

Sex Works Wonders!

HEART OF MARRIED COUPLE OPENED UP THRU FF-ING!

From Johannes & Milcah;
Europe:

HEY! HERE'S A STORY OF LOVE THAT STARTED 2 YEARS AGO. Milcah & I visited a young man in his village on one of our Mail Ministry follow-up trips, & we got to meet his cousin, her husband, & their 3 children.

THE COUPLE WAS RATHER MATERIALISTIC, with house, cars & things filling up their lives, & after talking with them at first we didn't have much faith for them. But they constantly opened their door to us, & we visited them often during one year and a half without getting further than superficial talk. However, their children got saved a few months later, & we started to read to them from a children's Bible & gave them flannelgraphs, which they loved.

THEN, THE HUSBAND GOT SICK WITH A BOWEL INFECTION ALMOST TO THE POINT OF DEATH, which made them a little more desperate. One day while on a visit I got to show the wife some pics, & the last one was a nude cutie of Milcah. This was the key to make her talk & open up about their secret.

SHE SAID: "I HAVE SOME NUDES ALSO THAT MY HUSBAND HAS TAKEN," & she showed me some photos, porno mag style & rather fleshy. She told me that they had thought of finding a couple to have sexual relations with but never did anything about it, as they didn't like the thought of just anybody. This was really the beginning of a deeper relationship with them. Many couples we have found have the same thoughts but never carry it very far.

ONE DAY SHE DROVE ME HOME, & I TOLD HER THAT I HAD NO-

A nude cutie of Milcah was the key to make a sheepy couple open up.

THING ELSE TO GIVE HER FOR HER HELP THAN JESUS & SHE PRAYED WITH ME TO RECEIVE HIM. The next day she sent a telegram saying her husband was at the hospital again. We all got together instantly in our home & prayed for his healing.

LATER, WE FOUND OUT THAT HE WAS ON THE WAY TO AN EXAMINATION with a doctor & said: "It's not necessary to do more tests, I have no more pains." The doctor then asked him if he believed in miracles & he answered: "I guess so."

HE STAYED AT THE HOSPITAL TWO DAYS FOR OBSERVATION, & WHILE HE WAS THERE I SHARED WITH HIS WIFE who was so love-starved. She told him the next day & he was happy I had taken time with her. PTL! They are so open.

THE NEXT WEEK WE VISITED THEM AT THEIR HOME, & WE BOTH SHARED WITH THEM. That night the husband also prayed to receive Jesus, PTL! Since then they have grown so much, especially her in the beginning as she got more into the Word.

BUT STILL, SO MANY THINGS HAPPENED TO THEM: Two car accidents, both of them & the children sick several

times. In the beginning, we thought it was just an attack from the enemy, but when we got the "Illuminati" letter by John Todd, we remembered that he had had something to do with the Rosicrucians. We got to talk to him about it & shared some quotes from the article. He had at first thought that the organisation was one of well-doers of good deeds.

HOWEVER, WE OPENED THE SCRIPTURES TO HIM about how the Lord is for a spiritual kingdom & not a physical one, & with Milcah's TLC he forgot his admiration of them, saying: "The power of Jesus is better because it is creative." With the Rosicrucians he had witnessed two men bend a tree to the ground by concentrating their thoughts.

ABOUT A WEEK LATER & AFTER SHARING SEVERAL OF DAD'S LETTERS, we read "Daniel 2" together, & they were so convicted to share it with others but didn't feel they had the power. Right then was the time to pray for the Holy Spirit! And they witnessed the same night to their friends about "Daniel 2"! PTL! His Spirit & Words work wonders.

SINCE THEN, 3 OF THEIR RELATIVES HAVE RECEIVED JESUS! Although they have to continue in the system until they are free of their debts, we are visiting them regularly & they us, even tho' the distance is over 80 km; we read & pray with them.

SOMETIMES JUST ONE OF US GOES THERE OVERNIGHT, I STAYED IN A ROOM THEY KEEP FOR US WHENEVER WE COME, as the man of God, Elijah, for whom the wife prepared a room whenever he came. One night the husband came in & said: "My wife is waiting for you; I'll sleep in your bed." And the same is true for Milcah when she is there! PTL! He's made them a real revolutionary couple! TYJ!

Happy Helping Others!

-A new life of loving & giving discovered at 40 years of age!

From Archie, age 47; India:
IT WAS AT AGE 40 THAT I FIRST MET THE FAMILY, then called the Children of God, on the streets of Goa. They were witnessing & listening outside the church grounds & on the streets. One of the brethren, a tall radiantly smiling brother, gave me a Mo Letter. What I noticed was the look of love in his eyes. When I read the Mo Letter I was very inspired, because I knew I had at last found God's truth! (Ha! GAY! TYJ!)

BORN & RAISED IN A MIDDLE CLASS ROMAN CATHOLIC FAMILY, I was always seeking for God in Jesus but never finding Him in my surroundings - only traditions of men, laws, hypocrisy, theories of man, confusion. I was always taught that the ideal to strive for was to live in luxury, wear fancy clothes & eat 4 meals a day & get fat. I ate lots of unclean foods, which looking back now, is why I got so sick & lived a miserable life of continuous ill health.

