they wouldn't wet their bed & found out someone had put a ring on his finger. He said that he knew it was a spirit because he had seen the shadow of the spirit earlier moving across the wall & it was so big it was as high as the wall. So Jason is so excited about his new ring. It looks like it is silver with a derk jade-coloured stone. We all questioned every other source that it could have come from but no one had ever seen the ring before. So then we had a good time unitedly listening

to the Lord. The Lord didn't speak to us specifically about the ring, but gave us an ercouraging prophecy, especially about how He is using the children.

THE KIDS HAVE REALLY BEEN BLOWING OUR MINDS in the different ways the Lord is using them. It is just like you said, Dad. I think we are going to be amazed at the anointing the children will have more & more as time goes off!

THE KIDS HAVE WORKED UP A GROUP OF SONGS to use in inwading my folks' church. It is so exciting to think of what an impact it will have to come back to the same church where I was raised, with children on fire for the Lord tool. We enjoyed making the video for you but we feel like maybe we were a little ill-prepared. But you can see us "a la natural"! And I guess you can see that "it's gotta be God"!

8/2/81: THE FLIGHT FROM MADRID TO NEW YORK WAS

8/2/81: THE FLIGHT FROM MADRID TO NEW YORK WAS WONDERFUL, & the airline treated us royally. They let us board first, the kids were taken to the front of the plane with the pilots to watch for as long as they wanted in the cockpit, let us watch the movie for free, took us right thru immigrations & helped us with the children & carrying our things! We always had the photo album ready to show everyone what we had been doing for the past 4½ years in Europe & everyone was really impressed & encouraged us. This is always a chance to give the Lord the glory!

OUR FIRST NIGHT IN NEW YORK WAS QUITE A SHOCK!

YORK WAS QUITE A SHOCK! We were surprised by the hard hearts sometimes & the high prices. We had to pay \$5 five times to have our bags moved & \$50 for the cab from the hotel to the train station! For our 8-hour layover in Chicago we found a very nice reasonable restaurant

helper on dishes—Patricla-3!

& then took a bus to a big museum. We were quite a spectacle on the busy streets of downtown Chicago. There were no children there at all, except us with our seven, PTL!

DURING THE TWO-DAY
TRAIN RIDE TO TEXAS THE GIRLS WON TWO SOULS!

GIRLS WON TWO SOULS!
There weren't sleeping cars for most of the trip so both nights n we all slept in our seats & found grocery stores before we left to buy snacks so we wouldn't have so pay the expensive train prices for food. But once for a special treat we all had dinner in the dining car & enjoyed it so much. THE FIRST NIGHT AT OUR FOLKS' IN TEXAS THE CHILDEN SANG FOR EVERYONE & we've been singing for visitors ever since. We even sang for two different churches last Sunday, but to be honest the "invading the churches" ministry just is not for us. (Secundus asked me

to add that maybe this is too negative & that we have to be open to be used as the Lord leads here. He reminded me that many things that we've had to do are difficult the first time.)

WE WERE SHOCKED TO FIND OUT THAT SEC er about our security & surely don't plan to visit Secundus'

don't plan to visit Secundus' family!
OUR HEARTS ARE NOW PRETTY DESPERATE to find the Lord's way to our new field of ministry. We are so thankful that "the Lord knows the way thru the wildernes, all we have to do is follow!" The brothers in Holland have written to us &

are eager to join us either here or on our new field. They have sold the caravan & are selling the van too. It is so encouraging to see the Lord working things out in their lives too. After travelling with all the kids we realise how thankful we will be to have some help, especially pioneering a new field. PTL!

TODAY IS OUR FIRST DAY
ALONE, with both my Mom & Dad working & my brother in school. So we are looking forward to having time for prayer & communion & listening to the Lord to get His leading. It is without any doubt quite a trap here, & we really wouldn't recommend that any brethen pass this way to S. America without sure leading from the Lord to do sol Being here has really made us thankful & looking forward to being on a new field & busy fighting new battles again. We've been praying so much for you & others who may be moving soon too.

27/2/81: PTLI WE'VE ALL

**SO WE ARE READY & NEED
TO GO AS SOON AS THE
LORD OPENS THE DOOR! It is also obvious that my folks hope the Lord doesn't open the door & we aren't able to leave. They don't help us financially while we are here & we've tried not to be a burden, so we take care of numerous expenses ourselves. Thank you so much for the donation. We can really use it this month as most of my family seems to be weiting till we leave to give us a going-away gift.

IN SPITE OF THE OBSTAC-LES WE'VE BEEN ABLE TO
BE A WITNESS TO MANY by the testimonies of the innumerable miracles the Lord did for us on our various fields in Europe. People just can't believe, but yet can't deny the testimonies, & we've found some very receptive hearts.

THE LORD HAS BLESSED US AGAIN IN A VERY SPECIAL. WAY, & our 8th baby is due in we had in Holland away to a family there who needed it, as was suggested by Daniel, the brother there. And we knew it was the Lord too.

THIS MORNING THE THREE CLOEST CHILDREN ARE WITH THEIR GRANDMOTHERS at a church meeting for home missions, singing in Spanish for the meeting. If it takes longer than expected for us to be here (bit talready has) we want to get lift to we have nothing to be self-righteous about. The new Letter "The Unspecies of the self-righteous about. The new Letter "The Unspecies of the several quotes with a good message.

THE LORD ALWAYS TEACH-ES US NEW LESSONS ABOUT GIVING, & your spirit of giving has taught us more than we have ever seen in the world. Since the last Letters on tithing every-

d the last Letters on tithing everything, we try to figure out what that should be each month. Especially since we've been staying with my folks & not paying rent & they buy most of the food, the Lord told us just to double the amount of our Tithe from our money. When we wondered if we could afford to do that & still raise our flee funds, right away the Lord said that was one thing that we could be doing—to give—since we aren't on a forceign field right now.

THE MAIL WE RECEIVE & THE UNSEL FISH HELP WE GET regularly from others has been a real testimony to my family since we've been here that faith works. Another miracle is that Secundus' family came to visit last week & the kids seng for them & we spent some time with them. Before they left they apologized for the trouble they've been to us in the past & said they've decided that our lives are ours to live as we see fit. They were so especially impressed with the kids.

IT HAS BEEN A REAL TESTI-MONY TO EVERYONE TO SEE THAT THE CHILDREN ARE SO WELL-ROUNDED in their education & so well-educated even tho' we have been teaching them ourselves not of the time. So far everyone admits they're getting a better education at home. We have now seen the fruits of both—sending them ourselves. It really depends on our situation & the Lord's will for that time. Public school did a wonderful job of teaching the children Spanish which has been, one of our greatest assets, but at the same time it monopolized our time so that the children hardly had time for anything else.

IN TEACHING AT HOME
IT IS SUCH A BLESSING
to be able to really take advantage of each child's interests &
work their 3 Rs around that &
of course the Word. The Lord
will show you so much to do as
you get started in the direction
that the children show an interested in kangaroos & it led to a
study in reading, grammar, the
metric system & geography. It
was his whole study for the morning.

GOD BLESS SECUNDUS!
Some of my family have been so critical of him because he isn't out "working manually by the sweat of his brow", but instead faithfully takes care of the kids, more then ever before being so faithful to teach them the Word, in spite of the scorn of others. On the contrary, the critics are so busy with a lot of this & that, that they can only neglect the care & training of their children in the nurture & admonition of the Lord. Our children are really for the first time in their lives seeing the difference in our way of life & that of the System, & we know it is making them more thankful for the Lord & the Family. GOD BLESS SECUNDUS!

14/4/81: TTL FOR A FAMILY & PARENTS IN THE
LORD! We were so thankful to
get your note via Keren & loving
words of encouragement! We
appreciate your financial help
& the new Magazines. Lately
during our most desperate times
when we are crying out to the
Lord—this might sound crazy,
but at these times we feel you
could rescue us somehow. But
the Lord reminds us of the famous words of Admundsen,
"Don't rescue me prematurely!"
The Lord showed us clearly one
night that many people in the
Family have come to the point
where we are now & need the
encouragement to know that

someone has made it beyond this point, even with a large family, & kept going for the Lord.

WE'VE NEVER FELT SO
ALONE WITH ONLY GOD'S
WORD to hold on to. In spite of the fact that we needed a little more help to get a van, no one would help us or even encourage us. It really seemed like an impossible situation. And oh, the prayer sessions we had unitedly out here in the trailer at bed-time with our faithful little soldiers!

MY RELATIVES WERE WAITLord fail & us have to admit that this life was just not for us. We did not realise that our testimony of living for the Lord had

FIXING UP THE INSTIBL. Secundus has put in panelling all inside & stained it, using panelling my Dad had left from building his house. He put in a new floor & someone gave us the carpet samples to glue down. We have all the materials we need now for building the benches which are also trunks under cushions for storage. It is blowing people's minds how quickly it is all coming together, & they realise now that we really will be on our way soon. We still have some needs & are out of money, but we got together & prayed for each one separately & know the Lord will encourage all our feith & especially that of the children & answer specifically. One main thing we still need is an extendined hitch as the trailer has a part with the strends over the front.

WE FINALLY FOUND A SWEET PRINTER who is helping us with a lot cheaper price than all the others. He is printing the lit for us & also a brochure that will be ready soon. The Lord raised up a radical Christian who helped us amazingly for a while but when some local persecution arose he cooled off. He's an optometrist who supplied Secundus with a free eye exam & new pair of glasses & started right away making appointments for the children to sing in churches. We even sang at two black churches which was a real experience. They were poor but also faithful to help us with donations.

WHEN HE TOOK US TO SING AT HIS HOME CHURCH one lady stood up & said she didn't trust us because she knew that we had been with the COG & bla bla bla. We were honest with him & shared our testimony & especially how we are now

charge until it is paid. Now that we have it my ex-husband agreed to make these payments for us, as he is sending us \$150 a month anyway. PTL!

WE'VE ALL BEEN BUSY
FIXING UP THE INSIDE. Sections in the part of 1

"All half to the Queen!"—Seek— & fovely daughter Sherahl just working together to serve the Lord as a family. He accepted it all but things have been cooler & we haven't seen so much of him anymore. But PTL, the Lord used him to encourage us at an extremely hard time & to help support us too. So we real-though the work of the properties the children & testion of the people will more appreciate the children & testion as a seen as a swe have been warm-in years as as we have been warm-in years as a swe have been warm-in years

we arrived they warned us that we couldn't sing anything about Jesus as they could get in trouble for it. So my Dad had told everyone that our work in schools would be fruitless in the U.S. But at the high school the teachers & everyone were so receptive & we could handle the program in any way we wanted, & afterward they did some printing for us for free.

ward they did some printing for us for free.

ONE NIGHT MY DAD EVEN TRIED TO TURN THE KIDS AGAINST US by saying we were using them & that the kids didn't like to live like we do. Out in the trailer we all shared together & prayed together, & the kids marched in & told their grandparents that they wanted to live for leave & no one was making for Jesus & no one was making them do it! My Dad didn't say anything more on the subject after that!

them do it! My Dad didn't say anything more on the subject after that!

WE'VE FELT THE SQUEEZE FINANCIALLY since my folks aren't helping us like they used to when we were on the field. Surely this too they imagined would add all the more to our sure failure. We wanted to be a good testimony for the Lord, & they expected it too, so we have taken care of all our own expenses, except food, & we've even bought all the milk & some other things too. The Lord has supplied & Secundus was even able to get his teeth fixed & all the children got new shoes & new singing outfits for the hot weather. And we were even able to save \$1,100 for the van. PTL!
CRACK! ANOTHER BOTTLE-BREAKER! We were out of funds & needed money for supplies to work on the car. The Lord showed us that Secundus could take a carpenter job for a couple of half-days that had been offered him. The Lord showed us not to be self rught-eous but to be willing to do what needs to be done just to get out of here. So he took the job & has worked one half-day

with their house & property & even money, trying to save in every way we can. It just must be heaping coals of fire on their heads because the more the Lord anoints what we do or what a sample we are, they never even comment. It's very strange, but we're learning a lot, especially to be sooo thankful for you & the Lord & our Family & freedom from all the awful things that bind everyone from being

& will work another tomorrow for my brother delivering sausage. We're learning a lot about what we thought the Lord would surely never have us do! Ha!

IT IS SUCH A MIRACLE THE WAY I HAVENIT BEEN SICK even one day with this pregnancy, PTL! One problem that has arisen is that Michael was still nursing when I found out I was pregnant. I had plenty of milk for him but now I'm trying to get him off the breat since I am half-way to due date & have visions of nursing two at once. But he is so upset about it & throws such fits.

OH, ONE REAL VICTORY IS THAT MY FAMILY HAS CHANGED THEIR EATING HABITS to suit our recommendations, as surely the children's good health & growth deven beauty has been a testimony for our way of life. It has been a sample to them to see us pray for our children when they are sick or hurt & give them witamins, as opposed to the money they spend sometimes running to the doctor for everything. They've seen burns that both Summer & I had in the very tender part of the palm of our hands & tips of our fingers heal instantify & without a blister with prayer & application of Vitamin E. THEY DON'T WANT TO SHOW APPROVAL IN ANY WAY for what we are doing, but it obviously is convicting to see how we care for & take an interest in the children & are tainful with their house & property & even money, trying to save in every way we can. It just must be heaping coals of fire on their questions. We read it all together & it gave us so much more conviction.

WE TOO HAVE BEEN REAL-ISING THAT THE KIDS CAN PLAY THE LARGEST PART themselves. This is what really convicts the churches & even touches their hearts to help us. We've also seen the importance of the children not questioning when they are called upon to sing Singing really involves such a small amount of their time that we can expect them to do their best when called upon to minister in this way. The Lord showed us the verse, "It is required in atewards that a man be found faithful". Our most important 5 stewardship is the world & the lives, hearts & souls of men. The Lord has given these to us & requires that we be faithful.

WE TOO HAVE STARTED LETTING THE CHILDREN QUOTE VERSES & give testimon nies between songs. Sherah-7 opens up her testimony by saying, "The reason we've been travelling all over the world for 5 years is because Jesus taid in Mark 16:15, "Go ye into all the world & preach the Gospel to gevery creature."

I HAD WRITTEN ABOUT THE NURSING PROBLEM I've been having with Michael (now over a year old). I was always in question as to whether or not this was too much a strain on me & drain on the new baby I am carrying but I just didn't know

ELLING or in a camping situation. One thing that really helps is if the children can learn to be ready to study whenever you ask & on short notice when necessary. It helps to give a little warning that school will be starting soon, to give the kids time to finish what they're doing & prepare their hearts for study. ONE THING IS REALISING THAT MAYBE OUR CHILDEN'S EDUCATION won't be or needn't be just like what's planned for children in system schools. I used to be overly concerned that the kids were learning the same things as the system schools were teaching. We have noticed that schools teach children in a very definite way to be able to fulfill roles they plan to play & jobs they plan to play & jobs they plan to hold in the System. Some of these things maybe aren't so important in the education of our children, & yet many other things, especially the Word, need to be added that schools leave out. We've seen too that many things can be taught at younger ages than the System does.

WHEN I GO TO GET THE KIDS' WORKBOOKS FOR STUDYTIME I just pause a minute or so to ask the Lord what the kids really need in this precious time we have to teach them. The Lord always leads us to subjects that are really interesting too. We just finished a little study of the cell, its parts

& functions, from a good little science workbook that you can buy here inexpensively in department stores. It is called "The Human Body" by Golden Exploring Earth Books. It is written in a simple interesting manner & has good pictures in colour, & only costs \$.89 (other books in the series are not so good because they contain so much evolution).

OOOH, IT WAS SO GOOD TO BREATHE AGAIN! We went straight to a parking lot & started litnessing. For the first time we were dependent on our litnessing as we hadn't received any of our mail forwarded from my brother. The kids blew our minds. We had three teams on the battlefront, each older child taking a younger one, & they did so well. So we started getting the Lord's vision. The first day out Sherah won a soul. The kids loved litnessing & asked to go cut more.

THE LETTER "HONG KONG GOOLAGONG" HAS BEEN SUCH AN EYE-OPENER. We saw so clearly how many oppressing spirits there were at my folks' holding us back & slowing us down. Also the kids had coughs & colds & Michael had impetigo on his face that would never completely clear up. Since we've been on the road no one has even coughed once or had a cold. The Lord showed us to pray for Michael again rebuking any bad spirit causing the skin disease & it cleared immediately the very first day we left! PTL! Now we always pray when we first come to a place to litness or me very tirst day we left! PTLI Now we always pray when we first come to a place to litness or witness or provision or even just for playtime or where we camp, to rebuke any bad spirits & cast them out, & we haven't had any real problems anywhere we've been.

real problems anywhere we vebeen.

WE'D LOOKED OFF & ON FOR A COUPLE OF DAYS FOR A PLACE TO PUT THE TRAIL-ER while we are here in this city but everything was so expensive or didn't take children. Secundus suggested that if we just stop looking & "seek first" & get out witnessing & litnessing that the Lord would send someone to help us while we were out. Right away Jason won a soul & then we ran into Adam & Carmel Wilo told us about a camping place where they were staying. It just met our needs & Jason's heart's

desire for a pool & was even cheaper of the context of the context

dren to be an encouragement to others. Everyone afterward really gave the Lord the glory & wanted to ask a lot of questions about how we have been working with the kids.

SECUNDUS & I USUALLY FEEL SO CLUMSY, but we can't deriy the Lord's anointing on the kids & that it is only the Lord. It just made us cry to see the reactions of some of the brethren. One brother was really searching for some answers on how to raise his five children & asked us to please stop by on our way South

to talk to his wife. He even offered us a place to camp there for free. So wherever & whenever you want us to do whatever, we will be very thankful to be able to try our best, leaning on His everlasting arms!

SINCE BEING ON THE ROAD SINCE BEING ON THE ROAD WE'VE HAD MORE TIME THANWITHOUT SOme have EVER before to do all the things so much to remember that "God that need to be done, with plenty of time to rest & play too. It is just a miracle & blessing to live like this! As God's children we have such hope for the future, & the possibilities are limitless & but look where the Lord finally got us!—All over the World! Nevergive up!—Love.—D.)

Sharing Sexually!

WE'VE BEEN ABLE TO SHARE SEXUALLY with two couples this week. It had been a long time since we've been able to share with anyone. The Devil seems to fight this so much because it's something really special that makes our Family really special & makes us love, understand & appreciate each other more.

THIS IS SOMETHING I
HAVEN'T WRITTEN ABOUT
BEFORE, but I know the Lord BEFORE, but I know the Lord has put some things on our hearts that we want to write, hoping we can be helpful to others. The morning before we read what was written about us in "Good Shepherds", Secundus & I had just finished having real desperate prayertime about this very subject.

was nard to really want to be with someone else.
WELL, THIS HAS ALWAYS
BEEN MY WEAK POINT, even the 'I must confess that the majority of the times we shared it did bear good fruit in everyone's lives & made Secundus & me even more in love with each other.
This was the first time ('d prayed so desperately, admitting my weakness, determined that I wanted the victory.
BUT THRILDUR EXPANSION.

Tips & lessons learned to make it a blessing for all!

From Seek; U.S.A., preparing to go South:

WE'VE BEEN ABLE TO

ONE THING I'VE EXPERIENCED, & several mothers have shared this too, is the real trials they went thru sharing their mates when they were pregnant. Sometimes Moms have been left alone while hubby shares because everyone thinks she's so far along that she can't make love. One sister was just sharing this with me that even when sharing with another couple, the girl asked to be with her mate but the girl's husband just stayed home & left the expectant mom alone to go thru trials because he thought she was too far along to have sex. I've experienced the same thing myself.

MOMMIES WHO ARE EX-

your mate & try to make your decisions unitedly & prayerfully.
Secundus has been such a help
to me so many times in this area
by not being critical or condemning, but really a partner in prayer.
It also helped me so much to
know how much he loves me &
to realize that I trust him.
WHEN WE SHARE WE'VE
FOUND THAT 13-2 HOURS IS
A GOOD AMOUNT OF TIME.
All-nighters have really been hard
on both of us, & the kids suffer
the next day too because we are
so tired. So single couples could
be considerate of parents who
have to get up early, regardless,
with their children.

ONE THING I'VE EXPERIENCED, & several mothers have
shared this too, is the real trials
they went thru sharing their
mates when they were pregnant.
Sometimes Moms have been left
alone while hubby shares because
everyone thinks she's so far along

otherwise hard situation a blessing for her.

ALSO WHEN YOU WANT
TO SHARE WITH SOMEONE
ELSE'S MATE, be considerate
by not only approaching the one
you want to share with but try
to have a good open relationship
with both of them. These things
are probably common knowledge & a lot of detail, but we've
seen that so many burdens can become real blessings by being
sincerely unselfish & considerate
& just by going slow, not just in
sharing but in all our relationships with each other in the Family & friends & contacts too.
SELFISH, whereas generosity &
being loving encourages others
to share generously & be loving
too. A lot of times someone has
to take the first step & make the
sacrifice to be unselfish in a situation, to be a sample for others
to do the same.

WHEN WE WERE PRAYING
ABOUT SHARING the Lord gave
us the verse. "He that loveth not
with other to share with but try
to have a good open relationship
with both of them. These things
are probably common knowledge & a lot of detail, but we've
seen that so many burdens can
become real blessings by being

ate prayertime about this very subject.

I REALLY CRIED OUT THAT THE LORD WOULD GIVE ME MORE FAITH & vision for sharing sexually. We have shared a lot with brothers, sisters, fish, couples, but just that I felt so secundus, but just that I felt so satisfied & in love with him that it was hard to really want to be with someone else.

WELL, THIS HAS ALWAYS SEEN MY WEAR POINT, even tho' I must confess that the majority of the times we shared it did bear good fruit in everyone's lives & made Secundus & me even more in love with each other. This was the, first time I'd prayed so desperately, admitting my so desperately, admitting my each rest, determined that I wanted the victory.

BUT THRU OUR EXPERIENC: Sa the experiences of others we've learned some simple things and blessing for everyone concernied. First, to be considerate of expectant Mommie & make an odo draw the veryone concernied. First, to be considerate of expectant Mommie & make an odo the same to do the same to do do the same. WHEN WE RE PRAYING to do the same to do do the same. WHEN WE REPRAYING the Lord gave everyone thinks she's so far along that she love. One sistence everyone thinks she's so far along that she good cone it make love. One sistence we'ven when sharing with another when sharing with another that come the double, the girl's husband just stayed home & left the waye tasty and so much more love for each other when sharing again. Be experience show people can be satisfied to just be together & don't really seem to be in love anymore. It always encourages to so they especially need a lot of love & understanding. The other hubby could have love & we affectionate to each of love & understanding. The other hubby could have love & we affectionate to each of love & understanding in the proposed to

THE FIGHT OF FAITH-A poem by Seek May 1981

Do not think it strange as if Some firey trial you bear When you are called upon to fight The fight of faith somewhere!

And don't give up the ship too quick, Just before the battle's to be won, And don't faint in the darkest hours That come just before the sun!

And do not fear when all else fails And crumbles 'neath your feet. For God's way up just may be down! And you'll regret retreat!

졄

Don't be surprised to find that man May fail and just not care. In spite of ways of fickle man God's numbered every hair!

Why the tear, the troubled heart, The worry o'er tomorrow? It's for today God's given faith And comfort for our sorrow!

And when He turns the fire up And hotter gets each test, The victory's in not giving up— We still can do our best!

When they all yell surrender,
That it's a lost cause you fight.
That compromise is the best way.
The answer to your plight!

And when you find that all your mates Have lain their swords aside And even now they beckon you To come and save your pride!

You're at the point of great decision, The crossroads in the way:

Do you go on, or settle down?
Is it worth the price you daily pay?

But with disgust you grip your sword, Much tighter than before For even if you fight alone, You'd rather die than tarry more!

So what if we're outnumbered? Who cares about the odds? One man alone is just enough When he's alone with God!

It's when all stand against us And the battle lingers sore That's just God's chance, His great hour, The chance He's waited for!

For in His love, this is His pleasure, His glory is revealed!— When reaching out to fainting hearts To lives who to Him yield!

The best advice...Just don't give up! Don't hearken to their words! They'll be the first condemning you, Their logic is absurd!

For as long as the battle lingers With you at your post, Despite tired hands & weary heart You'll drink the victory toast!

The prizes are for all who run, Who finish the last lap. It will be worth it all to hear The host of Heaven clap!

So if you pause to think it strange And wonder o'er this trial, Remember that the Crown of Life Awaits you with His smile!

If you'd like to help'm, send it direct, or c/o WS & they'll get every pennyl-GBY!-Tks.).-

it's a miracle!--a miracle
of love!" It so arouses
their curiosity, & I go on
to share that it's God's
love & that His joy & way
of life not only heals,
soothes & strengthens our
spirits, but our bodies too.
Of course it's all in the
Bible & Letters, & we are
the richest people in the
world with so much to share!
SO IF YOU ARE CONSIDERING
A MINISTRY SUCH AS THIS &
you're a little nervous-maybe feeling you are all
more like a pack of crows
than a nest of nightingales,
& the kids "seem sometimes
more like goats than sheep,"
maybe this will help you to
persevere a little longer,
It is worth it! The rewards
are tremendous & worth the
effort, so don't be discouraged if it doesn't happen
overnight.

OUR TEAM NOW INCLUDES

ANGIG(3 1/2). She is definitely the "star", as I think the youngest almost always is. She still has a lot of faithfulness & re-! sponsibility to learn about her little ministry, but she is learning. TVJ: We are so thankful for this opportunity to work & witness as a family.

IT IS DEFINITELY "ON-THE-JOB TRAINING" for the children & such a powerful sample to the world. Tft for His Word & for the beautiful teachers He has given us, for Dad's honest & encouraging examples thru the Letters! We just want to encourage other families to share their wealth with the world. We hope they'll reread "What Is That In Thy Hand" & then do it, & watch it be fulfilled in their family. It is thrilling!

Harnessing Kid Power! TIPS ON TEACHING & INSPIRING KIDS TO SING!

TIPS ON TEACHING & INSPIRING KIPS TO SING:

From Rebecca Caravan; Brasil:

PG; WLYSNI GRY! I have a burden to do what several people in the Family have already suggested & asked that we do, & that is to write out a specific testimony of our experiences & helpful lessons learned in our singing with our two beautiful kids, Kartina(7) & Michael(5 1/2).

QUE MAIN MINISTRY FOR THE PAST 2 YEARS has been singing 7 different countries throughout Europe & the U.S., & now are being able to pour out thru music here in South America.

HERE ARE SOME OF THE MASIC THANGS MICH MAYE MELPED US in training the children, as well as maing it possible for us to reach samy souls with the Lord's love:

1. TO BEGIN WITH, K. & M. had no trouble in learning the songs we sing, as they had heard them so many times before on tapes & from John singing them every day. This way the music was really natural for them.

2. MEXT. IT MAS VITAL THAY THEY HAD A REAL VISION which would set them on fire! This was inspired by the Word, & also by our sharing with them about the importance of the Lord's music to vin souls & feed the hungry crowds. We also emphasised the blessing of being able to work together as a strong unit & family.

3. IN TEACHING THEM HAND MOTIONS, we tried to find ones that really related to the words of the songs(a kind of international language), & which were inspiring but not too difficult for both children to do in unity. Yet we always remind them that it is the

explode. This is when all
the preparation really
counts. The children love
to imitate & feed off of
our happy spirits. We all
share the joy of pouring
out together & really burning free.

ME USUALLY DO A SET OF 5-6
SONGS, including solos for
each child. We try to just
concentrate on giving it our
all & not worrying about
little mistakes, but we've
found that if we sense something really wrong with one
or both of the children, it
is better to stop between
songs sometimes(depending
on the circumstances &
where), & talk to the kids.

THEN ME FIND OUT IF SOMETHING IS BOTHERING THEM, or
if there is really a problem we work it out lovingly, & than continue onrather than the special
something to understand that
they need to keep going &
can talk about whatever they
need to keep going &
can talk about whatever
the show is over. There is
usually on problem during a
show however, if you all
pray & ane in real unity
before you begin.

WE TEACH THEM TO CET THEIR
HEARTS ON THE SONGS &, most
of all, on the people--to
really love & look at them,
& even to find one special
person to give an extra look
of love to--\$ they usually

Singing Is Shining!

MORE HOW-TO TIPS ON SINGING WITH CHILDREN!

From Phillip & Sharon
Watchman; Latin America:
GBY: WE LOVE YOU & JUST
WANTED TO SEMD IN A LITTLE
TESTIBONY of our children's singing. We hope that it
will be a blessing & encouragement to others with
kids learning to sing for
the Lord & others.

ABOUT ONE YIRA GOO, OUR
SOM PHILLIP(then 8) began
learning chords on the guitar from various brothers
in the Family. He quickly
wanted to learn more & learnad some very simple songs
of 2 to 3 chords, which obviously encouraged him.

HOMMY THEM BEGAN HELPING
HIM & IAMALA(then 5) to sing
them together. One Saturday,
just to pioneer, we all went
to a nearby town where the
children "Launched out by
faith". Well, the response
was a little slow but really
rection, M.C., or even
long repetoire.

ATTER SEVERAL MORE MONTHS
(JUST A LITTLE HOME REHEAR
SAL, we taught Tamala how to
get up & announce herself,
giving her age, nationality,
i the reason for playing.
She would also invite people
to receive lit & help our
work.

WE ALMAYS HAD A PRETTY
NITTED BAG IN FRONT OF THE
CHILDREN With some "Starting
change" (or bills, depending
on the audience) to give
people the hint. Soon we has
songs in several languages
also to add spice & interest.

SO. GRADUALLY WE BUILT
UP FROM THIS & EECAML MORE
MARE WHAT SONGS TO PLAY &
while others were beautiful
love songs which would often
to the complete of the complete

KEY. One night we all got together after reading the mixed continuous cache prayed for spirit helpers to help them in their singing ministry. Ismediately after this we saw a real change in them with more boldness & conviction as well as fruit among the people for whom we sang.

ANOTHER IMPORTANT THING IST THAT SOMETHES THE LORD SEEMS TO TEST OUR FAITH by having us sing for someone who may request a song but just seems like "nobody from nowhere", but we have always found that as long as we were willing to try to love everyone along the way, then the Lord really gave us greater victories.

BECAUSE IT BECAME THEIR HINSTY, we started to feed the kids from different letters such as "Shtick" and "Greater Victories" to show them their responsibility to the Lord & souls. At the same time we tried to never push them when they were too timed, & also to make sure that they had sufficient breaks, & Word & recreation each time we went out. This helped their singing stay fresh & more happy.

If ONE OF THEN DION'T WANT TO SING WE TRIED TO YLOYINGLY PERSUADE THEM, but they missed some days & found out later that they no longer want to "lose their crowns": & the blessings of "forsaking all for Jesus & others"!

ALSO, WHILE GOING DTD, we have a neatly written card with their photo on it, covered with laminated paper. It introduces them, saying that they would like to sing for the person & are trying to change the world for Jesus, & it requests a gift to help with our work. They present this at the door along with as TREALLY ADDS A PROFESSIONAL TOUCH, & going DTD has resulted in 23 souls led to the Lord this month. Tyj!

The Lord's Call To Be A Real Father!

TESTIMONY OF HOW A From Goodman Journey; Latin America: America:

I NEVER DREAMED THAT ONE
TEAR & A HALF AGO I MOULD
BECOME THE FATHER OF 4 CHILDREN(6 now 5). I was alone
& single, & I had been previously married & separated
for about a year when I
became an instant father

I REALLY WINT THULL A LOT

for about a year when I became an instant father of four!

I REALLY WENT THRU A LOT OF BREAKINGS, & it was hard being alone, but I knew that the Lord had a plan for my life. That one year of trials & purges was just preparing me for being the shepherd of a new little flock of 4 children.

I MAS ON A ROAD TEAM TO A CERTAIN CITY, & while I was litnessing at a shopping mall I met a single mother named Kristina with her 4 children. We found out that she had been in the Family & had separated from her husband & then returned from the field(Philippines) with her 3 kids when she was a full 9 months pregnant.

SHE ARRIVED IN THE STATES & had her baby & 3 other children had been praying desperately nomes. She & the children had been praying desperately to find a Home to fellowship with & to start receiving the Mags.

SHE INVITED US TO COME TO HER HOME THAT NIGHT.

with & to start receiving the Mags.

SME INVITED US TO COME TO HER HOME THAT NIGHT. We shared the new Mag with her & the children. They were really hungry for the Word & fellowship. The kids just begged us for a Bible story. Then I noticed that she was having a hard time putting the children to bed, so I offered to help her. I saw how lonely & sad the children were after 9 months of being without a father & any type of fellowship. I realized how hard it was for this sister to have all the responsibility of 4

KRISTINA & THE CHILDREN

WERE ALL SO HUNGRY FOR GOD'S

LOVE, & I saw that they really needed a father in their lives. The Lord was really speaking to my heart about these 4 children's need 6 their mother's need for a mate. They really touched my heart. After spending 2 days in their house I went back to my own home in another city, but I kept in touch with Kristina by phone. I told her that I would be back the next weekend on another road team.

THE LORD HAD GIVEN ME SUCH A BURDEN FOR THESE CHILDREN, & I really liked Kristina & felt that I was falling in love with her. The fext weekend I returned & spent a lot more time with her & the kids. I went back to my home base after 2 days, but then after being in my Home for only 3 days I called up Kristina & told her that I wanted to move in with her Kristina & told her that I wanted to move in with her & be a mate & a father to her children. I told her that I was walking out the door & that I wanted her to pick me up when I arrived in her city 4 hours later; then I hung up the phone.

THE BUS RIDE SEEMED LIKE

a lot of battles, but I learned a lot about what I made the wrong decision. But I know now that I made the wrong decision for my life & kristina's & the children's.

I COULD WRITE A BOOK ABOUT THE \$1.00 KDE \$1.12 MONTHS THAT FOLLOWED. It was like \$4 1/2 months of retraining—not only for me but for the children too. Kristina was going to school full-time \$ finishing her BS degree in nutrition—She had to finish the finishing her BS degree in nutrition—She had to finish the family, there was just no comparison. I knew that my \$1 job was to love the children \$6 rebuild their faith in the Word, the Eamly \$7 in the morning, \$6 my day began with cooking breakfast, doing laundry, dishes, dressing the kids, cleaning the house & porty training the 9-month-old baby girl.

I was up by 7 in the morning, & my day began with cooking breakfast, doing laundry, dishes, dressing the kids, cleaning the house & potty training the 9-month-old baby grl.

THESE MERE MY DAILY ACTIVITIES along with inspiration & Word time for the children in taking responsibilities & gave them daily chores--this helped to lighten my load a little. During the day I devoted time to teaching them to sing. The 2 older children, David(6) & Windy(M), had experience in the Family singing in public schools & knew a lot of songs. But I taught them all new songs in Spanish with the motions.

SOMETIMES I FELT TRUSTRATION, & a to to fine in felt like running out the door, but there is "no triumph without a trial, no testizony without a battle".

Some people may think that all these are not very macho (masculine), & I went thru

THE BIGGEST BLESSING IS BLING ABLE TO GET SO MUCH WORD TIME by giving the kids daily devotions. A lot of times I don't know who gets some out of it, me or them. I enjoy the flannelgraphs & komix just as much as they do. Memorising with them has

Well think about that little family across town with 5-6 kids, on mother w/children 6 no father. I tried for years to get to the mission field, but it wasn't till I started working with a family that I ever got here. So come on all you little people & let's stick in where we're needed.

85 new songs recorded! 47 saved in life From Paul & Marianne; MWM:
GBY! WLY ALL SO MUCH & ARE SO
THANKFUL FOR YOUR CONTINUED HELP & support & prayers which we all so desperately need. And thank the Lord for His wonderful provision & protection & the words of guidance & inspiration which He has given us thru His faithful Servant & Scribe, which have been such a "lamp unto our feet & a light unto our path". As the Lord reminded us recently, "Only by grace we stand" & "if there's anything good about us, it's sonly You! Our only hope: You in us, Lord!" All glory be to Him, PTL! (Amen!)
IN THE MULTITUDE OF ACTIVITIES & PROJECTS HERE AT MWM we just can't afford not to be daily desperate for His help & protection! On the contrary, the more there is to do, the more we need Word time, prayer time, time to "stop, look & listen". LHU never to get too busy! Apart from this lesson, which we always seem to need to review, the Lord allowed us to gain many victories this month in many aspects of our MWM ministry, PTL!
THANKS TO DAD'S LOVING CORRECTIONS, WE WERE ABLE TO MORE THAN DOUBLE
OUR PRODUCTION in the recording studios, with 85 new songs & instrumentals completed, several new shows & DM readings produced, & a new beautiful tape of music to love by, "Clothe Her Lightly", PTL! We also finished 6 MWM & KP video shows. Thank God for the "one-take revolution"! By the way, Angelo completed the first twelve Italian shows & already seven stations are booked in Italy, PTL! Shula & Mene recorded many of Aaron's songs for
the show & for the soon-coming children's tape,

"That's the thing that made Aaron's music powerful, it was the Word, it was terrific, there was always the Word in his music. Some of it was pure
Word, some of it contained the Word & if you just
go thru the source material, read the Letters, read
your Bible, it's those numbers that contain the

ON THE HOME FRONT & in the center of our preoccupation has been our soon-coming move out of the War Zones of Europe, which we hope to complete by Winter, D.V., as we "pray that our flight be not in winter"! It certainly is a big task, but we feel more pressed each day as we listen to the news & realise how the world situation is waxing worse & worsel Selling caravans, sorting out papers & visas, we are all learning a lot about the Greek laws & ways, & it makes us all the more appreciative for the business & public relations talents of Silas & Abel Seaman!

ON THE WITNESSING FRONT: As he did last year, our king & camp owner asked us to do a concert for the campers in the campground. This year we felt led to share more of our warning message of the impending doom, as well as the vision to move South. MC'd by Simon Peter, the show began with sexy dances & funny skits...

... & moving into more weighty songs such a "Drums of War" & "Stop the World" by Paul Michael (the last one is direct quotes from Mt 24), followed by a moving Box Skit

WE HAVE NOW STARTED HAVING SUNDAY EVENING INSPIRATIONS OPEN TO ALL, with songs & children quoting their verses & an appeal to join us in our Salvation song "Into My Heart", which is resulting in many more souls receiving Jesus. PTL for this opportunity to reap this field before we leave it! Of course, the video shows are also a real tool to minister to both our Greek neighbours & the many tourists. We can see what a tremendous tool the videos will be in the future. GB Dad for his vision for this ministry!

IN CLOSING, THE LORD TAUGHT US ALL A SERIOUS LESSON this month about the import ance of really caring for the little ones He has entrusted to us, no matter how busy we may be or how high & lofty our ministry! A fire was caused by two of our little boys who, tho' they had been

scolded about it a few days before, thought they could get away with it & planned to have a little campfire under a tree at a moment when they were unattended. With the wind blowing & the trees so dry it took seconds for the whole tree to be turned into a torch. Thanks to our water reserve were able to put it out but not able to salvage the two tents of campers underneath. By a miracle of God no one was hurt & the damage was limited in comparison to what it could have been.

BUT WE THOUGHT IT WAS SERIOUS ENOUGH TO STOP THE WHOLE CAMP & get desperate & down to business with the Lord about where we had failed. "Nothing happens to His children but by His will & with His permission" & we really felt that the Lord was angry with us for not investing enough into our own children & teaching enough the "fear of the Lord which is the beginning of wishom" to our growing little ones. Reading together as a body. "What Is That in Thy Hand?" & Ho's lesson on "Love & Discipline", we realised how we had neglected this very needed Daddy-time & consistency in our disciplining of the children, as well as rewarding them for their good deeds. This was certainly a real lesson for all of us who got so busy

"So the future is in your hands!—That tiny babe will be a king some day! That little girl will be one of His queens! Those happy, laughing children will be His princes & princesses & officers & governors who shall 'rule the Earth with His iron rod' of love! Are you teaching them with the rod of His love today so they'll remember how to use it tomorrow as they teach & train others in love to obey?" (No. 315:36.)

CULAR COVERED MEETING AREA. Completely open on three sides it affords the ideal conditions for our gatherings: communion with our imposing tropical surroundings & protection from the sun & sudden showers. We hold our communal meals there; the tapes of our latest recorded songs are heard

there, & our Sunday Fellowships are held there. It's our nerve center, complete with kitchen & phone, & literally ten steps away from our pool, a welcome relief for our faithful kitchen team which Fisher's Lydia so ably heads.

A RECENT SPECIAL SUNDAY FELLOWSHIP WAS DEDICATED TO SIMON PETER in recognition of his faith for & basic contribution to the success of the musical radio ministry. The highlight of the meeting was a song "Take Good Care of Simon" written & sung by Amminidab with the choral backing of a dozen of our pretty girls, all immortalised by Juan on video for our dear originator in Athens. GBH & his relentless work, whose wide reach & encouraging fruit are still increasing!

IN FACT, EVERY SUNDAY FELLOWSHIP MEETING IS A MEMORABLE OCCASION at "Villamor". Just to watch Faithy & Juan leading the inspirational singing backed up by the impressive instrumental array of the guitars of Amminidab, Watchman, Chonicles, Fisher & Zech, along with Micah's banjo, Ezekiel's mandolin & Silas' flute, is enough to warm the cockles of any heart. Hands a'clappin', one hundred strong, we raise our voices in song, praising the Lord as much for the miracle that has brought these musicians together as for the immeasurable privilege of being here, serving Jesus in this crucial ministry in any way we can ITYJ!

AND THANK YOU, DAD, FOR THE SPECIAL 2-HOUR TAPE you just sent us. Receiving a direct message from you is in itself an untold encouragement & inspiration. However, hearing in your own voice & words your confirmation that you will give personal supervision & guidance to our operations was more than we bargained for, or deserved. Tips On Using Puppets!

By Asaph & Michael:
Read the Family Care class.
Use a ball of crushed paper for a head as it's more durable than a balloon which leaves a hollow head.
A cylinder of tubing to fit around the middle finger & into the ball of paper makes an excellent, strong, balanced head.
Take skit ideas for the puppets from the Bible or Mo Letters, or make up your own from Tamily Care Komix or tapes, or revise a "Randy" skit(as we did to win souls at Christmas).

Dear Dad & Maria.

GBY: WLYPAFY: We've just read "SA Controversy answered by Dad"in Mag. 41 & felt the need to write a response.

When we first decided to give up our English teaching jobs one-&-a-half years ago to try to devote more of our time to getting out the Words in this country we did it with the conviction that time is short & that we could be doing more than we were doing. Especially having just read "The Crash is Here", at that time we felt the Lord was showing us that we could be doing more despite the rather oppressive nature of the country & the fact that it had never been tried before. We decided to concentrate more on witnessing & trying to get out some lit than to make survival preparations as most of the rest of the Family was doing at that time.

We began very slowly by sticking selah tracts under doors. This was after we'd been in the country about months & had witnessed very little up until that time because we had heard that it was such a closed country. Little by little we got up the courage to knock on doors & talk to the people & then openly pass out lit in parks until now we've been openly litnessing on the streets daily for donations for the past year without incident.

We don't have anything against teaching English & think that good-paying English classes are a blessing to any Home & almost a must for large families here. To be honest, we have sometimes gotten weary of the battle of litnessing every day & I would start looking for English jobs & just when it looked like I was going to be getting some jobs the Lord would close the doors in such a way that we knew it was Him & He would encourage us to get back on the wall of getting out the Words.

I guess sometimes the Lord takes us at our word % puts our faith to the test as our original vision was to try to devote our full time & energies to the Word & trust the Lord to supply our needs which He hasn't failed to do since then! PTL! The Lord also miraculously supplied Permanent Residence for us here two-&-a-half years before we were eligible—so that we aren't legally bound to teaching English or working in a specific company!

We'd also like to say that we do not believe _____ is a completely open country & we whole-heartedly agree with all the comments you made to E & L 's letter. We think No.942 is excellent counsel for this country. We have always printed & distributed only very milky Letters about salvation, love, etc. & we preach only Jesus & salvation on the streets. We have very seldom ever preached forsaking-all, communal living or sex views to anyone & don't ever discuss politics with anyone--not even friends or catacombers as that is definitely taboo here.

But, contrary to E 's letters, we do not believe that asking for donations is the most dangerous thing you can do here--rather, just passing out lit, free or for donations is subject to investigation. The most important thing is what you pass out!

There is a very great difference in this country between the Catholics & Protestants (called Evangelicos here). The Catholics are generally an-

ti-government while the Protestants & people like Rex Humbard get a reception with the President, etc. Just the fact that we are always out passing out tracts & "evangelising" puts us in the Protestant bracket-which is good for us.

We feel certain that since we have litnessed here in this small city of 300,000 daily for so long (10 months) that our lit has probably been read by the authorities. We litness every day to police, city fathers & no doubt undercover police as well--but we are a Christian group spreading the Love of Jesus & therefore we're no threat to the government:

We do not go looking for publicity & have never said we were founded by Dad. We did have one newspaper article done about us in which we called ourselves the "Christian Family of Love" but in retrospect we realise we could have used a different name or better yet just referred to ourselves as "independent missionary families" which we do now as that name can definitely be dangerous. That one newspaper article was done when we were approached by a reporter & we felt it was better to give the interview than to say no, so as not to make them feel we had sceething to hide. Despite the name, it came out favourably & has helped us immensely in our provisioning.

when we wrote the "Closed Country Opens" article in Mag No.38, we wrote it as a personal letter to you, Dad, to show what we were doing along with a letter requesting counsel because although we felt the leading of the Lord in the things we'd done, & had seen His blessings & the good fruit from getting out the Words, the majority of the brethren here disagreed with us. We were surprised that it came out in the Mag & with the title "Closed Country Opens" as we had sent it in without any title. Although it encouraged us that it came out in the Mag, we have thought that the title was misleading in some ways & could give newcomers a somewhat unrealistic description of this field.

Although we do have a conviction that it is possible to get out milky lit here, you do really have to have the faith for it. We are always very sweet & agreeable & do it with faith, acting as though we have every right to do what we are doing & I think our very boldness in being so open litnessing has made the authorities think that we're not a threat & that we are an innocent Christian group, as we are indeed.

But, if you go out with fear & as if you have something to hide you are going to arouse suspicion immediately & draw attention to yourself. Because of this, we don't consider that what we are doing is necessarily for everybody but as Dad has said, "According to your faith be it done unto you."

We have never felt such a spirit of fear in any other country we've ever worked in as we have in this one, & in our work for the Lord here we know that the Devil's favourite tactic against us has been fear. We have felt that this country is like a dog that's a little afraid of you because he doesn't know you, but won't attack you unless you show yourself afraid of him & will even be friendly & love you if you show love to him.

We'd like to say too that we never intended to create a controversy

here & don't really enjoy being the centre of one. Our disagreements with the other brethren have caused us many sleepless nights & a dilemma that has caused us much anguish, hence the letter we wrote to you, Dad, re-questing counsel about it which appreared in the FN as "Closed Country

Since we've started litnessing here we've seen good fruits & many lives changed. We have gotten out tens of thousands of pieces of lit, thousands of souls have been saved, we have won some precious catacombers & a live-in disciple & the Lord has abundantly blessed our provision &

We've felt the leading & encouragement of the Lord to continue & that He's called us to this ministry. But the majority of the brethren have been against what we've done & so our dilemma has been--follow the Lord's leadings as we see them or follow the counsel of the majority of the

If we are wrong, we'd like to know, as this controversy has caused us much grief & has made us feel like giving up many times & feel that all we've done has been in vain because we've used controversial methods.

We really do love you both so very much & with our whole hearts want to do the right thing & be a blessing to the work & not a problem, & please forgive us if we have been & for taking up so much of your precious time with this controversy. Love in Jesus, R & C

Dearest Loved Ones. RE: The S.A. Controversy

GBYAAPRY: We hope that you are enjoying to the fullest the Southern paradise. We are writing in response to your asking the view the Family members in ______, in Mag 41, Page 186.

7/9/81

As you know, we consider this country almost completely opened up to litnessing when you don't get into politics or use too strange ways of litnessing & witnessing, but the opinion of most of the Family here has been different, just like you can see from the report of E & L in Mag 41. Anyway, even though lately we were kind of far from the other members for this difference, the Fellowship Revolution was trying to keep us together & to put our eyes on the positive.

But about three weeks ago a few Family members mentioned about a law that forbids the printing & distribution of any kind of material that is not registered from the government. According to these brothers the law is old, but only recently has been particularly enforced with the adding of new punishments by the government against the transgressors. After a few days, in another meeting it was explained how after some brothers looked into it, it was practically impossible to register(?) our lit because the info that should have been given to legalise it was too compromising such as, "What's the group's name" or "Who is the leader" etc.

so in consequence of this the Family members' counsel decided that it was better to stop printing up lit & to stop completely any kind of public litnessing except really carefully & slowly DTD. When they told me this (I didn't go since the meeting was on the other side of the city at 8-9 P.M. & it would have been too late for me to come back & also for S & the kids to be alone at night), I told them that I would have to pray & get an answer from the Lord about it, but that meanwhile I would stop litnessing until then. So we spent the whole afternoon praying & reading trying to see what the Lord was trying to show us about it & in the end we received a few Letters that led us to a decision & according to these Letters we decided that we would keep going & that the Enemy was just trying to stop completely the giving out of the Words that was already done in a real small scale.

One of the Letters was "Know Your Meat" (No.943), & it explains how in some countries there is an opposition against some kind of Lit, in another the opposition is against another kind of lit, but if you know your meat & are not stupid to give your pearls to the pigs, then you have got to give out the message. (No.943:21-31.) In other words, since we are giving out the Letters like, "Love is the Answer", "Why Disasters", "Long Live Love" etc., which are heavy messages, but don't offend anybody, then the Lord has got to keep us because we are giving out His Words & trying to use wisdom in it & following also your counsel.

Also "The Island Secret" to me was really important, & I received to study & pray over it. Even though this is an oppressive, repressive, dictatorial type of government, there is a great religious freedom allowed to the point that even knowing that the government is controlling everything behind the scenes all the religions here, like Evangelicals, Mormons, Jehovah's Witnesses & even Hari Krishna are invading the country with their doctrine. with their doctrin

Still, knowing that times are evil & that we have the Words of our Prophet that warn us to watch our steps & try not to be stupid, we do not go pell-mell all over the place distributing, but we just limit ourselves to reach the university students who are, according to "Go to the Cities" the most important people to reach & here are really hungry & receptive. Plus up to now, not only not the government but not even only one single policeman told us to stop, as mentioned in paragraph 70.

Finally, this is not "a closed country to the Gospel" & neither of another predominant religion" so that I believe that we are pretty much "knowing their meat" with Jesus' help. (1004:70-72) Then we got "Registration?—Or Scatteration!" & in this Letter it shows how you cannot be a revolution & at the same time try to get the approval of the System because, "...if you try to change to please them by compromising & conforming you are no longer a Revolution! So you don't dare register that much." (par.16)

Well, I believe in a "Maturation of our Movement" but when you get down to it the System will never approve our tactics & policies because we are the opposite. In fact, you can see now that since they are trying to do it the nice, comfortable System way they are now finding out that, "...you never get something for nothing out of the System!" (par.22) So the Enemy now has completely won over them at the point that they cannot even print any more.

By the way, they also said that the law was enforced on the print shops too, in a way that according to the Family here, nobody would print anything for you if you don't show a registration from the government. Well, one week later a sweet printer printed up 2500 pieces of "Life After Death" for free without the minimum questioning. Intead, when I went to pick it up the guy said, "Your message makes you think." GBH.

But from the same Letter ("Registration?—Or Scatteration"), I could also understand that one of the reasons that the brothers here are compromising so much is because, "...The minute you settle down or settle in one place too long, the local System & even your kings & queens wanna get you legalised, registered & recognised...Never lose the pilgrim spiriti Keep moving!" (par.14,19) And if we had to be like that years ago when we were much more radical, how much more now when so many people are involved with system jobs & all, that this warning should be followed?—Unless the Lord has a special call for you to stay or "schtick".

The last two Letters we got were "The Right to Witness" & "What to do When Persecuted" where it explains really good that all this controversy about going selah, underground etc. should not even be considered before you are stopped from the police or forbidden to do so & that, "...if they persecute you in a city..." after you're through with that place & the message did get out & the job is done, then "...flee ye to another!" or go underground! I mean, it's so clear! But how can you be so paranoid of a little persecution & problems if you don't even give out the message?

But instead of for the giving out of the Words, I think that the problems here are gonna come from the Judgements of God like predicted

in Isaiah 1:13-20 on a disobedient people. (See 804:3-12 & 814:1-22,27, 28) Well, all this was more or less what made us decide to keep litnessing, so that what happened was that the Family decided not to have us any more in the fellowship, I guess because we went against the majority.

Well, as we wrote in the last report, even though we thought that its not fair to drop a Home like that, leaving it completely without fellowship, we realised that it was better anyway. There might have been a few of the brothers that in their heart maybe thought of continuing to visit us, but I guess it happened like in Jesus' time when many believed in Jesus & lovedHim, "...but they didn't confess it lest they should be put out of the synagogue." (Jn.12:42)

The reason for which we thought that what they did was better, it was that first of all as you said in "Breakdown", you cannot stay close to compromisers long without speaking out or compromising tool Second, because one time I got the verse of Isaiah 1:13-20, that I mentioned before where as you know, God is promising judgement to the wicked pharisees for their hypocrisy & sins. But we feel really sad for not having a good Family around whom we can fellowship with, especially for our kids. We trust the Lord for that.

But going back to the report of E & L , I would like to mention that first of all it says that litnessing for free is perfectly legal while as you can see now is not legal just as much as asking for donations. Plus, what is it really worth to give out the Words away for free in mass distribution like publicity pamphlets? What's the difference between that & mail box litnessing? Isn't always a "...lazy man's way & like scattering the seeds with your eyes shut hunting blindfolded with scattershot? Why bother? You might plant something or hit something but most likely won't! Personally, I like to look for good ground, good fishing, good game & not waste my seeds, bait or shots on thin air! Amen?" etc. (895)

Also, he mentions how one person can work to help for support & cover which it would have not been that bad if it was true, but can I ask you something, Dad? Do you want to know the truth if they're to really do what he says & "Use It" to be more efficient?—Or if this is just a plain desire in the hearts of few & a mere excuse in the mind of many shown by the fact that practically everybody has got a teaching or other job which occupies a lot of their strength, time & energy & leaves almost none of these three left?

Ask the Family here in their week time, every day, how many hours they spend doing what! Because even if in one hour you can give out 1000 pieces of lit or go to an orphanage & pray with 150 kids, only the Lord knows where your heart is at. You may say, "Well, why does it bother you so much, let everybody do according to their own faith."

Well, I would really be happy if thingswerelike it sounds in the report; some working, some litnessing, some FFing & so on, so "every man could abide in their calling" in a united work of the whole body. (960) But, when people become weak little girls & compromisers & they "...entangle themselves with the affairs of this life" (2Tim.2:4), so

much & pretending to be whole hearted when they are not & even try to stop you from being so, then I feel like, "...you have got to have convictions or you can't live with yourself! You have got to be convinced that you are right & fight for what you believe in or your attitude will be-- "Oh, so sorry, excuse me for living." (DM July 28)

And that's exactly what happened when I told the VS how I felt about it, he said, "Well, you can't just think that you are right about it, & all the others are wrong, you can't just force some people to do more than they are able or willing to do." Well, I am sorry to say, but he is acting just like you described in "Good Shepherds" when you said, "...you can't go by any popularity at all! I mean, pastors in churches, they have to win the popularity poll & you know who the people vote for? (Maria: The one who is going to let them sit around.) Exactly! The one who is not going to disturb them or wake them up!..." (1002:85-86) And you know, when your comment on the VS came, it was already popular pretty much that he was the most indicated to be VS. Well, that's my opinion.

Finally, on the report appears how tripped off these people are through what they said about the refuges, survival, & all your question marks & through the misconception of the Endtime sitting in a rocking chair like the churches for a future dreamy ideal possibility to do the job that the Lord gave us while the souls go to Hell. How silly!

You know, Dad, as I wrote you in the past letter of May 5th, when Faithy came in March, at the last 15 minutes of the meeting she made five or six comments to which I didn't agree & I thought that she knew too clittle of the country to speak about those things & I explained to you in that letter all about her comments & the reasons of why I didn't agree. One of these comments was that S.A. has to be considered a refuge for the future for the Family & that we should try not to destroy its security, but preserve it.

But since refuges hadn't come out yet, this at the time really put me to confusion. But then after praying I got the verse 953-1: 125 that says, "...where there are many many sweet precious Latin Americans who need Thy Gospel & need Thy love & are open to it & there is greater freedom to witness at least for the time being..." And TG that verse made light confirming us that we are to take advantage of the "golden opportunity".

But you see how people take her word as from you, while in tHis case she was leaning on her own understanding. It's easier to follow a personality more than the Spirit, especially in this case. Most people say, "Oh, she could never be wrong." So, sad to say, this statement about the future refuge came from her. But it was happily accepted by all the members since it backed their beliefs.

In conclusion, we would like to send you a few of the words from some of the letters that we received from the youth of this place whom we are feeding through the mail who wrote in after receiving MO Letters on the streets from us. (Answers translated from Spanish.)

'The True Komic 'Love is the Answer' was to me roally enjoyable. A couple with two lovely children gave it to me & to see them so happy &

believing made me want to be like you. I am Catholic but I found that your Komix fill the heart & get deep in the heart where only God can get, that that's why I am writing, because I met you & because of the Komix."-- Judy, 15 years.

"You know, it's really beautiful what you people do & the measage that you give of love toward God & toward our neighbour as ourselves; I think that your group is one of the best things of this life & that the ideal of love that you have is the true one. I read often your Komix because they make me feel really good."—Niefa, 18 years.

"Your Komix are like a shower of fresh water that makes you remember of simple true & really deep things. Honestly, I can tell you that sometimes I found more things in your Komix than in the most complicated books of philosophy."--Carmen.

"By accident a friend of mine showed me a Komic, "Long Live Love". Well, I want to tell you that I really like it & that I would like to receive more since I want to make a collection of them."—Ruty, 15 yrs.

Well, those precious sheep really inspired us to keep going even when we were fed up with the whole situation here. TG.

What more can I say, two things more maybe that you already said, & one is that, "...you cannot hide your candle under a bushel, that's all there is to it!" "A city that is set on a hill cannot be hid." (Mat.5:14, 15) "We may try because of the persecution & the propaganda, you may try to hide to some extent. But we just can't hide our witness, our lamp, our flame, even if it's only a candle! You are not going to be much good to the rest of the World if you keep hiding your light & crawl into a hole where nobody can see you!...It's a sacrifice to witness! It's dangerous to witness! You are bound to get some propaganda, persecution etc.! But still, we have to do it!" (848:108-110)

And this is also confirmed in the "LNTs" No.1025, par.3, where you explain how there is a message to every part of the World of which we are responsible to give, the message of doom & destruction to the wicked U.S. & Western Europe & I believe the message of love, salvation & eternal life to the sheep of the countries like this one which is closed to politics & other types of messages but open & receptive to the simple but deep love of God through the Words that He gives you.

The second thing I would like to say is that to the article from us published in Mag 41, Page 180, I would like to relate these words of yours, "...who the hell are you scared of? The Devil? Well, you better be scared of the Lord because you are disobeying the Lord & failing God in the job Ne's given you!...His Kingdom is soule! His Kingdom is missionary work, His Kingdom is reaching the lost with the Gospell" (1003:42,22) The title of the article is "According to your Faith", but "...it's impossible to have faith unless you have the Word." The Word, like the verses that I just mentioned, it's the Word that gives you power, strength, faith, love, wisdom & the reason to keep fighting & that shows you the way to fight.

When Jesus was putting the people to a test of faith & they were making it, then He would say, "According to your faith be it done unto

you" or "...go in peace, thy faith hath saved thee." So it does make a difference to have faith or not to have it while it seems that a lot of people now in the Family is covering under the words, "Well, I don't have faith for it." It's because as you said, they are weak in the Word, the only thing which you can hang your faith onto, THE WORD! They are going to miss the best.

Well, this is about all I can say now. Sorry if this letter was so long, but guess this is gonna be about the only one talking on our side since we have been "kicked out".

Only one more thing, Dad, to me really important. You know, I don't want to write all these things to show you that we are right, to show you 'how good we are', or "see, we are the best, we are the ones who are doing it in the best way". No, I don't care for the glory of man, (not you but in general). I don't give a damn for the glory of man. It makes me sick to my stomach. I wrote this because I want Jesus to get the glory because He is the only good thing in us. You know, we made, too, lots of mistakes, tempted first to go maybe too much on one extreme, like in the first letter I wrote you, then the "Island Secret" gave us a better direction.

I had a singing job too for a month that in the end was trying to use me too, but the Lord got us out of it. I got assaulted by five individuals with knives at 2:30 A.M. in the streets, after singing, but TG nothing big happened. But all this just shows that "...ve have this treasure in earthen veesels, that the excellency of the power may be of God & not of us. (2Cor.4:7)

It's only Jesus, the way, the truth & the life, & it's nothing of us, we are just a terrible mess. Jesus said, "...Herein is my Father glorified, that ye bear much fruit, so shall ye be My disciples." (Jn.15: 8) So, the fruit is not to show how great we are but to glorify the Father. I just want Jesus to get all the glory, I don't want the praise of men because that's what ruins you. Jesus knows it. He knows all, "...God is greater than our heart & knoweth all things." Only when we glorify Him then He glorifies us, in His way." (Jn.8:50)

So that's all. We love you more than the words can say. Jesus knows how much, "...to whom shall we go, only thou hast the Words"! Jesus gives them to you, that's why we need you so much. With much love in Jesus,

Amen, Son! You're a lawyer of the Word!)

TK ART—A "Fulfilling" Ministry! AND NO.

Cod bless you dear Artists and thank you so much for all your hard work on the Komix! Almost everyone's a rawork is improving so much, even with each TK, so if you thought the artwork in the First and Second Volume was good, wait'ull you see the coming Volumes! itallelujah! It's absolutely thrilling!

Please also remember to keep the production of the Volumes in your prayers, that we may get them all out before the Storm comes! (Jn. 94 : Mt. 2074.28) Once we receive the Originals from you, there is still quite a bit of work involved before they can come out in the actual Volumes!—rand time ig short!

Thank you for the great response we had in answer to the call for Artists! Some terrific new talent has turned up, and you'll be seeing some of their artwork soon. Even for those of you for whom illustrating TKs is not the major Calling for you to abide in, we hope you had fun working on the one or two assignments we were able to give you!

Here is a reminder that the final printsize of the True Komix is 13.5 cm by 19.4 cm. We've received several TKs recently which were the wrong proportions, so if you are drawing larger than actual final print-size please use the Proportion Guide on page 182 of FN 39 to check that your proportions are correct, and neither too long or too wide!

Thank you! (PS---even if you think your proportions are correct, and neither too long or too wide!

Spirit, because we couldn't make it without Her." If you absolutely have to break the sentence, then do it this way: "Praise the Lord for His Spirit," (and continuing.)"... because we couldn't make it without Her!" Remember Nehemiah 8:8, "So they read in the book in the law of God distinctly, and gave the sense, and caused them to understand the reading."

An important point regarding DFO TKs is: from now on we will not be including the appeal (or "plug") at the bottom of the last page. Only on Komix for GP distribution will we continue to need the appeal, asking them to write in for more TKs.

Regarding underlining words in the text for emphasis—most of you seem to be pretty Spirit-led as to which ones to underline but in a few cases this effect has been overheated. Dad recently commented on this, "When they underline nearly everything it loses its punch!"—Amen? Please make sure your underlining corresponds as closely as possible to the original text of the Letter! PTL!

derlining corresponds as closely as possible to the original text of the Letter! PTL!

We'd like to give a special "thankyou" to those of you who have diligently made all the requested changes in your TKs. It certainly is making work so much easier for us, and as Dad prophesied in "The Ohof Art" (no. 3255:25) several years ago, "I'm expecting that our "religion" is going to be the most artistic and best illustrated in the World!" PTL! Because of your Sprint-filled artwork, "this day is this scripture fulfilled in your ears!" (Luke 4:21) Thank the Lord for such a "fulfilling" ministry!

PTL! We are continually trying to keep the quality of the illustrated Word up to where it should be, and for this reason we have been returning some of your TK originals to a few of you, if it fell far below the standard, and we knew you could've done a much better job with some more "pick 'n shovel" work. So thank-you very much for being willing to make these changes. We love and appreciate you!

One last note: Please do not go ahead on illustrating "Daily Might" or other "compilation" TKs without checking first, because we simply cannot give Awards for material we cannot use. Your idea might be a good one, but please check first, okay? Thanks! Love,

Once when I was a young Christian they were having this big Christmas celebration in our church, and they had someone all dressed up as Santa Claus passing out candy and everyone brought a present for someone else. And I thought, "How come, if it's <u>Jesus</u>' birthday, why don't we give <u>Him</u> presents and sing songs about <u>Him</u>, instead of singing all this other stuff?" I got so mad, the longer I watched and the more I saw.

And right in the middle of all this foolishness I burst out singing, "Happy Birthday, Dear Jesus," and that's all I had to do. Everyone looked so ashamed. Here they were celebrating Christmas and they had forgotten all about the Lord. No presents for Jesus, no songs for Jesus.

If it's the Lord's birthday, why don't we give <u>Him</u> the presents? Instead of spending all that money on each other, why not give it to the Lord's work?

Why not send it to some

Why not send it to some missionaries or people who really need it?

Let's together share His Love and give His Words to others this Christmas, that they too may "know Him, Mnom to know is Life Eternal". John 17:3. Let's give the Lord the gifts that He is most pleased with, the lives and hearts of men! Then we can really celebrate Christmas

They were almost like strangers to their own relatives in Bethiehem, because none took them in, right? Think of it!
A friendly innkeeper let them stay in the barn for the night, since his place was full. So Mary had the baby right there in the barn and she wrapped it up in swaddling dothes it says and laid it in a little manger.

Some shepherds were out there watching their flocks by night and all of a sudden there was a bright light and a whole bunch of angels began to sing:

CHRISTMAS EVERYWHERE

Everywhere, everywhere, Christmas to-nightl Christmas in lands of the fir-tree and pine, Christmas in lands of the palm-tree and vine, Christmas where snow-peaks stand solemn and white, Christmas where cornfields lie sunny and bright, Everywhere, everywhere, Christmas to-nightl

Christmas where children are hopeful and gay, Christmas where old men are patient and gray, Christmas where peace, like a dove in its flight, Broods o'er brave men in the thick of the fight. Everywhere, everywhere, Christmas to-night!

For the Christ-child who comes is the Master of all, No palace too great and no cottage too small; So the stars of the midnight which compass us round, Shall see a great glory, and hear a sweet sound. And cry, "Look! The Earth is aflame with delight, Oh, sons of the morning, rejoice at the sight." Everywhere, everywhere, Christmas to-night!

My Master was so very poor, A manger was His cradling place; So very rich my Master was Kings came from far To gain His grace.

My Master was so very poor And with the poor He broke the bread; So very rich my Master was That multitudes By Him were fed.

My Master was so very poor They nailed Him naked to a cross; So very rich my Master was He gave His all And knew no loss.

CHRISTMAS

Signature of the summer grass, So, in Thy sight, Almighty One, Earth's generations pass.
And as the years, an endless host, Come swiftly pressing on, The brightest names that earth can boast Just glisten and are gone.

Yet doth the star of Bethlehem shed A lustre pure and sweet:
And still it leads, as once it led,
To the Messiah's feet.
O Father, may that holy star
Grow every year more bright,
And send its glorious beams afar
To fill the world with light. William Cullen Bryant, 1794-1878

Why do the bells of Christmas ring? Why do little children sing?

Once a lovely shining star, Seen by shepherds from afar, Gently moved until its light Made a manger's cradle bright.

There a darling baby lay, Pillowed soft upon the hay. And its Mother sung and smiled: "This is Christ, the Holy Child!"

Therefore bells for Christmas ring, Therefore little children sing.

CHRISTMAS IN THE HEART

It is Christmas in the mansion, Yule-log fires and silken frocks; It is Christmas in the cottage, Mother's filling little socks.

It is Christmas on the highway, In the thronging, busy mart; But the dearest truest Christmas Is the Christmas in the heart.

OUR CHRISTMAS POEM FOR YOU

There's lots of reasons that we'd like,
To be with you at Christmas time,
And as this thought now comes to me,
It's inspiring this Christmas rhyme!

I guess, to most, Christmas is The most special time of year, And you're so special, too, you k Your voice we'd like to hear!

And we could sing together,
And praise our Saviour's birth,
So thankful we can share this love,
That He brought down to earth!

For without the birth of God's own Son, Who grew up in Galilee, There'd be no Christmas anywhere, Why put up a Christmas tree?

Why eat and drink, and decorate? Or rejoice for gifts received? Why, we can't really celebrate, If actually we don't believe!

Just His birth has taught so much, As we remember how He came, So quiet, simple, and tenderly But Mary knew His name!

God's simple Truth came down And simply was revealed, And with a silent shining star, The mystery was concealed!

So that all those who seek can find, if they follow in its fight.

If we only venture out into, The stillness of this night!

And if one knelt beside a manger, They shouldn't be surprised, If they'd see the love of God, In a baby's eyes!

And one would walk away from there, Knowing they'd been changed, For there inside a dirty stable— This place that God arranged—

Was born a king, The King of Kings! You can imagine how, God loved His newborn Son that night His plan to free us now!

And, oh, such love ne're 'ere before, Or ever since, has been, The day God sent His only Son, To be born and dwell with men!

We're so thankful of this one thing, That this year we can share, Whether near, or very far away, This baby, tender, fair!

Who, born in both your heart and mina, Unites us especially now, So that we feel so close to you, Like you were here somehow!

Merry Christmas, let's shout and sing, And awake the living dead!

And let them know this time of year,
God's love we're here to spread!

And like the hosts of angels,
To shepherds did rejoice,
Let's remind the world once more,
Through us they'll hear God's voicel

Proclaiming that His Son is born! And peace for men on earth! Oh, Jesus, you're alive and live! We've found in you rebirth!

BRIGHTEST AND BEST OF THE SONS OF THE MORNING

Brightest and best of the sons of the morning, Dawn on our darkness, and lend us Thine aid!

Star of the East, the horizon adorning, Guide where our infant Redeemer is laid!

Cold on His cradle the dewdrops are shining; Low lies His head with the beasts of the stall:

stari;
Angels adore Him in slumber reclining,
Maker and Monarch and Saviour of all.

A CHILD'S CHRISTMAS CAROL

There was a little Baby once There was a little Baby once
Born upon Christmas Day;
The oxen lowed His fullabye
As in His crib He lay;
His tree, it was a lonely tree;
That stood upon a hill,
Its candles were the mighty stars
That shine upon us still;
His toys were flocks of little lambs,
He loved to see them play;
It is for Him we are so glad,
Now upon Christmas Day.

A Fare-Free Visa Venture! MIRACULOUS PROVISION OF FOOD, HOUSING, BUS & PLANE FARES ON LONG VISA TRIP!

GBYA: WLY & WANT TO GIVE

you about some mighty miracles the Lord did for us &

THIS FIFLID, as well as tell you about some wighty siracles the Lord did for us & thru us.

LITMESSING & WITNESSING in surrounding towns has been very inspiring & fruitful. Recently the Lord provided all our needs on two trips to surrounding towns where we were able to feed sany sheep. Altogether we gave out ower 20,000 pleces of lif, & the mail response from those towns has been great because they were never hit before.

ALSO, THE LORD DID LOTS OF HIRACLES FOR US when our visas were up & we had to make a 3,500 km. journey to get them renewed. As our last visa trip had been quite exhausting with long bus rides, money stolen, etc., we prayed for an extra easy trip this time.

QH THE WAY TO THE BORDER WE STOPPED TO SEE & ENCOURAGE A SMEET GIRL who had fallen in love with us 2 years ago in another town. She was so happy to see us & jumped for juy that we still love her & care about her. We told her how Jesus, the good shep-herd, never loses his sheep, even if they are somewhat stray, & that He'll get them back in the end.

One of the Moses gladly took us in 6 fed us, 68'em, and the next morning we were in desperate prayer for a solution to our financial problem. We received that we should step out by faith 6 provision a flight from this country's air force to the border, as they have regular flights going there.

SO, EXPECTING MIRACLES WE WENT TO SEE THE CATAIN IN CHARGE OF THE FLIGHTS. 6 a real fight of faith began. He really got fascinated by the Spirit 6 wanted to help us, but said he would have to ask higher officials first; and since they were not there he told us to gone back later.

THE LORD TOLD US: "All things are yours in Christ Jesus, "6 we continued to stand there expectingly when the captain suddenly said, "Okay, you come to nor we be 1'll give you 2 seats." Halleujah! A real miracle!

THE NIGHT BRICRE WE HAD ALSO ASKED THE LORD TO SUPIL' a certain arount of money which we figured we needed for the last part of our journey, 6 walking into a shop & asking for help the Lord opened the hearts of the manager who gave us exactly what we prayed for.

"Island Secret" Nationals Carry On!

BEHIND-THE-SCENES DISCIPLES TRAIN NATIONALS TO CARRY ON THE ABOVE-OR from Psalms; S.C. Asia:

From Psalms; S.C. Asia:

Hi: GBY! ME'VF HAD SOME
GRAT VICTORIES MERE ON THIS

SIAND due to the efforts
of one-fire nationals. Just
3 days ago a group of teenage nationals(making up 6
teams) paired up to to hit
a housing estate 6 a shopping centre. They're all at
present on vacation from
school. THES

a nousing estate of a stressent on vacation from school.

MITH THE POWER OF PRAYER BEHIND THEM, the young people went out distributing at a shopping centre all by faith. They attacked 6 reaped 6 souls including the Muslim security guard. Hal. In the faithful group of teenage nationals—there are obout 15 of them—are part of a core group of shepherds under the leadership of cur brother Andrew.

IT ALL STARTED ABOUT TWO THANS AGG when Andrew decided to take Dad's good advice 4 drop in—right into the church which he dropped out of about eight years ago. He was in a real dilemma about it, but God Dlessed his decision. He not only began reaping the souls there, but soon he took over the leadership of the Youth Fellowship & became their shepherd.

INALLY IT WAS AS IT THE STARYING SHEEP HEARD THE YOUTH OF THE TRUE SHEPPHED, 6 from all the sleepy nooks 1 corners of the church they accome to hear the Word as delivered by Andrew under the Lord's snointing.

NOW AL LEAST & ARE FEED-ING DIRECTLY FRON THE BASIC 144 CLASSES, & the rest are being fed on Bible study classes & lessons compiled by Andrew from the Nord & the Letters. CRM: Paper & printing costs for this study lit come under the church expenses.

NATIONALS FROM THE CHURCH ALSO DISTRIBUTE LIT, & the full-time brethren here stay underground with the training of leaders. The brethren also minister to the sheep whom the nationals attending school or holding jobs may not bave time for. SO THE NATIONALS WE HAVE ARE DOING ALL THE ABOVE-GROUND WITHENSSING, as they can get into a lot more places with the official backing of the church-revival meetings in mission schools, university campuses & clubs where our foreign brethren usually can't reach the people.

ME EVEN HAVE ONE SISTER, a teacher traines, who is occasionally sharing with the kids in class instead of teaching their lessons.

She has reaped more than SO souls per month for the Lord. TYL!

A FEW MEEKS AGO SOME OF THE YOUTH FILLOWSHIP LEADERS were invited to a mission school to lead an inspirational time. Andrew & the young people did a Holy Ghost sample which resulted in 9 salvations, 70 baptisms of the Holy Spirit & promises from 120 schoolpirls to pray for a "revival" in their school.

SO, THE MATIONALS ARE FINALLY MOING IT HERE ON THIS SUNNY ISLAND, & it's just one explosion after another. PTL! Gur little HMM band of nationals is even making its debut before a church congregation soon. The music ministry is beginning to explode, & the kids are really turned on to the songe of the Revolution. TYJ!

LESSONS ON 10:36 PROB-LEMS: "Soon after Anna & her children rejoined the Family LEMS: "Soon after Anna & her children rejoined the Family with us, her ax-husband, an exmember from years back, Nathan West (the Bible name he still goes by) came all the way from Ariz, to Tex. to rip off his 2 children. He came with the police when she wasn't there & took them. Nathan (Corky is his other name) is very bitter against the Family & came breathing accusations to the police saying, 'Anna's in a cult. She ran out on her children & Is going to bed with everyone.' Anna was in Mexico at the time scouting out the land while Rachel & I were taking care of the kids. He got wind of her being in Mex. from her 2nd husband in the system. (This is where she made a mistake in that she shouldn't hears told him. & the did not from her 2nd husband in the system. (This is where she made a mistake in that she shouldn't have told him, & she did not cut all ties.) Anyway it was a terrible scene with the children screaming & crying that they didn't even know him. But the police pressured us into letting him have them. We didn't agree but felt we had to obey the law. He didn't even have papers to show the police who he was! Of course we contacted Annaright away & she came back. She had papers stating she has full legal custody permanently. We went to the police, who knew they had blown it & turned everything over to Criminal Investigation who informed us to go out to Ariz, with the custodial papers & go to the D.A. So we did, & after a lot of red tape finding the right dept, etc. tape finding the right dept. etc. they sent police out to arrest they sent police out to arrest him. But by this time Nathan had some kind of paceers too, as he had a lawyer working for him. So Anna still couldn't get the children. They were placed in Children Protective Services. When we went there we found out Nathan had tried bluffing them into believing he had a court order to get his children. He also filled CPS with a bunch

of lies about Anna too, so they were scared to turn them over, even tho' she had the legal papers all along! So we talked with the county attorney, GBH! He called CPS & advised them to turn the children over to their mother, as he knew Nathan had kirlnapped them & the State of Ariz, had him for 'custodiai interference'. So PTL, Anna finally got her children back. This was a big big lesson for her, & I hope for anyone else in the Family who might be going thru' similar experiences. My advice is if you have any doubts that someone tould be a 10:36er, don't give any place to it. Break all ties & flag for the sake of the children, Better safe than sorry. Don't well around to see what the Enemy is going to do! Also, be warned about Nathan West & Peter McIntyre (a former mem-

ber who came with Nathan to get the kids.) Both are enemies. Nathan especially is very bitter & there is no telling what he could or may do. I also wanted to say thank God for our brothers in the Family, as I couldn't drive out to Ariz. as Nathan knows me. So GB Matthew who drove us all the usey out is his. knows me. So GB Matthew who drove us all the way out in his truck & fought with us to the very end, leaving his wife & family to lay down his life for the sheep. Another thing I left out is that Nathan came in very very subtley & got some of the brethren to tell where we were staying. The whole thing was an attack of the Enemy as we never expected it. The unguarded moment—it's so important to obey all God's checks—every little one!"—Dayle & Rachell U.S.A. (Yes, like <u>leave</u> the U.S.!-D.)

He's presently somewhere in the U.S., but plans to go to South America, particularly Chile. Family bewere! He's very subtle & has crept in unawares & is a real reproach to the Cause & will hurt the Work, yet use it for his

HEALING MIRACLE: "One day on the train I met a girl who was having an epileptic fit before my very eyes. Three men were holding her down in the crowded train. The Lord inspired me to go over to her & lay hands on her head & pray, claiming Scriptures. Immediately she calmed down. PTL! A month later while litness ing, I met her again accompanied by her father. She came running over & smiling told me, 'The thing that you told me healed me completely!' TYJ! James 4: 15-16." -Levi Templetime; Iberia (from VS Newsletter)

"OUT LITNESSING SHALL SHA MET A GIRL WHO ASK SED IF SHE BELIEVED IN SPIR-ITS. When she said yes, the girl began telling her about her 6week-old daughter died of 'crib death' 11 months ago & how a few days later the baby came to her & told her not to feel guilty, that it wasn't her fault, but that now she had accomplished her mission so the Lord called her back to heaven. Before her pregnancy this girl was a drug addict & heavy drinker but when she found out she was pregnant she had stopped doing both. The Lord used the baby to totally change her. Since then she has seen the baby 3 times & really believes in the Lord now. Shalisha gave her a copy of 'Life After Death' & the girl told Shalisha that she was one of the few people who believed her experience, that most people think she's crazy.'' —Dominic & Jael; U.S.A.

"TWO HEALING MIRACLES IN ONE MONTH! Our son David was born with a chronic allergic problem which at 5 months got very bad. The doctor said he was allergic to milk & could not drink it anymore in any form. After one month without milk David was very pale, thin & sad. We prayed desperately & gave him milk by faith. Today David is very fat, alert & happy!** When I went to the doctor to get checked because of some pains I had in the rib area, a test showed I had a lump in the right lung. They asked me if I had contact with anyone with TB, or had fevers, lack of appetite or fatigue. I answered no to all, & they were quite surprised. Tiago inspired me to have communion, which was very beautiful & gave us a lot of faith & inspiration. Later when I returned to the doctor another test showed I was totally healed!' -Malaquias & Eva; 5. America.

"A FEW MONTHS AGO I MET A COUPLE WITH TWIN BABY GIRLS WHO WERE DY-ING in the hospital. We prayed for the babies & the couple both received Jesus. This month we spent a day at their house. The

babies are better & are soon to come home, TYJ! At our visit the couple received the Holy Spirit, & a friend also got saved & filled with the Spirit! At the beach, 4 children got saved. Their very poor mother invited us to share lunch with them, GBH!"—Timothy & Joy; S. America.

"RE: 'COMING TO AUSTRAL-IA?" IN MAG 27-1. 'It is impossible to be granted permanent residence whilst one is in Australia on a vistors visa.' False! Any single or divorced person can marry while on a 6 or 12-month visitors visa; therefore this statement could discourage our Family (those single or divorced) from coming, when in fact marrying an Australian is probably the easiest way to stay here, giving automatically at least residency.

Come marry an Aussiel 2. 'FFers could work for escort agencies. Let it be known that escort agencies in Australia are mostly nothing but brothels! For girls interested in doing some real fishing, ten minutes is not much time! 3. One must make application for permanent residence from your native country.' Untrue! If this were so all Britishers, Americans, Canadians etc. would have to return to their countries, apply & wait before coming. For God's sake let's not discourage people from coming thru' incorrect infol 4. 'A wise thing to do might be

to come out here on a visitors visa...working for your prospect-ive sponsor for a while in the hope of impressing them.' Technically, working while on a visit-ors visa is illegal & could be grounds for an easy deportation, altho' many do get away with it. Of course, one could agree to work 'for free', but I don't know how many people could afford to do that for long. 5. 'Buying a business like a bistro for about \$20-30,000 ... 'Sounds like a silly idea, in my opinion. Whew! Surely anybody with that much money could find something better to do with it! My opinion! Sorry about my comments concerning this article being so late, but I felt there were just too many incorrect statements made to let it go, especially as many people as are trying to leave Europe etc. to come here." -Byron.

The comment of the property of the

TITHING TESTIMONY: "I didn't have any money yesterday & needed a lot for my Tithe. So I went on the attack & had the best day I'd had all month & raised the full Tithe in one day. I sent it all in & am now back to nothing. But PTL the last 8 years in the Family I've hardly ever had any money but I've always had everything I need. I don't know how it works but it does, every time. TTLI We got nothing...to worry about either! Hal -Jeremy Wood; Europe.

"AN ARTICLE APPEARED IN THE PAPER mentioning that the gov't. would not issue any more visas to the Mormons, Jehovah Witnesses & those of the Bahai faith. We feel this could be the beginning of the end of our freedom to litness & witness openly, as it seems to be the church-inspired persecution against sects in general. -SImon & Linda; Thalland. (It may be in our favour by reducing the competition. We don't have to get missionary visas like the organised religions so they can't stop us unless they stop us on the streets. And when they stop us, then it's about time to Frankly I think we've gained official favour there & have friends in high places protecting us.

Don't run every time the Devil says boo. Go on the attack & double your lit output. It shows we're succeeding when the hit dogs howl. The persecution & bad publicity in Spain over the FOL literally doubled our lit output & our personnel & we're stronger there than ever. - Dad.)

JOKE: "One businessman to another: 'I finally taught my son the value of a dollar. Now he wants his weekly allowance in Swiss Francs!" Clay & Brunheld; Carlbbean.

FROM JOSH: "Dear Dad & Maria, GB&KY continually. I'm very sorry for not writing

or sending you pictures for such a long time. Please forgive me. We really need your words & I'm thankful for all your help & love for me. The Lord is so kind & patient. We really want our children to know your Letters & love & follow Jesus.-Your son, Josh." (PTL, Son! GBY!-We've missed hearing from you & still remember fond-ly our good ol' days together! "TWICE WE DIDN'T TITHE THE VALUE of the free rent of the house at the beginning of the month when we usually put the Tithe away. And during the month the owner of the house decided she needed the house for her family. After we repented of our mistake, the Lord gave us back the house & we will be sure to tithe the rent value at the very beginning of the month!" Simeon & Trust; Indonesia.

"OUR NEW BABY BOY WAS BORN WITH A CONGEN-ITAL DISLOCATION OF THE HIP BONE. Doctors said he might have to go thru an operation. We prayed that the Lord would put his bones together even before the baby's first 2week visit to the doctor. When the doctor checked the baby he was all normal! God is still on the throne & prayer changes things!"—Daniel & Ruth; U.S.A. (now in S.E. Asia).

"WE WOULD LIKE TO RE MIND BRETHREN COMING
TO THE TROPICS that the best type of clothing, both for outer wear & underwear, is cotton. Also leather is preferable for shoes as it allows the feet to breathe. We have seen brethren come here with almost 100% synthetic wardrobes (even underwear), which is extremely uncomfortable & unhealthy in these very hot & humid climates." (AMEN!-D.)

"AS A SINGLE BROTHER I WANT TO KNOW IF IT'S ABSOLUTELY NECESSARY TO GET HOME SUPPORT before heading South to Latin America. So many single brethren are perplexed because it's getting difficult to raise home support, & yet would it be wiser to go to a foreign field by faith without home support & survive, or remain here & die because we couldn't raise home support & didn't go? I can understand large families needing home support, but what about single brothers like myself?" Laz Comeforth: U.S.A (Pr. 18:16–Many field Homes are begging for helpers–workers!

"WE WOULD LIKE TO KNOW DAD'S OPINION ABOUT 'WY-ING' here in Thailand. 'Wying' is when you fold your hands like you pray to the person you greet. They do it here to show respect or thanks. Most people expect us to do this when they give the kids something. Is this 'becoming one' or is it against our belief to only worship God? Buddhism teaches there is no God but that we thru doing good become gods." Slias & Faith: Thailand (It is a common courtesy expected there & no worse than saying thank you!-D.)

Jesus:

AS I BECAME A TERNAGER, the church 6 my friends there became the centre of my social life. I played the piano for Sunday School sang in the choir, 6 went to youth fellowship meetings every week until I left home to go to college in another city.

JUST BEFORE I LEFT TO GO TO THE UNIVERSITY. I at-

left home to go to college in another city.

JUST BEFORE I LEFT TO CO TO THE UNIVERSITY, I attended the college students' sunday School class. They were reading the Bible together, in the Book of Genesis. This was a shock to me, as I had never read the Bible in any Sunday School class before, I asked the teacher how he could actually believe such stuff, & was told you have to believe it by faith. This answer made me so mad that I angrily left the class & never returned to that church, which I had attended for 11 years. was told you have to believe it by faith. This answer made me so mad that I angrily left the class & never returned to that church, which I had attended for 11 years.

AT COLLEGE I BEGAN MY STUDIES IN CHEMISTRY, hiol-

fice profession. What I wanted most of all was to find a suitable husband & to get married.

WHEN I HET JIM, we clicked right away. He was very intelligent & was much more socially aware than I. He was involved in campus politics, the civil rights movement & protesting the Viet Nam War. (This was in 1964.) I was fascinated by all these new ideas & went with him to meetings & discussions & marches. We soon got into drugs as well, hallucinogenics & marjuana, & became commune-dwelling, drug-taking, hard rock musicilistening members of the "counter-culture", in a word: hippies!

WE BOTH MANACED TO KEEP OUR STUDIES UP SUFFICIENTLY TO GRAPDATE, Then Jim decided he should go to law school, as the draft was in effect for the Viet Nam War, & law school afforded him a 3-year deferment. Compared to normal graduate school's 2-year deferment.

ME DID GET MARRIER, but communally

WE WERE VERY IDEALISTIC 6 PROUD THAT THRU COOPERATION WE WERE ABLE TO CREATE THIS TOOL TO FIGHT THE INJUSTICES of society. It was during this time that I met the Family. Someone had directed them to our office when they needed help to legally fight the Free-COG group who were publicly televising outrageous lies against the Family. My busband decided to take their case himself, for free.

PERSONALLY DURING THIS PFR-LOD OF ORGANISING & OFFNING THE LAW COMMINE. I was ter-ribly unhappy 6 suffering from depressions. However idealistic our lives seemed to us 6 to our friends, I was not fulfilled. I didn't truly believe the lawyers could actually change soci-ety for the better or bring ety for the better or bring real lasting help to people

ALSO. AS I RECAME A SECRETARY AT THE LAW OFFICE.

AS SOMEONE POINTED OUT, HOWEVER, THERE IS A BOOK OF THE BIBLE CALLED "NUMBERS". § Jesus said even the hairs of our head are numbered! Hallelujah! I'm so happy to be able to use these talents to inspire the Family world-wide with news of the great things the Lord is accomplishing thru us. The HMS-MWM Video Show!

The Words come alive in an exciting on-location production!—Everything provisioned!

Written by Windy, Photos by Peter Pebble, Silas & Hannah Happy:

"Oh, a capital ship for an ocean trip was the Music With Meaning Show!—This beautiful salling vessel with a cross-shaped antenna & ropes of pearls, & busy crew members radiating from that antenna of pearls that pretty music to all the World in Thy Love!—Wouldn't that make a good MWM Video Show?" ("The HMS MWM" in the Ostow?" ("The HMS MWM" wideo Show?" ("The HMS MWM" video Show) (which will be Audio-Show Number 52, D.V.), arriving back in port with victories & testimonies that we want to share with all THE LORD MIRACULOUSLY PROVIDED FOR THIS SHOW over & beyond whatever we could ask & think! GBH & GB all those who went to ask, seek & knock for the needed materials. We didn't have to worry about painting all the background scenery, for the Lord provided a boat, "The Hermes", a 100 meter day-cruise boat which does a tour of three Greek islands a day with approximately an hour stopover at each island, leaving at 8:30 a.m. & returning at 7:00 p.m. Urlah & Katrina, our ever-helpful VS team, made the contact & provisioned 55 free tickets, lunch included, which sell at \$38 each! Two extra hours of lilming were provisioned on a large island ferry boat at a nearby port, the Lord providing strong winds that night to complete the storm scena.

COSTUMES WERE PROVIDED BY OUR FAITHFUL PROVISIONING TEAM of Rose Mideast, Daniel, & John & Daniela—a captain's uniform for Simon (a perfect fit!), & seven pairs of trousers & seven hats for the chief officers! Spyros, a clothing shop owner & tithing friend of the Family, donated ten adult & ten children's tshirts stamped with "HMS MWM" on the front, with blue sailor hats for the boys, & the girls with their white hats & bikinis, the costumes were complete!

their white hats & bikinis, the costumes were complete!

EIGHT NEW INSPIRED SONGS WERE WRITTEN & RECORDED FOR THE SHOW! Simon was busy on the script & Topaz with the choreography. A full dress rehearsal brought everyone together for the finishing touches & then it was off to bed for an early reveille—5:00 a.m.

"ALL ABOARD", SANG HANNAH HAPPY as she walked down the quai & up the gangplank in her sexy shorts & her fleebag on a pole over her shoulder followed by the HMS MWM sailors. On this first day of filming there were 40 of us, including ten children & six bables. "Everyone has a baby," exclaimed one crew member, & so it seemed as everyone had to be ready at any time to either film or babysit! It was nothing short of a full-day Holy Ghost Sample for the approximate 800 passengers that were aboard the Hermes, One crew member exclaimed, "You're really one family! I've never seen such good care of the children. It's really beautiful!"

AS THE ENTIRE CAST SINGS "SHIP AHOY" composed by Windy, Simon inspects the ranks,

"IS THERE ROOM FOR ME" yells out a young girl (Phoebe) running down the quai, her bags waving. Yes, come aboard!" answers Simon, making a full number of 802 South to the Southern Hemisphere, as he points to the map, out of the dangerous Northern Hemisphere war zones. NEXT IS "802 SOUTH" WITH A HOT TROPICAL. RHYTHM DANCE by Topaz, Maria, Manuel & Tracy, as the crew looks on, followed by "The Island" instrumental composed by Jeremy. "HAILI THE ROBES! Maiah

"HAUL THE ROPES! Weigh the anchor! Start the engines!" & we're off "across the raging main!" Our MWM cook Andre: is in the gallery, & Abishai at the controls says we're ready to broadcast to the entire World from our pearly antenna.
NOW, WHERE'S PHOEBE?

the crew (Abishai) jumps in to save him. Joan sings the beautiful song "Man Overboard" composed by Angelo & Peter Pioneer, urging us to save all those who are drowning & to bring them back aboard into His Service! The filming of this song was such a powerful testimony to those watching & reality got across the meaning of our message! TTL!

BEFORE THE "HMS MWM"
HEADS OUT TO OPEN SEA
THERE IS SHORE LEAVE filmed on one of the islands where Simon & Paul Michael meet a girl (Katrina) to whom they witness & Paul Michael sings "Step Out On The Water". As the ship's horn blows to sound the departure, the prays with them to receive Jesus. As she watches them hurry off to the ship she shouts, "I'm coming with you!" & runs after them to get aboard the only ship on the see that saves!

ONCE OUT ON THE OPEN SEA, Angelo & Sarah sing their beautiful song "Navighero" as the sun begins to set. (We were able to get some good night-time shots with the use of a lens filter.)
SUDDENLY!—"THERE'S A TERRIBLE STORM blowin' up, Sir!" yells Boatswain Solomon, & the orders are called to tighten up the ship for the storm. A frantic Phoebe soaked with rain comes into the Pilot's cabin screaming, "What are we going to do?!" And Simon comforts here, "We're going to have to trust the Lord!"...to which Phoebe exclaims, "Has it come to that?" The storm mounts & "The Waves Roar" sings Jeremy, speaking symbolically of the peoples & activities of the World in their wars & riots & terrorism, the World like the troubled sea when it cannot rest. But "His Star Will Guide Us" sings Windy, a prayer for calm seas & safekeeping into His Heavenly Harbour.

BOATSWAIN AT THE WHEEL. & there alone with the Lord in the quiet of the night he prays a moving prayer for Godly guidance across the wild stormy deep & tempests, & also for God's children all over the World, that they will obey His Words & follow His will. (Angelo's instrumental "The Pilot's Prayer" provides the musical background for this scene.)

MORNING DAWNS & Simon is beckoned on deck where all the cast greets him in the finale, written by Paul Michael, "The HMS MWM", with Simon as the spider pulling the musical strings!

The grand finale "The HMS MWM" with Simon as the spider pulling the musical strings!

ALL THE EXCITING BEHINDTHE-SCENES ACTIVITY would have made another whole Show in itself! The captain of the "Hermes" wore a very simple uniform, but Simon in his elaborate attire was repeatedly mistaken for the real captain!

THE ENTIRE "HERMES"

RECEPTIVE, helpful & patient.
The barman will in no wise lose

And after all that the "Hermes" crew vol-untarily stayed aboard for a coup-te of hours when we arrived back in port to keep the power on so we could finish all the last-minute shots! These men work we could finish all the last-minute shots! These men work from 7:00 a.m. to 8:00 p.m. sev-en days a week, nine months a year! GBT for helping us so much! A Prodigal's Narrow Escape! Journal Last-Minute Deliverance from System Entanglement! - Stray Sheep Gets Second Cha

C tserse

GBY: LLY! Love to you from this beautiful island paradise! What a blessing to be able to be back here in the Lord's full-time service in such a wonderful ministry, thanks to you and the Lord, and of course F and J , and their faithfulness in going out after the stray and prodigal sheep. Thank the Lord for His mercy! I know I'm very unworthy of it, but thank you dear D and H

Wall, it took a while for me to get here. I really can't get over it, especially aft Lord had given me the burden to help start MCV with J back in . But I faile and so many others by not following up on it, but by going back to my wife, turning my con His will. I'm sorry, and can never be sorry enough, but will do all I can for the tand His Kingdom. Thank you for the second chance. Ily.

In fact, that's one reason I had a hard time seeing F and J back in I really felt guilty, and when I finally walked in to record, their love was too much for me to handle. I knew God was going to do something heavy to all of us. I had gotten very close to W , K , J and T , and we had futily tried to huddle together during our backeliding, trying to stick together through it all. It was all so empty, but I know the Lord must have really wanted us to get a full taste of our desires, as we were pretty much making it in the eyes of the system. But oh, was it ever so hard to live! What else can truly satisfy after the Family? No matter what problems we went through with the chain, etc., I know I could never answer why I sissed it all in my heart so much. But when I got sincere and really homestly answered myself, I could only come to the conclusion that what was missing and no one else could offer was thespirit of David - - the word of God through you, D - the only true satisfying Love that can ever satisfy those who homestly and sincerely seek and wish to serve God completely 100%! PTL! Tyj! - - And thank you, F and M , for making it all possible! FG!

Fleeing was an experience. I had wanted to do it all nice and legal. I new realised what my wife (an actress and daughter of very rich and influential parents) was up to. She maked me for a divorce at the same time that F and J were visiting. The lawyer kept putting it off over and over.

