

8. CARE OF BOTTLE & NIPPLE BRUSHES: Keep them very clean! Never leave them in the dish water in which other dishes are being washed as food particles will adhere to them. Keep them in a separate place with other baby equipment. Sterilise them regularly.

STERILISING METHODS

THE BOILING METHOD: Place clean bottles & nipples in a pan of cold water that completely covers them. Bring to a boil and boil for at least 5 minutes. You can add a spoonful of vinegar to the water, while boiling to prevent the white film caused by mineral deposits from clinging to the bottles. After boiling, leave to cool in the same water.

BOILING LIKE THIS CAN RUIN THE RUBBER OF THE NIPPLES eventually. To save on wear, sterilise nipples separately in a little saucepan by putting them into the boiling water for only 3 minutes or so.

Watch them closely so the water doesn't boil away!

AFTER STERILISING, remove the bottles when cooled & immediately fill with formula & refrigerate until use, or keep bottles under water & covered in the pan until use.

CHEMICAL METHOD: Some mothers prefer to use such solutions as "Milton" for thorough sterilising of baby bottles, nipples, spoons, pacifiers etc. It can be expensive, but is also a time saver, does a more thorough sterilising job and is less wear on the nipples than rapid boiling. The holes of the nipples may need adjusting from time to time because the rubber swells from being soaked. Follow the instructions on the sterilising kit or solution bottle carefully. Be sure to wash your hands before handling the sterilised equipment. No bad effects have been reported from this chemical method. ("Cleanliness is Godliness!"—676:20.)

fishness, independence and all those things. All my sins were exposed in the light and I just have to face them and fight them now. I don't really know how to explain this all, but I hope you understand—and that most of all I love you.

I'M SO SORRY I FAILED JESUS, YOU, KEDA and the Family and I really feel I've lived the words that you said, "I was going to be the sorriest girl in the world." It's really tormenting to realise how greatly I failed the Lord, and I don't ever expect anything from Him or the Fam-

ily again, although I know His Love and mercy are great.

PLEASE FORGIVE ME FOR ALL MY FAILURES & lack of love & following the Letters. I'm really praying the Lord changes me because I really want to do what's best for His Kingdom. Please keep me in your prayers.

THE LORD HAS BLESSED ME WITH A BABY to be born in three months! So far, everything's been going well. Please give my love to Sara & Davidito. God bless & keep you safe! I love you! (GBY!—DAD.)
—Your prodigal daughter, Toni.

Tape Care Tips

To help you get longer life & better quality from your Wild Wind Tapes! (& others!) by Beriah Wire (Mr. Wild Wind)

THE MOST COMMON PROBLEM with cassette tapes is they get "eaten" by cassette players. The 3 main causes are: 1) Dirty heads & pinch rollers; 2) The tape sticking in the cassette shell; 3) A faulty tape player. Here are some tips on how to avoid these problems!

1. HEADS & PINCH ROLLERS: These should be cleaned regularly, at least every 10-20 cassettes, depending on the tape quality, age & cleanliness. You should do this with a clean cotton swab dipped in pure medicinal alcohol (spirit will do it; alcohol isn't available). Carefully rub the heads until clean. Then put the machine on play & carefully press the cotton swab, with your finger, against the right side of the revolving capstan where it touches the pinch wheel (make sure it does

not get wound in between the two) until these are also clean. It's best not to use cleaning cassettes, as these tend to be abrasive & wear down the important parts of your player.

2. TAPES THAT STICK: This can be caused by a badly aligned play or rewind spindle in the tape player, slack belts, stopping & starting the cassette too many times, or jumping from play to rewind to forward. It is a very common occurrence & can usually be cured by holding the cassette in one corner & smartly tapping it several times on your other hand—one side, then the other. This usually brings the spools of tape back into a regular position & helps it flow smoothly again.

TRY TO ALWAYS PLAY YOUR TAPES ALL THE WAY THRU one side to the end & keep them stored with all the tape on one spool or the other. This helps even-winding & if the tape gets pulled out or dirty, all that is affected is the leader tape.

3. A FAULTY MACHINE: This is also a common problem, especially with the cheaper machines, although after a while with most tape players the drive belts can become slack & need replacing. This can cause tapes to stick or be "eaten", especially if the take-up mechanism stops turning or slows down.

WHEN BUYING A MACHINE, STICK TO RELIABLE BRANDS & don't buy the cheapest—it's normally not worth it! Look for machines with an auto-stop triggered by the spindle not turning, rather than by

tension, or a machine without an auto-stop at all. This will save a lot of tapes from becoming damaged, as this type tend to stop when anything goes wrong.

CASSETTE DON'TS & DO'S: **DON'T** put cassettes on or near magnets, electric motors, transformers or speakers. This can erase them completely or partially!

DON'T leave cassettes in hot sunlight or on radiators!

DON'T leave them in the kitchen near fat or other things that could splash on them or your cassette player!

DON'T stop & start too frequently! **DON'T** forget to play without ceasing! **DO** clean tape recorder heads & pinch wheels often!

DO tap tapes to even spool windings! **DO** wind tapes all the way to the end! **DO** store in clean, dry, cool place!

DO remember that he that is faithful in that which is least, is faithful also in that which is much!

