

### "THE CHURCH OF LOVE!"

Our introduction of the "Church of Love" to the local people according to Dad's counsel was a big hit, too! Praise the Lord! It really seems to be what some of our friends need. God is so faithful to open new doors to reach more people!

We had the little service out on the terrace, like we used to have those big meetings. Thirteen visitors came, plus all the Family, so it was quite a big meeting! One of our women friends came with her two daughters, aged 16 and 11. Also Rachel's Jewish friend and another friend whom we have known for a long time—a tennis pro in Puerto—plus three new friends we had met during the week, plus the three Tacorrante boys whom we hadn't seen in ages, and also a friend of ours Teri from Santa Cruz who has offered the use of her apartment to house our witnessing and catacombers colony there. She brought a friend of hers whom she led to the Lord! PTL!

They read "I Gotta Split", which everyone loved, and it gave them the vision for how important the Words are, and how we need to study to show ourselves approved. Afterwards, we put an offering plate on the table and people made small donations. Juan didn't say how much was put in the plate, but he said that afterwards Rachel's friend came to him and said that he didn't want to put anything in the plate but he handed 2,000 pesetas (\$24) to Juan! PTL!

This is a really wonderful way to witness to many of our friends who are still weak and need to go to a

"church" to feel like they've worshipped. And it pays off in eternal rewards too—two souls and one Holy Spirit last Saturday! That's the greatest "pay" in the world! Hallelujah! (Oh, I almost forgot—Juan said they did a heavy skit at the beginning of the service, too, which the people really liked and responded well to.)

### CAFE SINGING!

Ricardo got us all turned on to the idea of singing at a few of the clubs and cafeterias in another town. He had already pre-arranged everything with one cafeteria which is where a lot of the "better" folks in town go in the early evening. So we prayed about it and counselled together, and we were really turned on about the idea of this conservative old town wanting the Family to come do something there too!

Since then things have really exploded! PTL! This past week, Sofia, Monty and a close friend of ours who is a professional musician out of work right now and is living with us, sang at two clubs there and at

one club in Puerto. Ricardo has arranged all of this music explosion through friends of his who own these clubs and are interested in drawing clients to their bars by using the Family of Love, but, praise the Lord, it gets the Message out!

One is a club for radical young politicians, and the other club attracts the top people of the town during the week when they usually don't come all the way to Puerto but just go out for a little bit. At this one club the owner donated 2,000 ptas. plus put a free bottle of whiskey on our table, so that if a small group of the Family goes to witness during the singing, they get free drinks, and also we have drinks to offer our guests and friends who show up. The owner wants them to come at least two nights a week, depending on how often they want to go.

In Puerto they played at an English pub filled mostly with tourists. They said it went real well there, too, and that the owner asked them back and said his doors were open whenever they wanted to come.

We are really excited at the possibilities of this means of witnessing. For so long we have wanted to find a nice club where the music has a good spirit and is not too loud, so we can sit and just talk with our

friends and fish and really reach their hearts, and now the Lord is giving us just what we wanted!—And we even get to choose the music and the volume level! PTL! We are excitedly awaiting the fruit these singing engagements will bear, and we are sending along small witnessing teams with them, to minister to the people there. The singers also take turns—they don't all play together all the time—so they are able to do some witnessing also, which is a blessing for both them and the visitors.

### PROVISIONING MIRACLES!

During a united meeting of all the brethren on the Island, we decided to try to purchase all our fruit and vegetables and meat through a large market in a neighbouring town, as prices are so much cheaper and the goods are so much fresher.

So Celia and Lee went to the market at 6 a.m. one morning, and they ended up provisioning all the groceries for the entire week for all three houses! PTL!! And they made a permanent meat contact who said that he would give them whatever meat and fish they needed each week! Lord bless them for their faith! Isn't that wonderful? And what a testimony to all of the way the Lord provides for His children!

From a report to Dad from Sally.