I had my own buniness there, a language institute, which had such clients as the Presidential office, Reader's Digest, Levi's Strauss, IBM, etc. When I left I had threffices, and was making five to six thousand dollars a month. I guess I had a pretty set-up, two care, a nice home, comforts, etc., but that yearning to feel total abandom to God was also always present.

When F came things just started changing, and I knew I had to come to a decision about it all. The main thing I was going through it about was foreaking my two little daughters which I love very much. I believe I was closer to then than my wife, since she was always at the T.V. studio. Although I had to run my business, I had nor to get closer to them. I also thought that by leaving thom I was caving myself and leaving them behind to sink in the mire. I know my wife would leave them with har parents, and their influence isn't the best. They would just be left in the hands of one of their many maids. This really broke me, until I made my final decision and decided to follow no matter what. I asked the Lord to take it all, my wife, kids, business, desires and goals - - my heart and soul - - everything. I prayed that prayer one night in desperation, and He answered and did exactly as I asked Him to. He answered my prayer and took it all.

The first time I went to see the lawyer who was going to handle our divorce, I walked into his office, decided to pick up a magazine that was there, opened it up and it turned out to be the old Interview Magazine with the whole spread on Dad and the FOLLeter I found out that the lawyer was working together with my brother-in-law, and for some reason or other they wanted to keep me in the country. I had already lost custody of my daughterm, my business, etc., and I couldn't leave until all the papers had been signed. At the same time though, I had received a couple of calls from P R asking when I'd 10 4522

tome. Finally J came back to to sell his car. A couple of days before his arrival, The bord had told me to leave within a week no matter what, J 's arrival was just a confirmation, as he really impressed me with the urgency and the priviledge of being able to come here in the first place, and how the doors would close later on.

I tried making all the legal preparations for my departure, as it turned out that you cannot leave the country without proving that you had served in the military for a year. Once you have served, the government issues a military card which permits you to leave. Yell, I'm from C R, but when I got married I had taken on nationality for my wife and work's sake. Ha! What a deceifful trap!

As it turns out, I wasn't able to obtain it, and when I got home I found out that my passport had also been conflicated, along with my multiple entry vies to the States. I called the lawyer, and of course his secretary told se that he had left the country. Then I celled my former associate, and she finally, after much insistence, told me my brother-ile whad conflicated my passport to prevent my leaving. I tried calling him to no avail. I called my ex-wife, and she acted as if she kneen nothing about it. Late that high I discovered they had all been in on it. My heart really sank. Thank Cod for J. S. and Y. in . who were all a real encouragement to me during this time. It was a big fight all the way through! J took me to buy my ticket to P. M. CBH! He put out the money for me to be able to go. We had already decided the day before, that no matter what, whoever was ready would leave as scheduled on Tuesday, so he did. The following day I went to apply for my new passport, which I got the same day. God bless Y. a former lew who he abled the Family for years, throughout the bust, etc., and is a real witness along with his on-fire wife and kids.

The next day I applied for my new visa. I was supposed to show my bank account number, papers from my work, etc., to be able to obtain it. I didn't have these, as my wife had taken everything. All I had was an old tax payment receipt and my paseport. I was standing in line, and I noticed there was a man and woman asking each person questions; "What are you going to do there? How much money have you got? etc." I prayed I'd be able to speak with the woman, as she seemed sweeter, and they were taking so long with each person. Well, as it turned out, the man called ac. I was about to explain my predicament, when he took my passport, looked at it, and said, "Come back for your visa at four o'clock". A real miracle Thi

As the time came for me to go through the gate, I really prayed, and as it turned out, the head of Immigrations stepped out just at the same time I walked through the gate! FC! I really felt relieved! And here I am, thank the Lord, and all those who helped so much, such as F and J, J and T, W and X, V and L, S and B, E, who also helped financially when I formcok all. Thank you D and N for your faith and love. When everything looked so dark and hopeleas, your rays of hope through your two ambassadors came straight to our hearts and picked us up. Gratefully, Your eon, I. Solomon C.

Letters of appreciation to Dad & Maria from musicians & staff at "Musica Con Vida"!

From Amminadeb (Singin' Sam):
Dear Dad, Maria & all,
I WANT TO THANK YOU,
DAD, FOR YOUR FIRST ADVISORY TAPE TO MCV. Belive me it was a real "shot in the
arm" for us all! As a matter of
fact, Faithy & I were talking after the meeting & she was saying
how it took that to give us the
kind of meeting we had afterward, It was the first of its kind
since I've been back.
ALTHO' I'VE HAD PERSONAL BREAKINGS & the Lord
has really spoken to me about
the sweetness of His Spirit etc.,
it was nothing like everyone, of
one accord, getting prophecies,
breaking all together, Faithy singing her sweet songs (she's so beautiful when she's used like that)
& just a real sweet fellowship
with the Lord in general.
THANK YOU, DAD, YOUR
TAPES WERE THE KEY TO
MELT OUR HEARTS & MINDS
TOGETHER. Many victories
were gotten that day. Also, the
things you mentioned in your
tapes were certainly well received
by all.—The schedules, the encouragement & the saving of the

From Micah Teddy Bear:
Dear Dad & Maria,
IT'S NOW BEEN A LITTLE
OVER A MONTH THAT WE
HAVE BEEN HERE in "Ciudad
de Amor" (Loveville II) & I guess our overall impression is
one of unworthiness, but one
could never be worthy of the
Love of Jesus to start with, so if
we begin on a Grace-basis with
no worthiness, then all of His &
your blessings are just continual
reminders that we owe you everything & "we can't pay you back"
with anything but love & loyalty. (
WE'RE FAR FROM THE INSPIRING SAMPLE THAT
MYMI HAS SET for us of loving,
Splirt-led cooperation & production, but "poco a poco" the
Lord is melting us together (or
sometimes banging our heads together!). In the studio it's been
ireal pleasure to work with
ome of my old friends who have
one thru 7 or 8 years of beautiul changes & become such sweet
houghtful people to work with.
IT'S BEEN A DREAM COME
TRUE to be working with some
of my all-time favourites like
Zech Waxman & Shelly (with
whom I was very much in love
n London in '74), Jeroboam
my first job as colony shepherd
was as co-shepherd with Jerry
n the mountains of Venezuela
in the basement of a monastery!).

never heard her sing! What a shameful thing to have to admit. —But she was working in a diff-erent position—I mean, capacity —at the time as FF'er 24 hours erent position—I mean, capacity—at the time as FF'er 24 hours a day! GBH! Anyway, the list goes on & on of people we have always enjoyed being with who all seemed to end up here.
PLEASE LET ME INCLUDE A SHORT CREDIT WHERE CREDIT IS DUE: Faithy & Juan, if I can try to add one more voice to their accolades, have been the most patient, loving, understanding, Spirit-led shepherds we have ever had the honour to have been in contact with in the Lord's Service. Juan is such a blessing to everyone as

a sample of a "good leader who is a good follower". It amazes me sometimes the way he walks into a situation & sees it for what it is & gives a solution that was the only solution, but so simple that nobody saw it!—Or he sees things in the studio that had been the original inspiration of a song but had become lost in the confusion of ideas, things he'd not known about but matter-of-factedly came out with. bringing us back to "square one". He's a tremendous blessing & cornerstone to the work here. His sample teaches us again to just do as Dad & Maria have said & it will work out. GBH!

AND FAITHY IS NOTHING SHORT OF OUR QUEEN OF MUSICIIViva La Reina! We love her so much. She's really like having you here—so concerned for each of our welfare & happiness as well as productivity & wielding your words when & where needed (which is not infrequent with this "Dirty Dozen") to keep us on the track to victory for the Lord's music!

DAD & MARIA, WE'RE SO APPRECIATIVE to have this coveted spot in your house, we pray we'll be a help somehow. We love you very much, Micah.

P.S. FAITHY ASKED IF WE COULD WRITE OUR IMPRES-

suppositions makening borng the music, vocals etc. in one take—"live". Personally, I think it's the ideal situation, as you say, for really capturing the spontaneity of the Spirit & the real magic of the concert-type performance.

in the Spirit at the real may it of the concert-type performance.

INCIDENTALLY, JUST
HEARD ON BBC before we left England a documentary on." The History of Multi-Track Recording" the very last installment of which ended with the "latest innovation" in studio recording—live recording of entire orchestra, singer & all, not even onto tape but directly onto the master aceitate disc! So, I'd say what you gave from the Lord is not "old fashioned" at all!—Maybe a little ahead of its time!

THE ONLY PREREQUISITE
OF COURSE is the musicians, back-up vocalists & lead vocals need ample time to rehearse sufficiently to make a smooth delivery of any intricate passages & know their parts well. As I say, I think it's going to be great for the Show, the public & us to concentrate on doing it "one time from the top"!—With feeling!! I love you,—Micah.

Dear Dad & Maria,

AS ALWAYS, YOUR WORDS

CAME TO US AS REFRESHING
WATER for our thirsty soul. We
do all want to please you so, as
unto the Lord, & know this is
the best way. The "one-take
revolution" sounds like a real
good thing, & I really think we
can do it. It's really just a matter of adapting our studio & accustoming ourselves to it. That's
the way it used to be done in the
old days (for me, at least!) & be
fore the Devil really took over
the music business as he has now.
I tried it on one song & it came
out fine. It really only requires
practice & adaptation of our
equipment & studio. Thank
you, as well, for the "pocket
money"—we needed it! WLY for

Je write more later! Love in Jesus, Jerry Crusader. (TTL!)

From Joanna:
Dear Dad & Maria,
I CAN'T BEGIN TO TELL
YOU HOW THANKFUL I AM
for the privilege of being here.
I feel fulfilled at last. It's such
a difference to know that Micah's
talents are being used of the
Lord & that myself & the children are still very much a part
of it, so unlike how it used to
be when the families were just
a burden. As Juan was telling
me, that's why the Lord couldn't
bless it before, because we didn't
have the sample in our personal
lives to back up the sermon.
Thank you so much for showing
us the way the Lord wanted it
done.
IT WAS SO BEAUTIFUL TO
HEAR YOUR VOICE ON
TAPE & to see your concern
over every detail & how faithful
the Lord is to show you exactly
what we needed to know. Making a workable schedule has been
one of the major topics of discussion here, along with "should
our children go to school", "how
long should we wait after eating
to swim" etc. PTL, you answered all those things & more. I
love you both & want to take
this chance to renew my pledge

Oueen. May the Lord help us to never let you down again! Love, Joanna. (GBY! WLY!)

to never let you down again!
Love, Joanna. (CBY! WLY!)
From Zech & Shelly:
Dear Dad & Maria,
YOUR TAPES TO US WERE
SO ENCOURAGING. It always
amazes me how you think of
severy little thing. When I first
heard about the "one-take revolution." I really loved it & agree
with everything you said about
how the system does recording,
especially after having recorded
in the system before. It was also
amazing to remember that radio
used to be live years ago & you
had to do it right & inspired on
one take.

ALSO THANK YOU SO
MUCH FOR YOUR COUNSEL
on the children's schooling. It
came at the perfect time as
school here starts this week &
next. One of the most wonderful things that has happened
since being here is the incredible
change in my children. When
we arrived they were so full of
the system. Being in the States
it's so hard to protect them. Evyen when you discourage it. Like
all the junk food & super-heroes
etc. It seems to seep in thru
the winclows as it's just everywhere. Plus, even tho' we as parents witnessed a little & took

when we basically lived like everyone else our children knew, it was hard for them to see any difference, so little sample behind the sermon. GHU!
YOU MENTIONED ON A TAPE TO MWM! that you had many ideas which we would like to try & put into effect asap.
We have started working on "Daniel in Music" for children already. We also have a number of "Mo-Tunes" that we originally wanted to be for children & not necessarily for MWM. As it turns out, Simon has been able to use a number of them on the Show. Do you have any suggestions what to do with the rest that are very good but not necessarily GP? We had originally thought to release a whole tape of "Mo-Tunes" like the Family. Any direction or suggestions would be such a blessing. We love you so, —Zech & Shelly (Amen! ROLLM!)

Upon arriving here we were

Hearing the tapes has helped me to grasp more deeply how the Letters are given. Even the reprovals & corrections are so full of love & delivered with so much compassion. DAY BY DAY I CAN SEE MORE CLEARLY GOD'S PLAN FOR MY LIFE, which in my prodigal son days were clouded over with confusion & a lot of sorrow. sabout some of these committees & how they work:

MMM CCMMITTEE: Victor, one
of the LASs here, recently
got MWM on the air bi-weekly
on a Lisbon station that
covers the whole national
territory! At our DAF & GAF
we discussed what everyone
could do to support Victor
& his efforts & how we coul
possibly get more air time
per show. Now the whole
country is aware of Victor's
efforts along these lines &
can pray for him & the MMM
program here in Portugal.
PREVIOUSLY THERE HAVE
BEEN INDIVIDUAL EFFORTS
TO GET MWM ON THE AIR which
went virtually unknown for
some time, & sometimes
these overlapped on the
same station etc., which
wasn't good for P.R. So,
it's good for the local
Family to get together on
these endeavours! The FR is

united support to MWM efforts here. PTL! As soon
as MWM or MCV comes out
with a Portuguese show,
the Family here is ready
to get it on the air in
an organised, coordinated
& united way!

TRANSPORTATION COMMITTE:
One other area in which we
have all experienced some
"overlap" has been in procuring transportation to go
overseas. The Family decided to work together thru
Pam & Jacob, who are "Family
agents" for specific companies who have offered us
the cheapest rates of travel out of Portugal so far.
Coordination has helped us
to approach them unitedly,
getting them accustomed to
working with & thru the sam
Family people on behalf of
others (who may be less experienced in P.R. or in the
local language) & also
bringing their prices down
thru possible "group fare"
excursions etc.

MUSIC & INSPIRATION COM-MITTEE: At our DAF & CAF we have several musicians, led by Cephas, who provide good music & inspiration for everyone: One project that is being worked on now is writing out many of the more devotional songs of the family in Portuguese & keroxing them to be passed out at our DAFs & GAFs so that everyone will again be-come familiar with the words & music.

MOTHERS' & CHILDREN'S

Also, a projector £ several flannelgraph slide shows were recently donated to the work, £ things were being organised for these to be available for the children's learning £ inspiration. Also, a lending-library of flannelgraphs £ books is to be set up.

KID FOWER COMMITTEE: This committee is headed by Jay, Aola £ George(a good musician). Every Wednesday worning the local DAF parents who wish to participate bring their kids to a weekly practice session. At the first meeting there were 18 kids. George is going to make a cassette with a rhythm track of just the susic as well as a singalong track with the words enunciated clearly. We already have openings at orphanages, schools etc. to perform when the kids are ready-also at our DAFs.

PRAYER COMMITTEE: This committee is headed by Jay. At our DAFs & GAFs he receives prayer requests on slips of paper from anyone who wants special prayer by the body. After going thru them, he later asks certain people to pray for specific things during our united

"Lady Luck" fame. We're sure this type of thing could be of interest to the Family world-vide, as it is unique to Fortugal 6
Dad's Letters about this country! On another video, we were able to catch a few twilight glimpses of the "Boca Do Inferno", which, of course, provided the subject matter 6 inspiration for another of Dad's Letters while he was here. Also, we videoed some of the local musicians here. (GBYI TYJI)
FF_ING_COMMITTEE: This is being organised on the DAF level, which has added new flavour 6 enthusiasm to local FFing. For the most part, most local FFing has been done just within individual Homes on the field with little or no coordination. People were taking care of their own personal fish but at times could not even do that well, as you can always take care of more people in a cooperative effort than alone-you have more folks to stand in the gap of your other duties.

SO, JAY & AOLA ARE WORK-ING ON CORRINATING LOCAL FF-ING. All the fish we already had were distributed so that some could contact them or look them up to take care of them. Plans were made, partners chosen etc. for doing some cooperative FFing in the local area once again. FTL!

MEDIA COMMITTEE: Cephas, Elsa & Michael are heading up this committee. If a reporter comes up to any of us on the street & says he wants to do a story on us, we get his name, phone number, name of the paper, & tell him we'll contact him right away, & refer the info on to the media committee, & they can go to work on finding something out about the reporter.

paper etc. Then usually at the weekly DAC(District Action Committee), we discuss whatever they find out & the possibilities of us getting a favourable article from these people, or at least trying to get the best out of the situation. PTL: Usually here in Portugal they've miraculously been favourable. TTL:

PROBLEMS COMMITTE: This consists of the LASS, DASs & GASs only & deals with serious spiritual problems that may have arisen on the local level that need to be taken care of right away. The FR has thrown so much new light on all of us, that things which perhaps were not so noticeable before have been drawn to our collective attention now-the difference being that now that we're all operating under the "Law of Love", people are approached in an artitude of love & of really trying to help that brother or sister to make it in the Family.

It is mainly to look up some of the folks who white in to the LIM in response to GP lit received by them in the streets & who ask for visitation by & fellowship with the local Family. It could open up new areas, lives, & hearts to the Gospel & help support those going to new fields south with home support from their own country or former field. This could be one of the best & major wictories of the FR here-that it opens the way for new blood to join & fills the ranks of a departing missionary church, soon to leave these shores, with a home missionary church that will & can pioneer the home front & their own "Jerusalems" & "Samarias" before they too join the rest of us in "the utrermost parts of the earth", as Jesus said! 368 Letters translated! 1,500 on mailing list!

From Peter & Lydia & the Indo-nesia LIT-PIC team:

GBY EACH & ALL! First of all we want to tell you how encouraging it's been for our little pubs team here in Indonesia to be classified as a full-fledged LIT-PIC now! We want to thank WS & all the rest of you around the world for so faithfully helping us with donations, prayers & support!—We really need you! THE INDONESIAN PUBS WORK BEGAN BACK IN 1973, at the time Indonesia was first pioneered, when we began with only one System translator. Since that time & as of now there are 368 Mo Letters translated & 243 in print in Indonesian! There are also 76 True Komix translated & 74 printed. Altho' the total is very small in comparison to the full number of MLs, the Letters which are translated are almost the entire Basic Book, as well as the most basic, feeding ones of all the other Letters.

ONE OF OUR PROJECTS RIGHT NOW IS TRANSLATING & PRINTING THE NEW DAILY MIGHT BOOK, which is about half-finished at this point. Also recently completed are the FF Handbook & the Mo-Ed classes "When Morning Dawns" & "Out of This World". "Healing in His Wings" is next! RIGHT NOW WE HAVE TWO FULL-TIME NATIONAL TRANSLATORS, Michael & Hannah. They translate, then proofread each other's work, along with Sharon, Michael's mate, for accuracy of spirit & meaning with the English. Two of our other national disciples are starting to help, plus two outside Family friends who want to help. Please pray for these translators & for more of them to help us get the WWW into the language of the land! We

pretty common here, and many brethren are doing it. And large tents are som what expensive, over \$200 for a 5-man

tent.

As far as travelling to Brazil,
the cheapest we found was a budget
flight on Pam Am. From San Francisco
to Rio or Sao Paulo is (or was) \$480
per adult, which is almost \$300 cheap
er than the normal fare. The hitch is
that you have to book it 3 weeks in that you have to book it I weeks in advance a you tell them the week but they tell you the day. But it's no great problem a well worth it. Boat travel is pretty much from the west coast as it coats several thousand dollars.

A bit of advice concerning visas A bit of advice concerning visas a travelling documents, try to get it all taken care of where you're at if possible, because if you wait till you get to Brazil, you'll be in a strange country, probably learning a strange language, and travelling by bus for hours trying to find the cright government office 4 dealing which the officials, who are notorious

with the officials, who are notorious for procrastination when they do show up! Me know, we tried it the first time here & it was far easler getting it in the States, while still there. What took us three months to get in the States, some brethren here have been working on for years a still haven't got it. Also such things as an international drivers license (good for one year & easily renewed) or any diplomas, titles, etc. could come in handy. We needed the drivers license the first week.

All of the document preparation did take us several months to complete so don't expect to whis thru' it. But we sure breathed a sigh of relief when it was all done and the Lord really poured out the blessings just before we left. We were able to sell just about everything that we had, some for more than we paid for, with very little trouble. We even sold our car at the train station just before teaving to a girl who had offered to

P.S. Of course only some can get permanent visas for Brazil, but don't let that stop you, as there are many that stop you, as there are many brethren here on tourist visas, as we were for our first two years!

Tips on things to bring: Stainless steel cookware, otherwise your doomed to aluminum. Vitamins, as they're very expensive-even Vit, C & multis are hard to find. Electrical multis are hard to find. Electrical items, such as cassette players, radios, short wave radios, they are very expensive and not very good quality. Jeans, everyone wears them here, but for the price the quality is very poor, but they are obtainable. Most everything also, such as toys, clothes, dishes, household items, etc. are common a reasonable. (PTL! Bon Voyage! GBY!)

Coming To Brazil? 😂

How to get a permanent visa! Travel & shipping info! What to bring! Shadrach & Bethesda: Brazil

GBY! THIS IS JUST A SHORT (I THINK) testimony to describe what we went through to come to Brazil, which we

hope will be helpful to others wh

hnough to come to Brazil, which we hope will be helpful to others who may soon be coming.

We, my wife Bethesda (Argentinian) and I (American) were originally in arazil for about 2 years when we left due to visa problems and went to the U.S. to work on funds to return to SA. About a month after we left most of the foreigners were deported out of Brazil, so the Lord spared us from having any deportation stamps on our passports.

We both really had a burden to return to Brazil and began checking out the aspects of returning on a permanent visa, as we were previously there on tourist visas. The Lord then opened up the door to get one through

there on tourist visas. The Lord then opened up the door to get one through our first son, who was born there.

There are basically four ways to ge a permanent visa for Brazil: 1) employ ment in a business already in Brazil, 2) retirement, I think involving a steady pension income, 3) family reunion, 4) a deposit of 100,000 dollars in any Brazilian bank-Ha! In others words there ways. We accord

union, 4) a deposit or 100,000 dollars in any Brazilian bank-Hai - In others words three ways. We entered under the family reunion clause! Funny that they should call it that, due to our first son being born here, if you're married to a Brazilian or nave had a child born here, it can certainly guarantee you permanent residence, though we've read that that may be changing soon.

The above info on permanent visas can be obtained from any Brazilian consulate. Basically you need the normal documents-passports, birth certificates from the police, health certificate-(in triplicate of course) etc. & you must also appear in person at the consulate, at least in the US. (They want to see who you are.) I had to go 600 miles to do that although easy the wad of the

family has to do so. I had a short interview with a vice-couss! (dress interview with a vice-cousel (dress nice) and he just asked me a few questions, like how I was going to support myself etc. I previously had written several companies in Brazil about a job, so they responded that I'd have to be in the country, so I told the vice-counsel I had already received several letters from companies in Brazil. I didn't say what they said, though. That seemed to satisfy him and then he asked me a few things in Portuguese & I answered, and that in Portuguese & I answered, and that was all. From there it was just filling

٠.,

was all. From there it was just fillim out forms etc.. Normally in shipping anything to Brazil you have to pay high duties a taxes. However when entering in on a permanent visa you can ship personal effects duty-free. There are limia permanent visa you can ship personal effects duty-free. There are limitations, though, no cars, boats, or planes & only one of each household appliance etc.. We shipped down 2 crates with clothes, children teaching aids, books, a few appliances, recording equipment for a Brazilian MRM, & even an electric piano & amp. The freight charge was abt/ \$250 per cubic meter, from the west coast but goes up a little every month because of fuel prices. Also marine insurance is very important as pillaging is common on all docks. We've even heard that some places in SA have river pirates, that roam around with swords, boarding ships etc. inot the larger ports, though). When your cargo reaches its destination it's usually worth 3 or 4 times its value, at least, due to the scarcity of the items you're shipping. The consulate said we could ship a caravan down, but shipping charge alone would be over \$6000 a you can pick up a good used trainer. charge alone would be over \$6000 a you can pick up a good used trailer for less than half that. A tent trailer might be feasible, because you can ship one for \$700 to \$800. We didn't but did ship a 9' x 12' tent and are used that we did, as remove.

I TEACH ENGLISH TO APPROXIMATELY USO GIRLS in
12 different classes on 5
different grade levels. The
vast majority are on a high
school level, & the Nuns are
quite liberal, many of whom
are young & don't even wear
habits. They are generally
very interested in the girls'
spiritual condition, their
prayer life, etc. And before
all my classes we sing the
"Lord's Prayer" in English
which rings out for all to
hear, a real testimony!
MUSIC IS A REAL MITMESSING TOOL that turns the

READING TO A CLASS FROM

Rev. 3:20 enabled me to lead
many to the Lord! PHN: The
girls begme for music, so
I keep feeding them the
latest songs from MMM.
ALSO, BEING IN A CATHOLIC SCHOOL, I can often
take a Bible right off the
shelf & give them a brief
Matthew 20 class, etc. directly out of the Word. In
two of my classes of older
girls, their questions were
so sheepy that I carried it
right on into Revelation &
the A.C. & the last seven
years!

helped me lead many of my classes of younger girls to the Lord. After doing the flannelgraph for the class, I ask them several questions like: "Just as the King look ed down from his window at the people in His kingdom, do you think God looks down on us to see if we do good or bad things?"(They answer yes)

THEN I ASK THEM QUESTIONS

THEN I ASK THEM QUESTIONS, THEN I ASK THEM QUESTION
THEN I ASK THEM QUESTION
THEN THEM TO TAISE
their hands if they agree.
For example: "How many of
you are bad sometimes &
need to ask Jesus to forg!
you?" & "How many of you

heart He could help you to be better & have more love

heart He could help you to be better & have more love for others?"

AS THEY ALWAYS RAISE THEIR MANDS IN AGREEMENT TO THESE QUESTIONS, I then cite them clearly Rev. 3:20 & we talk about it & where the door is, etc. Then I ask them the final question: "As Jesus is knocking at the door to your hearts, how many want to let Him in, to be your friend forever, accepting Him as your Saviour?" TTJ! It's so encouraging to see their hands shoot up, receiving the Lord into their hearts! And thank God for Dad's letter, "Your 2-Year-Old Can Receive Jesus", which gave me the faith for this method in my Selah situation.

LATER I GOT TO THIMKING THAT THE GIRLS ARE LEARNING LOTS, of English, they are well-fed spiritually, they have the Lord in their hearts, but I felt that I could do more. Well, the Lord didn't take long in answering my plea. Shortly afterward in a teachers' meeting the director was mentioning that the school lacked some sort of cultural program. The greatest need seemed to be a Dramatics Club to put on plays & promote creativity among the girls.

Club to put on plays & promote creativity among the girls.

OTHER TEACHERS SPOKE OF HOW THE GIRLS HAD MANY COMPLEXES & FEARS ABOUT ACTING naturally in front of others, so they really supported the drama club idea. What an open door! By faith I told them of my acting experience & desire for something new & to everyone's surprise, I was instantly given the job!

IT REALLY MADE EPHESIANS 6:12 CLEAR, that there is a spiritual warfare for our souls, & of course in the end Love conquers all: The play ends when even the evil character changes heart & the whole cast sings the song "Change the World"! PTL: THE GIRLS, FROM 13 TO 17 YEARS OLD, REALLY PUT THEIR HEARTS INTO IT, & using simple props, tights, sound effects on the guitar, & even the stage lights all help to give it a special touch. We also made up a classy program to hand out at the door. Inside the program we put not only the cast names & credits, but also a page full of Bible verses & Mo quotes complementary to the play. PTL! I almost forgot to mention that the title of the play is "The Darkest Moment Is Just Before Dawn"!

They called me to the mike, & I was able to share for about 10 minutes, giving the whole message of "You Are What You Read" & "Students Stand Up", which I had read the night before. I also told them not to underestimate the importance of the parents' & teachers' own sample of reading good, lasting material such as the Bible, & I shared about early Christian training starting from birth.

MANY MANTED TO TRANSLATE THE Mo Lion Readers that I presented L asked for copies of the True Komix. I gave away all the TKs that I had & sent out more later. This seminar was attended by the principals & many educators of every school in the state, & many told us afterward that our(Dad's) words changed the whole tone(spirit) of the convention. Hallelujah! Thank God for the WHMs! Many of the teachers wanted to follow this advice in their schools! (Hell TVI) He work!)

CHANGE IN DAUGHTER'S LIFE-STYLF GIVES PARENTS NEW FAITH!
From Charity; S.C. Asia:
GBY: I WANT TO SHARE THIS
TESTIMONY ABOUT MY PARENTS

MY PARENTS ALWAYS HAP
HIGH ASPIRATIONS FOR THEIR
i DAVONTERS, so when I met
the Family at 16 1/2 and
wanted to "drop out" immediately, they were very
surprised 6 did their best
to sway me away from this
group-particularly my
mother who started taking
me to Charismatic church
meetings, Christian youth
groups etc. to lead me in
the "right path" if my interest in God was so great.
THEY WENT THRU A LOT OF
MATLES 6 read everything
they could find about the
Family. The Devil really
attacked them at this time,
i because I was so eager
to forsake all i was a new
babe, I socked it to them
about America, the System
i their way of life.
BUT NEVERTHELESS THE LORD
MYPT THEM & THEY COULDN'T
DENY THE CHANGE IN MY LITE
(thanks to Dad 6 Jesus)
from a rebellious unhappy
teenager to a suddenly fulfilled young lady forsaking
drugs, my old habits is my
job to witness for Jesus.
THRU LOTS OF PRAYER NMD
SORE TAITHUL BERTHERN MHO
OFTEN CAME TO VISIT 6 showed
them a lot of love, my
parents opened up more is
allowed me to visit regularly, spend the night, i they
even visited themselves.
WHEN I MOVED IN AT 18, I
soon flew away to a new
place, i it was very hard
for them 6 they seemed to
take a step backward, But
the Lord did it, i lots of
love 6 prayers kept them
close 8 supportative. This
was a turning point for
them, as after they learned

to stop worrying so much & to give me up to Jesus, God began to bless them in many ways. Many changes have taken place in their lives since then, & the Lord has used them in many little ways.

THEY'VE NEVER HAD A RIG HUNGER FOR THE WORD, but I've worked at it, feeding them milky lit, lots of P.R. items & often putting Mo quotes, poems & verges & words of advice in letters to them. God's Word never fails, & when I was home to see them last year I saw the fruit it had borne in their hearts. It had given them so much more faith in God & our work. Now they welcome Family members to their home for dinner, & they've had a few caravans parked outside for a few nights on different occasions. They've even sent donations to brethern on the field & given a few jobs around the house to others. They really believe that you never lose by giving & know God is working in their lives.

THEY SEND ME A PLEEDER REGULARLY & DEFEND US & what we do to those who criticise. My father is always sending me new addresses of friends to write to for support. They recently came to visit here in Asia & had a wonderful time seeing the country & the Family. I received a newsletter from them sent to all their friends & relatives about

how much the Family is deing for the Lord.

THANK YOU DAD FOR ALL YOUK COUNSEL & ENCOURAGEMENT to faithfully pray for & love our parents. Mine have come a long way & are still coming! They're not brethren, & I always need lots of wisdom & extra patience when. with them, but God has made them a king & queen for us in many ways. I hope this will encourage you, seeing more of the fruit of your labours for us. We love & need you Dad, & I hope you will see me soon via videc. My love, prayers, thoughts, hug & kisses you! I love you so very much & will follow faithfully. Your Words are life to us. GB&KY! (GBY), P.S. I JUST RECEIVED A

"I_MROTE C.P.O. 220 & THE OTHER ADDRESS FOR SOME LIT. I really want to get some. I was so unhappy coming home—all I wanted to do was go back to Asia and stay with you. I pray every night for you & thank Jesus for a sisten like you. I don't know what I would have done without you. Thanks so much for a wonderful time & giving me strength & love & most of all making me know & understand Jesus better. I try to read the Bible every day, but sometimes it's hard to understand. I like reading your lit better because I understand it more.

"ABOUT YOU COINC TO SCHOOLS (litnessing & singing), what a wonderful work you do! Keep it up. CBY! I know Jesus loves you so. I hope C.P.O. 220 & the others will write soon."

THAT'S ALL. Lots of love. (PTL! TYJI) Charity.

From Eli, Tara & Parla; Europa: WE WANT TO SHARE OUR THREESOME TESTIMONY, & we hope that what we've gone thru can help & encourage others in similar situations. (Eli.) Tara & I first met Perla 3½ years sgo when we moved from Paris to the North of France taking over the responsibility of the Region there. Very shortly afterwards the RNR occurred, & we became Servants of the Home where we were living.

1 THEN BEGAN A SINGING MINISTRY WITH PERLE, she being the real musician & I simply the "accompaniment". I could see in Perle the kind of fire & boldness I needed to help reinspire me to get back to the frontine of litnessing, witnessing & soul-winning. So we began working closely together singing, pro-Dissioning, Friing & so an.

PERLE ALSO HAD A VISION TO WORK WITH THE CHILDREN, to teach them to be witnesses in performing etc. Our two oldest children had already had some training along those lines, so we had the beginnings of a singing team. Tara at this time was totally involved in teaching & carring for the children. (TARA:) AT THIS TIME!

FELT "FRUSTRATED" because I slways found myself behind the scenes, either pregnant or doing the daily activities of a busy mother & not realising then that these things were just as important as being out on the front. I too wanted to see our children being used more for the Lord, so I was very thankful when Perle was able to help us in their singing ministry. We worked very well together & bore a lot of fruit, but the thought never entered our minds at that time about the possibility of a long-lasting relationship.

(PERLE:) I KNEW IT WAS
THE LORD'S WILL for me to
be with them if they came back
to Europe. However, I had strong feeling that it was going
to be on a more permanent basis.
I was hoping that even tho' I
was going to live with them
that this brother could come &
join us & help us train the children. I thought for sure he'd
want to, but when I invited him
to join our Home he decided it
was not the Lord's will for him.
So I sought coursel from Dad
about my situation as we both
wanted to be together, & he
wrote that if i'd put the children
first then the Lord would bless
me with all the desires of my
heart. So I did, & He did! PTL!

[ELI:) AFTER SOME GROWING PAINS & BREAKINGS, as
with any relationship, the Lord
was slowly bringing us to the
point where we were to realise
just how far He wanted our relationship to go. Now it had been
six months since our return from
the States & almost two years
since we'd been living together
in the same Home. I know that
I really loved Perle & couldn't
imagine that someday she would
leave our Home. But at the same
time Tara & I encouraged her to
do what she felt was the Lord's
will, even if that meant leaving.
(PERLE:) I WAS ALWAYS
THANKFUL & really appreclated being with them & considered it my highest calling, so I
prayed for the Lord to give me
a sign to unite us & that month
I got pregnant! PTL! However,
I kept these things in my heart
until months later, & it wasn't
until months later, & it wasn't
until months later, & it wasn't
until months later of my child & that
we were to be mated together,
fewing as one. We began living

together really as a trio when the baby was a few months old. (TARA:) ELI & I HAD DISCUSSED OUR RELATIONSMIP AT VARIOUS TIMES, so well as being mated with Perle as a trio, but the Lord was waiting on me to accept these things with an open heart as His will, I clearly believed it was, but I can say it was not easy, as I was learning to forsake all & someone I had had to myself for 11 years! It's one thing to know & read the truth, & then another to live & apply it!

SO I HAD SOME GROWING PAINS, but I tried very hard not to let my own consider feature.

SO I HAD SOME GROWING PAINS, but I tried very hard not to let my own sensitive feelings hurt & lead me to jealousy. Of course I was jealous at times & the battles were on, but with each one came victory, as long as I didn't yield to it.
PERLE & I ALSO TRIED TO BE VERY OPEN & HONEST WITH EACH OTHER about our feelings. Often we were going

WITH EACH OTHER about our feelings. Often we were going thru similar things, & this helped so much & brought us closer together. We had to get some personal victories with each other too. It wasn't something we could force, but came as we yielded to the Lord's will, admitting our weaknesses & not yielding to jealous & hurt feelings. It takes a lot of working at & the grace & love that only the Lord can give. can give.

JEALOUSY IS A BIG TEMP-

ing of one another.

WE WOULD SAY WE'VE
BEEN THE HAPPIEST & MORE
FULFILLED in these last two
years than at any time in our 12
years of marriage. We always loved one another, even thru thick
& thin times & experiences, but
we needed to flow & change into another direction that the Lord
was leading us into. I'm thankful
that we did, as it's borne much
good fruit in our lives & those around us, including the childran
who have someone else who loves
& cares for them as her own, & cares for them as her own,

who have someone also with loves. & cares for them as her own, GBHI AND THE LORD HAS HELP. ED US TO USE OUR CHILDREN MORE in a singing ministry with all three of us using our specific talents & abilities to complement each other, so it flows, TYJI (Perlet) Yes it does, & as Ruthie so perfectly said it: "I'd rather be wife no. 2 to the man God wants me to be than no. 1 to anyone else." We know the System's idea of marriage is not Godly, so we need to be strong fighters for the one we know is! (ELI:) 80 WE STARTED LIV-ING TOGETHER AS THREE, trading off our sleeping which allows us to share with the others in our Home too, & often the three of us spend special time to

three of us spend special time to-gether which brings more unity & loving communication. The Lord opened our hearts to one anomer title many breakings to-gether so that we can now share all things. TTLI So don't get discouraged, & keep on loving! THE LORD HAS ALSO BLESS-ED BOTH TARA & PERLE with

JEALOUSY IS A BIG TEMPTATION & can have such a grip
on you. The Letter that would
give me repeated victories along
this fine has been "Greater Victories". If I would yield to jealousy
things would be exagerated &
I'd start worrying that Eli
wouldn't love me the same & I'd
start comparing etc.

ON THE CONTRARY, ELI'S
& MY RELATIONSHIP HAS
TRULY GROWN so much since
we've opened ourselves to someone else. It's what we really need
ed, even if it hurt at times. We're
happy that the Lord has given us
a much deeper love & understand.

lt's Gotta Be <u>God's</u> Love!

A threesome tells how they make it work! Real love & giving is the only way!

From Ceder, Marie & Melanie;

GBY! WE WANT TO TELL YOU ABOUT OUR THREE-SOME. We've been living togeth-er for three years now & have

er for three years now an have learned a lot! It was right after the RNR when we started living together. From the time we first got the Idea to be a threesome it took quite a few months to actually seeking the Lord for His will first of all. All three of us had to know & believe it was the Lord's will for us all to enter into this relationship. Then everything started moving & we started living together!

(MELANIE:) I HAD KNOWN CEDAR & MARIE FOR THREE YEARS, but not very well. For one year prior to the RNR in Japan Cedar & I got to know seach other better. I really liked him as a person & we got along great. One time when he was away I realised I missed him!

"Uh-oh!" I thought. "Better watch it! Ha's a married man!"
So I tried to suppress my feetings. I really fought it, but we fell deeply in love. Everything lielt & everything the Lord showed me seemed like Cedar was the mate God had for me, but he was already married!

SOON AFTERWARD I WENT TO THE PHILIPPINES & TRIED HARD TO FORGET HIM as I could see no future in it at all. What could I do?—Hope that he & Marie would spit up? I knew that wasn't right; she had a child who needed a father, besides the fact that she really needed Cedar to dump her & come running to so how could! Expect Cedar to dump her & come running to so how could! AFTER THE RNR! RECEIVEN A I FITER FORM

RECEIVED A LETTER FROM CEDAR asking if I'd like to come live with him & Marie. Ma-rie also wrote & said the wanted

We even slept together in one big bed & made love together quite often. But after a while we didn't seem to get along so well, o especially Marie & I. Little things we did bothered each other & then we weren't so close. We were all still trying to serve the Lord, but it seemed hard to do anything together. We always seemed to have differences of opinion. After living in Hong Kong for 1½ years, we couldn't stay any longer because of visas. We felt the Lord was leading us back to Japan & He opened some Goors there.

OUR FIRST MONTH BACK

doors there.
OUR FIRST MONTH BACK
IN JAPAN WAS OUR ALLTIME LOW. It was on Jan. 1,
1980 that we reached the <u>break-</u>

to try it. My first instinct was to drop everything & take off for Hong Kong where they were, but I knew I had to count the cost. Better never to start something than to be unable to finish it! I knew I could never have him all to myself, & I decided that a fittle bit of Cadar was worth more than a whole lot of someone else!

THE FIRST FEW MONTHS OF LIVING TOGETHER WERE FANTASTICI We had a wonderful time & got along really well. We even slept together in one big bed & made love together quite often. But after a while we ididn't seem to get along so well, and the seem to get along so well, and the seem to get along so well.

I think the Lord brought us thru

Now we can truly say it's
god's love holding us together
—no credit to us, that's for surel
SINCE WE GOT SUCH A VIC-

SINCE WE GOT SUCH A VICTORY IN OUR THREESOME RELATIONSHIP it's seemed so much easier to serve the Lord.

gener we can really do a lot, we found. Our relationship isn't "perfect", but we believe God put together as a team & we really want to serve Him as best we can AS MUCH AS POSSIBLE CE-DAR TRIES TO TREAT US BOTH THE SAME. It's not easy with two wives! Marie & i each have our own room & Cedar rotates back & forth. One night he's with her & the next night with me. We've found this works best. We have six children. Three of them aren't quits 'his' but you'd never know they weren't. Cedar treats them all the same, GBH!

TO OUR NEIGHBOURS & SYSTEM ACQUAINTANCES Cedar & Marie are married & I'm Marie's sister living with them be-Marie's sister living with them because i'm separated from my husband. But our close friends & fish all know & it hasn't stumbled them in the least. In fact, to most of them it's quite a testimony. Marie & I both FF a lot & a threesome is sure a blessing in this respect. Cedar is not left sions with all the kids when one of us is out, plus we don't worry about the kids' care when we're gone. Our fish don't worry either, knowing that our mate is well taken care of at home. They feel more at ease.

more at ease.

ONCE YOU GET CLOSE TO A FISH, A THREESOME IS A GREAT WITNESS! When I say my husband has two wives they GREAT <u>WITNESS!</u> When I say my husband has two wives they are floored & have a million queitions, while I can give all the answers, <u>God's</u> answers. I can tell them how the love of <u>God</u> makes it possible. It's always a good testimony to them!

OF COURSE, THERE ARE SOME DISADVANTAGES to having a threesome, like maybe you can't always spend time with your mate whenever you want to. But this helps you to appreciate each other more when you are tagoether & keeps your relationship fresh. I really can't think of any other disadvantages.

NOW I'M NOT ENCOURAG-

OUICK FINO ANOTHER WIFE! I loses the Lord & gives a lost—To each of us & all the children the same. So, the "secret" to making it work? This quote sums it up well: "Real lovg prefers the happines of others to your own."

(CEDAR:) It's surely not for everyone! But becoming a three-some worked a miracle for us all, Marie & I were at a standstill in our marriage. Anything that's worth anything costs something!

BECOMING A THREESOME STARTED A WHOLE NEW REVOLUTION IN OUR LIVES! After the roay beginning with many between the starter.

OUICK FIND ANOTHER WIFE!
A couple of years ago when Cet dar & Marie visited their parents
in the States they also visited the
local Family Home. When all
the brothers found out that Cedar had two wives they flipped
out! "Wow! Far-out! That's
really cool, man!" We felt like.
"Ugh!"
IT'S A VERY HEAVY RESPONSIBILITY taking on another wife, & you really need to
york at it, more so than in a regular marriage. Anything that's
worth anything costs something!
But if you can make it work
there are so many blessings! Maybe threesomes are the answer
for so many single girls with children. Sometimes it seems like
there are not enough guys to go
around.
(MARIE:) I knew Cedar's &

BECOMING A THREESOME Worth anything costs something! But if you can make it work there are so many blessings! Maybe threesomes are the answer for so many single girls with children are not enough guys to go saround.

(MARIE:) I knew Cedar's & did my relationship needed something. Melanie was an encouragement to Cedar in many ways I hadn't been. She also had a growthing been she a father, It was easy to see how much their milationship had meant to them. When Cedar & I talked shout it, I suggested maybe Melanie could come & liva with us & we could see how it goes. (He never brought it up.)

WHEN I MADE THE DECISION PERSONALLY to ask Melanie to join us I really claimed the promise "You never lose by giving", praying desperately that the Lord would work it out for the better. I didn't know what to expect, whether I would lose even the relationship I had or whether this new factor would add to it.

WELL, PTL, I'M REALLY SO
THANKFUL because it has add add to it.

WELL, PTL, I'M REALLY SO
THANKFUL because it has add to our relationship by far. It's rough at times, I'll admit, but we've been able to accomplish so many talents, singing with the children & helping them to perform. And Cedar—he deserves a make it workel! We used to rotate 5—Hal 2 or 3 times a day!)

IN THE FALL OF 1971! VISITED HIM at the colony in Knoxwille, Tennessee, & there we prayed together & God spoke to me & asked me to stay & gave me the name Sarah. I knew then that this movement was God's truth for this generation! PGI THE LORD HAD ME RETURN TO MY FAMILY in Detroit to tell my testimory to others. I was able to read most of the Letters as they came out & was involved in Thank-COG in the Detroit area. Then in 1973 my daughter Clare, then 18, quit school & joined in Chicago. She sang at the New York disco & then travelled to the Orient & S.E. Asia. She's now married to Justin Martyr (Sir Robert) & they have 3 small children. SOON AFTER CLARE JOINED MY OLDEST GIRL ADRIA JOINED during her second year of college. She went to New York & then to Hawaii & the South Pacific & S.E. Asia. She married Asaph Joseph & they have four small children. They're now in the U.S. on furlough & hope to go to a new field soon.

STILL FF'ING AT 40!

From Rosy: Europe:
IN JANUARY I TURNED 40!
I'm 4 years in the Family &
was fished to the song "You
Gotta Be a Baby". One day
I was sitting outside & a
brother approached me
with the message of love.
After nearly 35 years I
saw God smile at me thru'
one of Dad's Letters!
BEFORE THAT MY
LIFE WAS COMMONPLACE. Even tho' I had
a glamorous job as a model & friends in the "high
life" travelling round the
world, full of riches, they
were empty years. Now my
life is full of love & joy & freedom in the Spirit in Jesus' Service!
WELL, I THOUGHT I WAS

VERY LIBERATED SEXUALLY when I met the Family & received Jesus as my Saviour. I thought everything was behind me.
But PTL, when I found this wonderful ministry of FF'ing with
all my heart, now I've found true fulfillment in giving to others!

DAVID & I WERE SO SHOCK. ED that we could hardly believe our ears, as she had not come to us & discussed the matter personally. In fact, we found out a few days later that she had contacted the higher authorites of the church in California to come in & help them "pull the coup". At this time my expectant baby was not yet born, which made matters even worse.

WHEN THE CHURCH OF I-CICLAL ARRIVED & was discussing the matter with my husband. I began to feel a strange senation in my stomach & after a few hours I realized that I was in labour. David was so burt & crushed by the whole affair that he had decided to pack up & leave the unpleasant scene for Los Angeles as soon as possible.

BUT THE LORD HAD MERCY ON ME & spared me from chaving to pack up & make a hastily departure in my pregnant condition. Unlike poor Mary, the Mother of Jesus, I was able to stay there in that little community & have my baby, as planned, in a small neighboring hospital. I am sure that if I had had to travel at this time I might have found "no room in the inn", as she did. So, we stayed three more weeks in that little house which was very dear to us, until we were able to move with our new infant (*Pathy).

several days.

AFTER MEETING FRED & considering the possibility of preparing for the mission field, David began to lose interest in his studies at the University. He never did like the monotony of formal education & did not want to waste time studying things which he did not need to know.

WE WERE BOTH GETTING PRETTY DESPERATE TO FIND GOD'S WILL & be in more active service for the Lord. Finally one day after much prayer we agreed to forsake all our things & try to make a big move from Phoenix to Los Angeles. We only had a very small car, & with four children we knew that we could not take very much with us. That is why the Scripture says that "he that forsaketh not all that he hath cannot be My disciple". It is just downright impossible to keep moving & following Jesus wherever He

saxs us to go, if we are loaded shown with many things.
DAVID WAS VERY FOND
OF BOOKS & had a nice library which he had carried around for years. In fact, every since he was a teenager he had transported his books from one home to another. Now he decided to forsake his library & even his movie films & his projector. This really meant to him that he was forsaking the old way of doing things & seeking for something new. In other words, he thought there must be a better way & more effective means to build God's Kingdom than the outmoded "go-to-church-on-Sunday" religition. A struggling Bible Institute bought all David's books for a small price, which made David happy.

happy.

THE FILMS & PROJECTOR
WERE BOUGHT BY A VERY
NICE MAN who appreciated the
unusual collection of films that
David has put together thru several years of searching. The only
thing that he set aside to keep
were his Grandfather's slides &
the old-fashioned slide projector
which could never be replaced.
The slides are still with him today
& will be used by his children, I
am sure.

a missioes are still with nim tools away to most of THE FURNITURE WASN'T WORTH SELLING, or twe didn't have time to wait for the right buyer, so on the day before we left we invited the neighbors to come in & take their pick. We still had more than we could carry in a small car with four children, so David sent me on the bus to Los Angeles with two children & lots of baggage.

IT WAS A TRAUMATIC CHANGE IN OUR LIFE & proved to be a real change in the direction of our entire ministry. We ended up going to Fred Jordan's missionary school, which was totally unorthodox & led us away from the church system. More about this in the next chapter, "To the Jesus Revolution". (Amen! Good going, Mom! -D.)

From Rebecca Caravan; U.S.A.:
WELL, OUR ADVENTURE
WITH INVADING THE CHURCHES CAME TO A SUDDEN HALT
after a full three months of solid
witnessing. We were very busy
going to two different churches
every Sunday (one in the morning & one in the afternoon), plus
youth group meetings during
the week etc. We ended up going to 14 different churches
within that 3 month period &
visited some more than once.

WE REALLY POURED OUT ABOUT FAITH to the congregations & pastors, & they just soaked it up. Many people fell in love with us, including some of the pastors.

We visited many of the pastors in their homes & they shared very deep feelings of frustration in their positions, not being able to really get their congregations active & having to compromise their convictions.

WELL DURING THIS TIME THE PASTOR WHOM WE HAD BEEN STAYING WITH fell very much in love with me. He shared all his deepest & most intimate thoughts, feelings & experiences with me, & I always listened & prayed with him in real love & consideration. His wife knew that he was sharing these things with me & seeking my counsel on them (all sexual hangups & contision). At 17 HAT POINT THE LORD thing with me & seeking my counsel on them (all sexual hangups & contision). At 18 the printed over 800 newsletters for the other churches. The came was always and to your spinlidless couple were very kind & helpful to us.

AT LAST AFTER 3 MONTHS THE THE LORD man was a top technician for a photocopying company & rounsel on them (all sexual hangups & contision). At 18 the printed over 800 newsletters for the other churches. The came was always did too. Yet his love for me became so strong that he was always fairly with the see wanting to really "share" with me. I made it clear that it would not be in love because of finally one night they had to

DURING THAT TIME 4
OF OUR CHURCH ENEMIES
VISITED US AT THE CAMPSITE—her parents, her teen
counsellor from church & the SITE-her parents, her teen counsellor from church & the pastor we had stayed with. They had come many miles to where we were to try & convince Michelle to go back with them. I just had to trust the Lord & pray desperately for her the whole time. They drilled her mentally, emotionally & spiritually, but TYL she stood strong & made it! This went on for hours until it began to get late & I knew my father would be arriving soon. Finally the Lord showed me that I had to put my foot down & ask them to leave our campsite as we had to take care of the children's needs etc. PG, it worked & they finally left! MY FATHER ARRIVED. SHORTLY AFTERWARDS & we all had a very good visit. The Lord did a funny thing to protect our security!—That night a rain storm caused a main pole in our tent to break (very odd.)

protect our security!—That night a rain storm caused a main pole in our tent to break (very odd, as it was a brand new, high quality tent!) & the whole tent to collapse! So we all moved to a lovely cabin where my father paid the rent & nobody could find us for the rest of his visit!

SINCE THEN WE HAVE
SPLIT, making a faith trip all the way across the country during which the Lord provided our every need miraculously each day. It was really mind-blowing for our new disciple Michelle. She says that she lex-ned more Word in one month on the road with us than she had in her whole life at church! We lost all our supporters from the with us than she had in her whole life at church! We lost all our supporters from the church except for one sweet couple & their daughter, GBT! But we gained an even greater reward, one that we can take to Heaven with us, a disciple for Jesus & David! WE SURE LEARNED A LOTOF LESSONS, A BIG ONE BEING ABOUT SECURITY! The security Letters in Mag 33 came

Katina & Michael with Paul in theirout just after all this had happened & we saw from them some
of the mistakes we'd made. For
one thing we made long-distance
phone calls from two of these
systemites' homes. At the time
we were very close "friends" &
fellow Christians, but "you can
always expect a systemite to be
a systemite". & now they have
used these phone numbers from
off their phone bills to cause
harm, contacting all my relatives. off their phone bills to cause harm, contacting all my relatives. They also took & hid my address box of support pledges in it, contacted them (there were no Family names in it so 1 had not thought to keep it selah, LHMI) & spread their lies to all of them & spread their lies to all of them. We pray we will always be more careful & prayerful & security-wise in times to come & above all not to <u>trust</u> systemites (even Christian ones) to be anything but <u>systemites</u> again! John is now working on a rebuttal agains all the lies we know of which were sowed, & we'll send it to all involved just before we leave the country, D.V. within a month.

the country, D.V. within a month.
IT WAS ALSO VERY IMPORTANT FOR MICHELLE TO EXPERIENCE SUCH PERSECUTION for living the truth & to see those church Christians become lying, cruel, ravening wolves! When we had first prayed about her I received a picture of her as a little lamb & the church was a fierce wolf holding her in his jaws, & I felt we had to res-

PG! NOW WE'RE READY
FOR A NEW START! We've teamed up with Jonathan & Sharon (her testimony of being delivered from cancer was in Mag 36) & their 4 girls! The Lord had showed John & me over a year ago in Europe that we should work with them, & it just now has come to pass, PTL! us as parent #3. We are now
back in the U.S. about
to cross into Mexico with
our trailer & van.

TRUST & OBFY & MITNESS:
When we realised we didn't
have to do it, that Cod
would do it if we just obeyed, we all learned quite a
lesson of faith. We stopped
worrying about needs &
stanted trying to witness &
minister & obey every check,
& we found ourselves loving &
talking to people out of
pure concern for them.

THAT'S WHAT WE'RE HERE FOR,
but we had never captured
the joy of it before. Everything became not a way of
support but a way of witnessing or a test of obedience. And in the end it
reaped much more physical
support than if we had only
had our eyes on the need.
Thank You Lord!

SETTING A DEPARTURE DATE;
We began our push for leaving for Mexico by setting
a departure date, Gilalai,
Isaiah & I had each separately read a testimony in
which a couple set a date
to start being mobile, & it
had inspired each of us to
also want to get definite
with the Lord. After prayer
the Lord laid a date on our
hearts two months away.

with more care to get everything done as soon as possible, & we made much more
progress this way.

MAIL MINISTRY & OUR PRAYER
LETTERS: Isaiah & I had a
real burden for the mail
ministry. We put out a b1monthly prayer letter with t
stats, photos, testimonies
& simple Bible verses like
frov. 11:30 & Phil. 4:19.
Everytime we would make an

ISTRIBUTING PRATER LETTERS THEN IMPROVEMENT IN These the Lord would show us something else to make it more effective. Our most recent one was done as a 4-page rincluding a pledge card with lots of photos & a short text of our past missionary work & present goals of going to Mexico, plus a total of souls saved, literature distributed & persons witnessed to during our stay in this state. (Send us one!)

WE DISTRIBUTED THESE ALONG WITH OUR LIT to all those who were interested. After this we received an anonymous \$50 in the mail. TYL!

PROVISIONING: We faithfully sent thank you letters & prayer letters to everyone we provisioned from & were surprised to find that many became steady contacts thru this type of ministering. We spent lots of time with people at the market who donated food, & two of them became \$50 a month supporters. Others pledged money or materials.

INVADING THE CHURCHES: At first we all balked at the idea of invading churches. We left intending to be on the road to Mexico, & less than one month later our van limped back with what sounded like only 2 cylinders firing on our newly overhauled engine.

WE WERE DISCOURAGED & HAD NO MONEY, but we decided to invade our first church. Even though it did not receive us warmly, it was a step of obedience, & the Lord used it to enable us to meet other more receptive Christians who became supporturs.

IT TOOK US AWHILE TO GET INTO THE SWING OF THINGS. but we were convicted by "Golden Opportunities" to follow-up immediately on invitations, Gilalai was able to fix our van himself.

ISAIAH STARTED CALLING
UP SOME CHURCHES OUT OF THE PHONE BOOK as well as those we were referred to while litnessing. The pastor would either want to meet us first or just invite us to an evening service. The kids sang, Gilalai gave our teatimony, Jewel passed out prayer letters, & afterward a love offering was collected for us.

timony, Jewel passed out prayer letters, & afterward a love offering was collected for us.

WE WOULD ALSO COLLECT
PLEDEES or addresses. In 2 churches that didn't help, the Lord had someone behind us give us 2 checks, one for 520. 8 one for 50. These people were really impressed by our sample with the kids just sifting in church, TYL, & they also pledged support:

LITNESSING: The amount of litnessing we did was our main teatimony, as the children won lots of souls & could show the church people how to witness. We had pictures of them praying right on the street with people, & during the 9 months that we were in that city we distributed 52,719 pieces of lit, witnessed to 16,350 people & won 1,316 souls, mostly due to the kids boldness & samplower of the course of the man turned out to be a very precious jewel, having faith in us in spite of others' skepticism. We helped with hundreds of dollars in equipment & funds. We always tried to be sure that our litnessing was real witnessing & not just fund-raising, & the Lord really blessed the extra time spent with people loving them & trying to meet their needs. TYJ!

We travelled by train through China to where the family couple who has been living there for the past year were, 8 were so thrilled to meet their precious Catacomb Disciples who they won to the Lord 8 had been faithfully feeding 8 teaching the Word, 8 some of them were also beginning to witness when they found opportunity!

One day at her work she was approached by John who asked her what she was reading s she replied "A New Testament". He said he had one also s soon they began talking more about the Lord together s she introduced John to the Family. John had been led to the Lord by his Aunt the year before s remembers praying together with her quite a lot. His Aunt just sent him a copy of the New Testament in English schinese together so he can study the Bible s English both!

We began right away the first night showing them the videos we brought with was on the little portable video TV we were lent by another brother, s they were tent by another brother, s they were thilled to watch "The Bible" the first night, learning about the stories of Creation, Adam s Eve, Cain s Able, The Tower of Babel s Abnaham s Noah's Ank! We watched the video picture then paused it while we all looked up s read the passages in our English s Chinese Bibles, s then watched more of the video. We saw what a terrific teaching tool the video was in this type of situation, because

Later in the evening we met another e disciple named Lily, who speaks English fluently & really loves the Lond & the Family all over the world! She has been a wonderful help to the couple there in a so many ways this past year, most of all in helping to translate for the other young people to help them learn the Bible & letters shared with them! She especially loves the MMM cassettes & listens to them all the time, & now we were able to show her the MMM videos & for the first time she was able to "meet" some of our precious Family members in other parts of the World!

Next to visit was F. a European young man who the Family had been witnessing to, & he & Lily were falling in love & stanting the lengthy procedures that are t-involved in asking permission to marry! This was a real answer to Lily's prayers for a husband, so please pray for them!

Another very sweet boother came over them named Mash, who is in the performing arts profession. He met us another day also for a will around one of China's beautiful Parks where we found opportunity to share many leasons with each other & talk about the Lond!

The next night we put on the "Josus of Nazareth" video & began again teaching with open Ribles looking up the references & reading the Woods being sopen in each scene, & pausing to share more lessons. We also played more of the HUM videos which are such a blessing & inspiration!

How's Food on the Foreign Field?

NOR, DESPITE THE PROPAGANDA FROM WASHINGTON, is American food the world's best. Japan, France & Argentina produce more flavorsome steaks & in most countries you can still buy good wholesome meats, fish & produce that has not been frozen, canned, embalmed by processing or made toxic by reckless spraying or the injection of artificial hormones. America's supermarket chickens—puffed up with water induced by artificial hormones—are banned in much of Europe as are American apples because of the poisonous lead spray used by American orchards.

REST ASSURED THAT IN MOST AREAS OF THE WORLD you can shop in the good old-fashioned way, in public markets where fresh fruits & vegetables

were picked ripe the afternoon before & rushed to market over-night. In most other countries, particularly in the Far East & Europe, you will eat infinitely better, fresher, purer food. —From "Rettment Paradies of the World" by Normen D. Ford.

Outdoor Trip Tips!

ONE EASY METHOD FOR FRYING WITHOUT PANS is to take along some extra-heavy-duty aluminum foil. Find a forked branch or a green willow switch flexible enough to bend into a loop about the size of a frying pan & secure the loop with wire or rope. To convert to a frying pan, cut a piece of foil 3 inches longer than the intended pan. Attach it to the willow loop or forked brench to form the pan, allowing the foil to sag a little in the middle for depth. Roll the excess foil around the edges to secure. Then start frying!

We trust you have preyed desperately and are sure of God's calling, as Dad says: "He sure you pray desperately and find God's will for yourself before you go anywhere! Only God knows the best place for you." (371:62) We hope the following information will be a belp and blessing to you in your preparations for departure.

How to Get Here: Shop around where you are for the most econ route. From London a number of small airlines offer cheep flights Bombey, such as Aeroflot (Soviet Airlines), Lot (Polish Airlines), Kuwsit Airlines, and Bengladesh Binan.

Bombey, such as Aeroflot (Soviet Airlines), Lot (Polish Airlines), Kuwsit Airlines, and Bangladesh Binan.

What to Bring: Besides your return or ongoing tickets, 3 months landing Tunds, and home support, you'll need to bring will you any type of electrical equipment or appliances you might need, as these are vory expensive here and of poor quality. So bring cassette recorders, radios, cameras, watches, video equipment, etc. For anything very expensive such as video equipment, etc. For anything very expensive such as video equipment you'll need a re-export order which you'll obtain when you enter. The equipment will be noted in your passport and you'll have to get it out of the country within 6 months, regardless of your nationality. We have not yet looked into the possibility of extending this re-export order. Even if you can't afford to bring video equipment, if you could bring some blank tapes that would be a real blessing, as they ere exhorbitantly expensive here. Student vises or business vises are very difficult to get, elmost impossible, but of course, "with God nothing shall be impossible" (Luke 1:37), so if you feel God is leading you in that direction you should look into it before you come, as here.

here.

Landing Place: We're planning to set up a Reception home in Bombay, but have not yet done so. In the mountame, there is a Home willing to receive incoming brethren in rune, which is about 5 hours away'50 train. So if you arrive before the RH is established, you'll have to spend a day or two or more in a hotel in Rombay, which is where you'll arrive on most international flights and where we recommend you arrive. This will cost 100 to 200 rupes (or 12 to 25 Us dellars) per day for rent and food. The Family in Bombay will be glad to help you all they can, if you let us know when you're coming - they can meet you at the airport, help you find a hotel, help you arrange ongoing travel, etc. So it's your choice, whether you want to wait until we've set up the RH, or lend in Bombay and go directly from there to Fune, or land in Bombay and (if you can afford it) stay in a hotel there until you'rs ready to head out to your specific field. Large families please note: living out of hotele and restaurents may not be too good or sanitary especially for the kids, when you're not used to the food or climate. Places read Mag 41 #1025:26 paragraph 2, and please keep in touch and let us know your latest plans so we can help you!

Internal Transport: From city to city, planefares are expensive, but train traval le very reasonable and we highly recommend it. The sirlines are quite strict about begings weight restrictions, whereas on the train you can take much more (70 kg per ticket 2nd class and 100 kg per ticket 1st class). Just be sure you get berth reservations before you trevel by train, an example of prices, from Sambay to Madhes: by plane, about 5400 Us; by train in 1st class carriage, 550; by 2nd class carriage, 510. The prices are proportionate to the distance travelled. Inside the cities, there are taxis, auto rickshaws, cycle rickshaws, (and in Culcutta hly there are taxis, auto rickshaws, cycle rickshaws, suburban trains, and s.metimes h rea-carts. Almost everywhere there are cheep, feirly convenient ways of getting around.

Rent end Living Costs: As Bad says in 1046:120, "I don't want to see any of you people leaving either Europe or Eorth America going to those peop Southern Hemichere fields unless you've 5ot your full fore, round-trip or ongoing, plenty of cosh for landing, and cash enough with you to live, at least 3 months room and beard! Flus pledged support of the minimum living costs per month!" In India, the amount needed would vary a bit depending upon which city or area you plan to make your Home or bees. Rents in Bombay are the highest in the Subcontinent - 8 2 bedroom flat would be slightly less - about 2500 per month; in Delhi and Calcutta it would be slightly less - about 2500 per month; in the southern major cities such as Bangalors and Endras it would be about 500 to 3200 per month; in less-westernieed major urban areas it would be considerably less - from \$100 to \$150 per month. In addition, most landlords sek at least 3 months deposit, and cometimes more. Cother expenses, such as food, transport, medical, entertainment, etc., for a couple with 2 kids in any of the major cities to keep a good clean healthy standard would average about 3375 per month. Most of our Homes are co-op (more then one family living together), and sharing of course slways cuts down the cost.

PROFILE OF INDIA/page 3

Lenguages: English and Hindi are the major languages. If you know English, you can get by almost everywhere with no problem. In addition, every state has its own language, such as Tamil in Tamil Radu, Bengeli in West Bengel, Telugu in Andhre Pradesh, Karathi in Mahersetra, etc. there are more than 100 languages altogether. The Hindi Lit-Pic is going strong. The Tamil and Bengeli Lit-lics are new but growing feat. There are also translations in Telugu, Marathi, and a few others. You don't have to speak the language to sock it to 'em with a piece of lit! And now there's a new Hindi Music with Newning Show called "Prem Kiren" (Rey of Love)!

Religions: Hinduism, the major religion, involves worship of an immense pantheon of gods and goddesses, cows, enakes, rats - you name it, they worship it. It's horribly demonic and supports the caste system which in theory is outlewed but in prectice is still very much in effect - which subjegstes into menial servitude and poverty the majority while allowing the small minority of the upper castes to live in self-righteous luxury. (See #177:3,4) Nevertheless, many of our strong new disciples that are being won by the brethren at the Hindi Litric come from Hindu backgrounds. In addition, there are large populations of Muslims and Christiens, as well as smaller numbers of Ruddhists, Jeine, Sikhs, and other minor religions. The state of Gos is Catholic, heving been a former fortuguese colony.

Attitude Toward Foreigners: In the major cities, Indiens are very interested to Speak with foreigners, sek where they come from, what they do, etc. The cities of the Scuth seem generally more hospitable and friendly then the cities of the Rorth. Kuny Indians have the idea that anyone wearing a white skin is rich, and some automatically hike their prices for foreigners, but most are helpful and respectful. Bargaining is a way of life, for both locals and foreigners.

Crime: Since this is a poor country there is a lot of theft. Almost all the windows of apertments, houses, and hotels have built-in bars (usually gracefully ornate), and everybody locks their houses, cars, bicycles, etc., when they leave them. Pickpockets and especially pursesslashers are common in large crowds at bus stands and suburban train stations and so on. So be careful and prayerful, "watch your money and your luggage, travel light and stick together!" (#202:14)

Food and Water: The Fumily everywhere boils their drinking water. When out, we generally stick to sodes, tee, otc. Good healthy food is available, and usually much cheeper than in the West. For example, filet beef cuts are about 1 Us dollar per kg; wheat is 30¢ per kg; rice varies from about 25¢ to 50¢ per kg; vegetables in seeson are about 20¢ to 30¢ per kg. Fruit is extremely cheep tooin season.

Camping: A mobile ministry has not yet been pioneered in India, for a number of reasons. First, cars or vehicles are very expensive here. A locally-mede 4-cylinder car costs about 8000 be dollars. The import duty on cars is about 200% of the Indian customs estimated value. Tourist vehicles require a carnet for 200% of the volue of the vehicle, and the vehicle must leave the country within 6 months. The roads here are narrow, chaotic, and crowded with wildly careening crazy buses and taxis. And outside the major cities and towns, you would be very much an object of curriousity and possible theft. But Mark 9:23 and Matt 9:29.

Beelth and Medical Services: These are available and cheep and sometimes reliable, but it's best to come with a lot of faith for your health and healing, to stay in prayer, keep a good standard, and obey God's health rules.

Postel Service: Usually quite road, but along the late of the services.

Postal Service: Usually quite good, but slow. It's best to use Posta Restants c/o the GPO of the city where you're working. Try to have

PROFILE OF INDIA/page 4

your gifts sent c/o the Indian CRO or in bank draft form (the local State Bank of India overseas branch is usually best) and not in cash. If you know where you're going you can send your MC Books and mags ahead of you to Poste destante.

Entertuinment: There are lots of cinemas - Indians love movies - and English and American movies are shown in English. Time and Newsweek and international newspapers are available in the major cities and in state the local newspapers have editions in both English and the local language.

Fair hotels and local newspapers have editions in both English and the local lensuage.

Family situation and outreaches: At present there are 19 Homes, 57 adults and 26 children, in India. As you can see, we need many, many more labourers to reap the bountiful harvost here!

Our greatest need at present is for braye pioners to open new Homes. The Homes we have now are almost all full, but we need more Homes everywhere, in the mejor cities such as Bombey, belhi, Calcutts, Hedrus, and Bengelore, es well as ripe but empty or almost empty fields such as Gose, Yeshmir, Hyderabad, Ahmedabad, etc., etc., etc. There are many cities with populations of over a million that have no Family at present! There is no place that cent't handle more Homes!

We also need temms to go everywhere and visit blwM listeners - roving MMM minstrels. To do this you don't need to be able to play the guiter (though it helps), but what you need more than anything is a real love for there precious sheep who are almost always caper and hungry for the Words and love of David. Usually the minstrels base in a major city and make trips into the surrounding towns, visiting all the listeners in the area, lit a tramendously fruitful and fulfilling ministry, often resulting in selvestions of whole families and their friends, relatives, etc., and sometimes in new disciples. (See Linda's testimony in a recent "Love is News".)

We need litnessers! The Word is starting to pour in India, especially in Anglish, Hindi, and Tamil. In the past we have had persecution for litnessing here, but it was because we were asking for donations. Since view a year ago, when we storted to really pour out the Word here freely (Matt 10.3) the lord has really blessed it and we keven't had one incident of persecution! It's a free and opon field at the moment, and it'll take a lot of labourers with a lot of lit to really saturate it the way it needs to be done! Street litnessing is also very fruitful.

We need Firs! Rombay; a hore precious, with arabs from all over the Nidest c

bottles!
We need you, if you're willing to come here and forsake yourself and
lay down your life for the hundreds of millions of precious lost sheep
here! GBY! WLYSM! Come soon!

"She's love-starved, and will respond shyly at first, but warm to us with fervent and ardent enthusiasm if we will love her passionately with all our heart!" (#202:14)

"So don't be surprised if God does some very mervelous things for us in India and for her peoples there, through us! With man it is impossible but with God, nothing shall be impossible, and all things are possible to him that believeth! Praise God! Hallelujah! Can you now believe God even for India?" (#177:26) Much have.

Dearest Family & Friends,
GBY&WLYI GIJPNI Well, it's been another
exciting month here in beautiful, sunny Thailand. Actually, it's the rainy season, but the
sun still shines, especially in the faces of the
many precious sheep here.
THIS MONTH WE HAD A SLIGHT "NO

used it to strengthen many of our newer national disciples, expose the tool of the enemy within our midst & help everyone to check their
security. So God gets His greatest victories out
of seeming defeats! PGI

Australia & elsewhere are beginning to find
their places in the work here & many more are
still arriving, with more to come we hope!

long, as well as those of you still planning to

come to Thailand, that Dad's Letter "Pawm",

No. 370, is a beautiful revelation giving Insight
into the situation here & how to succeed in
winning Thailand & its nationals for the Lord.

Have a lot of love & patience, go slow with
them & don't get discouraged if it doesn't
happen right away. Remember, you're not
dealing with Westerners now & it takes time to
really win them & ground them in the Lord,

His Love & His Word.

THERE ARE SOME RARE EXCEPTIONS
TO THIS as we have seen recently with a few
who have joined, even putting many of our
older Western brethren to shame. GBTI But
they are the exception to what seems to be
the rule. Generally, "Pawm" applies perfectly!
So don't quit rescuing them prematurely. It
may take years to really make leaders out of
some of them, so if you don't have this kind
of love & patience, perhaps there is a better
field for you elsewhere, because you'll need a
lot of love & patience to succeed here. WL Y!

ON THE LIT-PIC SIDE OF THINGS, 6
Letters were print-ready this month: "Rotten
Apples", "TV Intimacies", "Rewards", "Russian Faith Test", "How Long Oh Lord?" &
"Schedules" plus the MWM Brochure & 9

& the Beginning of Thai MWM!

Komix. 5 Letters were translated plus pages 1-52 of the Childcare Handbook Vol. 1. We reproofread & have print-ready the FFers Handbook. We've also begun photocopying 50 copies of all the Letters now in Thai to have on hand for new disciples & Homes. 10 Letters were photocopied this month. We also printed 16,000 pieces (64,000 pages) of the "Chained Eagle" & 7,000 pieces (28,000 pages) of "Gotta Be A Baby" for distribution, bringing the total number of FREE distribution lit given to the Homes to 4,068,000 pages Made possible by you! GBY!!! The total number of print-ready pages done so far this year would be 1358. TyJl But there is so much more to do.

ONE PROBLEM WE HAVE ENCOUNTER-ED is that we have none of the older Letters

on hand for new disciples & new Homes. To print these is far beyond our financial capabilities but to photocopy 50 copies of each is possible & within reason, but ideally we would like to purchase a photocopier. So, Lord willing, if this is the direction He's leading, He'll surely provide the funds. If you can help towards this, please do. In the meantime we will continue to photocopy them using a system photocopier. We really would rather invest the funds in the copier than just the copies.

MWM IS CONTINUING 10 MAKE PRO-GRESS with the vision of translating Simon's part into Thai & using the English songs, at present, with hopes of eventually putting a Thai show together. Luke is in the process of testing the nationals with a burden to try out for Simon's part. Then the Thais will decide who sounds & gets the Spirit across best. The Lord willing, he'll begin producing the Thai

recently got it booked on Radio Thailand (the
Thai equivalent of VOA & BBC)! TYJ!!! But

THE LORD HAS BEEN DOING MIRACLES

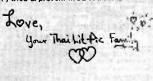

of Thais don't speak English.

THE LORD HAS BEEN DOING MIRACLES IN SUPPLYING FOR A STUDIO which Luke has put together. A king donated a Sony open-reel tape deck, a fish donated the funds for a Pioneer Professional cassette deck, Michael & Esther bought an AKG 3000 BT microphone in Singapore on their way to Thailand, & various other mikes, mike stands & headphones were provisioned. The brethren in Singapore donated about 50 Dollars worth of cassette & openreel tapes, Bert donated the speakers from his car (GBH), wood & other materials were provisioned & most of the brethren in Thailand have given funds & labour.

SOME NEEDS WE STILL HAVE would be: a Tech Portastudio or a 6 or 8 channel mixer; a 4 track openreel tape deck; bulk tape eraser (cassette & openreel); another tape deck & instruments: bass guitar, electric piano (we have a few talented pianists now in Thailand), guitar amp & a tuning meter.

If YOU CAN HELP WITH ANY OF THIS, please dol Brethren coming to Thailand could bring it or stop in Singapore on the way & purchase it at a good price. The VS's there could help you find what you need.

EXCITING THINGS ARE HAPPENING & still in their early stages since the Fellowship Revolution. We're so thankful to ab here serving the Lord in this beautiful, tropical country. And we are especially thankful to all of you who make it possible with your faithful support. We may not always send a personal thanks (other than this newsletter) but we do receive all the gifts sent via your reporting office (the best way to send them) along with your name & address & we truly are thankful to each of you for the great sacrifices you have made to help us here. We know for a fact that we do have the great sacrifices you have made to help us here. We know for a fact that we do have the great sacrifices you have made to help us here. We know for a fact that we do have the great sacrifices you have made to help us here. We know for a fact that we do have the great sacrifices you have made to help us here.

Russian Campgrounds Ripe To Harvest

MANY SOULS WON & LFSSON |
From P. & S.; Europe:

ME KNEW IT MOULD HAVE TO

BE THE LORD for us to "take
our caravan to Russia" because right at that time
we were in debt after getting a new caravan, & our
old van would never have
made a trip to Russia.

WE HAD BEEN TRYING TO

SELL OUR OLD CARAVAN, but
then someone crashed into
it while it was parked. The
compensation we received
for it ended up being even
more than we had hoped to
receive from selling it:
Plus we were also able to
sell our old van & buy
another one. At the same
time I was offered a very
well-paid job as a bricklayer for 5 weeks, so it
looked like everything was
working out.

AROUND EASTER I MENT TO
THE INTOURIST OFFICE to
check about the distances
between the campsites, &
I was told that it was
probably too late to apply
to go to Russia early in
the summer. We really wanted
to go as early as possible
because Silla is pregnant.
Anyway, we were told that
the campsites where we wanted to stay might all be
booked up already, so we
knew that we needed another
miracle,—a big one!

TINALLY, ON THE 19TH OF
MAY WE WERE TOLD THAT WE
COULD GO! And by another
miracle, in 8 days we had
our visas to Russia & to
Poland thru which we had
to travel.

WHEN WE ARRIVED AT THE
RUSSIAN BORDER, we went
thru quite a search. Everything had to be taken out
of the van--ve ended up not
taking our caravan along
because it is quite big &
heavy. They asked us what
kind of books, magazines &
tapes we brought. We had
some MAN tapes & Grandsother

that was often several times a day.

THE ROADS WERE VERY BAD. & we had to drive 300 to 500 km. between the campgrounds in one day. But when we could rest a few days in between, it was okay. As soon as we arrived in the campgrounds an English speaking Intourist guide would meet us, & they always seemed to have lots of time to care about us & what we were doing. Usually they were really sweet people, but one time we got in trouble because I wasn't careful & prayerful enough.

IT WAS IN THE CAMPCROUND near a small town called vinneca. The guide & his helper were trying to make

THEY MERE EMPECTING US, so they had an English speaking silitary man ready to talk to us & try to make friends, we learned later that they really want to find out about tyour motives & beliefs this way, & you have to be careful about these officials. Even if you are able to win them as friends, they are so well-trained & indoctrinated & under such pressure from the System that they are not able & strong enough to be loyal to you. We learned this the hard way.

AFTER 6 HOURS OF SEARCHING FILLING OUT PAPERS, we were able to leave at 4 in the morning, but thank God it hadn't been in the daytime when the temperature was 30 degrees C.

I NECUED SOME SLEEP, SO WE STOPED. We had hardly woken up a few hours later when somebody came up to us wanting to buy our jeans & foreign currency. We followed Dad's advice & refused every time we were asked, & that was often several times a day.

And as the examination went.

A TRUE STRAY OF GDU'S MIRALL Sent by Haziel & Eve; Europe A CHRISTIAN LABOURER. MORKING IN A COMMUNIST. COUNTRY, had been arrested & imprisoned. Shortly after his arrest, he was taken out of his cell & led to an interrogation room of the secret police.

THERE HE FOUND, SITTING AT A TABLE, an officer of the secret police & a doctor. On the table lay an open Bible. The Christian prisoner was ordered to sit down & the interrogation began. He was asked:

"Do you believe that this book is the Word of God?"

"Yes," he answered.

THE OFFICER OF THE SECRET POLICE then asked him to read a certain verse. It was Mark 1618. The Christian read:

"And if they shall drink any deadly thing, it shall not hurt them."

"Do you also believe this portion of the Biblé?", the officer asked.

"Yes," answered the Christian.

"Yes," answered the Christian.

THE OFFICER THEN PUT A
GLASS FULL OF LIQUID ON THE
TABLE & explained: "In this
glass is a deadly poison.

If the book is true, as you
maintain it is, it will not
hurt you. To show you that
we're not joking, look at
this."

THE OFFICER BROUGHT IN A

THE OFFICER PROUGHT IN A BIG DOG & made him drink some of the liquid. In a few moments the dog was lying stiff & dead on the ground. The officer looked at the Christian & said:
"Do you maintain that this book you call the 'Word of God' is true?"

screamed the communist officer as the doctor was watching.

THE CHRISTIAN KNEW THAT THIS WAS THE SUPPEME TEST. He asked for permission to pray before drinking, which they allowed. He kneeled down before the table, took the glass in his hands, & prayed for his family-that they should remain unshakable in the faith. He prayed for the communist officer & the doctor-that they might find God & become Christians too. And, ending the prayer, he said:

"Oh Lord, You see how they defied you. I am ready to die. But I believe Thy Word, that says that nothing shall happen to me. If Your plans were different, I am ready to meet You. My life is in Your hand-as Thou wilt. Thy will be done!

HAVING SAID THIS, HE LIFTED UP THE GLASS & DRANK IT ALL AT ONCE. The police officer & the doctor were surprised. They didn't believe he would back out of it. They were now expecting to see him drop dead like the dog did. But moments were becoming minutes. The minutes seemed like hours. A complete silence was in the room. Everyone was waiting for the unavoidable death. After some long minutes, the doctor finally moved. He took the Christian's arm & checked his pulse, it was normal.

INSTANT CONVERT FROM COMMINISM:
He looked for other symptoms. There were none.

AT THE HEIGHT OF SUPRRISE, he carried on his examination without managing to find any evidence of harm.
And as the examination went on, he was more & more surprised. He finally dropped himself into the armchair, &, after thinking for awhile, reached into his pocket, took out his Party card, tore it in half & threw it on the floor. Then, picking up the Bible he said:
"Prom today on, I want to believe this book. It must be true! I too am ready to believe in this Christ who did such a miracle before my eyes!"

Travelling & Camping In Russia!

& GETTING ADDRESSES TO FOLLOW UP:

WITNESSING TO CAMPERS, MESICIANS, STUDENTS, BALLERINAS & GE
From S. & N.; Europe:

WE STARTED IN AUSTRIA,
where we had been for
months already reaching
East Bloc people & learning
a little Russian & litnr.ssing to Russians. But certainly we did not have the
visiting Russia.

WE FOUND THE PEOPLE TO RE
VERY FRIENDLY, receptive &
hungry. It's a rough & a
rugged road, as their system
tends to be hard with a lot
of rough points & sometimes
downright hardships. Crossing
the border, they practically
took our van apart & searched
very thoroughly every paper &
under the car by driving it
over a pit. They took everything out, unscrewed uphoistery, peaked thru holes with
tiny bendable flashlights, &
really made note of all we
chad with us.

OTHEY LOOKED AT EVERY PHOTO
& had a guide there to speak
our language. He was there
to wait for us & to talk to
us & keep us busy while they
searched our car for 2 hours.
Since the car was from Austria, they had a guide that
spoke German, so they aren'
infallible, & this turned out
to be the Lord. We had
brought 10 MMM tapes with us,
& they wanted to know what
they were, all these numbered
programs. I just casually
said, "Oh those are tapes
for children," & then he
asked if I had any ussic
tapes. So I let him listen
to the "Love Is Forever"
tapes. They listened to it
for i 1/2 hours while searching the van, but none of
them understood English.

WE LATER FOUND THESE TAPES
TO BE AN INVALUABLE THING to
give to sheep, Mell, we
bought gas coupons at the
border to spaid a small road
tax of \$10. Gas is very cheap
at 27 cents a litre, & disea!
fuel is only about 8 cents.

ANYMAY, IT WAS THE LORD, because we had seen several Russian families camping out by a river under these huge pine trees, really out in the beautiful wilds, so we decided to go camp out near them. They were just starting to build a campfire when we drove up.

ONE COUPLE IN PARTICULAR TOOK A LIKING TO US, as they saw us getting ready for the night, & they invited us over. We only spoke Russian with them & soon found out that they were all from the Ukraine & that Ukrainian is very similar to Russian but is in fact a language of its own.

APTER A LITTLE BIT AROUND

is very similar to Russian of its own.

ATTER A LITTLE BIT AROUND THE FIRE we mentioned that we had a guitar, & so we brought it out & one of them asked me how many strings it had. He only knew how to play a 7-string, & I laughed thinking he was joking, as I had never heard of a 7-string guitar. But in all of Russia they have 7-string guitars. He tuned my guitar all different as if it was a 7-string one missing a string, & he began to play. All 10 of them sang these deep Russian songs.

ATTER A FEW OF THEIR SONGS

we began to sing our songs, & they really listened to the Spirit of them & were silent & then clapped afterward. They left early in the morning & we gave the sheepiest couple a MWM tape.

OH. BY THE MAY. WE WERE SUMPRISED BY A 2-MOUR TIME PIFFRENCE so that it gets dark at 11 at night. We had entered Russia on the 20th of June.

ALONG THE WAY TO KIEV ther

entered Russia on ALONG THE VAY TO KIEV there were many people asking for rides, which we often gave from one village to another, as buses were few & usually packed out, incredibly old & decrepit. Two beautiful Russian girls asked us for a ride & we took them about 20 km. After a little talk they invited us to their house in a little village for dinner. But we weren't there for more than 5 minutes when police came from both directions & told us that we needed to leave, that we were not to stop at places that were not on our itinerary. The police were nice but firm. We didn't know what they were going to do, but they wrote something down on our visas. THE VISA IS SEPRATE FROM YOUR PASSPORT, & your passport itself never gets a stamp, but they keep the visa paper & information when you leave the country. They had also written on the visa at the border that Maria brought along her Italian Bible, which was all the Word we had. Then, when we left the country, they checked to make sure we still had the Bible.

WE LEARNED SOON ATTERMARD THAT THERE IS A TREMENDOUS BLACK MARKET in Russia, & that anything from the West has a very high price, including Bibles which can go for \$200, which is about a worker's average monthly pay. Blue jeans of the better brands such as Levi's & Lee sell for \$200 also.

WHEN ENTERING THE COUNTRY they also made us write a declaration of how much money we had, & they checked it carefully including a slip of paper which needed to be filled out whenever we would change money in the state banks, We were told that especially in Moscow

Mho do Diese means which cost the state lots of money.

MANY YOUNG PEOPLE JOIN YOUNG REOUPS of various names, & from the age of 13 can learn to shoot guns. We saw a truckload of many of these young people dressed up in uniforms & berets driving in the countryside, probably to a place for practice. They were all carrying rifles & all looked like junior high school age. Feople generally accept this & admit that the common shortages are a result of military build-up.

A call to arms is a common sight as a reminder : b. prepared to face the enemy or invader.

MNILE OUT SHOPPING. THE PROPLE CAN BE DOMMRIGHT HEAM & are generally rude to you. We found a solution to this & to the queues-to take our il-month-old baby along. Her name is Vera which means Faith in Russian, & people would often let us to the front of the line & start smiling & be nice. Just a little thing like shopping with the children could turn into an event where many people saw a bit of love. Apart from shopping & the rat race, we found many people very warm & hospitable, sincere & open, RUSSIANS ARE REAL PEOPLE, good at heart, sincere & much less superficial, much deeper than most most Americans, whom they consider to be flippy, somewhat uncultured & ignorant of politics. People generally would like to go to America or the West, perhaps not so comuch for so-called freedom, but more for what they think is a material abundance there of all the necessities of life.

had travelled outside Russia to a few countries such as Italy giving concerts. He spoke no English, but his wife, who studied at the university, did. They were very nice to us 6 invited us for a very good meaty dinner, improvising on the common things available at the moment such as cucumbers, which were the only vegetable we saw for our 17 days in Russia except for some occasional 6 expensive tomatoes, WE HAD ABSOLUTELY NO FRESH FRUIT or even saw any the whole time there, except that in one store we found some delicious grape juice, 6 in another city we found some apple juice which was more like apple sauce. In almost all cases, storebought food is packaged very poorly with its contents simply stated rather dully with little design or antwork, as there is only type 8 no competition, only one company—that of the State. This is what is sed different at first from the West, as there is no publicity, not all these neon signs, not much color, no fancy stores generally, but just what is necessary to serve its purpose. There is no ponography at all either or pictures of women being used to portray something. Homen have equal rights 8 offen responsibilities.

MELL, NOW THAT I'VE TALK-PD SO MUCH ABOUT THE COUNTRY, let me tell you about some of our exciting experiences. We were really thankful that we had come with a car, as we were able to move around much more freely 8 were completely able to decide what we wanted to do once we were in the city of our itinerary. Plus it proved to be much cheaper. Our entire expense for 17 days was

only \$400, so it can be very cheap.

IN KIEV ME MENT TO A BALLET MICH MAS SUGGESTED TO US BY OUR INTOURIST GUIDE at the campgrounds. We sat right up in front & saw one of the most fantastic shows that we had ever seen & were both just breathless. They started singing & then danning & had such wariety & humour that we were taken away & both kids were just silent, watching during the whole two hours.

ATTERWARDS, AS WE MERE WALKING TOWARDS THE HETRO, we casually started to talk to these two simple girls who were taking an interest in Vera who was smiling at them. It turned out that they were taking the Metro also & were 2 of the sing-ers in the ensemble. After a little more talk & making friends, one of them invited us to their house. So we took another bus & got to their apartment.

WE HAD A GOOD SHACK HE-PROVISED FROM THE FOOD AVALLABLE—cucumbers of course, but with hard boiled aggs & cheese which was all very good & satisfying. I spent a lot of time talking to the husband who played a tressured tape of Boney H in the background which his father had gotten him one time when he went to the West for work. Their house had almost no furniture at all except their bedroom & a fantastic piano. He opened up 2 bottles of champagns which we all finished off, & so we stayed up till real late talking.

MARIA MENT IN THEIR BED-ROOM MERE ME PUT CUR KIDS DON TO SLEEF, & she saw a cross on the wall & used that as a spark to talk a little about God & their beliefs, She took the cross off the wall & smiled & then put it back en, & Meria said she was really smiling

DURING THE 17 DAYS OF OUR TRIP, we got 15 addresses-12 from Russians & 3 from other foreigners. In Odessa, about the first day there we met a Russian student who told us many interesting things about the interior of Russia, how there are endless forests & lakes & it takes & full days to cross Russia. He spoke a very intellectual English which he had learned himself from books & listening to the radio.

ME HAD SEVERAL DAYS OF TALKING TO HIM, & though he professed not to helieve in God, he certainly was very receptive to our love £ our talking about the spiritual. He told us that he liked to go to the occasional old Orthodox churches & light a candle £ put it there to burn, that it was something exutic for him to do, as he didn't see too many churches, He said that he knew many young people who did similar things, as perhaps they would come from one of the new cities which had been built in only the last 20 or 30 years where there was no church & perhaps they had never seen one.

"I have never seen so many Christian young people in one place."

This was the delighted reaction of 27-year-old Natasha Vins when she attended Mission 80, the 7,000-strong youth congress organized by TEMA (The European Missionary Association) in Lausanne, Switzerland. While predominately European, the event attracted participants from some 26 different nations.

The objective of the gathering was to continunicate to young European Christians a vision for world missions, and to encourage their active interest in the extension of Christ's kingdom.

Mission 80's theme, 'Let every tongue confess that Jesus Christ is Lord,' came into sharp focus when considering areas of

Natasha's father Georgi Vins, repeatedly imprisoned and sent into Siberian exile, did not want to leave his native land for freedom in the United States. But later he said, 'Now I know that I am supposed to work on behalf of suffering Christians in Russia.'

'Christians in Russia are praying for freedom to preach and witness...'

Dear friends, I greet you in the name of the Lord Jesus Christ. I bring you this greeting from Christian young people of the Soviet Union.

I thank the Lord I was invited to this conference. Never in my life have I seen so many Christian young people in one place! I want to tell you how fortunate

you are. It is by the grace of God that you can meet together freely and openly.

Christian young people in the Soviet

you are. It is by the grace of God that you can meet together freely and openly.

Christian young people in the Soviet Union have similar desires to meet together like this. I remember a meeting I attended when I was still living in Russia. About 300 of us met in the Ukraine, in a large forest. Because of persecution, our meetings are often in forests. We wanted to spend a weekend together in Christian fellowship. The organization had to be secret. We could not send out printed information. We were unable to invite missionaries or special speakers as you do. It was impossible to publicize our meeting by letter or telephone. We did not want the police to know about our plans.

We met on Saturday morning and put up a big banner between two trees. On it was a picture of Christ's outstretched hands. Between his hands was the verse: 'I have written you on the palms of my hands' (Isaiah 49:16). That was the theme of our conference. We also had musicians and a choir.

But before we could start, police came to

But before we could start, police came to break up the meeting. They decided we were too many, however, so they left to call more police. We wondered what we should do now. The police might return in 15 minutes or an hour, we did not know when. But we decided to start our meeting. We sang, gave testimonies and prayed together. How wonderful was this time of fellowship, especially when each word of prayer or song could be our last. I will never forget that experience.

The police came back after 40 minutes while one of the young men was giving his

The police came back after 40 minutes while one of the young men was giving his testimony. They broke into our circle and took this young brother. They beat us and arrested some of us. That was our youth conference, our 'Mission 80'.

It would not be true to say that every Christian meeting in Russia is broken up but, when we go to a meeting, we never know if we will come home or be arrested. Ten years ago, in such a forest meeting, I found Jesus Christ as my Saviour. That day over 100 other young people came to the Lord. God is still working in Russia today. In the last 10 years, the Soviet Union has seen a great spiritual revival.

Twenty years ago, many Christians copied Bibles by hand. Today, we have more Bibles. Many come from the west, but also we have our own underground printing press. We now have secret Sunday schools for children and Bible studies for young people.

Atheistic laws in the Soviet Union forbid these Christian activities. Because of this, many Christians are put in prison. In the 1930s many thousands of Christians died in labour camps. Those who died had one prayer. They prayed for spiritual revival in Russia. Their prayer is being answered today. But still millions of Russians have never heard the gospel or seen a Bible. Christians in Russia are praying for freedom to preach and witness to these millions. Will you join us in that prayer? We are expecting God to answer. Continue to pray with us and be ready to go as the Lord makes it possible. The Lord wants to do great things in Russia, and I believe he will.

Finally, dear friends, be thankful for the freedom you have. Use your opportunities to do more for Jesus Christ.

Introduction by Dave Foster

Introduction by Dave Foster
In introducing our special guest, let me answer what may be some of your more basic questions. Natasha Vins was born 27 years ago in Kiev, the eldest of 5 children. She has 2 brothers and 2 sisters. Her father, Georgi Vins, has been the subject of more western media coverage than any other Christian leader in Russia. Earlier this year US President Carter arranged with the Russian government for an exchange deal which released Georgi Vins from Siberian exile after imprisonment in the Soviet Union. He was taken to the United States.

United States.

United States.

Six weeks after his release the family, including Natasha, joined him. So she has been out of Russia 6 months.

Early in her life Natasha was made aware of the pressures brought to bear on Soviet believers. She was one of only two children from Christian families in a school of 1500 students, and was made the

those who are responsible for this persecu-tion. So the people responsible for break-ing up the meeting are not restrained; in fact the protest can encourage them to do more. But it is different when protests come from outside. Good relations with the west are very valuable to the Russians, and when much is written and said in the west about persecution they ease the pressure.

Should protests from the west refer y to specific problems or should they be more general?

It is good when our authorities know that people in the west are well-informed on specific problems. For example, I have a letter from one of my friends in Russia. It was prepared by young people in our churches, and signed by thousands of them. It is about the need of Bibles for Christian prisoners. Christians in prison find it very difficult when deprived of the Word of God for years during their sentences. They try to have even parts of the Bible but, when the authorities in labour camps find them, they take them away. Last year, one of the young Christian prisoners went on hunger strike. He did not eat for 19 days, and wrote a letter to the authorities requesting a Bible. He said it was impossible for him to live without a Bible as a Christian. So Christian young people in the Soviet Union decided to write to Christians in the west to pray about this and possibly to write letters to our government asking that Bibles may be permitted for Christian prisoners so that they can have them openly.

What is the situation concerning higher education for Christian young people in the Soviet Union?

For the last 20 years it has been very difficult for believers to have higher educa-tion. I know many young people at our church in Kiev who started their studies

subject of interrogation, indoctrination and subject of interrogation, indoctrination and ridicule. Her father, a leader in the Baptist Church, was first imprisoned from 1966 to 1969. At this time she was between the ages of 13 and 15. From 1970 to 1974 her father went underground. He was unable to live at home with his family, and she would see him only about twice a year. In 1974 he was again arrested and imprisoned. At the time of his unexpected release he had completed his prison term release he had completed his prison term and was about to begin a period of exile in

Siberia.

At this point I would emphasize that Georgi Vins is not a Soviet dissident. That is an inaccurate description of him. His activities were simply exercising the freedom of religion included in the Russian

readom of religion included in the Russian Constitution and endorsed by the Soviet Union's signing of the Helsinki Agreement. News of her father's release was officially communicated to his family in Kiev 4 days after it happened. They knew already, but only by hearing it announced on a Voice of America radio broadcast. It was hard for them to believe. They knew it was true when, later, they heard and recognized his voice from a press conference in New York. As men and women of the media, you will be looking for adjectives to describe the guest of our press conference this morning. May I suggest just two as I introduce her? The charming and courageous Miss Natasha Vins.

I was born in an atheistic country, but into a Christian family. From a very young age I was forced to experience difficult circumstances. When I went to school I was surrounded by unbelieving fellow students. The teachers were atheists and all of them tried to influence and indoctrinate the children of believers. In the classes we were told that there is no God. After such anti-religious lessons teachers would ask us to stand up and repeat if we were Christians or not. If we answered that we believed there is a God, the other students would laugh at us.