I HAD TRIED TO FIND GOD by joining Christian voluntary social services, prayer groups etc. I ended up being a group leader. But I still had the question: What is the will of God for me? I had just about given up having become lazy, dumpy, sluggish without vision or inspiration.

SO WHEN I READ MY FIRST MO LETTER handed to me that day at 40 years of age in 1974, God made it clear to me that I should follow these people closer. I knew these loving people would lead me to a kind, loving, truthful God. The more Letters I read, the more I wanted to read, & I was growing spiritually each day like I had never grown before in all my 40 years! (PTL! TYJ!)

ONE DAY THEY ASKED ME TO COME TO ONE OF THEIR HOMES on the beach & spend

Archie Goa - faithful listener, witness & MWM loving minstrel in India!

the night with them. During my stay, they shared everything with me & I was so moved by the sample of their love for me & also amongst themselves. In the morning they asked if I wanted to receive Jesus & the Holy Spirit, so I prayed with them in a child-like manner & asked Jesus to enter my heart & for God to fill me with His Holy Spirit. I was so happy. At last I had found my Jesus, the Spirit of God, His truth & love! (TYJ! Ha! TYJ!)

MY LIFE STARTED CHANGING - I noticed that as I read more of the Bible & the Letters & gained spiritual riches thru' them that I now cared less & less for material things, the riches of this earth. I began to forsake my useless possessions & goods which had occupied so much of my time & thinking, robbing so much of God's precious time.

ONE DAY IN 1975 A BROTHER CAME SEARCHING FOR ME & asked me to come & help the drug addicts at their Home. I volunteered to help them. I

observed the brethren were so kind & humble & taking special care of them & ministering to them spiritually & physically. All I did was pray & depend on the Lord for healing those poor hippies. The next morning the brethren thanked me & my faith in God started getting stronger as the brethren really cared for me like their own. This encouraged me so much in the following weeks that I kept witnessing God's work, giving my life for Jesus & His precious sheep. I am praying for her. (Amen.)

THE NEXT YEAR I FORGOT MY SYSTEM JOB to begin working full-time for the Lord. I am so happy in His Service each day. I am learning & growing in the Spirit & Word & am also beginning to teach others. I now conclude my testimony by thanking Jesus for preserving me from death so many times. I am sure the Lord chose me & kept me alive so many years to serve Him always. And I am sure He will keep me longer to win Him many more souls for His Kingdom. (Amen! KGF!!)

I WANT TO ESPECIALLY ENCOURAGE THE FAITHFUL BRETHREN who served in the harvest field of India sowing those precious seeds of God's truth in many hearts, as I am the result of their sowing which the Lord has now reaped. PTL! Also, if anyone has a burden to further the Lord's Work here in India, love gifts would be greatly appreciated. Please send them to "Archie c/o India CRO" via your Reporting Office. Thanks so much! I love you, Archie (Amen)

A Singing Family's How-To Tips!

WISE COUNSEL GIVEN IN RESPONSE TO PARENTS' PLEA FOR HELP!

From Micah & Deborah;
VSs in Europe:

Dear Matthew & Renée, & our family around the world:

GOING SO MUCH FOR KEEPING GOING FOR HIM with all your precious children! We were really convicted to try & write you after your comment in the FM, as for a long time it had been such a burden of ours also to start using our children in singing more; however, we just didn't know how to begin, it seemed so difficult, & we had exactly the same questions as you have. We hope it can be of some help if we just write down the little things we've experienced.

WE FIRST STARTED GOING OUT WITH OUR KIDS SINGING WHEN THEY WERE STILL VERY SMALL, for example one in the backpack while daddy was playing the guitar (a great crowd stopper!), one holding mommy's hand giving out the lit from about 14 months on, & one in mommy's tummy.

WE PREFERRED TO TAKE THEM OUT WITH US EVEN WHEN THEY WERE TOO SMALL TO SING, as the alternative would have been for mommy to stay home all day struggling with the housework & children by herself, while daddy had to work on supporting us.

IT WAS SO NICE TO DO THINGS TOGETHER AS A FAMILY, & the Lord blessed it greatly in lots of disciples won at that time & plenty of support - just from the one or two hours we were able to go out with the children - giving us enough time afterwards to take care of the house, cooking, schooltime & new babies.

IT WAS INDEED ONE OF THE HAPPIEST & MOST FRUITFUL TIMES in our lives, & even though we had to get these little kids downtown by

"Uniting Kid-Power" helps to inspire them & give them a vision. Here are the children of three different families: Zattu & Morningstar, Josh & Phebe, & Micah & Deborah.

public transportation & change all the diapers upon arriving there, it was really worth it & gave them a good foundation of making them really outgoing.

THIS IS JUST TO SAY THAT IF YOU ONLY HAVE A FEW LITTLE CHILDREN, you don't have to wait for them to be big enough to perform themselves. As long as you have them along & they are clean, dressed nice & happy it already does the trick & God will use "that in thy hand!"

