NO. 569
DFO

If you have to pick up something out of the garbage, you're bound to get your own fingers or your hand dirty, you're bound to get a little bit soiled yourself.

It says in Jude 1:23,
"And others save with fear, pulling them out of the fire; hating even the garment spotted by the flesh!"

think I'm in love!

No more FF-ing?!
stop it all??

You know, he Lord even ave Jesus an opportunity to uit, gave Him i choice in he garden! And ret He deliberately chose to go ihead and suffer or us, think of that!

Father, if it be Thy will, let this cup pass from Me: nevertheless not My will but Thine be done!

(Mt. 26:33)

Ah, I was so tired, I was just ready to give up! But then this verse came to me: "Have ye suffered so many things in vain?" (Gal. 3:4) If we gave it all up it seemed like it would all have been in vain!

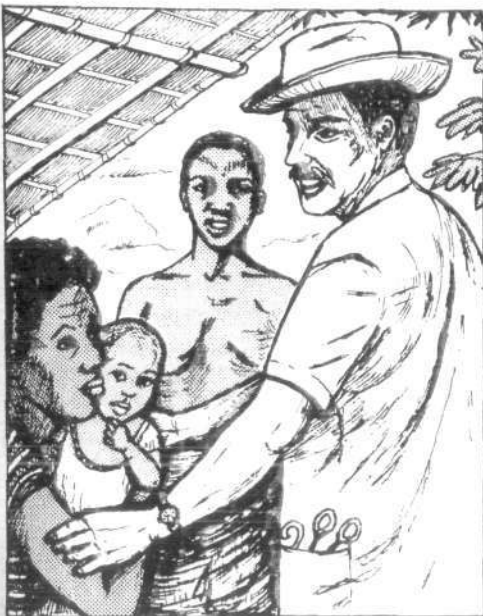

Thank God for that verse -- "Many are the afflictions of the righteous, but the Lord delivereth him out of them all!" (Ps. 34: 19) So we can expect God to deliver us, even though we have suffered for their sins. "For our light affliction is but for a moment." (2 Cor. 4: 17)

Lord, bless and keep our dear girls now and deliver them in Jesus' Name!

Well, obviously by doctor's orders and treatments we're all going to be more or less "on the wagon"-- or off the wagon-- no more waggin' anything for two weeks to a month!

So, if you have any kind of unusual symptoms, stop all lovemaking immediately, report it and go straight to the doctor and get diagnosed and treated-- and pray! And don't make love any more until you've gone back to the doctor and been cleared.

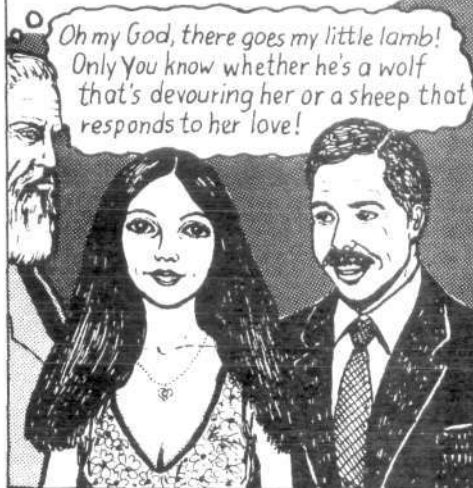

Maria went through that whole stretch before and got nothing! I think the Lord made it especially easy on us then, because pioneering FF-ing then was difficult enough as it was and hard enough on me without her also coming down sick!

Some people are pretty hard to save-- you really risk your life and disease to save them! Well, even the world does this! Doctors do it, scientists do it-- to try to merely save people's bodies!

Missionaries risk disease to save souls. They go down to those hell holes in Africa where diseases of all kinds are rampant; so they risk their lives to save souls! You're doing the same thing!

Do you think the results are worth the price to pay? God bless you girls, you are wonderful! I see you go off with those guys at night and I stay up and pray and pray for you until I know you're home safe and sound.

There's nothing you're going through but what Jesus has gone through already. So we need to ask the Lord to help us to be faithful and not to be ashamed. Maria goes to the doctor every two weeks for a checkup and he marvels at her, "Do you really like to make love? How can you do this?"

Thank You for the marvellous crop you've already reaped, Lord -- We sowed love and we're reaping love. So Lord we ask Thee in Jesus' name to bless and keep them and also deliver us, Lord, from these things. Well now, we men are going to have to die too, because we can't enjoy you while you're sick! We're going to suffer with you and we've got to take the medicine too! So God bless and keep us all -- and continue to make us a blessing to many! --
 Even at the risk of afflictions!