According to the laws of our country children up to the age of 18 are not allowed to attend Christian services. But many oppose this and it is being done. In our churches we have an organized Sunday school for children, but this is forbidden. When it is so hard in school it is a great encouragement to gather once a week with other Christian children. We spoke about school, the questions we faced there and what the teachers told us. This was a great encouragement and help to me in my childhood. It is hard to detail all the difficulties Christians face in the Soviet Union. When we came to the west many things surprised us.

In the Soviet Union it is very difficult to get a Bible. Bibles are not sold in shops and cannot be purchased anywhere. I have seen Bibles and parts of the Bible written by hand. For me it was a great surprise to see Christian bookshops filled with Bibles and other helpful books. I was surprised especially by the great amount of children's literature available.

Christian young people love to be in fellowship with each other, but in our

children's literature available.

Christian young people love to be in fellowship with each other, but in our country this too is forbidden. It was a remarkable thing for me to come here and see the freedom with which Christian young people can come together. When I see all this freedom I cannot help but compare it with the situation of my friends in the Sovie, Union. It is so very different.

We have heard about your father's release, but how did you and the rest of your family leave Russia?

When we heard on the radio that our father was in America we were very surprised. At first it was difficult to believe, but then we were told we would go to America to live with him. As we began to prepare for this trip, many of our Christian friends came to our house to say goodbye to us. It was very sad because we didn't know if we would see them again. Many secret agents were following us during the last days of our stay in Russia. On the street opposite our house they parked a bus that had no licence plates. Twenty-four hours When we heard on the radio that our father

a day that bus was standing there with people watching our house. When friends left our house they were stopped by the agents and searched. During the final days there was very much pressure on us. When we came to the airport to leave Russia for the flight to New York we were not permitted to board the plane. We did not understand the reason for this delay and change of plan. There was a person from the American embassy who helped us very much. We were only allowed to fly later that evening, via Germany. Later we were told there was a Baptist Congress in Houston, Texas, at which my father was supposed to speek. Evidently the Russian Government did not want my father to appear at that meeting but rather to meet us at the airport in New York. But he did not meet us at the airport. He went to the Congress to speak. a day that bus was standing there with people watching our house. When friends

Were you surprised that your case got such publicity in the west?

Yes, we were very surprised. We knew only a little about this in the Soviet Union.

Will current publicity about yo family have any effect in the Soviet

The more one writes and speaks here in the west about the persecution of Soviet believers, the easier it will be for Christians

Why are we in the west being with are we in the west being asked to write and to publicize problems within the Soviet Union? Why is it not possible for Christians in Russia to protest to their authori-

Our Government does not consider appeals by Russian Christians. For example, Christians may write to Brezhnev about the police breaking up their meetings. But the letters are passed on from his office to but were dismissed from school because they were Christians. In all establishments of higher education there is a mandatory course in atheism and it is necessary to pass an exam in this to graduate. There is a mandatory question on the personal convictions of the student. The question is simply, 'Do you believe in God?' Christians usually fail this exam because of their belief in God. I was studying medicine. Before being dismissed from my studies I was told that medicine and Christianity could not be reconciled. Officially we were never told we were dismissed because of our faith. They always tried to find some other reason. I was told that my dismissal was because I had missed lessons. My father was in hiding at the time and my grandmother was in prison. Because she was sick I had to visit her and that was why I missed many lessons. So this was the official reason for my dismissal. But when I was in personal contact with leaders of my school I was told the real reason for my being dismissed was my faith.

What is the most difficult aspect of being a Christian in a communist country?

It is hard to say which is the most difficult. I believe that the trials the church has to suffer are good in some ways because it helps Christians in their spiritual life. If a Christian is able to overcome the difficulties, his faith will be strengthened. One of our greatest difficulties is not being allowed to evangelize on a wide scale. We are trying to do this but it must be on a small scale because it is still forbidden. When our young people witness to unbelievers in buses and trains there is usually a willingness to receive Christian literature. They are very happy if we can at least give them a gospel of John. But most often we do not have anything to give to these people. So what we would like most is to have both the literature and the freedom to distribute it. And I must add that interest among unbelievers is very

great, especially among young people and students.

You place a great deal of importance on literature. Is it true that some Russian Christians are risking a great deal to print materials clandestinely?

I have here a hymn book. It was printed on an underground press in the Soviet Union. Here is The Bible and Science, a book for unbelievers. This, too, was printed in the Soviet Union. And here is a Christian magazine, Messenger of Truth. It contains articles by Spurgeon, Moody and others. It also contains news about the life of churches in the Soviet Union, poems, photographs of prisoners, and so on. Before we had our printing press we used a kind of spirit duplicator.

Did you bring these books with you when you left Russia?

No, I couldn't bring them with me from the Soviet Union. I got them here in the west. They were brought out secretly.

What kind of Christian literature is most needed?

Children's literature is important. You are very fortunate with the amount you have in the west. I have worked with children and I know how difficult it is without materials to make the lessons more vivid and alive to them.

In Russia, Christian witness is being carried on in conditions of extreme difficulty. In the west it is much easier. Do you think Christians here are using this privilege wisely?

When I came to this Conference and saw

in the Missionary Exhibition how much Christians are doing all over the world, it surprised me. I am very happy that all this is being done. In the Soviet Union we had no idea of the extent of missionary work in the west. Sometimes we heard about it over the radio, and some western visitors told us about their work. This made a very great impression on young Christians in Russia. For example, we heard about the ship Logos that is sailing around the world with Christian literature, and this made a big impression on us.

What about Christian organizations in the west which are working to aid Christians in the Soviet Union. Have they been a help to you?

In the Soviet Union we do not know the names of all the missions. We just knew we had Christian friends in the west. We knew they were sending us Bibles, that they were praying for us, that they wrote us letters and in every way tried to support us. This was very good for us. When we were experiencing hard times, we knew we were not alone.

What do Russian Christians think of those in the west? How do they form their impressions?

In the Soviet Union we know comparatively little of Christian work in the west. But we did have Christians coming to visit us, and telling us about what is going on. Sometimes we formed impressions of western Christians by our contact with these visitors. They were not always good. Perhaps the differences were mainly cultural, but there was much that we could not understand when western believers came to us. We could not understand all they did. Because of language difficulties we cannot really get to know visitors well, and perhaps we sometimes gain a wrong impression because of this.

Do you think that western Christians are too materialistic?

It is difficult for me to say. I have met very many true, spiritual and mature Christians here in the west. But perhaps, because of my circumstances, I have met only with Christians who are deeply committed and who are working to reach the world for Christ.

What can western Christians visiting the Soviet Union do to help?

If they can speak the language, it is possible to talk to people discreetly, even on the street, about God. It is possible for every tourist to take at least one Bible and perhaps a New Testament. There are also gospels available in Russian, together with an explanation of God's plan of salvation.

Can you tell us something of how Christian radio programmes from the west are received and what they mean to the people?

Radio programmes are a great encouragement for us because many Christians are in isolated situations. They come together and listen to these radio programmes and it is a very big help for them. The broadcasts are very good for unbelievers too because sometimes it is impossible for them to meet a believer. I know some people who have become Christians because they heard the gospel on these radio programmes. I will give one example. In one village there were no believers at all. One woman started to listen to the radio broadcasts. She accepted Jesus Christ as a result and was converted. Then she invited her family to listen with her. Later she invited her other relatives. Soon a whole church was founded even though there had never been one preacher in that village. Because of her witness to others about Christ, she was imprisoned for 4

years. Her children were taken from her and put into a special house. This was about 10 years ago, and now all her children are grown up and are Christians! Another miracle was that of a famous hockey player who listened to the radio broadcasts. After one of the broadcasts of Earl Poysti he was converted right there by his radio. There are very many examples like this.

Can you comment on the relationship between the official church and the underground church?

I am a young person and I know that at this age level, relations between the unregistered and the registered churches are very good. We get a lot of literature from abroad, and we print some too. Very often we share such literature with those in the official churches.

Do you feel the state should not involve itself in church affairs?

Yes, Russian Christians do not want to touch political, economic and other questions. The church is a purely religious movement. We want to live only as the Bible tells us and as Christ has commanded us. We believe that the government should not have a say on the life of the church. The church should be separate from the state. We have a scriptural principle to 'render unto Caesar the things which are Caesar's, and to God the things which are God's'.

Do you see a possibility of cooperation with the Orthodox and Roman Catholic Churches?

I have had no contact with Catholic believers in the Soviet Union, but we had some contact with the Orthodox. There is a great spiritual revival in the Orthodox Church. Our Baptist believers have very

many good contacts with Orthodox young people.

To what extent is Alexander Solzhenitsyn known among evangelical Christians in Russia and, if he is known, how is he viewed?

Solzhenitsyn is well-known to everyone in Russia, but it is impossible to read his books. They are not printed in the Soviet Union. If one of his books was found in your house, you would go to prison. Because of this, not many people have read them. But what he writes about our life in Russia is true.

What are you doing right now and what are your future plans?

I am helping my father. He wants to write a book about the life of Christians in the Soviet Union. He needs help, and I help him. I speak some English and he cannot, so when he travels I can help him.

Do you have plans to travel to European churches and encourage people to work for East European Christians?

The main work of my father here in the west will be to do as much as possible for believers in the Soviet Union. This includes providing information about the life and difficulties of Russian Christians. Our whole family will be involved in this as much as possible.

Do you have any hopes of ever returning to Russia?

I would very much like to return to the Soviet Union. I would do that as soon as it becomes possible. And I would add that Christians in the Soviet Union have great hopes for freedom to preach the gospel. We are preparing for this. And we would ask you to pray for this, and even prepare yourselves to travel there and work there if God directs. Who knows? One day it may be possible for missionaries to move there and take residence in the Soviet Union!

Do you really think this will

Humanly speaking, it is impossible. But with God all things are possible. He can accomplish this miracle, and it will need a miracle! But God is already beginning to do the 'impossible' in China. Why not Russia?

What is your advice to Christians in free Europe today? What should we be doing with our freedom?

Use your freedom as much as you can, because you do not know what will happen in the future. Today's possibilities may not last very long, so we should do all we can while we have time.

And the persecution continues . . .

The struggle of Christians in the Soviet Union goes on. Even as Natasha Vins addressed the press conference in Switzerland, Russian police were planning new moves. Some took place before the month ended. . . .

January 5—The houses of 7 Baptist believers in the Ukrainian city of Tchernovitsy were searched by police looking for Christian literature. Several arrests were made, including Michael Kushnir (42), Vladimir Kostenyuk (51) and Victor Kostenyuk (45). What they are accused of and where they were taken is unknown.

January 13—Pastor Dmitri Vasilievich Minyakov's wife was seriously ill when KGB agents raided their home. To avoid arrest Dmitri was forced to escape and has since continued his ministry in secret. (On February 18, Dmitri's wife died. Because of the danger of arrest, he could not attend the funeral. Later he appeared at her graveside, knelt briefly and prayed... then escaped again.)

January 19—Staff workers of the Christian publishing house were arrested at 8 a.m. while working in Starlye Kazaki, a village of the Ukraine. They are Sergei Bublik (23), Liubov Kosachevich (28), Tamara Buistrova (31) and Galina Yudintseva (32).

Later, in the village of Kaducky, the homes of Paul Belokon, Jacob Zoplava and Anna Zoplava were raided. Materials confiscated included a printing press, paper cutter, printing supplies and Christian literature. In spite of the confiscation of this press and the arrest of workers, another press continues to operate.

January 27—Vladimir Shelkov died in Tabaga, a strict regime labour camp near Yakutsk. The 84-year-old Christian leader from Tashkent had spent 23 years of his life in labour camps. Natasha's father, Georgi Vins, comments:

I am well acquainted with conditions in this camp, having spent the last 4 years of my imprisonment there. The camp is specially controlled by the KGB, and the administration is experienced in the battle with religious activists in conditions of imprisonment.

January 28—Pastor Mikhail Khorev (49) of Kishinev, Moldavia, was arrested in Leningrad. This was his third arrest having already served 5½ years in prisons and camps for his faith in Ood. His wife Vera later appealed for the assistance of a Christian lawyer from abroad because of the impossibility of obtaining sympathetic legal representation in the Soviet Union.

Romanian Romance Bears Fruit! POREIGN STUDENTS (FF FRUIT) TO CARRY ON WITHIRSHIM WITHIN THE COUNTRY!

From Simon & Maria; Europe:

Prom Simon & Maria; Europe:

Dear Dad & Maria;

GBY: MUY SO MUCH! ME ARE,

SO THANKFUL FOR YOU & the
revelations God gives you,
truly inspiration for our
souls & light unto our feet.

I JUST GOT BACK FROM

ROMANIA a few days ago, &
it is really like the valley of the shadow of death
there. Yet, it has strengthened & renewed our faith
like never before, as we
feel that God has opened
great doors for us. We had
more fruit than in Russia, &
in fact feel that this
country's System is worse &
more corrupt than Russia,
& the people more dissatisfied & desperate.

MARIA & I & 2 KIDS ENTERED ROMANIA FROM RUSSIA on
July 7th in our van & arrived in Bucharest the following evening, as we slept the
first night just inside the
Romanian border. We did not
need to follow any itinerar,

AND A LEGIO DE TORMA

like we had to in Russia, but simply needed to change \$10 a day per person. They did not search us a bit croling the border, as coming from Russia they knew how thoroughly we had been searched upon leaving.

SO AT ROHANIA'S BORDER THEY SIMPLY CHANGED HONEY FOR US 6 gave us our visas for a few dollars more 6 waved us thru. I also bought gas coupons which you must buy with foreign currency, 6 the price was again high like in the West. I wish I had filled up my tank and reserve containers in Russia where gas was I/4 the price.

PASSING THEU SOME TOWNS TOWNS TOWNS TOWNS THE CAPITAL, we were amazed to see long lines of up to 200 people waiting to buy meat, queues that we had never seen in Russia, or at least not nearly that long. But queues proved to

But they were fed up with the hypocritical religious system, especially under the influence & pressures presented by this corrupt communist educational system of the provided of the communist educational system of the provided of the pr

50 WHEN WE GAYE A BIBLE IN ROMANIAN TO THIS GIRL, she was just in awe as if she had the Dead Sea scrolls themselves. Rosi also brought the students. The Romanian girl then went to Costantsa with us for 2 days & helped us witness to some other Romanians of whom 3 boys got saved, & we gave them a Bible too.

50 ME WERE IN ROMANIA FOR ONLY 10 DAYS, & so much happened, We promised that we would come back, which we did, or rather I did(Simon), as circumstances allowed only me to return for 6 days.

ANYMAY, FROM ROMANIA WE PASSED THRU BULGARIA, stopping overnight at the home of a man we had met in the West, & we brought him a

of a man we had met in the West, & we brought him a Bulgarian New Testament Which Harris had hid in her

underwear to get thru that border. Bulgaria seemed more together & cleaner than Romania & food was more in abundance & easier to get & people more satisfied with themselves.

I WAS GOING TO WRITE RIGHT AWAY ABOUT ROMANIA but decided to go there again & visit these people & see what progress they've made & then write about it.

MELL, NOM IVE JUST COME PACK IFON THERE ACAIN & things are even better than before. This time I also visited the second biggest city, Timisoara, which we weren't able to visit before, as it is 600 km. to the West of Bucharest. It is, however, not too far from our present location.

IN TIMISOARA I MET OUR FRIEND IROH ZAIRE who has been there for 5 years studying 6 has 2 more to go. This man had visited

us in Italy twice. The 2nd time he had left as a changed man, yet we didn't realise the impact of what had really happened to him since then.

ONE DAY HE LEFT HIS KEYS IN HIS ROOM, & so he was attempting to climb in from his neighbon's window on the 5th floor. Well) he fell from the 5th floor onto the ground & was horribly paralised with a broken back & two broken legs, & the doctors said that he would never walk again.

ATTER 9 MONTHS IN BED WITHOUT ANY PROGRESS, some friends came to him & asked if he had prayed for healing, & he replied that he hadn't. So they prayed & he was healed! Hallelujah!

Now he has given his life to the Lord & has been a tremendous testimony, as many of the students in Romania heard about him. He walks around now with the glory of the Lord on his face & you can't see a trace or limp from all that was broken in him except his broken heart for the sheep as a shepherd!

HE & 3 OTHER BLACK STUDENTS MEET EVERY SUNDAY TO PRAY TOGSTHER & READ THE BIBLE. Then during the week they each go visiting individually over 50 different Romanians, organised so as to avoid the semblance of meetings. He made me cry as he told me that the people just don't know anything about the Bible & how they are so hungry for him to talk to them. He has read many of our books which we had given him in French, & he said they need these in Romanian, & he went on to say that a friend of his was final typing our "Real Love" books the winh e and others had translated already.

HE & SAID A FEW TIME ""

sweet couple who have 3 children & how the mother was a teacher at a high school & suddenly felt the calling from the Lord to tell the authorities that she was going to start teaching about God or she wasn't going to teach. They told her not to do it, but she did & they fired her & she cannot get any other work. Her husband did the same thing & got fired & blacklisted, & so for the past year they have survived on what little others were able to give them, while they continued to talk about God to the people.

HE WENT ON TO TELL HE. THAT JUST RECENTLY THE HUSBAND DISAPPEARED & no one knows where he is, & you know what that could mean. The wife is trusting the Lord, he said, & all the community is praying for him, hoping he is still alive. He asked if we could help them, & I gave him my last \$50 & promised to provision some clothes for the children in the West.

MENN I COT TO BUCHAREST. I visited the Romanian girl, Cristian, & She had faithfully read the whole New Testament & had studied it, underlining & memorising it & really treating it like the sacred book that it is. I smuggled in a French "Thoughts from Mo" for he which she had read most of by the time I left a few days later. She said she would translate it all as soon as possible.

II IS SO REFRESHING COM-ING FROM THE MEST to see such hungry people who cling to every little word' & cry for more! She said she wants to work forever with us & for the Lord. It's impossible for her to leave Romania except if she gets warried to a foreigner.

There is possibly a brother who will help her out, who can marry her legally so

she can assume his nationality & leave the country.

HER MOTHER CONFIDED IN ME
THAT THEY WOULD BE HAPPY FOR
HER TO MARRY A FOREIGNER SO
that she could go out of
the country & have a new
life & possibly be able to
help their family, as a little Fit goes a long way
there. Their life is a constant struggle to survive.
For example, to support
their family of u daughters,
the father works his official & hours at the office
job & then comes home to
work another 6-8 hours on
the side fixing & cleaning
watches.

THE MOTHER ALSO LEAVES
THE HOUSE AT 5 A.H. to get
a place in the shopping
lines where she spends an
average of 3 hours buying
their daily food. The effect
this has on the people is
that after worrying about
their basic needs they are
too tired to think about
anything else.

THE GHANIAN STUDENTS WERE
HAPPY TO SEE HE & were expecting me. One of them was
able to come back to the
West with me to attend a
DAF meeting. They all wanted
to come, but they had exams
which they needed to pass
to stay in the country. The
student from Zaire who fell
out of the window said he
would be able to meet us a
little later.

THE THOUGHT OF THESE BLACK
STUDENTS BEING MISSIONARIES.

an encouraging reversal. Ne

From Uriah, Greek VS:
INSPIRED BY DAD'S
DREAM & consequent letter,
"The HMS MWM" & his suggestion that it would be good to
a video, Paul & Marianne asked
if we could find a real ship for
the setting...and so here is a
testimony of how the Lord
supplied above & beyond all
our expectations, & then led us
to this special ship!
THE LORD LED US TO
TRY ONE OF THE REGULAR
TOURIST SHIP LINES, which
have one-day cruises going to
different beautiful Greek
islands. At a travel agent's office
the pretty agent recommended
one particular ship as being the
best of its class, so Uriah called
& asked to speak to the manager.

Wowl GBH! He treated us just
like VIP's! TYJ! In fact, everyone we dealt with turned out to
be very helpful & considerate,
GBT!

THE NEXT THING WAS TO
GO & TO ACTUALLY SEE
THE SHIP & what a pleasant
surprise as it definitely was the
best of all the ships making this
trip, visiting 3 islands & then
returning the same day.

TO OUR SUPPRISE WHEN
WE ARRIVED AT THE TIME
THE SHIP SHOULD BE RETURNING, what did we see
but the remains of a film crew,
putting away their equipment—
trucks full of cameras, lighting
equipment, wires, etc. It turns
out they had been filming a
movie with Telly Savalis, the
famous star of "Kojak", for
the whole day—so PTL—they
definitely were prepared for
lots of unusual things & activities which always accompany

CHIEF STEWARD who would
be in charge of all activities on

he turned out to be an angel,
really taking special care of us
& even putting us in special
dining quarters, giving us cabins
for changing & storing stuff,
etc. And in fact, all the crew
turned out to be equally helpful
& friendly!

WHEN WE ACTUALLY GOT
ON BOARD & got to know the
captain, he turned out to be
extremely sympathetic & helpful, (and grateful for a couple
of the Lord's lovelies to talk
with—see photo), & he put up
with all our antics, including
blacking out his command
room & soaking the outside
with a "storm".

WE LEARNED FROM HIM THAT THIS SHIP HAS BEEN USED FOR SEVERAL YEARS as the scene of a regular TV series, & a couple of feature movies & he himself had been used for some scenes! So, it is quite a well-known ship here! Hal Now it will "sail" around the world via video!

It will "sail" around the world via videol
THEY ALSO GAVE US INSTANT APPROVAL FOR 15
MORE FREE TICKETS to use the ship again two days later to finish some scenes & even again for another crew of 10 for yet another day, who would get off at one of the islands, stay overnight, and get back on the ship the next day, something they never do! GBT! All these tickets together would have cost almost \$2,500-something we could never have afforded, so TTL for His inspiration & guidance—truly where He guides He provides!

Miracle Boxes!

340 kgs. of lit & WW products for MWM!

From Uriah, Greek VS:

WE WANT TO RELATE A

HUGE MIRACLE of God's provision where MWM recently received two huge boxes of oldstock printed material including WW products from GLP in
Hong Kong-a total of 340
kilos-for use in sending out to
MWM Club Members.

AS ANYONE WHO HAS

EVER RECEIVED ANYTHING
FROM THE OUTSIDE-WORLD
INTO GREECE KNOWS, besides the bureaucratic hassle,
it's both a time & money consuming process.

THE SHIPPING COMPANY
DID NOT SEND AN IMMEDIATE NOTICE OF ARRIVAL
of the boxes, so that when we
finally went to get them, they
had been there for over 3

months! In the meantime, one
of the brothers had received a

one kilo sample mailing of the
same items from GLP & had to
pey 300 dracs (about \$6) tax
to get it from the Customs
Post Office.

ON TOP OF ALL THIS, AT
THERE THERE MAG A

pey 300 dracs (about \$6) tex to get it from the Customs Post Office.

ON TOP OF ALL THIS, AT THIS TIME THERE WAS A 20-DAY PORT STRIKE so there was a huge backlog of work & a mountain of goods & long lines of agents waiting to get their valuable cargos out, not to mention that there were only 2 official customs inspectors there & their patience, about as thin as a piece of paper. But it takes situations like this for Him to do miracles, so we knew it had to be just that & all His doing!

AFTER MUCH PRAYER was

knew it had to be just that a lil his doing!

AFTER MUCH PRAYER, we (little Andrew, 5, & myself, Urish) began the procedures. First off it took quite a search just to find the boxes & then began the "run around" which is quite a comedy if one has a sense of humor, & lines of time, yelling, shout-

Urish & Andrew (5) next to the huge boxes of lit the Lord helped them get out of customs!

crise a Andrew (5) next to the huge boxes of ill the Lord helped them get out of customil everywhere! The first morning we managed to get about half-way through the procedures, getting the basic signatures, etc., with the help of sympathetic agents & officials to the plight of this poor foreigner & his little boy, giving us tips & directions through the 7 or 8 different offices.

NEXT DAY WE GOT OFF & just a few minutes before we arrived the van broke down. Obviously the enemy wanted to discourage us, but it later turned out to be a blessing in disguise! So with the help of a kind shop owner, we parked the van & off we went on foot—a man, a boy, & a guitar!

THIS DAY WE GOT LOTS
OF AMUSED LOOKS & SMILES—these Don Quixotes—a man, a boy, & his guitar—perhaps the first time they ever saw such a thing there—but fortunately, the Greeks in general really love to see some one doing something crazy & different & they really helped us along through this new series of offices, stemps, signature, etc.

Flext Day & C.

MAN PASSED BY US & our box & took one of the mini booklets, "Change the World", & asked if that was all there was in the boxes, & then took the sample away. Sometime later, another man came to me & said he had shown it to the director, & given it back to the customs officer & that we should take any other different samples & go into his office, that everything was OKI SO I PICKED OUT 3 OTHER DIFFERENT BOOKLETS & COMICS & stood before the officer as he looked into the taxing tables & came up with a category—"Atelos"—Greek meaning "Without Duty"! Wowl—What a thrill!!! praised the Lord Inwardly as he signed the papers & then he said to go to the director again for his final approval. As the director signed the paper, he said, "Is it really 340 kilos?" as if he might have had second thoughts, but did not ask anything more! AFTER A FEW MORE FINAL SIGNATURES & STAMPS the boxes were free, & little Andrew sang for all the labourers in the store room, then we sealed up the boxes. BY THIS TIME, THE BROTHER WHOM I HAD PHONED for help because of my broken van arrived, & the boxes fit perfectly in his van, whereas they would not have fit in mine. PTLI AND THE REPAIR SHOP before they closed—a happy

VAN TO THE REPAIR SHOP before they closed—a happy ending to it all! "And this is the confidence that we have in Him, that, if we ask anything according to His Will, He heareth us: & If we know that he hear us, whatsoever we ask, we know that we have the petitions that we desired of Him".

We spent the last months in France working on support, finishing our beautiful slide show with the Family flannelgraphs, & litnessing & cafe singing.

BEING IN A CARAVAN MADE ALL THIS SO MUCH EASIER, economical & pleasant. By the way, we had borrowed \$2,000 from Matthieu's perents by faith to buy the caravan two years ago, & month later his grandmother died leaving him an inheritance of exactly \$2,200, enough to pay our wash & & 100! Now God

ME MIRACULOUSLY MET THE BRETHREN IN OUR NEW COUNTRY & were surprised to find that there were 50-50 adults with about 30 children in the capital city. Our flight was on June 7, & we were so inspired to arrive & see the brethren fellowshipping & really getting it together.

After living there for 2

Family had gotten our note

were really surprised to
see how the Lord provided

a place for us. The church people had also offered us a couple of teaching jobs which helped us get started. NOW WE ARE IN OUR THIRD MONTH HERE & have left our first house & moved together with the Family-s couple & their 2 children. After living alone for 2 years in the U.S. we really missed the close fellowship & inspiration of living with another family, so we teamed up with each other.

THE TWO HUSBANDS TEACH ENGLISH to the rich upper class, both teenagers & adults, & have several sheep among their students. André also tutors some of his young students in math.

WE HAVE ALSO FORMED A SING-ING GROUP OF OUR CHILDREN who sing several songs in Spanish that they learned from Singing Sam's "Amor"

tape. They sang at a park on Saturday, & just recently they sang at a peanut butter factory & were given 10 kilos of peanut butter!

ME HOPE THIS TESTIMONY INSPIRED OTHER FAMILIES in the U.S. & Europe to make the break & come to the sunny climes & happy people. Where God guides He provides! Also, any families wishing to come & help us reap the lost souls here please write us for more information. care of the LIH, & we'll be glad to answer any letters. OH. I FORGOT TO HENTION THAT ANDRE TEACHES THE MIFF OF THIS COUNTRY'S ERST MOVIF PIRETOR, & he is also the director of the night-time news on T.V. So if MCV comes out with a Spanish video we might be able to get it on the T.V. here.

Guam has 5 military bases

A light that all the world might see?
But, oh, how dim without unity!
The world's last chance? The Lord's new
Sometimes, like Eve we try to hide.
Because we've falled and disobeyed,
With other lovers sometimes we've layed!
Forsake the work for little spats!
The Devil laughs, the work falls flat!

The Enemy, he knows very well That if we'd <u>unite</u>, the gates of hell Could never stand! He'd be destroyed, Regretting that with God's work he toyed!

Dad, we sure need this revolution! Can fellowship be the solution? -A fellowship not only <u>one</u> day, But a true bond of friendship, loving <u>always!</u> And letting the fruits of the Spirit rule, His love, joy, peace & longsuffering too! For we've come to the Kingdom for a time such as this!

God's blessings will flow as we work together, To fight thru the storms or any bad weather That souls may be saved, a world may be changed, And so from each other we can't be estranged!

For only by pride cometh contention! Pride, the word we don't like to mention! You know, the Lord is counting on us, There's no one else in the World He can trust! It's not so hard to be loving & kind When the Lord is so patient & doesn't remind Us of our shortcomings, failures & faults, But He has mercy when we don't do as we ought!

A Fellowship Revolution? We need it for surel To rebuild our wells so that we'll endure!

-That when Jesus comes He will find us united And trust us to rule the new worlds that He's sited!

So if together the victory we've won
Together we'll shout greeting God's Soni

BORDER BASES & RECEPTION HOMES! -- For the Exodus! -- By Father David DF01046 6/9/8

BORDER BASES & RECEPTION HOMES!--For the Exodus!--By Father David

DF01046 6/9/B)

-(Condenseation by Pathoxy.)

LHAYE A BUNDEN FOR THESE BORDER BASES & RECEPTION HOMES RIGHT NOW, when we have thousands of people going South. I think that they're desperately needed! We needed them yesterday, last week, last year a! I think that they'de a great help & great blessing to solve a lot of the problems, even to get people scattered out! This is getting to be our Third Great Escape so we really do need to revive some of those Border Bases. I think we've gotten to the point now where that sort of thing, especially in South America & the Pacific, S.E. Asia & Indonesia is going to be really necessary, especially in some of those countries where they're really getting over-crowded. I think that would be a real blessing & great help to our missionaries a help keep you from wasting a lot of money, &! believes it'd practically pay for itself.

LREAD AM I THESE STORIES ABOUT THEM GOING & CONTING & THAT'S CHE OF THE MAJOR PROBLEMS—just a place be land & get ind of ne-grouped & recover from their jet-lags make their travel plans of where to go next, & they don't always know till they get there & talk to the local missionaries i people with the experience & find out from the local councils what the scores are etc.

MEST INTENT HOW THOUGH THE LOOD'S MAKEY ME COULD SAVE instead of paying \$30 ady to the Hilton or Holiday Inn. We could let them have room & board for \$5 a day for singles, \$10 for couples & \$2.00-25 for families depending on the size of the family. A that would probably be enough to pay the rent, & good Christian fellowship with Christians who know the language, know the area, know the problems & know all about it & can arrange transportation & visas \$11 the rest. I think we ought to make an appeal in the Megazine for people who are willing to volunteer either information or their services or their Homes.

IT'S A REAL GRUINE HERD & ME'RE EVEN TOO LATE, BUT THERE ARE HEARLY SOO HOMES IN THE USA & 700 IR LURGOF that are

nt while others are there.

SAY ISAN THE SMARTEST THING WOULD BE TO GET SOME BIG OLD HOUSE SOMEWHERE OUT MEAN THE ALBhere it's not a big problem to go out a pick them up a take them home. It doesn't have to
reconsulates of other countries a some business.

NOW GOOD JUMPING OFF PLACES, LAUNCH PADS FOR MISSIONARIES FROM THE STATES WHERE THERE ARE SO MANY TIT 10 50 would be los Angeles, El Paso, San Antonio à Laredo for Mexico à Central America; Flami for flights to South America makes a good Border Base for people flying; New Orleans for for people going by boat à is the largest port of the Caribbean; New York because of those cheap fights to Fuerto Rico à also all over the Caribbean. Seattle is the main jumping off place for

Border Base is to try to locate equipment for missionaries & accumulate it there for them.
OF COURSE SEATTLE SAN FRANCISCO & LOS ANGELES ARE PARTICULARLY GOOD BORDER BASES FOR THE
RETAIN & PARTIFIE to go to Japan, Philippines, lawan, Hong Kong, Singapore, even Australia or to
Rislands because they have more flights & boats to nearly all those places. So in all those major
ports around the edge of the U.S. we could have Homes there volunteering to act as Border Bases.

ISLANDS because they have more flights & boats to nearly \$11 those places. So in all those major ports around the edge of the U.S. we could have Homes there volunteering to act as Border Bases.

1'D LIKE TO MAYBE SEF PEOPLY MY ARE ALREADY THERE RIGHT NOW IN THOSE AREAS VOLUNTERS TO DEEN UP THEIR HOMES AS IGNORE BASES. If you would be willing to do so, we, WS, would use part of our missionary funds to help you. Make you a donation every month of so much, maybe gending on the size of your operation & how much traffic you might have to handle, anywhere from 500 to do it or not able to do it.

MAYBE THE LOCAL AREA FELLOWSHIP COULD GET TOGETHER IN THESE BORDER CITIES & HELP MAKE THE DECISION. And if all things were equal & seemed to point toward the fact that you've got the right kind of place & can offer the right kind of services & are the kind of people who can handle it & can do a good job of it, you could write us a proposed budget of what you think it will cost & how much of it you can raise for yourselves in provisioning or litnessing & the Sew Supporters, & also from the income from the passing missionaries themselves & how much more you would need from us. At least as an encouragement to help you get started maybe we can give some of you a ploneer gift to help you rent a bigger house.

MAYBE THEXTICO & CINTRA APRICA, THE BORDER BASES COULD ALSO SERVE AS RECEPTION HOMES because they're right on the border & they'd have all the information. I would say perhaps in each of the major capitals of the major South American countries would be a good place to have a Busins, Missionaries the serve people who want to go to the Gulanes. One in Bogots for Colombic, one in Guayacquil for Ecuador & of course Lima, Peru. Also Valparaiso, Busins Aires, Montevideo & Rio. We should have Homes in each of those places that are big enough to take in landing missionaries & get'm started on their way into the interior out of that town.

I MOULDN'T ADVISE ANYBODY TO DRIVE THROUGH CENTRAL APERICA. SERVE PERVOLUTION As the interior ou

Mexico's a Dig country & it's got a lot of people & they can still spread out.

MEY'VE GOT LITERALLY THOUSANDS OF PEOPLE GOING TO LATIM AMERICA & WHIRE THE HELL ARE THEY GOING TO GOT OF THE ARE THEY GOING TO GOT OF THE AREA OF THEY GOING TO GOT OF THE AREA O

MOST PEOPLE WRITING FROM SOUTH AMERICA SAY THAT YOU SHOULD HAVE AT LEAST \$1500 TO \$2000 LAND-ING MOREY, at least enough to go out a rent a house a pay your first few months rent a for enough food to live on until you get started a your prayer letters get circulating, we hope, a your money continues to come we hope from the States, which it should! I don't think we should depend on those countries down there to support us. I don't think we should look to South Amer-icat to new us a living.

your money continues to come we hope from the States, which it should: I don't think we should doek to South America to one us a living:

"IF IT CMES TO A CHOICE OF LEAVING THE U.S. OR NOT LEAVING IT AT ALL if we don't have Home Support, what should we do?"—for God's sake, if that's all the faith you've got & all that God has blessed you with is nothing, then you are nothing & you dught to stay home; hery'll certainly never survive on the field! If they can't raise it in the rich U.S. how the Hell are they ever going to raise it on the poor field? If you haven't that much faith or you can't inspire that much confidence in your own people whose language you can speak & who have lots of money, how in the hell are you going to go out to the peons in some poor Latin American outhern Hemisphere country & expect them to support you? It's better for a soldier never to have left home than to go out & be defeated!

MAYME THEY OUGHI TO MAYE THE RECEPTION HOMES CHECK ON THEIR MONTHLY PLEDGES WHEN THEY GET HERE, Say, "OK, let's see your monthly pladges. Let's see your pladged support Othernise we're not going to find a field for you--we're going to put you back on your round-trip ticket home."

The Reception Homes haven't got the authority to force'm to go back; But they can kick'm out & on

the image, at least get me out of town & out of that major arrival city where we've already got too many people.

DO YOU MART TO KNOM WHAT SOME OF OUR PEOPLE HAVE DONE? THEY'VE PUT ADS IN THE NEWSPAPERS asking help from perfect strangers for going to the mission field. How would you like to help support us? And they've gotten offers of hundreds of dollars from people just reading the Want Ads --from people with money who want to help people but they don't know how or what. Some of your folks back in the States & Europe ought to try that:

1 DON'T APPROVE OF ANYBOY LEAVING THE NORTH TO GO SOUTH UNLESS YOU'VE GOT YOUR FULL FARE witch is either rounds-trip por on-going & you've got plenty of money to land with to get into the field & to live for at least three months cash with you!--hot just pledges but cash with you because it may take three months for your first mail to reach you from the States on for the people to remember they made a pledge! That 'il give you three months to start getting out prayer letters back home to remind them of their pledges.

a hotel, if you don't, you're running your own risk as to whether they have room for you or not.

If THE VS's, NAS's A THE RMS's, the Reception Home Servants, could be combined all together,

we could triple their support commensurate with the tripling of the job responsibility! He could

rol it into one A combine it is give them almost full support since they will be spending vir
tually their full time at the job. I think it could be done if they have qualified personnel to

run the Nome while the Supervisor is gone.

THE YS MOUID NAYE TO BE TWO COUPLES TAKING TURNS, one travelling while the other couple stays

at Nome operating the office in their absence, taking care of correspondence & phone calls etc.

A DIN'T SEE MICH DIFFERENCE BETWEEN A VS & A MAS. I suggest to the Family that the VSs should

be considered as possible candidates in their election of the NAS since he will have a very im
portant high-level job & should be experienced & trustwerthy A if possible have our approval.

To test an egg for freshness, put it in a pan of hot water. If fresh, the egg will sink. And never buy cracked eggs; they can contain bacteria that will cause food poisoning.

Experts do not recommend stor-ing eggs in the special tray provided on many refrigerator doors. Frequent opening and closing exposes the eggs to air. This hastens the loss of carbon dioxide, which increases the air cells in the shell that

Store eggs, large end up, in the carton in which they were bought, on the bottom or coldest shelf of the refrigerator. Eggs kept at room temperature lose more quality in day than they do in a week in the refrigerator.

M&M MAIL! *Act say a to ene of the kings**(No. 238:12)

(Because 9-year-old Armendria, daughter of Jeremlah & Priscilla, has such unusual singing wient, she was asked to join MWMI, & here is her parents' response:)

CHEERFUL GIVERS! (CB'M!)

Dearest Dad & Maria,
GBY! ILIY! Here's my reaction & feelings concerning your suggestion that our oldest daughter, Armendria, leave us here & go to work full-time with our MMI Unit! First, I'd like to thank you for so sweetly & considerately asking us our opinion even though you probably oglready knew what our answer would be.
Galway, here it is for the record - YES! Of course! What an honour & privilege! After all, that's what it's all about anyway & the reason why the Lord gave her to us in the first place!
Of course I must be honest & admit that I'm going to really miss her & that it's a real sacrifice, but on the other hand, it's the ultimate fulfillment of my deepest heart's desire for her. What a blessing it is & real satisfaction to see our children used in such an important far-reaching ministry! It's the real pay-off & ultimate satisfaction as you've always said in the Letters as well as by your own example with your own personal family & children. I believe with all my heart that our children are our greatest sample & witness & the real proof that what we have is real! Our kids are going to out-shine was all & it's so satisfying to see our aministry continue & soar to heights unknown through them! I also believe that soo in His mercy gave them to us because He knew that they would also be such an encouragement to us, being the fruit of our labours.

It's not really a sacrifice at all to give them up for His Service in view of

the returning blessings! I'd much rather see Army on stage anyday than my old mug because it's now her hour & she shines so much more brightly when she's on stage than I do!

So. In reaction to your request that we send her back to be used full-time, I must say, I feel a bit like Mary, the mother of Jesus, must have felt when it was announced to her, "Hail, thou art highly favoured, the Lord is with thee: blessed art thou among women. & blessed is the fruit of thy womb" (Lk. 1:28 & 42). Dad, I feel highly favoured & blessed among men by receiving such an honourable request from the King, giving us such an opportunity to be used & fulfilled via our precious daughter, Armendria. We allways felt that the Lord had only committed her care to us on loan & as a stewardship so therefore, we gladly & cheerfully give her back to Him & His Service. It hurts a little bit but it's a sweet hurt & II will not give unto the Lord of that which costs me nothing". but, as you said, "I've never made a sacrifice" that didn't eventually turn into a blessing received. Thanks!

I SAID. "REMMERE, ILMDA_YOURE FREE NOW!" It must be symbolic of the way we've set the youth free a that apparently there are still some even in the States who are in bondage to the System, who still need to be freed. It was as though the Lord has stopped us at that particular point on the highway to liberate someone who needed our help.

MHY I CAME OUT OF THE BATHROOM MAKED, I DON'T KNOW, UNLESS THAT MAS TO SHOW THAT I M'S TOTALLY FREE. Nudity is a sign of total freedom from the bondage & convention of clothing. It perhaps was symbolic to show her that I was freed she could be free. We had set her free & she shappy now, liberated in the Lord & really didn't need us anymore. Once we have preached the message & freed the captives of that area we're to go on & free others too. The U.S. is a reaped field & now they're just gleaning & that was symbolic also in the dream, just this one girl that we stopped a liberated was worth it all:

DON'T GET DISCOURAGED IF YOU HAVE NOT BEEN ABLE TO LEAVE. It must be that you're staying there try to glean the last little bits of the harvest. So take heart & be encouraged that your labours of love are not in vain. Just keep your eyes on the Lord & keep praying & doing your best to try to win the Few that are still left who are still responsive & still need help:

MAYBE YOU'RE ON YOUR MAY OUT! We were on our way South, maybe we were on our way down South to Mexico as you should be on your way out. It's not far, you can go if you pray & sak odd to give you the faith & the funds & he Lord can help you go further where you can be of greater help to others.

I cannot express how honoured I feel to receive a request from our King & Queen!

I know your sample to us, Dad, of letting Faithy go so many times & sending her to different countries to serve the Lord has prepared us for what to expect with our own children. We pray she will be a blessing to everyone there. We have such a wonderful Family & I know without a doubt she will be well cared for. I feel fulfilled myself knowing that she is helping in an important ministry that you are so concerned about. I am also excited to hear she will be with Mene as they have always been so close & help each other for the good. Also, heidi Spencer is a really good sample & big sister for them.

I feel so loved by you, Dad, & feel so close to you as you have helped us all get back to full-time service & full-time loving the Lord & obeying His Will in our lives. Since all the Prodigals returning I have never been so happy in the Family, as everyone seems so aware of their backslidings that they are now even more loving, work harder, & appreciate each other more!

I really am happy, Dad, that you are so concerned for our feeling toward your request & want everyone to be happy! Well, I whole-heartedly agree! She is the Lord's & she belongs to this Family it's her only one & mine too! Hank you, Dad & Maria for loving us so much!

"Love loves the unlovely & casts a veil over countless sins!" (151:52).

I am still very disappointed with the Family who has used me financially & then left me out in the cold without love! Of course I have been reading all the latest Letters & Mags because you know that "money talks"!

Please don't bother to answer my letter, Keren, because I want to hear directly from Dad why the Family does not live the Letters in love & compassion for others as he has written them, & why they are only interested in what they can get from their so-called "friends". I have been sick & the Drs. say I have tuberculosis. God is, of course, judging me for my sins. I have backslidden so far & am living the life of leisure & taking drugs & drinking. I have been so hurt by the Family that I cannot believe in love any longer! Thank you for placing that Ad in the Mag sometime ago, I know that you & He do care & only Dad & the Lord can answer my question. - David McCollum, USA

(We're sorry the Family has not lived up to your expeciations, but don't blame God! Backsliding & marmuring are our own sins!)

RETURNING TO THE BOSOM OF DAVID

Dearest Dad & Maria,
Greetings to you both in Jesus' name!
It has been some time since I've written
to you & so much has happened. I'm in
England now at Sally's parents home.
We've come here for the birth of our
baby..boy, 7 lbs. & 15 oz...named Michael
Anthony. This' makes my 5th child &
Sally's second.
We will be going back to France soon
& Music Magique in France has kept me
busy for the pa t month working on
French lyrics to about 9 of my songs..
It has been a r al blessing to be in
"Village d'Amour" with the Family there
as I was in such desperate need of a
positive sample of love. I've got such
a long way to go, but it is encouraging
when there are others who are there to
share your victories with & theirs with
you.

when there are others who are there to share your victories with & theirs with you.

Through the sample of the brethren & the many Letters you've written, I'm more convicted every day about my own slidden spiritual life... & am inspired & thankful for those who live for love & are giving all for a sample of Jesus' own life!

I do love & appreciate you & your spirit! This is what kept me all my years in the Family & in service to the Lord - & I think that's what got me out of it too!-When I ceased to touch & acknowledge your spirit & presence. It's the reason we all are here serving the Lord together. Thanks, Dad, for caring for us when no one else did! I'm learning more every day & only hope I'm making some progress..My life's a mess, which is the work of my own hands but my heart is beginning to dawn with a new hope & light that has come through your Mords & love & concern. Thank you so much! You'll never know what you've done for me!

Your Son, Jonas - Europe (TTL!)

Dearest Dad & Maria & Team,
GIJPN & GBY! We have to say thank you again for all your love & concern for each of us, your children, & for all the wonderful care you give us. Surely no Father has been so faithful in all his house as you have been to us, feeding us in every way possible! I can't begin to tell you what a blessing it has been to have closer fellow-

whip with Family members..it's been real difficult to have a real FF, as whenever we try to, there are always unexpected friends who show up, & Y., ay fish-mate, doesn't necessarily appreciate our reading the Bible or Letters here together.

Upon many different occasions we have had visits from different brothers & sisters in the past 2 years since I've been living with Y. & 2 of the 3 children of Jonas & I. Many times different ones would question my being here. But the other night, talking with S., it seemed it was really the Lord speaking to me. Y. was upset & Jealous that I was even talking to him although we were in the room next to where he was & the door was open & we weren't sitting anywhere near each other.

* * * * * * * *

It's now the next day. I was able to begin listening to the Garden of Eden tapes & your voice, Oh, how beautiful! It was like the voice of the Lord speaking through you, calling me.

What a miracle it was the other night, as while talking with S. the Lord gave me the faith to leave Y..so now I'm not even writing to say I need advice, but to say how thankful I am for the Lord's Servants who are faithful to give His Mord, as each one who has come from Greece & even in the FN, we read of how we are all prodigals & backslidden & in need of wholehearted repentance & we can't wait until we feel like we have the faith to do His Will.

I just want to tell you thank you. I've felt so strong that someone is praying for me, or perhaps many someones. There are so many ways the Lord has to speak to us - through His Mord, the Letters, the testimonies in the FN, different songs from MMM, testimonies from different brethren we are in contact with, your tapes, the Family Care tapes, etc. etc.! And I guess it takes a little bit of all of it to give us the brain & heart washing that we need. It's so worth it all to have all that you've given us & I really pray I'll not disappoint you & the Lord... Your voice, so beautiful on the tapes, so much like the voice of Jesus speaking to me, is callingme. So

"FELLOWSHIP REVOLUTION"

Dear Dad & Maria,

Dear Dad & Maria,

The "Fellowship Revolution" has cooled down here since it first began & I so very much want to see the Family living the FR here in real unity & sharing. Finances are a great problem in Central America where many things have been left undone due to tight funds. You see, most disciples have only been trained to litness for funds which are not so plentiful this way here. I am personally making friends in S. Mexico for financial help & also seeking support from better-off Homes.

Till this way here. I am personally making friends in S. Mexico for financial help & also seeking support from better-off Homes.

The people are very sheepy here & we get 30 to 40 souls each time we go litnessing! However, the Government is very suspicious of Christian movements being the front for guerrilla movements.

I wanted to ask you to please instruct the VSs to listen to the locals of the places they visit as recently a VS who came through here was asked not to use the word "rev." in a song, but this advice was just laughed off! Later, a house right in front of where he had parked was totally gunned down & destroyed for their terrorist activities & rumors even had it that some of us were killed there too!

While I was in the hospital for asthma recently I had really been listening to the Lord & realised that our indoctrination by the Old Saul Chain really bred a subtle disobedience to the Letters which has caused many of the problems here. I am hoping to share this with the brethren & that it will help to open their eyes & ask for your prayers for this.

We are all very excited over the video vision here but want to wait until the Betamax & VCR equipment is refined as it is the only type you can get service for here in VHS-VCR.

"I would like to write you a short note, Dad, to let you know how I love & respect you' Inday I was listening to the 'Little People' tape again & was really moved... that little talk of yours just made me know you like I've never known you before! The part when you started weeping about the little girl who died really made me check my heart & attitude towards people. You're so sincere, Dad, clear & simple. so much like the Lord! When you speak, you speak from your heart! I can't help but feel convicted, not only by the message that came across but also in the way you shared it. You're such a real person, Dad, you sure feel what you say! I know because I felt your spirit coming out of that tape' Your words are emotional - it's love! "We are so happy with our new field! There's great potential here, including radio & TV! We found a lovely house for rent through a Catholic nun, as housing is rare & expensive here. You can't have victories without battles & all of us have had severe diarrhoea. Change in food, climate & bacteria is something everyone should be prepared to face & many Western items like baby clothes, radios, videos, & projectors are 4 to 5 times normal prices & one should pack a lot of faith & courage amongst these items!" QUESTION: "I've always found the Theory of Relativity fascinating, how time & light are related. It seems like the speed of light is the limit or boundary of this four-dimensional world. Is it possible time is light? God made light & darkness before there was time. Or should I say, light & darkness made or constituted the first day. (Gen. 1:4,5) It wasn't until 3 days later that the sun & moon were made (Gen. 1:16,18) In the new Heaven & new Earth there will be no time & the sun & the moon will not be needed, 'For the glory of God did lighten it & the Lamb is the light thereof', so then would that mean darkness constituted time as it seems there 'shall be no night there' (Rev. 21:23,25). People used to speak of the edge of the Universe, but is the edge the Spirit? Einstein said that when something is in motion its time is decreased & length is decreased & when it reaches the speed of light it's without time & without dimension. Dad, it would be wonderful if you could shine God's simple light on these physics problems as you did the

economic problem in 'Richman Poorman' & 'Inflation Deflation'."

QUESTION: "I've been back in the Family four months now & would like some counsel about lovemaking between father & daughter. When I was living with my parents away from the Family for a while, my father began de-siring me & tho' he never asked he would go into the bathroom which adjoined my bedroom & masturbate after he had looked at me lustfully. One night he came into my room & rubbed my legs, hoping I would open up to him. Tho' I feel much compassion for his needs, the thought of making love with my own fa-ther leaves me cold. I've really been seeking the Lord's will, asking for you to write something on this. I have asked a sister to FF my father & she said she would try. The relationship between my mother & father is not very good. (Keren Tommy says, 'I feel asking a sister to FF him is the best solution to these problems, according to your faith?')

QUESTION: "We'd like to have more guidelines on music, what should we listen to & what should we not listen to. If we should listen only to MWM we will, but since we don't have many Family tapes we listen to other music such as Earl Klugh. Please, more guidelines on what is good & what is not."

I BELIEVE THAT I HAVE BEEN GIVEN insight into the "mark of the beast." I'm an electronic technician & work with computers. The "mark of the beast" will not literally be the number 666 in any spoken language but will be the number 666 in computer language. The computer language that I work with is called "hexadecimal" and is based on sixes and the alphabet thruf. The previous computer language that I worked with was based on the number 8 but is now almost obsolete because it required more components to function. You can take this for what it's worth but it fits in with other information that I have. Please pray about this before sharing it work others as I don't want to mislead anyone in such an important matter. May the Lord's will be done! Simon; Europe (I don't doubt that the "6" will be manufest in a number of different ways.—Dad.)

SOLOMON WORKS NIGHTS AND DOESN'T always get to read the new wine right away. So I started taping the ML's so he could listen to them when he comes in. Portable Microphone & Mi-Speaker P.A. System: I have just discovered a new gadget for singing teams. All you need is that wireless microphone, which has a built in transmitter (& antenna) and a FM radio and you have your complete portable hi-speaker p.a. system. The mic is powered by a small Ab attery & has a small wire (12 in long) as antenna. Cost-\$20-30. We have used it successfully singing with the children. The one that I have is made by Piezo and it comes on any FM radio on an unused frequency w/out interference by regular stations. Matthew & Renee; Canada

WAS WONDERING IF DAP GOT SOMETHING from the Lord about the death of John Lennon? It seemed somehow significant to me. Eli & Celeste; U.S.A.

"WE RENTED A POSTAL SER-VICE BOX which provides us with both a P.O. box no. & a street adress for I.D. & papers. QUESTION: "When somebody tithes his income & makes a gift to another tithing family, does this other family have to tithe these gifts that have already been tithed?"—Michael: Europe. (Yes, of course!—All income!—All WS income has been tithed, but we still give back most of it to the Fam!)

"We saw the movie 'Excalibur', the story of King Arthur, Merlin etc. Altho' the movie had some 'off' scenes, it was moving & broke our hearts. Since we had all been seeing Singin' Sam a lot, the Lord spoke to our hearts comparing Sam to Lancelot. Lancelot loses faith in King Arthur for a time but then returns to lead the knights when they need him the most."

WIT & LITIDEA: "For those who find themselves going stale & crowds & donations diminishing, try dressing as a clown! People in dark dreary cities love clowns, esp. children. And being a clown means you can get away with doing crazier things. It's a great witness & the Lord blesses it so much. A clown outfit is very easy to get together. Be a fool for Jesus! Hallelujah! Also you only need to know a few simple songs—clowns have universal appeal." (AMEN!)

QUESTION: "Dad suggested we count lit by page. I was wondering how we should count the Fish Food & 'shirt-pocket' books. The pages are much smaller than the Mags."—Yuko Mtn. Mald; Japan. QUESTION: "I have a small carpenters shop where I work. I want to know if Dad thinks carpentry is a more Godly job than most. What does he think about carpentry?" —Ezequiel & Daniela; South America. MAIL BOX LITNESSING: "I found it very convenient to walk gate-to-gate & put a bit of lit in each mail box. Riding a bicycle would be much easier. DHL also has offices worldwide. flew from Hong Kong to L.A. for free & I will be flying to S.A. the same! Also a round-trip ticket to Argentina gives U.S. citizens an automatic 1-yr. visa. TITHING TESTIMONY: "We tithed 300 rupees on gifts, & our income for the month was above 10 times that. Wow!"
—Shaun & Zarina; India.

TITHING TESTIMONY: "God provides! Last month I was hesitant to send in the 10% as we had so little money left. I was thinking of sending half of it & the rest next month. But then I thought, well, God has just got to provide & He can't even increase my faith in that unless I do my part. So I said, alright Lord, You'll have to do it & use it to increase my faith by providing right away. So I sent the 10% & the next morning I received a tax rebate for 5 times the 10% I had sent, which was enough to keep our family of 7 for this month." latthew & Anna; British Isles

TITHING TESTIMONY:
"This month we put aside our
Tithe in a little box each day &
wrote down the amt. & source
of it. Within days the Lord supplied enough to pay the back
Tithe we owed. The same day
our mailing came—a miracle as

HEALING! "My issue of blood which has been a problem to me on & off for ten years has ceased! TYJ! The Lord gave me the words to pray. We received some beautiful verses & at the end I got Dan. 10:12-13. The following morning I was healed! I need to mention that I also decided that instead of waiting in bed to be healed, as I had previously tried, I decided to go on the attack litnessing & witnessing. Since that day many have noticed how much better I look & feel. In the tape 'More on Faith' Dad says that when you're healed you're living or borrowed time. I've found this to be so true, as sometimes when I'm out litnessing the Devil attacks again & I have to keep reclaiming the healing Jesus gave I also received Ex. 15:26, which my husband also prayed over me later in the day. The Lord's doing more to me than just healing my body-I'm learn ing some lessons on praise & humility & being sober, which I've been a little slack on! Heb. 12: 5b & 6! TYJ! ' ' Michael & Angela; Europe

"I ASKED MY FATHER FOR A LOAN of \$500 as we were so short of funds. Before we got it we'd already decided to tithe it by faith, & when it arrived my father wrote that it was a gift & not a loan, TYJ! Putting God first never fails!"—Paulo & Dove:

JOKE: "A missionary was travelling thru the jungle to get to his mission. On his way he suddenly found himself face-to-face with a lion! As a man of faith he didn't panic but quietly knelt down & prayed, 'O Lord, instill into this animal Christian feelings', & immediately a miracle happened! The lion knelt down, joined his paws together, bowed his head & prayed, 'Lord, bless this food I'm about to eat'!" Hazlel Gypsy & Sarah: Europe.

"LAST MONTH WE GAVE AN EXTRA GIFT TO MISSION-ARIES in Thailand & India. Wowl Did God ever return it!
-100-fold! We got an extra \$450 in income tax returns. We found some flee bags at a real bargain marked-down price of each. Wow! We sold our trailer for \$900 more than we paid for it, our truck for \$650 more than we paid for it 11/2 yrs. ago. Then we found a VW camp van with rebuilt engine, new tires, brakes & paint job at a bargain. Plus hundreds of other miracles, PHN! We got some new lit printed & are planning to leave soon for Central America The fires of faith are starting to burn as we forsake all again & seek His will above all in every-thing we do. TYJ! We also booked MWM to reach approx. 2 million in Louisiana."

GOD'S JUDGEMENTS: "Martin & I were trying to provision a tape recorder, when in one store we were treated very unfriendly. I prayed the Lord would judge them since it also really affected Martin, & the next week the store went bankrupt!"—Grace; Scandinavia.

TITHING TESTIMONY: "The Lord showed us to give \$100 for the Tithe we had forgotten, but I thought to wait until I had extra money. But a few days later my billfold was stolen with \$20 along with I.D. & driver's license. A few days later I had another \$15 stolen. That makes a total of \$35. The Lord told us it was because we wanted to put our bills before Him. So we decided to give Him His due when we received our social welfare cheque. The next day we received a cheque for \$36. TYJI He's so faithfull" Janna & Genesis Living Word; Can.

"MY FISH HAS MULTIPLE SCLEROSIS. Two days after she asked Jesus into her heart, she had an attack! The last time it hit her she was out of commission for over a year. We were in a restaurant eating. She told me she wasn't feeling well & the next thing I knew she was falling under the table! I knew it had to be M.S. because of the expression on her face & her muscles had contracted & she was stiff as a board. So I grabbed her in my arms & started praying, claiming healing verses, & as soon as I said 'in Jesus' Name', she opened her eyes & she was healed! TYJ! Prayer is powerful! —Michael Rain; U.S.A.

8 **TITHING TESTIMONY: "Right** after Dominique forsook his old car to MWM, the Lord blessed him with a brand new car unex-pectedly by his rich father. We could have decided that technically we didn't have to tithe the new car as we had already given a whole car & caravan to MWM. But after counselling with W.S. the Lord put it in our hearts to tithe the car anyway. But we just didn't have the money to pay such an amount. So we decided that the first big donation we got we'd use for this purpose. The Lord is faithful. We asked Angela, Dom's fish, if she could help with \$250 to help us pay our bills. At this time she had just received a bonus her boss oc-

casionally gives her for her work. When we opened the envelope there was \$2,500! Right away we knew that the Lord wanted us to pay the tithe on the car, which we did. The tithe was \$575. We payed it plus another offering & a few days later we received another envelope full of coins & foreign money. When we went to the bank to change it all, guess how much we got?
-\$575! So surely the Lord is faithful to pour out such a blessing that we have no room to hold it because in addition to all the finances He has supplied hundreds of liters of juice, hundreds of vitamins, clothes, shoes etc. So PHN! We never lose by tithing & offering!"-Hannaniah & Yanina: Europe.

JESUS BREAKS WITCH'S SPELL! "A girl living upstairs from us who is getting a divorce asked Dulcinea if she believes in witches. She said that a witch had cast a spell on her that was causing her marriage to break up & her new baby wasn't sleeping at all. The witch told the poor girl that for \$300 she'd take the spell off her, so Dulcinea asked her if she had ever received Jesus. She praved with her right then. Afterwards they were both so happy they cried & the baby went right to sleep & hasn't had any problems since." -Paul & Dulcinea; U.S.A.

"WE HAD A VISITOR WHO GOT SAVED & delivered from heroin addiction, TYJ! He told us how his wife had been killed & how he'd fought in Viet Nam which was really plaguing him a lot. The next night we heard someone crying, first at one end of the house, then at the other. It was obviously a departed spirit. Then the Lord showed me that it was his wife who was crying to us to pray for her salvation. So we all desperately prayed for the Lord to save her. The Spirit was so heavy! Angel then heard the crying again & we both had visions of her in hell with demons holding her. Then an angel or Jesus Himself came & took her by the hands & pulled her up to Heaven. Then was a vision of her running freely thru those beautiful gardens in Space Cityl 'Your prayers can do mighty things'!"

QUESTION: "Someone here in the Philippines said, 'The Letter Refuges doesn't really apply to the Philippines...' "THE LORD SHOWED US WE CAN HITCHHIKE ON PRI-VATE PLANES, after reading Maria & Crystal's testimonies in Mag 35. We waited for 30 hours before we got a ride, but the Lord blessed our patience as we got to witness to two Senators & gave them some TKs & they offered to help support us when we go to S.A. Yes, it can be done, even in America!"

Giảng 3: 16

Vì Đức Chúa Trời yêu thương thế-gian, đến nỗi đã ban Con một của Ngài, hầu cho hể ai tín Con ấy không bị hư mất mà được sự sống đời đời.

RASPUTIN (1865-1917) has already been covered in Dad's Letter, "Rasputin - Mero?" - Or Heel?" (Ko. 12). He was known as a "med monk" or Holy devil" with healing powers, the power to perform miracles & great capacity for wine & sex! His greatest enemies were the Church of that day, who continually denounced him as a devil & wanted him shot, but he was always protected by the Czar & Csarina. He was a confidente & counsellor of the Czar & once helped avert war in 190b, when the Czar wanted to go to war over the annexation of the Ealkans. And he might have helped to sert world war I as well, but by an incredible coincidence Rasputin himself was the victim of an assassination attempt at precisely the same moment that Archduke Ferdinand was shot in Serbia. When he heard the news of the Czar's order for mobilisation he sent him a telegram (from the hospital) beging him to change his mind, but it was too late. Austria had declared war on Serbia, and when the Czar mobilised, Germany declared war on Russia. The Great war had begun. In 1912 Rasputin told the Czar, while I live, your throne is safe. If I die, you will lose your throne A your life." A few years later he suddenly had a premonition that the end was near & had another vision. As he welked slong the Neva River it seemed to be red with the blood of the Grand Dukes. And he wrote a letter to the Czar a had another vision. As he welked slong the Neva River it seemed to be red with the blood of the Grand Dukes. And he wrote a letter to the Czar to prophesy that if he was murdered by the Russian people then the throne would be asfe for hundreds of years to come. But if he was killed by the nobles, disaster would follow; brother would kill brother & none of the Czar's family would remain alive for more than two years. Less than a munth later Rasputin was killed by the noblity. And within two years Russia was in the throes of the Rolshevik Revolution & the Czar & his family were all murdered in a cellar in Ekaterinburg. Rasputin's strange prophecies had come true!

FRANZ ANTON MESMER (1700's) was best known in his day as a miraculous healer - although today he is far more renowned for having developed hypnotism, originally called "mesmerism"! He seemed to be a godly man a when his friends saked about his healing ability he said, "There is a force by means of which the soul can work upon a bodily organism." He also believed that the past, present & future were all one - and here right now - and said that "God alone, beyond space & time, sees everything." He attributed part of his power to the force of magnetism & once told a friend, "Some cosmic or magnetic power, not metallic but animal, moves through my body by means of which I can heal." A lot of sictness he attributed to the people themeelves. "Half the people who consult us are only ill," said Mesmer, "because they imagine it. With leisure enough & money enough, they fall sick the moment they are bored. People refuse to live a natural life, take too little exercise, est deadly food. We have become diworced from nature." In a day when most physicians healed by leeches & megical potions it didn't make him too popular with the sedical establishment, who arranged to have Mesmer evicted from both lustria & France. Most of his life was a fight against & flight from the sedical profession of his day, who would not believe his healings even though shown dossens of times. He finally settled down in Germany, where he wrote his life's work & died peacefully at the age of 78.

***HOSTRADAMUS**, Physician & Prophet (1503-1566). Nostradamus was a Jewish Christian & one of the most remarkable men of his day, both physician & Frophet. As a healer he performed mirculous cures & practised almost sodern medical techniques, although he lived in an age steeped in supersition, fear & legend. Doctors of his day warded off the Elack Death by megical means. Next to their skins they were rough cotton shirts soaked in seven magical liquids & strined with seven symbolic colors. Over this went a heavy leather jerkin to keep out foul air. Many doc

sters for ilinesses & believed that the plague could only be fought by astrological means. Live other citizens, the doctor covered himself with

amulets & charms & a bone from the head of a toad was considered very beneficial. In contrast to this, Nostredamus was apparently a great believer in cleanliness. He used a secret disinfectant on his person & also used remedies based on the principle of funigation, effective even today in those parts of the world when the plague still exists. He ordered rat-infected areas to be burned & flea-ridden bedding to be destroyed, unheard-of measures in his day! During his travels through Europe he acquired the gift of prophecy & spent years writing down the prophecies he received. They were first published in 1555 & brought him immediate fame throughout western Europe. He was a devout Christian & in the preface to his book he made it clear that the prophecies were deliberately obscured. He said, "Consider also the words of the true Saviour," cast not your pearls before swins", and he wrote to ensure that only those armed with the key of wisdom would clearly understand. Among his prophecies he foresaw the French Revolution 200 years before it happened. He also predicted the death of Henry II of England. Other prophecies were about Napoleon, Pasteur, the Spanish civil war, the Kennedys, Pape Paul, modern warfare & the Anti-Christl And finally, Nostradamus predicted his own death. He left instructions for his burial & a curse on anyone who might disturb his tomb, which he also seeme to have predicted. During the French Revolution his tomb was violated & the church in which it had been placed was destroyed. He also predicted that his works sould be more widely read after his death, which has certainly come true today! He seemed to be a real prophet of God for his day!

CBI Here's another little summary/book review. The Book, Tearing Away the Veile - The violancies who Control the World", is pretty old - first published in 1940 - and has some interesting background information.—Book Review by Joseph Reader

**TARING AWAY THE VEILS" is an expose' of how the Jevish bankers of the light of the events sentioned in it occurred

THE AUTEOR SHOWS THAT TWO OF THE MAIN WAYS THE JEWS CET THEIR FOURT IS BY CONTROLLING THE MONS & THE BANKS. The papers scream the "public opinion" when Presidents & politician do comething that the Jews don't like, & banks rum by the Jews help to finance the "public outcry"! Hal In 1911 the author details an incident in which some prominent American Jews came to visit President Taft & urged him to break the commercial treaty with Russia because Russia had been violating the rights of the Jews there. Taft refused - and the way

A FM YEARS LATER another Jevish nationalist said, "There is only one force in the that really matters, and that is the force of moral pressure. We Jeve are the most p nation in the world, because we have that force and know how to use it. Covernment o change under pressure."

AT A CONGRESS OF ZIGNISTS IN WARSAW IN THE 1930's, one of the leaders declared that if Dagland did not give the government of Palestine to the Jews, the Jews would be "the dynasis afte which would destroy the British Empire." The Jews finally took Palestine by force A with British Empire has been on the skids ever since then! The book also shows how Jews took an early part in the most advanced accements of Irish nationalism, which has been a sthorn in British's side for many years now!

THE AUTHOR EURS WITH THE STATEMENT THAT CAPITALISM, SOCIALISM & COMMUNISM ARE JUST TERMS, DISTRIBUTED to create confusion, among the masses, who are all destined to become slaves of "The Rabbis of Finance."

ONE DAY I RAN RIGHT INTO PAT BOONE, THE SINGER, who was out sightseeing. He took me over to meet Debby Boone, his daughter, and other members of his family and team. The were in Hong Kong doing a concert for two nights.

HO PROVISIONED 10 FREE TICK-ETS to Pat Boone's concert that night and we took all the children. It was a really good show. They sang a lot of their old hits, and then Debby Boone began witnessing with her song "You Light Up My Life" and told everyone it was single the Lord and about how much about the Lord and about how much she loved Jesus. THEN PAT BOONE BEGAN SING-

ING a lot of old-time clap-your-hands Gospel-type songs in a medley, really en-joying it, in a white suit like a preacher! Hal They sang a whole string of beauti-ful Christmas carols all about Jesus, and all in all they preached a really good message about Jesus and receiving and logion Himman loving Him

Our Family History LESSONS FROM OUR FOREFATHERS Chapter Four — by Hosea David to his seven children

When I was a little boy my Mommy and Daddy taught me to sing for Jesus on the street corners and in the churches. If I had just been doing it because my Mommy and Daddy made me, then when I got older, I would have refused to do it anymore — and when I began being away from my Mommy and Daddy and not having them to watch me every minute, I would stop doing those things.

But because Dad and Mom gave us a good example of themselves serving

good example of themselves serving Jesus, not just telling us to do it, but they studied the Bible and memorised Scriptures and were faithful witnesses for Jesus themselves, as we got older we learned to follow their example, and we did it because we wanted to do

and we did it because we wanted to do it ourselves.

When I was ten years old I went on a trip with some Christians and I was out witnessing everyday, and they were watching me and it encouraged them to witness! Even without my Mommy and Daddy and the rest of my family around I was still witnessing for Jesus. And haven't you done the same thing?

And you had a good time at it and you enjoyed it, right? — It was inspiring because you did it because you wanted to do it. You really had it in your heart right?

So since I was a little boy I have experienced for myself the joy and the happiness that I have received when I have witnessed for Jesus and told other

experienced for myself the joy and the happiness that ! have received when I have witnessed for Jesus and told other people about Jesus and led souls to the Lord and given out tracts and sang. I learned to enjoy that when I was a little boy like you are now, and when I got older I learned to enjoy it more and more, and that joy never ended, that happiness of doing those things is still the same now, and we're still doing the same things.

It's like the way we try to teach you the right things to eat that are good for you, but System children learn to eat candy and sugar and sweet things to they develop a bad appetite for that kind of thing, and they want it all the time. They want it and then they don't like good food, their meat and vegetables, they just want to eat their dessert. If their parents let them get away with that and spoil them, they develop very bad habits of eating candy instead of the right kind of food.

But because we teach you that that kind of thing is not good for you and not good for your body and your teeth, and because we don't let you eat that kind of thing, now if somebody gives you candy or sweet soda pop, you can tell how sickeningly sweet it is. If it's too sweet you don't even like it. You'd rather have something that's not so sweet like a peanut butter sandwich or

fruit juice or fruit or something like that, rather than sickeningly sweet candy bar. Some of you kids are tempted by sweet things now and then, but you know what's best for you.

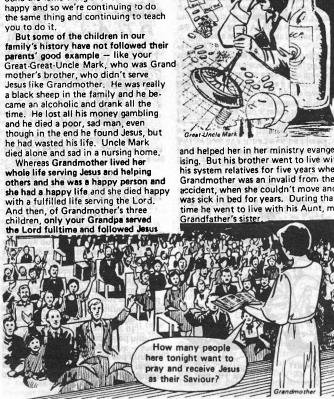

We try to teach you in the right way so that as you get older you'll want the right things, you'll teach your children to do the right things, the same as we're endeavouring to teach and train you to serve Jesus, and the same as Grandpa and Grandma taught us to serve Jesus. — And the same way that my Grandmother and your Great-Grandmother, and your Great-Grandfather served Jesus!

For these many generations we have been serving the Lord and witnessing for Jesus, not just because it's a tradition in our family, but because each of us experienced it and we've seen the example of our parents that did it and gave their lives for it, and that it worked and made them happy. We have done the same thing and it's made us happy and so we're continuing to do the same thing and continuing to teach same thing and continuing to teach

and helped her in her ministry evange and helped her in her ministry evaluer-ising. But his brother went to live with his system relatives for five years when Grandmother was an invalid from the accident, when she couldn't move and was sick in bed for years. During that time he went to live with his Aunt, my Grandfather's sister

When my Uncle Hjalmer was born, Grandmother didn't believe in Jesus and she didn't want to serve the Lord, and he wasn't born into a family of faith. They sent him to live with their relatives while Grandmother was an invalid. They were systemites and had businesses in Oakland and they were quite wealthy, so he was raised like that when he was a little boy. They really liked him because he became like them, so they paid his way through school and then through college and university and he became a systemite. But your Grandpa went with his mother and travelled with her and served Jesus.

Grandpa had a sister too, my Aunt Virginia, and this sister was very rebellious and really resented the life that she had because her parents were serving Jesus and travelling around a lot serving the Lord. Do you remember the story that Grandpa told about "Please Stay Mommy"? Well, Grandpa leerned to receive that lesson that it was from the Lord, but his sister didn't. She was very rebellious and she also spent time with some other rela-

didn't. She was very rebellious and she also spent time with some other relatives and became very worldly and started hanging out with the wrong people. She got involved with a boy when she was fourteen and he turned

out to be a very unfaithful boy and was chasing all kinds of girls and he turned out to be a very poor father and a poor husband.

a poor husband.
But she had gotten involved with him against her mother's advice and against her family's advice. And even though he treated her bad and kept leaving her all the time, she would always get back involved with him again. Every time he'd leave her she'd come back to her mother and her mother would take care of her, and then she'd go and be with him again and get pregnant and she had one child after another.

nant and she had one child after another.

But because she was not serving the Lord and was rebellious against the Lord, her children turned out bad too. Her children turned out just like her and they ran away from home and married people that weren't serving the Lord. I remember when I was in California when I was about your age, that I had a little cousin who also was the same age. She was the little daughter a

of one of my Aunt Virginia's daughters, and her father was treating them really bedly. He was really mean and drinking all the time — getting drunk — and then one day he shot and killed himself. So that was the daughter of Grandpa's sister who married the wrong guy and the guy turned out badly. All five of her children went astray and married the wrong kind of person and had broken homes and bad families and all kinds of problems.

So Grandpa's mother and father had two children who turned out quite bad, and only one turned out really serving Jesus full-time — which is your Grandpal After my Uncle Hjalmer got to be fifty years old, he lost his job and his wife divorced him because he lost his job and his money. She took what was left of his money and the house and the children and went to be more of a systemite.

He lost everything in the end because he had worked his whole life for to

have and to be successful and to have a big job — he lost! He's still alive today and he lives in a little town by himself and he has to work hard just to live, whereas before he was really rich and had a big house and a fancy family and a fancy life. But he still wants to live for himself, and not give up his own life. Since we've become a bigger family, Grandpa has even been able to help support him and help him, but he's still wanted to be himself and live by himself.

For years when we first started in the Family, Aunt Virginia was very much against Grandpa, and didn't want anything to do with us, but after years and years and years Grandpa has written to her and she's seen we're still serving Jesus, and our families and our children's children are still serving Jesus, and what more of an example is that to her when all of her children turned out bad? You can see that most of Grandpa's children have turned out serving the Lord, so that shows better 'fruit.

Even in Jesus' family, after Jesus was born Mary gave birth to his brothers and sisters and some of them turned out not to be believers, and not to believe in Him. So obviously Jesus put more importance on His spiritual family and those who followed Him. People asked, "How could He be the Son of God when we know His mother and His brothers and sisters?" We don't even know if all Jesus' brothers and sisters believed. It doesn't really tell much about them or how they turned out. When Jesus started His ministry at thirty years old, they were teenagers or in their twenties, and yet you hear little about them.

So it just goes to show that even if your parents or your family have given you a good example, that's not going to guarantee that you're going to turn out good unless you obey. And you're much more responsible than children who had parents who were systemites and who lived for the Devil. But that's why Jesus said, "Who is my mother and my brother and my sister? — They that do the will of the Father that sent Me."

(Mt. 12:48-50) It says, "He came unto His own but His own received Him not; but as many as received Him, to them gave He power to become the sons of God, even to them that believe on His name!" (John 1:11,12)

It's important for us that we obey by faith. You're children of God by faith. You have to serve Jesus yourself! You kids are getting old enough new to have to make decisions for yourselves. You have to begin to do what's right yourself because you want to do it and you enjoy the blessings and the happiness you have when you do what's right!

(To be continued)

"Who is my mother? and who are my brethren?" (Mt, 13:48)

LESSONS FROM OUR FOREBEARERS (Part Two)

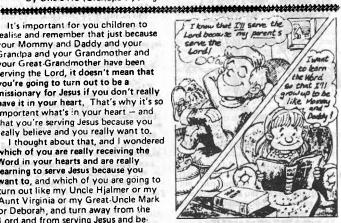

By Uncle Ho (Grandpa's youngest son — A lesson to his 7 children!)

It's important for you children to realise and remember that just because your Mommy and Daddy and your Grandpa and your Grandpa and your Grandpa and your Grandpa the Lord, it doesn't mean that you're going to turn out to be a missionary for Jesus if you don't really have it in your heart. That's why it's so important what's in your heart — and that you're serving Jesus because you really believe and you really want to.

I thought about that, and I wondered which of you are really receiving the Word in your hearts and are really learning to serve Jesus because you want to, and which of you are going to turn out like my Uncle Hjalmer or my Aunt Virginia or my Great-Uncle Mark or Deborah, and turn away from the Lord and from serving Jesus and become a rebellious systemite? You think that can't happen to you? Well, if you had asked me if that could happen to me, or to one of Grandpa's children, I would have said, "No! I don't think me, or to one of Grandpa's children, would have said, "No! I don't think it's possible."

it's possible."
But now I see what's happened to Deborah and how she's turned against the Lord and turned against Dad and her own real family, and sided with systemites and reprobates, telling lies against her own family and her own father and her own brother and sister, because of her pride and her selfishness and because of her bitterness which she harboured in her heart all that time which eventually just rotted her to the core.

Deborah has written some terrible lies about Dad and the Family that have been publicised in a magazine in America, because we have a lot of enemies amongst the church people in America.

They were just looking for some kind of bad thing they could say about us. So when they have somebody like her who goes back over to their side, the lies

who goes back over to their side, then they're happy to publicise all the lies that she gives them.

If you read all of the Mo Letters about all the problems Dad had with her when she was a little girl and growing up, you'll see how rebellious she was and how she was always choosing to go her own way, and how Dad dealt with her and disciplined her and spanked her, but she didn't receive it. She didn't yield. Deborah was always going her independent way. She went into the church system on her own without the rest of the family. Then she got married at her own insistence — not because Dad thought that the person she was marrying was the right one. Then after that, she went to live on her own and left our little team.

There was then just half a dozen of us singing and witnessing for Jesus, and she and her husband left us and left Dad's teaching and classes and went to a Christian Bible College for a long time Then after that they went to work for Fred Jordan for money, and not really serving Jesus full-time and living to be

serving Jesus full-time and living to be a witness. They lived in their own little systemite house, and they lived like systemites working at a job.

But then when Deborah and Jethro could have a position in the Family and be supported and have the money and be supported and have the money and be somebody in the Family, they were with us for a long time. But they were always running things and doing it their own way, and Dad was always having to deal with them and correct them — trying to get them back on the track and keep them on the track.

I made plenty of mistakes myself, but I wanted to do right and wanted to follow Jesus, and received correction in my heart, but apparently they didn't. They just went along with it because they felt they had to otherwise they'd

they felt they had to otherwise they'd lose their position and they'd lose their support and their money and all these kinds of things. But they weren't really following Dad and following the Letters and following the spirit of the way God has led us.

So when they lost their position and authority and all these things, they weren't willing to be a little family preaching the Gospel and serving Jesus. They became bitter and against Dad because he took away their authority and he took away their big power trip and being over other people. It's important for you kids to know these things, because if people know who you are, that we are the Family, then they're liable to ask you questions. Or there's liable to be publicity about those things in the newspaper, and it may affect our opportunities for witnessing and singing. It's also necessary for you to know as a warning for us all, of some people who have gone back and backstidden like Deborah and Jethro, and how far back they did go. I've heard now that some of their children have even tried taking drugs. I don't say they're all trying them, but they could certainly go that way because they are disobedient. It really surprised me that Deb could turn against Dad after having been taught by him and raised by him all her life. But Deborah and Jethro didn't believe in the things that Dad was correcting them on, and whenever anything bad came out about them in

the Mo Letters, they would hide it from their children and wouldn't want them to read it and wouldn't want other people to see it. And if they did see it, they tried to explain it away. That's why they turned out bad.

What is the verse you are memorising in John 15? "Every branch that abides not in him is cast forth as a branch". He cuts it, it withers and He throws it into the fire and it's burned. (John 15:4,5) In another place Paul says that every man's work shall be tried by fire of what sort it is. Every man's work must be made manifest whether it's wood, hay, stubble or whether it's wood, silver and precious stones. It says they are still saved, yet so as by fire. So when somebody escapes a fire, what do they have left? Just themselves. Everything else they had all burned down.

So that's what Deborah has now, all her works not hursely in themselves.

had all burned down.
So that's what Deborah has now, all her works got burned up, so when she gets to heaven, what's she going to be proud of it? She's going to be proud of it? She's going to be ashamed. Some people at the resurrection are going to be raised to everlasting life and receive a crown of life, and some people are going to be raised to shame and everlasting contempt — that they're proven to have done bao, and people will think badly of them. Those people will think badly of them. Those people are going to be really ashamed of the way they lived their life and the way they disobeyed God and went their own way. So, Lord help us not to let that happen to us.

(Caleb: Did Uncle Aaron accept dis cipline?) Yes, he did.

Aaron really feared the Lord and he really wanted to serve Jesus and just be a witness. He didn't get on the trip of trying to be a big leader and being after a lot of power or money or material things. He endeavoured to memorise the Word and really stay in the Word and be a good example and to teach others and to be a shepherd

and a pastor and a witness, so he did get tripped off like Deborah did. Neither did Auntie Faithy. Auntie Faithy has stayed faithful

as a pioneer, living in rough situat and always out on the battlefront witnessing and pioneering new things for Jesus, pioneering new places and new ideas. She has stayed faithful to the Lord and the Mo Letters and to Dad and is still serving Jesus today and bringing forth good fruit.

Do you want to keep serving Jesus and helping other people to come to know the love of Jesus? It's up to you!

You can't think that just because you'rs in the Family that you're going to sure of the Lord — or just because we teach you the Bible that you're going to serve the Lord — or just because we teach you the Bible that you're going to turn out to follow Jesus. If you don't really follow Jesus yourself in your own heart, you could turn out like a systemite, or taking drugs, and all kinds of bad things. We have no guarantee that we won't turn bad just like other people have turned bad because they didn't continue to follow Jesus every day! If you have bitterness and resentment in your heart, it's going to affect you. It's going to get you away from the Lord. It's going to destroy you in the end, just like I have seen it destroy members of my own family, my Uncles and Aunts and other people who didn't serve Jesus. They turned out worse than if they had been born in a family that wasn't Christian, that weren't preachers or missionaries for Jesus.

mat wasn't Christian, that weren't preachers or missionaries for Jesus. They had the truth and they had the light and rejected it, and went against it — so they turned out much worse. They rebelled, and God let them go that way and suffer for it.

that way and suffer for it.
So that same thing could happen to
you if you don't serve Jesus every day
and have the Word of God in your heart,

and reject the lies of the Devil and the temptations of the Devil to get bitter and to murmur and complain. You've got to reject those things that come from

got to reject those things that come from the Enemy of not wanting to witness, and reject the temptations of the Enemy to want to be selfish and to want to live your own little life to yourself. It's like in "The Lion, the Witch and the Wardrobe": The young boy got all lifted up in pride and selfishness because he wanted to be somebody and be important. He was willing to betray

all of his family because he thought it

all of his family because he thought it was going to get him to be a king and be somebody important — when really the Enemy, the wicked witch of the Devil, was just deceiving him and getting him to betray all of his family. Then what did they do with him? Did they make him a king? Did the witch give him all the things she promised? Not Do you think that the System is going to take care of Deborah and going to he nice to her and make her somebody important? As soon as they get everything they want, everything they can they're going to throw her away, just like they did with Judas. Judas betrayed Josus to the scribes and pharisees, but like they did with Judas. Judas betrayed Jesus to the scribes and pharisees, but then did they make him somebody important and take him in? Did they really trust him? No, they didn't want to know him after, they didn't care. They got what they wanted when they could crucify Jesus. So anytime you get anything from the System, it's going to cost you something. to cost you something.

Jesus said, "You are in the World, but not of the World, but I have called you out of the World." He said, "Love not the World, neither the things that are in the World, for if any man love the World, the love of the Father is not in him." (John 15:19; I John 2:15) So we don't want to love the World, do we? If you love the World, it says, "Where a man's treasure is, there is his heart also." (Matt. 6:21) If you start seeking after the treasures of the World, your heart's going to go that way, and you'll become worldly -- you'll become systemites.

It's an important lesson for you child-ren to remember when we deal with you, ren to remember when we deal with you when we spank you, when we correct you and deal with you about being rebellious and about not receiving correction, or not getting into the Word, or not having the right spirit when you witness and when you sing — because

witness and when you sing — because we know the dangers.
Out of our forefathers who have gone before us, some of their children have always rejected the Lord and turned out bad because they have rejected the truth, and have gone to be systemites — and we don't want that to happen to you! But it's possible if you don't receive the Word in your hearts and serve liesus. d serve Jesus.

But let what happened to Deborsh be a warning to you — because she was selfish and wanted material things and

money, and to be somebody important and she was bitter against her father, and didn't receive correction, and she turned out bad in the end. And her children are turning out bad too, just like Dad's sister who didn't like her Mother and was bitter against her Mother and the Lord, so she turned out bad, and her children turned out bad too, and got into drugs and every kind of problem you can think of. I know that if I were to become a systemite, that you would turn out bad, too, I certainly don't want that to happen to us.

But thank the Lord you had good training deep down. You had enough training when you were little and had the Word of God in your heart, you've always been with people who've been

always been with people who've been teaching you the Bible every day and taking you out witnessing your

So thank the Lord that you have had that good influence all your lives, and I hope and pray that by God's grace, all of you will turn out serving Jesus, just like I have turned out serving Jesus my whole life because of my father's good example. And Faithy turned out to serve Jesus her whole life, and Aaron also turned out to serve Jesus his whole life.

So, God help us to keep serving Jesus, even if we have to be gypsies and have no home of our own, and go from country to country rejected and despised. I'd rather do that and serve Jesus and teil people about Jesus than to be popular and to be a systemite with a lot of money. Let's pray. We pray, Lord, that you'll help the children to receive these lessons, and realise, Lord, that it's important for them to really believe the message in their own hearts personally, and to

them to really believe the message in their own hearts personally, and to receive the Word and to memorise the Word and to hide it in their heart, and Word and to hide it in their heart, and to follow it and obey it by their own choice — not because we make them, not because we force them or spank them or discipline them. But they have to do it because they want to do it. And when they do it that way, You're going to bless them and keep them and protect us and bless us as a family.

Lord, protect us from the temptations of the Devil and protect the children

Lord, protect us from the temptations of the Devil and protect the children from the temptations of the enemy, and let the people that have fallen, and the people that have gone back and turned against You and have backslidden, be a warning and a lesson to us, that we don't let that happen to us, that we don't go that way. "If they had

been mindful of the country from whence they came out, they might whence they came out, they might have had opportunity to have returned; but now they desire a better country, that is an heavenly: wherefore God is not ashamed to be called their God: For He hath prepared for them a city. But they that say such things declare plainly that they seek a country." (Hebrews 11:14-16)

We're strangers and pilgrims on the Earth, and we will be all our lives. If we get persecuted in one place, we'll flee to another. Thank the Lord He's given us peace.

given us peace.

And Lord, we pray that you'll give us peace and you'll continue to help us have the opportunity and the freedo to continue to be a witness and a testimony to help others here as long as it be possible by Your grace. Thank You Lord.

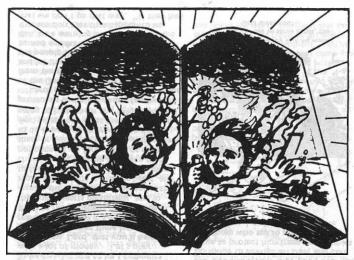

Lord.
Bless Dad, Lord, and bless Faithy.

Live in the Word!

GOD'S Word is pretty heavy, pretty strong, and pretty deep! — It is so deep that it is as "waters to swim in"! (Ezekiel 47:5)

So dive in and swim in the depths of His Word! — The refreshing water of the Word that will feed your soul, strengthen your body, renew your mind, lift your spirit, encourage your heart and purify your whole being!

God will bless you as you <u>soak</u> in His Word! 66:18 685:78 - 775:65 365:42 - 326A:24 687:38

He wants you to be happy!

WE don't have a sad God!--We have a happy God who wants us to be happy too!
He loves life and created it all for you to enjoy!
— He says, "Behold, I have made all these things in perfection for thy pleasure!"

He wants to help and make you happy with His love, and help you make others happy too—with both His love and your love! — This is our main purpose in life, to love God and enjoy Him forever, and to try to help others to do the same! Hallelujah!

Be like Jesus!

F you really have the love of God in your heart, you're going to be like Jesus! — And if you want to know how Jesus is, just read the Gospels! It's beautiful! — The man who went about everywhere doing good, who only taught and lived love and sharing! — Who came for love and lived in love and died for love that we might live and love forever!

Lord, You are the greatest sample of all. --Help us to be like You, Lord Jesus!

We've got a lot to be thankful for!

SN'T it wonderful to know Jesus? Isn't it wonderful to be saved?

Thank God for your blessings! Thank God for the Family, for love, for salvation, for His protection, for His provision, for everything! — "In everything give thanks!" (I Thes.5:18)

"In whatsoever state you're in", whether "abounding or abased", be thankful for your many blessings and that Jesus loves you and your loved ones love you and we all love you!

— Is your heart full of thanksgiving?

242:17 638:73 551:49 - 55:76 325:22 - 638:69

You can pray all the time!

YOU don't have to be down on your hands and knees praying frantically to be heard. Prayer is something you're doing all the time, no matter what else you're doing. — "Pray without ceasing." (I Thes.5:17)

Lots of things can happen that are totally beyond your control, but not the Lord's! So keep close to the Lord, always asking Him to keep you, and bless and protect you.

Help us, Lord, to stay close to You in Thy will, following moment by moment. In Jesus' Name, Amen! 638:30 74:5 - 638:30 353:333 639:61

If you witness you always win!

THE number one job we have is to preach the Word; and number two is to try to win those to whom we preach it.

You may not always win the soul, but you win the favour of God, and you obey God. — God likes it!--And they will like it too, if they receive it!

But even if they don't receive it, it's not wasted, because witnessing is never wasted! — "Love never fails", so you just can't lose! — "Witnessing never fails! Hallelujah!

You can't keep the birds from flying over your head, but you can sure keep them from building a nest in your hair!

NOBODY can keep temptation from coming, but you don't have to <u>yield</u> to temptation. It is impossible for the Devil to win over you unless you give in to him. — If you keep fighting, you keep winning! — So when the Devil tempts you, fight! — Slam the door in his face and don't even listen to him! — "Resist the Devil and he will flee from you!" Food for Thought!

— Your Soul Is Hungry Too!

Daily Might for Young Hearts! — No.2.

"Heaven and Earth shall pass away, but God's Word will never pass away!" (Mat.24:35)

N especially trying times, you should live more in the Word. — I can fail, you can fail, the whole world can fail.-But God's Word will never fail! — So when it seems like all is confusion and stormy, retreat into the Word!

His Word is always a comfort and the Voice of His Spirit is always an encouragement in the hour of greatest trial.--Thank God for the comfort of His cleansing Word!

We open our windows to God!

WE need the fresh air of God--not the dark dankness and dimness. We need air and life--fresh air and light! — Oh, Lord, for a breath of Thy Heavenly air to refresh us and clear our minds and inspire our hearts!

All you have to do is <u>open!</u> Let the Light in! — And God will drive away the clouds and the smoke that would obscure your vision.

Melt away the pride; wash away the fear; drive away all the dark doubts with the light of Thy Spirit! Thank You Jesus!

Give us joy in our labours and glory in our tasks, Lord!

That vital touch with Him! — If you've got that divine anointing, it makes every little task wonderful! But if you just have the letter of the law of duty only, it drags you down and turns you off! — "So, you gotta have a glory in the thing you do! Oh, you gotta have that somethin' that thrills you through and through!"

God help you to have the fire-power of God's Spirit in all you do! Amen? Hallelujah!

As you pour out, He'll pour in, and you can never outpour Him!

DO you remember that picture of Aquarius, where he is pouring water from his urn? Did you ever notice that his vessel never runs out of water? — That's the only way you can stay fresh and full: To keep overflowing on others, as He pours in!

Are you flowing, pouring, sharing in this Age of Aquarius--the Age of the Water of Life?

— "Give, I say, and it shall be given unto you!
Pour forth, and I shall flood thee with more!"

33:33 264:11 - 51:21 6:11 - 215:77

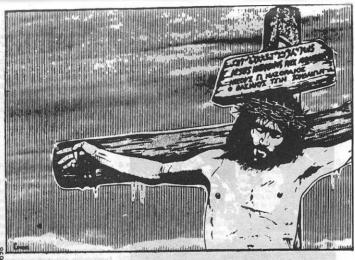

One of the biggest lessons you're gonna have to learn is to wait for the Lord to work!

F you don't know what to do, stop everything! —Stop to look before you leap--you may not have to leap at all!

Take time to hear from God, and He'll take the time to straighten out the problem. — Give God a chance! Give Him time! Wait on the Lord!

Slow it down! Stop! Look! Listen!--And wait! — "Be still and know that I am God, and I will soon reveal to you what you should do!"

74:34 74:18 - 11:5 74:52 - 48:23 74:49 - 83:11

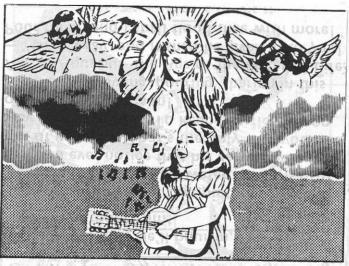

We just thank You for Your love, Lord, how much You loved us.

GOD gave Jesus an opportunity to quit, gave Him a choice in the Garden!--And yet He deliberately chose to go ahead and suffer for us. Think of that! — "Greater love hath no man than this, that a man lay down His life for His friends." (John 15:13)--Jesus was the friend who took the punishment for you.

He suffered for all the sins of mankind. He died that you might be saved! Isn't that amazing?--Such love!

639:62 569:112 - 699:31 714:44,48

We are not alone in this fight!

E know, Lord, that Thy "angels encamp 'round about them that fear Thee". (Psalm 34:7) — They try to counsel, guide and influence us. — But Lord, help us not to give them a hard time! Help us, Lord, to cooperate and follow the leading of Thy Spirit and Thy holy spirits.

"I will give My angels charge over thee to keep thee in all thy ways." — "Indeed, thou art compassed about with a very great cloud of witnesses!" Thank You Jesus!

Dearest Ones,
GREETINGS FROM MWMI.
I wanted to write & thank you so very much for the August gift which we just received. It's such a very special blessing being able to get these extras. We already have everything that we need but these gifts enable us to get the things we would just normally do without. This month Patience bought me a beautiful bathrobe which really whelps me to relax at home, & we bought the children some matching singing clothes complete with bowties! They look so nice & it really inspires them to get out singing. PTL!
I ALSO WANTED TO WRITE YOU A REACTION concerning the suggested this in one of the first tapes & though we tried it at that time, we looked at the waves & eventually went back to multi-track recording. Jeremy had sent a report at that time about how we do our recordings & we just took it for granted that you understood when you suggested that we send backing tracks to children's songs & to the other language shows. Ps. 19:13.
BUT WHEN WE HEARD YOUR TAPE TO MCV IN PR we were convicted & decided we better give it a try. And the results were very good & it was a lot of far. It sook a lot of results were very good & it was a lot of far. It sook a lot of results were very good & it was a lot of far. It sook a lot of results were very good & it was a lot of far. New Arrivals At MWM!

First impressions & reactions from new MWM office members!

First impressions

From Jerusalem Italian; MWMI:
I THINK WHAT I FIRST
FELT VERY STRONG arriving
at Loveville & meeting everyone
was to see how close & concerned you both are about everything that happens here. Your
sample of love for each other &
the lost, the humility & sincerity is reflected in the lives of
everyone here & I can see it's
very contagious, they all make
me want to be good, they make
me enjoy doing my best, this
truly is the Heaven on Earth in
our hearts.

THANK YOU SO MUCH TO
BOTH OF YOU for settling as
sample of life & love before me.
I loved very much the Latter
"Real Shepherds" which I feel
is a wonderful standard of life
to look up to, not only for Yo's,
but I would say for everyone in
the Family. I also loved "Little
People" & "Appreciation". It
makes me cry to see the deep
love you have from the Lord &
really makes me want to do
more for others in spite of all
my failure.
I CAN TRULY SAY THAT
WE HAVE SOME OF THE
MOST LOVING SHEPHERDS
right here, P&M, who really are
the reflection of your sample of
love, faith, implicity & faithfulness to you & the Lord. I can
say the same thing about H&A

& many others here that I got to know more personally. There is so much for me to learn from their sample & your Words!
I THINK THAT THE NEXT THING THAT IMPRESSED ME THE MOST was really seeing with my eyes the great potential of this MWM ministry, the Gospel for the world! I have to say that I am wholeheartedly with you on everything you said about it. I really believe it is already & it's apt to become one of the most powerful weapons for

reaching the world with the Gospel, both now & during the coming war.

I REALLY FEEL IT'S A NEW REVOLUTION around the world & I want to thank you more that words can say for the sample of faith & vision for this ministry. What & where would I be without your words I really want to tell you that I greatly enjoy working on the Italian MM & that I want to put all my efforts with the Lord's help to feed your sheep as I feel

these instruments later. Or do you think we should just take these limitations & use them as a sign that we should make our music simpler? (-No.)

