The Fruits of Your Love!

A Thank-you Letter to Dad and Maria from a daily visitor to their Home!

Dearest Dad and Maria,
God bless you! I love you so much! I just wanted to write you to thank you for a couple of things. First, thanks so much for the raise in our monthly gift; it's a great help and greatly appreciated. We all love you so much!

Secondly, I want to thank you for the priceless privilege of being able to come daily to your house and to be able to witness firsthand the fruits of your love in those who live with you. The sample of love from your precious Family is something that I shall never forget! My prayer now is that I can share that love and sample with everyone I meet, especially those in the Family.

Everyday when I came over to deliver the mail and reports, everyone was so kind and loving to me, always complimenting, encourag-

ing—the hugs and kisses, the smiles, the concern. Never have I experienced this to such an extent in the Family. To b. honest, I really miss it now that you've moved. I love everyone there so much, more than words can say!

I must confess that when I first came over I thought, "Gee, isn't this a little corny and over-done? These people aren't 'chic' and 'cool' and 'in'." When I saw how simply everyone lived—simple clothes, free samples of perfume, etc., I thought, "But what about all the fancy expensive things, fancy clothes, etc. that I've seen in the past?" Honestly, I rebelled somewhat in my heart!

But slowly day after day, the Lord, through the sample of your house, began to change my heart. After meeting you, Maria, I really began to see that I was wrong, dead

wrong! Then I noticed more and more a change in Timothy. He seemed to be coming more and more to your ways and your sample and more away from the ways of the past. This really helped me a lot.

In the last days before you left, I got to talk a lot with Sara and Sue and ask a lot of questions and get a lot of counsel. They too really helped me. God bless 'em! Since you've gone, I've had the opportunity to see a few Family members whom I haven't seen in such a long time. I feel so responsible to pass on the sample of love and concern and obedience to the Letters, which was shown to me and which is so lacking in the overall Family.

If only we all would take the Letters more seriously and obey them with all our hearts! It hurts me to see how I've failed in this, and by God's grace I want to totally change.

I only wish all the Family could see the sample that I've seen from all of you, for then would they see the seriousness of our job for the Lord and how important it is to obey and especially to really have the Spirit of Love.

I love you so much and could never thank you enough for all you've done. Because of your faithfulness I am here today. Without your precious words I couldn't be happy. Thank you, dear Dad! Please forgive me if this is so long and gooshy, but it's what's on my heart and I just wanted to tell you!

Thank you, Maria, for talking to my wife that day. It has really caused a change in her. She was so happy to meet you and she too is thankful for the beautiful sample which she received. We both are really going through some changes—drastic ones—so please keep us in your prayers. Maria, each time I talked to you I felt like I opened my mouth and stuck my foot in it. Ha! Sorry! Please forgive me! I love you!

Please forgive me for taking up so much of your time with this long letter, but I felt compelled to write and thank you for this wonderful time of love. I love you more than I could ever tell, so I hope to show my love for you by keeping your commandments. "As for me and my house, we will serve the Lord!" Hallelujah! I love you!

Much love from a thankful son,
Peter (KQS Office, Europe.)

MO'S POINTERS FOR HEALTH

MIGRAINE HEADACHES

(In answer to a question about the causes and cures of migraine headaches.)

I've had no personal experience with migraines—or hardly even any—but the folks I've known who have, I was convinced it was from

either worry, nervous strain or demonic attack—or all three!

In any case, the only healings I've heard of were thru' desperate prayer!—So PRAY!—Have others around and pray together for you and claim the promises!—And receive it!—Amen! Praying! GBY!

A Brother Stands Up For Our Mothers & Sisters.

by Jonas Lovesong:
Alicante, Spain.

Dearest Papa & Maria,
Greetings and Love in Jesus' Name! My heart just thrills thinking of you both! I love you! It really thrilled me so to listen to you making love on that tape! My Lord! What sweet love! I feel so much closer to you both. Thank you eternally for your sample of love and mercy!

There's something that's been on my heart for a long time. Personally, I feel responsible for every sister in our Home as if she were my wife—and in reality she is! I try to make them feel secure in that we together as a Family will take care of them and their (our) children.

Women need security and love and a safe place to rear their young. I know some sisters who are worried about getting pregnant and having more children. I know it wasn't that way in Tenerife, as I've talked with some who were there and they all said it was a blessing and privilege to be with child.

But Dad, here on the field many times pregnant mothers and children are seen as a burden, or they feel like they are a burden. Pregnancy is a very difficult time for some mothers and can really be a life-changing experience for some.

They need, at this time especially, a lot of love and understanding, spiritual guidance, and of course the Word. (Amen!—Dad)

It's nice if you have someone special on whom you can depend, but many do not. I mean if a sister doesn't have a husband or permanent mate, can she depend on her Family to take care of her through thick and thin, morning sickness and all? I believe many mothers and sisters may get discouraged if they don't see some changes along this line soon. You've already really written enough about it in "One Wife", but perhaps we need something specific on it. (More love!)

I hate to see us lose precious sisters because we fail them right when they need us the most. They are a weaker vessel, and we need to bestow more abundant honour on them. If we could just stick it out and meet their needs, they'd be forever grateful and loyal to the end, as you pointed out in "Male or Female".

So all this to say that I'm standing up for our mothers and sisters! I want to see them FF'ing freely and living the Letters to the full, knowing that we, their brothers in the Lord, stand behind them and partake of their burdens of pregnancy and children (which are really blessings). (Amen!)

If they lay down their lives for their brothers in the bed of love, we must and should lay down our lives for them in their time of need! Hope this helps our precious sisters! I know you're doing all you can for us and we are eternally thankful. We love you and need you so!

Dearest Dad,
I wanted to give you a gift Of something that would say "Happy Birthday, Dad!" In a personal way—

Not a gift that money bought You wouldn't use, so I thought, Better to spend this time with you Writing a love poem just for you—Coming from my heart engraved With the love of my David

Your mouth most sweet I gently kiss Your dear warm body with love caress & pray that God will always bless Our love with moments just like this Spent together in His bliss.

I can love you with words I write In the calm & silence of the night & I can love you all the day Following your words in every way!

—With love forever!—Ruthie.
