

often are important influential people to the Lord. (Really?) (No. 960)
We feel that with wisdom, caution, & restraint it's possible to do almost all kinds of witnessing here.
We also feel that most of all, that although at the present time is not our greatest witnessing push here, it is our greatest push in getting prepared for the crash with stock piled lit, survival food, gold etc. (?) in the hope that after the war and with a new world govt. then we will have 3 1/2 years of total freedom to (?) saturate this country but until then it's best to go by the laws as much as possible so as not to in any way jeopardize this wonderful refuge for many of our Family. With lots of love, and prayers, Enoch & Lily & family; S.A.
P.S. We feel most of the brethren in Chile would agree with this letter.

Singapore: 'Island Secret' Confirmed!

More info about Singapore & warnings to the Family there!

Dear Dad, Maria & Peter,

9 June, 1981

We Just finished reading "Island Secret" and the Lord really spoke to us through this letter. We just wanted to give you a few details about Singapore that may help you to understand the dream that Lord gave you.

It's really true that Singapore is a very oppressive, dictatorial type of government, but it's done very subtly, like in "The School", No. 165. For example: The government pressures its people to not have more than two children through economic and social means, as the third child doesn't benefit from the government's compensations nor is he able to attend the best schools--no matter what his grades are.

Also, all military-aged Singaporean men cannot leave the country for any length of time without putting up a \$5,000 (or US\$2,500) bond. And because 65% of the Singaporean population is under age 30, they try to keep the youth in subject and fear. A few months ago, the Board of Education villified a 16-year-old boy in the newspaper because he had written something derogatory on the classroom blackboard. It was just a minor thing, but he was expelled from school! The whole thing amounted to character assassination. The poor kid's future is ruined on that small island.

Another example: An opposition leader was taken to court and made to pay a \$810,000 fine because he made a statement against Mr. Lee. But the oppressiveness and repression is very subtle because Singapore depends on Tourism and foreign investment, as they have a free port.

Mr. Lee is a Cambridge graduate in law and a Rhodes Scholar. He is a very tough leader and has really, like your letter said, prospered the island financially. His army is trained by Israelis and he has very tight intelligence like the CIA. The people there really live in fear. I think Singapore has one of the highest suicide rates in the world and crime is on the upsurge--especially robbery of the rich--because wealth is flaunted by the tourists as well as the rich there.

I think I got kicked out of Singapore two or three times for witnessing--especially for the letter "Israel Invaded". Nekoda and I lived there for six months and we got to meet quite a few high officials through invading the churches and working for the People's Association. Such as the Minister of Internal Affairs, The Minister of Education, the Malaysian Ambassador to Singapore and other Parliament members, who were in the Charismatic Movement of the Assemblies of God. And we got to meet one of your old enemies there who grew up with Faithy and Hosea--Irving Rutherford of Teen Challenge--who after sensing that we were with the Family threatened to go to the government to get us kicked out. This is one of the reasons we left Singapore.

We found out that there is a Parliament member who is a high official in the Intelligence. He is in the Charismatic Movement and he hates the Family and all cults.

Just a few months ago, Mr. Lee fired all his economic advisors and financial counsellors and has let the Rothschilds take over all the banking of Singapore (Illuminati & "Satan King of Empires"). This letter ("Island Secret") is a very serious warning from the

sent by the British to Singapore to do psychological warfare during World War II against communism for the Singaporean government. Now he is over editing all publications for the Chamber of Commerce and also goes as an official counsellor on negotiating projects, such as development projects of other islands and business with other governments. We met Josey at a book festival. There are some islands that Malaysia uses for prisons very near Singapore.

Singapore strikes us as a good model of what the Anti-Christ government is going to be like. Singapore is more like America than any country I have been in. I guess it would be like what you said about Israel, and I wouldn't be surprised if our persecution there is Jewish inspired. There are many Americans who live there and are working in the oil fields of Indonesia and Malaysia. It is like the Malta of Asia.

We believe that Singapore would be a dangerous trap to be in during the crash, because it imports all of its food from Malaysia and other countries and doesn't even have an independent water supply. They get their water piped to them through Malaysia. Malaysia's fanatically Muslim, pro-Arab and against Israel and Singapore is pro-American and pro-Israel. Singapore's basically a Chinese city and the Malaysians and Indonesians hate Chinese because they own most of the wealth in these countries.

So we pray that these details be a blessing to you and we are very sorry we did not write more and earlier about the escort work there which has in some cases been fruitful, but we have seen it has had a lot of bad effects on some of the sisters, when not done right according to the letters. And even one of our fish here who met us through the escort service and knows our message complained that some of our girls are just in it for the money. We know that the Devil is always trying to destroy our testimony. But when the enemy shall come like a flood, the spirit of the Lord shall lift up a standard against him.

Your son & daughter,

Cornelius Nekoda
Cornelius & Nekoda Black

P.S.: In this case, I believe the Lord is speaking to some people about leaving Singapore, with the recent persecution. It is probably more like a "Shove Off" case as some people have been there so long and need to get to the mission field.