SIMON WAS MENTIONING THE POSSIBILITY of recording the audio & video at the same times of or sure whatever we could play live would be all you would hear. For audio however, I think it really adds to have these extra colours & effects to bring the song alive & make it more picturesque, since you have no visual group in front of you. (-Amen! Sounds great! -A happy medium!)

BACK TO SINGING & RECORDING THE MUSIC ALL TOGETHER. There are a few problems which we ran into but they are purely technical. First was sound separation which we solved partly by putting a thick quilt between the drums & the singers. The ideal would be to have a drum booth which could be easily built by a good carpenter such as Tiras Seeds. In order to have enough inputs we would need a slightly bigger mixer. However, if it is okay to add some instruments later, which are not vital to the foundation Poof the song, the mixer we have fis alright. (-Surg!)

AS FAR AS QUALITY, we of the song, the mixer we have fine to the world have if we were to record the singers & musicians separate, but the music & singing will have something very spontancous about it that recording every thing separate could never have. And timewise I think things will work out to be about the same, maybe even quicker as there will not he same, whole we much "fine-tuning" on one little part or sound or instrument voice, but on the song as a whole.

whole.
AS ARRANGERS, PRODUCERS, & TECHNICIANS we must learn to record everything simultaneously & listen to all voices & instruments together instead doing a music space & burdel

ing thereon. This was one advan-tage of the multi-track record-ing in that Jeremy & I would put the music track down first, leaving us free to concentrate on the voices & colours. AS ANY DIRECTOR, WE MUST LISTEN FIRST TO THE OVERALL PICTURE more than the particular instru-

more than the particular instru-ment which we are playing. But Glenn Miller managed to do it as did all band leaders of those days or even bands of to-day which make live perform-ances, so I'm sure the Lord will anoint us to do the same.

(-<u>Amen!</u>)
IT WILL JUST TAKE US A
LOT MORE REHEARSAL
TIME BEFOREHAND to make ure all is working together for

preparation for video & TV

(-Amen!) & will create a vacuum for the Lord to pour down
His Spirit even more, since in unity there is great strength.
SO ITRIED IT & ILIKED
IT & pray that this report gives you some insight as to what we are doing here. Please forgive us for not sticking to this counsel which you gave us so long ago & for "presuming" that you understood that we were doing things the way that we were. I pray the Lord will make us more humble, obedient servants in the future & that you will forgive us for these past mistakes. MY FIRST IMPRESSION
COMING TO LOVEVILLE
IS EASILY DESCRIBED: Like
coming to Heaven! Because I
already knew nearly everybody
there with few exceptions &
I never imagined that we would
meet again before Jesus came
back! So you can imagine what
a surprise it was. Some of the
people like Zach & Lydia,
Phoebe, Michael & Patience, I
hadn't seen for over 6 years!
What a reunion after all these
years!

What a reunion after all these years!
SEEING TRACY & JOAN & THEIR CHILDREN WAS SUCH A BLESSING, especially after all the help & encouragement they were to us in France. And not to forget "Bouncy" Windy, she is so precious, tool Meeting Paul & Marianne felt so good. They are such a sample

of your love & concern. They are surely ruling the camp with the rod of His Love, really keeping everybody together & close to Jesus & your words. God bless them in their great task! They are so sweet!

ANOTHER THING I WANT-ED TO SHARE was how Marianne reminded me of Becky. Not only physically, but also the way she is in the spirit. Sweet, super concerned, soft, positive & simple. Both Marianne & Becky have such a great love & respect for you & it's so good to be around people like them. They really put the fear of God into you by their sample of love. Love, Obed Swedish.

strength. WLY! WLY! WLY!
XOXOXOXO!

AND JUST TO SHOW YOU
HOW MUCH I LOVE YOU,
DAD, I just had a very intimate
little session with you in the
Spirit this Sunday as I danced
for you via Juan (better known
as Mr. Soft Loving Hands) & the
video. This was such a beautiful
experience for me as I'd never
done anything like it before in
my life—just the tiny little thing
with Katrina at the beginning of
the Mexico Video when we were
trying to win back Watchman
& Katrina, but it was like nothing in comparison. This was
something I'd always fantasised
doing but never had the courage
or even a good reason to do till
now. That's what's so beautiful
about this Family. I dare say
I've done everything my dreamy
Pisces heart ever dreamed of doing, & all this for the Lord.
And I thank you, Dad, for it,
for showing us how to live &
love!

Then Juan started filming for 2 days. All our husbands practised with us giving us suggestions & encouraging us & one by one we all danced for you & the Lord. I must say that Juan is an extremely inspiring camera man for such a thing. GBHI He was so sweet to each of us! So, that was the beginning of what I hope will be more sessions with my King!

I LOVE YOU & THANK
YOU & THE LORD for those opportunities to get closer to you & love you. You don't know how inspired each one of us were to dance for you. Although many of us were nervous at first, we got such victories & it was so liberating! TYJI It really made us fall in love with each other one by one all over again too. DAD, I WANT TO ESPECIALLY THANK YOU FOR INVITING ME HERE to use my carpentry talents for MCV & the Lord's work. As you said in "Abide in Your Calling", I even was trained all my teenage years in wood & as a prodical I received 2 good years of personalised carpentry of all sorts. So PTL! I really pray for the wisdom of God in building the studio, as I want It to be so inspiring to all our musicians here, "to help them to be good"! Amen!

a few points from your new Letter, "The Devil Hates Sex", & we had a great time! She's a Princess Dad, our Brunheld! I am so undeserving of such a mincess body, our side the control of such love, it's truly heaven-sent! (I only wish! had jumped into her sleeping bag years ago when we pioneered Amsterdam. I know! sure needed it. Guess we just weren't ready. Boy are we now! Ha!) PTL! She calls me her centurion, standing at her gates. We never know when duty will call her sway again, as from Greece. So we appreciate every minute God allows her presence here, she's such an inspiration.

SHE SHARED WITH ME IN
OUR BED OF LOVE, was how
most everyone at your house

been a big battle for me, as I've
been mated & know what a
blessing it is when you can share
your heart with someone

From Micah Teddybear; MCV:
THE REAL STORY OF
THIS PRODIGAL JOURNEY
ACTUALLY BEGINS SOME
YEARS AGO in Paris, toward
the end of the "Les Enfants
de Dieu" era in France. I suppose it has taken me all of this
time to realise the full effects,
good & not so good, of the experiences involved in doing
"The Bible" album. At the time
I thought it was the most fulfilling musical project! 'd ever
had the privilege to be a part of,
especially when it was to be produced just as the Paris show
group came to an end & offered the chance to continue to be
a "special case", or, at least,
not have to face the dissolution
of the music group with all the
daily departures from normalcy
I had grown accustomed to as a
band member, ambassador. & daily departures from normalcy I had grown accustomed to as a band member, ambassador, & office worker from OOTA in Costa Rica right up to that point & all the way back to the "Gypsy Band" before!

THE THOUGHT OF TRYING TO MAKE IT ON MY OWN without some kind of band, group, special ministry, or something just scared me to death—seriously! So I convinced myself

or we convinced ourselves, I guess, that the lavish production & WE ALL LEARNED VALUarrangement of the music & WE ALL LEARNED VALUABLE LESSONS throughout the project from some of the Lord's Will, & never really heard anything to the contrary from Rachel & Co, unfortunately.

Micah Yeddybear, happy to be back

en nea open seeing who wanted to have an F Fing team living in her Home.

I REALLY SHOULD SAY that for years & through many of these situations, the fact that I've never been a very good litnesser always weighed heavy on me. (Actually, I've never even been a "poor" litnesser; disastrous might be a better choice of words! Jeremy & I used to go out together in London to console each others' feelings after litnessing for 3 or 4 hours steadily & getting out 8 pieces—between us!) When the answer to the endless financial problems of those days was "you're not out on the streets enough!", it was often enough to put me, spiritually, at the door with suitcase in hand & only my wife helped me stick it out & remember that the Lord still loved me.

ing the same conclusions & fears.
When I got back from London for the last time, I just couldn't face the old routine & was on the verge of a breakdown out of fear, & condemnation for having those fears, etc.
THANK GOD, HOWEVER, THAT THE FF SERIES HAD BEEN COMING OUT for some time & Joanna & I had some encouraging FF experiences behind us because at that time a couple wrote to us offering us a chance to join them in San Sebastian. Spain to pioneer a new work.
WE, OF COURSE, PRESUM-ED IT WOULD BE AN FFING HOME because of San Sebastian & Biarrity proximity to each other & our knowledge of French & Spanish, but after we packed & left Paris in a flash, we found that the couple didn't really believe in FFing, & what they wanted was someone to help make money, bar singing!
WE STAYED FOR A COUPLE OF MONTHS but eventually accepted an offer from dear Carlos in Madrid to go to Granada & live with a middle-aged woman he had been seeing who wanted to have an FFing team living in her Home.

I REALLY SHOULD SAY that for years & through many for the last time of pioneering the cosmopolitan Marbella, Spain, I wonders with the wanted was someone to realising that the growing accepted an offer from dear Carlos in Madrid to go to Granada & live with a middle-aged woman he had been seeing who wanted to have an FFing team living in her Home.

I REALLY SHOULD SAY that for years & through many for the fact that many times I was bringing in the bulk of the home's into that many times I was bringing in the bulk of the home's into the fact th OVER LIT STATS & financial problems, in spite of the fact that many times I was bringing in the bulk of the home's income, finally weakened me to where I began to look forward to going out alone to play at clubs so that I could have a little time to escape from the pressures of the Home.

SOON THOUGH, AS DRINKS WERE FREE FOR THE SING-ER, I WAS HAVING A FEW TOO MANY occasionally & I began to accept tha offer of a cigarette now & then, always joking "my wife would kill me if she knewl" so that if Joanna did come out one night, no one would offer me a cigarette one would offer me a cigarette!

FOR THE NEXT FEW YEARS, including a successful time of pioneering the cosmopolitan Marbella, Spain, I wondered why the Lord didn't allow someone to "catch" me (almost hoping they would, to put an end to my charadel) or allow some "judgement" to fall on me, not realising that the growing sense of isolation from my loved-ones & the Family itself were the judgements I was pronouncing on myself.

called a couple more times & finally with a message from Dad himself with so much love & concern for us that I began to feel that perhaps there was hope for me in God's mercy & maybe with a new start, if the Family could still use me & Dad still loved me—maybe we would leave it all behind & accept a new mission from the Lord.

I CANT SAY I LEFT ALL MY SHORTCOMINGS BEHIND, but the Lord has delivered me from the sins which plagued me & has given me such fulfillment here in so many ways that I can only say how wonderful it is to feel a part of God's plan again! It's like someone told me once, "If you don't feel close to the Lord, it's not Him that moved!"

GRANTED, THE FAMILY HAS CHANGED A GREAT DEAL & is slways changing—but the greatest comfort & liberation was to find that the Lord was standing & waiting for me with arms outstretched to love me & welcome me back into His fold as soon as I admitted it was what I wanted.

TESTIMONY OF THE CHILDREN'S RECORDING OF CHRISTMAS SONGS AT MWM by Michael & Windy

HUYSH & are so thankful for you, for Him, & all the many, many blessings He gives to us every moment of every day, ITL: IY for all your encouraging & ever-helpful messages & suggestions that always keep the way clear & bright & helps the projects come out right: Hallelujah:

projects come out right! Hallelujah!

As you asked, we're happy to write down
all that went into the making of the tape
"Christmas Praises". Having reached our
destination, it was quite something to
look back & to see all the territory that
was covered (we were amazed ourselves) &
although it was a lot of work, it was a
lot of fun too, full of His oil of gladness. As you said, "Christmas is really
for children" (949:2) & His love for His
children was certainly present & manifest
in recording these songs.

Me'll try to write it in such a way as

in recording these songs.

Me'll try to write it in such a way as to show how each step flowed into the next at each stage. First there was the preparation. You sent us books & song sheets of Christmas material & a message for us to make a rough tape of them. Soon returned to us were 7 chosen carols to start recording % a request for another rough tape of all the material on hand. After you sent us a list of selected carols, a message came with a suggestion that the musicians stir up their song writing talent, as the system's selection is quite limited % often needs changes in words % even melody. PTL! The results were 9 new Christmas songs from Michael & Patience, Angelo, Paul Michael & Suzanne, Windy, Peter Polish, Chris & Rose, % even the children, Armendria & Imana.

In preparing to practice with the child-

In preparing to practice with the child-ren, Windy learned the songs, % with the system carols, obvious word corrections had to be made, melodies sometimes alter-ed, % Michael would make sure the chords were in line with the Family musical sound, as some of them had a churchy or "old" flavour to them. TIL for the wisdom of God & your observations that helped to fine tune each one of these songs.

The children chosen to sing on the tape were: Dicon, 13, Heidi, 12, Armendria, 9, Mene, 94, Koa, 9, & Patrick, 9, - these 6 presenting the principle singers A choral group. Celeste, 7, as a soloist sang 3 solos, which she learned by listening to them over 8 over on a cassette. We found

it to be very helpful to put the song on cassette for younger children so that they can absorb the melody A words. And finally Mat, 7, our dear little Taurus, came as a guest soloist to sing the verse about the cow on "Jesus, Our Saviour, Kind and Good."!!

came as a guest soloist to sing the verse about the cow on "asus, Our Saviour, Kind and Good."!!

Now began the practice time, Mindy would go with the 6 children to the studio where the quiet atmosphere helped to get the children "in the mond" for concentration A work, Each of the children had a special notebook A pen for the project A sat on individual stools A straight-back chairs, as lounge or easy chairs tended to encourage a sleepy A lackadasical attitude. The songs were usually introduced in groups of 5 at a time; a combination of a balance of easier ones with more difficult songs.

To begin with, we would have them write out the words to each new song, as this helped them to remember the words. Making sure everyone understood the words A their pronunciation. We would then introduce the melody of the song on the piano, finding out the best key for their voices. After they knew the melody & the rhythm fairly well, we practiced the rest of the time with them using only a guitar. Even if the song was to eventually have a lead part, or fewer children would be used to sing it, it helped for unity A inspiration for all the children to learn the song together, just as we were all to sing it together out witnessing. It is important not to expect too much at first, but just have a good time getting acquainted with each niece, & when practicing the more difficult parts, not to go over them gog many times. As soon as the correct melody and rhythm of one song was established, we went on to the next, using the same procedure. The easier ones naturally they learned quickly, leaving more time for the more challenging songs. This introductory practice usually took one morning session.

In the afternoon session of the same day, Michael together with Windy would decide on the word arrannement. (ie: who

practice usually took one morning session. In the afternoon session of the same day, Michael together with Windy would decide on the vocal arrangement, (ie: who would sing choral lead Aharmony vocal parts, musical intros & endings.) Me found, with the help of Jeremy, that in order to keep the song interesting, it is important to intersperse the chorus with a strong lead & change the lead vocalist if need be. Each song being individual, it is important to give the song it's own

character, lest all that "beautiful chorus start sounding monotonous". Dad has covered this point over å over again in the Letters. See "Inspired Songs", "Sock It To Me" etc. At this practice we would work on preparing the songs for the recording performance, teaching the children to blend their voices by listening to one another. On the faster, more bubbly songs they had to be reminded to sing with power å conviction but not to get "shouty". Out street singing they have been taught to project their voices, however, sometimes it was to a fault å turned to shouting more than singing. As we get to know the children, we find that each of them has their own special texture å vocal talents! Armendria has a real gift, not just as a soloist, but also for learning the harmony parts å picking them up quickly. She was joined by bicon to from the harmony section. Heidi, a strong leading voice, does well with the songs involving fast, quick notes å wording, whereas Mene excells in handling the slow, meaningful melodies, Patrick has a sweet voice that blends in to help round the overall sound, & Koa helped to add an extra amount of umph!

We would then place the children in sections: the harmony section to teacher.

voice that blends in to help round the overall sound, & Koa helped to add an extra amount of umph."

We would then place the children in sections; the harmony section together & the others forming the melody section. Many children, as well as adults, have a hard time continuing with the melody of a song if they hear another individual singing harmony. So we found that putting them in sections really helped, even if it was only a few feet away. Me would then practice with the harmony section alone on their part & then add the melody to see if all could sing together. This seemed to work quite well & we kept with this formula throughout the recording. It is very important that all children know the melody well first before adding harmony. It may seem to take a little longer but it is well worth it in the end. If harmony was not natural or really needed then we just dropped it & just sang a good strong unison which is also very effective, varying according to the song's need. We would now practice the songs just as if recording them. "1-2-3" musical intro and sing straight through each song. — Peter Polish was also at this session (our talented acoustic guitar player) & with his harmonlous personality, would work together with Windy to form the basic musical accompaniment, Michael piloted the children's singing as their director through the recordings with a baton & inspiring gesticulations!

Some inspiring results came about when quiving the children a chance to oet their 874

Some inspiring results came about when giving the children a chance to get their own ideas for vocal arrangements & effects

when asking them in all sincerity what they feel about a specific part, it's surprising how much they put into it, GBT: Their quick flexible minds came up with some fresh thoughts that really enhanced some parts: If no additional practice was necessary, the next day would be recording day; deremy had been popping in every so often during the practice sessions to see how it was coming along. It's like the children were the students, Michael & Windy the teachers, & Jeremy the headmaster, or principal, checking up on the classroom! Now with the recording taking place, he was at the controls, giving suggestions to help improve the musical & vocal arrangements. After much rehearsal, going over & over the songs, Jeremy would remind the children before each take to think about the words, as mentioned in "Sing Io Somebody". "Do all this & think of all these things when you're practicing, but when you get up there before that audience forget the whole thing & just sing to them direct from your heart with real emotion & inspiration! - If you'll just practice the technicalities enough, they will just come naturally without thinking about them while you're singing."

With the others in the thick of the battle, Jeremy was able, at his position on the other side of the window, to see, hear & observe things that we didn't catch, thus keeping us in check in many points, such as playing with soft loving hands, & giving a whole-souled, whole-hearted performance. "Sing from your heart, think only about them & the message you're trying to give them. - You've got to really sing & play & speak from your heart, think only about them & the message you're trying to give them. - You've got to really sing & play & speak from your heart in the tiect to their heart & know they're there & know they're listening." (Sing To Somebody). We always asked each one individually what they thought of their performance & waited for an answer from all. This mature handling of their feelings & considering their opinions always bore good fruit.

Me would

We would aim for all the prepared songs to be recorded within one day, 8 TIL, this usually happened. The following day would be used for musical effects, or the beginning of the recording of a new batch of songs. On the average, within 6 days, 10 songs would be recorded complete, TVJ.

As mentioned before, the schedule was respected & TTL for it. After a good devotional time, we were in the studio at 10:30 a.m. At 1:00 p.m. we would stop & make sure that the children ate a good

lunch, followed by a nap. We were back at the studio by 4:00 p.m. (GB mummy Marianne who suggested we have healthy afternoon snacks on hand & fruit juices for them.) At 7:00 p.m. we would finish. Being on the adult production schedule, bed-time was earlier during this period for they needed extra sleep, but they didn't seem to mind as they obviously felt that this was their own special project & showed individual initiative & willingness to see it through. In the beginning, however, we were

initiative & willingness to see it through.

In the beginning, however, we were having a problem with disrespect & a non-chalant attitude from some of the older children which was affecting the whole group. Paul then gathered the children together for a serious talk, telling them that they were not indispensable & that he knew of other children who would love to come & appreciate doing this project. The promise of shames for shamers & shines for shiners was emphasized & enforced. This talk was a turning point, & as a result there flowed a lot more love, unity, fun & fruitfulness: It instilled them with a fresh clear & clean fear of the Lord & an attitude to work, considering it a privilege & not take their

talents for granted, - that they were God-given. At the end of the project they went on an all-day island excursion, a reward promised for diligent work. GBI for yielding to this greater victory in their lives!

PTL, we're certainly glad in whatever way we could to help bring this wonderful project to birth: TYJ: "Me've got a lot to be thankful for, but we've still got a lot to do!: And what a wonderful Family to do it all with! Hallelujah: TYJ!

147 ANOTHER YEAR IS DAWNING

Meet Simon Peter's Grandmother: The "Polluh Team's" account of their last trip to Poland & their meeting with Simon Peter's Grandmother!—As told on video!

The "Polish Team's" account of their last Simon Peter's Grandmool Paul: Now I'd like to introduce to you Peter & Stephen of the famous "Polish Team". Neither one of them is Polish so I don't know mhy we call them the "Polish Team, but I guess it's because they were there for 28 years before coming here to Music Mith Meaning. In any case they've just come back from Poland from a 1-week trip where they went back to pick up their belongings & so forth. Before they left Simon Peter said, "look, I don't know if you knew, but I have some parentage in Poland as my ancestors came from there and I have an address of this lady who is my grandmother In Marsaw, and do you think you could go & check if she's still there & maybe since you speak Polish you could talk to her and try to find out a little bit more about my family tree & so forth." So we thought that maybe we could put this on video for the sake of adding a little more flavour to our dear Simon Peter & to get to know him & his family a little more. So I'll pass the mike to Peter.

Peter: So, Stephen & I, after spending a beautiful month's time in Greece recording, took off for Poland for a week & we were quite shocked to see that it had gotten even worse than when we had been there quite shocked to see that it had gotten even worse than when we had been there the Lord did a wonderful "little" miracle of supplying us with 250 grams of butter:

the Lord did a wonderful "little" miracle of supplying us with 250 grams of butter: Stephen: Yes; We had found some bread, but it was a little dry, & so we were hunting around for something to put on it. We found a shop with a long line of people queuing for their monthly ration of butter which you can only purchase with a ration card, of course we didn't have a ration card, of course we didn't have a ration card, so by faith we stood in line for quite some time, and then at last when we got to the counter. the lady said, "Ne, serry! No card, no butter!" Well we put on our charm & acted like naive tourists, but I think she felt a little pressured by the other customers. Suddenly, a man in the queu started shouting and complaining that we were holding up the line & this made the woman really mad. She really stood up for us & socked it to his: "What are you complaining about?" she said, "You have your ration card, but these poor boys have no card & have to beg!" Then she called us to the other side of the shop & gave us some butter under the counter! GBM!

Peter: The reason why we went to Poland

to friends which was quite a heartbreaking scene. We also bought 2 big tents that we live in here now at the Campground, which was quite a miracle because the Lord spared us from having to pay 80% tax on the tents at the last minute at the air port, when we didn't have any extra money with us!

at the last minute at the air port, when we didn't have any extra money with us!

After being there 2 days we took a taxi outside town to where Simon Peter's grandmother lived. It was way out in the sticks, a finally the taxi driver found it after going back a forth down back roads a alleys! I stayed in the taxi while Steve went in to see if Grandma was still alive or if she was still living at this address.

Stephen: When I came to the house the 1st person I met was a woman called Sabine who has been taking care of Simon's grandmother for 12 years. She greeted me & I asked her for "Chris" grandmother. I had to remember took me around to the back of the house where Simon's grandmother lives alone in a little tiny room with kitchen & bathroom attached. She was sitting out on the porch & as I came around I had a letter in my hand from "Chris" a I came up to her with a smile & said, "This is from your grandson, christ"! I said it in Polish but as she hadn't had a visitor for years & years & was so shocked to see me standing there, the lst impression she got was that I was "Chris", because I also was a tall Englishman & I've heard that I look a little bit like him! - So that was her 1st reaction: She was very old & doddery & quite nervous, but after we spent some time with her she really calmed down & we had heautiful time of fellowship with her:

Peter: After this Steve came out to the taxi and got me & we sait in the living room

had even prayed one time & asked the Lord to take her, but, she said, "I was staying alive in the hope that I'd get some kind of news from "Chris" - Simon Peter'. After this we went over to her little residence. This house in which she is staying was the same house in which she is staying was the same house in which she her husbond "Emil" used to live. This was the house in which he wrote a book about his life that was dedicated to Simon Peter with the hope that he would always be a fighter for freedom. Emil died I7 years ago of a heart attack & he was a freedom fighter & a leader of the Polish Underground Resistance during the 2nd Morld War. Grandma was a little reluctant to give too much information about him because she was afraid of the Secret Police or somebody getting ahold of the tape, but she did tell us that during the War the Germans had taken 105 million zlottes from Poland & wanted to bring it to Germany. 30 zlottes = \$1.00, & at that time it was really a lot of money. So grandpa, Emil, organized a train robbery & took the money hack from the Germans & kept it in Poland. At Emil's funeral they had 5 cardinals & top Church guys at the funeral speaking. At the moment in Poland they are resurrecting and retelling these stories about some of their Mar heros. I guess it must be inspired by solidarity, the union, & they're telling now the true story of what really happened with these freedom flighters during the Mar. There's just been a big newspaper article in the Marsaw paper about Simon Peter's grandpa & others:

Stephm: Simon had made a cassette on which he spoke personally to his grand-

Stephen: Simon had made a cassette on which he spoke personally to his grand-mother, A told her how much he loved her, A that he was very concerned for her and praying for her, & that he would, if

possible, love to know a little bit about the history of this side of his family. We played this tape for her very slowly because she hardly remembered any English at all. She could understand a little bit & knew a few words like "God bless you" & things like that, but couldn't speak it at all. As she listened to this tape she was so very happy to hear Simon's voice & to know that he's serving the Lord: She said that she was so happy that he was not taking drugs, but was a "man of God": We had to go very slow with her as she was so delicate & so nervous; She kept apologising that she was not used to having visitors; She had brought out cakes for us, so many cakes, & she said, "I'm sorry if it's too much cause I'm not used to calculating how much to serve for how many people." She was very, very sweet & wanted to be so very helpful:

The 1st day we were with her we didn't

wanted to be so very helpful:

The 1st day we were with her we didn't have so much time, & after going through the tape very slowly it was almost like she was exhausted just from having visitors & all of this excitement. So we worked it out that we could come back another day & see her & it turned out to be a Sunday! At the same time everybody in Greece was having Sunday Fellowship, we were having fellowship, we were having fellowship with her, a good old Christian:

Peter: And so we arrived the next Sunday & after we had had cakes & cookies she pulled out an old hottle of Polish cognac that had been standing in her closet for a whole year and she was so very concerned that it was still good! She's such a humble, sweet, angelic lady! She's had a very tough life & this tough life has brought out something very sweet in her. She's a fraid that she's not good enough & doesn't want to be a burden on anybody.

want to be a burden on anybody.

Stephen: Grandma brought out her old photo albim & started to show us pictures of her life, & pictures of Simon Peter's mother that he had never seen. He had seen one picture of her once upon a time in his childhood, but he couldn't remember what she looked like! So she started showing us the pictures & telling about her life story & of the hard times her family had been through, her perents & herself & Simon Peter's mother. After the war & the Communist take-over of Poland, grandpa Emil was offered a top position in the Communist army which he refused & was sent to prison. Grandma & Simon's mother. Krystyne, was sent to Siberia as prisioners for 8 years, & she was forced to work as a car mechanic! She had learned a little bit about this from having a motor bike when she was young!

Peter: Together with Grandma was also Simon

Peter: Together with Grandma was also Simon

Peter's mother. I think she was 9 years old when she want to Siberia & she stayed in Siberia for 8 years, living very tough, All they lived on was bread & nothing else. She said it was very tough & very hard to live. Simon Peter's mother lived only to be 28

Seven with Grandme Irena years and Grandme believes that she died early as a result of being in Siberia. Also Grandme has suffered very much with rheumatism with her legs hurting badly a she believes that it's due to those eight years living in cold Siberia that those 2 things have happened.

years living in cold Siberia that those 2 things have happened.

Simon's great-grandmother & great-grandfather also had a confrontation with the Russians. They were also bourgeois & at the beginning of the revolution the Russians came in the "caretta" as she said it in Polish, "the car", & they picked up Simon Peter's great-grandfather who was the Russian consul in Marsaw. They said, "You can take with you only one child", & ne was taken to Russia & put in front of the firing squad to be executed. At the last minute he managed to pay them off & gave them all the money he had & was allowed to return to Marsaw. But the strain of the whole experience had so weakened his heart that he only lived a month & then died from a heart attack. Grandma Irena, who at this time was only 7 or 8 years old, remembers the sad farewell scene with her father at the hospital.

Stephen: As the grandmother was looking through the photos, & she had the whole pile in front of her on the table, I suddenly showed up one that showed her when she was a young woman dressed in quite a revealing gown: She grabbed it quick & tried to hold it close against her body so we couldn't see it! But we had already seen it & said. "Aha, what's

that!" And so she said, "Oh, no, no, no, he wouldn't want to see this one would he?" So she kind of let us peep at it a we said, "Oh, it's beautiful, it's really beautiful!" And that really encouraged her ā she said, "Do you think he would really want that one?" We said, "Sure, he would love it."

really want that one?" We said, "Sure, he would love it:"

Stephen: Grandma Irena also spoke very highly of Simon's Welsh grandfather Glyn, who was also an interesting man. During the lst World War he was with the "machine gun corps". They were a special elite unit that had to stay behind A hold off the enemy as long as they could with machine guns while the rest of the troops retreated; Only a literal hand-full of them made it through the war alive, 3 he was one of them. He was a very brave and good man & highly decorated, Grandma Irene said that he swore that whilst he was alive the memory of Simon's mother Krystyna, would be kept alive & her photographs wouldn't be taken down as Simon's stepmother wanted them to be. But unfortunately he died quite soon after Emil died & so Simon never got to see the pictures of his mother! Anyway, towards the end of this time that grandma was in Siberia, there came a Polish man running through the town it tilling all these Polish prisoners that "we're free, we're free! We can go back to our country!. At the time she was lying underneath a car fixing it & the Russian officer said to her, "Well, so now you're free, so will you styl here & work on my cars or will you just leave us now?" And she answered, "I don't know! We'll have to see. We'll have to see what happens!" - a very good answer!

<u>Peter</u>: After their release from Siberia they went to a Polish work camp in Pales-

Grandma Irene, Steven & Sabine who has been looking after her for 17 years. Amazing that another Sabine is now also looking after Simon himself! PTL!

tine A Simon's mother went to study at a convent in Nazareth! It was at this time that she met Simon's father, who at that time was a British officer in the Arab Legion helping to organize the Jordanian Bedouin Arabs, as the British at that time were trying to stop the Jews from forming Israel. Krystyna never got much education because she had been in Siberia from the age of 9 to 10 but she spoke 7 languages fluently & was a very brilliant woman apparently in many ways with a beautiful voice! She made a couple of 78 records, copies of which grandma gave us to take back to Simon along with her photo album. She said she wanted Simon to have it because she knew that she was going to die soon & then they would just throw it away and so she wanted it to do some good! Simon was thrilled as he had never seen photographs of his mother nor even a photo f himself when he was very young! If you look at a picture of Krystyna you can see that she has very typical refined Polish features with those high cheek bones!

that she has very typical refined Polish features with those high cheek bones!

Stephan: There was an amazing thing that grandma mentioned - how Simon's mother had been at a spiritual meeting sometime in her life & had been told that in a previous life she had been an English boman, not Polish & had been very poor and very tall & very skinny & that she was definitely English. In this life Krystyna had been studying English & spoke remarkably well & everyone was amazed at how well she spoke English! In fact she spoke so well that people couldn't believe that she was Polish! It's amazing that Simon is so tall & thin & yet in his family there's actually no one that is tall, & his mother, Krystyna, was very small! In fact his mother's Polish, his father's Welsh, but Simon is so very English!

Maybe it has something to do with this thin Englishwoman from the past!

One time when she was talking about her dead husband she kind of drifted in her thoughts & said, "tes, everytime something good is about to happen to me, my husband, Emil, always comes & visits me in my dreams". And then she kind of thought again & said, "It's funny he didn't come before you came, before the meeting with you." And then she kind of thought again a said, "lit's funny he didn't come before you came, before the meeting with you." And then she kind of laughed a little bit meharrased as though people normally would think she was crazy to say things like this, but then we said, "Oh yeah, sure he still loves you & Jesus lets him come here to see you to encourage you."

Peter: Simon Peter had mentioned that he would really like us to pray with her for

salvation. She's a Catholic & has lived quite insecure in faith. She suffers very much from rheumatism in her back & she'd had a brain tumour & she had also fallen on her head & hurt herself very much. The priest of the church she has been going to very self-righteously told her she would still have to keep coming even though she was so sick! The New Union has managed with all their strikes to get Church Services on the radio every Sunday, and so she listens to that at 9:00 a.m. every Sunday morning instead of going to church. So she said, "But the priest told me that this is not good enough, that I must come to church. But I m afraid to go to church because I will fall & will hurt myself again;" So we told her that we were sure that Jesus didn't mind her staying home as she's so old & she was so very happy to hear this! She really received us as messengers from God. & whenever she would say something that she was under condemnation about, we'd give her the answer – Love! We told her that there's a difference between law & love, we explained it to her & she really received it in spite of her old age! It was like she was given grace & finally set free from her condemnation; Also she didn't know about Eternal Salvation because when we were talking about her husband visiting her in her dreams in the spirit, we said. "Yes, & you'll see him in heaven!" She said, "I hope so' because she didn't know about Eternal Salvation. So we started explaining to her very simply how Jesus died for us & that He died because we couldn't save ourselves & only He can save us & He loves us & He forgives our past, present & future sins. Then she prayed with us to receive Jesus & then prayed for the holy Ghost also to strengthen her, & then she said, "Maybe you can also pray for my pains, I suffer so much from pains, that maybe Jesus would take them way." So we prayed for the Lord to deliver her from the pains & Maybe now that she's heard from Simon & she's got the spark of life again.

Stephen: One of the 1st things she said when we arrived & sat down to talk to her, after she got a little colm, was that she knows that she's going to go soon to he with the Lord, & she said it with such a peaceful spirit! It was very beautiful!

Peter: Also, when she said that, "Sometimes I ask the Lord to take me, but that's a sin isn't it? That's a sin to say this?" Me

said, "No, of course not! You of all people who've had such a hard life, God of course understands that you get tired sometimes & down hearted!! Apparently she's had a lot of condemnations, being raised a Catholic, & now the Lord has ministered grace unto her & given her peace in her old age!

Staphen: So we explained to her about salvation. We sat out with her in the garden & it was such a beautiful day & the birds were singing! She's living in a very nice area with big old trees all around & lots of birds, & it's very pretty, a very pretty

place: And we sat there A we tried to explain to her about the simplicity of Jesus A heing saved A asked her if she'd like to pray, A she's very old A doddery A she was not quite understanding at 1st, but finally, after going really slow with her, we ended up praying together with her A she received Jesus A Peter prayed in Polish A led her in prayer A she prayed like a little child to receive Jesus! PTL!

Peter: While we were spending the final time with her, it was Sunday A they were having Sunday Fellowship in Greece and praying for us, E that fact suddenly dawned on us, A we told her, "You know, your grandson A all his friends A our friends, they're all Christians, they all believe in Jesus! They're together in Greece right now A they're reading the Bible & singing songs just like we are!" And she looked at us & was really touched!

Stephen: When we left she was so touched, she was really touched and she looked like there was so much life in her eyes again, like she'd been visited by 2 angels. We almost felt like we were on a mission from heaven, coming all the way from Greece to love a save her. It was really nice: It was so fulfilling to go there!

COMMONWEALTHERS GO TO INDIA

FOR ALL YOU COMMONMEALTHERS MHO'D LIKE TO JOIN THE FAMILY IN INDIA, FROM ENGLAND TO INDIA YOU CAN GET AIR FLIGHTS FOR ONLY 180 POUNDS! This is only about \$350 or about 1/4 of most fares to South America! So you are not only the only ones who can go & stay there much easier, but also much cheaper! Please go to India if you can! Me already have nearly 1,000 Homes in South America where the population is only about 300 million, whereas India has nearly 700 million! Any Commonwealthers going to South America instead of India are missing a Golden Doportunity!—& maybe even your calling!

ME BELIEVE EVERY COMMONMEALTHER WHO POSSIBLY CAN SHOULD GO TO INDIA! It's an immense field where English is spoken & you are welcome & can stay as long as you like if you have good Home Support! So please don't go to South America if you can possibly go to India! South America is gonna be overcrowded with Family & already has about one of us to every 100 thousand of her people, whereas India only has about one to every 7 million!

**SO THERE'S LOTS OF ROOM IN INDIA FOR MORE FAMILY IN A BEAUTIFUL COUNTRY OF SEAUTIFUL PEOPLE!—& most of it has a beautiful warm tropical climate where costs are low, some of the cheapest in the world with houses renting for a tenth the cost of most Western countries, food extremely cheap & transportation unbelievably cheap by train!—& even servants to cook, wash, clean & care for your kids for only a few rupees a month!

you'll NEED LESS HOME SUPPORT IN INDIA THAN ALMOST ANY FIELD IN THE WORLD!—But you must have it, as most of the people are very poor & can't donate, & the Government is very disapproving of Western 'beggars'!—They have enough beggars of their own who're actually starving!—So don't go without Home Support!—But where it may cost you \$1,500 a month to live in South America, you can live in most of India for only about \$500 a month! \$500 a month!

CAN RAISE THAT LITTLE IN HOME SUPPORT by pledges from friends & SURELY YOU CAN RAISE THAT LITTLE IN HOME SUPPORT by pledges from friends & family & churches before you go!—Then keep up a good Missionary Mail Ministry from the field to keep'm giving because of all the good you're doing there!—Amen?—Even Americans & other nationalities can live there for years without problems!—& have!—Mhy not YOU! THE COMING KING OF EGYPT!—By Father David

(Condensed by Apollos) DF01066 8/10.

"GDDAHFI'S MAGIC LAMP", paragraph 28 says: "We had just been shocked by the news of Nase sudden death & were wondering why he had died at this perticularly pregnant hour in World affairs, & were pondering this while welking stowly down a derkened Paris street still asking God why, when sudd by & very unexpectedly the Spirit spoke: "That that Wicked One might be revealed."—27h.2:1-12.

"And so shall it be even as I have said, there shall yet arise one more King out of Egypt." & after him shall come he whose coming is after the working of Satan." Well, that doesn't forebode very good for whoever the next guy's going to be! How would you interpret that? Who was Sadat? It sounds like Sew sets the one more king after him, then after him this other guy. In "The Pied Piper Prophecy" in 1971, paragraphs 35-38:
"Maria: What do you shink shout Godshif? MO: He prepares the way for the King of Egypt"—now that must be really the Antichrist, hmm? Thet's what it sounds the. Prophec is not always easy to understand & interpret, but obviously he certainly wasn't preparing the way for Sadat. He was doing everything he could to prepare a way to get rid of him!

WELL THE LORD WAS PRETTY SPECIFIC THAT THERE WOULD BE ANOTHER KING BEFOI

dat. He was doing everything he could to prepare a way to get rid of him!

WELL THE LORD WAS PRETTY SPECIFIC THAT THERE WOULD BE ANOTHER KING BEFORE THE FINAL KING OF EGYPT, is the final Antichrist, which was not the king of Egypt, & that this is the one He's talking about that Godahi's going to help. It's obviously worked out that was the sure didn't halo backet. He did a little bit at first, or tried to, but Sadat wouldn't have him.

But the King of Egypt abounds to me like the Lord's talking about the Antichrist, that he comes from Egypt, the South, goes North, & comes back apparently with the Antichrist forces to fight against Egypt. those who raised him up. Daniel 11:42 says, "He shall stretch forth his hand also upon the countrier: And the land of Egypt shall not escape." Did you hear that? It's one of the countriers he stretches forth his hand upon them, it doesn't sound like he's helping the many, right? Now how can that heppen when all the rest of the countriers & even the Arab, countries mantioned there are all on the side of the Arabichits? —Ubye, Jordan & all these other places are with him, but he's against Egypt. Look what's happened. What has Egypt done under Sadat? He made peace with the enemes of the Arabs, their bitterest enemy Israel, & with-the U.S.A., the sponsor of Israel, & who really is a bitter enemy of the Arabs led by the Jews. So obviously under Sadat they got on the wrong side, & the wrong side in this sense is going to be the losing side which the Antichrist to poing to be against. So obviously the point is, as the Antichrist oping to be for or against Egypt? (Farniya; Quantil He's going to stretch forth his hand against Egypt. But he shall have power over the treasures of gold & silver, a over all the precious things of Egypt. & the Libyans & the Ethiopians shall be at his reps." (Quantil He's over all the precious things of Egypt. & the Libyans & the Ethiopians shall be at his reps." (Quantil Libyans & the Ethiopians shall be at his reps." (Quantil Libyans & the Ethiopians shall

WELL TO SUM IT ALL UP. THE ANTICHRIST IS GOING TO COME OUT OF EGYPT according to Scripture indications & Jeane Dixon & God's revelations to us, the things that God has given us specifically that he come out of Egypt. But there was to be another king that would arise before The final A.C. King of Egypt. So therefore the "one more king" before the Antichrist must have been Sadat.

So one more king of Egypt has come & gone, & as a understand it from what you've been reading, there would be one more king of Egypt before the Antichrist, before the King of Egypt, the one who is called the King of Egypt, who to me could be none other than the Antichrist himself. Now how soon he will rise out of the salves of this struggle for power we don't know, it may go back & forth for awhile.

So, it looks like things are going according to plan, PTL! It's wonderful to know the Word of God, isn't it! It's still a mystery, you don't know exactly what's going to happen, He like to keep you guessing, but still he tells you enough to give you a pretty good idea which way it's supposed to go, & it's sure going the way as showed us it was going to go, one more king of Egypt before the King of Egypt. Well, the "one more" is no more, & Goddhif, we still have with us! So it looks like it's going that way & the next will be the King! I'm very interested to see who now rises to power. Of course, between strong men sometimes there's a struggle for power, one of them then another gets control a little while. There's kind of a flux, mobile situation between them, until the strong man linelly takes over. So it may take a little while. There may be several little mincompoops who could hardly be classified as knos who will struggle with each other before the King of Egypt arises.

Sadat was truly a king, he was a pretty strong man, he ruled for eight years; I'd say he was a king. And I'm sure, according to that prophecy, he was that "one more" king. The Lord was saying as clearly as anything there was going to be one more before. whom? (Eamily: T

thing there was going to be one more before - whom? (Family: The Antichrist!) Right!

1 THINK PERHAPS IN SOME WAY S. SINCE SADAT WAS A GOOD MAN & FAVOURED CHRISTIANITY, he was in a sense sort of like the mercy of God on the Christians & a temporary blockade to the forces of the Devil & Antichrist. But since God knows the way things have to go, so Sadat had to go.

Sadat was standing in the way of prophetic fulfillment & God's chosen course for history! Right? I believe he was a very good rise. I, I think he way an idealist. I think he thought he was really gift hing to be a preceivable for it is make preceive this real. But you see, that was not God's plan, because God is not planning to give peace to I shael, nor America.

You say, "Well, what in the World's going on, anyhow? Who & God for?" Well, I'll tell vinu right new, if his propie turn against him & forget God & hermilves become idolatious & wicked & evil & evrong-doing such as America & the Christian West have durin. God will take their most wicked & evil & evrong-doing such as America & the Christian West have durin. Then the onemies of the people of God become His in-

Thanks ever so much for your loving comments in a recent RD. I too have always wished I'd golden to know you two better, but then there are the Letters which are so revealing of the nost important facets of your persons; your Love-filled service on our behalf as the Lord's own chosen Prophet and Shepherdess for this momentum time. Till

I'm imported to write you by the recent reading of "Border Bases" and other

for this momentum time. TIJ!

I'm impired to write you by the recent reading of "Border Bases" and other publications. In "BB" you have so succintly developed a very wise idea whose time has definitely come -at least down here in this part of the world. If Latin America is indeed the Continent of Hope, and if The Lord is leading us down here to be His bastion, His Gideon's Band and front line, this projected Family immigration must be orderly, prayerful, and available to those whose faith has been clearly demonstrated by their ability to raise support funds at home. "A wise king scattereth" the undeserving and weak as well as "the wicked."

I was surprised, however, by the absence of <u>Copenhages</u> and <u>Some</u> as European border bases. From experience I recollect both as being good capitals where to obtain cheap, long-haul tickets to South America and Southest Aria alike. But perhaps there are powerful reasons to exclude them. (Interesting!)

As regards Latin Aserica, I would like to respectfully subsit some suggestions. Panna any serve as a useful special border base for a couple of reasons: many ships cosing from Buroye, North America and the Par Emet stop there; and many of the cut-rate mirines plying the US/South America route (like Equatorians and Expedience Solivians) stop there. (Sounds goods)

In addition, Panna is virtually a free port where otherwise-expensive equipment may be obtained before heading on. As a field it is probabbly asturated and/or uninviting, so it would serve solely as a Border Base for the South American continent as a whole. (A possibility.)

I didn't fully understand how Valparaise qualified as a BB instead of Santiage. Its situation is not the Same as Ganyagail's which receives at least half of Semedor's international flights because it is that country's international flights because it is that country's international shading and trade center beside being its main port. Valparaiso is Chile's main semport and as such it's important but it's a good two hour drive from the Santiago airport. (Absect world yes registed)

Concerning cash funds for your first three souths, I heartily agree with the \$2000 minimm =for a family of no more then 4, however. And this amount may prove to be meanly in places like Caracas and Buenes Aires. (Ajapt') Chile's

prove to be measly in places like Caracas and Buenos Aires. (Aisht!)

It may be good to point out to those heading by air for Buenos Aires that
an angle intest to Montwideo menally adds little or nothing to their total
plane fare if they buy it all together. In other words, if they're leaving,
ear, from New York, they need to buy a ticket NT-Buenos Aires-Montevideo.
This will enable them to fly there for their first viae renewal almost for free.

Another practical idea --gain, if you're flying to B.A. from somewhere
like the US or Durope is to purchase your ticket All the way to another point
in Argentine territory, such as Mendoza, Coffedos or Barischer. Instylli Add
little or nothing to the price of a ticket ending in Buenos Aires. [For example,
from San Juan the one-way fare is 5512 to B.A., and there's absolutely no additional charge if your destination point is Mendoza or Córdoba, although you're
allowed to stoppower in B.A. as long as you want. To Bariloche there is a \$155
gurcharge) (food idea!)

struments & His tools to do His will, which is to punish His own people for their sins. Then anybody standing in the way of the enemies of God is standing in the way of God's will. You get it?

So when God gets so arrgy at His own people that He's against them & allows their enemies to desir them, it's pretty sad, huh? But when He wants to, is there enything at all going to be able to stand in His way? God could have protected Sadat, He could have had somebody etse get the bullet instead of him, mean, He could have miraculously protected him like He has Godahii & Arafat & a few other people, is: way? God could have protected Sadat, h mean, He could have miraculously protec amazing to me they've survived this long

SO HOW DID I FEEL WHEN I HEARD SADAT GOT SHOT? My immediate impression was, "Well, that's one more obstacle out of the way of progress & the course of history & prophecy, one more step on the way to war!"

I just sort of sighed a sigh of railef, well, PTL, things are really movin' along. Lord! There's one more step on the right direction, there's one more obstacle out of the way. They keep talking about obstacles of peace, Sadat was one more obstacles to war that God had to get rid of, because the wer's got to come to punish the World for its sins. It's going to come.

Well, we're one step, one men closer to the fire tonight! One more dam has broken, one more well not protection has tumbled, one more man is out of the way that stood between this World & God's judge ments, & one step closer to the End! PTL! I'm not sorry for Sadat, he's gone to his reward. I believe he loved the Lord & has probably gone to be with the Lord. Now he'll understand it all, how he was going the wrong direction & getting in God's way & God just had to remove him, & now he knows better, PTI!

The death of Sadat has brought us another step closer to the End, to the wer, to the fire, shalf's what if meant to me. Now it will be very interesting to watch the developments & see who resenant. If it's not the Anrichrist, if it's not the final King, it will probably be just some interim change & flux while they guithough the process, if God's not ready to actually reveal him. There is often a period of chaos & confusion etc. while there's a power struggle, until somebody rises that can lead & a strong man appears. And this time it'll be the last one! PTL?

I'll really be interested to me who comes up now in Egypt—it may be the little horn is going to rise now out of Egypt! I men, he's got to be revealed sometime soon. If he's going to start ruting the World by about 1986, that's only five years away! He'd almost have to become active now in politics or international feditions as a World leader, so he must be somewhere doing something now, sure

over a set of in a look a title in the Temple of God seying that he is God, right? "Then shall that is to be revealed"—The Antichrist! I are revealed in the time to jockey for power in the got struggle until the takes control, but it sounds to me from these prophecies & all we've studied, that next real leader of Egypt will be the Antichrist! And I don't think it's too soon that he should be be gypt's leader.

be Egypt's leader.

THANK YOU FOR THIS SWEET TIME OF FELLOWSHIP TOGETHER, LORD, EVEN IF IT WAS A RATHER SAD INCIDENT that accasioned it, Lord, We rejoice, Lord, that we see another sign on the road pointing the way toward the End, we're one step closer. TYJI The sooner it's over, Lord, the better! PYJI TYLI "Even so, come quickly, Lord Jesus!" That's our prayer, Lord, the sooner the End comes the sooner You come. "Even so, come quickly, Lord Jesus!" This arrangement, of course, doesn't afford them a free trip out of the country for visa renewal, but it does give them a long-distance em-going ticket within the huge Argentine country for mothing. This would be specially attractive to those considering settling is either the vineyard-rich Mendoza area, with a population of over a million and an hour-and-a-half jet flight away from B.A., or the Alpine-like Bariloche region, which is nearly three hours away.

FIRST WE WANT TO TELL YOU THAT WE AREN'T TRA-VELLING ALONE ANYMORE! A brother named Zeck & his little boy Mikey are with us & now also a couple with a year-old girl. They are Becky & Simon & little Heidl. He had been working part-time laying carpet. The Lord put it on our heerts to help them get going for God again & shart shey could be a help to us.

They didn't have a vehicle to pull their trailer & hadn't witnessed or litnessed for a while. But GBT, they have been willing to make a lot of changes & it has been a blessing to have the help & we feel it can be a testimony to other Homes as a sample of working together.

DAD & MARIA, YOUR SAMPLE OF TAKING IN PEOPLE & TRAINING THEM, in spite of your very busy schedule, has encouraged us to be willing to try to do the same. PTLI This new team has required that we once again enlarge the scope of our private family & take the necessary time to make surer they are happy & adjusting to the new situation. Living together sure helps us continue to grow & change & get a lot of victories, Hallelujah!

A COUPLE NAMED ESTER & MATHIAS CONTACTED US & asked us to visit them on our way to Houston. When they returned from Venezuela he went to finish school & now is a mechanical engineer, just starting his first job for an oil company. They hadn't had any fellowship with anyone in the Family for over a year, altho' they have been Reporting & are still faithfully training their four children & are a very good sample home. They are praying they can get a job in S.A. soon to get out of the States. We had a good time together the next morning.

ON VISITS LIKE THIS THE PARENTS REALLY APPRECIATE it when we can plan activities to get their children involved with other children, so we had good singing & inspiration with everyone involved. They gave us \$100 & the use of a credit card to use while we're still in the States. They said they want to support us monthly, & we were so encouraged by their generosity, GB'MI We stayed one night there, most of us sleeping outside in the trailers—just e-

very very special, & we are realising how special as each day we
see the Lord anointing them &

PTL! We are just finishing our second week in Mexico! When

we left the border we really prayed the Lord would give us a place of solitude for a week, to regroup & refill & have more time for the children who had all gotten some infectious sores while at the previous trailer park, & we knew we shouldn't visit other Homes until they were well.

GOING THRU THE BORDER AT RENOSA WAS EASIER than we expected, & we got our six-month visas with no problem & they just waved us thru customs. We drove to Saltillo where there are no Homes & were able to stay for free as long as we needed at a campsite which is part of a restaurant & motel with pool.

people were so receptive, so we praised the Lord to be out of the States & burning free again. We sang for two birthday parties too, where they were able to lead over 20 children to the Lord thru personal witnessing. WE PROVISIONED A LOT OF OUR NEEDS THERE. The Coca Cola Bottling Company gave us drinking water free. There were two mills in the city so we provisioned 44 kilos of whole wheat flour & have been able to share it with other Homes in the next city. We got a lot of small things we needed by going store-to-store. Also we provisioned a doctor for a check-up for me. I'm doing really well with this pregnancy & it has been a real blessing. Due date is Sept. 6th. THE KIDS SORES HEALED UP IN TWO DAYSI—With prayer, vitamins & a lot of extra work to keep everyone clean. about cleanliness & health etc., as some places are not so clean & sanitary.

WE ARE A TEAM OF FIVE ADULTS & NINE CHILDREN, with two vehicles, two trailers & a tent. It has been a real revolution working together, & a real blessing. There is always a lot to overcome daily to keep unified & keep a common vision. It takes work, like lovemaking! We are so grateful for the help with the children. Simon & Becky have become the kids' teachers, lovers & companions, & Zack is a very good handyman.

AFTER THE OTHER KIDS WERE IN BED ONE NIGHT, Jason took Becky for a walk to the pool. Then he walked her to her trailer & put his arms around her & give her a big kiss goodnight. Then he came in singing, "The hills are alive with the sound of music..." I was watching thru the window & cried to see him growing up so fast. Learning the lessons of life & love are so serious to our older little ones & they are

dren. The Moms just had a meeting to plan provisioning days to get matching outfits for all the children.

WE'VE BEEN THANKFUL

(DM July 30)

THE LAST FEW DAYS HAVE BEEN FULL OF EXCITING WITNESSING TESTIMONIES! The kids sang for the newspaper & the lady reporter was so turned on she wrote down the words to "Voy a Seguir". The same day they also sang at an orphanage & all the kids prayed with them to receive Jesus. It was the first time they had used the new Heart Skit, & the director liked it so much that afterward she went over the main points with her children. Then they had an appointment for a radio interview where the children answered questions & seng three songs, & in closing Jason was allowed to suggest that everyone in order to be happy needs to pray to receive Jesus into their hearts! It was all the kids' witness because Secundus was sick & couldn't go, so Simon took therm, & he doesn't speak Spanish. PTL! People have suggested that we go to the TV station next & we plan to as soon as Secundus is well again. The kids have also been singing in restaur-

after the songs are finished the crowd stays to talk so it's a wonderful opportunity for witnessing.

21/8/81: WE ARE NOW IN
ANOTHER CITY where we are awaiting the birth of our knew disciple. We were planning to have the beby in the previous city that we liked so much, but when we prayed the Lord definitely told us to come here, so we packed up the next day & came. It is quite obvious that one reason is that there is a large number of brethren here, whom we pray we can encourage & inspire, & we always get so inspired visiting each new Homel

BEFORE WE LEFT THE
OTHER CITY A BROTHER CALLED THE ROLD STATION & the lady was so excited to tell him for us that over 200 people had called in to comment on how they liked the songs & interview with the kids. The TV station there did a video of the kids & played it at prime time one Saturday night.

WE'VE BEEN IN THIS CITY FOR ALMOST A WEEK & the Lord is besting & taking care.

But we've realised what an important & crucial time it really is for a child who is sick. It seems that when they are sick they are a lot more susceptible to the attacks of the Enemy & really need help to fight & rebuke & resist him in Jesus name.

PATRICIA-3 HAD HAD A
COLD THAT WAS KEEPING
HER IN BED a number of days.
She wasn't so sick, but didn't feel well enough to be up & around a lot. We noticed that she started complaining about a lot of little aches & pains & itches here & there, but when we would examine her there was nothing. One morning the Lord showed us clearly it was just an outward physical manifestation of the Enamy oppressing her. So right away we prayed & she prayed to rebuke the Devil in Jesus' name, & all the aches & pains & strange itches stopped. We realised that we shouldn't have just left her to herself for these periods when she was ill.

B/9/81: WE'RE STILL WAIT.

ING FOR THE BABY, two days overdue now! It has been a new experience & blessing to be here & meet new brethren. All have been really sweet & helpful & receptive.

THE LORD HAS OPENED A LOT OF DOORS for singing & meeting the right people here.

The directors of two shopping centers have given us written permission to sing at their centers whenever we like & to pass out lit & collect donations! We also met the owner of an amusement park, Last Sunday he payed the kids 1,000 perso to sing for 20 minutes & gave them all free tickets for the rides. We had given away a lot of the whole wheat flour we had provisioned, but since we've been here the Lord supplied another 40 kilos of even better flour for free. When we ran out of honey the Lord gave us a honey contact too! The kids have been so inspired to provision & see some good movies.

Little Lord". The Lord is so good to always give them rewards for their work for Himl MOBILE SCHOOL-TIME:
This is something that is always on a mother's mind, especially with a large family, concern for whether or not the kids are all getting the school & Word time they need. Now that we have help & brethren working with us, we are trying to use this opportunity to the limit to have really consistent Word & school time.

WE ALWAYS START WITH
THE WORD, & then reading & grammer, then meth, then writing exercises. Memory & review time is done right away as soon as the kids are dressed. One at a time goes to the van where Simon is waiting for them to review & memorize with each one. It is such a relief & inspiration to see the kids daily & consistently learning & reviewing new verses. They have already gone thru three charts as they get stickers.

THE BIGGEST HELP HAS
JUST BEEN TO GET ORGAN-ISED & arrange the children's materials so that anyone could teach at least the younger children Becky teaches our Michael 1-18 months & Heidi-14 months. Mikey & Patricia, both 3, have school together. Stephen-6 & Jamie-4½ have class together.

These younger ones have about an hour or so each day that it is possible, & sometimes later in the day they enjoy having an additional science or nature lesson. I usually teach the three oldest ones-ages 7, 8 & 10.

WE REALLY TRY TO MAKE THE MOST OF THE DAYS
WE DO HAVE for school, because many times some or all of the kids are singing or helping with provisioning in the mornings & miss their schooltime. We try to schedule their litnessing time in the afternoon, especially since school is nession now. The three oldest have 2½

Workbooks are such a blessing and in helping to keep one child busy while you are helping a younger one. We plan the best we can, but almost always the Lord leads us as we go & see the kids needs & interests.

WAS BORN SEPT. 8TH PTL! It was a good delivery with only about 15 minutes of hard labour & 4 hard pushes & out popped little Christopher weighing B lb. 9 oz. Secundus was with me every minute & again my coach & a real spiritual strength to me. We really became one, especially those last few minutes before the baby was born! One thing that made it even more special was being able to have some very precious much-needed time alone with Secundus. It was heavenly! We were so thankful for Simon & Becky & Zack who took care of the seven kids for two days while I was in the hospital, along with the two of their own. That is one of the wonderful Family!

SO NOW OUR BIG HAPPY FAMILY ARE ALL TOGETHER enjoying the new baby. I can very honestly say that with each new arrival, as the kids get olde & are such a big help, it is more of a joy & delight to have a new baby, & the last four have been so much easier to care for than the first four Last to be seen that the last four have been so much easier to care for than the first four Last to the seen that the last four have been so much easier to care for than the first four Last to the seen that the last four have been so much easier to care for than the first four Last the seen seen the seen that the seen t

WELL, JUST AFTER WE WROTE ABOUT TEACHING THE KIDS HERE AT HOME the Lord showed us to put them in the public school here, even if only for a month or so. Jason, age 10, especially needed to get away from us sometimes & be around kids his own age. So a school very close took all four of the older ones. It is very good that it is only half-day. This works great for the kids helping with errands in town & also for having a short school in English. SECUNDUS ASKED ME TO MENTION what a great benefit it is to have a PR brochure, espec-

SECUNDUS ASKED ME TO MENTION what a great benefit it is to have a PR brochure, sepecially when we provision or make appointments to sing—something that explains our work without being churchy like some of our prayerletters need to be. Today we also provisioned business cards printed with the name of the children's singing group & our name & postbox. When we pioneered Finlend these were a real help in opening doors.

ZACK & MIKEY ARE NO LONGER WITH US, His wife & children showed up here & now they are gone to the States to try to get a trailer & then return to Mexico.

ON THE WAY TO THE POST TODAY we stopped to pray that there would be something special, & what a very wonderful answer to our prayer to find the letter from you, Dad & Marie & Peter, & the cheque! We could hardly believe our syes. It is really the beginning of an answer to our prayers to go South THANK YOU FOR SPOIL-ING US with such good things & the desires of our hearts which is mainly to be used by the Lord & a help to you & the Family however we can! FOR HANY OF US IT SEEMED LIKE THE IDEA OF PARTICIPATING IN THIS NEW "VISION" WAS GOING TO BE A LONG WAY OFF AT BEST, but suddenly we were seeing & hearing the videos we had been reading about for so long. It inspired us more than words can tell it made us all feel so much closer to our wonderful worldwide Family.

MELL, AFTER TIVE DAYS IT WAS OVER & WE ALL WENT BACK TO OUR FIELDS, & even though there was only one video machine between the four countries, we felt encouraged, as it seemed that the Lord was answering our prayers for equipment.

WELL, MHEN WE VISITED SRI LANKA AFTER THE SCAT, we had the faith for a video & started praying seriously about how to buy it & where. We checked to see if we could get a discount somehow, & the Lord gave us an inspiration that could save the Family thousands of dollars & make videos affordable to some poorer Homes.

IN SRI LANKA THERE IS A 555 DUTY ON VCR; in India the duty is 350%, so we had already thought of Sri Lanka as a pretty cheap place for equipment. Someone in India can buy a VCR in Sri Lanka & have it endorsed on their passport (only foreigners can do

WE FURTHER FOUND OUT THAT WE COULD HAVE EQUIPMENT HELD IN BOND IN CUSTOMS AT THE ATROORT IN SRI LANKA 6 avoid having to pay any duty at all, Sri Lanka is a one-hour flight from India, & you can go by ferry for as little as about \$20. This means that people in India could go to Sri Lanka & buy a home VCR for \$800 instead of \$3,500. The only condition is you must be a foreigner to do this, & you must take it out of the country when you go. However, this need not present a problem, as there are enough foreigners married to nationals; or, if a foreigner has to leave, he can "sell" the machine to another foreigner in the same area & have the machine placed on the other's passport.

FAMILY SFNDS KIDS TO JAPANES
From Ephesians L.A.; Japan:
DANTEL(9), SANCHO(8): \$
SETH(6) BEGAN SCHOOL HERE
IN JAPAN a month ago at a
local all-Japanese school.
Inspired by "Are Your Children Becoming One?", we
felt that since all 3 can
read & write, we would take
a break from their "normal"
education & for one year
asturate them in Japanese,
as we hope to stay here indefinitely & felt it would
be an asset & they could
hopefully become bi-lingual.
AT FIRST ME THOUGHT THAT
IF THEY LEARNED NOTHING BUT
TO READ. WRITE & SPEAK
JAPANESE, it would be worth
it all: After many, many
miracles the Lord opened
all the doors, & after our
first meating with their
teachers we were even more
turned on, as each teacher
felt that within 3 months
they would know enough
Japanese to learn such
thinge as science, social
studies etc. right along
side their fellow students.
AND AFTER ONE MONTH, I
KNOM IT'S TRUE; They are

studies etc. right along side their fellow students. AND AFTER ONE MONTH. I MOON IT'S TRUE! They are learning so quickly it's unbelievable, & they love it! It's been a tremendous blessing to all of us & a terrific testimony to all! It's also free!

LAST WEEK SANCHO BROUGHT HIS TAPE RECORDER TO SCHOOL & was playing the tape they had recorded the night before of practice songs in Japanese for street singing at lunch time, His teacher heard it & asked if he would sing to the class. Sancho, being the "star" he is, climbed on top of his teacher's deak & sang his favourites Japanese songs: "Everyboy Can Be Happy", "MHM" & "I Believe in Love". They loved it, & the teacher asked if the whole family could sing for the school before the coming holidays!

Winning Japanese Children Thru Club "THE HAPPY CHILDREN CLIB" GETS GOOD RESPONSE & LOTS OF SOULS SAVED! From Cedar, Marie & Melanic; Japan:

ME NEVER REALISED HOW EASY IT WOULD BE TO START AN "OPEN THE DOOR FOR THE CHILDREN" HIMISTRY until AN "OPEN THE DOOR FOR THE CHILDREN" MINISTRY until we tried it, & we were shocked! Besides reaching lots of souls, being an inspiration & encouragement to our queen & a testimony in our neighbourhood, it has been good for our own children in teaching them to witness & minister to kids their own ages.

WE STARTED TO GATHER OUR LITTLE "FLOCK" by going to the nearby park & witnessing & singing to all the Japanese children that would gather around our kids.

Soon we began meating them every Sunday & having little Bible stories there.

MIT IT MAS HARD TO REALLY OF TOLLOW UP ON THE KIDS until we began to have get-togethers at our Home on Sunday mornings. All the little Japanese children were just tickled pink to be invited to the foreign children's house.

WE DIDN'T WANT OUR SUNDAY

tickied pink to be intred to the foreign children's house.

**IT DIDN'T WANT OUR SUNDAY SCHOOL TO SOUND TOO RELIGIOUS, as we knew some parents would not like that. So we made it a little club-"The Happy Children Club". We put together a form letter explaining the club's activities & sent it home with each child. We simply said that we were a missionary family starting a little neighbourhood club with songs, Bible stories, skits, art projects & games, & a once-a-month birthday parry. We also said that we were teaching a little English. Well, the response was very good!

RASICALLY OUR "CLUB"
MESTINGS LAST ABOUT AN HOUR & A HALF. We start out with songs, our theme song being

THEN WE LIKE TO HAVE AN

IT'S REALLY BEEN AN INSPIRATION & LOTS OF FUN, requiring very little effort on our part. We keep getting new & better ideas all the time. ROGUES GALLERY!

WARNING: We have just gone through 2 mos. of attacks of the devil! This came about by our allowing a "sister" to stay with us. We feel it is our duty to the Family to warn them about this person as she is very dangerous. She is physically violent & even tried to kill Ephramin (my husband) with a knife! We finally had to have the police come to remove her from our home. There's no space here for the details, so I'll write a detailled report later & will send copies to WS, the VSs & you. She has a 2 year old daughter, Gabby, Please keep the child in your prayers as she is continually beaten & abused. The sister's name is Seldi Saunders (Shalom), 32 years old. EXCOMMUNICATION: This is to inform you about the excommunication of Stephen Crown alias Bedan, legal name Konstantine Markoff. He has been excommunicated 2 times, but has managed to slip back in again. His state now, however, is worse than ever, & he definitely has picked up an evil spirit. For a couple of

years he lived with a sister in Norway & it happened he got violent with her, harring her physically in front of the children, which of course made them fearful. Also, after they decided to spilt up, he has called her ugly names because she FFs, for he is insanely jealous. He also has been offending fish & friends of the Family & almost turned some of them against us. So he is generally being a bad testimony to the work. He's gotten several wernings, but has steadily grown worse. He's got a subtle way of getting people to feel sorry for him & to accept him by giving them gifts & treating them nicely for short periods of time, then turning right him by giving them gifts & treating them nicely for short periods of time, then turning right around & charging them money for it. He is into reading porno-mags, even after the Letter came out about it, & speaks about sex in a dirty way, even to new friends of the Family. This excommunication is a united agreement by all Family members in this area & even suggested by the VSs.—Eleazar Drummer (LAS), Heldi Mirscle, Caleb Norwegian, Anna Norwegian, Heldi, Ragnhild Monsen, Frankle Beryl, Norwey.

A Humorous Salvation Experience

To Jeremy, Simon Peter & 1944

18 July, 1981

Dearest Family,

GIJPNI MLYI Recently while making a tape & report of the work we have been doing here for MMN, we were inspired to write a testimony of the Lord's faithfulness to encourage other seemingly impossible endeavours, as long as we step out by faith. So far we have been able to record about a dozen good quality recordings (please tell us if they're Oki) in our simple home studio. We really will appreciate so much if you have the time to let us know if there are suggestions as to quality a methods, as we have pleas to a lot more, as this are is really budding with talent, a we have scores of songy yet to go! Thanks to the miracles & inspiration of the Lord He has helped us to put together a studio which we want to use to the greatest possible capacity. Perhaps some of this care encourage Others who may to this area, as there are so hany musicians here, some of whom have the time and paterial to record full-time. We have found by taking the steps & pooling our resources that the Lord has added his blessing & help beyond our expectations. GB bad for the Enormagement & the Call, & for the Fellowship Revolution which has blended our area together in the needed vision & cooperation. We want to share the testimony, & perhaps you might have advice & suggestions to offer that can help us & others.

Dad's call to the musicians ignited the burden for a few of us musicians, & we met together to share our songs & vision. GB Ho for his faith & fore-sight! He is a regular visitor of Hi-fi & related shops & when he found a small, portable four-track cassette recorder for sale on easy time payments he took it up by faith. He had already learned by experience the snaps & difficulties of recording in professional studios when having a late of material, to record through our experiences of recording two professional cassette about the possibility of using professional studios, but for many resons of convenience, cost, travel & the greatest "freedom of expression" we wanted to see if it would be possible for us to have our own home studio. The results have been fantastic & fully used for God's glory!

We certainly are an impossible situation here, which makes us all the more ridiculous yet God has blessed & used it, an encouraging miracle! We are a large family of 10 living in two small flats, one of which isn't even ours now, as we're awaiting the owner's possession. Yet this very thing made a vacant room possible, & the Lord has helped us to hold on to this very temporary situation long enough to really get rolling, TIL. Taking a very temtative step, Joey hung a clothes line around the walls of the room, & hung up blankets on each well. Carpetting, with thick under-carpetting, cut out the apartment noises from below. At first we put a mattress in the outside door & window of the room, but we needed the mattress for a bed, so took that down, as we have from the to time some of the blanketing, & miraculously haven't noticed it to cause any problems. Though we realise it is perhaps not the ideal situation, we really thought it would be encouraging to others that the lack of ideal conditions needn't hinder their faith! The Lord has done the extra & helped! As we are in a very congested, prolific neighborhood, there is also a constant hammering, sawing, drilling & pounding day & night, yet the Lord has helped it not to hinder, & we haven't picked it up in our recordings, almost as if it is being intercepted!

With the room set up to bedin, we were at last fare-to-fare with the technical unknown.

to hinder, & we haven't picked it up in our recordings, almost as if it is being intercepted!

With the room set up to begin, we were at last face-to-face with the technical unknowns, TTL I had enough bad experience with system producers & technicians trying to take our voices & groduce sounds & music that were not of the Lord or representative of our spirits, so I really believed it was necessary to learn the basics of this art for the sake of our future recordings. Without that machine between us & the finished product, we really prayed for the Lord to give us the understanding & ability to use it for His glory. The operating manual was very concise, but tedious! Thank God He gave the faith, though !! Just here from the sake of the sake o

Page two

The main thing we definitely needed knowledgable help with however, was the setting up of the equipment & its electrical connections. We were blessed to have counsel from some in the family who could help, but I would suggest if you're not sure, try to get help somehow, through a friend at the shop, studio, etc. & don't take thechance on ruining an expension machine if in doubt. I don't fully understand that side of things, so we were blessed to have help & lessons from people who know.

So our little home studio was born, with the simplest of preparations, & I might add, people to work withi We probably were so funny it touched the Lord's heart, because He bagan really helping us out then in so many ways...He surely knew we needed it. Our deap brother John was soon freed from his system work to join us part-time, & then full-time. & he brought with him not only technical expertise but a good deal of valuable & helpful equipment as well, The Lord blessed in many ways by providing the funds & equipment, thanks to the faith of John, Joey & Marie. & Ho & others. Since then we have used the studio daily for rusical recordings & video work, & it has helped to raise up many of the brethren to come record their songs. We're really so thankful for the blessing it is to the work here, & we hope, more & more, to MMH & all.

Now that we've begun rolling, & others are coming to visit to do their songs, we're finding it necessary to book the studio time for more even distribution of time & opportunity. We're also needing to remind musicians to come for recording with their songs as nearly completed & planned as possible. Another help has been if the main musicians have a working knowledge of the mechanics of recording, so all recording needn't be totally dependent on our over-worked technician!

Me're certainly a green bunch here, but we're finding we learn a lot from experimenting a experience, & listening! We listen to the MAM music carefully for preclous clues to technical problems, & would really appreciate so much your advice & counsel. Mould you mind if we primed the pump a bit with another more technical report? We knops if we're concise enough you will be able to quickly spot what's wrong or right or could-be-better! We love you so much & appreciate your behind-the-scenes labours of love that make the music possible! (Amen! GBY!! Know you could do !!! PTL! KGFG! WLY!)

PTL: WELL THIS MONTH HAS
BEEN AN EXCITING ONE FOR OUR
HOME. The main reason for
this of course being the
children. The Lord has opened some real "doors that no
man can shut." (Rev. 3:8)

ATTR MOVING OUT OF THE
BIG CITY here to a smaller
town, we were mainly litnessing & witnessing with
the children in surrounding
towns & singing in schools
& hospitals, which kept
their spirits alive & working for the Lord.

BUT SEVERAL MONTHS AGO WE
FELT THAT POSSIBLY THE LORD
HAD SOMETHING MORE FOR THEN
& a greater opportunity toresch people. So after having new coatumes made &
some serious rehearsing,
Shalam(8) & I went to the
big city to talk to program
directors of several T.V.
shows, asking if the kids
could perform. We picked 2
afternoon shows that we knew
were very popular & had a
big viewing audience.

WELL, BOTH DIRECTORS REALLY LIKED THE IDEA & said the
kids could get on the show.
One of them even booked the
kids on another show also,
all this without even an
audition! TIL.

SO AFTER REHEARSING EVERY
DAY FOR 2 WEEKS, the kids
& I (Marc) went on, & it
really went well. PG! It
not only inspired the local
homes & families, but after
the show a lot of people we
met on the streets & friends
commented that they really
liked it.

I WOULD ALSO LIKE TO SAY
HERE THAT THESE ARE VARIETY

really have to be chosen
well. We had Psalm 19 translated into the local language, to the tune it's

That night we received the verse, "Inasmuch as ye have done it unto the least of these my brethren, ye have done it unto Me." PTL! From Sabine,
HELLOI GOD BLESS
YOU! My name is Sabine, I'm
one of the violinists here at
MWM & I want to tell you
about the very inspiring, fruitful visit of my parents here in
"Loveville".
FIRST, ABOUT THEIR
BACKGROUND: I remember
my childhood as a very happy
time. Although my parents
were not saved, they brought
me up in a quiet Godly way.
They taught me Bible stories,
to play music, drawing, sewing,
helping in house & garden, &
they tried to protect me from
bad system influences like T.V.
& magazines (like Stern Magazine, etcl). They also taught
us that sex was good & even let
me invite my boyfriends home
for the night. Also, they gave us,
my brother, my sister & I,
healthful good food to eat
(without white sugar, etc.).
I remember "Music Weeks"
when many different musician

(without white sugar, etc.).
I remember "Music Weeks"
when many different musician
friends came together, camping
in the garden, playing music all
day long. (We also had dishwashing & cooking schedules,
Ha!).
SO, IN A WAY, THEY
TRIEDTO CREATE A PHYSICAL PARADISE behind the
walls of our garden, but without
the Lord it did not work &
they could not be happy.
WHEN MY BROTHER, MY
SISTER & I STARTED DOUBTING THEIR EFFORTS, calling
them luxuries, & leaving home,
they could not understand why
we would not follow in their
footsteps. My brother was the
first one to leave home & many
times I saw my mother at the
end of herself, asking herself if
she had brought us up wrong &
seeking mistakes in her life. The
Lord later used this to bring her
closer to Him.
WHEN I FIRST JOINED THE

During this 2-week trip we
were also able to pray with

the rest of the month, this
made our stats of 4546 Letters the highest yet for

ers of Hitler's Youth Groups, where they had learned to obey the leader without thinking. Now they feared that the same thing would happen to me. I KEPT WITNESSING TO THEM IN LETTERS & finally the Lord made them desperate about their children & they broke & asked the Lord into their hearts. I gave their address to a brother travelling through Germany & on his visit my mother received the Holy Spirit. The Lord even gave her dreams to encourage her & I noticed how she changed in her letters to me. She did not worry anymore.

noticed now ane changed in her letters to me. She did not worry anymore.

AFTER BEING 2½ YEARS IN THE FAMILY, I had a chance to visit them in Germeny. I read a few milky MOLetters with them, like "Faith & Healing", & "Stop, Look & Listen", & my mother really liked them.
WHILE I WAS BACK IN TO TURKEY, the bad publicity were hit them, & after reading letters like "The Hooker", & listening to the Jewish propegands of different magazines, they were turned off MOLetters completely & started worrying about me again!
There was nothing I could explain to them, so I just prayed for them.

There was nothing I could explain to them, so I just prayed for them.
WHEN THEY VISITED ME IN CYPRUS, & saw a sample of the Family there, they were very impressed & they loved everyone of my "friends". & thought that I was in good hands. Slowly they started trusting me again & even asked me to work out inside family oroblems & to pray for different people, etc.

BABY, MARIANNA. I explain

too proud to live for the Lord.
Although they still worried
about my future security (es-

accepted everything lovingly & said they would pray for a father for the child.

THE SECOND TIME THEY SAMPLE WAS IN GREECE, about one year ago when I lived with baby Marianna with a Family couple. My parents saw how we all helped each other's children & loved each other & they said they would like to live close to me & my "friends", because they felt so relaxed & happy around us. I witnessed to them about the coming war & always fed them spiritual principles & quotes from the Letters, which they received without knowing where they were coming from. They still were not sure about MO, but they couldn't deny the fruit!

They still were not sure about MO, but they couldn't deny the fruit!

THIS YEAR, WHEN MY
PARENTS CAME TO "LOVE-VILLE", THREE WEEKS
AFTER MY BABY JULIANNA
MAS BORN, they were completely overwhelmed with "so many sweet people living together in love". Especially my mother seemed to fit in, hugging & kissing everyone & getting free in the spirit. They were happy to see me live with Simon & Celeste & the new baby, but also for the first time they really got a vision for everyone living & working together to preach the Gospel to every creature via radio & they, understood how everybody was just a small, but very essential part of the whole operation.

MY MOTHER MENTIONED:
"The other home you lived in, disciples in Greece, were beautiful, but here is even more unity & a higher standard."
After hearing the Drama Tape, the Shows, & the Daily Might Tape, & seeing MWM videos, they were really impressed about our work here. They know it's all Dad's fruit, but they don't like to talk about it anymore. They like it here & that's what counts.

MY MOTHER TOLD ME

"SIMON REALLY AMAZES ME, how he gets all these ideas & puts these Shows together! You'd better care for him well & really inspire him!" God bless her! She really loves Simon & gave him lots of warm hugs & kisses, Hal I TOLD THEM THAT WE MIGHT BE MOVING SOUTH SOON & they said they themselves have been thinking of leaving Germany, especially after Reagan had become president. After a heavy talk about God & mammon, my father admitted how hard it would be for him to forsake his house & garden in Germany which he had been working for all his life (other than my mother who wants to leave right away). They asked me to pray for them to be able to make that move. They also offered to help the work here by buying property to set up all our caravans in whatever country we choose. AFTER A DINNER & IN-SPIRATION IN THE TAVER-NA, my mother joined in after our prayer, & thanked the Lord for allowing them to come here. She told me several times she would love to live with us if she could be of any use here, but she would not want to leave my father, who is very settled in his ways.

ON THE WAY TO THE AIR—PORT she asked again: "Couldn't you use a grandmother who takes care of the children? I could teach them to sew, cook, sing or play music!" Well, the Lord will show them how He can use them the most & how they can help His Work the best. God bless them! Please pray for them that they will come closer to the love of David & His Letters. Already they really like the Daily Might Tapes, & I'm so happy & thankful for the way the Lord has been working in their lives. GBYA! Love, Sabine.

THE PARTIES ALSO ARE AN EXCELLENT TIME FOR US TO RECRUIT TIME FOR US TO RECRUIT TO ME HORBES because we always encourage our present members to bring along their friends & families, & many of them have done this & the new visitors have signed up with us as new club members right on the snot! the spot:
FROM GREECE WE ALSO RE-

FROM GREEKE #1. NAMEN DECEDITE A LIST OF ALL THE
PEOPLE WHO HAVE WRITTEN IN
TO THE CLUB ONCE but never wrote in a second time to attail become a club member. We give them a second plug from here & send them a personal letter inviting them to our club party. We have had many of these people come & we don't think that there has been even one who hasn't signed up with us at the party once they've actually come & seen the sample of a live MM show!

SEE HOW MWM IS REACHING SO MANY DIFFERENT TYPES OF PEOPLE with so many different types of backgrounds! We have businessen, school girls, secretaries, just about every type of person you could imagine, & it's really inspiring to see quite a few of these members also coming along to our local Church of Lowe on Sundays!

IT'S INTERESTING TO NOTE THAT SINCE MM HAS STARED MERE, IN INDIA there have been a listeners who became full-time disciples coming in this city alone we have a nearly 100 members & in turn became full-time disciples coming in the short time that we have been here, & it's so winspiring to know that these or are not just "numbers" but opeople who are getting fed bacidly thru the mail, the radio show & the club parties, many of whom have

the potential to soon join as full-time disciples!

WE ALSO DO A LOT OF SCHOOL PROGRAMS & OUTREACH HERE IN THIS CITY, & we've found that this is also a really good opportunity for us to tell people about the program. We've just printed up a flier advertising MWM with a little form on the back that people can send in—se we plan to get them out by the thousands now at the different schools & to everyone we meet, & we plan to promote the show as much as we can. We always take along MWM magazines & stickers & also the cassettes which we have a chance to play in many people's homes.

WE FIND IT SO MUCH EASIER TO UTBERT SO HUCH EASIER TO HUCH E

settes which we have a chance to play in many people's homes.

ME FIND IT SO MUCH EASIER TO WITNESS AS HINSTRELS FROM MUSIC WITH MEANING, as we now have all the material to back us up. It's just a lot more inspiring to meet people this way because the MMM Show & MMM Club are really geared to their mentality, & we find it so much simpler to witness to people & talk about the Lord & to reach them thru HMM, especially in India! We've been out here for quite a while & we've tried so many different away to reach people, but found that MMM follow-up is one of the most fruitful & lasting methods with fruit that really remains & people who have come all the way in the Family-good solid remaining fruit!

AS MMM MINSTRELS ME'VE BLEM ABLE TO GET INTO A LOT OF SCHOOLS & INSTITUTIONS & PLACES where we could never have gotten in thru any other way! As a result we have been able to reach & Min thousands & thousands of souls this way! Thousands of children's lives have been saved just thru going as MYM MINSTRELS.

IT'S ALSO REALLY INSPIRING & ENCOURACING TO KNOW THAT

WITH EACH ADDRESS : EATS
NEW MEMBER THAT WE RECEIVE
FROM GREECE we have the opportunity then to witness
personally, often not only
to the members themselves
but also to their entire
families. Often when we
visit their homes the whole
family & their homes
may be get saved! Sometimes they just all gather
around us & hungrily devour
every word that we have to
say!

ME'D LIKE TO SAY HOW
THANKFUL ME ARE TO EVERYORE
WHO IS INVOLVED in this minsitry behind the scenes,
the ones who are recording,
answering the mail in Greece,
the musicians & song writers
& just everyone who is involved! We really appreciate all your labours & the
tremendous job that you're
so faithfully doing! Being
out here on the front lines
& meeting these sheep is so
very fulfilling & inspiring
because we can see just how
much they are changing &
are being fed & are receiving the witness! They are
really growing & their lives
are being changed because
of it!

WE'RE SO THANKFUL FOR OUR

members were Matthew &

city & Tim & Rachel & kids
from another city.

AT OUR FIRST MEETING, 12
listeners showed up who
got turned on by songs,
skit & message. The radio
station representative was
so turned on that she invited us to sing at their 10year anniversary for about
200 people. After singing
at the anniversary, there
were two newspaper articles
written about our songs of
love & testimony. Another
door opened as one of the
new NWM members invited us
to sing at her yearly college independence day party.
With the help of Simeon &
Trust from another city,
it was a real smash. Many
people signed up immediately when they heard that we
have a music club.

RIGHT NOW FOR OUR FIRST
MAILING, WE HAVE OVER 70

NON THAT MMM IS ROLLING HERE, we spend more time working on it, so we have cut down on our English teaching, which is our main means of support, to spend more time on this exciting ministry! So, if anyone would like to help us by sending a small donation, we would greatly appreciate it. As you pour out, He will pour in, £ you can never out-pour Him, as we have found true in this musical explosion! Any donations can be sent via your reporting office to Guy DeSantis.

would be rather difficult to have a Home there because it is very small & very poor & Conservative.

A FEW MONTHS AGO THE LORD GAVE ME THE IDEA that the way to witness to Belize is thru MHM. It is a British colony soon to be independent, & there is only one radio station in the country.

MELL. I KNEW THAT THE LORD MANTED HE TO GO THERE, so I went to Belize to see the program director of this government-owned radio station. To my pleasant surprise, I found that the person I was to talk to was a charming, beautiful young woman. She was very sheepy also. She loved the program & even confessed that she would like to be able to do something similar but that she just does not have the resources in Belize. PTL!

IT IS A REAL VICTORY TO CET THE SHOW ON THE AIR
THERE, as everyone there listens to Radio Belize because there is no television station there. Praise God! His glorious light is shining in Belize, & the simple message of love will be heard by the simple people there. It is a dark country & reminded me of what perhaps Africa must be like. I hope that MHM can change their hearts & lives. (Amen!)

WE WANT TO SEND YOU SOME

TESTIMONIES & LESSONS WE

LEARNED in the past couple

of days as we attended the

National 'Convention of

Badio Broadcasters.

ME RUSHED DOWN TO THE

CONVENTION WHERE OVER 400
RADIO STATIONS WERE REPRESENTED, & we took with us
our tapes, tape recorder,
PR MWM photo album, brochures, stickers & guitar.
Crystal put her MWM stickers
over a button, & it looked
quite official, besides
being the most beautiful
one there & in colour.
THAT SAME NIGHT WE FF-ED
TWO LAWYERS FOR THE FCC
(Federal Communications
Commission), who were really
turned on about the music,
our work & the Lord. The
Lord used them to refer us
to some other people too.
THE FOLLOWING DAY, ME
HOPED TO BE ABLE TO SOMEHOW REACH THE STATIONS EN
MASSE, but the Lord did not
lead us that way. We walked
around all day, stopping
different broadcasters to
talk to them, play our tape
for them & show them our
newly-made album where the
stats sheets impressed them
quite a bit! Most of them
requested sample demo tapes
to play for their program
directors who help make the
decisions as to what they
broadcast!

WE TALKED TO BOTH NBC &
ABC, who are now in the
process of experimenting
with asgements of music instead of only the news. They
were interested in our
music, particularly NBC, &
it seems like a big open
doon, with limitless possibilities.
QNE BROADCASTER FROM
HICHIGAN LOYED THE TAPES &
wants to play them for the
many people in Michigan with
whom he works--that could
give us 34 more stations
if they approve it. Another
man has il stations & asked
us to send a sample tape so
thathe can decide with his
people if he can use it. He
also liked the show! Many
stations(10) were interested.
THERE ARE STYPEAL LARCE
RADIO COUNTY HE CANING UP
TOO. (Ed. "heck local papers

in your area in the U.S.) And during this Movember one of the biggest conventions of all is scheduled in Buenos Aires--a hemispheric conven-tion.

THERE ARE A FEW THINGS
THAT ME MANT TO SUGGEST: Be sure to have lots & lots of colour brochures, or even black & white ones, because everyone wants to take one, as well as business cards, because wrifing down your name & address at each moment at random not only is time-consuming but very unprofessional. Generally, we found that the stations using only hard rock, jazz, big bands, black, religious & country music were not interested in our show, even as a speciality show, but that stations looking for adult contemporary music or easy listening music were more prone to be interested in our material.

If POSSIBLE, THRU THE PUBLISHED LISTS OF REPRESENTATIVES THERE, see which stations you're interested in talking with. If possible, try to provision a table, stand or booth in advance, or whatever, but some place where you can be easily reached by house phones, or at least where they can leave messages for you when they are free & want to hear the show. Another tip is to try to approach the men when they are alone, as they listen better than they do when they are in a group of even just two or three.

A MALLING LIST AVAILABLE OF ALL THE RADIO STATIONS in the U.S., if you haven't already gotten it. It can be obtained thru the NRBA, 1705 De Sales St., Suire 500, Washington, D.C. 20036. (Phone 202-4662030) We were told that the National Public Radio station might be interested particularly in our non-commercial program.

Shack Becomes Studio-With Love! -Using Japanese matting and egg cartons.

(An article that appeared in the Japanese interior decorating Magazine "My Room". The text was written by Ezra himself.)

From Ezra Milestone; Japan:

From Exre Milestone; Japan:

MY MISSION IS TO
SPREAD THE HEART OF
CHRISTIANITY THROUGH
MUSIC. Influenced by my
mother, who is a pianist, I've
been a lover of music ever since
I was a child. When I decided
to be useful to others through
this, I came to Japan with nothing but myself. Now, after 8
years, I've got my own family
& fellow members.
THIS SHACK-LOOKING
STUDIO IS VERY IMPORTANT for creation & fellowship
with my co-workers. When we
found this place where there
are still some farms, it was literally a shack. It was only a 6mat size, but it would cost a
million yen to make it into a
professional music studio. So I
decided to do it on my own
somehow, using waste material.
Although I had a knowledge of
music, it was hard work for me
with no knowledge of carpentry,
but it resulted in the super
cheap expense of only 50,000
Yen.
WHEN HAVING A HARD

cheap expense of only 50,000 Yen.

WHEN HAVING A HARD
TIME PLANNING, my eye fell on the paper egg cartons piled up on the refrigerator. After that the plan went smoothly. The cartons have become wonderful sound-proofing for the wall, combined with tatamis, (Japanese mats), which have been used in Japanese houses for a long time for a sound-proof & moisture-proof material. The mikestands are made out of water pipe & wire, the chairs are made from car seats & plastic pipe. Everything was made using waste material as wee first planned. The musical

instruments, amps, speakers, etc., were donated by church volunteer fellow-workers, which was a real help.

IN THIS VERY FIRST CAR-PENTRY WORK OF MINE, I not only got bilisters, but also got injured & had 8 stitches on my foot. Nevertheless, I'm so satisfied to have our own space. However, it is not perfect, the radiator has a hole so the air regulator is not in good condition now. I'm not in a hurry to fix it, but am thinking of repairing them in the fall. — Sent in by Melanie.

Music Cracks Closed Country

Four concerts in three days! 17 Family songs recorded!

(NE ONE DAY LAST SPRING WHEN WE WERE SINGING ON THE WALKINGSTREET of our city a man who had been distening invited us to come to his country, saying the could rainly country we have been trying to work to be there. We we say in spring bout this, as this is the country we have been trying to work to the work in the work in the bout this, as this is the country we have been trying to work to the work in t

ally we had to go down & sing another song to calm them down! For the rest of the time we were there the love letters & little gifts kept coming & kids came to the door to see us. THAT SAME FVENING AT THE CULTURE HOUSE WERE 23,000 PEOPLE. It was a more serious affair with interviews of authors, artists etc. Our singing was again very well received & we were each handed a club ensignia. On the way home in the car our friend was talking about how he believed we could do something in his country & that we & the songs really hit a key with the people.

HE SAID HE WOULD LIKE TO HELP US & maybe arrange a few "tours" now & then. Also he said how one of his friends who had been present at the concert that night works as an editor of the youth magazine as that would be a way for us to get recognition.

EARLY THE NEXT MORN-ING WE WENT TO A SMALL-ER OUTLYING TOWN where it was arranged for us to give a concert in the local movie theatre which was filled with young people for the occasion. So again we presented our program to a very receptive & thank-

ful crowd. We sang, talked about our life, answered questions & explained our songs, which by the way are all Family songs. AGAIN, THE CROWD WAS SINGING HAPPILY ALONG with us, & in the hallway they all waited to get our autographs. We were deluged with flowers, souvenirs & kisses, & after the concert we went in our, again, rose-decorated car to a beautiful local castle where we were treated to a full-course dinner with the culture representatives & movie-house director.

THIS, OUR LAST EVENING IN THIS COUNTRY, WE SPENT

movie-house director.

THIS, OUR LAST EVENING
IN THIS COUNTRY, WE SPENT
RECORDING for about 5 hours.
This was as yet another culture
house where a crew of about 5 or 6 technicians was working,
two of them professionals. They
were so sweet & humble, so
thankful for every song they
could record & afraid that we
would get tired & impatient.
But after doing the first few
songs we all realized how much
we were enjoying it, & getting
more & more inspired, we finished
17 songs!

A FRIEND WE HAVE BEEN
WRITING TO for some time
lives in the city & she also came
to listen, & the songs were a real
testimony to her. When we talked with her about how we pray
& read the Bible together at
home & about the reason for

our singing, she said, "It is so wonderful! The people here need that love so much!"—Like the voice of the goddess!

OUR TIME HERE ENDED WITH A QUIET MORNING with our friends. On our way home we stopped to thank the Lord for everything! We felt so small & amazed that He could use us in such a way, to open the doors & make it all possible even under such difficult circumstances! Even our friend who arranged everything said, "IT IS REALLY A MIRACLE HOW ALL THESE THINGS WORKED OUT!" Like it says in Isaish 43, the chapter we got before we started our trip: "When thou passest thru the waters! will be with thee, & thru the rivers they shall not overflow thee; when thou walkest thru the fire thou shalt not be burned: neither shall the flame kindle upon thee."

er shall the flame kindle upon thee."

IN ALL OF OUR LABOUR & MINISTERING BEFORE to the people of this country we have always been very cautious, both for our own security & for that of the people there. We felt that we either had to go so "low" that it would not be noticed, or so "high" that it would be accepted, as it looks like it might be possible now with this music ministry! So Lord help us to ride God's wave! (Ansea)

MWM-THAIL

From Luke; Thailand:
WE HAVE FOUND HOW
EASY IT IS TO GET FREE AIR
TIME & how great a vacuum
there is. For the past year & a
half we have tried translating the
DJ part of the MWM shows into
Thai, leaving the songs, interviews
& skits in English, using the DJs
from the two universities that
were airing the show weekly.
SINCE DAD HAS EMPHASISED THE IMPORTANCE OF SISED THE IMPORTANCE OF A SPIRIT-FILLED DJ, we are

endeavouring now to find the Lord's DJ & praying He will raise up the right national disciple for the job. The Family here believes that a music radio program could be so effective to reach each little village of which the majority own a radio, so we are unitedly doing what we can to set up a small home studio.

THE LORD ENCOURAGED
US when He used a king to lend us two reel-to-reel tape recorders & thru a provisioning contact, microphones & stands. The Family is unitedly provisioning what we can & trusting God to do the

rest to reach this field in the time we have, as Dad has warned. The studio will also be used to tape Gospel & Letter tapes in Thai for our dear Thai disciples. We are in the process of organising a faithful follow-up for those who've already heard the show & written. WE'D LIKE TO THANK THOSE who have sent donations in so far for the MVM ministry in Thailand. Please pray with us for it to get off the ground & send donations c/o your Reporting Office (cheques payable to Fred Servais). Trisl WLYI—Luke.

"If You've Got Kids, Get'm Singing!" "KID POWER" LETTER & MAM SONGS GIVE FAMILY FAITH FOR SINGING ON THE STREETS!

"KID POWER" LETTER & NAM
From Jon, British Isles:
 1 WOULD LOVE TO SHARE
WITH THE REST OF THE FAMILY
HOW THE LORD HAS BEEN REALLY BLESSING US & the children with a new singing
ministry. We are a family
of 6: Philip, Becky & their
children, Eve(5 1/2), Etoile
(3) & Justin(1), & myself,
Jon.

IT REALLY CTAPPERS

Jon.

IT REALLY STARTED WITH
MUSIC WITH MEANING. For
months now the children
have been singing for their
own inspiration & visitors.
Eve would often put together a mock HWM show complete
with "personal interview",
jokes, songs & jingles.

LEARNING "ROCKIN' ROBEN"
SET THE BALL ROLLING & became Eve's star number in
the show. Then one morning
we read Dad's Letter, "Kid
Power" & received the HMM
songbook, which finally
gave us the faith & the
push to go ahead & do it
in the streets.

THE RESULTS WERE FANTASTIC! We planned a program
in the same manner that
Dad suggested in the Letter
& put on two 15-20 minute
sessions. The response was
really encouraging, & soon
we were getting crowds of
over 100. With a captive
sudience we could even slip
in some real witnessing
songs such as "Jesus Really
Loves You".

IT WAS TEMPENDOUSLY INSPIRING TO SEE THE CROWDS:
TACES LIGHT UP as the children spread God's love thru
the songs & their own sample.

NOW WE ARE TRAVELLING TO
VARTOUS COASTAL RESORTS,
singing with the children
2 or 3 times a week, & we
are seeing what a blessing
they are. It took time &
faith to train them, but it
was really worth it. Personally, I was finding it quite i

ATTER MUCH PRAYER, we asked him if we could take the girls, as his parents are old, sickly & could not take proper care of them. He was very thankful & agreed, but was afraid his parents would never accept, as they had become very attached to the girls.

KNOWING IT WAS GOD'S HIGHEST WILL, he approached them with the idea. To his amazement they accepted it with little persussion. So, for the past two months they have been with us. It has been a real experience as they spoke no English & car

SO SO MUCH! So much has transpired in our lives over the past 6 weeks, 8 so many changes have happened that we know it was only the miracle-working power of God that has kept us. We are now writing from our new location, camping amidst God's beautiful creation. We have just spent an eventful week carevaning here to re-locate our work.

LIKE SO MANY OF CUR FAMILIES TODAY, we have been desperately seeking the Lord about His will 8 where we should go. We want to tell you the story of what God had to do to get us on the move 8 the miracles He's done for us to confirm His will \$ to lead \$ guide us. We pray that it will inspire tyour faith in His miraculous power to answer prayer \$ direct our lives \$ increase your faith to take that ist step.

