The Jekyll & Hyde of the Plant World!

(From the "Int". Herald Tribune"

—1/3/79 by Weverley Root.)

PARIS: ABOUT 800 B.C. AN
ASSYRIAN HERBAL NOTED that
a certain food plant possessed "a
narcotic principle". Thus warned,
humans continued to eat it & are
still eating today a vegetable whose
cultivated form was described in a
dietetic article no longer ago than
1972 as "hypnotic" & whose wild
form is listed in a recent book on
medicinal herbs as "slightly narcotic."
A MODERN GASTRONOMIC
ENCYCLOPEDIA EXPLAINS that
it is chiefly the juice which is "narcotic, bearing a certain analogy to
the opium of the Levant," whether
wild or cultivated, & a second book
on medicinal herbs says the juice has
"a very bitter taste & a noxious odor similar to that of opium."

EXPOSED TO THE AIR, THE
JUICE THICKENS into a sort of
gum. "Formerly, great quantities
fish is never asthreed & cold to

gum. "Formerly, great quantities of this gum were gathered & sold to the drug trade," Euell Gibbons wrote, "it being considered only "Formerly, great quantitie slightly less valuable than opium. "IT LOOKS LIKE OPIUM, smells

like opium & even tastes a bit like raw opium." As for the whole plar "eaten...in some quantity," says a contemporary authority, "it has een known to cause coma."
WHAT IS THIS DANGEROUS

PLANT? Pliny gave the show away 19 centuries ago, when he referred to it, also because of its narcotic na-ture, as "poppy lettuce". He was not talking about a sort of poppy not talking about a sort or poppy which suggested lettuce, nor about a lettuce-like plant endowed with toxic qualities, nor even about a pai ticular species of genuine lettuce equipped with the weaponry of the

POPPY: HE WAS TALKING ABOUT THE ORDINARY everyday common-place lettuce that all of us eat, the food which the American public was induced to accept on its tables not much more than half a century ago as a "protective food" extolled for Ith of vitamins & mineral salts

CENT, CANDID LETTUCE, be the yll & Mr. Hyde of the plant Well, no. First, let it be ex

was bolted lettuce, which, exposed to unseasonable heat early in life, had gone to seed prematurely, engendering in the plant an unatural chemistry (akin to the draft which converted Jekyll into Hyde).

LETTUCE EATEN IN A NOR-MAL UNDEGENERATIVE STATE will do no harm, even in some quantity, though Gibbons did write:

"When I ate a large helping of the cooked greens, I became aware of a sort of languid drowsiness & feeling of well-being, as though I didn't have a care in the world...Now, whenever I feel nervous or irritable, I merely lunch or dine on wild lettuce greens & then bask in a feeling of complete relaxation."

ISSUED OF THE PROPERTY OF THE GIBBONS' EXPERIENCE MAY LEAD US TO REFLECT that "na cotic" is not necessarily a nasty word; narcotics, after all, are used in medicine. "Modern medical science," he continued, "says that (lettuce) has few, if any, of the physiological effects of opium, & it is, at the best, only a very mild seda

IT WAS FORMERLY USED AS A SUBSTITUTE FOR OPIUM in treating nervous diseases, for insomnia, for allaying the pain of rheuma tism & colic. to relieve coughing & to treat diarrhea

LETTUCE IS INDEED A CALM-ATIVE (because of its magnesium salts) & a soporific (because of its milky juice, known as lactucarium or in medical preparations as thri-

IT HAS BEEN USED MEDICAL LY SINCE VERY EARLY TIMES though not always for reasons whit would be considered valid today. For instance, the ancient Romans For instance, the ancient Romans fed it to pregnant women & nursing mothers on the theory that it promoted the production of milk, for this was the conclusion they drew from the observations that lettuce

ice js milky. THE ROMANS SERVED LET-TUCE WITH HEAVY DISHES their banquets as a digestive; & in-deed, whether or not it has any effect in helping to digest other food it is itself the most digestible of all

he salad plants.
IT IS TO BE DOUBTED THAT

prescribe lettuce for tuberculosis, as Marat did at a period when he was busying himself with the practice of medicine rather than with the practice of politics, but in Germany today there is a school of thought which holds that it is a good food for cardiac patients; this would be the meanestim again.

e magnesium again. LETTUCE (UNBOLTED) IS HEALTHY ENOUGH, but it is not quite a miracle food. "Lettuce con-tains all the vitamins & all the min-eral salts," I find one dietitian writeral sats, 1 find one dietitian writ-ing, while another says that it is "rich in Vitamins A, B & C." There is little reason for loud hurrahs con cerning Vitamin B or C, for other foods have more of these vitamins

foods have more of these vitamins than lettuce. THE VITAMIN FOR WHICH LETTUCE IS REALLY VALUABLE IS A, far above apples, Brussels sprouts, cabbage, celery, citrus fruits, tomatoes, walnuts & soybeans. But even in this field lettuce breaks no records. There is a higher proportion of Vitamin A in broccoil, apricots, watercress, kale, collard greens & carrots.