"If God can't get you to do something for the right reason--your willingness to obey--sometimes He scares you out, or almost forces you out. What was the matter with the Children of Israel down there in Egypt? God hadn't promised them Egypt! He'd promised them Israel! How come they didn't go to Israel? They were only supposed to stay down there during the Seven Year Famine--Jacob and his sons and Joseph! How come they didn't go back to Israel when the seven years was up? They didn't belong in Egypt! It's not so bad to be in Egypt when you have to be. It's that if you stay there too long, Egypt gets into you! They stayed there so long, they got to liking it! Why leave? --Until they became like the Egyptians. They liked the leeks and garlics and fleshpots, and undoubtedly they were probably even beginning to worship their idols. Look how quick they were to turn to idolatry when Moses stayed up on the mountain so long!" --(No. 66:35)

The ability to edit and illustrate the Lord's Words is a real God-given gift, and it is so important to remember that we just can't do it without the Lord's inspiration! Here is a beautiful poem the Lord gave Laban on the subject:

INSPIRATION

Of all the gifts God gives for free,
The greatest (so it seems to me),
Aside from lasting soul-salvation
Is the gift of inspiration.
I've only pity for the soul
That takes the credit, part or whole
For all the good within his mind.
He is not clever, simply blind
If he cannot to some degree
Perceive the truth so plain to see:
That any gift that he has got
Is simply that--a gift--and not

Some special power he alone
Created, and can call his own.
For all good things come from above
They're given from the Lord in love
Yet Artists seem to still resent
The thought that "their" ideas were "sent".
(Usually people blessed from birth
Are much more trouble than they're worth!)
It's a sight quite sad to see,
And legally it's plagiarism!
So here's to those, who when they get
Those good ideas, do not forget
To give the credit to the Lord
And try not for themselves to hoard
All glory for their inspiration.
But call it Godly Revelation.

"Every good gift and every perfect gift is from above, and cometh down from the Father of light." (James 1:17)

Lord. Two weeks before this letter came, Singapore had a bad article on us coming from Japan with all the usual shit that they say about the Family's litnessing and sex beliefs. So now we are pretty hot there.

So we are writing you because we heard that the escort service where the girls have been working was raided two or three times in the last month. This escort service (High Society) is a branch of the same escort service the girls are working for in Thailand. I believe that with this dream the Lord is certainly warning us to be careful there. Some of our girls go to the escort service 4-6 days per week, and from what Nekoda and other sisters have said who also went there, and from what I know from some of the other girls, the way ESing is done in Singapore is not always according to the letters. The girls usually have little choice in whom they go out with, because the agency makes the booking. The girls sometimes negotiate a price for their sexual services right in the ES office. They ask from US\$200-\$400, depending on the size of the fish, or if asked for sex while out on their date, they negotiate a price before having sex with their fish. The girls are actually often afraid to witness for fear it might get back to Nathan, the owner, and lose their job at the ES. The affect that it has had on many girls is that they've gotten to a point where they've taken on a general attitude saying that most of the men they go out with are goats.

Some of the girls have been involved in some dangerous incidents, too. One one occasion, Joanna, who does regular ESing agreed to have sex with a wealthy Arab fish. He must have been demon possessed. He had a peg arm which he tried to force up her vagina, and he treated her very cruelly. She couldn't walk for a few days and didn't recover for a few months. Thank God he didn't kill her.

Another girl, Haresha, who was living with Joanna and also ESed regularly, left Singapore and went to Hong Kong. Shortly after arriving in HK she collapsed and was hospitalized for two months for a severe case of gonorrhea which she contracted while ESing.

Another sister, Shilo, was thrown down a flight of stairs by another guy.

A point we would like to bring out is that in Singapore it is illegal for foreign girls to work in escort, and if they are caught they have to pay a \$2,000 fine and are deported with their passport stamped "Prostitution". In the "Island Secret" dream, the girl was doing something that the government didn't like --like litnessing; (however, we haven't actually openly litnessed for over two years). And we just heard from one of the sisters who came from Singapore that our girls are still in touch with the ES by telephone since it is now too dangerous to go in. The government of Singapore is really against ESing by foreign girls and are very suspicious of single girls coming to Singapore. Often they don't even allow girls to enter the country without a male companion. (This has been the case in the last few months because of the crackdown.)

I think because the cost of living is high in Singapore, we are seeming to fall into the enemy's trap of compromising. You can't get an apartment there for less than \$1200 (Singapore) per month. But we found when living there that FFing is fabulous, and even with ESing they pay \$855 just to take the guy out without extras. But I have heard that Nathan the owner doesn't call you or you don't get dates if you don't do any extras. So it's like a trap, or a prison camp (Singapore, that is) because of the economic pressure.

It's hard to be a missionary there because there is such tight control. We believe the island in the dream was one of the islands of Indonesia that the Singaporean government has a joint venture with for tourism. We met Alex Josey who is a famous author and editor of the Chamber of Commerce of Singapore magazine. He was