WELL, ONE THING THAT HAVING CHILDREN DID FOR US WAS GIVE US A GOOD PUSH to try out new things - with almost each little one it seemed the Lord wanted us to pioneer something new, always adding a new factor to the equation!

UPON ARRIVING TO ANOTHER CITY, we realised the big vacuum there was for having the children perform: The minute we stopped on a walking street with the kids & opened our guitar case, we already had a huge crowd of curious people around us. IT WAS A BIT OF A LETDOWN

THEN AS OUR CHILDREN WERE OLDER & WILDER & not very disciplined, & just ran around giving out some lit while we played. So we left it at that, just wondering how other people got their kids to sing, but really burdened about it & even praying at New Year's Eve Candlelight Service for a year of greater usefulness with the children.

WELL, THE LORD WAS FAITHFUL, & FIRST OF ALL SENT ALONG FAITHY & JUAN WITH THEIR FILMS. Seeing Kid-Power really in action on the screen convicted us to pieces as did the meeting where our kids were not even able to follow the simplest of motion songs.

SO, THE NEXT DAY WE WENT TO WORK - or rather our dear helper Stefan, whom the Lord had meanwhile sent to us - translating the first motion songs into German & trying to teach our little bundles of energy. GWH!

HERE WE LEARNED ONE OF THE FIRST ESSENTIAL LESSONS: YOU HAVE TO GIVE THEM SOME-

THING TO DO WITH THEIR HANDS; otherwise it is just too hard to stand there in one place & concentrate, & little hands & feet easily trip off & get distracted!

SO, WE STARTED WITH THE SIMPLEST OF MOTION SONGS, especially for the younger children, like "This Little Light of Mine" (pointing with their fingers), "He's Got the whole World" (showing a big round world), & of course "The Time to be Happy" or "The Wise Man Built his House!"

WE FOUND THAT WE HAD TO CUT SIMPLE MOTIONS WITH EVERY SONG THEY SANG as otherwise they would just stand there too stiff & it didn't look so inspiring; also because their little voices were not so trained, the motions would carry at least half of the message.

DADDY OR STEFFAN WOULD ALWAYS SING ALONG & guide them as our oldest(6) has just now gotten to the point where she can sing alone. So this seems to be important, especially for smaller kids.

SO, AFTER THEY KNEW 5 OR 6 SONGS, we took them on the streets. But after a while, to our dismay, their initial inspiration wore off & the children would just stand there with long faces, sometimes refusing to sing at all & not exactly samples of what they were singing.

WE WERE VERY TEMPTED TO DISCIPLINE THEM THERE, as it was such a terrible scene at times, but we decided to instead be more consistent in all areas of their discipline at home & not let them get away with anything there, instead of disciplining them for not wanting to sing.

THAT MADE THEM MORE WILLING & OBEDIENT & COOPERATIVE IN ALL AREAS (thank God for the timely new letter on "Child Psychology"), but still sometimes the real joy of the Lord was missing to make it a good testimony.

"The finished product" at an old folks home: Katrina(6), Valentina(5), & Stephan(3).

SO WE REALISED - & THIS MAYBE WAS THE BIGGEST LESSON IN IT ALL - THAT WE HAD PUSHED THEM TOO HARD & NOT MADE IT FUN FOR THEM. The solution that came to us & really worked was starting to have a real happy time at least once a day, a good old inspiration with the whole home participating and having fun together, thereby making singing a real fun part of our lives.

WE BUILT THEIR LITTLE SONGS INTO THIS INSPIRATION TIME, but it wasn't like strict practising or performing anymore, even tho' we were careful not to let them goof off or play with their toys, but made them participate with their whole hearts, just like everyone else was expected to do.

AFTER THAT IT WAS MUCH EASIER TO TAKE THIS SAME JOY & FUN & TRANSMIT IT ON THE STREETS. We also had them sing more just for the family at our Sunday meetings, & going into old folks homes & hospitals broke their little hearts so they were more able to pour out, seeing the impact they had on the dear

people there. "Without a vision the (little) people perish!"

WHAT FINALLY TURNED THEIR KEY WAS HEARING OTHER FAMILY CHILDREN SING. The first No-family tape was the biggest blessing to us, as the children wanted to hear it every night & know everything about these kids & would sing those songs all day long.

WHEN WE BEGAN, WE FIRST STARTED TEACHING THE OLDEST, MOST TEACHABLE GIRLS (ages 4 & 5 at that time). We knew that their little brother would eventually follow along, as the small ones always like to copy what the big ones do. Well, at 2 1/2 years he was really cute trying to do the motions & even singing little solos, but lately he has become so spacy & dreamy that he just can't keep up with them. He doesn't exactly refuse to sing, but he just will stand there & look at the people.

SO, WE DECIDED TO GET HIM A LITTLE UKULELE INSTEAD, which was just what he needed to inspire him. Even tho' he now stands there between the girls & just holds it,