AT THE BEGINNING OF JUNE AT THE BEGINNING OF JUNE WE HAD LETT OUR HOUSE & moved to a campground & started doing our Lit-Pic work from the van & careaun which our angelic friend N. had given us. By July we felt like old hats at camping, & things were rolling right along, & we broke into a new world of witnessing liberty at the campgrounds & our weakly LAF became our "LAF of Love". Ma! 25 souts got saved that month, plus we printed our wth LIN & 12 pages of new Ho Letters. The previous month we had completed "The Hem of His Garment--Stream". PG!

we started heading back to

the wind was blowing about

AS ME APPROACHED OUR CAMP

as it didn't "seem" to be that close, but 10 minutes after this--just 20 minutes after this--just 20 minutes after the First started packing—the fire was starting to engulf the campground. And when we pulled out we had 21 people (including children) in our van, & the swoke was so thick it was difficult to see or breathe! THOSE WHO WAITED TO SEE IF IT WOULD HIT THE CAMP LOST EVERTHING. & one man from Germany died sleeping in his tent. It hit so fast that within 5 minutes after we pulled out we watched the campground burn & cars explode, & within minutes it had blown 5 kilometres down the road.

IT WAS JUST LIKE "THE HOL-OCAUST" -- a fast moving bell of fire sweeping down one side of the highway, destroying swerything in its path. Another amazing thing was that the Greek people, like the Systemites in Dad's dream, were racing towards the fire-the wrong direction-to see what was happening, making it difficult for us, God's children, to get out!

THE FIRE WAS SO HOT, BE-CAUSE IT WAS FUMPED BY THE WIND like e bellows, that it actually melted a stainless steel pressure-cooker that

UP UNTIL A YEAR AGO WE WERE AT A U.S. BORDER BASE between the U.S. & Mexico, feeling more desperate all the time to get out of the U.S., but we just couldn't seem to get ahead financially because nearly everything we made went into keeping the Home going & helping to sometimes feed & house large numbers of brethren.

IN ONLY ONE MONTH OF LIT-MESSIES THE LORD CAVE US ENOUGH TO PAY BACK THE LOAN! By this time we were having car problems, \$ we saw that we really needed another wehicle. ALL THIS TIME WE HAD BEEN PREPARING TO GO TO MEXICO, but one day the Lord showed us that He was preparing us to go to South America. We were so excited! And by selling our truck & trailer we would have our fare & landing money! All we needed was some needs-such as luggage, correspondence courses for the children, etc.--& of course monthly support-

we reach Florida so that we
can then sell our truck &

THANK GOD FOR HIS PROTEC-TION & His little checks!

We really thanked the Lord that He even allowed us to get home in time to save the carevan with all of our things. We were truly some of the most fortunate ones. God had miraculously spared & protected us. That night our tired bedraggled band of refugees were generously invited to take refuge at of refugees were generous-invited to take refuge at the campground at HWM, & we were so thankful to be alive & with our Family. AS MANY OF YOU MAY HAVE READ OR HEARD ON THE NEWS

RAD OR HARD ON THE NEWS, the next 3 days the suburbs of Athens & many parts of Greece were plagued by hundreds of brush fires, & one night you could see the mountains aglow from the fires.

DURING THESE MEXT DAYS ME HAD TIME TO REFIRET ON ME HAD TIME TO REFIRET ON PAUL & Marianne. It was such a blessing to have the fellowship of the brethren there at MWM, & it was a wonderful way to end our stay in Greece. God bless them!

we had been thru the earthquake, is now the wind it the

voice was not in any of
these telling us to go on,
if we was still blessing our
work in Greece. But as Dad
says, "First the boat has
to be in motion before the
rudder can take effect."
And now that we were on the
move, God was ready to dirrect our voyage!

FOLLOWING THE COUNSEL OF
If, our very influential
friend, we visited the customs office. After 2 days
in the customs office, we
got to the top man who told
us that it would be impossible for me to keep or
drive any vehicle in the

country after the 21st of August! If I didn't want to have my vehicle confiscated by the government we would have to leave immediately & remain out of the country for 3 months!

BOOM! JUST LIKE THAT GOD CLOSED THE DOOR, & we had such peace that it was time to move on as He had definitely shut a door that no man could open (even our influential friend). It was then that all the pieces of the puzzle fell into place & God's still small voice broke thru the fire, earthquake & wind, & like Elijah of old, we heard God say, "Mhat doest thou here!"(I Kings 19:11-13)

THE LORD THEN USED A VERY SPECIFIC DREAM to confirm the place to which we had considered going. PG! With

such airaculous & supernatural leadings, we can only give God all the glory. We by no means feel that being here is the end of it all, but now that we're on the move, & after how He has so miraculously gotten us out of Greece, we have a deep-seated peace that nothing is too hard for the Lord, & we know that He'll show us the next step.

IN THE HIDST OF ALL THIS, Jay, our faithful translator, e typist & proofreader, has completed 20 pages of new TKs, plus he translated the entire "Daily Might" book & typed 5 months of it. GBH for his faithfulness to the Words.

I knew that it was impossible for man, but man's extremity is God's opportunity! And then, as I prayed, the Lord gave me an extraordinary vision as I saw 3 rays of powerful light going out of my moutth thru the wall that was separating our rooms, 6 it went to

(1-r) Liz holding Samuel, Jay, Becky with Sara, & Oliver with Christian.

From Jay, Becky, Liz & Olivier; British Isles; GBY! GIJPN! We would like to share with you some testimonies of what the Lord has been doing in our lives & the lives of others around us. When we first came together as a team, we found that in our new area the Lord was leading us to so many children. And He led us to many more thru a little incident that happened. ONE DAY SOME YOUNG GIRLS CAME TO OUR DOOR. They were collecting materials for costumes for a local festival. Oliver answered the door, & the girls asked him if he had any crepe paper. So Oliver said no, but he did have something much better—Jesus. He then sang them some songs & witnessed to them, & they prayed to receive Jesus.

So, OLIVER THEN SUGGESTED THAT THEN FRAY FOR SOME CREPE PAPER; so they prayed together that the Lord would supply some. Just then Liz came out wondering who Oliver was talking to. He explained what had happened, & Liz said, "Wait a minute; I'll have a look." She did not think we had any, but sure enough, she found some. Red was the only colour we had, but that was the exact

making well over 35 altogether. But this was not the end.

THE CHILDREN WOULD HELP US MITH SINGING APPOINTMINIST. They took it really seriously, knowing the reason why we were singing for the people. And they always stressed praying before we did anything.

AT OUR SECOND SINGING APPOINTMENT, the girls did most of our show, acting out the story of Tommy & doing a heart skit. At the end they led 66 souls to the Lord. TUJ!

THEY HAD BEEN SO EXCITED BEFORE DOING THIS SHOW that; they had practised it on their class at school, Debbie, who has been our most faithful, boldly asks the teachers if they have Jesus in their hearts, & at school she led her first soul to the Lord by herself.

ME REALLY THANK THE LORD FOR THESE PRECIOUS CHILDREN & the fruitful ministry the Lord has given us. Also, we are thankful for the many "open the door" testimonies from various Family members which gave us ideas & encouragement. PTL! (Amen! GBY!)

First Impressions From New Staff Members!

GBY & GREETINGS OF LOVE in Jesus' Nume. I love you so much & hope that this letter will tell you what I feel & experience in these last days. It's like Days of Heaven & a dream come true, as it's my greatest desire to work on the Words in English. And what a privilege to be able to be so close to you all! Thank you for letting me come! IT ALL STARTED WITH A REQUEST THAT L COULD TRANSCRIBE SOME GRAND-PA TAPES & tell my testimony on a 60-minute cassette. Being really busy at my former job! squeezed in the time, thinking that you needed some "field help" in transcribing & wanting to find out if I'm able to do this. I didn't even consider that this is what it would lead to & still am amazed about your faith in taking me into one of your most precious Units. TYJ! About two weeks later came a phone call asking me to meet Zach & Lamb who would do a video of me. Wowl It started to ring a bell, & needless to say I was flipped & haven't touched ground ever since.

BEING AT THE LIM FOR SEVERAL YEARS! Welcomed a change & especially this kind of change labide in your calling / cause I really love my work! Hallelijah! Arriving back at the house! heard that somebody else could come that very day whom I could train in my previous responsibility. Everything was happening so fast & I had about two days to "close up shop" & be on my way.

seemed to be too nice to be true. What wonderful brothers & sisters—everybody is so sweet & meek & simple that I thought, "Is this that unit which is mentioned so often in the Letters?"

I HAD SUCH A DIFFERENT
IMAGE OF IT that when I saw it I could hardly believe it!—No pretenses, nothing—just brothers & sisters working together on the Words! I fell in love with everyone of them & hope that I can become just like them—little diamonds of dust behind the scenes.

THO THEY ARE ALL "SINGLE" they all live together, &
it's the best sample of "One

convicted about it as I could never really understand how this
would work, but it works! I see
it! TYJ! I am sharing a room
with sweet Jewel, which is really
inspiring & I'm sure! will have
to learn a lot, being such an independent person, but love conquers all! PTL! We got together for prayer & went to sleep.

THE NEXT DAY! HAD A
"REST DAY" & slept long, almost to lunch-time, unpacked
my stuff, went for a walk & took
it easy! How good the Lord is

to us, providing such a beautiful place to live & work. I think I have the most beautiful room in the house. Yes, He's so good to me & seems to give me everything I desire as long as I stay faithful & obedient to His Prophet & Queen. PTLI ABOUT THE HOUSE—tho' it is really big & spacious there is nothing I see that could be called extravagant or luxurious. On the contrary, everything is kept as simple as possible so one doesn't have to invest lots of time trying to keep it clean, tho' it is spotless, & everything revolves around the Word which is the absolute priority, the only reason for being here. Breakfast, funch, dinner—everything is done so simply & yet everybody is happy & has enough. TYJI

WATCH VIDEOS. I'm just thrilled by the opportunity to watch good movies & see the Family around the world! Yesterday we saw videos from MWM & it's so this properties and the world! Pesterday we saw videos from MWM & it's so this properties. I just read with so much! I just read "Rewards" DO 962, & you sure reward your workers with everything they need, GBY, I love you so much & hope to make you happy!

I HAVE SO MUCH TO LEARN! Everybody is so devoted & dedicated to the production of the Mags, yet not overworked—"when you work you work, when you play" I GB'M! expected much more people being involved in the production of the Letters, considering the amount you put out month by month—It's surely Jesus! I just hope & pray that I can cope with the load & be a blessing to you & the Family worldwide! This is the biggest opportunity! ever had in my life & I sure want to use it for His glory!

PLEASE PRAY FOR ME & ESPECIALLY MY MINISTRY That I get a deep grasp of the English language as I need to learn so much about it - punctuation, ram this new task, to make it!

I sure must be the Lord to help me in this new task, to make it! sure must be the Lord to help me in this new task, to make it!

Again, please pray for me & my upplies today. I like to trim ever to be able to stand up against the strong wind blowing here!

Every little thing seems to be important here as it affects so many others waiting for the Words of David, & I sure don't want to be a bottleneck in the Lord's work!

I WANT TO MAKE THE BEST

& coming back relaxed work is so much fun & joy.
YESTERDAY I STARTED
WORKING ON MY FIRST DITO LETTER which I enjoy very much. Sara is such a good writer & throws in all these precious jewels experienced in living so close to our King & Queen. Hallelujah! I know the Homes are waiting to see more Dito Letters & it's such a thrill to see another one coming up. TYJ!
AT DEVOTIONS WE WATCH-ED DAD'S VIOEO ABOUT EZEKIEL 38 starting with Chapter 37 & telling us about our "David" & the real "Israel". Hallelujah! How true & fitting for me when Dad talked about the hippies getting saved & cleaned from their mess to be called out to become his people! Hugs & kisses,—Martin.

...IT'S EXACTLY A MONTH AGO that Peter, Apollos & I started the journey with great excitement looking forward to new responsibilities in His service.
TYJ! Tho' time goes by so fast here! have the feeling I'm here much longer than a month, & when! I think that about two months ago I didn't know anything about this change! can't praise the Lord enough for His surprises & blessings!—A dream of the work on the Letters in English!
TYJ!

surprises & Diessings1—A cream 3 come true as I always wanted to work on the Letters in English! TYJ!

SOMETIMES I LIE IN BED & THINK IT ALL OVER-from the time! got my first Mo Letter in 1973 till now, & how much I liked the Letters from the beginning & what influence they had on me & my life. There's just nothing to compare it with! To know that there are many more out there searching for the Truth & to know that there are many more out there searching for the Truth & to know that I found the Way & am able to share it with others thru the Letters is such a fulfillment of my life's desire, to make a better World!

where I more or less tried to inspire others to get into the Word enough, it is such a bleasing. Also, even tho' there is lots of love & affection here, there does not seem to be too much emphasis on fellowship over the work either. A quote in the Letter I just read reminded me of that, how Ded said that Maria is "more interested in the Word than in sex." ("The Lion Farm") So that makes me really happy too, to be free to devote so much time to the Word. TYJI

I DID NOT THINK I WOULD I DID NOT THINK I WOULD BE SO CLOSE TO YOU! This is what caused the biggest surprise of all—such a wonderful warm feeling. I was actually distraught sometimes thinking that I could be with you & wasn't. It made everything else husks by comparison. And to think that you have so much faith that you bring me so close...I am desperately praying that I will grow up & learn lots & develop more spiritually so I can be the blessing I need to be here. It is certainly something I do not deserve. & as

privilege. I can never thank you enough.

THE WORK! HAVE DONE
SO FAR OF LAYOUT is really challenging & funl—Creative too!
I peay! can do it right so that the Letters are a beautiful sample of your love of order & neatness. Each job here is thrilling!
So I am so thankful for the precious privilege of being one of your daughters & pray the Lord will cleanse me & help me to be fit for the King! Thank you, Marie, for allowing me to help in the "Shepherdess" ministry. God is giving me a real joy in all these things. Love & thanks forever, —Katrina

so full of conviction. He seems so happy & so fulfilled.—You can tell he loves you so very much. I'M PERSONALLY THANK-FUL THAT YOU HAVE SOME-ONE THERE TO HELP YOU who does love you so much. Typing his reports was a blessing, & I think that's why I decided to write this letter, as it showed me how interested you are in everyone in the Family. & what a true Shepherdess you are. You must be so busy! I pray for you! IT WAS ALSO SO INSPIR-ING TO HEAR DAD'S TAPES TO MWM, & we learned so much from them. The lesson about appreciating the nobodies was such a help. I hope it can be shared with the whole Family soon! The lesson on giving cred-

Because I could not justifiably account where the money went! falsified the report & said that it was never received. I'm sure the expenditures, whatever they were (& I honestly don't remember what they were), were not right & it was probably used on ourselves, the Home etc. I really can't remember. But I do ly can't remember. But I do know that if they were justified expenditures I wouldn't have

expenditures I wouldn't have hesitated to put them down. SO I CONSIDER THAT THE MONEY WAS ACTUALLY STOLEN FROM YOU & the work. I just thank the Lord that in His mercy I'm able to still confess these things to you after all these years. I guess the Lord knew that I would repent so in His mercy He's allow-

ed me to continue in His Kingdom knowing that one day 1'd
be writing this letter.
I THOUGHT OF TELLING
YOU MANY TIMES, especially
right after my demotion, but my
pride kept me from it, thinking
that you would have an even
lower opinion of me. And then
as the years went by it kept coming between the Lord & me, &
you & me. It's like the story
you told of the preacher who
smoked cigars who said that
everytime he got down to pray
that cigar came between him
& the Lord. Well, that's the
way it's been with this sin of

way it's been with this sin of mine.

ACTUALLY, AFTER I ADMITTED THESE THINGS TO
AOLA & PRIMAVERA I began to realize & face the fact that
all these years I've been pretty
much standing still in my progress & service for the Lord. Like
you said in "Old Bottles", there's
no such thing as standing still.
You're either going forwards or
backwards.

You're either going forwards or backwards.

WELL, I REALIZED THAT I'VE BEEN GOING BACK.

WANDS & backsiding without even realizing it. At times I found myself with little or no vision of what the Lord wanted me to do & feeling very useless. Because I was unwilling to admit my mistake & be exposed, I got out of touch with you & that's where I stopped. Since then I haven't been able to get back on the beam of God's perfect will & I've been going around in circles making very little real progress for the Lord.

EVEN JOEL, OUR OLDEST SON, HAD A PROBLEM WITH STEALING MONEY & LYING, & the Lord spoke to my heart so clearly as I was so approve for the lord.

& the Lord spoke to my heart so clearly as I was so angry & up-set with Joel that "ye have rob-bed God". It was so clear that his problems were only a reflec-

tion of my own sins from which I never really repented. Boy, you hit the nail on the head in those Letters, which is somethin I've never admitted. I admitted other things but never the fact that I robbed God. You were so

THIS CONFESSION IS THE THIS CONFESSION IS THE THIS CONFESSION IS THE THIS COUL-SEA RCHING that took place in all of our lives after the Justus Letters & especially after the Ho & Esther Letters. We all broke down & got reelly honest before one another & the Lord. TO BRING FORTH WORKS MEET FOR REPENTANCE, WE'RE SENDING THE ENCLOSED FUNDS as a repayment or gift to you & the work. We're going to be sending the full amount as soon as we sell our car, something which we had planned to do anyway as the beginening of our forsake-aff to get out's of this country to safer fields. The enclosed money is all we have on thand right now. I was going to wait till we had the full amount before I sent this letter, but I realized how important it was to get it in the mail as soon det possible while the Spirit of the Lord was really moving in our hearts.

I PRAY & ASK FOR YOUR FORGIVENESS FOR MY DISHONESTY, disobedience & rebelliousness. You're such a shining example of the Lord's love & mercy towards His children. I love you dearly & pray by the Lord's grace not to get off the track again.

ALTHO' I NEVER LEFT THE FAMILY PHYSICALLY, I FEEL LIKE ANOTHER PRODIGAL SON coming back to his father's house. If I can be of any greater service to you & the Lord's work or if there is anything you think I should or could do, please let me know. Thank

Please, Dad, be encouraged if it had been any "better" I don't know what my poor little body would have done!—The Spirit is so powerful! It was the first time I ever saw such a "living" sample of you & learned to love you all the more.

From Paul Theophilus:
Dear Dad & Menia,
GBAKY WELL & HEALTHY.
You're ever in our thoughts & prayers. Ben, I & my 5-year-old son Azar arrived safely at last here in this beautiful little "Garden of Eden" & wonderful island of love.

I WAS A LITTLE SICK THE MORNING AFTER THE TRAIN RIDE. I think the fumes from the diesel engine & lack of proper rest (32-hour trip) had a lot to do with it. But so much love & tender loving care soon restored me, & the sweet lingering of your loving spirit fills the air with a divine perfume. TYJ!

Thank you for that lesson too.

visit to "Loveville"):
Dad, dearest Dad, & Maria:
ILY SO SO MUCH! IT'S LATE
& WE'VE JUST WATCHED
YOUR VIDEO about Rev. 1:1.
Everybody's in bed & I'm in my
kittle tent, but I have to write
you, Dad & Maria, because...
OH DAD, DO YOU REMEMBER THAT "HIPPIE HOUSE"
you talked about in "God's Little Miracles"? Well, it seems to
me I was there! Someone that
looked a lot like you, called Zee
or Dee, was there too, with his
young girlfriend. Actually, I was
staying joust next door & I'd been
invited for the evening.
I REMEMBER YOU, OR ZEE,
WERE TALKING TO ALL OF
US, & I was really fascinated. I
don't remember the contents
Every well, except you were talking about this special relationship
of deep love you had with your
girlfriend. You even said some
thing like when you wanted to
go to the bathroom she could feel

or deep love you read with your griffriend. You even said something like when you wanted to go to the bathroom she could feel it, she understood you so well.
YOU ALSO TALKED A LOT AGAINST AMERICA which you had just left & you said they mistrrated you there, for some reason. You showed us a big pack of large photos of your commune of young people which you were apparently leading there in America. They were mostly outdoor pict, a lot in the woods, of happy hippie young people. (Americal Our FRIEND WHO WAS THE HOST THERE WAS NICKY, an American from Chicago.

THE HOST THERE WAS NICK-Y, an American from Chicago, & his wife's name was Suzy. They had a beautiful little baby hoy who was very interested in the bhotos you were showing. (I don't remember when that was, maybe 10 years ago. Anyway, it was well before! I lirst met the Family in Paris in 1973 when I met Faithy on French TV.)

THE NEXT DAY I CAME
BACK HOPING TO SEE YOU
AGAIN but you were gone. I
asked about you & for some reason they didn't tell me where
you were, like you had to hide
or something. I saw Nicky &
Suzy again, maybe 1 or 2 years
later (the year before I met the
Family) in California. They
were always so nice to me even
tho' I knew them very little.
He was the son of a very rich mar

was surprised how humble he
was & considerate. These people
must have been very special to

you!

you!
WHEN I SAW THEM AGAIN
I ASKED ABOUT "ZEE". They
said they didn't know where
you were. Then back in furape,
two months before I met the

write my diary when I let I was
going to find what I was looking
for, I met another one of that lit

BERGASTED TONIGHT WHIL WATCHING THIS VIDEO, not only by your beautiful class & your beautiful class, but also your beautiful looks, but also by realising I was a more direct fruit of you than I'd realised & that you'd witnessed to me. — Maybe a little bit like a mass: witness—we must have been 20 or 30 maybe. (R£' 675!/) WHEN I WENT TO THE STATES LATER I EVEN KEPT IN MIND THE BEAUTIFUL PHOTOS of the happy faces living in a natural way surrounded by trees. Is that possible? If it wasn't you, then there's somebody that really looks like you & talks like you & hates America & loves his young sightlieng & had a beautiful commune of young hippies in the States around 1970! Before seeing the video, I'd thought of all these similarities & thought it might have been you, but I didn't dare think it really was! (Ying syllow). All the same time I was scared on him.—Maybe the fear of God! I love you! Thank you for these beautiful videos! My dream has always been to be with you.—And now I realise I have, & I loved you at first sight.—Like in this video! (PTL' GA)! (W!) GOD BLESS YOU, IDOL-SMASHER! OH, DAD, I'D LIKE TO BE
SO SO CLOSE TO YOU! When I think that I really saw you that time in London from the back of the room where you were talking to us while we were smoking dope, telling us about Jesu's teachings! You seemed so much from another world to me, I was afraid of coming close to you, but I hungered for more of you. I remember you said you didn't smoke dope because you didn't need it. The more I think about it, the more comes back to me. And Maria came into the room from the back of the flat, & the looked like she was serving you. Yes, you said she was your secretary, but you had a very special love relationship. I love love you both & arm to thankful for you. Please take

Uriah, the VS, & Hosanna both asked me why I didn't do one, but I heaitated & I heave some skin blamishes which I didn't think would be very attractive & inspiring. A FEW DAYS LATER AT HOME AT THE LIT-PIC WE READ A ROUGH DRAFT OF "GOOD SMEPHERDS". Boy, after reading that I was determined to rise up & rattle, blamishes or no blemishes! I was just going to do it for you & the Lordl After all you had done for us, inviting us to come see the videos, the least I could do was dance for you in return as just plain gratitude! WONDER WORKING WORDS!

"I'm writing this letter just after reading the RD copy of your Letter 'To Be or Not To Be'! It' so much that I can't hold back from weeping. Please believe that I am your son & that I love you like I love Jesus. You have always been & always will be the hero of the day, the defender of the meek, & vindicator of the righteous & the Prophet of the age! My heart is broken & overflowing with joy to have read such sounding & reverberating truth! This Letter is sure to release the brethren from the chains of fear & conformity into the glorious liberty of being able to abide in our individual callings & to spread the Gospel with spirit-led witnessing! I would like to shout the victory as last night we read the Letter in a committee mtg. & it was victoriously received as a whole with many prophecies of confirmation. For the first time I felt we were really united in Spirit as we all had repentant hearts & only now want to get the job done

here before it is too late! There was much sorrow & regret expressed for all the brethren that were spritually extracized & an agreement to make apologies & every effort to bring them back into fellowship made. We're a big river now all flowing in the same direction & they are going to know that David's mighty men are here & fruit is going to be won because now we're going to roll the gold & plant the Golden Seeds so that we can reap the harvest!

GBY, Dad, for again taking the side of the little guy & speaking the truth no matter what! God help us to never forget that you will always be the sympathiser, the vindicator & defender of the faithful frontline soldiers who want to get the job done! Please forgive me for my guilt in the matter . but I know you don't want apologies!

You only want a change & some action & fruits & by God's grace that's what I'm going to do! ILY! Happy ending!"

"Thanks again for 'Refuges'! It is now almost 2 months since I arrived here from Australia. The people are so sweet A hungry for the Words! Last week at Sunday Fellowship 12 people that our small Home met came to visit..on a 3

day road trip Z50 souls were saved & 8,000 pieces of lit got out. We've gotten 22 responses in the mail from the 2 towns that we visited so far.. & the Lord's opened the door for us to do 3 puppet shows for children's TV! PTL! ILY both very much!

"I'd like to report that the 'Fellow-ship Revolution' has been the biggest life-changing force in the lives of those we know here! Many families have left their system jobs in order to get back to full-time witnessing, litnessing, provisioning & child-training! Sad to say that all the convicting & even threatening Words didn't bring as great a change as this one, which brought more fellowship, more observation & therefore more conviction to get their sample back in line with the Letters! Ha! It's hard to hide with visitors coming each week & voters looking for the most faithful! The second week of Sept. we organised a GAF camp fest in which the Lord provided 25 camp spots & enough food for 3 days! Over 60 adults & 40 children came representing Homes from a wide areal We fellowshipped, shared testimonies, had Kid Power for an entire afternoon, Mom's meetings, action committees, Communion, Come-Union & elections. It was wonderful! We also collected funds & called Miami to get a PAL video & TV!!

Tyl for this wonderful freedom! I want to give it all back & 'in love serve one another!' GBY! Love & kisses forever! Ruben & Katrina - Canada (Amen! HAL!)

When I think back on the first LAFM
meetings we attended, I can't help but
notice how so many of the couples living alone commented on how they would
like to be working together with another
couple as one unit & raising their
children with the 'One Wife' vision as
they see us doing. I know in our case
it has born a lot of fruit in the way
of our everyday conviction of living
for Jesus & obeying the Letters the

"I" To do this though, we've each had to continually forsake our own personal selfish ways & die to ourselves to do what works best for us as a body. That isn't always easy but we each wanted to do what the Lord wants first & forsake our pride.

We noticed that almost everybody is busy preparing to go to a new field! This has been very inspiring & gave us new ideas concerning ourselves as relocating a family our size with so many tiny children isn't a simple affair! Seeing & meeting so many new brethren of whom we've heard about or read about in the FN is really exciting & our faith is increasing! It is so good to have a Family!

"In the last few months the Lord has been changing my life! How important love is! My wife, Naamah, & I & our 4 children are in Europe travelling in the van the Lord miraculously supplied! For the first 2½ years on the field here we were completely absorbed in the struggle for survival, singing in restaurants & making money for our existence but not really bearing much fruit for His Kingdom.

Although we were out of the States & learning a foreign language, we always felt a bit frustrated until recently when we just got desperate & really asked God for an answer. And He gave it to us - through your precious Letters! I opened the ML Vol. 7 to 'More On Faith', paragraph 78 - 'Watch out about any compromise or pulling your punches for advantage, for finances, for protection, for safety, for anything. And bang! The Lord really began changing our lives! We were sitting in our little van parked on the street & the Lord began to speak to us through those Wonder Working Words!

Since then we decided to live the life of Love & have stopped working for money & are learning to work for the Lord!
And, as you said, 'Those days of hard living by faith were the happiest days of our lives with a family of 4 small children, a family of 6, & those days on the road, living in the car or a tiny tent or tiny trailer but serving God full-time by faith & just trusting God from day to day for our food & our gasoline & our tires & our engine repairs & our housing & most of all for places of service where we could serve the Lord & do good!' (835:54). Well, now we're learning & growing! Thank God! Lord help us to follow your sample & His Words! We love you, Dad!"

Since July I have been giving my life once again 100% in His Service. I am just so happy being whole-hearted & sharing

my life, all the way, with the brethren! In the middle of August we sent our first team to South America! We have put all our funds in one pot å are stepping out by faith! Now we are sending another team with needs å an extra month's rent to carry us through, and D.V., by the end of this month I will have raised enough funds to go too!

carry us through, and D.V.. by the end of this month I will have raised enough funds to go too!

Miracles happened after having prayer at our last DAF! I was burdened because you are mad about MWM & want us to get it to the world & asked the Lord to forgive us & help us.

Later I wanted to go FFing at a famous Hotel here. I was only there 10 minutes when there were 3 businessmen sitting beside me & to my surprise they were with radio stations & told me a Broadcasting Convention was there! They were very impressed & interested in MWM so I returned the next evening with tapes & brochures & booking cards! They liked it & filled out booking cards! They liked it & filled out booking cards for 2 stations! They treated me like a princess with nice meals & financial help for my children!

I gave them a sample of God's Love also as we all got so close. One man was having personal problems & received Jesus. He didn't want me to leave him & really wanted to be fed. All these men have become real friends! TYJ!

Three other sisters came the next 2 days of the convention to meet more contacts & were very successful. The

"GBAKY! ILYSM and wanted to tell you about an unusual thing that happened to bring me closer to the Family & to be willing to be obedient to you.

I was fished in by my husband Philippe & I was a little rebel! I didn't know exactly what the Family was all about & I didn't know why I had to follow this MO! But one day I saw the lion on the Basic 144 Book in French & at this very moment I knew my place was to serve the Lord in this Family & to obey you, His Prophet! Why?

Because when I was 3 years old, I had several dreams that I could never forget of a lion walking on his two hind legs, repairing the car of my parents & always doing good things for us. I knew that one day I would have the interpretation of this dream & that it was going to have an impact on my whole life! TyJ! 'Since the beginning ye are with

Friends Old & New Get In Touch!

DEAR FAMILY, I HOPE YOU'RE STILL AT THIS ADDRESS (GLP) but I won't get my hopes too high. I've written long letters & sent money to others in the Family, without answers.

Family, without answers. I want to see someone from the Family again please! If you have any addresses in Oklahoma or nearby, please send me them or any letters from Dad. I've been trying to find the Family again for 2 years but so far nothing. Love in Jesus, Deuel Gardner (GBY, Son! Welcome!)

DEAR FATHER, I AM WRITING TO THANK
YOU FOR YOUR INSPIRING PAMPHET, "REFUGE FROM THE STORM": Being a poor man,
I cannot afford to send you a gift but
know that you will be glad to hear
that I am praying for you. Bless the
work of thy hand that thou doest. Yours
faithfully, N. Matthews, Australia (Tha!)

ME'YE BEEN OUT OF TOUCH FOR ABOUT 3 YEARS. We kept up some contact with members of the Family. To make a long & painful story short, I (Jonathan) so ended up at the end of my rope, that I could only let go of everything, & ended up in the arms of the most wonderful love I have ever experienced. My head's been whirling & my spirit sailing with visions. The Lord has dealt with me in such a way that I must cling to utter simplicity so here goes:

I have seen the lovelight & I'm swimming towards it.
I am the prodigal trying to return home.

I am the produgal trying to return home.

Dad, I have doubted, please forgive me. Jonathan, (Welcome, Son!)

PS. I am now learning what love is, but the fear is still great. Please pray for us. Thanks. (North America)

many verses about him & his ministry!
I can't tell you how priviledged we

this time, when it really isn't nec-

But since He airlt, we don't have to wait to die å go to Heaven to find out about Father David å the things he's given to say å how important it is to the destiny of the world (Ato the Lords people in particular).

God bless all of you who have stayed on through thick å thin to keep the vision å the presses rolling. The new children coming up have your example to help guide them, by God's Grace. The very best way to"train up a child in the way he should go"so that "when he is old he will not depart from it" is to be an example -- a sample, not a sermon! (Amen!)

We are about to hit the road for the summer in preparation for going overseas. We want to litness, FF å just begin with what we have retained of our training, which ended with our backsliding in 1978. We have 4 books å extra letters above the 600's, but not many. We haven't many letters å things for the kids, å we have no tapes of music or letters å want to have what we are eligible to have of these things, if possible. We're ashamed of ourselves for laying down on the job, but we're not dwelling on it å would just as soon forget those things å hope the Lord does too, å just get back out there å fight! (Wekome Home!)

A new disciple, Debbie, å I passed out lit today at the Zoo with l of her 2 daughters, å won 2 souls! Hallelujah! So God is working here, å we really å truly want to fall immediately in line with what He has planned.

I have decided to go to South East

God will then tell me if I am to return to teaching full time, part-time
or not at all. My knowledge & talents
are at God's disposal to further His
Work. (As a point of interest I have
met your video team several times &
there was a sowing for all the Famfly in Melbourne. The testimonies
were really inspiring.) I think you
are really going to like them. Now
back to what I wanted to say. I have
wanted to go to South East Asia for
a long time. Now I also want to help
the Family there, especially in Thai-

land. Here I believe they are really over-worked & need financial help

as well.

I first met the Family about 5 or 6 years ago. I was driving around å I stopped at a traffic light å a leaflet was poked in the window just before I drove off. I thought to myself, who the hell are these cheeky people? Some weeks later I found the paper all muddled in the floor of my old car. I read it.

The Family made a few more day visits å I received more lit. I then started writing in å Ecclesia, GB her was a marvelous scribe. I visited the colony å members of the Family visited me for weekends. It was one of these weekend visits that I received Jesus-Hallelyjah! Then the colony folded. The faithfully faithful scribe went to India-but we still correspond. Sometimes months went by, but contact was never really lost.

About this time Ecclesia gave me

About this time Ecclesia gave me a leather bound copy of the Basic MO letters. In this context, the letters became clearer & more inspiring. Thank you, MO. The book was a present for the help that I had given her & the colony. I now have volume 1 & 4.

Well, I have now been in close contact with the Family again. I help wherever possible & go litnessing in Melbourne with them & attend the Sunday Fellowship & very much want to be a full member of your wonderful family. I am so happy when I leave home & drive the 75 miles to share the "Word", pray & receive such enlightening fellowship.

I depend upon you, I need your Word, I love you & Maria & feel I have known you all my life.

GBY IN JESUS' PRECIOUS

NAME! I've been thinking about writing you so often lately
to share belated lessons from
your Letter to me, "The Girl
Who Wouldn't". When the Letter was first published I was so
emotionally hit with It that I'm
sure I didn't learn half the lessons that you & the Lord were
trying to teach me, but now that
almost three years have gone by
I'm reaping deeper lessons than
ever before, TTLI
I WANT TO THANK YOU AGAIN & from my heart tell you
low much I appreciate all your
love for me & the chastening
with which you dealt with me.
After reading "Healing in His
Wings" today it spoke to me so
clearly about how just & true
are all of God's spankings. The
"flery furnace" really is God's
tool to make precious gold out
of our faith if we can only take
it. I pray so earnestly that my
eith can stand any test; trial or
chastisement He sees that I need
to make me His vessel.

I REALLY BELIEVE IF!
HADN'T BEEN CORRECTED

IN SUCH A SHOCKING WAY that my faith would have gone by the wayside. I really know now how it feels to need so muc mercy of the Lord, you & the Family, because you really realize that there's not one good thing in you & how totally you must surrander to Jesus & His loving Spirit. We will be using some of the appropriate flannelgraphs on our 'Children of Love Show' teaching tapes. For example, on the next 'Holy Spirit' program! I went to use 'The Elixir of Love' Flannelgraph, to teach about the Holy Spirit! Can hardly wailt to see the new Flannelgraph Magi! Doing these videos! I'm discovering when te well with of printed material & tapes we have to work with! Their purpose is to moni-

tor the Russiens vie spy setallites, that is, they take photographs to a highly disastiled, very olean nature). In fact, one of these stations went to 'red stert' after photographing Russian troop movements in Afghanistan. They also keep an eye on Russian military nuclear bases. These American surveillance bases would be destroyed in the event of a war, from 2 areas by multiple werhead nuclear missiles. From bases in Siberia &/ or Russian submarines based off the coast of Australia. Only one multiple werhe 'missile is needed, since e of the rockets contains 10 warheads. As far as is known 3 are tagged for Australia & the rest for S.E. Asia. (That's 1 missile with 10 werheads.) Since these American bases are in very isolated parts of Australia, the only effect of a war on Australian crities would be fallout, as it's only these bases the Russians need to knock out. HONG KONG GOOLAGONG: "Fantastic letter! It answered so meny things we had been wondering about. We desperately prayed for the house we are living in & anointed everyone with oil. We believe that the horse that kicked our 2 yr. old son was a revenging spirit as we had found out that a person who had come to live with us was diagnosed as schizophranic. We counselled with him that the simple love of Jesus was the snawer to all his problems but he totally rejected it & became violent & we prayed him out. It was a real battle in prayer. About 2 weeks after that, the animals began to change. The rooster attacked our 2 yr. old & one of the horses tried to kick Zeok & then one kicked our 2 yr. old in the head. "Dear French LIM, We are sending another request for French Word, We are so grateful to you for your faithfulness in sending some to us already. It was approximately 250 'Thoughts from MO'. 300 'Real Love', 'Daily Mights' & other MO Letters. We had given them out so fast that we have only a really few left. All of the French Word was given out to Russians, Rumanians & East Block people. I believe that behind the Iron Curtain just one little book will roll in the many hands & hearts there, not only to him with whom we shared it, but the Words will be shared with many, because the people are very, very hungry thers. Without your help we could not have reached a lot of people. The little book lets like these listed above are the best to pass through the tough borders of the Iron Curtain, instead of giving to some-body 10 different MO Letters that will look like they are going to distribute them. One little booklet will do better. Is it possible that you could send us some more as soon as possible? The sooner, the more people reached!"—Matteo by the Grace; Europe.

FREEDOM FROM FEAR:
"When I first read this letter, the
Lord really spoke to me through
it about my getting very engry
with my wife & so frustrated
with her that I would hit her,
Lord help me! This caused a real
dead end & lack of communication in our merriage. Also, our
little boy seemed disturbed at

night in his sleep & would wake up suddenly crying. We had prayed for him previous to this, but he was still having this problem sleeping! We had never related it to my problem of getting angry, ste. But on reading 'Freedom from Fear' the Lord showed me that I was being oppressed by a bad spirit & this spirit was also oppressing Samuel in his sleep, especially just like the child of the slater in 'Freedom from Fear'! So, as well as this, the 'Lord gave me James 5:14-18. Lord help me for not obeying instantly, but finally a few weeks weeks later the Lord really convicted me about my spiritual condition & relationship with my wife. Even though I was a litnessing shiner, etc. & winning many souls to the Lord, I did not have love for my wife & this was a very unyleided part of my life. Without love it profiteth nothing!' (1 Cor. 13). So I finally called for prayer & everyone in our home taid hands on me & prayed for me & rebuked the spirit oppressing. Tyd! It was such a victory & set me free immediately after prayer. I felt so much more at peace & happier, like a heavy burden had lifted from me. And our little boy has been sleeping undisturbed now. Tyd! It really broke me to realise my rebellion & sins were harming him so much, tool Lord help me! Now! 'm doing much better & don't hit my wife. GB her for sticking it out with me & for forgiving me. Ty Dad so much for all you share in the Letters, as your Letters set us free!'' ~ Ollied Witahower: Pacinc.

It showed Hannah & I how that selfish system marriage thing can cause so many problems & of course it spoke to us about having more family sex. Getting together as a Family over the Letters really puts light on the thoughts & intents of the heart. When you share them with someone other than your mate it makes you responsible to obey them in the lives of other people. When you share the Word, it makes everyone equal. TyJl (Ac. 2:44) Loyelty to Dad & Maria & the Words was a big lesson. Instead of covering for your mate, being honest, Letting go & letting God have His way with us. The theme through this letter & "Problem Cases" to me was the Words & the work first, your private relationship is not of the Lord. You need to be honest & have your life open to others. GB Dad & Maria who have let us look inside their bedroom, as did Sally, who let us walk right through her life. She's now free from having to hide it. These lessons are so needed letter."

we are learning to discuss & decide on the Lord's will together & count it a special blessing in being able to work together for His Kingdom & His children.

LIVING IN SMALL SPACES MADE US ALSO MORE AWARE OF THE CHILDREN & the training they were in need of. Besides the Dito Letters & "What is That in Thine Hand" & "New Bottles", we found the Letter "Training & Shepherding Babes" a real key Letter for us which gives specific counsel concerning the training of babes (our children) we already have, to make them more effective witnesses for the Lord...a quiet, safe, solid, long-term investment which will reap much greater & more lasting dividends in the future." (\$73*:1)

NOT LONG ATTER WE MERE ON THE ROAD, Lamb had learned to play 3 songs on the gui-tar, which we had practised with the children. We then took them out to the park & streets to sing & found it one of the best ways to get out the lit. Lamb would sing with the children, & once they had gathered a crowd with their set of 3 songs, they would hit them with the lit.

AS SOON AS EVERYONE WAS GONE ME HOULD DO IT ALL OVER AGAIN. We found this a good way, giving the children conviction, reaching the people thru songs and the Word. Our first three songs were: "We're Firates", "The Time to be Happy" & "In the Bible there are Faithful Men".

Bible there are Faithful Hen".

LATER, WHEN IVAN JOINED THE SINGING TEAM AT 2 1/2. Things started to change for the girls, 8 we needed "the patience of Job, the wisdom of Solomon & the love of God" to keep overcoming & to keep encouraging him, & sometimes we needed good discipline.

A REAL CHANGE HAPPENED

still quite a rascal at
times, the people always
loved his antics. He was
always encouraged by a

WE DECIDED TO PRACTISE.
OUR 5 SONGS FOR ONE WEEK
STRAIGHT, 3 times a day,
in order to give her more
confidence so she could
get to know the routine well.
With a lot of prayer, patience, encouragement &
occasional correction, she
became constant towards
the end of the week, jumping in place first & demonstrating to everyone how
to swing their hips. Since
then she has been the star
of the show.

OTHER THINGS WHICH HELPED
US A LOT WERE: Having communion together as a team
& praying for each other &
teaching the children to
become little people helps
them to realise the responsibility of their ministry.
There is a key to every
heart, & we always emphasise
the happy faces & for them
to look people in their
eyes, "as people can only
see God as we reflect Him".
Also, after a performance,
especially when we first
started, we would encouragingly correct them on their
weak areas & pray for these
improvements, as not to bet
things fall by the way-side.

Ministry Began By Falling In Love! E LORD'S GRACE, MERCY & GUITANCE SAVED THEIR MARRIAGE & STARTED THEIR MINISTRY!

THE LORD'S GRACE, MERCY & GUITA

From Zach & Lamb; VSs in
Europe:

ME WANT TO USE THIS OPPORTUNITY TO ANSMER SOME OF THE

DIFFERENT REQUESTS in the
Mags concerning children's
training & singing ministry,
& personal experiences in
marriage relationships.

ALTHOUGH WE ARE FAR FROM
BEING PERFECT, we feel the
Lord has been very merciful
to us & has helped us gain
some victories in these
areas. When Lamb & I first
met, one month after she
joined, she had come to Amsterdam for the delivery of
our Jesus' baby, Etoile.
With her it was "love at
first sight" for me, but I
had a more "mature older
brother" outlook on things!
LAMB WAS ALMAYS VERY
SWEET TO ME, making special
snacks, & we kissed for the
first time after we read 2

NO Letters together one
Pevening. TG for the Words!
A while later we decided to
get together, as we both
knew it was Mis will, & we
got betrothed the same
night with six other couples.

THE FIRST YEAR OF OUR MARRIAGE MAS VERY DIFFICULT.

Having different backgrounds, it
could not understand her
trials, as also my responsibilities & ministry were so
different from Lamb's. It
must have been her love for
the Lord to keep fighting.
It was not until a good year
later when the "New Revolution" came out & we were
asked to pioneer, that I
started waking up to reality
& started falling in love
with Lamb(& mas. pregnant
then) & Evoile(then 1 1/2).

BECAUSE OF US BOTH HAVING

STRONG PRESONALITIES—me
a Cancer & Lamb a Gemini—we
started to realise how much
we need the Lord's grace,
mercy & guidance for our
relationship, & it began
to slowly improve as Lamb

"Mini Might & the Love Bird during a live broadcast.(Ph became my co-worker.

THEN CAME THE "RNR", & it was now up to us & our faith to continue serving the Lord. We then had 3 children, & Lamb was pregnant with Emmy, our fourth. After finishing up our ministry in the chain, I felt my usefulness for the Lord was finished. My wife and kids were almost like strangers to me, & although I loved them, I could not all the way relate to them. I felt very old & that my life was finished; I wanted to go be with Jesus away from everything.

HE THIS WERE IN A HOSE WITH 5 ADULTS. & it was not long after that, just before the "NRS", that Lamb & I had to make a decision: If we wanted to continue serving the Lord full time by faith like we did when joining the Lord full time by faith like we did when joining the Lord full time by faith like we did when joining the Tamily & try to start seeking His highest will—only now with u children—and accept to work together as a happy family to share His love with the World.

US & ENCOURAGED US so much
thru the Words. At the
time, the Letter "Our Message" sparked new faith in
us, & Lamb started practising the guitar, & I became
more active, helping to
take care of the children
& going DTD with them.
WE THEN ALSO STARTED TO
REALISE THRU "NEW BOTTLES"
& "MHAT IS THAT IN THINE
HAND" that these were our
new disciples whom we needed to train & raise in His
way. The Lord started to
renew the joy of our salvation & was blessing our
ministries of "Church of
Love" & "Open the Door for
the Children"! Our lives
started to bear fruit again
like it says in "The Tree";
the cold winter winds were
past & our tree started to
bud! TYL! We then decided
to get mobile & move out
of our house, quite a
change not only to our
selves, but also to those
living with us.
LIVING IN A SMALL SPACE
MADE US HOPE DEPENDENT ON
HIS GRACE & each other. Of
course we still have our
differences of opinion, but

serve the Lord. They know they are very privileged, having parents & a Family who love Jesus & being able to serve Jesus at such an early age, because of Grandpa's Words.

"IT'S OUR BUSINESS TO PRESENT THE NEED & VISION as we get it from the Lord, & to love & woo them with gentle persuasion & reasoning & faith & Scripture & try to get them to voluntarily decide on their own to do what they know they should & want to do!"(#734 par. 119) This, combined with the old-fashion verse, "Foolishness is bound in the heart of a child, but the rod of correction shall drive it out", helps us to find the proper balance.

"THE FORNULA FOR DISCI-PLINE: Love never fails! a) Ball'em out lovingly & sympathetically, with partience; b) Confess you've made the same mistake-be younderstanding, empathise; c) Weep, pray & sympathise is with 'em & try again.(#734 par. 142)

THE QUOTE. "IDLE TIME IS THE DEVIL'S MORKSHOP," we found very true with children, so we try to keep them busy in some sort of a schedule & projects. We try not to send them out four hair", but usually one of us goes with them. If

I MAS SO AMAZED TO SEE PEOPLE SO FREE & HAPPY dedicated to serving the Lord, I felt like I had just woken up from a dream & found my real home. I joined on Mov. 16, 1970 in Los Angeles, & I've been serving the Lord now for 10 1/2 years, & I couldn't begin to describe

I'M REALLY THANKFUL FOR
I'M REALLY THANKFUL FOR
I'M GOPORTUNITY OF GROMING
UP IN S. AMERICA, as it
was a beautiful experience.
I was able to learn several languages, along with
living with some of the
sweetest people in this
world. I had a very fulfilled 6 happy childhood.

EVEN THOUGH MY PARRNTS
WERE ALMAYS VERY INVOLVED
IN WORK 6 SOCIAL ACTIVITIES,
they were very loving 6 always tried their best to
show their love 8 affection
to us. I also got to travel
a lot, which was a tremendous experience 8 opportunity to learn other cultures
I MS RAISED A CATHOLIC.
I BELIEVE I GOT SAVED AT
THE AGE OF 7 when I had my
first communion. It was a
wonderful experience for
me, 6 after that is when I
began having somewhat of a
relationship with Jesus. I
would fracem about being a
saint or missionary. 5 it
would fascinate me, especially living in Peru where
there are many poor people.
I DIDN'T REALLY ENJOY GOING TO CHURCH VERY MUCH.
but because of the Catholic
influence I always felt
compelled to go. I would
even cry when my parents
wouldn't take me because
I felt I was failing God.
THE BIGGEST TRAGEDY THAT
HAPPENED TO ME MAS WHEN
MY FATHER DIED I was so
close to him 6 loved 5 respected him so much that
when he died my heart broke

the wonderful times & fulfillment I've experienced.

I HAD THE PRIVILEGE TO
WORK UP & DOWN THE COAST
OF CALIFORNIA amongst the
hippies, which was such a
blessing because I could
relate to them & I had such
a strong burden on my heart
to help them.

THE LORD THEN GAVE HE THE
DESIRES OF MY HEART & sent
me down to help pioneer S.
America. We first went to
Peru where the Lord gave me
the opportunity to witness
to my former friends, & it
was such an explosion. We
were able to win a lot of
souls & disciples.

MY FIRST SON. JOSH. WAS
BORN THERE. From there we
went further south to help
pioneer Argentina, Chile
& Uruguay. The Lord did
many miracles there too, &
it would take a book to
write all the wonderful testimonies of what happened.
FROM THERE I HAD THE PRIVLLEGE OF HELPING TO PIONEER
MEXICO thru our music where
we did some professional recordings of our songs, & we
were able to put a show together to help get out our
message. After 2 1/2 years
in Mexico, we went back to
the States on furlough where
my husband got involved
working for Moliday Inn.

BUT ATTER DOING IT FOR
2 1/2 YEARS, we found ourselves
very empty & unfulfilled. So
now the Lord with His everlasting mercy & love has
opened the doors for us to
serve Him once again in His
kingdom full time.

took me to orchestra concerts plans to begin studies the at the art museum on Sunday afternoons. I told her, "I want to learn to play that," making the motion of playing a violin, so at the age of 8 I began my violin studies. I loved to sit 8 listen to the classical records 6 travel away on those beautiful melodies.

RISY WITH SCHOOL, PIANO LESSONS, violin lessons, orchestra 6 quartet rehearsals, school theatre, teaching myself how to play the guitar, church choir 8 fellowship, I had plenty to do. I even had a morning paperroute from age 12 to 18, so I had to be up at 5 a.m. almost every day.

THEN AT NIGHT THE QUESTIONS WOULD COME AS THE PROPS MOULD FADE 6 I wondered what was after all this herewhat would happen? Was there was after all this herewhat would happen? Was there as a serious musician I would have to resign myself to hours upon hours of tedious practice alone, striving for perfection.

I COULDN'T DO THIS; it wasn't in me, I couldn't stay alone; I wanted to be with others. Well, it was cither one or the other, & my violin 6 I soon parted

To be a musician the coilege

what was working out was my

ME TAIKED & SHE ASKED ME

IF I BELIEVED IN JESUS. She asked me so simply & sincerely, but I felt the magnitude of this question was more than what I heard from sher voice, for it was as if
yesus Himself was asking me,
"Do you believe in Ne?" I had no reason to doubt, "Yes," I said, "I helieve!" Those words felt so good to say, & from the events that followed, I believe that this is when I was saved: I confessed Christ.

ed, I believe when I was saved: I conressed thrist.

THE GIRL WAS WITH A GROUP CALLED "THE MAYIGATORS". She shared with me the Bible 5 I memorised some verses she shared with me on the aport: John 3:16 6 I Peter 5:7, "Casting all your care upon Him, for He careth for you."

upon Him, for He careth for you."

SHE INVITED ME TO THEIR FELLOWSHIP MEETING to which I went & ended up playing the piano during their hymn singing. Only once did I go, for I had been thru those church movements, but I frequently visited her & bought a Bille & began to read it.

OME YEAR OF COLLEGE ENDED

I WENT TO NEW ORLEANS to
Live with my parents, to

work & to see what would happen. I had contracted V.D., & this kept we pretty much to myself as I went thru the medication. My wother was sorely disappointed in her talented, aspiring daughter, but where had my talents gotten me? Where could I invest them for a good & true meaning? Back to a hospital I want to work. I even thought of beginning nurses training.

ONE HIGHT I WENT WITH MY
SISTER TO VISIT SOME FRIENDS
OF HERS. During the evening
they began to make telephone
calls, inviting people over.
I walked into a bedroom of
the flat, & there by the
far wall was an altar-very
strange, with funny shaped
candles & statums & little
bowls. I thought that they
must be practicers of an
eastern religion, but then
a Voice came to me: "They
"are witches!" I panicked!
I went to my sister & said,
"You don't know! They're
witches! We gotta get out
of here!" She didn't believe me. Her friends denied it! Was it a trap? At
my insistence my sister
drove & dropped me back
home,
I RAM UPSTAIRS TO MY
ROOM & FELL DOWN IN TERS.
"Oh, the world it so dark &
crafty, & evil lurks to
devour its prey, Where will
I be safe?", I thought.
"Where can I live without
fear?" I cried out for Jesus
to save me & to show me what
to do with the life He had

had to guide it!

as if a hermit-just work

Israev Wood's Testimony March 180 to the present.

Antholis is my testimony of how I came to Europe & the miracles that the Lord did to large the here a supply all my meds. It was shortly before the "Creat" is Rere" came out that my wife & I seperated for about the second time. I had my son Innothy who at the time was a year & a half & she had our older deughter, Sacha, who was 31/2 at the time. It was about Mar. 180 when I first made my decision that I would like the come to Europea for many years, I shows swinted to come to see the could be a supply to the second time. I had my son I finchly who at the time will all the second time. I had my son I finchly who at the time to layer for a mother field. I had just met could make it on a foreign field. So having seperated a being easy form my wife, I decided that now is the time to leave for a another field. I had just met Andrews & Mary who had just restured from Europe after being here to work in My. I have been seen they visited after returning to the states. I was living in the home of Urish & Sharai & AM came for a visit. They invited me to come a work with them as they were going to Texas to set up a base. But I decided that now since I had an opportunity. I wented to leave the attest. At that time in one of the mass there was an ad for MS workers & It was something that I always wanted to make the second of the

s real culture shock & I was concarned about my son who wasn't feeling well, but I knew it was just the Devil & the initiation tests of coming to a new field so I prayed & rebuked the Devil & gave him alot of juice & vitamin C & took it easy for the next week or so & he got much better. So this homes in knot pellier didn't have room for me as they were 2 couples with 7 or 8 children e with just a 2 bedroom apartment; so they sold they knew a couple and a nearby town called Pasenass. So they contacted the contents of the sold in a nearby town called Pasenass. So they contacted the contents of the sold in the for about 2 1/2 months, we litnessed & lived by faith but I felt I wented to get into a home where there was other children. Also they lived on their own ends of the time & just assumed to live on their own. So it really wasn't the states where the sold in the first own and the states were very sweet but one thing real special boust of \$1.00 personal sample. I saw then sthomptellier & Pasenass & they were a real good personal sample. I saw them at Montpellier & Pasenas & they would teach the kids in the morning & they would go out singling with bit finding a witnessing Just all granily a accompiled so much. After they left, I wrote them & sweet of they were needed a helper, I'd love to come a help you. The Wild Wind Story!

How we answered the Lord's call to get His Words out via Wild Wind Tapes! om Beriah & Beth Wire:

Dear family.

Cayl Glow! Way a pag so Happy for the opportunity to share our testingary, how the Lord has showed in our lives a given us such a wonderful attrictly. It all started back in England, in '73, at a meeting faithy was giving—it was a real purge a rabuke session about Crowwell's call a how one brother had been failing the Lord A not done what he should do for God. I was in the front A, though this was far from being directed to me, God was really convicting my heart a showing me how I'd failed Him.

AFIRI THAT MEETING I CRICO & PHAYED. A THE LORD SONE TO MY HEATT. I'd been ground doing a little here a e little there, doing the maintenance work, which had seemed to be so innoctant. But I had my vision so full of this, when I could be doing something far greater for God! He showed me that I should work on He Words, this was my new job a calling, he told as that He was going to put down kings a raise up kings, a I should report. (I had been asked in work with pubs the week before, but east of I was too bury, LHR!)

1 850K A PHAYED. A 1010 THE LEADERS THAT ASKED RE TO MORK WITH PUBS. THAT I WANTED TO A leader of a year, I was mailing these words out, so happy, thrilled a poinced shipping a thinking that I week out with the wonder working wards in the Shipping Dep't—for a year, I was mailing these words out, so happy, thrilled a poinceded that I was brothing with the words.

I fill 50 IN LOVE WITH THE WORDS. That a year later, when comebody suggested to me that I'd really falled God a that my ministry with the words not come to a complete end, I fell that I'd really falled God a that my ministry with the words had come to a complete end, IMP COMPORED THE MY MEATE A SHOWED THE ATEN I SHOULD GF FAITHFUL WITH WATH HE JANTED ATENDED TO 00 a try to do my best, whatever it was. So I said, meen, a searched to look efter the leaping Dep't.

If LORD CONTINUED BY MEARS A SHOULD BY LIMBY I SHOULD BY FAITHFUL WITH WANT HE WANTED BY TO DO a try to do my best, whatever it was, so I said, smen, a started to look after the Isping Depts.

AT THAT LIME, IT WAS RUNDOWN TO ALROST NOTHING—IT JUST BROKE BY HEART AT THE MESS IT WAS, AT THAT THE LIMB BY THE WAS THE WAS THE WAS TO BE A THAT THE WAS SITTING THERE, THAT DAD HAD SENT, Lots of papels throughout the Family had ordered it but had now or got it, though they'd sent funds. There was this tape, but nothing to duplicate it with.

INE LORD SHOULD BY THAT THE PROCENT THE WAS SITTING THERE, THAT DAD HAD SENT, Lots of papels throughout the Family had ordered it but had now or got it, though they'd sent funds. The LORD SHOULD BY THAT IT I WAS TAITHFUL WITH WHAT HE'D GUENN ME, no matter how small it was, then He would be seen as the more than I could war handle PIL! The Lord helped me to get the duplicator back & get that tape to the Family. I knew it would be a blassing, as it was the Words of our dear Prophet, PIL!

HAT GOT DONE & THESS STARTED TO LORK UP & GET ROLLING. "If you obey & do what you can do by faith, then God will do what you can't & there is no list to what He can do!" PIL! Dear Simon, CBH, had worked on the first Hi reading tapes. He was just reading them into a little crushing the processed the player with lots of background roless, & nothing else. Simon needed someone to help him with the practical sepacts of getting those tapes out. I'll, be trusted me with the Job.

WHAT A RIBACKE, THE LORD USED ME TO HILD SHOWN WITH HOSE PRACICAL THINGS, & to be a chammal to help get those beautiful, inspiring reading to the family. The Lord anothed me to washing the showed me that was point passing on the Words! With He Lord anothed me to bu

in london where the Lord had me compiling the world stats à addresses. There was a big push on getting the older Letters, that there were so few copies of, ready to print. All the available secretaries were busily typing up these precious letters.

OURING THIS ITME, THE LORD GAVE ME THE SURDEN TO WORK ON HIS WONDERFUL WORDS. They had worked in my life, so I wanted to help get them to others, so they could have the seme love, joy atruth that I had found; TY3! One day I really broke a prayed desperately saking the Lord somehow fulfill this burden.

THE LORD COMPORTED MY HEART THAT HE WOULD DPEN A DOOR IN HIS TIME, but meanwhile he wanted as to key faithful to the ministry that he had already given me. He encouraged me that this was helping to get Mis words out, as compiling the addresses made it possible to send the words to our wonderful family. TY3!

SOON I GOT SO INVOLVED IN MY MINISTRY THAT I EVEN FORCOT THAT PRAYER A how the Lord had a wed me His higher calling for my life. When Barleh a I got married, he was working in the Junio 1991't a lews busy in my ministry.

MANY IMES BERIAH ASKED ME TO HELD IN THE TAPIAC MINISTRY. He really needed help, but at first I really resisted; I thought my ministry was too important. LHM, I was getting into having a self-glorifying ministry of my own, instead of becoming a real helpment to my mate in the Lord's week.

THIS ATTITUDE & BEING IN DIFFRENT HANISTRIES & WONKING. IN A WAY, IN OFFICERED DIRECTIONS THIS ATTITUDE & STING APAIL WE had been been that the Lord, for some reason, we didn't understand then, had put us together. He had blessed us with a child immediately, which we know was a further confirmation of our union. But things graw wore in our relationship A we both began to doubt if we should even be together. PIL, somehow the Lord mireculously kept us though! while in Paris at US, I was pregnant again with our 2nd child, a the Lord really daily with us—me especially.

THIS STORY BEGAN WHEN I

1972. From the start I was
always wondering who would
be my mate & who I would

time passed my desire for a

THEN ONE DAY A SWEET & UNDERSTANDING BROTHER SUGGESTED SOMETHING that seemed really revolutionary to me: "Pray & ask the Lord for a mate that you would really like, including every detail about her." So that same night I prayed & asked the Lord for a mate & described the colour of her hair right on down to the languages I would like her to speak.

Well, there it was, my first step of faith. (Your order!)

WEEKS PASSED, months passed, then years & still no mate. It seemed that the Lord didn't hear me. After arriving in Puerto Ricc in '74 & staying at one of its many blobs filled with some of the most beautiful & loving sisters, my heart could hardly stend it (as well as my other parts). I had the great desire to wed one of them immediately; but still it didn't happen. I didn't have the nerve to ask one, nor did one ask me to share a life of love in Jesus.

THEN ONE UNTORGETABLE DAY, SUNDAY MORNING, I went with a brother to visit the widrows' colony, where some sweet sisters lived who had children but didn't have mates. While there I kept hearing the voice of a sister who I couldn't see. Then I heard the same sweet voice say she was coming out of the room to take the children to the beach. I turned to see who it would be... & out walked the most gorgeous

ATER GREETING HER WITH A HUG & KISS, I Immediately offered my services in escorting her & the kids to the beach. As we talked & played with the kids, I felt so much love & peace. I guess this is how a fish feels when he first meets one of our loving sisters.

AFTER THAT DAY I TRIED TO GET BACK OVER THERE, but for some reason it seemed impossible. I did get to see her twice afterward, but each time for no more than five minutes or so. Then finally I had to leave for a neighbouring island(Jamaica).

THERE SHE BECAME MORE & MORE IN HY THOUGHTS, Many times I would pray for her, & the Lord gave me some encouraging verses about how Me would put us together. I finally wrote her, but I did not dare ask her to marry me.

OME DAY I HEARD SHE MAS COMING TO JAMAICA, & my heart jumped with joy. I knew this was it & the Lord was finally crim to do it.

said he'd continue to search for work in the local area in case a "better" job presented itself.

WE LATER LEARNED THAT HIS PARENTS HAD BEEN IN CONTACT WITH TED PATRICK since 1973 when we had first left the States. A couple of months previously they had decided to hire him to deprogram us to remain in the U.S. We hope what we learned about their methods will help others not to get caught or to make their deprogramming as painless as possible & to know that you're in the Lord's hands if you trust Him to deliver you! Here's what happened to us:

A COUPLE OF WEEKS BEFORE OUR PLANNED DEPARTURE back to the mission field, we received a phone call from a woman posing as a Welfare Inspector who said she would be coming over within 'A hour for a routine

IN THE MEANTIME, MY

MEN RANG THE BELL & at-ter asking a few light questions about our living conditions ask-ed to see our living quarters. As they knew all along that we were living downstairs in the basement, once downstairs with them we were helplessly in

were living downstairs in the basement, once downstairs with them we were helplessly in their territory.

MOMENTS LATER MY HUSBAND'S FATHER APPEARED & explained they were not really from welfare but were there to "help" us & immediately a couple of muscle men barrelled their way down the stairs, along with some uncles, neighbourhood friends & family!

WE KNEW THERE WAS NOTHING WE COULD DO to get away (especially because they had literally kidnapped our children!). They later revealed they were prepared with "mace" & handcuffs if necessary.

MY HUSBAND THEN ASK-ED WHAT THEIR LEGAL RIGHTS WERE in forcibly detaining us against our wishes, to which they replied, "Your

parents believe that you both are mentally incompetent."
IT DIDN'T TAKE LONG TO REALISE THEY WEREN'T PLAYING GAMES & we both felt the best thing to do was go along with their act. In prayer earlier in the morning before t any of this started happening, my husband had received, "This kind goeth not out but by prayer & fasting" (Mark 9: 29). He did fast thru' the whole 4 day ordeal & I covered up their suspicions of why he wasn't eating by saying he was eating on the side in-between meals.

THEY HAD REMOVED

THEY HAD REMOVED
EVERYTHING FROM THE
MOUSE—paintings, pottery,
light fixtures, all windows &
doors (except the front door)
had been nailed shut, telephone

THEN THEY SEPARATED THEN THEY SEPARATED US, a couple of thugs taking my husband upstairs while I remained downstairs with our baby. They had wanted to remove the baby to "safer" quarters with my husband's at I needed to breastfeed him, TTL!

THEY STARTED THEIR INTERROGATION—hour after hour of questions. They of course were fervently try-

INTERROGATION—hour after hour of questions. They of course were fervently trying to discredit every one of our beliefs. They kept us awake until 3-4 a.m. (16-18 hours of concentrated attacks on every aspect of our lives). Guards were kept on us while we slept & they had no compassion on us, considering I needed to wake up with our 10-month-old baby at 6 in the morning! The Lord had mercy on us tho', & gave us

the grace to continue to play along with their flendish game & acted like we believed every word they were saying. WHENEVER WE ASKED ABOUT OUR CHILDREN they kept stailing saying they needed to wait for an important phone ceil from a "frierd" (who later turned "friend" (who later turned out to be Ted Patrick himself)

out to be Ted Patrick himself) who would be coming over to show us some video tepes. THE 2ND DAY THEY MAD UZ IN A 5-HOUR CONTINUAL SESSION in which they had us read the N.Y. Attorney General's Report along with their comments & elaborations. They twisted verses, showed us some supposed Letters which we had never seen before, Femily correspondence & selected paragraphs to help us "re-understand" how we had been mentally brainweshed!

BEFORE I FORGET, they

BEFORE I FORGET, they BEFORE I FORGET, they had been confiscating all our mail directly from the Post Office both in-coming & outgoing. The first day they thoroughly searched all our belongings & removed everything which they felt was "hypnotically dangerous" (Letters, Bibles, tapes of Family & other music, all addresses).

Family & other music, all addresses).

AT 9P.M. THERE WAS A KNOCK AT THE DOOR & there was T.P. himself. Neither of us had expected that T.P. was involved with this operation as they had never told us, for fear we would have gotten really seared (I think that was the Lord's mercy because I know we would have!).

SO IN WALKED TED PAT-RICK WITH ALL HIS GEAR (2 large crates filled with video equipment). It turns out that his activities these days are so clandestine

that he only enters the deprogramming scene once the de-programming is practically "accomplished" with his hir-ed "cultists" & his presence is only needed to film a video tape of the final session. They use this video tape as evidence in case the victim later escapes, to prove that he was

THE LORD POURED OUT
A LOT OF HIS GRACE for us A LOT OF HIS GRACE for us to be able to answer all of his questions (i.e. "The you-know who are bad, right?" to which we answered "Right." 'They be answered "Right." 'They have answered by ou, right?" we answered "Hight." "They brainwashed you, right?" "Right" atc. etc.). During his questions I was constantly praying, singing songs to my-self, quoting scriptures, but still trying to pay enough atter tion to answer him, smile, nod

etc.
AFTER 1% HOURS OF
QUESTIONS, it was finally a

Ted remarked to my husband's parents that we were very lucky because other former members who had been deprogrammed had literally gene crazy & had to be forcibly detained but that we were "exceptional" patients & had made "the break" quite quickly.

"the break" quite quickly.

AT THAT POINT, IT WAS DIFFICULT NOT TO BURST OUT LAUGHING because a lot of the statements he made were so outrageous it was hard to keep a straight face! We afterwards thanked very profusely both Ted & his "cultists" for their "devoted help" to pull us thru' & affectionately hugged my husband's parents

& family. By the way, during the session they kept remarking that our 3 children were very happy away from us & didn't want to return to usall to break our emotions. (My husband almost slipped & let 'em have it, but I stepped on his foot to quiet him down! WE WERE AGAIN KEPT AWAKE UNTIL 5:00 A.M., with a door guard but no one

AWAKE UNTIL 5:00 A.M., with a door guard but no one sleeping with us. The next day they unlocked all the doors, replaced everything they'd removed from the house (not our personal belongings tho') & generally let down their guard considerably. Our 3 children were returned to us & we thought all was ok.
FOR THE NEXT 3 DAYS, THO., TED PATRICK had some lengthy discussions with us & wanted my husband to go into business with him. We really played along with all that was taid. They had previously arranged for us to go to San Diego, Calif. for a week of "rehabilitation" & afterwards be free to return to Europe for

THE DAY BEFORE OUR PLANNED DEPARTURE FOR SAN DIEGO, our 2 girl "body-guards" apparently slipped some news they weren't supposed to that my husband & I were to be separated again after San Diego, him & one of Y the girls were to verify the job in Europe while I was to releman for further rehab in San Diego.

THIS WAS THE LAST
STRAWI Up until now we had been willing to play along, but with this little knavish 1 twist of events, which the Lord used to wake us up to their actual intentions, we desir cided to telephone one of my sympathetic aunts & quickly explained to her over the phone what was happening.

THIS AUNT IMMEDIATE-LY ARRANGED A "GOOD-BYE" PARTY for us that night at her house with her side of the family. We then persuaded the 2 girls that it was alright for us to go alone as my aunt was to pick us up å drop us off afterwards, å that it would be a good oppor-tunity to "testify" of our "new life".

MY HUSBAND'S MOTHER TRIED TO CONVINCE ONE OF THE GIRLS to go with us because she was afraid "something would happen", but I casually explained that it would just be a private family affair, as my side of the family had not seen me for over 3 years & it would make them feel uncomfortable if strangers were present. THAT NIGHT WE EXPLAINED EVERYTHING

hard to believe but nevertheless remained sympathetic to

his father å said we were not

were "engaging a lawyer" (to
call his bluff) å that we wanted our suitcases.

HIS FATHER OF COURSE REFUSED VEHEMENTLY (he had after all paid T.P., \$20,000 for deprogramming the 2 of us!) unless my hus-band returned home alone to

discuss with them why we had "changed". Of course, we said no. He said if we didn't comply, we would have to get a court injunction in order to get

THAT NIGHT TED PATRICK HIMSELF PHONED

WARNING!

DEAR FAMILY, DUE TO THE NUMBER OF RECENT KIDNAPPINGS & kidnap attemps made by parents claiming to be friends, we again remind you to be on your quard against such attack. If you have any idea that the parent or friend is against us, be extremely cautious & don't walk into a tag. If they have been openly antagonistic in the past, have enough money to sinance such a kidnapping & are the type of people with the drive & initiative who are determined to get what they want, you should be wary of a sudden supposted change of heart & claim to be a friend. And remember, it is always best to go two-by-two if possible. Don't walk into a trap! Love, M&M & W.S.

Hal Well, actually it's not
so far from the truth...

IT ALL STARTED IN 1275.
I'd been in the Family almost a year, & Fay just 2
months, when we met as I
was passing thru the home
where she was in Germany. I
really liked her but didn't
consider her as a potential
wife because I figured it
would take at least 4 more
months before she could get
married, according to the
"Revolutionary Rules", & I
didn't think I could possibly wait that long. Little
did I know that the instant
was set, the Holy Spirit told
her that I was the man she
was going to marry!

A IFW HOWH'S LATER, I was
in an office home in the
morth of Germany with at
least half a dozen basutiful sisters, none of whom
were interested in marrying
me, & in those days, because
we didn't have the faith to
take Dad at his word, no wife
meant no sex-"no tickee, no

I IMALLY I WENT TO ASK AN
BLDE BROTHER ABOUT IT, & he
meant no sex-"no tickee, no

Beant no sex-"no tickee, no laundry". Ha!

FINALLY I MENT TO ASK AH

SLEAD ROTHER ABOUT IT. & he suggested I pray & ask the Lord to supply "sll your beeds according to His riches & glory by Christ Jesus," so I did. A few weeks later my long-awaited clearance for the Far East came through.

HEANPHILE FAY HAD TWO SIT-MATIONS THAT SHE'D COMMITTED TO THE LORD. One was about us. If the Lord really wanted us together, He'd have to put us together. The other was ber own burden for the Far East. She really wanted to go but had only mentioned it

Afterward I felt pretty good
too, so I told her not to

once to a brother when she first joined the team. So when that same brother asked her if she still wanted to go, she jusped at the chance. He was a leader & was also going himself & was able to give her clearance on the spot. Then he told her she could go with we.

THE PLAN MAS FOR ME TO GO DOWN TO ZURICH where she was, a for us to litness & write home to raise our funds. When I got there we went on the road, & after 3 days I fell in love with her & asked her to marry me, & to my surprise & joy she said yes!

ABOUT TWO MERS LATER ME HADE LOVE TWO MERS LATER ME HADE OUT, hitch-hiking down to Genova, Italy where we spent 4 or 5 days trying to get a ship going east. That didn't work ao we decided to go overland, hitch-hike thru furope & use public transport thru Asia.

ON THE FIRST HIGH OUT OF GENOVA, we got a ride with Spanish men who drove us to a hotel in a small town on the east coast of Italy. He bought us a great weal with spenish men who drove us to a hotel in a small town on the east coast of Italy. He bought us a great meal with much wine & then paid for a really nice room without us, even ask ing; then he just drove off into the night. We free wondered if we'd been mentertained by an angel unsaver.

THAT HIGHT HE MADE LOVE FOR THE FIRST TIME—the wine, she could do was sitey swake. stal of incia. We were the shepherds of a small witnessing team there i learned a lot of valuable leasons. Before getting married we had both come down with hepatitis 6 had to be quarantined together in the same room for six weeks. We got to know a lot about each other then, but we still had much to learn about the fine art of marriage.

FOR INSTANCE, I DO MY HEAVIST SLEEPING RIGHT WEN I FIRST GO TO BED so the when morning comes I usually wake up clear-headed. Fay seems to aleep heavisat in the morning 6 needs a little time to wake up. Being newly married I figured we had to start the day with a No Letter together 6 then maybe a prayer, but as I was reading along I'd look over to find I was reading to myself as Fay would be asleep. This usually put me off a bit as in fact I would rether have been reading silently at that hour, but somehow it didn't feel spiritual enough now that we were married, and since I was making the sacrifice I figured the least she could do was stay awake. "But I'm so tired," she'd say, so finally we decided that we'd leave the first hour of the day free for personal free time. Ne've been a lot happier since then.

WE LEARNED MANY COTHER THINGS IN OWN FIRST YEAR OF MARRIAGE, Like Dad says, you've got to know people's strong points & use them, & know their weaknesses & watch out for thes. We sleen other when one was wrong or

going the wrong way. This is one of the big benefits of being married I believe. You always have someone to put on the brakes for you if you are headed in the wrong di-rection.

time, & the Lord blessed us in so many ways.

MIEN WE FINALLY REACHED OUR DESTINATION & faced a whole new set of problems, things sort of went had in our relationship again. I know that a lot of it was my fault, as I had a rather unrealistic view of the way things should be. With all the freedoms of the RNR came so much wore responsibility, & I'm afraid sometimes I grabbed the freedoms & left the responsibility, especially when it came to being extra loving to Fay. We reslly had a breakdown in communications, & for awhile, although we were all in the

same house, she lived with a fish & I lived by myself, sharing occasionally with another sister & Fay.

THEN THE FISH LETT & WE MOYED TO A NEW HOUSE. & things just started to get better. One day I went over & put my arms around Fay & told her I loved her, & she just broke down & cried & told me it was the first time I'd ever really said that. I couldn't believe it! I was sure I'd told her I loved her before: She said that I had, but it was usually when I was upset &

went something like, "I really love you, but how could you have forgotten to mail that important letter, blah, blah, blah, blah,"

RIGHT ABOUT THAT TIME FAY OUT FRESHANT with our little daughter, i something happened in the spirit i I fell deeply in love with Fay like I never have before, i aince that time we've had some real days of Heaven which we've cherished i enjoyed, i we both are really glad we stuck it out so that the lord could give them to us.

AFTER GETTING SAVED, Pascale decided to join the Family & camp with me. Then we both returned to the city where I was previously.

For Women Only!

ACCORDING TO INVESTIGATORS OF WOMEN'S AILMENTS, one cause of problems
in menopause, menstrual cramps,
emotional problems, nervousness etc. is: Lack of <u>celcium</u>,
About a week or 10 days prior
to menstruation the blood calcium begins to drop. This drop
in what we might call the "nerve
mineral" can produce all sorts
of nervous complaints: insomnle,
irritability, tension, quick anger,
quarrelsomeness, depression, anxlety, headaches-- the works!
ADOLESCENTS AS WELL
AS OLDER WOMEN may burst
into tears at the slightest provocation. Then when menstruation
scually begins, the calcium in
the blood drops still further,
This can cause cramps & if the
calcium deficiency is severe,
even convulsions may occur.
Apparently there is also a relationship between calcium & the
production of hormones.

CRAMPS CAN BE PREVENT-ED if calcium is begun about 10 days prior to menstruation & continued thru the 2nd or 3rd day. In case of cramps she suggests taking 1 or 2 calcium tablets per hour. Nutritionalists consider calcium a natural tranquiliser & far safer than drugs. (For efficient absorption of calcium, be sure you're taking sufficient vitamin D, in the form of summer sunshine or cod liver oil capsules.)
FOR WOMEN WHO STORE WATER during pregnancy, prementrual periods or menopause, scientists have found that as long as they took Vitamin B6 daily they were no longer bothered with these problems. But when 88 was stopped, symptoms returned. Apparently 86 sets up ED if calcium is begun about 10

Nature did not intend women should suffer these ailments which are a part of the life process. As proof, primitive women, living on a whole natural dist, did not have them. They returned to work in the fields almost immediately after giving birth to a child. Perhaps it is time to get closer to "Neture". At any rate, many women who have used these natural nutritional substances will testify that their ailments have definitely improved. (Amer. These figs helped me for cramps, flooding & fatigue. The need for counselling together about the children!

From Clare; Visiting Mother in Portugal:
IT MAS BEEN SUCH A BLESS-ING TO VISIT most of the Homes here in Portugal. We have such precious hard-working families going for the Lord on this field, & such beautiful childran! Next time I've got to take a camera! I'm learning so much just by seeing the different situations & how everyone handles each one in a different way.
I'VE BEEN ENCOURAGED BY HOW MOST HOMES WANT & APPRECIATE THE VISITS.

& APPRECIATE THE VISITS & APPRECIATE THE VISITS.
There is the practical side—coordinating forsake-all clothes,
flannelgraphs & the lending library of recommended books,
which has been working well.
With each book I put a short list
of appropriate Dito Letters &
Mo Letters to be read on the
perticular subject of that book
(preferably before & after reading the book to ensure a good
balancel).

blancel).

IN A WAY IT SEEMS THAT
BY NOW SO MUCH HAS ALREADY BEEN WRITTEN &
published for and about the published for and about the children—practical tips, teaching suggestions & spiritual principles & guidelines—that now it is mostly a matter of studying & doing it, putting these ideas into practice as much as possible with our own children in our own situations.

own children in tions.
ONE THING I'VE COME ACROSS A FEW TIMES IS A DIF-Home between different couples or personnel about how the childran should be or are being hand-led. In the Home Checklist there

is a question:
"ARE THE PARENTS &
HELPERS MEETING THE DIS-

gether about the children!
CIPLINARY NEEDS OF THE
CHILDREN UNITEDLY...reading thru' the FC & Dito Letters?
...praying together frequently about the children?" (No. 660:
V1,8CO). I think this is something which, if carried out faithfully in each Home, not only in
this country but worldwide,
would help so much to bring
more unity & inspiration, especially where the children are concerned.

THINK IT IS SO IMPORTANT that everyone in the Home especially the mothers & those fully involved in the children's fully involved in the children's care, agree together as much as possible on what they do & do not want to allow the children to do in the house, what kind of discipline they ought to receive & respond to best & how they should be handled in different situations.

IT IS GOOD FOR THE MOTHERS OR ANYONE INVOLVED TO PRAY TOGETHER, if not daily, at least weekly, for & about the children, discussing & counselling together about any little thing that comes up, as this creates a much better atmosphere in the Home & also brings to light new ideas or where we might be failing the children & what more we can do for them.

IN VARIOUS HOMES WHERE I WORKED WITH SEVERAL CHILDREN & where a few parants & other helpers were involvented. IT IS GOOD FOR THE MOTH-

CHILDREN & where a few par-ents & other helpers were involv-ed, it mede such a difference when we had these weekly meet-ings specifically designated to childcare. We would read a Lette together, usually a Dito Letter, & make plans for the week for the children. So many new ideas would be brought out—places to

go, new weys to witness, ideas to encourage reading, special pro-jects for the children in the Home perhaps a "litnessing brother" would like to take a child out for

would like to take a child out for a change, or mother needs help to go door-to-door.
THE PRAYER MEETINGS WOULD OFTEN INSPIRE US to have more inspirations with the children, get on the attack more with their verses, involve them more in the housework, or determine to get them out more. They alweys brought fresh inspiration!

They always brought fresh inspiration!

SO I WOULD LIKE TO ENCOURAGE OUR FAMILIES (even if only one family in a trailer!)
no matter how few or young are
your children, not to neglect to
take this special time frequently
even if only as part of your
weekly business meetings—to
pray together for them, discuss
& counsel together about them
& pump each other for new ideas.
"SO COUMSEL TOGETHER,
agree together, decide together,
love together, care together,
grow together, work together,
& enjoy the fruits of your labours

IT SAID THAT BOTULISM
HAD GREATLY INCREASED
during the last few years & that
91% of the cases were traced to
improperly home-canned foods.
The book stressed the need to
use the proper equipment, cleanliness & a pressure canner. Many
of the old-fashioned ways are
simply not safe when it comes
to canning & can be a matter of
life or death.

life or death.
SOME SIGNS OF SPOILAGE
IN CANNED FOODS: 1. Seeping seams, bulging ends. 2. Seeping seams, bulging ends. 3. Seeping seams, bulging ends. 4. Gassiness (small bubbles) in the contents. 5. Cloudy or yeasty liquid. 6. Shrivialed or spongy-looking food. 7. Food an unnatural colour (often very dark). 8. Spurting liquid, pressure from inside as the can is opened. 9. Fermentation (gassiness). 10. Food alimey or with too soft a texture. 11. Musty or diagreeable odor. 12. Moldevan a fleck on the underside of the lid or in the contents. WHAT TO DO: "If any such signs are evident in unopened or opened containers, destroy the contents so they cannot be eaten by people or animals. Don't stell lims. If it doesn't seem bad but you're not sure for some reason, they give the following advice: "NEVER TASTE ANY SUSPECT CANNED FOOD: Boil it te or death. SOME SIGNS OF SPOILAGE

hard for 15 minutes to destroy any hidden toxins, adding liquid if necessary. (Corn, greens, meat, poultry & seafood require 20 minutes boiling.) If it looks spoiled or foams or has an off-odor during boiling, destroy it completely so it can't be eaten by people or animals."

ALL IN ALL, I FOUND HOME CANNING TO BE RATHER COMPLICATED & time-consuming (especially considering how precious our time isl), not to mention expensive & needing special equipment. It seems that grains, beans & dried products seem to be the best for survival, as they keep better & longer & are more portuble. It is not very difficult to dry vegetables & fruits yourself. Then just add water.

"JUST A LITTLE QUESTION DAD, --I's not sure where to draw the line on home support. Should we go up with the bomb if we don't get home support? We put an ad in the paper asking for support & have already had one successful reaction to it. Plus we are making a prayerletter up to send to churches so we can go sing with the children & raise support. All the writings on India have really changed our hearts to go as we are responding to the need. 'When War' was shocking enough to make me want to get out straight away but we need home support." Home Soapmaking!

An easy way to make soap at home!

THE HISTORY OF SOAP

THE HISTORY OF SOAP
SOAP WAS NOT WIDELY
USED in the classical world.
The Graeks & Romans cleaned
themselves by bething in hot
weter & scraping their bodies
with a sort of blunt instrument
called a "strigil". Pliny mentions soap as: "An invention of
the Gauls for giving a sheen to
the hair". Later Romans recommended its medicinal use as a
cure for elephantiasis & septic

cuts but not for everyasy wasning.

UNTIL THE 1850'S THE WIDESPREAD USE OF SOAP WAS LIMITED by the soap tax which made it an expensive luxury item. The abolition of the tax in the English budget (1853) came at a time when hygiene & sanitation were being pursued by pioneers with Victorian energy, earnestness & fanaticism, Prime Minister Gladstone described the tax in his budget speech as 'an article of texation which is most injurious both to the comfort & health of the

CUSTOMS WAS SLOW & FUN, as in usual Asian style I was referred to this line, then 2 more at different ends of the arrival hall with my precious video/TV cargo. After having it noted in my passport by a friendly, obliging English-speaking official, I headed off into the sea of dark faces & smiles waiting to greet their loved ones.

TIM & FAITHY, THE PRECIOUS VSs.

HERE were glowing & warm, & we had such a beautiful & immediate contact in the Spirit! I was surprised by the lack of onslaught from the cab drivers that we're so used to in South East Asia—porters grabbing a bag each & almost running off to any cab in the hope of a of ew cents tip—here they obligingly let us carry our own bags & we managed to find one easily who agreed to use his meter. I discovered that most cars in the country are one or two local brands—looking like a 1955 car in the West—hence all the cabs lined up looked identical apart from the state of disrepair. I was so excited as Tim & Faith shared thrilling testimonies of the nationals here & all there is to do, as the cool night breeze fanned as we drove thru the silent streets.

I HAD JUST FLOWN FROM SINGAPORE TO MADRAS & after an absolutely beautiful night of rest & lovin', I couldn't wait to see outside! Over the next few days! realised that the way! I had pictured India was more like the "Mother Theresa's India"—extreme poverty & malnutrition, beggars all along the street, very few living in houses, mainly on the streets, no meat or healthful food available & lots of disease—& it just wesn't that accurate!

I LIKED THE DOCILE OLD COWS
WHICH PLOD ACROSS THE ROAD stopping all as they go, but I was shocked to hear
that you can easily buy beef for only 1 Dollar
per kilol! I was so used to meat, apart from
fish & chicken, being not-so-readily available
in the Far East. I'd never dreamt that in this

the ripe harvest field of India!

Hindu country meat would be so cheap & readily evailable! Not only that, but I've grown used to the door beil ringing daily with fresh milk, which, when boiled is quite clean & great for kids! Yoghurt was my next surprise—it's quite cheap & common & so healthful with lots of cheap fruit to add!

FROM THE START I FELT SO AT
HOME with the motor rickshaws (tuk-tuks in Thailand & Bajajs in Indonesia) & the cycle rickshaws so common all over Asia. The people have that beautiful shyness that explodes into a very warm smile as soon as you initiate the same, & that precious curiosity that the Lord so often uses in our being foreigners, drawing

them to us & opening them up to the lit & answers we have, with a respectful thrill that you really want to communicate with them! There are so many educated above-the-cloud students & young people here who really want to break free from the traditions—& the main hindrance to our reaching them is the lack of labourers!

THERE IS A GREAT DEAL OF POVER-TY HERE, but If anyone simply follows Dad's counsel about getting supporters before coming, it's not at all difficult to stay healthy, clean & live by a good standard. Many years ago here, the standard of the Family wasn't so high & there was quite a bit of sickness, but now the Homes are the equivalent standard to the S.E. Asian ones & by faithfully following the counsel in the Letters & prayer, it isn't difficult to stay quite healthy, with the 7 Supporters, FFing (there are only a few doing any & ES hasn't even been tapped yet!) & prayer letters along with the monthly pledges Dad suggested in "BB-RHS", it's very feasible to live well here, even larger families—especisally Commonwealthers! The sweet ladies who do daily dishes, cooking & laundry for a very minimal amount are an added factor for families to consider in favour of the field!

IF YOU ARE IN EUROPE & ARE A LITTLE BEWILDERED by the prospects of Latin America being a little too overcrowded & you're needing to go to a small town there, these fields are really worth praying about! For the 800 million people in the sub-continent here, there are only a mere 27 Homes!!

THE BRETHREN IN MADRAS WERE
SO SWEET & we'd grown so close that I really started to miss them as our train sped across the country. There are two main classes on the trains—second class being very cheap—only about 70 rupees (\$ 9.00) for the 1,000 Kms. or so from Madras to Bombay, & the first class has a private room. Since we had the expensive video equipment & TV, we decided to take the first class so that we could sleep—otherwise one would need to stay awake holding on to the equipment watchfully all night. Even with

all the extra security & comfort, it only cost \$ 27,00 for the 26-hour trip so the fares are certainly reasonable & the conditions are quite good, even for kids.

\$ 27.00 for the 26-hour trips to the rates are certainly reasonable & the conditions are quite good, even for kids.

UNLIKE TRAVELLING IN JAVA & JAPAN, where you never seem to run out of people, there were vast expanses of beautiful open grassy stretches & gorgeous green mountain areas which were only very lightly populated. Despite this feeling though, India's population is very largely rural with only a meagre 35% living in urban areas!—A fact which keeps road teams & MWM a vital part of the outreach here.

WITH THE TRAIN'S FANS & THE WINDOWS WIDE OPEN, we arrived quite rested, if dusty, & were so warmed to meet James & Anna at the busy Bombay station. With the work on the Hindi Lit-Pic & the Hindi MWM, the Lord had, in the past month, drawn nationals from all over to work together on these vital projects. They were in the process of looking for new housing so we had no intention of staying with them initially, but the Lord gave us amidst other verses, Psalm 133:1 when we prayed about it. It was so much the Lord, & the precious time we did spend with one large communal bed the size of the lounge each night, was so much fund greecous Family!

Calcutta with only one Home has 10 million people to reach!!! We need HELPI!

ONCE YOU'VE OPENED YOUR HEART to the Maharishi, as the song says, "She's starving for the love of her God up above, if you'll only come in & love her... She'll ravish you so, & she'll never let you go, if you'll only come in & love her... She'll ravish you so, & she'll never let you go, if you'll only come in & love her!"—so she has such a large part of my heart now!—She's so needy! Are you one of the lovers she's waiting for? She has so much need for David's love & wants to bear many children by Him!!

IF THE LORD ISN'T CALLING YOU, YOU COULD HELP LOVE HER with the seed—by helping the Hind!, Tamil, Nepali & Bengali Pubs teams along with English to give her the seed she so desires!—And your prayers always work wonders! Thank you so much!! We really love & need you! Love, Keda (Of course the Lord's calling you!—You can feel it right now! Come!—Or send part of you today!)

James Stone is thrilled as technician for the Hindi Music With Meaning Show! James trained under Simon Peter when MWM began in India & is mixing here on the new ports-studio which Simon so gene-rously donated to the Hindi work!

From Timothy & Faithy; Indian VS's:
GBY! MLYSM! PTL FOR ANOTHER EXCITING MONTH full of the Lord's wondrous
works! It started with receiving word that Dad
was sending Keda to India for a visit! PG! We
knew it would really be a heavy time for the
work here, which it certainly is! TYJ!
SOON AFTER THIS, KEDA ARRIVED
IN MADRAS & we were so happy to meet
her at the airport. What a sweetheart she is, it

was love at first sight! Hall It continues to be so much of a blessing spending time with her learning so much about being close to the Lord & hearing from Him for every little thing & being faithful in all He has for us.

THE NEXT FEW DAYS KEDA SHOWED THE FAMILY IN MADRAS SOME BEAUTIFUL VIDEOS of Indonesia, Hong Kong, Australia, Lima, Peru & Scandinavia & the beautiful Family there. TYL! It was strilling to see our precious Family & the wonderful work they are doing there in their fields. It's really such a wonderful way to fellowship with the world, giving us so many new ideas, convicting us, & shortening the cord between us all!

SOON AFTER KEDA'S ARRIVAL we left Madras to relocate in Bombay with a vision to set up a "Reception Home" to help folks newly arriving on the field, as we're praying for many new labourers to help in this white harvest. TYL!

WE SET OFF BY TRAIN ON A 24-HOUR JOURNEY of about 1,000 Kms., a very inspiring trip in our own locked compartment keeping our valuables safe, spending time in the Word. Train travel in India is very cheap & comfortable as long as you have reserved berths. On the train the Lord led us to a sweet old Catholic man who'd been on a pilgrimage. The Catholic religion here is almost like Hinduism, they've compromised so much & have traditions similar to Hinduism, that you can hardly tell the difference! TG that Tim was

able to share salvation with our friend & he readily prayed & received the Lord. TYJ!

WE WERE HAPPY TO REACH BOMBAY where we stayed with the Hindi Lit-Pic. Many of the Indian nationals have recently come to Bombay to help with the Hindu MWM & Lit-Pic work. The making of the Shows is progressing well & the Lord's really anointing them as they don't have a lot of technical know-how or equipment. However, "little is much if God is in it" & they do have lots of spirit & inspiration & the burden to do the jobl GBT! They've made their first 8 shows & D.V. the Show will be aired soon. We're expecting a great response! TYL!

FOR A LONG TIME THERE'S ONLY

FOR A LONG TIME THERE'S ONLY BEEN THE HINDI LIT-PIC HOME in Born BEEN THE HINDI LIT-PIC HOME in Bombay. However, the Lord has recently raised up some more wildly willing workers for the field here. One couple, Paul & Vivian, have recently arrived ed from England, & they've taken over the MWM outreach as there are over 500 listeners in Bombay & so much potential, especially among the youth. Bombay is the most liberal city in India, a lot more westernised than the other cities, with searching young people looking for a way out of the traditions & social pressures.

THE HINDI LIT-PIC HAS WON A NEW DISCIPLE EVERY MONTH for about the lat 8 months, the most recent being Daniel & Paul. Daniel is from Delhi, fruit of MWMI, &

Daniel, fruit of MWMI, our first Indian national disciple whose Hindi is stronger than his English, & Paul from Bombay, who's been faithfully tithing & reporting for the past months, becoming a full-fladged disciple! PTLI

Paul, an engineer from Bombay, who's known
the Family for a few years, has started TRF'ing
& going out witnessing & litnessing in his free
time & we've just heard that he's leaving his
job to serve the Lord full-time IPTLI There's
so much more potential here, fruit waiting to
be picked!
ALSO HELPING PAUL & VIVIAN with
the English outreach, is David, who joined out

Jesus full-time. GBH!

WE HAVE SOME VERY GOOD LOCAL
TALENT HERE among the precious nationals & recently they had the opportunity to
sing at some concert/fairs in the city, where
they socked it to the local youth letting their
lights so shine. Many souls were saved afterward

through personal witnessing with lots of lit out too. TYL! It was a real musical explosion & many of the sheep that were met attended the COL the next day & were flipped out by the love & spirit, plus a special treat—a video of "Life After Death", a documentary Keda had brought with her, which was very enlightening for all. The Indian people can really relate to things like that as they have a lot of faith in the after-life—reincarnation, etc. Their COL has been flourishing & many are coming closer into the Kingdom through the regular fellowship & Word received.

THE NATIONALS HAVE SUCH AN ANOINTING for reaching their own people & truly shine brightly amidst the darkness here. Rom. 5:20. Just yesterday we spent a beautiful free day at a nearby beach with the Family here, & in travelling to & from the beach about 35 souls were saved. Hall You just can't help meeting sheep everywhere here!

THER ARE PRESENTLY ONLY 2 HOMES HERE IN BOMBAY, one being the Hindi Lit-Pic, which is going to split into 2 Homes, so then there will be 3 Homes of 17 adults for a population of well over 6 million people. This city could easily handle at least 10 Homes as there's so much to do both in Hindi & English outreach! Along with MWM there's DTD which is very fruitful & almost untouched, litnessing to millions of hungry souls who need those words of David, there's also a wide open door for you FFers with so many hungry for the love of Jesus & David. It's almost impossible not to meet someone when you go out & the variety's great, from Arabs to lonely businessmen, foreign tourists & of course the local people. TYL!

THERE'S ALSO A ROAD-TEAM HOME IN BOMBAY which sends out teams into the

Iocal people. TYL!

THERE'S ALSO A ROAD-TEAM HOME
IN BOMBAY which sends out teams into the
Hindi speaking areas scattering seeds & reaping
thousands of souls through personal witnessing
& musical programmes, singing on radio & TV
& also at different functions for the cream of
the crop. The Lord always seems to lead them
to the top first & then they're received by
everyone, rich & poor. There's such a need for
these road teams as there are many minor cities
with large popularions of up to % a million who
can't really handle full-time Homes as they're
so conservative, but desperately need to hear
the message & a road team for a month or so
can do a lot in getting the message to so many
of these needy souls. Last month the Hindi
Road Team won 7,000 souls! Hal! TYL!

SO IF YOU'RE FEELING THE "CALL OF INDIA", please write to us right away & we'll help you all we can with information, etc. Enclose a photo tool WLY! Thanks also to those of you who so generously donate to the field here, we really appreciate it so much. Please do

continue to help all you can, as little goes a long way here! Send via your reporting office for the India work. GBYI WL&NY all so much! Love & Prayers in Jesus & David, Timothy &

(AMEN! Answer the call! - GBY all!)