cots, water to a control of the cont anced by a tendency to eat larger amounts of cooked lettuce, since cooking greatly reduces its volume

A "PROTECTIVE FOOD" YES A "PROTECTIVE FOOD"; YES; BUT A WONDER-WORKER, NO. Lettuce continues to be used in rus-tic medicine all the same. Maurice Messegue, the most famous of French healers (who is not regarded with great favor by the medical profes-sion), told the weekly Paris Match that nervous persons should eat let-tuce every evening to be sure of gettuce every evening to be sure of get-ting a good night's sleep.

THE IMPORTANCE OF YOUTH THE IMPORTANCE OF YOUTH IN LETTUCE was pointed out for the wild variety by Gibbons. "When the first leaves of ... wild lettuce are only a few inches high," he wrote, "they taste like young leaf lettuce from the garden, only more so. Unfortunately, wild lettuce stays in this eminently edible condition only a week or so."

THE VAST SIZE OF THE UNIT

nia provides 70 percent of all the lettuce consumed throughout the nation militates against the delivery even of mature lettuce in the state of freshness which the French believe it requires. France is only as big as Texas, so it would occur to no one to ship lettuce from one side of the country to the other; it is eaten everywhere not many miles from the place where it was grown.

THE IMPORTANCE OF Vaginal Cleanliness

by Sara Davidito

WE DEFINITELY CANNOT STRESS ENOUGH TO THE ENTIRE FAMILY the importance of effectual fevent PRAYER & CLEANLINESS! Dad has courselled before that women who frequently make love should submerg their bottoms under water daily for about 10 minutes, if po so the water can run up into the so the water can run up into the woman, thus thoroughly cleansing her from within. Access to a swim-ming pool, pond, lake, river or sea is a great help for this in warm weather. A GOOD NATURAL DOUCHE

by emersing in <u>sea water</u> is about the best help in clearing up a both-ersome vaginal discharge or even the best help in clearing up a bothersome variginal discharge or even for cleansing men & women. If you live by an ocean, try as often as possible to "cleanse" your bottom in the water daily; even just sitting in the shallow salty water helps. We have read in several Medical Encyclopedias that using regularly a good natural douching agent such as white vinegar (2 tablespoons to 1 quart water) or a salt water solution can help halt mild infections.

A PORTABLE BIDET IS ONE OF THE MOST HELPFUL AIDES to cleanliness to have in your Home. It fits on the rim of the toilet for washing, It might take some searching to find, but is usually available at pharmacies or houseware stores. Bidets are helpful for washing, it might take some searching to find, but is usually available at pharmacies or houseware stores. Bidets are helpful for washing, the visit of visit and visit of vi

AN INFECTION & he prescribes uppositories, pills or cream, this still may not help to clear proble up if you are continually making

love with others who are troubled with "bugs" as well. If you are aware that you have something, try your best not to spread it to some one else, in or out of the Family! Perhaps you could pair off in couples & keep sex just between

your chosen partners!
WHEN WE'VE CONSULTED
WITH FRIENDLY DOCTORS, they have confirmed this counsel or have confirmed this counsel on deily cleansing of the sexual parts. They have also told us that if a wo-man's discharge does not itch nor smell nor bother them then it is reall nothing to worry about & is actuall common in about three-quarters of

women everywherel
IT IS IMPORTANT TO STRESS
THAT DURING PREGNANCY, you should especially keep clean, aired & free from infections. It is common to have a discharge, but important to clear up bothersome infections. If you have an infection that persists & bothers you, is itchy etc. & is not cleared up after care & prayer, then you must have it cared for continue to pray & keep yourself clean. Otherwise infections may grow into greater problems that could have been avoided.

[Ed.: Some of Dad's counsel is in Ed.: Some of Dad's counsel is in Letter 555:55-78. See Index too!)

When In London Call...! FF'ING AS A SOCIAL ESCORT!-TIPS 'N TESTIMONIES!

From Lamb: England:

From Lamb; England:

Dearest Dad & Maria,
WE FLIPPED WHEN WE READ
YOUR RECENT SUGGESTION to
do escort work in "Going Underground"! Two days earlier we had
seen an ad in a local newspaper asking for girls to do escort work & we
were debating whether! I should
apply or not. So when we received
the mailing, it was a definite confirmation from the Lord! TVJ!
So I phoned the agency & went for
an interview & they took me on
their books. A brother took some
nice portrait photographs of me &
since then things have just snowballed! Hallelujah!
ITS JUST LIKE YOU DESCRIBE
IT, DAD! I normally go out to dinere and/or theses.