GOD BLESS YOU! WE LOVE YOU! We hope these tips will help you get longer life out of your cassette player & tapes!—Beriah. (Editor: Wild Wind Tapes has a wide variety of Family tapes, including MO, Grandmother, scripture, music & children's tapes! Each tape is \$3.00 plus \$4.00 airmail outside Europe. Send for a complete listing. Address: Wild Wind Tapes, B.P. 3191, 31027 Toulouse, Cedex, France. Make cheques & money orders payable to Mr. N.K. Hicks.)

APOLOGY FROM—"The girl who wouldn't!"

Dearest Dad & Maria, **GOD BLESS YOU BOTH IN JESUS' PRECIOUS NAME!** Happy New Year to you and all the Family there. Well, I started to write to you so many times to share all the Lord has taught me since the Letter "The Girl Who Wouldn't" came out, but it's sure not easy to put on paper. Tonight, though, I decided to do it once and for all and to mail it, Lord helping me!

FIRST OF ALL, I WANT TO THANK YOU for all your labours and letters that we all need so, and you so faithfully give. And I sure needed "The Girl Who Wouldn't".

It still really hurts to read it and to tell you the truth it almost makes me sick physically, but I know I really need it each time.

I STILL HAVE SUCH A LONG WAY TO GO and so many besetting sins that Jesus has to continually help me with, but I just can't excuse them anymore. They're point-blank in black and white, and everyone else knows them too. There's no more hiding anything.

EVERYTHING YOU EXPOSED IN THAT LETTER WAS REALLY TRUE. Now I can't just live with myself like that but really have to fight my pride, unyieldedness, sel-

CHILDREN OF THE FAMILY SING FOR THE PRESIDENT!

President Ferdinand Marcos of the Philippines thanks members of the Family after singing for him! The Family had been invited by our friends (in the background) to attend a social rally where the President would be speaking, in the hope that we would be able to sing for him & inspire him as they had been inspired by our happy songs.

AS THE PRESIDENT FINISHED HIS SPEECH, one of our friends jumped to the microphone & said, "Mr. President, we want you to meet a group whose motto is, 'You never lose by giving!' And they have some songs for you!" So we all clamoured on stage to sing with the children three songs in Tagalog. As you can see, he is quite pleased!

THEY ALSO PRESENTED HIM WITH A PACKAGE OF MO LETTERS & discussed briefly the work of our worldwide Family in bringing the Love of God to people, & the persecution we have received through "deprogramming" in the U.S. and other so-called free countries of the

Western world, which are now passing legislation which will further endanger small religious groups & their freedom to serve God!

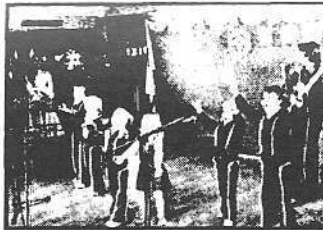

FAITHY KISSING THE PRESIDENT!

A little bit of love goes a long way! We even got to give him a kiss as we thanked him for receiving us & the children! We also told him Father David sent his love & prayers for him & his country. The audience applauded, showing their approval of our sincere show of affection for their President. We also later received an autographed photo of him with the children signed, "To the Family, Best Wishes, Ferdinand Marcos."

AS THE PRESIDENT OF THE ONLY CHRISTIAN NATION IN ASIA, we are so happy that we can help his 49 million people find greater happiness & hope in the Love of God through our music & literature. This singing event concluded our 3-month visit in the Philippines. And after helping our music group there to record a now hit record of "How Long You Been Waiting For Someone To Love You?" sung by our beautiful singer Liz, we bade farewell to the beautiful Philippines which

we grew to love very much & hope we can return to soon!

HONG KONG

THE SINGING 'HO FAMILY!

After the children of the "Ho Family" appeared on Chinese television in Hong Kong, the Sing Tao Newspaper asked them to record a cassette of 22 songs in Cantonese & English for the children of Hong Kong to be able to learn our happy songs while also learning English. It is now on sale all over Hong Kong. —Thanks to friends like Chito, a Philippine musician & nightclub singer, who donated their talents & time to help with the recording.

THE CHILDREN NOW HAVE MANY INVITATIONS TO SING in orphanages, hospitals, schools, shopping centres & even a leper colony in both Hong Kong & neighbouring Macau, where they are doing some programmes with the wife of the Governor of this small Portuguese Territory to help the poor. God bless the Family and the singing "Ho Family" who are reaching Hong Kong's 5 million people, including a very large children's population, with love!

THAILAND
LOOK! "DAD'S POINTERS FOR HEALTH!" We flew to Bangkok &

discovered this bag of raw sugar being sold in the stores, which has a quote from the Letter "Food or Poison" by Father David! What a surprise! The Family in Bangkok explained that a friend of theirs owns a raw sugar factory and after reading the Letter which advocates the use of natural sweeteners, calling refined white sugar a poison not fit for human consumption, he asked them to compile some quotes to place on every bag of his raw sugar! We are sure it's encouraging people to buy it!

SINGING AT AN INTERNATIONAL RESTAURANT! Jeremiah, Faithy, Deborah & Daniel sing at a popular international restaurant where we were well received by the mixed audience one Saturday night, ending with a song in Thai which the audience really applauded, as they were very pleased to see Westerners singing in Thai!