From the Hindi Lit-Pic: India:

Dearest Family,
GBYI GREETINGS IN JESUS' PRECIOUS Dearest Family,
GBY1 GREETINGS IN JESUS' PRECIOUS
NAME! We were really flipped out over Dad's
"Song of India" & its precious promises for
this land. It has really awakened our hearts &
made us even more responsive to the needs of
the people here & we are also really looking
forward to seeing you here. TYJ! We really
love you & are praying that many will heed
the "Call of India" & come to help in this
"fresh new invasion". Like Dad says, "We are
going to reap the greatest harvest we have ever
had yet, I believe it!" (No. 1096:21) Hallelujahl TYJ!

THIS LAST MONTH THE LORD FLIPPED US OUT WITH MANY NEW CHANGES
in our Home & one of the main things was a
"Litnessing Revolution". Miraculously the
Lord raised up a printer who has since been
saved & filled with the Spirit & who really
loves us & wants to help us roll the Gold, PTL!

So we were able to print 211,000 pieces of lit in Hindi & also 52,000 pieces in English this past month, which is the biggest printing job we have done so far. TYJI All the teams here have really been getting on the attack to get out all this lit the Lord is supplying! PHN!

get out all this lit the Lord is supplying! PHN
IT'S REALLY INSPIRING TO GO OUT
LITNESSING HERE & see the great hunger
of the people & their need for the words of
David. Sometimes when you're litnessing,
people even cross the street to receive the lit
& we're always surrounded by people hungry
to receive the Komix & the Lord is always co
tinuing to break our hearts for all these precious sheep.

ONE OF THE GREATEST VICTORIES ONE OF THE GREATEST VICTORIES THIS MONTH is to have Keda here with us & all her encouragement & love which we are so thankful for. The Lord has used her to get us moving & pouring out the WORD more than ever. The Lord showed is that would of

the top Indian disciples were at the Lit-Pic & if we did not get out witnessing enough, then God couldn't use us to really reach our own people. So now we work on the words for half the time, & spend the other half doing a lot of personal witnessing in search of the precious new disciples which we believe the Lord is going to give us to help in the tremendous harvest. So thank God for His loving concern & direction & especially the Letters which have really been helping us to get revisioned & reinspired!

THE LORD ALSO SHOWED US TO SPLIT UP IN TWO HOMES, one doing the production of publications & the other producing the "Prem Kiran", Hindi Radio Show. Incidently, our first Hindi Show was broadcast on Saturday, the 28th of November at 1:15 p.m. So it has begun to roll! TYJ for the victory!

BY SPLITTING INTO TWO HOMES we will also have more room to accomodate & train new disciples. So do pray for us & our desperate need for new housing in this crowded city where the living costs especially of renting a house are quite high. It takes an impossible situation for God to do a miracle & we are expecting a great miracle for His Glory & for His work here. PTLI We really believe that once we get organised into two Homes we will be able to raise our efficiency & produce faster than ever.

DAD'S COUNSEL TO THE LIMS & LIT PICS in the new Mag, was really helpful about "condensations & abbreviations of some of the latest Letters for use in the Local Language Lit" & a real blessing to us here. It's amazing how the Lord always has the answers & how they come just in time. TYJ! During this transition stage, we were able to translate & do the artwork on 8 Komix for GP. From now on we really want to translate & print as many Komix as possible to distribute to the hungry starving millions!

THIS MONTH WE HAVE BEEN ON THE

millions!

THIS MONTH WE HAVE BEEN ON THE ATTACK ON OUTREACH & the Lord told us that this year He will reach the whole of Bombay through us at Christmas, & amazingly enough, He has opened the doors for an English TV Show, English Christmas Radio Show & a Hindi Christmas Radio Show. So the Lord is opening great doors as we follow & obey & is keeping us always abounding in His wonderful works. TYL!

WOULD YOU LIKE TO HELD? Westerning

ful works. TYL!

WOULD YOU LIKE TO HELP? We love & need you & are very, very thankful for all your help & prayers. God bless you!

LOVE from the Hindi-Lit-Pic Family.

ARE YOU READY & WILLING?...Because

"THERE IS AN INFINITE VARIETY OF

"THERE IS AN INFINITE VARIETY OF OPPORTUNITIES in God's work.—It only takes a man to find & make them work!" This couldn't be more true here in India where the harvest truly is plentous & the opportunities are indeed limitless! Many cities are virtually untouched & crying out for more wildly willing workers who are willing to lay down their lives for these precious lost sheep.

WE HAVE BEEN IN INDIA FOR 5 YEARS NOW, the last one year of which we've had the priceless opportunity to be in an open outreach home in this beautiful South Indian city. We'd like to share with you some of the marvellous & mireculous things the Lord has done for us as we stepped out by faith one year ago, to pioneer for Jesus! Hallelujah!

SO FAR IN THIS CITY, OUR MAIN OUT-REACHES have been MWM Minstrels, DTD, school programmes, FFing, COL & provisioning. For us foreigners open litnessing is not that wise, but TTL we've been working with nationals, who've been able to get out the WWW here!

WWW here!

THE MWM FOLLOW-UP MINISTRY ITSELF IS A FULL-TIME JOBI Presently in our
city alone there are 200 club members receiving mailings from Greece. As well as visiting
these people in their Homes, we've also been
holding a bi-monthly club party where we deliver the message through a 3-hour programme
of songs, skits & Word! MWM provides an excellent "cover" & enables us to witness & reach
people right in their own homes. Indian people
are known for their warmth & hospitality &
will eagerly invite you in for snacks & refreshwill eagerly invite you in for snacks & refresh-ments, giving you the opportunity to minister to them spiritually!

DTD ALSO PROVES VERY FRUITFUL

Peter holding Michael & Joanna vith little Stephen in Southern India

because of this & you'll easily find yourself
"inside the door" on many occasions. Again,
we use MWM minstrels in our approach & always carry with us the MWM brochures, magazines, & cassette tapes, etc. This makes us more
presentable & easily accepted by the public.
Office to office & shop to shop fit in this category as well, being especially fruitful for a team
of 2 sweet sisters!

AS WELL AS ALL PUBLIC INSTITUTIONS
the schools are wide open for music program.

the schools are wide open for music programmes. This is an excellent way to reach the young new bottles, to win thousands of souls, & to distribute lit also. So far we have done 36 music

obstructe it a sec. So far we have done 30 music programmes in this city.

FFING TOO HOLDS PLENTY OF POTEN-TIAL, especially in the larger cities. Your chil-dren, also, will be a real hit here! Indians love children & will welcome them with open arms. There's never been a children's show group,

but we believe they could really go places!

IT'S AMAZING HOW OPEN THIS COUN-TRY 18 in so many ways. Of course, one must use a certain measure of caution as "those people" are definitely known here, but now with our new approaches & especially MWM the Lord has opened many doors wide for us to march in & claim the land! SINCE WE OPENED OUR HOME HERE

SINCE WE OPENED OUR HOME HERE the Lord has helped us to witness to 22,000 people & win over 14,000 souls! PHN! We've also been able to win 2 full-time national brothers to the Family, one of whom is with us now & the other has gone to Bombay to help distribute the WWW in Hindi.

PROVISIONING IS ALSO POSSIBLE & thanks to a faithful brother, who, when he left turned over all his contacts to us, we are able to provision fruits, vegetables & many staples as well! PTL!

OUR COL IS ALSO FLOURISHING with a dozen or so faithful young people who come

a dozen or so faithful young people who come every week to hear the Word. We've been able every week to hear the Word. We've been able to cover the whole Daniel series using the FC Flannelgraphs. Three days after our Daniel 8 Class, where we showed that the AC would rise from Egypt, Sadat was assassinated. This really blew everybody's minds & impressed upon them the seriousness of the world situation & future events which have already been predict-ed in the Bible. We also have many sweet & sincere friends who come regularly for fellow-

ship & are willing to help out all they can. It's so inspiring to see the fruit of our labours! Hall The Lord has also blessed us with 2 sweet fish who both love us very much & help out regularly. PTL & GBT!

AS YOU CAN SEE, THERE IS SOME-THING FOR EVERYONE HERE & if you feel the Lord is calling you, we'd like to encourage you to "step out"! India is waiting & we believe she's ready for a great & mighty harvest! She is love-starved & needs Jesus desperately! Remember the Maharishi? Maybe you could satisfy her! She needs you!

IT WAS VERY DIFFICULT TO FIND A
FLAT, so we asked the Lord to definitely
give us one within three weeks if He needed
us in this city. Looking at a flat a day without results, we were strolling around that last
evening, when Caleb remembered the first
flat we saw, so we passed by there. The landlord agreed to lower the rent which had been
too high for us, & gave us the flat. It has surely proven to be God's place for us, as the 48
families in the building have warmly received
us & we ended up singing love songs for them
on their Puja, which is as our Christmas.
They really liked it & joined in clapping their

WHEN I RETURNED TO MY HOME
it was to give my factory a 2 months' leaving

were calm & cool about my decision & only
told me to think seriously about it.

very good way to get to know the people.
Videos are very scarce & a real status-symbol.
If they only knew how "poor" we are. Right
now we only have 30 rupees! Ha! We will
soon finish recording our first cassette & will
be able to send it off to be shared with others.
IT WAS A MIGHTY MIRACLE HOW
WE GOT THE VIDEO. Three weeks before
we left Sweden, we bought travellers-checks
for all our savings & asked the Lord to supply
our tickets & a complete set of video equipment. Caleb & Chris went on the road litnessing & Rebecca & Esther asked friends & family for help. We ordered our tickets & the day
before we left we had money for both the
tickets & the video. The Lord also gave us
video cassettes, 36mm films, a guitar, guitar

strings, suitcases & other needs which was such a confirmation that He really did want us to go into all the World to preach the good news, & that obedience brings down the blessings of God! PTL!

CHRIS HAS STARTED SCHOOL HERE CHRIS HAS STARTED SCHOOL HERE to become one, & we will start singing in schools & other places after the holidays. God's Love & the Letters helped Rodney find a new happy life!

rom Rodney; India:

HI Family,
MY NAME IS RODNEY, & I am 26 years

MI Family,
MY NAME IS RODNEY, & I am 26 years
old. I would like to tell you all how an example of God's Love changed my life.
I WAS BROUGHT UP IN A PROTESTANT,
ANGLO-INDIAN FAMILY in India. My parents were very kind, simple & sweet & tried
to sacrifice all they could to bring my sister
Linda, who joined the Family last year, & me
up in simplicity & love & a homey atmostphere.
Even though they had done all they could not understand why I was such a rude, aggressive, dissatisfied young person.
I HAD A GREAT INTEREST IN ANYTHING MECHANICAL, speedy & noisy, especially motorbikes. But even after all those thrills
my happiness was superficial & only temporary. There was a void in my life that I could not
explain & my search for happiness & contentment went on & on. My unhappiness tormented me to the point of giving up, but at the
same time I had an inner fear of death.
FROM MY YOUTH I KNEW THAT
JESUS WAS THE WAY & the only One, but
I used to get put off seeing the usual "Christians" who were not much different in their
outfook & actions than everybody else. I got

so sick of all the hypocrisy in the church & the lukewarmness & top show. I became a literal atheist who never prayed & even tried to stop others from doing sol MY PARENTS & SISTER USED TO TELL ME ABOUT JESUS but I would never listen because even they didn't have what I wanted.

I was a rebel since birth & never liked society & stayed apart from it as much as I could.

MYSISTER WAS A MWM MEMBER & one day the minstrels, James & Carmel, came to visit her. She was so impressed by their love & sample that she totally flipped out. She had never seen people flowing over with so much love & happiness & she knew she had met His true children at last! She also asked me to see them, but I wouldn't go, which I regretted afterwards.

true children at last! She also asked me to see them, but I wouldn't go, which I regretted afterwards.

A FEW MONTHS LATER MY SISTER'S BOYFRIEND PASSED AWAY & even though I had expected her to really break down, I found she had a real peace & look in her eyes that I had never seen before. (Jesus!) Since she had lost someone so close, I knew she was terribly broken, yet I knew I could do nothing for her. She just sat & read her Bible, meditated, & also read from a thick green book, the Basic MO Letters! I knew she was strong spiritually & had peace in the midst of a storm. She seemed at peace with herself & also contented. I rather envised her kind of peace, because I had searched & searched, but never seemed to find it.

AT ABOUT THIS TIME, LINDA WENT TO BOMBAY FOR A VISIT WITH THE FAMILY THERE. One night while she was gone, I lay in bed, feeling defeated & broken hearted. I cried out desperately to the Lord for help & said, "Lord, I'm fed up with my life & I know only You can help me to change my life like You changed my sister's life!" I then asked Him to come into my heart. TYJ! I didn't know what had happened, but it sure felt good!

A FEW DAYS LATER MY SISTER CAME BACK from Bombay & she told my girlfriend & me about the Family. Seeing the change in my sister & me caused my girlfriend to ask Jesus in her heart also. PTL!

WE THEN STARTED READING THE

LETTERS OF FATHER DAVID. I had never read anything like it in my life. It blew my wind & sent cold shivers down my srine. It

WE THEN STARTED READING THE LETTERS OF FATHER DAVID. I had never read anything like it in my life. It blew my mind & sent cold shivers down my spine. It contained what I knew was the truth about the church, & the world, Jesus & everything! He was the archeologist clearing away all the debris that had been there for years. His Letters explained the Bible as it really was & how Christians were ordained to preach the Gospel in all the World, as it clearly states in Mark 16:15. He also wrote how Jesus was a total

drop-out from society. Wow! What truth!! knew he was God's mouthpiece to the World as he wrote & warned of the end-time & what the Lord had told him to tell the World. TYJ!

THEN LINDA WENT BACK TO BOMBAY to do a teacher's training, but instead she joined the Family as a minstrel with MWM! PTL! My girlfriend & I wanted to drop out too & my parents could not understand what had gone wrong with us! We had become radical Jesus Revolutionaries, rebels against this World's system & we saw only one way to live, & that was to serve Jesus full-time. I knew this life wasn't worth living if I couldn't live it for Jesus! PMN!

MY GIRLFRIEND & I WEREN'T LIKED

MY GIRLFRIEND & I WEREN'T LIKED

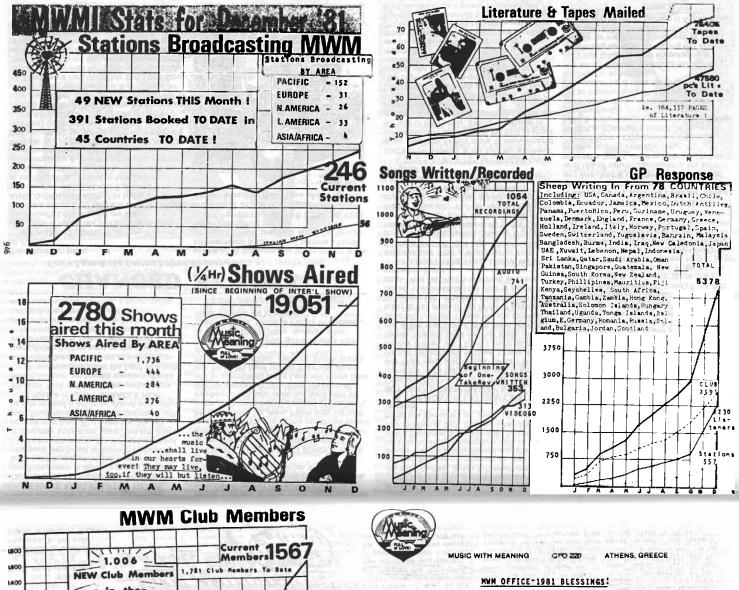

MY GIRLFRIEND & I WEREN'T LIKED because of our revolutionary ways & ideas, & her parents forcefully broke up our friendship. We then decided not to join the Family. The Enemy was really fighting & I was really broken. My dreams were shattered. It seemed I had been better off before I got saved.

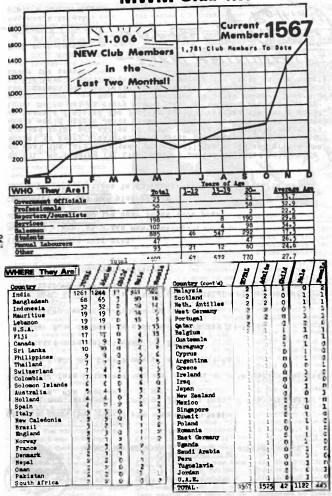

I SIMPLY COULDN'T GET MY MIND OFF THE FAMILY & all of the Lord's Love that shone through them. I went to see them again, for a month's vacation, & while I was with them, I was able to witness, to do a show in a school, to visit MWM members, go Office-to-Office, etc. It was so inspiring! I had never been so happy in all my life! The love that they had was a special love & this love they shared so freely.

Dear Ones,

6BY: MLYSM: Last year you wrote us, "Me know it's a lot of work but we believe that, DV, it will grow into the biggest å most far reaching Mail Ministry the Family has ever known, helping to preach the Gospel to all nations, as well as setting up the working foundation upon which the local language MWM's will base all their procedures å techniques, PTL:" -19 Dec. So we wanted to share with you our statistical highlights from 1981, as follows:

NUMBER OF PIECES OF MAIL RECEIVED/PROCESSED - 10,924 Received mail from 80 Countries:

**We've possed **See Doc Misting Mark!*

**We've possed **See Doc Misting Mark!*

**Mote 1: It's interesting to note 1 piece of incoming mail in essense generates 3 pieces of outgoing mail, as a general average. -Besides the lape W'lings to Fam., another reason is one incoming letter may include several espects: for example a gift requiring a TKU, an order requiring tapes, plus a question requiring an answer, or a booking card meaning sending tapes a letters to a station, etc.

Note 2: In one 'average' day in the Office, therefore:

We sent out: 256 tapes, plus 41 station brochures & 47 station cards, plus 47 letters, plus 9 ML's, & 138 pieces of lit(~568 pages)!

(Mk 16:15) The Lord wants every tongue and tribe and nation to hear. -That's our goal: To reach the whole world before Jesus comes: ...-We're not satisfied, because we haven't finished the job! Me haven't reached the whole world. Lord. Me're not in every country and we haven't preached to every creature. ... May we all continue to press forward toward our common goal of reaching the entire Earth with the Message of Mis Love! -Until righteousness covers the Earth as the waters cover the seas!

Just a few minutes before
landing I was thinking
about the quote, "How like
death moving is," & then I
was thinking about how in
the Letter "life after Death"
that the people who died
were met by friends or loved
ones on the other side--

A pretty Italian mother-&-daughter team: Rony & Ivana.

A pretty Italian mother-E-das someone they had known in their life-time who had gone on before.

WELL, I KNOW I WAS EMPER-IEMCING THE DEATH OF MOVING & especially the spiritual moving as the door to one place of my life closed & another was opening. How scriptural then to be met by two old friends & escorted to the camp. I was so happy!

MY FIRST MORNING AT THE CAMP I WAS SO SHY I WAS AFRAID TO COME OUT OF MY TENT. I peeked out of my window & recognised Zach Lightman fixing coffee on a little camp stove, so I went out to see him. Zach & I had worked together a little with video way back in London when he had just joined, so it was a happy reunion. I met Lydia, his wife, & their 2 children, & they kind of "adopted" me into their little family.

IT JUST HAPFENED TO BE FERED DAY, so there was lots of time to relax, fellowship, share testimonies by long people came passing by

the tent, some familiar faces from the past, some familiar only from the FN, & some completely new-but all smiling, friendly & so full of love!

IN THE FUENING ZACH & LYDIA INVITED HE TO WALK WITH THEM TO THE HEARBY VILLAGE FOR DINNER. And when we got back to camp we sat outside for awhile & then said our goodnights. I went to my tent & just sat in a chair reviewing the events of the day & thanking the Lord for the privilege of being here. Then I heard a sweet voice calling me outside the tent. It was Lydia, & she just wanted to be sure everything was airight; but everything was airight; but everything was a whole lot better after her visit! GBH! I sure felt at home!

MELL, THIS IS ONLY MY 3RD DAY HERE, but already I could write a book about all the inspiring devotions, videos, RDs & countless little acts of love that I've seen so far. But to try to summarise my overall reac-

tion I guess I'd say that the true spirit of love is manifested here--love in action! It's that multi-national love that Topaz sings about in "Love is an Emotion", everyone look-ing out for the things of others.

ing out for the things of others.

ALSO, EVERYONE SEEMS TO BE REALLY ANOINTED FOR THEIR HINISTRIES, 6 whether great or small, there is mutual respect for that anointing.—such a picture of the body fitly joined together, governed by the Holy Spirit! I could never express what a privilege it is to be here, but I'm beginning to understand what the verse means about preferring to be a door-keeper in the house of the Lord:

1'D ALSO LIKE TO TAKE

preferring to be a door.

I'D ALSO LIKE TO TAKE.

HIS TIME TO TELL HOW SORRY I AM FOR HOM I'VE STRAYED IN THE PAST FEW YFARS.

Although I never stopped reporting or tithing. I surely backslid in spirit thru my disobedience 6 compromising 8 was just going thru the motions—had gone to sleep 6 left my engine running.

SO I KNOW THAT IT'S ONLY GOP'S MERCY THAT HE EVEN LET ME SIT FOOT IN THIS CAMP: "The goodness of God leadeth thee to repentance."

(Ro. 2:4) These few short days have been a life-changing experience, 8 I'm soo thankful for it. I'm sorry I'm not exactly a prodigy, but I'm happy to be a prodigal son back in the Father's house! I love you 8 hope I can be a blessing wherever His service leads! (UR!)

TRUY, "MITHOUT A YISION THE PEOPLE PERISM", as we were "in a dry & thirsty land" before coming here for this refilling. Reing able to record my songs has been tremendously inspiring--I think feeling appreciated & wanted has done more to encourage my heart than anything since getting saved & finding bad. It's almost like I looked at the promises "afar off" & couldn't enter in & fully partake for fear of rejection--really damnable lies of pride & fear that still need a lot of breaking down, but thank God the "umph" to overcome is back after being pretty "weary in well-doing". Thank God for such a supernatural revolution!

BOY, YOU JUST WALK AROUND THE CAMP & it's awesome—the anointings, such as the world has never seen, but they're going to, face to face! And seeing Dad's furcan only make one want the whole world to see it—the undeniable prophet of God, with the World's most broken heart pouring forth the passion of God almost uncontrollably! (Tri. NOTES FROM MWM/MCV STAFF

From Michael: At MWM:

THE SCHEDULE WHICH YOU SUGGESTED ON YOUR TAPE TO MCY we have put into practice, & it makes such a difference. It's so much easier to work when you feel rested & your mind is so much fresher & clearer to hear from the Lord about

l'm so happy you are 1 great believer in the "si-esta". Time to read, eat well & take a little nap & swim etc. is so refresh-ing in the middle of the day. And not singing within 2 hours after a meal really makes a difference. Many times in our "frenzied"

achedule I have gotten heartburn or indigestion & just didn't feel like working.

THE UNITED DEVOTIONS ARE SO IMPORTANT ALSO. Sometimes when I would work from 9 a.m. till late I would not unite with my family & would feel as if I had left things undone at home. Although my work load was getting done, my personal family was suffering due to my negligence. Now we all unite together in the morning, & it's so nice to have a new Letter, audio-or video tape first thing in the morning when we're freshest, & not late at night when we're tired!

AS PAR AS SCHOOLING, I think it's an excellent idea to put the children in a Christian achool. This way the mother's effort, instead of the 3 Rs, can be channelled into memorisation & Biblek Letter

Orwading. God bless Patience!

Oshe has really been doing a good job as a teacher & learning an amazing amount, but her main anointing is in teaching the children haily Wights, chapters & verses.

I WENT TO A CATHOLIC.

Daily Rights, chapters & verses.

I WENT TO A CATHOLIC SCHOOL FOR 10 YEARS, 6 they do at least stress discipline & Christian behavior & prayer. I guess System prayers are better than no prayer at all. And they really demand respect, which I'm sure will do our children good. And, as you said, it will sure make the kids appreciate home & mom & dad & their own family, brothers & sisters & playmates! THE TAPES & VIDEOS ARE SOCH AN INSPIRATION TO HE: i really enjoy God's revel-ations: I feel like a babe

ILOVE THE TAPE ON SCHEDULES, & it certainly workswe have more time for everything, & it also helps everyone to be more unified. The children fit into it
well too, as their school time is my work time in the mornings.

IAPPRICIATE EVERYTHING YOU AROUT CHILDREN! I love teaching them myself but realise that it is quite a load for me as a mother too. If the older ones do go to school, it means that I will have more time for the younger ones who need it in the earlier years. I totally agree with you about sending them to school I don't know why we didn't do it here. I think Greek schools would have been too hard for all the children, except Dicon & it could have done him good, but they do have English schools here that you pay for.

ANYMAY, I DO DEFINITELY LOOK FORMARD TO SCHOOL in the mornings; I think it will give them a tighter schedule & keep them out of mischief more, &, as you said, make them more thankful for the Family. It certainly won't lurt them!

SONETIMES I FEEL LIKE A POLICEMOMAN, keeping them

Pamily. It certainly won't hurt them:
SOMETIMES I FEEL LIKE A
POLICEMOMAN, keeping them all constructively busy, but I do enjoy it. Children definitely are an heritage of the Lord & I'm definitely blessed. (Ps. 127:3-5) Lord help me to stay close to Him & you & train the children right. Thank you again so much for all the Word & for Davidito's & Techi's examples! (prit #1, @veem)

From Hosanne & Abigail: THIS IS JUST TO LET YOU KNOW HOW MUCH I LOVE & AP-PRECIATE YOU & ALL YOU'VE BONE FOR NE. I never feel like I have, or can express

that enough, & I really want to thank you for your love & faith to try to rehabilitate me out of "Rachel's bunch".

love & faith to try to rehabilitate me out of "Rachel's bunch".

"I'M SINCERELY SORRY FOR THE THRES I'VE LET YOU DOWN & haven't lived up to the confidence you've put in me, & in fact daily in my responsibilities here I realise how hard up you must be for someone to oversee this MHM Mail Ministry—as it's not just the matter of feeling unworthy, but I feel like such a worthless clod, unable to handle the responsibility.

I JUST WANT TO SAY THAT SO MANY THES IT IS ONLY YOUR FAITH in having asked me to do it that keeps me; going & trying my hardest to serve Him & you with all my heart, despite myself. Anyway, as long as I'm in this capacity to be a bleasing to the Family & stations & a help to Simon in this ministry. I just want to do what I can to be faithful in the little things—despite my obvious shortcomings in many of the big things! I love you so, so much and really do appreciate you with all my heart. [COME FROM A TYPICAL

young years I was a very
shy reserved little boy.
The communication between
me & my parents ever since
I can remember was virtually nil, so I just resorted
to hiding in my studies,
lonely games & dreams.
MY FATHER EMGACED IN A
MAD PURSUIT FOR MONEY &
wealth, & my mother was too

life, so finally the whole
fasily shattered. From seeing so much fighting & unhappiness amongst those
closest to me, I guess I
become increamingly idealistic, longing for a peaceful, better world, but at
the same time very hateful
& vengeful of the society
& the System that produced
me, I started searching
thirstily into averything
to calm my umeasiness &
find a solution for both
my troubles & those of
other people.
AT 14 I BECAME INVOLVED

the dry standpoint of a

everything, the fire flickered out & I became disillusioned. How could I even

Jonathan recording at the Musica con Vida studio. hippy movement full swing. After a very enthusiastic beginning where I thought I had found Heaven, little by little it became apparent that the initial idea of living in true love and close to nature I fellow man ended in mere drugs 5 everyone fending for himself. I MAS HIT BY DEEP DEFERSION & SOREDOM. The treadmill of everyday life was unbearable. I remember many a dreadful afterneon with a group of friends looking at each other wondering what to do. Just then an opportunity arose to travel to Mew York with my mother £ 2 younger sisters. Little did I know I had to go down to the very gates of hell on earth itself to find the new life I was searching for. My DEFESSION & FHOBIA GREW WORSE, & I came to the end of my rope. After trying some oriental religions for a brief tranquility, I knew I couldn't take it any more & finally cried out to God that If He existed to please come & help me out of this meas.

SHORTLY AFTERWARD I MET SEVERAL MEMBERS OF THE IAM-LIV OF LOVE. I was attracted to them by the beautiful reflection in their eyes & that happy yet peaceful sir about them. That very day

I asked Jesus to come into my life, actually thru a very simple prayer, which was a surprise to me having been raisad a Catholic where too much emphasis is put on penance 6 good works.

I RAVE NEVER FILT SO CLOSE TO JESUS in my whole life. For the first time I felt truly protected 6 loved 5 that I had a real friend always by my side. The joy born in me that day was overwhelming. As I walked thru the streets of downtown New York later that day, that longstanding remorae 6 hate I had towards people was replaced by an intense desira to love; an Irresistable compassion took hold of me.

WHAT I HAD FOUND WASK'I JUST ANOTHER RELIGION MITH NEW MOTIONS & RITUALS TO PORSERVE, but a way to love 6 live, a simple closeness to God in the happenings of everyday life, where joy could be found in the smallest details. Prayer wasn't just a repetition of words with little meaning, but a beautiful live new experience everytime—actually communicating with the Lord 6 obtaining the deepest, greatest pleasure from it.

IT HAS BEEN OVER 9 YEARS SINCE THAT DAY, 6 it only seems to be getting better. Problems do arise, 6 there are battles to fight, but it is so good to have the assurance that such faith 6 love brings an ever-helping hand in time of trouble.

ONE MONTH LATER I DECIDED TO GIVE MY LIFE FOR JESUS IM HEREING OTHERS find a life of love. Since then I travelled thru many different countries trying to communicate His love to others as a living sample that it works, now on radio via Musica con Vida. Praise the Lord! (Amen/TFLI GEV!)

MCV CHRISTMAS SPECIAL REACHES TOP BROADCASTERS!

From Senaah, Sunny & Rain:

TTLI HOW WONDERFUL ARE HIS WAYS!

We were informed just before the weekend, by a brother here in town, that there was to be a convention of radio broadcasters from all of the Latin American countries: ALL. However, when we called for more info, we were told that they were only expecting about 65 people. We counselled together & sent a first souting team of Sunny & Senash to the hotse in downtown Miami where every one was to be gathering for this convention, to see also whether it was necessary for many of the sisters to go down on a big attack, or what.

WE DID A LITTLE SCOUTING AROUND & info gathering once we got there, & discovered that all the guests had not yet arrived, but the hotel clerk even let us see a list of names of who was expected, etc. (The briefcase worked great!) GB DiAnna who obeyed the Lord's check to go right to the top & talk to the secretary of the All. & who actually was the chief organiser & schedule pusher. Ha immediately fell in love with us & from then on we were treated royally! He could only take two of us though, so Donato & Crystal had to wait for us elsewhere, & he invited us as his personal guests, introducing us to his associates & friends at the first banquet, Friday night. The delegates from each country gave speeches before dinner, a couple of which practically had us in tears for their people. We quickly saw that although almost every speaker tried to convince his audience that he wasn't a politician, non-involved in politics, that indeed it was quite political! There was much mention of democracy & freedom of speech, saying how great North America was along this line, the main point of reference being the Communist takeover of Cuba in 1959, & its varied effect on them. There was a terrific amount of discussion about Cuba throughout the whole conference, because it was sponsorad by the influential Cuban here in Miami.

THESE BROADCASTERS & DISC JOCK-EVS WERE ON FIRE FOR THEIR CAUSE! It was interesting because when we first arrived at t

you.) Later we were to discover that we had actually been included on the Executive Council or Congress of the AIL, & virtually treated as equals with them, not participating in their discussions over their statutes, of course. These men & women were mainly the leaders or presidents in their countries of the Broadcasters Associations!

discussions over their statutes, of course. Inese men & women were mainly the leaders or presidents in their countries of the Broadcasters Associations!

THAT FIRST NIGHT WE PROMOTED

THE MCV CHRISTMAS SPECIAL, & had incredible response-even without anyone having heard the program yet! Mind you, this was a tight group of Latin leaders, with 13 Latin countries represented—all with a common goal of using their means—their tool—their tongue—the RADIO—to proclaim liberty & maintain their freedom of speech through their radio programs. We could have been considered intruders, but were actually treated as queens! GBT! Had it been an inner circle of N. Americans, things sure would have been different, but thank God for the Latins!

AFTER THE BANDUET, WE WERE INTRO-DUCED to the President of the Association, who extended his personal invitation to us to attend all the conferences & meals (free of charge). He was such a busy man, yet each day would confirm his invitation to us. Also everyone we had spoken with was concerned that we were coming back & would give them a sample copy of our Christmas Special MCV tape. We got to mix & mingle more personally at the hotel lobby with several of them, & get definite commitments towards the show that night. Driving home about 2 am we had a blowout right on the expressway on a bridge, & prayed for the Lord's protection—the Devil was sure mad we were going to be getting out God's Words! We arrived home safely, TTL!

WE RETURNED ON SATURDAY with Rain who was able to learn some of the politics in volved in producing & promoting the show. We continued to make personal contact with the delegate of each country or their aides, & established a rapport so we would feel confident they would use the program, helping them to realise the importance of it! What a mirracle!

We just couldn't stop praising the Lord & thanking Him for opening these doors to get the country or their aides, a established a rapport so we had a large and a large.

reasse the importance of it! What a miracle! We just couldn't stop praising the Lord & thanking Him for opening these doors to get the "Especial de Navidad" on the air in all these countries by Christmastime, for His wis-

dom & perfect timing!
WE DIDN'T HAVE TIME TO GO HOME, so
Donato brought us our clothes & we changed
in the hotal bathroom. He also brought us the
40 tapes air-expressed that day from Puerto 40 tapes air-expressed that day from Puerto Rico, having gotten delayed three hours due to plane trouble, but TG they did arrive still in time! Our next big surprise came when we went to the Banquet on Saturday night, when we walked into the Club & there were close to a thousand people seated for dinner—most of them decked out in fine jewellry & mink stoles At the front of the benquet hall at the U-shaped table of honour sat all of our friends & contacts with whom we'd spent the last 36 hours. Quite a few got up to greet us or smiled or weved.

hours. Quite a few got up to greet us or smiled or weved.
WHEN THE DINNER WAS FINISHED WE BEGAN DISTRIBUTING THE TAPES to all those who'd either esked us for a copy, or expressed a large measure of interest in hearing or using the show. We had been commended by so many of them: "How wonderful! I can't believe you're doing this! This is what the World needs!" That was the general consensus repeated to us over & over again! They were overwhelmed! So much so that we actually had about 5 promotors in the crowd who gave a sales pitch for us at every opportunity possible, a couple of which had listened to the tape in their own room the previous night & who loved it! One man very humorously used our legs as a point of interest in his sales pitch, & his opening line would be: "These two are promoters of love!"...then he'd joke with them about how he hadn't been able to get any yet himsel!"

about how he hadn't been able to get any yet himself!

THE NATURE OF ALL THE DISCUSSIONS was basically communism vs. democracy in Latin America & the unifying of the Latin brotherhood, so we had questioned amongst ourselves if maybe they weren't backed by the Illuminati. All the speakers were so emotional & in fact dramatic! They spoke a lot against Castro & in fact quite influential people who we talked to personally expressed desires to kill him for all he'd done & told us Cuba was much better before Castro, & the poor Cubans there were helpless, & needed their help. Of course having known of Dad's views about Castro, we didn't get too into these conversations, but just listened & asked a few polite questions. AS THE HOURS WENT BY, WE CONTINUED TO BE MORE & MORE AMAZED AT THE MAGNITUDE OF WHAT WAS BEFORE US & how the Lord has allowed us to be part of it. It just broke our hearts for Latin

America & its wonderful broken people. They were so sincere in their campaigns & so convinced that the enswer to all their problems was to maintain whatever measure of democratics. was to maintain whatever measure of democra-cy or freedom of speech that they could, yet at the same time, they were touched & moved by our campaign to give the Lord's music & message to all the Spanish-speaking world! DIANNA GAVE A TAPE OF THE CHRIST-MAS SPECIAL TO THE PRESIDENT OF

DIANNA GAVE A TAPE OF THE CHRIST-MAS SPECIAL TO THE PRESIDENT OF THE AIL. He wes always quite warm with us though always pressed for time, & this got us a little more personal contact with him. He actually exchanged cards with DiAnna (we'd had business cards with the MCV logo & PR 312 address printed), giving us his personal home number, & saying to be sure to stay in touch. Later, when almost everyone had departed, he personally invited us to have a drink together along with 2 of his very close friends. One friend who was a doctor confessed to us that his "doctors & lawyers association" was a more front to do everything possible to reise money to destroy Castro & Castro's Cuba. We finally said good night & headed home praising the Lord that He'd accomplished so much through us! We'd managed to distribute 20 of the 40 tapes PR had sent to us, which included very good possibilities of bookings in about 8 different countries.

ON THE WAY HOME we discussed the possi-

tapes PR had sent to us, which included very good possibilities of bookings in about 8 different countries.

ON THE WAY HOME, we discussed the possibilities of returning in the morning, as there was to be a final breakfast, & all was to be over by 12, when we thought we'd maybe get the remainder of the people their tapes. But while praying about it the next morning, Watchman through a phone call confirmed the urgency of getting the tapes to as many countries as possible as this was the only way they would ever get them before Christmas. So we repented of having been so selfish as to think we ought to not go back & finish the job, just because we were tired, & pressed for time with the DAF that afternoon, & got there about 11:30. We waited outside the door where they were meeting until they finished this time, & found out they were going to lunch. The president came ing until they finished this time, & found out they were going to lunch. The president came over & invited us, GBH, so we got to go & talk to even more people, having no idea how much of a victory was awaiting us. There had been one man in particular who'd been one of the sheepiest & spiritually hungry, that had not been able to get a tape the night before, along with the others from Mexico, Panama & Chile whom we'd not had a chance to approach til that time. whom we'd not had a chance to approach that time.
IT WAS AT THIS FINAL COCKTAIL PAR-

TY that we not only made contact with our Colombian friend but met the presidents & owners of the local stations here in Miami, the president of the Broadcasters Association in Chile, the Panamanian representative, & a Uruguayan representative now residing in Chicago. This particular man had been very elusive to us, but DiAnna made one last try to get him interested in the show & he then made a commitment to play our show on his station, as well as asked right away to have the Christmas Story video to be sent to him, as he wants to use it Christmas Day at three o'clock, TYJI SEVERAL TOP ADMINISTRATORS fell head over heels over us & our ideas & our pro-

SEVERAL TOP ADMINSTRATORS fell head over heels over us & our ideas & our program. Meeting them socially this way was just perfect! We'd been trying too to get the show on the air locally, but had been unable to reach the right people! We received so many personal comments & compliments & admiration for our dedication, sincerity & message. One man even asked if we ever heard of the "Niños de Dios"! We got to make bookings in Gustamala, Honduras, El Salvador, Dominican Republic, Chile, Colombia, Chicago (one & a half million Spanish speaking people!), Miami, Panama, & possible bookings in Dallas, Mexico, Costa Rica. We had asked our Secretary-friend for a list of all: ible bookings in Dallas, Mexico, Costa Rica. We had asked our Secretary-friend for a list of all the names & addresses of those in the AIL Congress, in case we'd missed anyone during our time with them, & we were able to get it then, under the table. (We were not actual members nor had paid any registration fees to be given this selah info.) Also, as we were leaving, the President took my hand in a friendship shake & said, "Please don't lose my number!" I told him we would be in contact & then thanked him profusely for his hospitality & for helping so much! He responded, "A sus ordenes", & was so sincere & almost sorry we were leaving. We got quite a few pictures which we'll send you when developed!

Commentary by Rain: PTLI GBY! I WAS REALLY INSPIRED to get the opportunity to attend the Sixth Con-gress of Broadcasters of Latin America, which was just held in Mierri December 4—5. & is a

yearly event in various cities. We were able to attend almost all of their meetings & dinners, & it was a very interesting, educational & inspiring experience, It really helped me to better understand the feelings, backgrounds & other political & cultural factors which influence these radio station owners & commentators; which of course will affect how they view our new program, Musica Con Vida.

ONE OF THE FIRST THINGS which caught my attention was the highly tense atmosphere in the meetings when anything political was brought up. There was a definite tear of communism in most of the Latin countries & a lot of references were made to Cuba & Castro & how they all had to be on the alert that another Cuba or Nicaragus didn't happen in their own backyards. They kept saying the meeting was not political, but it was obvious that the radio media, which is so powerful in these countries, could be a tool to either encourage political stability or political chaos. Yet they were all very vocal that they must have their own autonomy when it came to expressing their view.

tries.

IT SHOWED ME HOW PRAYERFUL THE RADIO STATION BOOKERS MUST BE IN LATIN AMERICA, to simply present the show & let it sell itself & steer clear of anything political or religious. On many occasions when talking to these various representatives they asked me to tell them who was packing us & where we were from & kind of probing to try to get more info from us on various political issues. We just tried to keep things sweet & simple, & get them to listen to the tape—then they were immediately "hooked" as we do have the "best show on Earth", & they were all very obviously impressed with not only the quality but also the Spirit of the tapes. They were so hungry for the tapes that when Donato brought them from the airport, Senaah, Sunny & myself began eagerly passing them out & getting as much info as possible from the various representatives which we will be passing on to the Mail Ministry in PR for further immediate station following AS DAD SAFD IN THE "MUSIC WITH MEAN-ING SHOWS" 42 & 43 "I'd just like to have you hear it—one minute, five minutes! rouldn't be too difficult to report the Lord's recent outstanding mi-les, as He guided us to the completion of a totally new studio and the clutionary remodeling of the old one. A look at production stats will you am idea;

After its first full south of operation, the new studio had been the sce for 30 songs recorded from scratch, 19 other songs finished there, 7 KCI shows (including the Christmas Show, Jesus 16 Born & the Spanish Christs Carols tapes), plus a Disco tape, a Children's Witnessing Tape in Spanis and two 90-minute Daily Might tapes in Spanish, Wow! TIJ!

This stadio has also seen our own Jerry Crusader develop into our first string producer and technician, without missing a beat as lead singer, poser (he dear timeses composed and recorded one of the outstanding net Carels), arranger and daddy. His legendary talents as an all-around martist were in full bloom as he oversaw all of the above production.

Giving Jerry some real able backing in the control room practically since his recent arrival is Jossh. To do so, he has had to formake almost entire ly his before-the-mike work in order to concentrate on control-room efforts and it's paid off in the great satisfaction of superior productions. Till:

The splendid renovation of our very first studio was a real, major miracle. When MCV's main operations happily moved to our new facilities, our first studie was atill showing sigms of being a rum-down farm house & a garage—turned—studie. The lord had miraculously used it for quite a while, as it turned—studie. The lord had miraculously used it for quite a while, as it put out our very first shows. But with the opening of our new studie, its state became even more imadequate & unimapiring by comparison, and the musicians' desire to utilise it all but disappeared.

The beginning of its remainsance dates to Zach and Shelly's move there. Or

free-lance decerator and remodeler, Gideon, already had a positive, optimi

fice eye on the place, and his burden to salvage it for the Lord's musical

work had been put to action as he broke ground by de-jungling the outside,

painting and generally maintaining the property.

Zach then coupled up with him in cleaning, painting and wall-papering the inside. Joon, a complete kitchen was previsioned, from sink to stove to ice-box and cabinets, plus new tiles for the floor and an sirconditioner.

When gravel was carefully laid around the house to stem the approach of the surrounding rais forest, the basic job of reclaiming the old house I ended & with it the basic amenities needed for those who would be using studie were in place.

This is where our carpentry "masstro" came in. Tool box and plans in hand, firms leads landed at what had become known as the "old" studio or "Mudville," and after a few days" work we had to gladly rechristen it the "farm studio." Ris work reminded some of us of an old Latin phrase: "hackened de tripas coractes" (literally "turning trips into hearts") as he took the same, old, tired four walls of the ex-two car garage, and refurbished it into a studio which has already successfully set the proof of the pudding; quality sound, superior recordings and inspired susicians.

Thus, our latest prayer had been answered: to have two studios adequately built and equipped for full-time use, whereby MCV would henceforth be capable of uninterruptedly producing and aending out susicial radio pregnass for the hundreds of stations which you all are surely already booking, as well as more DFO & DO prejects like DR's, dramas, witnessing tapes, etc. Not to

Dear Family,
GBY! WE ARE SO THANKFUL TO BE HERE AT MCV, working in the father's recording studiol Miracles are being done with only 4 channels, some of which you should have heard with your own ears by now. It's hard to believe that only 7 months ago we were in Laredoville at the meeting of the prodigals, & exactly 7 months today that Singing Sam arrived there for a short 2-day visit & ended up beck in his Father's House again tool TTL! It seems like a dream that we're even here at all, it's such a dream come true. Of course, it's not the physical location we're in as much as it is knowing you're in His will doing your best for Him & others.

ONLY 8 SHORT MONTHS AGO WE WERE IN MEXICO at wits end corner trying to figure out how to get back into full-time service. We had come to Mexico in '78, just after the RNR & the family had received some severe persecution & the work had been nearly ended, almost all Americans deported & the national brethren scattered & unsure of what to do.

WE WEREN'T TOO SURE OURSELVES

ended, almost all Americans deported & the national brethren scattered & unsure of what to do.

WE WEREN'T TOO SURE OURSELVES WHEN WE GOT THERE! We had wanted & needed a change drastically after 4 years of being in the "show" group in Brazil, We had wanted to get to the field & really be missionaries again, living by faith, seeing the Lord supply. We realised upon arriving in Mexico that it wasn't going to be easy! We didn't have home support, had only \$40 left when we arrived in the capital city & with no one there to meet us or help us on arriving! And there was definitely no possibility of litnessing there in the capital as the memory of the Family, "those bad people", was still very fresh & strong in the people's minds. We sang in restaurants, Gentleness being 7 months pregnant & myself with our then 2 kids & provisioning every meal & staying in hotels the first weeks we were there.

THEN ONE NIGHT GENTLENESS MET A LAWYER while hitch-hiking to the Sheraton, who invited us to come live with him in his little 2-bedroom apertment. He was single & seemed to be a real sheep. We were desperate, so we gave it a try. Well, GBH, he really came through & became a real friend for

apartment.

TO MAKE A LONG STORY SHORT, I went from working nights singing pop tunes in a small group combo to working in recording studios doing arrangements & recordings to finally working with one of the top singers of the country & continent as musical director Things were really looking up for us materialistically as we were getting really established there. But, something was missing—that satis-

faction that comes only from serving the Lord full-time & seeing the world really changing

full-time & seeing the world really changing by your efforts.

WE WERE PERSONAL WITNESSING,
Gentleness & I both had a few good fish on the line, a couple of souls, the kids even fished their own 29-year-old childcare worker & who is now tithing from there in Mexico City, a very precious brother named Manuel, whom we pray the brethren there will be able to get in touch with as he desperately needs fellow-ship.

we pray the brethren there will be able to get in touch with as he desperately needs fellowship.

ANYWAY, WE WERE ALWAYS TITHING but were never really doing our best for the Lord—so caught up with the affairs of this life that it choked out our witness. Watch out for compromise as Dad says. The Devil slips in so subtily & little by little whittles away at your convictions here & there without you really realising it till you're not the witness you know you ought to be & not the missionaries you read about in the Family News. Each mailing was always so convicting 'cause it was as plain as day that we were missing the mark. We knew the children were really missing out, too, in not getting the real spiritual training they needed to be revolutionaries for Jesusl We were a far cry from that!

I ENJOYED USING MY TALENTS TO THE FULLEST, but the system only uses, & more often abuses you & its only rewards are some material recompense (& even that was hard to get in those big companies!) or the satisfaction of getting your name known for all the wrong reasons. At one point my goal was to be the best & most called on arranger in Mexico City...what deceit! What I do see in all of that, though, is what Dad said in "Abide in Your Calling", how the Lord used this in Luther training, & preparing me for the job He has me doing now here for you & the lost, & to also rub our noses in the mud & mire till we were sick of the system music world & were convinced by where it was NOT at, &

& to also rub our noses in the mud & mire till we were sick of the system music world & were convinced by where it was NOT at, & this gave us a burning desire to just dedicate all our time & talents to the Lord's music, never to desire the ways of the world again!

OUR GOAL NOW WAS TO START MCV

THERE IN MEXICO. Dear Solomon had started us to really get to work on it, but if it hadn't been for him, we probably would have taken even longer in getting done the little bit that we did get done. I was making good money & in January of this year my father helped me finance the TEAC 4 channel & mixer we

are now using & Gentleness & I started rolling!

WE BEGAN RECORDING SOME OF MY
SONGS using some of our system musicians
friends, & I thought for a while maybe we'd
get something done. But, even the' they loved
do
do, even donating their time to us in recording
sessions in a primitive recording studio, we set
up in the drummer's rented office, they all had
their own interests & we just couldn't get
enough of their time that we needed to produce the music we needed. And, by this time,
we were fed up & desperate for a change &
wenting to get out of our situation—trap—into
on ewhere we could really produce the music
needed for the Lord's work.

THAT'S EXACTLY WHEN FAITHY &
JUAN CAME & we had our chance to leave &
come here to MCV which is another whole
story of its own, as God did miracle after mir
acle to get us here including my father forgiving
a \$ 4,000 debt we had to him! Aside from
helping on the studio equipment, he had also
lent us money to be mobile, GBHI And He has!
by, (He was our first parent to come & visit here;
& he was greatly honoured & very much impressed & happy about our rededication to the
Lord's full-time work! Hallelujah!) When you
are working for yourself, no one will have mercy, but when you choose to serve God & put
yourself at His mercy, the Lord never fails &
things work out. We weren't even sure we had
the faith to ask him to forgive the debt, but we
did & he came through!

SINCE WE MADE THE CHOICE TO WANT
no Go BACK TO HIM & His full-time service,
it's been an up-hill climb, but He's opened the
doors all the way, which shows He really gives
us what we ask for & have faith for, God takes
us exactly at our word. He's given us the desires
of our hearts for sure! We're so thankful that
while we were yet so undeserving of a chance,
He reached out to us & picked us out of the
slimepit we were in, cleaned us out of the
slimepit we were in, cleaned us off & deposited
us in the father's house. And He even used
beautiful Faithy & Juan to do it! We love them
so!! Thank you, Dad & Maria for

We believe that what is happening there is exactly the way things will be when the Anti-Christ starts taking over the whole World. The Letter "End-time Whispering Vision" really describes many things that are happening there where the government is trying to push its religion (anti-God communism).

IT REALLY BROKE OUR HEARTS TO SEE SO MANY WOMEN & CHIL-DEN ALREADY INVOLVED IN THE ARRY, carrying big machine guns, when you can still feel in the air the spirits of the thousands of young-people who were killed in the recent war.
NEVERTHICESS, THE PEOPLE ARE SO RROKEN & RECEPTIVE AS NEVER BEFORE. & they are hungry for the Lord's Words. The seeds of love of the words of David are well received in their hungry hearts, even as rain is well received in their hungry hearts, even as rain is well received in their hungry hearts, even as rain is well received in their hungry hearts, even as rain is well received in their hungry hearts, even as rain is well received in their hungry hearts, even as rain is well received in their hungry hearts, even as rain is well received in a dry summer. They suffered a big earthquake in 1972 that killed thousands of people & completely destroyed the capital city, Managua, & a few years later they had a bloody civil war.

UNITED EFFORT RESULTS IN TUNNEL OPENING SOUTHWARD FOR MANY:
From Ebed & Estrela; Now in S.A.:
ONE OF THE FRUITFUL RESULTS OF
THE PORTUGUESE NAF was a decision

owners) & see if they would let
Family members travel on their

ships going to Brasil via Portugal or Spain.

AFTER HAVING UNITED PRAYER WITH LAYING-ON OF HANDS & messages from the Lord thru prophecy, Joseph left for Hamburg, Germany by train. It took him two days to get to Hamburg, but after only 5 short hours from the time he arrived he had spoken to the president & several captains of a shipping company who had 3 months previously closed their doors to any passengers travelling on their cargo ships to Brasil from Portugal. They had previously closed the doors due to some trouble they had experienced with some non-Family members aboard. After speaking to Joseph, they gave him their cards & special permission to book Family members on all their boats to Brasil. They encouraged him to see other companies too which had ships passing thru Portuguese ports.

WITHIN 4 DAYS OF HIS DEPARTURE,

WITHIN 4 DAYS OF HIS DEPARTURE, Joseph was back in Portugal with these thrilling, miraculous accounts of what the Lord had done to open up the tunnel southward. PTL: TYJ! His goal is to get passages secured for 40 families within the Family on various shipping lines. These would be enough openings to effectually evacuate the rest of the Family in Portugal.

sider that a normal, one-way flight on a commercial airline from Portugal to Brasil costs about \$800. (Some of the boat passages will even be free for those who are able to work aboard the vessels.) The ships will be at sea for 10 days, with 3 meals a day served on board. PTL for a beautiful, relaxing, temple-time, boat-travelling pace--a nice interlude between two worlds.

If ALL GOES ACCORDING TO SCHEDULE, & people catch all the available ships, everyone could be in South America by the end of this year! PTL! It's a fantastic answer to prayer for a desperate need. TTL!--And thanks to Dad again for the Fellowship Revolution, the uniting vision which has made such a united, faith-building move possible! PTL!

We had a very inspiring, calm, peaceful, sunny, leisurely voyage by boat from lisboa to Recife, a port in Northeastern Brasil. It took il days to get there as we were travelling on an old cargo ship but it was nevertheless very nice; we never got seasick or had any problems with the crew or ship conditions, etc. We had a cabin of our own — a very small one which was normally used by the pilot or captain from time to time as it was situated right up on the bridge. We'd open our door at there would be the pilots going over their maps a taking their calculations by observing the stars to locate their exact position. And at night it was just beautiful to watch the sea, moon a stars and the ship as she slowly steamed her way through the Southern Atlantic! PTL!

Atlantic! PTL!

While aboard, we were able to witness to the whole crew via video (Which M & M had sent for the field work here)! We decided to do a little filming while aboard & did an hour's worth of what it's like living on a cargo ship on your way to South Americai We interviewed the captain, First Mate, pilot cook, cook's help & some of the other crew & they really enjoyed being film & talking about the ship & its functions & their duties, etc. Also, the fire pilot & the late-night helmsman got saved & gave their testimonies on the video which, when we later played the video for the whole crew (by popular demand), they all received a strong witness of salvation from some of their own friends & countrymen. The captain turned out to be a real friend by the end of our journey. He had a lot of questions at first but really changed by the end of the trip & almost received the Lord with us in the dining room one night! He said he'd pray later when he got to his room!

one night! He said he'd pray later when he got to his room!

We arrived in Recife early one Monday morning & the immigrations officials came on board. It was easy to get stamped in. However getting through customs with all our baggage was a little different! We had 21 volumes of baggage &, according to Brasilian law, we had to say what we had in each one, at least generally. As they opened everything we had & did a thorough search (although the Lord did make "seeing eyes blind" when it dame to our Mo Books, mags & a few files), we were honest about what we had & everything got cleared! (Except for the video equipment, which we expect we'll be able to pick up soon, D.V.!) Hallelujah!

One last thing that a local brother mentioned that we thought could be of help to the Family coming here or arriving at other points in L.A. is that several people have sent items to the VS P.O. Box, such as pressure cookers a other household goods which they plan on picking up later. Meny of these folk forgot or didn't think to sek first if they could do this. What happens on this end is that the P.O. charges duty on these goods as if the person who has the box is importing the goods, a we have to pay for it, hoping to get it back later. Of course it makes things look suspicious here in a country where it's real good not to look that way. If these folk would just send their goods in their own names to Poste Restante, they'd have 30 days to pick up the goods & nobody's box or witness would be endangered—& they could pay for it themselves!

heaptedly with Tim's comments on the various matters outlined.—Bozrah
Reborn, LAS)

1. MITNESSING CONDITIONS:
This country used to be a "closed country", but now we are going on the attack in all areas. Litnessing, especially DTD, is great.
Street litnessing can be done as well, but carefully. Donations are good, & with a little hard work & determination it is possible to support yourselves. Many souls are waiting to be saved, & people are open to God's message. You definitely need to apply the Letter "Know Your Meat or Get Butchered" & use wisdom, we recommend not using political lit or free sex Komix, as this is legally banned here.

2. GOVERMENTAL CONDITIONS: Uruguay has a military government with fairly strong American influence. It seems that you can live comfortably & peacefully as long as you don't threaten the government with artimilitary propaganda, & you will find you can operate presty freely if you watch your step & are harmless as a

dove. PTL!

3. VISA CONDITIONS: As a tourist you get a 3-month tourist card which can be renewed without problems for another 3 months. Then you need to leave the country & enter again & repeat the whole procedure. We don't know how often you can repeat this, but we applied for permanent residency which we received without major problems 8 months later (we had proof of some income). Germans & Americana don't need any entrance visas. PG!

4. LIVING CONDITIONS:
Uruguay has a fairly normal standard of living. There are living very well, & there are also a lot of poor people. But in general you can live comfortably. Apartments & houses are rented for about \$300 to \$900; you can rent furnished or unfurnished. Buses are relatively cheap, & long distances are usually travelled by bus or plane. Montevideo is right on the beach, & you will be able to enjoy this during summer. There are plenty of banks, & you can exchange any of the usual currencies, like collars, DM. ST etc. without problems. For travellers' theques we had the beat experience with American Express & Thomas Cook; they are easy to cash.

ELECTRONIC EQUIPMENT IS EXPENSIVE BECAUSE IT IS IMFORTED. Food is cheap, and it is also easy to provision. But prices in general are not too low, so it would be for benefit to be fairly well quipped when coming. Teaching jobs are fairly easy to get & are usually well paying, about \$6. \$500 per hour. Inflation is high \$ prices go up about 108 every 3 or \$ months.

go up about 10% every 3 of 4 months.

5. CUSTOMS CONTROL: Usually when you enter Uruguay your luggage gets checked, mainly

for electronic items which need to be declared. We personally had no problems, 6 another brother even brought a video recorder here from the U.S. without any problems or charges. GET INT And I wanted to share some of the lessons I've learned about thieves a pickpockets a how they operate - and how to avoid 'ent than I lived in Latin America I got

their experiences, so I pray this is a blessing a will save you from some of the same

sea experiences!

Henry thingwes & michrockets work in excuss. And they do their "dirty work" in crowded lines, stores or restaurants. Ones when we were standing in a bus line in Venezuela the bus arrived a wes immediately besiged, everyone in line pussing forward to be the first to get on board. One boy at the entrance was struggling with some packages, blocking the door, while the crowd yield up behind him, very tightly pecked, looked down to see someons about to slip his hand into my pocket a when I turned around, some one size was trying to open the purse of the girl I was with There was so much pushin a shoving - physical contact - that if we hadn't happened to mee what was happening we probably never would have felt it. When the third we was that we had spotted then they let immediately. So avoid crowed a crowded places, - while one this distracts you the other could be taking you for all you've got!

Distracting your attention is one of a thief's fayorite methods. Once in a post office I may printing up mail A had just put it in my briefcase & looked it. A boy walked by me, pointed to the ground & maid, "You dropped something!" And there were \$2-5 on the ground. By first reaction was to pick it up, of course, but as I looked at it I felt my briefcase work elightly (I still had my hand upon it) and when I turned around I saw 2-5 other youths nonobalantly eyeing me & the briefcase & one had his hand "resting" very close to it! If I'd taken my hand off the briefcase (or put down a package I was carrying) to pick up the momey, that probably would have been the last I would have seen of the briefcase!

It could have been an expensive "find"!

Bang on to your possessions for dear life if someons asks you what time it is! Once in Feru I was eating lumon in a crowded restaurant à had my pouch on the table next to me, on the side away from the aisle (I should have had it on my lag.). 3-4 youths walked into the restaurant à walked all the way to the back, as if they were looking for an empt table, and them started to walk out again, as they passed me the first one in line, elightly behind me à to my left, asked me for the time. He didn't seen to hear me when I assewered so I turned more towards him (away from my pound) & repeated it. He thanked me à left - mot so did my pound! while he was distracting me, standing in a position where I had to turn to face him, someone else made off with my pounh. It only had 85 in it had to turn to face him, someone ones bots] but I lost my pasport as well as the mail keys, which were a hassle to replace & I had to change the look to my P.O. box! The only lime I actually lost anything to a thief!

I've heard that if someons comes up to Dad on the atreat & asks him for a light, he in-

I've heard that if someone comes up to Dad on the street & make him for a light, he immediately says "Don't smoke", turns around & walke away, since this is a favorite method of stick-up sen!

Also, (another lesson from Dad) when using a public toilet go into the stall & look the behind you. Robberies in the toilet are common, esp. in America.

when someone brushes against you on the street or bumps into you it might be good to stuffered lately & check your pockets. Better safe then sorry! Spread your money around in different pockets or locations on you so that a thief can't get it all at once - and don't carry any more than you need to, of course!

Carry your briefcase, pouch or purse on the side of you away from the street. Paru, in pay ticular, is famous for youths who zoom by on motorcycles & grab whatever they can from unobservent pedestrians. And if you should have to put your bag or purse down for any reason you should always have your hand firmly attached to it, or even have it clamped between your legs or ankles.

It's probably best to avoid wearing expensive watches or jevelry in poor areas of the city or in poor cities! It's cheaper a safer to leave them at home. A few years ago slater was wearing an expensive gold watch on the streets of Bogota. As she at the brot accompanying her were waiting at a bus stop, a man stopped to admire her watch, pulled out a pistel and calculy took off her watch a walked away with it!

T.s. Lating can be very sweet & friendly but thievery is a problem & something to watch out for! As a pale-skinned American or European you're a very tempting target for the thieves of power third-world countries. So when travelling through these countries

remember the Scriptural injunction to be "wise as serpents & harmless as dover" & to "pray without ceasing"! And as Dad eard in "hear Deb & Jeth", "Usually, just a little prayer and good common sense can prevent such things, even without a lesson on car thefts! He never forgets or neglects supthing, and often protects us and our things even in our ignorance! But if we are willfully or worfully ignorant, careless, negligent & slothful stemarts, them He will sometimes allow us to suffer for it by learning a bitter lesson as a result of it...1"(11017,8) UBAKY! PTL! 687! PG 4 UR MITH! D. Love & Prayers Forever,

Getting Back On The Track!

God's loving dealings with a prodigal daughter bring new life for Him!

God's loving dealings with a prodiging Elisabeth Scribs; Central America:
HOW I LOVE YOU BOTH!—There is so much on my heart I want to share with you at oreally be reunited with you once again in heart & spirit as I haven't been able to for years because of my bitterness & hardnass against the Holy Ghost & what God's Spirit had tried to do in my life.
I GUESS IT BEGAN AS A CHILD as I was raised in an atmosphere of bitterness & spiritual hardness, My father was a carry (the manager of a carnival) in the summer & e professional card dealer in the winter. From what I can gather, he probably died as a bum in the streets of Seattle, although I never saw him after age 5. My mother was very bitter as her mother died in bed with her when she was 13 (my grandmother had also lived a life of bitterness.) She (my mother) set on to marry an epileptic at ege 15, had my half-brother at 17, & was then forced to give him up because she was declared an unfit mother in a nasty court trial. She married three more times, always seeking some happiness for herself, but never finding it & becoming more & more bitter as the years went by.

inding it & becoming more & more bitter as the years went by.

ALTHOUGH I RECEIVED JESUS WHEN I WAS 12, by the time I was a teenager I was about as hard, cynical & bitter as you can get. And it's only a miracle of God & your over-powering love that I was able to come to the Family at all.

RIGHT FROM THE BEGINNING THE LORD BEGAN TO TRY & WORK ON MY HEART to remove this bitterness & hardness of spirit, but I resisted every step of the way. And the real blow (or so I thought because of my warped outlook) was when you, through God's Spirit, put me together with Abdon. I was really openly angry with the Lord & so totally rebellious (remember when you hit me with your cane at the "Get It Together" isssion?).

pssion?).

I WAS SO MAD & REALLY HARDENED MY HEART, and that was to be one of
the many times that I left the Family, always
for the same reason. But during those three
months out of the Family, the Lord kept
showing me how much He loved me, whereas
because of my bitter outlook, I had been expecting Him to be out there waiting for me with a

big stick, practically ready to strike me deed the minute I walked out the door.

SO I CAME BACK & THE LORD GAVE ME A MEASURE OF VICTORY and, PG, He was able to use me somewhat for several years. But never as He had planned because that root was still there, & It always started growing again sooner or later. That's why, when I came to see you in the Ark in Oklahoma, I wasn't able to receive from the Lord's Spirit the wonderful things He wanted to give me, & I'm sure why you never invited me back. Bitterness just doesn't permit you to receive any of the Lord's blessings or to see things in their proper perspective.

you never interests to you to receive any of the Lord's blessings or to see things in their proper perspective.

THEN I SPENT SO MANY YEARS WITH JETHRO & we were really a sad pair, although the Lord did use us to do some good. Things got progressively worse as the years went by (Jethro & I were very close & I really loved him & still do. I pray someday the Lord will be able to break his heart & set him free from the terrible self-imposed bondage he is under.) I remember one time I was trying to comfort Jeth about something he was going through & he said, "Honey, don't you realise there's something wrong with me—that Dad will never trust me!" And I thought to myself, "Oh, oh—the same is true of me, & Jeth & I are both in the same boat." (I's prob: hed didn't trust me or Letters!)

AS TIME PASSED, PARTICULARLY TOWARDS THE EMPO OF OUR TIME IN EUROPE, we became real partners in crime, as Jeth always used material things to assuage his grief & help him forget he was resisting the Lord, I freely partook of it all since I was resisting the Lord, too. I'll never forget standing on the belicony of our apartment in Paris in 1975 & feeling like jumping off, I was so miserable. The only time either one of us had everything I had dreamed of in the World; nice apartment, plenty of clothes, the best food & wine Paris had to offer—all provided by Jeth, & I couldn't have been more miserable. The only time either one of us had even a measure of happiness was when we were working together in the office, & those were the times of a feeling of most peace & usefulness.

UPON A RRIVING IN PERU, THE LAST VESTIGE OF OUR BALLOON POPPED as the civil was began between Jeth, Deb, Issiah & Joy, Bitterness just took hold averywhere,

like evil trees growing all over our lives. Oshea came during that time & he was like a shining light in the midst of darkness, although it tool me a long time to even receive him because of my warped outlook on everything. But in the darkest hour when we felt so alone & when I had even lost my former close relationship with Jeth, the Lord sent along Bess, who was such a comfort & blessing to us all during my pregnancy & the very dark days preceding the RNR. She was born right after the RNR & was pregnancy & the very dark days preceding the RNR. She was born right after the RNR & was such a preclous gift. She's like a little angel, & she & Josiah are what have given me the will

to keep going.
STILL I WAS NEVER DELIVERED FROM
THIS BITTERNESS & everything that came
out of me, every word, every letter, every setion I took, was stanted with it. The Lord finaltiched to remove me from being used for Him tion I took, was tainted with it. The Lord maily had to remove me from being used for Him in any capacity at all. My bitterness grew ever greater as I blamed everyone else except myself. That's when Oshea & I begen working in the system. I turned into more or less a prudis housewife for awhile & you know the rest of the story.

nousewife for awhile & you know the rest of the story.

BUT, THANK GODI THIS PAST YEAR THE LORD HAS WORKED MORE IN MY LIFE than in all the others put together—God way up is surely down! After I wrote you that lest two letters which were published in the FN, I knew the healing I needed & removing that root of bitterness had a lot to do with Abdon & going back to where I had gotten off the track so many years ago, But I was still really unsure if I could do it & the Lord had not opened the door at that time for me to be with Abdon.

IN THE MEANTERE

not opened the door at that time for me to be with Abdon.

IN THE MEANTIME! ASKED THE LORD TO GIVE ME A REALLY GOOD FISH & claimed the verse, "If you ask for a fish He won't give you a serpent". And I sure didn't want another serpent after my pravious experiences! Within a few days I met someone whom I immediately saw in the Spirit was really preclous to the Lord & that God had a beautiful plan for his life. And sure enough, the first time we went out together he told me of a vision he had had of meeting a wonderful woman who gave him the love & warmth he had been seeking all his life & warted to stay by her side forever. But she gave him a gift which he didn't want, which was a crucifix. So, as he walked away from her, as soon as he saw she wasn't looking, he threw It away. But when he came to the end of his journey there was a man waiting who asked him what he had done

with the gift. He told him he had thrown it away because he didn't want it, & the man told him he could not return without the gift, so he had to go back & look for it.

IT WAS A VERY DIFFICULT SEARCH & he was sweating & crying when he finally found it again, but as he picked it up it turned into the most precious thing he had ever seen. Then he vision changed & he felt like Jesus hanging on the cross. He saw all the people looking at him & he said, "No, I can't do this!" Then a couple of months later he had another vision of himself as a tiny baby, newborn, & he heard the name Moses.

BY THE TIME HE FINISHED RELATING THIS STORY to me, he was almost shouting &

himself as a tiny baby, newborn, & he heard the name Moses.

BY THE TIME HE FINISHED RELATING THIS STORY to me, he was almost shouting & said, "But I don't know how I could see things like this, I'm not even a Christian & I don't believe in amy of that stuff." But I felt from then on he was very special to the Lord & God gave me such a supernatural love for him, & my heart was so broken for him.

AS TIME WENT ON IT BECAME EVIDENT THAT BITTNERNESS HAD REALLY WARPED HIS LIFE. We were so much atike, & although he finally received the Lord & the Holy Spirit, his warped outlook didn't permit him to receive any of the joy or fruits of the Spirit & now he's returned to be more bitter & hardened than ever. It's broken my heart so much more than over one person in a long time, because the Lord used it & is still using it to show me how my bitterness & herdness of heart has broken His heart & caused Him to weep over me & how I've missed so many wonderful blessings the Lord wanted to give me.

THESE PAST MONTHS HERE HAVE
BEEN SOME OF THE MOST DIFFICULT & at the same time some of the most fruitful in my life. Like in the beautiful "Jean Manson Revelations", "But the Lord will bring her back, He has to break har, & it's hard to be broken. It makes you want to die, you know? But then you're willing to live-for Jesus! When you want to die, then He makes you willing to live. Isn't that wonderful?—Beautiful! First He makes you want to die, & then you yield & surrender your life in the face of death, & you're willing to live unto die, but then she'll want to live—not for money & not for men, just for Jesus & His Love, through me & mine."

I'VE FELT SO MUCH LIKE GIVING UP & dying, particularly in the past few months, but it's just the Lord trying to bring me to the end of myself & help me to surrender all so He most file and the most file and of myself & help me to surrender all so He

can work, Such heavy, beautifut, life-givin lessons! Thank God you're so faithful to p on to us what you've been through for us profit! I feel like I'm beginning to see Jesu you & the Familly & everything in a whole light—Hall

you & the Family & everything in a whole new light—Hall
ONE THING THE LORD IS GIVING ME through all this, is a real love & compassion for those who are bitter & hardened of heart; the ones that are really hard to reach. There are so many, especially in America, who have been hardened & embittered from early childhood. I saw so much misery, unhappiness & pein those last months in the States. It seems that God's judgements on America will be a blessed release for so many of these poor victims of the system, & maybe in the Millenium we'll really be able to help them.
WHILE IN THE STATES, I WENT WITH MY FISH TO SOME OF THE BARS where the real down-&-outers go; those who just have no hope left, & to the rest home, where his mother is a completely broken person at the age of 57. I felt so much love for them & like the Lord would just like to take them all in His arms & heal all their wounds & mutilated lives & broken hopes. I really want to live to see the day when the Lord can use us to help heal these terrible seemingly hopeless cases.

I KNOW THAT IN MY CASE, RECEIVING

cases.

I KNOW THAT IN MY CASE, RECEIVING JESUS' LOVE FOR ME THROUGH ABDON IS A REAL KEY to my healing & being able to be useful to others. Please pray for us. More than anything I want to be united in heart with you again. I know in the beginning the Lord wanted me to be your wife but my hardness of heart wouldn't permit. Thank God it's never too late for love, & I love you & want to be one with you! TYJI (GBY! ILY2!)

IF IT'S EVER POSSIBLE. I'D LOVE TO BE ABLE TO TYPE SOMETHING FOR THE LORD. God hasn't been able to use me at all in this way in the past 3 years, but it would be one of the biggest joys & privileges of my life if I could do some type of secretarial work for the Lord to help get out His precious Words to the world in Spanish or English. I know now it's only possible with a broken heart, nothing less will do!

ONE LAST THING I'D LIKE TO MEN-TION is about the local situation here concernicated. I KNOW THAT IN MY CASE, RECEIVING

TION is about the local situation here concing Jeremiah & Rebecca & their position as VS's, It's been a big controversy & they've been voted in & out. But, Dad, I just really feel like the Lord wants to break their hearts & bring some needed changes in their lives. Poor Jeremiah is acting so much like Jethro right now. Yesterday he held a meeting to have everyone vote for or against him & said he received Jeremiah 1 & that anyone who voted against him was voting against the Lord & would be judged by God! He thinks I really hate him & stand against him. But the Lord has given me such a real love for him & I had a beautiful dream about him that the Lord was able to really begin to soften & break his heart. But right now the proud spirit he is in is really hurting the Lord's precious sheep

But right now the proud spirit he is in is really hurting the Lord's precious sheep here. I really believe his continuing as VS at this time is not the best for him, his family, or the local work. They are all so unhappy, nervous & upset right now & really need to rest in the arms of Jesus to be uplifted & renewed. I KNOW THIS LETTER IS MUCH TOO LONG but I felt such a need to pour my heart out to you & make things right. Please forgive me for being such a wayward wife all these years to the best lover anyone could ever have. I just want to be free from any darkness or hidden things & be completely one with you in heart & spirit! (Amen! May it be so. It's easier to bend or melt than be broken!) Much, much love & prayers to you & Maria, Liz.

Liz.

P.S. I TALKED TO MY MOTHER ON

The Plea Of A Family Of 11!

Will YOU help them go South?

From Keilah & Shize; U.S.A.

From Kellah & Shiza; U.S.A.

Dearest Dad, Maria & Family,
FIRST OF ALL, WE WANT TO THANK
YOU, Dad, for all your love, concern, suggestions, & Letters that have been our inspiration, guidance & hope for so many years. We're sorry we haven't written isooner as to our whereabouts, but we were hoping we would have a "change" to report that would be an inspiration to you, but find ourselves still in the States & what's inspiring about that? Well, some things still are, TG, but
WE HAD TO RETURN HERE AFTER A
SHORT CARAVANING TRIP to Southern
Mexico with 3 other mobile families, two of which are still there. We took the trip to get a taste of the South & found it warm & wonderful. But we also found ourselves needing better support & some repairs on our trailer, We have to trust God for our safety while here, but feel we need to obey & get support before we go.
Our prayer letters have gained very little so we have to go on a new attack during the up-coming Christmas sesson.

WE ARE PRESENTLY STILL WITHOUT HELP FOR OUR CHILDREN & must admit we were pretty disappointed in getting no responses at all either to our add or to your comments on one of our testimonies. In any case, we are not bitter, but expect God to

sponses at all either to our add or to your comments on one of our testimonies. In any case, we are not bitter, but expect God to supply soon & feel there must be a reason for it all. PTLI Perhaps we've been undeserving in not doing enough "spiritually" ourselves with the children, but are presently going on the attack with what we've got.

WE DO FEEL THOUGH THAT THERE IS SOME TRUTH to the comments made in Mag 42 about some single brothers thinking "the world revolves around them" & we know the blessings far outweigh the hardships if

the blessings far outweigh the hardships if

FROM MOST FAMILIES as we seem to have
2 families in one. We have 4 "older" ones, FROM MOST FAMILIES as we seem to have 2 families in one. We have 4 "older" ones, 6, 7, 9 & 10 years old, & 5 little ones, 1, 2, 3 & 5 years old. As many well know, it's the little ones that take the most physical work & require the greater supervision, so you can imagine the organisational jig-saw required to prepare a meal, clothe a child, read a story, nurse a baby & keep caim all at the same time. I often am amazed how we can accomplish anything at all & when I see all 9 kids in one place at one time, I still say to my wife, "Do you realise we have 9 childrent" PTLI Each one is special to us & we really couldn't spare even one!

one is special to us & we really couldn't spare even one!

THEY'RE EACH SO BEAUTIFUL & UNIQUE that I know the Lord has a plan for us & we pray we keep our antennas up so we can follow the path He leads. We certainly don't need anyone's sympathy, but mostly your prayers that we'll be out of this doomec land soon into God's greener pastures. After reading all the inspiring testimonies of others who are out of the tunnel, I want to try anything to get out of here, even if we have to go on the road with all 9 alone, as crowded as it may be.

Australia: A GRANDFATHER WITH 12 YEARS IN FAMILY EXPRESSES GRATITUDE FOR LIFE OF SERVICE!

From Amos O'Test;
Australia:
Dear Dad & Maria,
GBY! MUY: GJJM! We appreciate all your love letters which are so helpful. I've had something on my heart which I want to share with you. In several of your letters you have mentioned what a really tremendous testimony it is to "foreake all" & "go into all the world to preach the Gospel" & live by faith. I have found this so true in my own life.

I'YE BEEN IN THE FAMILY FOR 12 YEARS, & I know that my parents, relatives, friends, etc. can never get may from the testimony of my living for the Lord fulltime & going into all the world to preach the Gospel.
I REALLY BELIEVE THAT SOMETHES WE DON'T REALISE HAY A TESTIMONY ME ARE just living for Jesus day after day, month after month, year after year. I recently received a letter from my cousin. She is 14 years old it was 2 at the time I joined the Family. She said that Jesus is in her heart now & that after my grandmother reads my letters she gets them & goes to her room to read them. I have never even met her.

THIS REALLY SPOKE TO ME

read them. I have never even net her.

THIS REALLY SPOKE TO ME OF NOW PAR-REACHING OUR TESTIMONY REALLY GOES. S we have no idea how many people it affects. Like you said, "You never lose by giving." I would not trade this life for anything.

RECENTLY A KING OF OURS SAID: "Away, you need to settle down, quit travelling so much; you've got so many kids, why don't you just take it easy for awhile?" I got the quote: "Be a fly-by-night missionary like the apostle Faul. Scrounge off the System all you can.

Amos & Hary O'Test with children: Stephen(10), Ben(8), Aliya(7), Crystal(3), Darren(2) & Phillip(1).

(Looks like the days when my camped together—GBY!)

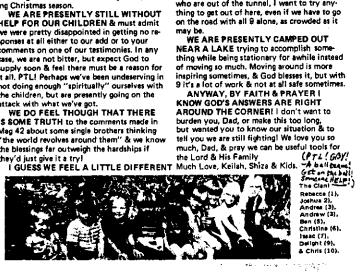

But when they try to make you become one of the Systemites, head for the hills, or back into the woods or the jungles & live with & like the poor that nobody bothers much about."(333C:20)

IREALLY THINK CUR KING.

MAS CONVICTED by our sample of living for the Lord full-time with & children. At present we are living out or our caravan & going on the road, Also, 3 of our children. That they should make them (God's Mords) known to their children: That the generation to come might know them, even the children are on correspondence schooling, & this keeps us really busy. TYJ:

I KNOW THAT SOMETIMES IT MAY SEEM THAT FAMILIES WITH LOTS OF CRILIDERN DON'T ACCOMPLISH NUCH, as they're so busy just raising & reaching & training their children that they have very little time for anything else. But your Letters have really shown us how important our sample is & what a heavy testimony big families are when they are living by faith & preaching the Gospel, mostly thru

Amos O'Test & family.

VISA & ESCORT REPORT!

VISA

VISA

To get a visa for the US I had to go to the US Embassy and pick up a form for a visitor's visa. The kind of questions that were asked were - How long will you stay in the States? Purpose of visit, any relations there, how such soney will you take? Have you ever had any charges against you for drugs. Are you as supporter of the Communist Party? They would have to know reasons why you would drug at the US. Also, what job you have, name and address of sphoner in US. I also had to have a property of the sphone and in the sphone and the sphone in US. I also had to have 2 phompraphs of specific man in with the form. I fall the main purpose for all of this is that they do must likely immigrants in the US. If you have the letters they require, UK passport holders and the control of the sphone of the sphon

I flew with Pan Am Airlines, London, Miami, San Juan, return, for \$800. The date of departure from San Juan 9th March, but it's valid for one year, and can be changed if one week's notice is given. The flight was very comfortable, the steamdlessee were very helpful, they even ensured a seat for my 1 1/2 yr old boy. They also provide cote for young babbes.

96 ESCORT WORK

For the past 5 - 6 months most of the girls in London have been working in Escort agencies and clubs. There are 3 kinds of escort work:

iere are 3 kinds of secort work:

1 Sit-in Agencies: This is where all the girls sit together in one big room, usually very snokey atmosphere, and the tw almost always on. The girls have to be there from 7:00 PM to 11:30 PM, dressed for going out. Hen from all weaks of life, rich and influential people, lots of Araba, Asercians, mostly Europeans. They are asked into the office, where they are told they can take a girl out for 3 - 4 hours, they are asked to give \$40 to the agency, and are resided that usually a tip is given to the secont at the end of the evening. Then the girls, one by one, introduce themselves to the man, and he choses who he likes and leaves with the girl of this choice. You are compelled to go with the man. You can refuse to make love to him, but but reports and disastisfied customers are likely to get you dismissed from the agency. Almost all of the girls expect, and get between \$100 - \$200, from such man.

2) Phones in Asencians. This is working for the same kind of agency, only the agency takes your takes your takes the same that of agency and the same years are same that of the girls expect, and get between \$100 - \$200, from such man. 6

the agency. Almost all or the girls expect, and get netween alwo - alwo, from such man.

2) Phone-in Agencies: This is working for the same kind of agency, only the agency takes your phone number, and when sen call at the agency they are shown photos of all the girls. Or if he phones in, they just choose the girl they think will be suitable for him. They then phone the girl with all the information of where to go, his address, mane, sto. The agency expects their girls to be at home near a phone between 2 PM - 2 in the sorming, ready to leave at short notice. Agencies differ as to whether you can refuse to see certain men. 350

3) Club work. Some of the girls are working in a toplese mightclub. Most girls just wear panties or a swimsuit, back to front. The club is dialy lit, music all the time, 5 - 6 strippers a night. The system girls there are very hard, as often their husbands or boyfriends or family are preceding them for money, so we had to keep sweet, and try to win them, but not get too close to them either.

All the girls are usually in the clubs by 9:30 PM - 2:30 in the morning. When a man comes in, unknown to him a bell rings, and all the girls get ready for the race - ha! It's a bit like that. It is quite different from Escort work, as you have to approach the men yourself and are not compelled to easy with him. The next step is to ask the man if he would like a host-eas for a while, or until the end of the evening. He has to give \$40 to the hostess just for

sitting with her. He has to buy a bottle of champagne that coats \$50. If he wants to leave the club with a girl, he has to buy 2 bottles of champagne. It's impossible to drink this much and vary bad for the testh as one sister found out, when her testh started going black. So the girls are advised to tip it out, onto the carpet, seats, plantpots, anywhere when he is not looking. The waitress expects 15% of the bill, and will light to get it sometimes, causing the customer to leave. The waitresses and system girls work together, really, to get as much out of the sen as possible. So the men have to have quite a bit of money to be able to give the hostess anything at the end of the evening. The Family girls there sees to have the faith for it, as they are doing very well financially, and have been meeting very hungry and receptive people. I worked there for one week. The first man I went with got asved, PTL but I couldn't continue working there, for me I didn't feel it was what the Lord wanted me to do. I couldn't health all the system music, and the strippers, some of them with bad spirits, and such sickening wordly so-called dances, and having to compete in a sense with all those other girls. I couldn't get the victory over the clubs squeezing everything out of the poor sen who went there, looking for a little love and companionship. I found it very taxing on my body, with very late nights and all the smoke. It is very important to stay in prayer all the tias, while at these places, the lord taught us the hard way sometimes.

One sister got a bad check off one of the men, and left the crowd to go the toilet, thinking she would be safer there, but the man followed her in and raped her. No one knew she was there so she couldn't call for help. So this kind of work can be dangerous, if we're not really desperate in prayer and are not faithful to communicate with each other, and really seek the Lord's help and protection each step of the way.

This kind of sinistry is not for everyone, but it's not all negative, it has its good points too. Many have received a heavy witness and a real sample of God's Love, as the Family girls are so such more loving and caring, and the men always remark about this, and often come back just for the Family girls, and want to give more, to help the Family, and are becoming real friends and supporters. Doing escort work is like burning the candle at both ends, it takes up no much of your time. I was in a sit-in agency for 5 months, and as single mother I found it quite hard. My sleeping hours were quite irregular, trying to apend time with my son, taking care of the fish I already had, and trying to get into the Word, sepend time with the Lord, as well as the other everyday tasks that needed to be done. I was working with a sweet, faithful couple, I sheed half my income with them so they could take care of Sam, which was pretty much most of the time. But Sam still surfered, as I found it hard to spend time with his, and he missed my attention. LHM, it wasn't all the fault of the escort work, but I always felt so pressed for time, and not able to spend enough time in the word, or doing things that needed to be done. I just got so busy, too busy, to the point of getting sick. Another thing is not eating well enough, as I had to be there for 7;00. I had to leave around 6;00 and be ready by 5;00, so I used to go without a good cooked meal, and eat out of take-away places. This is also true of most of the girle. I found that because of a lack of time in the word, and being constantly in these system surroundings, and not getting enough good exercise, I became very drained both physically and spiritually, and had to really fight to stay revolutionary and keep a soft heart, not to get my easy only on the soney and to the men's souls. I think for single girls it's important also to get close to someone in the Family, to be able to spend time with a sweet loving brother, to keep our hand had to really fight to stay revolutionary

Well, to sum this all up, I feel that it's important that anyone considering doing this work should really count the cost, as it's not for everyone. Many teems that have left London and sotten out of the West have raised their funds thru escort work, and have made good friends asupporters, and won souls that will be theirs forever. TYJ.

Escorting Without Agencies!

17 FISH SAVED THRU From Beth Liberty; Australia

They were willing to go out in their dancing shoes, with a Bible in their bag, and a good word or two. But they were brave as they marched in.

Kept loving them up 6 kept reeling them in.

"Goodbye Money, I won't be home late, but the fishing fever's got me 6 I gotta obey. They're the brave pioneers. They're the brave pioneers. (sing to tune of "Brave Pioneers")

RECENTLY HERE IN AUSTRALIA WE STARTED A LITTLE ESCONT SERVICE. Neither Tamar nor I dreamed of working with an agency again, as it hadn't borne much fruit in the past, nor had a good effect on either of us.

"METIGES" PUT A LIGHT ON OTHER SAID, "If you're doing it to try to win souls primarily, & you're getting real fruit & the Lord's blessing it, PTL, He'll supply too! Or if you're using it to help missionaries on the field, it to support them to win souls if you can't, God will bless it." Needless to say, the Letter also kicked me in the pants to really get moving & on the field again.

SO ATTER HUCH PRAYER. THE LORD SHOWED ME TO BYPASE I LARGEMCIES & put a simple ad in the local paper. Our first ad was only 2 lines, but stood out amongst the large glamourous ones. A few men commented how it stood out. Two men said they knew & there was something special about it, & one gentleman waid it seemed to sparkle.

ANYMAY, THE LORD FOURED DOWN HIS BLESSING UPON IT, if it's been a revolution in all our lives. (The ad said; they are the contractive, young women, sout visits only!" Since

HAPPY in my old life, but 1 just didn't know how happy I could really be until I met the Family. At first it was on a casual basis, being skeptical of their doctrine but nevertheless impressed by the way these young people lived by faith as Jesus had 2,000 years ago. Graduelly I began to hear some of their testimonies how the Lord had changed their lives & I must say in my heart I was convicted then but because of my pride & my know-it-all striude I kept aloof.

tionary thing it was to get me hooked on the Word thru' the love of a Flirty Fish! But I tried to resist the bait & the hook with all my worldly excuse of responsibility towards my family, education & business. Each time I was hit by the sharp two-edged sword of the Word, & it made me feel lousy.

I BEGAN TO SEE THAT I WAS NOT HAPPY because the ruth kept piercing my heart & I wanted so much to be free. I was due to go back to the States to further my studies within a month. It was then that Kirsty & I read "Forseking All" & I swas faced with the question: "Was I willing to do that?"

IT WAS A BATTLE AS THE DEVIL ATTACKED ME WITH DA FLOOD OF LIES, saying I could serve Him anytime, anywhere, in the business world or

It wasn't until I had been FF'ing him for a few weeks that I remembered that prayer, & then that gave me the faith to then that gave me the faith to

From Marths; Indonesia:
1'D LIKE TO TELL YOU ABOUT THE MIRACLE JESUS
DID IN MY LIFE! I am 24 &
grew up in a large family of 6
children & many relatives in a
small city in Indonesia. My family is Christian, but very conservative & traditional. One year
ago I came to Jakarta to get a
degree in designing.
I WAS VERY UNHAPPY. I
tried hard to please my family

J WAS VERY UNHAPPY. I tried hard to please my family & to agree to their plans for my life but in my heart I was really broken & didn't know which way to go. My brother whom I was living with in Jakarta tried to make me happy with money or trying to find a boy friend for me, but what I needed was something different.

AROUND CHRISTMAS AT THE POST OF FICE IS WHERE I MET CORNY who give me a pamphlet about love & Jesus & invited me to come to his house on Sunday. When I arrived at

the house I didn't really like it as I was in "the dumps" & didn't want to hear about the Bible. The church never had been an

The church never had been an answer to my loneliness. BUT CORNY KEPT ON ASK-ING ME TO COME BACK, & very soon I found out that this was not like church at all, TYJI After a few visits Corny asked me to help in translating & stay & work with the Family. WHAT INSPIRED & DREW ME CLOSER to the Lord & His Family was their happiness & freedom. After a while I decided to try & satisfy my curiosity

as to what it was all about by spending just two nights at their Home. Well, PTL, I've been here ever since! I started to learn a bout Jesus & to teach others to find happiness. Jesus had really heard my heartory & answered. It's been three months, & the Lord has given me quite a few precious souls for His Kingdom already & a beautiful Family & many exciting ministries. He also gave me a knew disciple who will be born in October. TYJ for this great & wonderful change in my life!

A FEW DAYS AGO ONE OF MY BROTHERS CAME all the way to Jakarta to find out more. I had written to him & sent him a copy of "Who Are the Rebels" after which he decided to come. Lord willing, he is going to join! He already went litnessing & really liked it. This last few months of my life has shown me that with God nothing is impossible & that for all those who are seeking something deeper in their lives, Jesus has the answer. ILY all, Martha. You Offered Us Love & Life!

A Church Pastor bares his heart in response to receiving the Love of David!

Letter given to John & Rebecca Caravan by the pastor of a church whom they stayed with for two months. (U.S.A.):

Deer Caravan family.

I LOVED YOU THE FIRST TIME I SAW YOU. I loved you first for what you go-singing in the city streets. Then I loved you for what you sang—the gospel. I loved you for what you says—the priceless gift of yourselves. I love you now for who you are—the true children of God & personal in-depth friends such as I have never before experienced. I see in you the glory of my King.

WE OPENED OUR HOME'S DOOR TO YOU. You opened your heart's door to us. We offered you food for the body at our table. You spread before us a table set for a love feast & offered you food for the body at our table. You spread before us a table set for a love feast & offered to us food for the you!

We offered you a place in public in the eyes of the church. You offered us a place in private before the eyes of the church. You offered us a place in private before the eyes of the church. You offered us a place in private before the eyes of the church. You offered us hope & healing. THE DAYS WE HAVE SPENT WITH YOU HAVE BEEN THE MOST JOYOUNS OF OUR LIVES. You found us battlewary Christians determined to live for Christ somehow. You leave us alive, renewed, cleaned & victorious in our souls.

WHEN YOU FOUND US I WAS SO ALONE & withered in Spirit. But thru' the ministry of Rebecca & the supportive understanding of John, I am whole in Christ today—cleaned & made holy, right in the sight of God.

O'THER PEOPLE WILL NEV-ER KNOW THE DEPTHS OF YOUR MINISTRY in our parsonage home. No records will be

kept. No public announcement of the daily events will be made. But God, Who knows everything & sees the smallest sperrow fall, has seen it all & kept record of it all. In dus seeson He will openly reward you for it all. Angels' rejoicing are your silent reward now. But some day a crown of glory will shine brighter upon your heads because of what you have done for us. YOU WILL GO OTHER PLACES & minister to other people. You will bless nations of the world & the people of the Earth. God will guide you here & there—near & far. Your love for people will spread itself into untold hamlets & villages & city streets of the world.

BUT WHEREVER YOU GO, YOU LEAVE IN OUR MINDS & HEARTS FOREVER the hot flame of love for each of you. The warmth of this love will live in our hearts forever. It's the kinc of soul-fire that will leap the gulf of death with us & glow forever in eternity where we surely will freet again. I don't mean to be poetic or verbose. The truth is that words just totally full to begin to convey my depths of emotion towards my gyppy friends the Caravan family.

PLEASE ALLOW ME ONE MORE INTIMACY WITH REBECCA: Rebecca, I loved you easily & quickly. But you dered to trust me. I trusted you hopefully. You encouraged me lovingly. Slowly with extreme caution & care I began to reach down into the inner resources of my being & lift out the most secret intimacy of my life. I layed there on the table in your trailer a private exhibition, a display for you & you alone. Together we picked up each thing, one by one. We handled them, turned them end over end. Saw them for what they were. Prayed over

them & destroyed them in the fires of faith & love & pardon.

AT FIRST I FELT MANIP.

ULATIVE—SPIRITING YOU A-WAY AS I DID. Then I feit aw-fully present the second of the WAY AS I DID. Then I felt aw-fully presumptious. I feered con-fronting you with my problems & saying so often, "Rebecce, you relate to me," would scare you off & cause you to want to go away. And then I felt guilty. Acknowledging my sin was so hard to do. The guilt feeling was followed by enormous self-consciousness. "How could it be that I'm really saying all of this to you?" And finally self-consciousness gave way to abso-consciousness gave way to abso-

consciousness. "How could it be that I'm really saying all of this to you?" And finally self-consciousness gave way to absolute total embarrassment. My facade was gone, my defenses destroyed. The stark reality of what I had to say was a humiliation more than I could bear.

BUT YOU ENCOURAGED ME TO GO ON. Your look of understanding. Your "go on" not smile. Your "go on" not smile. Your "go and smile. Your "go and smile. Your get it all out" response to me pulled me thru' the needle's eye to sunlight on the other side.

BECAUSE YOU HAVE DONE FOR ME WHAT NO OTHER LIVING HUMAN BEING HAS EVER DONE for me, I will always love you in a special, a unique way, a way that is for you a you alone. I don't expect you to feel this way towards me because I didn't do for you what you have done for me.

I WANT YOU TO KNOW THAT I WILL ALWAYS BE YOUR INSTANT FRIEND, You know my life. You know I don't have money. "Silver & gold have I none, but such as I have give I unto you." Wherever you are, whatever you need may be, I will always do anything & everything I can to help you in the time of need. I love you in the time of asked me to call him when I asked me to call him when I

From Dalia; U.S.A.:
FOR 29% YEARS I SEARCHED FOR REAL LOVE. My parents are Jews who were born
in Germany & escaped to Israel
where they were 3-me of the
first pioneers to form the Kibbutzim, & that is where I was
born. At the age of six, we sailed on a freighter to New York
City.
MY PARENTS RAISED ME

MY PARENTS RAISED ME

City.

MY PARENTS RAISED ME
WITHOUT FAITH IN GOD. Our
leck of faith was reflected in our
terribly unhappy home life. I
practically lived at my girl friend'
house because of my dread of
going home. Educated in the
public schools, I started working
when I was 17. At the age of
24 I landed a job as an airline
stewardess & flew for almost 61/2 years. The job gave me no
satisfaction & I felt trapped.
Physically & mentally it wore
me down to where I was a walking zombie. There seemed to
be no visible means of escape.
THEN, ON A DAY OFF, I
FOUND LOVEI Simon had been
passing out lit on the street &
was sitting in the shade taking a
break. He approached me &
asked me if I had faith. Being
brought up an atheist all my
life I could only answer no.
Then he gave me a True Komic

& told me he loved me. That

New world? I was so happy!

She told me I had ternal life now.

I RETURNED TO MY DORM.

I NETURNED TO SHARE

WHAT HAD HAPPENED but
nobody would believe me, so I
was a little discouraged. A week
later! got at paid vecation &
went to visit the Home & receive

the Holy Spirit. The fellowship & hugs & kisses were the
joy of my life!

SIX MONTHS LATER! JOINED, but because! still didn't
have the victory over my body.

I left. I went back home & tried
to get a job working in an orphanage. Then some brethren opened a Home in my town & I began
to fellowship with them. Aher
a while the Lord put it to me to
put Him first.

"DO YOU REALLY LOVE
THE LORD? Do you want to
follow Him?" a sister asked me.
So! decided to join again! Haltelujah! I'm so thankful the
Lord called me & loved me, saved me & gave the the strength
to fight for His truth! I wanted
to try & follow Jesus despite my

"handicap".

WHEN! TURNED 20, LEGAL
AGE, I STARTED FF'ING &
sharing sexually with the brothers. I got a part-time job working in a bar. I was trying to be
a girl & act like a lady, altho' except for my vagina! was all male.

THEN WITH THE HELP OF
A LOVING SISTER, JERUSHA,
I SAW THAT MY BODY WAS
JUST A "THORN IN THE

FLESH" to keep me humble &
that I should just trust the Lord
about it. This really set me free!
We fell in love & now she is my
sweet wife. Hallelujah!

THE LORD HAS ALSO ENTRUSTED ME WITH A VERY
FULFILLING MINISTRY of
working full-time in the Japanese LIM, typing the Words of

for this loving Family & the
Words of David that started it all.

I STARTED CRYING & WAL KED AWAY as I didn't want him to see me crying. He followed me into a store & asked if I would talk to him when I came out. So when I came out we took a walk & then sat on a bench. He was so sweet & loving & so interested in what I was doing with my life. It was impossible for me to hide the discontent, dissatisfaction, emptiness & sadness that was in my heart.