IT'S JUST LIKE YOU DESCRIBED IT'S JUST LIKE YOU DESCRIBED IT, DAD! I normally go out to dinner and/or theatre or a nightclub, & ner and/or theatre or a nightclub, & the client will give me a tip & taxi fare home. Nearly always a man will ask me to spend the night with him. I usually tell him that I like to get to know a man better before I get that involved with him. Most men seem to respect this & so when I do get sexually involved, they really appreciate it & know that it is special & not just part of the job. I MAVE BEEN ABLE TO WITNESS TO MANY INFELIENTIAL

I MAVE BEEN ABLE TO WIT-NESS TO MANY INFLUENTIAL MEN. And in this type of work, there is a continual supply of fish. I have men on the line who ask to see me every time they come to London. Also, financially it has been a great blessing. Another ad-vantage is that normally I get home earlier than I would going out reg-ular FF'ing which is a great blessing since I have to get up with my three children in the morning! ONE LESSON I LEARNED is to

children in the morning!

ONE LESSON I LEARNED is to be careful not to by-pass the agency by giving clients my telephone number too soon. At first I did this & the agency got a little annoyed & didn't give me any work for a few days & only started giving me work

again when clients asked for me.
So, I found that if a man really likes
you & wants to see you again, ale
least for the next date it's best to
let him go thru' the agency.
THE TIPS ON BEAUTY ROUTINES IN THE FN have been a
great blessing because usually I have TINES IN THE FN have been a great blessing because usually I have to get ready at very short notice. To start with I did not need a lot of clothes. I just had a nice coat,

handbag & shoes & three dresses.
Just lately I have had gifts of clothing & perfume from clients who want someone to go shopping with them & as a "tip" buy me something too! PTL!

WE ARE SO THANKFUL FOR THIS OPEN DOOR which has enabled me to witness to such an extent which before was not possible. We are learning many valuable lessons all the time & the NRS Letters are a real encouragement & help us to keep pluggin' on! Much love in His Service, Lamb (& Joseph).

Another Side of the Story!

REACTIONS TO AN ARTICLE IN THE FAMILY NEWS — "Problems With an Unloving & Jealous Husband" (Vol. 7, No. 3)

From Alejandro Luchador; Venezuela: Venezuela: Dear Dad & Maria, DAD, I'M SPECIFICALLY WRIT-

ING CONCERNING A LETTER
OR ARTICLE I READ in the Family News Vol. 7, No. 3 from a sister
named Marsena Davidson about her
husband's unfaithfulness to help he
with the children & lack of love for

with the children of lack of love for her.

DAD, MY HEART IS VERY GRIEVED BY THIS ARTICLE as I know some things mentioned to be absolutely untrue about him. This brother has won many disciples that I know of including winning me to return after being kicked out of a Home in 1974 as a problem case, the District Shepherd telling me God was going to deal with me very severely, all of which I took very seriously & suffered much condemnation, not wanting to rejoin another Home.

BUT THIS BROTHER, JACOB BUT THIS BROTHER, JACOB DAVIDSON, TOOK ME IN, persuading me to try again, along with other brothers that none of the other Homes wanted or had the faith for. He would always give them a chance. He had incredible patience & was a real inspiring sample. So for her to insinuate he's

always been negative, distrustful & has an accusing personality, I just can't agree with, especially the way she puts it—"the whole six years"

ne's known him. I HAVEN'T BEEN IN PERSONAL CONTACT WITH HIM for a couple of years, but I just can't buy a com-pletely negative story, all black, no white, about a brother whose been a shepherd in the Family for about

a shepherd in the Family for about 7 or 8 years now. ONE THING I NOTICED ABOUT THEM AS A COUPLE in the year I was working with them in Colorado in 1975 was their difference of per-sonality.—She being a Taurus, a real lawkeeper, for example.—He, his name was Ithle at the time, being a Sound & a real librari & radical & name was Ithiel at the time, being a Scorpio & a real liberal & radical & laughing at her legalism & telling jokes or doing something funny to get everyone to laugh & out of them selves. As a result, even in 1975, there was a noticeable lack of communication & at times a spirit of contention that affected the Home, as a direct result of their own disunity, which has obviously grown worse. This disunity of the two of them & their poor relationship & sample could be the reason for the existing problems in the Home & not all his fault as she is trying to

MTH EVERY COMENT YOU MADE, DAD, as to our liberties in serving the Lord as we desire & with whom & I also believe it may be better for her to escape to where her heart longs to be, with whom she desires as she's obviously overlooked & forgotten the good side he pos-

I FELT IT A TERRIBLE INJUS-TICE that one family member could write such an accusing letter about another without others testifying as another without others testifying as to the letter's authenticity & accuracy. But even if the whole Home signed her letter, I still want to state that there are definite errors in her evaluation of her husband, in indicating that he's been in his present condition all six years she's known him.—Nobody that I knew when working with him a few years ago could have felt the same way.

