STAYING ON THE WATCH!

Dear Dad & Maria.

15/5/82

GBY! ILYSM! I wanted to thank you for such a fantastic timepiece to help me keep up with the times--God's time!! You set us in motion to keep us ticking & in tune & tick-tocking for Him! You're also our dear Grandfather clock faithfully telling the Morld what time it is & your pendulum always swinging back & forth from one extreme to the other keeps us well-balanced & right on time in the right direction.

This watch has 7 main features which will help me to remember 7 things:

1) First it tells me what time it is just like the Lord's Words tell the time to the nations--the signs of the times--to show them what time it is E how late it is! We are the time-keepers of this World E "blessed is he that watcheth" (Rev.16:15) E "Be watchful" (Rev.3:2.)

2) 1st Alarm -- Will wake me up, "For it is time to seek the Lord" (Ho. 10:12) because "knowing the time, that now it is high time to awake out of sleep". (Rom.13:11.)

3) The 2nd Alarm -- To "arise, shine; for thy light is come" (Is.60: 1) because I need to "redeem the time, for the days are evil"! (Ep.5:16.)
4) World Timer --To keep the Worldwide vision as the angel said "the

ime is come for thee to reap; for the harvest of the Earth is ripe." 29 (Rev. 14.15.)

5) Stop Watch -- "Remember how short my time is" (Ps.89:47) because soon "time shall be no longer." (Rev.10:6.) To run as "they which run in a race run all, but one receiveth the prize. So run that ye may obtain. (ICo.9:24.)

6) Timer -- This tells me that "to every thing there is a season, & a ime to every purpose under the heaven" & especially for the times when time was the time of love & Ispread my skirt over thee." (Ez.16:8) & "her breasts shall satsify thee at all times." (Pr.5:19.)

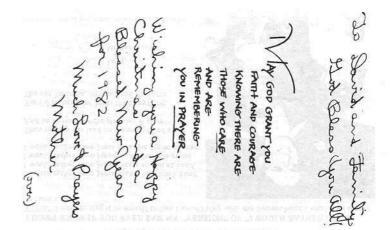

7) Calendar -- To know when it's Sunday E have Communion! "And God blessed the 7th Day, & sanctified it: because that in it He had rested from all His work." (Gen.2:3.) And to take time to be holy--wholly His! TYJ!

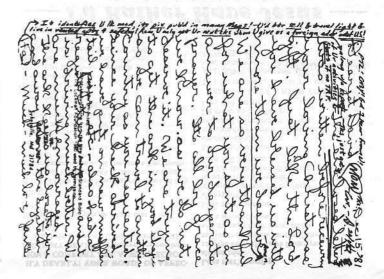

By the way, we started first keeping time in May according to the watch in the Letter "The Watch" & thought it curious how you got us these watches in May too! TYJ!

Thank you for so many blessings & especially for letting me be one of your little time-keepers & trusting me with some of your spiritual watches--your Letters--telling us how late it's getting & some even time-bombs! I love watching & waiting on you & Him! IYJ!

Dearest David and W.S. . (A sad It - from Man Ent') (Raid 20/1/82)

Odd bless you sli. We are in receipt of your latest letter to me and I want to try and give you a brief report of our re-entry into the US and of our activities since arrival. We must say that our return here has been rather uneventful with no problems at any borders. Preise the lords. A minable of our activities since arrival. We were said so fav questions and the customs opened no bargage at the May lord Airport. Maybe it was because we arrived on Sunday evening and the Airport was not so crowded with passengers, and that also was a miracle because the month of August is usually crowded all of the time with tourists and travelers. And Danial Megorch, and children gave us a wars valdomagend we were so thankful to have it and they gave us a place to stay and recuperate. We spent several days there before going on to California where we were to seet the rest offour team. Stephen had preceded us a few souths sailer to the U.S. and was easerly awaiting our arrival when we flew in to California. ((be) and family)

We thought that you would be interested to know that Deborah has been friendly and helpful to us. Bhe took care of Stephen and Adria for a few weeks when they first arrived in the States. We always try to atay on the positive with her and not talk about the family or anything that might upost her. Wha? We would get 2: - Sie 1st 1st 2:

But seems to be growing in the Lord and is very pocupied with her Targe family. They are still struggling financially to keep their heads above water and that seems to be the case of most family seebers here in the US. The biggest shock to us in our returning here has been the price of food and other items but the Lord is taking care of her. She has a nice bose and all of the children are in a Christian achool. The world is taking care of her. She has a nice bose and all of the children are in a Christian achool. The world is taking care of her. She has a nice bose and all of the children are in a Christian achool. The world is taking the family. All of the old-timers that we have set are just trying to find their way and figure out how to survive and take care of their family. Treally wanted to alleviate your fears about our stay here and to reassure you that for the peat five years we have not tried to cause you any problems or to hurt rou or the Lord's work in any way. That is not by desire and I would certainly run the other way if any reporters or Church Systemites wanted se to say anything against the good things that you are doing. We can't influence any family seebors even if we could find these, because they wouldn't listen to us anyway. In fact, we purposely avoid them because we don't want to be hurt by their rejection. We have talked to a few former seebers such as "hery! Ballister whis is a poor divorced vidow with three children and we took her some food. The way were in a comproment

About the Ark

In regard to the Ark, we believe that you will understand that we did not want to bury it in Durone It was really not possible to sake all the repairs that vere very needed such as a new suffer, new samifold, I universal joints, new distributor, new springe, new shocks, new tunneup, stc., there in Prance.

Alk w Even though it was not driven very such, it had been sitting near the salty Sea for a few years and the suffer, tail pips and exhaust system had practically disintegrated and the whole underneath was on the verge of completely runting out. It was in terrible shaps and we had such a hard time setting many paris over there, even spark pluge.

Since we did not want to spend the Winter in the frozen North, we used the Ark as a rient mylicinasa to ship our things and in this way the shipping was well worth the cost.

We left leverything in the Ark and nothing was stolen and the shipping company said everything yould be stolen but the Lord protected it.

Another big victory was that we discovered upon its arrival at the point of debarkation in Antwerp, Belgiem, that we did not have to pay any soney until we had it not the other side at its destination and point of entry. Therefore, after leaving the Ark at the Rarbor, we, John and I, had anough money to by a ticket to fly to Assarica.

Thanks to you and to WS, we had one of our checks that we used for this purpose.

We still need your help and truly thank the Lord for it.

The particular boat that we discovered in Rotterdam just happened to he saing to California and it was large enough to take the Ark. This particular line, wallenius line, Cobelirat Agency, was a Swedish Shipping Company and the chaspest we found with the capacity to take the Ark which was very rare and soot ships weren't big enough and this were sailed once every few sonths so we felt that it was God's provision to find this boat. I might be a the work of the wind of the whole matter was that we had no Problem at customs and wereftling arrived safely. Thank the Lord we were able to prove th