SHE EYES LOOKED INTO MINE WITH SO MUCH LOVE, a love! I had never experienced before, a love that seemed more than human. He stroked me gently & kissed me. I was being made love to by a perfect

gave me his phone number & asked me to call him when I got back from my next flight. I WANTED MORE OF THIS LOVE, SO I FAITHFULLY CALLED HIM upon returning & we went out on a date. After eating in a restaurant we returned to my apartment. That is when he asked me if I want that He was the source of love I had been searching for. I CRIED & ASKET I FORLY. had been searching for.
I CRIED & ASKED JESUS IN.

I had been searching for.

I CRIED & ASKED JESUS IN.
Then I cried some more & proceeded to confess a long list of sins I had committed throughout my lifetime. Simon wanted to make love to me but I didn't want to because I was uptight sexually. Then Simon explained that I could open up sexually & receive Jesus' love in my heart more fully & completely. And he was right, praise the Lord SINCE THEN I HAVE QUIT MY JOB, SOLD ALL MY POSSESSIONS & have decided to give my life 100 percent to Jesus There's no reason to look back & nothing to go back to. My soul has come alive & for the first time in my life I know what true love is! My quest for love has been fulfilled! I found true love thru' Jesus, His Family of Love & the loving truth in the Words of Father David.

ABOUT 2 YEARS AGO MICHEL STATING WORKING FOR A SHIPPING COMPANY, & we both thought it was so good as we didn't have to worry anymore about money. We found a nice flat & started buying furniture & everything for our comfort. The Devil was already getting us to compromise; we thought we could always find time to witness or litness to people around us. But that was surely a big lie.

MICHEL STARTED BEING INYOUVED MORE & MORE IN HIS 1/10 to the point that I (Franzoise) had to spend most of the days & nights alone with our little boy. And when Michel had days off he was so tired that we would not go out for the Lord.

SO. WITH COMPROKISE ATTER COMPROMISE, little thing after little thing, we got to the point where we did not even read the Letters together; we even thought we were doing enough for the

us how far we had gone from Him & His loving service to others.

I READ THE "DAILY MIGHT" FOR THAIL DAY(Feb. 9th) when I came back from the delivery room, & it so convicted me. It was such a clear answer to what was happening! A REALLY CREAT VICTORY CAME WHEN WE RECEIVED DAD'S NEW VISION FOR THE FAMILY IN "THE FILLOWSHIP REVOLUTION!" The Lord really spoke to us to have contact with the brethren near us. We had the number of a P.O. box, but we didn't know if it was still good. So we wrote to it by faith, & by God's grace we got an enswer from dsweet brothers & eisters inviting us for a LAF on the next Sunday! TYJ!

PART ONE: TIPS FOR TRAVELLING

PLANE. BUS. BOAT AND TRAIN TERMINALS. Often you will find that these terminals are located in the more sleazy parts of town, & are natural congregating points for all sorts of undesirable characters, ready to take advantage of the weary traveller arriving in a new town or country. Following are some tips that can help you to avoid being one of their victims, as well as the many other mishaps that occur regularly in such a confusing area:

A) ALWAYS TRY TO USE THE RESTROOM ABOUT ONE HALF HOUR BEFORE THE END OF YOUR TRIP, especially if you have children, as you will then not need to use those in the terminal, which are often filthy and have strange people loitering near them. Do whatever can to freshen yourself up and rejuvenate your appearance &

wake you up.

THE ABILITY TO KEEP A CLEAR HEAD IS AN INVALUABLE ASSET WHEN ARRIVING in a new location and you are more apt to exercise it if you arrive refreshed. This might even be a good time to take a little energy booster such as some raisins, dates, nuts, cheese or yeast. During any long journey it is very important to try to sleep as much as possible, even if it is only several short catnans. catnaps

short catnaps.

B) <u>USUALLY YOU ARE BETTER OFF TO TRY TO AVOID THE INITIAL MAD BUSH</u> to get out when the train or plane arrives. In most situations you will have to wait just as long to get your luggage, so you might as well relax and take your time.

C) <u>RATHER THAN DRESS EXTRAVAGANTLY ON ANY TRIP</u>, it is more prudent to pack or store your quality clothes and dress comfortably and modestly for the journey. Wear clean, loose-fitting clothes that allow your blood to circulate freely and your sweat glands to operate efficiently.

<u>SUCH AN INCONSPICUOUS OUTFIT</u> allows you to blend with the rest of the terminal traffic more easily. Wear a comfortable pair of shoes as leather soled shoes become slippery after treading carpeted floors of planes and are dangerous on skiddy terminal floors.

D) IN ALL SUCH POTENTIALLY TIRING AND CONFUSING SITUATIONS as

fatique is an ever/present source of strain and a reducer of efficiency, and can leave you open to any kind of crisis. Wherever possible, try to rest, even if it is just briefly sitting on briefcase

a Drietcase.

E) ALMAYS CARRY A CHANGE PURSE FULL OF CHANGE AND BE READY TO IIP anyone that can help you, however much it might go against your grain. This will show people who can help you that you are willing to pay for their services and will allow you to get rid of any aggressive panhandlers, drunks etc., who often loiter in terminals.

terminals.

IRY TO FIND OUT FROM PEOPLE WHO HAVE BEEN THERE what the standard rules are concerning tipping. Another advantage of having change is that you will never miss a bus or meter for lack of exact fare.

standard rules are concerning tipping. Another advantage of having change is that you will never miss a bus or meter for lack of exact fare.

F) IF YOU DO HAVE TO USE A TERMINAL RESTROOM, avoid spending any length of time in it talking to people. Keep your jacket on while using the toilet if it contains your wallet.

G) MUGGINGS SHOULD NOT HAPPEN IN A TERMINAL BUT THEY DO. The police cannot be everywhere at once and within seconds the mugger can have disappeared into the crowds with the fast money that he was aiming for. One good way to handle such a situation is to carry the equivalent of a \$20 bill in your pocket. A \$50 bill is better but \$20 will do if you are poor.

LOOK UPON IT AS INSTANT LIFE INSURANCE. In most cases this is as much as any petty thief expects to make from any one job and the odds are that your need to keep this money does not equal the thief's (and possibly addict's) atrocious physiological craving to get it.

IF YOU FIND YOURSELF IN SUCH A SITUATION, LOOK PATHETIC and reach for your banknote hesitantly, saying that it is all that you have, that you are reluctant to let it go. Never underestimate an armed criminal because he looks young, small or scared. Keep on guard as murder or manslaughter rarely happen out of the blue, but are often prompted by words or actions of the victim.

PURSE SRATCHING ALSO HAPPENS REGULARLY IN TERMINALS as people are carrying more valuables than usual. Other items such as cameras & tape recorders hung from the shoulder or held in the hand are targets also. If your bag is snatched do not try to resist it as the person may be armed, mentally disturbed etc.

SHOUT "STOP THAT THIEF!" IF YOU MUST but do not give chase, as if you were to catch him he might turn and shoot or stab you, realising that you have cost him his freedom. Similarly with pickpockets, if you feel fingers in your pockets, do not grab or hold on to them, as the thief may be prepared to be violent.

If YOU ARE IN A SITUATION WHERE YOU CAN CRY FOR HELP, call quickly and continually as loud as poss

everyone running. A whistle is a good thing to use in such a case, kept where it can be easily reached.

If YOU FIND YOURSELF BEING BOTHERED BY WEIRDOS, you can often get rid of them by pretending to be deaf or slightly dumb. Keep repeating, "Pardon? Pardon?" along with pointing at your head and shaking it, a general air of vagueness, apologies, puzlement and helpful smiling. This immediately brands you as being too much trouble to most city wolves.

LUGGAGE. IN GENERAL, WHEN CHOOSING YOUR SUITCASES ETC., it is best to avoid expensive custom-made bags with superior-looking locks. Your faith in such locks can be misplaced as very many of them can be easily opened with a paper clip.

IT IS MORE PRUDENT TO BUY HARDWEARING LIGHTWEIGHT MASS-PRODUCED SUITCASES as used by most people. These will blend in more easily and are less likely to be stolen. Soft tops are good as they can take that little bit extra. The sturdy vinyl covered frames will stand up to wear and tear and resist scuff marks.

covered frames will stand up to wear and tear and resist scuff marks.

IHE HANDLES SHOULD BE STRONG AND COMFORTABLE TO HOLD and the zippers should be of polyester as they will not damage your clothes if accidentally caught. The bottoms should be protected by studs and larger suitcases should have straps as well for added safety. Remember that you should look on the lock of your suitcase as making it only burst-proof, not thief-proof.

OFTEN WHEN TRAVELLING WE TEND TO HAVE THE MISTAKEN BELIEF THAT WE ARE NOT RICH and thus do not have anything worth stealing. This leads to careless behaviour which tempts petty thieves to steal relatively worthless goods. There are thieves to suit everyone in the big city, and the deadbeat, starving addict will steal almost anything as long as it is easy to take, as it is his experience that the shopping bag or flight bag will often pay far more than the meat, drink or fix that they crave.

IHEY ALSO KNOW THAT PEOPLE OFTEN CARRY VALUABLES IN OLD BAGS ETC., as they think that there is less chance of them being stolen. To tempt a snatch thief brings real threat of violence, as should you try to stop him he could pull a knife, his need is so great. There is no reasoning with him.

IT IS NOT ONLY THE SNATCH THIEF THAT YOU MUST BE AWARE OF, but also dishonest airline loaders who will open the most likely looking suitcases in the hopes of making a "lucky dip". To avoid being one of their victims, distribute your valuables throughout all your luggage and strap your suitcases either with string or a strong strap. Loaders cannot be bothered with suitcases like these when there are so many more vulnerable suitcases around. Avoid having stickers from other trips plastered all over cases, as this can give off an affluent air.

MAKE SURE THAT YOUR DESTINATION ADDRESS IS WRITTEN CLEARLY on the inside and outside of your suitcase. You can further distinguish them by sticking a bright and contrasting piece of electrical tape around them. This unique mark would discourage a

thief.

NEVER USE A TERMINAL BAGGAGE LOCKER THAT HAS JUST BEEN VACAIED, as it is possible for the previous occupant to have made a
duplicate key. When sitting down, the best place to put your
luggage is under your legs, and not on the seat next to you.
Mentally handcuff your luggage to your wrist and never let it
get away from you in any way possible. If you must sleep in a
terminal, try to leave your luggage in a locker and push as
much of your cash as possible into your underpants or pantyhose.

WHEN LITTING OR CARRYING HEAVY SUITCASES, USE YOUR KNEES to
do most of the lifting, and not your back, as this is a very
good way to strain your back. Carrying the suitcase with the
lid against your leg will save the contents from tumbling out
if the catches accidentally unlock. The handle is also usually
offset towards the centre. Carrying even one separate piece of
paper in the same hand as a suitcase can weaken your grip by
half.

CARRY MONEY AND VALUABLES SAFELY. When travelling, it is a good rule never to carry all your money in one pocket as even the best suit will show a suspicious bulge. The safest pockets are those near the most sensitive parts of the body: the nipples & the crotch. Your side trouser pockets are also good as they are very deep and hard to pick.

A GOOD OVERALL PLAN ON HOW TO CARRY YOUR MONEY IS DESCRIBED HERE: The only money that you should carry in your side coat pockets is change for tips etc., as they are too easy to pick. In your side trouser pockets carry bills of smaller denomination in one pocket and larger denominations in the other, and remember which is which.

YOUR MALLET CONTAINING MOST OF YOUR MONEY should be jammed into the inside jacket pocket, attached with a safety pin. Avoid carrying more money or ID, cheques, etc. than you need for the journey, and never show a large billfold stuffed with notes in public.

public.

IF YOU ARE CARRYING A LARGE AMOUNT OF MONEY, stash most of it in reserve on your person in places that you will never need to reach for it. The following have proved best: A money belt, a specially sewn-in inner waistcoat pocket, an inner jacket pocket with zipper, or in your socks or tights where you can always feel it. You can also fold it in a "wallet" of grubby Kleenex. It is a good idea to use several of these ideas.

A WOMAN'S HANDBAG IS EVEN MORE VALUABLE THAN A MAN'S WALLET

and should have a catch that cannot be opened easily by someone unfamiliar with the design. Keep shoulder bags closed and: tucked securely under the cover of your arm or elbow. Dangling bags can be easily cut with a knife by a thief.

PUBLIC TRANSPORT. IT'S ALWAYS A GOOD IDEA TO TRY TO FIND OUT A LITTLE ABOUT THE CITY that you will be visiting ahead of time. Try to get maps of the downtown area, bus and metro lines, etc. You can also get any questions answered by visiting or calling the city Tourist Office upon your arrival.

OFTEN IF IT IS YOUR FIRST VISIT TO A CITY, taking a taxi can be a good investment as this gives you the help and advice of the taxi driver who knows the town intimately. If you are not sure where you will be staying, leave your luggage at the station and once you have found a room and know exactly how to get there, come back to the station for your luggage.

TAKING PUBLIC TRANSPORT IN A NEW CITY when you are unfamilar with the routes, etc. makes you more dependent on casual help and could be frustrating and time-wasting. In general though, the bus is safer than the metro. Ask the bus driver to let you know when you arrive at your destination. Be polite to them as they have a hard job.

PART TWO: CITY LIVING

PART TWO: CITY LIVING
HIGHWAYS AND BIWAYS. USE PEDESTRIAN CROSSINGS WHERE PROVIDED & resist the temptation to cross in the middle of the block. One very important thing to remember in living in cities or any place where large groups of people are, is to avoid large crowds like the place. the plague.

where large groups of people are, is to avoid large crowds like the plague.

WHEN SOME KIND OF DISASTER STRIKES IN AREAS SUCH AS SPORTS STADIUMS. LARGE DEPARTMENT STORES, etc., people are just like lemmings; they disregard the danger until it is too late and then they dive en masse into the sea of catastrophe. So you be different and foresee such situations and avoid them.

LARGE CROWDS ARE ALSO THE FAVOURITE WORKING AREAS OF PICK-POCKETS. Whenever you are pushed or jostled in a crowd, place a hand on the opposite shoulder and press your arm hard against your chest, and move away from the crowd. This shows any pick-pocket that you are a wallet watcher and yet does not reveal which breast pocket your wallet is in.

WHEN WALKING, ALWAYS WALK FACING THE TRAFFIC. This is much safer, and at the same time does not allow anyone on a scooter, etc. to approach you from behind and snatch your purse etc. Be extra careful at night, as your chances of being knocked down accidentally are greater from dusk on. The fact that you can see a car's headlights clearly does not mean that he can see you.

IF YOUR CAR BREAKS DOWN, OR YOU ARE REQUIRED TO PUSH A CAR, the best way to do it is to use the power of your legs, and not your arms or back. Turn your back on the vechicle so that it is your legs plus your weight that do all the work. Dig your heels in, sink the body down, bend the knees and then straighten the

your legs plus your weight that do all the work. Dig your heels in, sink the body down, bend the knees and then straighten the legs.

IF FOR SOME REASON YOU ARE EVER ASKED TO ACCOMPANY A POLICEMAN, the best thing to do is to simply go along with him, as if you refuse they could arrest you and then you will have to go along anyway. If they wish to search or frisk you on the spot it is best to let them as it will save a lot of bother, although you could ask a passerby to act as a witness.

AVOID PUTTING YOUR NAME AND ADDRESS ON KEY TAGS, as it would be better to lose them permanently than to have them returned in the hands of an unwelcome intruder.

USE TUNNELS UNDER BUILDING SCAFFOLDS WHERE PROYIDED, as this will protect you from falling objects. Up to 40% of the scaffoldings are in dangerous condition.

PUBLIC TRANSPORT. MOST BUSES AND METROS REQUIRE THE EXACT CHANGE so be sure you always carry plenty. Try to avoid riding in empty buses or metros late at night. If in any crowded situation you are jostled, be polite and excuse yourself to avoid any misunderstanding, without being too-profuse about it.

RESIST THE TEMPTATION TO OPENLY LOOK DOWN ON OR SNEER AT ROWDY KIDS as they can rapidly become very vicious with any one of the arsenal of mean weapons that they often carry. When taking the metro, avoid empty cars late at night and stand well away from the edge of the platform while waiting for the train.

BEFORE GETTING INTO A TAXI ASK THE DRIVER HOW MUCH IT WILL COSI to take you to your destination in order to avoid gross overcharging. Once in, check that the meter is started at zero, but resist the temptation to give the driver directions, even if he seems to be going in the wrong direction, as he knows the city better than you do, and getting there is more important than being cheatd out of a few cents.

KIDMAPPERS. AS MENTIONED BEFORE, CROWDED AREAS SUCH AS SUPERMARKIS, shopping centers and department stores are ideal areas for pickpockets and bag snatchers to work in. However such petty thefts are insignifi

EGAL AFFAIRS.

MHEN MRITING CHEQUES remember to fill in every line and space in each cheque with words, numbers or lines drawn straight through. Often our handwritten numbers and letters are so carelessly written that they can be easily altered, or figures and letters can be added.

MHEN IN THE BANK MAKING A WITHDRAMAL of a large amount of money, check that there is no one looking over your shoulder a that you are not followed when leaving the bank. A good idea is to go to the restroom in the bank so that no one will know exactly which pocket has the money. Keep good records of the cheques and withdrawals that you have made and their amounts a verify them with the statement that the bank sends you periodically.

(In Colombia, the thieves work in teams. One will follow you leave the bank, if you withdraw a lot, will mark a little "x" on your belt with chalk (as he stands behind you in line). When you leave the bank, the other thief will follow your "x" until you're in a good place a then rob you!)

If YOU EVER HAVE THE MISFORTUNE TO BE CAUGHT IN A BANK ROB-BERY, never try to play the hero if there is the slightest chance of you getting away unhurt. Very few of us have the quick reactions necessary to unarm a desperable robber. If it is a life and death case, then you must take chances, but in most cases your main hope is to follow the directions of the robbers.

If YOU ARE GOING TO BE MAKING A MAJOR BUSINESS DECISION OF SUME SORT It is best to avoid eating a heavy meal immediately prior to it, as blood is diverted to the stomach and digestive system, making the brain sluggish.

CIOTHING IN THE CITY: SHOES. THE BEST TIME OF DAY TO BUY SHOES is at midday, as the feet are swollen up to their maximum size. Shoed out naturally, giving the correct size. As one foot is usually larger than the other, make sure that the larger foot is not t

your trousers for extra warmth, all the while keeping in mind that two or three light layers are more effective than one thick layer. Do not go to the opposite extreme of wearing too many clothes, as your body will warm up with the exertion of walking. even on very cold days, and you could be uncomfortable.

BEFORE VENTURING OUT INTO THE COLD TRY TO HAVE SOMETHING HOT TO EAT, and take along a high energy snack to eat while walking such as dates, raisins and cheese. Hunger in cold weather can produce increased sensitivity to colds, slow your heart rate, co-ordination and cause dizziness and weakness.

produce increased sensitivity to colds, slow your heart rate, co-ordination and cause dizziness and weakness.

PART THREE: CITY OWELLINGS
SECURITY IN YOUR CITY DWELLING, HOME SECURITY MUST START WITH GOOD LOCKS. Most ordinary locks are no obstacle to the professional burglar, and in fact are really only there to keep honest people honest. In deciding exactly what kind of security devices you want to use in your home, remember that the more deterrents that are placed in the way of a burglar, the more they will delay him, increasing the odds of him being discovered. This might cause him to give up and go in search of easier prey.

(Dogs are a great deterrent to burglary. Even bars on your windows don't necessarily stop them as the more determined thieves come with acetyline torches--å just peel back the bars!

IN BUYING LCCKS OR BURGLAR ALARMS OF ANY KIND, you will be better off in the long run to deal with well-known, established firms, and not fly-by-night groups. Don't be afraid to improvise locks yourself, as your unique lock might styme a burglar who is accustomed to forcing well-known brand-name locks.

IN GENERAL, DO NOT RELY ON ANY ONE LOCK, as no one lock is unpickable, but rather choose a variety of locks, not necessarily the most expensive, but which will delay the burglar long enough that he might give up. It is always a good policy to change all locks on your new apartment or house as almost anyone could have the keys to the old lock. Resist the temptation to hide extra keys under the doormat, on the ledge, etc.

II IS OF THE UTMOST IMPORTANCE THAT YOUR DWELLING HAS THE APPEARANCE OF BEING OCCUPIED, apart from having good locks on all your doors and windows. Burglars go a great deal by the appearance of your home in trying to judge whether there is anyone home or not. Following are some suggestions that can help you to give your house an "occupied" look:

A) If YOU ARE LIYING IN A HOUSE, TRY TO LIGHT UP THE EXTERIOR of the house as much as is possible. Your electricity bill might be a little higher b

DON'T EVER MAKE THE MISTAKE OF BELIEVING THAT THIEVES ARE ONLY AFTER JEHELRY, paintings etc. Many burglars are perfectly happy with your housekeeping money, old checkbooks, radio, TV. Drug addicts are often looking for anything to steal that can bring them even the slightest profit in the streets. They usually work the poorer areas of town & are dangerous when apprehended, as they know that they will probably go to Jail.

F) IHERE ARE A NUMBER OF PRECAUTIONS TO FOLLOW IN DEALING WITH UNKNOWN TELEPHONE CALLERS & callers at the door. Don't give your number out over the phone to people who have "the wrong number". Simply confirm that it is not the number that they are looking for. Be very cautious in deciding who to allow into your home, & check carefully the identification of any repairmen.

IF YOU HAVE ANY DOUBT. ASK THEM SOME OF THE DETAILS ON THEIR ID, ask for a driver's license, or ask them for the phone number of their superior so that you can call to check. It is also best to avoid opening the door unless fully dressed. Keep your chain lock fastened at all times & check callers out through your peephole before opening the door. Suspect salesmen with fantastic bargains, as well as those who protest at having their ID thoroughly verified. Genuine callers won't mind.

MEYER LEAVE THE DOOR OPEN WHILE YOU GO IN SEARCH OF YOUR WALLET OR PURSE. If bona fide workmen or repairmen do have to come into your home, be certain that no objects of value are present, as they may simply return at a later date to rob you.

A VERY PRACTICAL & LOW COST INVESTMENT IS TO INSTALL A GLASS SPYHOLE in your front door, preferably made of very thick glass with a wide angle view. Door lock chains are a good safety device as well. The chain slide should be mounted if possible at a 45 degree angle so that the chain is at full stetch when it drops into the end of the shot. The slide should also be placed slightly above the chain's anchor on the door frame.

IF YOU DO FIND YOURSELF IN A HOUSE THAT IS BEING BURGLED, it is best to allow the i

FIRE. (PREVENTATIVE TIPS): AT NIGHTTIME IT IS ALWAYS BEST TO UN-

information to a burglar casing your home, or can turn a deaf ear to suspicious noises from your house when he knows that you

ARE AWAY.

ERIENDLY AND TRUSTED NEIGHBOURS CAN KEEP AN EYE ON YOUR HOUSE, pick up the mail and change the lights, curtains, etc., when you are away, as well as being an invaluable help in many of the crises that arise in day to day life. It is also a good policy to tip the building superintendent, doorman, janitor, milkman etc., from time to time, as this will encourage them to look after you when you need their help.

C) IF YOU ARE GOING TO BE GONE FOR ANY LENGTH OF TIME, it is not good enough to simply leave one small hall light burning and think that will dissuade intruders. If you are too simple in your precautions, you are not only inviting the professional

c) IE-TUB ARE GUING TO BE GUME FOR ANY LENGTH OF TIME, it is not good enough to simply leave one small hall light burning and think that will dissuade intruders. If you are too simple in your precautions, you are not only inviting the professional thief, but also the incompetent one.

IO GIVE YOUR HOME THE APPEARANCE OF BEING LIVIED IN, a good investment is a simple light timer. Time a few of your lights to come on at various intervals, as much as possible during the same periods as when your neighbours do. Rangeit so that when one light goes off for an interval, another stays on. During prolonged absences leave your curtains or shades drawn just enough so that outsiders cannot tell if there is anyone there.

D) EVEN IF YOU ARE AT HOME MOST OF THE DAY there are many opportunities for a diligent thief to enter into your home. For this reason, it is best to vary the times and days that you leave the house for short trips such as shopping etc. Even 45 minutes is enough time for a burglar who is familiar with your schedule to make a haul. When leaving the house a good tactic to employ is to leave the light on in the bathroom, the door slightly ajar, water running a trickle, and the radio on just loud enough that it can be heard at the door.

MHEN NIGHT FALLS, MAKE SURE THAT ALL YOUR CURTAINS OR SHUT-IERS ARE CLOSED, and that you leave a light on in any empty part of the house. Many burglars count on television to keep everyone occupied in one room while they operate with impunity in other parts of the house. Before you go to bed, it is good to go around and do a final checkup to see that all valuables are put away, all doors and windows locked etc. A list of things to do along this line will help you not to overlook anything.

E) KEEP ON HAND A COMPLETE INVENTORY OF ALL YOUR POSSESSIONS, and note all registration numbers of such valuable and portable items as watches, radios, TV's, tape recorders, typewriters, etc. It is also wise to put on each item some sort of particular identifying mark, known only to you, so t

PLUG THE TY, not simply turn it off. If it does catch fire, smother it with a blanket & if necessary call the fire department. If any electrical appliance catches fire, do not throw water on it unless it is unplugged, or the main switch is off.

IF YOU ARE ON CITY OR BOITLED GAS there are some very important precautions to follow. Primarily ascertain that all butane appliances have adequate ventilation, & that gas bottles are stored away from any source of heat such as night storage heaters, electric heaters etc.

IF YOU EVEN SUSPECT THAT THERE IS A GAS LEAK SOMEWHERE, verify by putting soapy water over the tube & joints, as it will bubble where the leak is. If on city gas & the gas goes off, be sure that your mains & pilot light are off, & that of your neighbours as well, as when the supplies resume it could fill your room & cause an explosion.

CONCERNING ELECTRICAL APPLIANCES, warn your family never to touch electrical switches with wet hands & do not use heaters designed to be immersed in the bath. Any kind of electric heater in the bathroom is very dangerous as there is a risk of possible electrocution.

KEEP ON HAND A FIRE GUARD TO PROTECT AN OPEN FIRE OR HEATER

in the bathroom is very dangerous as there is a risk of possible electrocution.

KEEP ON HAND A FIRE GUARD TO PROTECT AN OPEN FIRE OR HEATER when you leave the room, especially when children are about. Burning fat should be doused with a damp cloth, salt, sand or earth. Resist the temptation to allow junk to accumulate in attics, cupboards etc. where hot pipes can trigger a fire.

IRY TO DEVELOP THE GOOD HABIT OF BEING FIRE CONSCIOUS all the time, & be prepared to adapt, fix or change the smallest thing that constitutes a fire hazard.

SOME ADVICE TO FOLIOM IN CASE THERE IS A FIRE. a) Have already arranged & practised a plan of action for your whole family concerning what to do. b) See that the fire department is called at once. Check on each member of your family. c) Do all that you can to eliminate drafts that may fan the fire. Close doors & windows, even in rooms away from the fire.

d) IF YOUR CLOTHING CATCHES FIRE lie down on the floor & roll over in rugs, curtains or blankets. Do the same if other people catch fire. e) Before entering a room where you think there might be a fire test the doorknob to see if it is hot. If it is, don't open it, as it might take up to 30 minutes for it to get to you, giving you valuable extra time.

IF TRAPPED IN A ROOM, STAY CLOSE TO THE FLOOR where the air is clearer & stuff newspaper towel or rags into the cracks around the doors to eliminate smoke. As a last resort have sheets, curtains or blankets knotted together to make a rope making sure that one end is securely tied to a heavy piece of furniture. Never, never, never leap from a burning building when higher than

the second floor unless the flames have actually reached you & you cannot back away from them any further.

IF YOU DO HAVE TO JUMP LOWER YOURSELE to full arms length from the window ledge to shorten your drop & turn outward as you jump. When falling try to relax & land on the padded parts of your body. Try to roll with the fall tucking your head well forward. Try to pick the softest landing place possible, the roof of a car, sloping lawn, or onto mattresses, cushions or pillows thrown ahead of you.

f) DON'T TRY TO PUT OUT ANY FIRE YOURSELF UNLESS YOU ARE SURE THAT YOU KNOW WHAT YOU ARE DOING, & you know exactly what is on fire, as various combinations of acids or chemicals can be explosive or poisonous.

THAT YOU KNOW WHAT YOU ARE DUING, & you know exactly what is on fire, as various combinations of acids or chemicals can be explosive or poisonous.

g) DON'I TREAT BURNS & SCALDS, get the affected area into cold water & keep it there for seven minutes. Wrap any patient that is suffering from extensive burns in cold water, being careful not to remove any clothing. Do not use any butter, lard or soap & do not break any blisters. Try to remove jewelry before hands swell & in the case of injured feet take off boots & shoes if possible. Reassure, comfort & keep the patient warm to help lessen shock, which in itself can kill an elderly or weak person.

PART FOUR: NATURAL DISASTERS

EARTHQUAKES. THERE ARE SELDOM ANY PRELIMINARY WARNINGS of earthquakes & as their motion is not constant there may be several seconds between tremors. Usually the best thing to do is to stay where you are & not try to run outside, as most injuries happen when people are leaving or entering buildings. Doorways offer the best minimal support if there is nothing else as they have overhead support.

best minimal support if there is nothing else as they have overhead support.

CROUCHING UNDER DESKS, BEDS OR TABLES HELPS ALSO. Avoid masonry, chimneys, vents & large windows. Be wary of people panicking, as they often do more damage than the actual earthquake. Even strong quakes rarely knock things off the shelves. Most city areas have few open spaces that would be free from tumbling debris, so it is best to stay in a building.

IGHTNING. LIGHTNING IS ONE OF THE MOST UNPREDICTABLE FORCES IN THE UNIVERSE. It can frazzle you to nothing in a field or hit a house & leave you unharmed. A flash of lightning can be anything up to 100 miles long, can pack more of a punch than all of the U.S. power stations combined, & strike repeatedly in the same spot. The odds of being hit by lightning are about I in 2,750,000. Following are some tips & suggestions to help heighten those odds.

a) INDOORS UNPLUG YOUR TY & PUT AWAY ALL KNIVES & SCISSORS

THIS TREMENDOUS FORCE WILL UPROOT TREES, FLATTEN BUILDINGS & anything else in the immediate area, & wreak considerable damage in the outlying areas. The explosion of the bomb turns all the wreckage into dust & then sucks it up into the fireball where it is released as deadly contaminated dust. Every bit falling back is radioactive.

THIS DIST ENDOWN AS EALLOUE THE STATE OF THE STATE AREA.

Is radioactive.

THIS DUST. KNOWN AS FALLOUT. WILL FILL THE EXPLOSION AREA MITHIN AN HOUR & depending on the wind direction, speed & variability, eventually blanket a huge area. Invisible, it will kill & sicken & can only be detected by Geiger counters & devices carried by civil defence & police services.

HOW TO PREPARE A FALLOUT SHELTER. THERE ARE THREE FACTORS that affect & can weaken the intensity of fallout. 1) Distance. 2) Thickness. 3) Time. Try to buttress walls, windows & doors with as much extra thickness as possible. Bricks, concrete & hardpacked earth all help resist a fallout attack.

IT IS ALWAYS BEST TO MAKE YOUR PREPARATIONS WELL IN ADVANCE & not wait until the media start broadcasting news of increased tensions etc. Decide what part of your home to use as a refuge in case of an attack. Those who live in bungalows, pre-fab houses or caravans should plan on taking shelter in more substantial

caravans should plan on taking shelter in more substantial allings. In multi-storied apartment buildings middle floors dwellings.

dwellings. In multi-storied apartment buildings middle floors are the safest, the top being the most dangerous. Buildings of four floors or less are only safe on the ground.

THE BASEMENT OR CELLAR IS THE BEST PLACE OR THE INNERMOST ROOM ON THE GROUND FLOOR, shielded by a maximum width of walls on all sides. 40 centimeters of bricks can soak up as much as 95% of the fallout. Take down all the curtains & whitewash the windows to reflect back off as much of the heat as possible. Check under your roof for chinks in the slates which could let in flash rays, which are also heat rays.

STOP THEM UP WITH INFLAMABLE MATERIAL. Clear away any potential source of fire under roofs, in attics, by ventilators or near windows, & have fire-fighting equipment ready. Take out windows if possible & brick them in, or board them up with a layer of packed earth between the two layers of boards.

PILE UP FURNITURE, SANDBAGS ETC. against the walls & doors & block the windows & doors of rooms & passage leading to the fall-out shelter room.

out shelter room

out shelter room.

MHEN YOU HAVE CHOSEN THE ROOM BEST SUITED TO A SHELTER, then construct a refuge core in the middle of the room to give you extra protection, especially during the first few days of the fallout. This core can vary from a tent of sandbags to a lean-to formed by doors propped against the wall & covered by sandbags, cushions, covers or plastic bags filled with earth.

ONCE YOUR REFUGE IS PREPARED, start gathering the equipment

Close all windows as glass is a bad conductor of electricity. Try to stay in the middle of the room. Also stay away from typewrit-ers, radiators & other large metal objects as strong currents

ers, radiators & other large metal objects as strong currents can be induced by lightning striking nearby.

b) WHEN OUTDOORS BE AWARE OF THE WARNING SIGNS of an approaching electrical storm such as dark clouds, hot weather, blobs of rain & bad lights. In seeking shelter, remember, that poor shelter is worse than none, as at least a quarter of lightning victims were struck while seeking protection under isolated trace.

Thing victims were struck while seeking protection under isolated trees.

GOOD PLACES TO SHELTER ARE: Old barns, lying down or squatting in rubber soled shoes in the middle of an open field, in a building, shed or in the middle of a thick woodland. Cars are safe because the current spreads over the surface of the metal & goes to earth with the tires sometimes bursting.

PLACES TO AVOID BEING ARE: On a boat, on horseback, on a hill, in a cave by isolated trees, by a metal fence, swimming, below overhead wires, standing upright in the open, amongst a large crowd in the open (the warm air rising is a good conductor of electricty), & underneath overhanging rocks (the lightning sparks make an arc from rock to rock with you fried in between).

ALSO AVOID BEING NEAR ANY LARGE STRUCTURES such as steel bridges, tall chimneys as well as trees, especially oak, elms & poplars. Remember that being in contact with any wet surface heightens the risk. Keep away from sky lines also. Steel tipped umbrellas are dangerous as well. When indoors during a lightning storm keep away from sinks & bathtubs, & unplug unused appliances such as TV, hair dryers, washing machines etc.

PART FIVE: THE BOMB

AN EXPLODING NUCLEAR BOMB FILLS THE ATMOSPHERE WITH A FLASH FIRE, followed by a blast & radiation fallout. One may well wonder if there is anything that can be done in the face of such awful destruction. There is nothing that you can do once the bomb actually hits, so all your preparations must need to have been made well in advance.

made well in advance.

NO MATTER HOW HOPELESS YOU FEEL, such preparations will definitely help save lives. No one is necessarily doomed or immune from a nuclear bomb attack, as they could very easily miss the target & hit theoretically safe ground. Take precautions based on the assumption that you will be outside the explosion area.

WHAT HAPPENS WHEN THE BOMB HITS. A huge flash usually signals explosion, either simultaneously or to follow. An H-bomb flash lasts up to 20 seconds. As thurden follows lightning. So a blast lasts up to 20 seconds. As thunder follows lightning, so a blast follows the initial flash, almost immediately, or under a minute

å food supplies that you will need to stock it with. Your supply should last three weeks, with an absolute minimum of three days. It is imperative that you be self-sufficient, but don't take so much that your refuge becomes cluttered, as you will be using that small place for living, sleeping, eating å as a bathroom. FOOD å WATER IS NOT CONTAMINATED BY RADIATION RAYS PASSING THROUGH II but it will be contaminated once fallout dust collects on it. To avoid this always keep all food å water covered, preferably in containers, å wipe them down thoroughly before opening. This also applies to any water kept in your bathtub, sink etc. Water is more important than food so try to have as large a supply as possible on hand.

WHEN YOU HEAR WARNING OF AN IMPENDING ATTACK, BE SURE TO TURN OFF THE WATER MAINS so that contaminated water cannot enter å spoil the water already in your cisterns, lavatory or pipes. Apart from adequate food å water, be sure to have an adequate supply of first-aid materials, sanitary facilities, bunks, mattresses or air beds, å adequate ventilation.

HHAT TO DO WHEN THE WARNING SOUNDS. If a warning sounds that an attack is imminent, those who cannot reach home in a matter of minutes should take shelter in the nearest safe building.

IF YOU ARE AT HOME, GIVE ONE LAST CHECK that your home is as fire- å fallout-proof as possible å then shut off the gas, water å electricity mains å shut you å your family into the fallout shelter. If indoors, but not near a fallout shelter, try to use anything solid as a flash fire shield. Go into a basement or under a stairway, or crouch between windows along the wail on the flash side of the room å stay there until the blast is past.

If YOU ARE DIDDORS YOU SHOULD DO YOUR BEST TO SFEKANYSOLID ORICCI AS COVER such as a ditch, trench or gutter, or even flat on the ground. Cover the exposed skin on your hands, head or neck with anything available such as your count. If there is no flash after several minutes & better cover is available, dash for that. WHEN THE BOMB GOES

any last minute defences against fallout. When you do this, cover up well with outer clothing & leave them outside before re-entering the shelter as well as washing your head, neck & hands thoroughly. Brush under your nails, bathe your eyes, rinse your mouth with salt & water, cough & blow your nose hard.

IN GENERAL YOU HAVE BETWEEN 15-30 MINUTES TO DO THIS BEFORE THE FALLOUT STARTS FALLING. Always wear gloves when handling anything contaminated by fallout. Stay inside your shelter until notified by civil defence authorities that it is safe to come out. (A radio is very important for this.)

IN THE ABSENCE OF OUTSIDE COMMUNICATIONS, stay inside as long as possible. However count on being inside a minimum of 3 days. AFIER THE FALLOUT PERIOD. IF YOU MUST SEARCH FOR FOOD OUTDOORS following the fallout period, look for foods that are naturally protected such as nuts, which are shielded by the shell. Eggs will probably be safe to eat, especially if the hens stayed under cover during the fallout. Wash & peel potatoes as contamination is not removed by boiling alone.

GREENS SUCH AS CABBAGES, SPROUTS & LETTUCES WILL ALSO BE FAIRLY SAFE, if the hearts are solid & well protected by the outer leaves, which you should discard. Fish also should be safe. Animals which have been outside will not be safe. Remember that after the first few days of fallout that there is a risk of all plants being contaminated, as their roots will have taken up radioactive material in the soil.

RADIATION SICKNESS. THE SYMPTOMS CAN VARY FROM WEAKNESS NAUSEA, DIARRHEA TO A LOSS OF APPETITE & DELIRIUM. Treat any wounds or injuries & remove all contaminated clothing where possible & wash the patient, not forgetting the hair. Be sure to wear gloves, a long coat & a mask when doing this & keep the patients clothes separate from anything else to avoid contamination danger. Alert the police or civil defence authorities.

PART SIX: WATER & FIRST AID

THIRST. THIRST BURSTS THROUGH EVERY HUMAN NEED. Owed water, the body is a ruthless debt collector who can force its owner to drink petrol, seawater or radiator water in an effort to exact repayment. A raging need in hot climates, thirst is more insidious in cold as you may not feel the pang until it is too late.

A BASIC MINIMUM OF 2½ LITERS ARE NEEDED to keep you going efficiently in cool weather & 4½ liters in warm weather. Thus in

tains powdered crushed rock.

RATIONING DRINKING WATER. IN DECIDING HOW TO RATION YOUR EXISTING SUPPLY OF WATER, discard the fallacy of rationing the only pint of water, for example into 50 eggcups, expecting 50 days of life. Without using energy you can last about 10 days in 10 degrees Celsius temperature, but only 11 days with 2½ liters. By the same token in a desert climate of 50 degrees Celsius you can only last two days without water or with up to half a liter. Not until you have 4½ liters can you hope to survive longer, & then only a day or so longer in this terrific heat.

SO THE REST THING TO DO IS TO DRINK WHENEVER THIRSTY as it is the water that is inside you that is important. The only way to conserve water is to control your sweating, so don't be afraid of drinking too much as you can drink up to two liters at a time, & even this will be sweated out in a few hours in intense heat, as well as being expelled when you urinate.

SO ALWAYS DRINK ENOUGH, especially in a cool climate when you may not feel the need. You still need it & as in hot weather it is harmful to ration the body's needs when the water it craves could well be available. You always have to pay the water debt sooner or later. When drinking moisten your lips, mouth & throat before swallowing & never gulp down water when parched, but water drink slowly & deeply.

WHEN YOUR WATER SUPPLIES ARE RENEWED THROUGH RAIN ETC., always drink your full before starting out again, saturating your body as if it is a bank & you are filling your account to avoid being in the red as long as possible. Then when on the road drink offen & in small doses.

SOURCES OF WATER. THERE ARE MANY THINGS THAT CAN BE SPREAD OUT TO CAICH RAINFALL. Such as large leaves, groundsheets & even clothes, if you have time you can even dig a hole & line it with cloth to prevent rapid drainage into the ground. Dew also can fall in great quantities in the desert & other barren places. It can be conserved by laying out potential dew traps such as ground sheets, tin cans, hub caps et

son per day.

A SURVIVAL STILL CAN BE EASILY MADE & CAN VIELD UP TO HALF A
LITER OF WATER A DAY, providing you have about one square meter
of plastic with which to "milk the ground". Dig a hole in an unshaded area about one meter across & deep enough to contain a
shaded area about one meter across & deep enough to contain a bucket or other wide container. Spread the plastic sheet over the

r any survival situation, it is safe to say that the priority is to find water, & having found it, make it safe to drink.

SIAVING OFF THRIST. IRY SUCKING SOMETHING, such as a pebble, or chewing something soft & nonabsorbent such as a nut, leaf, gum, prune or onion. Sucking snow or ice is not recommended as it often makes you more thirsty & chills the stomach. If you must, hold the melted water in your mouth to take the chill off before swallowing, & try to take a little food at the same time.

YOUR MAIN AIM MUST BE TO SWEAT AS LITTLE AS POSSIBLE, as water lost due to perspiration must be replaced. In a hot climate move as in slow motion as your need for water will rise astronomically if you are active. Cold weather may demand hard work such as building a shelter, but even so, try to sweat as little as possible, & rest & sleep as much as you can.

IN HOT WEATHER THE ORDER OF THE DAY IS TO ADD COTHES & BODY COVER to check sweat evaporation. Button up your collar, sleeves & coat & make a headdress so as to spin out your body moisture to the best effect by keeping it in, or at second best, on, your body. Wear white if possible as it helps to reflect the heat rays.

TAKING COTHES OFF TO BE MORE COMFORTABLE IS A LUXURY THAT YOU CANNOT AFFORD. You can also keep cool by washing off with damp pads soaked in urine, alcohol or seawater, but don't jump into the sea. Don't drink seawater under any conditions. It may seem refreshing at first, but your thirst will soon burst into fiendish proportions. The salt content in urine is too high, & will increase your thirst.

IN THE HOT SUN YOU NEED TWICE AS MUCH MATER AS IN THE SHADE so use whatever shade is available. Shadow is one of the keys to conserving sweat & alleviating thirst pangs. In any shelter you improvise, allow the air to circulate freely. Whenever possible sit off the ground rather than sprawl on it as it's several degrees cooler 30 cm off the ground than on it, so insulate your-self from it with anything available.

IF YOU MUST DO ANY WALKING OR ACTIVITY, DO IT A

though there have been some exceptions. Glacier water often conhole & weight it down in the middle with a fist sized rock.

PLACE THE CONTAINER FIVE CENTIMETERS BELOW THE PLASTIC AT ITS LOWEST POINT, & anchor the plastic around the rim of the hole with rocks. Be sure that the underside of the plastic is clean, at the same time roughening it to help the water drain more efficiently. After a while the sun will raise the temperature of the air in the soil under the plastic to furnace pitch, forcing the vaporisation of any water present in the soil.

THE AIR UNDER THE PLASTIC WILL BECOME SATURATED & drops will form on the plastic sheet as it is cooler than the damp air underneath it, & the drops will eventually trickle into the container. This works better at night as the soil temperature is hot & the plastic is cool. Make sure that the plastic does not touch the earth anywhere so as not to lose any moisture.

PURIFYING WATER. IT IS ALWAYS WISE TO TREAT WATER THAT YOU ARE NOT SURE ABOUT AS IF IT WAS POLLUTED, as the seemingly crystal clear stream may be running over a dead sheep 50 meters upstream.

SOME BASIC STEPS TO FOLLOW IN PURIFYING WATER ARE: a) strain all water through a folded hanky to suspend gravel, sand, rust or dust & b) boil it hard for at least a minute (preferably longer) & let any sediment settle. You could also use purifying tablets, much as halzone tablets, for which instructions are usually found on the container. Taste can be improved by adding a pinch of salt or pouring it from can to can.

FIRST AID TIPS: SHOCK. MANY PEOPLE HAVE DIED AFTER INJURY BECAUSE OF UNIREATED SHOCK. It weakens the body, lowers your vital activities, increases under pain, exposure or exhaustion & must always be treated in any survival situation. Unless there is some more pressing need such as severe bleeding, act immediately to find some sort of shelter.

LAY THE PERSON DOWN COMFORTABLY, SLIGHTLY RAISING THEIR FEET

more pressing need such as severe breeding, act immediately to find some sort of shelter.

LAY THE PERSON DOWN COMFORTABLY, SLIGHTLY RAISING THEIR FEET & LOOSEN ANY TIGHT CLOTHING, taking care not to chill them. Relieve any pain & treat any injuries, at the same time keeping him warm but not to the point of sweating. Give him hot liquids if there is no internal bleeding, reassure him & keep him away from any noise & panic.

"And the peace of God, which passeth all understanding, shall keep your hearts & minds through Christ Jesus. "Phil.4:7

THE UNIVERSITY JOBS MERE HIRACLES, as we were teaching a special graduate course for select members of the government & trading companion, and neither of us had a degree; It was thru the university that we met and won our precious brother, Dok, a 30-year-old civil engineer. From the time he received Jesus, his love for the Word (new & old) was tremendous, & he devoured each new Letter with a great desire to live them & translate them for others.

EVENTUALLY WE WERE ABLE TO REVEAL ALL TO HIM & our larger Family of Love which truly inspired him to the point that he became a TRFer! We had set up a small Bible class to which we were inviting a few friends, & by the end Dok was handling these.

CARAVANING IN RUSSIA!

Several families & brethren experienced the brave thril's of taking a pioneer journey into beautiful Russia this year. Below we've compiled summaries of some of the highlights and lessons learned from these adventures: TYJ!

MEETING INFLUENTIAL
PEOPLE:
From a family who
took a 1-1/2 month trip:
"Coming in through
customs, they searched
all cars very thoroughly
making sure that you
didn't bring in anything
illegal. It was no problem to bring our personal Bibles with us.
of there are still a few
copen churches with people
attending services and
many people who openly
claim to be Christians.
Me saw how a director of
a tourist institution
invited some tourists
that he had good contact
with to visit his local
church and he spoke open
ly about being a Christian.
In Leningrad & Moscow

In Leningrad & Moscow the campsites were guarded & only for tourists, so we had to get out of them to meet any Russians.

We set as an open door for this trip, that if God wanted something done, He'd have to lead us to influential people that can give us the ability to work more freely under their wings of protection. Our experiences from working in Poland, was that there are always many students & sweet "normal" workers that need

to be reached & you can reach a few of them, but if we want to try to reach many, we'd have to at least have some very influential "king" for your support and protection.

A few of the people that we met on our trip:

A person who works with the cream of the crop of the Soviet Union, educating them in a certain lefield, wants to meet us again when we return!—A high officer in the UN who knows both Gromyko of the Soviet Officials.

—We spent 10 days with a family who have the status of diplomats & are working on a fairly high level. We became close friends—with an invitation to meet them again.

—And last, but not least, we met one of the most popular & famous of honour in Moscow! Hall Our burden is to return there for a follow-up trip."

MAIL MINISTRY EXPLOSION:
Since our last newsletter
our main emphasis has been
on our rapidly expanding
mail ministry: From just 2
or 3 letters coming in each
week in July & August, it
has now skyrocketed to almost 1 per day in September!
TYL! Here are a few extracts
from the many beautiful responses we have received
from Poles in the last month:
"NOW I'M VERY HAPPY THAT.
THRU YOU I CAN HAVE MORE.

group of us who read them
gladly, 6 we hope that thru

them." --Plott.
"MEND I READ "MYY DISASTERS! I MANTED VERY HUCH

ANOTHER HIGHLIGHT OF THE
MONTH WAS A VISIT FROM
JOHANNES & SHULY & BABY,
who brought Jola a set of

dictionaries! Hal!—a real
answer to prayer! Johannes
is actually of Polish origin & has helped a lot in
the past with translations
& proof-reading etc. CBH!
We had an inspiring time
of fellowship together, &
just the other day we heard
that Johannes wants to return soon to help with our
work here-PTL!

MADE AN EXCITING TRIP. TO
POLAND ITSELF IN ORDER TO
POST LETTERS TO 150 OF OUR
PRECIOUS SHEEP THERE! Each
envelope contained 2 Mo

asking those who would like
to receive a visit from us
to let us know right away!
We suggested also the possibility of meeting their
families & friends, with
the vision of hopefully
leading as many as we can

& praying that the Lord
will open the doors for at
least one final reaping of
souls in this needy land!

Your love, help & encouragement really make a great difference & truly inspire us in our "fight of faith" to reach this "closed country" with the Gospel of God's Love: Please write again soon, & if you can please enclose a donation, as we really are dependent on your help to reach Poland while there is still a little time left! MAKE: My biggest burden is printing the lit, which I used to do, working on a printing press before I joined the Family; also iltnessing--I'm a national 6 don't have any problems in doing this. So my burden is really fulfilled in this one year, in which we could accomplish this much printing a lot of response with the mailings.

MARK: We have to raise it with other supporters.

STEPHEN: So this is a poor country & it's hard for the people even to give a small amount for the litreature. So does that mean you need help?

MARK: Yes, it is greatly appreciated if you can help. We are also helping teach in a school for poor children three times a week, plus we translate, & we live totally by faith, so we need help to continue this work.

TRAVEL CHEAPLY! PASSPORTS AND VISAS TOILET ARTICLES

U.S. citizens can get two types of pass ply has more pages than the other. Whichew U.S. embassies abroad will paste in additions

pages free when the existing once are almost filled with visas. Most travelers prefer the thin passports, so that the paste-ins are required earlier. The advantage of the thin justport is that a pasted-in page, unlike a numbered page, can be neatly removed from a passport without leaving a trace.

can be nearly removed from a passport without leaving a trace.

Why might you wish to remove pages from your passport without anyone being the wiser? Well, suppose you wanted to sist Libya, but you had an Israeli stamp in your passport. Or suppose you wrecked your car in Costa Rica; if you entered with a vehicle permit, you would not be allowed to leave without your car. In cases like these, a thin pussport with extra pages and a razor blade can save you loss of hasdes.

Another good item to take is a copy of the title page of your passport. It will speed up replacement if yours is lost or stolen. And, while you're getting your photos, have you or sole a trast run off for visas, since camera work is often expensive abroad. Photo-machine pictures are adequate for visas, but not for passports.

DOCUMENTS

DOCUMENTS

In addition to your passport and health certificate, you may want to bring a letter from your local police department saying you don't have a record (if you don't); a letter from a bank saying you're solvent (if you are); and a letter from a bank saying you're solvent (if you are); and a letter from a judge, state senator, or other big wheel saying you're a good guy (if you can). These will help if you want special visas or working permits, or if legal hassles arise. An official copy of your birth certificate will be helpful if you lose your passport. Other documents you may wish to take are student cards, youth-hostel card, medical prescriptions, driver's licenses, photbs, a list of refund locations for your irravelers checks, and an address book. Money and the more important documents should be placed in a special, separate money belt which you can buy for about five dollarn or have made, and the rest in a waterproof plastic packet of the kind you used for pencils in your notebook in grade school. You may also want to saw extra pockets, preferably bidden ones, into your clothes.

Excerpts from The Art and Adventure

excerpts from'The Art and Adventure of Traveling Cheaply', by Rick Berg, pub. 1979 by And/Or Press, Berkeley, CA.

TOILET ARTICLES

There are a few other small ementials you must have, although you can share the load with your traveling companions. Include the following: a few plastic bags for laundry and lining your pack (if it's not waterproof), and some small ones for matcher; a few yards of string, which has thousands of uses; a needle and heavy thread; maps, matches, pen, and paper (or small notebook), all of which you can put in with your documents; a penknife with bottle and can opener, plus a corkstrew if you're a lush; soap in a plastic case; a toothbrush (one guy I heard about snapped off the handle to save weight—this may be going a little overboard), a roll of toilet paper which you can replenish at ritzy hotels and restaurants; a spoon; and a small medical king the proof of the proper with them. If you need extra plasses, you can save money by bringing the prescription and having them ground abroad. Tampons are not sold everywhere; so women may have to carry a supply. The tampons should be kept protected, or the seal will break and they'll get ditry or wet. Try to select a brand which is both compact and durable. Sanitary napkins are sold almost everywhere, but may be a little skimpy.

BUSES AND TRAINS

BUSES AND TRAINS

Buses and trains are much cheaper abroad than in North America or Australia. They're often clean, usually punctual, and always run in a network that is very dense relative to the size of the populations they serve. The main trap that travelers fall into is buying an all-inclusive bus or rail pass. These are generally very expensive, and unless you use them every day, you probably won't get your money's worth. Even if you do travel fast, the pass may cost more than the sum of standard point-to-point fares. Besides, you may need to know your titherary in advance, and if you lose your pass there may be no refund. Worst of all, in an effort to use it fully, you may rush through your trip.

Trains are generally slightly less expensive than buses, a lot slower, and only sometimes more comfortable. You may find the follets on trains a convenient advantage, although the people will be grateful if you wait until you're out of the station before using them. Traveling on buses, you occasionally reach the point where death seems imminent if you don't lighten your load immediately, but the driver will usually accommodate a pollite request to stop. Chances are you'll be blessed by the other passengers.

Another way to save money is to avoid international buses and trains. By changing vehicles at the border you save up to 75 per cent in Central America, and 50 per cent between Thailand and Malaysia. If you put your pack on the roof of a bus, make sure it's ted down accurely and check it at stops. If your gear is lost, don't let the driver leave. Call the police. A friend in Botswana made the driver go back ten miles to fund his pack, which had fallen off

Cargo and passenger boats offer a cheaper alternative to the airplane for overness and coastal transportation and for mobility across large land masses where no roads exist, such as the Amazon batin. Boats are generally very alow, but if time is no consideration, you'll find that travel by water is often much more fun and entertaining than air travel. You won't get seasick in an airplane, but neither will you be able to witch dolphins and flying flab.

To find out about boat traffic in any particular area, check the shipping pages in local newspapers, shipping offices, travel agencies, and dockaide bats. Checking at these central locations is much simpler than going from boat to boat. With cargo boats, however, once you've found one, if a best to dead directly with the capatain, perhaps first asking a local what the trip is worth. Very often you may be taken gratis, especially if you are along.

Never count too heavily on a boat's punctual departure nor on its strict adherence to any supposed schedule. Also, allow up to twice as long for upstream river travel as for the same trip downstream. In ocean ports, you may be able to find yourself rides on private yachts, and any sailing skills you have will undoubtedly help you here.

CARS

Traveling with a car beyond countries adiagont to yourself.

stills you have will undoubtedly help you here.

CARS

Traveling with a cas beyond countries adjacent to your own can be extremely costly. Incidental expenses tend to pile up quickly. Both the roads and the quality of vehick repairs can be very bad. Parts are often hard to find. Gasaline is usually expensive and sometimes adulterated. Surping costs are enormous. You'll meet fewer people. he insulated from the environment, and be subject to ripoffs and special taxes. In addition, most countries of the Third World have strict leave designed to prevent foreigner from selling ears to local citizens who want to avoid the import taxes. These taxes often start at 100 per cent of the value of the whick. It is difficult to abandon a broken-down corryou generally can't knew the country without a car if you entered with it. Some people have had to pay the entire value of their cars to the tax authorities just to leave the cars by the side of the road.

Two friends of mine once took a car to Guatemala to buy Indian clothes. When the car died in desolate mountain country, they had to travel two days in a bus with the transmission on their laps to get to Guatemala City. There they waited another thrus for the repair to be done. When they returned to the car, they found comething else wrong, secustiating another trip to the capital. The whole episode lasted almost two weeks, after which, drained of money, they had to return home. On the way the transmission went out again, and they had to sell some of their fabrics to get the car out of hock. My frends laugh like hell when they tell the story now, but it must have been a nightmare when it happened.

If you hit someone when driving, you may be thrown in juff—that is, if you're lock; enough to avoid being killed by angy relatives. In Morocco, if you injure a man, you'll likely as not find yourself supporting three wives and ten

probably heve robbed her father of his most valuable salable commodity, so you may find yourself buying a wife. If you're caught with contraband in the car, the car may be confuscated. There are people at borders who make a turng putting together whickes that have been searched. Nevertheless, there are advantages to taking a car You can bring special equipment like movic cameras or scubs a tank. You can easily stop and go wherever you want, and always have a place to sleep and lock things up You avoid the hasales of hitching and public transportation, as well as the problem of the onward ticket. A car also facilitates entry into a country, since it's endenor that you can support yourself. Finally, there's the possibility of profit if you can sell it abroad.

There are a few helpful tricks that the motoring clubs may not tell you about. A chamots cloth to filter dust out of gasoline sold from barrels may be a necessity if you don't want your car to break down in the dreart. Learn how to lean out the carburetor mixture at high altitude and how to adjust the timing. Johing foreign auto clubs may get you bargains on gas in some countries, notably Italy, and if you make friends at foreign milistry buset, you can get exceptionally cheap gas. When buying gas, be sure the pump has to zero. Never let two guys work on both sides of your can when you can't see whit they're doing. When you bring it in for repairt, make sure the mechanic knows you know how much gas is in the tank, so he won't try to siphon any ust. In some countries the police will unscrew your known how much gas is in the tank, so he won't try to siphon any ust. 'In many countries you must have insurance fat least liability insurance) when driving. If you have an accident without it & someone is hurt you might not be able to leave the country until the case comes to court & it can take years! Cost Rica is one example of this!

If you plan to sell your car, take the title with you. Sometimes you can sell it legally; other times you need to show a few tocks. One is to sell it in the no man't hand between border posts. Another is to sell it in the no man't hand between border posts. Another is to sell it in a government official or other big wheel who is outde the law, or else to a diplomat or foreign resident who is legally exempt from it. OF or this you can advertuse in foreign-language publications. Own places frequented by foreigners. Sull another is to sell it in a country that doesn't require a carrier, hoping that the border officials worn't notice the special stamp in your passport when you lewer. Alternatively, some people have created the stamp and the time of your car will be put into your passport, or bribed the border guards. If the guards forget to itamp the car in , you're in fat city. Even if they do remember, usually your personal entry stamp and the stamp for your car will be put into your passport by different officials. If you can get the car stamp on another, pasted in page, you can pit out before leaving.

Import dutes abroad are high, and care are expensive. If you do sell one legally, usn'ft; the buyer pays the ras. You should always check the regulations before leiling the car. In some countries it's illegal even to put a forsale sign on your car.

sency. Is an emergency you can have each sent in a letter and take your chances on its arrival. If you have a credit card, the company may be able to forward you some money, a faster and contier way to transfer money is by cable to a bank or American Express office. Sometimes your cash will arrive in just a day or two, but storker of long with an out uncommon. Oncorpulation banks may hold onto the funds to earn interest income, or also your cable may be lost in the bureaurrey. If a cable is indeed lost, if can take up to six months to get a refund. A friend in Pakissan told me he had money cabled and the relegraph people somehow managed to stad it from him. When he went to the police, they thought it was the functiest thing they had ever heard. Then undoubredly they went to the telegraph office to collect their share.

For this reason I profer to treative my funds by money order. Governmental coverency regulations are no more strict with money orders than with cable transfers, but with a money order, if you have trouble with one bank you can always go to another, or even to another country. If the order is lost in the mail, it can be canceled quickly, especially if the winder has made a note of its number. I have it sent in a repular, unregistered letter, so that it doesn't look like anything valuable. Finally, I always ask for more morney as soon as my funds run below \$300 or \$400.

CHANGING MONEY

Once you have your money, you'll be eachanging it all the

Once you have your money, you'll be exchanging it all the time. Legal exchanges are covered here, black-market deals are deferred to the next chapter. If you change at a bank, your problems are minimized. Ask at several banks for the best rate, there's almost always a difference. The most advantageous exchanges are generally made in big cities; rates in small towns are often much lower. Sometimes travelens checks get a better rate than cash in banks.

The first rule in making independent exchanges is to know the rate in advance. You can find this out from Newweek, the financial pages of major newspapers, by asking other travelers or resident foreigners, or by shopping around. If none of these methods is provided, don't worry, there's a foolproof way to get a good rate. Suppose you were in Colombia in late 1974 and wanted to change dellars to pesco. The going rate at that time wast 35 pescos to the dollar on the wemlegal street exchange. If you went up to a changet and asked the rate, you probably would have been told about 32. But with 150 would have done intread is tell him you had person and wanted dollars, and he'd have quoted you state of about 37. Then you would say you also had more dollars, and may be you'd just be happier converting them to pesco. At this point he couldn't very well go to 28, the difference between 18 and 37 is too great to be a changer's normal margin of profit. So you'd have been offered a rate of 34 or 35 right away. A little more bargaining, and you'd be home. Money changers all over the world have told me that this reverse rate trick is the mark of the experienced traveler. Incidentally, if you're wondering why he didn't say 42 or 45 when you told him you wanted dollars, the answer is that, incide the thinks you have person, he assumes you've already made one or more ex"In many S. Kong, Here you can buy liquor, wriches, cameras, and stereo equipment for less than half the price you'd pay in your own country. HERBAL CURES

Depending on your personal attitudes and the availability of Western medical care, you may decide to take a nature-pathic approach to your allments. I can't personally testify to their effectiveness, but you'll fine hundreds of local remedies abroad and the people swear by them.

For example, excellyptus leaves crusted and rubbed on the body are said to be an effective insect repellent. You can also try gatic—the most potent germicide in the human diet—which will probably keep everything away. In a survival attuation, a mixture of nicotine and spit is often recommended.

For diarrhea and other gastric upsets, herbalists advise drinking tea made from sweedo leaves, plaintain, or camo mile three times a day, or else plain lemon juice. For coughs, you can boil together pibe needles, cypeen leaves, mandarin rinds, and honey, and then drink the syrup. Even if this concoction doesn't work, it sure tastes delicious.

These herbal cures probably won't do any harm and may in fact be very helpful. They've been around for thousands of years, and at least some of them must be quite effective.

RECEIVING MAIL

One of the most important is how to receive mail. Given the inefficiencies of foreign postal services, you can expect half your letters to get lost and the other half delayed. Many of the problems can be avoided, however, if you make things as simple as possible for the people who handle your mail.

mail.

The best places to receive mail are at American Express offices, at local post offices, and at your embassies if they offer mail service. In my experience, these three choices have been about equally unreliable. You can get a list of American Express offices and en your checks. When you pickup your mail as them, the clerks may ask to new your checks. One will suffice, but even if you have none I doubt they It refuse you a letter, especially if a linder money changes hand.

**A hight be good to mention that you should avoid getting weillings. EARTHOUAKES there!

Severe damage from quakes tends to be fairly localized, so the chances that you'd be at the epicenter are not great. Nevertheless, every traveler should know what to do if one bits. If it feels like an express train is roaring through your room, then either you're in a cheep hole! too clone to the tracks or else it's time to fly, not run, outside. If the exits are too far away, take cover under a doorway or turrdy "table. Most people are injured in earthquakes by building components that fall on them, not by alpping into cracks in the earth. Stronger, bette buildings are always infer than poorly built ones. Small tents are best of all.

changes and know approximately what the fair rate is.

Once you do in faci know the rate, ask around in shops, banks, and on the sirret for the best offer. Often you'll want to change a latter money at boders, so that you'll have some cash before entering a country. Since there are no changers as some boders—and even when there are—it may pay to buy the currency well before arriving at the border. For example, nowhere in Bolivia (in 1974) could you have gotten more than 22 perso to the dollar, but in Buenos Aires the legal dollar rate for Bolivian person was 30. The further a currency gets from the things it will buy, the lower its value becomes, especially in inefficient money market little those found in the less-developed countries. *

If you know in advance what the black market rates are in countries you'll be visiting, you may be able to get an evin better rate by buying money in funancial centers like New York, London, Zurich, and Hong Kong. Overseas editions of Arch raced magazine give both the official and the free-market rates for many currencies. The free-market rate is the tast at which large sales and purchases are being made in international money centers, and is always a close approximation to the black-market rate, except pethaps in times of externe national emergency. If before leaving Europe you know, for example, what the rate for dishams is on the Moroccan locate Market, you may discover that you can save money by picking up a few in Zurich or London. Of course, before making the exchange, you should ask the Moroccan consultate or a travel agent whether it's legal to import dishams into Morocco. If It's not, you may not want to go though the bother of inding the dishams on entry, especially if the deal in Europe ins' that good.

TRAVELERS CHECKS

TRAVELERS CHECKS

Travelers checks are not cashable averywhere; therefore you should bring planty of green folding money. I always carried at least \$30 in bills, including perhaps tan singles for unplanned expenses like alport departure taxes. Sometimes when I was contemplating a major black-market deel. I had a much as \$2.000 in cesh. But carrying that kind of money regularly is risky. Travelers checks are safer, and there are ways to convent them into dallars for use on the black market. (Alsky)—WA dan'd personnand M-Ad.)

You should sery out checks in several denominations, from \$10 to \$100. Tens are most convenient when you need only a little money at a time, but if you got a hundred tens you diver a bulky bundle, and in places that have a percheck cashing charge your losses would be substantial. Likewise, if you have all hundreds, you'll lose money on exchanges when you need only \$20 or so in local money before leaving the country. The extra money will have to be chnighed into snother currency, usually at a loss. Also, there is the first that the same that the shall be times when you'll be able to cash a small check hus not a larse one. One German in Afghanlistan who had only tritise had to trevel two days on an empty stomach to get to Kabul, the only clry in the country where he could cash them.

Most travelers check companies will change blg checks.

has not a larae one. One German in Algnanistan month has not a larae one. One German in Algnanistan month has not a larae one only city in the country where he could cash them.

Most travelers check companies will change big checks to mail ones for free, but you should ask about this before you buy the checks. To facilitate getting refunds on lost checks, keep at least one list separate from your checks. I usually kept two lists and aschanged one with my traveling companion. Keep the checks with your cash and passport in a money belt big enough to accommodate them all. If your checks are stolen, report the loss immediately. If there is no refund center nearby, get a police report before sephying for the refund. In London I saw a woman who'd walled several weeks before receiving her refund, whereast light more weeks before receiving her refund, whereast light more on the spot.

American Express is the most common brend of travelers to be far quicker with refunds. My favorite checks are Barcley's, they don't have the usual? I per cent commission that get, and they're as acceptable as any. Sometimes you can get other checks free at special sales at banks. You may sant to buy a few American Express thecks, though, to be able to use the company's mail service. In the last several years people I've been meeting on the road seem to be using this mail service less and less, relying instead on ordinary port offices. Whichever checks you buy, be sure to get a last of oversars refund locations. If there are only a few in the places you want to go, look for another brand.

A traveler's letter of credit is a document from an interna-

tional bank which trates that you have a certain quantity of money, usually at least \$1,000, on deposit with that bank. To draw upon the deposit, you go to one of the bank's own branch offices or to that of a correspondent (affiliate) bank abroad. The tellar will deduct the amount you want to cash from the total on the letter and give you change in dollars, travelers checks, or local currency, depending on your preference and focal regulations. Unlike travelers checks, letters of credit off a fattaction these. However, they are negotiable only in big estima. For the latest infinitation on letters of credit, ask as an American Express office or at a very large bank, such as Bank of America.

MONEY TRANSFERS

MONEY TRANSFERS

If you don't take your whole stash with you when you leave, you should make arrangements with your bank for money transfers. Usually this twolves leaving yous pswbook with the bank, or opening up a joint account, or gluing power of attorney to someone you trust. It may also be worthwhile to transfer your account to a large international bank.

It's wise to have money sent well before you need it. It's well to have money sent well before you need it. It's well to have money sent well before you need it. It is very common to see people, especially inexperienced travelers in Europe, waiting for days in front of American Express offices for money that hasn't come in, sometimes even having to beg for cash. This should never be necessary. Although others may prefer cable, in my opinion the best way to have money and is in the form of several \$100 to \$500 international (not domestic) money orders, wrapped in opaque paper, and mailed as an ordinary letter. The money orders can be converted into travelers checks or local currency abroad. This is seaseful flyour money order is relately mail and is sent from a major bank with affiliate overness. Large foreign banks have files of the signatures of each other's officers, and you can get a list of your bank's affiliates. Just about any capital city in the world will have a branch of Bank of America, Citiahan, or Chase Manhatan, or have at least one foreign bank that acts as their agent shroad.

Even if your order is from a small hank, having it converted into travelers checks should pose no problem. When you know what the exchange rate will be, you can each the money order to your bank, and ask the bank to make the ewchange, at more favorable rate if puruble, and to send you the money in foreign currency. Personal checks, unless signed by a Rockefelter or a Rothschild, are virually worthers! Mall Assain! Michains 30 days to clear!

Some of the countries with the weakest currentles won's allow you to cash your money orders for dollar or even

Always ask if there are any exchange charges before ripping out and signing your checks. When there are percheck charges, change big ones or alternate exchanges with a friend. You should also check all arithmetic and count your change right as the window even if you keep people walting, because once you leave you may not get the account atted.

walting, because once you leave you may not get the account witted.

You can save up to 20 or 30 per cent on exchanges by keeping your eyes open and asking around. Once in Laticia, Colombia. I found out that street vendors were giving 6.5 Brazilian cruzeties per dollar. At the same time they were giving 25 Colombian peoss per dollar, and one cruzerior for 3.5 peoss. By exchanging dollars for pesos and then peoss for cruzelros, I go over? Cruzerios for each dollar, a saving of about 10 per cent. A few days later the street vendors closed the gap, but not before 1'd made a few weeks' spending money. The same maneuver in Ecuador netted me 61 pervisian solts per dollar instead of the direct rate of 50. At times when some travelers were getting 11 Argentinian peoso for each dollar, others go 16. And let me assure you that it feels mighty good to travel in a country where everything, besides being cheep to begin with, is also 50 per cent off.

BORDERS

Once you've obtained your visa, there's still the border to get through. Smaller border posts are usually, but not always, cheuper and easier. Here again the hassles are rare. Try to arrive during an official working day to avoid extra charges. Be courteous and friendly.

Never get uptat about a delay or search. You're much les likely to be searched if you don't seem to mind it. I've never had a body search on entry into a country, and women six searched even less often than men. With practice you'll learn when it's best to act smart and best to act stupid. Watch customs inspectors for sticky fingers. If you're asked for a gift, politely refuse, but never, never insult an official. It holds all the cards. At one border crossing a guard asked for money from a friend who knew he din't have to pay. He said he was a friend of the French ambassador, asked the guard's name, end headed to a phone. The guard capitulated. If you're underdeclaring currency, hide the excess. Count out the amount you're declaring to them loudly so they can't steal any. And don't lose any cards or papers they give you which you're supposed to present on exit.

You probably realize by now that bureaucratic regulations fall into two groups: the ones that exist mainly for the benefit of government bureaucrats and the upper classes; and those that really help the people. In't fut and challenging to get around the first kind, but don't volete the letter. People in most countries are oppressed by their bosses, their police, and their governments. They've got enough problems without adding you to the list.

LEGAL HASSLES

LEGAL HASSLES

Imagine what would happen in Iran II the package contained narcotics. If you're a dual national, find out what your obligations to the second country are before you arrive-unless you want to find yourself in the army. If you lose your passport, get a police report and then go strught to your consulate. If you are involved in a serious hastle with the law that may lawobe arrest, run, don't walk to your consulate, or, even better, to the nearest border. If you are arrested, insist politely on speaking with a consular official. If pays to keep in touch with your nearest consulate when you travel through disturbed areas. Read new-papers and ask questions to find out if the rebel forces are about to attack your town. Be on guard if the government is mounting a heavy propagands campaign against any group of which you are a member. One friend of mune almost got lynched by a Pakistant vigilante squad which had been led to believe that foreign hippies were responsible for all of Pakistant's problems.

Finally, if the people around you suddenly jump to attention at the sound of some martial music, get up yourself and try to look at lesst as solemn as everyone else In some countries, not showing the proper respect for the national anthem is a serious offense, especially if committed by a durty hippie.

Consulates of different nations have distinct polices or the United States providing a typical example According to a 1972 leafter entitled "Youth Travel Abruad," U.S. consulates can:

(1) request emergency assistance from foreign officials or benevolest emergency assistance from foreign officials.

- tequest emergency assistance from foreign officials or benevolent groups if you're destitute, sick, injured, or
- stranded;
 (2) get in touch with reletives or friends for funds and
- get in fouch with relatives of linends for funds and guidance; give suggestions for possible sources of financial assistance; visit Americans in trouble and provide the names of local attorneys or physicians; help locate missing Americans; aid in transfer to a safe area during civil unrest or natural identities.

- natural disaster; make sure you receive equal treatment under foreign laws.

They can't:

- (1) furnish cash or loan money if you're strande (2) cash personal checks; (3) arrange free medical arvice or legal advice; (4) provide bail or get you out of jail; (5) substitute for a travel agency.

Other official sources indicate that they can't inter-vene with officials, or interfere with local laws, nor can they request preferential treatment for a detained American un-less his physical or mental health requires it. They can apply to Washington for a repartisation loan, but it takes time, and the answer is often negative.

You can't best cargo planes for faxt, cheap travel. They fly over the world, into and out of all airports, but it's easiest to link up with one at a remote airstip rather than at a big-city terrelinal. There'll be no coffee. There's no first clean and no tourist clear, it's all skits of machinery and crates of goods. Be forewarned: in most of the Third World cargo planes and air safety have nothing to do with one another. You must treat to God, not your co-pilot... and when you know how to fly yourself there's rarely any co-pilot as all.

snother. You must trust to God, not your co-pilot ... and writes you know how to fly yourself them's rerely any co-pilot as all.

To cash in on this adventure, sak the captain at the surfield or go to the office of the earge company. There are sometimes laws against their taking passengers, but with a little taking you may convince them that rules are made to be broken. Schedules are uncertain, but once you have permission to go, you can keep calling the office and they'll tell you when to go to the sirport. If you are turned down at the office, don't hestiast to go down to the field. Sometimes you can get on free flights with the military, especially in Latin America, and especialty if you're a beautiful woman. (And sometimes you can provision rides on private planes—but no CHARTER FLIGHTS with much luggage!)

CHARTER FLIGHTY with wuch luggage!)

Be sure you're flying with a reporable company, or at east with a reputably unreputable one, since it is no fun to be atranded abroad when the authorities crack down. However, airline regulations change so frequently that it pays to one heck them out for younted when you buy a ticket. You so need to be considered the pay to be the world or from student travel organizations. The Asian-American Recreation Club, which has several offices in North America, can get you extremely cheap flights to Asia from cities on the West Cosst. Don't worty, this one really exists. You can also check ads in underground newspapers, ledds, Sri Lanka, Nepal, Singapore, and especially Thailand and Hong Kong. Prices are usually less than half the full fare.

fare. Frequently on notice boards in cheap hotels and restaurant a broad, you will see cut-rate air tickets for sale. These are issually the return legs of charter or excursion-light tickets. If they're not domestic, your passport will probably be checked against the name on the ticket. People have gotten around this by erasing the name with the readicator and replacing it with their own. The other alternative to to go to the airport with the seller, and have him check in and get the boarding pass. You then take the pass, give him his money, and bon voyage. If you're caught with the wrong name on the ticket, tell them absently that you took your friend's nicket insited of your own by mistake and just walk awey, ticket in hand. You are always taking a risk if you pay the seller before you get your boarding pass.

The ticket may be phony to begin with.

REGULARLY SCHEDULED COMMERCIAL AIRLINES

Prepare to shall can those his backs. There are, honever, some ways to our down on an attrevel coits. One is to fly with non-IAT A (International Air Transport Association) companies the lectandre, Air Bahamas, Korsen Airlines, or Aerocondor (Colombia). The IATA is the airlines international price-Baing organization, and companies not in the cartel compare by lowering fases insited of by offering champagne on economy class. Another way is to look for airlines that have youth or student fares, like Thai international. Other airlines offer special discounts to members of the clergy or the press. You can get these if you have a card from a dime-store church or a phony press sard, which you can buy on the black market in places like Bangkok or Stanbul. A friend got a 15 per cent discount on a flight in Paru with his Universal Life Church card.

There are occasionally government-run airlines with low fares, like Satena in Colombia. Often even IATA companies charge different prices for the same run because they use different types of airpaines; so look into flights on propello or jet-prop planes. Or you can fly on weekends or at night. Even the straight it areaf agencies can sometimes get you special prices, because some agents buy blocks of seas for reale at low coat. By going to just about every agent in Naurobi, a friend got an unbelievable price of \$150 on a flight to New Delbi with a stopover in Cairo. I guid almost smuch for a boat that took two weeks. At least I termed to play bridge.

Domestic flights are much cheaper than international ones, and sometimes it pays to go out of your way to fly domestically. For example, the cheapest may to fly to Colombia from Cotta Rice it to buy a flight to San Andres, a beautiful Colombia inden Cotta Rice is to buy a flight to San Andres, a beautiful Colombia inden Gray and consecute and attent onward stops that can be added to your tickes at little cost. Adding a stop in Panama Criy will increase the cost of a Miami-Costa Rice ticket by only a few dollars. Learn to use the

out of their way to help you save money or inform you of extra stopower privileges.

If you bagge is float or damaged, fill out the claim form and ask for money to cover immediate necessities like clothing and rolled gear. On international flights, lost luggage is generally covered for up to \$750 for checked begavith no hisbility for unchecked bags. Stick to your guns. If there's any problem, insits on speaking to the manager. Often asking the official's name, with the apparent intent to report him to his superiors, will scare him enough to give you what you deserve.

to report him to his superiors, will scare him enough to giv you what you descree.

Try not to buy a ticket in advance unless you have to or unless you are offered a special price for early pur-chase. It's usually better to stay flexible, and besides, buy-ing transportation within a country is usually cheeper than buying it abroed, especially in countries where you can buy tickate with black-market money. Gradually officials are becoming wise to this and insist that you buy with hard currencies or that you bring bank receipts showing that

*E.European Lines, especially "Lot" (Polish) & *OK" (Cmech) are cheap too:

Egypt. this rate is fowar than the preferential rate given to tourists. However, several people have been able to change sit or S20 at a benk, get the receipt, and then add a few true digits on their own to make it appear that they've changed much more.

A miscellaneous charges order (MCO) is a receipt for aum of money paid to an IATA airline. It looks like a toket, and can be used as cash on any IATA flight. It's also exister to cash in than a regular toket. It may be expedient at times to accept a refund in the form of an MCO ruther have in local currency.

Unless you're getting a special deal from a travel agent, it's wise to buy your ticket directly from the airline company, since doing so facilitates getting refunds when necessary. If you buy from a travel agent, or you may have to wire him for a refund. For easy refundability it's best to pay in cash or travelers checks.

Rules on refundability vary among airlines and countries. Some airlines give full refunds, others deduct a percentage. Teckets bought in some countries can be refunded only domestically, others anywhere. The purpose of these rules is to prevent capital from leaving a country in the form of airline tickets. Thus you'll be better off if you buy them with foreign exchange instead of local currency. If here's any question shout whether you'll use the ticket, buy it from a company that has a convenient office where you may want to get the refund. Big companies are threshoes not company regulations, and if you fall to get a refund at one office, you may succeed at another. Ask if the company gives refunds at any office or only at the office where you bought the ticket at a second office and then later refund the new ticket at this second office.

If you're wondering why I'm placing such emphasis on refundability, it is because many countries are now requiring that you by onweard aithine tickets before they will allow you into the country. If you don't know how to get a refund, you may get stuck with an expensive ticket you intent make acopy of

courteey of 'TPAVELING CHEAPLY'

Many of the problems I've experienced or heard about from other female travelers could have been avoided if we had only been willing to face the fact that women's lib simply hasn't made it to many parts of the world. In fact, the inhabitants of many countries, including the women, are neither ready to be nor want to be "fiberated." You'll find that the norms for women's dress and behavior are vastly different in these areas than they are where you live, especially in strict Moslem and Cetholic countries. It's a good idea to take a look around when you first arrive in a new country and observe how local women dress. If, as in Algeria, you see women shrouded from head to toe in white bone, with only a single timy apersure in the fabric where there ought to be a face, then it's unquestionably time to dig the more conservative rags out of your pack. To walk the steects in such places with bare legs or unbridled into it invite trouble. Besides, your dressing that way is actually rather cruel to the male residents, because you're installing them yet a low have no intention of letting them get a little goods. Therefore the safest and most considerate thing to do is dress modestly. You needn't don's well, but it's wise to use some discretion.

MEETING THE PEOPLE

You'll also meet more people if you pay a hitle attention to your appearance. If you're long haired and grubby, you bie in a different world. You're viewed with suspicion by border guards, which makes it harder to get into countries. You may need to show money or an onward ticket where someone less freaky-looking wouldn't. It is harder to hitchhike. Locals, even those who aren't hostile, may look at you more as an object of curlosity than as a human being. Your appearance can make the difference between walking down the street and being greated with smiles, or seeing frowns and hearing insults and laughs, between being hassled by cops to being feet. Is it worth it?

Remember, it is not your country, and you are always a guest. It is one thing to my to change your own so ciety, another to violate foreign mores that have existed for centuries. Of course, you shouldn't be judged by how your look, but the reality is that you are. Looking freaky, you'll attract other freaks, and if you want to do this, maybe you'd be better off on Telegraph Avenue in Berkeley. Hopefully other travelers, whose companionship you can have with discretion, will not judge you too harthly if you liave short heir. Unfortunately, you can not pick and choose with police and border officials. You've come thou sands of miles to meet foreigners. Do you want to blow it just to prove a point? Besides, long haif is a hassle, especially on the road.

Visas, Borders, & Legal Hassles

Visas are siamps put into your passport by officials of foreign governments. You need them to enter most countries, but they do not guarantee entry; they merely indicate that your passport is registered with the proper officials. The requirements you need to get a visa depend on the country, the type of visa you want, your nationality, where you get the visa, and what kind of mood the officials in in when you apply. You can also get a copy of the Travel Information Manual, which has up-to-date information on visa, passport, and custom's regulations.

Cenerally you'll be dealing with tourist visas. These can be valid for one or more entire; if you think you'll be going to a country more than once, sak for a multiple-entry visa. In any case, find out the cost of all the different visas you're eligible for. Sometimes you may get pennission to work thrown in at a small additional charge, but most countries are adamant about your not working. All visas have an expiristion date before which you must enter the country. These ordinarily range from three months to four years. There's also a maximum allowable stay, ordinarily one to six months. Ask for the longest you can get, and how and where extensions can be obtained. When you get the visa-sometimes after a three-day wait during which your passport sits unfouched on some bureaucral's desk-verify all the information in it, especially if it's written in a lenguage you don't understand. Two Dutch guys who got their Algerian reas in Morocco thought they were getting one good for a stay of four weeks. It was only when they arrived at the border that they noticed it was good for plust four days. Ask also about exit visas. These are fairly uncommon, required only if you've spent a lot of time in a country, but if you need one, and don't takes a long time to process, ask if there's a charge for fast service. They'll know just what you meen. Often telling the officials you'll be beaving the next day halps.

When they're not firee, visas will usually cost only a few dolfars. I

mens. Often telling the officials you'll be leaving the next day halps.

When they're not firet, visas will usually cost only a few dollars. If you need to get tome expensive visas, try to pick them up to countries where you're scored on the black market. Wherever you get your visa, often you'll need photopraphs, from one to six. Of course there will be ridiculous forms to fill out. If they ask you to name a hotel, make up a name if you don't know me. Bureaucrats are hortfield by blank lines. Putting down a rizzy hotel may facilitate maiters, and they'll never check up on whether you stay thers. If you have friends living in the country you're golden, but be prepared to write down or make up their addresses. For occupation "Itudent" is fine, as is "taletyperson." Never just down something like "revolutionary," even in a guest book at a museum. One guy it met who did so in Gustemala

spent six weeks in jail as a result. Journalists are also considered undestrables by repressive regimes.

An increasing number of countries are attempting to screen out undestrables by imposing financial requirements, such as having you show \$5.00 per month of visa validaty. If you never let your funds get tool low, this should be no problem at all. Otherwise a major credit card, a letter of credit may fool the officials, especially if you letter for credit may fool the officials, especially if you look prosperous. For greate firepower, one traveler recommends that, before you leave, you bortow some money and open up a beely savings account. Report your passbook and get a new one. Then close the account. You've now got a passbook with lots of zeros in it and this never fails to fimpress. Or sitch a few of your friend's checks in your track, or simply borrow some money to show the officials. But all these are cheap tricks. For real class, buy one check in lapaness yen. It will look much like dollar checks, and since there are a few hunded yen to the dollar, your bundle, and watch the officials' eyes pop when they see what they think is a check for \$5,000 that you ostensibly keep for "infort contingencies." Yes, sir, anything else, sirl if they notice the check is in yen, so what?

ONWARD TICKETS

ONWARD TICKETS

ONWARD TICKETS

By far the biggest harste of all is the onward ticket. Some countries will not grant you a visa unless you have an onward ticket as evidence that you're a respectable traveler who has already purchased transportation out of the country and therefore won't wind up broke and begging on some street comer. Sometimes onward tickets are required for visas and not demanded at the border; if so, you simply buy the ticket and cash it in as soon as you get the visa. Having a credit card will save you the trouble of laying out cash. If they want to see the ticket at the border, you can sometimes eash it once you are inside, but more likely you'll have to wait until you've left the country. Buy your ticket from an IATA carrier with a convenient refund office in the next country you plan to visit.

Sometimes you can cash in your ticket within the country by going to the immigration office with the driver of a vehicle who says he'll take you out. I did this once in Costa Rica. Another time upon entry I waited until a foreigner drove up to the border and asked him to take me in. I've never seen border guards put a stamp in the driver's passport requiring him to take a rider along when he leave. A friend bought a cheap bus ticket out of Costa Rica to ballowed entry. When he went to cash it in, he was told he couldn't get a refund until he had purchased another means out of the country. So he bought a plane ticket to Panama, cashed in the bus ticket, and then cashed in the plane ticket when he arrived in Panama. The same person successfully used a plane ticket to The Panama cashed in the bus ticket, and then cashed in the plane ticket when he arrived in Panama. The same person successfully used a plane ticket to a do for comprise.

More and more often, though, such a low-clear mode of transportation as a bus or ship will not suffice for increasingly snobby officials. You must travel by plane. This

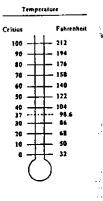

should stiff not piesent too great a problem. Sometimes you can talk your way out of the requirement by showing a lot of money, any of your letters from judges or police, or a phony or real letter from a friend in the country. To do the your must deal with the head of the office; any lesser official will run you around. If you're refused, you can come back later and try to deal with someone more reasonable. Or you can try another consulate. When I got my indonestan visa in Pinang, Malaysia, an conward ticket was required, but in Singapore, only one day's hitch away, it was the consulate of the property of the consulate of the singapore, only one day's hitch away, it was the consulate of the con

sibe. Or you can try another consulate. When I got my indonestan visa in Pinning, Maleysis, an conward ticket was required, but in Singapore, only one day's hitch away, it wasn't.

A bribe may be your last resort. When you offer a hibe, try not to be too cloak and dager about it. Just ask how much the fine it, or if there's any way to arrange faster service ... whichever applies. Usually officials regard bribery as a normal part of doing business. The bribe need not be large; a few dollars will suffice. Don't be afraid to bargin, Some travel books recommend that you offer a bribe whenever you're hassled, or whenever some clerk or petty official is not giving you the service by over entitled to. I think this is a big mistake, because it encourages people to mistreat travelers. Of course, a tip to an honest official, for service beyond the call of duty, is apprecisted and legitimate. If all the above tricks fail, you've still got several options. If you sarrive by air in a country where you can get your visa at the airport, don't buy your ticket out until absolutely necessary. Or suppose you're traveling through cotta Rica, Panama, and Colombia, there countries that all required onward tickets at the whim of the border guard. Before you arrive in Cotta Rica, find a country that charges no ticket tax and buy a San Jose/Panama City/Medellin/Panama City ticket, which will get you into all the countries near cities in the country you want to appear on the ticket, will foot the officials, if not affine clerks. You simply write in the names of the cities in other countries near cities in the country you want to appear on the ticket. For more safety, you can always use an MCO big enough to actually serve as a tickel out of . Often a \$5 miscellaneous charges order, because it looks like a ticket, will foot the officials, if not affine clerks. You simply write in the names of the cities you want to appear on the ticket. For more safety, you can always use an MCO big enough to actually serve as a tickel out; on this, you'r

If you find it impossible to reason with visa officials, you may be able to pay a travel agent a few dollars to make you up a ticket. He will probably ask you to leave a deposit to that you can't wisk out with the ticket and then setting the ticket for a few days in either of these, especially in strong sunlight, the "nonrefundable" stamp will come off, leaving the rest of the ticket more or less intact. If this doesn't work, try ink endicator. If the ticket is messed up, you can later tell the refund agent that you fell out of a boat with the ticket in your pocket, or that your waller felt in a tode while you were squatting.

If the link is noneradicable, once is the country try all the company offices you can find for a refund. Maybe you can buy a cheep ticket you really plan to use. Also, "nonrefundable" does not mean nontransferable; you can exchange the ticket for a domestic flight you want to take. One American I met had to buy a nonrefundable ticket out of Indonesia to get his visa. He chose the cheapest, from Medan in Sumstra to Pianng. After arrival in Indonesia, he exchanged the ticket for one from Bait to Sulawesi (both within Indonesia) which cost about the same. The first two times the tried this, the clerk stamped "nonrefundable" on the new ticket. Each time this happened, the American uddenly "changed to mind" at the last musture and walked out with his old ticket. When at less the third clerk forgot to use the stamp, he accepted the new ticket and refunded il later at another office. If he had known about ink cradicator, his problem would have been much simpler. And sometimes even a ticket stamped "nonrefundable" can be eashed in, once you've left the country, if you mail or bring it to the company's head office.

To get the most out of their trips, many travelers take cameras. I'm not a shutterbug myself; so I asked a professional photographer and got the following advice.

If your camera is an expensive one manufactured abroad, registers it wish your customs suthorities before you leave. This can usually be done at an airport. Because of a ray detection devices which may damage flim, keep your film and loaded camera in hand when boarding planes, asking if they can be exempted from the x-ray check. Keep the camera well padded, compartmentalizing the various pieces of equipment if possible. You'll probably get good results with black and-white film developed abroad, but it's best to sand color film back home to be processed. In any case, color film should be developed as soon after exposure as possible. Many discount stores offer name-brand film

you must, leave a cash security. A passport is a lot of collateral for a room.

In some countries, notably Colombia and Afghanistan, robbery has beer, developed into an art form. People grab your eyeigness and even earning as you walk by, or else steal your watch from your wrist when your bus is stopped at a red light. If the watch for only nour inside wrist, they jab a pin into the outer one. Your natural reaction is then to reach over and grab at the wound with your inside hand, whereupon they match the watch from it. At post offices clerks will occasionally steal the stamp right off your letter if you don't watch them cancel it. The best way to travel with a clear head in such places is not to have anything worth stealing.

Fortunately, soberies by force are extremely rare smong young travelers. This was sensibly concentrate their

worth stelling. Fortunately, robberies by force are extremely rare smong young travelers. Thieves sensibly concentrate their efforts on older people, who are likely to have more worth stelling and who put up learn stessatione. If someone tries to hold you up, don't forget you can always turn and run. Few muggers will run after a fleeing victim, especially if he's yelling. Besides, as one friend says, you can run faster scared than they can mad.

Think twice before deciding to stand and fight. Even if the thief doesn't have a weapon, he may have a friend nearby who does. As compared with running, you've got a lot to lose and nothing to gain from fighting, unless your self-respect hinges on your "toughness." For times when fighting is necessary and you don't know anything about self-defence, one paranoid character I met in Yugodavis had everaf fascinting aricks. One was an earplitting whistle which would scare away the devil himself. Another was a pocket filled with salt, which he planned to throw some-day into an issallant's face. His best was a cigarette lighter and a squeeze bottle filled with gastoline. Of course, you can extra ye haffe or a gan or even a Basocha, but if you keep your head, such ridiculous measures should never be necessary.

If you ever do get ripped off, it may be best to report

can carry a smile or a gard to seven a successful to report the epotent hand, such rideculous measures should never be necessary.

If you ever do get ripped off, it may be best to report the matter to the police. Even if their lawestigation is non-existent or totally worthless, as it usually is, they'll give you an official theft report which is valuable in itself. Once my pack was stolen near Lake Titicaca in Peru when I put it down to help push a stalled stuck. Stupidly I had left my travelers checks and a plane ticket in the pack. Although the cops did nothing, the paper they gave me was good for free rides with sympathet the bus drivers until I got to Lima for a refund on my checks. The report also helped me connect the Colombian counsul to waite the normal Colombian onward-ticket requirement in my case.

The handle of a bed robbery may be reduced if you carry a large bill or travelencheck, in addition to those in your money belt, hidden somewhere on your body. Two favorits spott are on the inides sole of a thoe or seem into a part leg. You can also make copies of important papers you receive or notes you make and swed them hores.

A robbery is not the end of the world. Look on the bright side. After I lost my pack in Faru, I decided to find out just bow light I could travel; so I bought a toothbrush and an extra pair of socks that I could stuff into my pocket

with prepaid-processing mailer envelopes at a reasonable cost, certainly less than what you'd pay if you dealt with the camera shop. But these mailers may be lost or stolen. You can also work out an arrangement with a friend, wholl probably be to delighted to get the first look at your pietures hell pay for the developing himself. When you mail film home, labet the container "Caution! Undeveloped film of U.S. manufacture!" Always store film in a cool place. If Japan, Hong Kong, ot Singapore is not one of your first stops, bring pienty of film with you when you leave, because it is expensive almost everywhere else.

If you are going to buy a camera, get one as light and compact as possible. For those who aren't attified with a context in the stop of the pooker linstanatio or a tipy spy-type camera, a small 35-me camera is recommended. If you're going straight to the Orient, it may pay to buy it when you arrive. Otherwise learn to use your camera before you leave. If you bring only one lens, the 50-mm type is probably best, along with a poliating fister, which will not only protect the lens, but also our glace and blueness and increase color saturation. Take lens-cleaning tissue and height, of probably best, along with a poliating fister, which will not only protect the lens, but also our glace and blueness and increase color saturation. Take lens-cleaning tissue and neglid, the guaranter, and the manual. If you want to take night or indoor photos, you should bring fast film or an electronic flath unit.

In very hound areas, keep the camera sealed tightly, and pack it with shea gel or hygroscopic crystals, perhaps wrapping everything in plastuc. In an emergency you can substitute uncooked rice, hextremely cold weather (below of F) your camera will slow down. Your shutter synchronization may be off as well as the speed, but the problem cam be eliminated with special lubricants. Check this at your camera shop, and ask for a list of authorized dealers oversex.

overteat. In throng tropical light, you'll find that the best pic-tures are taken either in the shade or else early or late in the day. If your camera has a light meter, take the reading clow to the subject so that the meter won't be fooled by strong background light. Finally, don't take pictures of the locals if it bothers them.

Unless you're doing some trekking sbove 12,000 feet or so, you won't have to worry about the serious aspects of acute mountain sickness. Milder symptoms you may experience include headache, fatigue, rapid heart rate, insomnia, loss of appetite, and occasional nauses. At high altitudes, if you sat lightly but well, drink plenty of water, and don't exert yountail too much for the first few days, you should be mo problem. Sit down and breathe deeply if you feel dizzy. If you are at all weak drink even more liquids and avoid alcohol. Vitanin E taken with meals or allocose candy may also help. If you're tired or sick, you're more likely to have problems.

candy may also help. If you're then or wonder, it is the unlikely event that you experience a pertisient cough, severe failgue, and a pulse rate over a hundred even when you are at rest, more to a lower altitude until things improve. Acclimation will be retained for around a month after you return to lower altitude; so goin up and down is not a problem after the first bout.

and continued with no pack at all for the three freest, and uncomplicated months I ever spent. It really is true that the less you have, the less you can lose.