### DAD'S MESSAGE TO THE INDIGENOUS CHURCH IN TENERIFE! . . .

God willing, I'll be back! You kids left there are the Indigenous Church. You remaining there are commissioned by the Lord to feed the sheep.

When I have to leave someplace, it's never the end! It's usually the

beginning of a bigger explosion! What has happened there and has yet to happen will influence the whole world! It's only the beginning!

(Quotes from "I'll Be Back!" 579:5,7,13)

## Fishers of [Wo]men

### THOUGHTS AND EXPERIENCES IN FF'ING GIRLS!

Dear MO, I just want to tell you that your sacrifices in the FF Revolution are to me beyond words, and I love and appreciate you so much for them and you are the mightiest warrior for the Lord I've ever seen in all His-story. My two favorite Letters of yours are "Mothers of God" and "Afflictions", and also "God's Only Law Is Love". They are so beautiful it's incredible!

Something I have found out in winning girls and women to the Family: It entails all the same sacrifices like the girls have with the men, because compared to some brief pleasure that you might receive in wooing them physically, the hours of going through spiritual battles and feeding your baby and prayer for them and giving them all your mind, heart and soul constantly to help to pull them through and then you know only the Lord can do it, then turning them over to someone else when most of the battle is over, really outweighs any illusion that it's only fun and games for the men! And I know that you

know more than anyone else, with your experiences with Ruth, "The Dancer" and probably many more.

The Lord gave me the first Portuguese disciple in Portugal—a 29-year-old girl. Her first week in the Family I was asked to help her and counsel her, and from time to time she needed physical reassurance, so I'd engage in fairly heavy "petting" with her until she was reassured. After a short time in the Family she got married to a boy whom the Lord gave me as a disciple also. But what I'm really trying to get

at is this:

I believe, just my personal opinion, that FF'ing for guys to win women has been very underestimated. Although sometimes it's a little more work than a woman offering herself to a man, it has great potential from what I've seen through personal experience.—Especially if over half of a country's leadership in their society, arts, politics, etc. are women—like in Russia and America.

From what I saw in India, practically all their leadership potential coming up in their colleges is women! It's mostly women who organise all their programs, keep them moving from behind the scenes, do all the PR, and minister very aptly afterward to all the guests of their programs.—Really bright young women who need a lot of love and new radical ideas shown to them before they ever trust you.—And so beautiful, it's astonishing sometimes!

With women taking the leadership

role more nowadays, I've also found them to be taking the role of going openly or boldly after the man, and that makes us fair game. But it does call for the right frame of mind and plan of attack to have a Revolution in this area, along with the woman's side, and so it'll have to be pioneered to be tried and proven. But I see incredible potential from relating to and seeing women and their roles and desires and needs in the temporal and spiritual world of today—the last days.

Women in general are going through a big identity search and really need a lot of understanding and love. What's happening in the Arab countries is a topic all in itself because there are women who have tasted some freedom, but what a horrible inhumane prison they are surrounded by! God will have to perform a mighty miracle for those poor girls who want to get free from that hell. And I know He will somehow!

—David Psalms.

### A WORD FROM DAD ON FISHING FOR GIRLS!

Male fish can be satisfied with a mere nibble or a bite. Whereas the female fish want the fisherman, the tackle, the trap, and the whole darn boat! So this explains why it is a lot easier to fish for male fish than for female fish. Which makes it a little more difficult to catch females than males!

But don't give up! Promise her everything and give her whatever she needs, and she'll remain one of your loyal faithful devotees forever!

So if it is stick-tuitive quality you want, "fruit that remains" (Jn.15:

16), go after the females! Although we have twice as many males in the Family, we've found the females stick around longer, believe it or not! So they're worth promising everything to to catch 'em!

So go after those gals, guys. They're great! They make terrific wives!—And we've got everything in our Family to give 'em! You've got everything they always wanted! Use it!—You just need to teach 'em to share a bit, like we do them!—Ha! Happy hookin'!—In Jesus name!

(Quotes from No. 529:43-51 by MO.)