THANKS FOR LISTENING, DAD. Hist wanted to try & straighten

THANKS FOR LISTENING, DAI I just wanted to try & straighten something out. By the way, my name was Darda Travels at the time knew & worked with them in Colorado. Love, Alejandro Luchador.

From Saffron Davidson; Colorado:

ear Dad & Maria, GBY! THE REASON I'M WRIT-ING THIS LETTER is because I want to tell you about someone the the Lord has used to change my life His name is Jacob Davidson & he is

WHEN I READ THE LETTER, I COULD HARDLY BELIEVE IT WAS ABOUT THE SAME PERSON! WAS ABOUT I'RE SAME PERSON!
I was really shocked that such a different view could be presented of
one person. I fove Jacob very much
& at first thought that I might be
"blinded" by my love, but the Lord
gave me the quote from your Letter: "Love is not blind—it has an extra spiritual eye..."
SO I WAS ENCOURAGED TO

WRITE TO YOU ABOUT WHAT JACOB HAS DONE FOR ME. First of all, he led me to the Family. I had been saved for a long time but never did anything for the Lord until I met Jacob. When I first met him, the thing that impressed me the

him, the thing that impressed me the most was the love & patience that he gave to his children.

AT THE TIME, HE & MARSENA WERE SEPARATED & each had two children. Tamara & Benjamin were very sweet & well-behaved, & I fell in love with them on sight. The Lord gave me a picture of an almost perfect family love & I was immediately drawn to it—& before I had never liked children! WHEN I MOVED INTO THE HOME, MARSENA CAME BACK & I knew that Jacob really loved her very much. It was obvious that there was a little bit of discord, but it never interfered with the work in

BUT I DON'T BELIEVE THAT WAS BECAUSE OF JACOB'S IT WAS BECAUSE OF JACOB'S ATTITUDE, as I have always found him to be positive, loving, encouraging & inspiring. He taught & trained me & I am very grateful for all of the patience that he has had with me. I know he has a lot of faults & there's almost no end to the mistakes that he has made. But "men of force are men of faults".

the mistakes that he has made. But "men of force are men of faults"— & Jacob is certainly a man of force & Jacob is certainly a man of force (& in good company!).

IN SHORT, I DON'T BELIEVE JACOB IS THE "UNLOVING & JEALOUS HUSBAND" that Marsena depicts him to be. He is my husband also, & I've certainly never found him to be jealous but always encouraging both Marsena & me to share with other brothers & fish. And I believe that he has a lot of love to give to anyone who will receive it.

THANK YOU, DAD & MARIA, THANK YOU, DAD & MARIA, FOR LISTENING TO ANOTHER SIDE of the story. I love you both very, very much! God bless & keep you! Thank you for all your love & your letters!

Love, Saffron.

(Editors: Sorry, but all we know is what you write us, & we were only trying to answer her questions.—Be sure you tell the whole story!—Tks. CBV all! GBY all!)

M&M Mail! MONTHLY RECAP OF M&M MAIL MINISTRYI by Keren

 NRS—continued inspiring testi-monies of new "cover jobs" by some members of our Homes; some members of our Homes; many comments on being convicted by "Why the Family?" regarding selfishness, expressing a desire to change; "DTD" testimonies beginning to come in from those who had been exploring this way to will ness, with inspiring accounts of much fruit won & good support as well.—The WWW's are definitely doing just that! PTL!

2. HOMEGOING—A few still loan to make belated visits, but it

2. HOMEGOING—A few still plan to make belated visits, but it seems most who went home during the holidays have now decided "where to" & are either returning to the same fields, pioneering a new field, or remaining home for a con-tinued visit or to IRF. Received many inspiring testimonies of par-ents and/or friends who are helping us in many ways (funds etc.), financing businesses for those very closed countries where this is necessary, providing baby & children's needs etc. Also good testimonies of finding renewed joy in His Service from e who went on to new fields!
"NEB. REV."-These ML reac-

tions have expressed sorrow at Dad's having to go thru' this heartbreak & trust in His promises for a Greater Victory to be won thru' it all, & Victory to be won thru it all, or what a loving & merciful sample M&M have been as well.—Plus expressions of love & prayers for Rachel & that she will obey & return.
4. CHILDREN-Many encourage

4. CHILDREN—Many encourag-ing natural childbirth testimonies. Special thanks still coming in for "Jesus' Babies" & now for "God's Gift Is God's Work", with inspiring testimonies of the beautiful childre of love the Lord's blessed m