JOBS WITH LOCAL COLOR

JOBS WITH LOCAL COLOR

The jobs that pay the most are generally located in the developed countries. Methods of finding work in these places are much the same as at home, although normally you're freed with the additional problem of avoiding the law. On the road you'll meet plenty of Australians, Americans, New Zealanders, Canadians, Ispansee, and Europeans who'll tell you not only how to get work in their countries, but also how to stay ahead of the authorities while doing to, Japan epectally is beging for English teachers. If you plan to work in any of these places, It might just pay to visit their embassy in your home country, since you may be able to work there legally. If you're an American and go to an Australian embassy in Chile, they'll probably tell you to apply from the Sistes or Canada. At least, that's what happened to me. Those with special to'lls may want to bring recommendations or other proof of their telent abroad with them. University graduates can bring a copy of their diploms. This chapter is directed mainly to the more essual job escler who wants to find work after he's left home. Others should see the excellent How To Travel and Get Paid for It, by Norman D. should see the excellent Now to Travel and Let Paid for II. by Norman D. Ford (Greenlawn, N.Y.: Harian Publishing, 1970). The major focus of this book is on the less-developed countries, and this chapter is no exception. The pay may be lower, but the work is unailly more interesting in these countries. Best of all, most jobs can be ploked up on the spot. Usually you'll get so-called "black" jobs that the authorities don't know about. When you enter a country you'd like to work in, don't say anything at the border about griting a job. Even if it's legal, the guard may have a brother-in-law out of work and be resentful that some for-eight is joing to walk in and take his job. Sometimes your may he able to get a promise of employment from a firm you have no desire to work for just to facilitate getting your permit. But beware of comparise that tell you they'll arrange your papers and then keep stalling. If you get fired or quit, you may find yourself in the country libegally and in trouble. This has happened to more than a few people. One of the best jobs is writing tot any of the foreign-language new spapers housed in most countries. The wages may be low, but there are many fringe benefits. I worked five months on the Froo Threes in Costa Rute for a superle editor who tought me a great deal about writing—or at least the tried. I traveled all over the country writing articles about little towns, and when it was in the capital, I reviewed a different restaurant every night at the paper's expense. Lan't imagine a quester way to learn about a country.

You can slic write free-larke. Doing so usually works out if you set up a market with newspapers or magazines before you leave, and have someone at home to forward assignments to you. You can sell photographs to greeting-card companies and to magazinest. They especially like demands card companies and to magazinest. They especially like demands:

How to Avoid Ripoffs

How to Avoid Ripoffs

In almost every ripoff, the victim's lament is that he left his stuff unparded for just a few minutes. By keeping your yees open and staying away from heardy touristed areas where robbers ham out, you'll uniomatically avoid 39 per cent of all ripoffs. When you are in such areas, be especially on guard. Looking poor will not only make you a less desirable target, but you'll find that you get along a lot better with the common people of other countries who might otherwise covert your possassions. If you follow this advice, you may still get ripped off, no amount of presaution is an absolute guarantee. But at least if you are besten you'll have the consolation of knowing that it wasn't because of your own stupidity.

Never flash money or leave things sticking out of your back pocket, especially in crowds. Keep the majority of your cash in your money belt, so that when you pull money out of your pocket to pay a bill, you won't attract all the thieves in a hundred mite radius. Some people recommend wearing a chest pouch suspended by a langard stround your neck for carrying-cash and other valuables, but in my opinion such things are much too obvious. Compared with a hidden money belt, they scream an invitation to ripoff artists, and can easily be natched nght off your chest.

Be careful with both purses and wallets. Wallets invitigiblyockets, and purses can be slushed or sustiched. One women in India had her cloth purse sift by a robber in a market. She dan't notice until half an hour later. Carry a purse with the fatch next to your body, and keep it in front of you, not behind your back. Articles in unlatched purses use easily replaced off. A treaturant bonish, don't throw your handbag over the backrett. For seen two women and a man lose all the contents of their bags that way.

Carry your cash in front pockets only, preferably in ones with maps. Alternatively, you can jum a tock in above your cash to foll pickpockets.

Before buying anything, ask the price in advance, and also whether the lite

Neither should you leave your pack unguarded near a window. Sometimes people reach in end grab items when the whiche is stopped. If iterally lost my thirt on a train in Sumaira when a their ammed with a long hook reached through a window eight feet off the ground to snatch it Watch out also for sticky, hingered train vendors. On ships, If you're traveling deck class, ask a cabin passenger if you can leave your stuff with him. In terminals you can safety heave your pack in the left-luggage room. Be extra careful at airports. At these you must watch your pack constantly. When you nde in taxis, don't get out indess the driver is working a traveling to the control of the store to check before getting in this the metal is working. If you have your own which, it yo leave it in a guarded area. Within two days of arriving in Ball, I heard one guy saying that he'd had three different bicycles stolen for a total loss of \$135. Another guy had the battery of his motorcycle stolen while he was at a restaurant, it cost him \$25 to replace it.

Another great ripoff zone is the beach. If you can't leave once helmenous in your zoom, six a nearby thop-

Another great ripoff zone is the beach. If you can't leave your belongings in your room, ask a nearby shop-keeper if you can leave them with him. You can offer a little money, but he'll rarely take any, especially if you're a client. Make sure he puts it in a safe place, and be back before closing time. But first be rure that he is indeed the owner, one woman was readily granted permission to leave her pack by a customer who proceeded to walk off with it. If you do bring your stuff to a beach, leave it with a group of bathers when you go into the water, Even a tent is no protection on the beach. On Phuket, an island off the cost of Thisland, some Australians had their tent ult and their packs removed by an exceptionally quiet thief while they slept. The solution would have been to put the packs in the center of the tent or to leave a string from each pack resting under their sleeping bodies. If they had used day packa, they could have gone to any of the dozent of even pietther tislands nearby that sten't mentioned in all the guidebooks and hence are not packed with toursts and those who prey on them.

and hence are not packed with tourists and those who prey on them.

Robberies from hotel rooms occur very infrequently. To avoid these, you can leave valuables in hotel safes, being sure to get a receipt. When you later reclaim them, watch out for sleazy types who hang around in hotel lobbies. Watch out also when the staff comes to clean your room. To prevent temptation, don't leave your camera or money belt it sying around. You can specifically request that no one enter when you're not in. If you do want to leave your passport and money inside your room, it's a good idea to tape them to the underside of a drawer. For extra protection, bring along a small combination lock for door latches. You can also use it to lock your pack to the racks of buses and trains.

Be wary of giving your passport to a hotel proprietor to keep. If it's lost of stolen, he can only apologize or perhaps give you money, but that is no aubstitute for loss of freedom. If he doesn't have a good sief, it him copy any information he wants, and pay in advance if required, if

THE IMPORT-EXPORT BUSINESS

THE IMPORT-EXPORT BUSINESS

Even more money can be made by shipping goods home. As you'll see soon enough, foreign handicrafts which are ridiculously expensive in developed countries sell abroad for a song. You'll be in competition with established whole-sale and retail operations, which buy cheaply and in quantity from manufacturers; so it's best to ge't individually handmade items that the big stores don't carry. You can sell them to shops, to acquaintances, at handicrafts fairs, or on the street. To do this successfulby, you'll need good isste, which I lack completely. But don't worry; you'll find no shortage of bargains, or of prospective purchasers with bud laste. You'll need fozens of peuple on the road who are managing to travel indefinitely by buying and selling (or having friends sell) such items as rings, necklaces, and sarongs. Sometimes you can send samples to shops and then, if they like them, proceed to ship in quantity. Don't expect a shop to front you money, though, unless it's owned by your uncle.

The best items to purchase are those that aren't fragile, and whose value is high in relation to weight and hence to shipping charges. Usually it's more convenient and cheaper to ship by ordinary mail. Check shipping times and prices of both air and sea freight.

If you package is very fragile or salvable, it may sometimes pay to send it via a private carrier. A good choice would be the freight office of a major atiline, preferably one with an office near the recipient. But beware of unreputable companies. One woman in Spain shipped home and made it sound like it was part of Spain's national air-ine. Actually it wann't -and her shipment never arrived. The Spanish embassy admitted that other people had complained about the same company, but there was nothing the officials could do.

One trick for jetting all sorts of things from car repairs to free accommodations and meals abroad descrees special mention. A carny Frenchman used it all over the Near East. He'd just go to a newspaper and offer to write a story about his travels, which were always interesting, in ruturn for a letter from the paper saying he was going to write the story. Then he'd go to repair shops, hotels, and restaurants saking if they wanted to have some cheap adverting. Cost: one repair, sight's sleep, or fire meal. He'd then write his story, including the name of the lucky proprietor, to whom he was offering what actually amounted to a good bargain. Everyone was satisfied: the proprietor, the paper, and, most of all, the Frenchman. They'd even send a copy of the papers to his home in France!

Jobs in cultural centers or teaching in international schools can be found locally. There are many jobs available as tutors, especially for those who speak a foreign language. It wents that everyone wants to learn English. A friend in Argentina was making over \$100 a week teaching English to members of the science faculty of a major university. He simply walked into the department office and offered his services. People also want to know how to play musical instruments and to do arrows. If you're a musical or arisist, you can tutor privately or ask for jobs at institutes. You can work in bars and cafes, or on the street.

Those of us who aren't swimming in big bills can find dot who may need a translator and then knock on a few doors. Sometimes you can fut up the poor translations you often see on menus and at travel agencies. I charged one Thal tour operator \$28, the cost of a tour, to doctor the English on one of his brochures. The job took half an hour. I just said that a good translation would make his operation bought a tour as a result, he'd break even. Hotels, publishing houses,

eral refusals, you know you've done just about as well as you can. Then you can return to the dealer you liked the most to buy the product. Unlike shops in cites, those at sirports and borders offer few bargains (other than liquor and cigaretes) because there is no competition. Avoid them. Watch our for a vendor who asks you what you paid for something and then teils you be'd have charged you half, after which, having convinced you he's a fair dealer, he proceeds to rip you off on other terms. First find out if his product and the one you already bought are indeed Identical. If they are, try to return yours and then hold the vendor to this word.

Many people say that bargaining opportunities are best in the morning before the vendors get tired and grumpy. In my experience this rule inth' teilable. If a guy has had a slow day, he'll really want to sell something, and you find your best bargains when you want to buy less than he wants to sell. Sometimes you'll do best by coming back several times during the day.

Hagging aggrestively will save you a lot of cash. Time and again I've seen people pay two or even three times the price that better bargainers have puid. If you master the material in this chapter, you'll easily save the cost of the book. But remember that haggling is a game. It doesn't pay to get upset or unfernedly, the wendor will give you a better deal if he likes you. If he's not bury, he'll be happy to shoot the breeze with you; to skoot the prese of life of it slower and easier than it is at home. As much as haggling is a game, It's on art. It should always be a pleasant reasting.

If you really want to meet the common people and gan row insights, the institut, you must have a reasonable understanding of their lenguage. If you want to read then newspapers, enjoy their literature, or join clubs to karn jumple survival, first aid, crafts, or mountaineering, you generally can't depend on your native tongte.

Staying Healthy

You've got to respect the diseases in underdeveloped countries. These, much more than anaker, sherks, and knife-wielding Bedoulns, are the real dangers abroad. Happily, there are ways to prevent and cure just about every disease you may come up against, and it's the very rare (and unastly ignorant) traveler who has any real problems.

In general, medical care in foreign countries is less available and of lower quality than what you're used to at home. Just as you shouldn't drive a car abroad if you don't know any thing shout basic repairs, so you shouldn't travel if you don't know any thing about first aid. In fact, all human beings should know a little about medicine whether they stavel or not.

If you've got a simple problem like athlete's feet or ringworm, you can go to a druggist for advice. By this I mean a licensed pharmacist and not an employee who's better left to tell you about shades of lipatick. But if you've got a serious ailment, head traight for a doctor, preferably one who's been educated in a developed country and not at the local butcher shop. I've seen simple foot infections turn into candidates for the knife for want of medical care. I've alto seen knife happy doctors prepared to operate for what turned out to be a mild case of burnits that we relieved by a few pils.

Travelers can find doctors by asking among resident
foreigners and at embassies, military bases, classy hotels,
hospitals, and clinics. Medical case is often free and is almays cheap. In Costa Rues, for example, 150 tan x-ray

The best way to treat bad water is to let the visible junk, if any settle out and the bool the water for ten munities. This kills ewerything. Shaling the bottled water not pouring it back and forth between two clean containers will serate it and thus improve the taste. Chottine pills are slightly less effective and may be subject to spoiltage. Recent studies have shown that the potency of chlorine pills is reduced by half if they are exposed for a day to temperatures above 100° F. In addition, their shelf life is two years—and nobody knows how long the pills you buy have been sitting on a shelf.

The more effective rubstitute is indine in pills (follow the directions) or dissolved and sold as ordinary tincture of indine. The lincture, long used as an antiseptic, is available afmost everywhere and is much cheaper than the pills. Use eight drops per quart of clear water or 16 if the water is cloudy, and want half an hour before drinking the maxture. You'll probably like the tast better if you add a few drops of lemon juice. There are about 450 drops in an ounce; so a laff-ounce bottle is enough to purify about thirty quarts of water. If you carry lodine in a plastic bottle, the bottle will turn yellow, but this is no problem. Just be sure the cap docean't come off inside your pack.

For general purposes, in addition to aspirtn and bandages, you may wish to have a small amount of cotion gauge and adhesive tape, water purification tablets or tincture of todine, and an antacid, In malarial seasy ou'll need insect repellent or mosquito coffs and antimalarial tablets. If you haven't brought Cutter repellent, you should try to find a preparation that:

antimalarial tablets should contain a chloroquine salt, usually chloroquine phosphate. This is sold abroad under a multitude of trade names, but you'll usually get the best price if you simply ask at a pharmacy for chloroquine. Tablets are available in dosages of either 250 or 500 milligrams. Any region in the tropics should be assumed to be malarial unless you have reliable info.mention to the control of th

Inoculations provide protection against many of the worst diseases. To prevent getting jubbed with a rusty needle at a foreign sirport, properly enter all your shots in your yellow intermational vaccination certificate. The shots you'll need depend on your trawl plans, your doctor or public health center can advise you on what to get. It's not a good idea to pump your body with vaccines you don't need. If you're traweling with children, get special medical advice. In addition, the Trawel Information Manual has information on local inoculation requirements and also on currently infected areas.

RABID ANIMALE Beware of rabid dogs. Unlike healthy ones, which bark and run, rabid dogs often show no fear. Pick up a stick if you see a dog acting ratey and avoid him completely. If you are bitten, especially for no apparent cause, try to capture the dog alive and keep it for ten days. If the dog dies, you can assume it was rabid; and you should then seek treatment immediately. There is a way of testing the dog's brain to see if it was rabid, but I personally would get the treatment on matter what the results of the test, unless it was done in a developed country by a technician that laspited my utmost confidence. You don't screw around with rabies. Once the symptoms appear, death is all but certain.

I've tred all the above modes of transportation, and for me hitching is the best. By sticking out your thumb, you magically transform the world into one consisting exclusively of those who are willing to go out of their way to help other people. Drivers will take you to interesting fittle towns and toadside restaurants full of local color and down home cook-

roadside restawants full of local color and down home cooking.

Hitchhiking abroad is generally bosh essy and legal.

Often you can cover much more ground in a day and in greater comfort than you would by taking buses or frains.

Because you haven't laid out any money, you're more likely to get out of interesting places you otherwise would have missed, places few travelers ever see.

Unlike at home, the thumb sign is not universal or foreign highways. In fact, if a crually considered obscere in some areas. More often you use the paim "stop" signal or simply wave the car down. You must ask in each location for the most reliable method, but when in doubt the last it probably the best. It's wise to wear light-colored clothes, especially at night when hitching is difficult; to avoid sunglasses, which prevent you from cushlishing eye contact with the drivers; and to look as straight as possible. If you have too much luggage, it's hard to hitch. With no bags.

Of course, sometimes even a healthy dog will bite if provoked. If you think this is the case, check back later to see how the dog is. If you're bitten by a normally peacefu animal like a squirrel, you should be very suspicious. If I were bitten and couldn't catch the animal, it would get the rables treatment. Dr. Sigmond concurs with this judgment. The treatment consists of fourteen painful shots in the stomach. If you feel you need them, get to a competent foctor right away. One woman who got the series in Indonesia developed an infection after the tenth shot. To get better treatment, she wisely flew to Singapore and started the series all over again.

-courteey of 'TRAVELING CHEAPLY' by Rick Berg

maybe you're a burn. With one, you're a traveler. With two or more, you're a pain in the sea.

On the highway the best places to stand are those where the traffic is relatively slow and where the drivers can see you well before they reach you. The intersection of an entrance ramp and a highway is an ideal spot, sance you get both sets of traffic and there's plenty of room for cars to pull over. In cities you can hitch at red lights or at gas stettom?

cars to pull over. In cities you can histo at red lights or at gas statours. Mixed couples make ideal hisching companions, since they get index from people who would be afraid of picking up two gays.

Even in rural areas, it's often best not to histo on the highway. Gas stations, rest stops, roadade restaurants, and police checkpoints provide excellent historing opportunities. Two people can spit up, with one on the road and the other siking driven who have stopped at these places. Such places also afford shelter from the rain, and frequently you can eat or sleep at them. They're especially good at night, when it's hard for drivers to see you unless you're at a spot wherein to see you unless you're at a spot of where to said; in it. Propretors and police will often help you get a ride; so it's wise to stay on their good use. If crowds gather, it's best to move on.

There are a few other places where hitching is especially good, such as at borders and ferry landings.

It helps to have a sign indicating your destination, aspecially if you're near a complicated crossroads. Keep it local, as people are often relaction to commit themselves to a thousand-nike drive with a strenger. Once you're inside the vehicle and have established mutual confidence with the driver, you can talk about faither destinations. Where there can be no moretisatry in drivers' minds about which way you're going, your sign need not mention a destination at all. I've had success hitching east with a sign that said west. When drivers stopped to tell me I was on the wrong side of the road, I feighted confusion and they usually picked me up.

that said west. When drivens stopped to tell me I was on the wrong side of the road, I feigned confusion and they usually picked me up.

The age should, of course, be in the native language; so you must learn the names of foreign cities as they are pronounced and written locally. There are stories about people gening to Vismas that let their drivers tip right through Wien, and that intimed Florence because they didn't recognite Firence. Many travelers have hed great huck with signs awing; simply "please."

Hisching in the Third World is much safer than in the major developed countries, not no driving safery, but in the lower frequency of driver hassles. Nevertheless, you should give the driver a quick scan before getting into the car.

Remember that you're out obligated to accept a ride.

Many times licence places indicate the city or province a car is from end to which it may be going. Checking the plates will also help your track the driver down if he takes off with your pack.

Generally you shouldn't have to pay for a ride, but some unmarked cars are taxis, so you should ask the driver if you're wrisnes. Aho, in some poor countries track drivers if you're wrisnes. Aho, in some poor countries track drivers if you're wrisnes. Aho, in some poor countries track drivers in the driver make extra money by picking up riders. The charge is usually wrisn, much cheeper them that for public transportation, and the driver probably asseds the money.

Once inside you shouldn't pass up the opportunity to talk with the driver. He's done you a fevor, and it's impolite just to drop off to sleep. Often he'll tell you he's going only a hitle way, but then he'll take you to his read destination farther along if he decides he likes you. He feels better for having helped, and you feel good too. Your behavior as a pessenger may determine whether he'll pick up the next hitchilder; so you we'll to the rest of us to be friendly.

The driver is also a goldmane of information, not only about where to get off, but also shout his country. He may take you to hereevering pleases or buy you lonch. People like to pick up foreigner, and, believe me, a Moroccan doesn't need to see a Canadian flag on your pack to tell you're a foreigner.

to pick up foreigners, and, believe me, a Moroccus operaneed to see a Canadian flag on your pack to tell you're a
foreigner.

If you're let offf in a small town, ask the driver to take
you to the other side. In cities not ringed by beltenys,
you'll have to decide whether to get off on the near side or
in the center. If you choose the latter, you may have to
take public transportation to get to the other side. Often
the drives knows how much through traffic there is and can
advise you. Arriving at cities during the night, you may
want to get off to sleep in a friendly gas station to restaurant. When trucks pull off for the night at these places, they
usually will knew very early the next day. Fee alege alongused trucks to prevent the drivers from forgetting me in the
temperature usually drops about three degrees Fahrenhert
for every thousand feet of allitude, which may influence
your decision about where to sleep. If the driver is going
all night, you can generally stretch out in the back of the
rehicle. Be specially careful in decolate areas not to be let
off in the middle of nonfiere. Although the very next car
is likely to pick you up, it may no come along for hours.

How to hitch

tocace Carry as little as possible. Try and keep it down to just your frame-pack, or at the most, one hand item as well. I know plenty of people who have hierde carrying a frame-pack, suicase, camera bag and portable typewriter, but it's not a good general rule. A lot of cars won't stop because they simply don't have room for your luggage.

ROAD TACTICS This is the most important thing of all and while plenty of experienced hitchers might argue that you can get away with any sort of appearance because people want to pick up freat for a kink, or that it a driver want to stop to help you on your way he's not going to worry about extra pieces of luggage, they'll agree unanimously that you have to choose your thumbing position.

First (and most obviously, though it's horrifying how many fools do it), don't hind on a bend. There are three reasons. One, it's deadily. Cars cut through bends and you can get killed. Two, drivers are concentrating too much on the problem of g. thing through the bend to be worried about anyone trying to stop them from the side of the road, the law forbids him to do so.

Second, choose your road edge carefully. Divers arm't inclined to stop in the middle of the road - it's too dangerous - so you must pick a position, when possible, which has a nice safe edge for the road into mud, or the position, when possible, which has a nice safe edge for the mot forn to, and the more of their car they can get off the road when they stop the more of their car they can get off the road when they stop the more of their car they can get off the road when they stop the more they like it. And the smoother: the area the better. Drivers don't lite running off the road in the position, when you're possible, which has a nice safe edge for them to run off on to, and the more of their car they can get off the road when they stop the more of their car they can get off the road when they stop the more of their car they can get off the road when they stop the more of their car they can get off the road

little poetic I sometimes change to a regal, floating wave of my whole hand which, if the driver happens to be feeling in the same mood, seems to work wonders.

COUNTRY IDENTIFICATION This is purely a matter of choice. I've done he cone trip with the international AUS for Australia attached to my pack and two carts stopped specifically because the drivers had relatives in Sydney. The question is, how many cart dad it is a suit and carrying a small suitease with a notice attached which is simply read 'U.Student'. Perhaps you can approach the problem in terms of international political opinion. Try and figure how popular your country is in Europe before you mount a sign, which a CAR stors. A lot of drivers who have stopped for you are nevertheless in a hell of a hurry. Nost drivers pull up fifty or a hundred yards beyond you. Never risk losing a risk by wandering to them. Run, Grab your bag and move! When you get to the ear, just wish the driver a good day in his own language (if possible) and them tell him where you're going. If you can't ponounce the name of the tot wan have a map ready to pull out and point as. From then on, whatever the drivers ays, just answer out, it, jator yet as the case may be. It doesn't matter what the driver has said—I'm going to say, be a little more obvious and a little less politic and make sounds which suggest you're about every trip), politicly indicate that you want out. If he won't stop or doesn't understand what you're trying to say, be a little more obvious and a little less politic and make sounds which since not obvious and a little less politic and make sounds which is or out of them in less than an bour. But ty walking out of Paris or London! If you raide has let you off to the a walk in or out of them in less than an bour. But ty walking out of Paris or London! Excerpts from a Famous Unwritten Letter

To: Rev. Saul Paul Independent Mission Corinth, Greece Dear Brother Paul;

We recently received an application from you for service under our Board. It is our policy to be as frank and open-minded as possible with all our applicants. We have made an exhaustive survey of your case. To be plain, we are surprised that you have been able to "pass" as a bona fide missionary.

Furthermore, you have not graduated from our reminary, and you know we cannot have our mission board represented by one who is not a graduate from a recognized university. We cannot recognize the three years you pent in Anabia and Damascus because the schools are unknown. Our Board does not recognize private tutors such as you claim you have had.

Is it true that you have a jail record? Certain brethren report that you did two years' time at Casarea and were imprisoned in Rome.

You made so much trouble for the businessmen at Ephe that they refer to you at "the man who turned the world upside down". Sensetionalism in missions is uncalled for. We glso deplore the lurid "over-the-wall-in-a-basker" episo.

We are appalled at your obvious lack of conciliatory beha lor. Diplomatic men are not stoned and dragged out of the city gate, or establied by futhous mobil. Have you ever su-pected that gentler words might gain you more friends?

NEW ART TIPS

Dear Artists: God bless you as you hammer out the Gold into such besuitful TKa! You are doing auch a terrific job, and the quality of both your editing & art has improved so much since your first began!

Here are some brand new Art Time from Here are some brand new Art Time from Pad himself: When seeing a recent illustration of a saint in Heaven wearing a typical crown, Dad commented, "Worldly crowns look too stiff, hard and formal! I'm a bit lige, but I wish we could start using halos for crowne! I know! I haven', norrected m, but that's what I got long ago, remember?—It's in some Leitig. "Goe no. 363 "The Helloween Wheel!" parsgraphs 32-34 & 51. "I kept leiting them alip because I didn't wanna cause you artists more trouble!"

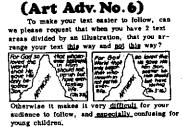

Praise the Lord! So please of keep this in mind when illustrating from now on! GBY! Dad had one other comment recently when he saw how someone drew a "gparkle" to cover a nipple, though still draping it with clothing——and he said, "I jike that sourkle to hide the nipple! Great iden!—Can we have more?"

Could we please make a standard policy from now on regarding gradits on the Cover? Instead of just putting "Art by (your name)" or "Illustrated by (your name)" "could you please put the full credits: "Edited and illustrated by (your name)" in the full credits: "Edited and illustrated by (your same)" and you please put the full credits: "Edited and illustrated by (your same)" and you to make is in the Coverity commented, "Be sure to give yourselves the gredit for poth!—The editing is the hardest part!"

Another change we would like to ask you to make is in the Coverity commented, "Be sure to thow it should now appear:

Otherwise it makes it very difficult for your sudience to follow, and especially confusing for young children.

Ded & Maris asked in a recent Art Advisory that your Komtk be half offering and half igst, and we'd like to thank so many of you who immediately made this change! GBY! Please be sure, however, that you have gnough actual words per page so that each page really is half text. A few of you are printing so large that, although your text does occupy 50% of the apace on the page, you are eitill getting preclous little of the written message in with your art.

A specific example of the balence the Folks were siming for is the TK "Cleanliess is Goddiness!" (no. 1931) on pg. 283 of "The Story of Love" TK Volume. Dad commented that it was just the right balance, "half text, half art—enough Message, enough art!" Two other really good examples are the TKs by Jacob Sailor, "Communicg" (no. 337B) on pg. 199 and "The World To Come" (no. 1980) on pg. 493.

Bo remember, by simply lettering a bit smaller, you will be able to get quite a bit of message (text) in per page. Many of you are already doing this and your work is terrific!

One last point is please don't leave "blank spaces" in your Komix, that is, white areas with nothing in them. And sticking a big piece

Dear Family,

God bless you, we love you all sooo much.

After reeding the letter "God's Guarantees" we wanted to write a short story about some of the mighty miracles the Lord has done for us since we decided to leave Firope 2 years ago to Indonesia, the country with which we've just totally fallen in Love.

We know we're just strangers and pilgrims in this world and we don't know how long the Lord will allow us to be here but we hope and pray that it will be a long time. I'll start my story from when we arrived in Amsterdam 2 years ago after being in Switzerland for 1 year.

While in Switzerland I had a dream about us arriving here in Indonesia and after an inspiring visit from Faithy and Juan who were very positive about this country and its' possibilities, we decided to step out by faith and we set ourselves a dead line of 2 months and left for Amsterdam.

When we arrived we only had money for food for the first When we arrived we only had money for food for the first

few days but we really prayed that the Lord would do a miracle for us and we put the little faith we had in action by telling everybody that we would be leaving the first of September.

I'm sure people must have thought we were crazy, telling everybody we were leaving for the mission field within a few weeks without having any money on hand, with a little I-yesr-old girl and I was 57 months pregnant when we arrived in Holland.

We started going door-to-door every day, called all of our friends from before, telling them about our plans and inviting them to come and see us before we left.

Different people tried to help us but they weren't very rich and every donation we received was a step in the right direction but it was so little compared to the enormous amount we heard was needed to arrive in this third world country.

We put together a P.R. prayer letter that we distributed to interested people we met and we sent it to everyone on our mailing list. I also put a copy on the bulletin board of the library. A few days after we put this letter up we got a telephone call from a very sweet, kind of simple-minded man who read it. I went to see him with Etcile and Melody from Lamb and Zacheus with whom we were living then and sang songs for him and told him some more about what we wanted to do here for the Lord, and he promised he would help us if we would write him from our new field.

We also sent our prayer letter to all the newspapers in the district I lived before I joined the family with a little extra note, saking them to print this letter for us, because through the paper we wanted to say good-bye to all my system friends whom I hadn't seen since I joined the family.

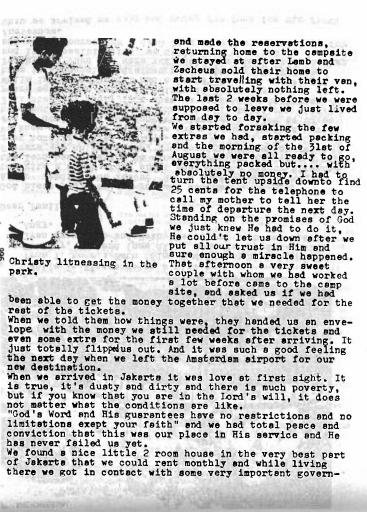

I didn't get any responses from any of these old "friends' but the day before we left we got a sweet letter from so ?2-year-old man who just lives from his pension. He wrote us that he was so sad that his own children didn't have any love for the Lord and he felt so happy when he read that we were young people who still wanted to help others th

After the baby was born we decided that we would like to
start working with other family members and start a home
so we could be more effective and fruitfull. But again we
had no money.
Here you have to pay rent at least 1 or 2 years in advance
so we borrowed the money of a friend and payed him back
monthly. We found a good house, payed the rent on it and
moved in, together with Elly and Amos and their little
daughter. When we moved in, the only things we had were a
double bed for the four of us and a double bed for the three
of them and 2 chairs.
We felt meally challenged and ready to fight the battle
and as we started pouring out. He started pouring in and
September the first, exactly 2 years after our arrivel in
Indonesia, we were amazed to see how the Lord had supplied.
We had absolutely everything we needed and even more than
that: a fully furnished home, clothes, toys, books, plentry of everything, except money. In fact we had zero:
When the letter "Refuges" came out the Lord really spoke
to us about leaving Jarerta to make place for the many
new brethern we knew would be coming and we also felt that
we needed to move on because after living in the same house
for 1½ years we did get kind of in a rut about a lot of
things and we knew that a fresh field would really stir
us up and re-inspire us.
So we prayed about it and the Lord showed us that Surabaya,
the 2nd biggest city, would be the place for us.

From Denis; Indonesia:

IT ALL BEGAN WHEN ME RECEIVED DAD'S ADMONITION TO "SHOVE OFF!"
FROM THE RICH WEST. At that time I had been in Switzerland for a year after coming back from India where I first joined. I was still missing the meek & humble people in the poor Third World countries who are starving for the Words of David. So when the first Letters on leaving Europe came out, that was it for me; I knew I had to do it as soon as I could.

AFTER SEEKING THE LORD DESPERATELY AS TO WHERE IN THE WORLD HE MANTED ME TO BE, I got this field, & as a confirmation I received a letter from a brother in this field with whom I was in contact. So after sharing my burden with the Home where I was staying, I went on the road by faith with the goal of getting my funds together for the trip. But I guess I was trying to do it too much in my own strength, so that after two months I was still at the same point & more eager than ever to be back on the front line. I even started to wonder if I had made the right decision, but I realised that if it was God's will He had to do it all & do it quick!

AND IT WAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST A FEW DAYS LATER THAT I MET A PRECIOUS FISH WHO GAVE MEEL ALL AND IT HAS JUST

The same evening that I got the money I went right away to the airline office & bought my ticket. A couple of weeks later I landed here & was so relieved to be out of pe & to find myself in Asia

FULLY SHOWED ME THE NEEDS & led me into what I was supposed to do. I decided to open a new Home to use as an open witnessing place & as a landing base for new arrivals. But again we needed a real miracle because in this country it's rather difficult to find good housing for a low price, & they usually ask for a year's rent in advance, which is quite a large sum of money & which we didn't have. So we got together & prayed that the Lord would give us a big house with a garden, telephone &, most of all, a monthly rent, & sure enough, a couple of weeks later we got it, with everything we asked for down to the smallest details! PG! He never fails! Where God guides He provides.

From B. & M.; S. E. Asia:

Dearest Dad & Maria,
GB&KY AL WAYS! We certainly do love you & pray for you every day. Reading the Letters to & from Ho have certainly convicted us & woke us up. We just want to assure you that your words are our lifeline & without them we just couldn't live. (GBY! ILY!)
BY GOD'S GRACE WE CER. TAINLY WANT TO FOLLOW YOU CLOSELY, altho' we must admit that our fruitfulness gets choked at times by the cares of this world, GHU! Convicted by our shortcomings & failings we just have to cast ourselves on "the sure mercies of David" (Isa. 55:3) All that is beautiful in life, all that is dear to our hearts we owe to your faithfulness & obedience: Our relationship together, our 5 precious children & especially, a goal & vision to work for & cling to.

WE'VE COME TO THE REALIZATION THAT WE DON'T NECESSARILY NEED TO BE "GREAT" in our service for the Lord, but that faithfulness & just plain thankfulness bring much more lasting happiness. This certainly has been the case in our lives, especially as we are now so busy in the training of our children. We call it their "TSC stage" as that time in our lives really grounded us in the Word. (Amen! TY)!!

WE DO GET TO DO A LOT MORE WITNESSING WITH THEM being on such a fruitful field. They are already proving themselves to be sincere soul winners. We goo ut with them on weekends to parks & markets, & they are always so eager to go out. Being so blonde they draw attention, & especially now that they speak the language so freely with all the jargon & slang thrown in! The teenag-

WE BOTH LOVE BURN.
ING FREE WITH FF'ING when we get a chance. We have been able to establish some-heart-touching relationships with fish here—some stretching over 2-3 years, which have also been a great blessing to us personally, enabling us to pour out & mean something to others. Also, we've been able to make friends with many of the upper class of our own age—married couples—whom we socialise with & to whom our way of life is a real sample. This is in addition to doing street litnessing & witnessing & performing with the children. (GBY!)

WE ARE SO THANKFUL TO BE ON THIS MISSION FIELD & that the Lord still gives us many opportunities to be a witness. Next month while the boys have two-months holiday from school, M. & the boys will be travelling to litness & witness in places that would otherwise never get any Letters. This should also help the boys to grow up & learn to make decisions, as Papa cannot come along on this trip. (GB'M!)

Jozef & Ronny especially could relate to them, sharing God's love thru long conversations or playing chess with them.

The Indonesian MWM
Show is off & rolling!! Since Dad's
message mentioning
specifically that
Indonesia should make
its own local language
MWM Show, great steps
forward have been made.
We are using a radio station's recording studio to
tape a local MWM Show.
They give us free use of the
their studio & we produce a
show a week which they air &
which we duplicate for all
the other stations. We are
now up to show No. 8.

The number of stations now broadcasting the English MWN Show has grown to approximately 100 & over 600 MWN listeners have written us over 2.000 letters! So with the MWN Show now in Indonesian as well, we have a vision for thousands more club members and much

fine fruit won. The Indonesian tape was sent to the stations to supplement the English show, and since our first mailing of MWMI Programs 1 & 2 to 80 stations at the end of Nov., our mail response has doubled to 290 letters from the listeners in only three weeks!

DJ FOUND: As Dad has said, finding a good DJ is the most important thing. Well, thank God, we found one!--one of the main Indonesian translators, Michael Tea, to DJ the show! He has been translating for four years & really knows the Word & the spirit of David--& he has a real burden for his people. He has also had past experience as a DJ & musician & is femiliar with recording studios.-TWJ.

office TEAM: With the large volume of mail received & frequent communication with the stations, MWMI shepherds, Corny & Nekoda's staff of secretaries working in the office has now gorwn to 5, two of which are full-time. Corny & Nekoda have been monitoring the stations, following up, corresponding with the DJs and booking

Martha, our other fulltime
secretary, is the MWMI Club
Secretary. She has been
busy for the past year answering the sheep letters
with Corny daily & winning
souls through the mail.
Nadia, Bathsheba & Sarah
have also been working part
time in the office, and
now the mail folls—up team
is really getting results.

the first two MWM Club Mags
which are going to be a
great blessing in our followupl—GBY.'

GOVERNMENT

Thailand is a constitutional monarchy. It was an absolute monarchy until 1932 when a constitution was established. The constitutional system was first overthrown in October 1958. It was re-established in 1968 & again rejected in a bloodless coup in 1971 & replaced by a "National Executive Council" which ruled by decree. This government was in turn overthrown by what nearly arounted to a civil war led by secondary, college & university students in October 1973. Many, many students were killed and thousands arrested. The oppressive leaders of the former government fled the country & democracy was instituted. Since then it has been a pretty regular cycle of elections-weak government-coup with the coups or attempted coups usually taking place in October. The ARMY is the only real power in the country supplemented by the other brances of the Armed Forces & whenever the government doesn't suit them they toss it out & rule by decree for awhile promising to "restore democracy when conditions permit." Communism was rampant & rose to its peak in about 1975 was mercilessly crushed by a rabid rightwing government installed by the military & eventually became so rightist it even became too much for the military & was again replaced. The present government has been the best one for the Family thus far. The last one (Kriangsak) was the worst. Politics are a very popular subject here & when there are elections there are at least 40 different political parties contesting it showing there is quite a diversity of opinions on how things should be run. Politics are a very "hot" topic.

The Family doesn't print or distribute any political lit any more. All the leaders of the socialist movement had heard, discussed & rejected our Godly socialism by mid-1975 and it was not much later that they were mercilessly killed, arrested & driven into the jungles.

Thailand is divided into 72 provinces, each headed by a Governor who is appointed by the Ministry of the Interior (police, civil service, immigration). Provinces are further divided into districts & those into villages.

The Family was legally recognised & accepted by the Ministry of the Interior from our earliest days but not the Ministry of Relgious Affairs. They eventually got the Ministry of the Interior to withdraw its recognition towards the end of 1978 & continued to put the pressure on for them to go to the other extreme of trying to get rid of us, which they thought they succeeded in doing by the end of 1979. So the COC/FOL is not legally accepted nor is litnessing. They are simply too busy with other things to worry about us at this time. Selah!

Thais are principally Shemites with some traces of Hammite'especially in the South. They migrated here from China where they were the kingdom of Nanchao founded in 650AD. They were driven south by Kublai Khan in 1253. The first capital of Thailand was Sukothai which is now a province in what is now northern Thailand. The most important ruler of the Sukothai era was King Ramkhamhaeng who introduced the first Thai alphabet derived from Sanskrit & Balinese, similar to written Tamil.

HISTORY

The litnessing at these bases greatly helped to support our Thai outreach & many hungry GI's were reached as this was at the height of the Viet Nam War & the bombing of Cambodia & Laos. We worked quite extensively with the Churches at that time until they finally turned on us. The last to go were the Catholics who really did help us a great deal. Our first Thai disciple joined about mid-74. Just like the rest of the worldwide Family we've had about 3 times as many people join us as are now with us. Dozens of disciples have been with us & gone back but the real fighters are still with us!

We did lots of Holy Ghest Samples at such places as Siam Square, Lumpines Park & so on & the work was supported by litnessing until about mid-77. We then sold WW products for awhile & english teaching began in Oct. 3030 Sof 1978. During 1977-79 alot of singing was done in nightclubs, coffee-shops & so on around the country & included TV Shows in Bangkok, Raadyai & Lampang.

FFing began (without leaderships permission) in late 1974 when Jonah Merlin began an outreach among the many whores & prostitutes which were even more numerous in those days due to the US bases. Hundreds were saved, one of which was Pawn of ML No.370, as result of his clandestine ministry. Leadership finally jumped in around December 1976. FFing has won just about every disciple that is still with us. The appearance of the country of the same appearance of the country of the countr

Probably our most popular outreach was our Coffeeshop which was situated behind the Bangkok Rama Cinema on Rajprarop Rd. near Pratunam market. Designed along the lines of a Poorboy Club we had hundreds come to our In 1350, King Rama Thibodi founded a new dynasty & established his capital in Ayutthaya where 33 kings ruled until 1767 when the invading Burmese almost totally destroyed it. However, one general named Tak Sin escaped & a year later became king. He eventually drove the Burmese out, & founded his capital at Thonburi. He was succeeded by by the founder of the present Chakri Dynasty, Chao Phya Chakri, who moved the capital to Bangkok in 1782. The present king H.M. King Bhumibol Adulyadej is the 9th monarch of the dynasty.

That's are very nationalistic & love to tell you that Thailand has never been a western colony & has always been independent. They often neglect to tell you that they have only been called "Thailand" since WWII in which they surrendered to the Japanese & were called Siam. Because they lack this colonisation experience—you'll also find them lacking the organisational & preligious influences the former colonial powers imparted to their former colonies.

FAMILY HISTORY IN THAILAND

The work here began with a catacomb brother in the U.S. Airforce named Horeb Holykiss in early 1973. Two more brothers joined him here in the middle of that year & worked closely with Brother Paul of Japan's people here in Ayutthaya (HL No. 208:1-2). The first lit in Thai was the baby tract & then Brother Sun & Shangri-la. By the end-of 73 we had all moved to Bangkok & road teams were hitting the US Air Force bases situated around Thailand at Udorn, Ubol, Korat, Nakorn Panom, Utapao, & Mahasarakam.

Friday & Saturday night parties. Invitations were issued with a map while out litnessing during the week & many expeople came for "lots of loving looks & more!". Hundreds were saved & many disciples joined. It peaked on Christmas 1974. About 40 brethren lived at the Coffeeshop Blob! The first Home established outside of Bangkok was in Korat in early 75 after the "Colony Revolution" & consisted of Horeb Holykiss, Zachariah Lantern, Simeon Minstrel, Jonathan Freed, & then new disciple Crystal! This home won our first Cambodian disciple as well as some Thais. At various times we've also had regular ministries in Corphanages, schools, & prisons & have had great success in establishing "Free Schools" & "Clubs" which were primitive "Open the Door For the Children" & resulted in many little disciples that turned their neighborhoods "upside down! Almost literally sometimes! At times we had as many as many as a dozen little Thai disciples that we would take out & have perform HG Samples! - 31

Thais are principally Buddhist with minorities of Christians, Muslims & Confucians. While Buddhism is the official state religion it is actually a blend of Buddhist, Hindu, Brahmin, & Animist beliefs & traditions with a little Taoism & Confucianism mixed in. Statues of Hindu deities are worshipped as readily & enthusiastically as Buddha images.

People respect, fear & worship spirits & appease them with offerings of flowers, incense & food. Mini-temples for these spirits to live in can be found on the corner of almost every piece of property in Thailand. The TOP.

Many Thais, even intellectuals & educated rich, believe as much in Spirits as the common poor, as spirituality hasn't been debunked here by science as in the West. When you rent a house it will very likely have one of these mini-temples around somewhere on a corner of the property outside. Just pray over it & leave it alone. You won't offend anyone by not putting flowers or food on it. Remember to pray over your houses & property when you first move into them & cast out any evil spirits including any that may be in the atmosphere around it or the ground beneath it!

Unlike those of the West, whose laws are basically founded on the Mosaic Law, many Thai morals & traditions are not. Thailand has had very little influence on its culture from either Islam, Judaism or Christianity so is rather dark spiritually. Most Thais are very respectful of other religions & believe "all religions are good" & that they should be open-minded. Winning souls is hence rather easy but winning disciples a bit harder.

THAI CHARACTER

That's are a very friendly & rather peaceful people as much as can be expected of an unsaved people. They are very adaptable while also maintaining their own unique culture. Note their ability to get along with their radically communist & socialist neighbors without much trouble considering their great idealogical differences! They are a very polite people who try hard not to offend but to please. They'll readily excuse you for not knowing their language or customs or

In a nutchell they believe, "Blessed are ye when all men speak well of you." They evade, pacify or minimise rather than confront, rock the boat, or stir things up. This philosophy is very clearly seen in the very common & popular statement you'll hear often, "mai ben lai". Literally translated it means, "it is nothing (to get upset or offended at)" or in other words, don't worry about it, never mind, it's alright, don't mention it, forget it, let's think or talk about something else.

Tou won't get far hammering, battering, confronting or arguing. Success lies in low-key, gentle, persistant, persuasion. It works wonders. The scripture for this characteristic is, "The waters wear the stones." or in other words continual, gentle persuasion will even wear down a rock, eventually! Painless erosion. (Job14:19) Let the Light in & the Darkness will flee of itself!

Go slow! Have patience! Squeeze! Don't jerk!

CUSTONS & TRADITIONS (or how Thais show love)

Thais are a very cleanliness-minded people who are also very, very sensitive about smells. They believe your head is the seat of the spirit & thus the most important part to be trated with the most respect. The feet, being the furthest from the head are therefore the most base. This principal greatly influences many of their customs especially how they "wai" which is the way they greet, show respect, show love, show humility, & in some cases even worship their gods.

Being very class & status conscious, there are many rules & variations on how to "wai" correctly. Thailand is a monarchy & almost feudal in some ways. There are

traditions but we shouldn't allow that to excuse us for crude, impolite, or inconsiderate behaviour. We should of course try to "Become One" & it won't happen unless you make a conscious effort to do so especially learning to speak the language well.

They are easily embarrassed by some western behaviour like frank statements, directness, open display of feelings or laying on of blame. This last point is very inportant as it is how alot of foreign brethren have lost us many Thai disciples & frequently a source of offense. This is what we call "pride" & what they call "face" such as "saving face" or "losing face". It is very important to a Thai that they don't "lose face" in front of others or in other words, be publicly humiliated or "dealt with". while outwardly very humble looking they are only trying to be considerate of your feelings. Inwardly they are a very, very proud people, fiercely nationalistic & have 304% very strong & definite ideas & opinions. But if you don't draw them lout you'll never find this out. The key verse for understanding the Thai character is Proverbs 20:5 ... which says, "Counsel in the heart of man is like deep 3 35 water: but a man of understanding will draw it out."

Some of their teachings are: to take the "middle path" which is Buddhist and means to avoid extremes of anything especially emotion, a to "strive to be pleasant, peaceful a in harmony with nature a others". So this is what has been drilled into them from birth a the reason it is hard for many Thais to decide to do things that will doubtless offend someone, or alot of someones, such as giving an opinion that others disagree with, speaking the truth when it hurts, or doing or saying something controversial.

ramer a eleminacre, a 'val' sameally condists of placing your hands together against your chest much like western church people do to pray. However, you are not Praying to them so don't misunderstand its meaning. If it is a time of worship of a god it'll be obvious because there'll be an idol sitting right there in front of you! The head is slightly bowed. The height of the hands to your body & the depth of your bow depends on who the person is you are waiting to & their status compared to you. It is usually very obvious. Equals are waited to with the hands on the chest near the heart region & with almost no bow. As the person's social status rises above yours the hands are raised proportionately to higher & higher places on your body until reaching the limit of the forehead. The wai then evolves into lowering the bow eventually reaching a position of an hundred & thirtyfive degree angle to the ground. This will take you to the most respectful wai used for non-royalty. With royalty you'd have to get on the ground so it would probably be best to revert to our own western ways of showing great respect for important people.

If you understand the basic rules of a wai them you will also be able to immediately know where others that consider you on the social ladder & how they esteem you in relation to themselves! Wai simply & sincerely. Do not wai to animals. Wai to children only after they have wai'ed to you. Wai to socially inferior people only after they have wai'ed to you. Study the rules of wai'ing carefully & be sure to do it properly. If you learn to do it correctly it will be a very good

testimony of your desire to become one of them & of your respect for them, & of your lack of a feeling of racial superiority. It is a very good way to show your love.

Always take your shoes off before entering a Thai home as their floors are usually kept immaculately clean. Of course they'll do the same when coming to your house & also expect your floors to be just as clean.

Don't touch Thai's heads for reasons already explained. Females don't touch Buddhist monks at all nor should males touch Buddhist nums in any way. Only members of the same sex can give lit to them or hand them anything.

Thai women usually don't like to be seen in public with white men (even my 56yr. old mother-in-law) for fear of being considered a whore. They also usually don't like to be touched by men in public, unless they are whores. That means most will not like holding hands or having your arm around them in public.

On busses the custom is to give a seat to children & the elderly, women who are pregnant or with a small child. Giving your seat to a women is optional but still considered a sign of consideration for the weeker sex. Women's liberation has not made much progress in Thailand. It is also considered low class to publicly ogle or flirt & offensive to wink or whistle.

Beards & moustaches are generally not liked at all & are considered dirty & "hippy-ish". They are the standard sign for a gangster or a playboy & all the bad guys in Thai movies have em & often with a bald head to accent em even more:

Only children wear shorts publicly as a rule. That's are usually very smart dressers & like well clothed men & women. Vell ironed clothing is expected. Be sure to take many show-

When eating a meal with Thain take, small portion from the serving dish at one time. Don't take all you intend to eat at that meal at one time, in the beginning, like we do in the west, as this is a sign to them that you are afraid you won't get enough & is considered selfish. It is also a very good way to ensure everyone gets a fair amount of food & no one goes hungry while another is stuffed to the gills. When finished, lay your spoon, fork, or chopaticks on your plate with the handles facing your left hand. You are expected to make as little noise as possible when eating with either your mouth or utensils. Burping is not polite. When no serving spoons are presented, everyone uses their own spoons to serve themselves from the serving bowl.

Here we have what is referred to as "Thai Time" meanwering they are usually late if they come at all. Expect this but don't be guilty of it yourself. Thailand is often called the Land of Smiles because they believe in always smiling even when hatred or boredom is in their hearts! A common Thai complaint is that Foreigners are so serious. They like to joke & enjoy life.

Women are supposed to ait with their feet & knees together slightly pointing to one side. When women wai they also bend their knees slightly & bow lower than men.

SECURITY

There have been some investigations by the police over the years, some people deported & others refused extensions on their visas. The Evangelicals & Churches are rabid enemies of the Family here so be very cautious in any dealings with them. Be very careful about names, addresses & phone numbers & have them in a safe place preferably your head. Homes have been broken into

ers a day to keep the smell away. At least two a day is how the minimum. Use decdarants, anti-perspirants, cologne, perfume & pwders liberally & frequently. Eat yogurt often to avoid bad breath. You'll need to change your shirts at least once a day as well as your underwear. Shirts should be tucked in unless they are Hawaii type. It is not polite to be shirtless at home when visitors come.

When you pass between people conversing, lower your head & shoulders by slightly bowing when you go by. You should give a wai in appreciation of gifts received & it is customary to present a gift when calling at a friends home. (e.g. a kilo of oranges).

Respect the Monarchy & Royal Family & don't discuss

it, as negative remarks can get you in alot of trouble:

Stand at attention whenever the Royal or National anthem
is played. If you display a picture of the Royalty it
must be in the main room of the house, opposite the
entrance, on the wall, at high & respectful height. However it is not necessary to display it. Don't preach
against their religion, just lift up Jesus.

The feet are considered the basest part of the body & are never to be lifted off the floor & put on anything else. Norace they to be used for anything like touching or pointing. Pointing the soles of your feet at someone is the Thai way of giving someone the "finger" we use to say "fuck off, screw you, kiss my ass, etc." It is the most debasing & filthy sign they have to show contempt so watch the soles of your feet & where you point'em.

Try not to: show anger, frustration, or loose your temper, use a loud voice, or discipline your kids in public. Wide are not allowed to run, screen or yell in a house.

by thieves many times & some Homes have been completely cleaned out including their spectacles & even their gas tank & shoes. So don't over-estimate your security. Others have been mugged, held up at gunpoint (M-16's!), & pick-pocketed. So pray without ceasing & be aware of the dangers around. Avoid getting into potentially dangerous situations. Many new disciples have had serious 10:36 problems so be very wise in how you handle these too. By desired serious I mean kidnapping & threats at gunpoint! Keep your bags snugly under your arm with your arm over it in front of you. Be wary of spies from the Churches or Romans & always be ready for the "Empty Wind".

MISCELANEOUS

Bangkok is only about 10% of Thailand. 45 million 30f.
Thais live outside the capital. Of the few million pieces of lit that have been distributed, probably half of it has been distributed in Bangkok if not more.

There are 7 universities in Bangkok: Mahidol,
Ramkhamhaeng, Chulalongkorn, Thammasat, Kasetsart, Silpakorn, & Srinakarinwiroj. There are 3 outside of Bangkok:
Khonkaen, Chiangmai, & Songkhla. Bangkok has 3 parks:
Lumpinee, Siam & Chatuchark & two amusement parks called
Happy Land & Magic Land. There are three major bus stations; Northern, Southern & Eastern, each one servicing
that area of the country. There are also good railway links
to most parts of the country as well as airconditioned
tour busses.

There are busses & air-con busses servicing all parts of Bangkok. Bus guides are available for purchase. All imported items are very expensive. Healthfoods are available at the Seventh Day Adventist Hospital on Phetburi Rd.

near Larn Luang Rd. Free lit is available for distribution outside of Bangkok & for Pioneer Homes & poverty cases. Lit usually costs about .07% (7stang) per piece. P.O. Boxes are not too hard to obtain. There are many employment agencies at which to get domestic help & there are also many housing agents. Houses are usually around 4,500% per month plus a deposit of one months rent. You usually have to pay utilities yourself. Tap water is filtered & chlorinated & shouldn't hurt you but there are no guarantees. Much more dangerous is ice from we-knownot-where that you get in cold drinks at the shop. This is very dangerous upcountry.

There are many public & private hospitals. They use mostly western medicines & methods. Some good public hospitals are Chulalonglorn, Rajvithi, Ramathibodi & Bangrak. Bangrak specialises in VD treatment & is almost free. It is on Bangrak Rd. Treatment & medicine has been provisioned at Chulalongkorn & Ramathibodi. Even if you pay at public hospitals it is very cheap.

Any servants you employ will probably expect about 1000 per month. Some will want to live in, others won't. Be sure to photo-copy her Identity Card & keep your valuables locked up. Don't tempt the poor to steal!

Jobs are available to teach english & with some agencies involved with refugees. Lice are prevalent throughout Thailand so beware. Tax clearances are required for anyone staying in the country over 90 days. They are obtained from the Revenue Department & you can't exit the country without one. Work permits are legally required for any type of work in the country but this law is weakly enforced.

THAI LANGUAGE

That is a tonal language meaning a change of tone creates a new word without changing the vowels or consonents. There are 5 tones: MIDDLE TONE which is a normal straight tone, LOW TONE which is the tone of confirmation in english, RISING TONE which is the tone we use in english for a question, FALLING TONE which is an exclamation tone in english, & HIGH TONE such as the tone we use when we say "bank".

There are approximately 28 commonly used vowels & about 44 commonly used consonants. They are not hard to learn. if you learn a few a day. Rather than learn a phonetic alphabet to learn to speak Thai why not simply learn the Thai alphabet? Initial progress will be slower but you'll eventually pull out far ahead of those who can only speak but can't read. It'll enable you to read, use a dictionary, & learn correct pronunciation more clearly & accurately. Like having a baby, it shouldn't be painful, just hard work. I strongly recommend learning the Thai alphabet & not using a phonetic one.

There are some good Thai courses available. The one at AUA is highly recommended but expensive. Many brethren have derived great benefit from it. Taking a course is not absolutely necessary but spending time studying is. The most fluent foreign speakers of Thai did not learn thru a course but by diligent daily study of Thai & actual practical usage out on the field, especially upcountry & living in Thai homes. If you want to learn you easily can for free! Inability to speak Thai well becomes an increasingly worse testimony as your stay here becomes longer & longer.

We hope this will help you be more effective & make fewer unintentional mistakes. GBY: WLY: WRITTEN, TYPED & PRINTED EY: Zachariah & Crystal Lantern

THE CHINESE LIT-PIC MAS VERY INSPIRED TO RECEIVE ALL OF YOUR COMMENTS & SUGGESTIONS FOR THEM & THEY MAYE ALRADY PUT THEM INTO EFFECT WHICH HAS DROUGHT A REAL REVOLUTION IN THEIR CONDENSING & TRANSLATING THE LETTERS INTO CHINESE. Sheb & Gabriel came for a visit the day after we received your letter with the comments to Sheba myself & see the joyous reaction & tears of appreciation for your love & concern for her & for the Chinese translation ministry. The Chinese Lit-Pic team is a precious faithful little Family who love you & your words very much & they greatly appreciated the love & interest which you have shown in their work & in the Chinese field overall. They can certainly use the increase in their gift, as they are nearly always struggling in their finances due to the high cost of housing & also due to some of the recent changes that have been require in pioneering a new Home where some of them have had to move due to visa problems.

. å are accomplishing more than ever before. Of the 100 Letters which are in the DFO Komic Book which we just received a few days ago, they already have over 40 of them translated å they hope to finish the translation of the whole Book within a month or so. So if it is possible å you would like to make a gift to the Chinese Lit-Pic specifically to help with the printing of these Komix in Chinese, it would be a great help to them as they could not afford to undertake such a larg expense themselves without outside help. IT WAS ESPECIALLY A BLESSING FOR ME TO READ OVER THE PARTS OF THE LETTERS TO THE GIRLS AS WE WORKED WITH THEM ON THEIR NUMBERS & to see the freedom that the Lord has given us manifest in their spirit & faces & dances. All we had to do was to follow the directions & to let the Spirit flow through each girl in her unique dance working together with each girl to help her to be able to communicate her love & thanks & appreciation to you & the Lord through her dance for all that you a the Lord have done for us. It required & created such an atmosphere of such tender loving care that everything just flowed in the Spirit so easily. Nearly all of the girls having never had professional dance training did not hinder them as they just endeavored to yield to the Lord in the Spirit & dance in thanks to you & to the slore of God. Even though some of them were nervous & shy at the beginning that they

did not have the ability or the best physical qualities for this, as they yielded to the Lord He anointed them to share what He has given them, each one in their unique way. As I watched through the eye of the camera seeing each dance unfold I was amazed to see how unique & different the Lord has made each one & blessed them with their different talents, abilities & God-given beauty. Most of them being mothers & even still nursing did not hinder them & only helped to accentuate their heauty.

EACH PERSON IN THE TEAM FULFILLED THEIR PLACE BEAUTIFULLY & IT MAS SO INSPIRING TO ENAUTH IN-THE-SPIRIT TEAMHORK CAN ACCOMPLISH. I think I had the most enjoyable job being the cameraman & having the fun of seeing each dance so close-up through the eye of the camera, & Thaddeus & John did a tremendous job in the preparation of the music & the handling of the equipment in the field, & Ruthie did a fantastic job in her helping the girls in every way with the selection of the music, the costumes & the practising of their numbers, & everyone's help & cooperation together made this a most joyous & inspiring & rewarding experience for which we thank you so much for the privilege to-work together on it for you & the Kingdom's sake.

Your latest instructions & counsel in both the FN Mag 42 & your personal letter to the Chinese Lit-Pic full of counsel will inspire them & our Zac here in Macau to work together to produce a top quality one-hour music cassette. Zac Star also has some terrific puppet shows in both English & Chinese we want to video & we hope to start recording Mandarin MO Letters on cassette (a la Simon Peter) for reaching China, as Boaz & Esther shared with us the dangers of printed lit in their ministry to the disciples in Peking, that tapes would be safer at this point esp. in their personal ministry as they have where they & their disciples are watched. Two of the girl disciples have already had some minor brushes with authorities there & we want to be very careful of their security & safety. Frequent searching of premises is common, but use of tapes & videos for disciples could be safer for them, whereas lit could be the best way as you said to reach the masses, Dad, as a radio follow-up, & in cases of travelling teams. The stationary teams who hope to stay a longer time need to be more careful, but mailing through the "Bamboo Curtain" & air-waying through it will reach millions more!

**ABOUT BOAZ & ESTHER IN CHINA: WE PASSED ON YOUR MESSAGE IMMEDIATELY BY MAIL & THEY ALSO PHONEO US THE NEXT DAY after your letter arrived & we were able to pass on the gist of the message & told them that details would follow in a letter! She's definitely here, as well as others who want to help us reach this new generation in Chinal AND THEY WILL BE SUPER THRILLED TO RECEIVE YOUR PRECIOUS WONDERFUL GIFT OF A VIDEO!! PIL! I'll write them right away about this so maybe one of them can come for another visit soon & pick it up, or perhaps another new team going in can bring it to them! Precious English Lamb Just went to Peking for a visit on the 15th with a diplomat fish of hers & brought them other needs & lit they asked for, and the travelling team of Rob & Rose & their two children are still in Shanghai after several weeks! PIL! They also want to go visit the family in Peking! Boaz phoned us about an available teaching position for S ` (the brother who came at the same time as our trip looking for a job there to help them) that he had a very possible open door through a friendly teacher at the University, so we are praying that our people will soon be in in greater numbers! Me will continue to send

Please also pray for sweet cat. disciples "Rebekah" who was detained by the authorities for 10 days in P. She truthfully told them she had been studying English with Boaz & Esther.

Me has learned to speak English almost fluently this past year. They told her not to visit them any more, it was something about a complaint from her work superintendent who felt she didnit need to learn English to do her job (which is running a photocopy machine in a toilet paper factory) Nothing was ever mentioned about her beliefs or questioned about ARR in this respect. However, I think since this happened she still meets them outside the apt. & finds a way. She is the strongest cat. in the Word & has a real Towe of reading & studying the Word & has a lot of potential of growing very strong. It would be such a blessing to have some single brothers marry these girls which would give them a lot of freedom & a foreigner status, to travel freely a witness more freely be delivered from the bondage of cheir incredibly mundane jobs. These young people are so intelligent, sweet, sons & daughters of the former intellectuals & educated class! Please pray for them, we need each one so much for this big job of reaching their country with the love & message of Jesus through David!

Bestselling author of IN HIS IMAGE

THE CHILLING INVESTIGATION OF HUMANITY'S ROBOT FUTURE

In Chapter Four, Mechaning the Mind - Brave New World of ESE, we easier the sometimes ominous realm of electronic stimulation of the brain better known simply as ESIs. Not to be confused with ESP or extrasency perception, ESB embraces a number of new procedures, 'including electroanalgesia', 'electroanaesthesia', 'electrosdeep', 'electroprosthesis' and some others that might, for lack of more descriptive terminology, be called 'electrosea', 'electromemory' and 'electrocophoria'.

Electronic stimulation of the brain is just that - direct electrical simulation of carfedily selected cerebra's sites yia stimiless steel electrodes surgically implanted in the brain Proper simulation can evoke all sorts of emotional and physical responses; it can turn raging lious of the human variety as well as the feline) into genite lambs and genite lambs into raging lious. It can obtirate even the most disabling pain without the aid of any drugs, loll you insleped, fill you with pleasure that surpasses sexual orgasm and bring back childhood experiences with such vividness that you cannot distinguish between the real and the hallucinatory, needed for a few cents in electricity anubady proporty

Here again we must return to the notion of participant evolution - something that has a nice, democratic ring about it - and concede that only a few might be doing the participating. Such was the case in Aldous Huxley's prophetic novel Brave New World, in which genetic engineering is used to establish a biochemical hierarchy in which some are decidedly more equal than others. ESB, similarly, could be used to establish an electrohierarchy, with a powerful Electroligarchy governing the masses with the aid of computer-controlled electrodes. A frightening future of this sort is envisioned in Chapter Four, in which, in place of Huxley's biochemical strata, there are electronic castes. At the bottom are the 'Neutrons', individuals with the greatest number of implanted electrodes, robotised for low-grade labour, Above them are the 'Positrons', with fewer electrodes, designed for white-collar work, And above them the 'Electrons, the most creative members of society with fewer still electrodes (but with enough to ensure their loyalty to the ruling zero electrode Electroligarthy).

But, you are thinking, even though the technology for such a world may, be at hand, we will never permit such a thing to happen; without the co-operation of the masses no oligarchy, no matter how powerful, could ever implant electrodes in the brains of every one of its subjects. Or even of a majority of its subjects. This is probably true, but why be so confident that the all-important ingredient in the scenario, co-operation, will not be forthcoming? The 'doomsday' denigrators', as a columnist in New Scientist calls them, too often overlook man's willingness; in lact his gagerness, to leash in on the latest wonders of Science. To many people, Science—with a capital S— is the new god, to be followed, obeyed idolised as something that can do no evil, that can solve all ills. But the masses submit to the implantation of electrodes, even if the powers-that-be fure them in by promising 'electrolic instrana'? Nonsensel

ve strendy

at trail's end to greet the most ambitious 'widerness' backpacker; 'camping out' is now an exercise in togetherness with no greater challenge than finding a place to park the old (TV-equipped) Kamp King.

Where are the new frontiers? The oceans? Possibly - but only for a few, and for only a little while. Some ecologists fear that even these great bodies of water will be almost irretrievably polluted in two or three decades. Thor Hyeradhi, on his papyrus-borne odyssey across the Pacific, expressed borror at the abundant bobbing, floating, recking evidence of man's 'progress' that persisted even into midocean: cans, bottles, garbage, unidentifiable sludge and, of course, the imnumerable and practically immortal oil sicks. More subtly offensive are the tons of pesticides and phosphates that ultimately seep into the oceans from the ground water, not to mention the nerve gas that is deposited there directly by man.

And so, perhaps, space? A good bet, provided we still have enough resources to spend much time there. But even then only a few will ever be able to venture to the other planes; dat least in the foresceable future), though many others may benefit vicariously, as outlined in the preceding chapter. Are there no other possibilities? Yes – one. And it could prove to be the most significant wilderness of all, a frontier which, if 'conquered', could obvide the 'need' for all' other frontiers. This is the frontier called 'mind'; some of the pioneering excursions into this (until recently) almost entirely uncharted world are described in this and the subsequent chapter.

Exploratory progress in this realm has been such to date that Dr Carl R. Rogers, professor of psychology at the University of Wisconsin, has been moved to state that 'we have in the making ... a science of enormous potential importance, an instrumentality whose social power will make stomic energy seem feeble by comparison? Dr B. F. State takes a similar view: 'Science,' he says,' is steadily increasing our power to influence, change, mould—in a word, control-human behaviour.' So does Dr Robert S. (Morison) of the Rockleftler Foundation: 'Knowledge of human behaviour,' he observes, is becoming organised and accumulative... It is becoming scientific. It is not too early to prepare successives for the day when there will be a behavioural science.

MECHANISING THE MIND

BRAVE NEW WORLD OF ESB

Animals with <u>implanted electrodes</u> in their brains have been made to perform a wariety of responses with predictable reliability as if they were electronic toys under human control.

> - Dr José M. R. Delgade Yale University School of Medicin

The once hungy being thus controlled would be the cheapest of machines to create and operate.

- Curtiss R. Schafer Electrical Engineer

In the field of brain physiology, I think it [ESB] is the mest exciting single discovery.... I am almost frightened to say what I think might come of this....

- Dr Robert H. Fe Testifying before the Sende Appropriations Subcommittee on Heaper

Man is possessed of an almost overwhelming desire — some insist that it is actually an instinct — to explore, to pit himself against the unknown, to charge headlong into the frontier whatever its nature, whenever and wherever it might present itself. Alas, the opportunities for challenge, confrontation and conquest on the land inevitably must dwindle as rapidly as the wilderness itself, and that has been very rapidly indeed. Man has blazed his destructive trail to every corner of the earth. DDT is now detectable in significant quantities in the 'remote' polar caps; once beautiful lakes and rivers are now open sewers; beer cans and even rusting auto bodies are those

which will make possible the control of human behaviour with a high degree of precision.

That day, in fact, appears to be dawning. What man will make of it remains to be seen. This frontier, more than any other, has a potential for exploitation by the self-serving and the shortsighted. If wisely managed, however, it can provide the greatest return of all, something that is often yearned for but seldom attained: peace of mind, possibly even mind leached of its destructive urges.

Electronic Stimulation of the Brain

Though the 'battle for men's minds' is being waged on several fronts, attention here is focused on the approach that promises the most dramatic results: electronic stimulation of the brain. ESB, as it is called, provides a means of 'mapping' the mind, of locating within the brain the specific sites at which various categories of emotion, feeling, action and thought originate. More than this, ESB provides a means of exerting some control over those feelings and actions. It can even help reactivate parts of the brain that have ceased functioning because of disease or trauma, induce immense pleasure, override 'intractable' pain and, for a finite period, eaable one to relive one's past, even the most remote, 'uncremenheed' nast.

unremembered past.

Recent rapid development in ESB technique follows upon what was rather a slow start. Direct electrical stimulation of the brain, in fact, dates back nearly two centuries to the experiments of Volta, Galvani, du Bois-Reymond and others, who discovered that the brain is more susceptible to electronics than to obscure clientical forces ('animal spirits', they were called) that were in vogue up to that time. During the Franco-Prussian War of 1870, battlefield brain surgeons used crude electronic_probes that would cut the hair of today's neurologists in an attempt to locate damaged brain tissue. They would simply stick wires into the brain, apply the electrical voltage and wait for some response, a twich here, a kick there, an erection, excessive salivation, etc.; if no response was forthcoming, the surgeon would assume brain domage in the area under stimulation. Then he would

generally take scalpel in hand and excise the affected hissue - usually to rather horrible effect.

This medical 'technology' lay mercifully dormant for decades after the war — until Dr Walter R. Hass, a briliant Swiss neuro-physiologist, devised the modern technique of electrode implantation in 1932, demonstrating in the process that nearly all of man's functions and emotions can be influenced by electrical stimulation of specific cerebral areas. For the first time,' observes Dr José M. R. Delgado, one of the foremost practitioners of ESB research, 'it was revealed exclusively on sensory injust and physiological stimuli, but can be induced by electrical currents applied directly to the brain. Although these findings did not produce a significant impact on philosophical thinking, in retrospect they may be considered as important as the nineteenth-century demonstration that the contraction of a frog muscle did not depend on circulating spirits and could be controlled by physical instrumentation.'

Epuch-making as Hess' work was, it wasn't until nearly twenty years later that he received the Wobel Prize for his discoveries. And it is only now that ESB is coming into its own as a routine procedure in animal studies and, on a much smaller scale as yet, as a clinical tool for treatment of human disorders. As a research tool alone, it is invaluable, for it makes possible, for the first time, physiological exploration of the conscious mind.

Presenting the annual James Arthur lecture on The Evolution of the Human Brain' in 1965. Dr Delgado, a professor of physiology of the Yale University School of Medicine, cautioned that ESB is not a panacea for all of man's woes, 'but I do believe', he declared, 'that ap understanding of the biological bases of social and antisocial behaviourland of mental activities, which for the first time is history can now be explored in the conscious brain, may be of decisive importance in the search for intelligent solutions to some of our present anxieties, frustrations and conflicts. Also, it is essential to introduce a balance into the future development of the human brain, and I think that we now have the means to investigate and to influence our own intellect.

asting only fractions of a second, is passed through the ockets and discharged at the tips of the electrodes, providing the desired stimulation of the brain.

Originally, the electrical wires feeding into the sockets were connected to bulky consoles that were immobile for all practical purposes. This had obvious disadvantages since it didn't permit spontaneous movement and, of course, restricted the subject to a small area. Deranged individuals and rambunctious lab animals, moreover, often tried to rip the electrodes out of their skulls with less than felicitous results. To circumvent these serious problems and achieve a more natural man-machine symbiosis, technicians developed simulators packaged in collars, small backpacks and little boxes that fit securely on the crown of the head. These contain batteries, transistors and timing devices to regulate and control the stimulation. They also serve as receivers, uned to pick-up radio signals from remote operators who can regulate the tempo and intensity of stimulation in whatever way they desire at any given moment.

Researchers at the Yerkes Primate Centre in Atlanta have developed a head unit that is even equipped with a solar cell so that free-swinging monkeys need never come in for a recharge. Emphasis is very much on miniaturisation, and Yale's Dr Delgado and his colleagues have developed portable instruments tiny enough to fit inside the head bandages of their human patients. Some of them conceal their electronic head-gear under wigs and hats. Very soon researchers hope to have terminal devices that can be wholly ve researchers hope to have terminal devices that the result is implanted under the scale. But whatever the gear, the result is when current is discharged into the brain much the same. When current is discharged into the brain the patient reacts. He may be induced, for example, to hold his arm out rigidly in front of him. He may be induced to sleep or to work happily. In many cases the patient lorgets that he is being artificially stimulated. At any rate he never feels that he is doing something against his own will V Stimulated to make a specific motor action, he 'feels' that he himself created the stimulation.

Wiring the Brain

To understand fully the impact ESB may have in the very near future, it is important first to understand something of the actual technique of implanting electrodes in the brain. Thousandsof laboratory animals, including cats, rats, dogs, dolphins, bulls and even crickets, have been wired, some with more than one hundred electrodes. Dozens of humans, most of them suffering from serious diseases or mental disorders, have been similarly wired—some with scores of electrodes and for periods in excess of a year. To date, electrodes have been left intact in lab animals for more than five years without any visible till effects.

The procedure for implanting electrodes in humans (basically the same as for animals) goes like this: air or radiopaque material is injected into the intracerebral spaces inside the skull so that the various parts of the brain can be visualised by means of X-rays. A metallic skullcap – called a stereolaxic machine – is attached to the head with three or four little spikes that penetrate the scalp. Then X-rays are taken from various angles. ESB experiments during recent years have provided increasingly detailed maps of the brain, thus making it possible to pinpoint the exact areas they wish to stimulate. They make geometrical calculations, using the X-rays and the reference-point grids on the stereotaxic apparatus, to get three-dimensional co-ordinates for positioning of electrodes.

When the desired target is fixed, the subject is further anaesthetised and small burr holes are drilled into his skull at the appropriate points. Micromanipulators on the stereotaxic machine are used to guide the hair-like stainless steel electrodes through the holes, sinking them to the desired depth in the brain. Some of these electrodes are only a millionth of an inch in diameter—small enough to be placed inside an individual nerve cell. Even the larger electrodes, however, leave brain function unimpaired and are entirely painless because the brain itself has no sense of 'feel'. Once the electrodes are in place, their exposed ends are attached to small terminal stockets that are cemented to the scalp. Electrical current, measured in milliamps in most cases and

Government by Electroligarchy

The incredible nower that one can exert over an individual's actions and emotions with ESB has given rise to some alarm. What works for lower animals in this realm can also be made to work for man. Most scientists assume, of course, that the technology will remain in (their) benign hands, ushering in a new era of 'electronic cirvana'. But if the technology should fall into decidedly unscrupulous hands (and this must certainly be considered a possibility), then a strange and fearful world could result.

An electrical engineer named Curtiss R Schaler alluded to this very possibility in a paper he presented before the National Electronics Conference in Chicago some years ago. Half in 1857 he proposed that computer-controlled electrodes be implanted in the braing of babies a few months after birth tobotisins them for life. The once human being thus controlled would be the cheapest of machines to create and poerate, he pointed out. The cost of building even a simple robot, like the Westinghouse mechanical man, is probably ten times that of bearing and raising a child to the age of sixteen. Other scientists have admitted the possibility that governments could try to control citizen behaviour by techniques of ESB.

The vision of a society controlled by such a government is not oleasent to contemplate - vet it is certainly as 'realistic' as that envisioned by Aldous Huxley in his Izmous noved Braw Hew World, in which the masses were bio-chemically tratified via the sort of genetic engineering that is already becoming possible in laboratories around the world. An electronically contrived Brave New World, however, might actually be easier to achieve. The stratification here, of course, would be somewhat different, as the following scenario will demonstrate:

scenario will demonstrate:

To begin with, let us imagine a conspiracy flarticipated in by n small group of powerful men, who seek to 'optimise' society. Noting the fantastic potential of ESB, they envision themselves at the top of an electronically sustained. Society that might be called the section bigrarch. The structure that might be called the section bigrarch.

industrial complex who want to run society in the same way that they run their factories and armies. But now, instead of having to worry, about personnel incentive programmes, waste, time-consuming inter-office bickering, in-house pufering and philandering, insubordination, the costly ritual of hiring and firing and so on, they need only punch buttons and transmit the appropriate signals to achieve every general's, manager's, president's, premier's dream of the efficient society. These Electroligarcha might comprise, say, forty or fifty individuals whose brains would remain entirely untouched. On their orders, however, everyone else would have varying numbers of electrodes implanted in his or her

the second rank in such a society, might comprise to per cent of the population with fifty implanted electrodes each. Remotely programmed and controlled by the Electroligarchy, they would exhibit unswerving allegiance to their 'masters'. The Electrons, however, would be society's most creative components. The Electroligarchy would be clever enough, in a corporate way, to give the Electrons their heads - at least to the extent that they could still come up with innovations and discoveries with which to enrich society, such as it would be. The Electrons would be drawn from the society's reserve of scientists, economists, scholars, poets and other 'thinkers'. They would not be so controlled that they could no longer experience unhappiness or some of the other emotions that often goad individuals on to do creative things. But their potential for hostility and rebellion would be considerably attenuated. And, of course, like all the members of the Electrohierarchy, they would be programmed

to force that they had been partially robotised.

Positrons might occupy the next rung down the ladder, possibly comprising 30 per cent of the population. Each would possess some two hundred embedded electrode. These individuals would make up the white-collar support contingent. The Positrons would help put the theories, plans and projects of the Electrons into practice. They would be less imaginative and less intelligent than the Electrons, hence more closely controlled and regimented. They would be characterised by dedication, driven by the desire to implement the goals set by the Electrons. Emotionally, they would be wholly positive

With computer programming it may be possible to create within the mind synthetic experiences of almost any description. In addition, it may prove possible to transmit ectronically coded information directly into the brain via the implanted electrodes, creating a radical new approach

Dorman D. Israel, a Fellow of the Institute of Radio Engineers, for example, predicts that brain implants will be much sought after around the turn of the century to implement new means of communication (direct electronic thought transference) and enhance creative capabilities. Writing in the Proceedings of the IRE as if from the perspective of the year 2012, Dr Israel notes that by the year 2000 people will be able to transmit their thoughts over substantial distances 'but always by appointment - a most fortunate limitation'. By 2012, he goes on, things will have advanced to the point that 'newborn infants can be operated upon and the latest submicroelectronic equipment installed in the brain and at certain critical points in the spinal column so that they are almost certainly assured not only of the benefits of full non-radio communicative powers but also there is reason to believe that their scientific creative ability will be enhanced. Logically enough, this operation must be performed within two weeks of birth because if the infant is only slightly exposed to contact with its family who still have not completed their "unlearning" and readjustment (to the new technology), he might never become a good subject for the modern system of communication."

Sizeable segments of society may already have undergone electrode implantation by the time the 'takenver' plot is first hatched. By simply commandeering the by then existing computer-co-ordinated system, the Electrocrats would find that most of their work had already been done for them. When the individual dials into the central computer from his own home requesting, say, pleasurable experience number 547Z, he may then receive instead a carefully contrived series of electronic impulses that instil in him an unswerving loyalty to his unseen masters. Or possibly the stimulation he receives might simpy obliterate his will to resist a physical takeover or fill him with a completely debilitating fear of authority. That dramatic behavioural control is possible with Ess.

ESB, bound to have a sweeping impact in all of the medical sciences, may prove a particular boon to the psychiatric profession. Indeed, it has already been used to control rage in individuals prone to outbursts of violence.
(It has also been demonstrated effective in curbing other seizures, such as those associated with epilepsy.)

It seems logical to assume that people will not only be willing to let medical technicians wire their brains with electrodes but that they will even pay to have this done. VUIVERSIC SAENT # ICARD.

A considerably more elaborate 'Big Brother' is now in the making. Called an 'electronic parole system', it will be used to keep tabs on the exact location of the individual and to monitor a number of his physiological responses.

In the realm of law and order, police in some areas may soon be equipped with two-way radios implanted in their helmets, through which they can instantaneously tap into a centralised computer that keeps in its continuously updated memory detailed dossiers on every criminal and criminal suspect in the country. complete with licence numbers, physical descriptions, alianes

records and so on (IBM), they could also be used by the average housewife to keep track of her young offspring. By punching the proper mode on the household computer screen, she could quickly determine the whereabouts of her youngsters, and whether they were in danger or engaging in 'antisocial' behaviour, whatever that turns out to be in a fully computerised society. Very possibly, Big Brothers of this era will come equipped with a 'deterrent function', possibly a mild shock, which will serve as the electronic successor to the old-fashioned 'no-no'. A pleasant vibration, on the other hand, might serve as an electronic expression of 'that's a good boy' or girl, as the case may be.

With computer time sharing and large, centrally located computers to serve entire communities (perhaps on a cable-TV-style subscriber basis), developers such as those at Information International Inc. in Cambridge, Massachusetts, think the fully robotised home could be economically feasible for middle-income families within fifteen years. A number of the components of such homes have been realised in prototype and seem very near the production stage.

A number of scientists, including Nobel laureates Six Peter Medawar, Francis Crick and Linus Pauling, believe that incompatible persons should be restrained by law from marrying one another or, in any event, from having children with one another. Dr Pauling has suggested, only half in jest that people who carry defective genes should have that

ME LOVE YOU & WANT TO THANK Y SO MUCH FOR THE TIMELY MAILING "GOD'S GUARANTEES" & "SUPER-DUPERS". They are such heavy

Letters.

I WAS GOING TO TRY FOR A JOURNY-MAN'S CERTIFICATE IN COMMERCIAL PAINTING & was having a real battle about it. Last year I couldn't find work after all these years of living by faith. I was suddenly with a wife & child in a country (Canada) that is pretty well finished & has had the message for 10 years.

ished & has had the message for 10 years.

MELL. EVENTUALLY AFTER A LONG. COLD WINTER, I FOUND A JOB with a union, painting. And the Lord really used it to help me get a large truck & 11-foot camper. I think it was a real miracle, having never driven before & with no help from parents or anyone, just watching God do such miracles.

HOWEVER. WINTER IS COMING, & we began to feel the cold. I knew that I either had to get an apartment or we had to leave. The only problem was that we had spent all year getting mobile & had spent most of our money fixing up the truck. I was desperate for an answer as to what we should do, because God had really been blessing me with my job. We also were provisioning two to three meals a week & provisioning campgrounds too. I thought it was God's will to "schtick".

WELL. GOD ANSWERED THRU ISAIAH 52:11: "Depart ye, depart ye, go

to "schtick".

WELL, GOD ANSWERED THRU ISAIAH

But I needed a little bit of en-

Couragement; I needed "God's, Guarantees" & "Super-Dupers"! It was like you wrote those Letters personally to me, & I could hear the voice of God calling & wooing me thru the Mo Letters!

ALSO, THE WEEK BEFORE, WE HAD RECEIVED THE FIRST "REVELATION SERIES" TAPES, I'll tell you something, Dad, that Hawaiian music is just the perfect thing! When you say, "Don't you wish you were here with the rest of the Family down here," we can just feel the Spirit wooing!

MELL, ME TOOK OFF TO VANCOUVER, about a 1,000-mile trip thru the mountains, & I took God literally with that quote of yours: "He's better than a salary!" I said to Jesus: Lord, You said You could provide better than a System job; I want you to prove it!" And bang! In the next two days it took to get to Vancouver, we'd spent \$5, & the Lord provided close to \$200 worth of gas & food!

WE WANTED TO GO TO MEXICO NEXT MONTH, but thru wise counsel & direct checks we decided to stay for our knew disciple to come (now just 2 weeks to go). We've been in this province almost three weeks, & now the Lord has opened a door for us to stay at the Home of a brother & sister to have the baby (too cold for haby in camper).

SO I LOVE YOU. WE LOVE YOU. Thanks for all the help & support in the Spirit! We're going to try raise Home.

SO I LOVE YOU. WE LOVE YOU.
Thanks for all the help 5 support in the Spirit! We're going to try to raise Home Support during the next month or two so we won't have to come back to Canada. Talk about cold now! Dear Dad & Maria,

GBY1 WLY & we need you more than words can tell! Well, it's beam 5 days since we all heard the RD of "To Be or Not to Be?" & we just want to tell you how happy we are for the letter & for the effect it's already having on the work! It's causing a real wit/lit explosion that Chile's meeded for so ings! FU! It's especially timely for all the mescemers who've been wondering what kind of ministry they can have here in Chile.

God bless both you and the litnessers, these "young turks" who kept pushing their point 'til the truth came out! Boy, it was pretty shocking for most of us who'd been leading pretty quiet seich lives! (Tho' meany of us were trying to witness & get out the lit, either DTD or personally) Thanks so much for waking as up to get back to the "straight & marrow" of "preaching the gospel to every creature!"

First of all, me'd personally like to spologise to you & any of those we've offended or influenced in a bad way thru' any of our statements or stands which leaned toward being too selah. Surely we need to get our priorities turned rightside up, & sad to say, it took one of those "personal letter" from you, Dadk Maria, to do it! Please forgive us! How wrong we've been!

Lord help us to get back on the right track without wasting time! We've invited the litnessers back to fellowship & we really pray that all offenses & wounds will be healed & southed by God's Love & grace! Also, we're all out litnessing as each feels led, some on the streets, some at traffic lights. some DTD, some burs-litnessing, but always moving so as not to be an easy terget for authorities. So far it's gone great & everyone's more inspired than ever! There's that a something special about going out & getting out he lit! It's really a great leveler, just gotting back to being God's neweboys! Oreat for humility as well as unity!

After reeding the Letter together at the Santiago acM last Thursday night, we received acout an hour & a half of encouraging prophedies, verses, sto. that just flowed non-stop (see enclosed summery). It was like the rug had really been pulled out from under us & the Lord could really get thru!
Ball What a liberation, & what a heavy lesson that we pray will stay in grained in our hearts & minds forever! Lord forgive us & help us!
The good fruits are already coming in & we can immediately see it in our lives & the lives of the brethren here! We're now doing a video (Chile's first after F&l's visit last Narco) which we hope will really in spire you & encourage you, as you do us! It's amaring the faith you continue to have in us in spite of our mistakes, especially big ones, like this!

Dear Dad & Maria,

GBYAKY! ILYSM! I just want to
thank you for sending us a rough

something to come along that line!

careful because begging & singing

But we believe God will protect us
to give out the message & reap the

From Riphath & Cyprus; Chile:

ear Dad & Maria, GBY! WLYSM! WE'RE WRITING TO GBY! MLYSM! WE'RE WRITING TO THANK YOU SO VERY MUCH FOR YOUR GENEROUS DONATION TO US! It was a tremendous encouragement & convicted us to be more faithful than ever to get out your words & do our best for Jesus! It came at just the right time to really lift our spirits & encourage us that we must

De doing something right despite all the opposition we'd received because of our litnessing. Thank you so very much. WLY!

AND THEN WE RECEIVED A COPY OF "TO BE OR NOT TO BE", & we were so encouraged! What a liberation that was to us! We felt like we were part of the Family again & that the Mo Letters & Bible really meant what they said!

SO MANY TIMES WHEN WE HAD BEEN IN THE THICK OF BATTLE GETTING OUT THE WWW & trying to feed the sheep & winning victories, we would be told it wasn't possible to do this or that, & we finally started feeling like the old elder when he sent the covers of his Bible back to the modernistic preacher. It was so discouraging when we were risking our lives climbing the mountain to be told, "You can't climb mountains hère!"

THANK YOU SO MUCH FOR THAT LETTER DAIS MEDILE OUR hisgast home.

"You can't climb mountains here!"

THANK YOU SO MUCH FOR THAT LETTER DAD & MARIA; Our biggest hope is that it will give more people the faith to get out the lit and reach the sheep before it is too late! We pray that in the coming year we'll be able to work together more than ever to win the lost sheep here with the words of life!

From Joseph Michael: Chile:

Dear Dad & Maria,
I LOVE YOU DEARLY! GBYACTMYAB
to us & the whole World. This let-

ter Is an account of what the Lord has shown me personally about how & why I got so far out of God's will here in Chile & some of the scriptures I've received to help me back on the track & into full-time service!

OF COURSE I REALISE THAT THE EASIEST WAY TO HAVE AVOIDED THIS PIT-FALL would have been to be instantly obedient to each new Mo Letter when it came out instead of always looking for ways & excuses to get discharged from this war!--A subtle sub-conscious motivation that has influenced me to an extent that I didn't realise since my time living & working in the House of Saul as Deb & Jeth's personal helpers in Peru from 1976 to 1978.

DELUSION MUST BE DESTROYED TO MULTIN A FEW FOUNDATION OF TRUTH

ronal helpers in Peru from 1976 to 1978.

PELUSION MUST BE DESTROYED TO BUILD A FIRM FOUNDATION OF TRUTH, 6 this latest Letter, "To Be Or Not To Be", along with "God's Guarantees" & "Serfs, Supers & Supers bear & put me back into the arena & out of the grandstand & shaken that Chain Saul deception & delusion once & for all! PG!

ME COULDN'T LIVE WITHOUT YOU & MEE COULDN'T LIVE WITHOUT YOU & MEE COULDN'T LIVE WITHOUT YOU & MEE ARRIVED IN CHILE IN DECEMBER OF 1978 & received the NRS series in the beginning of 1979. Being in abad spot financially because we didn't do our best to get out & work hard & earn it one way or another, either by witnessing, litnessing, singing or just the haid work of trusting God by faith & writing prayer letters & holding meetings or whatever, I clung to a few verses that spoke about settling down & having System jobs, & I rescued myself prematurely from living by faith & then found excuses for not being able to witness

openly!

openly!
LOOKING BACK, I CAN HONESTLY
ASK MYSELF WHAT MY SO-CALLED "COYER" WAS FOR if I wasn't litnessing
& witnessing? I wasn't being just
"selah"; the correct terminology
is "backslidden". I settled down &
quit drinking the water of life &
quit eating the spiritual food &
quit eliminating daily besetting
sins & quit moving forward & died
on the vine.

AS BROUGHT OUT IN LETTER #836.

on the vine.

AS BROUGHT OUT IN LETTER #836,
I became dependent on personal
opinions & not dependent on the
Words straight from the horse's
mouth --God's Words! I became one
of those who knew that the field
"conditions" made us "apart from
the normal situation & therefore
a special case--so even though it
says so & so in the latest Letters,
it doesn't really apply to us!"
SO SINCE MY DEEDS WERE EVIL & I

it doesn't really apply to us!"

SO SINCE MY DEEDS WERE EVIL & I
STILL HAD A CLOAK FOR MY SIN (SINCE
REMOVED BY "TO BE OR NOT TO BE"),
it caused no small stir when these
others arrived who were still in
full-time service serving Him fulltime, giving their full-time and
all that they had to serving the
Lord & devoting their full-time
& energies & everything to preaching the Gospel, witnessing, litnessing & not serving mammon & not
working for the Devil, but strictly
for the Lord!

SO. PG! I LOVE YOU DAD. & what

said in His wonderful Word! I'd just like to close with some scriptures that have really strengthened my convictions & encouraged me to take the steps of faith necessary to return to full-time service:
"WELL, LET ME TELL YOU RIGHT NOW,
God is our greatest source & He has the greatest income, & the best place in the World to be is in the centre of His will to make super that your

more interested in saving souls and saving lives than He is in saving money & saving homes or former ministries & former places & former easy comfortable living."(1027:66)
"ARE YOU IN THE ARMY-OR A MERE CIVILIAN? GBY. Civilians are needed too & there are billions of them, but we are an army of only a few thousand to fight this war & we cannot be dragged down & defeated by civilian jobs! Let the World care for its own & the dead bury their own dead & you come follow Jesus!"(#1033:26)
(Also 1036:55 & 1033:68)!

Sesus. (#155.72) (#155.105:33 £ 1033:68)! P.S. NOW I'M SERVING GOD FULL-TIME in deed & in truth every day by going out litnessing & witnessing & living by faith! (Ames! & Ay! way!)

Prom Jonathan & Sarah; Chile:
Dear Dad & Maria,

GBY! WE LOVE YOU & NEED YOU &
ARE PRAYING FOR YOU! We are writing
first of all in answer to the Letter "To Be Or Not To Be" that came
to us from you. I don't really know
how to express myself in situations
like this, because the joy in our
hearts that we felt upon receiving
the Letter was something that we
probably never felt before in our
lives! So we just want to tell you
both that we love you from the very
bottom of our hearts, & we thank
you for such a beautiful, encouraging & strengthening Letter that not
only brought the truth to light,
destroying the dirty lies of the
Enemy, but also shows clearly as
usual that your hearts are always
ready to take the side of anybody
who is mistreated & urjustly accused
from the lies of the Enemy--just as
Jesus always defends us when the
Devil accuses us in the presence
of God!

THANN YOU AGAIN FOR ALL THAT YOU

THANN. YOU AGAIN FOR ALL THAT YOU HAVE BEEN DOING FOR US, for writing the Letter & especially for the

priceless privilege of receiving it personally thru dear Keren--that was really the frosting on top of the cake! What a beautiful gift it

the cake! What a beautiful gift it was!

WELL DURING THE PAST THREE MONTI THE LORD WAS ENCOURAGING US & predicting to us that we would see the truth brought to light, but not before passing thru some kind of seering defeat—but that if we would be faithful to His Word & ready to go thru the fiery furnace, He would bring us out of it without even the smell of smoke. Needless to say, the Word & only the Word was able to give us the strength to make it. TYJ!

"TO BE OR NOT TO BE" WAS LIKE A BOMB EXPLODING, & there were peoplically breaking & praying. For many it was like a liberation from the bondage of the fear of man, & it finally seems that a lot of people can go according to a bigger faith. Too bad that they had to wait for a personal scolding from you instead of just being more faithful in studying the Word & finding the answers in the Bible & Letters.

Like you said, they can never have the faith unless they have the Word & dig in it. Now the Word Like you said, they can never have the faith unless they have the Word & dig in it. Now the Word came & they got the faith! How sad that, like Jesus said, "If they don't see miracles they will not believe." Well, PTL, while there is life there is hope! Now we feel that our job is to just forgive whole-heartedly those who repent! PTL! TYJ!

B News From Tenerife!

SEEDS PLANTED YEARS AGO ARE STILL GROWING & BEARING FRUIT!

From Jose & Calla; Tenerife:

THIS MONTH THE LORG GAVE
US TWO NEW DISCIPLES. When
Juanjo went for a short
visit to his family on the
mainland, he brought along
two new disciples when he
returned. One of them is
his inice who is now of
legal age & the other is
abeautiful sister who had
left the Family 5 years
age but finally found her
way back to the house of
the Father. PTL:
SO MOW ON THE ISLAND WE
ARE FIVE BOYS: Paco who is
working in a bank; Gabriel
who has a wonderful & fruitful ministry in a Catholic
school as an English teacher
& has won lots of soule &
is trying to win some disciples of the girls who have
already graduated; bernardo
who is selling pictures &
working in the restaurant;
Quanjo who is doing Komix
Guilline; and I(Jose) am
litnessing & witnessing.

AND WE HAVE IZ GIRLS:
Maria Angeles who has two
daughters; Esperanza who is
pregnant; Quina Gabriel's
wife) who has 3 children;
Marche (the wife of Paco)
who is pregnant & has four
children-one of them is
Maria Jesus who is already
13 years old; the other
girls are Lynn of Bernardo
who has 2 children; Palloma
who has one boy & is pregnant again; Joyce who has
a boy & is pregnant again; and Cesla who has
three little girls. And withthe two new disciples, that
is pretty much the personnel
here--5 brothers, 12 sisters
& 16 children, with 5 more
on the way. It is certainly
the island of love and fertility!

MARIA ANGELES IS PLANNING
TO 50 TO S.A. 2001 with her
two daughters, & Esperanza's
planning to go to S.A. also.

YEARS AGO ARE STILL GROWING & BEARING FRUIT:

1. PACO & MERCHE WERE ALSO TALKING ABOUT THE POSSIBLATIVE OF PORSAKING ALL HERE & going to S.A. with all the children, but that is not in the very near future. At present Paco's children are litnessing & winning souls, & his eldest daughter, Meria Jesus, is really on fire & leading other teenagers to Jesus!

SOMEBODY ELSE WHO IS REALLY GROKING VERY MUCH IS ALFREDO. Carolina started getting interested in the Word & in the Family again. Then he got saved & his rife started to change. He started memorising scriptures & phoning every day for fellowship, & his 5-year-old son got saved with him & likes the Komix. Alfredo is also very faithfully witnessing in Cafe de Paris, even to the other waiters there who are somewhat reluctant to accept the Family beliefs even though they are outwardly friendly. He also believes that Carolina's baby still in her womb is his because he prayed for her to have a baby by him:

THE FOLLOWING IS A LETTER TROM ROSENDO, one of the "Tacoronte Boys". His letter began by telling about where he has been p to captain etc."...AS YOU CAN IMAGINE. I. JON'T HAVE A CERTAIN DWELL-IRG PLACE & my contract with him to live trusting & having faith in Him.

TO see her there also believes the family beliefs even though they are outwardly friendly. He also believes that Carolina's baby still in her womb is his because he prayed for her to have a baby by him:

THE FOLLOWING IS A LETTER TROM PUBLIFICATION OF THE PROFITED TO THE TROM TO THE TROM

"ME LOVE A LOT & ME BELIFVE THAT PEOPLE WERE MADE
TO HAVE CHILDREN. The children are an important part
of God's work." This is
how Daniel expresses himself; he is one of the vistian Family camp by Sundet
(where Scandinavian Area
Fellowship Heeting was held)
AT FIRST GLANCE YOU UNDERSTAND THAT CHILDREN MEAN A
LOT TO THE FAMILIES IN THIS
CAMP. Children of all ages
are crawling, walking and
running between the tents
& caravana. Hany of the
children haven't yet been
born; they are resting
securely in mommys' stomachs. There were many pregnant women attending this
one-week camp which ended
on Wednesday.
"THE REASON MHY WE ARE GETTING TOGETHER is to get new
friends & contacts. It is
initiated privately & we
don't belong to any church.
The camp is ecumenical &
includes people from all
over the Nordic countries.
We even have some visitors
from Iceland," says
